Tahoka, Lynn County, Texas, Friday, August 29, 1941

Number 3

Schools Open Monday For 1941-42 Term

Most of County Schools Opening

Not only will the Tahoka and O'Donnell schools open Monday, but most of the other county schools will likewise open on that day, according to County Superintendent Lenore M. Tunnell. These include Wilson, Draw-Redwine, Edith, New Lynn, Gordon, Midway, and Newmoore.

The Grassland school will not open until September 8, and Mrs. Tunnell was not able to state definitely when the schools at New Home, Dixie, West Point, Wells and T-Bar would open.

At New Home, difficulty has been encountered in filling out the faculty, it is reported.

Faculty members, in whole or in part, are given for the other schools of the county, as shown below.

Wilson: Superintendent, S. G. Anthony; principal, C. O. Head; high school English, Miss Bernice Duff, a new teacher; home economics, Edith Maston; agriculture, J. Walter Crist; coach, Amos A. Eggen Jr., another new teacher, coming from Howard Payne; other teachers, Merle Pervis, Mrs. C. O. Head, Ruth Garmis, Ethel Brown, Mrs. W. L. Forrester.

Draw-Redwine: Supt. Durwood Dodson; Douglas, Dablia Kirby; Bruce Gilles, Johnny Fulford, Mrs. Jessie W. Russ, Henry.

Grassland: Principal, Miss Adeline Young; other teachers, Miss Elzora Railsback and Miss Cleo Cowan.

Edith: Principal, B. T. Smith, teacher, Miss Lola McWhirter.

New Lynn: Principal, E. H. Schreiber; teachers, Mrs. E. H. Schreiber and Miss Irene Hawthorne.

Wells: Principal, Hamilton Still; teachers, Miss Grogan and Miss Ruby Gray.

Gordon: Miss Tommie Edith Wynne.

Midway: Mr. and Mrs. Robinson of Bailey county.

Newmoore: Mr. and Mrs. Fred Bryant.

T-Bar: Mr. and Mrs. Virgil Carter, West Point: Mr. and Mrs. Ivan McWhirter.

Dixie: Mr. and Mrs. Archie Sims. At New Home, T. C. Penning is the superintendent and W. W. Hall is the teacher of vocational agriculture. The names of the faculty in full is not available to us.

O'Donnell: Supt. S. F. Johnson; principal, Jack Snodgrass; social science and history, Mrs. Charles Cathey; mathematics, Ray DeBusk; Spanish, Miss Nell Guthrie; English, Miss Aline Nunnally; home economics, Mrs. Warren Smith; commercial, George Vandergriff; mathematics and science teacher to be selected.

Grades: Mrs. Aul Gooch, seventh; Mrs. Elizabeth Morris, sixth; Miss Mary Paul Long, fifth; Mrs. Carl Reavis, fourth; Mrs. John Vermillion, third; Miss Virgil Haynes, second; Mrs. Faye Westmoreland, first; Mrs. Delores Burk, instructor of band; Mrs. Alf Gibbs, piano and substitute teacher; Dorothy Giddings, teacher of the colored school.

Band Planning Intensive Work

Tahoka High School band members who have been carrying on weekly practices during the summer were entertained with a watermelon feast at the high school Tuesday night at the last summer band session. Thirty-eight were present.

Director John Hamblen states that only two members have been lost by graduation and that this year's band gives promise of being the best yet. Seventeen new members are coming into the high school band from last year's junior band.

Mr. Hamblen is asking all parents who wish to start their children in the junior band see him immediately after the start of school. A more active junior band program will be carried out this year than in the past, he says.

Horace Blackburn of the A. L. Smith Food Market is ill at his home in northwest Tahoka.

Cotton Parity Checks Arrive

C. A. Lawrence, secretary of the Lynn county AAA committee, has announced the arrival of the first parity checks on the 1941 cotton crop.

On Wednesday of this week sixty-one checks, representing a total of \$12,663.84, were received, covering forty-nine farms in this county.

Mr. Lawrence states that checks are expected to be coming now at frequent intervals for the next six or eight weeks.

District Court Opens Monday

District court will open here and a grand jury will be selected Monday under the new court law enacted by the present legislature regulating the terms of court in this district.

Instead of a four weeks term as heretofore, the court which opens Monday will remain in session continuously until the next succeeding term of court which will open in February.

The court will be empowered to try cases on the docket at any time set by the judge during the next six-months term. It is believed that this will enable the court to keep the docket pretty well cleaned up. The same procedure applies to each county in the district.

At present, the docket here promises to be very light. Few contested cases are in prospects. On the docket, however, are seventeen divorce cases, but it is understood that one of these will be withdrawn.

The criminal docket promises to be light.

M. O. Canaday Died Wednesday

Friends here were shocked and grieved to learn of the death of M. O. Canaday at 12:45 noon Wednesday in a Texarkana hospital to which he had been taken for treatment by G. M. Reid of Tahoka the preceding week while at Nashville, Arkansas, visiting.

Mr. Reid and wife were called back to Texarkana Tuesday night by Mr. Canaday's critical condition.

Death is said to have resulted from ulcerated stomach from which he had been suffering for months.

Mr. Canaday is survived by his wife and two sons, Gerald D. and Weldon, and he and Mr. Reid were brothers-in-law.

Mr. Canaday and family resided in Tahoka for about ten years, during which time he was employed in the post office here. He began as a temporary worker in the post office late in 1927, and in 1928 he became a regular through civil service appointment. He left here August 15, 1937, going to Nashville, Arkansas, having been reared in that vicinity, and he has resided there since.

Many friends here regret his untimely death.

Masonic Work Conducted Tuesday

Jim White of Colorado City, chairman of the committee on works for the Masonic Order for the state of Texas, was here Tuesday giving examinations to a number of Tahoka and Brownfield Masons on Masonic work, with Worshipful Master Jack Welch of Tahoka in charge of the proceedings.

Certificates were granted to the following Tahoka Masons: Judge C. H. Cain, W. S. Anglin, Buel Draper, E. R. Edwards, Borden Davis, Ovid Luallin, V. A. Botkin, O. N. Reed. Certificates were granted also to four Brownfield citizens.

Wallace Donaldson and family of Houston arrived Tuesday to visit a few days while his mother, Mrs. John Donaldson, is recovering from an appendectomy which she underwent in the Lubbock Sanitarium Saturday night.

Geo. Mahon Is Rotary Speaker

Congressman Geo. H. Mahon was the guest speaker at the Rotary luncheon here Thursday.

As was to be expected he discussed the war situation, giving a clear-cut and concise statement of the situation as it exists today and the interest that the United States has in the outcome.

It is impossible to give even a resume of Mr. Mahon's address in this issue of the paper, owing to the fact that the News is already being printed today, but if the people of the United States could get the facts which Mr. Mahon stated thoroughly imbedded in their minds there would be little dissent on the

(Continued On Back Page)

"DEMOCRACY IN ACTION" WILL BE SCHOOL THEME FOR THIS YEAR

A public school is a community within itself, so says the local school authorities. As one further step toward enlarging the Citizenship program of the Tahoka schools, a committee composed of students and faculty members has been appointed to work out a series of assembly programs for the coming school year.

When one has demonstrated that he does know how to assume responsibility he is ready for further growth in citizenship, whether he be an adult or a student. As the Tahoka students continue to grow in citizenship, more and more "privileges" and "responsibilities" are being given them and thus, according to the teachers of the Tahoka schools, "Democracy in Action" is the result. Certainly, education is a continuous process and no one can ever say he is completely educated. Contrary to some beliefs, the boys and girls of this community have been getting an education right on through the recent summer months just as much as they have been growing in physical size.

Patrons are invited to visit our schools this year and see this further growth of the "Citizenship program" of the local schools.

Co-op Members Plan Meeting

Members and friends of the Farmers Co-operative Association No. 1 will meet in the City Park next Thursday evening at 8 o'clock for a program of entertainment, followed by a picnic supper. After the supper, an educational program of Co-operative movies and speakers will be given in the District Court room.

Various committees have been appointed by B. J. Emanuel, president, to complete all arrangements. The membership voted in the Spring to hold such a meeting this fall.

GRADY HERRIN WRITES FROM LAS VEGAS

The News received a few days ago the following communication from Grady Herrin of the Air Corps Gunnery School, 546th School Squadron, Las Vegas, Nevada.

"Just a line," Grady writes "to let you know that Frank McClaur Jr. and myself, Grady L. Herrin, are transferred to a newly activated squadron, the 546th School Squadron, which will arrive in Roswell, New Mexico, October 1, and will use the field there as the home field. The field at Roswell is an Air Corps Advanced Flying School.

"Hope to see every one soon. Sincerely, Grady L. Herrin."

Aaron Kidwell, one of the clerks at the Piggly Wiggly store, spent his vacation last week with relatives and friends in Mineral Wells and Fort Worth. He was accompanied home Friday by his mother, Mrs. J. A. Kidwell and son Winfred of Mineral Wells, who remained here visiting until Sunday.

Here Thursday

CONGRESSMAN GEO. H. MAHON

Tahoka Schools To Service Own Buses This Year

The school board of the Tahoka Independent school district has completed arrangements whereby they expect to make a saving of quite a sum in the bus expense of the local schools. A gas pump and tank is being installed at the bus shed on the school ground and gasoline will be bought from local wholesale dealers.

Each major company in town will receive his prorata share of the gas business. The bus committee decided to start in alphabetical order and to rotate the business. Consequently the first month's business will go to Coeden followed in order as follows: Conoco, Donaldson, Gulf, Magnolia; Phillips 66, Sinclair, and Texaco. If there is a major dealer missed it will be anxious to include that dealer if he will contact Truett Smith, chairman of the bus committee.

Bids were taken on oil which will also be bought from wholesalers. Texaco received the contract for oil. Due to the necessity of using the same kind of oil in buses for the most satisfactory and most economical service, the oil contract is for the entire school year.

Local Students Are Tech Grads

Among the large class of graduates of the Texas Technological college receiving degrees last Friday night, we noted the following Lynn county people.

Lillian Beryl Robertson, B. S., Division of Home Economics, majoring in foods and nutrition, now employed as dietitian in the State Hospital in San Antonio; daughter of Mr. and Mrs. W. O. Robertson of Tahoka.

Homer Alvin Harrison, B. A., majoring in botany, principal of the Garnolia school on the line of Lynn and Garza counties.

Rayborn Rex Jackson of Draw, B. S., majoring in Government; will teach this year.

Anita Ray Reddell, B. S., majoring in primary education; daughter of Mr. and Mrs. W. A. Reddell of Tahoka, will teach third and fourth grades at Krum, in Denton county.

Jessie Williams Russ, B. S., majoring in elementary education, daughter of Mr. and Mrs. Lonnie Williams of Joe Bailey and a primary teacher in the Draw-Redwine schools.

Jonnie Kathrine Sims, B. S., majoring in primary education, teacher at Dixie.

Verner O'Veil Warren, B. S., majoring in elementary education, was a teacher at Midway last year.

Georgia Ray Westmoreland, O'Donnell, B. S., majoring in primary education, first grade teacher in the O'Donnell schools.

James W. Partin, Master of Arts, B. A., Texas Technological college 1941. Coach and principal of the New Home High school the past year; teacher in Social Science in San Angelo Senior High school the ensuing year.

Lecture Course Offered Citizens

A lecture course in salesmanship, credits and collections will be offered the people of Tahoka and Lynn county by Texas Technological College, beginning Tuesday, Sept. 16. The Tahoka Retail Merchants Association is sponsoring the course.

The series of six lectures will be on Tuesday and Thursday nights at 8 o'clock at the court house and will be by Drs. J. O. Ellsworth and T. C. Root of the department of Economics and Business Administration.

Auld Wildcat Is Down 2,420 Feet

Drilling on the Dan Auld wildcat test oil well by the Trinity Drilling Company, 14 miles west of Tahoka, has been shut down the past few days for engine repairs. A depth of 2,420 feet had been reached when drilling stopped.

There is nothing new to report on the J. E. Rice well situated three miles northwest of New Home. Little progress has been made the past two weeks on account of drillers having a fishing job.

The Standolind Oil and Gas Company is drilling a wildcat in Dawson county four and a half miles northeast of Cedar Lake and have reached a showing of oil at a depth of about 4850 feet.

The W. G. Nairn well No. 1 situated 3 1/2 miles northeast of Lubbock was given a nitroglycerin shot Sunday night and on Wednesday night a flow of oil for more than an hour was reported.

In the Slaughter field in-ockleyH county, the Western States Gasoline Corporation No. 13 W. G. Frazier was brought in this week and is reported to have yielded 3,151 barrels in a single day, the strongest well yet brought in in that field. Several other good producers in that section have been brought in the past few days.

Changes Made In Rural Carriers

Several changes in the postal service here and at O'Donnell have resulted from the retirement of W. E. Suddarth.

S. M. Minton, who has been carrying mail on route 1 out of O'Donnell for many years, will succeed Mr. Suddarth as carrier on route No. 3 out of that place.

T. Garrard, who has been the carrier on Rt. 5 out of Tahoka, is being transferred to Rt. 1, O'Donnell; and A. C. Weaver, who has been a clerk in the Tahoka post office for a number of years, will hereafter carry the mail on Rt. 5.

No announcement has been made as to who will fill the place in the post office vacated by Mr. Weaver, but we understand that the matter has been virtually settled.

Fire Does Damage At Bovell Farm

Fire, which broke out about four o'clock Tuesday morning almost completely destroyed a "feeder" with its contents, about 150 bundles of feed recently ground up and placed in the feeder, and did serious damage to the feed mill itself, out on the farm of Joe Bovell seven miles north of Tahoka.

The Tahoka Fire Department was called out but for lack of water it could do little toward extinguishing the fire and therefore turned their attention to the prevention of its spread to buildings and other property.

Fire had been discovered in the feeder on the preceding day but it was thought that it had been extinguished.

Clayton Johnson and family are leaving this morning for a two days visit with Mrs. Johnson's parents, Mr. and Mrs. E. J. Hill, at Roswell, New Mexico.

Tahoka School Faculty Complete

The public schools of Tahoka are scheduled to open Monday morning for another term of nine months, though some of the students are expected to report and enroll at the school building Saturday, as announced elsewhere in this paper.

Formal opening exercises will be held in the high school auditorium Wednesday morning.

Not including Principal Lee Dodson, who has been granted a leave of absence by the board during his service in the army, the faculty consists of twenty-two white teachers and one colored.

The list, with the positions which they hold, are shown below:

W. T. Hanes, Superintendent of Schools, Social Studies.

Miss Willie Pearl Dockray, English and Speech.

Miss Ineva Headrick, English and Librarian.

Miss Lucille Wright, Vocational Home Making.

Leslie Browning, Vocational Agriculture.

Leo Jackson, Coach of Athletics.

Hope Haynes, Mathematics.

John Hamblen, Band and Science.

Mrs. Pauline Thompson Walker, Business.

Miss Ruby Nell Smith, Seventh Grade.

A. L. Pace, Grade School Principal and Social Studies.

A. R. Bostick, Mathematics in 4th, 5th and 6th grades.

John Kirkwood, Health and Physical Education.

Miss Lucille Hall, Language Arts in 4th, 5th, and 6th grades.

Miss Georgia Taylor, Public School Music.

Miss Nellie McLeroy and Mrs. Linn Tippet Pinch, Third Grade.

Mrs. Louise Wyatt and Mrs. Frances Dunagan, Second Grade.

Mrs. L. F. Craft and Mrs. Stella Duke, First Grade.

Miss Paralee Sayles, Negro School.

Janitors for the Tahoka schools this year are J. W. Jaquess and Harold Snowden.

HE NEEDED A DOCTOR

In using his pocketknife a few days ago, J. H. McNeely accidentally stabbed the calf of his leg, severing a large blood vessel. Before he could get into the house and stop the flow of blood he says that it looked like somebody had been butchering a beef around his place. There alone, he finally succeeded in so binding up his limb as to stop the flow, but he found himself in a somewhat weakened condition from the loss of blood.

Tahoka School Opening Calendar

Calendar for the opening of the Tahoka public schools has been announced by Superintendent W. T. Hanes as follows:

Saturday August 30
8:30 a. m. General faculty meeting.
10 a. m. Registration for seniors.
12 noon. Buses make initial run.
1 p. m. Registration for Juniors; also for Seniors who ride buses.

Monday, September 1
8:30 a. m. Registration for Freshmen and Sophomores in high school and grade students in respective buildings.
1 p. m. Schedules will begin and run on half time.

Tuesday, September 2
8:30 a. m. Regular full time schedule will start.

Wednesday, September 3
9 a. m. General assembly for the community, and everyone is urgently invited to be present.

BIG SPRING GETS BALE
Big Spring has already received her first bale of cotton. It was ginned there Tuesday and weighed 532 pounds, staple 15-16, and was sold for \$104.69. The prospects are good for a bumper crop in Howard county, it is said.

Mr. and Mrs. G. A. Blanton visited relatives in Brownfield Sunday.

ODDS & ENDS

by Eee Eye,
the Elder

The school bells will be ringing all over the country next Monday morning—or, rather, the gongs will be sounding.

The first statement would have been literally true a generation ago; but we are making progress, and Time has marched on.

A generation ago, and further back, practically all the country schools were one, two, and three-teacher schools, even the three-teacher schools being a rarity.

Not only on Monday morning but also on Tuesday morning and every other morning in the week up to Friday, the teacher would stand in the door and vigorously ring the old school bell, calling the children in to "books".

At the close of the noon hour and at the close of each recess, one in the morning and one in the afternoon, the operation would be repeated, and the children would come swarming in, some with joy and alacrity and some with laggard feet.

Nearly always the teacher was a man, always in a one-teacher school.

We have in mind now one of those old time teachers. He believed thoroughly in the old adage, "Spare

the rod and spoil the child." He didn't really use a rod, but he certainly did not spare the switches, that grew convenient out along the nearby creek. He whipped—and he whipped hard, but he rarely, if ever, gave punishment to a child that didn't deserve some kind of punishment. He kept order, and that was one of the big items in any school of that day and time.

He held forth at old Stampedee school house for five years, and he taught everything from the old blue-back speller, to "philosophy", everything, we mean, that they taught in the public schools of that day. They didn't teach vocational agriculture, nor Home Ec., pig raising, chicken-culling, sewing, cooking, meal-serving, carpentry, and such like in the public schools then. The boys were taught such things out at the barn and in the field, and the girls in the sitting-room and the kitchen.

They didn't even teach "English"; they taught grammar and composition; and in the academies and other institutions of higher learning, they taught Rhetoric and Literature. Philosophy? What was that? Well, that was a kind of conglomeration of general science and everything. That was for the "advanced" classes.

In grammar, they stressed parsing, analysis, diagramming, the declensions and conjugations, etc.; and in such subjects as grammar, reading, spelling, and arithmetic, they really got the job done, with fairly good work in geography, U. S. history, physiology, etc.

And that old-time teacher that we just mentioned made a deep impression upon the minds of his pupils and of the people of the community as a whole—a man of outstanding character and personality, he was.

But the schools have greatly improved since that day. They have greatly broadened the school curriculum and are teaching many useful things today not taught in the schools of that day. They are employing better trained teachers too, and more of them. They have moved out of the little one and two room school houses with home-made seats and desks into modern brick buildings of many rooms, well equipped, well ventilated and heated, kept neat and sanitary at all times.

What an opportunity the boy and the girl of today have as compared with the boy and the girl of a generation or two ago.

And now, along with many other things, they are teaching Americanism in many of the public schools. Americanism and good citizenship have been taught in the Tahoka schools for the past several years, and we note with pleasure that Superintendent W. T. Hanes announces that stress is to be placed on these subjects during the approaching school term.

We believe that more attention should be given to the matter of teaching Americanism in all the public schools and the institutions of higher education in America than has been the custom, not only for the benefit of the foreigners who have been admitted to our shores but for the benefit of American-born boys and girls.

We have talked much of Americanism in recent years, but many people who talk about Americanism have no well-defined knowledge as to just what Americanism is—what it includes and what are its distinguishing characteristics.

Furthermore, we have been so accustomed to enjoy the rights and liberties vouchsafed to us in this country by our Constitution, that we do not appreciate them as thoroughly as we should, and we are not aware of the terrible extent to which they have been curtailed in so many of the other countries of the world. In fact, they have always been inhibited to the peoples of many nations and have been recently abolished in many others. A fight to the death is on now to destroy them and

Bein' two-faced mout git yuh somewhars twice't as fast, but yo' don't stay dere half as long!

deny them to the people of every nation, including our own.

It is incumbent upon us therefore to teach our boys and our girls, in the home and in the school, what the great principles upon which our government is founded really are—so that they may properly evaluate and appreciate them.

In this connection, we wish to state that we heard an address to a college graduating class recently, delivered by the president of another college, a state institution, which was distinctly different from the ordinary commencement or baccalaureate address.

The speaker's subject was Americanism.

After calling attention to the present condition of the world and to the crisis that confronts the people of this nation, he laid down the proposition that Democracy is the offspring of Christianity, that the great principles of justice and humanity and equity upon which our government is founded had their birth in the teachings of Jesus.

To prove his proposition he cited quotation after quotation of the declarations of Jesus as recorded in the New Testament, showing how he magnified the importance of the individual, how he taught individual responsibility, individual accountability and individual regeneration.

Then he read from the Declaration of Independence that bold pronouncement that "all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness", etc., a pronouncement asserting the rights of the individual.

He followed this up with citations from the Constitution of the United States, particularly the first ten amendments setting forth the rights guaranteed thereby to the individual citizens of this country.

We can not go into details here, but it was a convincing recital of the facts of history showing conclusively that the principles set forth in our Declaration of Independence and later embodied in our Constitution had their origin in the marvelous teachings of Jesus as he walked and taught among men. And a man can not be the very best type of citizen, he declared, unless he accepts these teachings of Jesus.

We do not know how well this address was received by the College professors who heard it, but we are persuaded that most of them received it favorably, and we are quite sure that the great body of the audience approved it heartily.

Certainly, it seemed to be good and wholesome pabulum for that graduating class, many of whom are to be the teachers in the public schools of this state.

We believe that more teaching of that kind in our schools and colleges should be done and could be done without violating in any degree the great principle of religious freedom written in our Constitution.

Yes, we need to teach our children Americanism, and in doing so it would not be amiss to show them where the great springs of Americanism have their rise.

County Attorney and Mrs. Calloway Huffaker and Mr. and Mrs. Layton Lawson of New Home returned Monday from a little vacation spent out at Pecos, New Mexico, where they had a great time catching trout in Bull Creek, a mountain stream that flows into the Pecos River. Calloway says they caught lots of fish, but he is a truthful man and can not tell a lie, he admitted that all of them were little ones and didn't say a word about the big ones getting away.

Mr. B. (Boots) King and Miss Mildred King of this city and Miss June Gary of O'Donnell spent last week visiting in San Antonio, Galveston, Houston and Austin.

TAHOKA YOUTH IN LUBBOCK AVIATION CADET UNIT

LUBBOCK, August 22—There are still a few vacancies in the Lubbock Aviation Cadet Unit being sponsored by civic and patriotic organizations of the City of Lubbock. Applicants for this service must be young men between the ages of 20 and 26, inclusive, unmarried, without dependents, and have 60 or more hours of college credit.

Applications should be presented at the Recruiting Service Office in the U. S. Post Office building at Lubbock. Applicants must file with their applications a birth certificate, a transcript of college credits and letters of recommendation from 3 responsible persons. If young men who do not have 60 hours of credit wish to apply they will be given an opportunity to take a mental test covering the required subjects.

Delton Pemberton, son of Mr. and Mrs. M. R. Pemberton of Tahoka, has been called for duty and listed as an Aviation Cadet with the Lubbock Corps. Delton attended the Texas Tech last year, after having graduated from Tahoka high school.

Mr. and Mrs. Jess Dorman and children of Hagerman, New Mexico, have been here this week visiting Mrs. Dorman's mother, Mrs. J. M. Johnson, and other relatives. Also, on Sunday, Mr. and Mrs. Cecil Caraway of Redwine, Mr. and Mrs. Wyman Johnson of Lubbock, and Mr. and Mrs. Moman Johnson and children of Lamesa were visitors here in the home of Mrs. Johnson.

Bowl WITH US!

Bowl just for the fun of it. Bowl for better health. Bowl for relaxation. Bowl for pleasant exercise. You'll find it a grand sport... and you'll like the well-kept bowling alleys, efficient service, and the pleasant atmosphere.

COTTON STAMPS MAY BE USED TO BUY HOUSEHOLD LINENS

Buy the best grade of cotton household linens with cotton stamps this year.

More sheets and pillow cases will be bought this year than usual due to the cotton stamp program.

Since everyone is going to be buying household linens soon, it means that buying guides for the most popular household linens, sheets and pillowcases are very much in order.

Most of the sheets and pillow cases in the average home are made from cotton fibers, therefore cotton stamps may be used in purchasing sheets and pillow cases.

Sheets and pillow cases generally fall into one of five groups: the light, medium, and heavy muslins, the five counts, and the percales.

Read the labels and look for the

NEW HOME MEETING WILL CLOSE SUNDAY NIGHT

The series of gospel meetings which have been in progress for the past two weeks at the New Home Church of Christ will come to a close next Sunday night.

Sunday the church will hold all day services with a basket lunch spread at the church building at the noon hour.

The afternoon services, beginning about 2:30, will be devoted to singing—together with short messages from all preachers present.

Evangelist Weldon Bennett of Bellingham, Washington, has been doing the preaching in the meetings.

Visitors are invited to attend the services all day Sunday.

term "iron length", which means that the sheeting has been torn from the bolt before hemming and will be straight with the weave. "Cut Length" may be straight but may just as well be bias. If it is not straight the sheet or pillow case will be lop-sided after laundering.

In general, look for the following qualities in buying sheets and pillow cases:

- 1. Durability. 2. Ability to absorb moisture. 3. Smoothness. 4. Closeness of weave.

LA LIBRE BELGIQUE

NOUVELLE SEME DE QUERE... REVUE DE LA BELGIQUE... REVUE DE LA BELGIQUE... REVUE DE LA BELGIQUE...

Double Mise au Point.

An moment de nos souvenirs ont, au mois de juillet 1940, décidé de reprendre l'œuvre de leur siècle de la période de 1914-1918, avec moins de talent sans doute mais avec la même volonté à défendre et à honorer.

A FREE PRESS DEFIES THE GESTAPO—The first page of the April, 1941, issue of a famous periodical, published secretly under the noses of the German occupying authorities in Belgium.

Elder Drennon's Notes

We have about settled in our new home at Melrose.

Moving, what a job! But there is something interesting about it. My wife is so careful in packing things safely that sometimes we are six months in finding everything.

We are liking Melrose fine. One thing that strikes me favorably is that the business men are more religious than at some places we have lived.

They are getting ready for the big broomcorn crop to be gathered. It is the money crop here. It takes as many hands to gather it as it does a cotton crop, I am told.

We sure have enjoyed the last issues of the News. I believe it is getting better all the while. Editor Hill is a fine editor if he doesn't appreciate my friend O'Daniel, but I lay that to the fact that he was a professional politician in his earlier days.

Yours for more people who will live by the Golden Rule rather than the rule of gold.—R. P. DRENNON.

EDITOR'S NOTE: Thanks for the flowers, Brother Drennon. And, as you suggest, we have plenty of faults. We never were able to stand up like the proud Pharisee and thank God that we were not like other men.

Mr. and Mrs. J. H. Henderson and Mr. and Mrs. Marvin Wood and son Howard returned the first of the week from Carlsbad, New Mexico, after spending several days there.

PHEN-O-SAL... WYNNE COLLIER, Druggist

METHODISTS HAVING REVIVAL AT NEW HOME CHURCH

Revival services at the Methodist Church at New Home, which have been in progress since Sunday, August 17th, will come to a close next Sunday night, according to J. R. Strain, steward, and one of the leading members.

Rev. J. E. Stevens of Idalou is doing the preaching and C. E. Roper of New Home is leading the song service.

Baptists and others have given splendid cooperation, Mr. Strain says, and the attendance and interest have been good.

Services at 10:30 each morning and at 8:30 each night.

Everybody cordially invited to attend the remaining services.

John Lee, son of Preston Lee of Sweetwater, spent last week here visiting with the children of Mr. and Mrs. Conda Carmack and Mr. and Mrs. Jess Gurley, and with our accommodating city marshal, W. M. Lee, the lad's grandfather.

NOTICE TO THE PUBLIC
Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of The Lynn County News will be gladly corrected when called to our attention.

The sacrifices of God are a broken spirit: a broken and a contrite heart, O God, thou wilt not despise.—Psalm 51:17.

The war situation, according to latest reports as this is written, looks more favorable to the allies than it has looked for several weeks. Ten days ago, it looked as if the Nazis were in the act of mopping up on the Russians in short order, and while fierce fighting has continued and the Germans have continued to make some gains, their progress has been very slow and their losses evidently heavy. On the other hand, the Russians have staged a mighty counter offensive by which they have been able to regain some lost territory. British and Russian armies have joined to flank the Nazis on the south, and even if the Russians should be driven out of Odessa, the Germans still would not have an open door to the south. It seems improbable that the Germans can crush Russia before the cold Russian winter comes on. If the Germans get bogged down in Russia, then their condition becomes critical. Besides there seems to be a rising tide of restlessness and violence in some of the conquered countries. Bombings of German industrial centers by the British have grown more violent and destructive. A feeling of uneasiness must be creeping into many parts of Germany, despite the pains being taken by German leaders to prevent the spread of correct information as to the true situation. Still, it is possible for Germany yet to subdue Russia, and if she does, it will then be up to Great Britain with the help of the United States to stop her march.

The News has received a copy of a letter written to the Manager of the Tahoka Chamber of Commerce requesting that letters be written to the Ordnance Division of the War Department in the interest of the suggested establishment of a powder plant in the vicinity of Possum Kingdom Dam and that copies of the same be sent to Senators Tom Connally and W. Lee O'Daniel. Such a plant, we believe, has been proposed for Marshall over in Northeast Texas, and Senator Connally and Congressman Lyndon B. Johnson, it seems, have appeared before the War Department advocating the use of wood pulp in the manufacture of the powder. In view of the fact that wood pulp is now being used in the manufacture of newsprint with a paper mill located over in East Texas, the West Texas Chamber of Commerce suggests the establishment of a powder plant at Possum Kingdom Dam and that West Texas "boley" cotton be used as the raw material for the manufacture of the powder. That seems to be a capital idea. We raise the cotton, plenty of it, both the rag tag and the good grades; and a powder plant would furnish an increased market for the products of this section, though we hope the world uses very little powder from here on out in taking human life.

The News feels much gratification in the fact that Senator Marshall Formby of McAdoo has again entered the newspaper field. Clean, honest, and conservative, Formby may be expected to become a shining light in the weekly newspaper field. Having had experience as a law-maker, he has become familiar with the needs and the problems of the state, and his opinions as expressed in his editorial columns will doubtless have much weight with his constituency. Here's a hand to you, Marshall. May you prosper as a publisher and constantly increase in influence and usefulness as a senator of this district.

When Pecos Turner caught a high society dame from town dumping a sackful of cats in the weeds by the side of the highway that passes in front of his house, he rushed out, sacked up the cats again, driving back, managed to be dumping them back in her yard when she returned home.

He smiled sweetly at the aghast lady. "Just bring your cats back, ma'am," he said kindly. "I'll hang your sack right here on the fence."

There's been more cat excitement around our place here lately than I've run into since the Duchess and I honeymooned in old Monterey and and were kept awake nights by the warbling songs of the feline romancers as they lured their lady loves to disgrace among the plaza statues. Charley Wiley's old hounds jumped a fox on the ridge back of Jim Coty's house the other night and the fox turned out to be Jim's old house cat and the cat made for the house and the hounds followed it on inside. Jim's folks were at the supper table when the cat and the hounds came through the door. The hard-pressed cat made a leap for the table, landed in a garvey bowl and kicked the contents to the ceiling. He plowed through the blackberry pie, clawed the startled Jim in the top of the head, squalled at the top of his voice, and went out the kitchen window.

All this, and the roar of the noisy pack coming through the door on the heels of the cat spoiled Jim till he followed the cat out of the window. The frightened Coty kids scattered like quail and the women-folks rushed outside flinging up their aprons and screaming.

It was all over in a minute, and the hounds passed on, still after the cat, but not before Charley's old Rover hound had grabbed a boiled ham off the table and headed back home with it.

This makes the second ham that old Rover's stolen from Jim Coty and relations are beginning to get a little strained between him and Charley Wiley.

And Jess Maker's kid Stubby got into an argument with the Evers kid, claiming he had a pet opossum that could lick anything its size and the Evers kid claimed he had a big black tomcat that could take that old slow opossum to a cleaning before you could say scat; so the other night when Jess's folks went to a watermelon party at Pecos Turner's house, little Stubby stayed at home and invited the Evers kid and his

Crop prospects in Lynn county continue to be fine. An enormous feed crop is already made, and the pests have not done too much harm to the cotton yet. The plant is still growing and is making bolls exceedingly fast. It looks as if we may need many Mexicans here this fall to gather the crop.

JACK JUST JOKING
Before hot weather for the summer is half over, Eee Eye Hill of the News, Tahoka, begins to worry when the first frost or killing freeze will come. Some of his customers say it will be 60 days from the first norther, and some say 90 days, the first norther being Tuesday, the 12th. We have had another norther this week, and we are just wondering what effect it will have on the previous week's weather forecast. As between trying to guide the weather and keeping a New Mexico preacher in the straight and narrow, Hill Hubs Hell.—Terry County Herald.

Why, Jack, you certainly wouldn't intimate that there is any connection whatever between the preacher and the hot place. You must be joking. As a matter of fact, Elder D. and Eee Eye the Elder get along just Heavenly.

batling tomcat over for a visit. To make certain of a battle, little Stubby set a pan full of table scraps down on the kitchen floor. When the Evers kid arrived with his tomcat in a sack, they both set their batlers out in sight of the slop.

Cat and opossum arrived at the feed at the same time. The cat snarled at the opossum and clawed him in the face. The opossum silently wrung his bare tail a couple of times and grabbed the cat in the shoulder.

The cat squalled, broke loose and circled the room hunting a hole. The opossum was hard after him. Crowded too close, the cat finally ducked into the cold fireplace and went out up the chimney, showering the room, boys, and conquering opossum with clouds of soot creating his own smoke screen for his escape.

Mrs. Maker was mighty put out about that cat and opossum fight but Jess claimed he came out ahead. Now the wife won't keep pestering him to clean out that chimney flue before winter comes.

FRANKLIN COUNTY REUNION
The sixth annual Franklin county Reunion will be held in the City Park at Big Spring on Sunday, the seventh of September. This is an excellent time and place to meet some 300 or 400 of the folks from home again.

Be there with your basket lunch. Barbecue has been arranged again this year.—Finley Moore, Secy.

Rev. and Mrs. C. F. Carmack left Monday morning for their home in San Fernando, California, after a visit of several days here with their son and daughter-in-law, Mr. and Mrs. Conda Carmack, and children, and with relatives and friends in Houston. They were accompanied to Texas a couple of weeks ago by their son, Dr. J. C. Carmack of San Bernardino, California.

Mr. and Mrs. Lee Strain and their three daughters of Colorado City were guests last Sunday in the home of his brother, J. R. Strain of New Home.

Prevent Fox — Soreheads — Cankers! Vaccinate with Dr. Salsbury's Fowl Pox Vaccine. Easy to use. WYNNE COLLIER, Druggist

ALVIN WHITE WRITES FROM JEFFERSON BARRACKS, MO.
The following letter was received by Sergeant Cyril A. Barnes, Recruiting officer of the Lubbock area, from Charles A. (Alvin) White of Tahoka, who is now in Flight 5, 27th School Squadron, Jefferson Barracks, Missouri:

"Well here I am in Jefferson Barracks, got a good job too, \$21.00 per month. I really like this place much better than Fort Bliss. I saw several boys from my home town at Fort Bliss. We five boys that left Lubbock on the 11th are still together with the exception of Townsend, who was sent to Camp Roberts, Calif.

"Sergeant, when you said you were sure we would like the Air Corps you were right we really do. In El Paso where we spent our first five days in the Army, our first Sergeant was inspecting us, our clothes, etc. He said that everything was O. K. about my stuff except that my fatigue pants looked like a family of Negroes had just moved out and left all the excess space. I didn't know what to say so just stood there with a silly look on my face. "KEEP EMFLYING."

James C. Womack who has made application for Aviation Cadet, passed his physical examination be-

CANTALOUPE TRIPLETS GROWN AT NEW LYNN
A couple of weeks ago we made mention of twin cantaloupes, grown together like Siamese twins, brought in to the News office as something unusual in the vegetable kingdom.

But on Tuesday of this week, J. J. Newman brought to the News office triplet cantaloupes, three, all about the same size, so inextricably grown together as to be flesh of one flesh. He had grown them on his place at New Lynn and left them in the News office for people to see for themselves. They are ripe also, and of delicious flavor.

Now won't somebody bring us in quintuplets?

Read the Flight Board in Lubbock Monday of this week with flying colors and can expect to be really flying in a few short weeks.

13,398 MILES ON 5-QUART FILL OF OIL
in the Certified **DEATH VALLEY DESTRUCTION TEST**

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.
A. H. J. J. J.
Consulting Engineer, who during Academic year in Professor of Automotive Engineering, Purdue University

Revolutionary New Oil tested against 5 other big brands. 6 new cars Destroyed to prove Economy and Protection.

The oil that reeled off an amazing 13,398 miles on one regular fill, in blazing Death Valley, was proved to be an oil of the Nth degree—an oil of new high character... Hence its name:

CONOCO Nth MOTOR OIL
This dramatic test, supervised impartially and Officially Certified, was simple, yet harsh. 6 identical new cars were taken to Death Valley—where the heat hits record high. 5 of these cars were each assigned a different widely-known, highly advertised motor oil. The sixth car used new Conoco Nth motor oil.

Each car was broken-in on a brand assigned by lot. Then, one 5-quart fill of this same oil went into the crankcase—kept under lock. The cars were driven 57 miles an hour until oil failure cracked up each engine—utterly wrecked it! All of this under impartial official scrutiny, as was every step in the test, right on through the dramatic finish.

Here is what happened
New Conoco Nth oil went 13,398.8 miles. Not another oil came within 5,683 miles of this. One outstanding oil failed 8,268.6 miles sooner than new Conoco Nth motor oil. So it outdistanced the five competing oils by 74% to 161%.

Why this Astounding result was possible
New Conoco Nth motor oil contains a Conoco-originated synthetic (U. S. Patent 2,218,132) called *Thialkene inhibitor*. An inhibitor in motor oil acts

pretty much as an inhibition acts on you. Inhibitions hold you back; police many actions. And so Conoco's *Thialkene inhibitor* polices Conoco Nth oil... arrests pollution that otherwise comes from normal operation. And that's your aid against a dirty engine with inferior lubrication.

Are you an OIL-PLATING "fan"?
If you are, more power to you! Don't for a minute feel let down, for Conoco Nth also contains the famous synthetic that OIL-PLATES engines. OIL-PLATING comes from the magnet-like attraction that keeps it bonded to inner engine parts, so that it can't all quickly drain down to the crankcase—not while you're using Conoco Nth oil. This same famed OIL-PLATING is still yours to guard against wear.

Because of OIL-PLATING and *Thialkene inhibitor*, one 5-quart fill of new Conoco Nth oil went an astounding 13,398.8 miles. Of course, you'll never Death-Test your Conoco Nth oil in sinister Death Valley, nor repeat any other proving-ground tortures. You'll still drain and refill at the intervals recommended by qualified authorities. But how you'll expect to stretch the distance before you ever add a quart, judging by this big fact:

5 heavily advertised oils in the Certified Death Valley Test were out-miledged 74% to 161% by Conoco Nth oil. Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Co.—Pioneers in Bettering America's oil with Synthetics

Baptist Meeting Is In Progress

Revival services being held at the Baptist Church this week are scheduled to close Sunday night.

Good crowds have been attending both the morning and the night services.

The morning services have been devoted largely to a study of the Scriptures to determine what they teach respecting the fundamentals of Christianity and the work of the Church. Those who have been able to attend have found these studies to be very helpful.

At the night services the messages have been evangelistic, and much interest has been manifest, with a few additions to the church. The pastor-evangelist B. N. Shepherd has been bringing very earnest messages, while he and the pastor, Rev. Geo. A. Dale, and others have been doing much personal work.

The song services directed by Mr. Melvin Rathel have been most excellent. The work of the junior choir has also been good.

Everybody is cordially invited to attend all the remaining services.

HINKLE FAMILY HAS STRING OF MISFORTUNES

Marie Hinkle, 8, daughter of Mr. and Mrs. M. D. Hinkle, underwent an emergency operation for appendicitis on Thursday of last week in St. Mary's Hospital in Lubbock and is said to be recovering nicely considering the seriousness of her case.

Becoming ill at 9:30 Thursday morning, Marie was rushed to the hospital but suffered a convulsion enroute. She went on the operation table at 1:15 in the afternoon.

Another little child was placed in the sanitarium in Brownfield a few days before that, suffering from appendicitis, but it was decided that an operation was not necessary, and he recovered.

It was less than three months ago that a son underwent an operation for appendicitis which was followed by an attack of pneumonia, and the condition of the little fellow was very critical for several days.

Then Mrs. Hinkle herself suffered an attack of pneumonia and was confined to her bed five weeks.

It seems literally true that troubles have "come not singly but in battalions" to this family.

MISS WRIGHT ATTENDS STATE HOME EC MEET

Miss Lucile Wright, head of the Home Economics Department of the local High School attended a State Convention of Home Economics teachers in Dallas from Wednesday to Saturday of last week.

Following this meeting, Miss Lucile, who was accompanied by her brothers, Bryan and George, made a little trip over into East Texas, visiting at Omaha and other points. Their grandmother, Mrs. W. A. Wright, accompanied them home for a visit in the home of her son W. C. Wright.

This being Mrs. Wright's first visit to the Plains, she is getting a thrill out of seeing the country as well as with visiting her relatives and old friends who formerly lived in that section of the state.

4-H CLUB GIRLS' PICNIC

Club girls from some thirteen 4-H clubs in the county held a club picnic and program in the City Park on Thursday. We hope to give a fuller report of their meeting in the next issue.

That Full, Choked Feeling

CAMERA SHOTS AROUND POSSUM KINGDOM DAM AND LAKE

Upper left taken from Johnson Peak in the eastern section of the State Park showing rugged hills and the lake beneath.

Upper right is the 3,000-foot contour. The lake filled in six weeks when scheduled to take three years. Lower left: No more scenic boat rides may be had than along the mountainous shorelines or back in-

to the limestone canyons of numerous inlets. Lower right: Cedar Creek filled with water. Four major creeks empty into the lake and where the lake waters become shallow will be

the ideal fishing spots for bass, channel cat, perch, crappie and other Texas fish. (Photos by Glenn Burgess. Map prepared by Brazos River Conservation and Reclamation District.)

"Rusty" Waldrip In All-Star Game

Coach Leo Jackson of Tahoka High School and Warren "Rusty" Waldrip, who graduated from Tahoka High last spring, are this week attending the West Texas High School Coaching School at Plainview.

Waldrip will likely play in the exhibition game there tonight between two groups of West Texas football stars of the past season. Waldrip is a backfield man and made a remarkable record as a passer last fall.

STATE HOME DEMONSTRATION CONVENTION TO MEET IN BEAUMONT, SEPTEMBER 3-5

Among the 960 delegates representing 4,300 Home Demonstration Club women in 190 Texas counties will be Mrs. A. L. Shepherd and M. C. Thomas of Lynn county when the State Home Demonstration Convention meets in Beaumont September 3 for a three day session.

The delegates from District Two will leave Lubbock in a chartered bus on September 1, returning on September 6.

While this is primarily a business meeting in which state officers to govern the association for the next two years are elected, there will be plenty of fun including a fish fry for the delegates on the Gulf of Mexico.

Among candidates for the higher offices this year are Mrs. W. G. Kennedy of Muleshoe, candidate for president, and Mrs. C. A. Caffee, of Daugherty, who is a candidate for vice-president-at-large.

ATTEND FAMILY REUNION

A. R. Hensley, Mr. and Mrs. Zan Hensley, Mr. and Mrs. Pat Hensley, Mr. and Mrs. R. R. Ragan and son, John, returned last Thursday from Lake Buchanan, where they had gone on the previous Sunday to spend a few days in reunion with members of the Graham families.

Four of the Graham brothers, together with Mrs. Ragan, a sister, and numerous children, grandchildren, and other family members of these brothers and two of the other sisters made up the group enjoying the four day camp.

Boating, fishing, swimming were some of the sports enjoyed in addition to meeting the new members and relatives and exchanging reminiscences with the older ones. We were told that the lake has a wonderful bathing beach and that there was fish to spare.

J. I. Parham of the New Home community returned Sunday night from Gallup, New Mexico, where he was called the week before on account of the serious illness of a sister who resides here. He was accompanied on the trip by his mother who resides in Waco, but has been visiting in his home some two or three weeks.

GRASSLAND CLUB EXHIBIT

Featuring quality products for home and for market, the various Home Demonstration Clubs of Lynn county are from time to time giving educational demonstrations of how a thing may be done. These educational exhibits set up each Saturday in some local grocery store have in them much valuable information.

In Piggly Wiggly store last Saturday the Grassland Club committee headed by Mrs. Roy LeMond and Mrs. A. L. Shepherd featured farm storage of eggs.

Advising that eggs should be

"gathered twice daily and stored in a cool place," they used an old-time evaporation cooled milk cooler to store the eggs which had been placed in wire baskets. Not only do the eggs keep several degrees cooler in this cooler, but the moist air prevents excessive drying of the contents of the egg.

LOCAL BOYS ORGANIZE STAG CLUB

Local boys from Freshmen to Seniors in High School have organized a Stag Club, pledging themselves to be 100 percent American.

They will meet in private homes, according to Winston Redwine.

Officers and sponsor will be elected at the next meeting.

Miss Mary Preston is leaving this morning for Fort Hancock, Hudspeth county, near which place she will teach during the coming school year.

Miss Anita Reddell had as her guests last weekend her friends, Misses Mable and Ann Lynch of Dallas and Miss La Verne West of Wingate.

Mr. and Mrs. A. F. McGlaun had as their guests over the weekend her sisters and children, Mrs. C. A. Brooks and children, Delwin, Bobby Lola and Joe Don of Paducah and Mrs. M. F. Taylor and son, Don Edward, of Corsicana.

Eastern Star members are reminded that Friday night, Sept. 5, is regular meeting night and a full attendance is urged.

TAHOKA, TEXAS

W. E. SUDDARTH RETIRES AFTER 42 YEARS GOVERNMENT SERVICE

After having been in the service of Uncle Sam for a period of forty two years continuously excepting an intermission of two years during the last decade, having been a rural mail carrier twelve or thirteen years of that time, W. E. Suddarth carried the mail on his route out of O'Donnell for the last time on last Friday and on the first day of September will formally retire from the service, with pay.

As a matter of fact, September 1 is the date his employment terminates under the long-service retirement law, but he was entitled to a vacation of more than two weeks of which he had not availed himself until this time, and with the exception of last Friday he has been on vacation for the past two weeks.

Although Mr. Suddarth has been carrying the mail on an O'Donnell rural route, he resides in Tahoka,

and it is his intention to continue to reside here. He was carrier on a route out of Tahoka for about nine years and during that time he acquired a home and other property here. A few years ago, under the postal laws as they existed then, he was retired from the service with pay by reason of having served out his time limit. Later, the law was changed, and he was permitted to re-enter the service. He was assigned to Route 3 O'Donnell. For a few years he resided in O'Donnell but some time ago moved back to his Tahoka home.

Mr. Suddarth entered the postal service about October 1, 1899, as a clerk in the Fort Worth post office. He continued in this position for four years.

In February, 1904, while William H. Taft was Secretary of War, Mr. Suddarth accepted a position as a clerk in the War Department, his work being with the Isthmian Canal Commission, which had under its supervision the construction of the Panama Canal.

Soon after Woodrow Wilson became President in 1913, with Albert Sidney Bursell of Texas as Postmaster General, Mr. Suddarth was appointed as post office inspector and assigned to the St. Louis division. After working for two and a half years in Arkansas and Missouri, he was transferred to the Philadelphia division and for another two and a half years his work lay in Pennsylvania.

From Philadelphia he was sent to the Chicago Division, where he served four years. Then he came to Ft. Worth and served in the Texas Division for another four years.

Tiring of a job that kept him traveling practically all the time, he made application to transfer to the mail carrier service. His application was granted, and he came to Tahoka in 1927 as carrier on Route 4.

He was retired from the service with pay in 1934, under the service-limit law as it then existed, but in 1936, this law having been repealed, he was re-instated and assigned to Route 3 out of O'Donnell as carrier.

Mr. Suddarth has long taken an active part in the Texas Rural Letter Carriers Association and the National R. L. C. A., and for two years or more he served as editor of the Texas Carrier, official publication of the Texas association, and during his service in this capacity and for a few years thereafter the paper was printed in The Lynn County News office.

Mr. Suddarth has been a faithful servant of his government and a useful citizen of this county and state, and the people of Tahoka are much gratified that he is to continue his residence among us.

Mr. and Mrs. R. C. Wood returned Tuesday from a visit with her relatives and friends at Ada and Sulphur, Oklahoma. Mr. Wood reports crops as good in our neighboring state, though boll weevils and worms are doing some damage to cotton.

Mr. and Mrs. Ben Thompson and Mrs. Charlie Walker of Snyder spent Friday and Saturday in the home of their brother, H. R. Minor.

MRS. HALL HONORED WITH DINNER

On Thursday, August 14, friends and relatives of Mrs. J. F. Hall met at the home of Mrs. Wilton McNabb, Lakeview, and surprised Mrs. Hall with a sumptuous birthday dinner.

Several beautiful and useful gifts were received.

Everyone present enjoyed this occasion and wish for Mrs. Hall many more happy birthdays.

Those present were: Rev. and Mrs. Bryant and son, Mrs. Ruth Simpson, Mary Louise Simpson, Mrs. J. N. Moore, Mrs. L. H. Moore, and Mrs. Hall's children, Mrs. Otis Webb and children, Mr. and Mrs. B. A. Richardson and children, Mrs. J. F. Hall and son, Mr. and Mrs. D. E. Castleberry, Mrs. Thurl Swinson and daughter, Mr. and Mrs. W. W. McNabb and daughter, and the honoree, Mrs. J. F. Hall.

Mrs. J. A. Rea, who accidentally fell on a concrete sidewalk here and broke her hip more than two months ago, is now able to walk around the house on crutches, Mr. Rea states. He also says that she wished to express her gratitude to many friends for their interest and for the many acts of kindness they have rendered her since the accident.

Mr. and Mrs. H. C. Story and daughters, Ruth Evelyn and Ernestine, are visiting relatives in the Draw community. The Storys lived here many years, Mr. Story being formerly county clerk. They now reside in Austin, where H. C. is an auditor in the Motor Fuel Refund

Division of the Comptroller's office. He states Miss Ernestine, who graduated from college recently, will teach in the Lamesa schools this coming school year. The Storys will be here until Monday.

Mrs. O. L. Kidwell of Rochester returned to her home Sunday, after a three weeks visit here with Mr. and Mrs. W. T. Kidwell and Miss Dorothy. She is the mother of W. T. and Miss Dorothy.

GUARANTEED 10 YEARS

on complete refrigerating system. We guarantee to the original purchasers of 1941 Servel Electrolux Gas Refrigerators to refurnish without cost any defective burner, control or refrigerating unit for a period of ten (10) years from date of installation. (You pay only cost of installing parts.)

YOU folks all read the papers and listen to the radio. So is it necessary to mention that there's just no predicting what next year will bring? But we can still supply a limited number of some of the more popular models of SERVEL Electrolux, the gas refrigerator backed by that famous 10-YEAR GUARANTEE, at no extra cost. And it's still the only one that's backed by such a guarantee; for the very good reason, no doubt, that it's the only one with no moving parts in its freezing system. Nothing to wear, to make noise, to cause costly repairs. And we can still give terms on your new Servel so low the payments will be about like your monthly ice bill. But—better not wait—unless you're like the man up there above. Better come in today!

THE GLORY THAT IS INDUSTRY

On Monday, September 1, the nation pauses to pay homage to LABOR. May we add our congratulations to the American Worker and the wish that he may prosper as befits the memory of the pioneers who built our great industrial institutions.

The First National Bank

CONNALLY OIL ACT MADE PERMANENTLY EFFECTIVE

Senator Tom Connally of Texas this week made public a letter from Secretary of the Interior Ickes with respect to the reenactment of the so-called Connally Act, respecting the control of interstate shipment of petroleum and its products. The letter is as follows:

"The Act of February 22, 1935 (Public No. 14-74th Congress), generally known as the Connally Act, which regulates interstate and foreign commerce in petroleum and its products produced in violation of state law, expires by limitation on June 30, 1942.

"In 1937 and again in 1939, when you attempted to have the Act made permanently effective, the Senate readily agreed but your efforts were blocked because the House felt that, until the principal oil producing State should enact permanent conservation statutes, the Congress should continue to cooperate in behalf of the Federal Government on a

ANOTHER LYNN COUNTY BOY ENLISTS IN U. S. NAVY

Weldon Roscoe Gannaway, son of Mr. and Mrs. C. E. Gannaway, Route 4, Tahoka, enlisted at the Navy Recruiting Station, Dallas, on August 21, as an Apprentice Seaman, and was transferred to the U. S. Naval Training Station, San Diego, where he will receive training before further transfer to a Navy trade school or ship of the fleet, according to J. E. Calloway, Chief Quartermaster, U. S. Navy, Recruiter-in-charge, Lubbock.

Navy recruiters in the Post Office building in Lubbock, where Gannaway passed a preliminary examination for enlistment, stated today that men considering military service now have an opportunity to enlist in the Regular Navy for a career and retirement at an early age, or in the Naval Reserve for immediate active duty followed by release from active duty as soon after the emergency as their services can be spared.

Men between the ages of 17 and 36 are now being enlisted in the Naval Reserve for training in naval schools for aviation, radio, signals, metalsmithing, electricity carpentry, clerical work and other trades and professions.

temporary basis only. The State of Texas made permanent its conservation Act on July 2, 1941. There is no longer justification for this opposition. Most major oil producing States now have permanent conservation laws. A lesser objection was the belief among some people that the Connally law functioned solely in the East Texas Field. The Act applies to all oil producing States having conservation laws but the reporting system has heretofore applied only to East Texas. My Order of May 26, 1941, designates additional areas in the States of Texas, New Mexico and Louisiana, from which monthly reports of operations are required from producers, transporters and storers, refiners and others.

The administration of the law during nearly six years has not indicated the need for any changes in the wording or provisions of the Act which are of sufficient importance to warrant amendments other than the elimination of the date of the termination. The Act has successfully withstood a number of legal attacks in the Federal Courts in Texas and Louisiana.

I strongly favor the continuation of the Connally Act and I hope that during this session of the Congress you will again sponsor a bill to make the Act permanently effective.

Mrs. W. G. Brunette and daughter, Louise, are visiting here in the home of Mr. and Mrs. W. L. Knight, having come on Sunday, August 17, for a two weeks visit. Mrs. Brunette is a sister of Mrs. Knight.

Money Savers

Seeking to save department store losses running into thousands of dollars annually, a Memphis woman called on King Cotton for aid. Result is a simple cotton try-on jacket which the customer slips into before trying on dresses. The jacket absorbs perspiration and prevents stains on dresses. Low cost of the try-on enables stores to provide a freshly laundered jacket for each customer.

Congratulations

To Mr. and Mrs. Joe E. Davis upon the birth of a son weighing 8 pounds and 7 ounces at the Pleasant Valley hospital in Coalinga, California, on Sunday, August 17. The little fellow has been named Donald Alan Davis. Mr. and Mrs. Davis lived here for a number of years, Mr. Davis being engaged in the grocery business. They removed from here to California a couple of years ago.

MARRIAGE OF THREE LAKES COUPLE ANNOUNCED

Friends here learned last Saturday of the marriage at Tulla on the preceding Saturday night—August 16—of Miss Gracie Crouch and C. D. Sparks, both of the Three Lakes community.

The couple were accompanied to Tulla by the bride's sister, Mrs. Elisabeth Frazier of Seattle, Washington, and her brother and his wife, Mr. and Mrs. Kingston Crouch.

The bride is the daughter of Mr. and Mrs. Clade Sparks of the Three Lakes community, and is a young farmer.

This is the second wedding in the Crouch family within a little more than a month.

As is well-known, Mrs. Sparks' brother, Kenneth Crouch, of Three Lakes and Miss Mary Nell Brooks of this city drove over into New Mexico and were married just a little more than a month preceding this wedding, July 4, and they are making their home in Post, where the young Mr. Crouch is employed in a grocery store.

MRS. JOHN DONALDSON UNDERGOES OPERATION

Mr. and Mrs. Terry Noble and Brownfield friends went out to Conchas Dam west of Tucumcari, New Mexico, last Saturday, where they spent a few days fishing and otherwise enjoying life.

Mrs. John Donaldson suffered an acute attack of appendicitis last Saturday night and was hastily taken to the Lubbock Sanitarium, where she underwent an operation about midnight. Latest reports are to the effect that she is recovering satisfactorily.

On account of the serious illness of C. D. Crouch of Three Lakes, his three brothers, Ed, Joe, and Boss Crouch, and their nephew Carl Wise, all of Monroe, Oklahoma, and Mrs. A. A. Dowall of Red Oak, of that state, were recent visitors here.

A. David and Sam Abraham, O'Donnell business men, were callers at the News office Monday.

Brighten Your Kitchen With Gay Crochet

“ALL work and no play makes Jack a dull boy”—so why not a little frivolity in the kitchen to make your day brighter? You'll find the making of these gay potholders a grand tonic for tense nerves and muscles, because there's something about crocheting which brings complete relaxation. With six balls of mercerized knitting and crocheting cotton in two colors, you can make two each of these whimsical kitchen necessities, called "Sugar and Cream", "Petticoat Fever" and "Merry-Go-Round." Directions for crocheting these potholders may be obtained by sending a stamped, self-addressed envelope to the Needlework Department of this paper, specifying design #9225.

Former Tahoka Woman Victim Of Attack At Lubbock

Mrs. Dewey Nicholson, former resident of Tahoka now residing in Lubbock, had a frightful experience in that city last Saturday night when a negro grabbed her and robbed her of her purse as she was returning from a grocery store to her home.

According to the story related by the Lubbock Avalanche-Journal on Sunday morning, the black grabbed Mrs. Nicholson from the rear after following her from a grocery store at 1402 Broadway and escaped the hot pursuit of several men attracted by her screams. The attack occurred on Ninth Street.

He ran down an alley toward Avenue Q and turned south to Main Street. Witnesses said the negro leaped a fence at the rear of a residence and last was seen running across the lawn, out-distancing his pursuers.

Mrs. Nicholson, who was frantic long after the attack, still held the purse handle in her hand when she rushed home, indicating she had given strong resistance to the negro's desperate snatching, police said.

The purse, Mrs. Nicholson said contained \$5.50 and a small wrist watch. She said she remembered seeing the negro while she was shopping at the grocery store, and it is surmised that he saw her put the money in her purse after making her purchases.

Mr. and Mrs. Nicholson and children lived in Tahoka for a number of years, moving away six or seven years ago, and she is well known here.

Senator Formby Buys Newspaper

A press report from Plainview last Friday stated that Senator Marshall Formby of McAdoo had purchased a controlling interest in the Community Weekly a newspaper published in Plainview and has taken charge as publisher and general manager immediately. He was preparing to move to Plainview.

The paper has been owned and published the past five years by Mrs. Fannie R. Norman.

Formby is a graduate of the Texas Tech and while a student in that institution was editor of the Tech Torreador. After leaving college, he was editor and publisher for some time of the Aspermont Star. He has also worked as a reporter on the Lubbock Morning Avalanche, and has had other newspaper experience. Last year he was elected as a member of the State Senate from this district, where he has served with ability and fidelity.

He will be given a hearty welcome by the newspaper folks into their fraternity.

Misses Lenore Anglin and Ida Botkin, who have been attending the summer session of the Texas Technological College, returned home last Thursday, at the close of the summer term. They will re-enter the institution in September for the long term. Both are 1941 graduates of the Tahoka High School, Miss Anglin being the valedictorian of her class and receiving a scholarship in the Tech at her graduation.

Mrs. Carlce Edwards of Los Angeles, California, who has been visiting relatives here the past month, will leave Saturday for her home. Mrs. Burton Edwards, Carlce's mother, expects to return home with her.

Government Shop Work Program Is Offered Tahokans

If enough young men out of school age express a desire to enroll in an auto mechanics course at the local schools and if a local mechanic is available and interested, Tahoka has an opportunity to install a course sponsored by the local schools but paid-for by the federal government.

The requirements, briefly stated, are as follows: Fifteen or more students are required to start the course. The course will consist of 15 hours instruction per week which may be given at night or in day time. The local instructor will be employed by the local board and he may continue his present job if he desires to do so, giving the instruction for three hours per night for five nights per week. His pay will be not less than one dollar per hour.

All young men between the ages of 17 and 25 who are interested in such a course and local mechanics who might be interested should contact the Superintendent or school board of the Tahoka schools at once. The course, if given, will be started at once.

Mahon Here . . .

Continued from Page 1
part of intelligent men from the course which this Government has been pursuing in international affairs during the present administration. Perhaps the News can give a brief resume of Mr. Mahon's address next week.

Preceding Mr. Mahon's address, the Club was entertained with an amazing memory demonstration by one of our local girls, Miss Icapene Stephens of Midway, who is a student in the West Texas State Teachers College.

Members of the club called out twenty words, which they wrote down in order, and after this was done a number would be called and Miss Stephens, from memory, would give the word which it represented. She never missed a single one of the twenty calls.

In answer to questions, she stated that she had been able to do this up to as many as fifty words at a sitting. How she can do it is a mystery.

SUBSCRIBE FOR THE LYNN COUNTY NEWS—YOUR PAPER

to the ordinary individual, and her ability to do it writes her down as a memory genius.

John Jackson, a former Rotarian at Canyon, was elected to membership in the Tahoka Club.

Twenty-one members signified their desire to attend the annual Lubbock Inter-City Meeting on Sept. 11th.
