## Schools Consolidate In New Home Area To Improve Plant

Four Lynn county school districts, New Home, Petty, Lakeview, and Joe Stokes, voted Saturday to consolidate. They previously had been grouped under a state law which permits districts to group for high school purposes.

Effect of the consolidation, it is hoped, will be to enable to board to improve its school set-up without much burden as the property holders of either district.

Better financing, which can be brought about as a result of the consolidation, school authorities expect, will result in the improving of the school plant, the main unit of which is located at New Home. The authorities hope to add four class rooms and a science laboratory, toilets and showers, and a cafeteria, and otherwise to improve the school plant.

New Home has 364 scholars, 13 teachers, and operates five buses. It is recognized as being one of the better rural high schools of this area.

A. L. Pace is the superintendent. The board is composed of A. C. Fillingim, Lakeview, president; and Waymon Smith, New Home, Secretary; C. L. Murray, Joe Stokes; D. D. Renfro, New Home; Shirley Powell and C. V. Jones, Petty; and W. T. Knight, Lakeview.

Though the results of Saturday's election will not be canvassed until the next meeting of the Commissioners' Court, The News is reliably informed that the consolidation proposal carried in each of the four districts.

## Mrs. Tunnell Asks Another Term

Mrs. Lenore M. Tunnell this week announces her candidacy for re-election as County Superintendent of schools. Mrs. Tunnell has long been connected with the school profession in this county and is known to almost everyone. Her formal announcement follows.

TO THE VOTERS OF LYNN COUNTY: I wish to take this method of announcing to you my candidacy for re-election to the office of Lynn County School Superintendent.

I have thoroughly enjoyed working with the people of my county. I have tried consistently to be fair, impartial, efficient, and courteous in my dealings with you always taking into first consideration the school children who depend upon me.

Since I am personally acquainted with most all the people of Lynn County, you know my qualifications: I hold B. A. and M. A. degrees from Texas Technological College in government; I have taught in public schools of Lynn County for 18 years, aside from my service in this office. I feel that I am qualified to do and that I have successfully performed the duties of this office as far as humanly possible.

Supervising the schools of Lynn County during this war period has been indeed a trial. The shortage of teachers and the transportation difficulties have been a problem to me, board members, and school patrons, but we are hoping, with the turn of New Year that these difficulties will adjust themselves.

We have been fortunate, however, in that our financial situation in almost all of our schools is much improved. Without a raise in taxes, the bonded indebtedness of Three Lakes, Midway, Edith, Joe Stokes, and New Moore has been paid off. The bonds of T-Bar, New Lynn, and Dixie have been refinanced and these districts are now with present tax valuations paying their bonds. All other school districts are likewise on a sound financial footing. Also during this time, I have sponsored a school hot lunch program which is now operating successfully in all but 4 schools in the county, which do not have them due to lack of housing facilities. Contracts for 2 of these schools have been made. Every

So whoever you are, wherever you are, we wish you a healthy, prosperous and happy future!

## H. R. Tankersley Jr. Writes of Trip To National 4-H Club Congress in Chicago

On the night of November 29, I, H. R. Tankersley Jr., Lynn County 4-H Club boy and delegate to the 24th National 4-H Club Congress in Chicago, December 2-6, 1945, and my Agricultural Agent, Manuel W. Ayers left Lubbock for Dallas on the first lap of my expense paid trip as guest of the Santa Fe Railroad.

I, along with six other delegates from the South Plains area, arrived

## World War I Vets Getting More Aid

The Veterans Administration has \$2,750,000 which soon is to be distributed to some 11,000 Veterans of World War I.

An Audit disclosed that V. A. charged too much interest on loans made on World War I adjusted Service Certificates, and a refund to those affected has been ordered. Interest formerly was computed on the Certificate loan to the date of maturity of the certificate, which in most cases was January 1, 1945. Under the new ruling, interest charged after October 1, 1931 will be refunded, and approximately 11,000 former Certificate holders will receive checks averaging some to \$250 each, the amount depending upon the value of the Certificate.

The Veterans Administration advises that the refunds will be automatic and it will not be necessary to file a claim. Checks are being mailed now to those who already have cashed their Certificates, while the amounts due those still holding the Certificate, will be added when settlement is made.

## Mr. and Mrs. Evans Celebrate Wedding

Last Thursday afternoon as Mr. and Mrs. John Evans were quietly thinking of their marriage, fifty years before, their daughter, Mrs. Carl Griffing, came over and later other relatives happened in. ## Sidelights From Washington

(By George Mahon)

An exhibit of historical documents in the Library of Congress in Washington adds emphasis to the fact that December 29, which Texans are celebrating, is a very important date in the history of Texas and the Nation. Upon this date, one hundred years ago, Texas became a state of the American union.

The 3c postage stamp issued by the Federal Government in honor of the occasion will go on sale in Austin on December 29, and shortly thereafter will become available at post offices throughout the state. The stamp portrays the lone star of the flag of Texas as the 28th star in the American flag.

There are scores of important and interesting documents in the Congressional Library exhibit—too many to make reference to here. One that attracted my attention was a document entitled "The Constitution of West Texas".

A few days ago I had a chat with General Jimmie Doolittle, who planned and led the first bombing raid over Tokyo. I asked him if he remembered Captian Robert L. Hite of Earth, Lamb County, Texas, who flew one of the planes on this memorable occasion. He certainly did; he thought Bob Hite was one of the grandest fellows who had ever served with him, and wanted to be remembered to him.

In a previous column I made reference to an appropriations bill which our committee is in the process of preparing for presentation to Congress in January. The largest request for money was made by General Bradley, head of the Veterans Administration, and his staff. General Bradley is confronted with a great responsibility. He took eight hours in presenting the details of the tremendous program which he expects to put into effect next year. The committee is cooperating closely with General Bradley. There is no doubt but that we will recommend a sufficient appropriation for the Veterans Administration and that the Congress will approve.

In his testimony, General Bradley pointed out that there are now 75,000 patients in veterans' hospitals, 60% of whom are mental patients; that the hospital load is greatly increasing; that there are now 240,000 patients in Army, Navy and Marine Corps hospitals, many of whom will later be accommodated in veterans' hospitals.

As to the money required, approximately five billion dollars will be needed by the Veterans Administration next year for all types of programs—hospitalization, insurance and pension benefits, education, and all other programs provided by Congress in the G. I. Bill of Rights and in other legislation.

The total sum required will be almost one-half as much as was expended to run the entire Federal Government for the first 100 years of our history. This is a grim reminder of the cost of war in men and money, and an inescapable argument for an aggressive international policy for world peace.

## Do You Budget Insurance?

Your earning power should determine the amount of your life insurance. A definite portion of income should go into insurance each year as long as you earn. That is why an occasional check-up is advisable. One-tenth of income will give reasonable protection for loved ones and old age. Less is usually inadequate. Many do much more.

Our regular schedule covered rising at 6:00 a. m., breakfast at 7:00, general assemblies 9:00 and 10:00, lunch at 12:00 and 2:00 o'clock, tours about Chicago 2:00 and 4:00 p. m., 6:00 and 10:00 p. m., banquets, dinners, entertainment. Lights out by 11:00 p. m.

Some high-lights of the entertainment enjoyed at the Congress include the following: Edgar Nelson conducting the Sunday Evening Club Choir; Rico Marcelli and his orchestra; Ole Olson and Chic Johnson; comedy stars of screen, stage, and radio; Gene Autry and Company; Lew Diamond and orchestra; the Harmonica Rascals; The Craft Choral Club; Johnny Jones and Orchestra; Ma Perkins; and Jack Armstrong popular radio stars.

Some famous personalities we met include the following: Thomas E. Wilson, Chairman of Wilson and Company; Clinton P. Anderson, Secretary of Agriculture; Gene Autry; Congressman Hope; Russell Firestone, president of Firestone Rubber Company; Powler McCormick, president of International Harvester Company; P. H. Rockwell; G. L. Noble, Managing Director National Congress Boys and Girls Club Work; C. F. Kettering, vice-president General Motors Company; J. L. Craft, Chairman of Kraft Foods Company.

One of the most interesting tours which the group made while in Chicago was the visit to the famous Chicago Fat Stock Show at the Chicago Stock Yards. We saw the Grand Champion steer a Short-horn. This steer brought \$10.00 per pound which amounted to \$11,000, a fancy price for any man's trouble. The pigs and sheep were also excellent show type, showing a lot of class.

Another interesting tour was the tour to the museum of Science and Industry. The museum had on exhibition a number of mineral and machinery of the past and present age. We did most of our touring by elevated street car. This car ran on a track that towered about one story above the streets. This was a new and unusual experience for most of us.

Friday morning, December 6, we left Chicago for Texas and home. Happy and tired, the boys were a quieter group than on the ride to Chicago. I could almost see the folks at home. And truly there

were things to tell, a panoramic view of one of the world's busiest cities, incidents, places, and people the average man never comes in contact with, a lifetime of memories in six fascinating days. I can imagine no finer goal for a 4-H Club boy or girl to shoot at than a trip to the National 4-H Club Congress.

school except one in the whole county is now either an affiliated rural or high school.

So, regardless of war situations, we can see much progress in our schools, and we feel that the post war school situation will be greatly improved.

In closing, may I thank you for your splendid cooperation and your many kindnesses to me. I am asking you in this message for your vote and support in the coming election, and I am wishing for each of you a happy and prosperous New Year. — Lenore M. Tunnell.

**How women and girls  
may get wanted relief  
from functional periodic pain**

Cardui, many women say, has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try it!
