## Hail Storms Damage Lynn County Crops

### Tahoka Bulldogs Open 1941 Season In Lamesa Tonight

Coach Leo Jackson's Class A Tahoka High School Bulldogs meet the Class AA Lamesa Tornados on McCollum Field, Lamesa, under the lights tonight at 8 o'clock in the first football game of the season for each team.

The band, pep squad, and many fans will follow the team to Lamesa for the game.

Though no one expects Tahoka to whip the strong Class AA outfit, those who see the game may be due a surprise, as was the case last year when Lamesa was glad to eke out a win over the surprisingly strong Bulldogs.

Lamesa's team has a new coaching staff this year in Gregg, who was assistant there last year to Ted McCollum, and Jim Neal, ex-Texas Tech football great. The popular Leo Jackson is assisted again this year by Hope Haynes.

The Tahoka coaches are pleased with the progress the Tahoka squad has been making, though Coach Jackson points out that many of the boys are inexperienced. In fact, it is a little hard to predict the local team until they have seen some actual game experience. The backfield promises to be up to standard but the line has a few weak spots.

The game, being one of the first on the South Plains, will be watched with a great deal of interest by fans and football coaches, principally because of the fact that the game will be played under the new rules. Too, coaches of Class AA will be on hand to scout Lamesa, and coaches from Class A will be watching Tahoka.

Admission to the game is 50 cents for adults.

### Twelve Grade System Studied

(By Ruby Nell Smith)

A committee of teachers in the Tahoka Grade School met Tuesday morning to discuss the present movement in Texas for a twelve year school program.

Each month two of the teachers plan to visit a school using the twelve year plan. Schools to be visited are Amarillo, Lubbock, Big Spring, and the smaller schools that have added an extra grade in their school.

This extra grade in a twelve year program will mean additional work to be placed primarily in the first three grades. It is the opinion of the local primary teachers that only one-third of the first graders are ready to do second grade work each year. This additional grade would mean that the students making up this one-third would be in the third grade; the other two-thirds would be in the second; and six-year olds starting to school would be in the first grade. The above method is the procedure used by many of the larger schools when they installed the twelve year school program.

One of the greatest advantages of the twelve year plan is that the students will be better prepared and therefore able to do better work in high school. Many of our outstanding educators believe that students are graduating from high school too young. This proposed plan will eliminate this defect of the present system. The twelve grade plan will eliminate many of the failures that now occur in the public schools.

The committee of local teachers sponsoring an extensive study on the twelve year school is composed of Mesdames Louise Wyatt, Frances Dunagan, Linnie Finch, L. F. Craft, Stella Duke, Miss Nellie McLeroy, and Mr. A. L. Pace. Mrs. Wyatt is chairman of the group.

Mr. and Mrs. C. H. Carmichael of the Lower Rio Grande Valley are visitors in the G. E. Vickers home. They are returning from a trip in Arkansas, Missouri, and Oklahoma. Mr. Carmichael is a fruit grower in the Citrus Belt at McAllen.

### Mrs. S. H. Assiter Dies In El Paso

Mrs. S. H. Assiter, teacher in the Tahoka High School for the past five or six years, died in an El Paso hospital Tuesday, following a long-continued illness.

Funeral services were conducted in the First Methodist Church in Lubbock Thursday afternoon by Rev. W. R. Derr, pastor of the Baptist Church at Ralls, and Rev. Geo. A. Dale, pastor of the First Baptist Church in Tahoka. Burial was in the Lubbock Cemetery.

Pall bearers were Pete Hegi of the

(Continued On Back Page)

### Baptists Coming To City Next Week

With favorable weather conditions 300 or 400 visitors are expected to be here on Tuesday and Wednesday of next week attending the meetings of the Brownfield Baptist Association to be held in the Tahoka Baptist Church.

Messengers are expected to be here from each of the more than thirty churches in the bounds of the association, which covers three entire counties and a large part of two others.

The church in the association with the largest membership is the First Baptist Church of Brownfield. Other strong churches in the association are those at Tahoka, Seagraves, O'Donnell, Wilson, New Home, Meadow, Ropesville, Denver City, Central, and Wells.

The Association is scheduled to open Tuesday morning at 10 o'clock with a devotional service, followed by the seating of messengers and other items of business; and Rev. W. H. Jackson of Wilson will preach the annual sermon at 11:30.

The afternoon will be devoted to business matters and discussion of denominational causes, while a Brotherhood program will be given in the evening, beginning at 7:15 and closing at 8:30 followed by a Young People's program from 8:30 to 9:30.

The session Wednesday morning will open at 9:00 o'clock, when various reports, resolutions, and other matters of business will be presented

(Continued On Back Page)

### Delegate Reports On State Meeting

Mrs. A. L. Shepherd of Grassland, council delegate from the Lynn county Home Demonstration Clubs to the annual state convention of Texas Home Demonstration Clubs held in Beaumont September 3, 4, and 5, will give her report on the meeting before the county council at a meeting in the district court room in Tahoka Saturday afternoon at 2:30 o'clock.

Mrs. Shepherd, who was accompanied by Mrs. M. C. Thomas, also of Grassland, says the meeting was a "wonderful" one. There were about 600 women in attendance, and the programs were entertaining and educational, featuring the fine work being done in the defense programs. Special emphasis was placed on nutrition and vitamins. She was happy that a West Texas woman, on nutrition and vitamins. She was elected state president.

"I enjoyed the meeting so much," Mrs. Shepherd told the News, "I hope every club woman can at some time attend the state convention."

### Tahoka Golf Club Splits With Lamesa

Tahoka golfers will play at Lamesa Country Club Sunday, Sept. 21, and not next Sunday, Secretary Charles Townes of the Tahoka club, informs the News.

Last Sunday when the two clubs met on the local course in 24 matches, and the two teams divided matches in which the two teams broke even.

Trade in your home town!

### First Cotton Ginned From 1941 Crop

H. W. Calaway of Draw brought in to Tahoka the first bale of cotton of the season late Wednesday afternoon. It was ginned at Carmack's gin early that night and was in town on exhibition the next morning. Mr. Carmack, who was circulating a premium list, told the News at 2 p. m. that about \$90.00 had been raised. The bale was bought by Harley-Henderson, local cotton man, who paid 20 cents per pound for it.

The bale weighed 405 pounds. The unginned cotton tipped the scales at 1700 pounds, having been pulled.

Calaway may have made a good mayor of Draw but he has been regarded as a rather shiftless, third-rate farmer. His success in raising the first bale, however, has made him a bit chesty. He was on the

### Six-County Meet To Be Held Here

County Agent Don Turner and Home Demonstration Agent Miss Maurine McNatt are planning for a large attendance on the part of Lynn county farmers and housewives when the six-county Food and Feed program is given here on September 22, in the American Legion Hall.

The county agents, county home demonstration agents, the members of the Food and Feed committees, and the Land Use Planning committees of Lynn, Garza, Crosby, Dawson, Borden, and Scurry counties and all others who may be interested are expected to be here on that day to hear discussions by specialists from the Texas A. & M. College on Food and Feed for Dairy and Beef Animals and for Poultry and the proper care to be given dairy and poultry products.

Home Economists will also be present to discuss how these products may be used in the diet.

Foods for the demonstrations will be furnished by the Home Demonstration club women of Lynn county.

This meeting is being sponsored by the Extension Department of the Texas A. & M. College, assisted by the Farm Security Administration.

The program will begin at 9:30 o'clock in the morning and will close at 4:30 in the afternoon, Monday, September 22.

All the farmers and farm women and H. D. club women of Lynn county are urgently invited to attend.

Every family or individual is expected to bring their own lunch. It is believed that all who attend will find the day well spent.

### Dr. Durham Speaks To Dallas Dentists

Dr. K. R. Durham presented a talk and demonstration before the Dallas County Dental Society in Dallas Tuesday night.

Dr. Durham has presented similar programs to the Port Worth Society and the Texas State Dental Society.

He was accompanied by Mrs. Durham and the children.

### TAHOKA P. T. A. MEETS WEDNESDAY AFTERNOON

The Tahoka Parent-Teacher Association meets in its initial regular session of the new school year at 3 o'clock Wednesday afternoon, Sept. 17, in the Grade School building. The afternoon's program will be of vital interest to every parent and adult in the entire school district who has any concern for child welfare. A most urgent and cordial invitation is extended you to be present at this meeting Don't forget the date!

### WEATHERS IN AUSTIN

Tax Assessor Raymond Weathers left with his tax rolls for Austin early Tuesday morning to get them approved by the State Comptroller. He was expected back home today.

streets Thursday morning bragging that he had been trying to show Lynn county farmers for fifty years how to farm, and at last decided to show them. Accused of having brought in last year's cotton which he had stored, Calaway replied with emphasis that this is cotton which he raised this year by the sweat of his hired hand's brow.

O'Donnell received her first bale of cotton Tuesday. The bale was brought in by John Johnson, a former peace officer, who has turned his attention to farming. The bale was raised down in the edge of Borden county but was brought to O'Donnell to be ginned. It weighed 424 pounds and was sold at auction Wednesday at 20 cents per pound. O'Donnell business men made up a premium of \$103.00 for the owner.

### State Gas Tax Totals \$51,000,000

H. C. Story, formerly of Tahoka, now an auditor in the office of State Comptroller Geo. H. Sheppard, has sent to the News a copy of Mr. Sheppard's report for the fiscal year beginning September 1, 1940, and ending August 31, 1941, setting out the amount of gasoline taxes collected by the State during that period of time and the amount refunded on tax-exemption claims.

This report shows that the total amount of these taxes was \$60,404,443.58, and that the amount refunded on all classes of claims was \$8,798,084.57, leaving a net tax of \$51,606,359.01 to be prorated to the Highway Fund, the Available School Fund, and the County and District Road Bond indebtedness. One-half goes to the Highway fund, one-fourth to the School fund, and one-fourth to the County and District Road Bond fund.

The number of claimants to whom the refund of more than eight million seven hundred thousand dollars was paid is 237,374, of whom 214,146 were farmers, 2,514 were contractors, 4,790 were oil operators, 1,620 were counties, 1,278 were aircraft claimants, and the remainder included various classes.

In sending the report, Mr. Story stated that he greatly enjoyed his vacation, which was spent here, and hopes that Lynn county will reap a bountiful harvest this fall.

### Students Of Rural Sections Are Cared For By Tahokans

According to Supt. W. T. Hanes, the parents of children who ride school buses to Tahoka schools need have no fear of their youngsters being cared for when the weather delays or stops the buses from making their regular routes.

The rainstorm which hit Tahoka and vicinity soon after 4 o'clock last Monday had hardly begun when patrons and citizens of Tahoka began calling the Superintendent and offering to care for school bus students during the night. Mr. Hanes states that his phone rung continuously for an hour while he was out checking up on the whereabouts of two buses which were late in returning from their routes, people stopped him on the streets and asked that children be sent to them for shelter during the night.

Of course the Superintendent and school board appreciate this kind of co-operation and they have asked the News to express to the entire citizenship of Tahoka their sincerest thanks and appreciation for this example of whole-hearted co-operation and they further remind Tahoka citizens that with this kind of thoughtfulness and "pulling together," Tahoka must have one of the best school terms in its history this year.

Advertising doesn't cost; it pays!

### Lecture Course Starts Tuesday

All people of the county, especially business people, are invited to attend the series of lectures beginning at the district court room in Tahoka next Tuesday night and continuing each Tuesday and Thursday night at 8 o'clock for three weeks, sponsored by the Tahoka Retail Merchants Association.

Dr. T. C. Root of Texas Tech. will give the first three lectures of the course on Credits and Collections, and Dr. J. O. Ellsworth of the same institution will present the last three on Salesmanship.

### School Program At Rotary Club

Rotarians at their regular luncheon Thursday heard one of the most unique of programs when Supt. W. T. Hanes, program chairman for the month, brought the high school band, directed by Rotarian John Hamblen, and the football team, coached by Leo Jackson and Hope Haynes, before the Club.

The program opened with the band marching to the Legion Hall, where the Rotary club meets, where the musicians played the school's Alma Mater, followed by the school "fight" song. Following this number, Coach Jackson led his Bulldogs, dressed in their new uniforms, into the meeting room. Here, just as though there was no one else present but the coaches and the football players, Coach Jackson conducted an actual "skull session" in preparation for the Lamesa game tonight, even going so far as to divulge the type of defense that will be used and the type of offensive plays that will be used.

The Rotary club members and guests took great interest in the program. About twenty Tahoka Rotarians expressed their intention of attending the annual Lubbock inter-city meeting which was to be held last night and at which Cartel Robbins of Stuttgart, Arkansas, was to be the principal speaker.

Tahoka Rotarians, as well as those of the Post Club, will be guests of the O'Donnell Rotary Club next Tuesday night at a chicken barbecue at the O'Donnell American Legion Hall at 7 p. m.

### Many Students Go To Colleges

Many students have been leaving the past few days for various colleges of the state to spend the next nine months in advanced study.

Jo Lehman left the first of the week for Austin to enter the University of Texas. Greta Joyce Applewhite left on Wednesday for the U. of T. She was accompanied by her mother, Mrs. J. K. Applewhite, and Mrs. W. O. Henderson, who will visit in Austin a day or two.

Max Minor has also returned to the State University.

Betty Sue Roberts expects to leave this week end for Columbia, Mo., to attend Christian College. Many students from Tahoka and Lynn county are enrolling in Texas Tech. Among them are: Eleanor Dudgeon, Joycelyn and H. A. Maassen, Pauline Hale, Mary Stewart, Ida Botkin, Betty Lou Frazier, Lenore Anglin, Earl Adams, Mary Margaret Tunnell, Edith Robertson, Edward Turrentine, James Price, and Hazel Thomas.

Returning to Canyon to re-enter West Texas State are Tommie Ruth Anderson, Annie Pearl Roberts, and Icapene Stephens, Mary Jane Turrentine. Warren "Rusty" Waldrip left last Sunday for Canyon to enter the football training camp and to attend school this fall.

Students in North Texas State at Denton will include Mildred and Paul Cox.

Effie and Glen Loyd are enrolling in Wayland College, Plainview.

### County's Crop Is Still Promising In Spite Of Damage

The fiercest hail storms of the year wrought destruction or serious damage to crops in several communities of Lynn county Monday afternoon.

But while the destruction was complete in some places and brought stupendous losses to a few individual farmers, yet it is not believed that the total yield of the county has been reduced to any alarming extent.

The storm seems to have struck hardest in the West Point community, where a number of crops of both cotton and feed were almost completely wiped out. The heaviest rainfall was recorded in that community also. The loss would have been much heavier even than it was except for the fact that much of the stricken territory lay in pasture lands, which could not be damaged to the same extent as crops.

In that community much of the cotton was literally stripped of all its foliage and bolls, absolutely nothing of value being left. Cotton that promised a yield of half or three quarters of a bale per acre Monday morning promised nothing after the storm had passed. Pine fields of feed were beaten to shreds. Mesquite trees clothed in heavy foliage were almost utterly stripped, and by Tuesday night presented a bleak and barren aspect.

The rainfall had also been terrific, farmers reporting that several inches fell in little more than an hour's time. Fields were terribly washed, and in places even the gravel shoulders were washed away from the pavement on the Tahoka-Brownfield highway. A lake lying a half mile this side of the Thompson Gin filled and spread over the highway covering the pavement to a depth of two or three feet. Traf-

### School Traffic Patrol Formed

Members of the seventh grade safety classes in the Tahoka High School and their teacher, Miss Ruby Nell Smith, are sponsoring a school patrol to be on duty in the streets near the two school buildings.

The purpose of this school patrol is to protect the lives of school children and patrons and to avoid traffic jams in front of two school buildings.

School officials ask that parents cooperate with the school patrol in safe-guarding lives and property.

Below is a list of rules and regulations that will govern the traffic around the school buildings at the noon hour and at 4 o'clock.

1. Cars coming after school children at noon must come on the street east of the high school building and south of the grade school building.
2. These cars will make their exit by going north or south.
3. There will be no cars coming after children on the street running north and south.
4. There will be no U turns in front of the high school or grade school buildings.
5. Cars using the parking lot on the high school campus will make their exit by using the street running east which is directly north of the grade school building.
6. The two streets directly in front of the two buildings will be one way streets at noon and at 4 o'clock for all traffic.
7. While waiting in cars in front of building, please park parallel to the street.
8. School children walking home from school must not walk in the street, walk next to the curb.

Joyce Jolly, daughter of Mr. and Mrs. J. L. Jolly, has been seriously ill again recently. She suffers from diabetes and other ailments.

### Farmers Urged To Put Up Foodstuffs

Farm families in Lynn county are being urged to check up on their supplies of canned foodstuffs to make certain they have enough to last until next spring, Myriene Cannon, home management supervisor for the Farm Security Administration, said today.

"Each family," Miss Cannon said, "should consider the number of days in the non-growing season of garden stuff. If they do not have at least one quart of canned green vegetables, not including pickles, for each day of the non-growing season, they should immediately plant a frame garden.

"Fact is," Miss Cannon continued, "the families should plant a frame garden, anyhow. By using fresh, green vegetables from frame gardens until long after frost, their food bills will be less; their food will be more health-giving, more appetizing and the homemakers can serve more attractive meals."

Miss Cannon said that in the interest of National Defense, it is most desirable that no food which has been produced this summer should be allowed to go to waste.

"Food for Defense," she said "also

### PHEBE K. WARNER CLUB OPENS WITH LUNCHEON

The Phebe K. Warner Club began the year's program with a luncheon at Mrs. E. H. Prohl's home Tuesday, honoring the outgoing and incoming officers.

The new officers were Mrs. A. P. Edwards, president; Mrs. Winston Wharton, vice president; and Mrs. Walter Mathis, secretary-treasurer. Mrs. Truett Smith, past president, reviewed the accomplishments of the club for the past nineteen years. She turned over the duties of president to Mrs. A. P. Edwards gave a discussion on the benefits that members derive from club work. The Lynn County Library was started by the club and supervised by Mrs. Grover Stewart. The members are now doing sewing for the Red Cross.

Mrs. Wharton announced plans for this year's study course. The Club is studying current topics in the Readers' Digest. Mrs. R. W. Penton was appointed Parliamentarian and Mrs. A. L. Pace, reporter. Mrs. Fred Hegi extended an invitation to the group to attend an all day Feed and Food program sponsored by the Extension Service Sept. 22 at the Legion Hall.

Members attending were: Mesdames Truett Smith, A. P. Edwards, Winston Wharton, J. K. Applewhite, E. R. Edwards, R. W. Penton, Fred Hegi, Walter Mathis, A. L. Pace, E. H. Prohl, R. L. Richardson, D. G. Ridge, G. M. Stewart, Woodrow Walker, Ben Hardy, Mrs. O. A. Wilkes was a guest.

### MRS. GODEKE SPEAKS TO LOCAL CLUBS

Mrs. H. F. Godeke of Lubbock, president of the seventh district Federation of Women's Clubs, addressed a joint meeting of the Phebe K. Warner Club and the Child Guidance Club at the American Legion Hall here Thursday morning on The Advantages of Federation of Clubs.

The Phebe K. Warner Club has long been a member of the Federation but the Child Guidance Club only recently made application for membership.

The Federation theme for the ensuing year, Mrs. Godeke asserted, is All Out for Defense.

This program includes attention to Nutrition, raising the morale of the people in the home and club work, building up international relations, and preservation of food in the home.

Mrs. Godeke in her address especially stressed Nutrition.

Many members of the two clubs heard Mrs. Godeke's informative and inspiring address.

Mrs. Godeke was accompanied to Tahoka by Mrs. Emmett Kerr, secretary-treasurer of the Seventh District Federation.

### ODDS AND ENDS STANDS CORRECTED

The News has received the following communication from R. E. Bland, Rt. 1, Brownfield, who was a resident of this county for many years, in which he calls attention to an error appearing in Odds and Ends in a recent issue of the paper. Mr. Bland says:

"I have waited and let two issues of your paper get by, and no one seems to know of the error in your Odds and Ends of August 22. I always read the same just as soon as I get the outside page, and I really enjoyed reading that old poem, The Spider and the Fly.

"I will add that I've learned to depend on your editorials as expressing my sentiments even in regard to our former Governor and new Senator at Washington, so you will realize I do not like to make this correction; but as no one seems to remember his McGuffy's, I can't let this pass.

"Now, your readers are going to ask just why I can't keep agreeing with our editor. O yes, I liked all you said about how this spider weaves his web and am sure all you know about spiders is absolutely correct. But when you state that you used to read it in McGuffy's old Fourth Reader, I just can't let that go unchallenged.

"Now for the proof. I was allowed the First Reader, and I think I memorized that after completing to Baker in Noah Webster's Speller; and then my older sister had a Second Reader and I finished that during my first school of three months. So you see I was a bright child. Then I begged and borrowed and managed to read most of the Third Reader. So this same sister had managed some how to own a Fourth Reader, and I memorized all the poems in this Fourth Reader, and I still had not heard of this Spider and the Fly for some two years later, when I came in contact with a nephew about 1880 who had been reading the Fifth Reader, and I learned the wonders that the Fifth Reader expressed; and I still think

that there are lessons in that old Fifth Reader that the generations since will never know what they missed by not having read and digested, and I might add assimilated to good advantage. Yours very truly, R. E. Bland."

Many thanks, Mr. Bland, for the correction. Those old Fifth and Sixth McGuffy's Readers were utterly filled with good literature, most of it recognized as standard literature. There was not a shoddy line in either book. Wish we had copies of them to this day.

Flo Etta McBeth, who has been a patient in a Lamesa hospital since last Friday, had shown little or no improvement up to Wednesday of this week, according to her father, P. M. McBeth. Flo Etta became very ill at the school building on Wednesday of last week during the opening exercises of the school and had to be taken home. She has been sick and suffering much pain ever since. Her trouble was diagnosed as colitis, followed for a few days by flux.

For individual treatment of poultry lice use Dr. Salsbury's LOUSE POWDER. Active antiseptic and germ inhibitor.

Mr. and Mrs. W. S. Anglin went down to De Leon Sunday, accompanied by his niece, Miss Estelle Anglin, who remained there to attend school during the ensuing school year. She has been staying in the Anglin home here and attending the Tahoka high school last session.

Jack Cox is visiting his grandmother, Mrs. Pete Wetsel, at Henrietta.

means that it's our duty not to let anything go to waste. Everything in the garden should be preserved for democracy. Let's not waste a thing," she urged.

Discussing the harvesting of garden truck, Miss Cannon said that in nearly every locality, supplies of vegetables and fruits go to waste each year because they are not gathered and distributed for immediate use or either stored or preserved. She said these foods are needed to provide adequate diets to all people.

Questioned about various uses for vegetables outside the home, Miss Cannon said school lunches, in particular, need more of the foods which contribute to good health.

"Last year, only forty-five percent of the schools which used surplus commodities in their free school lunches supplied a complete hot lunch. Local vegetable and fruit surpluses, if they are collected, add to school lunches during the fall, and if preserved instead of being wasted, can help provide adequate lunches in the remaining fifty-five percent of these schools.

"The demand for commercially canned goods," Miss Cannon continued, "will be greater than last year because of increased consumer buying power, Army purchases, and shipments under the lend-lease program."

The FSA home supervisor cautioned farm people against selling products, fresh or canned which they may need this fall and winter as a bulwark against higher living costs.

Returning to the subject of National Defense, Miss Cannon said that farm people everywhere have an opportunity to serve their country during this emergency by growing gardens.

Farm people, or town families also, may obtain complete information about making and growing frame gardens this fall and early winter by contacting the staff of the local Farm Security Administration office in the court house building at Tahoka or from the County Extension office.

### When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the gentle way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

### CITATION BY PUBLICATION

The State of Texas.  
To Richard L. Lowery, Greeting:  
You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. on the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 20th day of October, A. D. 1941, at or before 10 o'clock A. M., before the Honorable District Court of Lynn County at the Court House in Tahoka, Texas.

Said plaintiff's petition was filed on the 6th day of September, 1941. The file number of said suit being No. 1407. The names of the parties in said suit are: Bulah May Lowery as Plaintiff, and Richard L. Lowery as Defendant. The nature of said suit being substantially as follows, to wit: Plaintiff was married to defendant April 22, 1925, and lived with him as his wife until January 1st, 1941, when by reason of defendant's cruel and harsh treatment and improper conduct towards plaintiff and of such nature as to render their living together insupportable, plaintiff permanently abandoned defendant. There are no children as fruits of said marriage (natural or adopted). Plaintiff prays for decree of divorce, for restoration of her maiden name, Bulah May Jenkins, for other and further relief, special and general, etc.

Issued this the 6th day of September, 1941. Given under my hand and seal of said Court at office in Tahoka, Texas, this the 6th day of September, A. D., 1941. (Seal)

### Farmers Enjoy Basket Picnic

The members of the Farmer's Co-operative Society No. 1 and their families met in the City Park for a program and basket luncheon at six o'clock on Thursday afternoon of last week.

The Tahoka High School Band furnished music for the occasion.

The principal speaker of the occasion was Leonard P. Cowden, manager of the Consumers Cooperative in Amarillo.

B. J. Emanuel, president, presided over the meeting.

Terry Noble is secretary of the organization and Claude Donaldson is the business manager.

### ANNUAL BOY SCOUT CAMPORALL SEPT. 19-20.

Lubbock, Sept. 10.—Troops all over the South Plains Council are planning their annual Boy Scout overnight Camporall here Friday and Saturday, Sept. 19 and 20, and Texas Tech invites all Scouts and leaders to attend the opening football game, Sept. 20, with Abilene Christian College. Some 750 Scouts are expected to attend. Lions Club of Lubbock is sponsoring the event.

Scouts will come to Lubbock Friday afternoon, pitch camp, and will take part in a campfire that night. Saturday after a morning of field events, tours will take them to the new flying field, airport, and other points of interest. The football game will start at 8 p. m.

P. H. Caskey is chairman of the event.

### LOYALTY SUNDAY

The News is requested to announce that next Sunday will be observed as Loyalty Sunday at the Baptist Church.

The sermon, the songs and the entire morning service will center around the theme of Loyalty. This is the beginning of the pastor's eighth year with the Tahoka church.

All members of the church are urged to be present. Other are cordially invited.

### Football Schedule At Tech Is Given

Lubbock, Sept. 10.—Starting the football season under new coaches, the Texas Tech Red Raiders are working out daily in preparation for the first game on Sept. 20 with Abilene Christian College.

Schedule for the season follows:

Sept. 20—Abilene Christian College at Lubbock.

Oct. 3—Oklahoma A. and M. at Oklahoma City.

Oct. 16—Loyola at Los Angeles.

Oct. 24—New Mexico U. at Lubbock.

Nov. 8—Creighton U. at Lubbock.

Nov. 15—St. Louis U. at Lubbock.

Nov. 20—Hardin-Simmons at Lubbock.

Nov. 29—Wake Forest at Charlotte, N. C.

### O'DONNELL SCHOOLS OPEN WITH LARGE ENROLLMENT

(From O'Donnell Press)

Registrations of school pupils here showed a total of 230 for high school and 289 in grade school, according to Supt. S. F. Johnson.

The totals have been boosted since that time by new pupils and still more will be coming in, Johnson also stated.

Effort is still being made by Johnson to secure another teacher for the high school, as Jack Snodgrass, last year's principal, is still ill in a Dallas hospital.

For the first time in a number of years the O'Donnell schools opened Monday and the regular opening exercises were not held until Wednesday, giving the teachers more time in which to enroll students.

The first number was a piano duet by Misses Margaret Gibbs and Joyce Edwards; second, violin solo by Mrs. Montgomery, accompanied by Virginia Montgomery; third, a piano solo by Billy Schooler. The address was given by Rev. E. C. McDonald. A piano duet by Billy and Allie Joe Schooler was followed by a chorus by eight small girls. Benediction was pronounced by Rev. Addison.

### D. G. Cook Raises Excellent Apples

If any one had told us that any such apples were being grown in Lynn county, we would have been inclined to write him down on our "far list."

But D. G. Cook, who lives one mile west of Central Church in this county, has the goods to show for themselves. He pulled them on us Wednesday—brought them to the News office with the stem and leaves still attached to one of two of the larger specimens, and presented to us some apples just as smooth and fine as ever grew in Elbert Boulloun's beloved Arkansas.

One specimen presented was the "Delicious," and is certainly lived up to its name.

We have seen many small apples grown in Lynn county, but never before did we see large fine ones like these.

We are also indebted to Mr. Cook for some nice fall peaches brought in with the apples.

### BAPTIST PASTOR'S REPORT SHOWS GREAT PROGRESS

Beginning his eighth year as pastor of the Baptist Church here, Rev. George A. Dale made a report to the Church last Sunday through the Church publication, the Messenger, which showed great progress on the part of the Church during his pastorate.

"In these seven years," says the pastor, "567 have been added to the church; 271 of these for baptism. These have been your boys and girls, loved ones and neighbors.

"The Church has greatly enlarged its facilities, and more is needed to relieve crowded conditions in the basement to bring about better order and better teaching.

"In these seven years the Church has contributed \$54,537.00 for all purposes. Your contributions to the Church Budget for carrying on at home and abroad has doubled in these seven years in spite of our building program, which has called for large gifts from many of us.

"The report to the Association seven years ago was \$3300 and this year it will be \$7100 plus. . . . We have added to our working staff Mr. and Mrs. Ratheal, who have already been a great blessing and shall mean much more as the weeks come and go."

It might be added that at a deacon's meeting Sunday afternoon, plans were discussed for the construction of permanent partitions in the basement auditorium, cutting it into a number of Sunday School class rooms and two assembly rooms. This will probably be the next improvement project undertaken by the Church, and it may be undertaken and completed during the next few months.

Respecting the pastor's report, as quoted in part above, it might be stated that Geo. A. Dale has made a record as pastor here. In the first place, he has served as pastor of the Baptist Church for a longer period of time than any previous pastor has served, seven years, and during that time he has led the church in the building of a magnificent superstructure on the basement constructed a dozen years before, the most ambitious financial undertaking of the Church in its entire history.

### VISIT RELATIVES IN MISSISSIPPI

Mr. and Mrs. Fred Stone and daughter of Post, Mrs. T. A. Stone and T. A., Jr., and Mr. and Mrs. Edd Stone and family of New Lynn, and Mrs. D. B. Nash of Slaton have returned from a three weeks visit with relatives in Hazelhurst, Mississippi.

They report that they went fishing in the Mississippi River, visited Jackson, the capital of the state, and just had a wonderful trip.

Elder Drennon's notes were crowded out this week. It is possible that we will run them or another batch next week.

### Help Your Doctor Help You

The best efforts of your physician may be unavailing unless you do two things to help him get you well. First, have his prescription compounded by a qualified pharmacist who uses only fresh, pure drugs of the finest quality obtainable. Second, take your medicine regularly in the manner prescribed by the doctor. The medicine cannot do you a bit of good if it is left in the bottle.

2 cups ground beef (1 lb.) 2 tablespoons hot shortening  
1 1/2 cups day-old bread crumbs 10 1/2 oz. can condensed tomato soup  
1 cup Fat Milk 1/2 cup water  
1/4 cup finely cut onion 1/2 cup water  
1 1/2 teaspoons salt 2 cups prepared biscuit flour  
1/2 teaspoon pepper

Put in bowl the ground beef, bread crumbs, 1/2 cup milk, the onion, salt and pepper. Mix thoroughly, then divide into 12 portions. Dip hands in water and shape each portion into finger-like patties. Turn on oven and set at very hot (450°F.). Brown patties on all sides in hot shortening. Arrange patties like spokes of a wheel in bottom of a deep 9-inch pan. Pour tomato soup and 1/2 cup water into pan used for browning patties. Heat to boiling point, then pour over and around patties. Let stand. Put prepared biscuit flour in bowl. Stir in with fork remaining 1/2 cup milk diluted with remaining 1/2 cup water. Turn out dough onto lightly floured board. With floured fingers, pat dough into a round. Knead a few seconds, or until dough is smooth. Roll into a round 1/4-inch thick and measuring same size as pan containing patties and sauce. Put dough on top. Bake about 20 minutes, or until top is brown. Turn out on serving plate. Serve at once. Serves 6.

The planet Mars is now staging a brilliant show in the eastern skies each night. To the astronomers, Mars is a very interesting planet, and during the past few years some silly folks have been speculating on the possibility of spanning the space with some sort of vehicular missile from Earth to Mars. It will be remembered that a couple of years ago one Orson Wells pulled a hoax about our Earth being bombed by men from Mars that scared thousands of radio listeners half to death. Since scientists tell us that it is only 50,000,000 miles between the two planets, there is great probability, of course, of being able to visit Mars and of the Martians being able to return the call. If an object should leave the earth traveling at the rate of a thousand miles an hour in the direction of Mars and could keep up that speed the entire distance, it would reach Mars at the end of five years and eight months, or thereabout. If we can conceive of a man traveling in some missile catapulted from the earth through space at the rate of six miles per second, it would still require 241 days for him to reach Mars; and we are wondering what he would look like after he lit. It all shows how foolish human beings become sometimes.

Right here is where we stick our neck out. We think it is a shame the way some of our public buildings are mutilated. Go into almost any rest room for men, and the walls will be found decorated with obscene pictures and scribbling. Many times they are found to have been ruthlessly carved with pocket knives. All such mutilation and defacement of public buildings is a violation of law. If evil-minded persons can not be persuaded otherwise to quit this inexcusable mutilation and messing-up of public buildings, the custodians should proceed to do some spying and make immediate report to some peace officer of all such violations of the law. And then the guilty culprits should be severely punished. We remember that this county had one janitor at the court house who made it hot for such vandals, and when he did find even a mark on the wall he immediately cleaned it off, and the walls of the rest rooms in the court house were kept almost spotless as long as he was janitor. We think that janitors of our public buildings should be instructed to put a stop to this evil and then be held accountable if they should fail to do so.

One Dr. E. J. Bigwood, technical advisor to the Belgian government in London, has made a report in which he declares that adults in Nazi-conquered Belgium are receiving only 40 percent of their minimum food needs and children from 50 to 80 percent. Adults had shown a loss in weight of 11 to 44 pounds from diet deficiencies and death and disease rates were rising. Other reports have been published

**Ginnings BY COTTON JOE**

I always wear cotton seersucker in summer 'cause it feels so right an' cool. But since seein' all these girls in their new seersucker swim suits, I've gotta admit it looks even better on them than it feels on me.

to the effect that many of the inhabitants of other Nazi-conquered countries are being starved. Some humanitarian organizations in this country draw the conclusion from these facts that America should send the needed food to the people of these unfortunate countries. On the face of it that would appear to be the right thing to do. But these "humanitarians" forget that if we undertake to feed these conquered peoples, that lifts the expense and the burden from the shoulders of the Nazis and indirectly furnishes to them the means with which to fight their wars of conquest against other nations. In other words, we are thereby helping Hitler to finance his diabolical campaign against Russia, Great Britain, and eventually, perhaps, the United States itself. Hitler should be forced to take care of his own slaves.

As this is written near the first of the week, we are wondering if old Hit isn't beginning to suspect that he made a mistake in jumping on those Russians. He finds that his six-weeks job is not done at the end of twelve weeks, and the Russians seem to be taking the play away from him. His armies are making no progress and, if reports are true, he is rushing his reserves from the western front to the eastern to keep his stalemate from becoming a rout. Furthermore, the British are steadily increasing the intensity of their air bombardment of the Nazis, and acts of sabotage and signs of rebellion are thickening in France. But, as big as the mistake was in tackling Russia, that will be only a small error as compared with the boner that he will pull if he dares to sink another German submarine on another one of our warships.

Newspaper stories tell us that the soldier boys in the maneuvers down in Louisiana are charging that they are being hi-jacked in the prices being charged by business concerns in all the little towns of the area. If that is true it reflects no credit on the business men of that section. It is a poor brand of patriotism that would hold up Uncle Sam's soldier boys while they are in training to protect this country against a possible enemy and a poor brand of honesty that would permit any business man to take advantage of any youth situated as these boys are to rob them.

**CARD OF THANKS**

I want to thank my friends and neighbors and my physician, Dr. Prohl, for being so attentive and nice to me both while at home and while in the Lubbock Sanitarium during my recent illness. I am also deeply grateful for the beautiful flowers and everything else you have done for me.—Mrs. J. O. Patterson.

Mrs. J. O. Patterson, who has been seriously ill and who spent several days as a patient in the Lubbock Sanitarium recently is now much improved, Mr. Patterson states. It is hoped that she will soon fully recover.

**MOVE TO CALIFORNIA**

Mr. and Mrs. W. H. Womack, residents of Tahoka the past ten years, left this week for Bakersfield, Calif., to make their home. Mr. Womack has been in Bakersfield for about a year, he having a job there. He came here last week end to get Mrs. Womack and they left the middle of the week. Their son Herbert, who recently volunteered for service in the Army, has arrived in the Philippine Islands.

Trade in your home town!

Pecos Turner was swapping bird-dog talk with Herman Grote, the cleaner, the other day when in came Parson Smith, wanting to know if Herman could clean and press his wife's dinner dress. "Sure," Herman told him. "Want me to send out to the house for it?" "Oh, no," said the Parson. "I've got it with me." And he reached in his hip pocket and pulled out the dress.

All of which brought on the following discourse on fashions by Pecos:

"It's a caution how times change. Back yonder in my day a man was sure gambling when he set out to woman. He never knowed for certain a gal had legs till he married her. The yards of garments she's wearing, he can't tell. What she's got on would overdress a ballroom today.

"Nowadays, it's different. Bobbed hair, short skirts, low front and back—every rag she's wearing wouldn't pad a crutch. And if a young buck ain't satisfied that all the cards are face-up on the table, he can carry her to the seashore and dunk her in the water in a one-piece bathing suit, and every scar, wart and pimple will stand out. All he's got to do now is find out what brand of beer she drinks.

"Used to, I thought women was delicate critters, and it was men what could take punishment, but I'm wrong. Come winter, and a gal wears fox fur, but her briskeet's bared to the weather and the only break to the cold on her legs is a pair of fish-net stockings. All she's got on wouldn't warm a wet pup.

"But you don't hear her teeth rattling or see her slapping her hands or stomping her feet. If she's cold nobody knows is. Turn a man out in the weather as shy of clothes as that and you could comb Texas and half of Chicago and not find doctors enough to fight off his pneumonia.

"No sir, give a woman her vanity case, and she can go further than a man with a Sharpe's rifle and a side of bacon."

Which somehow reminds me of the lady who attended my own wedding.

When the ceremony was finally over and the knot was tied hard and fast for life, this particular lady could control her emotions no longer.

"It was lovely, just lovely," she wailed to my brand-new mother-in-law. "The beautiful clothes . . . it reminds me of my wedding. My folks wouldn't let me marry Ed, so we had to run off, and the only new thing I had in my trousseau was a pair of purple bloomers!"

Charley Wiley wants it understood that he has no great hankering to leave the company of good clean hound dogs and wade in the cow-pen slush of politics.

"But," he remarks with some heat, "if I was to accidentally get elected to the state senate sometime I sure would bust a suspender strap or outlaw some of these hats women wear these days.

Charley Wiley has evidently been doing a little courting again, because the other morning 17-year-old Sophia Miller arrived at the cotton field way long after sunup, just barely able to keep her sleepy eyes open, and Grandma Black called her hand on it.

"Now, it's like this, Sophie," Grandma said sharply. "You can't expect to hold out dragging a heavy cotton sack all day after sitting up with Cherley Wiley and baking your eyeballs by lamplight all night. I know, I was young and frisky one time, myself."

**GIGANTIC WORMS ARE EXHIBITED IN TAHOKA**

Like everything else, these plants worms grow to gigantic proportions when the spring and summer rains are abundant.

Nobody who saw those specimens that Guy Smith of the New Lynn-Gordon community was exhibiting here Monday will dispute that statement.

Everybody has seen these big "tobacco worms," often found on plants and vines. Well, they are mere babies as compared with the animals that Guy Smith brought in. He had them in a glass jar and as one looked down upon their broad, flat heads, and long, protruding snouts, he might well believe that he was looking upon some poisonous reptile. However, they seemed to be harmless, for when Smith would roll them about on the floor their only response was to spread out somewhat like an adder.

But while they are harmless as far as human beings are concerned, they certainly must be hard on vegetation. These specimens and about fifty others were found by Mrs. Smith on the foliage of some ornamental vines growing about her porch.

They attracted a lot of attention in Tahoka. Nobody had seen anything like them.

Y. L. Boulter of Las Cruces, New Mexico, visited his sister, Mrs. Fern Hancock, here last week.

**EDWARD McMILLAN TAKES TO SEA**

The News received a communication Sunday from Edward McMillan, written on the preceding Friday, September 5, from the United State Naval Training Station at San Diego, California, from which we quote as follows:

"I received a call from the selection officer to go to sea on the battleship Oklahoma. I am going to leave tomorrow. I do not know my new address."

We do not know what the future will bring for Edward, but we are sure that whatever it brings he will be found doing his part. He started in working in the News office several years ago, and he made a hand until a few weeks ago when he volunteered for service in the Navy.

MILLIONS OF POUNDS HAVE BEEN USED BY OUR GOVERNMENT

# ODDS & ENDS

by Eec Eye, the Elder.

Just now the eyes of the world are upon the titanic struggle being waged between Hitler and the Russian Bear.

At first it seemed that the Bear had been caught napping, but he seems to have been wiser than we thought; he had made much preparation for just such an attack. And now it seems he is catching his stride, and Hitler is beginning to wonder, no doubt, who will help him turn that Bear loose.

But, we are not here making any predictions as to the final outcome of this combat. We just want to brush up on Russia a little.

We in this country are proud of our magnificent distances. Especially are we in Texas prone to brag about the vast stretches of our state—how far it is from Texarkana to El Paso, et cetera.

And when we get down our United States map and con over the distance from New York to San Francisco, Augusta to San Diego, Miami to Seattle, and then cruise along up the Pacific coast to Alaska and trace its vast reaches northward to Behring Strait and southwestward in the Pacific toward Japan, we fairly swell with pride.

But, listen, folks, we don't know anything about bigness and distances until we know Russia. The United States including Alaska could be spread out twice on the map of Russia and there would still be Russian territory left uncovered. It occupies the eastern half of Europe and then stretches entirely across the vast continent of Asia. Its northern fringes extend into the Arctic Circle and its southwestern sweep extends almost down to the Mediterranean and the ancient Holy Land. It is more than five thousand miles from Odessa on the Black Sea in the Southwest to the shores of Bering Sea on the northeast, possibly six thousand miles.

And we out here on these plains talk a lot about how expansive they are. Almost the whole of Russia is one vast almost level expanse. Except in the West and the Southwest, where the Ural Mountains separates European Russia from Asiatic Russia, the elevation scarcely ever rises to more than 1,000 feet, rarely higher than 800 feet.

Much of this expanse is heavily timbered, much of it covered only with grasses, and much of it is

scarcely more than a bleak, cold desert. But Russia is a land of great natural resources, especially European Russia.

Across Southern Russia in Europe extends a great, black-land belt, which is exceedingly productive, so productive that long ago it became known as the "granary of Russia". There are produced untold millions of bushels of corn and wheat and other grains. And down in the southern corridor between the Black and the Caspian seas, considerable cotton is produced. Rich coal mines and oil fields are to be found in the Southwest, and it is for these and for the fertile grain lands in the Ukraine, that Hitler has been making his terrific drive for the past twelve weeks.

The richest part of Russia, of course, is that part which lies in Europe, a territory scarcely more than half as large as the United States proper. But in this territory live about 125 million people. There are only 44 or 45 million in all the vast expanse of Asiatic Russia which is four times as large as European Russia.

The Russians are a Slavic race. A-kin to them racially are the Jugoslavs, the Czechoslovaks, the Bohemians, Moravians, and others. Altogether, there are about 200 millions of them.

It is not known when their ancestors first settled in Russia. They have been inhabiting the land for countless centuries.

Very few of us here in Texas ever heard anything much about the city of Kiev or Kief until after Hitler started his blitzkrieg into the Ukraine, and yet it is no mean city. It is considerably larger than any city in Texas or even in the South. It has a population of more than 600,000 against a population of less than 500,000 for New Orleans. Founded in 864, it is the oldest of famous Russian cities, and is known as the "Mother of Russian Cities." It was in Kiev that the first Christian Church in Russia was established. There also was founded the first Christian school and the first library in Russia. It is in the rich and populous Ukraine Republic, Ukraine being about two-thirds as large as Texas with a population of more than 29,000,000.

Whoever heard of Kharakov? Well, it is the capital of the Ukraine with a population of 742,000, almost as large as St. Louis.

Odessa is Russia's Black Sea seaport; which the Germans claim to have surrounded and isolated. It has a population of 442,000, a little larger than Houston.

But the largest of all Russian cities is Moscow. It is larger than Chicago, much larger than Paris, France. Only the cities of London, New York, Tokyo, and Berlin, among all the cities of the world, surpass it in population. It is credited with a population of 3,572,000.

Moscow is the greatest industrial center and the greatest railroad center of all the Russias. It has six trunk line railways, which is "something" for Russia. And it is the capital of the country, officially known as the Union of Socialist Soviet Republics.

That is why Hitler is so anxious to capture the city.

But Moscow is not only the largest city and the capital of Russia, it is also one of the most interesting cities of the world. Founded in the twelfth century, it has a long history and is rich in tradition.

In the heart of the city is the Kremlin, an ancient fortress built for the protection of the city. It is triangular in shape and is enclosed with a stone wall, the length of the three sides being about one and one-half miles. The original walls were built in the same year that Columbus discovered America.

In the Kremlin are situated the Imperial Palace, a number of Cathedrals of the Eastern Orthodox Church, though they are not frequently used for church purposes just now, an arsenal, and the famed Bell of Moscow, the largest bell in the

world.

This bell has a circumference of sixty feet and a weight of 192 tons. It has never been rung, for it was cracked in the making, a great section weighing eleven tons was broken out of it. But it is an interesting relic of a by-gone age. It was built, by the way, in 1733, when George Washington was just one year old. It is not thought, however, that George had anything to do with its construction. George made good, however, a proclamation sounded forth a little later by a smaller but possibly more famous bell, the Liberty Bell, for which old Stalin possibly has little love and which old Hitler would like to smash to smithereens. But Americans are going to keep it ringing.

Moscow was the capital of Russia for centuries. Then came Peter the Great and founded St. Petersburg, making it his capital. It continued to be the capital until the Russian Revolution during the first World War, when the Bolsheviks took charge of the country and made Moscow the capital again, changing the name of St. Petersburg to Petrograd, because they didn't like that German ending, burg; and later they changed it again to Leningrad in honor of their great leader, the founder of Bolshevism, Nikolai Lenin. St. Petersburg, now Leningrad, had been the capital of Russia for more than two centuries during the despotic reign of the Czars. Leningrad is now another object of Hitler's attack, because it is Russia's most important seaport, giving her an outlet to the world through the Baltic.

But Moscow is Russia's most important city. It has made wonderful growth and been greatly modernized since the Bolsheviks made it their capital in 1918. We should like to visit it some time. So would Hitler. Napoleon Bonaparte visited it once to his ruin.

Like Hitler, he had conquered about everything else in sight—except England and Russia—and he really had whipped big old Russia and had her eating humbly out of his hand. But because it was physically impossible for Russia to do some things that Napoleon demanded of it, he attacked the country a second time. The Russians didn't give open battle that time. They tactfully retreated, but as they re-

treated they took care to burn or otherwise destroy everything in Napoleon's path that could be of any value to him. When he and his army of 600,000 men reached Moscow, they found it in flames. His prospective booty had been destroyed.

Winter was coming on, and he had to get back to food. He had hardly started on the way when winter hit hard. The blinding snowstorms came, the winds howled like hungry Russian wolves, and the country was desolate—there was no food. About twenty-five thousand of his original army of 600,000 men got back out of Russia. It was the beginning of the end for the mighty Napoleon.

Now Hitler is fighting desperately with a mechanized army of millions

to reach Moscow. He is making slow progress, and the Russians are destroying the stores of grain and food in the territory which they are compelled to surrender. It will be winter before Hitler can reach Moscow, if ever. If he does reach it, we doubt if he gets back out of Russia with half his army. This may be the beginning of Hitler's end—who knows?

Mr. and Mrs. R. C. Wells and children spent several days last week at Christoval.

**Spindle Top STARTED IT!**

Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas.

That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state.

In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves.

Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries.

From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan.

The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state.

Today all of Texas salutes Spindletop!

On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop.

Inscribed in ageless Texas granite will be the story of oil.

This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

This advertisement paid for by various units of the industry and sponsored by

**TEXAS MID-CONTINENT OIL & GAS ASSOCIATION**

### AAA Will Put More Emphasis On Soil Building In 1942

When final provisions of the 1942 AAA farm program are drafted, increased emphasis will be placed on conservation and soil-building work on individual farms. C. A. Lawrence, secretary of the Lynn county AAA committee, said this week.

Soil-building allowance rates, which will be the basis for determining maximum payments farmers may earn, have been announced through the Department of Agriculture. The rates will be substantially the same as in 1941.

Under the 1942 program, farmers may receive two kinds of payments with the rates for compliance and special crop allotments to be announced later. The two types of payment are: (1) a payment for carrying out approved soil-building practices, and (2) a payment for planting within special crop allotments such as wheat, cotton, rice, and peanuts.

As in former years, conservation payments to be made under the 1942 farm program are contingent on the annual appropriation authorized by Congress, the AAA official said.

Instead of a total soil-depleting allotment for the farm, there may be substituted special crop allotments covering certain feed grains in surplus areas, he said, adding that the state committee has not yet decided whether this would be necessary in Texas. Feed grains include oats, barley, rye, grain sorghums and corn.

Allotments will not be set up for commercial vegetables this year, he added.

A soil-building allowance is established for each farm on the basis of such factors as the farm's crop land, non-crop pasture land, commercial orchards and vegetables, and the participating farmer may earn his farm's allowance by carrying out approved practices.

Under the 1942 program, a farmer's allowance will be computed at either 70 cents per acre of crop land not included in special crop allotments for the farm in areas where feed grain allotments are not established, or 50 cents per acre of crop land not included in special crop allotments for the farm in areas where feed grain allotments are established. In 1941, the 70-cent rate applies only to areas generally deficient in feed, while the 50-cent rate is available in surplus feed areas. The Texas AAA committee has not yet designated areas where the different rates of payment will apply.

The rates of non-crop pasture land will be the same as those under the 1941 program, Mr. Lawrence

### Offer Exams For Naval Service

Local men between the ages of 17 and 50 years, married or single, will have an opportunity Monday, Sept. 15, to take examinations at the Tahoka post office and if qualified, enlist in the Naval Service for duration of the National Emergency. Postmaster W. E. Smith announced today.

Navy recruiting officials at Lubbock have informed Postmaster Smith that 600 Naval recruits are needed this month from the north half of Texas and Oklahoma district. To give better service to those interested the 18 Navy recruiting stations in the district are this week opening approximately 100 one-day-week-stations in which Tahoka is included.

Men between the ages of 17 and 36 may enlist in the Naval Reserve for training in aviation, radio, signals, clerical work, metalsmithing, machinists, electrical, carpentry and storekeeper work. The Navy is now operating 72 trade schools in which enlisted men receive the pay and allowance of their rating. Those who fail to qualify for or in the trade schools are retained in general service for duty where best qualified. Promotion is open to them in other lines of work.

Mechanics, clerical workers and others qualified through experience in trade or professions may enlist in the Naval Reserve with rating and monthly pay beginning at \$60.00, \$72.00, \$84.00, or \$99.00, depending upon the individual's qualifications. Age limits in this classification are from 17 to 50 years.

Married men may be enlisted in the Naval Reserve if qualified for pay rating sufficient to support their dependents, or if such dependents have no other means of furnish proof of place and date of \$72.00 per month, or more, receive

said, and will vary by areas. Fifty cents per acre will be allowed for restoration land. In 1941, the soil-building allowance on restoration land is 45 cents per acre, but the additional payment of 15 cents per acre made on this kind of land in 1941 will not be continued in 1942.

A payment of \$1.30 is allowed for orchards. For commercial vegetables normally grown on the farm, the 1942 payment is \$1 per acre. Included in the 1942 program will be the special allowance of \$15 which farmers may earn by planting forest trees. This payment will be in addition to any other allowance which may be computed for the farm. The \$20 minimum payment to a farm is also included in the 1942 program, Lawrence said.

Cotton stockings aren't what they used to be, judging by the samples being looked over here by David H. Young, hosiery designer for the U. S. Department of Agriculture's Bureau of Home Economics. These stockings represent but a few of the 150 designs for better-looking, better-fitting, better-wearing cotton hose released by the Bureau of Home Economics to manufacturers in the past two years. Dora R. Barnes, Extension Service clothing specialist for the Texas A. and M. College Extension Service, says beautiful cotton hose, the kind women will be proud to wear, will be one result of the present shortage of silk hosiery.

### Two Are Given Pen Sentences

L. J. James, colored, entered a plea of guilty in the district court here Wednesday afternoon to the charge of burglarizing the First National Bank of O'Donnell on August 10, and was assessed the punishment of five years in the penitentiary. James made his entry into the bank through the roof, at night, it will be remembered, and was caught by officers in the act.

He is an ex-convict, and is one of the men who escaped from the jail here recently but was caught by Sheriff Parker the next night just over in Dawson county.

Avie Johnson, white, also entered a plea of guilty Wednesday afternoon to a charge of forgery, and his punishment was assessed at two years in the penitentiary.

District Attorney Rollin McCord states that owing to pleas of guilty the criminal docket promises to be very light when it is taken up on September 29.

McCord states that three contested criminal cases have been tried in Brownfield this week. Perry Cullins, former of the Davison Ranch lying in eastern Terry and western Lynn county, was convicted of cattle theft and given two years in the penitentiary.

Cecil Peek, formerly of Lynn county, was also convicted of cattle theft and was given a five years' suspended sentence.

Troy Pennell, colored, was convicted of the murder of another negro, by a jury, on Wednesday morning and given five years in the penitentiary.

Cullins was represented in the cattle theft trial by Burton Hackney of Brownfield, while Peek was represented by Truett Smith of Tahoka.

Investigation of these cases was made by Ed Sanders, deputy sheriff of Lynn county, and Frank Mills, former Texas Ranger and now investigator for the Caprock Cattle Growers Association.

McCord reports a heavy criminal docket at Brownfield, with six pleas of guilty last week, and several other cattle theft cases to be tried within the next few weeks.

**GRASSLAND 4-H CLUB**  
"The tomato is an excellent source of vitamin A," stated Miss Maurine McNatt, home demonstration agent, at the Grassland 4-H meeting Wednesday, Sept. 10, at the school.

"Vitamin A is needed to protect the eyes and the mucous membrane lining of the nose, throat and the lungs. Night blindness is often caused from the lack of vitamin A in the diet, and so are bad colds."

There were seven old members and five new members present. The club will meet again Sept. 24, with the sponsor, Mrs. E. M. Walker, in charge.

Senator Marshall Formby was painfully but not seriously hurt in a car wreck near Coleman Tuesday while on his way to Austin.

\$1.15 per day extra as housing allowance for dependents.

The Secretary of the Navy has publicly pledged that all Naval Reservists will be released from active duty and returned home as soon after the National Emergency as their services can be spared.

Enlistment in the Regular Navy provides for a full-time employment career with retirement privilege with good income at an early age, recruiting officials declared.

All applicants for enlistment must furnish proof of place and date of birth.

### Gail Man Victim Of Explosion

(From O'Donnell Press)  
Elmer Holler, 43-year old Gail man and employee of the highway department, died Wednesday night from burns received earlier that day when a storage house burned and his clothes caught fire.

Holler's most severe burns were about the back, although other parts of his body were affected. According to reports of friends in O'Donnell, an explosion first occurred and Holler's clothing was soaked, quickly catching fire. He ran to a nearby ditch and tried to put the fire out, but not until two other men rolled him over and over were the flames quenched.

Funeral services will be held from the Baptist church there today, with Masons in charge of the services. Holler was worshipful master of the Gail lodge.

### PARK IS IMPROVED

T. E. Park, aged citizen of Tahoka, who suffered a heart attack on Tuesday of last week and was taken to the West Texas Hospital early Wednesday morning in a very critical condition, had sufficiently improved as to be returned to his home here Saturday. He is still confined to his bed, however, and his condition remains serious.

Spend your dollars with the home merchant this fall!

**BAPTIST CHURCH WILL BE HOST TO ASSOCIATION**

The First Baptist Church will be host to the Brownfield Association September 16th and 17th. Everyone is invited to attend this meeting. There will be several interesting speakers and the information of the association will be given.

The Brotherhood meeting is Tuesday night, and they will have a special part on the program. This work is one of the most important phases that has been launched in this church and in all the churches of the Southland. All men are urged to come for the services Tuesday night starting at 7:15.

The Sunday School attendance for the month of August averaged 248 per Sunday. We are hoping to go beyond that this month.

The program for the week:

- Sunday**
  - 9:45 a. m. Sunday School.
  - 11:00 a. m. Morning worship.
  - 7:00 p. m. Training Union.
  - 8:00 p. m. Evening worship.
- Monday**
  - 4:00 p. m. Sunbeams.
  - 4:00 p. m. W. M. U. circles. Lunsford with Mrs. A. L. Smith, Walker with Mrs. Jodie Nevill, and Sallee with Mrs. V. Smith.
  - 7:00 p. m. G. A.'s. Y. W. A.'s.
- Tuesday**
  - 10:00 a. m. Association.
- Wednesday**
  - 9:00 a. m. Association.
  - 7:00 p. m. Teachers' and officers' meeting.
  - 8:00 p. m. Midweek Prayer service.
- Thursday**
  - 8:00 p. m. Choir rehearsal.

Visitors in the L. E. Evans home Sunday were Mrs. D. W. Liles and daughter Glenna Sue, Mrs. H. W. Dawson and sons, Billy, Philip, and Glendon, of Slaton; also Mrs. G. W. Nickel, mother of Mrs. Dawson and Mrs. Evans, who will remain in the Evans home for a short visit before returning to her home in San Angelo.

MRS. LENORE M. TUNNELL

**B-F W CLUB SPONSOR REVIEW OF BOOK**

The Business & Professional Women's club is sponsoring a book review to be given by Mrs. Lenore M. Tunnell Monday night in the high school auditorium here.

The book to be reviewed by Mrs. Tunnell is "Keys to the Kingdom", written by the noted author A. J. Cronin, who wrote such other well known books as "Citadel", "The Hatter's Castle", "The Stars Went Down", and "Three Loves".

Mrs. Tunnell has been in much demand recently as a book reviewer, and the B. & P. W. club assures the public that they will be given a treat in this Review.

Admission charges: ten cents for school children, twenty-five cents for adults.

**METHODIST CHURCH**

On Wednesday of this week a fall session of the District Conference was held at the First Methodist Church in Lubbock. At this Conference the work of the year was reviewed and plans were made to close out the work of the year so that our Lubbock District may be a hundred per cent as usual in recent years.

Two more months remain until Annual Conference and we plan to make them count. This will be possible with the regular attendance of the members from here on out. A number of new members have been received during the past month and new people have joined the Sunday School. Regular members are urged to make new members welcome by visiting them in their homes and greeting them as they come to church. Now that the worms have been exterminated we hope to see absentees back in church.—Geo. E. Turrentine.

**METHODIST WOMEN MEET**

The Women's Society of Christian Service met in the basement of the Methodist Church at 4 o'clock Monday afternoon.

The Spiritual Life committee had charge of the devotional, Mrs. W. D. Smith Sr. reading the scripture and Mrs. Gibson giving the meditation.

Following this we had our monthly business session.

Those attending were: Mesdames Turrentine, Mathis, Welch, Server, Franks, and Gibson.

**NEW LYNN 4-H CLUB**

"A person should eat tomatoes or a food rich in vitamin C, such as citrus fruits, strawberries, melons, or raw cabbage, each day," Miss Maurine McNatt, home demonstration agent, told members of the New Lynn 4-H club Tuesday, September 2, at the school.

"The tomato is our best source of vitamin C. The tomato, either ripe or green, is a rich and cheap source of vitamin C, without which a person may suffer from bleeding of the gums, loose teeth, sore joints, loss of appetite, and loss of weight." There were eleven members present.

**TAHOKA HOME-MAKING GIRLS COMPLETE SUMMER WORK**

The Homemaking Girls completed their summer work last week. They feel that they have accomplished much from their projects, as a majority of them have been canning and doing other things which will help their families as well as themselves.

Following is a summary of the work done: Canning, 1275 cans of vegetables, 974 cans of fruit, 136 cans of jellies, 30 cans of pickles. Clothing construction, 30 garments were made and 8 garments were reworked.

The projects chosen were gardening, canning, yard improvement, clothing construction, bedroom improvement, and handiwork.

Most of the girls completed their work by the last of June, at which time they had an achievement day tour, ending with a picnic at Lubbock.

The gardening projects required more time and have just been completed.

**D. A. STEVENS RETURN FROM WESTERN VISIT**

After spending almost six weeks visiting their children in New Mexico and Arizona and at several points in California, Mr. and Mrs. D. A. Stevens arrived home on Thursday afternoon of last week, delighted with their trip. They report having seen many interesting and wonderful things.

While visiting their daughter, Miss Lois, in San Diego, they saw a water pageant, "Parade of Lights," in which almost two hundred ships and boats, large and small passed in review, outlined in various colored lights. Mrs. Stevens described this as one of the most beautiful sights she had ever seen.

**HOME EC. I-B ELECTS CLUB OFFICERS**

The members of the first year Home Economics girls elected unit officers for the year Monday.

The following officers were elected: Chairman, Beth Shepherd; vice chairman, Billie Jo Cowan; secretary and treasurer, Alice Jewell Parker; recording secretary, Oleta Gary; song leader, Helen Jo Rogers; Librarian, Joy Carter; parliamentarian, Alice Roberts; and reporter, Johnnie Mae Anderson.

After the election of officers, refreshments were served to the class by Lois Dan Jester, Francis Mae Aten, and Oleta Gary. The meeting then adjourned and Miss Wright continued with the study.

**GRASSLAND H. D. CLUB GIVEN DEMONSTRATION**

"Moths dislike publicity" was an impressive statement made by Miss Maurine McNatt at the demonstration given in the home of Mrs. A. A. Lawson Tuesday afternoon.

"Since moths are sure to 'keep out of the papers' we can feel perfectly safe in storing our out-of-season clothes in labeled cardboard boxes on high dark shelves if they are first sealed air-tight in folded newspapers."

After the demonstration refreshments were served by the hostess to Mesdames A. L. Shepherd, G. C. Watson, Carl Greer, Claude Thomas, Roy Lemond, J. D. Smith, R. E. McCord, Tom Brown, and Miss McNatt.

Mr. and Mrs. E. H. Boullion and son Elbert Jr. entertained the Sub Deb Club and their escorts Friday evening with a barbecue on their back lawn.

## Marie Womack New Lunch Supervisor

Miss Marie Womack, who grew up in Tahoka and who overcame many obstacles in order to secure an education, is the new district supervisor of WPA school lunch rooms, at a very lucrative salary. She began work on the new job on September 1.

Miss Womack is the daughter of Mrs. Martha Womack. She worked in various Tahoka homes for her grade and high school education. She was determined to have a college education and entered Texas Tech in spite of the fact that she only had enough money to pay her entrance fee. However, Marie secured employment, and after meeting many adversities, received the B. S. degree in Home Economics in 1938. She almost immediately was selected as dietician of the Big Spring State Hospital, which position she held until a few days ago, when she resigned to accept this better-paying position.

As area supervisor, she will have charge of school lunch rooms in Lubbock, Lynn, and Garza counties, with headquarters at Slaton.

Many friends in Tahoka are happy over Marie's success.

Mr. and Mrs. Harley Wells of Seminole, accompanied by Mrs. Wells' mother, Mrs. C. B. Keltner, came Sunday for a visit here. Mrs. Keltner, who left here in the spring to attend her son's wedding, then went on to Portland, Kentucky, to visit her aged mother, who died while she was there, July 16.

## Hail Storm . . .

Continued from Page 1  
fic has been routed around the lake through a field.

The path of this hail was several miles wide, and it extended through the West Point, Three Lakes, Wells, and New Moore communities, though the destruction was not so complete in any of these communities as it was at Three Lakes.

Another storm area lies in the New Lynn community and eastward. The hail-stricken area there is said to have been about three miles across from north to south and about eight miles in length from west to east—from the W. H. May place on the north to the Dan Carpenter place near New Lynn on the south, and thence eastward.

Some crops in this territory are reported to have been almost totally ruined while others suffered damage in varying degrees.

High winds accompanied the storms in all these localities. The wind blew down some small buildings and blew out some window lights in the West Point community. At O'Donnell, where an inch of rain fell, a big cotton warehouse was blown down.

In Tahoka, the rainfall was heavy, and there was some wind but no hail. The total rainfall Monday afternoon and night here amounted to 2.05 inches. Fully 1.75 inches fell in less than an hour's time. There was evidently several times as much rain at West Point as there was here. It was a veritable cloudburst that submerged that community.

The storm revealed one most encouraging fact, however, to all who have eyes to see. Out at the Claude Wells farm eight miles west of Tahoka, for instance, the hail beat all the leaves off the cotton plants and many of the bolls and probably ruined a large percentage of the bolls that were left, but with all the leaves off of the way, there the bolls were, plainly visible, countless millions of them, round and plump, shining in the sunlight. They ranged in size all the way from half-grown to full-grown; and this field must have been typical of a thousand others in Lynn county. And if the army worms should eat every leaf off of every stalk of cotton in Lynn county tomorrow it would not seriously damage any of these matured or near-matured bolls. There are enough of them to make a wonderful crop, worms or no worms.

## Baptists . . .

Continued from Page 1  
and considered, with a sermon by Rev. Ted Brian at 11:20 a. m.

After luncheon, the business meeting will be conducted and the closing sermon will be delivered at 3:15 by the local pastor, Rev. George A. Dale.

Mentioned on the programs of the association in one capacity or another, we note the following Lynn county Baptists: Rev. W. H. Jackson, pastor of the Wilson Church; Rev. George A. Dale, pastor of the Tahoka Church; Rev. Lynn Lemon, pastor of the Grassland Church; Rev. Ted Brian, pastor of the Redwine Church; John Heck of Wilson; Miss Clara May of Wilson; Melvin Rathel, educational director, Tahoka; and others well known in this county.

Lynn county residents listed on committees include the following: Rev. W. H. Jackson, Mrs. Garland Pennington, Rev. Geo. A. Dale, Miss Clara May, Mrs. Henry Heck, Rev. Lynn Lemon, Melvin Rathel, Rev. W. P. Brian, and Rev. Earl McManis.

## EDUCATIONAL EXHIBIT

The Wayside Club women plan to have as the subject of their educational exhibit Saturday at the A. L. Smith Food Store the "Uses of Cabbage and Kraut in the Diet." They are having another exhibit at Boullion's Grocery to make up for one that was missed some time ago. This exhibit at Boullion's is on "Frozen Foods." Everyone is invited to see both these exhibits on Saturday, Sept. 13.

## Mrs. Assiter . . .

(Continued From Page 1)

First National Bank of Tahoka and W. T. Hanes, superintendent of the Tahoka public schools; Carey Mathis, principal of one of the Lubbock schools and formerly principal of the Tahoka grade school; Bert Pinson of Lubbock, Rudolph Struve and Andy Reed, Abernathy, Bob Brown, of Lorenzo, and Leonard Herral of Slaton.

The public schools were dismissed here at 2:15 in order that members of the faculty and a number of students might attend the funeral services.

Surviving Mrs. Assiter are the husband, S. H. Assiter, who operates a gin at Estacado; her parents, Mr. and Mrs. J. C. Newton of Idalou; four brothers, Claude Newton of Idalou, John C. Newton of Dallas, Glen and Mack Newton of Lubbock; two sisters, Mrs. Bernie Holt of Lamesa and Mrs. Pauline Sumner of Amarillo.

Soon after accepting a position in the high school here several years ago, Mrs. Assiter established herself as one of the most valuable members of the faculty, a reputation she sustained throughout her entire teaching career. She was teacher of commercial subjects in the high school.

During the early months of the last school term, Mrs. Assiter suffered an attack of influenza, and this in turn was followed by pneumonia. After having lost several weeks from school, she bravely came back to her task but her strength was not sufficient for the ordeal. She was unable to teach regularly during the remainder of the term. An incurable disease had fastened its grip upon her. Then she went to El Paso and entered a hospital, where she hoped against hope that she might win the battle for her life.

Mrs. Assiter not only was a successful teacher but she was a regular attendant upon the services of her church and took an active part in its work so far as her health and her other duties would permit, being a member of the First Baptist Church of Tahoka during her residence here.

Many friends here were grieved when her health failed and felt that they had suffered a distinct and irreparable personal loss when news of her death came.

## Class Officers For Year Are Elected

Wayne Shawn, son of Mr. and Mrs. E. W. Shawn of Tahoka, will head the senior class of 1942 of Tahoka High School as president.

Officers of the various classes were elected in regular class meetings Wednesday morning at the high school. Other officers of the senior class are Helen Pemberton, vice-president; Mary Beth Roddy, secretary, and Mary Jo Anderson, treasurer.

Junior class officers are Joan Owens, president; Elbert Boullion, vice-president; Peggy Fenton, secretary; Buster Driver, treasurer, and Cecil Curry, parliamentarian.

Dorothy Jean Applewhite will serve the sophomore class as president. Other sophomore officers are Dwane McClintock, vice-president; Ovid Luallin, secretary-treasurer; and Leonard Wardlow, parliamentarian.

Freshmen officers are W. T. Hines, president; Billy Jo Cowan, vice-president; Irene Carver, secretary-treasurer; Noel Fender, reporter; and Donna Sue Millikin, parliamentarian.

Jeanne Smith was elected president of the seventh grade. Other class officers are Gwynelle Davis, vice-president; Jerine Bartley, secretary; Irwin Lehman, treasurer; and Bobby Ray Scott, parliamentarian.

## MOTHER SINGERS INVITE NEW MEMBERS

Miss Georgia Taylor, teacher of public school music in the Tahoka schools, requests that all lady singers of Tahoka and surrounding communities interested in singing in the Mother Singers Club this year call Mrs. Irvin Stewart at once.

First meeting of the Singers will be held at an early date.

The Mother Singers is a group of chorus organized to study singing. They have appeared on numerous Tahoka programs during the past two years.

## She Turned Him Down

A fellow can't get anywhere when he looks uncomfortable! And he's bound to, when heartburn, "fullness" and sour stomach bother him. Have ADLA Tablets handy for relief. Get them from your druggist.

TAHOKA DRUG

## Red Cross Moves To Sewing Room

The Red Cross materials will be moved to the county sewing room—which building is one block east of the courthouse—next Monday, and the room will be open every afternoon from one o'clock till five.

Our quota is large, and we need every one in the county to help in some way—knitting, cutting, and sewing. We will have sewing machines, and I invite the clubs of the county, the churches, and others to come and spend the afternoon, or all day, working for this worthy cause. I appreciate the cooperation of each one who has helped thus far, and since the canning season is nearly over, I am expecting more to help in the work.

O'Donnell is helping in a big way, and those who are closer to O'Donnell may get their materials for sewing and knitting from Mrs. Stark or Mrs. Hal Singleton.—Mrs. H. L. Roddy, Chairman, War Relief Production, Lynn County Chapter.

Mr. and Mrs. W. M. Harris and Mrs. Lida Kelson left Thursday morning for a visit with relatives in Oklahoma and in East Texas.

H. C. Lewis left Friday to enter the Veterans' Hospital in Amarillo for treatment.
