Hitler Kills Self. By Armed Service Nazis Surrender

In view of statements appearing elsewhere in this paper, it should now be stated that new reports were flashed over the world Wednesday that Hitler was dead, and President Truman was quoted as declaring that he "knows officially that Hitler is dead."

Credence was given by Russian high officials to the report that both Hitler and Propaganda Manister Goebbels had committed suicide in Berlin as the Russians were completing their occupation of the city. An infantry general named Krebs was also reported to have committed suicide.

So many of the military leaders and their armies were surrendering that it could be definitely announc+ ed that the war is practically over in Europe except for some stiff resistance by the Nazis on portions of the Russian front. But the mopping up process may require

The pastor made the local church reports of some of the accomplishments of the five months of the Conference year. Some 51 additions to the churhc; on a quota of \$1896.00 for the Crusade for Christ, \$1954.00 were raised in cash the past two months; \$813.00 for the Orphans' Home at Waco; all finances are paid up for half of the Conference year; total raised and expended, \$6,952.00.

Emphasis for the remainder of the year will be on evangelism and an increase of Sunday School enrollment. Every department of the church is urged to work to this end. Visitation evangelism will make a strenuous campaign throughout the district some time soon. This was done last year and scores of people were reached. You will be called on for some phase of this work.

Last Sunday two additions by vows came into the membership of the church and one baby was chrisened. The church work is moving along splendidly. Are you attending? If not, begin this Sunday .-Reporter.

MODERN BEAUTY SALON

It'll be fun to prepare dinner

... in a kitchen like this

... because there won't be any annoying inconveniences such as a cabinet or refrigerator in the wrong place, a work surface the wrong height, or too little storage space. This is a "New Freedom Gas Kitchen," planned to bring you new freedom from wasted energy and time, heat, and unwanted cooking odors. Embodying the suggestions of thousands of women, designers, and researchers, it is scientifically arranged for the convenience, comfort and personal satisfaction of every woman who cooks. Efficient beyond your fondest dreams, it will also be colorful and charming. This wonder workshop is the post-war promise of the Gas Industry to America's women.

WE ARE DISILLUSIONED

Until recently the masses of Germans could easily have found forgiveness on the part of most of us soft-hearted Americans for their part in this wicked war of German aggression. We had been told and believed that originally they had been flatterd and inveigled and goose-stepped into the war under the spell of Hitler, that later they had followed along through fear of Hitler and the Gestapo and that even some of the soldiers were fighting with bayonets to backs, and we hoped and expected masses would become so rebellious that the country would collapse and the war would end. Until reently millions of our people were still hoping and looking for this collapse to come.

But it didn't come. It hasn't ome yet. The German armies have fought on and on to the last ditch. The German masses have backed them up every step of the way. The fury and flendishness with which the soldiers have fought and the stubbornness and fanaticism with which the civilians have backed them up have reently dis-

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramplike agony and nervous strain of functional periodic distress. Here's how it may help:

1-Taken like a tonic, is should stimulate appetite, aid digestion, thus help build resistance for the "time" to

2-Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

NEW HOM GIRLS' 4-H CLUB PLANS MEETINGS

The New Home Girls' 4-H Club met in Miss McCormick's room at 9:30 a. m. Monday, April 30. Joy McClintock, president, presided. Bernadine Rudd led the group in several songs in the opening exercise. Following the reading of the minutes by Wanda Lee Todd, secretary, plans were made for the meetings in June, July and August.

The county home demonstration agent, Miss Carolyn Dixon, encouraged the use of more and cleaner milk in the food we eat.

A menu was planned using milk that will be prepared and served to the club members in the "Table Service Demonstration" to be given in June by the Agent.

Forty-two were at the meeting.

714 WAR LOAN DRIVE

VES, despite their long months and years of privation and suffering, those gallant men, just released from filthy Jap Prison Camps, still have their good old fighting spirit. They're itching to get back into the fight and give the Nips a taste of their own medicine.

Let's show them that we're not quitting either! Let's match their spirit with our dol'ars! Let's make this MIGHTY 7th War Loan the mightiest of them all!

But to come even close to matching their sacrifices, everyone here at home must buy War Bonds until it hurts. Buy double or treble the extra War Bonds you've bought in any previous drive. Remember, this is really two drives in one. In the same period last year, you were asked to subscribe to two War Loans.

So let's go, Americans. Our hard-fight-ing Soldiers, Sailors and Marines are giving their ALL. The least we can do is to lend our dollars.

It sure is a headache!

Sure, everybody knows that right now quality oil is more important than ever before...but even motorists who are twenty times as old as our troubled little friend, don't know how easy it is to choose a quality lubricant.

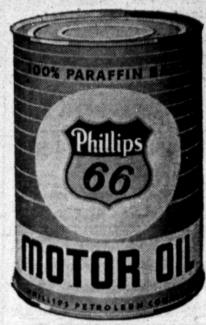

They may be misled by bad advice from well-meaning friends, befuddled by claims, or low in sales-resistance to high-pressure selling. So choosing a quality oil can become a chore, a bore, and a headache.

Well, Phillips puts an end to your oil worries, and tells you how you can pick quality with certainty every time.

You know that oils may differ greatly...in chemical composition, in lasting power, in stability...and in other ways. And Phillips offers a number of differing lubricants to meet various preferences of car-owners.

But if you want our best oil, remember that Phillips tells you frankly that Phillips 66 Motor Oil is our finest quality...the highest grade and greatest value...among all the oils we offer to motorists like yourself.

Don't forget! It's time to drain and refill with fresh, summer-grade Phillips 66 Motor Oil.

It's Phillips Finest Quality

For Future Wars

Jet Propulsion Brings Up Serious Problems.

WASHINGTON .- Creation of new wars have been called for by Maj. Gen. G. H. Barnes, chief of research for U. S. ordnance.

General Barnes did not specificalhe's tall, and has brown hair, big ly mention rockets in a report to the first wartime meeting of the e likes football and played on the National Academy of Sciences. But the jet plane needs he outlined are most exactly the same as those published for rockets before this war

The new alloys, he said, are needed to stand extraordinary heat. This heat comes from the explosive discharge of hot gases, or of the series of separate rapid-fire explosions, which drive a jet plane or rocket.

The rocket heats in the past have been extremely high, apparently being above the jet plane heat.

"The introduction of jet propul-sion into war materiel," General Barnes said, "creates an additional The first battle of the Civil War need for steels to withstand abnormal elevated temperatures. The alloys now available are costly, difficult to produce and may not be available in sufficient quantity should this development become

> Another future war possibility is use of boron, tellurium and other chemical elements for alloying the materiels that go into ordnance.

Boron, he explained, has been used in American steel-making in this war and its use is still widening. Boron, familiar to the public only as boric acid for eye washes, AMERICAN HEROES was one of the numerous things which enabled the nation, when alloys were critically short in the present war, to reduce the alloy content of shells and armor by one quarter, without reduction in efficiency.

Among the great scientific strides in this war, he said, are casting ermor plate instead of rolling. Casting was started with practically no knowledge of the process. Before the war Swedish steel was used almost exclusively for high-stressed springs. Now a new method, still secret, produces much better springs.

Maxwell Carey, son of Mr. and Mrs. C. S. Carey of Post, Rt. 2, and Mrs. T. J. Cook of Post underwent tonsillectomies recently at l'ahoka Clinic.

Use Russian Dandelion

To Produce Tires in U.S. COLUMBUS, OHIO. - The B. F. Goodrich company of New York and the Goodyear Tire & Rubber company of Akron, Ohio, have announced that they are producing tires from the Russian dandelionkok-sagyz-according to the Farm council

The tires appear to equal those made from Hevea rubber trees, the report says, though only a limited number have been made. A larger supply, it is expected, will be available next year.

The Russian dandelion is much higher in latex content than our home-grown variety and has a thicker rootstalk. Good yields have been secured from plantings in Russia.

Following a report on the dandelion made two years ago by Dr. Paul Kolachov of J. Seagram & Sons, Louisville, requests poured in for seed. Through the intervention of the state department, 200 pounds of Russian seed were brought over by airplane.

The seed was distributed among several midwest experiment stations for trial plantings. A number of private plantings also were made. The experimental tires came from these

Hesitate to Unlimber ALLIED HEADQUARTERS, PHILIPPINES .- Here is the Filipino guerrilla blueprint for a homemade firearm:

Take one length of pipe into which put a 12-gauge shotgun shell. Fit it into a stock. Whittle a stopper and drive a nail through it so the point protrudes into the pipe. Attach a rubber band to the pipe around the back of the stopper.

Pull the stopper back over the catch and start hunting. The technique is to sneak up within 10 feet of a Jap, point the gun and release the catch.

Let's raise the money in the MIGHTY SEVENTH

OUR FLAG flies once again over Corregidor. The cost was great in blood and pain, but our fighting men did not turn back. And on Iwo Jima, four thousand men-more and more—died to take the long step forward to Vic-tory. Twenty thousand others suffered wounds. Yes, we're on the way to At home, your contribution to Vic-tory is measured in dollars. The Seventh

War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone.

That means you must buy more and bigger War Bonds.

This is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans. As our fighting men raise Old Glory all over the world—let's raise the money back home!
