Grand Jury Indicts Five Mexicans In Burglary Ring

Five Mexicans, three men and two women, were indicted by the Lynn county grand jury here Monday on charges of burglary, after loot from Lynn county homes had been recovered from their possession in Dawson and Uvalde counties by Sheriff Buck Bennett of Dawson county and Sheriff Sam Floyd of Lynn county.

Indicted were: Clemente Garcia and wife, Francisco, Louis Rangel and wife, Maria, and Amelio Cuntero. Two indictments each were returned against the two Garcias and Cuntero.

Sheriff Floyd had asked officers of this area to look out for Garcia several months ago, and a few days ago Sheriff Bennett became suspicious of some Mexicans near Lamesa, broke into their shack, and found many articles taken last fall when at least two Lynn county farm homes were burglarized.

The Garcias were arrested, and further investigation led to the arrest of Rangel and Cuntero near Uvalde. Loot valued at possibly \$3,000 was found in possession of the group, and has been identified by owners in Lynn, Dawson, Terry, Gaines, Borden, Howard, Martin, and Sterling counties.

The loot includes, furniture, radios, guns, saddles, mattresses, clothing, and many other items. The Mexicans are alleged to have entered the H. B. Crutcher home at New Moore, and taken a radio, clothes, bedding, etc. At the J. A. Melton home east of O'Donnell, they are alleged to have stripped a Christmas tree, and taken several articles of clothing, including a suit of clothes, in a pocket of which was \$24.75 in Sunday School collection money.

Sheriff Sam Floyd says the group had evidently been operating in this area for several months.

G. C. graduated from Tahoka High in 1938; in fact, he attended the Tahoka schools for the full 11 years.

Raymond Evans Killed In Germany

Mr. and Mrs. D. H. Evans, who live in the northeastern part of Lynn county near Slaton, recently received some of the details of the death of their son, Raymond L. Evans, who was killed in action in Germany on November 27. They had a letter from the commanding officer of the 119th Infantry in which their son was serving saying that he was killed in western Germany but was buried in Holland. A Protestant chaplain officiated at the burial services.

Pvt. Evans had been in the service just eight months at the time of his death. He left out from Tahoka for service on March 29, 1944. He was 19 years old on the 19th day of the same month.

Mr. and Mrs. Evans have two other sons in the service, Cpl. William E., who is somewhere in England, and S/Sgt. Daniel R., who has just gone overseas, and the parents do not now where he is. They certainly have the sympathy of many friends.

Assault Cases Are Tried In Court

There have been several pleas of guilty on charges of aggravated assault in the county court this week.

On Tuesday, Willard Burden entered a plea of guilty to a charge of aggravated assault with a knife upon H. C. Gardner, another Negro, and was assessed a fine of \$50.00.

Gardner in turn on the same day entered a plea of guilty to an assault upon Burden with a gun, having taken about nine shots at his antagonist. He likewise was fined \$50.00.

At O'Donnell, two Negro women engaged in a furious encounter last Saturday night, one using a knife and the other armed with a club. Tuesday, Daisy May Alexander, who wielded the knife, entered a plea of guilty in county court to a charge of aggravated assault. Her punishment was likewise assessed at \$50.00. The other woman was here Monday but when officers decided Tuesday to file a complaint against her also, she could not be found.

Complaints were filed Monday by the sheriff against two Tahoka youths charging them with the unlawful possession of liquor for sale. They were released upon making bond.

Two white men pleaded guilty in the Justice Court Monday to the offense of drunkenness in a public place. Each drew a fine of \$15.00.

Clothing Crusade Will Begin Soon

Mrs. Lenore M. Tunnell, Junior Red Cross chairman for Lynn county, calls attention to the fact that the National Children's Clothing Crusade will begin March 9.

The purpose of this organization is to render social welfare service for impoverished children in neglected and rural areas of the United States and war-time aid for relief of children overseas.

There are millions of children in the war-torn countries of the world who need clothing. Even in America, there are thousands of underprivileged children in the Appalachians, the Ozarks, the Brazos Valley of Texas, and in many other parts of the United States, who are badly in need of clothing.

School children of Lynn county are requested to collect or buy a bundle up good clothing and be ready to take it to school and donate it to the Junior Red Cross on the morning of March 9, for the benefit of the needy children of our own country and of many other countries.

Former Tahokan Dies At Caldwell

Friends of the Greathouse family were grieved to learn of the death at Caldwell on February 6 of Homan Hilliard, husband of the former Miss Grace Greathouse, who was reared here.

After their marriage in August, 1941, Mr. and Mrs. Hilliard lived here until he entered the Army that fall.

After he was given a medical discharge in January, 1944, the couple made their home in Caldwell, where he was reared and where his mother, a sister, and three brothers still live.

Mr. Hilliard had attended the A. & M. College, lacking only a short time of attaining his degree before resigning to enter the service. He was about 25 years old at the time of death.

Negro Given Two Years For Murder

Robertson Kennard was found guilty of murder without malice of Dan Griffin by a jury in the district court here Tuesday, the homicide having been committed at a farm house near Wilson on the night of November 4. Both parties were Negroes.

Kennard and several other Negroes were living in the house while out here from south central Texas picking cotton. Griffin was a visitor at the house when the fatal assault upon him was made. Without much provocation, Kennard was shown to have shot Griffin with a gun, resulting in his death in a Slaton hospital several hours later.

Defendant claimed that the shooting was unintentional, and as evidence of his contention he showed that he had furnished the blood for a transfusion after the wounded man had arrived at the hospital.

District Attorney Calloway Huffaker represented the State and Rollin McCord the defendant. Mr. McCord filed a motion for a new trial.

Though his home was in Galveston, he died in San Antonio, and was buried Gonzales, where he had resided for many years. To Mrs. Tunnell he was indeed a father, for he and her mother were married when she was a very young child.

Poll Tax Payments Light; 35 Negroes Qualify To Vote

With no elections scheduled for this year except school trustee and city elections, the people of Lynn county paid only 2,395 poll taxes prior to February 1, according to the records of the county tax assessor and collector, R. P. Weathers.

Of this number, 35 were paid by Negroes, the first time in the history of the county that Negroes have paid as many as a half dozen polls. This represents a considerable percentage of the potential Negro voters and proves that the poll tax—qualification does not necessarily bar the Negroes from the polls, as has been charged frequently in many quarters.

The rush of the Negroes to the tax collector's office this year, however, was doubtless due to the decision of the U. S. Supreme Court handed down last year holding that no party can legally bar Negroes from its primaries on account of their race or color. The practice of Texas Democrats barring Negroes by a party resolution or otherwise from the Democratic primaries was thus nullified.

But, unless some special election is called to decide some issue submitted to the people, the Negroes will have no chance to vote in any party primary or general election this year. They may vote in city and school trustee elections.

Poll taxes paid by voting precincts are as follows:

North Tahoka	484
South Tahoka	287
O'Donnell	382
Wilson	294
New Home	200
Draw	153
Grassland	107
Morgan	96
Lakeview	94
Dixie	85
Gordon	71
Magnolia	46
New Moore	38
West Point	35
Three Lakes	22
Total	2,395

Exemptions will probably boost the voting strength of the county to 3,000 or more.

Mrs. Sarah Bailey Died Last Week

Mrs. Sarah D. Bailey, 83, and a resident of Lynn county for the past 25 years, died at 8:00 o'clock on Thursday evening of last week at the home of Mr. and Mrs. Garland Pennington in Tahoka of a heart attack.

She had been bothered with heart trouble for a long time and for the past two weeks her condition had been serious. For a week she was sick in the home of Mr. and Mrs. Carl Williams but at her own request was removed to the home of Mr. and Mrs. Pennington. Both families were long-time friends of hers.

Though it was known that death was likely to come at any time, it did come with unusual suddenness. She had been ill and had just lain down when the fatal stroke came, and she died in almost a minute's time.

Funeral services were conducted at the Baptist Church here at 4:00 o'clock Friday afternoon, Rev. Levi W. Price officiating, and burial followed in the Tahoka cemetery.

Surviving her is only one daughter, Mrs. Jeff Thurston of Kingston, Tenn., and she was not able to be here for the funeral services. Two sons, Bill Bishop and Tobe Bishop, were killed a few years ago in separate automobile accidents in this area. Another son died at the age of 21 a number of years ago. A daughter, Mrs. Charles (Jennie) Pennington, died two years ago in Oklahoma.

In addition to the one surviving daughter, 21 grandchildren and 16 great-grandchildren also survive, most of them being residents of Lynn and neighboring counties. Mrs. Bill Bishop, a daughter-in-law, resides at Tokio, Terry county, and Mrs. Tobe Bishop, the other daughter-in-law, lives at Lakeview in

Slaton, O'Donnell Win Tournament

(By Leslie McNeely)

Hard luck fell to the Tahoka Bulldogs the past week end, as they scrapped their way to a third place in the District Basketball Tournament held at Denver City.

The Bulldogs tangled with the Post boys in their first game Friday night, winning victory by a close margin, the score being 33-37.

On Saturday morning at 11:00 o'clock, the Bulldogs played the fast-stepping O'Donnell Eagles and were edged out by a score of 37-32.

Tahoka and Denver City played Saturday afternoon and Tahoka was victorious by a score of 36-37.

Immediately following this game, the weary Tahoka lads had to take on the Slaton boys, and the Slaton boys won by 7 points, but only after a tough battle put-up by the Bulldogs. At the half, Tahoka led 24 to 12, but didn't have enough reserve to win over a fresh ball club.

The final game of the evening was between Slaton and O'Donnell. Slaton also won this game but after the lead had changed many times.

W. T. Hines tied honors with Pearson of O'Donnell for all-district center, and Cecil Dorman of Tahoka made the second team.

B. J. Emanuel Sells Farm Near Here

Among the farm sales that have been made here recently was that consummated a few days ago by B. J. Emanuel of the Garnolia community, who sold his farm home of 165 acres to H. D. Gartman for a consideration of \$100 per acre.

Mr. and Mrs. Emanuel had resided on this place for the past 23 years, and Mr. Emanuel stated Tuesday that it had been difficult for them to sleep since closing the deal.

The Gartmans have already taken charge and the Emanuels are leaving for the home of their son in Oklahoma who is a physician. Mr. Emanuel stated that they were burning no bridges behind them, however.

Mr. Emanuel has not only been a successful farmer but he has been one of the leaders in every movement for the betterment of the farmer's condition. He has also been active in church and civic enterprises and will be greatly missed in this county.

Roasting Meat by Low Temperature Is Favored

A saving of as much as one-third in the amount of meat needed to feed a given number of men may be effected through low-temperature roasting, the war department announced in making public the results of tests recently completed by the office of the quartermaster general.

In addition, low cooking temperatures cause the meats to retain their vitamins, juices and natural flavors more completely than cooking at higher temperatures, and more even cooking of roasts is assured, according to the quartermaster corps' menu planning section, subsistence division, which conducted the tests. This last-named factor is particularly important in roasting of pork, it was pointed out.

Evenly-cooked roasts are easier to slice, the tests showed, and the fats which are cooked out are not burned, thus remaining in good condition for use in the preparation of other foods. Utensils are easier to clean after low-temperature cooking, since the juices which cook out do not burn hard to the pots and pans.

Some of the other benefits which the housewife can enjoy from the quartermaster recommended method of preparing her roasts of beef, pork or lamb, as proven by actual tests, are cleaner ovens, since the fat does not "pop" out as much, less fuel required; less heat given off by the range, making for a cooler kitchen; and less evaporation of watery parts of the pan drippings, thus retaining the vitamins and flavor, the department said.

PHEBE K. WARNER CLUB

Mrs. Woodrow Walker was hostess and Mrs. E. R. Edwards was program director when the Phoebe K. Warner club met Tuesday afternoon for a program on "People of Russia."

Mrs. Edwards discussed "Russians, National Characteristics," mentioning that Russians like to play, sing and dance, as Americans do. Mrs. Winston Wharton discussed "Russia's Race Problems," pointing out that these are not very great even though some 150 different languages are spoken. Race problems are at a minimum because all have educational opportunities; there is total employment; there is no exploiting class; the rights of all are protected by the Soviet constitution. She stated that before the Revolution about 70 percent of the population was illiterate, now about 80 percent can read and write.

"Women of Russia" was Mrs. Douglas Finley's subject and she showed that the women of Russia have come a long way since the Revolution. They have been educated in every phase of endeavor and are now carrying on all types of work, from the production of foods to the manufacture of war materials.

Mrs. Winston Wharton presided over a brief business session preceding the program, and the following officers were elected for the ensuing year: President Mrs. Douglas Finley; vice-president, Mrs. Emil Prohl; secretary-treasurer, Mrs. Calloway Huffaker; corresponding secretary, Mrs. Winston Wharton.

A refreshment plate was served to each of the following club members: Mes. Frey Bucy, Edwards, Finley, Huffaker, Wharton, Walker.

Prohl, R. W. Fenton Sr., Coy Fielders: Mes. Fred Bucy, Edwards, V. F. Jones, H. A. Nichols, Paul Pittman, G. M. Stewart, and three guests, Mrs. Lester Adams, Mrs. B. M. Hays, and Mrs. A. E. Herrington.

Mrs. Wenzel was recovering nicely and was released from the hospital and returned to her home Sunday.

The Wenzels lived at Wilson for many years and have many friends in this county who hope for Mrs. Wenzel's complete recovery.

The decisions reached by Roosevelt, Churchill, and Stalin at the Crimean conference held last week as announced by the President seem to have met with almost universal approval, by Democrats and Republicans alike, in this country. Doubtless they have the approval of the people of Russia, Great Britain, and most of the other nations of Europe as well. These decisions announce the determination to crush and destroy Nazism and militarism; to totally disarm Germany and control her industries so as to prevent the possibility of her starting another war; to punish the war criminals responsible for the present conflict but with no intention to destroy the German masses. It also assures collaboration of the three great powers in writing the peace and in guaranteeing the right of self-determination to the smaller nations respecting their internal affairs. These decisions seem to be so just and fair that little opposition should come from any of the allied nations or from the victims of German militarism. It is a cause for rejoicing also that the action of the big three indicates that these great nations will continue to cooperate in the maintenance of the peace of the world after this war is over.

rious infractions of the law does not reflect any credit upon our Negro population. Be it said, however, that most of the offenders are newcomers from other parts of the state. But, wherever they are from and however brief may have been their residence here, one thing is obvious, and that is that the Negroes of Texas need to be given better educational advantages and to be taught more thoroughly the lessons of morality, honesty, and good citizenship. We believe that right here in Tahoka, the construction of that Negro school building should be hastened and more religious instruction and inspiration should be given by the whites to the Negroes than we have been accustomed to give. We are strictly for the uplift of the Negro race, though that does not mean that we would ever favor special equality or intermarriage of the races.

ERROR CORRECTED
Rev. Leon Quillin, pastor of the Assembly of God Church, called our attention to a slight error that occurred in this paper last week. In giving the amount of the various contributions to the Infantile Paralysis fund, we referred to his church as the Tahoka Church of God when the correct name is the Assembly of God Church. Cpl. Charles Reid Writes From Belgium

Mr. and Mrs. Tom Reid recently received a letter from their son, Cpl. Charles H. Reid, who was in Belgium when the letter was written January 15. We give our readers a portion of it:

Dearest Mom and Dad: Far away but yet so near. Yes, far away when it comes to miles — but very near when it comes to memories of you. Remember last year at this time I was at Fort Sill within ten hours drive, or easy phone distance. Now, hours grow into days, and no phone at all. We still have our memories. These will always last.

I think I mentioned something about the beauty of this country in my last letter, but we saw the most wonderful sight the other day that I can remember — a very calm day around noon time when the sun was shining brightly. The sky was clear and the white snow glistened all across the countryside, and the fir trees were still and motionless, when, in the distance, we heard the rumble of planes. Looking high you could see the white vapor streams coming from the engines of the heavy bombers as they marked the sky across our position and flew far on over; you could see the flak bursts start popping all around and then the formation would split up in smaller groups and fly on through. Only one plane was hit and it did not crash, but started back for its base, like a small child when it has cut its toe and heads for Mother.

In another paragraph "Chuck" says: We are making ourselves at home in one of these Belgian homes. Everything is in good shape, and we have "souped up" some electric lights and a good cook stove, so as they say, We have it maid.

The letter included some very affectionate expressions to his parents, which of course brought a thrill of joy to them. This letter is probably typical of thousands of others that come to America from the fighting fronts of the world every day.

James E. Farr, P 2/c, who visited his mother, Mrs. H. Farr, at Grassland a few weeks ago, wrote his mother that he was taken off the train at Kingman, Ariz., for hospitalization for ten days, and was then sent on to San Diego, from which place he was being transferred to Newport, R. I.

Musick Fighting With Wolverines In Italy

With the Fifth Army, Italy— Pvt. Randolph W. Musick of Tahoka is a rifleman with the 837th "Wolverine" Regiment which recently took 3,000-foot Mont Pratone in the Gothic Line, digging German soldiers out of elaborate concrete pillboxes and earthworks on its forested slopes.

The regiment is with the 98th "Custer" Division, and lost a quarter of all the casualties it has suffered during seven months of warfare in Italy, in its first battle last May 13 in the attack on Tremenuoli.

The regiment won a bloody 72-hour battle at Terrancina, playing a key role in rupture of the Hitler Line. They moved on through Rome, up to Viterbo, and have been in combat ever since, struggling forward through the towering mountains that separate Florence from Bologna, overcoming great ob-

stacles made of mud, rain, wind and cold and living and fighting on the meagre supplies mules and men can carry to them on their backs.

Pvt. Musick's wife, Mrs. Frankie Musick, lives at Tahoka, Texas.

AMERICAN HEROES

by JULIAN OLLENDORFF

Lt. Comdr. George L. Earnshaw, USNR., Swarthmore, Pa., former pitcher for the champion Philadelphia Athletics and the Chicago White Sox, was awarded the Commendation Ribbon by Admr. C. W. Nimitz for meritorious performance as gunnery officer of a U. S. aircraft carrier at Truk. So effective was his anti-aircraft fire that three fast, low-flying enemy torpedo planes were destroyed in their repeated efforts to damage his ship. He used equipment bought with War Bond funds.

Prisoner of Japs Writes Parents

Mr. and Mrs. Lee Roy Stephens of Midway last week received another letter from the son Roy V. Stephens of the Japanese War Prisoners Camp, Shanghai, China. They had recently received two cards from him, but the letter just received was written nearly a year ago.

Roy was taken prisoner with the fall of Wake Island in December of 1941. His many friends will, no doubt, be interested in the following letter:

Dear Mother, Dad and All: I have received twenty-eight letters up to date of which the greatest number are from you. The latest one, dated April 19, being a year old next Wednesday, which is also the third birthday that I have spent in China. I am given permission to write about once every three months, so it is impossible for me to write to anyone except you. So, Mother, give everyone my best regards.

My health is of the best condition physically, but mentally I am becoming a joke. My last weight was 198 pounds, so I haven't starved yet.

There is nothing to write about, but if there was—you know how it is.

Hoping everyone is in good health and also that I will be able to return home before many months go by.

Tell Dad that we will make up for this last time at the race track. Best wishes and love to all. Love, Roy Stephens.

Mrs. A. E. Fultz underwent major surgery in a Lamessa hospital last Saturday and the Sinclair Clinic reports that she is doing nicely.

Earl Stone, who has farmed near Wilson and Tahoka for a number of years, has moved to White City, Gaines county.

Here & There: Evelyn Knight dining quietly at the Henry Hudson while conversation swirls all about her—silent Knight. . . Andy Russell sheepishly autographing the collar on a middy blouse (yes, they still wear 'em) of an ecstatic young fan while 50th street passersby look on with mingled curiosity and amusement. . . Peter Donald, the "Guess Who" comic, trying out his script on a part-waitress in the RCA Coffee Shop. . . Mary Jane Lawson, who's no slouch in the chassis department herself, grinning at the crowds ogling the Dietrich gam session on the "Kismet" display in front of the Astor theater. . . Annamary Dickey, "Rhapsody" star, hurrying along Broadway as if fearful of being late for a rehearsal or something. . . Mary Martin, strolling along wearing another cute little hat.

This & That: Romo Vincet (all 285 pounds) has been elected vice president of the Fat Men Over Forty club. . . Leon Leonard, conductor of the musical comedy hit, "Bloomer Girl," has given his dapple dachshund to the navy and now "Bookie" is mascot for naval boat YMS 124. . . Attention gals: More than 10,000,000 zippers have been released for civilian use. Also there's a report that genuine silk stockings will be on the market about the first of the year. Haven't been able to check that, however. . . Watch for the use of fluorescent ink as an advertising display innovation after the war. . . Don Bryan says that after a domestic argument, a man either goes to his club—or reaches for it.

Short Oncs: Jerry Freeman, just back from overseas and newly-appointed director of public relations for the VFW, tells of the GI who playfully asked a waitress if the ice cream were pure. "As pure as the girl of your dreams," she replied. . . So the GI ordered a ham sandwich. . . Evelyn Knight recently gave a party for her young niece and when she passed the cake dish to the youngster, the little girl carefully selected the largest slice. . . "Don't you know, my dear," admonished Evelyn, "that when you have company, it's good manners to help yourself to a smaller piece?" . . . "But, Auntie," the child replied, "I'd rather be honest than polite."

Tahoka Mexican In Fierce Italian War

With the Fifth Army in Italy—Pfc. Geronimo Pena, son of Mrs. Guadalupe Rodriguez, is a cannon-fighting in Italy with the 338th Infantry Regiment which has been credited with killing and wounding many hundreds of Germans and taking nearly 800 prisoners in four weeks of cold, bitter fighting.

The 338th is called the "old-timers" of Lt. General Mark Clark's Fifth Army, and are veterans of many bloody battles since their landing at Casablanca, in French North Africa, Jan. 7, 1944.

R. A. Cashion writes from Hollister, Calif., stating that he is working at the high school and junior college there as gardener and janitor and is being paid well for his services. He wants to get the news about his old neighbors and friends here regularly and so he sends in a contribution to The News saying that he misses the paper very much and wants it to start going to his address again.

Mr. and Mrs. K. L. Sproles of Portales, N. M., are here for a two weeks visit with their son, Elmer Sproles, and family of Route 4.

Rotary Institute

(Cont'd. from first page)
 be: Feb. 28, M. P. Greenwood-Adams, "Australia, New Zealand, and the Islands of the Pacific"; March 7, Samuel D. Rosen, "Russia's Position, East and West"; and March 14, Major H. G. Scott, "The Role of the North American Continent."
 Mrs. Fitch, the speaker next Wednesday night, has lived in China 25 years. Her husband, Geo. A. Fitch, is still in Free China. He is a Mason, a Shupier, and past-president of both the Shanghai and Chungking, China, Rotary clubs.
 Mrs. Fitch, an author, newspaper reporter, and lecturer on the Far East, was born in Michigan, and after completing college work, she accepted an assignment that necessitated extensive travel in China.
 She sailed for that country 25 years ago on a steamer which carried 2,000 Chinese coolies home from the war in France. She left China during the first year of Japan's invasion to take her two youngest sons out of air-raids, leaving her husband and two grown sons still in war-torn China.
 Friend of Chinese women from Madame Chiang-Kaishek on down, Mrs. Fitch was chosen a member of the Chinese delegation to the Pan-Pacific Conference in Honolulu in 1930. Past president of the American Association of University Women, she has kept in close touch with the women of her own race as well as those of her adopted country.
 Mrs. Fitch thought life in America ended where life in China began. Not so. She returned to this country to be the only woman to testify before both Senate Foreign

Relations and House Foreign Affairs committees on neutrality revision and the Far East, attracting international attention by her unusual understanding of Far-Eastern affairs.
 She has also been much in demand as a speaker on China, and has made 17 transcontinental trips, either to protest the sale of war materials to Japan, to raise relief funds, or to lecture on Rotary Institutes of International Understanding.

Mrs. Fitch has been a feature writer for the leading English daily newspaper in Shanghai, a book reviewer for China Weekly Review, and has had many articles in the newspapers and magazines in this country.
 Tahoka is fortunate in securing this series of speakers. In fact, the town and club is indebted to the Rotary International organization, which sponsors these internationally known speakers as an educational project in world affairs.
 Each speaker is said to have rare personality, common sense, and is popular, practical talker that the layman can enjoy hearing.

Mrs. Sarah Bailey

(Cont'd. from first page)
 this county.
 "Granny" Bailey, as she was affectionately called, was a native of Alabama. Her maiden name was Sarah Delilah Bishop, and she was born on June 20, 1861. She grew to womanhood and married in that state, the name of her husband also being Bishop. All of her children were born of this marriage. She, and her family came from Alabama to Wilbarger county, Texas, about 45 years ago, where her first husband died, and there she was married again, her second husband being Rev. Bailey, a Baptist minister. He lived only a short time after their marriage. In 1919 she came to Lynn county and this has been her home ever since.
 She united with the Baptist Church in early life and was a faithful and devoted member. She had hosts of friends in Lynn county.

J. E. Wilkins of this city was treated at Tahoka Clinic Monday for a painful cut on the chin, sustained while he was milking and caring for his cow that morning. He remained at the Clinic all day, but is now at home.

Lee Sanders, former citizen of Lynn county, who moved out to New Mexico some time ago, writes that he has bought a farm near Plains in Yoakum county and will make his home there.

Only Pinheads of Blood Needed for Analysis

Some blood tests, speedy and life-saving, now can be made by chemistry under the microscope with only a pinhead of blood, and science can look forward to the day when a complete analysis of many components can be made with only one drop of blood. So precise are the tiny instruments used in this micro-chemistry that even in a pinhead-sized dot of blood they can analyze materials weighing less than one microgram—or 1/30,000,000 of an ounce.
 It has long been known that the chemical composition of blood changes in disease. But in the early days of blood analysis it took as much as half a pint of blood, for example, for each duplicate sugar analysis in diabetes. Through the years methods were developed until samples as 3/4 to about 3 1/2 thumbtacks of blood could be used. These delicate methods permitted analysis for materials amounting at times to more than 20 micrograms in the specimen.
 With these micromethods, the demand grew until in some cases analysis was asked for as many as 30 components in a given blood specimen. If they were to be done in duplicate, such tests might have required as much as 100 to 200 cubic centimeters of blood serum or plasma, representing 300 to 600 cubic centimeters of whole blood. Taking this amount of blood was not desirable, and in most cases the determinations were not undertaken at all, even though the clinical condition warranted it.

Use Water to Flush Oil From Marginal Wells

Since 1936, more than 4,000,000 barrels of oil have been recovered as the result of the injection of about 41,000,000 barrels of water—a ratio of one barrel of oil to 9.66 barrels of water—according to the bureau's report which was prepared by Peter Grandone, petroleum engineer at Bartlesville, Okla., in cooperation with the Kansas state board of health.
 The application of secondary-recovery methods is a most valuable conservation measure in that it prevents the premature abandonment of producing properties and also is one of the most promising measures for relief of the present acute shortage of crude oil.
 Water-flooding—the introduction of water into formations through some wells to drive the oil toward other wells for pumping to the surface—began on a planned basis in Kansas in 1935 with the passage of a state law authorizing this method of petroleum recovery. By 1936, three initial projects had demonstrated the practicability of the method, and by November, 1942, the practice was being followed in 13 counties.

Remove Honey

As soon as the aster flow is over, which usually is around mid-October the surplus goldenrod and aster honey should be removed promptly from the bees. In many cases the aster honey may not be thoroughly ripened—that is, the honey may be thin because of the high-water content. Goldenrod honey, and especially aster honey, granulate rapidly during the cool fall weather and it is important to remove the honey before it granulates in the combs.
 In the case of honey in extracting supers, it should be placed in a warm room (85 degrees F.) several hours; it will then extract more easily from the combs. Another word of caution is not amiss in urging beekeepers not to leave such fall honey in storage tanks too long. When the honey has settled in the tanks it should be run out in 60-pound cans. When fall honey starts to granulate in tanks it frequently will granulate solid in three to seven days.

Dinner guests in the home of Mr. and Mrs. L. B. Jones of Draw last Sunday were: Mr. and Mrs. Russell Vernon, Mr. and Mrs. Burl Aycox of Tahoka, Mr. and Mrs. J. P. How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1—Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2—Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.
