Rural Route No. 5 Approved As Full Six-Day Route

The News had a communication this week from Congressman George Mahon advising that the Post Office Department at Washington has agreed to institute six-day service on rural mail route No. 5 out of Tahoka beginning July 16, and this information has been confirmed by Postmaster W. E. (Happy) Smith.

Mr. Smith took this matter up with the Department and with Mr. Mahon several weeks ago, and Mr. Mahon has been working with the Department in behalf of the change since. The patrons of the Tahoka post office are indebted to Mr. Smith and Mr. Mahon for their fine work in behalf of this improvement in the service.

A. C. Weaver is the carrier on route 5, and he will have a six-day job after July 15.

Route 5 extends out through the West Point community and through a wide farming and ranching territory in the western part of Lynn county.

Egg Rejects Are On The Increase

Egg rejects in the past month have increased from two per cent to seven per cent, according to J. C. Smith, county agricultural agent. It is estimated that rejects cost Texas producers between seven and eight thousand dollars per day, or several thousand to Lynn county poultrymen each month.

Rejects have increased since many producers haven't taken the roosters out of the flock and as a result they are selling fertile eggs. Fertile eggs spoil in about three days in the summer months. By penning, canning or selling your roosters you can eliminate two-thirds of the rejects.

Heat damage is another factor contributing to the seven per cent rejects. The internal temperature of a fresh laid egg is 106 degrees. Eggs should be gathered often to allow them to cool. The county agent suggests that you gather your eggs three times a day if possible. It is also suggested that some method of refrigeration for the eggs be improvised for the summer months. An inexpensive iceless refrigerator reduces egg temperature and checks evaporation. For information on plans for constructing one of these iceless refrigerators, it is suggested that you see one of your County Extension Agents.

Sgt. Bill Banks Has Active Part In Air War Over Germany

Sgt. W. H. (Bill) Banks, who was reared here, is a rear gunner on an American bomber operating from England, according to his sister, Mrs. Douglas Greer of Edith, and doubtless is doing his part in the Allied raids over Europe.

Sgt. Banks, who is stationed near London, writes that he has seen the names of several Tahoka boys on the Red Cross register in London but it so happened that he knew none of them back in Tahoka.

In reply to a letter in which Mrs. Greer told him of raising a Victory garden, Bill wrote her that he had no room at his base to grow a Victory garden but was planting a few seeds over Berlin. He writes little of his experiences in the air, however.

Sgt. Banks has been in England since last November. He is the son of W. L. Banks, who is in the Coast Guard stationed at Pompano, Fla. Sylvia Ruth and Edwin, younger brother and sister, live with Mrs. Greer.

STEVENS MOVE BACK

Mr. and Mrs. Curtis Stevens returned last Friday from Santa Ana, Calif., where they had gone to reside. Curtis was given employment right off the reel but he was unable to find a house in which to live within thirty miles of his job, so he and his family threw their belongings into the car and hiked back to Tahoka. He will work at his old job here.

Currys Plan New Gin For Tahoka, But Protest Entered On Proposed Location

Three Tahoka Men Are Flying Again

Three Tahoka flyers, B. T. Smith, John Beard, and Calvin Edwards, have recently bought a Taylor Cub airplane and have it at the Brownfield airport.

These men were members of the recent Tahoka Flying Club whose plane was taken by the Government for Army pilot training.

Service Men On Rotary Program

Three men in the armed forces of the United States were speakers at the Rotary luncheon Thursday. They were Chief Petty Officer W. V. McElroy of the Navy "Seabees," who has been on duty out in the Aleutians; First Lt. Lee E. King, of the Army Air Forces, who expects to go to some combat area in a few weeks; and Lt. J. O. Reed of the U. S. Marines, who is en route to a combat zone.

After making some facetious remarks about the Esquimaux that are found on some of those islands, McElroy described some of the hardships that the "Seabees" must undergo in the performance of their duties.

The chief work of the "Seabees" consists in building air and ship bases for our forces where needed. In building these bases in the Aleutians, he says they were confronted by many difficulties, including the Bering sea, said to be the roughest and most hazardous in the world, the high winds that blew nearly all the time, the cold, snow, and fog, and the tundras and barren mountains. He told of the hazardous trip with supplies, unloading the material from barges, transporting all materials by hand up the steep mountainsides or other almost impossible terrain to the construction sites.

He has been operating this side (Continued on last page)

Guard Officers Will Attend State School

Capt. Bill Sewell, of the Slaton company of the Texas State Guard, was present at Monday night's meeting of the Tahoka unit, and conducted the drill period in riot formations.

A talk was made explaining methods of mob control, following which formations were practiced.

Capt. E. R. Edwards, who had been away for two weeks, was present at the Monday night drill.

Two commissioned officers and two sergeants from the company will attend the annual Texas State Guard school of instruction at Camp near Austin one week in July at which representatives from about 200 companies will be present.

W. L. Rudd Tells Of Trip To Arkansas

W. L. Rudd is telling some almost unbelievable tales since he and B. L. Rowe returned a few days ago from a visit to Rowe's old home state of Arkansas.

Rudd claims it is remarkable how little an Arkansawyer knows about or cares about some of the things that lie right under his nose. For instance, he says, they arrived at Arkadelphia at about midnight, and though Rowe was reared there they had to hire a man to show them the way to his dad's farm 12 miles away. At a point within three miles of the farm, Rowe pulled off his shoes and walked the remaining three miles home over a foot trail. The next morning, Rudd claims that Rowe learned for the first-time that there was a public road right up to his dad's house.

Seriously, Rudd says that is a very beautiful country with some very desirable advantages that he would like to see in West Texas.

REDECORATE STORE

Painters are this week redecorating the interior of the Wynne Collier drug store, adding much to the appearance of the establishment.

A new gin is to be constructed in Tahoka by the Curry Gin company, to be composed of Wiley and Pete Curry and other individuals not named. Pete Curry is in Sherman this week purchasing the machinery.

Wiley Curry, one of the prospective owners, stated to a representative of The News-Thursday that no final decision had yet been reached as to the site, but City Secretary Rosemary Neils stated that a permit had been issued for the construction of the plant on the west half of Block 14 in North Tahoka, comprising the six lots heretofore owned by R. W. Fepton Jr. and Jack Fepton, on which a cotton warehouse was recently destroyed by fire.

The Fentons also own three lots immediately across the unused street just north of this property, and it was Miss Neils' understanding that the city council would be asked to kill this street.

The Fentons also own some lots, we understand, across the street west of the proposed gin site.

Reports are to the effect, however, that at least two other sites for the gin have been under consideration.

Most of the residents of the city east of Main Street, the Lubbock highway, and some of those on the west side of that street have already signed a petition to be presented to the mayor and the city council protesting against the granting of a permit to build a gin on the site described above. Their contention is that the gin would be situated in such close proximity to their property as to make living conditions at times almost unbearable and would greatly reduce the desirability and value of their property.

The mayor has been out of the city this week and could not be reached for an interview.

Collier Is Elected To Drug Directorate

Wynne Collier, Tahoka druggist, has been named a director of the United Wholesale Druggists of Fort Worth, according to word received recently from the executive vice-president in Boston, Mass. United is a wholesale drug corporation.

CIVIL SUIT IS TRIED IN DISTRICT COURT

Sgt. Hill is a mechanic in the Army and does not think that he will get to go overseas. He enlisted in the Army in 1939, three and a half years ago, and had been in the service more than two years when the Japs made their sneak attack on Pearl Harbor.

Sgt. Hill keeps up with the news from home by reading The Lynn County News, which goes to his address each week.

Another Tahoka man was indicted for forgery, it being charged that he forged the name of A. M. Cade as an endorsement on a bank check.

All of the accused are either under arrest or have been released on bond.

Sand Does Damage To Large Section In Western Lynn

Reports of heavy damage to the cotton crop in the west and south-west parts of Lynn county by high winds that swept the region Sunday and Tuesday, but later reports indicate that the damage probably was not as heavy as first estimates.

Many hundreds of acres, however, were either destroyed or damaged by the "blow". Some of the very young cotton was either killed outright or covered up with sand, as was also some young feed. Many fields of older cotton, whose leaves were burnt to a crisp, are already showing signs of new growth, and it is believed that the chief damage consists of the retarding of the growth and making the crop later.

Some farmers in the area, however, are already planting over hundreds of acres either in cotton or in feed.

During the early hours of Sunday morning, light to heavy rains covered most of Lynn county. The fall in Tahoka amounted to .93 of an inch.

Norman Carver In Attu Attack

Norman Carver, Seaman first class, who has seen action in a half dozen big naval battles in the Pacific and who took part in the invasion of Japanese-held Attu island in the Aleutians, left Friday for San Diego, Calif., after visiting a few days with his parents, Mr. and Mrs. W. C. Carver.

Norman was in the battles of Midway, Coral Sea, Tulagi, and others. About the middle of January his ship, the destroyer Minneapolis, was torpedoed and sunk in the Solomon area, but he escaped uninjured.

This spring he went to Alaska aboard a transport, and took part in the invasion of Attu. Being a Navy man, however, he did not engage in the land fighting for possession of the island, although he aided in guarding the beaches and saw much of the bitter fighting. He declares that the battle was waged under almost unimaginable difficulties, in the cold and slush, and that we lost many men. After coming back to the States, he was given a furlough and flew in to Amarillo.

H. A. Maasen Wins Marine Commission

Lieut. H. A. Maasen, son of Mr. and Mrs. Henry Maasen, was home the first of the week from Corpus Christi, where he was commissioned a second lieutenant and given his wings in the U. S. Marines Air Corps Saturday. He has gone to Jacksonville, Florida, where he was to report today for further training.

Mrs. Maasen and Miss Joycelyn attended the graduation ceremonies Saturday at the Corpus Christi Naval Base and accompanied him home.

Lt. Maasen is a graduate of Tahoka High, where he was one of the leading students and active in athletics. He attended Texas Tech until his enlistment last year as a Naval Cadet. After training at Dallas and at Corpus Christi, he was transferred to the Marines. He will likely fly a PBY Catalina Flying Boat at Jacksonville.

The Connolly anti-strike bill, as this is written, still lies unsigned on the President's desk while John L. Lewis is still maintaining a defiant attitude and making his demands upon the Government. If the Connolly bill had been signed the moment it struck the President's desk, John L. Lewis would have been compelled to cut out his near-treasonous conduct or to face the prospect of a yawning prison. It's enough to make the angels weep. Why hasn't the President signed the bill? We don't know; but the newspapers and the radios make the announcement that Administration leaders are now putting up the weak contention that in laying down strict limitations with which employees must comply before calling a strike, the bill thereby "legalizes" strikes. A sufficient answer to their contention is that the great labor unions and labor leaders of the country vehemently opposed the passage of the bill. The entire country should arise in commendation of Senator Connolly and a majority of both houses of Congress for the enactment of this measure. The people of the United States should find a way to make their voice heard by the President above that of John L. Lewis.

Except for an occasional lynching of some brutal negro for the crime of rape and murder, there is little race trouble in the South. The two races understand each other and know how to get along together. When a negro in the South becomes arrogant, he is summarily put back in his proper place. Most negroes accordingly know their places and

stay in them, and the two races get along swimmingly. It is not so in the North. There, the politicians and a lot of benevolently-minded private citizens encourage the upper-crust negroes to expect and demand social equality. They do so. When they meet with rebuffs, they become arrogant. Arrogance brings on trouble. And the first thing anybody knows, a race riot breaks out. A fist fight between a negro and a white man may start it. That is what happened at Detroit the other night; and since then they have counted 20 dead negroes and three dead white persons, with more than 700 persons of both races having been wounded. It took an army of soldiers to quell the riots. This habit of petting and pampering "high society" negroes and encouraging them to demand social equality is bad business, Sister Eleanor.

Another tragedy hung up in this section this week by liquor. Two men at Morton gambling and drinking through the night. Suddenly in the early morning, there is a clash of temper. Then a combat. One draws out his knife and begins to carve on the other in "self-defense." The carved man dies and the other is lodged in jail. Doubtless there will be a trial. The taxpayer will pay the expenses. If the man who wielded the knife is sent to prison, the tax-payers will continue to pay the bill. And maybe there are loved ones who have been made to sorrow because of this inexcusable tragedy. "Wine is a mocker; strong drink is raging."

Jack Stricklin of the Terry County Herald got quite excited last week over the fact that the Lynn County News had called attention to some dangers lurking in the proposal for the Government to launch out upon a policy of advertising in the newspapers of the country. Jack tries to persuade himself that there is no danger. Maybe not. But as long as human nature is human nature and human beings are human beings and politics are politics, we are going to keep on hanging out the sign: Look out! Sharp curve ahead! Danger!

RIDDLE GOOD COOK

Ben Moore of O'Donnell claims that Alex Riddle of Tahoka is about the best cooker of sour dough biscuit he ever ate after. Back in 1919, Ben was working with a crew of men engaged in breaking out the Fern land near Abernathy, and Alex, who had been freighting in this country, was the cook. And he thinks there is nothing like good sour dough, and he recommends Alex Riddle as one of the best at cooking it.

Mr. and Mrs. Roy Edwards returned last Friday from a visit with relatives at Holland and Bartlett in Bell county and with Miss Bernice Edwards in Houston. They also made trips to Austin and Dallas. Roy just had to hobnob with the politicians a little bit, a few of whom can be found in Austin.

ODDS and ENDS

by Eee Eye, the Elder

The negroes of Tahoka celebrated the "Juneteenth" only by putting on their Sunday duds and coming to town. They had no sort of program or amusements of any kind, not even a baseball game. Honestly, we wish that hereafter they would stage some kind of a worthy celebration of their emancipation from slavery. We wouldn't countenance any sort of rowdiness, drunkenness, or excesses of any kind, but we believe that they are entitled to celebrate this great event in a proper manner. We can remember when they did have big celebrations of the day down in central Texas, where there were many negroes. Always they were entertained by some colored orator, who made the welkin ring, or at least they made the woods ring for hundreds of yards down the creek from their picnic grounds.

The trouble with "celebrations" is that, whether it be by whites or blacks, there is nearly always somebody who wants to celebrate by getting drunk, and where there are two three drunk negroes there is likely to be trouble.

How would it do for the colored churches of Tahoka to go in together and have a real religious and respectable celebration next year—or at least on the first "Juneteenth" that comes around after the war is over? We believe that they could do it in a fine way, and if anybody brought any liquor, the officers of Lynn county would be pretty apt to escort such offender to the big house with bars across the windows.

Right here we want to take occasion to say this: As a rule, the negroes of Tahoka are a peaceable, industrious, and law-abiding people. They give the officers very little trouble.

There is one negro citizen in Tahoka that has done more, we believe, for the people of his race, morally and spiritually, than any Tahoka white man has done for the white people of the town. We refer to Rev. O. D. Hollins. He has constantly held up before his people high standards of conduct and religious ideals, and at the same time he has stood for the education of his race and has befriended his people in every way possible. Furthermore, he has ever maintained an attitude toward the white people that has gained their confidence and approval. Our hat is off to O. D. Hollins. And there are other negroes here who deserve great praise.

But while the negroes here are well behaved, as a rule, and know how to stay in their proper places, it is not so in many other parts of the country. Apparently, there is a growing spirit of impudence among the young negroes of the country, especially among the young negroes of the North. This impudent, trouble-breeding spirit, has cropped out recently at many of our Army camps. We have no first-hand knowledge as to the cause of the race riots that were staged at Beaumont last week nor at Detroit this week, but we have an idea that they arose mainly out of the desire on the part of the negroes for social equality. That and liquor. And white people are to blame for both.

The people of the North do not really want social equality for the negro, but the politicians need votes, and they feed the negroes on this social equality stuff to get their votes.

Buy A Victory Bond . . . And Slap A Jap!

gress, both Democratic and Republican, still anxious for votes, will promise support of such a policy and if elected will advocate such a policy in Congress. Isn't it probable, almost certain, that such a thing will follow? Certainly it is so if the present trend continues.

And who knows but that Federal action may be taken in the course of time to nullify laws that now exist in many of the states which make it illegal for whites and negroes to inter-marry. In some of the states today there are no "jim crow" laws. In some of the states, negroes do attend school with the whites. In some states negroes and whites may and do legally inter-marry.

If we can not defeat the proposed anti-poll tax amendment in the next Congress, then let us prepare for the next battle. When it is proposed to appropriate Federal funds for the support of the public schools let us insist upon an amendment for whites and negroes shall be for whites and negroes shall be maintained in all the states. And why not propose a constitutional amendment making inter-marriage of whites and negroes unlawful in all the states?

Mrs. S. J. Cowart, who suddenly became seriously ill a few weeks ago, is not making satisfactory improvement, according to reports from her home. It is to be hoped that she will now begin to improve more rapidly.

"Listen, Sarg, you'd think this Tommy gun was the same as that eight-cylinder motor in my dad's car, the way you want her oiled up every day!" And the Sarg says, "You listen! I ran a filling station before I joined up and I know a lot of things about oil. I sold that Conoco Nit oil. I've got a lot of respect for the Top Sarg, so Dad, if I'm to inherit the love of Mike, take her over and have her oil-plate her.

Tahoka Ladies Visit, Join In Fox Hunt

Mrs. J. L. Hill and daughter, Mrs. W. R. McNeely, returned Tuesday night from a visit with relatives in central west Texas, which was interesting and enjoyable for more reasons than one.

Mrs. Hill had a visit with a brother at Brownwood whom she had not seen for 29 years, and Mrs. McNeely joined a number of her cousins in a fox hunt that resulted in the treeing of one fox.

The mother and daughter left here last Friday, going first to Camp Berkeley to see Mrs. Hill's grandson, Cpl. Neil J. Gibson of Tahoka, who is in training there.

Then they went on down to Rising Star and visited a sister of Mrs. Hill, Mrs. Lily Talbott, and the latter's son. While there, Pvt. Norman Bullock of Camp Bowie, a nephew, came over to see them. Mrs. Hill and Mrs. McNeely returned to Brownwood with him and there visited the young man's father, Charlie Bullock, who is the brother of Mrs. Hill whom she had not seen in 29 years. He is an engineer on the Santa Fe railroad.

While at Rising Star, Mrs. McNeely accompanied a bunch of her cousins on a fox hunt one night between that place and Cisco. With 28 hounds they got on the trail of a fox and finally treed him. Mrs. McNeely says that it was an exciting chase, and it certainly was a novel experience for her.

Both the bride and groom are graduates of the Tahoka high school. Sgt. Price is stationed at Fort Lewis, Washington, and he left Thursday night for that place.

Grassland News

(By Mrs. V. V. Laws)

The Church of the Nazarene honored the boys who are away Sunday night with a beautiful and impressive candle lighting program. As each name was called, the parent or some close relative or friend would light a candle in their honor with a prayer for God's protection. Bro. Brown lighted two, one for the mothers and fathers and one for the church, that we all may keep the lights burning through prayer for our boys' safe return.

Rev. and Mrs. Odell Brown are happy to have his mother, Mrs. W. S. Brown and grandson Billy Joe Prince of Altus, Okla., visit them for a few weeks.

Mrs. J. C. Allen and son Harold of Lubbock attended services at the Church of the Nazarene here Sunday night.

Herbert Edwards, son of Mr. and Mrs. Lloyd Edwards of Post, who is in a camp in Mississippi, has been here on furlough. His parents and friends were happy to see him.

We were also delighted to see S. L. Williams. He returned to camp last week.

Mrs. M. C. Thomas and daughter, Joan, left Tuesday, accompanied by the former's cousins, Mrs. Loyal Tyson and Mrs. Henrietta Adams of Alabama, for California to visit a son of Mrs. Tyson in the Air Corps at South Gate and Mrs. Thomas' sister, Mrs. Carlos Edwards at Los Angeles. Mrs. Adams and Mrs. Tyson are nieces of Mrs. R. B. McCord here for an extended visit.

The McCords recently honored their visitors with a picnic supper and family reunion at Two Draw Lake near Post.

Billie Lorán Thomas is at the Boy Scout camp at Post this week.

Mr. and Mrs. J. C. Cunningham, accompanied by Mrs. O. N. Reed and little daughter visited in Seagraves Sunday.

Gene Lawson and little daughter, who were delayed en route and failed to get here for his brother's funeral have returned to their home at Portsmouth, Va. Mr. and Mrs. Ben Hur Lawson and Mr. and Mrs. Loy Lawson also returned to their homes in California. Mrs. Lewis Ward and small son remained here with her mother, Mrs. A. A. Lawson until last week-end.

Mrs. Mattie Johnson of Brownfield, a friend of Mrs. A. A. Lawson, spent several days visiting her.

Wyman and John Wayne Richey of Slaton visited their grandparents, Mr. and Mrs. W. R. Greer.

Mr. and Mrs. W. R. Greer, Odetta and Billy, Mr. and Mrs. Douglas Greer and Silvia Ruth Banks, last week attended a family reunion of Mrs. Greer's parents, Mr. and Mrs. J. C. Bargley, at Justiceburg. Also present were Mr. and Mrs. Jack Richey and sons of Slaton, Mr. and Mrs. John Paul Ray and family of Post, and Greer's sister, Mrs. R. E. Colebanks of Nebraska.

W. T. Mitchell is staying with Mr. Jolly Roberts at West Point a few weeks helping with the farm work. Mrs. Martha Harris has returned home from an extended trip visiting her brothers.

Mrs. J. D. Smith went to Lubbock recently to help her mother get located there. Her father, who has been ill for some time and who has been in a sanitarium, feels that he wants to go home.

Mrs. M. L. Thomas returned home last week from a visit with her brother at San Angelo.

Mr. J. P. Smith and daughter, Miss Evelyn, of Lubbock visited with his sister, Mrs. A. A. Lawson, Monday of last week.

Mmes. Harley Henderson and Frank Hill accompanied Mr. and Mrs. Amos Howard to Wichita Falls last week end where they visited at Sheppard Field Amos Howard Jr. and Grady Howard.

Mrs. Minnie Isham of Eastland came on Thursday of last week to spend the summer with her sister, Mrs. Jack Curry.

AMERICAN HEROES

BY LEFF

Three Japs killed with one bullet was the score of Marine Pfc. Nicholas Sileo while defending a small village somewhere in the South Pacific. Sileo dropped the bullet as they approached and then bagged two more before the swarming little men's rifle fire put him out of commission and he had to be hospitalized. Our boys are making the best use of the ammunition which you help buy when you invest in War Bonds. Help pass them more of it.

ASSEMBLY OF GOD CHURCH
The revival continue with growing interest. Rev. and Mrs. Adams are pleasing the audiences each night with a different program. Mrs. Adams' work with the children is exceptionally interesting. Her lovely voice is heard in song at each ser-

vice. Rev. Adams has the message of the hour and brings his messages in a very forceful but pleasing manner. The meeting closes Sunday night and a special invitation is extended to come hear them before that time.

The members of the church very cunningly surprised the pastor and wife, Rev. and Mrs. Art Brown, with a miscellaneous shower on Tuesday night, the affair being their 24th wedding anniversary. After the service the presents were brought to the altar and presented, which was almost too much for the Browns. Amid grateful tears they were accepted with thankful hearts. The affair was handled by Rev. and Mrs. Adams. Many beautiful and useful gifts were presented.

COLORED BAPTISTS HOLD SERVICES FOR WHITES

By invitation, the pastor and members of the Pleasant Grove Baptist Church, colored, held their regular services in the First Baptist Church of Tahoka last Sunday night, Rev. O. D. Hollins occupying the pulpit.

Preceding the preaching service, the colored B. Y. P. U. put on a program, including a "sword drill" which revealed a knowledge of the Bible that would put to shame most white people.

The sermon by Pastor Hollins also received much praise.

Mrs. Clyde Jones and son, Lane, returned recently from Mississippi, where they spent two weeks visiting Mr. and Mrs. Tip Auld and son, Mrs. Auld will be remembered here as Miss Maxine Jones.

CAN STRING BEANS AND SNAP PEAS THIS WAY

By Carolyn Dixon

County Home Demonstration Agent Use young tender pods, cut 1 1/2 to 2 inches. The preparation of the beans before packing the jars may be done by either of two methods:

A. Precook and pack: Cover with hot water and boil 5 minutes. Bend the ends of the bean together. If it does not break, it is ready to be packed in the jar.

B. Pack raw and steam: Pints, 8 minutes; quarts, 13 minutes. The last step, regardless of whether A or B method is used is to keep beans at 10 lbs. pressure (250 degrees) for 30 minutes for pints and 35 minutes for quarts.

Note: Two extra pounds must be added to any recipe for this altitude correction. This means pressure beans at 12 lbs. instead of 10 lbs.

Please clip all recipes that you may have for future reference. Additional information on canning other vegetables and fruits is available at the Home Demonstration Agent's office, which is open 8:00 a. m. to 6:00 p. m. each week day.

Mrs. Jack Curry had a letter a few days ago from her son, Cpl. James Curry, now stationed at Portland, Oregon, in which he says that he greatly enjoys The Lynn County News each week; says they just couldn't get along without it.

Kenneth Reid, radio instructor in an Ogden, Utah, war training school, operated by the government has been here the past week visiting relatives and friends. His wife and daughter had visited here a short while ago.

M. A. Etheridge favored the editor with a fine sample of potatoes which he has raised in his Victory garden in the west part of town. Six of the spuds weight 6 1/2 pounds. He says he has just everything that will grow, in his garden.

Mr. and Mrs. H. M. Snowden visited relatives at Littlefield two or three days this week.

Mr. and Mrs. J. L. Nevill and Mr. and Mrs. Everton Nevill left Monday morning for Waco to visit their son and brother, Ray Nevill, who is now in the Veterans' Hospital there. He was transferred from Danville, Kentucky, where he had been under treatment for several weeks, and arrived at the Waco hospital on Wednesday of last week. Ray suffered serious injuries from shell-shock in North Africa.

Pvt. and Mrs. Rudolf Snowden left Thursday for Garden City, Kansas where he is in training at an Army flying field, following a visit here with Mr. and Mrs. H. M. Snowden and with her parents, Mr. and Mrs. Pete Etheridge in the Edith community.

Mmes. Wells, Kemp Tell Of Interesting Trip To California

Mrs. Claude Wells and daughter Mrs. Marjorie Kemp and baby returned last Friday from a two weeks visit with Mrs. Kemp's husband, Av/Cad. E. B. Kemp Jr., who is in training at the Santa Ana Army Air Base in California, taking his pre-flight training.

While in California they spent almost ten days in Los Angeles as the guests of Mr. and Mrs. W. E. Henderson and Mr. and Mrs. W. H. Scott, and were amazed and surprised by sights of various kinds which greeted them on every side, Mrs. Wells declares.

Among the marvelous places of business they visited in the shopping district were the May Company department store, which covers an entire city block, with branch stores in West Los Angeles; Bullock's, an exclusive department store which also covers a city block at 7th and Broadway, said to be the second busiest corner in the world; thence down Seventh into numerous exclusive shops; then out Wiltshire Boulevard, the Fifth Avenue of the West, to the Ambassador Hotel, a city within itself, shops, and theatres, including the famous "Cocoanut Grove," where movie stars dine and dance.

They even took luncheon at Clifton's, a very exclusive and unique cafe, decorated with fragments of Redwood trees from the forest, with fountains and pools and an old-time mill wheel, and where they listened to the strains of pipe organ music.

At Exposition Park they saw the largest stadium in the world, its seating capacity being 105,000 persons; mammoth exhibit buildings, displaying the products of California—fruits, vegetables, a display of Redwood and other giant trees; a

AUX. MILDRED COOPER WRITES FROM OREGON
The editor and Mrs. Hill received a communication last Sunday from Aux. Mildred Cooper, who was rear-d here, now of the WAAC Detachment, Camp Abbot, Oregon, written on the preceding Monday, in which she tells something of her work and orders. The News sent to her address. After completing high school, Miss Cooper attended Howard Payne College one year, and several months ago she enlisted in the WAACs.

Enclosed with her communication was an article entitled "The Flag is Born," which she wrote recently in commemoration of the birth of our flag and which was published in the Camp Abbot Engineer paper.

We quote from her letter as follows:

"Just a line to let you know I am situated in the mountains of Oregon and trying my best to adjust myself to the cold, and enjoying fishing, hunting, and swimming at the same time.

"I was transferred to this Camp on May 22, 1943, and since that time I have been working in the office of Provost Marshal, which I like very much. The work is very interesting, and I have a grand group of people to work with.

"May I say to you that the WAAC organization is one of the grandest moments of my life. There is no comparison between the Army and civilian life, but I will take the Army and help to free our brothers, sisters, and mothers and dads. In this camp, the WAACs are taking the place of enlisted men in the offices, hospitals, and driving cars, ranging from two and a half ton trucks to the jeeps.

"We have not moved into the WAAC barracks, but will do so some time this week, which are built according to the will of my Commanding Officer, who is well known throughout the Southern states. She is a fine character and does everything in her power to make each girl feel at home, and by the way, home is a wonderful thought, just a thought, but a very pleasant thought, which we girls here are helping to preserve, and hope to return before long with that same feeling."

CARD OF THANKS
We wish to take this means of thanking all our neighbors and friends who came to us in the sorrow of the passing of our wife and mother. Thanks especially to those who sent the beautiful flowers, also to those who were kind in so many helpful ways. May God's richest blessings be upon you all—T. G. Dulin, Cpl. Woodroe Dulin, Mr. and Mrs. James Dulin and children, Mr. and Mrs. Geo. C. Dulin and Rita Sue, Mr. and Mrs. Dayton Short and children, Mrs. Naomi J. Tadlock.

Southland News

(By Mrs. Marvin Truelock)

New Superintendent

The new school superintendent of Southland is J. P. Hewlett, who, for the past year, has been stationed in California in the Medical Supply division of the Army. His home was in San Benito, Texas, and he has a brother residing at Wilson. He received his degree from Texas Tech, but has also attended Canyon, John Tarleton, and San Marcos. This bachelor seems to think the housing situation acute.

Organize Negro Church

The local colored people had 21 present Sunday morning when they organized their Sunday School. Mrs. Osceola Scott was elected superintendent; Mrs. Stonewall Jefferson, secretary; and teachers, Mrs. Alfred Gregg, beginners, Mrs. M. C. Hyson, primary, Mrs. Hersie Davis, junior, and Hersie Davis, senior.

Sunday afternoon a much larger crowd gathered for the final service of the revival meeting. Rev. H. E. Henderson, pastor of the colored churches at Slaton and Levelland, was the evangelist. A church to be called the New Hope Baptist Church of Southland was organized to meet each first and third Sunday afternoons at 3 o'clock with Bro. Henderson as pastor. They plan to invite the president of the Lubbock W. M. U. to come and help the women organize. The total collections for the five-day meeting was \$26.08.

There are 17 church members. Eight candidates for baptism will be baptized next first Sunday afternoon at Slaton.

Bobbie Liske, who is with the Air Corps at Pampa, is home on leave.

Pvt. Merle Taylor, who is the brother of Mrs. R. D. Williams, was expected to arrive the latter part of last week for a visit. Pvt. Taylor is stationed at Pines Camp, N. Y., but was on maneuvers in California. His wife arrived here last Tuesday.

Rev. O. E. Armstrong left Sunday afternoon, June 13, for Methodist Pastors' school in Dallas, to return this Friday.

Cadet Midshipman Wayne H. Hallman received his medical discharge from the Navy Air Corp June 10. He is now at home with his parents, Mr. and Mrs. H. D. Hallman Sr. of Hackberry.

Did you read the account in the Lubbock Avalanche of one of our boys who had to roll his own bandages while in the hospital in New Guinea? The Hackberry Red Cross needs more help to better their high record of folded bandages. And if they haven't sufficient knitting yarn they can secure it for you.

Wayne Whited's last letter from home told of their receiving a multi-colored bar pin for participation in the North African campaign. These boys receive their pay in francs, which was not difficult to become accustomed to.

The W. W. Gilliland's son, Homer, writes that he is back in the port he landed at after traveling all over Africa, and he didn't leave his knowledge of pressing pants in the Hilton Hotel Tailor Shop at Lubbock, for Uncle Sam has him at his old occupation there.

Diane Haire of Gordon came Tuesday to spend several days with her aunts, Mrs. Harvey Stotts and Mrs. Hub Haire.

Vernon Crisp of Pleasant Valley spent from Friday until Sunday with Dan Stotts.

Last week Verna Dell Long visited Polly Stotts.

Mrs. Marvin Truelock and son returned Thursday from visiting relatives on the North Plains. Her daughter, Glenda Grantham remained for a longer visit with her cousin in Vernon.

Mr. and Mrs. R. E. King returned to Plainview last week after spending several months with their son, Roy, in California. Roy, also well-known here, had just returned to work after being injured in a fall from a horse. The Kings plan to live in Hale county, but still call Southland home.

Aviation Gasoline

Research begins... not in a test tube... but in the mind of a man.

Since Phillips Petroleum Company has the world's largest proven gas reserves, it was natural that the minds of hundreds of Phillips research men should early turn to the problem of new and better things from petroleum gases as well as from petroleum.

The resulting development, in the early 1930's, of POLYMERIZATION enabled the use of light petroleum hydrocarbons (gases) which until then had been regarded as by-products of little value. Soon, several years before Pearl Harbor, they became feed stock for 100 octane gasoline.

Still other Phillips pioneering processes, alkylation, HF alkylation, and cyclization permitted the production of 100-plus octane aviation gasoline, a significant contribution to extra airplane horsepower.

Phillips was one of the first, and remains one of the largest manufacturers of high octane aviation fuels. Thus we see how the peacetime study and work of Phillips scientists is of great value in our all-out war on the Axis. Similarly, when victory comes, today's accelerated Phillips wartime research program should bring to the American motorist new and greater gasolines for his post-war car.

MIDWAY RECEIVES SLIP COVER DEMONSTRATION

Whether it is a new piece of furniture or an old piece that has become drab-looking, it adds a zest to any living room to cover it with a bright slip cover. Midway women assisted in covering a chair for Mrs. Howard Draper Wednesday, June 16, in an all-day meeting in her home. The County Home Demonstration Agent, Miss Carolyn Dixon, gave the demonstration.

The arm panel sets better if interlined with pre-shrunk material as muslin. After it is stitched in place, trim off the excess seam of the muslin. The group also recommended that every seam need not be corded.

With the nation-wide drive on economy, it is more important now than ever before that each homemaker takes care of what she has. Slip covers will solve your problem of protecting your furniture and adding a bright note to any room. Try it.

of Kiska, and left A. H. McGonagill, also a Chief, somewhere in the Aleutians with a "face as long as your arm" because he couldn't get a trip also back to the States. Chief McElroy was sent back to the States for a new platoon, but he does not know yet where he will take it.

Lt. Lee King devoted his remarks chiefly to his training and experiences at Randolph Field, Harlingen, Laredo, at a field in Michigan, and finally in Salt Lake City, Utah, at the latter place receiving training in transport plane flying from Western Air Lines.

In answer to questions, he also gave some description of the big C-46 transport airplane which he has been piloting recently. Built by Curtis-Wright, it is the biggest plane in the world in production. He expects to go from here to Cheyenne, Wyoming, where he is supposed to receive about five weeks training with this giant "flying freight-train" before being assigned to duty.

Lt. J. O. Reed, who was a member of the Tahoka High School faculty for a short time last winter, has been in training mostly at Paris Island first and then at Quantico, Virginia, where he took officers' training. He humorously related some of his experiences and observation of Marine officers training. He is now en route to a combat area for active duty.

All the speakers hoped to be back at a later date to tell about what they found on the other side.

Mrs. W. V. McElroy also was a guest for the program.

President Truett Smith announced that this was his last week as president of the club, and W. T. Hanes will be inducted into office at the next meeting.

HARLEQUIN CABBAGE BUG IS HERE

By Carolyn Dixon
County Home Demonstration Agent

The Harlequin Cabbage Bug, whose young are black with white marks, is a timely guest of your Victory Garden. The adults are black and red or black and orange. This bug, the friendly squash bug, and the unwelcome stink bug are sucking bugs and are very hard to control because it is impossible to get any poison in their stomachs. Therefore, the poison that is shot at them must come in contact with their body and only those that are hit with the poison will be killed.

Nicotine sulphate (Black Leaf 40) used as a spray or dust is very effective as a control for immature or young bugs, but not for the adults. Pyrocid dust is the best thing to shoot at the adults. Hand-picking of the adults is recommended in small home gardens. The nicotine spray to use is made by mixing 1 1/2 teaspoonfuls Black Leaf 40, 1 cubic inch of soap dissolved in 1 gallon water. The dust is made by mixing 2 tablespoons Black Leaf 40 with 1 quart hydrated lime.

NEW HOME 4-H CLUB

Did you know that whole-wheat flour contains more vitamin B, iron, phosphorus, calcium, riboflavin, and vitamin E than white flour? That is what we learned when the New Home 4-H Club met at the home of Mrs. Fernova Balch at 3 p. m. Monday, June 4, for its first summer meeting.

Miss Dixon and girls made whole-wheat products. Reports were made on girls' work. Things done include house work, garden and yard work, planning and cooking meals, and field work.

Billy June Balch served refreshments to hostess, Fernova Balch, and to Betty Jean Smith, Joy Dean McClintock, Marlene and Christine Chancellor, Betty Jeanne Mitchell, Norma Sue Burkhalter, Emadene Robinson, Mary and Guadalupe Ortiz, and Eudania McCormick.—Reporter.
