

The Lynn County News

Volume 38

Tahoka, Lynn County, Texas, Friday, August 15, 1941.

Number 1

New Oil Tests Are Expected

There are indications that a number of oil tests are to be made in Lynn county soon, according to reports floating about.

The derrick has been completed at the No. 1 Dan Auld, situated on the old Lumsden ranch about a mile on this side of the Lynn-Terry county line, and reports Thursday were that the work of drilling was about ready to begin. The Trinity Drilling Co. of Dallas has the drilling contract. This well was actually spudded in just before August 1. Mr. Wilson and other drillers and helpers were here Tuesday seeking rooms and apartments in which to live while the work is being done.

George P. Livermore, Inc., Lubbock, are proceeding with the drilling on No. 1 J. E. Rice situated three miles northeast of New Home, formerly operated by Ross Sport and Uscon Oil Co., but the News was unable to learn Thursday what depth had been reached. Reports a few days ago were that drilling was down to about 4,900 feet. Contract depth is 5,700 feet.

Other leases in the county are being blocked, it is said, with prospect of drilling soon. One of these will be near the west line of the county.

Another block of leases is being shaped up on the Lynn-Borden county line, it is said, practically all of the leases lying in Borden and Garza counties.

The L. C. Harrison No. 1, situated three and a half miles northeast of Lubbock, was being acidized Thursday morning with the hope of making a producer out of this test, at a depth of 4,915 feet. Penetrating saturated lime to a depth of 15 to 17 feet, this well was reported to be producing from one to three barrels per hour without acidization. The result of the acidizing may be known before this paper is off the press Thursday night.

Farmers Busy Poisoning Worms

Farmers have had only a few little skirmishes with their No. 1 enemies, the leaf worms, thus far, but they are desperately making preparation to meet any blitzkrieg that these cotton pests may undertake.

While Hitler has made it difficult for county officials to procure any large quantities of poison with which to fight these cotton-devouring demons, yet they have been able to procure several truck loads since the threat of invasion by the pests first showed up. A truck load of calcium arsenate arrived Wednesday night, but the whole shipment had been sold prior to its arrival, we understand. One truck load had been received and sold previously, while another truck of mixed poisons had been likewise disposed of.

The first army of these pests, however, came in only very limited numbers, it is said, and these are now webbing up preparing to bring forth the second crop of the pests, which some fear will come in much more formidable numbers. This prospect is what is putting fear into the hearts of many of our cotton raisers.

Boll worms have also done some slight damage, but thus far they have not given much concern. The pestiferous cotton flea hopper seems to have hopped from the stage of action.

The cotton plant is still growing fast and loading up rapidly so that if the pests do not become too pestiferous, a bumper cotton crop is in the making. With this handy IF still in our vest pocket, it seems possible for the crop to run anywhere from 80,000 to 80,000 bales, and even 100,000 is mentioned frequently.

The feed crop likewise is fine. It looks as if Mexican cotton pickers and happy times will soon be here again, IF—

INFANT UNDERGOES MAJOR SURGERY

Little Mary Loretta Bean, month old daughter of Mr. and Mrs. John Bean, underwent major surgery for a pyloric obstruction in Plains Hospital in Lubbock Thursday. No word has been received here at press time concerning the baby's condition.

Fighting for a New Europe

THE battle of Europe includes all the Allies—Australia, Belgium, British Commonwealth, Czechoslovakia, Free France, Greece, Luxembourg, the Netherlands, Norway, Poland and Yugoslavia—who fight doggedly on for a new and free world. The Allies are united in their effort, a struggle to which their energies, their lives and their liberties are devoted.

A Czechoslovak gunner crew (at top) and an observation unit are shown in action somewhere in England. Their grim tenseness shows their determination that there will again be a Free Europe.

Boy Scout Drive Will Be Started

A drive will be started at any early date for increased membership and for extended service of the Boy Scout organization in the southeast division of the South Plains Area Council, according to Rollin McCord, chairman. This division includes Lamesa, O'Donnell, Tahoka, Post, Southland, Slaton and Wilson.

"Our boys of today are the hope of perpetuating the American way of living," McCord says. "Recently, President Franklin D. Roosevelt, honorary president of the Boy Scouts of America, declared that our nation has adopted the Boy Scout motto, 'Be Prepared'."

D. W. Gagnat is vice-chairman of the southeast division; W. T. Hanes, leadership training; Wynne Collier, chairman camping and activities; J. D. Jenkins of Slaton, director of finances; and Eddie Warren of Post, director of publicity.

A. R. Milliken is local Scoutmaster and is said to be doing a fine job with the boys.

McCord is also an executive member of the South Plains Area Council, which comprises 20 counties and of which Dr. F. B. Malone of Lubbock is president.

Court Works On Annual Budget

The commissioners court was in session Monday and Tuesday attending to routine matters and working on the budget for the next fiscal year.

All members of the court were present: County Judge Chester Connolly, Mrs. W. O. Henderson, Lonnie Williams, Waldo McLaurin, and Leon Jennings.

Waldo McLaurin declares that the greatest problem facing the court is that of trying to figure out just how to make eight dollars pay a ten-dollar debt, a problem he says he has been trying to solve for eleven years.

Local Girl Gets Washington Job

Miss Adina Morgan, daughter of Mr. and Mrs. J. E. Morgan of the Garnolia community, went to work August 4 in the Munitions Department in Washington, D. C., according to her father.

She had taken a civil service examination several weeks ago for a position as typist and was shortly notified to be in Washington ready for work August 4. The position carries a salary of \$1400 a year.

Miss Morgan graduated from Tahoka High School about four or five years ago, following which she attended a business college in Lubbock. She has had some experience working in gin and cotton offices since.

Men Injured By Falling Timbers At New Building

F. Harvey Davis received a badly fractured leg and five other men miraculously escaped death or serious injury in a freakish accident at the new clinic building under construction here, when the roof trusses fell like a row of dominoes Wednesday afternoon. Damage to the building was slight.

The trusses had been laid across the top of the wall in the customary manner, but had not been braced. Workers were walking back and forth on them carrying lumber, when at a time when three men were on the trusses at once, one of them went into motion, swinging and setting the others in motion until all of them buckled in the center and dominoed.

Everton Nevill, M. V. Hodge and (Continued on Back Page)

Bowling Alleys Opened Here

Mr. and Mrs. A. N. Norman opened up a bowling alley in the Cade building on the south side of the square Wednesday night of this week. The building has been reconstructed inside and out and full-size alleys installed.

Mr. and Mrs. Norman are well known here, he having been employed by an oil company in this county for several months a few years ago, and Mrs. Norman is the former Miss Auda Mae Aycox, who worked for several years in the county clerk's office.

ABILENE STUDENT TO PREACH CHURCH OF CHRIST SUNDAY

Evangelist Garney Atkinson of Portales, New Mexico, at present a ministerial student in Abilene Christian College, will occupy the pulpit at both morning and night services Sunday at the local Church of Christ.

WHEN WILL IT FROST? SOME SAY THEY KNOW! FARMERS WONDER!

The wind blew from the north, or northeast, all day Tuesday, though it might have been from any other direction as far as any one could tell from the temperature Tuesday afternoon.

"The first norther of the season," a young fellow came into the office Tuesday morning and announced. "Sixty days from today we will have our first killing frost," he ventured. That would be October 11.

An hour later another young fellow came in with the same prediction. We expressed some misgivings as to the trustworthiness of the "sign" on which he based his forecast, but he was not impressed. He insisted that the first killing frost would show up along about October 11 or 12.

Still later in the day we met a

Heavy Showers Fell Last Week

Heavy rains fell in some sections of Lynn county last Friday afternoon, mostly in the territory situated east and southeast of Tahoka.

C. B. Evans reports that about 12 sections were covered by the down-pour in the territory situated, roughly, between Redwine and the old South Ward school house. He thinks that about five inches of water fell in part of this territory. An improvised rain gauge on the premises of one of his neighbors is said to have registered almost that much. A terrific hail badly damaged the crops on two farms in that vicinity.

J. H. Kuykendall of the Edith community also reports a heavy rain at his place. Grassland and vicinity also received a heavy downpour with considerable hail on some farms.

The rainfall in Tahoka amounted to only .27 of an inch.

New Manager For Bottling Plant

T. G. Clark and family and C. S. Suggs and family of Ponca City, Oklahoma, arrived Monday to make their home in Tahoka.

Mr. Clark will be manager of the Orange Crush Bottling plant here. This plant is the property of W. E. "Happy" Smith, and Mr. Smith with the aid of his brother, Newton, has been managing the business himself up to this time.

The business has grown to such proportions and requires so much of Mr. Smith's time, however, that it became necessary for him to employ a business manager. Mr. Clark has had much experience in the bottling works business and he comes highly recommended for his business ability and character.

Mr. Suggs will possibly be employed at the plant.

Tahoka Schools To Open September 1

Rotary Governor, Ladies Will Be Guests Thursday

Announcement was made at the Rotary luncheon Thursday that District Governor Cal Farley of Amarillo will officially visit the Tahoka Club next Thursday. He will be accompanied by his daughter "Gene" and Vesta O'Dell, two talented entertainers, and Governor Cal and the two young ladies will give the program for the day.

Upon the suggestion of the district governor, the club voted to invite the Rotary Anns to be present.

Directors and all committee chairmen are urgently requested to meet with the Governor at the Legion Hall at 11 a. m. Thursday.

Following a highly appreciated quartet given by the four past presidents of the Tahoka Club, the program Thursday consisted chiefly of a talk by Fire Chief W. T. Bovell. He discussed Fire Hazards and Fire Prevention, giving many valuable suggestions for the people of Tahoka.

A. N. Norman, a new citizen, was elected to membership in the club, bringing the club roll to 44.

Retail Merchants Plan Institute

The Tahoka Retail Merchant's Association now has credit ratings on 2,000 Lynn county citizens, it was revealed at a meeting of the board of directors of the organization Tuesday night.

Merchants are using the service offered by the organization more and more, Mrs. Ellis, the secretary, says, and much progress has been made in the securing payment of bills more promptly.

The Retail Merchants is considering the sponsorship of a Business Institute for Tahoka some time in September, at which lectures will be given by a specialist along such lines as salesmanship, credit, personality, business methods, civic work, etc.

A. H. McGonagill is the new president of the association, and new directors are W. C. Wharton, W. T. Kidwell, and Dr. K. R. Durham.

4-H Club Boys Attend Meeting

County Agent Don Turner and three Lynn county 4-H club boys, Marvin Smith of Joe Stokes and Murray Jennings and Dan Burkhalter of New Home spent Monday, Tuesday and Wednesday of this week at Ceta Canyon attending a district meet of the 4-H club boys for district No. 2, composed of twenty South Plains and adjacent counties. About three hundred persons were in attendance.

Many instructive talks were given the boys on farming and other 4-H club activities by a number of experts in their respective lines from the Extension Department of the Texas A. & M. college. The boys were divided up into many sections, and something interesting was going on in every section.

Lynn County Boys Enlist In Army

Charles A. White of Tahoka was enlisted Monday for the Regular Army Air Corps and assigned to Jefferson Barracks, Missouri, according to information furnished the News by Sergeant Cyril A. Barnes of the U. S. Army Recruiting Station, Lubbock.

White, better known here as Alvin White, has been a resident of Tahoka all of his life and has worked for various concerns here, including the News office.

Embry C. Townzen of O'Donnell, Rt. 1, was also enlisted Monday for the Regular Army, unassigned, and was sent to Fort Bliss at El Paso, according to Sgt. Barnes.

Board Completes Plans For Year

As in the past, Tahoka schools will open the first Monday in September, although the first Monday this year comes on September 1. The Tahoka school board announced Wednesday following its regular meeting Tuesday night.

However, Seniors and Juniors will be enrolled Friday, August 29, and all school buses will make their initial runs on that day. The Seniors will be enrolled in the morning and Juniors in the afternoon, according to Supt. W. T. Hanes.

The board also announced that no unders will be taken this year, unless conditions later permit the taking of these students. It also voted to require all tuition students to pay their tuition at least one month in advance to Carl Griffing, secretary of the district.

The board also completed work on the budget for the year.

Three Lakes will transfer all its students here as it has for the past several years.

The board accepted the resignation of Mrs. Elizabeth McEwin, who has been elected to a position in Amarillo High School. The position will not be filled now, the board has decided, due to the fact that a former teacher may return to the local school.

Supt. Hanes states that the coming school year promises to be one of the best, and everything is about in readiness for the opening.

Coach Leo Jackson has been here since August 1, and he states that prospects are fair for a good football team.

Band practices have been held on Tuesday nights through much of the summer by Director John Hamblen.

Several of the teachers have been attending school this summer, while others have spent the summer at their homes.

Twenty Youths To Get NYA Jobs

In pursuance of instructions received from J. C. Kellam, state administrator for the NYA, County Supt. Lenore M. Tunnell recently appointed the County Placement committee, and this committee met in the court house Wednesday morning and made apportionment of the jobs allotted to Lynn county among the various high schools.

The county superintendent is named by the state administrator as chairman of the county placement committee. Other members appointed by her are: Supt. S. G. Anthony of Wilson, Supt. S. F. Johnson of O'Donnell, Supt. W. T. Hanes of Tahoka, Supt. Durwood Dodson of Draw, and Supt. Tolbert Fanning of New Home.

Mr. Kellam had notified Mrs. Tunnell that the allotment of jobs to Lynn county for the current year is 19 for white schools and one for colored schools, there being only a few negroes in the county.

The committee in session here Wednesday apportioned these as follows: 1; T-Bar, 1; Wells, 1; O'Donnell, 4.

No. 1 (Draw) 2; Tahoka, 5 white and one colored; Rural High No. 2 (New Home), 2; Grassland 1; New Lynn, 1; T-Bar, 1; Wells, 1.

Principal of the school at New Lynn is E. H. Schreiber; at T-Bar, Virgil Carter; at Wells, Hamilton still. Principal of the Grassland school has not yet been elected.

The twenty jobs assigned to Lynn county this year represents quite a reduction from the number assigned to the county last year, which was 30, according to Mrs. Tunnell.

HAS UNDULANT FEVER

Jake Warnick, son-in-law of Mr. and Mrs. George Small, is reported ill at his home in Lubbock with the undulant fever. Though not in bed, he is not able to work. The disease is contracted through milk from cows infected with Bang's disease, a disease that is rapidly spreading among cows of the South Plains.

ODDS & ENDS

by Eec Eya,
the Elder

It is not well for any of us to dwell too much on the past. We fare better when we keep our faces to the future. Nevertheless, it is not amiss for us to take the backward look occasionally. It helps and heartens us to think of the delightful moments we have had, the kind things that have been done for us, and the friendships that have brightened our lives. Even many of the sad things of the past have hallowed and sweetened our lives, and it helps us to be sympathetic and humble and helpful sometimes to call them up out of the deep recesses of our memory just for the restraining and sobering effect they have.

We have long thought that this little poem by the Irish poet, Thomas Moore, is one of the most beautiful in the English language. It must have been written out of a lonely heart.

Of, in the stilly night,
Ere Slumber's chain has bound me,
Fond Memory brings the light
Of other days around me:

The smiles, the tears,
Of boyhood's years,
The words of love then spoken;
The eyes that shone
Now dimmed and gone,
The cheerful hearts now broken
Thus, in the stilly night,
Ere Slumber's chain hath bound me,
Sad Memory brings the light
Of other days around me.

When I remember all
The friends, so linked together,
I've seen around me fall
Like leaves in wintry weather,
I feel like one
Who treads alone
Some banquet hall deserted,
Whose lights are fled,
Whose garlands dead,
And all but he departed!
Thus in the stilly night,
Ere Slumber's chain has bound me,
Sad Memory brings the light
Of other days around me.

Roger Q. Mills, congressman from the old Corsicana district and one of the Democratic leaders away back in the eighties, once quoted a few lines from this poem with dramatic effect in a speech which he made in the House of Representatives.

Leading the fight for the tariff bill which bore his name, which passed the House but was defeated in the Senate, either when it met defeat or at some stage of the fight when he felt that defeat was impending, he made a notable speech, as the story was told to us long ago, in which he pathetically intoned these lines:

I feel like one who treads alone
Some banquet hall deserted,
Whose lights are fled,
Whose garlands dead,
And all but he departed.

Mills, by the way, was one of the powerful men that Texas has sent to our National legislative halls. He served in the lower house of congress for many years, rising to the most important position except one in that body, chairman of the Ways and Means committee. At one time he came very near being elected Speaker of the House but was defeated by Representative Crisp of Georgia. That was during the Cleveland regime.

It was while he was chairman of the Ways and Means committee that the Mills Bill, embodying drastic revisions of the tariff, was reported out of the committee and successfully pushed through the House, Mills leading the fight for the measure.

In 1892, Mills was promoted from the House to the Senate, serving out Reagan's unexpired term and one full term of his own.

But powerful as he was in state and national politics, Mills encountered bitter opposition. In 1887, there was a state prohibition election. Mills was one of the leaders of the anti forces, and nearly all the politicians lined up on the wet side. The dry side was led largely by the preachers, of three or four of the leading denominations of the state. Mills had a debate during the campaign with Dr. B. H. Carroll, pastor of the First Baptist Church of Waco, an able and powerful advocate of prohibition. In the discussion, Mills used some very intemperate and abusive language concerning Dr. Carroll and the ministry in general, and he never fully recovered, politically, from the effects of this unprovoked and inexcusable attack. It never resulted in his defeat but it greatly crippled his influence in the politics of the state.

Furthermore, the tariff bill which he wrote, or dictated, and which he steered through the House, made him many enemies in Texas. Among other things, it placed wool on the free list. This was bitterly opposed by the sheep men of the state, and they were many and powerful politically at that time.

But, when Mills went out of office in 1899, it could be truly said of him that for a quarter of a century he

had been a powerful figure in the Congress of the United States and had played a part which few Texans have equalled even to this day.

But what about the man who wrote this little poem, "Of in the Stilly Night?"

As stated, he was an Irishman; and the Irish are usually full of fun and fight. They are also a sentimental people—just think of the Irish love lyrics, and the tender Irish songs about Home and Mother.

Thomas Moore was born in Dublin in 1779 and he died in his native land in 1852. Before his literary work began to bring him any considerable returns, he got appointed to a position as registrar of the British admiralty court in Bermuda. But that job was too prosaic and monotonous to suit him, and so he hired a deputy to do the work and after visiting America and Canada he returned to Ireland.

He had also undertaken at one time to study law, after finishing his academic education, but Blackstone was too dry and tedious—it didn't appeal to him. So he escaped the stigma of having been a lawyer.

Being an Irishman, he did write much humorous poetry; but he was at his best in writing sentimental "pieces", such as the poem printed at the head of this column, "The Last Rose of Summer," and others of almost equal beauty.

When any of our budding young local poets can produce anything that will compare favorably with these productions, we will publish the same with the greatest of pleasure—and promise to get their names "writ high" in the Hall of Fame.

EX-RESIDENTS OF EASTLAND
TO HAVE REUNION

Former residents of Eastland county will have their annual reunion in Mackenzie State Park in Lubbock on Sunday, August 24th, according to W. S. Anglin, secretary of the association.

All former residents are invited to come, bring a lunch, and join in the spread at the noon hour.

You get more nearly complete worm removal with Dr. Salsbury's ROTA-CAPS. No sickening effects, no loss in egg production, no setback in growth.

WYNNE COLLIER, Druggist

SNOWDENS ATTEND
COUNTY REUNIONS

It is not often that a husband and his wife attend two separate county reunions on the same day, but such was the experience of Mr. and Mrs. H. M. Snowden last Sunday afternoon.

While Mr. Snowden was attending the Knox county reunion in Mackenzie State Park in Lubbock, Mrs. Snowden was attending the Blanco county reunion in the same park.

Mr. Snowden had not resided in Knox county himself but he has a number of relatives in this section of the state who had resided in that county, and he attended that reunion in order to visit with them.

On the other hand, Mrs. Snowden had taught for a number of years in Blanco county and naturally she attended the reunion of the Blancoites, who happened to be holding their reunion in the same park on the same day.

Mr. and Mrs. Snowden were accompanied home by his daughter, Julia, who had been visiting relatives at Littlefield.

BORDER PATROLMEN
ARE NEEDED

The United States Civil Service Commission has announced an examination for Border Patrolman, \$2,000.00 a year, for employment in the Border Patrol, Department of Justice.

Applications must be on file with the Commission's Washington office not later than September 11.

Applicants must show that they have had certain experience requiring a regular program of arduous physical activity or training, such as that required of park rangers, forest rangers, members of survey parties, lifeguards, and linemen for utility companies.

Further information may be obtained at the post office in this city.

Mr. and Mrs. Ralph Bailey returned to Brownfield Monday after a visit here with Mrs. Baileys parents, Mr. and Mrs. Sam Sanford. Mrs. Bailey, the former Virginia Sanford, had been visiting here several weeks.

Under the 1940 conservation materials program of the AAA, Texas farmers received 228 tons of superphosphate and 60,000 pounds of Austrian Winter peas.

Mr. and Mrs. Melvin Rathel returned Monday from Crosbyton, where they had spent two weeks directing the music in a revival conducted at the Baptist Church there. They report fourteen professions of faith with a total of sixteen additions to the church during the revival.

STATED MEETINGS of
Tahoka Lodge No. 1041
the first Tuesday night
in each month at 8:30
Members urged to at-
tend. Visitors welcome.

JACK WELCH, W. M.
H. L. RODDY, Secretary.

DARING DESTRUCTION TEST
in Fearful Death Valley

Gives New oil a Plain Record for Long-Lasting Protection

Why 5-Quart fill—none added—
lasted 13,398 miles... Certified

When you're wringing wet these days, just think of Death Valley. It holds the official U.S. record of 134° hot. Wild animals there rarely come out in the heat of day. You'll admit that's a hotspot for testing any motor oil. And that's exactly where 6 representative oils got a fair trial for their lives—to give you up-to-date certified mileage figures.

NEW CONOCO Nth MOTOR OIL
gave more than Twice the mileage
averaged by all others tested

This Death Valley mileage record is today making sales records for Conoco Nth oil—popular-priced. And here's how this oil was proved for you in advance—by a daring Destruction Test:

6 identical new stock coupes were broken in alike. Test officials had checked engines, part by part, insuring uniformity. The Referee bought 5 big-name oils at retail. The other oil was the same new Conoco Nth that you can buy today.

The Referee put one strict 5-quart fill in each engine; locked it up tight. Never a drop could be added.

All cars ran 57 miles an hour—in the same Death Valley desert—on the same sizzling days. Drivers switched around to even up human factors. Impartial observers eyed every move—every mile.

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. M. Jackson
Consulting Engineer, who during Academic year is
Professor of Automotive Engineering, Purdue University

The finish came only as one brand of oil after another quit work entirely, causing final engine destruction. And Conoco Nth oil far outlasted all others; outlasted the runner-up by 5,683 miles; outlasted another by all of 8,268 miles. Conoco Nth outlasted the average of the 5 others tested by 7,067 miles... Certified.

Man-Made new Economy aid
in Conoco Nth

In this patented oil there's an extra life-giver. Man-made. It's full name is Thialene inhibitor—an inhibitor being something that does the job of keeping a thing in check. Now your engine's normal explosions can't help causing foul leftovers. These must be properly kept in check to keep them from making your oil "fester," get weak and pass out. But you know how Conoco Nth oil "beat the rap" in Death Valley. It stood up better... by as much as 161%. Of course you're not in the business of test-driving, doing all the most furious things. You just want to run every fill right up to as many miles as qualified authorities say is safe for your car. And

without trying to "stretch it out," you still ought to save plenty on Conoco Nth. For you can figure by the record that Conoco Nth can take you a whole of a way between quarts. Change today at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

AND CONOCO Nth OIL
OIL-PLATES YOUR ENGINE!

Long the keystone of Conoco success, OIL-PLATING comes from another great Conoco synthetic... man-made under the famed Germ Processed oil patent. By magnet-like action, OIL-PLATING is bonded to inner engine parts. Then it can't all drain down—not even overnight—not while you use Conoco Nth. So OIL-PLATING is on guard against wear in advance!... and helps mileage, as it did in Death Valley! An OIL-PLATED engine is one more economy you get from a change to popular-priced new Conoco Nth oil.

CONOCO Nth MOTOR OIL

WINSTON C. WHARTON

LOCAL REPRESENTATIVE

Annual Meeting Farm Loan Body

September 6th has been set as the date for the annual meeting of members of the Tahoka National Farm Loan Association, President R. C. Wood, announced following a meeting of the association directors in the farm loan office at Tahoka.

The annual get-together this year is expected to be a large and important conference of land owners of Lynn and Borden counties, Mr. Wood said. The meeting will be held at the district court room starting at 2:30 p. m. Details will be announced later.

Committees in charge are planning to make this year's meeting one of the best in the history of the association, which began making Federal Land Bank loans in Lynn county in 1917, President Wood said.

Deen Nowlin, secretary-treasurer, heads the program committee. The board of directors will serve as the attendance committee, including R. C. Wood, Grover Stewart, Oscar Roberts, Jack Edwards, and Carl Griffling.

Misses Patsy and Marjorie Sessions expect to return to their home at Vernon Sunday after a two weeks' visit with their aunt, Mrs. G. W. McKinnon here and with other relatives in Lubbock.

Mr. and Mrs. Elmore Boydston and Mr. and Mrs. John R. Hudman left last Sunday for a two weeks' trip to Houston, New Orleans, and the state of Florida.

R. K. Green Goes To Crosbyton High

R. K. Green, superintendent of Draw-Redwine Rural High School for several years, has been elected principal of Crosbyton High School.

Green was instrumental in the formation of the Draw-Redwine district, served a year as county director of the Interscholastic League, and was well known in all school circles of this section.

Many friends here wish Mr. Green and his wife success and happiness in their new work.

Congratulations

To Mr. and Mrs. Walter L. Sessions on the birth of a daughter weighing 6½ pounds, last Sunday morning at 7:15 o'clock. The little lady has been named Bettye Ross.

To Mr. and Mrs. Lewis Ward on the birth of a son, who has been christened Lewis Lawson, on August 3 in the Santa Rosa Hospital, San Antonio. Mrs. Ward is the former Naomi Lawson of Grassland.

To Mr. and Mrs. J. T. Cheatham on the birth of a baby girl by Caesarean section in a Lamesa hospital Tuesday night.

To Mr. and Mrs. Robert Poer of Route 3 on the birth of a son on Friday, August 9, at the family home.

Meeting Called Of Football Boys

Coach Leo Jackson Thursday issued a call for all boys interested in playing football this fall to meet him in the school gymnasium next Monday night at 8 p. m.

Boys should bring their trunks and gym shoes, as basketball and other gym games will be played, but no football workouts will be held until after September 1st.

Mr. and Mrs. Albert Liles of Omaha, Morris county, were guests Wednesday night and Thursday morning in the home of Mr. and Mrs. W. O. Robertson, the two families having been very intimate friends for many years. The Liles were on a vacation trip which had taken them over a large part of the state.

Billy Hill, former Linotype operator in the News office, has accepted a position with the Denver City Press and has been at work there the past two weeks. The Press and the Yonkum County Review published at Plains, are now owned by Durwood McGinty, brother of Fred McGinty of this city.

County Agents At Lamesa Meeting

County Agents Don Turner and Miss Maurine McNatt were in Lamesa Saturday attending an all day meeting for agents, and-use planning committees and other farm people.

K. J. Edwards and Miss Lida Cooper, district agents, were in charge of the program, which featured several specialists of the Extension Service in demonstrations on food and feed production and preservation.

Mr. and Mrs. Pete Hegi are spending their vacation with Mrs. Hegi's parents at Goodrich, Kansas. They left here the first of last week and are expected to be back in Tahoka next Monday. It is said that they went up partly in order that John Jacob might get acquainted with his grand-ma, whom he had never seen.

J. B. Nance returned last Friday from a business trip which took him to Parsons, Kansas, Hollis, Bartlesville, Salinas, and Oklahoma City, Oklahoma, and Fort Smith, Arkansas. Mr. Nance reports good crops in many sections but few as promising as those of the South Plains.

Mrs. A. W. Edwards and daughter, Mrs. Roy Dew, of St. Petersburg, Florida, and the latter's daughter, Miss Norma Jean, who had been visiting relatives, including the A. J. Edwards family here for the past month, left for Mrs. Edwards' home in Waco Thursday.

Often there are twins in the animal kingdom, but Mrs. Scott Poe sent to the News office Wednesday a strange freak of nature in the shape of twin muskmellons. The two had grown up together within a single rind or skin, and they were delicious.

Mr. and Mrs. A. F. Harkins of Wingate and Mr. and Mrs. Roy D. Clift of Corpus Christi have returned to their homes after spending several days here with their father and sister, W. W. Simpson and Mrs. Scott Poe.

C. A. Walters of Houston and his mother, Mrs. F. E. Walters of Brownfield, spent Tuesday and Wednesday here visiting Mrs. Belton Howell and Mrs. Oran Short, who are his sisters.

Among others who have sent garden specimens to the News for the past week was a big consignment of peas by Mrs. J. L. Evans. As long as the peas continue to thrive the editor will manage to stay alive.

Vernal Hughes of Albuquerque, New Mexico, is here visiting Mrs. R. C. Forrester and Clay Hughes and other relatives. His father, R. E. Hughes left last week after a visit of several days here.

Mr. and Mrs. Sam Price have returned recently from California, where Sam was employed for several months in an airplane factory and as an officer.

Mrs. Lane Moreland of Ballinger came up last week end to visit friends. Her daughter, Sheila Vance, has been here the past two weeks as a guest in the J. K. Applewhite home, leaving for home today.

W. H. Fulkerson and family returned Tuesday night from a ten days trip to Los Angeles and other points in California.

Tobe Kennedy and family returned Sunday night from a fifteen-day visit with his parents and other relatives at Tishomingo, Mississippi.

Clay Bennett took his mother, Mrs. Jack Corley, to Lockney Thursday to visit an aged aunt of Mrs. Corley's.

Mr. and Mrs. F. E. Calvery left Tuesday for a visit with his mother in Waco.

Agent Suggests Measures For Worm Control

By Donald Turner,
Lynn County Agent

Calcium arsenate is recommended for the control of the cotton leafworm applied at the rate of 3 to 5 pounds per acre, depending on the degree of infestation and the size of the cotton. This material may be either dusted or sprayed. If a spray is used, three pounds should be mixed with 50 gallons of water. However, due to the shortage of material, it is practically impossible to obtain calcium arsenate at this time. Therefore, a substitute may be used.

Lead arsenate may also be used in controlling leafworm, applied at the same rate per acre as calcium arsenate, though it kills much slower. This material also may be dusted or sprayed. If dusted the dusting qualities may be improved by adding lime or talc. If this material is to be used as a spray, two pounds should be mixed with 50 gallons of water.

Paris Green may also be used. As a dust it should be mixed with flour to increase adherence and with hydrated lime to offset the danger of burning in the following proportions: 1 part Paris Green, 1 part flour, 5 parts hydrated lime.

If Paris Green is used as a spray, one-half pound should be mixed with two pounds of hydrated lime in 50 gallons of water. Paris Green mixtures should be thoroughly agitated.

The application of white arsenic is almost sure to seriously damage the plant and is not recommended unless the person is experienced in using it. However, farmers have learned by experience that a very weak solution of this and applied as a very fine mist will destroy leafworms with a minimum damage to the cotton crop.

The following directions are not to be understood as advising the use of the material, but only as passing on a formula which others have found useful.

In making the mixture, one pound of white arsenic is placed in a kettle with the addition of two pounds of sal soda and four gallons water. This mixture is boiled for 30 minutes, or until the liquid is clear and all crystals dissolved. Since some of the water will boil away add enough cold water to make exactly four gallons. This is the stock solution and is too strong to apply to plants.

When ready to spray, two quarts of this stock solution should be added to 50 gallons of water and ap-

SOUTHERN SAM SAYS

De way things is, hit look lak somebody's tuk de Golden Rule off de gold standard.

SMITH HAVE DELIGHTFUL VISIT IN CALIFORNIA

Mr. and Mrs. Verner Smith and Mr. and Mrs. C. T. Oliver returned Friday afternoon from a ten days trip to San Diego, California, where they visited Mr. and Mrs. John Brock and two babies, also Charles Oliver, who is expected there. Mrs. Brock was formerly Jeanette Oliver and was reared here.

Mrs. Smith says that they not only had a wonderful visit with kinfolks but a delightful time enjoying the sights. The orange orchards, the lemons, the date palms, and other fruits were very enticing and the flowers were never more beautiful, she said. They visited the docks and watched the big ships move in and out, saw San Diego's wonderful zoo, one of the best in the world, and went to the top of the mountain on which many people of San Diego and the country round about hold their annual sunrise Easter services. The mountains which they crossed, she says, rise a mile higher than the level of Imperial Valley.

On the way home they spent one night with friends in El Paso and stopped over in Odessa for an hour or two to visit with Mr. and Mrs. Taylor White.

Mr. and Mrs. J. H. McNeely made a trip down state last week, visiting at Brownwood, Austin, San Antonio, and finally Quemado in the Rio Grande Valley. They visited Camp Bowie at Brownwood, and Fort Sam Houston and Kelly Field at San Antonio, and Mr. McNeely came back convinced that Uncle Sam can whip the world. They also visited the parks, the Alamo, and other places of interest in San Antonio, and the State Capitol in Austin, as well as the great Buchanan Dam near Burnet.

C. T. and Joe Tankersley returned Saturday from a trip to Quemado and other points in New Mexico. They were accompanied home by Claude Leach, a relative of Mrs. Tankersley, who resides there. While out in that section they visited Henry McDaniel at Alpine, Arizona, and reported that he seems to be enjoying life to the limit.

Mr. and Mrs. A. L. Smith and daughter, Wanda Faye, left Saturday night for a short vacation in New Mexico.

W. T. Hanes, Jack Welch, and W. T. Bovell attended the weekly meeting of the O'Donnell Rotary Club Tuesday at noon.

plied with a sprayer capable of producing a very fine mist. The sprayer should be operated rapidly so that the solution does not gather in drops.

This formula for the use of white arsenic is given with a warning and without assuming any responsibility for results. It should be thoroughly understood that the cotton grower is using this material at his own risk.

Farm Bureau Man Urges Organization

Lubbock, Aug. 13.—Expressing the belief that "the more government control you have, the less self respect you have on the part of the people," E. R. Alexander, general manager of the Texas Farm Bureau, urged general and full farmer cooperation with the Bureau at a meeting of members of District 2 of the Bureau here.

"If farmers themselves do not on their own responsibility set up a farm organization, run by farmers, there will be one set up by the government," Alexander said.

Invitation was extended by Plainview and Hale county for the next district convention, to be held about the middle of November. Exact date is to be set by W. R. Tilson, district director, and will precede the annual state meeting in December.

Group meetings of county delegations discussed plans for membership work, and a series of county meetings was arranged. Delegations answered the roll call from the following counties: Bailey, Terry, Hockley, Hale, Lamb, Swisher, Lynn, Farmer, Dickens, Motley, Floyd, Castro, Briscoe, Crosby and Garza.

Mr. and Mrs. Harley Henderson and children, Roy Howard of Crosbyton, Margaret Bradley of Lubbock, and Jasper Penn Howard of Merkel spent last week end down on the Concho fishing.

An average of 42 cents of each dollar spent for food by the American housewife in 1940 went to the farmer. The pro rata was 41 cents in 1939 and 53 cents in 1913.

Draw-Redwine To Present Exhibit

The Home Demonstration Clubs of Lynn county, along with hundreds of other similar clubs in Texas, have been studying and practicing the use of better food standards. Last Saturday the Draw Club gave a practical demonstration of this subject with a table set with suitable foods for a child of four. The three meals contained all necessary foods for energy, growth and development together with the all-important vitamins.

This attractive exhibit was viewed by many people in the A. L. Smith Food Store.

T. E. L. CLASS MEETING

Mrs. J. L. Reese was hostess when the T. E. L. Class of the First Baptist Church met for their monthly business and social meeting Tuesday afternoon.

Mrs. Alex Riddle brought a wonderful devotional lesson on Faith. Following the business session a social hour was enjoyed, during which a refreshment plate was served to eleven members and to one visitor.

The next meeting will be in the home of Mrs. H. M. Snowden.

Miss Joe Bell Milliken accompanied friends to Ruidoso this week for a vacation trip.

McCORDS RETURN FROM NEW HAMPSHIRE VISIT

District Attorney Rollin McCord and Mrs. McCord arrived back home last Friday from a visit with Mrs. McCord's mother and other relatives at Newmarket, New Hampshire. Mrs. McCord had been there about a month while Mr. McCord went up two weeks later.

On the return trip they stopped over in New York City two days and in Washington for a brief half-day Sunday visit.

Mr. McCord declares that industry and business are humming with activity in that part of the country and everybody predicts that the United States will soon be engaged in a real shooting war with the dictator nations. They think that our entry is being delayed mainly in order that we may become better prepared before entering.

HAMBLIN'S MOTHER ILL

Mr. and Mrs. John Hamblin and children were called to Abilene last week by the critical illness of Mr. Hamblin's mother. She lingered near death for several days, but has now reported to be greatly improved though not entirely out of danger. The father of the local band director is pastor of the Methodist church in Abilene.

REVIVAL BEGINS TONIGHT AT BETHEL CHURCH

Lonnie Williams asks The News to announce that a revival meeting will open at Bethel Church Friday night and will continue ten days or two weeks. He says they have secured the services of a wonderful preacher to hold the meeting.

All people of the community and surrounding communities are cordially invited to attend services.

Ira Doak of Amarillo was here a short time Wednesday shaking hands with old friends.

NEW HOME MEETING BEGINS SUNDAY

Evangelist Weldon Bennett of Bellingham, Washington, who on last Sunday closed a successful ten day gospel meeting with the Grassland Church of Christ, will begin a seventeen day gospel meeting at the New Home Church of Christ next Sunday. Services will be conducted twice daily, with the evening services scheduled for 8:15 o'clock.

Congregational singing will be under the direction of J. I. Parham of the New Home church.

All day services will be held on the closing day of the meeting—Sunday the 31st. A basket lunch will be spread at the church that day and the afternoon services devoted to singing and short talks by all visiting preachers present.

The public is invited to attend all of these services.

FIRST BAPTIST CHURCH

The Brotherhood of the First Baptist Church invites and urges the men of the town to come each night from August 17 through August 21 to the lawn of the First Baptist Church to hear Dr. T. R. Havens of Howard Payne college, of Brownwood, as he leads in a laymen's revival. We would like for every man in this community and the churches nearby to hear this consecrated Christian talk of work for men to do in their churches. The services will start each evening at eight o'clock and will last for only one hour. Come and enjoy the fellowship, and the hours together.

Remember to come to the house of the Lord for the worship services Sunday. Sunday school at 9:45 a. m. Morning worship at 11:00 a. m. Training Union at 7:15 p. m. and Evening Worship at 8:15 p. m. The Choir will sing "The Tempest Is Raging" Sunday morning, and will sing a special Sunday night.

PRESBYTERIAN CHURCH

Dr. W. B. Gray will fill his appointment at the Presbyterian Church here Sunday morning and evening. Subject of the 11 a. m. sermon will be "A Short Confession of Faith." The evening service at 8:00 p. m. Subject, "A Good Soldier." Topic for the Sunday School discussion at 9:45 a. m. will be: "Encouraging Suffering Christians."

The public is cordially invited to attend these services.

NEW MARKET MAN AT G&R

Otis H. Best, formerly of Wilson, began work Monday as manager of the market at G. & R. Food Store, Clarence Gausson, manager, announced. Mr. Best, his wife and two children have moved to Tahoka. He is the son-in-law of P. D. Server.

Mr. Gausson says that Mr. Best is an excellent butcher and market man, and promises his customers first class market service.

Mr. and Mrs. W. H. Thornhill returned last Saturday from a visit with relatives at Belton. On Sunday, August 3, they attended a reunion of the Thornhill families in Cameron Park, Waco. Families were there from Belton, Dallas, Tyler, Lorraine, Tahoka, and other places. Mr. Thornhill says that they almost suffocated from heat at some places down in that part of the state. Crops generally were fairly good.

Conduct Revivals In Lynn County

THE REV. W. B. SWIN
Of Post

Who began a series of revival services at the First Methodist Church in O'Donnell last Sunday morning.

Baptist Leaders

THE REV. E. C. McDONALD
Baptist Pastor

DORMAN KINARD
Song Leader

Rev. E. C. McDonald, the new pastor of the O'Donnell Baptist Church is conducting the Baptist revival in that city. Dorman Kinard of Lamesa is song director.

Mrs. George Parker and her son, George Jr., of Washington, Louisiana, and Miss Robinson of Shreveport in that state arrived Wednesday night for a few days visit with Dr. and Mrs. K. R. Durham. Mrs. Parker is an aunt of the Doctor and Miss Robinson is his cousin.

Elder Drennon's Notes

After a very pleasant year's work with the church at Fort Sumner, I am moving next week to Melrose.

Melrose is not as large as Fort Sumner but it is a better market. Three hundred and fifty cars of wheat have been shipped from there this year. It is also one of the largest broom-corn markets in the West, I am told.

My association with the people here has been very pleasant, and I am leaving with regrets on both sides.

I see Editor Hill had something to say about me in his editorials last week. He seems to just have to give brother O'Daniel a few more digs. But he admits Coke is no angel and says: "Really, while Coke has not been kind to some of our friends and fellow citizens, we think that on the whole he is a pretty good guy and a 'regular feller'."

Well, well, think of it! With all his faults he is still a good guy. How about our friend O'Daniel and his faults? Why not treat him as fair as Coke?

I see our friend O'Daniel did not have to wait six months before he opened his mouth in the Senate. Why should a fellow have to be there a year before he is heard? And he offered a mighty fine bill against the strikers. Why not praise him a little for this, brother Hill? Is it just because you are prejudiced against him or is it because your eyesight is getting bad?

I am glad to hear that you are going to make it through with the young terrapins.

I want to say Amen to the sheriff's stand against the drinkers in the rodeo party from Snyder. I saw some of the Post rodeo party that should have been called down. More power to Sheriff Parker; give us more of his kind.

Yours for more people who will stand hitched when the crowd runs off and leaves him.—R. P. Drennon.

Editor's Note — We heartily approve the substance of the bill introduced into the United States Senate by Senator O'Daniel. Possibly it should not have been attached to another bill as a rider but some such bill, in our opinion, should be passed by the Congress of the United States, speedily. In our opinion, O'Daniel could have got a much better hearing on his bill if he had used a little more self-restraint and common sense. Many can not escape the im-

pression that he merely was trying to provide provender for home consumption. Our opinion is that a similar bill, properly handled, would enlist much strong support in the Senate. O'Daniel's bill, introduced as an amendment to another bill, received only one vote, and that was O'Daniel's. As for our being fair with "Brother O'Daniel", Brother Drennon, we fear that the only way we could satisfy you on that point would be to fall down at O'Daniel's feet and worship him, even as you. On that point, we "choose not to run", Brother.

Mr. and Mrs. Paul Owens and son of Walters, Oklahoma, Mrs. Bill Hartwick and her daughter, Mrs. Bill Moore and little daughter, Katherine, all of Manitou, Oklahoma, came Monday for a visit with Carl Owens and family. On Wednesday Carl accompanied them to Calsbad for a visit to the great Cavern. They expect to return to their homes in Oklahoma today.

Mr. and Mrs. Francis Gill are taking their vacation this week at Christoval.

Mrs. Dr. Wyatt of Midland spent a few days here last week in the home of Grandpa Simpson.

Mr. and Mrs. Clarence Williams are spending this week at Ruidoso, New Mexico. They are expected home Sunday.

W. F. Conway of Dallas is here for a few days visit with his brother, Claude Conway and family.

Popular Beret Is Crocheted

AMERICA'S favorite beret is crocheted to keep pace with this year's millinery trends. You must have at least one crocheted hat, and why not start with this simple tan which you can make yourself? Double strands of pearl cotton are used, and you'll need only 4 large balls to complete the beret. Here's a good chance to match up your hat with other accessories to highlight a costume. Directions for crocheting this beret may be obtained by sending a stamped, self-addressed envelope to the Needlework Department of this paper, specifying design #1004.

Bowl WITH US!

Bowl just for the fun of it. Bowl for better health. Bowl for relaxation. Bowl for pleasant exercise. You'll find it a grand sport . . . and you'll like the well-kept bowling alleys, efficient service, and the pleasant atmosphere.

Around OUR PLACE

by Fred Gipson

Circumstance are not conducive to good writing around our place this morning. In the kitchen the Duchess, my wife, is raising such a fine clatter with pots and pans that any stray thought of merit drifting my way tends to tuck its tail in terror and take cover. And in the bull pen right beside my desk sits Phillip Michael Gipson, age eight months, hammering away at a Mexican heat powder can with a spoon.

I'm man enough to take the spoon away from young Mike, but not even Uncle Sam's new armie could squelch the squall that immediately ensues.

"Dry up, you little pest!" I shout at him.

The squall lifts to a scream. The clatter of pots and pans ceases, and the Duchess comes running to protect her young.

"You've got to use more tact," she admonishes.

"Tact!" I shout. "What I need is a green club!"

"If you want to make a baby stop squalling, blow in its face," Jim Ballard, the whittling banker, tells me.

I've tried that, too; but Jim doesn't say what to do when the little devil's lung power is such that he

can hold a howl longer than I can blow.

In my less exasperated moments, I sometimes wonder what sort of son I've helped bring into this world. Mike scratches! He scratches places that don't itch, like the screen doors, the floor, my leg when he can get hold of it.

It takes a set of iron nerves to listen to anybody scratching tin cans or screen doors and such with his fingernails. What kind of nerves must this little wart have to get enjoyment out of the act!

I can get philosophical about it and say: "Well, it's a good thing he's learning to scratch for himself early; he'll have plenty of it to do later." But that doesn't keep my blood from running cold in the dead of the night when I awaken to the sound of his scratching the sides of his bed.

The Duchess was mighty proud of Mike's first two teeth until he sank them into the back of her neck the other day. Now, she doesn't brag so much about them.

But I guess it's the bright grin Mike can spring on us at rare intervals, with those teeth shining like two pearls in a gaping bivalve, that keeps me from quietly choking the little pest some time.

The market is constantly flooded with the most remarkable and ingenious toys for babies, but it's been my observation that no toy, no matter how expensive, can give a baby satisfaction equal to that of a bundle of old newspapers and magazines to tear up, or a tin can to bang around.

I'll never get old enough to forget those two wine bottles a neighbor boy harnessed to a discarded bread pan for me when I was about three. He tied a leather lead string to the bottle and gave it to me. I set out at once around the house, dragging my fine horses and chariot behind me. The trip was something like two thousand miles long and consumed virtually all my waking hours for the next three years.

Mike's going to have a wagon and a fine team of horses like that just as soon as he can walk and drag them. I never did learn to be such a dead shot at lizards with a nigger shooter as that neighbor boy was, but I feel confident that I can fix up just as good a toy as he did.

Having had some rub-board ex-

Revival Meetings At O'Donnell

Two revival meetings are in progress in O'Donnell this week, according to announcement made last week by the O'Donnell Press.

The Baptist revival, which was in progress throughout last week, will come to a close next Sunday. With the new pastor, Rev. E. C. McDonald, doing the preaching, and Dorman Kinard of Lamesa leading the song services, much interest was being manifested, it was stated.

Revival services were also begun at the Methodist Church there last Sunday, according to announcement in the Press, with Rev. W. B. Swim, pastor of the Post Methodist Church, doing the preaching.

Announcement was further made that revival services will be begun at the O'Donnell Church of Christ on Friday night of next week. Elder James W. Adams of San Benito is scheduled to conduct these services, assisted by Claude Cheairs of O'Donnell, who will lead the song services.

The Press also announced that Elder Alvis Bryan of Rochester has been called as regular minister for the O'Donnell Church of Christ, his work to begin about the first of September.

Mr. and Mrs. Gilbert Baskerville and Mr. and Mrs. Billy Baskerville and daughter Kay of Vernon left Sunday morning after a few days visit here with Mr. and Mrs. C. E. Woodworth. Mrs. Gilbert Baskerville is Mrs. Woodworth's sister and Billy is her nephew.

Mr. and Mrs. T. Cowan spent Saturday night and Sunday with her parents, Mr. and Mrs. W. P. Inman, who live in Scurry county about ten miles east of Snyder.

Carl Sherrod of La Habra, California, is here this week visiting his parents, Mr. and Mrs. F. M. Sherrod, and other relatives. La Habra is situated near Los Angeles.

Mr. and Mrs. A. D. McDonald left Monday morning to spend the week vacationing at Ruidoso.

perience in the last eight months, I've come to the conclusion that if Hitler had some baby diapers to wash out two or three times a week, he'd have a lot less time for wars of conquest.

for MODERN living

In the early days, medicine show quacks sold crude oil for a dollar a bottle as a cure for all human ills. Today hundreds of essentials for modern living are made from oil. It supplies heat for the home. It provides power for the Nation's machinery and transportation. It lubricates the gears of industry. It furnishes fuel for your car. It has shortened distances to make our Nation one big community.

America is safer today because of petroleum. The oil man's initiative and enterprise have made available to the United States the world's largest supply of petroleum.

In all this, Texas plays a leading part. Last year we supplied 36 per cent of all the Nation's oil, and now have over half of the Nation's oil reserves.

You and every American live more comfortably and safely today because of Texas petroleum.

Ribbon Sandwiches

Broadcast by Mary Lee Taylor, August 14, 1941

2 cups shredded dried beef* (7 oz.) 1 1/2 teaspoons bottled mustard
1 1/2 tablespoons butter or other shortening 12 slices bread, white or whole wheat
2 tablespoons flour 24 strips American cheese, 3 1/2 x 1/2 x 1/8 inch thick
1 cup Fat Milk 1/2 inch thick

Cook dried beef slowly in butter until edges curl, stirring frequently. Sprinkle flour over dried beef and stir until blended. Stir in milk slowly. Boil 1 minute, stirring constantly. Remove from heat. Stir in mustard. Let stand. Turn on oven and set at moderately hot (400° F.). Remove crusts from bread. Toast bread on one side only. Cut each slice in half. Spread meat mixture on untoasted side of bread, dividing equally. Put 1 strip of cheese on each sandwich. Place on shallow pan. Bake 5 minutes, or until cheese is slightly melted. Serve at once. Makes 2 dozen.

*If dried beef is very salty, rinse in boiling water and dry on towel before using.

Men Injured . . .

Continued from Page 1

W. H. Musick were on top and fell with the trusses, but a slight head injury received by Hodges was the only casualty. Davis, Hall Robinson and Clyde Jones were beneath, and were completely covered with the debris. The only truss which remained up after the others had fallen was directly over the head of Robinson, while another struck him on the shoulder on its way down.

Davis was caught in a ditch dug for plumbing, and received three fractures of his right leg, a dislocation of the ankle, and severe lacerations to his skull and left leg. He was immediately carried to a local clinic where emergency treatment was given.

The building, being constructed for Drs. Emil Prohl and K. R. Durham, was only slightly damaged. A few of the trusses and about a dozen window panes were broken, and of course valuable time was lost on the job. The accident was unpredictable and unavoidable. D. L. Knapp, architect, stated.

Workers and other spectators marveled at the circumstance which saved the other five men from serious injury or death. "It wouldn't happen just that way again in another hundred years," one worker remarked.

The Nevill Brothers are contractors on the structure, which until the accident was going up rapidly.

Mr. and Mrs. Ben Martin and Mrs. Joe Granad of Owen, Brown county, were here Wednesday and Thursday visiting their aunts, Mrs. George Small and Mrs. Claud Wells. They also called on their long-time friend, Mrs. R. C. Forrester.

Mr. and Mrs. Ben Page of Archer City visited Mrs. Pledger Coleman here Sunday, and Mrs. Coleman returned home with them to visit this week. She will also visit a niece in Childress before returning home.

Mrs. F. H. Sawyer and daughter Joyce of Albany, Georgia, were the guests last week of Mrs. W. L. Burleson.

Mr. and Mrs. E. R. Edwards and family visited relatives in Bell county last week.

4-H Clubs . . .

(Cont'd. from page 1)
ing on all the time, Mr. Turner stated.

In addition to the regular 4-H club work, rifle matches sponsored by the National Rifle Association, afforded the boys opportunity to do much rifle practice, and this was one of the most popular phases of the three-day program. The purpose of the matches was to teach the boys something about the use of firearms and to give them some basic training in line with the National Defense program. Prizes were offered for the best records of marksmanship.

In the rifle practice provided for men, Lynn county's own county agent, Don Turner, won first prize. There were about 35 entrants in this contest.

Mr. Turner thinks that the instructions and information given the club boys was very important and helpful, and his only regret was that more Lynn county boys could not attend.

CORLEYS ATTEND REUNION

Mr. and Mrs. Jack Corley were in Graham Sunday where they attended the annual reunion of Jack's family in a park in that city.

Jack's parents, Mr. and Mrs. E. H. Corley who have been married 54 years, had with them their nine sons and three daughters, together with their families, making a group of about forty-odd to enjoy the fine dinner together at the noon hour. While none of the children live here except Jack, all of them live in Texas and some have their homes in Seminole, Seagraves, Odessa and other towns of this region.

Miss Mareda Hickerson of Nachitoches, La., and Miss Marilee Lowe of Amarillo visited the G. W. Hickerson and Jack Edwards families and Miss Viola Ellis here Tuesday and Tuesday night, leaving early Wednesday morning on a vacation trip on westward before returning to their schools. Miss Hickerson is a teacher at the Louisiana State Normal College at Nachitoches, and Miss Lowe teaches in the Amarillo public schools.

E. D. Crouch, who has been seriously ill with a rare form of pneumonia for almost four weeks, is showing very little improvement, his wife reports.

Jimmy Adams, son of J. D. Adams, underwent tonsillectomy Wednesday morning.

County School Board Meets

The county school board met last Friday in the office of County Superintendent Lenore M. Tunnell and transacted a number of items of business.

The board is now composed of J. K. Applewhite of Tahoka, chairman, W. W. Caswell of Draw, B. W. Baker of Wilson, and D. B. Ball-euw of O'Donnell. Mrs. Tunnell is secretary.

As one important item, the board passed on all applications for transfer.

Under a new law, it is also the duty of the county board to employ all the bus drivers for the various schools of the county, and this was done.

The schools were classified as to grades. Only two of the school districts of the county have chosen to adopt the new twelve-grade system, according to Mrs. Tunnell. These are the Wilson and New Home schools. Superintendents and principals of most of the high schools of the county have indicated a desire for more time to study the proposed system before adopting it and will operate under the system in vogue heretofore during the coming year.

The county board set the second Tuesday in each month except August as the regular time for its meeting during the year, 9:30 a. m. Call meetings will be necessary in August each year to attend to various matters as they develop.

B.-P. W. Entertains At Weiner Roast

Other business women in Tahoka were the guests of the Business and Professional Women's Club at a weiner barbecue on the back lawn at Mrs. E. H. Boullioun's home Tuesday evening. Five new members were welcomed into the club. One other who was accepted for membership was out of town.

Weiners were barbecued over an open fireplace and served hot dog style, with pickles, onions, potato chips, tea and toasted marshmallows. After supper the guests played outdoor games and enjoyed a sing-song led by Miss Robbie Milliken, a new member. Miss Claire Ruth Nichols, president, welcomed new members and invited the guests to consider membership.

Echo Milliken, membership chairman, served as hostess. New members present were Mrs. Erlene Saage, Misses Ellen Nixon, Milliken, Viola Ellis, and Erma Davis.

Other club members and guests were Mesdames Charles Cathey of O'Donnell, F. E. Calvery, Irene Gallagher, Reed Parker, Gladys Stokes, Inez Knight, E. H. Boullioun, Lenore M. Tunnell, Jane Minor, Helen Eubank, Myrtle Rochelle, Lois Daniel, Randolph Rutherford, Hope Haynes, J. W. Sinclair, and Misses Lorene Reese, Elizabeth Wyatt, Hattie Server, Ethel Calahan and Maurine McNatt.

Officers Attended Plainview Meeting

Sheriff B. L. Parker, County Attorney Calloway Huffaker, and Justice of the Peace Jim Dye attended the peace officers convention held in Plainview Tuesday.

Mr. Parker was the prime mover in launching this organization a few years ago and he is still serving as president of it.

Its purpose is to enable the peace officers to assist one another in running down criminals who may operate in this territory.

Boullioun Installs New Equipment

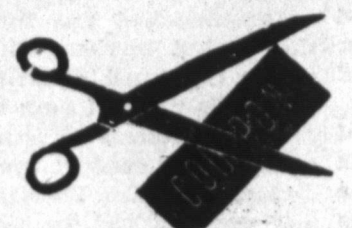

E. H. Boullioun has this week installed in his grocery a new and modern meat display case, equipped with fluorescent lighting. The case is much larger than the one it displaces, affording more room for display. Two tubes of different color fluorescent light improve visibility and aid sanitation. Of course, the cooling system is the very latest.

Dave Sanders joined the store personnel Monday. He will have charge of the market.

Miss J. D. Overton and daughter, Miss Celia, of Fort Griffin, and Mrs. Brady of Breckenridge, enroute for a vacation of two weeks at Ruidoso, N. M., visited briefly with Mrs. E. I. Hill Thursday. The Overtons and Mrs. Hill are friends of long standing.
