Volume 38

Tahoka, Lynn County, Texas, Friday, March 6, 1942.

Number 30.

"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

## "Food For Freedom" Drive Is Started

### Food Stamp Plan For Lynn County Is Authorized

The News this week received the following communication from Hon. George Mahon, congressman from this district, which may be of interest to many people in Lynn County.

"I am authorized to announce that the food stamp plan will shortly be established in Lynn County.

"Your county and city officials are to be commended for their successful efforts.

"Regards to all. Sincerely yours, George Mahon."

Upon interviewing County Judge Chester Connolly respecting the above matter, he was inclined to give all the credit to others, especially to the district supervisor of the Surplus Commodities set-up, Rayburn Metcalfe of Lubbock, for the prospective establishment of this plan in this county.

As Judge Connolly says the plan was explained to him some time ago, persons in this county who have been obtaining food heretofore from the W. P. A. office or who desire to obtain it after this plan is established, from the Surplus Commodities Administration, will make application to the county director, whoever that may be, for food stamps.

### Lockney Boxers Coming Tuesday

Tahoka boxing team, which lost a close decision here Tuesday night to Monahans, will meet Lockney here this coming Tuesday night, Coach Leo Jackson announces.

Lockney is sending the following boys: Bryan Ford, 85 lb.; C. Pyle, 112 lb.; G. Quisenberry, Glenn Mitchell, and Windy Hargess, 118 lb.; Delbert Dagwell, R. V. Webster, and Wayne Robinson, 125 lbs.; Jackie Meyers, L. Haynes, 185 lb.; M. Visage, 147 lbs.; Pete Newman, 160 lbs.; Ralph Wofford, D. Byers, 175 lbs.

The events will begin at 9:00 p. m. Tuesday in Tahoka gym.

Against Monahans, Tahoka lost five and won four matches.

T. Bancroft, Monahans, decisioned Pete Shaffner in the 90 lb. class; and P. Smith won a TKO over Tahoka's Bobby Scott. However, Jerry Edwards, also a 95-pounder, won for Tahoka over J. Lomax.

In the 105-lb. class, B. Grider lost by a KO in the first round to D. Tone, and J. Bigham lost by a KO in the third to L. Lomax.

Durwood McClintock, 112 lbs, was victor over J. Smith, and Buster Driver out-pointed C. Nelson in the 135 lbs class. G. W. White, also in the 135-lb. class, won from E. Croson.

Monahans won the 175-pound division when A. Hansen outpointed E. Wright.

### Guard Admitted To Aviation Base

Forty members of the Tahoka Defense Guard company last Friday afternoon attended a review of enlisted men at the Advanced Army Air Base ten miles west of Lubbock. The review marked the close of the field drill training of the base's enlisted men.

Capt. Don Turner announces that fifty drill rifles have been completed for the Company by the Lamesa NYA work shop, and sixty-two new uniforms are expected to arrive today. Other men who have passed physical examinations may now place orders for their uniforms.

The company is holding regular drill periods of two hours' duration on Monday night and voluntary drills periods each Thursday night.

Officers state that the company is making rapid progress in mastering drill maneuvers.

### F. L. Prater Dies In Hospital Saturday

F. L. Prater, 55, long-time resident of Tahoka, died Saturday, February 28, at 5:20 p. m. in the Lubbock General Hospital, after a prolonged illness.

Funeral services were conducted Monday afternoon in the First Baptist Church of Tahoka by Rev. Geo. A. Dale, assisted by the Rev. George E. Turrentine. Burial followed in the Tahoka cemetery.

Mr. Prater's condition grew worse after a serious operation had been performed approximately three weeks

(Continued on back page)

### Auditor's Report Shows County Finances Improved

The auditor's report of county finances published in the News this week shows a somewhat improved condition of the county over that of a year ago.

A comparison of the statement for the year 1941 with that of 1940 shows that the balance in the treasury at the close of 1941 was \$40,475.87 as compared with \$26,159.11 at the close of the year 1940.

Receipts were \$115,523.32 in 1941 as against \$101,866.02 in 1940; but the balance in the treasury at the beginning of 1941 was only \$26,159.11 as against a balance of \$48,643.21 at the beginning of 1940.

Disbursements were \$99,265.05 in 1941 as against \$122,199.89 in 1940.

The balance in the treasury at the beginning of this year was the largest, except for one year, in the past five.

At the beginning of 1938, the balance in round numbers was \$32,000; at the beginning of 1939, it was \$33,400; and at the beginning of 1940 it was \$48,600.

### Tahoka Receives Insurance Credit

For the second year in succession Tahoka was granted a credit of 25 per cent on its insurance rating upon its fire record, according to a report released a few days ago by Marvin Hall, State Fire Insurance Commissioner.

Because of its excellent record, Tahoka was given the maximum 25 per cent credit last year, and it was able to retain its rating for the ensuing year, beginning on March 1, because of the excellent record it has made during the past twelve months.

The estimated savings in fire insurance premiums because of this credit amounts to \$4,423, according to Mr. Hall.

A few years ago, Tahoka was being penalized because of its bad fire record for several years in succession. Then it gradually reduced the penalties, and a few years ago was given a credit of 15 per cent, jumping from 15 per cent to 25 per cent a year ago.

### Conoco Station Is In New Location

Winston Wharton moved his Conoco service station Wednesday night from the Douglas Finley building situated on the highway south of the public square to the remodeled A. I. Thomas building situated on Sweet Street just north of the old Anchor filling station.

Mr. Wharton has been in Tahoka as Conoco dealer for about two years and is recognized as a progressive business man. The Thomas building has been remodeled, neatly finished inside and given a stucco finish outside, and new windows and doors installed so as to meet Mr. Wharton's desires. It is an excellent location.

Mr. Wharton invites his customers and friends to stop at his new place of business when they need anything in his line.

### More Defense Foods Needed

"More milk, more eggs, more pork" is the food-for-defense appeal being made to American farmers by the U. S. Department of Agriculture. Farmers are responding unitedly, the Department says, and are turning huge quantities of feed from the AAA Ever-Normal Granary into energy-giving foods. Milk production is highest on record; egg production is higher than in any year except 1930; extra numbers of brood sows are being held over for fall farrowing. Nevertheless, the Department declares, even additional increases in these products must be made to supply the growing home demand and the emergency needs of Great Britain.

### Public Invited To Open Forum

The first program of the Open Forum being conducted in the Tahoka High School Auditorium was held last Tuesday morning, and members of the school faculty were much pleased with it.

Eleven students discussed various topics relating to "The Founding of America." Superintendent Hanes was in charge.

The next program will be given next Tuesday under the direction of Leo Jackson, according to Hope Haynes, beginning at 12:15 and continuing until 1:00 o'clock. The subject will be "Our Part in the War." In addition to discussions by a number of students, two gentlemen of the town will be invited to give brief discussions.

Mr. Haynes emphasizes the fact that the public generally is invited to hear these programs. It is hoped that a large number of the town people will be present next Tuesday and each Tuesday thereafter as long as the Forum continues.

### Shaffer Purchases Larkin Laundry

G. C. Shaffer has purchased the Larkin Laundry from Frank Shaffer and took charge of the business Monday. He announces that the laundry will continue to do all kinds of laundry work including the "helpy-selfy" service.

Mr. Larkin retained the dry cleaning business which he operated in a different compartment of the laundry building and will devote his entire attention to this business. Mr. Carter, who had been operating this business, will remain with him.

### Tahoka Band Plays Brownfield Concert

The high school band, under the direction of John Hamblen, played an invitation assembly program concert Wednesday afternoon for the students of Brownfield High School.

The band is continuing an active concert program in an effort to give the boys and girls definite concert experience.

The students of Brownfield High School received the program enthusiastically and seemed to especially enjoy their part on the program, which was to stand and sing with the band the latest war songs, "Remember Pearl Harbor."

The Brownfield band is expected to return the concert soon.

### Land Planning Board Meets

Members of the Land-Use Planning Committee for Lynn County had a most interesting meeting in the county agriculture building here Wednesday afternoon, according to County Agent Don Turner, who is its secretary.

The principal topic of discussion was the labor situation in Lynn County, many farmers having reported that they have been unable to procure drivers for their tractors.

Among others, the situation was discussed by J. E. Norman of the Lubbock W. P. A. office and by Mr. Rector, Lubbock, representing the state unemployment service.

George McCarthy of the A. & M. College discussed the subject of poultry as it relates to the war. Among those present were Messrs. B. J. Emanuel, E. J. Cooper, R. L. Littlepage, R. L. Pirtle, Hubert Tankersley, J. C. Key, Donald Turner, Lester Browning, Miss Maurine McNat, Miss Lucille Wright, Miss Allie Mae Tipps, and the visitors.

### Meers Breaks Legs In Fall Monday

J. O. Meers of Grassland fell from an elevated position while cleaning walls at Farmers Cooperative Gin at that place Monday afternoon and broke both legs at the ankle.

He was brought to the Tahoka Clinic, where he received emergency treatment, and was then taken to a Lubbock hospital, where the legs were placed in plaster casts.

Nurses at the Tahoka Clinic reported that the bones of the left leg were badly broken. The injury to the right leg was not so severe. It is believed that it will be several weeks before the injured man will be able to walk without the aid of crutches.

### Rain Is Welcomed By County Farmers

Rain, sleet and snow containing a moisture content of 73 of an inch fell last Saturday night and early Sunday morning. It was greatly welcomed by farmers, for the top soil had become very dry.

J. D. Smith, father of A. L. Smith, who has been critically ill since he suffered a hemorrhage on the brain on Wednesday night of last week, was taken to a Lubbock hospital Wednesday afternoon of this week, and Thursday his condition was reported to be even more critical.

### Baptist Revival Closes Sunday

Revival services being conducted at the Baptist Church will continue through Sunday.

While there have been only a few professions of faith so far, members report that the services have been very fine, resulting in the reconstruction of many.

Rev. Clyde Jackson of Abilene has been bringing some dynamic messages, and the song services under the direction of Melvin Ratheal have been an enjoyable feature at each service.

Rev. George A. Dale has announced that there will be a baptismal service on next Sunday night.

### Twenty-Four Men Go For Training Next Thursday

Twenty-four men will be sent from Lynn County to the army training camps on Thursday of next week, according to Mrs. Lois McMahon, secretary for the County Draft Board.

Twenty-one of these are Lynn County registrants, while three have been transferred to this county from other places.

The twenty-one Lynn County men are listed as follows:

R. C. Webb, O'Donnell, Rt. 3; Bill Ellis, O'Donnell; Herbert Gail Smith, Tahoka; Charle Marion Mason, Tahoka, Rt. 2; Roy Hughes, Tahoka, Rt. 4; Coleman Green Welcher, Tahoka; Clarence Allen Phillips, O'Donnell; Hervey T. Gardenhire, O'Donnell; G. Cook Smith, Tahoka, Rt. 3; Wilson Joseph Cathcart, Tahoka; Roy Kenneth Line, O'Donnell; Melvin Willie Weatherby, O'Donnell, Rt. 3.

William Henry Cato, Wilson, Rt. 2; Henry Emil Yahnke, Wilson, Rt. 1; Vincent Thompson, Post, Rt. 3; Melmes Thomas Wyatt, Tahoka, Rt. 4; Neil James Gibson, Tahoka; Arthur Lee Pounds, Tahoka, Rt. 5; Richard W. Bradfute, O'Donnell; Jim Albert Krause, Southland; Winfred Herbert Stoerner, Slaton, Rt. 1.

Registrants transferred to this county are: James Julius Robinson from Knox County; Albert Winfield Wayland from Hugoton, Kansas; and Grover Wallace Drennen from El Centro, California.

### Farm Hand And Landlady's Money Disappear Suddenly

A farm hand who was employed by H. R. Minor of the Midway community disappeared Sunday and failed to return, according to report made to Sheriff B. L. Parker. About seventy-two dollars in money belonging to Mrs. Minor also disappeared and likewise has not returned.

Parker says that the stolen money was Mrs. Minor's egg money.

### Conway Clingan Rotary Speaker

"Black Gold" was the subject interestingly discussed at the Rotary Club Thursday noon by Conway Clingan, who has had several years experience in several different phases of the oil business.

Clingan presented many interesting facts concerning the history, the search for, distribution of, and uses of oil and its by-products. His talk was declared by Rotarians to have been one of the most interesting classification talks the club has had.

Other numbers on the program included piano solos by Bonnie Jean Clark, and a brief explanation of the "Food For Freedom" program by County Agent Don Turner.

J. L. Brooks was welcomed into the club as a new member.

### Information Given On Planting By County Agent

The Food for Victory fight can be won or lost at planting time.

That's the warning Don Turner, vice-chairman of the Lynn County USDA, and County Agent, gave today in urging farmers to consider carefully their plans for seeding this year's crops and to put forth special efforts to do a good job of planting.

The war board vice-chairman reminded farmers that cotton and wheat allotments still were in effect and urged that all farmers plant within their allotments so as to release as much acreage as possible for the production of food and feed crops needed to win the war.

"America has a two-year supply of wheat and more than a two-year supply of most kinds of cotton," Turner declared.

The board vice-chairman listed the principal crops grown in this county and how they were affected by the AAA program and the USDA War Board program.

Cotton—America has too much of the shorter staple length varieties and not enough of the longer staples, inch and one-eighth and over. The War Board is encouraging the production of more long staple cotton in

### Food Program Is Presented People

A Food for Freedom program will be given tonight (Friday) in the school auditorium at Wilson by County Agent Don Turner and AAA Secretary D. C. Henry.

A similar program will be given in the high school auditorium here next Tuesday night and at Draw Wednesday night.

Two of this series of programs have already been held, one at New Home last Tuesday night and one at Wells on Wednesday night.

Mr. Turner reports that about forty men and women of the community were present at the New Home meeting and about thirty at Wells.

The purpose is to induce farmers to devote a portion of their lands to the raising of foods which may be needed as an incident to the war, adopting the suggestions of the national government agencies in this matter as far as may be practical for this section of the country.

### More Scrap Iron For Japan Is Collected

Almost a quarter million pounds of scrap iron was collected in Lynn County according to Don Turner, County Agent and member of the Lynn County U. S. D. A. War Board. The iron was brought in mainly by the farm people to the six concentration points over the county. The amount brought in at each point is as follows: Wells 36,000, Grassland, 30,000, Tahoka 90,400, New Home 18,245, Wilson 28,545 and O'Donnell 39,760.

"Unfortunately in the past few years we have shipped several carloads of scrap iron which wound up in Japan," Turner stated. "We are sending the Japs more scrap iron, but this time it will be in the form of tanks and guns and bombs, and they won't likely be as glad to receive it as they were before."

The iron brought in last week in Lynn County will furnish enough steel to make fifty 37 m.m. anti-aircraft guns or 9,718 thirty caliber machine guns. This amount of material would also make 7 light tanks or 272 five hundred pound aerial bombs.

Buyers are bidding on the iron this week and farmers will be receiving checks for their pro rata share of the iron within the next few days.

# Planting Time And Victory

(Continued from page one)  
areas where such production is suitable. Cotton allotments will be strictly observed on cotton and quotas will be enforced.

**Wheat**—America still has nearly a two-year supply of wheat. The anticipated carry-over on July 1, 1942, is 6,100,000 bushels, and indications are that total supplies in 1942-43 will be about 14,000,000 bushels, 70,000,000 bushels more than in 1941-42. No increase in wheat production will be necessary, but if a need did arise, it would be possible to increase allotments accordingly in ample time. Farmers will vote May 2 on wheat marketing quotas for the 1942 crop.

**Peanuts**—The USDA is asking for a tremendous increase in peanut acreage, 1,056,000 acres, more than three times the amount planted last year. Of this acreage, the allotment for edible nuts is 242,466 acres. The excess production of 813,534 acres will be for crushing for oil. The AAA this year will make full payment on peanut acreage allotments only if at least 80 per cent of the allotment is planted. The Texas USDA War

Board is anxious to get as much acreage planted to peanuts as possible. Indications are that we will reach the production goal. Prices of peanuts for oil will be supported at not less than \$82 per ton for No. 1 White Spanish type peanuts. Quotas and allotments on peanuts for edible nuts will be strictly enforced.

**Erosion Resisting Acreage**—(Note: Use the provision applicable in your county.) A producer to be eligible for full AAA payments must plant within his allotments for wheat and cotton, must meet the above-mentioned provisions on peanut allotment, and must meet erosion-resisting acreage or land use requirements. (In this county, the producer must devote 20 per cent of his cropland to soil-conserving crops or land uses throughout the crop year.)

**Feed Crops**—The AAA has no general crop allotments 1942. The producer who meets the above requirements may plant all his cropland to whatever crops he desires and still receive full payments.

**Co-operative Machinery Use**  
Co-operative use of labor-saving farm machinery by several farmers in the community heads the list of suggestions given by Wyman J. Welch, member of the Lynn County USDA War Board and Farm Security Supervisor, on how to lessen the severity of labor and machine shortages.

"These shortages may become more severe as the season progresses, because more men are being taken into military service and defense factories," he predicted, "and implement factories are turned to other uses."  
"We must not let this situation cause us to fall in our Food-for-Victory goals," Welch emphasized.

"In the first place we can ease both labor and machinery shortages by co-operative use of labor-saving machinery. Priorities have been given to assure a supply of machinery especially needed in the Food for Victory program that looks adequate at this time."  
"Much privately owned machinery is used a few days or a few weeks a year and then put out to rust, but often the same type of machinery can be made to serve many farmers in a community by co-operative ownership and custom work.

"Another way to meet a machinery shortage is to make present machinery last longer and work better by giving it proper care. Most farmers have ordered repair parts already in response to appeals from the USDA War Board."  
"A third suggestion for solving a labor shortage is to give additional jobs to members of the family who are not working full-time—older people and children. Many of the lighter farm chores can be delegated to these people for the duration while men and boys are doing the heavier work."

"Of course, every member of the family will want to keep healthier so as to be able to work at top speed throughout the day. More farsighted planning of farm work will also help.  
"Longer hours of work are being demanded by the emergency, but the farm operator has the satisfaction of working for himself, which is not true of industrial workers."

Mr. Welch concluded by stating that his agency, the Farm Security Administration, is willing to finance groups of small farmers who wish to own and use labor-saving equipment co-operatively.

**Peanut Machinery**  
One of the biggest Food for Victory goals this year is peanuts and it's going to be one of the hardest to meet, John C. Key, Lynn County USDA War Board chairman, said this week.  
Peanut acreage has been more than doubled to make up for the loss

of vegetable-oil imported from the Far East, and for manufacture of the many new plastic materials. Peanut oil is also used as a substitute in many cases for petroleum products, the chairman pointed out.

The goal for peanuts in Lynn County is 149 acres for nuts, or the same as 1941, and 1107 acres for oil, as compared with last year's 0 acres. "One of the first steps in preparing to meet goals is to get all machinery in top-notch shape," the chairman pointed out. Every available piece of equipment must be put in first-class condition since it may become increasingly difficult later to obtain parts as well as new machinery.

Use of metals and other critical materials for manufacture of new farm machinery is already restricted to an average of about 83 per cent of the materials used for similar purposes in 1940. Key explains, while use of materials for repair parts is permitted at an average of about 150 per cent for the same period, he said.

Allocations of materials for manufacture of machinery, attachments, and parts used in the production of peanuts follow:

- Planting and fertilizing machinery from 83 to 88 per cent of 1940 level, except garden planters, 104 to 121 per cent; attachments and parts, 140 per cent; plows and listers from 52 to 82 per cent; attachments and parts 140 per cent; harrows, rollers and pulverizers from 61 to 78 per cent; attachments and parts 120 per cent; cultivators and weeder from 48 to 88 per cent; attachments and parts 160 per cent; machines for preparing crop for market or use: peanut pickers 208 per cent; attachments and parts 140 per cent; tractors from 59 to 81 per cent; attachments and parts, 160 per cent and farm wagons and trucks (not motor trucks) from 75 to 99 per cent; attachments and parts, 140 per cent.

**FSA Credit To Farmers**  
No Lynn County farmer need fail to do his part in the Food for Victory program because of lack of money to finance food-producing crops and livestock, said Wyman J. Welch, member of the USDA War Board and Farm Security Administration supervisor.

"Many people have already taken advantage of FSA loans to increase the production of needed foods," Welch stated, "and others are welcome."  
"Small owner-operators, tenants, sharecroppers, farm laborers, families who make only part of their living from the land, and even farm boys and girls are eligible for these food-production loans," the supervisor said. "However, loans are only for those who are unable to get financing from other sources, for FSA does not compete with private credit institutions."

"For example," he continued, "to increase his milk production, a farmer might want to buy two more cows, one of which freshens in the fall, the other in the spring, or he might want to increase the quality of his pasture. FSA loans are available for the cows, and for mowers, fertilizer, and other facilities to improve the pasture. Protein and mineral supplements may also be purchased, as well as facilities for handling the milk."

"Loans can be made for a brood sow or a boar to those desiring to raise more pigs. Portable hog houses, hog wire for fencing and supplemental feeds can also be financed."  
"Poultry and egg increases may be realized by raising baby chicks to add to the present flock, as well as giving hens better care and more egg-producing feed."

"Family gardens are important in keeping the family well-fed and healthy. FSA loans are available to buy seed, small implements, fertilizer insecticides. Pressure cookers, jars, cans, sealers, and materials for outdoor storage facilities supplement the gardens."  
"Needed production increases in row crops and pastures are provided for by loans for feed, seed, fertilizer, small implements, workstock, and harvesting equipment," he concluded.

The Lynn County Farm Security office is located in the basement of the Court House.

George A. Pugh, who formerly operated a barber shop in Draw, returned Tuesday from the West Texas Hospital at Lubbock, where he had spent five days for a check-up and treatment.

**Aggravating Gas**

# COBB'S MARCH of SAVINGS

**STARTS TODAY! Runs thru Saturday, March 14th.**  
**Prices Quoted Here Good for all 8 BIG DAYS!**

Our manipulation in obtaining our goods has been in buying merchandise "right" that we may sell to you at a decided saving during these 8 big days. Remember, merchandise prices are advancing every day — The MORE YOU BUY at these prices the MORE YOU SAVE!

## 4 YEARS ...

Maybe we are young in years, as business goes—but it is with genuine appreciation of your patronage that we bring you our 4th Anniversary Jubilee and March of Savings.

In order to more fully express our appreciation we have endeavored, even in the face of a rising market, to make prices that will reflect direct savings to you, our customers, in a most substantial way. We want you to come in during these 8 days and share with us our 4th Birthday Celebration!

NO LAY-AWAYS AT THESE PRICES!

## MEN READ THIS!

BUY YOUR NEW SUIT NOW!

**Wool For Clothing Ordered Reduced**

WASHINGTON, Feb. 26 (AP)—Sweeping reductions in the use of high grade new wool for civilian clothing were ordered today by the War Production Board because of skyrocketing prices for military demands and some "all wool" labels present disappear from suits and dresses by the end of this year. The board reduced its wool allocations for civilian orders during the next quarter (April, May and June) to 20 per cent of cloth amount used for the comparable period last year and 10 per cent of the amount used for woollens — Lab.

COBB'S the home of

**NOTICE TO THE PUBLIC**  
Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in this paper, will be gladly corrected when called to your attention.

A recent report stated that the number of strikes staged in defense industries in February far exceeded the number staged in January. There have been threats of a "work or fight" order being issued by the President but nothing has come of it. There is a mounting sentiment in Congress, we are told, in favor of increasing the soldiers' pay if union laborers are to be allowed to continue their demands for higher wages and to stage strikes if their demands are not granted when already they are receiving the highest wage scale in history. We think our President's war policy abroad has been faultless but that he has been weak and vacillating when dealing with the labor situation in this country. We believe that Congress should take the matter in hand and enact a law with teeth in it that would put a stop to this almost treasonable conduct on the part of some labor unions.

Newspaper reports Tuesday morning brought statements from Admiral King of the U. S. Navy and General George C. Marshall of the Army indicating that plans are being carefully laid for the United States to launch a strong offensive against our enemies. It will be welcome news to the United States when this can be done. Of course, it should not be done until our fighting craft on the seas and in the air have been sufficiently strengthened to hold the offensive when it is once taken, but there is nothing that would create morale and enthusiasm among the people as would a deadly blow at Japan in her home land and a similar blow at Hitler on his western front. And we must not stop this time until both of these cut-throat nations are thoroughly whipped and disarmed.

Officers of the state house Tuesday reported that there had been little news lately except the arrest of a few drunks who had been given a berth up in the county jail. The drunks, they said, were home talent, at least Lynn County talent. We have never been able to understand what satisfaction a grown man can get out of spending his money for whiskey, staging a drunk, and then possibly landing in jail. Of all the idiotic things a man can do, that always did seem to us to be just about the limit.

  - For Commissioner, Prec't. 3: E. O. SLAUGHTER, JOHN ANDERSON
  - For Commissioner, Prec't. 4: LEON JENNINGS (re-election), C. H. (Claude) REAGAN
  - For Justice of the Peace, Prec't. 1: P. D. SERVER

A speaker before the Rotary Club the other day stated that statistics show that the American people spend more money for liquor than they do for electric light and power. That money is absolutely wasted, for liquor is harmful and not helpful to the human race. It is a curse to this nation. How much better would it be to put that money into public education, or into food and clothing for the hungry and the ragged, into orphanages and hospitals, into battle-ships and warplanes and armored tanks, into Government stamps and bonds, into almost anything else on earth than liquor! By the way, we wonder how a drunk soldier would get along in the Philippines about now. And a drunk civilian is just about as worthless as a drunk soldier.

Attorney-General Mann has announced that he will again be a candidate for re-election. Although running for a third term, he will probably have no serious opposition. We are glad that the Attorney-General has reached this decision, and the chances are that he will have an almost clear field for the governorship two years hence if he continues to ring the bell in the future as he has in the past.

There is one great advantage to be noted in the come-back of the bicycle. The driver is not likely to exceed the speed limit very long at a time. Furthermore, a drunken driver can not get much fun out of mounting a two-wheeled vehicle propelled by bone and sinew and starting a wild chase up the highway.

Fighting men of our Armed Forces, workers in industry, the families of our workers, every man and woman in America, must have nourishing food.—Franklin D. Roosevelt.

**THE WAR**

The Lynn County News (Tahoka): Uncle Sam needs our scrap iron, that's what Vernon C. Willhoit, chairman of the County USDA War Board, said in announcing that the week of Feb. 23 to 28 had been designated as the week for all Lynn County people who have scrap iron to sell, to see that it is disposed of. Uncle Sam is not asking that we give the scrap iron to him, but he is asking that we sell our scrap iron in order that he can purchase it through the regular channels of trade. State Press in the Dallas News.—Japan took nearly all our scrap iron for two or three years before we got wise and shut down on scrap exports to the Mikado's country. But it was legitimate business. We were at peace with Japan and on friendly terms with the Japanese. We didn't know they were as treacherous as the Chinese said they were. We know now and in the next two summers they will see a lot of our bombers. No doubt they are aware that we are building bombers as feverishly as they formerly bought scrap iron. Their strategy is to win what they can at whatever price they have to pay in loss of men and ships. But their strategy may not be as shrewd as they believe it to be. They are sending their men a long way from home and dividing them into numerous armies. These men will have to be supported with food and munition from the home bases. And our bombers will interfere with the supply ships. They will also interfere with the home bases. We have been sadly handicapped by lack of bases but we will obtain them and our strategists know where, although they are not telling. Meanwhile the Jap army at Manila is firing and falling back in a constantly repeated effort to drive our little army of Americans and Filipinos from the Bataan Peninsula.

**INTERESTING P. T. A. PROGRAM IS ANNOUNCED**

On Wednesday, March 18, at 4:00 p. m., CWT, the Tahoka Parents-Teachers Association will meet in regular session in the high school auditorium. Mrs. Fred McGinty, the president, announces.

The citizens of the town are urged to be present to hear the following topics discussed.

1. Let's Declare War Against Accidents.
  2. Causes of Rise in Crime Rate.
  3. Allegiance—To What?
- According to the program committee, Mrs. McGinty says, one of the most interesting features of the program will be entertainment by the pupils of the first, second and third grades. "Be there, or you'll miss something," she warns.

Food has become an important implement of war.—Wilson Cowen, Regional Director, Farm Security Administration.

**WHAT'S DOING AROUND GRASSLAND**

March came in with a bit of sleet, rain, and snow. The moisture will be a great help to farmers, who are still putting their land up, as it was getting quite dry.

From the amount of scrap iron being brought to the gins, people are responding to the call to "bring in all your scrap iron" very much.

Mr. and Mrs. J. A. Norman visited Mrs. Norman's parents near Brownfield last week-end.

Mr. B. A. Norman is building a room and porch onto his house.

Mr. and Mrs. Woodrow Stewart have moved away from Grassland.

Mrs. Mamie Evans is able to be back on duty in the laundry after a week's illness.

Mrs. Herman Huffaker reports that her sister, Mrs. George Shelton, is some better. She has been, quite ill with gland cancer. Mrs. Shelton was Miss Vera Hicks before her marriage several years ago. She attended Grassland school and has a host of friends who are hoping she will continue to get better.

Mr. Elmo Green is in training camp at Fort Sill, Oklahoma. He has been gone about four weeks.

School census is being taken again, and it is sincerely hoped that there will be enough scholastics to enable Grassland school to have four teachers again as in the past.

Mr. C. P. Bullock of Abilene visited his family here last week-end. The school here is getting ready for the county meet, which will take place March 27-28.

Mr. and Mrs. Homer St. Clair of Lamesa visited her mother, Mrs. S. N. McDaniel, here Sunday.

**GRADY HERRIN GETS PROMOTION IN AIR CORPS**

Grady L. Herrin, son of Mrs. A. F. McClam of Tahoka, has been promoted to the rank of sergeant in the Air Corps Gunnery School of the 351st School Squadron at Las Vegas, New Mexico, and has been assigned to duty as a carpenter.

Sergeant Herrin entered the army with his half brother, A. F. McClam Jr., as volunteers, in January, 1941, at Lubbock.

Food will win the war and write the peace.—Secretary of Agriculture Wickard.

### Southwestern Gives Miss Winters A Promotion

Miss Birdie Winters, chief operator for the Southwestern Associated Telephone Company here for the past eight years, has been given a promotion by the company, which will necessitate her removal to Lubbock. She will be employed in the Traffic Department there at an increased salary and better working hours.

Miss Winters expects to be transferred to Lubbock on or about the fifteenth of this month. She came to Tahoka as chief operator in April, 1934, and has not only been very proficient in her duties but she has also made hosts of friends in the town, who will regret her transfer from Tahoka, although gratified at her promotion.

Her successor will be Mrs. Mertie Warren of Levelland, who comes highly recommended.

### Public Welfare Worker Here March 4

Mrs. Rosa A. Settles, Public Welfare field worker of Lubbock, was here "pinch-hitting" in Lynn County Wednesday, since there is no regular field worker for Lynn County just at this time.

Carter Thompson of Brownfield, field worker for Terry and Lynn Counties, tendered his resignation two or three weeks ago, and it is not yet known when another field worker for these two counties will be selected. Mrs. Settles probably will continue to take care of Lynn County in the meantime.

### Willie Florence Wins Promotion

The News has been informed that Willie Florence, son of Mr. and Mrs. W. Z. Florence of Draw, was promoted early in the year from a private to the rank of staff sergeant at Camp Bowie, where he had been in training for many months, but he was prevented from going with the division to Camp Blanding, Florida, on account of an operation which it became necessary for him to undergo.

His brother, Charles Florence, went with the others to Camp Blanding but writes his parents that he does not think they will be there long.

## U.S. Army Insignia of Rank

### Commissioned Officers

### Non-Commissioned Grades

### Morris Day Is In The Philippines

Friends here will be interested in the information that Morris Day, teacher of the West Point school a few years ago, is now with General MacArthur in the Philippines.

Mrs. C. T. Tankersley received a letter from his wife a few days ago, who with her little daughter is now living in San Antonio. She writes that she has not heard from Morris since a cable on December 10. "There are about 40 of us wives of men in the Philippines living here in San Antonio and no one of us has had any word from any of them since Manila fell," Mrs. Day wrote.

She also writes that Mr. Day's father, Rev. R. E. Day, who conducted a revival at the Baptist Church here a few years ago, and who is well known throughout this section of the state, is still at Port Arthur, where he went as a pastor when he left Big Spring.

### New Buildings Going Up at West Texas State

CANYON, March 5.—Forms for second floor columns are being placed by WPA workmen constructing the addition to the Panhandle-Plains museum. Recent warm weather permitted completion of concrete work for the first floor.

Across the street, south, other workmen are laying stone for the annex to Randall Hall, dormitory for girls. This structure is expected to be finished by the opening of the fall session. This dormitory is one of the largest cooperatives of the kind in this country.

### DEE HOWELL LINDLEY ON CONVOY DUTY IN ATLANTIC

Mr. and Mrs. H. P. Lindley of T-Bar received a letter Tuesday from a friend of their son, Dee Howell Lindley, written Saturday from the pier at New York City, stating that Dee Howell had just gone aboard the U. S. S. Rodman, a destroyer, on Thursday, to do convoy duty.

The two boys have been pals in the U. S. Naval Training School at Chicago, Dee having finished in Diesel engineering on February 13. Upon arrival in New York, the letter states, Dee's ship was there waiting and he went aboard immediately. He didn't have time to write but asked his friend to write for him.

### RATHEALS TO LEAVE TAHOKA

On last Sunday afternoon, Melvin Rathel tendered his resignation as educational and music director to the deacons of the Baptist Church, announcing that he had been called to a like service for the Church at Monahans, where he recently directed the music in a successful revival.

Mr. Rathel came to Tahoka in this capacity about ten months ago, and his work with the choir and as director of the music has been very fine. Mrs. Rathel has been serving as church pianist.

They have many friends here, who regret their removal.

### HOMEMAKING CLASS KITS SCARFS FOR RED CROSS

The third year Homemaking Class in Tahoka High School began Monday, March 2, to knit scarfs for the Red Cross.

They have already done work for the Red Cross such as making layettes and knitting beapies. They are also collecting waste paper for National Defense.

Members of this class are as follows: Wanda Cruce, Dolly Gatzki, Bernice Huffaker, Verna Lois Rolland, Faye Shadden, Margie Shepherd, Jean Slover, Ruby Smith, Lois Sproles, Juanita Young.

### ONE IN AIR CORPS; ONE IN SHIP YARD

Mrs. L. F. Frazier had a letter from her son Harris a few days ago stating that he is expecting to leave for the war zone soon. He is in the Medical Division of the Air Corps at Bakersfield, California.

The other son, Reginald, is working in a ship yard in Beaumont. He was married in that city on last Thanksgiving Day. Mrs. Frazier states, but the family had never reported it to the News.

**Salmon Rice Cups**  
Broadcast by Mary Lee Taylor, Mar. 5

1/4 cup raw rice 1 1/4 cups Fat Milk  
5 cups boiling water 1/2 teaspoon dry mustard  
3 teaspoon salt 1/4 teaspoon pepper  
6 pieces pimiento 1/4 teaspoon pepper (optional)  
2 cups grated American cheese\* freshly cooked or canned (1-lb. cans) (6 ounces)  
1 1/2 teaspoons grated onion

Wash and drain rice. Boil 30 minutes, or until tender in boiling water and 1 1/2 teaspoons salt. Drain and rinse with hot water. Grease 6 custard cups or individual baking dishes. Put a small piece of pimiento in bottom of each cup, if desired. Turn on oven, and set at moderately slow (350° F.). Mix together grated cheese, 3/4 cup milk, the dry mustard, 1/4 teaspoon salt and 1/4 teaspoon pepper. Cook over boiling water until cheese melts and mixture is smooth, stirring frequently. Fold in cooked rice. Divide mixture among greased custard cups. Meanwhile, put salmon in bowl. Add remaining 1/2 cup milk, the grated onion, remaining 1/4 teaspoon salt and 1/4 teaspoon pepper. Put equal portions of salmon mixture on top of rice mixture. Set in pan containing about 1/2-inch of hot water and bake 30 minutes, or until firm. Turn out and serve at once. Serves 6.  
\*Six ounces of processed, packaged cheese may be used if it is thinly sliced.

### ODDS & ENDS

by Ece Eye, the Elder

There are 63,000 Shinto shrines and 70,000 Buddhist temples in Japan, and Lowell Thomas who visited the islands and wrote a little book about the Japanese a few years ago, says that the people worship eight million gods.

There are two so-called religions in Japan, Shintoism and Buddhism. Shintoism is the most ancient. It is a system of ancestor worship and nature worship. The Emperor, or Mikado, is regarded as divine. The great masses of the Japanese still believe that the first Emperor of Japan descended from Heaven. That event happened almost exactly 2,600 years ago, according to the Japanese. At any rate, that is the time when one Jimmu Tenno arrogated to himself the right to rule and put over the pious fraud that he had descended from Heaven. The superstition has persisted for twenty-six centuries, despite the fact that many of the emperors have been veritable children of Hell.

Shintoism is also a system of nature worship, the Sun being the chief object of worship in Nature. The Sun is reputed to be the mother of the emperors. In fact, that accessions come to the throne. Shintoism fills the universe with deities: there is a little god or goddess in almost every object of nature—in the trees, the rocks, the murmuring streams, the placid lakes, the majestic mountains, the everlasting hills, the sounding sea, the dog, the cat, the singing birds, the chattering katydid, the bug that crawls in the dust, the worm that eats the mulberry leaves and makes the silk that helps to clothe the world; yes, a god in the snake, the toad, the scorpion—just in any animal or insect or inanimate object of nature that may strike the fancy of some benighted soul. There is how Lowell Thomas figured out that the Japs have eight million gods.

But none of this belief in a multiplicity of gods has anything to do with morals or morality. Shintoism has no moral code. It doesn't undertake to teach or persuade people to be either good or bad. It has nothing to do with morals. It is just a sort of superstition; it should not be dis-

affected by calling it a philosophy. But the ruling classes, the militarists and the intellectuals, must know that there is really nothing to it. They know that that cruel, treacherous scoundrel, Hirohito, who now sits on the throne is not any Son of Heaven, nor any son of anything else except another Japanese man and a Japanese woman.

But as long as they can continue to deceive the Japanese masses and keep them regarding the emperor as something sacred, just so long can they continue to work their hellish schemes and lead the Japanese people unthinkingly into any kind of murderous and marauding enterprise that they choose to launch.

And so that is Shintoism—and that's all there is to it.

The other religion that grips the people of Japan is Buddhism. It may exist right along side by side with Shintoism without either interfering with the other. A man may profess and often does profess allegiance to both.

And yet Buddhism is quite different from Shintoism.

It was founded by one Buddha down in India about the same time that that young fakir Jimmu Tenno slid down from Heaven and became the first emperor of Japan. At any rate it had been going strong for more than five hundred years when Jesus came to John at the Jordan and requested baptism at his hands, following which he began that brief but turbulent career of teaching and healing and finally dying on the cross which resulted in the propagation of the purest and best religion, morally and spiritually, that the world has ever known or ever can know.

Buddha did promulgate a moral code, but he denied the existence of any god and hence held that praying was futile. In striking contrast to Christianity, which offers eternal life to men, Buddha taught that existence is a nightmare to man and that the greatest good that can come to him is utter extinction, eternal death.

This can not come to any soul through any single incarnation, but must come through an indefinite

number of incarnations, he taught, and when a person dies, his soul enters immediately into some other person or animal. This is known as the transmigration of the soul. So, when a person dies, his soul may pass first into some animal, say a cow, then a horse, a dog, a pig, a goat, a fish, maybe a snail, until finally it just fades out of existence, a thing much to be desired. The end of the trail, non-existence, he called Nirvana.

And so, when a Buddhist commits suicide, he has just taken one long step toward Nirvana, or extinction—nothingness; which he regards as the greatest good.

That accounts for the suicide squads in Japan in this war. That is why the Japanese soldier can commit suicide with such utter abandon, not to say eagerness. That is why he is so daring and intrepid in battle.

But while Buddha himself taught that there are no gods and no need for priests, nor prayers, nor temples, nor worship of any kind, his followers have departed from his teachings in this respect, and they have built their temples, tens of thousands of them, and they have their priests, a hundred thousand of them in Japan alone, it is said, and they have their images, before which they bow down and pay some sort of homage, whether it can be called worship or not, and they pray to these images made of wood and stone.

The most monumental of these images perhaps is the shrine of Buddha, called Daibutsu, at Kamakura, Japan. This is a bronze image of Buddha, said to be "as tall as a five-story building," and it weighs ninety two tons. Built in 1252, it has stood there for nearly seven hundred years, defying the ravages of sun and storm and earthquake. At first, however, the stupendous idol was enshrouded in a magnificent temple, but that was swept away by a tidal wave scarcely a hundred years after it was built.

That fact didn't shake the faith of its worshippers, however, who come possibly a million strong each year to bow down and worship before the shrine.

And so that is Buddhism. Neither Buddhism nor Shintoism teaches that there is either a Heaven or a Hell.

Neither offers any reward for righteousness nor any punishment for wickedness after death.

Each is paganistic and practically atheistic.

Can I believe that the United States of America, this great, strong and youthful nation of ours, founded as it is upon the great principles of justice and mercy and righteousness, whose people acknowledge and worship but one God, the great God of this Universe—can I believe for one moment that it will be defeated and crushed by the Pagans on the other side of the Pacific?

No! Though they may win many battles, though they may over-run and crush for the moment many helpless peoples, though they may work great havoc to us, though they may sink our battleships and even bomb our shores, I can not believe that they will finally prevail.

Aside from our marvelous resources, aside from our material strength, aside from our man power, aside from the vast stretches of our territory, we have too many worshippers of the true God and too many praying people in this country for Japan ever to crush us.

Do I believe in the teachings of Christianity? Do I believe that there is a God who hears the cry of His children?

How then can I believe that he will utterly forsake them and turn them over to the Devil? How can I believe that he will permit the greatest Christian nation and the most just nation on earth to be destroyed by a bunch of Pagans?

I can't believe it. And, I'm not going to try to. But, in the meantime, I'm going to fight like fury.

John Brock, Charles Oliver, and Gene Brower came in Wednesday afternoon from San Diego, California for a few days visit with relatives. They are employed in an aircraft plant there.

Mrs. F. M. Sherrrod was reported Thursday afternoon to be improving. She had been seriously ill since last Saturday night when she suffered a light heart attack.

### TAHOKA GIRL WEDS LUBBOCK MAN

Miss Georgia Lea Burden became the bride of Mr. C. E. (Bob) Osborne of Lubbock, Minister J. T. Barbee read the single ring ceremony at his home in Clovis, N. M., on Wednesday the 25th of February at 10:30 a. m.

The bride wore a gold colored dress with beige and brown accessories.

The bride is a daughter of Mr. W. H. Burden of this city and the groom is the son of Mr. and Mrs. D. N. Osborne of Lubbock.

They were accompanied to Clovis by the groom's mother, Mrs. D. N. Osborne, brother J. D. and sister-in-law Mrs. J. A. Osborne and children, Albert Jr. and Billy Lou.

The young couple will be at home in Lubbock where the groom is employed at the Grill Cafe.

Many friends here and there wish them many happy years of married life together.

Mrs. B. H. Howard of Lubbock visited this week in the homes of Mr. and Mrs. Harley Henderson and Mr. and Mrs. Frank Hill.

### TINSLEYS IN CALIFORNIA

Mr. and Mrs. J. O. Tinsley and family left Wednesday for California to visit their daughter, Mrs. Lucille Cheatham.

During the week which they expect to be away, the Tinsley Cafe is being remodeled.

### Big Money Made With Poultry

COLLEGE STATION, March 5 — Poultry in Texas is a sixty million dollar industry and still is growing, according to Geo. P. McCarthy and H. H. Weatherby, poultry husbandmen of the A. and M. College Extension Service. Eggs alone accounted for \$46,250,000 in 1941, turkeys for \$10,000,000 and the remainder from hatchery stock and sale of poultry meat, ducks, geese and breeding stock.

The industry was ranked only by cotton, beef cattle and dairying in agricultural income. It put more money in farmers' pockets than wheat, oats, rice, barley or peanuts. In Texas, poultry is a small flock business. Farmers carry an average of 46 laying hens, while those in Iowa, for example, carry an average of 137. The large producing counties lie in a wide north-south strip through central Texas, with the western plains becoming more important yearly. There is a marked trend toward intensive areas with large flocks adjacent to metropolitan centers, the specialist says, but the development of trucking services has tended to spread out such areas.

With the request for an increase in poultry products in 1941 to meet the goals set for the Food For Victory Program, Texas poultrymen expanded flocks approximately 10 per cent and stepped up egg production. Using for general identification the following figures: In 1941, 659,750 ducks were produced in the state, compared with 599,000 in 1940. In 1941, 234 million chickens were produced, compared with 227 million in 1940. In 1941 the feed cost per hen was \$1.23 compared with \$1.20 the preceding year, \$1.72 in 1930 and \$1.52 in 1938. The payoff, however, is revealed in the income above feed cost per hen. In 1941 it was \$1.74, the highest since 1930 when it was exceeded by six cents. The comparable figure for 1940 was \$1.33.

### Doubling Pork Production Is His Job

W. O. Dawson, right, Taylor County farmer who bought his farm through the Farm Security Administration three years ago, demonstrates to Burton H. Pritchard, chairman of the County USDA War Board, how he plans to double his pork production in 1942 as his share in the Food-For-Freedom campaign.

District 8, including Bell, McLennan, Travis, and 16 other counties in Central Texas, was second with an income of \$6,164,750, and District 4, comprising 16 counties surrounding Dallas and Tarrant, was third with \$5,889,000. Lavaca, bordering on Fayette but in Extension District 10, was second among the counties with an income of \$930,500, and Williamson in District 8 was third with \$677,250.

Poultry demonstrators' records from over the state showed an average of 83 eggs per hen; in 1940 and 1941 the average price for eggs was 27¢ in 1941, compared with 25¢ in 1930, 23¢ in 1935 and 19.7¢ in 1940. In 1941 the feed cost per hen was \$1.23 compared with \$1.20 the preceding year, \$1.72 in 1930 and \$1.52 in 1938. The payoff, however, is revealed in the income above feed cost per hen. In 1941 it was \$1.74, the highest since 1930 when it was exceeded by six cents. The comparable figure for 1940 was \$1.33.

Texas hatcheries operated longer than usual during 1941 and set an all-time high for chick sales in the late spring months. Breeders had a larger demand for starting pullets than ever before, the specialists say. There were 57 hatcheries and breeders participating in the National Poultry Improvement plan, and 784 flocks totaling 109,685 birds were in the Approved Breeding Stage. Three hundred flocks were U. S.-Approved, pullorum tested.

Since establishment of sulphur as a valuable preventive of coccidiosis in young chicks, county agricultural agents have given an increasing number of demonstrations in its use for several years. In 1941 they conducted 1,499 demonstrations involving 202,728 chickens.

Turkey producers in 1941 marketed

### Miss Genalee Henderson Weds

On Saturday, February 21, Miss Genalee Henderson, grand-daughter of Mr. and Mrs. Howard Henderson, was married in Yuma, Arizona, to Dean Schooler, formerly of O'Donnell but now of Los Angeles, Calif.

Mrs. Schooler is a 1940 graduate of the Tahoka High School. She is now employed in the office of an insurance company in Los Angeles.

Mr. Schooler was reared at O'Donnell, and is now employed in a big defense plant in Los Angeles.

### BILLMANS WRITE FROM DE LEON

The News had a letter from the Billmans, who now reside at De Leon, a few days ago, and since they lived here so long and have so many friends here, we take the liberty to publish it even though it is a bit personal.

"Dear Friends: I hope you all are well and happy — and making a lot of money.

"I don't know how much we are due you on the Lynn County News, but I guess if I sent it all you may have to pay income tax, so I am enclosing two dollars. (The two dollars put Frank's subscription up more than a year ahead.—Ed.) I still enjoy the paper and look for it as I would a visitor from Tahoka. You are kind enough to see that I seldom miss a copy, for which we thank you.

"I think we have good protection from both oceans, as Joe Bob is somewhere on the Pacific and Levi on the Atlantic. They were well the last we heard from them. We will all be glad when it is over.

"Best wishes to you both.—Billman."

Note: No way to avoid that income tax, Frank; we are blaming that on Hitler and the Japs.

Mrs. Henry L. Dixon and two children, Bob and Bill, left Saturday night for Texarkana to join Mr. Dixon who holds a responsible position there as chemical superintendent in a big government plant. Mrs. Dixon had been visiting her parents, Prof. and Mrs. H. P. Caveness, here for several weeks.

Mr. and Mrs. Melvin Stovall of Brownsville were here Friday and Saturday visiting their cousin, Mrs. E. R. Edwards, and family. Mrs. Edwards and two little daughters accompanied them back as far as San Antonio, where they expected to visit relatives. They also expected to visit in Austin, Bartlett and Holland.

the best grade ever shipped out of the state, the specialists declare. The 8,000 flock owners reported using broadbreasted males in their flocks, and that they sold 750,000 hatching eggs. A turkey grading school and a three weeks turkey short course at A. and M. College were attended by a large number of producers.

### Profits Await the Man With Layers That LAY

Even the best layers sometimes become loafers but such loafers can become layers. If your flock is lagging, feed Dr. Salsbury's Avi-Tab in the mash... you'll notice a difference. Stop in today for DR. SALSBURY'S AVI-TAB.

### WYNNE COLLIER DRUGGIST

A member of Dr. Salsbury's Nation-Wide Poultry Health Service.

### George Mahon Opposed Congressional Pension Plan

The News has received a sheet from the Congressional Record of February 22, Washington's Birthday, in which George Mahon, congressman from this district, is recorded as expressing opposition to the bill which proposed to grant pensions to Congressmen who had served for a certain length of time. He was speaking in behalf of repeal of the measure.

"A lot of criticism has been recently made of the Congress and the Administration," Mr. Mahon said. "Some of it has been warranted. For example, the so-called congressional pension was a great mistake, wrong in principle. It has been pending for years, having been first considered by the House in 1939. I am glad to say that I have never favored it or voted for it, and I have urged the repeal of the Act, which I hope will occur at the session tomorrow. Wasteful non-defense spending is bad; the employment of so-called fan dancers in government positions is bad.

"But, Mr. Speaker, let me say that I have not lost faith in the American people, in the Congress, or in the President. The people want the truth; they are impatient with side issues, nonessentials, foolishness, and waste, but they are hungry for a chance to make a real contribution to the war effort. The people are aroused; everything that they have is at stake, and they are ready to make greater sacrifices in order to assure victory for God and country."

### West Texas Museum Association To Meet

LUBBOCK, March 5 — The West Texas Museum Association will hold its annual meeting March 13, Dr. W. C. Holden, curator of the museum, announces. Speakers on the Philippines and China will feature the program. Officers for the next year will be elected.

Dr. Bing-Chung Ling, special research assistant at Texas Technological College, will discuss some phase of life in China at the afternoon session, scheduled for 5 p. m. in the museum on the Tech campus. History of the Philippines leading up to the present situation, and future prospects for the islands will be discussed at the buffet supper by Col. H. A. Finch, ranking officer in Texas Tech's R. O. T. C. unit and resident engineer at the time Corregidor fortifications were being built. The dinner will be held in the new women's residence hall at 7 p. m.

Directors will meet in the museum at 6 p. m. for a business session. Officers are Dr. J. T. Hutchinson, Lubbock, president; Clarence Schaubauer of Midland and Mrs. H. E. Hinn of Plainview, vice presidents; and J. Doyle Settle of Lubbock, secretary and acting treasurer.

Mrs. G. M. Stewart spent the week end with her father, T. M. Dobbins, in Roscoe, going down Friday and returning home Sunday.

# FOOD FOR FREEDOM

## Preserve Foods!

For defense as well as your personal needs

### FROZEN FOOD LOCKERS

1. Save you money.
2. Keep foods in perfect condition, clean and sanitary.
3. Aids the National Food for Freedom drive of our farmers.
4. Permits you to preserve the foods you raise for your own use.

### PLAINS CO-OP, Inc.

SOUTHWEST CORNER SQUARE  
F. T. THORPE

By producing more highly-nutritious foods in 1942, Lynn County farmers will greatly aid the national defense effort, the chairman points out. Huge quantities of food are needed to supply a three-fold demand:

First, plenty of good food for every American.

Second, abundant food to ship overseas to nations who are defending their freedom.

Third, stockpiles of food to help feed hungry people when the war is over, and to help get agreement on a just and lasting peace.

## Repair Now . . .

Lynn County farmers, going *All Out* for the AAA Food For Freedom program to help win the war, and the peace after the war, will need . . .

More fences to protect more acres of gardens.

More fences for more chickens, cattle, hogs.

Better protection for livestock.

Feeders, barns, brooder houses, windmills and well supplies.

## F. L. Prater Dies

(Continued from page one)  
earlier, and the skill of physicians and nurses were unavailing.

The Deceased was born Farris Lee Prater, on December 9, 1886, at Decatur, Alabama. At the age of seven, he moved with his family to Dawson, Navarro County, Texas, residing there until 1925, thence moving to Lynn County.

The deceased was married to Miss Susie Carmack on January 24, 1909. To this union four children were born, all of whom were living and present at the time of his death.

Survivors include the wife, Mrs. F. L. Prater; two sons, Lester Prater of this city and L. D. Prater of Los Angeles; two daughters, Mrs. Prince Scott of Muleshoe and Mrs. Howard Winn of San Diego, California; and two grand-children.

Other survivors include three brothers, J. D. Prater of Cooleage, J. A. and S. T. Prater of Dawson; and one sister, Mrs. J. F. Cotton-gane of Dawson.

Out-of-town relatives attending the services were J. A. Prater and part of his immediate family.

Mr Prater had resided in Tahoka for more than sixteen years and his life here had been such as to merit and command the utmost respect and confidence of the people of Tahoka. He had been a member of the Baptist Church for many years and though not an active church worker he lived always an honest, upright, almost faultless life. Many friends deplore his early passing.

REAL ESTATE: Eight-room modern house located in heart of residence district, clear of debt, will trade for land.

Have the best business corner in town for sale; see me for price. 240 acres fine land for sale at \$35 per acre.

## Food Stamp

(Continued from page one)  
Needy persons will be given stamps in an amount not exceeding twelve dollars per month provided the applicant will purchase a like amount of stamps, paying his or her money therefor, making a total of not exceeding \$24.00 per month to be used by any one family.

The owner of the stamps will then take them to any grocery store which will accept them in lieu of money in payment for the groceries sold to the applicant. These stamps will be redeemed by the Government.

One of the objectionable features, insofar as the county government is concerned, is that the county will be compelled to provide a revolving fund of \$5,000 to \$6,000 with which to handle the stamps, as the county will be required to pay for half of the stamps that are used.

To conduct the business, it was explained to Judge Connolly, it will be necessary for the county to employ a county director, which may cost the county as much as \$125.00 per month additional to pay the director's salary. It is contemplated that it will also be necessary for the county to employ at least one clerk for the director's office, whose salary must also be paid by the county.

Fearing that this plan might prove to be rather expensive to the county, Judge Connolly himself has been very doubtful as to the advisability of installing it; but he says that if the Government sees fit to inaugurate such a plan for this county, he will co-operate to the fullest extent and do his best to see that it is operated as economically as possible and for the benefit of those who really need food for their tables.

Along with the opening on Monday March 2, of the Federal food stamp program in eight Northwest Texas counties, there was indication that the program might be extended to other counties in Northwest Texas in the near future.

Claude Hodges, Austin, District Supervisor for the Surplus Marketing Administration in Texas, said that the mailing program would be confined for the present, however, to counties in Northwest Texas.

The eight counties now included under the mailing program are Armstrong, Dallam, Cottle, Knox, Haskell, Throckmorton, Hardeman and Nolan.

Mailing food stamps from a central point to clients in several counties will mean a considerable reduction for each county in the administrative expense of operating the food stamp program, Hodges pointed out.

Under the new mailing program, food stamps will be mailed from the central issuing office in Amarillo to eligible families in the eight counties.

Explaining how the program works, Hodges said that eligible clients are required to purchase orange food stamps with the money they would ordinarily spend for food and are then issued blue food stamps with which they can obtain at least 50% more food. Hence, the additional farm markets.

For a complete explanation of the new food stamp mailing program and how it operates, Mr. Hodges suggested that interested parties tune in on Radio Station KFYO, Lubbock, at 1:45 p. m., Friday, March 6.

CARD OF THANKS  
We wish to express our sincere thanks and appreciation to our many friends and neighbors for the kindness shown us in the sickness and death of our precious mother.—Respectfully, the Dabbs family.

Mrs. Ray Sherrod and Mrs. Poe had business in Lubbock Monday.

## Changes Made In New Lynn School Faculty

E. H. Schreiber, principal of the New Lynn public school, and his wife, who was one of the teachers, resigned their positions last week and are reported to have left for California, where he expected to procure a position in some aircraft plant. This was their first year at New Lynn.

Following the acceptance of their resignations, the school board elected Mrs. Paul Lawson to the position of principal and Mrs. G. B. Sherrod as a teacher.

Mrs. Lawson taught for several years in the Grassland school and two years in the Tahoka school. Before her marriage she was Miss Zuella Fox.

Mrs. Sherrod, the former Miss Thelma Greenwade, came to Lynn County in August, 1928, as county home demonstration agent. Since her marriage a few years later, she has taught in the public schools both in O'Donnell and Tahoka.

Mrs. J. K. Woosley of Tahoka is also a teacher in the New Lynn school, having taught there several terms heretofore.

The new teachers began work Monday morning of this week.

Mr. and Mrs. W. F. Cook, who recently removed to Stanton after many years residence in this county, were visiting here and in the Draw community Tuesday.

## FOOD STAMP REPRESENTATIVES HERE

A representative of the W. P. A. was here Thursday and explained to Judge Chester Connolly in detail the Food Stamp Plan soon to be inaugurated in this county.

The Judge reports that the plan as finally worked out is quite different from the plan originally proposed and seems to be entirely satisfactory.

Mrs. Ray Sherrod and Laura May Larkstead were in Falls Thursday of last week to see Mrs. Sherrod's sister, who was ill.

## THERE'S A Material Difference in Dickie's

These comfortable, well-fitting work clothes cost no more than the ordinary kind. But what a difference there is in quality of material, workmanship, and service! Here there's no comparison.

## WEAR AND FIT WELL

You get the feeling your pants and shirts were individually tailored for you. That's because they're made for honest quality—no skimping on cut, cloth, or accessories. You're impressed with extra features in the pants like giant bag; in the shirts with pre-like waist; in the dress collars, sleeve plackets, and generous pockets. These and many other advantages give you more service, comfort, and lasting satisfaction. Better try Dickie's next time.
