"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume 38

Tahoka, Lynn County, Texas, Friday, May 29, 1942.

Number 42.

## Uncle Sam Needs Your Scrap Metal Now

### Farmers Winning Battle Against Grasshoppers

County Agent Don Turner reports that the farmers of Lynn County are apparently fighting a winning battle against the grasshoppers that appeared a few weeks ago by the millions to offer a threat to the cotton crop this year.

Some farmers, however, have neglected to take advantage of the opportunity offered them and have not yet joined in the campaign to destroy these pests, Mr. Turner says. Of course, there is the possibility that the hoppers even if let alone would not do any serious damage, but the chances seem to be about a hundred to one that they would. Their hoppers therefore present a threat not only to their own crops but also to the crops of their neighbors, for when they "get their wings" they may migrate from field to field.

On the whole, however, the farmers have responded in a fine way to this grasshopper threat, and the campaign against the hoppers goes steadily on. Mr. Turner estimates that at least half of the farmers of

(Continued on back page)

### Meningitis Takes Drapers' Baby

Little Margaret Draper, the six-months-old daughter of Mr. and Mrs. Howard Draper of the Midway community, died of meningitis in the Phillips-Dupre Hospital in Levelland at 2:10 o'clock Wednesday morning, following a critical illness of more than a week.

The body was prepared for burial in the W. M. Harris Funeral Home here and funeral services were conducted at 4:30 o'clock Wednesday afternoon in the home of the child's grandparents, Mr. and Mrs. I. M. Draper, in the Midway community, with Elder M. V. Showalter of Abilene and Garnie Atkinson, minister of the Church of Christ in Tahoka, officiating, and the little body was laid to rest in the Tahoka cemetery.

Born on November 23, 1941, little Margaret was six months and three days old at the time of her death. Surviving are the parents, Mr. and Mrs. Howard Draper, the paternal grandparents, Mr. and Mrs. I. M. Draper, the maternal grandmother, Mrs. R. L. Vick of Salado, and six brothers and sisters: Bill, Mary, Bland, Bobby, Robert Thomas and John Gordon; together with a number of uncles and aunts and other relatives.

The grief-stricken parents and children, as well as the grandparents and other dear relatives, have the deepest sympathy of their many friends.

### Major To Visit Defense Guard

Major Chester A. Hubbard and Captain A. C. Jackson of the Headquarters company, 39th Battalion of the Texas Defense Guard, Lubbock, will attend the meeting of the Tahoka Guard Monday night, according to Capt. Don Turner.

Turner requests that a full membership be present. He also issues an invitation to anyone interested in joining the company to attend.

### Hemmeline Baby Is Recovering From Serious Illness

Phyllis Ann, the nine-months-old daughter of Mr. and Mrs. O. P. Hemmeline of Dixie, was brought home from a Lubbock hospital Sunday, where she had undergone an operation for mastoid trouble.

The infant was first taken to the hospital with pneumonia, later she suffered an attack of measles and then came the mastoid trouble. Although the operation was a rather serious one, the child seems to be recovering satisfactorily.

### Diphtheria Vaccine Will Be Given

Dr. J. W. Sinclair states that diphtheria vaccinations were not given Wednesday as had been announced for the reason that the vaccine had not arrived.

It is reasonably certain that the vaccine will be here before next Wednesday, and if so this campaign of immunization will begin at that time. It is hoped that many will take advantage of this opportunity to be immunized against this dangerous malady.

### Showers Cover Most Of County

Summer weather has really staged a come-back this week. The thermometer kept by the News man registered a high of 94 degrees for three days in succession, Tuesday, Wednesday, and Thursday. The mean temperature this month has probably been several degrees below the normal mean temperature for May.

Rain in varying amounts has fallen in the county also during the past week. On last Friday night the rainfall in Tahoka amounted to 1.06 inches. On Saturday night there was a brilliant electrical storm and heavy rain in some portions of the county but only .06 of an inch fell in Tahoka.

Most of the county received from a half inch up to one and a half inches or more on Friday night. Heavy rains are reported at Midway, Redwine, Draw, and Grassland on Saturday night.

Farmers are still busy planting cotton, though much of the crop is up already, and it is said to be looking nice the past few days. Much feed is up also and apparently getting a good start.

### R. O. Miles Out For Commissioner

R. O. Miles, for many years a resident and prominent citizen of O'Donnell, makes his announcement this week as a candidate for county commissioner from precinct No. 3. His announcement follows.

"I take this method to present to the voters of precinct 3 my candidacy for the office of county commissioner.

"Having lived near O'Donnell thirty-eight years and spending twenty-five of them in business at O'Donnell, I feel that most of you know me.

"This is my first time to ask for a public office. I feel that this is an important office and feel a responsibility in asking you to support me in this race, realizing that the one who should be fortunate in securing the office will be called upon to be very careful in the administration of the business which comes under the management of the commissioners' court.

"Should you see fit to place me in this office, I will be mindful of the fact that we are facing one of the most critical periods of our history, financing a big and costly war; and that every one who has the responsibility of assisting and directing the affairs of our county should at all times be governed by the actual needs of the county and should be careful to incur only those expenses which are conducive to a conservative and business-like regime."—R. O. Miles.

### Weathers Named USO Drive Head

R. P. Weathers, county tax assessor and collector, has been appointed chairman of the forthcoming USO drive in Lynn County.

A similar drive was conducted about a year ago.

Purpose of the organization is to furnish wholesome entertainment to boys in the camps.

Keep 'Em Reading.

### "Doolittle and Do It Now"

Brig. Gen. James H. Doolittle

When Brigadier General James H. Doolittle and his 79 American

fliers skimmed over the rooftops of Tokio and dropped bombs on Japanese docks, ships and munition plants the first installment was paid in avenging the treacherous attack on Pearl Harbor. For two days the fires from Doolittle's bombs devastated Tokio's war industrial plants and those of other Nipponese cities. Tojo's propagandists attempted in vain to stem the panic of the people by trying to belittle the importance of the attack. But the war lords of Tokio know that attack will be repeated—that American bombers will return again and again and the day of vengeance for Pearl Harbor is in sight.

The Medal of Honor for General Doolittle and the Distinguished Service Cross for each of his intrepid aviators, bestowed by President Roosevelt, represent every loyal American citizen's gratitude for this most brilliant exploit in aviation history.

## Defense Guard In Lubbock Maneuvers

Forty-five members of the Tahoka Defense Guard company participated in the 39th Battalion maneuvers held at Mackenzie State Park last Saturday night and Sunday, along with approximately 350 other Guardsmen from Lubbock, Plainview, Levelland, Slaton, and Crosbyton.

After scouting over the hills most of the night and fighting a sham battle that began at about daybreak Sunday, most of the Tahoka men were barely able to walk early this week.

The maneuvers were carried out in a military manner and were startlingly realistic, war conditions being carried out in about everything except actual gunfire.

Tahoka, not yet having become a recognized company in the Texas Defense Guard, was declared to be the enemy, and was assigned the swimming pool area for its bivouac, while the five companies of 350 men from the 39th Battalion were encamped in the grounds of the South Plains Fair Grounds.

Tahoka knew that they were to be attacked some time Sunday, and soon after camps had been established, scouting parties were detailed to determine the disposition of the

enemy, and the possible point of attack. Scouts from the Tahoka camp managed to get behind the enemy lines during the night, even going far enough back to spy the enemy barracks. Several reached the vicinity of the mess kitchen. Though most of the Tahoka scouts were captured, word was brought back that the major activity of the enemy seemed to be forming in an area east of Mackenzie and that the attack would probably come from that section.

This proved to be true, and the Tahoka boys got the jump on their superior enemy forces by having their defense lines and plan of battle ready an hour or two before daylight. As the Tahoka lines lay in wait for the expected attack enemy patrols were observed in "no man's land" but these scouting parties seemed to have been surprised to find Tahoka already set for the attack.

Shortly before dawn, the concealed Tahoka boys "sky-lighted" the first invaders coming over the hills toward the Tahoka lines. Soon the battle was on. Referees were on hand to judge the skirmish to determine the dead and captured by

(Continued on back page)

### Poppy Day Will Be Observed Here

"Wearing a poppy is a pledge that we will not break faith with those who have died defending America," said Mrs. A. M. Cade, President of the Marion G. Bradley Unit of the American Legion Auxiliary, as the Unit prepared for the annual observance of Poppy Day next Saturday.

"The poppy comes to us from the fields of France where Americans first gave their lives in battle against the dictator powers," continued Mrs.

(Continued on back page)

### Rotary Hears Of Poison Gas

W. T. Bovell was the speaker at the Rotary luncheon Thursday. Having attended the state firemen's convention in Houston last week, he gave a brief report of the meeting.

Stating that most of the four days of the meeting was devoted to discussion and the dissemination of information regarding the civilian defense program, W. T.'s talk had to do almost exclusively with that subject. He felt that the public should become deeply concerned respecting defense measures in case of an enemy airplane attack, and particularly against danger from poison gas bombs. Stating that there are four types of poison gas which may be used with deadly effect in war, he went into considerable detail as to how to defend against this danger.

Don Turner used a minute or two giving information about the grasshopper menace and how to combat it.

Frank George, who was in charge of the program, had a little fun in conducting a quiz and in dealing out some bits of interesting information.

Joan Edwards was pianist for the day and rendered a couple of piano solos.

Roy Weathers laid before the club the advisability of staging a drive for U. S. O. funds in this county, since he had been named as county chairman for Lynn County. No vote was taken on the matter but he was encouraged to proceed with the drive.

### Simmons' Mother Dies At Leonard

G. W. Simmons received a message Tuesday afternoon that his mother, Mrs. G. W. Simmons Sr., had died about 12 o'clock noon that day, at Leonard, Fannin County, where she had lived for forty-two years. Funeral services were to be conducted in the Baptist Church there, of which deceased was a member, at 3:00 Wednesday afternoon.

Mr. Simmons had visited his mother recently and he did not go down for the funeral.

His mother, who was 82 years of age, had been sick for four or five months. She left surviving seven children, six of whom reside in that section of the state. She was a native Texan, having been born in Cass County, and she had been a member of the Baptist Church since childhood.

### 1,011 Registered Here April 27

Mrs. Loyce McMahon, secretary of the Lynn County selective service board, reports that 1,011 men registered in the registration taken on April 27 for men between the ages of 45 and 64 inclusive.

It is not contemplated that any of these men will be called into any of the fighting units, but it is expected that some of them may be selected for service as skilled workmen or for any kind of work in this war effort in which they can render special service.

### Congratulations--

Mr. and Mrs. Monroe R. Slice on the birth of a 9 pound son Tuesday night.

### Salvage Drive In Lynn County Is Next Week

Farmers and other citizens can aid the C. S. war effort immediately by gathering much-needed scrap iron around their places and hauling it into Tahoka, O'Donnell, or Wilson next week for shipment to steel mills and foundries building munitions with which to defeat the Axis powers.

Scrap iron, and also rubber, will be received and weighed, and receipts given for the same, at either of the former co-op. signs in Tahoka all next week. The metal will be sold at the highest price possible, thought to be from \$8.50 to \$12.00 per ton.

As an additional incentive, J. K. Applewhite is offering a \$25.00 War Bond to the individual, not a junk dealer, bringing in the largest amount of saleable iron.

The drive is directed by a central committee composed of Judge Chester Connolly, Applewhite, Fred McGinty, Deen Nowlin, Frank Hill, and J. C. Key.

The committee members represent

(Continued on back page)

### Registrants To Leave In June

The following men have been called by the county selective service board to report in June for induction into the armed forces of the United States.

Colored men to be inducted on Monday, June 1, are: Robert Moore of Plano, Collin County; R. H. Moore of O'Donnell; Roy Snow of San Angelo; Thomas Seymour and H. E. Sayles Jr. of Tahoka.

A list of white men to be inducted on Friday, June 12, includes the following: Truman Lee Murdock, Paul Mirland Doss, Roy Carlton Bankston, James Leona Crawford, Edgar Joe Jackson, Preston Singletary, Alfred Joseph Bankston, Elbert Allen John Emer Nelson, and Pres on Sears Bartley, all of Tahoka.

Burl Wilson Koeninger, E. H. Harley Platt, and Aron Fletcher Platt, all of O'Donnell; Garland Henson Gilmore, Alvin Louis Shambek, and Davis Lee Perdue, all of Wilson;

Manuel Martinez of San Antonio, Pleasant Charles Spears of Los Angeles, California, Charley Richard Thutman of Stamford, John Victor Schneider of Temple, Macario Paz of Poteet, Leldon Lewis Warren of Stockton, California, Don Corrales Guzman of Austin, Joseph Mitchell Alderson of Coleman, Leland Ervin Jones of Lakeside, Airona, Ralph Charles Glenn of Gause, Concepcion Lozano of Edcouch, Catarino Torres Martinez of San Lucas, California, Gilbert Frederick Kreglow of Hereford.

### Inspector Visits Defense School

W. A. King, area supervisor of National Defense Schools, was here Wednesday inspecting the Tahoka training school located in the Bovell building, next to Tahoka Bakery.

Jack Corley, the instructor, states that there are 27 students enrolled in the school, in which instruction is being given in sheet metal work, welding, electricity, and related lines.

Corley says several who have taken the courses have already secured jobs in defense industries.

Corley says that anyone interested in learning this work should see him or Leslie (Broadway) Browning, supervisor. The school is also in need of jobs to work on.

Miss Helen House, daughter of Mr. and Mrs. Fred House, is now a clerk in the postoffice at Killen.

Robert Draper, who is in the Army at Fort Bliss, came home Monday on a ten-day furlough.

### Small Farmers Can Aid War Effort of Nation

Small farm and ranch operators in West Texas are proving that they can contribute very materially to the war effort by producing a permanent place in the nation's economy.

This was the point of a report on the war effort made this week by Wyman J. Welch, County Supervisor for the Farm Security Administration. He said this is particularly true of the low-income farm and ranch operators in Lynn County.

Citing records compiled in Washington, the county supervisor said that of all the increases in principal foods required by the Department of Agriculture, low-income operators participating in the Farm Security program in the South and Southwest will produce from one-fourth to one-half of the total.

In Lynn County, Mr. Welch said, the 1942 farm plans for Farm Security borrowers show that they have increased their gardens by 25 per cent, their egg production by 100 dozens, their milk and milk products by 15 per cent and their hogs and other meat supplies by 40 per cent.

"The Food for Freedom program," said Mr. Welch, "presents an opportunity for low-income farm families to participate in the war-winning program and the Farm Security Administration's special Food for Freedom loan program enabled them to increase their operations to help feed this and the other United Nations during the war."

Farm Security's Food for Freedom loans, in addition to the regular rehabilitation loans, he continued, "also enabled many farm families to make adjustments in accordance with feed resources, housing and equipment for handling the increased enterprises, and the increased poultry, livestock and garden programs."

Mr. Welch said his agency is warning its borrower-families against selling the products they may need at home for proper nutrition. This might be a temptation, he explained, because prices for these products may be higher than in the past several years.

With sufficient financial and supervisory help, low-income farmers in Lynn County and over the nation are proving that they can contribute an important share of the increased food production, needed to win the war and write the peace. However, the FSA encourages its borrower-families to protect their own diets and health before marketing any of the produce they raise this year.

"This precaution is being taken," he concluded, "because each individual must safeguard his own health if we are to make this a nation of strong people."

### LAWRENCE-BOTKIN RITES

In the home of Mr. and Mrs. W. M. Harris last Thursday night Miss Marjorie Lawrence and Roy Botkin exchanged vows which united them as husband and wife. Rev. Hal Upchurch, supply pastor of the First Baptist Church, reading the ceremony. The young couple was attended by Misses Rae Fern Pennington, Frances Tunnell and Truman Hines.

Mrs. Botkin is the daughter of Mr. and Mrs. C. A. Lawrence who had resided in Lynn County for a number of years, where Mr. Lawrence had taught school, served as County Agent, and served as Secretary for the AAA, before their removal to Littlefield the first of this year. She is a 1940 graduate of the Tahoka High School and for some time has been employed in the local telephone office as operator.

Mr. Botkin, son of Mr. and Mrs. V. L. Botkin, who live east of Tahoka, is also a graduate of Tahoka High School, class of 1939.

After spending the week end with the bride's parents at Littlefield, they returned here to make their home.

### WOODROW BREWER NOT MARRIED

A few weeks ago the News published a news story from Kelly Field in which it was stated that Woodrow Brewer is married, being the husband of Mrs. Virene Brewer, Rt. 3, Tahoka.

This was an error. Mrs. Virene Brewer of Rt. 3, Tahoka, is his mother. Woodrow is not married.

### PHEBE K. WARNER CLUB HAS PICNIC

The Phebe K. Warner Club had a picnic Tuesday in the back yard of Dr. and Mrs. Sinclair's home, with Mrs. Anna Steenberg as hostess. The picnic was the final meet of the year.

Mrs. Winston Wharton gave out the new year books.

Helen O. Waits of Denver, Colorado, came Sunday to visit his sister here, Mrs. Guy Smith. Mr. Waits is an X-Ray Corporal. He returned to Denver Wednesday.

### MRS. SPIKES VISITS SON AT RANDOLPH FIELD

Mrs. Houston Spikes went to San Antonio last Friday, where she visited her son, Robert, who is a cadet at Randolph Field near there.

Mrs. Spikes said she enjoyed the Regiment Parade Saturday afternoon and being her son's best girl at the Cadet Dance Saturday night.

Mrs. Spikes said Robert had thoroughly enjoyed his work while there and that he would be leaving soon but doesn't know where he will be sent. Robert said he would be happy anywhere, just so he could fly.

Mrs. Spikes returned home Monday.

### CHILD GUIDANCE CLUB ENTERTAINS WITH PICNIC

The Child Guidance Club members entertained their children with a picnic Tuesday evening at the City Park.

This meeting rounded up their year's work. A short business meeting was held. The Club voted to serve the Home Guard Defense Unit at various times.

### WILFRED SHAFFNER NOW IN HONOLULU, HAWAII

Wilfred H. Shaffner, cockswain in the U. S. Navy, who has been in the Pacific war zone ever since the Pearl Harbor incident, recently arrived back in Honolulu, and writes from the Rest & Recreation Center, Royal Hawaiian Hotel to his parents, Mr. and Mrs. A. D. Shaffner of Route 5.

Wilfred has been in the Navy over two years, and his ship is a refueler for submarines.

Mrs. Shaffner states that Ray Charles Netman, who has been in the Navy four years, and who has seen Wilfred, is coming home June 10 to visit his parents, Mr. and Mrs. Gus Netman at Idalou, and she is anxious to see Ray Charles to get further news of her son. The Netmans formerly lived at Wilson, but moved to Idalou several months ago.

Miss Marie Cox of the F. S. A. office returned Thursday of last week from a visit of more than two weeks with her parents in Plainview. While there, she had a case of the measles.

Ray Tillery, who is employed in spending his vacation at his home the First National Bank here, is in Arkansas.

Our Government asks us to urge you to

### Junk Iron Goes Into Munitions

Here are some of the things that your junk metal can do:  
 Five hundred pounds of scrap metal is required in the building of a 2,000-pound aerial bomb.  
 A 50-caliber machine gun uses 50 pounds of scrap metal.  
 A 75-millimeter howitzer requires half a ton of scrap metal; and 16-inch naval shells require the same.  
 In the construction of a medium 27-ton tank the manufacturer uses 18 tons of scrap.  
 A three-inch anti-aircraft gun requires three tons of scrap metal and to build a 35,000-ton battleship, 9,000 tons of scrap is used.

E. H. Boullion and Truett Smith and family left Wednesday noon for Buchanan Dam down on the Colorado near Burnett, where they expected to hang up some kind record as fishermen. They were expected to return home today (Friday).

Mrs. P. D. Server spent last week with her daughter, Mrs. Odie Best, and family, in Lamesa.

### Official U. S. Treasury War Bond Quotas for June

The above map of the country shows the War Bond Quota by states for the month of June totalling \$890,000,000. Everybody every pay day is expected to invest at least ten per cent of his income in War Bonds to aid in financing America's offensive against the Axis powers.

The ultimate quota for the nation will be on a basis of one billion dollars per month effective in July. This sum is necessary to provide for all-out production of planes, guns, ships and munitions adequate to arm our fighting men with the tools necessary to win the war.

A Medium 27-ton Tank Requires 18 Tons of Scrap Metals

FOLKS, LET'S DO OUR PART TO WIN THIS WAR... BRING IN SCRAP IRON AND METAL JUNE 1 TO 6.

**PETE CURRY ON CRUTCHES**  
 Pete Curry, who was critically injured several weeks ago when the horse on which he was riding at his home two miles east of town fell upon him, is able to be down town occasionally on crutches. Several bones about the pelvis, spine, and hips were broken when the horse fell on him, and he spent many weeks in a plaster cast. Many friends were tickled to see him recovering so rapidly.

Miss Pearl Emmons of Duncan, Okla., and Mrs. Gilbert Baskerville of Vernon, Texas, came Sunday and are here this week visiting their sister, Mrs. C. E. Woodworth and Mr. Woodworth.

Mrs. Dan Daniel of Sherman is here visiting her husband's mother, County Treasurer Lois Daniel.

James V. Allred, former governor, who recently resigned as Federal judge to run for U. S. Senator in opposition to the present Texas junior Senator, W. Lee O'Daniel, likewise a former governor. Dan Moody, another former governor of prominence, entered the race about the same time as did Allred.

### GOOD ATTENDANCE AT VACATION BIBLE SCHOOL

With almost forty teachers and directors, the Vacation Bible School which opened here Monday under the joint sponsorship of the Methodist and Baptist Churches has had a daily attendance this week of 171, according to information given to the News by General Director Melvin Ratheal.

The teaching force is about equally divided between the two churches. Rev. George E. Turrentine, pastor of the Methodist Church, and Rev. Hal Upchurch, supply pastor of the Baptist Church, are actively engaged in leading the forces of their respective churches, and the promoters and teachers in the school have expressed themselves as being much gratified at the good attendance.

The Methodists have held a Vacation Bible School during the past two summers, but this is the first experience on the part of the Baptists.

Brother Dale, regular pastor of the Baptist Church, who is now enjoying a vacation given him by reason of ill health, is also much interested in the work although he is unable to take an active part in it.

The school will continue through next week, and Mr. Ratheal sends out an invitation to all others who might be interested to join in for the remainder of the school. Even if they can attend only two or three meetings, he says, they will be welcomed. This applies to the public generally without regard to denominations; all are invited.

The primaries and beginners are meeting at the Methodist Church; and the intermediates and the juniors at the Baptist.

The hours are 3:30 to 6:00 o'clock each afternoon.

### CHRISTINE WENZEL VERY ILL

Miss Christine Wenzel of the Lyntegar office, who had been ill at the home of her parents, near Wilson, for about ten days, underwent an emergency operation at Mercy Hospital Wednesday afternoon, the News is informed. The appendix had been ruptured for some time, and Miss Wenzel is said to be in a very critical condition as we go to press.

### DUCKETT HAS OPERATION

G. M. Duckett, who underwent an operation in a Lubbock sanitarium last week is reported to be improving nicely.

### What You Buy With WAR BONDS

These huge 60-ton heavy tanks cost \$120,000; and America's automotive and locomotive plants are turning them out on a never-ending assembly line. Our army uses light tanks, weighing 14 tons, and medium tanks of 28 tons also, but we favor the medium tank over the other two.

These heavy tanks are needed for certain phases of modern warfare, and with their thick armor and heavy-gauge guns they are almost unstoppable. They are considered superior in gun power, in maneuverability and in the power of their huge tractor motors to Axis tanks. Americans everywhere are helping to pay for these monsters of war through their purchase of War Bonds. Invest at least ten percent of your income in War Bonds every pay day.

U. S. Treasury Department

Mrs. E. H. Boullion and Elbert Jr. returned Tuesday from Albuquerque, New Mexico, where they visited Mrs. Boullion's brother, Buford Swan and wife. Mrs. Boullion says that they have a big aviation field there and that a visitor thoroughly realizes that we have a war on.

Bedford Wilkerson, a member of the Wilkerson family who reside at the Leonard Craft place, recently underwent a major operation from which he is recovering satisfactorily. His father is a member of the geophysical crew that is working in this county.

### SAM GARRARD GOING TO OFFICERS' SCHOOL

Sam Garrard, who has been stationed at Camp Blanding, Florida, and wife, came in the first of the week to visit his father, Tom Garrard, and other relatives.

Sam is being transferred to Fort Sill, Oklahoma, where he has been granted an opportunity to attend the Officers' Candidate School.

Ed Oliver returned to his home at Bowie last Monday after having been here with his brother, C. T. Oliver, ever since the latter was so seriously hurt in an automobile accident several weeks ago. Mr. Oliver's body and legs will doubtless be released from the cast in the near future, as his improvement has been very favorable, according to the family.

J. L. Nevill returned Tuesday afternoon from Lytle, where he had spent almost three weeks at the bedside of his aged father, J. C. Nevill, who has been critically sick of heart trouble, but was able to report that his father seemed considerably improved.

Robert Maddox, who has been at Camp Blanding, Florida, the past few months and who recently transferred to the aviation corps, is now taking flying lessons at Floydada, according to his father, Judge B. P. Maddox.

One reason given for the fellowship among Navy men is that officers of the highest rank and the lowest rated seaman are "all in the same boat" and see the same action together.

High school graduates may become flight officers in the U. S. Navy and serve as the "Eyes of the Fleet."

A young man can learn a skilled trade in the Navy which will benefit him when the war is over.

A 3-in. Anti-aircraft Gun Requires 3 Tons of Scrap Metals

Join Lynn County in gathering scrap iron to save America!

BUY WAR BONDS!  
**FRED MCGINTY**  
 FARM LOANS

### THIS IS SERIOUS...

Uncle Sam needs every bit of your SCRAP METAL — iron, steel, brass, copper, lead, tin, and all other types. And he needs them badly, must have them now!

And here's the tragic thing! If a smelter is closed down because of lack of scrap it must be re-lined before it can start up again. And that job takes 100 DAYS. Just think—100 days lost—enough steel lost to produce 100 tanks like the one above. Don't let this happen to you and Uncle Sam! Bring in your scrap metal the week of June 1-6.

### D. W. Gaignat

HARDWARE FURNITURE, AND IMPLEMENTS

## Victory Fashions Will Be Delayed

COLLEGE STATION, May 27 — Since clothing for this spring and summer is practically all manufactured and on the market, women and children likely won't be wearing many Victory fashions until fall or winter, says Mrs. Dora R. Barnes, clothing specialist for the A and M. College Extension Service.

Women who do their own sewing, however, should become acquainted with recent orders of the War Production Board which will streamline ready-made garments to save cloth. Skirts and coats will be narrower. Two-piece dresses are out. So are big sleeves, woolen inner-linings, patch pockets, capes, hoods, all-over tucking, and wide belts.

Like the men, women will give up cuffs on their slacks and the trouser legs may be only 19 inches wide. This should make them safer to wear, Mrs. Barnes says.

Where color is concerned, black, brown, and blue may no longer be leaders, for these dyes are getting low. Gingham will be available as long as the dyes hold out, and print materials in four colors are allowed until Sept. 1. After that, dresses may be more somber, the specialist says.

No grade A leather is now available for civilians' shoes. The men in the armed forces will have the best.

Principal headache for women just now is the price and supply of hose. Nylons are playing out. Silk hose

### DO NOT DESTROY HISTORICAL DOCUMENTS

LUBBOCK, May 27 — "Don't let your collection of scrap paper include any valuable historical documents," urges Dr. H. L. Kent of the Texas Technological College. He is asking students to assist in preventing such occurrences in their home towns.

"The drive to turn old paper into war production is indeed patriotic," he points out, "but often the contribution of a few pennies with which to buy useless scrap paper would be equally patriotic and would save valuable historical documents for libraries and museums."

The need for saving old books, letters, magazines or newspapers that may have historical value from salvage collectors has been pointed out to schools in Texas and elsewhere by the Association of American Colleges. Persons in doubt about the value of such publications would do well to consult with the librarian of the nearest college or university, to ascertain their historical value.

A good milk goat can produce ten times her body weight of milk in a single lactation period, USDA research shows.

are also becoming scarce, and are expensive and of poor quality. Rayon hose, recently introduced to the market, appear to be durable but 18 hours is required for them to dry properly. One war-time innovation is bamboo arsenic, but these have not been tested by consumers thus far.

## What You Buy With WAR BONDS

The Army's fighter planes are the finest in the world and develop speeds up to 400 miles an hour. They cost approximately \$100,000 each, provide fighter escorts for the huge flying fortresses, and combine speed, range, altitude and blistering fire power.

America's plane production plants are working over-time turning out thousands of these fighter planes. War Savings Bonds will help pay for them and the American people are committed to at least ten percent of their income to finance their cost in War Bonds. Every American, buying his share every pay day, will make it comparatively easy to supply our army and navy air corps with these supreme Eagles of the air.

## Extension News

Now that the nation's sweet tooth is undergoing a little discipline, many a homemaker is working out ways to make her sugar supply go further. Restricted sugar purchases may be a bit inconvenient at first but it can hardly be regarded as a kitchen catastrophe because one can use much less sugar and still have nutritious meals that taste good.

Molasses and sorghum supply energy plus iron, calcium and phosphorus. Sugar gives only energy.

Molasses and sorghum have their own characteristic flavor. They may be used in preparing many delicious foods. Several recipes are given below. Frequently favorite recipes may be used substituting molasses or sorghum for all or part of the sugar. The following points may be helpful in making substitutions:

1. It takes about 1 1/2 cups to equal 1 cup of sugar in sweetness.
2. Each cup contains approximately 1/4 cup of water so the liquid in a recipe should be reduced in proportion.
3. In products that are leavened, about 1/4 teaspoon soda should be used per cup of molasses or sorghum.
4. Molasses and sorghum burn easily, so the temperature for baking should be lower than the temperature for baking mixtures with sugar.
5. Molasses and sorghum vary in moisture and acidity, therefore, suggestions above are given as "approximate."

### CANDIED SWEET POTATOES

6 medium-sized sweet potatoes.  
4 tablespoons butter.  
1 cup syrup.  
1/2 teaspoon salt.

Partly cook the sweet potatoes in boiling water, cool and skin. Cut the potatoes in halves lengthwise. Put in a greased baking dish large enough for just one layer, not packing too closely. Heat the syrup, salt and butter, and pour over the sweet potatoes. Bake in a moderate oven for 1 hour or more, basting often.

### APPLE GINGERBREAD UPSIDE DOWN CAKE

1/2 cup shortening.  
2 1/2 cups flour.  
1/2 teaspoon salt.  
1/2 cup boiling water.  
1 1/2 teaspoons ginger.  
2 teaspoons cinnamon mixed with 1-3 cup sugar.  
1 cup molasses.  
1 teaspoon soda.  
3 to 5 firm fleshed apples, pared, cored, quartered.

Melt fat in boiling water, add molasses. Sift flour, ginger, soda, and salt together and add to first mixture, beat well. Arrange apples in greased baking dish, sprinkle mixture of sugar and cinnamon. Pour gingerbread mixture over apples and bake in moderate oven about 25 minutes. Serve hot with hard sauce or plain whipped cream.

### SOFT MOLASSES COOKIES

1 cup sorghum.  
3 cups flour.  
1/2 teaspoon soda.  
1/2 cup fat.  
1 1/2 teaspoon ginger.  
1 teaspoon cinnamon.  
1 egg.  
1/4 teaspoon salt.

Cream the fat, add the sorghum, egg, and sift dry ingredients, and then chill. Turn out on floured board and roll one-fourth-inch thick. Cut out and place on a greased baking sheet and bake 8 to 10 minutes in moderate oven 350 degrees F.

Egypt has an area of 383,000 square miles, but, due to its lack of moisture, only 12,000 square miles are under cultivation.

## Substitutes For Sugar Used

COLLEGE STATION, May 27 — By observing several simple rules, homemakers successfully can substitute honey or molasses for part or all of the sugar required in their favorite recipes.

Hazel Phipps, Extension Service specialist in food preparation, says the characteristic flavors of molasses and sorghum make many foods more delicious. Both vary in moisture and acidity, she says, so the amounts she recommends for sugar substitution are "approximate."

It takes about 1 1/2 cups of molasses or sorghum to equal one cup of sugar in sweetness. Each cup contains approximately one-fourth cup of water so the liquid in a recipe should be reduced in proportion. In products which are leavened, about one-fourth teaspoon of soda should be used for each cup of molasses or sorghum.

Miss Phipps gives this caution: Molasses and sorghum burn easily, so the temperature for baking should be lower than the temperature for baking mixtures made with sugar.

Rules for substituting honey for sugar are quite similar. Mixtures with honey brown easily and high heat changes the flavor of honey, so cooking temperatures should be lowered. A cup of honey gives approximately the same amount of sweetness as one cup of sugar, so the exact amount may be substituted. However, each cup of honey, like molasses, contains about one-fourth cup of liquid, so the liquid requirements of the recipe should be reduced one-fourth cup for every cup of honey used.

The specialist's final advice is: Use approximately one-eighth to one-fourth teaspoon of soda per cup of honey in baked products such as cakes or quick breads.

Burcell Godwin, the 14-year-old daughter of Mr. and Mrs. James Godwin, was taken to a Lamesa hospital Saturday night suffering from appendicitis. A successful operation was performed by Dr. Emil Prohl of Tahoka assisted by Dr. Loveless of Lamesa, and reports indicate that the patient is recovering satisfactorily. The girl's mother is with her at the hospital.

## Edward McMillan Writes From Pacific

Mr. and Mrs. H. L. McMillan received a letter Sunday from their son Edward, who is in the U. S. Navy. It was not known where Edward was when the letter was written but it was dated April 17, was post marked April 22 and was not received here until May 24. It is believed that he is a long way off somewhere in the Pacific but he is well and stated that he was feeling "like a million dollars."

Edward was a former employee in the News office and he was on the Oklahoma, it will be remembered, which was bombed and put out of commission in Pearl Harbor when the Japs made their treacherous assault upon that port and the near by Hickman flying field. Edward managed to escape from the stricken ship uninjured.

### CARD OF THANKS

We take this method of expressing our gratitude to our neighbors and friends for the very substantial assistance which they rendered us

while our baby was so seriously ill in the hospital. "A friend in need is a friend indeed." We shall never forget your kindness—Mr. and Mrs. O. P. Hemmeline.

Mr. and Mrs. R. R. McMillan of Clayton, New Mexico, visited here Sunday in the home of his brother, H. L. McMillan. H. L. Jr accompanied them home to spend the week.

## TAHOKA

### New Bus Service

BROWNFIELD, PLAINS, TATUM, ROSWELL, SANTA FE, ALBUQUERQUE LAS CRUCES, PORTALES, POST, SWEETWATER, FORT WORTH.

**CUSTOMER:** Both these cars appeal to me, but...

**SALESMAN:** You won't find a better second-hand car anywhere than either of these. Wonderful buys!

**CUSTOMER:** If I only knew how the engines had been treated... what oil the ex-owners used.

**SALESMAN:** This one, I don't know. But this red job I happen to know had nothing but Conoco Nth motor oil from its first mile!

**CUSTOMER:** Well, why didn't you say so! Conoco Nth! I'll take the red job, of course! First of all, whoever owned that car knew what was best for a car when they used Conoco Nth. With Conoco Nth in the crankcase, I'm sure the cylinders and moving parts were protected by OIL-PLATING—lubricant that doesn't all drain down at every chance, but stays on the job.

**SALESMAN:** Well, that'd sell me the red one.

**CUSTOMER:** Why, man, Conoco Nth can help keep an engine so clean of sludge and carbon that it easily ought to mean good long life. I'm going to cash in on this car's value—and keep on using Conoco Nth.

You can cash in, too. Cash in by getting all the engine life and good oil mileage that are winning sensational sales success for Conoco Nth oil. See Your Conoco Mileage Merchant today! Continental Oil Company

### FOR THE DURATION of your car

Don't depend on spasmodic and hurried stops for gasoline to have your tires and car checked. Join my ONCE-A-WEEK CLUB. Choose one day each week to bring in your car. I will check and properly inflate your tires, check oil, radiator, and battery. I will look for and report anything beyond this that appears to need attention. I will keep a careful record of greasing and oil change and remind you whenever these services are needed. I'm here to help you get the maximum service and life from your car at the least possible cost and trouble to you.

**THE SUFFRAGE QUESTION BOBS UP AGAIN**

A Southern Senator, Fletcher of Florida—or is it Senator Pepper?—has introduced a bill in the Senate denying the right to any state to require the payment of a poll tax as a prerequisite to voting for any Federal official.

Southerners as a rule have held doggedly to the doctrine that the people of the several states have a right to prescribe the qualifications of voters in the respective states except as they may be restricted by the Federal Constitution. The rights of the states was admittedly restricted in this respect when the Fifteenth Amendment was adopted following the Civil War giving the Negro the right to vote.

The immediate effect of the adoption of that amendment was to extend the right of suffrage to hundreds of thousands of voters in the South who were densely ignorant and who had no conception whatever of the responsibilities of citizenship. Designing white men took ad-

vantage of this situation to boost themselves and their friends into office through the Negro vote, usually employing bribery or other forms of corruption to accomplish their purposes, to which decent and honest men would not resort.

To correct these evils, the people of various Southern states adopted different measures. Some of them adopted what was known as the "grand-pa clause" and others the payment of a poll tax as a prerequisite to voting. In Texas, the poll tax amendment to our State Constitution was adopted. Since a large majority of the Negroes did not go to the trouble of paying their poll taxes, this amendment had the effect of barring many of them from the polls.

To further remove the evil of corruption in politics, the Democratic party in most states of the South provided for white Democratic primaries.

Now comes a Southern Senator and proposes that the states be forbidden to make the payment of a poll tax a prerequisite to voting. He would throw down the bars and open again the flood-gates of political chicanery and corruption.

We do not contend that all Negroes are corrupt nor that all of them are too ignorant to intelligently use the ballot; but past experience has taught us that a vast majority of them do fall under one or the other of these two classifications.

Most of our Tahoka Negroes are good citizens, and we want them to remain so. But if they were given the unrestricted right to vote, we fear that even many of them would become the political pawns of designing white men. In those sections of the state where Negroes are numerous, we know that it would be so.

But it seems to be almost certain that the Federal Congress is going to pass this proposed law and throw down the bars.

If this is done, and if the bars to their participation in the Democratic primaries are thrown down also, we have the meager hope that the Negroes will use their newly acquired powers not for the price of a vote or a bottle of whiskey but for the good of their race.

They need better housing conditions in Texas, better sanitary conditions and better health service, better educational facilities, and freedom from exploitation by large plantation owners in some parts of the state. These are objectives worth fighting for, and if the Negro is given the unrestricted ballot we hope that he will make a real fight for these reforms.

It is to be hoped that every home owner in Lynn County who has scrap iron lying around on his premises will turn the same in to the Government as requested. While the compensation in dollars and cents will not be large, it will be sufficient to pay for the trouble, but the greatest compensation is to be derived from the fact that it will contribute to the winning of the war. We sold a lot of scrap iron to the Japs and now they are using it to kill our boys in arms. Let us furnish our Government with all the scrap iron we can get our hands on to build ships and airplanes and bombs to put those sneaking Japs out of commission.

Mexico probably will have declared war on Germany, Italy, and Japan before this paper reaches the reader. Germany sunk a Mexican ship without provocation and without warning. Mexico demanded an explanation. Germany replied by sinking another Mexican ship. President Camacho thereupon called the Mexican Congress to meet in extraordinary session Thursday to consider the adoption of a declaration of war. Mexico may not be able to accomplish much in a war on the high seas or in foreign lands but she ought to be able to crush the Hitler hounds and stooges in her own country. That would be worth a lot.

**Political Announcements**

The following announce their candidacy for public office, subject to action of the Democratic primary:

C. H. (Claude) REAGAN

**For Justice of the Peace, Prec't. 1:**  
P. D. SERVER

Governor Coke Stevenson wired Washington authorizing a few days ago that Texas wants no rationing of gasoline. He obviously expressed the sentiment of Texas in that message. No state in the Union is more intent on winning this war than is Texas, but Texans can see no necessity for rationing gasoline in this state when production already has been reduced to a mere fraction of what it would be if the lid were lifted and production were unrestricted. It is more important that transportation facilities be increased as rapidly as possible.

The Japs got another demonstration of the power and effectiveness of the American bomber and the individual American fighter in the Coral Sea. They got such a lashing that they have not yet dared to make another attempt to invade Australia or to cut the American sea lanes to that country. Whenever we get a sufficient number of these bombers in the air, it will be just too bad for Japan. We believe with Senator Tom Connally that the United Nations should win this war in 1943.

President Roosevelt a few days ago made an appeal to Argentina to line up with the United States and other nations on this continent to crush the ambitions of the dictators to subdue and enslave the world. But there are many Hitler helters in Argentina, and we doubt if that country heeds the Roosevelt call.

**MRS. TANKERSLEY TELLS OF INTERESTING TRIP**  
Mrs. C. T. Tankersley returned home recently from a visit with her daughter, Mrs. Roy Rutland Jr. of Waco, who was the former Miss Pansy Copeland.

The fact that Mr. Rutland, who is assistant district attorney at Waco, expects to be called into the army soon was the reason for Mrs. Tankersley's visit at this time.

She and her daughter and son-in-law visited in the home of her brother, John Bulman, and his family in Hamilton County on Sunday, May 17, and she brings back the news to John's many friends here that while all his crop had been washed away, his grass and his cows were beautiful.

John lives near the old home place where he and Mrs. Tankersley were born and reared, and they all went in the afternoon and spent awhile looking the place over and "treading the very tracks made in childhood", as Mrs. Tankersley expressed it. "but the place has changed almost as much as the children," she lamented.

Guy Bulman, who is well known to most people here, was home for a short time from Fort Bliss, where he has been for some time, "but when he goes back for service he will be in the air corps," Mrs. Tankersley stated. Raymond Bulman, who is radio operator on a ship, hasn't been heard from in some time, she said.

Mrs. Tankersley says that she certainly saw a lot of Texas on this trip, as she went by way of San Angelo, Coleman, Brownwood, Gatesville, and thence to Waco. From Waco, she went to Denison, where she visited another daughter, Mrs. O. W. Williamson, and came home by way of Sherman, Gainesville, Wichita Falls, Seymour, and Lubbock. She traveled by bus and says that bus travel is not what it used

to be by any means.

The only country she saw that was not too wet for any kind of crops, she averred, was that from here to San Angelo, where rain was needed. It was a wonderful trip she had.

A person could go through a number of states outside of Texas and travel no further than she did on this trip.

Navy men wear the nation's most colorful uniforms.

## Effort Made To Halt Inflation

COLLEGE STATION, May 27 — The government's new program to keep the cost of living from spiraling upward ranks with mobilization of man power and physical resources and the current transportation bottleneck as one of the three current major programs to win the war according to Director H. H. Williamson of the Texas A. and M. College Extension Service.

He announced that the Texas Extension Service is giving leadership to the general educational work to acquaint rural people with the General Maximum Price Regulation, especially as it will affect farm and ranch families. The Office of Price Administration will administer the order and State and County USDA War Boards will co-operate.

"No Texas farmer or farm woman can be left in the dark about the necessity of our fighting the battle of inflation and how we can win it," he said. The information will be

sent to every farm and ranch family in the state by means of the new human chain which County Agricultural Victory Councils and the Extension Service have set up in every county. Thousands of community and neighborhood leaders designated in the past three weeks will help spread the facts about the inflation menace.

This new educational job is right in line with extension's streamlined war-time job, the Victory Demonstration, Director Williamson pointed out. One objective of the Victory program is to assist in winning the war by helping farm and ranch families "understand the 'why' and 'how' of adjustments rural people must make to the war-time situation."

Field workers of the various agricultural agencies will hear details of the program at some one-day sectional conferences scheduled in Dallas, June 1; Houston, June 2; San Antonio, June 3; and Big Spring, June 5.

Elton Wossum and family of Whiteface came over Saturday night to visit Mrs. Wossum's parents, Mr. and Mrs. James Godwin, and upon arrival they found the parents preparing to take their daughter, Eurrell, to a Lamesa hospital for an appendectomy. They accompanied the Godwins to the hospital and Mrs. Wossum and children are remaining here this week pending the recovery of Eurrell. Mr. Wossum went on to Amarillo Sunday night where he planned to begin work Monday.

Mr. and Mrs. Elmore Boydston left Thursday last week for Los Angeles. They were unable to say just when they would return. Glenn Boydston is in charge of the barber shop and Mrs. John Hudman is in charge of the beauty shop during their absence.

Mary Dale and Charles Haynes, children of Mr. and Mrs. Hope Haynes, are making a two weeks' visit with their grandparents, Mr. and Mrs. J. F. Haynes, at Haskell. Mr. and Mrs. Haynes will go down for them Sunday.

Mrs. Scott Poe reports that she has received announcement of the graduation of her nephew, Billie Marshall McIVER. He graduated from Brownwood High School May 26.

## What You Buy With WAR BONDS

The Garand semi-automatic rifle, which is the standard issue today for the U. S. army, is superior to the old Springfield rifle in many respects. We literally need millions of these fast shooting powerful rifles to equip our army. They cost \$85 each and are being manufactured at the rate of one a minute. They fire sixty 30-calibre shells a minute.

Every one of the 40,000,000 employed persons in America could easily buy one of these rifles for the army. Not that we need that many, but the reserve could go into shells and other much needed supplies. Buy more and more War Bonds and top the quota in your county by investing at least ten percent of your income every pay day.

## WAYSIDE NEWS

Most all the farmers around here have put out poison for grasshoppers. The hoppers no doubt liked the poison for lots of them died. We have not had much rain lately and we are needing rain, though the farmers are going ahead, planting cotton and feed.

Mr. and Mrs. Acel Moffett and children of Amarillo, Mrs. James Dulin and boys of O'Donnell, visited their parents and grandparents, Mr. and Mrs. Oscar Corley, over the week end.

Clarence Shambeck of Phoenix, Arizona, is here visiting his parents, Mr. and Mrs. L. Shambeck.

There is not much visiting in our community; it seems that every one is trying to save gas and tires, too, these days—which we all know, is best.

We wonder why there is not a reporter from every community in the county; the Lynn County News is a very welcome visitor in our home.—Reporter.

John Ray of Garnolia and his son Henry of New Home and the latter's wife and two daughters went to Wichita Falls one day last week to see a brother of John's, Mon' Ray, who had just undergone a major operation in a hospital there. The patient, who is seventy-two years old, seemed not to be recovering as fast as had been expected.

Mrs. Scott Poe has received a letter from her son, Pvt. Jesse Lee Poe, who has been transferred from Camp Bowie, Texas, to Camp Edwards, Mass. He wrote his mother that he was on the road 106 hours. Camp Edwards, he says, is 40 miles from Boston and 240 miles from New York City. He likes it just fine, he reports.

Mr. and Mrs. Hope Haynes and Mr. and Mrs. Bill McNeely did some fancy fishing down on the Colorado near Brady last week and had pretty good luck, catching about 25 or 30 pounds of catfish. But they were driven in home by the heavy rains that fell in that section.

Mr. and Mrs. T. J. Tanner have just moved back from Post to Tahoka, having moved from here to the Garza County capital seven or eight months ago. Mr. Tanner has been working at Post as a mechanic, but he is seriously sick at this time and is unable to work.

Mr. and Mrs. W. F. Irman came up from Colorado City Monday to take back home with them their daughter, Mrs. Luther (Nora Belle) Wood, who is in ill health, for a few weeks' visit with them. They also took with them Mrs. Wood's two little children.

Navy men are seldom confined to one theatre of war and therefore see a broader picture of what is happening.

a star among laxatives all over the South

# BLACK-DRAUGHT

## Candidates For Appeals Court Visit In Tahoka

Judge E. C. Nelson of Amarillo, candidate for Chief Justice of the Seventh Court of Civil Appeals at Amarillo, was a visitor in Tahoka Monday. He is now in his eighth year as district judge in Amarillo, and by education and training he should be eminently well qualified for the position which he seeks.

Other candidates for this position who have visited Tahoka recently are J. Ross Bell of Childress and Judge E. L. Pitts of Lubbock.

While Mr. Bell now resides at Childress he was for many years a resident of Paducah. He served for eight years as district attorney of his district and has been engaged in the private practice of law for years. He is recognized as one of the strongest lawyers in this section of the state.

Judge Pitts is well known to many Lynn County people, since he resides at Lubbock and has served both as county judge and as district judge in that city. After serving two or three terms as county judge, he was elected to the position of district judge and is now serving his second term. Already he has had more than five years experience in that office and is popular as a presiding judge both with the lawyers who practice in his court and with the people of his district generally. He has many friends in Tahoka and Lynn County.

A fourth candidate for this position also visited Tahoka several weeks ago, one Mr. Payne of Childress, but we have very little information respecting him.

Mrs. J. L. Nevill, Mr. and Mrs. Everton Nevill, and Ray Nevill were called to Flagstaff, Arizona, last week, leaving here on Thursday night, by reason of the serious illness of Mrs. Russell Fleming, daughter of Mrs. Nevill and sister of Ray and Everton. She was better when they arrived, however, and on Sunday a little son was born. J. L. Nevill received a message Tuesday that Mrs. Fleming and the baby were both doing as well as could be expected. Mr. Nevill observed that this is his first grandchild.

One hundred men a year are selected from enlisted ranks of the Navy to attend Annapolis for officer training.

## ROPEVILLE GIRL WEDS NEW HOME MAN IN LOS ANGELES

Miss Thelma Jo Wallace, daughter of Mr. and Mrs. V. L. Wallace of Ropesville, and Newton Lewis, son of Mrs. R. W. Lewis of New Home, were married on Monday, May 18th, at the First Methodist Church at 813 Hope Street, Los Angeles, Calif., where Newton is employed in an aircraft factory. The marriage ceremony was read by Dr. Donald Tippet.

A bridal shower was given for Miss Wallace by eight women hostesses at the Community Center building at Ropesville before she left for California.

Young men may enlist in the Navy now and retire on half-pay before they are 40 years old. That's something!

International Harvester Company Tractors and Implements

## "Salvage For Victory" Is Urged By Lynn County USDA War Board

Your farm can provide salvage for Victory.

America's war factories need: scrap metals, old rags, old rubber, waste paper. Start saving these today! Get in the scrap!

America must have raw materials to make the weapons our fighting men need for victory. Many of these materials can be made from so-called waste and scrap. Here is another opportunity for every Ameri-

can farmer to take an active part in the total effort we must have for total victory.

Iron and steel scrap are especially in demand to help make ships, tanks, guns, and ammunition.

Secretary of Agriculture Claude R. Wickard has recently said that America's program "is seriously threatened by actual and impending shortages of iron and steel scrap. In addition, civilian shortages of steel, including metal for farm implements and parts needed by farmers, will be more severe if steel mills cannot be kept running at capacity. Farms have long been one of the most important sources of scrap metal. Therefore, it is a patriotic duty to see that the scrap be made available for use."

Every farm can get in the scrap for Victory. So let's go—Today!

### WHAT TO SAVE:

Scrap Metals — Iron, steel, brass, copper, zinc, aluminum, lead, etc. are needed. Dispose of discarded tools and farm implements such as worn-out rakes, mowers, hay loaders, cultivators, binders, tractors, scythes (also barbed wire and fencing if you are within reach of a dealer with a hydraulic press), boilers, metal roofing, stoves, wash basins, broken milk pails, pipe and hardware, batteries, fruit jar tops, and anything else made of metal, except tin cans which in most communities cannot be reclaimed.

Burlap Bags and Old Rags—Cot-

ton bags and all kinds of burlap can be re-used. Flour, sugar, and feed bags are needed too—for reuse in factories as wiping rags and as roofing and flooring materials in emergency construction.

Old Rubber—Discarded auto tires and tubes, rubbers, and overshoes can be reclaimed for military uses—and to make new tires and tubes.

Waste Paper—Save waste paper—don't burn it; Wrapping paper, cardboard cartons and boxes, paper bags, newspapers, and magazines are needed to make new paperboard to pack foods, airplane and tank parts, shells and ammunition, and other articles. Save baby chick boxes for reuse, too, if you can return them to hatcheries. Right now there is little demand for paper due to the recent drive, but before many weeks there will be a call for paper again.

### HOW TO SAVE:

Keep rags, metals, and rubber separately.

Flatten out cartons, boxes. Tie in neat bundles; keep dry and clean.

Pile newspapers and magazines separately and tie in separate bundles.

Roll fencing and barbed wire into tight rolls or coils.

### HOW TO DISPOSE OF WASTE

You may either sell your collection of waste metals and rubber to a collector (junk man) or give it to charities, schools, or other organizations which collect such materials, or use the money to buy U. S. War Bonds and Stamps.

If you prefer to sell and a collector does not come by your farm, bring it to one of the concentration points — Tahoka, O'Donnell, and Wilson—next week, June 1 to 6.

If you prefer to donate your collection, you may arrange with a local charity, or other organization to collect it, or else take it to them.

Your U. S. Department of Agriculture County War Board, which is co-operating with the salvage committees of State and local Defense Councils, can give you advice or help in making arrangements. Consult them if your scrap is too heavy to move without dismantling.

Do not scrap useful machinery. Parts of discarded equipment, such as bolts, gears, etc. that can be useful in repairing newer machinery should be removed and stored and only the remaining useless metal parts scrapped.

### NEW HOME H. D. CLUB MEETS WITH MRS. CLYDE ASHCRAFT

The New Home Home Demonstration Club met with Mrs. Clyde Ashcraft May 22.

The program for the day was carried out with Mrs. Glenn Allsup presiding and bringing interesting facts from the Council meeting at Tahoka May 9th.

The group sang a song and together gave the pledge to our flag. Mrs. E. R. Blakney related the story of Betsy Ross and the making of the first flag.

Our business program with Miss McNatt was: Learning how to make and cut a foundation pattern. It was very interesting to watch Miss McNatt pin her foundation pattern to a smaller model and make each seam just where it should be, and where to put the darts.

Then she issued a number of foundation pattern extensions. They were as follows:

1. Princess slip from a foundation pattern;
2. Altering sleeve patterns and cutting collars;
3. Sleeves from foundation sleeve patterns;
4. Pajama patterns from skirt patterns.

The business session was adjourned and refreshments were served to the following: Mesdames Aubrey Smith, Odie and Barney Mayfield, J. W. Shadden, Charles Armontrout, W. Overstreet, B. A. Morrow, Glenn Allsup, A. L. Hilton, W. L. Gasper, E. R. Blakney Jr.

The next meeting will be on Poultry Houses and Equipment demonstrated by agent, June 12, at the home of Mrs. E. R. Blakney Jr.

Dr. and Mrs. E. E. Callaway of Abilene were the guests of Mr. and Mrs. W. O. Thomas two or three days this week. The Doctor came up to see how his grasshoppers were getting along, as well as to visit friends. He left most of the grasshoppers either dead or in bad physical condition.

Mrs. Belton Howell reports that there is little change in the condition of Mr. Howell's father, S. H. Howell, who has been ill in their home since they brought him back from Tennessee several weeks ago. He is practically helpless but seemingly doesn't suffer much pain.

A ship is referred to as "she" because her rigging costs more than her hull, Navy men say.

## New USO Drive Is Coming Soon

HOUSTON, May 27 — With 16 counties over the top in the drive to raise Texas' \$1,110,000 share of the national USO goal, State Chairman Harry C. Wiess announced today that the campaign was past the halfway stage.

Mr. Wiess welcomed the active assistance of Major General Richard Donovan, commander of the Eighth Corps Area, who lauded the work of the USO in helping the army solve its morale problems.

"I am happy to voice my appreciation of the work being done by those experienced welfare organizations which compose the USO, namely the Y. M. C. A., Y. W. C. A., National Catholic Community Service, Salvation Army, Jewish Welfare Board, and National Travelers Aid Association," General Donovan declared in a message to USO workers.

"The USO is contributing splendidly to the entertainment and recreation of soldiers off duty from their camps and stations. The cooperation with military authorities and good will developed between civilian communities and military garrisons are tokens of American unity which will make certain our final victory."

Chairman Wiess pointed out that the same service provided soldiers is also arranged for sailors and marines, in training centers and leave areas both at home and in foreign stations.

Polk, Upton, Bee, Oldham, Ochiltree and San Patricio were the six counties which reached their USO goals to bring the total to 16, while chairmen in several other counties reported they were nearing the over-the-top mark.

The campaign, which opened May 11, will be continued until July 4 if the quota is not reached before that time.

Mr. and Mrs. J. K. Applewhite and daughter Dorothy Jean and Mary Beth Fenton left for Austin Wednesday to visit their other daughter, Greta Joyce, who is a student in the University of Texas. Mr. and Mrs. Applewhite will probably return home next Sunday but Dorothy Jean and Mary Beth will remain until Greta Joyce comes home after the close of school. Miss Greta Joyce is to be initiated into one of the sororities next Sunday, it is announced.

Mrs. Paul Howell and two daughters left Thursday morning to join Paul at Tularosa, New Mexico, where he is now employed at a big bomber field under construction. Mrs. Howell was not certain whether she and the children would remain only through the summer or would return to Tahoka in time for the opening of school in the fall.

## RELATIVES FROM AFAR VISIT E. B. TERRY

E. B. Terry, who has been ill for some time, had as recent visitors in his home at New Lynn two of his daughters, who spent a week there. Mrs. Tom Shackerford of Bloomington, Illinois, and Mrs. Jessie Flora and little son of Chicago.

Mr. Terry's two sisters, Mrs. Gracie Patterson and Mrs. L. F. Coffman of Clyde, and two brothers, O. H. Terry of Santa Anna and B. N. Terry of De Leon also visited him on Sunday, May 17.

Superintendent and Mrs. W. T. Hanes and Billy Travis left Monday afternoon in company with a cousin, Mrs. Ralph Gray of Littlefield, for a visit with relatives in East Texas, including Commerce, Sulphur Springs, and other places.

### Draw Methodist Youth Organization Will Present Play

The Draw Methodist Youth Fellowship is to present a 3-act play Friday night, May 29, at Draw School Auditorium. Every one is invited.

The story concerns a young inexperienced minister who is pastor of a church composed of contrary, old sneaking gossipers. The minister, played by Pat Hensley, takes on the raising of purebred chickens. The chickens ruin a prayer meeting, and the gossipers nearly ruin the minister. Plenty of fast moving action and plenty of laughs.

Other members of the cast are: Lorene Dabney, Fern Barnes, J. E. Sherrill, Ina Dee Crawford, Oma Lee Lightner, Mary G. Luttrell, Jo Hensley, Charles Tyler, Boyd Barnes, Le Roy Moyers and Sylba Busby. Admission will be 10 and 15 cents.

#### PUBLIC INSTALLATION

Tahoka Chapter, Order of the Eastern Star, will install its officers with a public ceremony Monday night, June 1, at Masonic Hall. A cordial invitation is extended to all who wish to come.

Annie L. Hanes, W. M.  
Era Stewart, Sec'y.

## ODDS and ENDS

by Eec Eye, the Elder

Another Texas woman is in the limelight just now, Mrs. Oveta Culp Hobby.

Just as Mrs. M. A. Ferguson was the first and only woman governor Texas has ever had, so Mrs. Hobby becomes the first woman military leader this nation has ever had. She was recently appointed director-general of the Women's Army Auxiliary Corps created by Act of Congress a few weeks ago to assist the men of America in winning this war against Hitler and Hirohito.

While Mrs. Hobby has never been governor, she is the wife of the man who became governor when Mrs. Ferguson's husband, James E. Ferguson, was successfully impeached and kicked out of the governor's office in 1917. She was not Governor Hobby's wife at that time, however. She was a mere school girl then.

But like Mrs. Ferguson, Mrs. Oveta Culp Hobby is a native of Bell County, and Killeen was her old home town, a fact which makes this appointment of peculiar interest to a number of Lynn County citizens, for there are a number of them here who hail from Killeen.

Among those who come to mind now are John Ray of Garnolia and his son Henry of New Home, Mr. and Mrs. John Minor and Mr. and Mrs. John Boydston, and Mrs. George Knight, all of Tahoka.

Some of these, as well as other Bell County folks now residing in Lynn County, well remember Oveta Culp's father, I. W. Culp, who resided at Killeen during the early days of this century. I. W. (Ike) Culp, by the way, had a brother, Tom Culp, who resided in the Three Lakes community in this county for a year or two about fifteen years ago. Some of the Three Lakes folks may remember him, just a tenant farmer, but he was the uncle of the woman who is now Director-General of the Women's Auxiliary to the U. S. Army. A little interesting, isn't it?

Oveta Culp's father, Ike Culp, was a lawyer, residing at Killeen when we first knew him. He was the law partner of Jim Everts, who was the brother-in-law of this writer and the uncle of Frank P. Hill of the Lynn County News family. About the time or soon after this writer was elected to the same position in Bell County that Calloway Huffaker now holds in Lynn County Oveta Culp was born.

Her mother was a Hoover, one of the prominent families of the Killeen section. One of Mrs. Culp's brothers resided for many years near Coahoma in Howard County, and he may be residing there yet, for all we know. Ike Culp himself had already served a term in the legislature from Coryell County before taking up his residence at Killeen and a number of years before Oveta Culp was born, and he had already had quite a colorful career.

But there is another bit of political history in which he figured prominently which might be of interest to some of our readers, if there are any.

It must have been in 1906 or 1908 that Earle B. Mayfield made his first race for a political office. Residing at Meridian, he made the race for the state senate from the district composed of Bell, Coryell, Bosque, and possibly other counties. Ike Culp was his opponent. Culp was defeated, and as we remember it, he never ran for another political office.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 7:30. Members urged to attend. Visitors welcome.

JACK WELCH, W. M.  
H. L. RODDY, Secretary.

Mayfield, successful, started on that career which carried him back to Austin following his service in the state senate as a member of the state railroad commission for ten years and then to Washington as United States Senator from Texas for a term of six years.

It will thus be seen that Oveta Culp Hobby's father himself had a flare for politics, but that his political career came to an end when he matched swords with the man who later defeated Ferguson for the U. S. Senate and in turn was defeated six years later by Tom Connally.

So much for the background of this remarkable woman, who by reason of her unusual intellectual endowments, her spirit of service, her adaptability to every situation that arises, and her genial and attractive personality, has carved out for herself a career that is unique in the history of our state, though she is yet considerably less than forty years of age.

She laid the foundations well. After attending Baylor College at Belton, she studied law in the University of Texas, receiving her degree in her early twenties.

Procuring a clerical position in the lower house of the Texas legislature, she soon mastered the rules of parliamentary law and for six years she served as the parliamentarian for that body.

Locating in Houston she soon became assistant city attorney of that city. In 1931, she was married to former Governor W. P. Hobby of that city, who had been a newspaper publisher in Beaumont, then lieutenant governor, governor from 1917 to 1920, then back in the newspaper business. His wife had died in the meantime. In 1931, when he married Miss Culp, he was editor of the Houston Post. She entered wholeheartedly into newspaper work with him, taking at first a minor position, but steadily climbing to the position of assistant editor.

Two children have been born to her and ex-Governor Hobby, and in addition to the time she has devoted to them and to her newspaper work, she has interested herself in so many civic and social organizations that we haven't the space to set them down here.

Her many activities brought her into contact with Mrs. Eleanor Roosevelt and other celebrities in Washington, and in July 1941 she was appointed expert consultant to Secretary of War Stimson.

When the organization of the Women's Auxiliary Army Corps was authorized by Act of Congress, Secretary of War Stimson appointed her as the Director-General.

And Sunday, she gave a nationwide broadcast, setting out the objectives of the new organization, now known as the WAAC.

And so this modest little woman from Killeen has become a woman of nation-wide repute and power, one of the great leaders of this country and destined to play a prominent part in the defeat and dethronement of the most daring, despotic, diabolical, and dreaded dictator that has appeared upon this earth in a thousand years.

All honor to this brave little woman and the multitude of other women just as brave that she will lead and direct in this patriotic service.

#### GOVERNOR STEVENSON TO BE COMMENCEMENT SPEAKER AT TEXAS TECH

LUBBOCK, May 27 — A total of 365 seniors and graduate students at Texas Technological College are candidates for June graduation. Applicants include both bachelor and master candidates in all divisions of the college.

End-of-year activities for seniors include: Senior Day, May 29, followed by the alumni and ex-students' banquet; baccalaureate service May 31; commencement exercises, June 1. Gov. Coke Stevenson will deliver the commencement address at Tech stadium and President M. E. Sadler of Texas Christian University the baccalaureate sermon.

**Don't tell me there's a THIRD Thanksgiving!**

**CALM YOUR FEARS.** All's well with Thanksgiving, even though you didn't expect to meet this bird . . . in the ads . . . until November.

The turkey is pictured here in advance of the season to dramatize the performance-facts about a great gasoline which is never in advance of the season!

Of course, as always, Phillips 66 Poly Gas is high test without higher price. But more than that, it is the right high test (volatility) for the month in which you buy and use it. Definitely changed every thirty days to match the monthly changes in temperature in your locality.

In December, Phillips 66 Poly Gas is a fast starting motor fuel. In August, it is a cooler summer gas. In May, it's right for between-season weather . . . always custom-tailored to deliver high mileage and pace-making performance.

Scientific laboratory and field surveys prove that no other gasoline—not a single one—is so completely and accurately matched, all year 'round, to the monthly variations in your weather.

If you wonder what this means in pep and power . . . in zip and pick-up . . . find out the facts in your own motor. Try just one tankful and judge for yourself.

Remember, the Orange and Black 66 Shield is High Test Headquarters for car owners . . . because Phillips is **WORLD'S LARGEST PRODUCER** of Natural high test gasoline.

#### TEXAS MEN RIDE THE WAVES ALL OVER THE WORLD

Most Texans dismounted from the hurricane decks of their broncs a generation ago— but Lone Star state men still like the feel of movement beneath them, navy recruiters at Lubbock declare.

Northern Texans have volunteered for naval service to such an extent that they have put their recruiting district in seventh place for enlistments in the navy, according to a report released today from Washington. The figures are based upon enlistments per 100,000 population in each of the nation's 40 navy recruiting districts.

"Texas men now are riding the waves all over the world," Lt. L. H. Ridout Jr., officer in charge of navy recruiting for northern Texas at Dallas, declared. "Hi, Tex!" is a greeting which will bring a response from every ship in the fleet.

"We are proud of northern Texas youths who have made this district seventh in the nation in furnishing volunteers for the navy," Lieutenant Ridout said.

Navy recruiters say the navy's program of teaching men skilled trades, providing regular opportunities for advancement and comfortable living quarters under nearly all conditions is proving popular with young Texans who want to do their

part in the war.

Man for man, northern Texas navy recruiters lead all others in "selling" men on the advantages of naval service, the report from Washington also showed.

David G. Burnet was named Provisional President of the new Republic of Texas at Washington-on-the-Brazos, where the first government headquarters of Texas was established in March, 1836.

## Wartime Transportation

Cattle on the hoof, grain on the farm, minerals at the mine, oil at the well, goods at the factory—these cannot help our soldiers or our people until delivered where they are needed.

**Our job is to "Keep 'Em Rolling"**

Santa Fe is eager to do its full share of this huge wartime transportation job, military and civilian, throughout our territory. Years of careful operation, maintenance and expansion conditioned Santa Fe facilities for just such an emergency. But to meet every demand, existing equipment must be used to the limit!

**You Can Help, Too**

Last year you shippers did a lot to increase efficient use of existing freight equipment. Now we ask your continued cooperation to that end by doing these things:

- Make every car you use carry a maximum load
- Save every hour you can in loading and unloading cars
- Order cars only for your actual current needs.

Your help will help us do a better job for you, as well as for Uncle Sam, whose needs must come first in war.

**At Your Command**

Besides all-out war service, Santa Fe is maintaining regular and efficient freight and passenger transportation vital to your community. Talk over your travel and traffic problems with your Santa Fe agent.

Buy U. S. War Stamps and Bonds

TRUCKIN' ARMY STYLE—Mary Hart, of Highland Park, Ill. (left) and Madalynne Osborne, of Chicago, attired in the natty uniforms recently adopted by civilian workers at Fort Sheridan.

**Advices Industry To Continue Advertising**

NEW ORLEANS, La., May 27.—Industry was advised here to continue advertising during the war and to formulate postwar plans of distribution of products to meet an expected enormous demand for goods of many types after the emergency.

"Some governmental quarters suggest that advertising be stopped, but, in my opinion, that is unsound," Harold Vinton Coes of New York, vice-president of an engineering firm, told the American Gas Association.

"Experience has shown that no company that has discontinued advertising permanently has been able to hold a position of leadership in its industry or to maintain its position in the markets. Once a position is lost through failure to continue advertising aggressiveness, it is almost impossible to regain it.

"Use your advertising as a morale builder not only for your customers but for your own organization," Coes urged as a change of emphasis. "Resort to institutional advertising, focusing attention on the industry, on your own business, what has been accomplished, what you hope to accomplish, with a view to keeping the industry and its component parts ever before the public pending the time when you will need them and they will need you.

"Do not be caught without a plan and policies," Coes cautioned. "Even inadequate or incomplete plans are better than no plans."

G. R. (Buc) Milliken, Wilson Edwards, Boswell and Fred Edwards of New Home have returned from a fishing expedition but they have made no report of their luck to the News. We understand they went out to Red Bluff.

Mr. and Mrs. O. L. Kidwell and daughter and Miss Carolyn Chandler spent a week at Rochester, former home of the Kidwells, visiting and attending school closing exercises.

Will Montgomery was in town on Thursday telling about a big fish fry they had just had out at his house. All the daughters, who are teachers, are at home, Misses Marietta and Grace and Mrs. Travis (Lois) Mason, accompanied by her husband, and so they all rigged up their fishing paraphernalia and went fishing in Bill's big surface tank. The catch was most satisfactory, and the fish fry followed.

H. W., D. J. and Garland Pennington and W. L. Rowe left Wednesday night in response to a message that a brother-in-law of the elder Penningtons was to undergo an operation for a ruptured appendix at Arkadelphia, Arkansas.

Mr. and Mrs. John Berry of Draw went over to Hobbs, New Mexico, on Wednesday for a few days visit in the home of their daughter, Mrs. Marvin Eldridge and family.

Reed and Charles Townes spent Wednesday night here with their mother, Mrs. Effie Townes, returning to the Lubbock Flying Field early Thursday morning.

The rank of captain in the Navy corresponds with that of colonel in the army.

**O'DONNELL WILL HOLD MEMORIAL SERVICES**

O'DONNELL, May 27 (Special)—Memorial services, honoring America's past war dead, those dying in the present conflict and for all men now in armed services, will be held here Sunday noon, beginning at 12 o'clock, in the High School auditorium.

Sponsored by the Fern Allen Post of the American Legion and the various church organizations of the town, the memorial services will be featured by a varied program, embracing patriotic and religious concepts.

The Rev. Howard H. Hollowell, pastor of the First Methodist Church is to give the address, with the Rev. E. C. McDonald, First Baptist Church minister, directing the memorial program. The Rev. B. W. Taylor, Church of the Nazarene pastor, and Alvis Bryan, Church of Christ minister, are also on the program.

Recognition of all men and their families who have served the United States in any of her armed forces are to be signally honored.

**MORE TAHOKA STUDENTS ON TECH HONOR ROLL**

The News is informed that Miss Bettye Lou Frazier, daughter of Mr. and Mrs. L. F. Frazier, and Miss Ida Botkin, daughter of Mr. and Mrs. V. A. Botkin, who are students in the Texas Technological College, were among those who made the Honor Roll this session, each with an average grade of B.

Miss Bettye Lou is majoring in English and Miss Ida in Home Economics.

W. H. Fulkerson Jr. went up to Amarillo last Sunday with the hope of finding some kind of lucrative employment. He stated that he might be back in a few days, however. He had not returned up to Thursday afternoon.

Miss Maurine McNatt left by bus Wednesday for her home to visit a few days. Her mother has been ill, it is said.

James Hardy Eubank left Sunday to spend his vacation with relatives in and near Amarillo.

Mr. and Mrs. W. B. Edwards, accompanied by their daughter, Mrs. Erma Faye Buck and her little daughter Zenda, left Wednesday for Waco, where they expect to visit relatives for several days.

Miss Ruth Evans, teacher in the Portales High School, came Sunday to spend a few weeks here with her sister, Mrs. L. F. Craft. Her school work will open again in August.

Mrs. W. H. Huard of Cisco has been here two weeks visiting in the home of Mr. and Mrs. C. C. Coffee. Mrs. Huard is the mother of Mrs. Coffee.

Miss Mary Jane Turrentine received a B. A. degree from the West Texas State Teachers College at Canyon Sunday night, having majored in piano. Her parents, Rev. and Mrs. George E. Turrentine, attended the baccalaureate services there Sunday morning and the graduating exercises Sunday night. Miss Mary Jane accompanied them home the next day.

**Santa Fe's Income In Year Shows Decided Gains**

The Santa Fe's net railway operating income for April was \$4,578,086, according to a statement released by President E. J. Engel today. This is an increase of \$2,241,029 compared with April, 1941.

Gross for the System was \$25,613,753, an increase over April, 1941, of \$9,235,406, or 56.39 per cent.

Operating expenses were \$15,704,067, an increase of \$3,275,063, or 26.35 per cent over the same month of 1941. Railway tax accruals were \$5,287,701, an increase of \$3,590,883, or 211.62 per cent over the same month last year.

Mrs. Cecil Carraway of Redwine is in Plains Hospital where it is expected that she will undergo major surgery this (Friday) morning.

Randall Fults of Camp Wolters, Mineral Wells, visited the home folks here this week.

**YOU *Can* HELP WIN *This...***  
**WAR**

**Uncle Sam Wants Scrap Metal!**

**THE FRONT LINE IS IN YOUR BACK YARD!**

Uncle Sam needs your scrap, and he needs it badly. Don't let anyone tell you America doesn't need the stuff piled in your back yard, all around the fence corners and in the pasture. America does need the stuff to win the war. It needs all the scrap we can possibly gather together. Our great production program can't possibly succeed unless you and every other American does his share. Remember that the plans for Production for Victory are based on the absolute faith your Government has in you — and that America is counting on you to help provide one-third of the materials needed to win the war.

**HERE'S WHY YOUR SCRAP IRON & STEEL IS SO BADLY NEEDED—**

40 per cent of every smelterful of iron must be scrap iron — the remainder is iron ore. There is plenty of iron ore, but the supply of scrap is running low. In fact, it is said that two or three smelters have already closed down because their scrap pile is exhausted. That means three months or more lost for those smelters, because they must be relined before being put back in service.

If many of these furnaces have to close, it will mean a big stoppage in our war effort, with hundreds and thousands of guns, shells, tanks, planes taken from our fighting men. It's your chance to do something in the war effort. If you have tons of scrap or just a few pounds, it is badly needed. Just a few pounds from every farm would soon mount to a great heap of scrap iron.

**I Am My Family's Purchasing Agent**

After I buy the proper foods, I make sure they are prepared properly, thereby helping my country as well as my family.

**The Lynn County News**

**CENTRAL BAPTIST CHURCH**  
Central Baptist Church, 2 miles north of Grassland, will have its twentieth anniversary homecoming Sunday, May 31st. The program will begin at 10 o'clock with former pastors and teachers present teaching in the Sunday School. Former pastors will preach in the different services during the day.

The afternoon services will feature the recognition of all charter members present and especially those whose membership continues to remain in the church. Messrs. Ruel Smith, Luther Kenley and Alton Fleming are to be ordained as deacons in the afternoon services.

All former pastors and members and all friends of the church are invited to be with us on this memorable occasion. — Frank Thomas, pastor.

**RESPECT THE DEAD.**  
The News is requested to remind hunters that no hunting with guns or with dogs is allowed in the cemetery. Some have been so thoughtless as to violate this rule. It is hoped that this warning will be sufficient.

Tyne W. Smith left for Fort Worth Saturday where he spent two or three days with his son, T. W. Jr., who is expecting to join the army soon. He hopes to get into the Army Air Corps. T. W. Jr. has been employed at Fort Worth for some time.

Think of things that will make you more faithful and consider your ways. Do YOU fear the judgment?

Be a Book Buddy.

**ATTACK! ATTACK! ATTACK!**

**What The Farmer Can Build Now**

COLLEGE STATION, May 27 — Recent War Production Board orders affecting construction of farm homes and buildings mean rural families in Texas may build little and repair much for the duration of the emergency. Purpose of the orders is to restrict the sale or use of materials necessary to the war effort.

There are a few exceptions to the order. For example, a farm building which costs less than \$1,000 and will not be used for residential purposes may be built if materials are available. However, cost of several new buildings within any 12-month period must not exceed \$1,000. All agricultural construction exceeding this figure must be authorized by the War Production Board. Individual applications should be filed with County USDA War Boards for transmittal.

New farm residential construction which will cost less than \$500 is also exempt from the order. Mrs. Bernice Claylor, Extension Service specialist in home improvement, says this means many farm families will need to do considerable repair on their homes to keep them in good shape and to protect health during the war period.

Farm residences costing \$500 or more must be approved by WPB unless buildings damaged or destroyed by "fire, flood, tornado, earthquake, act of God or the public enemy" must be reconstructed or restored. Then no permit is necessary.

**McFadden's Fate Still Unknown**

Mr. and Mrs. Lee McFadden received a letter from the War Department Tuesday respecting the fate of their son, Corporal William T. McFadden, who presumably was in Corregidor fortress in Manila Bay, Philippines Islands, when Corregidor was captured by the Japs on May 7.

The letter indicates that Corporal McFadden had never been reported killed nor "missing in action" at the time of the surrender of the fortress, but it is explained that no report of the casualties that were inflicted during the last days of the struggle was ever made to the War Department. It is not known therefore whether Corporal McFadden was killed or was taken prisoner by the Japs.

The Department further explains that the Japanese Government has expressed the intention of conforming to the terms of the Geneva Convention respecting the exchange of prisoners, and the War Department states: "It is to be hoped that the Japanese Government will communicate a list of prisoners of war at an early date."

When the list is received by the War Department, it will be able to determine whether he is a prisoner of war. If not it will be presumed that he was killed, with the bare possibility that he made his escape from Corregidor.

Of course it is possible that Corporal McFadden was on Bataan Peninsula, but that does not seem probable. If so, some report concerning him probably could be made, unless he was killed during the last days of the fighting. The last time the parents heard from him was by letter written almost a month prior to the attack on Pearl Harbor and the Philippines by the Japs. At that time he was on Corregidor, and it is presumed that he was there when the war broke out and that he remained there until the final surrender.

Mr. and Mrs. McFadden are hoping that they may get further and more definite information within the next few weeks.

The Navy's V-1 program for college men does not interfere with professional studies a man may choose to make.

**TAROKA B & P W**

Taroka Business and Professional Women enjoyed a picnic at the City Park Tuesday evening, where games and a picnic supper were enjoyed.

In a business session presided over by the president, Miss Claire Ruth Nichols of O'Donnell, officers for the incoming year were elected:

Mrs. Lois Daniel, President.  
Mrs. Inez Knight, Vice-President.  
Miss Ethel Calahan, Secretary.  
Miss Hattie Server, Treasurer.

Attending the meeting were: Mmes. Gladys M. Stokes, Lois Daniel, and Helen Eubank, and Misses Calahan, Server, Elean Nixon, Nichols and Florence Gary.

Dr. and Mrs. Emil Prohl and children expect to be in Dallas Monday to attend the graduating exercises of Baylor Dental College when Dr. Prohl's brother Carl will receive his degree in Dental Surgery. Dr. Prohl expects to return soon.

Mr. and Mrs. J. R. Strain and his daughter, Mrs. Margaret Edwards, and her two children recently visited his brothers and their families at Colorado City, and J. R. reports that they also went fishing and caught about a hundred pounds of nice cat.

Mr. and Mrs. D. A. Stevens are enjoying a visit this week from their son, Thurman Stevens and family, of Arizona.

**UNDERGOES OPERATION**

Olaf Anderson, field engineer of District 10, REA, which includes Lyntegar Rural Electric Co-op, who underwent an operation for a malignant ailment in a Lubbock hospital last week, is reported to be showing remarkable improvement, in spite of the seriousness of the malady.

Mrs. F. L. Kelly left Tuesday to spend the summer with a son and a daughter and their families in Dallas. She went by Throckmorton to make a brief visit with relatives there.

## Defense Guard ...

(Continued from Page 1) maneuvers. For example, when a party of the enemy was caught in a pocket of the defender's line, or if they openly exposed themselves in the maneuvers they were declared dead or captured.

Airplanes zoomed over the battleground, many times not more than six or eight feet above the ground, and dropped fireworks, flour bombs, etc.

Overwhelming numbers of the enemy finally permitted them to take the Tahoka camp, but many of the Tahoka participants still believe most of the attackers were "killed" as they came over the hills to start the fight.

Prior to the start of battle maneuvers, a review of the various companies was held in the Fair grounds stadium, with Major C. A. Hubbard and other commanding officers in the reviewing stand. County Judge Chester Connolly, Mayor Deen Nowlin, Legion Commander A. M. Cade, Tom Garrard, and W. S. Anglin were also in the reviewing stand as Tahoka representatives.

Following the maneuvers Sunday, the companies gathered at headquarters, where they heard talks by Rev. Jack Welch, chaplain, W. T. (Tanlac) Strange and George W. Dupree.

Meals were served at the picnic area. There was little sleeping, though the men carried their "hot rolls."

The Tahoka company feels that it received much valuable training in these maneuvers, and came back proud of their showing in comparison with other companies organized much longer than the Tahoka company.

Commanding officers of the company are Captain Don Turner and Lieutenants E. R. Edwards and H. O. Hargett.

Due to some moving away, some being prevented from attending drill because of the rubber shortage, there are now openings in the company for several recruits. Boys from 16 to 18, with parent's consent, and men 18 to 65, in physical condition, are eligible for membership. Drills are held Monday nights at 8:30.

## Poppy Day ...

(Continued from Page 1) Cade. "We wear this little red flower in honor of the men who fell at Belleau Woods, Chateau Thierry, St. Mihiel, the Meuse-Argonne and other battles of the first World War. We wear it also in honor of the brave boys of Pearl Harbor, Wake, the Philippines, the East Indies and all those who have sacrificed life elsewhere in this renewal of the conflict.

"The poppy, as you know, was inspired by the poem, 'In Flanders Fields' with its immortal lines: 'In Flanders fields the poppies blow. Between the crosses, row on row. The poppies were the only touch of beauty that survived amid the desolation of the battle front in France. They formed the only floral tribute on the graves of the dead and became for the men fighting there a symbol of heroic sacrifice.

"This they remain today. The poem ends with the words: 'If ye break faith with us who die, We shall not sleep, though poppies grow in Flanders' Fields.' That is their message for us today. We will wear poppies Saturday to show that we are keeping faith."

Paper poppies, made by disabled veterans of the First World War, will be distributed throughout the city on Saturday by the women of the Auxiliary. In exchange for them the Auxiliary will receive contributions for its welfare work among the disabled, their families and the families of the dead of both wars.

## Salvage Drive ...

(Continued from Page 1) the county, the U. S. D. A. War Board, the Tahoka chamber of commerce, the city, and Rotary clubs in Tahoka and O'Donnell.

They point out the fact that some steel mills and foundries have already closed for lack of scrap metal, and continuation of our present production program may not be possible unless there is more scrap metal available with which to build munitions of war.

People are warned not to bring in plows, or bedsteads, etc., that still have some use, but are urged to gather up all iron, cast or steel, that is of no use and bring it in. Automobile tin, is not wanted here at this time, as the price is only about \$4.00 per ton and can not be handled under this set-up, but some of the junk dealers are buying tin. "We had plenty of time to gather tin to sell the Japs a few years ago," one man said. "Our crops are not so important that we can't take off a few hours to gather scrap for our own Uncle Sam."

Chairmen of committees in the various communities of the county who are urged to "talk up" and direct the drive are as follows: North Tahoka, R. H. Gibson. South Tahoka, John Slover. O'Donnell, James Applewhite. Wilson, John Heck. Draw, H. W. Callaway. New Home, J. E. Portenberry. Lakeview, S. L. Williams. Petty, J. H. Key. West Point, Hubert Tankersley. T-Bar, C. C. Coffee. Wells, John Fulford. Three Lakes, T. M. Ellis Jr. New Moore, Lon Light. Gordon, Buford Jones. Morgan, F. M. Davidson. Edith, Walter Kahl. Garnolia, D. G. Cook. New Lynn, Dan Carpenter. Grassland, R. B. McCord. Joe Bailey, R. R. Rensgan. Midway, Fred McGinty. Redwine, J. A. Giles. Dixie, A. L. Dunagan. Joe Stokes, Hillery Smith.

**JOINS THE NAVY**  
James Chapman of Grassland has enlisted in the Navy for construction work with the rating of carpenter's mate, second class.

## Grasshoppers ...

(Continued from Page 1) the county have joined in the war. And the campaign apparently has been successful thus far. A majority of the hoppers have been killed where the poison has been spread.

Mr. Turner estimates that about 400,000 pounds of the poison mixture has been used in the county. Three car loads of bran were received last week. The hulls are brought over by truck from Brownfield, and Mr. Turner gets the poison wherever he can find it. Until a few days ago sodium arsenite, a liquid, was used but for the past few days sodium fluosilicate, which comes in powdered form, has been used.

There are three mixing stations in the county, located at Tahoka, Wilson, and New Home. There is none at O'Donnell; Mr. Turner explains that there are not many hoppers in the O'Donnell territory. They came in with the first northerly last Octo-

ber, he says. There were literally clouds of them as far south as Lubbock and great swarms of them over the north half of Lynn County, but not many of them went as far south as O'Donnell, Mr. Turner says.

These hoppers deposited their eggs last fall and the eggs hatched out this spring. The infestation has been very heavy in all the territory north of Tahoka and in the wheat country much of the wheat has been destroyed by them, but the damage south of Tahoka has been light. But wherever they have appeared, they should receive attention, Mr. Turner thinks. Complacency and a sense of security may be ruinous, just as we found it disastrous in dealing with the Japs, Mr. Turner says.

So, all farmers who have hoppers, even though they have thus far done little harm, will be wise to come in and get their poison mixture, Mr. Turner thinks.

Don't join the Navy just to see the world—join it to free the world!

## DON'T LET OUR BOYS DOWN!

... who are marching to victory ... just because we didn't gather our scrap iron to build munitions for them ...

## TAHOCA MOTOR CO.

**AND YOUR USELESS TOOLS CAN SUPPLY THE MEANS!**  
Old bits of metal ... worthless to you ... are valuable when translated into battleships!
