Number 48

Lynn County Reaches Quota on Bond Sales

When the 7th War Bond campaign came to a close last Saturday night, Lynn county had exceeded its quota of bond purchases of all types by \$70,753. Its quota had been fixed at \$650,000.00. Purchases of all types amounted to \$720,735, according to Truett Smith, the bond campaign county chairman. Truett Smith, county chairman Truett Smith, were chairman.

However, the county failed to purchase its full quota of E bonds. The E bond quota was \$335,000 and the county purchased only \$296,042.50, falling by \$38,957.50 to reach the goal.

The First National Bank of Tahoka was the chief bond selling agency in the county. It alone accounted for sales of all types amounting to \$606,420.

While the county fell short in its purchases of E bonds, it made an outstanding record nevertheless considering crop prospects during and at the close of the Campaign. Not enough rain all the year to bring up crops, and the cotton planting season had just about passed. The county was facing apparently the most complete crop failure in many years.

Broken down, the results of the drive as of June 30, as given by County chairman Truett Smith, were as follows:

First National Bank of Tahoka, total sales of all types of bonds, \$606,420; E bonds \$197,800; First National Bank of O'Donnell and O'Donnell Post Office, all types \$69,394.25; E bonds, \$56,303.75; Wilson State Bank, all types, \$34,350; E bonds \$31,350; Tahoka Post Office E bonds, \$10,120; Wilson Post Office E bonds, \$468.75.

Local Men Buy Radio Shop

A deal was consummated last week whereby S. E. Reid sold his radio shop to R. L. Richardson and C. G. Franks, and the new owners have already taken charge of the business. They are expanding the business to include general electrical work.

J. R. Densman will remain with the new owners as radio mechanic and repair man.

Both Richardson and Franks have long been connected with the Southwestern Public Service Company, Mr. Richardson as ice plant operator and delivery man, and Mr. Franks as lineman and service man. Frank Bryan of Post is Mr. Richardson's successor and plans to move over as soon as he can find a house in which to live.

Jim White, who has been connected with the soil conservation office here for some time, is Mr. Frank's successor.

Notice For Servicemen

The News has received the following instructions from the Branch Office of Public Information, Eighth Naval District, Dallas.

"Facing gigantic mail problems the Navy is putting into effect regulations restricting the mailing of newspapers and magazines to Navy, Marines, and Coast Guard personnel overseas. Beginning July 1, 1945, post offices will accept only publications that are requested in writing."

This order removes quite a large number of subscribers from our mailing lists. Parents and wives who have ordered the paper sent to their sons or husbands serving in the Navy, Marine, Coast Guard, should procure signed orders from their sons or husbands for the paper and file it with the News.

The News makes no profit out of these subscriptions but we are willing to send the paper at the regular rates to those who will comply with the new Navy regulations.

This order does not apply to men in the army, either at home or overseas, but their subscriptions will be discontinued as they expire unless renewed.

Buy War Bonds

Lt. Price Sends Trophies of War

John G. Price was roaming around town Monday with a double-barrel shot-gun; but it wasn't loaded and no intention of doing anybody harm. It was a Krupp 16-gauge German weapon that his son, Lt. G. C. Price had sent to him from Germany, as one of the trophies of war. In a recent letter he told his dad that he also had five German pistols that he hoped to be able to bring or to send back home. Last week he sent his mother a big German flag, which some Nazi had doubtless surrendered to him in the belief that he probably would not see a Swastika rag again during his lifetime.

Lt. Price entered the services on April 15, 1942. He is a graduate of the Tahoka High school and of the School of Embalming at Dallas, and had been following his profession as an embalmer at El Paso prior to his entry into the service.

Pfc Jake Holcomb Arrives Home From Germany

Pfc. Jake J. Holcomb, son of Mr. and Mrs. B. R. Holcomb of New Lynn, came in home Monday night after a service of three and a half years in the armed forces. Furthermore, he came home with an honorable discharge which was given him at Fort Sam Houston Sunday.

Pfc. Holcomb was inducted into the army on November 19, 1941, almost three weeks before the Japanese attack on Pearl Harbor. He was sent overseas in August, 1942, and saw service both in North Africa and in Sicily. Later he was in the invasion forces that landed in Normandy, and it was in France that he received the only wound that he suffered in his entire period of service, a slight shrapnel wound in the right leg, which sent him to the hospital for four days only.

From France he went on with Gen. Patton's army into Germany as a member of the 49th infantry, 9th division. In the army he was an ammunition bearer, his duty being to take ammunition by truck to the troops in the front lines, unload and prepare it for immediate use.

He left Germany on May 18, and then was sent back to his home. He had received a number of service awards and has earned the discharge which was delivered to him Sunday.

Services Held For Pvt. Jack Edwards

A Memorial Service was held last Sunday morning at eleven o'clock at the Grassland Methodist Church for Pvt. Jack L. Edwards, who was killed in action on Luzon Island, one of the Philippines, on June 2. Announcement of his death had been sent to his parents, Mr. and Mrs. W. H. (Buck) Edwards of Grassland several days previously.

Pvt. Edwards had been in the service about nine months, taking his army training at Camp Wolters, Texas, and at Fort Ord, California. He was in the Radio and Communications Unit with the 32nd Division and had been overseas only since April 4, this year.

Survivors are his wife, the former Rose Jean Bailey of Post, one daughter, Cheryl, his parents, one brother, Willis Sam Edwards of the U. S. Navy, and four sisters, Mrs. Roy Leonard of Grassland, Mrs. Houston Hoover of San Francisco, Mrs. J. H. Sewell of Ferriday, Louisiana, and Mrs. Bryan Wright of Woodrow, Lubbock County.

The service was conducted by Rev. Jesse Young, former pastor, and Rev. J. E. Stephens, present pastor of the Grassland Methodist Church. The music was furnished by a choir made up of the members of Mrs. Edwards' Sunday School class of the Post Methodist Church.

Scores and scores of friends in Lynn and Garza Counties will long cherish the memory of Pvt. Jack Edwards.

U. S. ARMY BADGES OF HONOR

Released by U. S. War Department Bureau of Public Relations

We Thank Our Neighbors

The News is greatly indebted this week to Eddie Warren, the publisher, and Dan Cockrum, foreman and Linotype operator, of the POST DISPATCH, for the use of their Linotype machine and for other assistance given in the publication of this paper.

Due to machine trouble in the News office, we found it impossible to get much of our type set here, and had to call on our neighbors who are always ready to aid when called upon. The Dispatch force have been "friends in need" to us in a few emergencies heretofore, and we genuinely appreciate their kindness.

Frank P. Hill, who has been serving as Linotype operator as well as about everything else in this shop since the early stages of the war, has been away the past two weeks on his vacation, and the senior editor and two other young chaps had to get out the paper alone last week and this. H. L. McMillan and Wilburn Reagan did a good job of it last week, barring a few typographical errors, and would have done so this week if serious machine trouble had not developed.

Here's a hand to you, Eddie and Dan, for your "present help in a time of trouble."

Congratulations to:

Mr. and Mrs. Jasper Campbell of Wilson upon the birth of a daughter in Mercy Hospital, Station, on Wednesday morning of last week June 27. The buxom young lady weighed 9 lbs. and 10 oz. and bears the name of Cherry Nan.

School Equipment Drive Under Way

THE SCHOOLS OF THE NATION are doing their part in the Seventh War Loan Drive by conducting an Equipment Campaign. As each piece of equipment is bought through the sale of War Bonds its picture is pasted on the board until the soldier is equipped. Dona Overton, country student, of Milwaukee High School, Oregon, shows Shorley Potter, city student, of Lincoln High School, Portland, Oregon, how it's done.

Ollie Wright Dies In Austin

Funeral services for Ollie Wright long-time resident of Tahoka, were conducted at the Methodist Church here at 4:00 o'clock Wednesday afternoon by the pastor, Rev. H. A. Nichols, assisted by Rev. A. C. Hardin, former pastor of the Baptist Church here. The remains were interred in the Tahoka cemetery under the direction of the Harris Funeral Home.

Ollie, as he was familiarly known, died soon after five o'clock Monday afternoon in Austin, where he had spent the past several months. Mr. and Mrs. George Small and Mr. and Mrs. Claud Wells hurried to Austin upon being notified of his serious condition and followed the remains back to Tahoka, which were brought here by a Harris ambulance driven by Louie Weathers accompanied by Maurice Small. The body arrived late Tuesday afternoon.

Survivors include two sisters, Mrs. George Small and Mrs. Claud Wells of Tahoka, one brother, Dr. Wright of Fort Worth, and numerous other relatives.

Born on June 9, 1885, Ollie came from Brown county to Lynn county with his sisters and with George Small about forty years ago, and he had resided here practically ever since. During all this time, as his health permitted, he was a familiar figure on our streets. Though afflicted, he appreciated his friends and had a friendly feeling for every body. Probably he never consciously or intentionally did a wrong to any person.

May he rest in peace.

Sgt. Preston F. Buchanan Awarded

Fifth Air Force Service Command, Philippine Islands—Sergeant Preston F. Buchanan, husband of Mrs. A. A. Buchanan, Tahoka, is a member of an organization recently commended by Air Force's Maj. Gen. Ennis C. Whitehead for skillful defense of an advanced air base against infiltrating Japanese troops in the Philippines.

The letter of commendation stated, "although your primary training and mission is not direct ground combat with the enemy, officers and men demonstrated unquestioned qualities of leadership and fighting spirit that will result in the utter extermination of the Japanese."

Sergeant Buchanan is an aircraft technician with a unit of the Fifth Air Force Service Command, which supplies, maintains and repairs Fifth Air Force fighters and bombers.

Eclipse of Sun Visible Here Next Monday

If you sleepy-heads will awake next Monday morning before sunrise you may see the King of Day come up over the eastern horizon in partial eclipse. If not, he will go into eclipse soon after rising.

That is the dope that the astronomers are giving to the people of the United States, and they never miss their calculations by as much as split second for any given locality.

So punctual and systematic are the movements of the heavenly bodies that though they are millions of miles away, mere finite men may be able to tell today, to a gnat's heel, where each of them will be tomorrow or any day, next year or even hundreds of years from now. The sun springs any surprises as to where he is going. The same with the moon.

So, if you will watch next Monday morning, and if the sky is cloudless, you will see the almost invisible moon moving right in between you and the sun and dimming his luster, for a few hours. And that no doubt is why they call her Queen. Just watch her maneuvers next Monday morning.

District Attorney Calloway Huffaker left early Monday morning for Austin on official business.

Showers Cover Big Portion of Lynn County

With the coming of July came also relief from the hot weather that prevailed last week and, came furthermore a series of cloudy, drizzly days that brought renewed hope and happiness to the hearts of many a crestfallen farmer.

Rainfall in Tahoka Sunday amounted to .19 of an inch, Monday and Monday night to .28, and Tuesday .25 a total of .72.

That set the cotton and the feed to poking their tiny heads up above the soil, looking healthy and happy. A lot of cotton and feed have come up this week, though the cotton acreage will be greatly reduced. In many localities so little rain had fallen that most of the land had not yet been planted. Practically all that is planted hereafter will be planted in feed, for farmers do not bank very strongly on July planted cotton though it has been known to make abundant yields.

Of course the rain that has fallen thus far this week will not keep it young cotton and the feed growing many days, but July usually produces an abundance of rain, and it is possible for Lynn county to make a bumper feed crop yet, and more cotton than the ordinary East Texas county ever made.

The rain was light but nevertheless it was glorious.

Speckig of hot weather last week was a hummer. One day the thermometer here registered a high of 107. Another day the mercury rose to 104, and about three days it reached the 100 mark. Those hot winds were terrific, and they were about to play havoc with all the seeds that were sprouting. July brought happy relief.

Former Prisoner of Germans Back Home

J. H. Poindexter of Wayside dropped into the News office last Friday just to let us know that his son, Pvt. R. V. Poindexter, who had been a prisoner of the Germans for more than two years, had arrived back home.

Pvt. Poindexter, he said was looking fairly well but was still very weak, although he had gained quite a bit of flesh since he was liberated from prison on April 26.

He almost starved to death, the son had reported to him, during his first five months of imprisonment then he fared better for awhile, but hunger had been haunting him again during the last year he was in prison. During that time he was repeatedly shifted back and forth between the approaching Russian army on the east and the allied armies on the west, and they didn't get much to eat except what they could steal from the fields, hedges, and barns while on the move, he declared that is, not much, but rotten potatoes and spoiled horse meat.

Naturally he was delighted to get home.

Calvin Underwood Killed by Truck

Mrs. Charlie Latham received a telephone call on Wednesday night of last week telling her that a grandson, Calvin Underwood, 14, had just been run over by his uncle's truck and killed in Abilene.

She and two children, Doris and Mattie West, left for Abilene early Thursday morning and attended the funeral services, which were conducted that afternoon.

The boy had been helping to load and unload the truck and after his job was finished he lay down just back of the rear wheel. Later when the Uncle mounted the truck and backed it out to drive away, he did not see his nephew, who doubtless had gone to sleep, and the wheels crushed his breast and killed him almost instantly.

The boy's mother, Mrs. Underwood, is a daughter of Mrs. Latham. Mrs. Latham and the two daughters who went down with her came back on Tuesday of this week, accompanied by the former's son, Tom, who was down there when the accident occurred.

NOTICE TO THE PUBLIC:
Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of The Lynn County News will be gladly corrected when called to our attention.

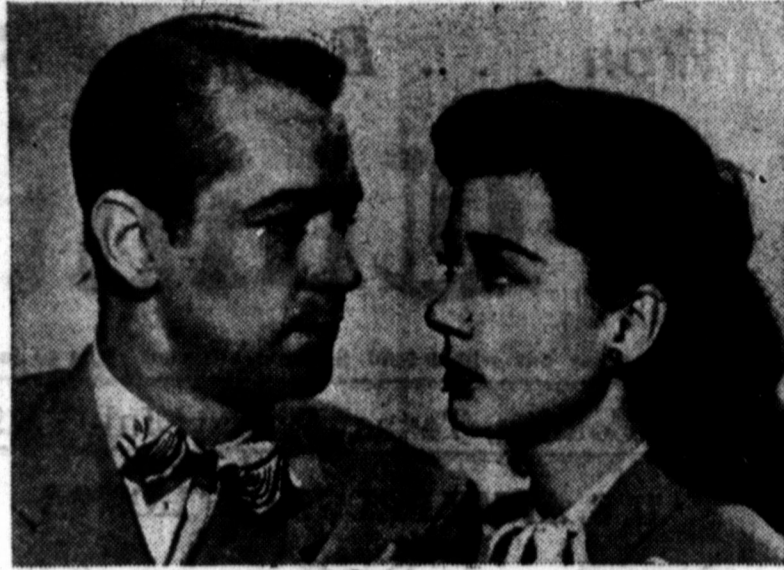

One of the new Cabinet members is a Texan, Tom Clark of Dallas. He becomes attorney-general. He has been serving as assistant attorney general, and they say he has made quite a reputation as a capable lawyer. A near-Texan, Clinton P. Anderson of New Mexico, goes into the office of secretary of agriculture. He has also been given the job of Food Administrator. He has been serving in Congress and seems to have the confidence of the members of that body. Frances Perkins has retired from the office of secretary of labor, and Lewis B. Schwellenbach of Spokane, Washington, who has served both as a United States Senator and federal judge became her successor. He may be a better secretary of labor but it's a safe bet that he will not serve as long as she has. Frank Walker, who had not served but a few years as postmaster-general, has been replaced with Robert E. Hannegan of St. Louis, chairman of the National Democratic Committee. It's a cinch that he is a shrewd politician, otherwise he could never have been National Chairman. He will run the post offices of the country and doubtless do his part in running its politics too. So, President Truman is making rapid progress in his program to give the country a new deal in its Cabinet personnel.

As one of the U. S. delegates to the San Francisco Conference, Tom Connally of Texas won new laurels in the discussions and the achievements of that body as a debater, leader, and international statesman. He was the spokesman not only of the U. S. delegation but also of the entire "Big Five", the United States, Great Britain, Russia, France, and China, in their fight for the veto-voting power in the security council decisions on the use of peaceful measures to settle international disputes. We do not pretend to know all about the merits of the veto, but we do understand that it retains for the Big Five the whip hand in the settlement of these disputes. Connally led the fight, and Connally won. He is recognized in Washington and throughout the United States as one of the big men of the U. S. Senate and as one of the leading statesmen of the world in international affairs. We are proud of Our Tom.

Until recently, a military clique in Japan was supposed to be running the war. Emperor Hirohito was believed to have little power. But recently Hirohito has been taking over. Ostensibly at least he has assumed supreme authority and responsibility. All along, so far as the Japanese people are concerned, he has been the high muck-a-muck, the chief mogul, the very son of Heaven, the nearest thing to a God that the Japanese people have. Therefore we think that War Correspondent James R. Young is right in contending that he should be the chief target of our air forces. If they could drop a bomb onto the Imperial Palace with the emperor in it and blow the whole shebang to smithereens, we imagine the Japs might begin to wonder what in the world they would do with a dead god on their hands. Maybe a lot more of them would commit hari-kari and the rest of them surrender. Any way that's Jim Young's idea, and we half way believe it is a good one.

Mrs. Clay Hughes returned last week from a visit with relatives in California and was accompanied home by her sister, Mrs. Lynn Nevill.

Alan Ladd and Gail Russell find a mutual interest in each other in this scene from Paramount's latest thriller, "Sally O'Rourke."

RECIPE FOR CO-OPERATION

W. P. McCoy, director of personnel for the U. S. State department, has a recipe for getting the best out of his workers. It is one which all others will do well to study.

His recipe:
"Give two pats on the back for every kick in the pants."
That sort of thing should work wonders in any organization.

ERROR CORRECTED

In our story last week about the new residences being built in Tahoka, we erroneously listed John Boydston as the owner of a new, modern, tile and stucco residence being built on North Sixth street. This house is being built by W. S. ((Skip)) Taylor.

Well, there are five brand-new cabinet members in Washington. Only one of them, James F. Byrnes, who was appointed Secretary of State a few days ago and whose appointment was promptly confirmed by a unanimous vote of the Senate Monday, is a top notch political figure in Washington. He has served in many important positions. He was a leader in the United States Senate as long as he was there. Then he was appointed by President Roosevelt to the Supreme Court, and served on that great tribunal several months, stepping down to accept another job offered him by the President, some kind of War mobilization job, and in that position he was known as the assistant President. He was a favorite of Vice-President on the Roosevelt ticket at the last Democratic convention until labor leaders raised objection to him and he was dropped, but the labor leaders choice, Henry Wallace, was also dropped, and Senator Harry Truman got the plum, which soon was changed into a mighty big plum and now Harry Truman makes Jim Burnes his secretary of state. And Jim will accompany the President to the meeting of the Big Three, Truman, Churchill, and Stalin, in Berlin soon. Jim Byrnes is a South Carolina boy who has made good in every position he ever held. And unless the law is changed, he would become President in case of the death of Harry Truman.

CARD OF THANKS

We wish to express our appreciation to you, our friends, for your kindness and consolation in the loss of our loved one. Your thoughtfulness has made our grief easier to bear.—Mrs. Jack L. Edwards and Cheryl, Mr. and Mrs. H. W. Edwards and family.

WEST POINT 4-H MEETS

The West Point 4-H girls met in the home of Mary Ann Tankersley Wednesday, June 27th. Lunch was planned, prepared, and served by the club.

After the main course is finished a daughter or son rises and places partly folded napkin at the left of the plate. The food should be removed and serve all dishes from the unused silver. Start with the hostess when removing the soiled plates. It is easy to remember to remove and serve all dishes from the left with the left hand except the beverages which are placed and removed from the right.

In July the club will meet with Those present were: Lu Ann and Jane Taylor.

Those present were: Lu Ann and Jane Taylor, Nelda Schaffner, Lola Ramsey, Jolene Bragg, Miss Dixon, and the hostess and her mother.

Misses Joreta Hill and Mamie McClellan are visiting with the former's relatives at Stephenville, expecting to be away about two weeks.

Consistent Cleaning Adds To Life of Rugs

Consistent cleaning is a rug's greatest lifesaver. Rugs in constant use should be thoroughly cleaned at least once a week. Occasionally the backs should receive attention also, for dirt and insects tend to work through the rug so they cannot be picked up by surface cleaning.

Vacuum cleaning is the easiest way to clean a rug. Moved in long strokes crosswise on the rug, a vacuum cleaner picks up insects, crumbs and dirt with a minimum of wear on the pile. Remember to empty the vacuum bag each time after using, for the cleaner operates efficiently only if the bag is dust-free.

If a broom must be used, be sure the straws are soft and pliable. An energetic homemaker, who jabs at her rugs with a stiff stubby broom does them more harm than good. Rugs should not be beaten or shaken, for this loosens the tufts. In addition to careful cleaning, years may be added to the life of a rug by using a pad under it, especially if the floors are rough or uneven. Put glass furniture rests under the legs of all heavy furniture, and make sure that doors do not scrape the rugs.

Night Shift

ON THE FOOD FRONT

**THEY DID IT BEFORE—
THEY CAN DO IT AGAIN**

With Farmall Tractor Power

Throughout the Spring, from the Rockies to the Atlantic seaboard, worried farmers searched the skies for signs of clear weather, but the cold rains fell relentlessly.

For more than a month the seed should have been germinating in the warm soil. Millions of acres lay unplanted because the ground was too wet for preparation of the seed bed and too cold for germination of the seed.

Only a generation ago there could have been but one outcome—crop shortage and food scarcity. Nature allows scant time for planting when the warm sun waits till late May or June before drying the soggy soil. Horses are too slow and tire too quickly to get the job done then.

But the farmers remember May of 1943—only two years ago—when their fast, untiring tractors averted crop failure. Then, too, rains flooded the fields and the month was all but spent before they could get in on the land and plant.

In 1943, most farmers drove their tractors from dark to dark, and longer. Many planted around the clock, working in two or three shifts. They made one of the greatest crops in history.

In today's war-torn world—with hunger and disease already stalking many peoples—even one major crop failure could bring famine. This is why the sound of tractors and planting machinery was heard, day and night, from the Plains states to the Eastern seaboard—why headlights stabbed the darkness over the fields.

America's farmers are doing it again, in spite of an unprecedented combination of adverse circumstances—bad weather, shortages of machines and shortages of manpower. For the second time in three years, they are relying upon their tractor-powered machines to help rescue large areas of the world from catastrophe. More of these tractors are products of International Harvester than of any other company.

Southland News

(By Mrs. Floy King)

Rev. E. C. Armstrong returned from Georgetown Saturday after attending the pastor's school there.

Mr. and Mrs. F. O. DeBusk and children of Post have moved here and Mr. DeBusk is the new mechanic at the Basinger-Mayfield shop.

Miss McMahan and a girl friend, Miss Lucile Dawson of Lubbock, visited the Bob Russell family Sunday.

Mrs. Harvey Stotts and children have returned home after visiting relatives.

Mrs. B. H. Thomas of near Lubbock, formerly of Southland, was carried to Lubbock General hospital on Sunday.

The A. M. Turners returned Tuesday from Merion where they visited their son's wife who was in Lubbock General hospital.

The W. W. Gillilands had a family reunion Wednesday. Those present were their son, Homer, who has just returned from Germany on the discharge point system, Sampson and family, Mr. and Mrs. Dave Draper and family of slaton and Mrs. Joe Childress.

Mr. and Mrs. Dave Mayfield and children spent the week end with relatives in Sweetwater.

Mr. and Mrs. John Irwin have returned from Corpus Christi after spending two months vacationing.

Charlene Wylie of Lubbock who has just returned from Houston where she visited her mother, spent the week end with her aunt, Mrs. Roy Williams, and family.

Mr. and Mrs. Edd Martin recently heard from both their boys in service. Agy S. (Ding) Sic, who is still in a Naval hospital in Philadelphia saying he is getting

along all right, and Cpl. Dickie of Daggett, Calif. saying he was recently promoted to corporal.

Len Mae Samples spent part of last week with Roella Rankin of Lubbock.

Mrs. John E. Blackwell and little son, Don E., of Lubbock spent Saturday night and Sunday with her parents, Mr. and Mrs. John Harrell. Don E. remained to spend the week with his grandparents.

Pvt. and Mrs. Joe Childress spent Saturday night with her parents the W. W. Gillilands.

Mr. and Mrs. L. K. Anderson and children left Saturday afternoon for Olney and plan to go to Wichita and Stamford before returning.

Mr. and Mrs. Wilbur Donohoe and two sons of Hastings, Neb., arrived Sunday to visit the Wesley Donohoes.

Lavonne Ferguson is still in Amarillo with her aunt, Mrs. Carl Cedarholm.

The Don Pennells visited in Lubbock Sunday afternoon.

STRAYED—A stray fawn Jersey cow has been at my home 11 miles west of Tahoka since Sunday. Owner can procure same upon payment for this notice and a small feed bill. H. D. Schaffner. 47-2tp.

QUICK-RID Repels all blood sucking germs in poultry and hogs. Fed in drink water. It is one of the best conditioners on the market. Guaranteed by your dealer. 48-10tp.

We Now Have a Supply Of A. B. batteries for radios. Also a few for sale. Reid's Radio Shop. 47-tfc.

NU STUDIO—Locked over Wynne Collier Drug Store. 23-tfc.

DON'T FEED YOUR RATS but use more time. Feed them SMITH'S RAT KILL. Relatively harmless to livestock and poultry but deadly to rats. Guaranteed at Wynne Collier, Druggist. 20-tfc.

SHAWPER'S LAUNDRY Helpy-Belly wet wash, dry wash, and finish work. 6-tfc.

IS BURIED AT WILSON

Funeral services for Mrs. Mattie Ivey, who died Saturday in the Wilson Methodist Church at 4:00 o'clock Thursday afternoon, followed by burial in the Wilson cemetery. The pastor of the church conducted the services and burial was under the direction of the Rix Funeral Home of Lubbock.

Pall bearers were: H. G. Cook, J. R. Hamilton, Jim Trawick, N. J. Robnett, C. O. Head, and C. E. Campbell.

A card from Mrs. E. R. Brown states that she, Mr. Brown and the boys will return to their Lubbock home in a few days. They have been living in Dallas for several months where Mr. Brown has received treatment for injuries received in a car-truck collision last Fall.

Mrs. Brown states that their daughter, Dortha Jean will remain in Dallas where she has a good position with the Eighth Service Command.

Survivors include twelve children, four brothers, a sister, her father, and four grandchildren.

Color Effects

Dr. Abraham L. Graubart, past-president of the Columbia university school of optometry, said that in his investigations he found that two special tints, a light buff and a light gray used in combination, made an immediate difference in safety and productivity. Successful experiments were made in painting machinery with light green, yellow, aluminum, light blue and buff color, all of which gave more brilliancy than the old gray, black and green paints.

Painting walls a solid color from floor to ceiling is hard on the eyes, according to Dr. Graubart. Investigations have shown that painting walls two different colors is easier on the eyes. Best results were obtained by painting a dado about 4 feet high a darker color than the remainder of the wall from the dado to the ceiling. The painting of floors whether they be wood or concrete is keenly appreciated. A concrete floor painted a medium gray will reflect 35 per cent of light while the same floor unpainted will reflect about 3 per cent.

Slip Covers

When you put slip covers on upholstered furniture for the summer, you protect the pieces from dust, but not from moths. Unless a fabric is one moths do not attack, like rayon, cotton, linen or silk, or a mixture of some of these, or unless you have had the fabric treated to make it moth-proof, the slip cover may actually hide and shelter moth larvae and they may do a great deal of damage before you discover it. Brush and clean the upholstery well before you cover the furniture. Then from time to time take the covers off and dust and brush the fabric well, or go over it with a vacuum cleaner. If you find clothes moth or carpet beetle damage, you had best send the infested pieces to a reliable firm to be fumigated.

Careful Attention Given ALL Clothes

Bring us your finest fabric clothing, men's or women's, for the most particular cleaning and pressing attention.

Moth bags for storing your winter clothing.

Sidelights From Washington

BY GEORGE MAHON

The U. S. Senate, after brief hearings and debate, will ratify the United Nations Charter adopted at San Francisco.

Early U. S. ratification would set the pattern for other nations. War has become such a terribly destructive thing that there can be no hope for the world unless we can establish an effective organization for peace.

The Charter makes dull reading, but it can and must become the greatest instrument for peace ever created by man.

(Anyone wishing a copy of the proposed Charter can secure it by addressing a request to me at the House Office Building, Washington, D. C.)

Those interested in rural electrification in West Texas will be pleased over the action we took in the House last week.

Members of the House almost come to blows whenever the merits or demerits of oleomargarine and butter are discussed in Congress.

Every student wishing to do High School work this Summer is asked to meet at the Superintendent's office in the High School building Monday evening at one o'clock.

STATED MEETINGS of Taboka Lodge No. 1041 the first Tuesday night in each month at 8:30

BAPTIST CHURCH NOTES

Rev. Levi Price was called to Merkel early Sunday morning to conduct funeral services for a dear friend who had just died.

In the pastors' absence, Rev. Geo. A. Dale of Lubbock, filled the pulpit at the morning hour.

Pastor Price was back in his pulpit at the evening services. Sunday School attendance was 328 that day.

More than 60 young people and children and a few adults left Monday to attend the Baptist encampment at Lueders.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress.

CARDUL advertisement with image of a woman and text describing the medicine's benefits for menstrual pain.

Planes Carry Vital War Cargo to U. S.

The United States used airplanes to bring 7,133,000 pounds of strategic war materials into this country last year.

Beryl, mica, and tantalite came from South American countries: mica and staeatite from India, nickel oxide from Cuba.

All these materials are vital to war industries. Beryl is a hardening alloying agent for copper. Steatite is used in electrical communication equipment.

Ninety per cent of all the plane cargoes were landed at Miami, Fla. The United States army air transport command carried 57 per cent of all strategic air cargoes certified by the War Production board.

The China National Aviation corporation carried nearly 38 per cent, the United States naval air transport service 4.5 per cent, and the remainder was divided among seven American and foreign air lines.

Varying Colors Produce Effects of Human Moods

Specialists say the following effects of color on human moods are considered an average:

Red: A stimulating color which excites and increases the working power of the brain.

Yellow: A stimulating color which helps energize the brain; in color therapy it aids in treating colds, paralysis and chronic conditions.

Green: Not necessarily depressing; possesses cooling effects, useful in the abatement of excitement.

Black: Useful for toning strong colors, not actually depressing. Best used in combinations.

White: Cheery, attracts sunlight; but alone is cold. Stimulating if used with red, yellow or orange.

Brown: Restful and warming; depressing if used alone. Best effects are noticeable when combined with orange, yellow and gold.

Cloth Damage Clues. Breaks that appear in rayon cloths after laundering may be the result of too strenuous twisting and wringing.

When dish towels are scorched, their days of usefulness are soon over. If curtains from south windows come back from the cleaner "in pieces" and those from north windows return in good condition, suspect the sun rather than the cleaner.

New Home News

(By Mrs. Chas. Armontrout)

(Delayed)

Joe E. Lewis T-2-c. has been home visiting his mother and sister, Mrs. R. W. Lewis and Leona for eight days. He returned to his base at Newport, Rhode Island, on Thursday of last week.

Pfc. Clyde Ashcraft and wife have returned from Temple, where Clyde has been in the McCloskey Hospital. He has been given a discharge from the Army.

D. D. Renfro and Wilmer Smith made a business trip to San Antonio last week.

Mr. and Mrs. Loyd McCormick and Eudania visited relatives in Oklahoma last week.

Marlene Tamplin returned home last week from Big Spring, where she has been visiting her uncle the past month.

Larry Roberts of Lamesa is visiting his sister, Mrs. Virgil Turner.

Mr. and Mrs. Whitford of Southland visited their daughter and family, Mr. and Mrs. W. W. Davies, Wednesday. Mrs. Davies returned home with her parents and spent

Mrs. Garland Pennington and Rae Fern and Mr. and Mrs. Moman Johnson attended the funeral of an uncle at Brady last week. Deceased was a brother of Mrs. J. W. Russell, the mother of Mmes. Pennington and Johnson.

RED CROSS YARNS HERE

Mrs. H. L. Roddy announces that the Red Cross yarn for knitting sweaters and mufflers is here. The women workers are requested to see her for the material.

GEO. MAURICE SMALL UNDERGOES OPERATION

Mr. and Mrs. Maurice Small and son George Maurice returned last Friday from Fort Worth, where George Maurice underwent an operation in Harris Memorial Hospital for an injury to his knee sustained last September while doing football practice.

The operation involved reconstruction of the knee and the encasement of the leg in a plaster cast, which it will be necessary for him to wear several weeks longer.

Visitors in the home of Mrs. Tom Smith of Redwine from Sunday until Tuesday were Mr. and Mrs. Lev. Terry and two sons of Weatherford. Mr. Terry is employed by the Fire Department of that city. Mrs. Smith says they report a good fruit crop around Weatherford.

Those visiting in the home of Mr. and Mrs. Loyd McCormick Sunday were: Mr. and Mrs. S. R. McKennon and Cameron of Lubbock, Mr. and Mrs. Joe Unfred and Mr. and Mrs. Bill Balch and family.

Mrs. R. T. Edwards, who resides with her son and family, Mr. Emmett Edwards has as her guests this week her sons and daughters, Mrs. E. W. Terry and daughter Betty Lou of California; Mrs. Fred Whitford and daughter Elneta of Oregon; Mr. and Mrs. Robert Edward and family, Mr. and Mrs. Calvin Edwards, all of Oklahoma; Mrs. Jim Patton and daughter Myrtle Claire of Amarillo.

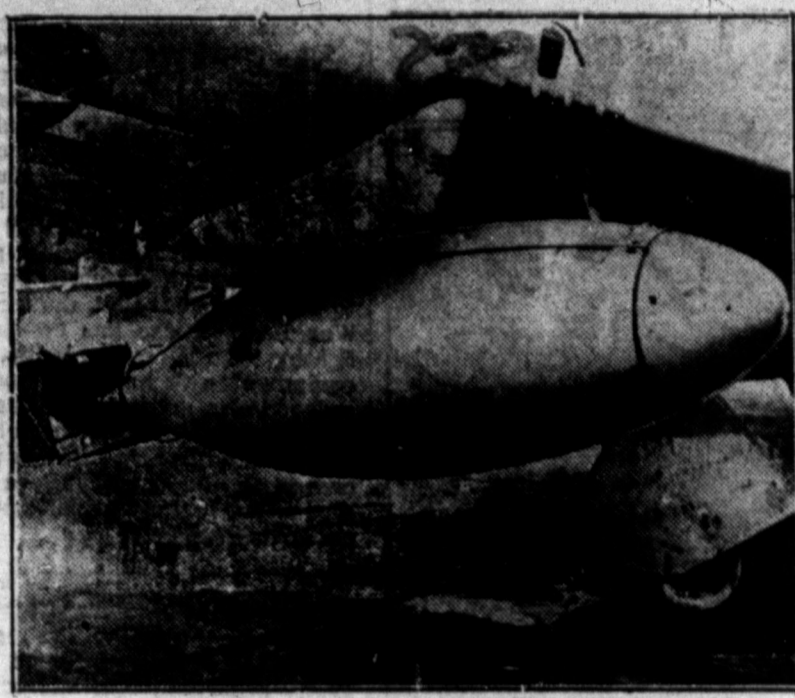

Little Jack L. Davis of Lubbock is visiting his grandparents, Mr. and Mrs. Frank Liseby.

PFC. GENE VEACH HONORED AT FAMILY REUNION

Pfc. Gene Veach arrived home recently after having been liberated from a German prison camp.

Last Sunday a family reunion was held at the home of Mr and Mrs. John Veach.

Present for the occasion were his parents Mr and Mrs. H. M. Veach and their daughter Mrs. Eva Coyt, Mr and Mrs. Fred Spruell and children, all of Leveland; and Mr. and Mrs. J. C. Veach and daughter of Abernathy; Mr. and Mrs. Willie Florence and son of Lubbock; Mr. and Mrs. Oscar Veach of O'Donnell; Miss Billie Spruell of Tahoka, Mr. John Roman and son and daughter, Sgt. Kirk Roman and Mrs. Johnnie Crowson, all of Wickett; Billie Gene McKibben of Port Arthur, and Mr. and Mrs. John Veach and daughters of Drew.

Released by U. S. War Department, Bureau of Public Relations.

GASOLINE JELLY

The 165-pound Chemical Warfare Service Jettisonable fuel tank, loaded with jelly gasoline is especially adapted to the targets of Japanese construction. It is shown suspended from the wing of the fast-moving P-47, with a tail fin to insure greater accuracy in flight toward the target. The missile has been nicknamed "Hitler's Hot Foot," because of its ability to disperse a gob of fire the length and breadth of a football gridiron. It was used with remarkable success in Italy and in France, where 460,000 gallons of the goo-goo were dropped on the German-held city of Bordeaux, on 14 April, 1945. The new fire bomb is exploded on impact and ignited by a special type igniter. The flame generates terrific heat.

INFANT DIES

Funeral services were conducted in the chapel of the Harris Funeral home here at 4:00 o'clock Monday afternoon for the infant son of Mr. and Mrs. L. A. Phillips, Bobby Lewis, who died in the Lubbock General Hospital at 2:15 o'clock that morning. Rev. L. B. Edward, of Redwine officiating. The little body was buried in the Tahoka cemetery.

Bobby Lewis was born in the hospital on Friday morning, June 8, weighing only three pounds, and remained there until death just 24 days later.

Surviving are the parents and four other children. Mrs. Billy (Reba) Driver, Jimmie Ruth, Juanelle, and Hazel Phillips. The four grand-parents also survive, Mr. and Mrs. Walter Phillips of Tahoka and Mr. and Mrs. Thomas of Oklahoma.

The bereaved and disappointed parents have the sincere sympathy of many friends.

KAY MOORE IMPROVING IN DENVER HOSPITAL

Mrs. L. H. Moore of New Home reports that their son, Kay Moore who was wounded overseas, is now in Fitzsimmons Hospital in Denver, Colorado. He had been in Stark General Hospital, and his wife writes that he has 58 stitches and three open wounds that have to be dressed every day. But he is gaining in weight and can walk very well now.

Kay, it seems, had a very close call.

Mr. and Mrs. J. J. Gray returned home Sunday from Waymin Smith's home, where they had been staying after Mrs. Gray was released from the hospital about five weeks ago. She was in the hospital receiving treatment for broken leg. Mr. Gray reports that she is now getting along just fine.

Pvt. John Ragan is spending a few days with his wife and her parents, Mr. and Mrs. T. O. Ferguson of Ralls, and his parents, Mr. and Mrs. R. R. Ragan of the Joe Bailey Community. Young Ragan has just completed his boot training at Camp Roberts, California.

Gardening Tools for Blind

The blind can now plant, cultivate and harvest their own gardens without assistance, by means of tools designed by Hugh Findlay, professor of landscape architecture at Columbia university. With taut wires to mark the rows and guide the implements, blind gardeners are able to hoe, rake, plant, weed and spade sizable plots of flowers and vegetables. The tools include a claw-like Narcross weeder which can be adjusted for weeding close to the plants or at a distance from the gardener; a light rake; a hoe which may be altered to chop the soil at different depths; and a weed cutter. All tools work easily down the rows attached to guide wires.

Auto History

Going back through the pages of automobile history, one finds such groupings as the French and English tricycles of 1900, and hailed as equally astounding, the carriage-type electric of the same distant period. Among names that will awaken old memories of the long ago are Adams-Farwell, Compound, White Steamer, Stanley, Simplex, Owen-Magnetic, Wills-St. Claire, Roamer, Elcar, Bentley, Daimler, Golden Bugatti, Hispano-Suiza, Mercedes, Benz, Peerless, Isotta-Franchini, Cunningham, Fiat, National, and Rambler.

Mr. and Mrs. J. R. Wyatt and son, Vernon, returned to their home in Tahoka Monday after a 23-day visit with relatives in Houston, Texas.

Cape Disappointment, in Washington, received its name as a reminder of the failure of the English and Spanish navigators to discover the mouth of the Columbia River.

Dismal Swamp in Southeastern Virginia is considered the most publicized swamp in the United States. Four thousand acres were owned by George Washington.

Cpl. Morgan Noble, son of Terry Noble, is again at home, after having received an honorable discharge from the army. Cpl. Noble saw service in North Africa, Sicily, and Italy.

W. A. Tadlock, who lives two or three miles south of Wilson, is reported to be in serious condition. He has been in ill health a long time, having suffered a stroke about a year ago.

Mrs. Claud James and Mrs. Florence Cowan and children visited their parents, Mr. and Mrs. W. P. Iuman and other relatives in Snyder Sunday. Mr. Iuman came to Tahoka with them for a brief visit.

are you embarrassed by HOT FLASHES?

If you suffer from hot flashes, feel weak, nervous, highstrung, a bit blue at times—due to the functional "middle-age" period peculiar to women—try this great medicine—Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound never harms. It's one of the best known medicines for this purpose. Follow label directions.

AMERICAN HEROES

by WOODY COWAN

DURING the amphibious invasion of Southern France, Lieut. Ray Hamilton Allen, U.S.N.R., led his unit close to an enemy held beach and delivered withering rocket fire against hostile defenses. By his cool courage and inspiring leadership under fire, he contributed materially to the effective neutralization of enemy defenses. For this heroic service he received the Bronze Star. Amphibious warfare requires scores of ships and it takes War Bonds to provide them.

BIRTHDAY PARTY

Dennis Kay Waldrip was host to a group of friends Saturday afternoon, celebrating his 10th birthday. Gifts were unwrapped and enjoyed, then the party attended a local show. Upon their return they were served Ice Cream, cake and pink lemonade. Those attending were: Mary Louise Fenton, Dorothy Ann Durham, Tommie and Jimmie Wharton, and Billy Mack Campbell.

How women and girls may get wanted relief from functional periodic pain

Careful, many women say, has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 3 days before "your time", it should help relieve pain due to purely functional periodic spasms. Try it!

YEARS OF PROVED PERFORMANCE

Useful Permanent Magnets

Permanent magnets are those that will retain their magnetic properties indefinitely. Probably their oldest and most familiar useful form is the compass needle. According to legend, the Chinese Emperor Hoang-Ti used a magnet in this form to guide his chariot in 2600 B. C. From this simple beginning permanent magnets have been developed to such an extent that, during World War II, their use has enabled our fighting men to replace bulky, heavy equipment with portable models of reduced size and weight; has made possible hundreds of devices for airplanes, and has also permitted an increase in the sensitivity of many measuring and electrical communication instruments.

Dancing Purposes

Ballroom dancing in general reached a new importance during 1944, according to Encyclopedia Britannica, which cites its use as an aid to keep war workers from going stale and its high therapeutic value in the rehabilitation of wounded veterans. Doctors state that persons with torn nerves and mental shock respond amazingly to this form of treatment. Another serious purpose for which dancing was used during 1944 was in combating juvenile delinquency, the article points out. It describes the supervised clubhouses which recently sprang up throughout the country where youngsters, with the aid of a juke box, could dance to their heart's content in a saner, more wholesome atmosphere.

Lawn Soil

It is to be hoped that your lawn soil is neither very sandy nor heavy clay. Sand fails to hold either moisture or plant food very long. It is true that grass will grow in a sandy soil if it is watered and fed regularly, but the attention required is apt to be more than most of us will give. On a heavy soil less attention is needed. If drainage is good and the ground is not packed by trampling feet, grass may do all right. Ideal lawn soil is a porous loam, sufficiently well drained so that it holds moisture and permits some circulation of air. For various reasons, however, the ideal soil is seldom available. We can improve sandy or clay soils by mixing in some of the opposite type, plus a generous proportion of humus.

School Lunch

Your child's school lunch is important! Unless he gets milk as a beverage at three meals it is difficult to get in his quart a day. Also, because of the child's smaller stomach capacity, dividing his food fairly equally between all three meals is much better than having him "catch up" at a heavy dinner at night. Packed lunches are apt to be monotonous and unbalanced unless milk, fruit and vegetables are included. Highly seasoned foods, stimulating beverages, and sweets should have very little place in the child's diet. Fruit or milk desserts may be added occasionally.

WEST POINT H. D. CLUB MEETS

The West Point Home Demonstration Club met with Mrs. Tom Hale Wednesday, June 27. Miss Dixon gave a demonstration on the preservation of food including freezing and pressure cooking. Many points were given on the causes of food spoilage. Mrs. A. D. Schaffner will represent the West Point Club at the Educational Short Course at the Texas Technological College. A lovely refreshment plate of ice-cream and cake was served by the hostess.

Vitamin A Valuable For Light Adaptation

If you want to have good dark-adaptation facilities, clear smooth skin and healthy mucous membranes, it is well to include generous amounts of vitamin A in your daily diet. This fat-soluble vitamin has the distinction of being one of the earliest vitamins known, and it has several important functions in the body. Of major importance is its action in preventing night-blindness, which is difficulty in accommodating the eyes to changes in intensity of light. If your diet has been low in vitamin A, you may have difficulty in finding your way in the dark or in distinguishing objects when driving the car at night. Vitamin A helps to keep the epithelial tissues healthy. These are the tissues which line the respiratory passages and the digestive and genito-urinary tracts. Adequate vitamin A helps keep the mucous membranes moist and healthy, whereas lack of vitamin A allows the passages to become dry and more susceptible to penetration by bacteria.

Control Operations Curb Threats of Predators

The taking of 118,879 predatory animals in federal - cooperative control operations carried on in 29 states during the fiscal year 1944 has resulted in the saving of thousands of sheep, calves and poultry needed to increase the production of food and wool; according to a report made by the Fish and Wildlife Service. Despite insufficient manpower, this total represented an increase of 3,502 over the take of 115,267 predators in the preceding year, and consisted of 108,050 coyotes, 8,900 bobcats, 1,170 wolves, 592 bears and 167 mountain lions. The greatest number of coyotes were taken in Texas - 14,756. Wyoming was second with 12,002, followed by Oregon with 10,343; Colorado, 9,832; Nevada, 9,790; Idaho, 8,800; California, 8,211; and Montana, 7,035. Of the methods used for taking predators, trapping accounted for 72,727. From July 1, 1915, to June 30, 1944, the service reports that control operations have destroyed a total of 1,771,663 predators, of which 1,569,925 were coyotes.

A GOOD TAX PAYING CITIZEN WHEREVER WE SERVE!

There is only one place from which money can come to support our government, schools and the government services. It must come in the form of taxes. Our taxes, along with yours, are helping to win the war, too. Taxes are as necessary as the things they buy—and we are glad to contribute our share as an American citizen who enjoys the securities and privileges of this great country.

We're licking 'em with eggs!

Don't let up on egg production! Our egg quota is staggering—18,095,792 dozen every day. Just give birds the stuff and they'll do it. That means Dr. Hess Poultry Pan-a-min in addition to a good ration. Give Pan-a-min for its tonics. It stimulates appetite and assimilation of feed and that's important. It also supplies minerals. Put 3 pounds of Pan-a-min in every 100 pounds of laying mash. Get Pan-a-min from us at your first opportunity.
