Three Are Burned When Crude Oil Can Is Ignited

Mrs. Claude Johnson and Miss Joretta Shawn, who was visiting her, received deep and painful burns on their bodies, arms and hands, and Claude Johnson had one hand badly burned following the accidental ignition and explosion of a can of crude oil at the Johnson home here Tuesday afternoon of last week.

Using a five gallon can of crude oil, Johnson was engaged in "burning out" some red dirt hills in the yard of their newly-purchased home in Northwest Tahoka. Mrs. Johnson and Joretta were standing nearby when the oil in the can unexpectedly ignited, exploded, and showered the three with burning oil. Mr. Johnson, whose clothing did not ignite, held his wife and with great difficulty tore the burning clothing from her body, during which time her face was burned, also.

One of W. P. Anderson's daughters caught Joretta, and she and Mr. Johnson tore the burning clothing from her body.

All are recovering at the homes.

Local Delegate Tell Of Muddle at State Demo Convention

J. W. Elliott, delegation chairman, W. E. Suddarth, and A. L. Dunagan returned Wednesday night from Austin, where they represented Lynn county Democrats at the State convention, declared by the press to be the most hectic in many years. The convention split over the question of instructed delegation to the national convention, the worst breach since the 1892 Hogg-Clark split, and as a result Texas Democrats found themselves in the worst muddle in history.

The break came when Dan Moody was elected temporary chairman over James V. Alford, Moody being elected by those favoring an instructed delegation to the National convention, while the losers were strict adherents to the fourth term for President Roosevelt, the vote showing 163 majority of the other. Resolutions proposing that nobody be seated at the convention unless he take the pledge to support the Democratic nominee for president, and one setting forth that nobody be selected as elector unless pledged to support the nominee lost by a like majority.

Thereon the minority group, favoring a fourth term instruction, marched from the convention hall formed their own convention, and will ask for recognition at the National convention.

Though strongly pro-administration Democrats, Mr. Suddarth says the Lynn county delegates remained in the convention hall and voted against the subsequent resolutions of that body.

Regular convention electors, by resolution, will vote for the party nominees in November only if the two-thirds nominating rule in selecting the president and vice-president is restored by the National convention, puts in the platform nationally some sort of plank guaranteeing no further attempts toward giving the Negro social equality, and pays no attention to delegates sent to Chicago by the Texas ramp convention.

Mr. Suddarth thinks the leaders of the regular convention hope for a revolt, or split at the National convention, at which some Democrat at Harry Byrd might be nominated.

Judge Elliott was named one of the delegates to the National convention at the 19th Congressional District caucus, and his selection was approved by the convention.

Demonstrations were made in gas warfare and riot control, and the problem of the maneuver was handling the situation arising from a simulated train wreck by saboteurs in the Santa Fe yards.

Others companies were present from Lubbock, Plainview, Levelland, Slaton, Floydada, and Crosbyton.

IMPROVE QUALITY OF ROSES

By Carolyn Dixon
County Home Demonstration Agent of A&M Extension Service

Often rose buds fail to open. "When the bud is examined, one may or may not find anything," explained J. F. Rosborough, A&M Extension Service horticulturist. On the other hand, a very, very small insect known as thrip, may be found. With very little effort, this damage to rose buds may be prevented.

When the buds begin to appear, use six teaspoons of tartar emetic and six tablespoons of sugar to three gallons of water. Use a fly spray to apply this mixture, and spray as lightly as possible. Spray until the rose bushes look as if a light dew fell on them. The spraying will be effective for around 25 days unless it rains. Repeat as other new buds form.

I was some pest.
I bothered the life out of auto service men after the curtain went down on new cars. I knew I'd be in some pickle if this car wouldn't last, so I kept quizzing the fellows. Every man-jack of them had a good motor oil or some other life-saver, if I could judge. By good luck I paid real attention to one chap who had his reasons why to OIL-FLATE this engine with Conoco Nth oil. He said every explosion in your engine makes acids, which corrode bare metal. Sounds straight, eh? But with something synthetic in Conoco Nth oil keeping the metal OIL-FLATED, you'd say the fine finish receives special protection to fight the acids off. When you see you're not needing a trade-in nearly as soon as usual, you can give real credit to OIL-FLATING. New cars will be going some if they're half as far ahead as you can be right now by switching to Conoco Nth oil.

KENNETH REID HOME

Many friends were glad to see Kenneth Reid back home the first of the week and apparently much improved. Kenneth, who for many months had been a radio instructor at an Army school in Ogdon, Utah, a few weeks ago entered the State Tubercular Sanatorium at Carlsbad, Texas. A careful diagnosis there revealed that he did not have tuberculosis, but an abscess of the lungs. It is hoped that he may be completely recovered in a few weeks or months.

Turn to James 1:19-25 and study verses 21 and 22. James says receive the word which is able to save your souls, and to be doers of the word and not hearers only.

In Matt. 7:24-25, Jesus tells us of two men, one heard his words and did them; he was wise, building on a foundation of rock. The other man heard the words of Jesus but DID NOT do them, and

he likened him unto a foolish man building on the sand.

Paul in Rom. 1:16 says: "The Gospel is the power of God unto salvation."

From these passages we learn, (1) the word or gospel is the power of salvation, (2) we are to receive the gospel, (3) and we are to hear it and do what it says—be doers of the word and not hearers only. Many today hear the gospel but do nothing about it. Christ styles that person foolish. Many READ the word and see before their eyes the things the Lord would have us do, and they do them not. There is no salvation promised to just readers and hearers. Salvation is promised to those that HEAR and DO. Which group are you in today?

—Garnie Atkisson.
Garnie Atkisson and Osa Gattis are conducting a meeting in the T-Bar school house this week. Large crowds are attending the services. There will be preaching next Sunday morning at 11:00. Everyone is invited to attend these services. The time of meeting each evening is 9:00 o'clock. Come and be with us.

Monday at 4:30 p. m. the Vacation Bible School will begin. Mrs. Jas. Clinton is dean of the school. Capable teachers will be in charge of all classes. Parents should make an effort to get your children to the church 15 or 20 minutes before the time to begin class work. It will be but two hours duration—4:30 to 6:30 p. m. We should have 100 pupils in the school. It will last about 10 days—from Monday, May 29, till June 7. There will be a special service for the children at night of the last day of the school.

We shall be able to announce our helpers in the annual revival soon—perhaps by Sunday. Also the date will be announced.

Tuesday night of next week the stewards will meet. We failed to meet this week due to the fact that the pastor failed to announce it last Sunday, thinking there were but four Tuesdays in this month—it was his mistake.

We are delighted with our Sunday and Wednesday night attendance and services. Are you a regular attendant? If not, we hope you will be soon. It will mean so much for you and the church. You may be tired and worn out, but you need the services of the church, and the church needs you. Shall we expect you Sunday? —The Pastor.

YOUTH FELLOWSHIP ELECTS OFFICERS

On Sunday evening, May 14, the Youth Fellowship, elected the following new officers: George Maurice Small, president; Marshall Shelton, vice president; Nancy Rae Weathers, treasurer; Nancy Nell Wyatt, publicity chairman; Jeannine Smith, assistant publicity chr.

On Thursday night of last week Mr. and Mrs. Ted Terry, sponsors, entertained with an ice cream supper on the lawn of their home Mrs. H. E. Mather, who helped with the music during our "Youth for Christ" week, was the honor guest, and in appreciation of her efforts, the group presented her with a lovely water set. When the party was over, the 40 guests declared they had had a grand time.

On Thursday, May 23, there was a called meeting of the Fellowship, and it was decided to send George Maurice Small as a delegate to the Assembly at McMurry College which begins May 29. We are sure he will bring something worthwhile back to group. After the business meeting, games were played on the lawn of the church and refreshments were served. Jeannine Smith and George Small furnished the refreshments of cookies and punch.—Reporter.

No patriotic American needs to be reminded that, in the Nation's interest and in his own, he must save his car.

He knows that no new cars have been made for more than two years . . . that the average car is now seven years old . . . that one out of every four cars now in use is ten years old or older!

Plainly, every single car must be kept rolling, because in a total war, every car and truck is a weapon of war.

To coax every last bit of usefulness from the aging engine, chassis, and tires of your car, you must have efficient maintenance service . . . the kind of distinguished service available at your Phillips 66 Service Station.

Phillips Tire-Saving Service includes checking

air pressures at least once a week . . . inspecting for nail holes, cuts and bruises . . . examination of tire carcass to warn you when re-capping is advisable and still possible . . . and crisscrossing with the spare every 3,000 miles.

Phillips Car-Saving Service includes inspection of battery, air filter, and cooling system . . . regular lubrication of every friction point specified by the maker of your car . . . and seasonal or recommended every-sixty-day oil change.

Remember, it is your car, but it is America's mileage which you are guarding, when you drive in for Phillips wartime Car-Saving and Tire-Saving Service at the Orange and Black 66 Shield . . . the sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.

Billy Jack Edwards Make Firing Mark

"The Gunner's Target," official Post publication of Laredo Army Air Field, May 19 edition, carries the following story about Pvt. Billy Jack Edwards, son of Mr. and Mrs. Marcus Edwards of Tahoka:

Pvt. B. J. Edwards, of Tahoka, a gunnery student in class 44-21, made the highest score on the Ground Range this week. Firing in competition on Range 18, Edwards scored a total of 103 hits for the best average among his classmates, Edwards average for the entire meet at 21 percent.

The final shoot-off to decide the high man of the week is becoming more than just a firing competition. In order for a student to finish in the upper brackets now, he must harmonize his own guns and field-strip them within a limited time. Rivalry is becoming so keen among the students in their attempt to win top honors, that Capt. F. J. Karlin, who is the officer in charge of the Ground Range, is considering a plan to give the winning student a prize each week. If this plan is put into effect, the instructor who has taught the winning student will get a prize also. The instructors will then of course teach the same students throughout the course.

Pvt. Edwards, this week's winner, was born at Tahoka, Texas, on Oct. 13, 1923. He attend Tahoka High School for three years, but moved to Sand Springs, Okla., where he finished his high school education. Graduating from high school, Edwards went to Long Beach, Calif., where he was employed by the Douglas Aircraft company.

While working at Long Beach, he enlisted in the Aviation Cadets at Los Angeles, Calif. Completing his basic training at Sheppard Field, Texas, Edwards was attached to the Cadet Training Detachment at Creighton University, Omaha, Neb. Reclassified at Omaha, he was sent to armorer school at Lowry Field, Denver, Colo.

JOIN GULF'S "ANTI-BREAKDOWN" CLUB TODAY!

BEFORE THIS WAR IS OVER, there may be only two kinds of people in America . . .
1. those who ride to work. 2. those who walk to work.
If you want to be in the fortunate group who will still be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan!
This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job. (8 out of 10 war workers use automobiles to get to work.)

Here's Gulf's Protective Maintenance Plan . . .

1. Protects your car at 39 danger points . . .
2. Saves those bearings and piston rings . . .
3. Stretches your gas coupons . . .

THE AMERICAN Petroleum Institute recommends changing oil regularly. It's equally important to use a good motor oil like Gulfgrade, "The World's Finest Motor Oil," or Gullfube, an extra-quality oil that costs a few cents less.

AIR-FILTER and spark-plug cleaning, radiator flushing help give better mileage. A clean filter makes gas burn more economically; clean plugs add power; a clean radiator prevents over-heating.

Brown Countians Hold Reunion Here

The Brown county ex-citizens' reunion held in Tahoka City Park last Sunday was declared a success. Between 75 and 100 persons were in attendance, the noon-day meal was a great feast, and the fellowship was fine, according to the report given The News.

And as proof of the loyalty of these Brown county former citizens, they came from Amarillo, Big Spring, Lubbock, and other points in this section. The young were there and one or two, who were above 90 years of age; some had recently left Brown county, others had been away as much as 45 years, but all were there to recall the "good old days," and to sing the praises of good old Brown county, their former home.

(By Mrs. Marvin Truelock)

Part of the school annuals arrived last week, and the price will be \$2.00 rather than \$1.50 as planned. Supt. J. P. Hewlett said that the raise in price was due to the extra cost of the group pictures.

The Vacation Bible School at the Methodist Church Sunday afternoon was well attended by both adults and ten children. Ten adults were present, and 19 children enrolled. Mrs. Tommie Collinsworth is Junior teacher, Mrs. Herbert Dunn, primary, and Mrs. R. O. Rankin, beginner. Mrs. W. L. Holloman of Slaton is supervisor. To Our Friends and Customers

In the series of advertisements published in recent weeks, we have acquainted you with the service record and public policy of the Southwestern Public Service Company. We have stated that the Company was originally organized in New Mexico in 1925 and, until acquiring the facilities in Tahoka, it served principally the Pecos Valley area of New Mexico and the Central Panhandle area of Texas. We have stated that, through the long period of years following the founding of the Company, our policy has been to furnish the best possible service to the public at rates which were voluntarily and repeatedly reduced.

Our efforts have merited the approval of those we serve. The public response has been generous, as evidence of which, during the past twelve months every incorporated city and town in the Pecos Valley of New Mexico, six in all, granted the Company new long term franchises under which it can continue to plan on a long term basis and preserve its service policies. In the Central Panhandle area also, franchise renewals have been granted in each city where expiration dates were near. In not a single case, has a renewal ever been refused.

The extension of our permits to to serve all of these cities and towns was based upon the public acceptance of the Company and its policy of operation. We now bring this policy to the people of Tahoka, and we are confident that you will find it genuinely in the public interest in the years to come.
