Youths Burglarize Gagnats Store Face Charges

Three Tahoka youths, Tommy Barber, 16, Tom Latham, 15, and Bill McGlaun, 14, are to appear before County Judge Tom Garrard today to answer to charges, as juvenile offenders, of the crimes of burglary and theft.

The three are charged with having broken into the D. W. Gagnat hardware and furniture store on Thursday night of last week and with having taken therefrom about \$237.00 in money, two scout knives, some flash lights, rifle shells, and a saddle. Two entries into the store are said to have been made, the shells and the saddle being taken upon the second entry.

The boys also confessed to having taken three horses and two other saddles on the same night but later they turned one of the horses loose and hid the Gagnat saddle near the city water plant and returned the other two horses and saddles to the place where taken.

The boys were apprehended in Lubbock Friday and Sheriff Sam Floyd brought them back to Tahoka. They were brought before Judge Garrard Monday, who remanded them temporarily to their parents but ordered them to appear in court today for final disposition of the cases.

Alton Cain of the Gagnat Hardware explained to the News that the youths entered the store the first time through the skylight, evidently during the sandstorm that was then sweeping over this area. Climbing to the roof of the building they took a long pipe that conveyed the water from the cooling system to the ground, took a section of glass out of the skylight, and through the hole they lowered the pipe till one end of it rested on the floor of the building and the other end against a wall of the skylight structure, climbed through the hole and descended on the iron pipe.

In their confessions, they stated that they were in the building when the night watchman turned on the light at the front. They took the money, the knives, and the flash lights, took down the bars to the back door, and slipped out into the darkness, necessarily, leaving the door unfastened.

Then they went out in the west part of town and stole the two horses and saddles from Ivy Lee Kill.

East Texas Ladies See Their First West Texas Sandstorm

Miss Virginia Morgan of Naples and Miss Nell Hall of Texarkana, daughter of Judge Hall of that city spent Thursday night of last week here with Miss Morgan's uncle and aunt, Mr. and Mrs. W. M. Harris.

Both ladies were being transferred from the Red River Ordnance office at Texarkana, where they had been employed, to an Ordnance office in Oregon, the Conoco Company having routed them so as to visit the most interesting places enroute.

They declared that they did not expect to see anything more scenic, however, than that Thursday afternoon sandstorm that met them on the way a few miles beyond Post. They had heard much about those West Texas sandstorms that come rolling in over the Plains but were hardly prepared for what they saw. As it arose over the caprock horizon in the west it looked to them as if the whole heavens were afire. Then came the marvelous play of colors, perhaps the most theatrical and thrilling heavenly performance they had ever witnessed. A few more moments and the whole thing had enveloped them. The wind was fierce and the dust was almost stifling, but they had seen a show free of charge that they will never forget.

Mrs. Edd Eoff and Mrs. Odie Prior of Tatum, New Mexico, visited their parents, Mr. and Mrs. Jim Key, out in the Lakeview community the first of the week. Mrs. Eoff was there only for the day, Sunday, but Mrs. Prior remained until Tuesday.

Little Girls Take Watch, Money

On Tuesday of last week while Mrs. Garland Pennington was in Belton attending a meeting of the Baptist Woman's Missionary Union, two little girls, ten years of age, who were playing hooky from school, entered her residence and took therefrom a wrist watch and a little more than six dollars in money.

The watch belonged to Mrs. Pennington's daughter, Mrs. Ray Fern Womack, who had come from the farm into town and had then gone to the Washateria.

When the "burglary" was solved early this week, the watch was recovered but the girls had spent the money.

Woman Forger Is Operating Here

A certain married woman who resides in Lubbock and who has a husband and three children has been operating as a forger in various towns throughout this section of the state, according to Sheriff Sam Floyd.

He has in his possession a number of checks which he says she passed at various times in this county, ranging in amounts from a few dollars each up to as high as \$45.00. On July 2, last year, she passed two of the checks in Tahoka and two in O'Donnell; on August 2, one here and one in O'Donnell; and still another, one here on December 12.

Different names were signed to the checks but Mr. Floyd claims that the same person made all of them. He expected to take her into custody Wednesday or Thursday of this week.

Golf Club Will Reorganize Tonight

A meeting of all men interested in reviving the Tahoka Golf Club will be held tonight, Friday, at 7:30 o'clock at Wharton Motor company, Charles Townes announces.

With the return of many golf-players from the service, it is believed that there are sufficient men interested in this sport to properly build and maintain a course.

The old golf course passed out of existence a few weeks ago to make way for Bill McNeely's Tahoka Airport.

A site for another golf course is available, if sufficient men are interested in re-organization of the club.

MRS. L. D. MCKEE'S MOTHER DIES

Mr. and Mrs. L. D. McKee and children attended funeral services in Lamesa Sunday afternoon for Mrs. McKee's mother, Mrs. Mintie Margaret Adams, who died at her home at Patricia, Dawson county, on the preceding Thursday afternoon. She had been seriously sick for about a month.

Services were held at the First Methodist Church in Lamesa, of which deceased was a member.

Freakish Weather Sand and Snow Sweeps The Plains

"The heavens declare glory of God."

It was so on Thursday afternoon of last week when Nature put on one of her most theatrical shows in the form of a sandstorm.

Most sandstorms are drab, uninteresting affairs, but now and then Nature brings in one, high and lifted up, upon the wings of the wind, that combines the skill of all the heavenly artists' mighty brushes with the dramatic performance of all the dems of the air to give to man a show more majestic and more awe-inspiring than he ever saw in any theatre on earth.

That sandstorm that blew in on Thursday afternoon of last week was one of Nature's most dramatic performances, a sandstorm like unto the marvelous ones that swept the heavens during the dry years of the middle and late thirties, a painting of one of which may yet be seen in Wynne Collier's drug store.

Then on Friday morning, at about eight o'clock, snow began to fall, just as this humble roust-about started to Wilson with a bundle of papers. Before we got there we were thoroughly impressed with the importance of little things. Our windshield wiper failed to work and snow accumulated on the windshield so rapidly that we were compelled to stop and wipe it off at distressingly short intervals. In fact before arrival, we decided that was about the worst snowstorm we had ever been caught out in.

At noon the skies began to clear and the afternoon was almost balmy. And the snow had swept most of the sand and dust out of the atmosphere.

Such is West Texas weather.

Meeting Of Rodeo Association Called

Members and prospective members of the Tahoka Rodeo Association are urged to meet at the Legion Hall tonight at 7:30 o'clock for the purpose of taking memberships in a roping club, according to Gran Short, president, and Charles Walden, secretary.

The organization has made arrangements for grounds south of town and across the highway from the airport on which roping and rodeo events will be held.

Man Wanted Here Found In Jail

While Sheriff Sam Floyd was in Sweetwater a few days ago on some sort of official business, he had occasion to go up to the jail, and there he found a man whom he wanted for forgery here.

He is now in the Lynn county jail, awaiting trial.

Did Our Postmaster Attempt Suicide?

Circumstances concerning the near-death by drowning of Tahoka's genial postmaster, W. E. (Happy) Smith, at Possum Kingdom Lake last week end were given The News Tuesday, but we still do not have all the true facts in the case.

Happy, Lloyd Conwill, Mr. and Mrs. John Fulford, and Mr. and Mrs. Tom Hale were down at Stovall Wells taking the baths, or maybe the close proximity of the wells to Possum Kingdom permitted a good excuse for a fishing expedition.

Anyway, the men had been out on the lake all day fishing, and got into port about midnight. Hale and Fulford had gone to the car, or at least were not present, and Happy and Conwill had unloaded the boat. Then, The News is informed, Happy picked up the 8 horse power motor, tied it around his neck with a rope and stepped off of the pier into 20 feet of water. Luckily, the motor hung precariously on the edge of the pier, with Happy dangling down in the water at the end of the rope, choked, gurgling, and spluttering. Lloyd finally fished him out.

Hap claims it was an accident. Some think Hap had been drinking a lot of Grapeite which had fermented. Lloyd claims his fishing partner had it in for him, and was attempting to commit suicide in such a way as to point the accusing finger of Murder at him.

We'll say this much for Happy, though, he cannot be bribed, for his fishing companions offered to withhold the story from the press for a check of money from the crowd, which offer Hap refused.

Friends here learned this week of the death of J. T. Lee of Idalou, 73, which occurred suddenly Saturday afternoon. He was the father of Mrs. A. J. Mullines, who lived here for many years.

McCord Building Is Being Remodeled

Work was started this week on remodeling the Phillips Service station building at the highway intersection. The driveway will be lowered nearly to street level, the awning changed, and other improvements made to make the building modern in every detail.

H. B. McCord is owner of the building, and the station is operated by Terry and Carlisle.

New Officers For PTA Are Elected

The Tahoka Parent Teacher Association met Thursday, March 14, at the High School Auditorium with Mrs. Truett Smith, President, presiding.

Officers for the coming year were elected as follows:

President, Mrs. Terry Thompson; Vice President, Mrs. W. C. Wharton; Secretary-Treasurer, Mrs. Ted Clayton; Historian, Mrs. Buel Draper; Parliamentarian, Mrs. Travis Mason.

The Second Grade presented a clever program under the direction of Mrs. Walter Mathis, Mrs. Hutchins and Miss Cumble.

"Athletics Place in the School" was the subject of an interesting talk given by Mr. Travis Mason.

Plans were completed for an all day study course on Parliamentary law to be conducted by Mrs. Rhodes of Lubbock, in the home of Mrs. Terry Thompson March 20.

Mrs. Thompson will be the Tahoka delegate to the spring conference of fourteenth district, Texas Congress of Parents and Teachers, in Paducah Wednesday, April 3.

The next P. T. A. meeting will be at night in the Gymnasium on the second Thursday in April. All Fathers are invited.

Service Men Are Given Discharges

The local board reports that the following former service men have been granted discharges since March 10: A. J. Crutcher, Garland Lawless Curtis, James Lloyd Shoemaker, Cecil Bryan Royce, and Walter Leroy Ledbetter, all of O'Donnell; Robert James Holloway, Walter Harvey Kenley, Leroy Marshall Akin, and Benhard Ernst, all of Tahoka; Archie Henry Nelson and Jack Walton Yandell, on routes out of Post.

James Elbert Green, now at Taft; Alfred Joseph Bankston and Hershel Herbert Reagan, both of Portales, New Mex.; James Ollie Banks, at Odessa; Harold Leon Cramer, Childress; Jesse David Busby, Friona; Courtney Leroy Stewart, Slaton.

The national corn-husking contests are held under the jurisdiction of the American Association of Middle-Western Farm Newspapers.

Better Than Par Paid For Bonds, Garrard Reports

Lynn county's farm-to-market road bonds in the sum of \$850,000 authorized by an overwhelming vote of the people on March 9, have already been sold, according to County Judge Tom Garrard, three different concerns having each taken about equal portions of the issue, to wit: The Union Trust Company of Dallas, C. R. Woolsey and Company of Lubbock, and C. Edgar Honold of Oklahoma City.

Furthermore, the County is getting better than par value for the bonds, that is, par plus accrued interest, plus all necessary legal expenses incurred in the preparation, printing, and handling of the bonds, the equivalent of about \$2,500 premium.

Judge Garrard also declared that these bonds bear the lowest interest rate, undoubtedly, of any road bonds ever issued in this state. They are serial bonds running from one to 20 years. The bonds maturing during the first five years bear only 1 1/4 percent interest per annum; those maturing the second five years, bear 1 1/2 per cent; and those maturing during the last ten years bear two percent. The average rate of interest, the Judge declares, is only 1.85 per cent per annum.

Property valuations for tax purposes in this county are very low as compared with the actual value of the property. Judge Garrard says that there is no land in the county assessed at more than \$8.00 per acre. Much of it is assessed at \$6.00 per acre, and he figures that the average is about \$7.00 per acre. The tax rate to care for the interest and the annual payments on the bonds, he says, will be 95 cents on the \$100 valuation. Since the average quarter section of land is assessed at only \$120.00, the road tax on such quarter section would be less than \$11.00 per annum.

Many inquiries are being made as to when construction contracts can be made. In answer to all such questions Judge Garrard gives out the following information. Just as soon as the record of the proceeds—

Cont'd on back page

Argument Settled On Spelling Of Word "Newmoore"

There is much confusion in this county about the proper way to write the name of the Newmoore school and community. The proper way to write it is as it appears above.

The general tendency, especially among new-comers and young people, is to write the name as if it were two words, like New Home and New Lynn. Such is not the case, however. The place got its name from the fact that two men, whose names were Newman and Moore respectively, got a contract to sell out the Singleton ranch in tracts to be improved as farms and our recollection is that they also laid out a townsite and sold some lots and they abbreviated the name Newman and combined it with the name Moore and called the place Newmoore. It is so officially recorded and is therefore the proper way to spell the name.

Mr. and Mrs. J. K. Appewhite and Mr. and Mrs. R. W. Fenton Jr. returned late Monday after spending a week with their daughters in Dallas, Peggy Fenton at S. M. U. and Mackey Fenton and Dot Appewhite at the Hockaday School.

Mildred, wife of Billy Hill of the News force, will be brought home from a Lamesa hospital today, where she underwent appendectomy on last Friday, a patient of Dr. J. W. Sinclair of this city. Her recovery has been rapid and satisfactory.

Livestock and Farm Equipment Show Date Set For Saturday, April 13th

The Lynn County Livestock Farm Equipment and Laborsaving Device Show will be held in Tahoka, Saturday, April 13. Judging of the Livestock will begin at 1:30 in the afternoon. Judge for the show will be Mr. R. C. Nowery, Assistant Head of the Department of Animal Husbandry of Texas Technological College.

The Farm Equipment and the Laborsaving Device Show is a new feature this year. This will be held in the afternoon on a lot adjacent to the baseball court where the Livestock Show will be held. Every farm equipment dealer in the county is invited to have on display at least three pieces of his latest type

farm equipment. Each farmer in the county who has made himself or had made in the shop a piece of farm equipment or attachment to factory made equipment is encouraged to bring this labor saving device to the show for display purposes.

Mr. R. B. Hickerson, Assistant Farm Labor Supervisor of College Station, Texas will have on hand for display and demonstration purposes the following full size models of Labor Saving Devices: Tractor post hole digger, two-row distributor for commercial fertilizer, tractor fresno converted from horse drawn fresno, portable brush saw, wheelbarrow type weed mower, portable grain elevator, wire band-

ing tool, making rope at home, bale tie straightener, garden size fertilizer distributor, homemade scratcher for use on cultivator; and the Miniature Models, Mineral box for cattle, hand leveler, skid for bundle feed or hay, bag holder, cow stanchion fastener, V-drag tractor, and corner post braces. Mr. Hickerson will demonstrate the use of these Labor Saving Devices from 11 to 12 a. m., April 13.

The Livestock Show will consist of the following divisions and classes: Swine division: gilts, barrows, sows and litters, Junior boars, and senior boars. Beef calf Division: one class of fat calves. Dairy Cattle division: Dairy heifers not calv-

ed, and cows over two years old. Two divisions this year will be open to the public and anyone who may so desire is invited to have entries in these divisions. The beef cattle division which is open to the public will include heifers, cows, junior bulls (under 15 months). Purebred Hereford Breeders are encouraged to have some of their top animals at the show. Anyone else who has a registered Hereford animal is also cordially invited to bring it to the show. The other division that is open to the public and new this year is the Saddle horse division consisting of two classes: the junior boys, and girls

FLUSH KIDNEY URINE

Benefit wonderfully from famous doctor's discovery that relieves backache, run-down feeling due to excess acidity in the urine.
 People everywhere are finding amazing relief from painful symptoms of bladder irritation caused by excess acidity in the urine. DR. KILMER'S SWAMP ROOT acts fast on the kidneys to ease discomfort by promoting the flow of urine. This pure herbal medicine is especially welcome where bladder irritation due to excess acidity is responsible for "getting up at night." A carefully blended combination of 16 herbs, roots, vegetables, balsam; Dr. Kilmer's contains nothing harsh, is absolutely non-habit forming. Just good ingredients that many say have a marvelous effect. All druggists sell Swamp Root.

GRAHAM AND WIFE HERE

Ensign D. W. Graham and his Australian bride were recent visitors in the home of his aunt, Mrs. A. R. Hensley, at Draw.

Ensign Graham was recently discharged from the Navy. His bride is the former Joan Knight of Sydney, Australia. She is having much fun learning about her adopted country and eating of our style of cooking, Mrs. Hensley says. This Texas drawing way of talking is something she hasn't accomplished yet.

The Grahams are at home in Midland, Mr. Graham being associated with the Humble Oil Company.

Floyd Bledsoe of Lubbock and his daughter, Mrs. Jack Henderson and baby of Van Alstyne visited Mrs. Maude Cromer and Mrs. Jewell Johnson Sunday.

WHY TO STRUTT THEIR STUFF IN BIG PARADE

Mr. W. L. Burleson Aide to the Potentate of Khiva Temple, A. A. O. N. M. S., said one of the best parades ever put on by Khiva Temple will be held on Saturday, May 18, at 3:30 P. M., starting from Fifth and Fillmore, Amarillo, Tex.

Parade pageantry by the officers uniformed units of Khiva Temple will all their color, beauty, routine, electric pomp and splendor, combined with drill formations, floats, good music, novice antics, will make this a parade worth seeing.

A full form ceremonial will be held, good entertainments for everybody. Nobles are requested to bring in their reports on cases of crippled children within their counties who need the services offered by U. S. Shriners Hospitals for Crippled Children. Camel Herders will hold a reunion on Friday, May 17, to which all Nobles and candidates are invited.

WOMEN WANTED

It has been announced that women who have had prior service in the Wacs may re-enlist in the Army for different lengths of time. All former women who have served in the Wacs and who have a specialist MOS that are interested in re-enlisting in the Army are urged to go to your nearest U. S. Army Recruiting Station for further information.

Former Wacs may enlist for service up to the 30 Sept. 46 or for the duration plus 6 months. Your nearest U. S. Army Recruiting station is at 605 West Main, Brownfield, Texas.

CARD OF THANKS

To our many friends in Lynn county who so faithfully stood by our side on the occasion of our bereavement in the loss of our wife and mother.

Our thanks to the members of the New Home and Lakeview communities to whom we are greatly beyond expression. — J. H. Newman, Henry Newman and family, Mr. and Mrs. W. A. Farmer, Mr. and Mrs. Hubert Newman, Billy Newman and family, Mr. and Mrs. Homer S. Newman and S. C. J. Melvin Newman.

Secret Radio Aided

Allies' Foreign Operations

A worldwide radio network operated by members of the office of strategic services provided a vital link between agents behind the enemy lines and bases in Washington, London, Cairo, Algiers, Rome and Kunming. Radio operators and cipher personnel were responsible for the fast and accurate transmission of thousands of items of information to the Allied high command. This branch expanded from an embryo fighting the bitter battle of procurement in Washington to an organization which could send along completely and uniquely equipped radio operators with OSS agents behind the lines. Always in danger of being discovered, usually working under the most adverse conditions, OSS radiomen handled communications between the late Brig. Gen. Theodore Roosevelt Jr., and General Eisenhower while General Roosevelt, acting as the theater commander's personal representative, was negotiating at a secret rendezvous point with the Italian command for the surrender of German-held Sardinia. OSS radiomen also guided Merrill's Marauders on their famed march to Myitkina airdrome in Burma. It was over secret radio circuits that arrangements were made for the surrender of the German armies in Italy by Field Marshal von Vietinghoff.

Tropic Paradise

Penang, sometimes called Prince of Wales island, was the first British possession in the Malay peninsula; it was acquired by the East India company in 1786. It still constitutes one of the few territories actually owned by the British in this area. Most of so-called British Malaya is merely under the protection of Britain, but Penang, Singapore, Province Wellesley, Malacca, and a few widely scattered islands comprise the Straits Settlements, an outright British possession. World travelers have sought out Penang for half a century, regarding it in a class with Tahiti, Martinique and Bali as a tropic isle not to be missed. Many round-the-world junketers left their steamers at Penang and took the Malay railroad down the peninsula to Singapore, there to go aboard again. The island is especially beautiful in the northern part, where a range of mountains 2,500 feet high rises from the sea. A ridge of hills cuts through the central area. The rest of Penang's 110 square miles is fairly level, and largely forested.

Chicken Feed

Sudden changes in feed or management of laying hens may cause the dropping of the neck feathers, called a partial or neck molt. In order to prevent it becoming a complete molt, a well-balanced ration should be fed. If the hens can be kept consuming a sufficient amount of feed the neck molt may be overcome and the hens soon get back into production. Pellets or dampened mash fed once each day will tend to increase feed consumption. All-night lights also increase feed consumption. If allowed to go into a full molt, the hens will go out of production and remain so for a number of weeks. Chickens respond best to regular habits in feeding care and management.

Canning Chicken

Chicken must be canned in a pressure cooker. To process it safely in a reasonable time requires a temperature of 250 degrees—far higher than the boiling point. The only way to get this temperature is to hold steam under pressure. Homemakers who have no pressure cooker often may use one at a community canning center or borrow one from a neighbor. Hens culled from the flock when they are one to two years old are best for canning. Young birds don't can so well because the meat has to be processed just as long as that of older birds, and this cooks young chickens to pieces.

FOUR thousand hours is a long time to keep a tractor operating at high speed, at peak load. But, that is the break-down test new models of John Deere Tractors must pass before they are ready for production—4,000 hours without failure.

Note in the illustration above that the rear wheels of the tractors have been removed and pulleys adjusted on the axles. The belts operating on those pulleys enable the engineer to fix resistance to a point where the tractors are "pulling" against a full load. Then, with throttle wide open, they are run continuously twenty-four hours a day, seven days a week, for the full period of four thousand hours... more than five months.

Constant checks are made throughout the period on the horse-power developed, oil and fuel consumed, and other vital factors. Then, the tractor is torn down to determine if any excessive wear appears. When that test has been passed successfully, the tractor is ready to go into production and proudly don the John Deere name plate.

Such high requirements of perfection and durability are characteristic of the John Deere organization, which operates today on the same basis of integrity of manufacture as it did in the days when its founder said, "I will never put my name on anything, which hasn't in it the best that is in me."

There is no substitute for the accumulated experience gained through more than a hundred years of single-minded devotion to the manufacture of better farm implements.

Cotton Insurance Is Now Available

According to Clinton M. Walker, Secretary of the Lynn county A. C. A., Federal crop insurance on cotton is now available to Lynn county

farmers. At least fifty applications for Federal all risk cotton crop insurance in Lynn county must be signed if the insurance program is to operate in the county. This requirement is necessary since the cost of administering the program in a county with a smaller number of policies in effect would be prohibitive, Walker stated. A great deal of interest has been shown already regarding the program and the A. C. A. official predicts the required number will be signed soon.

Deadline for signing up for crop insurance is April 25, 1946, but the applications must be filed before the crop is planted. The insurance protects the insured producer on 75 percent of his crop against all unavoidable hazards.

Further information on the insurance program for 1946 will be available at the A. A. A. office in Tahoka.

Gas 'N Air

By Kelly 'N Ches.

Howdy folks: It looks like we are on the right track to get readers for our advertising. Several folks came in and mentioned the opening column.

One man offered us a good joke to use in the write-up. That's the kind of cooperation we like and appreciate.

He said that every man likes to see a broad smile especially if she is smiling at him.

Not a bad one and we are glad to get it.

Already we are wondering whether we'll be able to wax humorous every time we sit down to write this column.

There's one thing we can always write about with pleasure, though, and that's our Texaco Products. Yes we have changed to Texaco Products, so drive in and give them a try. You will be pleased every time.

Baptist Revival Declared Success

The revival services which had been in progress at the Baptist Church for about nine days came to a close Sunday night after a day of high spiritual tension that had brought many young people and children into the church body.

At the morning service of this last day of the revival, 24 children and young people presented themselves for baptism and church membership; four adults came with letters, and five others came reconsecrating themselves for service. Many of the children had been led to accept Christ in the preceding Sunday school service.

During the entire revival, there were 34 who came for baptism, eleven by letter, and six reconsecrations.

Just preceding the regular preaching service Sunday night, 27 converts were baptized by the pastor, Rev. Levi Price, in the Church baptistry, undoubtedly the largest number that have been baptized at a single service in this church.

Some other records were also made during the revival. On Sunday morning there were 515 present in Sunday school, by far the largest number ever registered present in the Sunday school of this church. There had been 368 present on the preceding Sunday, which was a near-high record. The large attendance Sunday was due principally to personal work done by the pastor and other church workers during the week, most of the number having signed written promises to be present.

It is also believed that with the exception of two stormy nights, the crowds that attended the night services during the week had been record crowds for this church.

Also on Sunday evening, there had been a record attendance at the Baptist Training Union, a total of 211. The Unions, however, were turned into prayer services on this occasion.

There had been prayer services each evening just before the preaching services, the attendance at these prayer meetings on two or three nights having been 150 or a little more.

Rev. B. K. Selph, one of the Fort Worth pastors, did the preaching during the meeting, and his messages were generally pronounced very strong and helpful. The people of the Church fell in love with him.

Harry Minor of Lubbock lived up fully to his reputation as a choir director and song leader. The congregational singing was never surpassed in any meeting here. On Thursday night, the choir was constituted solely of men. On Sunday night, there were four choirs, occupying four different sections in the Church, the men occupying the regular choir seats.

The revival offering made Sunday morning and night amounted to \$401.56. Both the visiting preacher and the singer left after the services Sunday night for their respective homes.

WILSON PEOPLE VISIT FAT STOCK SHOW

Up at Wilson last Friday the News man was informed that a lot of Wilson people had visited the Fat Stock Show at Fort Worth. The list included W. G. Boyd, E. O. Montgomery and family, Mrs. N. E. Rhudy, Mrs. J. W. Parker and two children, Edwin May and two sons, Neil White and son, Bob McDaniel, Mr. and Mrs. Luke Coleman, Mr. and Mrs. Claude Coleman, Howard Cook and family, and perhaps others.

Mr. Boyd says that the two greatest attractions at the show were Gene Autrey and Herman Geering's private car, an old black touring car that our boys had captured over there. The owner got away temporarily but he didn't get cut of Germany, and he has been busy the past week or two trying to polish up his record as a Hitler aide and a war criminal with a view to saving his neck.

He hasn't needed the old car lately.

Mr. and Mrs. Audrey Mueller of Needles, California, and Miss Lois Stevens of Santa Ana came in Tuesday night for a week's visit here with their parents, Mr. and Mrs. D. A. Stevens, and other relatives. All lived here until about four years ago, when they moved to California, where they are engaged in business and are thriving.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 2 days before "your time", it should help relieve pain due to purely functional periodic causes. TRY IT!

MR. FARMER Make Your Cotton Planting Seed Go Farther

Here Is How

Let us delint your seed by the Kemgas Process then you can plant half as many seed and secure a better stand.

Why Is This True?

The Kemgas Process removes ALL the lint, then recleans, grades, and treats them with cerasan. Seed processed in this manner will germinate 3 to 5 days quicker than fuzzy seed. Tractors plant 25% more seed land in a day because.

There is absolutely no lint to choke planter boxes and one filling of the planter box will run 3 to 4 hours.

Planting Attachments

No special planting attachments are required—just an ordinary corn plate will plant these seed.

Planting Seed Scarce

Good planting seed is scarce this year. Get the most out of your seed by letting us process them. We are equipped to do a first class job.

We are able to supply a limited amount of KEMGAS DELINTED SEED in the following varieties:

- Hi-Bred Northern Star
- Western Prolific D and P. L.
- Macha (Storm Proof)

All these seed are first year from originator and are \$10.50 per hundred.

THEY ARE AT IT AGAIN

The communists are at it again. During the last Presidential campaign Earl Browder announced that the party had disbanded and would support the Democratic nominee for the Presidency, Franklin D. Roosevelt. But recently, we no doubt to the friction that has arisen between the United States and Great Britain on the one hand and Russia on the other, the communists have come alive. They became very much offended at Winston Churchill's suggestion that the United States and Great Britain form a closer political and military alliance. While many of us might not be willing to go as far as Churchill suggested, yet we were unable to see anything in his suggestion to make us mad. But it made the communists mad. They felt that it was a thrust at Stalin and at Russia, and so they took it as an insult. They picketed the hotel where Churchill was lodging and booted and hurled insults at him; and from this time on they are going to be more active in spreading their propaganda, perhaps, than they have been at any time in the past. We think that they should be invited to get out of our country and hike out for Russia, where there is a form of government that suits

them. They seem to prefer a dictatorship to a democracy.

There is no democracy in Russia. The country is ruled by the communist party, made up of a very small percent of the people, and the communist party is ruled by a very few individuals. Stalin is the big boss.

In this country, the communists have freedom of speech. They can cuss the government, the President, the Congress, and everything American, to their hearts' content, and never be molested by the law; but if they were in Russia and should begin to curse the government or Stalin they would land in jail pretty pronto.

In this country, they can read a free press—any one or any number of thousands and thousands of newspapers expressing all kinds of political opinions, and can themselves write and print anything they please, provided it is not indecent or libelous; but if they were in Russia and wrote or printed anything in criticism of the communist party or of the government or of Stalin they would likewise be huddled up pretty soon in some jail or concentration camp.

In this country, they can worship God in any manner they see fit—if they are inclined to worship Him at all—but if they were in Russia, it would all depend upon what they believed and taught in their religious worship. If they did anything particularly displeasing to the powers that be, they would find their church doors nailed up some Sabbath morning and their leaders hailed possibly before some court—if they have any institution that can properly be called a court—to explain if able to do so, the meaning of the things said in their sermons, their testimonies, or their prayers.

In this country, they can picket and boo and insult the object of their wrath, whoever he may be, and get by with it; but if they were to attempt anything like that in Russia with respect to its rulers—well, it would be the last time they would ever have the opportunity to picket or to boo anybody.

Here they can assemble in great meetings and protest against anything that doesn't suit them and make demands upon legislative bodies; but if they were in Russia and pulled off any meeting of that kind, they would get it where the chicken got the axe.

So, if these communists want to Russianize America, we are not in favor of permitting them to do it; rather let them go to a country they are already Russianized.

The News has received some publicity stuff from several of the candidates for state office, some of which we have mentioned in these columns and some of which we have not mentioned. The latest comes from Senator Allan Shivers of Port Orthur, who is a candidate for lieutenant governor. We expect to investigate his record and that of every other legislator offering for state office between now and election day and then give our readers the low-down

on his record. These east Texas legislators have thwarted the efforts and denied the pleas of west Texans for a redistricting of this state into new legislative districts for so long that we do not expect to vote for a single one of them for a state office who has not actively supported the redistricting movement—and that bars practically every one of them. We have decided that the only way for West Texas to get a re-districting bill passed is to begin to cut the throat politically of every east Texan who runs for a state office unless and until he comes out flat-footedly for any re-districting measure that west Texans may agree upon or endorse. We believe every newspaper in West Texas should follow this policy and let those east Texas politicians know that they can not get any support from the newspapers of West Texas unless they are willing to treat West Texas fairly, at least decently.

Russia seems to be courting trouble. She seems to be suspicious of every other nation, and that accounts for the fact that she is manifesting a disposition to hoe her own row, extend her own boundaries just as she pleases, and build her own fences. Stalin's explosion following Churchill's speech at Fulton, Missouri, in which he called Churchill a war-monger and a liar, was entirely unjustifiable. We were glad that Churchill replied in a calm and gentlemanly tone. Russia is showing little disposition to abide by the decisions of the UNO. For her to break loose from the UNO and follow an entirely independent course would be unfortunate. For her to enter upon a program of aggression would be calamitous. And yet she seems to be intent on doing that very thing, under the guise of protecting her own borders. Protecting them from whom? Great Britain and the United States, two nations that have not the slightest intention or desire to take a single foot of her territory. We hope that she calms down and quits threatening the peace of the world. Peace is one of the things that all nations need just now and that most of them devoutly desire.

We were glad to note a few days ago that Prime Minister Attlee of Great Britain had given assurance to India that that country might have complete independence at any time they may want it. He called attention, however, to the peril of cutting loose completely. We doubt if peace would continue to reign in India if the country should be given its independence. There are at least two very antagonistic factions in that country, the Hindus proper, most of whom are Brahmins and the Mohammedans. War might break out between the two factions at any time. If the country is to be given its independence, some steps should be taken to prevent the outbreak of war.

An adman told us the other day that he heard one of the Gold Dust Twins say "Lax against us."

WEDDING ANNIVERSARY

Mr. and Mrs. Paul Cox celebrated their fourth wedding anniversary with a sumptuous dinner at their home on March 6, according to a belated news story turned into the News office.

Since Paul had been in the army most of their married life, it was the first anniversary they had been together.

Their dinner guests were Mr. and Mrs. Jarrell Cox, his parents, Mr. and Mrs. Jimmie Cox and son from Athens, and Mrs. T. B. Burroughs.

The three-tier wedding cake was topped with the same miniature bride and groom which adorned their wedding cake at the reception following their marriage ceremony.

MRS. LOYD MOCK GIVEN BRIDAL SHOWER

A bridal shower honoring Mrs. Loyd Mock was given in the home of Mrs. Leroy McGehee in the northeast portion of Lynn county on Thursday of last week. Those attending were:

Mesdames Joel Neugabauer, Jack Burkett, J. W. Kuykendall, Hugh Webb, J. J. Riney, Tommy McGehee, E. W. Stokes, Robert Mock, Opal Hagler, Fr. J. Davidson, E. W. Hood, B. Roberts, Edd Mock, Edd Milliken, Leis Holland, A. C. Martin, Hub Taylor, T. E. McGehee;

Troy Moore, J. S. Avant, J. A. hostesses, Miss Louise Davidson and Willingham, W. H. Norman, F. B. Dement, Travis Mann, Miss Velma Hagler, Dollie Shelton, and the Refreshments of sandwiches, cake, and punch were served.

**NEWMOORE GIRLS
4-H CLUB REPORTS**

The Newmoore girls 4-H Club met at the schoolhouse Tuesday, March 12 at 9:00 o'clock a. m. Miss Anderson, the county home demonstration agent, met with us. She instructed the club in the matter of posture.

The club also discussed Clothing and Miss Anderson gave the members some books on Clothing and Posture. She passed patterns about the room so every one could see how easy it is to make a plain blouse or skirt.—Club Reporter.

Ever since the wife said she'd drop dead if we ever bought her anything, we've been hanging onto the purse strings to save her life.

**Sidelights From
Washington**

(By George Mahon)

Some real progress is being made toward reducing Government spending and recapturing funds appropriated before V-J Day but not actually spent. This week the House passed a bill providing for the recovery of six and one-half billion dollars in unexpended Government funds in the hands of the Army and Navy and other Government agencies. This brings the total sum of money recovered since the end of hostilities to fifty-seven billion dollars, a sum greater by almost one-third than we have ever collected in Federal taxes in a single year.

We have not taken back from the Army and Navy certain unexpended funds required for rounding out the construction of bases in the far Pacific, but we have called for a clearer policy and no duplication of effort in the construction of these bases. After the peace treaty is officially agreed to, it might be difficult to complete fortifications without the charge being made by certain foreign powers that we were making aggressive threats against them.

There will be further recoveries of funds from the War and Navy Departments and other agencies following additional investigations which are now in progress.

The reports which Senator Connally and Senator Vandenberg have made to the Senate following their return from the first meeting of the United Nations Organization in London have been well received here. They talked not of war but of peace. Their emphasis was upon better understanding among the Nations. They spoke of tolerance and mutual respect, while advocating a firm and definite American policy.

The Senate has not permitted partisan politics to play a part in efforts which are being made to promote the success of the UNO. This significant fact was made clear by the report of Senator Vandenberg, the Republican leader in the Senate in foreign affairs matters. We cannot afford to fritter away a victory which was won at so great a cost.

The question of whether to permit the Navy to use 93 American ships in an atomic bomb test in the Pacific was not an easy one for the House to decide. However, upon the insistence of the Navy, the House voted to permit the test. Undoubtedly, it is very important to our security to have accurate knowledge at an early date as to just what an atomic bomb will do to Naval ships. Naval officers point out that there is little comparison between the relatively fragile and inflammable Japanese cities and heavily armored ships of the Navy. The Navy insists also that a few modern ships be used in the test if necessary knowledge is to be gained. The argument was made that in the event of a future war the lessons learned from the tests might result in saving millions of dollars and thousands of American lives.

A bomb, other than atomic, will sink a single ship, but no one actually knows what an atomic bomb will do to a formation of Naval vessels. Before proceeding with post-war plans, the Navy wants to know if an atomic bomb will sink the Navy. Naval officers apparently do not think so.

YANDELL-MENSCH

Miss Geraldine Mensch, daughter of Mr. and Mrs. S. A. Mensch of Tahoka, and Reed M. Yandell, son of Mr. and Mrs. T. J. Yandell of O'Donnell, were united in marriage at 8:00 o'clock Saturday night in the home of Rev. Howard Martin, who officiated, using the single ring ceremony.

The bride wore a powder blue chiffon dress with white accessories and a corsage of white carnations, and carried a white Bible, a gift from her father. For a going-away suit, she chose a pen-stripe gray suit with white accessories.

The maid of honor was Miss Ola Maye McKee and bridesmaid was Miss Ruth Yandell, sister of the groom, of Canyon, Carl Page of Lamesa served as best man. Others attending were LeRoy Mensch, brother of the bride, and Mrs. Mary Lou Page of Lamesa.

The bride is a 1944 graduate of the Draw-Redwine high school. The groom is a 1943 graduate of the O'Donnell high school and has recently been discharged from the armed forces.

After a wedding trip to Carlsbad, New Mexico, the happy couple will return to their home in Brownfield, where the groom is now employed.

PIMPLES
Disappeared Overnight

Blackheads, Too, Went Fast

Yes, it is true, there is a safe, harmless, medicated liquid called **ALLEX** that drives up pimples, blackheads and spots and removes them. It is used by thousands of people who have tried it and found their pimples and blackheads had disappeared. It is so easy to use that even a child can use it. It is so safe that it can be used on the face of a baby. If you apply it to your face, you get double your money back. Ask for **ALLEX** today.

WYNNE COLLIER, Druggist.

**NEW LYNN CLUB BOYS
HEAR LECTURE ON HOGS**

The New Lynn 4-H Club boys met on March 8 with Mr. Ayers present.

He gave instructions as to how to get hogs and calves ready for the show.

Members present were John Lester Mason, Charles Mason, Melvin Edwards, Leroy Edwards, Richard Carter, Troy Dean James, and Thomas Mason.—Reporter.

**LET'S WORK FOR
INDUSTRIAL PEACE**

Men want to work.
Management wants to produce.
The public wants to buy.
The country wants prosperity.
Yet good times have been held up by an agony of strikes.
Strikes breed bitterness... hunger... and economic stagnation.
For the sake of our country, let's change this! Change it fast. Time is running out!
Let's work out a way to get — and keep — industrial peace and prosperity.

THE FIRST STEP

Isn't a sound national labor policy... one that treats workers and management exactly alike and above all one that is fair to the public... the first step toward that peace?

Sincerely believing this to be so, we offer this program for peace and production and prosperity:

1. Make employers and unions equal in responsibility under the law.
2. Let Congress set the rules for genuine collective bargaining, free from coercion and violence, and then let government enforce these rules with strict impartiality.
3. Provide safeguards for the public against strikes or boycotts arising from disputes between unions.
4. Insure against strikes until all orderly procedures for settling disputes have been exhausted.

Your representatives in Congress have the power to establish this pattern for an enduring and a fair labor peace. Let them know how you feel about it. Urge them to act promptly on legislation to include these four points.

Time alone won't bring industrial peace. Doing nothing won't bring it. Positive action is the only way. For your own sake and for the future of our country, let your voice be heard!

FREE! A timely, authoritative booklet entitled "The Public and Industrial Peace," gives full details of this program, including specific suggestions for legislation. It is a "useful handbook for every citizen, program chairman, or group leader. A postcard brings it. Address: National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y.

F. K. FLEMINGS HAVE FAMILY REUNION

Mr. and Mrs. P. K. Fleming had a family reunion in their home over the week-end to welcome home their son J. E., who has returned from 20 months service with the Army Air Force in India.

J. E. served all the way from Calcutta, across Burma, into China. He admitted that he was exceedingly glad to get back home and to receive his discharge.

Members of the family present at the reunion were: Mr. and Mrs. Alton Fleming and children and Mr. and Mrs. L. J. Walker of Lub-

Roy Rogers with "Gabby" Hayes looks things over in Republic's adventure "Sunset In El Dorado."

Invest In Security

Security for yourself in time of need, security in your declining years, security for your loved ones after you are gone.

REPUBLIC NATIONAL LIFE INSURANCE COMPANY

bock, Mr. and Mrs. John Meeks and Mr. and Mrs. James Baker of Shallowater, Mr. and Mrs. Lee Roy Baker and girls of Putnam, and Dwayne and Wanda of the home.

Rev. Lee Roy Baker was unable to attend.

Mr. and Mrs. C. B. Liles and daughter of Hale Center were present, he being a brother of Mrs. Fleming.

REAGAN-WEBB

Miss Margaret Reagan and Mr. Delbert Webb both of Tahoka were united in marriage last Friday in Lubbock with a single ring ceremony. Rev. Graydon of Lubbock performed the ceremony.

Mrs. Delbert Webb is the daughter of Mr. and Mrs. A. W. Reagan of Tahoka.

Mr. Webb is the son of Mr. and Mrs. Joe M. Webb of Tahoka.

They plan to make their home in Lubbock.

MERCHANTS SALES PADS, 6 for 25c at The News office.

MISS BRATCHER WEDS REV. MONROE TEETERS

Miss Snowie Mae Bratcher, daughter of Mrs. A. W. Bratcher of the Draw Community and Rev. Monroe Teeters, son of Mr. and Mrs. L. M. Teeters of Roscoe, Texas were united in marriage Friday night, March 8 at the Redwine Church. Rev. L. B. Edwards of Plainview performed the single ring ceremony and the bride was given in marriage by Rev. Lloyd Gentry. The bride's sister, Ila Fae Bratcher was maid of honor and Wanda Jean Beard of Lubbock served as bride's maid. Rev. Robert Renfro of Brownwood was best man.

The bride wore a blue street length dress with white accessories, her corsage being white carnations.

A reception was held following the ceremony at the home of Mrs. A. W. Bratcher. A white three tier wedding cake with punch was served to friends of the bride and groom.

The couple returned to Brownwood the following Sunday where they are attending Howard Payne College.

SOCIAL SECURITY MAN HERE WEDNESDAY

Wednesday, John Palmer, manager of the Social Security Board in Lubbock, was in Tahoka for the purpose of assisting persons who had questions regarding Social Security, or who wished to file a claim for Social Security benefits, or who needed Social Security account number cards.

The Old-age and survivors insurance provisions of the Social Security Act do not provide for payments in case of sickness or disability.

"Recently a number of persons have contacted this office, seeking information as to whether or not they could receive social security benefits during periods of illness or disability," Mr. Palmer said.

Monthly benefits are paid to eligible age of 65 and retired; benefits are also provided for eligible survivors of "insured" workers who die. But under the present law there is no provision for payments on account of sickness or disability.

Rev. D. D. Johnson of Abilene spent portions of Saturday and Sunday here in the home of his son-in-law and daughter, Mr. and Mrs. C. N. Woods. Mrs. Woods accompanied him home Sunday afternoon. Friends here will be grieved to learn that Mrs. Johnson has been in very poor health for a year or more and is practically confined to her home.

Mr. and Mrs. Clay Bennett accompanied his mother, Mrs. Cora Bennett to Glen Rose Sunday where she went for the benefit of her health.

Sore Throat—Tonsillitis! Our Anesthesia-Mop is a Doctor's Prescription that gives quick relief from pain and discomfort. Guaranteed to be the best Mop you ever used—or money refunded. Generous bottle with applicators only 50c at

4-H CLUB MEETS

The Garnolia 4-H Club met with the home demonstration agent and the sponsor.

We had bed for tomato plants fixed but didn't get to plant them. We decided not to get tomatoes but to get some other vegetables instead.

We had our opening exercises, said our pledge, and sang a song.

The home demonstration agent gave us a study in sewing. She gave us some patterns to fix some things.

We decided to have a slumber sound party.—Reporter.

Guy LeMond of Snyder came up Monday afternoon to attend a meeting of the Masnic Lodge here that night. Mrs. LeMond also came down Monday from Lubbock, where she had been visiting their daughters, to visit her mother here. Mrs. H. W. Calaway and she accompanied Guy back home that night.

Mr. and Mrs. Levi M. Nordyke returned recently from a five-week stay in Mineral Wells and Cisco. Mr. Nordyke took treatments at both places while Mrs. Nordyke underwent a minor operation in the first-named city.

ATTENTION EX-GI'S
How does civilian life strike you??

- Q: Have you taken advantage of an educational program under the GI Bill of Rights?
- A: If so, by all means stick with it.
- Q: Have you been able to secure a good job?
- A: If so, you are fortunate. Work hard at it.
- Q: Are you going into a business for yourself?
- A: If your answer is 'yes,' you are ambitious and we wish you success. However, seek advice from the Veterans' Business Administration Panel. They can help advise you. Your idea may be excellent, but now may not be the right time. If not, seek 'meantime job security' in the Regular Army until the time is ripe.
- Q: Are you satisfied with civilian life?
- A: If you are unable to say 'yes' to one of the above questions chances are you are not satisfied. The Regular Army is offering you your old job back.
- Q: How about my old rank?
- A: A recent directive from the War Department now makes it possible for you to re-enlist IN GRADE provided re-enlistment is effected WITHIN THREE MONTHS from date of discharge.
- Q: Will I receive a re-enlistment bonus?
- A: Yes, there is a generous bonus of \$50.00 for each year of previous service if you re-enlist WITHIN THREE MONTHS from date of discharge.
- Q: Will I get a re-enlistment furlough?
- A: You will be granted a re-enlistment furlough up to 90 DAYS if you re-enlist within TWENTY DAYS from date of discharge. You will be wise to RE-ENLIST WITHIN TWENTY DAYS and return home for a LENGTHY VACATION with PAY, RATION ALLOWANCES, and TRAVEL EXPENSES.
- Q: What about retirement?
- A: You can retire any time after 20 years service with a life income ranging from HALF PAY after 20 years, on up to THREE QUARTERS pay after 30 years.
- Q: Are there any other advantages?
- A: Yes, many. A few are, family allowances, income tax deductions, free medical care, reduced enlistment periods, and a 30 day paid furlough per year.

If you have a temporary or permanent problem, the Army can solve it for you. Investigate today, no obligation.

Dad's right

—wanting another **OIL-PLATED** engine

CONOCO Nth MOTOR OIL

and remember another big thing: Don't say octane—SAY N-TANE ... CONOCO N-TANE GASOLINE

Motorists' Lesson I from World War II is that cars with OIL-PLATED engines don't quit easy. Though some are being traded for style's sake now, you can safely figure that the owners are repeating on OIL-PLATED engines! They make sure to get them—the same as you can do—by using Conoco Nth motor oil, with its added OIL-PLATING ingredient. This acts magnet-like, forcing engine parts to attract and hold a close-bonded surfacing of lubricant. And that's protective OIL-PLATING—the wear-fighter!

Like a shield over the finished inner surfaces that you want preserved, OIL-PLATING is in position against wear... in position to discourage carbon, gum, and sludge—to encourage oil and gasoline economy. You want all that, and it's yours for the asking. Just ask for Conoco Nth oil in any car. In the case of an older car, you certainly need a Spring Oil change now, so this is exactly your time to OIL-PLATE. Pay just a bit more for it! See Your Conoco Mileage Merchant. Continental Oil Company

Rifle Club Elects New Officials

In a business session of the Lynn County 4-H Rifle Club held last week new officers were elected as follows: Bobby Oliver, President; Robert Knight, Vice-President; Billy Earl Anderson, Secretary; and Billy Ray Smith, Treasurer. Mr. J. B. Oliver is the instructor. Joe Armontrout is Assistant Instructor and Manuel W. Ayers Executive Officer. The group will be affiliated with the National Rifle Association in the near future.

On the field range Sunday after-

noon Bobby Oliver, new President of the group, lead the group for the third consecutive month with a high score of 51. Billy Ray Smith was second this month with a score of 78. Billy Anderson placed third with a score of 72.

The Lynn County 4-H Rifle Club meets each third Sunday afternoon at 2 o'clock at their rifle range located at the gravel pit just south of Tahoka.

Mrs. J. R. Mathis reports that their son, Edwin J. Mathis, seaman second class, came in home from service in the Navy, with his discharge, on Sunday, March 10. Recently he had been on a troop transport vessel.

Recently while Mr. and Mrs. D. W. Gagnat were out on a little pleasure trip they were met in El Paso by Capt. and Mrs. E. H. Boullion, and the four took a trip down to Chihuahua, Mexico. The Gagnat's arrived back home on Tuesday of last week.

TOO FAT? Get SLIM!

this vitamin candy way

Have a more slender, graceful figure. No exercising. No laxatives. No drugs. With the simple AYDS Vitamin Candy Reducing Plan you don't cut out any meals, starches, potatoes, meats or butter, you simply cut them down. It's easier when you enjoy delicious (vitamin fortified) AYDS candy before meals. Absolutely harmless.

In clinical tests conducted by medical doctors, more than 500 persons lost 14 to 18 lbs. average in a few weeks with AYDS Vitamin Candy Reducing Plan.

30-day supply of AYDS only \$2.35. If not satisfied with results, MONEY BACK in new 10¢ box. **WYNNE COLLIER, DRUGGIST**

Littlefield Is New Lamb County Seat

In a three-cornered contest, Littlefield won out in the county seat election in Lamb county Saturday before last. Olton, the county seat of the county since its organization in 1908, and Amherst, situated within five miles of the center of the county, were the other contestants.

This week the county records were moved to the Littlefield City Hall, donated to the county by that city.

Complete but unofficial returns indicate that Littlefield received 4311 votes Olton copped 1,229 votes, and Amherst, 789. Since Littlefield was not situated within five miles of the center of the county, it had to receive two-thirds of the votes cast to win. The total vote reported Sunday was 6,329.

There had been three previous elections proposing removal of the county seat to Littlefield, one in 1920, one in 1932, and one in 1937. Littlefield is by far the largest town in the county but is situated near the south line of the county and therefore required a two-to-one vote over all opposition in order to win, in accordance with the law in Texas.

Airplanes May Transmit

Future Television Waves

Originated by a 27-year-old engineer, C. E. Nobles, and called Stratovision, your television broadcasting station of tomorrow may be an airplane flying lazily in circles six miles above the ground and above the weather—providing better reception at much lower cost than old-type land stations.

As now conceived by Westinghouse engineers, the airborne network will be made up of two-motored airplanes equipped with television and frequency-modulation transmitters and flying some 30,000 feet in the air. Programs originating in ground studios will be beamed to the cruising planes, then re-broadcast to television receivers in homes.

The Stratovision system promises to crack one of the toughest nuts of television broadcasting: how to increase the coverage area of each transmitter. Because television and FM radio waves travel in a straight line, they do not follow the curvature of the earth but simply shoot off into space. This means that television broadcasts from the highest practical tower erected on the ground cannot be received much more than 50 miles away from the source. By raising the antenna and transmitter 30,000 feet in the air, however, the reach of the short-waves is increased four times, thus drastically reducing the amount of equipment necessary to pick up and relay the programs. To provide coast-to-coast linkage by ground installation would require approximately 100 relay towers and hundreds of transmitters; or a 8,000-mile co-axial cable network estimated to cost at least 100 million dollars.

Kiddies Like to Wash

If It's Made Easy

Children can honestly love the task of washing hands before meals under suitable conditions. The basin must be adjusted to their height. Either it is a special low type, or there is a box or step-stool placed before it.

After all it is a most uncomfortable feeling to have water trickling back down the arms, and that's what happens when a tiny tot tries to wash at a regulation height basin. Try out the box to step on, and place the rod for towel and wash-cloth low enough for easy reaching.

If there are several children in the family, not all of whom can read, use pictures to designate the place for each child's individual towels, a duck for Susie, a kitten for Bobby, and so on. And here's a simple way to help a child not to waste soap: Teach him to place the bar on the bristle side of a hand brush. This will keep the soap dry instead of melting away in a damp-dish or basin.

Push Drive For Tech Stadium Fund

Lubbock, March 20.—With the goal in sight, Texas Tech alumni and Lubbock civic leaders have intensified efforts to complete the drive for funds to erect a new \$300,000 stadium for the college.

Leaders have announced that only about \$25,000 more is needed to reach a \$150,000 campaign goal set to raise funds to match \$150,000 underwritten by Clifford B. Jones, president emeritus of Tech, and others. Alumni solicitors say virtually every ex-student in the Lubbock area who has been asked has contributed some amount.

Ex-students and friends throughout Texas have been urged to send checks to the Texas Tech Foundation, Box 96, Tech station, Lubbock.

49 Men At Baptist Brotherhood Meet

Fifty-nine members and visitors attended the regular monthly meeting of the Brotherhood in the dining room of the Baptist Church here Tuesday night, and a number of the visitors became members.

A program was rendered consisting chiefly of brief discussions of pertinent topics by P. A. Nowlin, D. A. Barton, Joe Bob Bliman, and Manuel Ayers.

A membership committee was appointed by the president, Vick Bolkin, consisting of J. T. Elliott, Retz Parker, and George Atkin.

It was announced that in the absence of the pastor, who will be in a revival meeting at Eastland, the Brotherhood will have charge of the Sunday night service at the church. The pastor will be here for the regular Sunday morning services, however.

Mrs. R. F. Moore was hostess for the Wilson H. D. Club, Wednesday, March 13. Miss Anderson was present and gave a demonstration on selections of colors, lines and designs for the individual.

Refreshments of cold drinks and cookies were served to eight members and one new member.

Tom Hale, John Fulford, Bill Burleson, and members of their families spent several days down at Mineral Wells last week, returning home about the first of this week.

PRESBYTERIAN SUNDAY SCHOOL

Meets each Sunday morning at 10:09 o'clock. You are cordially invited.

Mrs. N. H. Cromer is visiting her son Joe and wife at Richardson. A son, Joe Jr., was born to Mrs. and Mrs. Joe Cromer last Monday. Mrs. Maude Bledsoe of Tahoka is the great-grandmother.

Congratulations—

Mr. and Mrs. A. D. Harvick on the birth of a daughter weighing six pounds and 15 ounces at the Price Hospital in Lamesa at 12:15 o'clock last Sunday. She has been named Connie Jean. The mother is the former Dorothy Conway, and the parents now live in Lamesa.

SENIOR PLAY TO BE PRESENTED AT HIGH SCHOOL

The play to be presented this year by the Senior class is a three-act farce written by Jay Tobias, titled, "Meet My Wives."

The play has a cast of five men and six women. The cast consists of the following: Billy Zanders, Anna's young lover, played by Jesse Ray Adams; Hank Evans, Billy's pal, played by Bobby R. Scott; Tessie Heimberger, the Dutch cook, played by Ardyth Leeper; Loretta Ware, an unrecognizable wife, characterized by Gwynelle Davis; Alex Ware, her hen-pecked husband, played by Buddy Gene Bragg; Cuddie La Rose, a chorus girl, by Gerry Frazier; Miss Prudence Whitney, portrayed by Dorothy Johnson; Ann Whitney, her younger sister, played by Jeannine Smith; Olaf Swanson, Tessie's boy friend, characterized by Pete Schiffer; and Mrs. Thornton Lawacker, Anna's mother-in-law, played by Jerine Bartley; while Uncle Zebediah Zanders, Billy's uncle, is characterized by Larry Hagood.

The action takes place in the early fall and shows the complications that can arise when a jealous wife leaves her husband to his so-called best friends.

Mr. and Mrs. Marie Norwood had as their guests over the weekend Mrs. Norwood's sister-in-law Mrs. W. H. Moore and daughter Verne Crystal and son John, who had just been discharged from the army, and two other smaller sons, all of Merkel; also Mrs. Kern and her son J. D., who had just gotten a discharge. He was wounded in Germany and was in a hospital one and a half years.

Road Bonds . . .

(Cont'd from page 1)
ings in calling the election and voting the bonds can be made up, presented to the attorney-general and approved by him, and registered in the office of the state comptroller, the county will be ready to deliver the bonds to the purchasers, all of which should not require more than two or three weeks, the Judge says.

But, in addition to this, the first thing that the commissioners court must do is to employ an engineer to make surveys, to prepare plans and specifications for the construction of the roads, which plans and specifications will be furnished to contractors who wish to make bids. Advertisement for sealed bids will be made and contracts will be let on the best bids offered. The commissioners court, of course, will reserve the right to reject any and

all bids if they are deemed too high.
Bids will not be called for at any one time on the entire road mileage to be constructed but upon units of roads, say 10 or 15 or 20 miles at a time, as the engineers complete their work. Several contracts on different units may be made at the same time, however, and work proceed on several units concurrently.

Judge Garrard further states that the commissioners court will confer frequently with the state highway department and the state highway engineers and will seek to have all the roads built so as to meet the specifications of the state highway department and the state highway engineers, and that they will make frequent reports on the progress of the construction. In fact, the commissioners court will file all plans and specifications with the state highway department and will ask the advice and counsel of said state

highway department on every important phase of the work, so that when it is completed, the highway department will know the exact kind, character, and quality of farm-to-market roads the county has built, so that as the department sees fit to take over any portion of these roads there will be no delay in order for the department to make investigation of cur roads.

As to the character of roads to be built, Judge Garrard states that the roadbed will be twenty-two feet wide, with the hot top 20 feet wide. They will be built according to the specifications for the farm-to-market roads which the state department is building or will build. There will be a five to six inch gravel or caliche compacted base with a double asphalt treatment for the topping. In other words, the county will build the same character and quality of roads that the state will build from New Home to Wilson and from Draw to Wells, or practically so.

When can work begin? Engineers who have been consulted think that it might be begun on the first units to be built at from thirty to sixty or possibly ninety days from now. Detailed specifications must be made and furnished to prospective contractors and they must have time to study the same and decide on what they can afford to bid. The prospects are that before the summer is far advanced dirt will be turned and the vast road-building project in this county will have begun.

There is one other important fact that should be given to the public. As soon as the money for the bonds is received by the county, Judge Garrard and the commissioners expect to invest the full amount in U. S. Government bonds of such issues as can be cashed as the funds may be needed in the construction of the roads.

Judge Garrard declares that it is his intention and that of the com-

missioners to get full value for every dollar spent and he hopes that the funds available may be sufficient to construct a few more miles of roads than has been heretofore contemplated.

Stock Show . . .

(Cont'd from page 1)
saddle horse and the men and women saddle horse class.
The horse division is the only division that will require an entry fee. The entry fees which will probably be \$1.00 per entry will be divided as prize money. This horse division will be open to anyone in the county and will likely draw a goodly number of excellent saddle ponies. Each exhibitor will be allowed to enter two animals in each class. Another special feature of the show this year is a special attraction that is to be held immediately after the livestock judging. It is a Roping Contest between the Tahoka Roping Club and the O'Donnell Roping Club. This Roping Contest will be held just south of Tahoka at the Rodeo grounds that are now under construction.

Sponsors of this combined Livestock Farm Equipment and Labor Saving Device Show will be the Tahoka Chamber of Commerce, Tahoka Rotary Club, O'Donnell Rotary Club and Wilson Chamber of Commerce.

Burglary . . .

(Continued From Page 1)
patrick of the Arledge Ranch, and a horse belonging to A. R. Milliken, without a saddle. They then slipped back into the store, got the saddle, and started out on the three horses. But, deciding that they would surely be caught while traveling in this fashion, they came back into town, disposed of their mounts as explained above, and stayed around town until the bus came from the south at about 11:30 Friday morning, when they caught the bus for Lubbock.

In Lubbock they paid \$115.00 of the stolen money for an old car and started out, but they ran into the rear end of a trailer before getting out of town. The police demanded their driver's license, which they could not produce, and they were taken to the police station. Sheriff Sam Floyd had already reported the burglary and theft to the sheriff's office there, and one of the boys admitted his identity.

Floyd went up and brought the three back to Tahoka. The man who sold the old car to the boys for \$115.00 refunded the money to Gaignat Hardware. Gaignat also recovered the saddle and other articles which the boys stole.

MR. AND MRS. MOORE OBSERVE ANNIVERSARY

Mr. and Mrs. J. F. Moore of Grassland celebrated their 25th Wedding Anniversary in their home Tuesday night, March 19. Seventy guests called, several of them from other places.

Mr. and Mrs. Moore received many lovely gifts. Misses Neida and Joy Moore, daughters served as

hostesses. A program of songs and talks of appreciation were given by Rev. A. G. Johnson, Rev. D. W. Reed and Rev. Cliff Allen.

The News is informed that Capt. J. E. Brown has been sent back to

Europe to help to maintain the peace and to preserve the fruits of the victory which the Allies won last summer. He had been stationed recently in Virginia. He is said to have embarked on Tuesday of last week.

The KEY to Our Success

While we carry health goods of all kinds, and a variety of merchandise for your beauty, comfort and convenience, we never lose sight of the fact that a drug store's principal function is to provide a truly professional prescription service. It's the key to our success. When you bring a prescription to us, you know that it will receive the immediate attention of an experienced pharmacist who will "stay with it" until the medicine is bottled, sealed, and labeled.
