Number 30

Mexicans Charged In Local Burglaries Sign Confessions

Three Mexican boys, 14 to 16 years of age, who are residents of Tahoka, have been in jail here since last Friday night charged with a series of burglaries and thefts, the English Theatre, the pool hall, and a car owner or two being the principal victims.

These boys bear the names of Henry Anchado, Manuel Chapa, and Margrito Chapa, and they have made statements confessing their guilt, according to Sheriff Sam Floyd. Their operations seem to have extended over a period of several months.

On the first raid to which they have confessed they broke into the English Theatre and made away with about \$25.00 in money. That was some time before Christmas. At another time, about the middle of January, they effected an entrance and got about \$5.00. On Thursday night of last week they made their last raid, when they stole a metal suit case, a quantity of gum and peanuts, but got only 30 cents in

(Cont'd on page 2)

Old Man Winter Stages Come-Back

One of the coldest spells of the entire winter hit West Texas Monday night following several days of spring-like weather.

The biting winds that swept down from the north before midnight drove the mercury down to 14 degrees above zero by daylight Tuesday morning, bringing also a flurry of fine particles of snow so small as to be scarcely visible. The temperature never rose above 27 all day long.

The skies cleared before nightfall and the mercury made another long nose dive during the night, standing on the 10 degree mark Wednesday morning.

Tuesday was the coldest day of the winter except one. On January 18th, the mercury never rose above 19 all day long, and on the morning of January 19 it had dropped to just one degree above zero, the only night that was colder than Tuesday night of this week.

Myrna Dean Gagnat Honored At School

Miss Myrna Dean Gagnat, daughter of Mr. and Mrs. D. W. Gagnat, who is a student in Chevy Chase Junior College, Washington, D. C., assisted in a reception at the college Wednesday of last week honoring Lady Dill, wife of Britain's field marshal, Sir John Dill.

The reception was sponsored by the Red Cross chapter of the college.

Mr. and Mrs. D. W. Gagnat were thrilled this week when they learned that Myrna Dean had led her entire class the past semester, making A or A-plus in each subject.

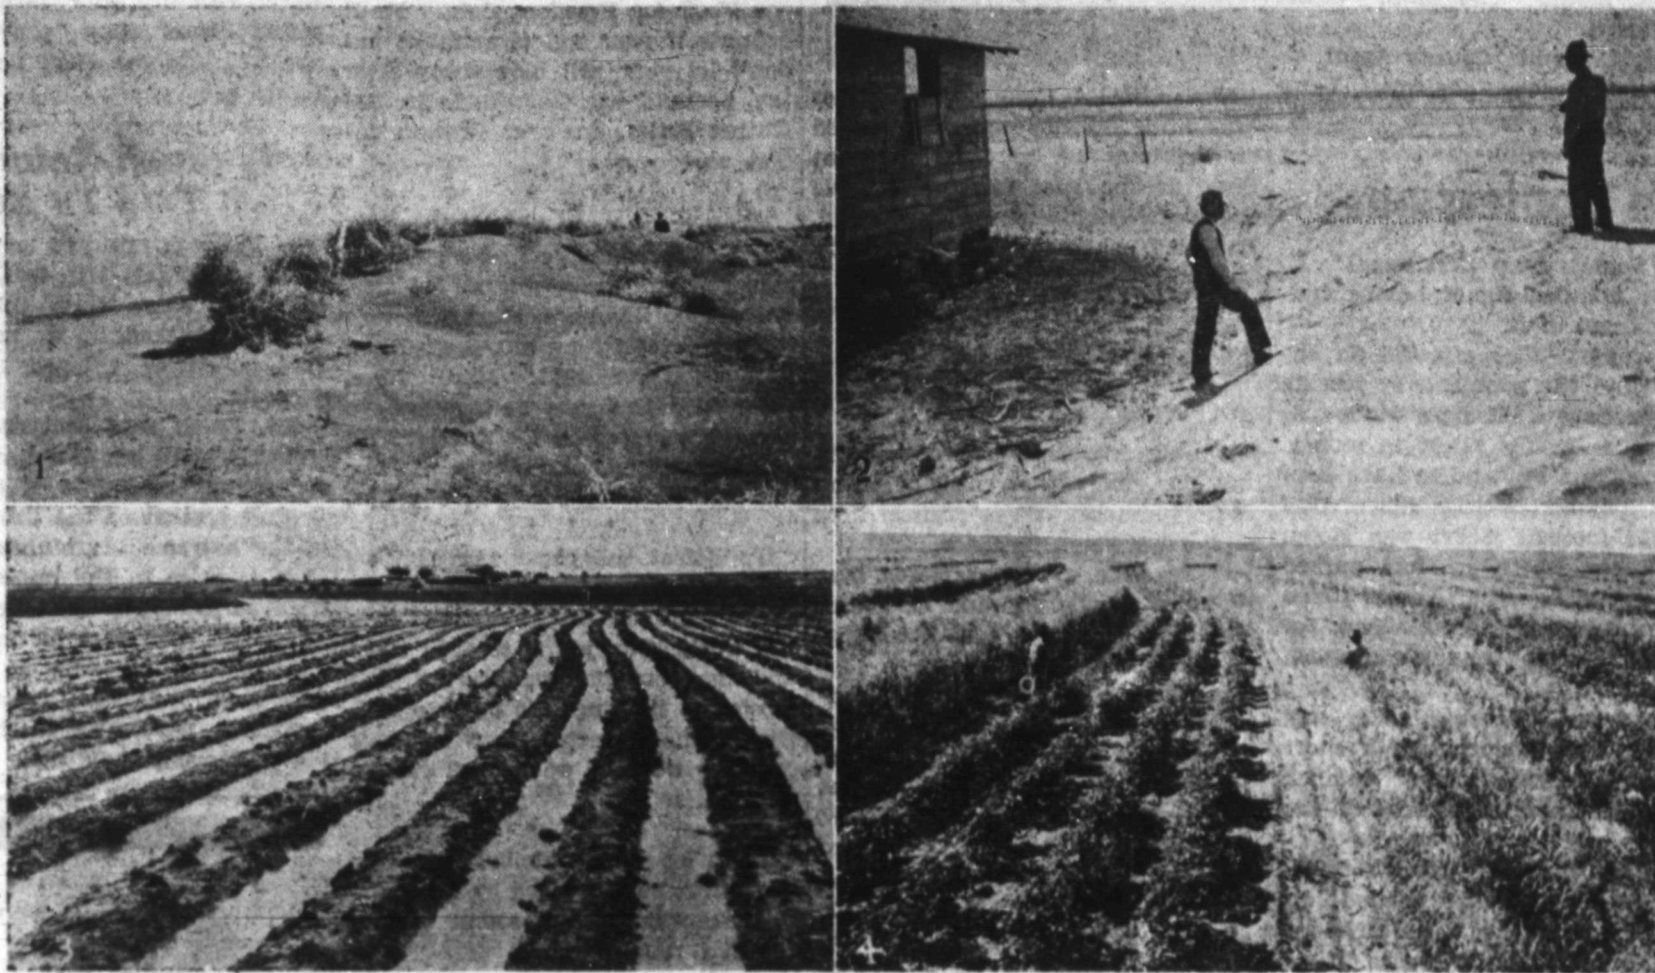

Mr. and Mrs. E. L. McCrary of Fort Worth are here for a few weeks helping with the farm work on the Chas. Lichey farm. They are parents of Mrs. Lechey. The McCrarys lived five miles north of Tahoka before moving to Fort Worth.

Radio And Money Taken In Burglary

Some persons, believed to be boys, broke into the Farmers Coop. Service Station Saturday night and stole a radio, three or four cartons of cigarettes, and a small quantity of money from three peanut and chewing-gum vending machines. In order to get the money out of the machines, they took them outside the building and tore them up, according to Sheriff Sam Floyd.

The boys removed a window to effect an entrance into the building and one of them crawled through a small open window to get into the station office and then unlocked the door. The sheriff's office is making an investigation.

Four Groups of Lynn County Soil

Ordinarily we do not expect our tight lands to be damaged from wind erosion, but the picture in the upper left-hand corner shows what will happen to our heavier soils of the county when grown to such crops as cotton and peanuts and are not protected by adequate sorghum stubble.

Some of Lynn county is deep sandy soil, the type that is seen in the upper right-hand picture, taken in the southwest part of the county. This soil is capable of producing good crops, but it is very hazardous if such crops as cotton and peanuts are produced on it in large fields. The owner of this land produced a good crop of corn during the growing season of 1937. In April of 1938 the corn stalks failed to add adequate protection to this land. The small sand piles seen in this picture are results of one sandstorm.

On the heavier type soils of the county where runoff water occurs after heavy rains, a water conservation program pays big dividends. The picture in the lower left-hand corner was taken several hours after a four-inch rain had fallen in a very short time. Not only was water erosion prevented on this farm, but over five hundred pounds of lint cotton was produced on this farm in the Spring of 1938.

The entire soil on the farm pictured in the lower right-hand corner is very similar to that pictured in the one above. The owner of this land saw that something had to be done. He started out in 1932 in a field stripping pattern. He tried various combinations of small fields of cotton and small fields of sorghum and finally found that the only safe way that he could grow cotton on his land was to have a small field consisting of four rows of cotton alternating with four rows of sudan. Combined milo, which leaves approximately an 18-inch stubble, is as effective as sudan. This variety of milo does not shed the leaves to interfere with cotton harvesting.

Lynn County's Soil Groups, Adaptability of Crops

During this war-time crisis, our Government has requested all farmers to assist the war effort by increasing their production of essential farm products. While every effort is being made to reach these production goals, we must also emphasize conservation of the soil.

Our natural reservoir of food supply can and must be adequately protected from deterioration by wind and water erosion. Proper cropping systems and proper use of crop residue will provide this protection and at the same time aid materially in increasing crop yield.

The type of soil is an important factor in choosing the crops to be grown and the cropping system to be practiced on a particular farm. For instance, one type of soil may be particularly adapted to the production of certain crops without producing an erosion hazard. On the other hand, the same type of soil utilized to produce an erosion-permitting crop may suffer severe damage in one season. Again, the same soil type may be safely utilized for the production of both these crops where the cropping system provides for a striped-crop pattern that alternates strips of erosion-resisting and erosion-permitting crops.

The soils of Lynn county have been separated into five broadly described groups in order to better recommend proper land use, cropping systems, and general soil conserving practices best suited for the particular soil types.

Listed in order of productivity, these groups may be described as follows:

1. Deep moderately sandy and moderately heavy catclaw land.
2. Deep sandy soils.
3. Moderately heavy and heavy clay soils.
4. Shallow soils.
5. Shinnery sand and sand hill areas.

Deep Moderately Sandy and Moderately Heavy Catclaw Land
This group of soils represents by far the largest portion of the cultivated acreage of the county. These soils may be safely utilized for the permanent production of cultivated crops if properly handled.

Although these soils are always subject to wind erosion, and may even become a wind erosion hazard unless adequately protected by sufficient vegetative cover, they may be safely used for the production of

erosion-resisting crops. They are especially adapted for the production of cane, sudan, or combine milo while at the same time the residue from these crops will serve to protect the soil from wind erosion if a high stubble is left on the land at the time of harvesting.

If these soils are to be utilized for the production of such crops as cotton or peanuts for an extended period of time, then precautions should be taken to preserve the soil. Crop rotation, strip-cropping and contour cultivation are practices that will aid in the lengthening of the period of usefulness of these soils. It is reasonably safe to grow cotton on these soils in strips of approximately 36 rows of equally wide strips of cane, sudan or combine milo are grown between the strips of cotton. Peanuts grown on these soils should never appear in strips wider than eight rows. Then they should be bordered with cane, sudan, or combine milo.

Wider strips of cotton can be grown safely on tighter soils but strips of these erosion-permitting crops should be rotated each year with erosion-resisting crops.

Deep Sandy Soils
The deep sandy soils appear only in localized areas of the county. Since they are more sandy and less coherent than the moderately sandy soils, they present a more complex erosion problem. Special care must be exercised in choosing erosion-resisting crops and cropping systems for these soils.

While it is agreed that these soils are best adapted to the production of permanent native pasture grasses and could best be utilized for grass-

Lynn's 1942 Cotton Crop 98,000 Bales

From reliable but unofficial sources The News learns that almost 98,000 bales of cotton have been ginned in Lynn county from the crop of 1942.

Cotton stored at the gins and a little which is yet in the fields will run the total well above the 98,000 mark, it is believed. If all the cotton in Lynn county had been gathered, the total doubtless would have exceeded 100,000.

Lynn leads the state by a substantial margin.

ing purposes, they will also produce good yield of cultivated crops for several years if properly formed. Even with the best of care, however, there is a limit to the number of years these soils will withstand cultivation.

Where these deep sandy soils are in cultivation in small areas on a farm, they should be planted to sudan, cane, or combine milo. Cotton, peanuts, beans, soybeans, and feed to be banded should be planted elsewhere on less sandy soils.

In case the entire farm consists of these deep sandy soils, it would be advisable to use a striped-crop pattern. This would reduce the danger of a wind erosion hazard existing in case a very dry year should be encountered.

Strips of cotton on sands should not be more than 12 or 16 rows wide and the strip of sudan, cane, or combine milo between the strips of cotton should be much wider. The more narrow the strips of cotton the greater will be the resistance to wind erosion. Cotton and sorghum strips should be rotated each year so that cotton will not be grown on the same strip two years in succession.

If peanuts are grown, the loose unprotected soil will blow after harvest regardless of the width of the strip. However, the wind erosion damage will occur to a much lesser extent if the strip of peanuts is no

Feed to be banded should be planted in the same pattern as if for cotton. A high stubble should be left over as much land as possible until the windy season has passed. General contouring is usually all that is necessary for moisture conservation since the rapid infiltration rate of these soils does permit serious water loss by surface runoff.

Moderately Heavy And Heavy Clay Soils

These soils, ordinarily referred to as wheatland soils, occupy approximately 25% of the county. They are suited for the production of cotton, wheat and grain sorghums. Due to the heavy texture and slow infiltration rate of these soils, much moisture is lost by surface runoff. The heavy texture also renders a high percent of the soil moisture as unavailable for plant use. Contour farming and proper utilization of plant residue are the most effective means of combatting surface runoff

while at the same time maintaining maximum crop yields. Crops should also be rotated as much as possible to avoid cotton following cotton. Plowing in such a manner as to leave a straw or other plant mulch on the soil surface will aid appreciably to conserve moisture and prevent wind erosion.

Shallow Soils

Shallow soils are not cultivated in large areas in this county, but they may be found on many farms on steeper slopes near lakes or natural drainages where caliche occurs at or near the surface. Since these shallow soils occur on the steeper slopes and are susceptible to wind erosion, they are difficult to prevent from eroding. They are also less productive in ordinary years than deeper soils. For these reasons, it is imperative that every precaution be taken to reduce the erosion of these soils.

They should be utilized only for the production of sorghums such as sudan, cane, or combine milo. As much of the stalk as possible should be left on the field at harvest time in order to protect the soil from wind erosion during the winter and spring months. It may be desirable to grow these erosion-resisting crops in strips on these soils but not in conjunction with erosion-permitting crops such as cotton, beans, or peanuts.

Shinnery Sand or Sand Hill Areas

This type of soil is largely loose sand and is of very little value for the production of cultivated crops. Native vegetation consisting mostly of shin-oak indicates that these soils would be poor producers of cultivated crops. Furthermore, the fact that signs of wind erosion is active to a certain extent on practically all of

(Cont'd on page 2)

Two Men Painfully Injured Saturday

The Tahoka Clinic reports that L. E. Isbell accidentally cut his wrist on last Saturday while trimming trees. Several stitches were required to close the wound.

On the same day, while A. P. Reagan, who works for the D. W. Gagnat Hardware, was attempting to crank a tractor, the wrench slipped out and struck him on the forehead, inflicting a painful flesh wound, which also required surgical attention.

11,500 Register In Lynn County For Food Stamp Books

Approximately 11,500 names were registered for food rationing in Lynn county during the last three days of last week, according to Supt. W. T. Hanes, who directed the work by appointment of County Chairman C. H. Cain and the members of the county rationing board.

This is an increase of about 500 over the number of registrants in the original sugar rationing registration in May last year.

In Tahoka, the number of registrants was 3092 as against 2840 last May. In O'Donnell, there were about 2500 registrants against approximately 2400 on the previous occasion.

Although this registration was supposed to be much more complicated than was the registration for sugar rationing, Mr. Hanes says that reports from over the county indicate that it went over much more smoothly and with far less confusion everywhere than did the first registration.

In Tahoka about three-fifths of

Negro Steals Car While Boss Away

Robert Russell, a young but married Negro man about twenty years of age, who has been working for Chester Short out near New Lynn, decided Sunday afternoon while Mr. Short was away from home that he needed Short's Chevrolet more than Short needed it himself, so he went into Mr. Short's house, got the key, climbed into the car and stepped on the gas. This was the story related by the young Negro's wife when Mr. Short came home and missed his car.

The sheriff was notified and a search for the thief was instituted. At one time Sunday night, according to a report made to the sheriff, the searchers were hot on the Negro's trail, but they failed to find him. The stolen car was a model 1932 Chevrolet but it had good tires on it.

Pvt. Conway Clingan Buys \$5,000 In Bonds

Lubbock Army Flying School, Mar. 4.—Pvt. Conway F. Clingan of Tahoka has just purchased \$5,000.00 worth of bonds at this twin-engine advanced flying school where he is stationed and in the Field Maintenance supply.

Prior to entering the Air Forces, he was Texaco consignee at Tahoka for four years, prior to that time having worked in the production department of an oil firm at Wink. He and his wife now reside in Lubbock.

Corporal Price F. Brookshire, a clerk here for two years in the AAA office of Lynn county, has been transferred from Santa Barbara, California, to a field artillery headquarters battalion at San Luis Obispo, Calif. He is a son of Mr. and Mrs. W. O. Brookshire, who live east of town.

Mrs. E. W. Holloway of the Redwine community was taken to the Temple Sanitarium Wednesday for major surgery.

Benefit Box Supper For Guard, Teams

A box supper will be given at the Tahoka school gymnasium Thursday night of next week at 8 p. m. to which everyone, old and young, is invited. A program of entertainment will be provided, including a basketball game between the Tahoka Defense Guard team and a Lubbock team, possibly the South Plains Army Flying School.

Proceeds will be split between the local Defense Guard company and High School boys and girls basketball team sweater fund.

Coach Avon Powell is in charge of program arrangements.

Lynn County Soil

(Cont'd. from first page)
 these soils under natural vegetative conditions also indicates that they would be and are a wind erosion hazard when utilized for the production of cultivated crops. Therefore, it would appear that these soils could best be used for pasture. Every effort should be made to return those areas now in cultivation to permanent pasture. This may not be practical at present under existing economic conditions but it does not detract from the fact that these soils may be cultivated safely and profitably for only a few years. Crops grown during these years must be chosen carefully because if not handled properly, sufficient wind erosion may occur in one season as to render an entire farm useless even for grazing land for some time to come.

Desirable wind erosion-resisting crops such as sudan, cane, or grain sorghum such as combine milo, are best adapted for these soils. A high time will tend to reduce the extent and degree of wind erosion that will occur during the winter and spring months. Use of crop residue is an important item which if used properly may have quite an influence on the life length of these soils.

Since cotton and peanuts leave practically no crop residue on the land to help prevent wind erosion after harvest, these two crops are not recommended under any circumstances other than very narrow strips in conjunction with sudan, cane, or combine milo. Then, the strips of peanuts or cotton must not be more than four rows wide while the strips of sorghums on either side should be much wider. In this manner, the serious wind erosion will be confined to very narrow strips and the whole field will not be affected. Feed to be banded should be planted in the same manner as the stripped pattern described above. That is, the feed to be banded would appear in the pattern instead

of the peanuts.
 It is difficult to establish any contour lines on these soils due to the rolling, some-what hummocky, topography. Consequently, contouring is almost impossible. Straight rows are also very susceptible to wind action, so plowing in somewhat of a circular manner is advisable since it tends to reduce wind damage.

The above suggested land use cropping systems and soil conservation practices for various Lynn county soils are recommended to the farmers of this county by the Lynn county USDA War Board and concurred in by the Lynn County Soil Conservation District.

R. R. Adams, chairman, USDA War Board.

Judge C. Smith, County Agent.

R. L. Littlepage, chairman, Lynn County Soil Conservation District.

Sign Confessions

(Cont'd. from first page)
 money, Maurice Small having hidden the rest of it.

In January, they effected an entrance into the pool hall by tearing off a screen and raising a window at the rear, and stole \$25.00 in money.

Several cars are said to have been broken into and articles stolen. Dub Fulford's football jacket was stolen from a car which he had parked in town. Among other articles stolen were seven flash lights, one of which had come from the English Theatre.

One of the boys, it is said, had worked at the theatre for a short time, and evidently was familiar with the interior in the rear of the building.

The two Chapa boys are cousins. Henry Anchado is not related to them. The three live in different houses near the railway tracks. Their depredations in Tahoka have been rudely frustrated, and they will probably function for the next year or two on one of the farms operated by the State of Texas.

Read the Classified Ads.

Mrs. Charles Uzzle, the former Miss Anne Brewer, who was married on February 19, to Staff Sergeant Uzzle at the Post Chapel of the Carlsbad (N. M.) Army Air Field. They are making their home in Carlsbad.

11,500 Register . . .

(Continued from page one)
 the total number registered on the first day, more than 1800 of them. There were only 600 to register here on the last day.

There were a few scattered over the county, who for one reason or another could not or did not register. For the benefit of these, a supplementary registration will be conducted next Monday.

Mr. Hanes says that there was no foundation in fact for the report that was circulated in some localities to the effect that the county board ran short of registration supplies. This rumor probably arose from the fact that supplies did run short in some counties in the state. This county had plenty of supplies at all times.

Mr. Hanes says that there were about 150 volunteer workers in the county assisting in the registration. There were 30 in Tahoka, including 22 teachers and eight high school girls who did most efficient work, and he says that he and the rationing board greatly appreciate the work of all these helpers and the splendid co-operation given by the citizens.

The program was well planned, Mr. Hanes visiting every school in the county beforehand with the exception of Wilson and New Home.

Another Tahoka Girl Joins Women's Army

Miss Mary Irene Grider of Tahoka, route 4, was enrolled Saturday in the Women's Army Auxiliary Corps at the Lubbock Army Recruiting office.

Miss Grider is the daughter of Mr. and Mrs. G. C. Grider. She has three brothers also serving Uncle Sam—James L. Grider, Raymond M. Grider and Earl Grover Grider. Miss Grider states that she also wanted to do her part to help win the war. She would like to be a radio mechanic.

Lynn county has enrolled only four of its newly assigned quota of nine WAACs. If this quota is met it means that five more WAACs must be enrolled by March 31st. Lieut. Col. Marvin B. Durette, commander of the West Texas Recruiting and Induction District, has appointed Mrs. E. I. Hill of Tahoka as Lynn county WAAC recruiting chairman.

A. J. Kaddatz had a letter recently from his son, Sgt. Raymond Kaddatz, who is with the American forces in Africa, in which he stated that he had not received a single letter from any of the home folks. Mr. Kaddatz says they had written him frequently.

J. B. Nance reports the recent sale of a house and 25 acres of land in Tahoka by A. W. White of Plainview to L. B. Martin of Corpus Christi, Mr. Nance acting as agent. Mr. Martin and family have already moved into the house.

We Have Two Big Enemies—Hitler, And Soil Erosion

To defeat Hitler we must increase our food production to feed our soldiers and our allies. While we are defeating Hitler we must not let Soil Erosion defeat us. We expect to defeat Hitler this year but the burden of feeding the world will last for years. Fight erosion and we can feed the world.

Our Government needs peanuts in the Food for Freedom fight. Plant peanuts if your soil is suitable, but don't let your soil blow away after the peanuts are harvested. In defeating Hitler, don't let Erosion defeat us.

Lynn county will not let her boys down. You fight 'em, boys; we'll feed you and the people we set free. We will do this by meeting Secretary Wickard's call for increased food production for 1943. More fibre, more food this year and years to come. We are ready for this job. We will do this by taking care of our soil and making every acre count.

To defeat the paper Hanger, we must hang onto our top soil. Our soldiers are on the fronts all over the world. Our job is to feed them and the countries we liberate. Soil erosion is fighting side by side with Hitler—the paper hanger. We cannot feed the world if we let soil erosion lick us.

Don't let your contribution to the war effort be sabotaged by wind and water erosion—follow sound conservation farming.

To control tuberculosis, you have to start treating the patient when the first symptoms of the disease appear. This same rule applies to the control of soil erosion; an early start with sound and practical conservation measures will save the farm. Conservation of our soil increases the food for our men on the front.

Rationing is caused by two different things, one is an economic scarcity, the other a mal-distrib-

tion of the article or articles in question. Lynn county farmers can help in relieving the economic scarcity by producing more food and feed; however, the Government does not desire that you subject your farm to serious erosion hazards. Strip crop your peanuts in accordance with good soil management and erosion control measures.

A home garden will help in the Food for Freedom fight. Produce food! Buy bonds! Save the soil!

It takes two barrels of water to produce a large stock of corn. You are working for Hitler when you let water run off your farm. Follow sound conservation practices and you will win the Food for Freedom fight.

J. T. Balch Returns From Trip To East

J. T. Balch returned last Saturday from a business trip to Dallas and thence to New York City. While away he picked up a number of cars which he shipped to Tahoka for sale.

Mr. Balch says that one of the things which impressed him most respecting the habits of the people in that section of the United States is the extreme carelessness which they exercise in the preservation of their cars. People up there, he says, often run their cars for years without the cars receiving so much as a scratch. It is such a contrast to the carelessness with which the people of Texas handle their cars.

Mr. Balch plans to leave Saturday for California. He will be accompanied by his daughter, Mrs. Frank Timmons, whose husband expects to be inducted into the Army in a few days. Mrs. Balch has been in California for several weeks.

Mrs. Levi Nordyke and daughter Faye and Theodore Nordyke spent the week end at Penwell, near Odessa, with Mr. and Mrs. John Ivey and Mr. and Mrs. Morris Ivey, the ladies being sisters of Levi and Theodore Nordyke.

Experiment Shows What Becomes Of Annual Rainfall

The Agricultural Experiment Station at Goodwell, Oklahoma, has given us some very interesting results on what happens to our annual rainfall...

Here is what becomes of rainfall at Goodwell, which may be compared to that in Lynn county.

Annual rainfall, 17.3 inches. Showers, 5.3 inches. Run-off, 2.2 inches. Effective rains, 9.8 inches. Evaporates, 6.5 inches. Used by crops, 3.7 inches.

Following are the requirements for milo: 226,276 pounds of water equals one acre inch.

849,112 1/2 pounds of available water. 2,313.6 pounds of dry matter (milo) was produced.

1 pound dry matter (milo) required 366 pounds of water.

Where the 2.2 inches run-off was saved, 759 inch of available moisture was added.

The increase in milo grain production was 34 percent.

Similar results have been obtained at the Agricultural Experiment Station at Spur, Texas, with the production of cotton. This experiment shows that by holding the water on the land where it falls, even greater results were obtained in increased yields than those obtained at Goodwell.

Mrs. Loraine Garrard Tells About Norfolk

Mrs. Loraine Garrard returned Tuesday afternoon from a two week's visit with her husband, T. Garrard, at Norfolk, Virginia, near which city is situated Camp Allen, where he was working in the post office.

Of course she enjoyed the visit greatly and saw many things of much interest. Previously she had written The News and from her letter we use a few extracts.

"Just a note about Norfolk and to tell you how very much T. looks forward to getting the Home Town Paper.

"The town (Norfolk) was a very nice town, I understand, before the war—was talking to a man in the bank yesterday and he said there was a hundred thousand people here before the war and there are three hundred thousand here now and, as he pointed out, that would ruin most any town. . . .

"T is working in the post office at Camp Allen. The work, he says, is nice and he likes it. He gets off at 5 p. m. each day and comes in and stays with me until 6 a. m. He expects to be moved to Camp Peary the 26th of this month. That camp is about 50 miles from here. There are only around 2,000 men in Camp Allen, whereas in Camp Bradford (He just left there) there were 9,500 in the Mess Hall.

"Allene and Clarence Williams came to see us night before last. He is in the same camp with T, but they have seen each other only once. The first thing they did was grab the Lynn County News to read. . . . When you get out like this you really appreciate the USO and Navy YMCA, as they really help when help is most needed.

"This is a beautiful building inside (the Navy YMCA building). Sailors everywhere you look from every country—and they are all nice. I just had dinner upstairs and it was the best food I have found in Norfolk.

"I go all over town every day while T. is in camp. He gets off at noon Saturday is off till Monday A. M. However he is going to try to get a 72 so we can go to New York. T. said to give regards to you and all—Lorraine Garrard."

WILSON H. D. CLUB STUDIES GRAPE CUTTINGS, DIET

The Wilson Women's Home Demonstration Club met Wednesday, February 24, at 3 p. m. in the home of Mrs. B. W. Baker.

The program consisted of demonstrations on grape cuttings and on meat substitutes by the county home demonstration agent, Miss Carolyn Dixon.

Grape cuttings should be made as early as December until February. For meat substitute we had an attractive dish of white sauce and eggs, which is very common for the farm women.

Mrs. B. W. Baker led a quiz on "Right Eating," which was enjoyed by each one present.

Mrs. Edmund Maeker and Mrs. McLaughlin gave for meat substitute dishes, using soy beans for sandwiches, salads, as a vegetable hot and for parching as would for peanuts. The women have tried these dishes and found they were very good. Hope others will use the soy bean more, because they are something we farm women can grow.

Mrs. Pat Swann was nominated for a delegate to the district meeting in Lubbock.

All members present signed the Victory demonstrator's pledge. There were seven present.

The next meeting will be with Mrs. Elmer Blankenship.

Nurse Frances Scott Of Australia Sends Mother Souvenir

Mr. and Mrs. John M. Scott have a daughter, Miss Frances Scott, who is now serving as a nurse with the American armed forces in Australia. Recently Miss Scott sent to her mother a beautiful kangaroo skin, which had been adeptly tanned and dressed, and is indeed a thing of beauty. Of course Mrs. Scott greatly prizes it.

Mrs. Gene Riley of Wells has gone to Albuquerque, New Mexico, to visit her parents, who reside there.

Mrs. Pat Swann was nominated for a delegate to the district meeting in Lubbock.

All members present signed the Victory demonstrator's pledge. There were seven present.

The next meeting will be with Mrs. Elmer Blankenship.

NEW HOME NAMES MRS. BLAKNEY AS DELEGATE

The home demonstration club of New Home met Friday, Feb. 26, at 3 p. m. in the home of Mrs. Cecil Bradshaw.

Due to the absence of Mrs. Donald Caudle, president, Mrs. Boswell Edwards presided. The secretary, Mrs. Clyde Ashcraft, was present.

"Call on cheese, eggs, dried beans, peanuts, and soy beans for stick-to-the-rib dishes, around which to build a meal," Miss Carolyn Dixon, county home demonstration agent, recommended in her demonstration on meat substitutes. "With point rationing it is more necessary than ever that we know our vittles. Eat right to work and win."

Mrs. Dixon taught the group how to make grape cuttings.

The Texas H. D. Association of district 2 will meet April 10 at Littlefield. Mrs. Nell Blakney was elected as the nominee from the New Home club.

McCord Boys Are In Armed Forces

Mr. and Mrs. Homer Harrison of Lubbock were here last Friday visiting friends and relatives for a few hours. He is a member of the Lubbock police force.

While here he told The News that two of Mrs. Harrison's brothers are in the service and that a third is either in the service or is preparing to go in. Travis McCord is in the Army in Alaska. Emmett McCord is in Camp Jackson, Paris, Texas. Ivan was ready to go in, if not already in. The McCord boys are sons of M. E. McCord, now of Santa Rosa, Calif., but all formerly lived here.

OFFICIAL TABLE OF POINT VALUES FOR PROCESSED FOODS No. 1—Effective March 1, 1943. Table with columns for weight (4oz, 7oz, 10oz, 14oz, 1lb, 2lb, 3lb, 4lb, 5lb, 6lb, 7lb, 8lb, 9lb, 10lb) and rows for various food categories like Fruits and Fruit Juices, Vegetables and Vegetable Juices, and Other Processed Foods.

INSTRUCTIONS—To find the Point Value of an item: 1. Find out the net weight of the contents (from the label, if any). 2. In the line across the top of the chart, showing the weight in ounces and pounds, find the column in which this weight belongs. 3. Find the item in the listing of items in the column to the left. 4. The POINT VALUE of the item appears on the same line as the item and in the column listing the correct weight. All Point Values must be determined by weights. If no weight is marked on the item, the item must be weighed. In finding the Point Value of a container whose contents are given in fluid ounces, consider the fluid ounces to be the same as the net-weight weight ounce. One pint is one pound; one quart is two pounds.

J. L. Waggoner, 61, Died Last Friday

Death came on swift wings shortly before 7:00 o'clock last Friday night to John Luther Waggoner of Tahoka in the Mercy Hospital in Slaton, to which he had been taken on the preceding Tuesday night for treatment.

Mr. Waggoner had been a resident of Tahoka about four years and was well known here. His chief vocation was that of contractor and roof repairer.

On Tuesday he had done a hard day's work, ate a hearty supper, and was feeling fine, according to information given The News. Soon afterward, however, he was stricken with internal pains and a physician was called, and thereupon he was rushed to the Slaton hospital. At the hospital he was given relief, but pneumonia developed, resulting in his death two days later.

Funeral services were conducted at the Church of Christ here at 2:00 o'clock Sunday afternoon by Minister Garnie Atkinson, and interment was in the Tahoka cemetery.

Born on May 6, 1881, Mr. Waggoner soon would have been 62 years of age. In 1899 he was married to Miss Josie Bristow, who died in 1909, leaving six surviving children.

A few years later he married a second time, two children being born of this marriage, both of whom survive.

Six children also survive from his third marriage.

Names of the surviving children are: Mabry Waggoner of Ft. Worth, Mrs. Clara Ford of Lamesa, Claude and Clifton Waggoner of Vernon, twins, Mrs. Bertha Rowland of Dalhart, Mrs. Gladys Molar of Socorro, New Mexico; Mrs. Nannie Lee Molar of Socorro, Mrs. Estelle Lucas of Vernon, Texas; Mrs. Lillie Belle Schnell of Cottage Grove, Oregon; Cletas Waggoner, now in the Army; J. L. Waggoner Jr. and Sue Carrel Waggoner of Tahoka; Mrs. Mattie Faye Bates of Lubbock; also one step-son, W. W. Gurley of Tahoka.

The surviving widow was the former Mrs. Eunice Gurley of Tahoka, to whom he was married on August 28, 1939.

Other surviving relatives include five brothers and two sisters, none of whom reside in Lynn county, but

Victory Chickens Are Being Grown In Court House

While other folks are raising Victory Gardens, T. R. Cathcart, keeper of the court house, is undertaking to raise a flock of Victory chickens, and the chicken pen is a junk room adjacent to the boiler room in the courthouse basement. It is literally swarming with baby chicks; there were 326 of them when a representative of The News took a look Tuesday.

Since this room was not fit for use as an office or for other public purpose, Mr. Cathcart decided to convert it into a chicken house. He spread a layer of cotton seed hulls on the floor, installed feed troughs and water containers, and then went to a local hatchery and bought 330 baby chicks. It is kept warm and at nearly even temperature by the furnace and boiler situated in the larger room into which it opens, and the chicks seem as thrifty and happy as if a mother hen were there to care for them. Only four of them had died up to Tuesday.

Some of these chicks are roosters and Mr. Cathcart expects to hear them crowing over the victory we are going to win over Hitler and Hirohito some time this year or next.

Bennett Howell Jr., Longview, who has been here several weeks visiting his aunts, Mrs. D. W. Gaignat and Mrs. W. V. McElroy, was expecting to leave for a training camp during this week. His mother, Mrs. Bennett Howell, who has also been here visiting her sisters, expected to remain a week or two longer.

Mrs. Paul B. Cook and little daughter are here with her parents, Mr. and Mrs. F. O. Greathouse, while Cadet Cook is taking his primary flight training at Tulsa, after completing pre-flight work at San Antonio.

all of them except a brother residing in San Diego, California, were present at the funeral, as were also most of the children.

Surviving also were 21 grandchildren and three great-grandchildren.

Mr. Waggoner had made many friends here, who deeply regret his unexpected death.

AVANCE AT WAR

Sophia

Mrs. Kimball and Mrs. Worthington, dressed soberly and wearing their best black gloves, walked along the stony country road back toward Sophia Hardy's farm, to pay their visit of condolence.

"How do you reckon she'll be bearing up?" Mrs. Kimball asked Mrs. Worthington. Both ladies wore their most solemn, funeral expressions.

"A mighty severe blow," Mrs. Worthington said. "Mighty severe. To lose your only son, the mainstay of your declining years. And such a dreadful death, too—to go down with a ship. Mercy!"

"The first of our boys from Hand County to go, too," Mrs. Kimball said, mournfully.

"I wouldn't blame Sophia Hardy for feeling right bitter."

They stood on the simple stone doorstep, with downcast eyes, gazing themselves into the proper commiserative mood.

"Come in!" The voice was brisk and cordial. They looked up in surprise. Sophia herself had come to the door. As they followed her into the parlor they exchanged glances, with eyebrows lifted. Sophia was not even in mourning. The parlor shades were not even drawn.

"It's nice of you to come," Sophia said. "Do sit down."

"We came," Mrs. Kimball said almost reprovingly, "to tell you that our hearts are bleeding for you in your great loss."

"We know how lonely you must be out here," Mrs. Worthington said. "With nothing to take your mind off of."

"I've just finished applying for the Government insurance on Tom's life."

The visiting ladies could not repress a shocked glance at one another.

"I want to get it right away," Sophia said. "So I can put it into War Bonds. My boy hasn't finished fighting yet, not by a long shot."

The ladies were so occupied with feeling horrified, so titillated by this callous behavior in a bereaved mother—that neither of them noticed Sophia's hands. Under the folds of her clean print dress, against the seat of her chair, they were tightly clenched.

(Story from an actual report in the files of the Treasury Department.)

Carry on for mothers like Sophia. Buy War Bonds till it hurts.

J. Sam Lewis, Well-Known News Man Buried Monday

Funeral services for J. Sam Lewis, widely known newspaper man, who died at an early hour on Thursday morning of last week in a hospital in Gallup, New Mexico, were conducted in the First Presbyterian Church of Lubbock at 10:00 o'clock Monday morning by the pastor, Dr. J. M. Lewis. Burial was in the Lubbock Cemetery.

For more than twelve years, Mr. Lewis was connected with the Avalanche-boonval publications as agricultural writer and news reporter, traveling much over the South Plains for his news stories and feature articles and coming frequently to Tahoka, leaving that position in August, 1942, to become editor of the Tucumcari (N. M.) Daily News. Shortly thereafter, however, he removed to Gallup to become a reporter for the Gallup Independent.

Mr. Lewis had numerous friends in Tahoka and throughout Lynn county, who will regret to learn of his untimely death.

Mr. and Mrs. George Akin recently received a letter from their son Arvel, who is a baker in the Navy, stating that he had just been promoted from the third class to second class. He is stationed in the Canal Zone.

Rev. C. B. Boyd, who preaches on Sunday and carries the mail on a Wilson route through the week, was a business visitor in Tahoka Monday.

try a Classified Ad.

Grassland Citizen Died Saturday

Rosea Farr, 53, resident of Lynn county since 1938, died at his home on the Claude Thomas farm near Grassland at 2:30 o'clock last Saturday morning, death resulting from a blood clot which had formed on the brain following a serious illness of two weeks. He had been in bad health for a long time.

Funeral services were conducted Monday afternoon in Central Baptist Church by the pastor, Rev. Frank Thomas, and the body was interred in the Grassland cemetery.

Surviving are the widow, four sons, and seven daughters. The sons are: W. H. Farr of San Diego, Calif., James, Kenneth, and Clark Farr, all of the family home. The seven daughters are: Misses Naomia Farr, Billie Dorene, Cordie Mae, Betty Lou, Shirley Ann, Vonda, and Glenda Farr, all at home. W. H. Farr came home for the funeral and expects to remain here.

Other survivors include three brothers, W. A. Farr of Luling, J. W. Farr of Austin, and M. D. Farr of Slaton; and four sisters, Mrs. Arthur Galloway of Taylor, Mrs. Jake Pruett of Belton, Mrs. Henry Hendricks of Bartlett, and Mrs. M. L. Bailey of Fort Worth; together with numerous nephews, nieces, and other relatives.

Mr. Farr was born in Erath county on March 6, 1889, and lacked just a few days of being 54 years of age. When he was a small child his parents moved to Granger in Williamson county, where he grew to manhood. He married Miss Willie Mae Ricketson of a near-by county on October 2, 1917. After having lived in several central Texas counties, he and his family came from Bell county to Lynn county in 1937, then moved away, and came back to Lynn county in 1938.

He had not placed his membership in any church here but before coming to this county he had been a member of the Baptist Church. He had been in ill health for several years and had thereby been prevented from taking a very active part in community and public affairs, but he had made many friends nevertheless who were grieving at his early death.

Miss Mary McDonald Weds Corp. Beckham Of Famous Squadron

Miss Mary McDonald and Cpl. Joe B. Beckham were united in marriage at 11:15 o'clock Friday night, February 19, in the home of P. D. Server, Justice of the Peace here, the Judge reading the marriage vows.

The bride wore a pale green dress with gold trimming to match that of Uncle Sam's buttons.

The bride is the daughter of Mr. and Mrs. W. P. McDonald and the grand daughter of Mr. and Mrs. J. G. Scott. She has been a student in Tahoka High for four years and a noted member of the basketball team. She was chosen all-county guard in 1942 and won several other honors.

The groom was reared by Mr. and Mrs. Lonnie Williams and attended Draw high school. He has recently been on active duty in Australia along with the famous 19th Bombardment Group and received a medal of honor on February 12 along with other members of the squadron.

He is now stationed at Pyote.

Texas. Mary will finish school this term then she plans to join her husband. —Contributed.

We cannot issue 1943 License Plates for your car unless you can present a Certificate of Title or Certificate of Ownership. If you do not have this Certificate of Title or do not understand about this law, come to the Tax Collector's office and we will be pleased to instruct you what to do.

R. P. Weathers

TAX COLLECTOR, LYNN COUNTY

Farm Board Holds Monthly Meeting

The joint Community and County Committee met in a regular monthly meeting February 26 in the Lynn county AAA office for the purpose of discussing Federal Crop Insurance, pre-measurement of cotton, and wide-spread conservation practices for Lynn county.

The following members were present: Robert R. Adams, chairman; B. J. Emanuel, R. W. Barton, Ellis A. Barnes, L. J. Barrett, Dan L. Carpenter, G. C. Coleman, A. L. Cromer, W. Z. Florence, Robert G. Ledbetter, Walter R. Ledbetter, R. L. Littlepage, C. L. Mason, R. L. Pirtle, R. J. Nieman, J. M. Small, Guy Smith, Fritz Speckman, Harvey O. Stone, J. R. Strain, C. C. Swope, S. L. Walters, H. S. Watson, J. P. White, S. L. Williams, and O. T. Williams, district Soil Conservation Service supervisor, who was a visitor.

Mr. Adams explained and pointed out the advantages of Federal Crop Insurance on a seven year basis, taking his own farm for example. In a period of seven years he made three complete failures. If he had had the insurance, the total for the three years benefits would have been \$11,343.00 instead of making a complete failure. His premium for one year would be \$414.00. Pointing out the advantages and disadvantages of farming in West Texas, he proved that it is to a producer's advantage to carry Federal Crop Insurance from year to year.

Mr. Lenton S. Pool, secretary of the Lynn county A. C. A., explained the premeasurement of cotton for 1943. Due to the fact that it is going to be difficult to secure available men for reporters, premeasurement of crops will be done in a different manner this year. In signing up the 1943 Farm Plan sheets, the secretary and clerks for the AAA office will go out to each community with maps and other necessary equipment. The producers in this community will give information as to the location of each crop to be planted. The clerks will planimeter the acreage and plot of each crop on a sketch of the producer's farm. These measurements will be considered as final.

Mr. Pool also explained the 1943 AAA program. He stressed the importance of planting within the producer's allotment as farmers will not be allowed to plow up in excess to their allotments in 1943. Mr. Pool gave the quotas established for Lynn County War Crops and the incentive payment for each, which will be based on 90% to 110% of the war crop goal. They are as follows:

1. Dry edible beans, 250 acres, \$20 per acre.
2. Peanuts, 3500 acres, \$30 per acre
3. Soybeans, 882 acres, \$15 per acre
4. Grain Sorghums, 155,385 acres, \$8 per acre.

These are the minimum goals for Lynn county which are to be set up on the volunteer basis. If this goal is not reached according to this plan, the County Committee will set up goals for each farm. The producers are allowed to substitute acre for acres on all War crops.

Mr. H. E. Mather of the Soil Conservation Service, presented and explained the Wide-Spread Soil Conservation practices set up for Lynn county, which would tend to increase food production for the War effort. They are as follows:

1. Contour Farming—AAA Practice No. 13 and 14. Mr. Mather pointed out that if all farmers in this county would farm on the contour, grain sorghum would be increased at least 780,000 pounds each year. This practice was proved by giving an example from an experiment station on soil very similar to the soil Lynn county.
2. Home Garden—AAA Practice No. 40. Mr. Mather pointed out that if producers did not raise their own food, they would more than likely not have all they would like to eat the coming year.
3. Leaving on the land as protection against wind erosion, the stalks

3350 Copies News Printed This Week

This week's issue of The Lynn County News carries a number of special articles on soil conservation from the Lynn County Soil Conservation District office, of which H. E. Mather is the director.

The Soil Conservation Board has ordered 1400 extra copies of this issue, which added to The News' regular subscription list, brings the total for this issue to 3350 copies. The extra copies will be given to farmers to keep.

"We would like to thank the Tahoka Chamber of Commerce, the Lynn County USDA War Board, and the business men of Tahoka for their co-operation in making this edition possible," Mr. Mather states.

Grassland News

(By Mrs. V. V. Laws)
(Delayed)

Mrs. D. G. Cook and daughters have our deepest sympathy in their great loss of their husband and father by death, who passed away recently.

We were sorry to hear that Mrs. W. R. Young is in a Lubbock hospital with a broken hip, resulting from a fall.

Congratulations to Mr. and Mrs. Doyle Jones on the birth of a son, born last week in a Slaton hospital. His name is Joby Doyle.

Mr. John McKee, who has been home on a furlough recuperating from illness, returned last Saturday to a camp at Norman, Okla.

James Davis Walker, who underwent an appendicitis operation last Sunday night in the Lubbock General Hospital, is reported to be improving.

Mr. and Mrs. J. B. Thompson and children are happy to have had both sons home from the armed forces at the same time. Vincent from Sheppard Field and J. B. Jr. from overseas. J. B. Jr., who had seen some excitement and who contracted malarial fever, and was sent back to the States and to a hospital, is home on an extended furlough to recuperate.

The Farmers' Coop Station has sold out the equipment and it is being moved this week.

Mrs. H. H. Roberts was happy to have her son W. T. home for a few days. He also visited Juanita at the hospital, where she was recovering from an appendicitis operation. Juanita returned home last Saturday and is doing fine.

Miss Jewell Roberts, who underwent an operation at the Lubbock General Hospital, is reported improving.

Mrs. J. E. Bullock, Mr. and Mrs. her daughter and children, attended a surprise birthday dinner Sunday for C. C. Cooper given in the Cooper home in Post.

Mrs. J. E. Bullock, Mr. and Mrs. Young, and Mrs. V. V. Laws visited J. E. Bullock Jr. in the Plains Hospital Sunday afternoon. He had undergone an operation Saturday morning.

Mrs. Viola Greer is substituting in the primary grade here in the absence of the regular teacher.

Mrs. L. J. Walker visited her brother at Lamesa Tuesday.

Mrs. G. C. Shaffer has gone to Houston to visit her son and a daughter.

or stubble of sorghums.—AAA Practice No. 17.

Mr. O. T. Williams, district Soil Conservation Service supervisor, explained the other four following practices:

4. Strip Cropping peanuts: (a) For heavy and mixed land, 8 rows of peanuts and 8 rows or more of grain sorghums. (b) On sandy land, 4 rows of peanuts and 8 rows of grain sorghums. Mr. Williams explained the great need of strip-cropping in this county by showing the members of the committee pictures that had been taken on various farms and their conditions. He also explained that although many farmers did not like the idea of strip cropping, they were losing their most valuable top soil from year to year. Mr. Williams pointed out to the committee that if they would strip peanuts with sorghums they could also acquire their war crop and preserve their land at the same time.
5. Strip cropping in accordance with AAA Practice No. 10 and 11.
6. Delayed tillage on sandy land if the farmer has a good cover of grass or weeds. Mr. Williams explained that delayed tillage would also keep the land from blowing and hold its moisture.
7. Plant shallow land and steep slope to combine mlo.

Government Has Big Investment In Local Guard Unit

Financial backing of the people of Lynn county of the Company F, Texas Defense Guard program was asked by Capt. Roy Edwards at Monday night's drill attended by 60 members and a few visitors.

The men are willing to give their time, the Federal government furnishes practically all the equipment, local business institutions take turn about serving refreshments. In fact, the backing has been unexcelled, but the Federal and State authorities are demanding that the company have local financial backing for incidental expenses. Capt. Edwards said. The government has placed more than \$10,000.00 worth of equipment in Tahoka for training the men.

The Government and the Army must consider the Defense Guard work worth while or they wouldn't be placing this much vital material at the disposal of the Tahoka company, Edwards further stated. If it is worth this much to the Federal government, it should be worth \$25 per month to Lynn county. He explained that incidental expenses were running nearly that much, and he didn't think it right for the men of the company to have to dig down in their pockets for these incidentals.

Following the talk, Mayor Deen Nowlin announced that the City of Tahoka council had voted the Guard \$10.00 per month, which brought a big cheer from the men. Other agencies are being asked to raise the fund to at least \$25.00 per month.

Short talks on the importance of the Guard training program were made also by Happy Smith and A. M. Cade.

New equipment is arriving every few weeks for use of the unit. Latest equipment includes garrison caps, ammunition belts, fatigue clothes, shoes, overcoats, etc.

The company already had both winter and summer uniforms, jackets, caps and belts, and mess kits.

The company also has 55 new shotguns, three Thompson sub-machine guns, ammunition, drill rifles, and other such equipment.

Much of this equipment may be used in maneuvers to be held later in the Spring, and it is possible that the men may be mobilized for a few days training some time soon. If the unit were to be needed for any emergency, it is just about fully

Man Hunt Story Told At Rotary

The program at the Rotary luncheon Thursday was entirely different from anything that has preceded it. Howard Payne was asked to relate his experience in helping to run down a noted criminal while he was a peace officer at Rall three years ago—a man who had already been in the pen, who had escaped, had stolen a car in West Texas, then came to the plains, had a gunfight with officers and killed a deputy sheriff, passed through the picture. It was the thrilling story of the desperado, J. W. Mann, a story too lengthy to report here.

Payne has recently been played-up in several national detective magazines for his part in Mann's capture.

Before the program began, Wynne Collier welcomed four new Rotarians into the Club. They were Alton Cain, Roy Scott, Lenton Pool, and Frank Parris. Messrs. Pool and Parris are recent arrivals in Tahoka. Mr. Pool being county AAA secretary, and Mr. Parris being one of the lessers of forty sections of the T-Bar Ranch.

Fred Bucy was also welcomed back into the club, having been a member previously.

President Truett Smith announced that a ladies night would be held the last Thursday in this month, and program chairman Travis Hanes promises the program will be a live one.

equipped and armed.

The company not only serves as a defending force with some training, but offers training to many men who expect to be called into the Army at a later date.

Also, the Guard training program is an educational one, since the study of battle formations, scouting, gunnery, map-reading, first aid, and guerilla tactics, etc., helps the men understand methods of warfare used in the present conflict.

Two or three new men enlist almost every week, but since about that many go into the Army every week, the membership has remained around 50 to 60 the past few months.

To defeat the paper hanger, we must hang onto our top soil. Our soldiers are on the fronts all over the world. Our job is to feed them and the countries we liberate. Soil erosion is fighting side by side with Hitler—the paper hanger. We cannot feed the world if we let soil erosion

ATTEND CLINIC

Wynne Collier attended a druggists' meeting in Lubbock Monday. Last week he and Harlan Cook and W. O. Thomas attended the two-day Globe Clinic in Lubbock, where they studied livestock diseases and remedies.

LEGION AUXILIARY

Mrs. A. M. Cade announces that the Legion Auxiliary will have its meeting next Tuesday night. The business meeting will be followed with a program.

Mrs. Jim Raindl of El Paso came recently to visit in the home of Frank Raindl Sr. near Dixie. While here she underwent a major operation in the Slaton clinic. Her husband, Sgt. Jim Raindl is stationed at Fort Bliss.

Pfc. Henry Jahnke formerly of Wilson is now stationed at Shreveport, La.

Mayor Warns On Driving Over Hose

The City Council warns that from this time forward any person found guilty of driving over the city's fire hose will be fined, Mayor Deen Nowlin informs The News.

During the recent fire in the business section, several citizens carelessly drove their automobile over the fire hose, a violation of the law. There is no more hose to be had for the duration, Nowlin says, and that which the city has must be taken care of. Driving over fire hose breaks the hose frequently, making it useless.

Miss Bobbie June McCormick, daughter of Mr. and Mrs. Loyd R. McCormick of New Home and a student this year in Wayland College, Plainview, underwent appendectomy in the Lubbock Hospital on Thursday of last week and is reported to be convalescing satisfactorily. She was expected to leave the hospital for her home this week.

RAISE MORE CHICKENS TO Produce MORE EGGS

Our country... and all the fighting Allied Nations depend upon the American farmer for vitally needed chickens and increased egg production! The right feed, rich in protein and vitamins will "up" your egg production and make for healthier, more marketable birds.

POINTERS on POINT SAVERS

RATION SHOPPING HINTS—

KNOW that:

- (1) Point values have nothing to do with dollars-and-cents prices. You have to give the money price and the point stamp price for every purchase in a rationed group.
- (2) You have freedom of choice in using your points to buy any rationed item, provided it is available.
- (3) If you buy foods with a low point value you will be able to buy more of the articles in the same rationed group.
- (4) Point values of all rationed foods are set by the Government and not by the storekeeper or by the manufacturer.
- (5) Highpoint stamps should be used when buying a number of rationed items at one time. Conserve your low point stamps as storekeepers cannot give you ration stamps in change.
- (6) Loose stamps are not valid. Stamps must be torn out of your ration book at the time of purchase and in the presence of your grocer.

NOW WHEN YOU GO SHOPPING . . .

Remember to:

- (1) Allow plenty of time for your shopping under point rationing . . . it takes longer. Best time to shop is early in the week and early in the day.
- (2) Be sure and take your War Ration Book No. 2 with you. No stamps . . . no rationed items.
- (3) Take your point value chart along with you, too, for convenience. While our store has price and point values clearly marked on the shelves and on the merchandise, your list will serve as a double check and save lots of extra steps and confusion.

BUT—

You'll enjoy shopping at Smith's Food Market because you can take all the time you want without embarrassment or a sense of feeling hurried. Since you are waiting on yourself, no one cares how many times you change your mind or exchange one can for another before you reach the check-out stand.

AND—

If you don't understand point rationing, we will be glad to help you. It's our job to answer your questions cheerfully and in detail. So, don't hesitate to ask us questions about foods and rationing.

BRING YOUR RATION BOOK

For Your Convenience . . .

Shop early in the Day, shop early in the week. . . Take your time. . . We are always ready to serve you or to help you in any way possible.

NOTICE TO THE PUBLIC:
Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of The Lynn County News will be gladly corrected when called to our attention.

Ex-Governor Pat M. Neff, who is now president of Baylor University, made an address over a south-wide radio hook-up Sunday morning on the duty of the Christian Patriot in this World Crisis. In this discussion he proposed a new league or alliance of democratic nations at the close of this world conflict with power to make international laws and regulations, and also with the power and duty to enforce them, to preserve the peace of the world. This was probably the most definite and clear-cut proposal that has yet been made to effect this object. Pat Neff has a penchant for striking phrases and ornate expression, and his address Sunday morning was one of the most eloquent he has ever delivered. As he spoke, we could not keep from being made conscious of the fact that in ability and qualifications he dwarfs some United States senators as a skyscraper dwarfs a shanty. Pat Neff would shine in any position.

After voting beer out of Nolan county something more than a year ago by a decided majority after it had been legally sold there for several years, the wets recently asked for another election. It was held last Saturday, the result being two to one in favor of the dries. But the wets fared better in an election held Saturday throughout Gaines county, the county remaining wet by a majority of twelve votes. Mighty few counties on these plains permit the sale even of beer. Gaines county is a regrettable exception to the rule. Foolish Gaines! Most people are learning that it doesn't pay to drink. They prefer to remain sober and stay alive—and spend their surplus coin for war bonds.

Mrs. J. J. Taylor and son Gene of Bartlesville, Oklahoma, came Thursday to visit their daughter and sister, Mrs. H. R. Tankersley.

ODDS and ENDS

by Eec Eye, the Elder

The birds that flit about and chatter among our trees have at least one friend in Tahoka, the wife of our Methodist minister, Mrs. H. A. Nichols. She comes to the defense even of the "pestiferous" sparrows, usually regarded as the enemy of the truck gardener.

But, is the sparrow a pest? The United States Government says Nay. On the other hand, they are termed a great asset.

Mrs. Nichols brought to The News office a few days ago a newspaper clipping which purported to quote from Government reports respecting the value of birds generally to the people of this country. It contains some astonishing statements and all-titidinous figures.

"If all birds were exterminated today," says the Government report, "there would not be a man, woman, or child alive in three years."

How come? you ask. Well, the insects would get us, the Government ornithologists tell us. Just listen at this:

"Many birds eat their weight in insects daily. A pair of birds and their young have been found to consume from 300 to 10,000 insects in a single day." Quite a killing for isn't it?

"In the stomach of a single flicker, Government experts found 5,000 ants." A flicker is a woodpecker. We rarely ever see one out here, but when you do see one, boys, and see him pecking wood, don't imagine that he is doing it to amuse himself; he may be getting a meal.

"Martins and swallows have been known to consume on an average of 3,000 mosquitoes in a day," the Government report continues. We have spent a few nights down on the Texas coast when the martins and the swallows evidently were not on the job. And we have seen the time when a few martins and swallows, we believe, could have made a good living in Lynn county.

"It is claimed that one family of jays will eat a million caterpillars in a single season." Yes, and they are death on grasshoppers too. The next time the grasshoppers or the army worms threaten to eat up our cotton we ought to import about a million blue jays into Lynn county.

But what about the sparrows?—these little pets that infest our own town and that the boys like to shoot at in the park and sometimes in your own back yard. Surely they are not good for anything.

Well, here is what our Government bird experts have to say about them: "Sparrows (generally known as pests) are credited with saving the farmers of this country more than \$100,000,000 annually by their destruction of insects and weed seeds."

Say! That is some saving, isn't it? Measured in maize at \$20.00 per ton, it would be the equivalent of 5,000,000 tons. At 25 tons to the car, it would require 200,000 cars to haul it!

Measured in wheat at a dollar a bushel, it would be the equivalent of 100,000,000 bushels. Texas never raised that much wheat in any one year. It is about one-eighth of the average annual production of the entire United States!

No wonder God notes the sparrow's fall!

Since the number of insects consumed in any one state or even in

one small locality during a single year by our feathered friends would be utterly innumerable, some Government scientist conceived the idea of measuring them by the bushel. Listen at this:

"It is estimated that in Massachusetts alone, birds destroy, from May until September, 21,000 bushels of insects daily." For the five months that would amount to 3,150,000 bushels. Quite a pile of insect carcasses!

And yet Massachusetts is a dinky little state. Texas could put it down in one of her side pockets and not know it was there. How many bushels of insects the birds must eat up in Texas each year. Well, we couldn't measure them in bushels, we would have to measure them in car loads.

And so Mrs. Nichols came down to get us to help her to persuade the boys not to kill the birds.

Mockingbirds and robins are not here in great numbers, but the few that do decide to make their habitat here are highly valued and appreciated by a lot of folks. A few years ago, a couple of mockingbirds spent the summer for two or three years in succession among the trees in our own neighborhood, and then they disappeared. Possibly some boy shot them, or by his shooting scared them away. Possibly they got killed in a storm or died a natural death. At any rate, we have since missed their merry songs.

And a few cardinals have been reported here from time to time. What is more beautiful in the entire bird family than a brilliant cardinal?

Mrs. Nichols, and many others we are sure, are much interested in the birds of gorgeous plumage or of tuneful throats in addition to those that may be useful in the destruction of insects. At least two men here have taken up with this type-pounder in recent years the matter of protecting the birds from the ravages of guns in the hands of thoughtless boys. These two men are E. H. Boullouin, now in the army, and R. C. Wood.

The Boy Scouts might be of great help in such a movement, and some of the women's clubs might help. Yes, and some of the men might help, too, especially those who like to hunt real game.

But, somebody please help Mrs. Nichols and this columnist and other interested citizens of the town to save the birds.

Let's not kill them nor drive them away; let's invite and encourage them to come and live among us. We like their chatter, their songs, their gay plumage, and the warfare they wage against the bugs.

WOODWARD AT AMARILLO

Amarillo Army Air Field, Mar. 4.—James D. Woodward, son of Mr. and Mrs. S. V. Woodward, route 1, Tahoka, has begun an intensive course of study in aviation mechanics at this Army Air Field, one of the newest schools in the Army Air Forces Technical Training Command.

IN AMARILLO SCHOOL

Amarillo Army Air Field, Mar. 4.—Otis O. Bosworth, husband of Ople M. Bosworth, route 3, Post, has begun training in aviation mechanics in the great new mechanics school at Amarillo, one of the newest and largest schools in the Army Air Forces Technical Training Command.

SCOTT-HERRIN MARRIAGE

Mr. and Mrs. R. C. Scott of Tahoka are announcing the marriage of their daughter, Bobbie, to Staff Sgt. Grady L. Herrin, which took place Sunday, February 21, in the First Baptist Church of Post, Rev. Hardin performing the ceremony.

The bride wore a blue crepe suit with black and white accessories. She wore a corsage of pink and white.

Only relatives of the bride attended the ceremony.

The couple was honored with a dinner in the home of the bride's parents Monday, February 22nd, which was also the 80th birthday of the bride's father. A large number of friends and relatives attended the happy occasion.

A supper was given in the evening of the same day in their honor in the home of the groom's parents, Mr. and Mrs. Frank McGlaun, of this city.

Sgt. and Mrs. Herrin left Tuesday for Las Vegas, Nevada, where he is in training.

PETTY 4-H CLUB

The Petty 4-H Club met at the Petty school house Monday of last week with Miss Dixon present to help.

We had three new members, Joyce Jones, Patsy Crews, and Virginia Stephens.

We had a good meeting. Miss Dixon brought a cabinet. She showed the 4-H club where to put pillows, blankets, over-shoes, shoes, and hats.

The boys met too, with Mr. J. C. Smith there to help.

Girls present at their meeting were: Darlene Cromer, Virginia Stephens, Helen Stephens, Katherine Hickman, Sue Stephens, Patsy Crews, Joyce Jones, Margaret Jones, Barbara Jones, and Reba Cullefer. — Club Reporter.

MISS LOUISE HEATH RECENTLY MARRIED

Many friends of the L. C. Heath family, former residents of Tahoka now residing in Brownfield, will be interested in the announcement that Miss Louise Heath, a senior student in the Texas Technological College, was married at 9:00 o'clock last Sunday morning in the First Baptist Church of Brownfield to Mr. Kelton Bonham of Lubbock, who is also a Tech student. He is preparing for the ministry.

The couple will reside in Lubbock and will continue their studies in the Tech.

WELLS 4-H CLUB

The Wells girls 4-H Club met with their new sponsor, Mrs. Laleon Jordan for the first time Tuesday, Feb. 23. The meeting was held in the intermediate room of the Wells school at 11:40 o'clock.

The members gave Mrs. Jordan a hearty welcome and enthusiastically entered into singing songs and playing games.

In the business session, Wynema Pool was elected reporter and Christene Houston was elected chairman of the finance committee. These officers replaced those who have moved away.

New members present were Mozelle Barton, Mary Evelyn Young, Billie McFarland, and Melbo Jean Wilson. Old members present were: Lovena Watson, Wynema Pool, Mary Lois Moore, Joan Watts, Captola Todd, Shirley Moore, Mary Sue Franklin, Sarah Nelms, Ima Jo

Ledbetter, Helen Lankford, Carlene Eakers, and Christene Houston.

Government Loan EQUITIES

I am in the market for the better grade and staple 1942-'43 Government Loan Equities.

BILL ANDERSON

"I'm buying War Bonds today for an all-electric kitchen tomorrow!"

"It isn't often that I can spend my money twice... but War Bonds let me do exactly that!
"They're wonderful, anyway. Every time I buy one, I feel inside the way I do when a band plays the Star Spangled Banner! I sort of feel I'm doing something for my country and the boys in the service.
"Then when I get down to earth again, I realize that I'm doing something for MYSELF as well! I'm really saving money when I spend it for War Bonds. I get to dreaming about what I'll do when this war is over, and about the things I want to buy. Things like the rest of the equipment for that electric kitchen I have my heart set on, but can't get for the duration.
"That's why, when I buy War Bonds 'til it hurts, it doesn't really hurt at all!"

 Sports Editor—Winston Redwine
 LaVoyle Richardson
 Band—Maxine Oliver
 Home Economics—Joy Moore
 Faye Shadden
 Aggie Reporter—Mary Ruth Edwards
 Grade School News—Eva Woods
 Reporters—Verna Rowland,
 Lola Parker, Winnell Meeks

The calendar of school events for the week of March 8 is as follows: March 9—Senior play, "Saved By The Belle," presented in the high school auditorium.

We wonder why certain Junior girls are always getting in trouble! Could it be that they are just naturally mischievous?

Did you notice: Miss Leavitt typing in the typing room? Verna Rowland and Hink studying chemistry in Journalism class? Gene Earl Knight with that worried look on his face? Macky Fenton with that puzzled look? and (last and least) Coach running around as if it were Spring last Tuesday morning.

The Growl received a letter last week from Mrs. Charles Stewart, a former teacher in Tahoka who is now residing in Ballinger.

Sub-Debs are found busy these days as they prepare for the Victory concert soon.

Attention, Typing Students! If you are wondering about how you are doing in typing on fifteen-minute speed tests just look on the bulletin board in the typing room, or see your graph sheet!

Personality

The personality this week is one of the many "little fishes" in the old alma mater. Her claim to fame is the title "The Best Dressed Girl in Tahoka High School," but Gwynnelle Davis' claim to recognition is her sweetness. Always in good humor Gwynnelle can rightly be called the Freshman class' "happiest-go-lucky" gal. She never knows what name to answer to, because her nicknames include such varied things as Squirrel Food, Gwyn, Tommy, and Ignatd. Gwynnelle holds the office of parliamentarian in the Sub Deb Club and belongs to the High School Girls' Chorus. Gwynnelle is never seen unless she is "spick and span." Her classes are the average for "fish": Home Ec., English, Algebra, and Jr. Business. Algebra is her favorite. Whatever she does, Gwynnelle will be popular and successful. She's proved that to Tahoka high school. The Growl salutes "Captain Ignatz"—Gwynnelle Davis.

DO YOUR PART! GET IN THE SCRAPS!

Redwine Presented In Piano Recital

Last Friday night, Mrs. J. K. Applewhite presented Winston Redwine in a piano recital at her home. Winston will receive a credit for his work this year after he passes a theory examination at the end of the year.

Guests attending were Mesdames Meldon Leslie, Ed Edwards, M. H. Nichols, Clarence Gausson, Rush Dudgeon, F. E. Redwine, Miss Virginia Hamilton, and Dorothy Lee Carmack. Gene Earl Knight also attended. Misses Mary Beth and Peggy Fenton presided at the punch bowl.

This and That . . .

MY AMBITION:
 Joan Boydston: To sing with an orchestra.

Othello Meeks: To be a girls basketball coach.

Billy Knight: To put on a fight with Charles Reed.

Clyde Briley: To live at Grassland and run a gin.

Ve Nelle Walker: To go to Cooper play ball, and then go to Lubbock.

Faye Shadden: To have a good time always in home room.

Earl Shultz: To find a housekeeper who can sing.

Sonny Roberts: To die with a real football in my hand.

Hinks Hines: When I die, to die with my boots on.

Geraldine Connolly: To have a date with Hinks.

Eual Akim: To get out of high school and work for "uncle".

DON'T YOU THINK THAT:

J. W. Inklebarger is cute and bashful too?

Bill Barham and M. A. make a cute couple?

Soon some senior will be carrying sheepskins? x

The lights brightened for Bobbie Jean Minor with the highest grade in her English class this six weeks. Congratulations, Minor!

Jimmie Lou Thomas, when six years of age was busy with pencil and paper when her mother happened to come into the room.

"What are you drawing, Jimmy?" inquired her mother.

"I'm drawing a picture of Heaven" responded Jimmie. "But, dear, no one has ever known what Heaven looks like!"

"They will now," asserted Jimmie Lou.

Teacher of Week—

This teacher of the week does not actually teach accredited subjects in the high school, yet every student comes in contact with her throughout the school day. She is the music teacher, Mrs. M. H. Edwards, and she has taught music in Tahoka high school for — years. Daily she teaches pupils from both grade school and high school. She has a state certificate and has several pupils receiving credit at the end of the year. Melodies from her room are heard throughout the building. At noon, a group of girls can always be found in her room singing or listening to her play "12th Street Rag" and many other favorites. Mrs. Edwards has written a composition, "Blue Bonnet Time," which was published. She deserves more credit than is given her for turning out good pianists. The Growl salutes the Teacher of the Week, Mrs. M. H. Edwards.

Seniors' Annual Play Is Tuesday

With Jean Slover heading a large cast, the Senior class will present the brand new farce hit, "Saved by the Belle," a stage play in three acts by Thomas Sutton on Tuesday at 8:00 o'clock.

The prominent supporting roles are:

Joan Owens—Mitze Walsh, a sentimental girl of nineteen who wishes the boys would take more notice of her than they do.

Peggy Fenton—Lulu Green, a girl of twenty who has a dry "deadpan" sort of humor, and is the type that knows all answers.

Beth Shepherd—Harriet Shaw, a prim and studious girl of twenty, who is extremely intelligent, precise, and appears more mature than the other girls.

Ruth Evans—Fudge Roberts, a good-natured, easy going person whose primary interest in life is getting enough to eat.

Ruby Greer—Mrs. Fish, an old-fashioned woman forty years of age who has an ingenuous and trusting nature. She plays the part of the House Mother.

La Voyle Richardson—Doris Carson, a well-dressed girl of twenty, has a lot of personality, is clever, and uses her friends only for her own purposes.

Mary Ruth Edwards—Bonnie Harris, a blond with a nice build and pleasing personality. She has a sweet disposition and is very loyal to her friends.

Joann Edwards—Gennie Ellis, a very athletic-looking girl with an outdoor look, and simply exudes vim, vigor, and vitality.

Jean Slover—Rita Powers, an attractive girl of twenty. She is intelligent and has a straightforward manner and a good personality.

Clyde Briley—Warren Sands, a young man of twenty-two, has an easy-going manner and is obviously a person of god background and breeding.

E. L. Short—Sluggo O'Day, a very strong-looking man. He is the happy-go-lucky type, speaks from the corner of his mouth in a marked "New Yorkese" accent.

Sonny Roberts—Jacky Clark, a nice looking boy playing the part of a prize-fighter. He is extremely shy, but has a good deal of natural intelligence and a strong desire to better himself.

It is believed that "Saved by the Belle" will surely be remembered as the Seniors' most distinguished offering, and they urge everyone to see the presentation. The play is under the direction of Miss Ineva Headrick, the Senior sponsor.

HACKBERRY REPORTS RED CROSS WORK

Mrs. Heywood Basinger reports the following work recently completed by the Hackberry unit of the Red Cross: 107 blouses, 39 outing pajamas, 8 sleeveless Army sweaters, 2 mufflers, and 6 helmets; also, 3 Red Cross sweaters.

The unit has made 900 surgical dressings and kit bags have been filled by the following: Messrs. R. R. Jones, L. D. Humphries, Ray Spence, J. H. Haire, J. V. Young, Clyde Haire, W. A. Hamilton, M. S. West, G. W. Basinger, and Bill Rainey (colored). Jimmie Ray (colored) gave 50 cents; Mmes. Buford Jones, Sam Martin, R. R. Jones, T. H. Basinger, Zella Wilkens, Pauline Seiwert, R. L. Hagler, John Flemings, Ed Denton, Jonnie Hall, Earl Lancaster, Malcolm Limmer, Hubert Taylor, W. A. Hamilton, Nora Billingsley, John C. Leake, C. A. Haire, Claud Cooper, and Mr. and Mrs. Herman Dabbs. Mrs. Peyton Crawford gave 50 cents.

Meetings are held all day on Thursdays. Surgical dressing were also made in the afternoon on Monday.

THOMPSON FINDS ORANGES GROWING IN STREETS

The News has a card from W. M. (Bill) Thompson Thursday dated March 2, in which he says:

"We are here at Carrizo Springs; got here this eve, with no trouble. Plenty of oranges and grape fruit on the trees on the street and in the yard, so we will take in the Mexican bull fight and all other sights to be seen."

With Mr. Thompson and wife are Mr. and Mrs. Wiley Curry. The card was mailed at Brownsville.

Mrs. P. A. Nowlin underwent a major operation in the Plains Hospital Saturday. She is reported improving nicely.

FSA Will Import Farm Laborers

Farmers in Lynn county who will need to employ year-round farm laborers should make application to Wyman J. Welch, rural rehabilitation supervisor for the Farm Security Administration, according to word received here this week from the Regional FSA office at Amarillo.

The Farm Security Administration it was announced, is prepared to transport volunteer farm workers into this county to fill orders placed by the farmers with the local supervisor.

Farmers desiring to employ year-round workers, it was explained, will sign a request, stating the wages and housing facilities offered and the kind of workers needed to help produce the 1943 war crops. Wages will be based upon those prevailing within the county.

The FSA plans to transport hundreds of workers into West Texas this spring from the poorer farming areas in other states, and make them available to farmers who need their labor.

Lynn county farmers were urged by a spokesman for the FSA to place their orders for workers as quickly as possible. Orders will be filled in the order in which they are received. The FSA can give no assurance that late orders will be filled immediately.

Whether the workers will be experienced will depend very largely upon the wishes of the farmer-employers. The FSA is prepared to train a limited number of inexperienced farm hands at one of several farm apprentice training centers being established in West Texas, in cooperation with the Texas Vocational Agricultural Department's war production training program.

The first group of laborers completed a short course last Saturday at Lamesa, and have been employed. A second group began training on Monday.

The FSA representative said many farmers prefer to train their own workers. He said every effort will be made to supply farmers with the kind of help they prefer. Most of the workers, he said, will be general farm hands, with considerable experience on small, diversified farm units.

Individuals and family groups who have volunteered for employment as farm workers are motivated by patriotism, it was said. Farmers will find them anxious to do their part in helping produce food for this nation and her allies. He said these workers obviously expect weather-proof housing with adequate furnishings for keeping house. Because it is necessary to transport them to this country by train or bus, it will be impossible for these people to bring more than their clothing and bedding.

The FSA spokesman urged farmers who expect to hire year-round farm labor to make any needed improvements in the housing facilities immediately. "Experience has shown us," he said, "that farm workers will not remain on places where they have no facilities for preparing meals, doing laundry, and for plenty of good drinking water. We might as well face that fact now and avoid disappointment later."

Mr. Welch states that 250 farm families will be transported to the South Plains to do year around farm work. Ten of these families will come in Lynn county. The heads of families are expected to arrive about March 10 at Tahoka and go through a week or two training period in tractor driving under the direction of Mr. Tom Seay, vocational agricultural teacher of Tahoka. After the training period these families will be available for jobs.

Wyman J. Welch of the FSA office, said he will be glad to explain complete details of the Department war-emergency farm labor supply program to all farmers in the county who will need to employ help. He, too, urged farmers to make arrangements as quickly as possible. Mr. Welch will be in the FSA office in the courthouse, on Mondays and Saturdays.

REVIVAL AT ASSEMBLY OF GOD CHURCH

The revival in progress at the Assembly of God Church, conducted by Evangelist and Mrs. Donald Walker, has been well attended despite the cold weather. Some have confessed Christ and a great interest is being shown. Rev. Walker is a fiery speaker and has the message of the hour.

The public is invited at all services.

PETTY BOYS CLUB

The boys 4-H club of Petty school met in its second meeting Monday, Feb. 22. Mr. Smith, the county agent, discussed the demonstration that the boys are to have this year and gave out cards for them to sign. He gave information on parasites of stock and how to care for poultry. He also instructed the boys on keeping their Victory demonstration records.

Those present were: Glen Dale Lowe, M. J. Whitehead, Jimmy Cromer, Billy Pendergrass, Dennis Crews, Bill Watkins, H. M. Jones, Leland White, and two new members, Jimmie Lowe and Ramon Bosquez.

Mrs. N. W. Smith of Midway underwent a serious major operation Saturday morning in West Texas Hospital. She seemed to be doing well Wednesday.

In Australia Outsell's All Other COUGH MEDICINES

Ask Yourself Why?
 Buckley's CANADIOL Mixture now on sale and made here in America acts like a flash on coughs due to colds or bronchial irritations. Buckley's is by far the largest selling cough medicine in all wintry Canada, in Australia, New Zealand, Newfoundland, etc. It's the same story. Take a couple of doses—feel its quick powerful effective action spread thru throat, head and bronchial tubes—starts at once to loosen up thick choking phlegm, soothes raw membranes, makes breathing easier. Get Buckley's CANADIOL Mixture today.

THE FIGHT RAGES ON ALL FRONTS

YOUR DUTY IS ON THE BOND FRONT!

The sons, husbands, brothers, sweethearts—of every American are gallantly riding the shadows death casts—because there is no sacrifice too great, no danger too hazardous to face in the fight for freedom! Other sons, husbands, brothers and sweethearts are sweating in war factories; speeding up to the nerve-breaking point in the battle of production; and making many sacrifices as their share of wartime responsibility. How about you? This is your fight too. Are you doing just enough . . . or are you doing the vitally needed "most" you can! Buy a few War Bonds is mighty little, when you stop to think of your own loved boy laying down his life "out there"!

KEEP BUYING WAR BONDS AND STAMPS!

Lieut. Wade Howell Completes Work At Yale University

New Haven, Conn., Feb. 22.—Aviation Cadet Samuel Wade Howell, son of Mr. and Mrs. H. B. Howell, Tahoka, received his second lieutenant's bars today when he graduated from the Technical School, Army Air Forces Technical Training Command at Yale University.

Lieut. Howell is a graduate of the Tahoka high school. He graduated from Texas Tech in August, 1942, with the B. S. degree in textile engineering, and for a short time was employed by the J. L. Hair Construction Co., prior to entering the Army.

He entered the Army last Sept. 16, and was stationed at Chanute Field, Illinois, until Jan. 9, 1943, when he was transferred to Yale University for officer training.

Cadets who received their commissions today were graduates of the course in Aircraft Maintenance Engineering. This course produces skilled officers capable of repairing, maintaining and inspecting planes used for combat duty in war zones.

Diplomas were presented by Col. Chas. T. Arnett during a ceremony in the auditorium of the Sterling Law buildings at Yale. When the last diploma had been given out, all graduates were given the oath of appointment as officers in the Army of the United States.

PRESBYTERIAN CHURCH

First Sunday Services will be held at the Presbyterian Church on March 7th. Dr. Gray's topic for the morning sermon at 11 o'clock will be: "The President's Washington Birthday Scripture." The theme of the evening sermon: "Studies from the Resurrection of Lazarus." The public is invited to hear these messages and to worship with us. A cordial welcome to all.

Baptist Training Union Study Course

With Miss Clara May in charge, the Wilson Baptists enjoyed a fine training union study course on Monday, Tuesday and Wednesday nights of this week. She also taught the Juniors and was assisted in the other departments by Rev. McGaw of Southland, who taught the adults, and Mrs. I. J. Duff, also of Southland, who had the young people under charge, and Mrs. W. H. May, who taught the beginners.

Mrs. Leftwich, local home economics teacher, entertained the boys homemaker class with a party at her home last Tuesday night. A scavenger hunt furnished part of the evening's entertainment, after which refreshments of sandwiches and cake were served.

Mr. and Mrs. C. A. Gryder and son Delbert left Saturday en route to Dublin, where they will reside on a farm.

John Rose of Rio Vista, Mr. Graham and son of Cleburne are visiting Mr. and Mrs. Jasper Campbell.

The eldest son of Mack Alderson, son of Mr. and Mrs. E. F. Alderson, is in a California hospital with diphtheria. Although he has been very ill, he seems to be improving, according to Mrs. Alderson.

Grandpa Key is in a Slaton hospital suffering with a broken leg and cuts and bruises as a result of a car accident Saturday morning. The car, driven by J. C. Key, hit a parked truck on the road leading from Wilson to the Tahoka highway. J. C. Key was just shaken up a bit and Mrs. J. C. Key, another occupant of the car, received a broken thumb and cuts and bruises, but was not hospitalized.

Mr. and Mrs. Jack Blevins of Lubbock spent Sunday in the home of Mr. and Mrs. Pat Swann. Mrs. Blevins remained for a week's visit with her parents.

Frank Fletcher of Borger visited his family from Thursday night until Sunday. He had to come to see if his daughter was growing beyond recognition.

Mr. and Mrs. W. Peterson and Reba arrived in Wilson Tuesday to make their home. David was already here.

Wilbur Lemon and family of near Union visited Mr. and Mrs. W. I. Lemon Sunday afternoon.

The Brotherhood meets Monday night with a program and supper for their wives. Rev. I. J. Duff of Southland will bring the message. Everyone is invited.

Mrs. J. G. Biggs is recuperating after having her tonsils removed at Slaton Saturday.

Mrs. Albert Wuensche is not doing so well after her tonsillectomy.

The Lutheran Ladies Aid met Feb. 23 in the basement of the church, with 19 members and one visitor present. Dr. Spitzer of Slaton was guest speaker. His talk on Health was very interesting. One reading was given. Refreshments were served.

Congratulations to:

To Mr. and Mrs. Jack Alexander upon the birth of a daughter weighing 8 pounds in the Tahoka Clinic at 11:40 p. m., Feb. 22. The baby was named Jackie Lou. The father is in the service and is now somewhere in the South Pacific. He is another of the boys that used to help in the News office on Thursday nights.

To Mr. and Mrs. D. E. Baxter of Rt. 4 on the birth of a daughter in the Tahoka Clinic on Feb. 27. She bears the name of Martha Carol.

To Mr. and Mrs. J. B. Reece Jr. out on Route 1 east of Tahoka on the first day of this month in the Tahoka Clinic. Ida Melissa is the little lady's name.

Robert Maddox In Officer Training

San Marcos, Texas, March 5.—Robert W. Maddox, 23, son of Mr. and Mrs. B. P. Maddox, Tahoka, is among the 21 Texans in the Aviation Cadet and Student Officers class who have begun their final course of training as aerial navigators at the Army Air Forces Navigation School at San Marcos.

Cadets who successfully complete their training here will receive commissions and the silver wings of the Army Air Forces. From AAFNS the graduate will join the pilot and bombardier teams that man America's bombers.

Their training at San Marcos will follow a rigid schedule of academic work, flight training under expert navigation instructors, and daily physical training.

Maddox is a graduate of Tahoka high school and a former student of the University of Texas and of Texas Technological College. He served five months in the National Guard.

Mr. and Mrs. English Home From Florida

Mr. and Mrs. D. B. English returned Saturday from St. Petersburg, Florida, where they had spent several weeks resting and recuperating. Both came back feeling better. St. Petersburg must be a lazy man's paradise, according to Mr. English. Extending for miles and miles along the sidewalks of the main street of the city are seats placed back to back, each built to accommodate two persons. So, when a sightseer gets tired walking the streets he can drop down into a seat and just sit and watch the crowds go by. From now on we shall look forward to the time when we can go to St. Petersburg.

From now on we shall look forward to the time when we can go to St. Petersburg.

CORRECTION

Last week The News erroneously stated that the purse which Mrs. Walter Phillips lost contained, in addition to money, "other papers." It did not contain any papers by which the owner could be identified.

But the person who found the purse or any person knowing who found it should report the matter at once either to Mr. or Mrs. Phillips or to this office. Failure to report the finding of lost property and the appropriation of it to the finder's own use constitutes theft, and in this case it would be a penitentiary offense.

Marvin Smith, who entered the Navy since Christmas, is now a seaman second class, stationed at Davisville, Rhode Island, according to his mother, Mrs. Frank Smith.

Nita Fay Fortenberry, daughter of Mr. and Mrs. J. E. Fortenberry, who live on Route 1 out of Wilson, underwent tonsillectomy at the Tahoka Clinic a few days ago.

WILSON G. M. A. A. TO MEET

The G. M. A. A. will meet on Wednesday night, March 24, at 8:30 p. m. at the Wilson High Schol building to transact its regular business and to elect delegates to the district meeting.

Arthur Gickhorn, Pres.
Geo. A. Nolte, Sec'y.

What You Buy With WAR BONDS

While we have not heard so much about them, our air-borne command is inferior to none. We have thousands of these especially trained troops and the glider is a necessary factor in their successful operation.

We build gliders in three types and their capacity is a military secret. The type shown here costs about \$19,000 each. Buy War Bonds with at least ten percent of your income every payday and help pay for these gliders for our intrepid fighting men. U. S. Treasury Department

OPERATE GARAGE

J. F. Tippit has leased the repair shop in the Allis Chalmers agency building from Douglas Finley, and is now doing tractor and automobile repairing.

Associated with Mr. Tippit is Marshall Akin, who has had much experience in tractor repair work.

McGLAUN FILES

The name of Frank McGlaun has been filed for City Marshal, according to City Secretary Rosemary Nelms. McGlaun is night watchman.

Lynn county will not let her boys down. You fight 'em, boys; we'll feed you and the people we set free. We will do this by meeting Secretary Wickard's call for increased food production for 1943. More fibre, more food this year and years to come. We are ready for this job. We will do this by taking care of our soil and making every acre count.

Don't let your contribution to the war effort be sabotaged by wind and water erosion—follow sound conservation farming.

H. A. Maasen Ends Primary Training For Navy Commission

Dallas, Mar. 4.—Henry A. Maasen, Tahoka, is among 59 aviation cadets who have completed their primary flight training at the Grand Prairie Naval Air Station near Dallas and been ordered to Corpus Christi.

After three months of advanced flight training at Corpus Christi, they will pin on their wings as Naval aviators and be commissioned as ensigns in the Naval Reserve, or second lieutenants in the Marine Corps Reserve.

Maasen is the son of Mr. and Mrs. H. A. Maasen of Tahoka. He graduated from the Tahoka high school in 1940. He attended Texas Tech for two years, where he studied arts. He made letters in football and track while in high school.

The cadet completed his rigorous pre-flight course at the Athens, Ga., Pre-Flight School before he came to Grand Prairie.

Mrs. Sam Sanders of Houston recently phoned her mother, Mrs. Pearl Brown, that her husband had been transferred from Houston to New Jersey. Mr. Sanders is an electric welder for Brown and Root construction company, now engaged in defense work.

J. B. Nance is able to be on the streets again this week after having been confined to his room with illness most of the time for the preceding two weeks.

Mr. and Mrs. Scott Poe have a son in the Army, Pvt. Jesse L. Poe, who is stationed at Fort Ord, California. He enlisted from Lubbock county, being associated with his father in the laundry business there before his enlistment. Mr. Poe has since moved to Tahoka.

Central Baptists Announce Meeting

Revival to begin on March 19 and continued till March 28 at the Central Baptist Church eleven miles east of Tahoka have been announced by the pastor, Rev. Frank Thomas.

Rev. L. A. Doyle, pastor of First Baptist Church of Floydada, will do the preaching and Rev. N.H. Nichols, pastor of the First Baptist Church of Skelleytown, will lead the singing.

"At present we are re-roofing our church and have plans to re-model the interior so as to have more Sunday School room," Pastor Thomas says.

Mrs. Frank Thomas, wife of the pastor of Central Baptist Church, received a communication last week from Trinidad, Colorado, that her step-brother, Claude McAuley, fireman first class, U. S. Navy, was missing in action. He was not known in Lynn county.

WILSON COUPE MARRIED

Marriage rites were read last Saturday night for Miss Mildred Holder and Doyle J. Hutcheson, both of Wilson, Peace Justice P. D. Server officiating. The couple were accompanied by a number of their friends.

The bride is the daughter of Mr. and Mrs. E. P. Holder, while the groom's mother is a widow residing at Wilson, "Abie" Perdue being his grandfather. He was expecting to be inducted into the Army this week.

REV. A. C. HARDIN

New Baptist Pastor Moves To Tahoka

Rev. A. C. Hardin began his work here Sunday as pastor of the Baptist Church, filling the pulpit at both the morning and the evening hours. He was accompanied to Tahoka by his wife and two of his children.

He and family did not move over from Post last week on account of the fact that the parsonage here was being repaired and the work had not been finished. He has been moving this week.

We append a clipping from the Post Dispatch of two weeks ago as a means of introducing him to the people of Tahoka and Lynn county, although he is already quite well known here.

"The resignation of Rev. A. C. Hardin as pastor of the First Baptist Church was accepted several days ago. The pastor will assume duties as pastor of the Baptist Church in Tahoka on March 1. He has served as pastor here for six years and has made many friends not only among the Baptist membership but among the townspeople. His hearty cooperation in all worthwhile projects has been felt. He has been identified with many phases of the town's development and his loss will be keenly felt among all classes.

"A farewell reception is being planned by the members of the church for him and his family. The congregations of the Baptist Church are invited to attend the affair which will be held in the Sunday school rooms of the church on Friday night."

BAPTIST W. M. U.
Taking up their new Bible study manual Monday afternoon, 15 members of the Sallee and Walker circles met in the home of Mrs. L. M. Nordyke, to begin "The Missionary Trail Through the Bible."

During a business session, with Mrs. E. I. Hill presiding, the Sallee Circle accepted the resignation of Mrs. A. J. Edwards as Bible Study Leader. Later the two circles voted to have the Bible study meetings together once each month and elected Mrs. Alex Riddle Bible study leader and Mrs. Belton Howell Bible study secretary.

This group is now in its fourth year of Bible study and is studying the Bible as the world's greatest book on Missions.

The April meeting will be held on April 5th in the home of Mrs. Chester Connolly.

The Lunsford Circle met in the home of Mrs. Deen Nowlin to continue their second year study of the Bible.

METHODIST CHURCH
The local Methodist Church has joined the country-wide observance of a Week of Dedication, which began last Sunday, Feb. 28, in which eight million Methodist members will be asked to pledge a "new dedication of self, service and substance" in meeting the challenge of a war-torn world.

The culmination of this week's special services, home prayer meetings and discussion groups and of two months of preparation will come on Sunday, March 7, when personal commitments will be made and a voluntary, sacrificial offering will be left at the Communion Table to aid in meeting war-time emergency needs of the church.

From this offering, the following will be benefited: Spiritual services for men in the armed services; religious work among families in industrial defense areas; relief for war refugees; aid to chaplains in the Army, Navy and Marine Corps; building churches in defense areas; and aid to Methodist schools.

To challenge present-day threats of barbarism, paganism, and materialism, we must have a new spiritual power of Christian faith and idealism. It is our hope that this will be sought by Methodists during this week of dedication.

Every member of our church can join in this vast effort—strong laymen, humble people, shut-ins, youth, little children, aged folks—all those who wish to help build a better world.

We shall expect you to be present next Sunday, member and friend, for the special Dedication Service at the morning hour.

WEEK OF PRAYER
Tahoka Baptist W. M. U. members are inviting all Baptist women of the community to bring a dish and meet in the home of Mrs. Garland Pennington next Monday morning, March 8.

Mrs. K. R. Durham will have charge of the Mission book, and expects to begin at 10 o'clock. Please be prompt if you wish to be counted in the study.

A covered dish luncheon will be enjoyed at the noon hour.

On Thursday and Friday afternoons from 2 to 5 o'clock the March Week of Prayer programs will be held, the places to be announced later.

Mr. and Mrs. W. M. Thompson and Mr. and Mrs. Wiley Curry left Sunday morning for Del Rio for a few days outing after which they expected to proceed down the Rio Grande to Brownsville to visit Mr. and Mrs. Curry's son, Pfc. Albert Curry, who is in Fort Brown there.

Southland News

(By Mrs. Marvin Truelock)

Since the working on the Service Flag last Monday, thirteen more stars have been added. When it is cleaned and ready to be placed in a Lubbock store window, KFYO has agreed to make the announcement, but we do not know what day this will be.

Mr. and Mrs. Roy Dopson of Ropesville spent Sunday here with her parents, Rev. and Mrs. O. J. Harmonson.

Juan Reyes, Santa Fe section foreman, is in bed for two weeks under doctor's orders, because of a near attack of pneumonia. Saturday night a son was born to the Juan Reyes couple, but we didn't learn its name nor weight.

Mrs. J. F. Collings of Slaton was the week-end guest of the Clay Johnsons. Corp. Collings is now in Louisiana.

Rev. and Mrs. E. C. Armstrong spent the week-end with their son, Vernon E., who was stationed at Lubbock until recently.

Wayne Whited, who was stationed in Florida, now has a New York address.

Billy Basinger was recently transferred from Nevada to Florida.

O. T. Barkley and wife and Mrs. Walter Kellum and husband left on Wednesday for Roscoe, where their brother is in the hospital, returning Friday. His side is much better now.

The Methodist Church is having a revival this week, beginning Sunday night.

Rev. O. E. McGaw and I. J. Duff are visiting teachers in a three-nights study course at Wilson.

CARD OF THANKS
We want to thank our friends for their thoughtful kindness to us during the illness and death of our loved one, and for the beautiful floral offerings. May God richly bless and reward each of you.—Mrs. D. G. Cook, Mr. and Mrs. Gus Porterfield and children, Mr. and Mrs. Lewis Kenley and Bobbie, His Brothers and Sisters.

Bill Thompson says that a little classified ad, which he ran in the News sold five cows and a horse for him in short order. If you don't want to sell it don't put it in The News.

Gifts Are Made To Fire Boys

The fire boys wish to express their sincere appreciation to the individuals and firms who saw fit to the First National Bank and sideration for their services in the fire down town last week.

No place can boast of a more loyal group of volunteer workers, and you'll usually find them on the job when necessary. Yet, we again remind you that we make no charges on our services and are only too glad to help you out when in trouble. However, the money can be used to an advantage by most of the boys.

To the First National Bank and Mr. Slaton for \$100, to C. N. Woods for \$25, and to C. A. Thomas for \$25, the boys again say "thank you". Jim Clinton, Fire Chief.

Mrs. Horace Rogers, who has been employed in Lubbock since her husband was inducted into the Army, left Monday to join him at Bryan, where he is taking training.

W. H. FARR, who has been employed for about thirteen months, by the Consolidated Aircraft Corporation at San Diego, California, was called home by the death of his father, Hosea Farr, arriving Sunday, and he stated to a representative of The News Monday that he does not intend to return to San Diego.

Soil Conservation Practices Outlined

The following are simple conservation practices adopted by the USDA War Board:

1. Contour Farming—AAA Practice Nos. 13 and 14.
2. Home Garden—AAA Practice No. 40.
3. Leaving on the land as a protection against wind erosion, the stalks or stubbles of sorghums—AAA Practice No. 17.
4. Strip cropping in accordance with AAA Practice Nos. 10 and 11.
5. Strip cropping peanuts: (a) For heavy and mixed land, 8 rows of peanuts and 8 rows or more of grain sorghums (combine type). (b) For sandy land, 4 rows of peanuts and 8 rows or more of grain sorghums (combine type).
6. Delayed tillage on sandy land.

If the farm has a good cover of grass or weeds: Listing should not be done on this type of land until Spring.

7. Plant shallow land and land on steep slopes to combine milo.

Feed Is Ammunition

Mrs. HEN

WE NEED MORE EGGS . . .

Hundreds of dozen of them are needed daily—as well as broilers, fryers, etc.—to nourish and vitalize millions of fighting men and civilians who need all their strength and well-being for the nation's war effort. If it's more and better feed you need, why not try Burleson's Our Own Brand Feeds, home grown and home mixed especially for South Plains feeders.

Mrs. PIG

WE NEED MORE PORKERS . . .

It's up to you to mother husky, tender porkers who'll keep our forces overseas and our war workers at home well fed—for the stamina they need to fight this war through to Victory! You can only do your best if you're fed the right grade and quality of feed. Burleson has the proper feed to put on hog-flesh in a hurry so the soldiers and home folks may have more ham, bacon!

Mrs. COW

WE NEED MORE MILK . . .

More cream, butter, cheese, beef! They're the vitality building foods most essential to our armed forces, to our war workers, to our growing children. Your owner-farmer can keep you producing more everything, including little calves, if he feeds and cares for you properly. Burleson has a special mixed feed for every livestock feeding purpose. He can help you raise FOOD FOR FREEDOM!
