

FIRST BLIND STUDENT to enroll at Texas State College for Women, Miss Genevieve Powell of Wichita Falls, works in design class as her seeing eye dog and constant companion, Blackie, looks on. Ambitious to help blind war veterans become useful citizens, Miss Powell is studying to be a registered occupational therapist in a veterans' hospital.

LOCAL MEN ATTEND MEETING IN LUBBOCK
 Clint Walker, AAA secretary, Hubert Tankersley, county performance supervisor, and Vic B. McKin, county committeeman, attended a district performance meeting in Lubbock Monday and Tuesday.

BACK IN STATES
 Sgt. Wesley D. Mensch arrived in New York April 30, according to press reports, after 19 months in Europe. During the war, Sgt. Mensch was with the 26th Infantry in General Hodges First Army.

Canned Orange Juice
 Low storage temperature helps prevent loss of flavor in canned orange juice, says a study, reported to the American Chemical society. Excessive oxygen also will cause rapid loss of flavor and development of foreign flavors as well as darkening it is said. Storage temperature is very important for flavor-retention and for best results the canned juice should be kept at the lowest temperature, above freezing, which is economically practicable. Another prime factor is that the juice should be pasteurized by a high-temperature, short-time method with complete cooling, at least to 100 degrees, in the shortest practical time. The length of heat treatment was more important in flavor loss than the temperature itself.

Lake Sinkings
 If it were possible to drain the Great Lakes, literally hundreds of ghostly hulls and treasure — estimated at \$17,000,000 worth — would be laid bare. That much has accumulated since the middle of the last century. Storms account for most of the losses. Those fusses the lakes kick up are no teapot tempests. In 1905 and 1906, wrecked vessels totalled 51 and 62 respectively. The 100-mile gale in 1913 sank 10 steamers, 2 barges and a lightship and wrecked 6 other vessels. But radiotelephones have cut sinkings to a minimum. The 125-mile-an-hour gale in 1940 — first big one since radio came into use—took but three ships out of the 400 plying the lakes at that time.

Soluble Paints
 Laboratories are improving water soluble paints for home and factory use. They also are working on one-coat fast-drying lacquers for automobiles, better and tougher industrial finishes and paints that will stand 400 degrees of heat. Base of these new paints is one or more of the dozen new plastics known to the chemist as "resins." These bear the same relation to the natural resins, age-old foundation for paints, that the various synthetic rubbers bear to natural rubber. Because of the diverse qualities of these plastics, paint makers can mix new solvents and new oils with them and develop scores of new paints to meet specialized requirements.

Oiling Aids Efficiency Of Sewing Machine

Give your sewing machine the care it deserves—like your car it runs better when the machinery is clean and well oiled. Use a cleaning fluid (kerosene or carbon tetrachloride) to flush out the dirt and gummed oil that has collected during the year. Work in a well-ventilated room. Squirt the cleaning fluid into the oilholes and around places where moving parts rub against each other. Then run the machine for a while. If you have an electric machine, play safe by running it by hand rather than by motor. Remember that most cleaning fluids are inflammable. Keep them away from any open flame. Next wipe the machine to remove excess cleaning fluid, and leave for a few hours or until odor of kerosene or carbon tetrachloride has disappeared. Then oil the machine, run it a little and wipe off any excess oil carefully.

Summer Storage Helps Lengthen Curtain Wear

If your curtains have been on the job all winter, it is an excellent idea to take them down for the summer. Open windows shorten the life of curtains, and summer sunlight may cause draperies to fade, and glass curtains to rot. When you take them down you should clean them, and put them away carefully. You can wash most cotton glass curtains satisfactorily, and many cotton draperies, if they are unlined, preshrunk and fast color. Drycleaning for fragile net and lace curtains is recommended whether they are cotton or rayon. In storing them, fold the draperies lengthwise, hang them over the horizontal bars of coat hangers padded with papers, slip the hangers into paper bags, close the loose ends, and hang the bags of clean draperies away in a clothes closet where the paper coverings won't get torn.

Cold Treatment
 Cold treatment is, in many cases, a continuance of the heat treating process — that is a metal or alloy is subjected to the maximum temperature required for heat treating and then cooled continuously down to a level of 80 to 130 degrees below zero by mechanical means. This operation effects certain changes in the crystalline structure of the metal, making it harder, stronger or more ductile and developing uniform metal structures, something which heat treatment alone frequently fails to accomplish. Tool steels, for instance, have been benefited in particular by the dual heat-cold treatment. In some cases, tool life has been increased as much as 100 per cent after treatment for two or three hours at 120 degrees below zero. Hacksaw blades, "cooled" to 100 below, have lasted up to 119 per cent longer. Certain drills, cold treated, have cut 250 holes instead of only 50 before resharpening is necessary.

Mrs. Margie Conway, wife of C. W. Conway, was released Monday from the Price Hospital, Lamesa, where she had undergone appendectomy on April 30. She is now recuperating at the home of her parents, Mr. and Mrs. A. L. Shepherd, at Grassland. Her recovery thus far has been entirely satisfactory.

Our business never was "as usual"

Telephone service isn't like the ordinary business service. We are not always assured of returns on investment, but we always have a responsibility of public service. Our operating costs continue to rise, even with increased business. And now with our plans for expanded service, our expenses will go even higher. We know this new service will be everything you could ask. And we know too, that you understand the necessity for our operating on a reasonably profitable basis.

Gas 'N Air
 By Kelly 'N Ches.

Howdy Folks: we heard about a dog catcher who had a wooden leg. At first, it was hard to imagine how a dog catcher with a wooden leg could catch many dogs.

We mentioned it to one of the boys in the shop and he suggested that perhaps the dog catcher just stood on the corner and waited for the dogs to come to him.

When you buy a dog, be sure to get one that doesn't cost much for bargain dogs never bite, you know.

You know the tragedy of a mama flea's life is that she knows all her children will go to the dogs.

As one headache said to another headache, we better take a powder. Especially after that last one.

We would like to take a minute to tell you about our Texaco Products but why tell you, why not drive around and give them a try for yourself. You will be pleased.

Robinson Ready-to-Wear

TRAIL DUST

By Douglas Meador
(Western News Service, Inc)
Life spins so rapidly when youth is with us, that its design is blurred and then remains prone in the dust of years, so obvious to be interesting.

Warped fellows bulging from a rusting iron rim, the old wagon wheel lay in the borrow ditch beside the twisted disc of red metal from a modern automobile. Both had reached the common goal of their final mile and like pauper and king, awaited the deliberate action of time and the elements. Both wheels had known the weight of responsibility and had been faithful to drivers over trackless roads. Perhaps the small wheel had traveled farther in a fortnight than the wagon wheel in an entire span of usefulness, but to no greater destinations. With a speed of the wind, the car wheel had traveled farther in an hour than the distance covered by the wagon wheel in two days, only to reach the same grisly shore of lost usefulness.

We leave no pain for others without keeping an equal amount for ourselves. The hurt of a word or deed plants a seed in two hearts. The thief steals a like amount from himself. We can keep only that which we give of good or evil, hate or a prayer, tears or a song.

If winged mustangs break their right stake-ropes on the lush prairies of Valhalla, and the sound of muffled hoofs and chiming spurs pour out of the sky range where old cowboys have watched star fires burn in endless night, there is cause for pandemonium. Some new hind in paradise has brought the word that cowboy's shirts sell for as much as \$60 in the sage and mesquite land where work and wag, used to be important.

Experience is not only a severe teacher, she is persistent to the extent of punishing us for the same mistakes as often as necessary.

Dismal rain fell on the auction lot where many had stood to pay more than they could afford for objects they would not purchase in any other mart. Only two articles

remained unwanted, a crude pulpit and a pool table. Being merely an observer of life on this dangerous star, my mistakes are more frequent than the days, but I would not fall in my guess at the object which would have caused greater bidding, had the auction continued. Men would probably be more concerned about their souls if there was a way to avoid thought in the process.

Golden urns held the flames of clouds licking night's half-drawn curtains and the scent of rain was on spring's enchanting gown, swishing through the little valleys. It was a twilight to rouse old memories from their couches in corridors of the past, and like restless phantoms, trek through the opened door. Each spring is cut from the pattern of a thousand others.

Tomorrow is an adventure upon a road that is unknown to me.

O'DONNELL VOTES \$75,000 SCHOOL BONDS

Last Saturday 152 voters went to the polls to decide the \$75,000 bond issue for school improvements favorably by a vote of 132 to 30.

Supt. S. F. Johnson said that the grade school would receive attention first with the building being completely modernized with a hot lunch program being effected. Construction on the gym can not be started until a building priority is secured. The present O. K. school building, not being used, will probably be scrapped to furnish a portion of the building materials for the gym.

Pfc. Leo Wenzel, who was reared at Wilson and who recently completed a 15-months tour of duty in the Pacific, returned to the home of his parents, Mr. and Mrs. A. D. Wenzel, at Brownfield on last Friday. He has his discharge.

When we told the wife that the next time we married we'd get a woman who was easily pleased, she informed us that that was the only kind we could get.

One good thing can be said for automobiles. They made mortgages respectable.

Loves America, School Profits

Former Sicilian Immigrant Donates \$150,000 to Rural Institution.

BAKERSFIELD, CALIF.—A Sicilian immigrant has just endowed a tiny rural school 20 miles east of here with \$150,000 and 40 acres of rich farm land.

During 57 years in the United States, he has become a multimillionaire and a devout exponent of Americanism, says the Associated Press.

Joseph Di Giorgio wants Rockpile school (attendance, 183) to surpass metropolitan institutions in providing the foundation for good citizenship. To that end he has laid down a program of "five A's" for Rockpile's scholastic credo:

- Athletics, for channeling the energies of its pupils.
- Academic expression.
- The development of good attitudes.
- Americanism.
- Agricultural training.
- Lays Out Program.

The over-all plan includes a nursery for preschool age children of farm labor families in the remote district it serves, a kindergarten, home economics laboratories, playgrounds and a community swimming pool.

This program was evolved by the board of trustees for Rockpile school district and Gerald E. Dennerlein, the school's principal, in collaboration with Di Giorgio.

Di Giorgio's interest in rural education stems from his own boyhood. When he came to New York alone at 14 he had had only a few years' instruction in a village school.

His first job was in a wholesale fruit warehouse at eight dollars a week. Then he got a pushcart and peddled his own fruit and vegetables. At 19 he managed to borrow \$5,000 from a Baltimore, Md., bank and began importing Jamaica oranges. Two years later he was manager of the Monumental Trading company in Baltimore and a director of the Maryland National bank.

Later he extended his operations to Washington, establishing a small jobbing business. By the time he was 25 he had a banana importing concern which ultimately operated 29 ships under charter.

Now 71, he heads the vast Di Giorgio Fruit corporation, with subsidiary farms, packing houses, railroads and wholesale produce outlets. Rockpile school borders Di Giorgio farms, where some 6,000 acres of fruit trees, grapes and choice vegetables are under cultivation.

His rural philanthropies also include two gifts of \$25,000 each for development of public parks in Defano and Arvin, farming communities near his holdings.

Di Giorgio has no children of his own, but he is the patriarch of a large clan of nieces and nephews. Some of his grandnieces and grandnephews have attended Rockpile school and more will come.

That is why, his friends say, Di Giorgio is determined to give successive farm generations the basic understanding of America's mode of life—a philosophy which Di Giorgio learned the hard way.

Is Baldness Sign of Old Age? Eagles Don't Admit It

TOWER, MINN.—Baldness in human beings may be a sign of feebleness and old age, but in eagles it doesn't mean a thing!

Authority for this startling revelation are the inspectors of a northern Minnesota power company.

The trouble began when the inspectors complained of being attacked by vicious dogs, stinging bees and stubborn goats while trudging through the wilderness.

Accordingly the power company decided to send the play plane. Now the inspectors complain that bald eagles have attacked them on several occasions and forced them off their course.

Police Chivalry Turns Squad Room Into Laundry

ALBANY, CALIF.—Two girls and some lingerie threw police here into confusion.

The two young women, Ruby Reaves, 20, and Patricia Bitney, 21, were discovered by Sgt. Arthur K. Smith standing on the sidewalk outside a naval housing project from which they had been evicted with their washing only half done.

Smith invited the girls—wash and all—to take temporary refuge at the police station.

Patrolmen reporting in were greeted by the sight of freshly laundered lingerie hanging on a line in the squad room.

British Plan 2 Flights Daily Over Atlantic

LONDON.—The British Overseas Airways corp. announced plans recently for a double North Atlantic service to the United States and Canada, providing daily flights from London to New York and from London to Montreal in "the future."

Lord Knolly, BOAC chairman, said that later two flights would be provided on each route.

He said the fare was expected to be less than \$400.

O'DONNELL BOND ELECTION MAY 17 FOR STREET PAVING

Friday, May 17, the qualified voters within the City of O'Donnell will go to the City Tax office to vote on the subject of \$30,000 bond issue for paving and improving the streets of the city. The polls will be upon from 8 a. m. to 7 p. m.

We talked to a man the other day who was 97 years of age. He said he hadn't an enemy in the world. We thought that was wonderful thing, until he added—that he had outlived them all.

Every time we ride a horse we wonder how anything filled with hay can be so hard.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1-Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2-Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

LOOK INTO the "Sway" help! Try Cardul. If it helps, you'll be glad you did.

LEAVE FOR SOUTHERN BAPTIST CONVENTION

Mrs. D. V. Smith left Wednesday shortly after noon in company with Rev. and Mrs. B. N. Shepherd of Painesville to attend the Southern Baptist Convention, which will be in session in Miami, Florida, next week.

They will stop over a day or two at Tuscaloosa, Alabama, to visit Mrs. Smith's relatives. Also in the car was Miss Lillian Hundley of Claude, a returned missionary from Shanghai, China.

Rev. and Mrs. Levi Price and other Tahoka Baptists expect to leave here Sunday night or early Monday morning to attend the convention.

REVIVAL BEGINS SUNDAY AT ASSEMBLY OF GOD CHURCH

The Assembly of God Church will begin a revival Sunday, May 12.

Rev. R. A. Jones of Levelland, evangelist, will assist the pastor, Rev. Leon Quillin. Services will be held each evening beginning at 8 o'clock.

Every one is cordially invited.

Some of the candidates who maintain they will win their races or eat their hats had better be shopping for soft-felt headgear.

But, the fact that they still perform marriages in this country is proof positive that this is the land of the brave.

 A welcome awaits you. — Mrs. J. D. Roedler, Pastor.

METHODIST W. S. C. S. BEGINS SERIES OF STUDIES

The Methodist W. S. C. S. met Monday at 4:00 o'clock in the basement of the church for a brief business session and to begin our Bible study, Divine Fatherhood. A good many members attended and we had a wonderful lesson.

We cordially invite every woman, whether a member of the Society or not, to attend our Bible study.

Next Monday, May 13, we will continue with the next session of our Bible study.

SON OF WALLACE WHITE DIES AT ROPESVILLE

Pety White, the 12-year-old son of Wallace White of Ropesville and grandson of Mrs. B. E. White of Petty and Mrs. M. D. Hallmark of Dixie, died at the home of his parents Wednesday night of last week after suffering a long illness with a malignant malady that destroyed his eyes.

Funeral services and burial at Ropesville Thursday were attended by a great host of sorrowing relatives and friends.

Mrs. Alice Latham and daughter Matlie West were called to Lubbock Sunday night by the death of her aged friend, Mrs. Franklin, 87, who had died on that afternoon. Mrs. Franklin was the grandmother of Mrs. Latham's daughter-in-law, Mrs. J. M. Ayers of Lubbock. Funeral services were held Tuesday. Mrs. Latham and daughter returned home Wednesday.

Mrs. Pearl Brown reports that her son, Capt. Joy E. Brown, has arrived back in the states after a six-weeks trip over-seas, taking to Europe a shipment of new recruits. He is now stationed to Camp Kilmer, New Jersey.

Miss Virginia Ray Jones and friend, Miss Adele Dickey of Foreney, who are students at Texas State College for women in Denton, were recent visitors in the home of Virginia's parents, Mr. and Mrs. V. F. Jones.

Miss Wanda Jean Randolph of Cadiz, Kentucky has come to make her home with her mother, Mrs. E. T. Carroll here.

Mr. and Mrs. D. A. Stevens have returned from a visit with their daughter and family near Socorro, New Mexico.

Men Are Ready to Pilot Any Planes

Must Know How to Fly All Type of Aircraft.

TERMINAL ISLAND, CALIF. — The navy pilot zoomed in over the field in a little Hellcat, landed, walked across the runway, and took off on a four-engine amphibious job.

"Hey, doesn't he even get a check-ride in that thing before he switches over?"

"Shove off, Mac," the sailor groundcrewman said. "This is naval air ferry squadron three. If we checked those guys out we couldn't fly 21,000 planes 20 million miles in two years, could we? Not with only 3,000 pilots anyway."

"Yeah, but do all these guys know how to fly all types of planes?"

"Mac, they can fly 35 different types of naval aircraft."

Comdr. Henry S. Blake, USNR, commanding officer of squadron three, walked up and began to explain a little of his outfit's far flung operations since its commissioning December 1, 1943.

"What the crewman told you was correct. We laid special emphasis on training pilots to operate the highest number of types of navy planes so they would go anywhere, anytime. At one time we had 80 per cent of our officers and men away on ferry trips to Saipan, Okinawa, Iwo Jima and carriers standing off Tokyo."

The squadron was started when increased plane production made it impossible for naval activities to dispatch pilots to pick up and ferry each new aircraft, the commander explained.

Prison Chief Ordered G.I. Death, Jap Says

YOKOHAMA.—A Jap interpreter testified at the war crimes trial of Lt. Kel Yuri that the former commander of Omura prison camp decreed "James Pavlokos shall die" — and he did after being starved and tortured.

Pavlokos was a marine corps corporal from Chicago.

The interpreter, Harakichi Oi, also pointed to the defendant as the commandant who ordered a score of guards to bayonet to death Pvt. Near C. Heard of Salinas, Calif. But he said Yuri strictly forbade beating of prisoners. Depositions of two American officers also said Yuri ordered Heard's execution, and they told of secretly witnessing it.

Oi said Pavloska was a consistent trouble-maker "who acted like a tyrant. Nine or 12 American prisoners wrote us notes—some on cigarette packages, some on toilet tissue—asking that Pavlokos be transferred to another camp. It is a shame to say it, but it is true that at least two of them said, 'Please kill him.'"

The interpreter testified that:

Pavlokos was confined two days upon the report of a navy lieutenant and an American sergeant that he had stolen food. Pavlokos was put to work in a coal mine but caused trouble and was sentenced to five more days in the guardhouse. When he was assigned to kitchen duty so that Japs could watch him, other prisoners protested.

New Mechanical Lung Is Portable and Not Heavy

BEVERLY HILLS, CALIF. — A portable, plastic mechanical lung weighing less than 60 pounds may replace the 600 to 2,400 pound iron lungs now in use.

Its designer, A. L. Bergere, said the machine was already in full production here. It can be worn in or out of bed and manufactured at two-thirds the cost of the cheapest iron lungs.

The part of the lung that fits over the patient's chest is made of plexiglass and weighs about five pounds, Bergere said. The rest of the weight is in a motor, pump and flexible tube.

Patients can sit, stand or lie down with complete freedom of arms and legs, he said.

Soldiers, Others Held For Jeep Thefts, Sales

MANILA, P. I.—United States military police announced the arrest of six AWOL American enlisted men, eleven Philippine army officers and four employees of a printing shop on charges of complicity in a well-organized jeep theft ring. Fifteen jeeps have been recovered.

Capt. M. H. Traylor, chief investigator, said the ring even gave printed "ownership" papers to buyers of the stolen vehicles.

Several American G.I.s in the group, he said, were posing as officers and were "living high" on the proceeds of the jeeps, which had been sold to Philippine army officers.

Hiroshima Bombing Killed 78,150 Japs

TOKYO.—The atomic bombing of Hiroshima last August 6 caused 306,545 casualties, including 78,150 killed, the Jap central liaison office reported to Allied headquarters.

The report said 13,983 were missing, 9,428 seriously injured, 27,997 slightly injured, and 176,987 "general sufferers."

GET GOING

Howdy, Neighbor: Did you attend church services last Lord's Day? What is that you said? Oh: You don't go to church because there are hypocrits in the church. Why don't you quit your wife because some husbands are not true to their wives? Ah: That is different; you say. No it isn't. The home is no less sacred in its sphere than the church. If you refuse to go to worship because there are hypocrits in the church, why don't you dig up the peach tree, or quit eating fruit because you find a rotten peach on the tree?

Oh: You are just as good as the hypocritical church member, are you? Well, neighbor, I hope you are even better than such a one. But kick out of it, neighbor. Don't kid yourself in no such way. Be a man. Don't shirk responsibility.

The only way you and I can keep from spending eternally with the hypocrits, is to "GET GOING" — and worship and serve God as he has commanded us to do. Read Mat. 7:21-29; 15:1-9. and Heb. 10:23-29.

If we do that then we will be in eternity where the hypocrits cannot come.

Attend the services of the church of Christ in your community next Lord's Day. You are always welcome at the church of Christ.

Address criticisms, commendations or questions to: Price Bankhead, Post, Texas, Route 3.

Russell Rolfe of Chicago, recently discharged from the Army, has accepted a job with the Wilson Sun.

ANDY'S CAFE

APPRECIATION

Having sold my garage business in Tahoka to Jack Pennington and purchased the George Shoemaker Service Station and Garage in O'Donnell, I wish to thank my friends and customers for their past patronage and respectfully ask a fair share of your business in my new location. See me at the

Tanner Service Station & Garage

E. J. Tanner — O'Donnell, Tex.

METHODIST CHURCH

Some 14 members of the local church attended the all-day session of the Lubbock district conference at Slaton. Five of the six delegates attended: Mrs. Edna Ware, R. C. Wood, J. D. Donaldson, Mrs. W. W. Rowland, and Marvin Munn. J. W. and Mrs. Smith, Johnnie Price, Rev. and Mrs. H. A. Nichols, Mrs. Nina Wood, N. M. Boyd, R. L. and Mrs. Northern.

The district conference has so grown in numbers within the past few years that looks almost like an annual conference. The reports were excellent. Nearly 1700 new members have been received since November and some 100 infants have been baptized. All finances were paid 100 percent for the first half of this conference year, which will be June 1.

Last Sunday six persons united

with the church, three by letter, one by vows, and two by profession of faith and baptism. Let's work for and expect great things when we attend the church services. We expect you at the services Sunday.

Sunday will be Mothers' Day, and we will observe it at the morning service with songs and sermon appropriate to the day. Let us honor the living mothers and remember those who walk no longer with us. Some one has said: "Back of every great man has been a great and good mother." Napoleon said: "The greatest need of France is mothers." You are invited to worship with us Sunday morning.

There will be no services at the Church Sunday night, but we will want to attend the Baccalaureate services at the High School Auditorium.

Growth in Trailer Life Is Predicted

Expect Sale of Mobile Homes To Rise Rapidly.

LOS ANGELES. — One out of every four Americans now driving an automobile will have a house trailer hitched behind his car one of these days and will make the equivalent of one cross-country trip a year, a survey reports.

Sterling Gleason of the Civilian Production Administration said that his nation-wide survey indicated the life-on-wheels boom would get under way as fast as the necessary trailers could be produced — but that that would not be very fast.

Eight million new trailers are needed, he said, to accommodate all the people who would like to move their houses around with them.

When these are built, 20 million people will be rolling about the country, covering an average of 3,000 miles a year to satisfy their urge for travel.

"Most people," Gleason said, "like to own their own homes, but they are also fond of travel. With house trailers they can do both—economically."

Trailerism was booming when the war came along, but private purchase of the mobile homes virtually stopped when material shortages and government trailer purchases cut the supply.

When mass production gets under way again, Gleason said, prices probably will drop to where almost any family can afford to own its own trailer.

Gleason warned, however, that no one need get optimistic about one angle of the trailer question.

"It won't relieve the housing shortage, because statistics indicate that most trailer fans also continue to own their own homes."

Town Returns to Union; Grievance Now Forgotten

TOWN LINE, N. Y.—The residents of Town Line voted, 90 to 23, to "return to the Union."

The results were announced after the votes were collected by Henry Urshel, owner of the blacksmith shop where 85 years ago the tiny community decided for reasons now unknown to secede. Old newspapers and records show that Town Line's 125 voters met one night in 1861 at the schoolhouse, and after a stormy session voted, 85 to 40, for secession and cheered Jeff Davis.

Residents had just about forgotten the incident when Dade county, Georgia, and Vicksburg, Miss., "returned" to the United States last July 4. Then it was brought to light that Town Line's secession never had been rescinded by the hamlet's voters.

After today's balloting the stars and bars of the Confederacy were hauled down from over the blacksmith shop and the Stars and Stripes run up as a crowd of more than 500 sang "The Star Spangled Banner" and recited a "pledge of allegiance."

Scientist Hints Great Power in Cosmic Rays

ST. LOUIS, MO.—A much greater amount of energy than is produced by splitting the uranium atom may develop from use of cosmic rays, Chancellor Arthur H. Compton of Washington university said.

"Processes have appeared in our study of cosmic rays which transform all of the mass of a particle into energy," he told the St. Louis Academy of Science.

Dr. Compton, one of the top panel of scientists who developed the atomic bomb, pointed out that only 1 per cent of the mass of the uranium atom was released as energy in development of the bomb.

"Study of cosmic rays may carry us across the frontier to the micro-world, where we can study the particles of which atoms themselves are made," Dr. Compton said.

He defined cosmic rays as "rays similar to x-rays, which come from outside our universe."

Hot Sting in Man's Leg Proves to Be Bullet

MUSKEGON, MICH.—When Leonard Scott, Muskegon Heights truck driver, felt a hot sting in his leg he thought it resulted from a backfire in the motor. Stopping to investigate, he was surprised to learn he had been shot.

Gas station attendants heard an explosion and falling glass from a nearby window.

Police found a deer rifle concealed in a bed in the home of Frederick Farrell, and arrested him on a charge of using firearms in the city.

A physician extracted a bullet from Scott's leg and reported the injury as minor.

Owner of Bus Line Buys Up Whole Town

HANNON, ALA.—This town—population about 200—was sold to a bus owner whose knowledge of the place was what he had read in newspapers.

H. L. Bass of Elberton, Ga., for \$6,500 got 41 acres of land, a grocery store with a postoffice, a two-story house and several smaller buildings.

New Man With Local Soil Office

E. G. Moore, soil conservationist who has been connected with the office at Big Spring, was here Monday making arrangements to move to Tahoka and join the force here. He will live in a small house now under construction out in the west part of town.

Soil conservation work has been growing here and the force of workmen already consists of ten men, and Mr. Moore indicated that he could use more.

Mr. and Mrs. Moore, who are coming to Tahoka, have two small children.

Congratulations—

Mr. and Mrs. Cecil Keith upon the birth of a son on May 2, who weighs 22, who has been named Treva Alene.

Mr. and Mrs. James Lindley upon the birth of a son on April 26.

Mr. and Mrs. T.M. Freeman upon the birth of a son on May 2, who bears the name of Billy Don. He weighed 6 1-2 pounds.

All of these births were reported by the Sinclair Clinic.

Mrs. N. D. Odum is reported by the Sinclair Clinic to be recovering from a recent appendectomy operation.

Mr. and Mrs. G. H. Hines, Mrs. Christine Welch, and Truman Hines spent a few days recently with relatives at Fabens near El Paso.

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

GIFT WRAPPED

Mathews For Good Neighbor Policy

Fred Mathews, a long-time citizen of this county, has some very positive views respecting the merits of our Good Neighbor policy. He thinks the friendship of our neighbors on this continent should be courted and cultivated and keenly disapproves of any act or policy on the part of the citizens of our country that is calculated to ruffle the feelings of said neighbors.

For the second time recently he has come to the News office to register his disapproval of the policy of some cafe operators who refuse to serve meals to Mexicans. He thinks that is calculated to lacerate their feelings and to cause resentment and malice to rankle in their breasts.

It may be so, but cafe and restaurant operators are business men and are also merely human beings. As a rule, they prefer to operate their respective businesses in a way that will not drive their best customers away. The fault, if any, lies with the patrons of the cafes and not with the operators.

After all, it is probably not so much a matter of race as it is of cleanliness and tidiness. Anglo-Americans are very scrupulous about these things when it comes to their dining rooms and lunch counters.

Still, the News agrees that we should be considerate of the feelings of our Mexican friends and be careful to give them no unnecessary offense.

Congratulations—

Mr. and Mrs. Fred Mathews upon the birth of a son weighing six pounds and two ounces at 8:30 o'clock Tuesday morning in the Lamesa General Hospital by Cesarean operation performed by Dr. E. Prohl of Tahoka. The little fellow has been named Louie Everett Mathews. It is believed that the mother and babe can be brought home within a few days.

The proud daddy says that three other babies were born in that hospital on that day, two whites and one colored, and he thought it strange that his was the only boy in the bunch.

Kenneth Carter, Seaman 1-c. in the Navy the past 28 months, arrived home last Saturday with his discharge. He has been in the Pacific much of the time.

B. B. West, who last week underwent an operation in a Lubbock hospital, was able to be down town Thursday.

New York Pier Town in Itself

No Housing Problems There, With Bunks for 6,000; Speeds Discharges.

NEW YORK. — Nowhere in the world, on sea or shore, in the opinion of navy men, is there anything comparable to Pier 92 at 52nd street and the North river, which was turned into a receiving station during the war. It is the only known project in which a large pier in effect was transformed into a big ship billeting as many as 6,000 navy personnel, says the Herald-Tribune.

In many ways Pier 92 more closely resembles a large city than ship. It possesses the varied shops and services of a town. Down the main street of the pier community move automobiles carrying passengers back and forth. The street is lined with diversified stores and shops and entertainment centers.

Has Everything.

Like any American town, it has several restaurants (mess halls), a motion picture theater seating 600 and showing the latest productions, a sports arena for boxing, a pool hall, soda fountain with the inevitable juke box, library with hundreds of books and magazines, barber shop, cobbler shop, tailor shop, bank (safety deposit cage), chapel, post office, printing shop, ship's store, small stores, newspaper, beer hall, carpenter and machine shop, hospital (sick bay), hotel (bunkroom) and enough busy offices dealing with high finance and varied operations to fill an office building.

Probably one million navy men have been handled through Pier 92. As many as 30,000 are processed through the tremendous land-anchored ark in a single month. At present about half of these are sent to separation centers for discharge and the others go to ships for new assignments. Officers in command have received no orders concerning future operations, but it is expected the pier will be recommissioned as a receiving station.

Four ships complement the quarter-mile-long pier in providing space and facilities for thousands of navy men to live, work and play.

Leased by Navy.

The navy leased the pier, formerly used by the Italian line, from the city of New York in September, 1941. The navy tied up alongside the submarine tender Camden, which had seen service in the First World War, and used its four big boilers—she is among the last of the coal burners in the navy—to heat the vast space. The ship produces enough heat for the ships and the two decks of the pier, each measuring 1,180 by 120 feet.

A historic ship built as the battleship Washington in 1904 and later called the armored cruiser Seattle, was tied up on the south side of the pier, berthing ship's company personnel and bachelor officers. The Mercer, the newest type barracks ship designed for Pacific service, was tied up at the north side to house an overflow of men. The Mercer can billet 1,000 men.

In addition, the naval receiving station, Pier 92, has taken over the ship Prairie State, anchored off 135th street and Riverside drive, formerly used as a midshipmen's school.
New Yorkers, faced with a housing shortage and sometimes sleeping eight to a room, might be envious if they saw Pier 92's big bedroom, nearly one-fourth mile in length, sleeping comfortably 6,000 men in three-tiered bunks at one time.

Japan Is Far From Flat, Financial Experts Say

HAMILTON FIELD, CALIF. — Japan can pay "more than we expected" in reparations and the amount and extent of the indemnity are soon to be established, H. D. Maxwell, deputy chief of the American Reparations commission, said on arrival here recently.

Maxwell and 10 other members of the commission returned from Japan aboard an army transport plane.

Japan has a surplus in industrial capacity, despite shattering air raids, which can be appropriated for reparations purposes, Maxwell said. Some of Japan's 3,300 principal industries are completely undamaged.

The intent of reparations is to eliminate Japan's war potential and to transfer physically industrial equipment from Japan to Pacific nations entitled to indemnity, Maxwell explained.

The Japs co-operated in the work of the commission and "as far as I know, didn't conceal anything," Maxwell said. He declined to comment on the share which any country will receive in reparations.

Manila Is Long on Rats

But It's Short on Cats

MANILA, P. I. — They're calling for cats in Manila.

Army health authorities say there are five times as many rats in Manila as residents, and blame it all on the Japanese. During the occupation, they explain, the people got so hungry most of the city's cats turned up in the form of stew.

They asked citizens throughout the islands not to drown unwanted kittens but to give them to the city.

ADDING MACHINE PAPER 2 rolls for 25c at The News office.

Halsey . . .

(Cont'd. from page 1)
candidate column next week.

Calling at the News office late Wednesday afternoon, Mr. Halsey stated his views on some of the vital issues of the day, which he will amplify as the campaign proceeds. He asked that we state that:

1. He is against an income tax on the salaries of people who are making \$35.00 a week or less.

2. He is for and will sponsor a bill giving Federal aid for the purpose of increasing the salaries of all school teachers by 20 percent over what they are now receiving.

3. He believes that Veterans should receive the No. 1 priority in buying surplus property.

4. He believes that the Federal government should pay each person above the age of 65 the sum of \$20.00 monthly whether the State matches it dollar for dollar or not.

5. He insists that if you believe in a Government of the people, by the people, and for the people, instead of a Government of the bureaucrats, by the bureaucrats, and for the bureaucrats, you should send a new man to Washington—elect Hop Halsey to Congress from the 19th district of Texas.

Hop is well known throughout the entire South Plains area and over a much wider area than that, as for that matter, both by reason of his service in the legislature and by reason of his radio programs. He is a most excellent personal campaigner and will doubtless have very strong support in his congressional aspirations.

THE LYNN COUNTY NEWS

TAHOCA, TEXAS

FRIDAY, MAY 10, 1946

MEXICO ENTERS NEW ERA

For the first time since the revolution Mexico will elect a president who is not a general. Leading candidates are Miguel Aleman, pictured above with his wife and daughter Beatriz, and Ezequiel Padilla. Aleman, a Vera Cruz attorney and former governor of that state was head of the cabinet under President Avila Camacho and is the overwhelming favorite to be elected July 7.

His program calls for greatly expanded irrigation to open up millions of acres to farming, introduction of woman suffrage, improved housing conditions, improvement in the standard of living, a program of education far in advance of anything previously known in Mexico, and a road and railroad system which will make new markets available to the farmers and to the artisans in rural areas.

Aleman is the son of a revolutionary general who was killed in action. He is the candidate of the Institutional Revolutionary Party, Mexico's only political party. Padilla is an independent candidate.

NEW HOME SENIORS MAKE TRIP THRU N. M. AND COLO.

By Mary Nell Nettles
The New Home Seniors are back in school after having visited several points in New Mexico and Colorado last week. The first stop was in Santa Fe where we spent two nights. There we visited the Capitol Building, the Palace of the Governors, the State Penitentiary, the Arts Museum of Natural History, St. Francis Cathedral, Hyde Park, and other places of minor interest. We witnessed a very important ceremony conferring a degree on the Archbishop in the old cathedral. In the procession which preceded the ceremony we saw Governor Dempsey, the Archbishop of the Catholic Church, and several other dignitaries.

Thursday morning we went on to Taos, stopping at various points of interest along the way. At Taos we visited the pueblo on the Indian Reservation, Kit Carson's home, then we prepared a picnic supper up in the Carson National Park.

Friday we went to Raton by way of Eagle Nest Lake and the Cimarron Canyon. We crossed the beautiful Raton Pass and went on to Morley, Colorado where we saw some coal mines.

On our return trip we stopped at Capulin where we saw the two extinct volcanoes which scientists claim are two thousand years old. We secured souvenirs of lava rock, etc. Our last night was spent at Clayton, New Mexico.

We wish to thank Mr. and Mrs. Lee Cromer for making this trip possible by sponsoring us.

BROWN COUNTY REUNION ANNOUNCED

Former residents of Brown county residing in this section of the state are to have their annual reunion in Mackenzie State Park on Sunday, May 19, according to announcement made by Mrs. Adline Higbee, of Lubbock, secretary.

The meeting will be at the same place as last year, in the wire enclosure in the east part of the park. Every former Brown county resident is urged to be present, each family bringing a basket dinner. A large crowd was present last year and a larger one is expected this year.

MOTHERS' DAY SERVICE AT NAZARENE CHURCH

The Mothers' Day theme will be featured in the morning service at the Church of the Nazarene.

A short program will be presented by the Juniors and Young Folks followed by the morning message by the pastor, carrying out the same topic.

We invite you to this service as well as all regular services held at the Church.—Mrs. J. D. Roedler, pastor.

Highlight of the Fredericksburg Centennial Celebration will come on Wednesday, May 8, when a great historical parade will be held in that city.

JUST HUMANS

By GENE CARR

"An' 'r' Think You've Got 'r' Muzzled, Rags!"

L.T. COM. J. D. DONALDSON HOME TO STAY

After almost four years of service in the U. S. Navy, Lt. Commander J. D. Donaldson has been home now about two weeks. He has a terminal leave of about 76 days, at the end of which time he will be granted a final discharge.

He came from Pearl Harbor back to the home land but along a very circuitous route, down through the Panama Canal, thence through the Caribbean Sea and the Atlantic Ocean to New York City, where he disembarked. Thence he came down to Camp Wallace near Houston, where he was granted his leave.

Comdr. Donaldson served in the Medical corps, being a young physician when he enlisted in the Navy. He has seen service almost all over the Pacific west of Hawaii. He is a son of Mr. and Mrs. J. D. Donaldson of Tahoka and was reared here.

Mrs. H. P. Caviness returned home last Saturday from a few weeks visit with a sister and a niece at McGregor, both of whom were ill. The sister has been ill for some time while the niece recently underwent major surgery.

RECEIVES DISCHARGE

Simeon Kemp of the U. S. Navy, son of Mr. and Mrs. S. R. Kemp of Tahoka, slipped in home almost two weeks ago with a discharge from the service without having notified his parents in advance just when he would arrive. Simeon enlisted in the Navy in October, 1944, and has been doing

service on a mine sweeper. Like all the other boys, he is glad to be back home.

SHOEMAKER-WALDRIP

Miss Virginia Shoemaker, daughter of Mr. and Mrs. J. L. Shoemaker of O'Donnell, and Warren G. Waldrip, son of Mrs. Beulah M. Waldrip, who lives out southwest of Tahoka, were united in marriage in the home of the bride's parents in O'Donnell on Saturday, April 27. Rev. E. H. Crandall, pastor of the O'Donnell Methodist Church, officiated, using the double ring ceremony.

Miss Eloise Shoemaker, sister of the bride, was maid of honor, and Clarence Kopecky of Tahoka was the groom's best man.

Mrs. Waldrip is a part-time student in Texas Technological College and a part-time employee of the First National Bank of Lubbock.

Mr. Waldrip is a graduate of the Tahoka High School and before entering the armed forces was a student in West Texas State College at Canyon. Following his discharge from the service, he accepted employment with the Soil Conservation Service here and was so employed at the time of his marriage, but almost immediately thereafter he accepted a position at the South Plains Army Air Field, at Lubbock, as a mechanic, his work pertaining to the sealing up and care of the army air planes still remaining on that field.

The couple are making their home in Lubbock.

Fleet Admiral Chester W. Nimitz was born in Fredericksburg, Texas on February 24, 1885.

MRS. HACKENBERG HONORED WITH BIRTHDAY DINNER

A birthday dinner was given in the home of Mr. and Mrs. Zan K. Hensley of Draw Sunday for Mrs. A. J. Hackenberg, the former Miss Mamie John Florence.

Mrs. Hackenberg and little daughter, Gloria Jean, also left Wednesday by plane for Jersey City, New Jersey, where she was to join her recently discharged husband, who is employed with the Standard Oil Company.

Guests attending the elaborately prepared dinner included Mrs. A. J. Hackenberg, Mr. and Mrs. W. Z. Florence, Charles Florence, Mr. and Mrs. Boyd Barnes, Mr. and Mrs. W. R. Carpenter, Mr. and Mrs. Floyd Walters, and Mr. and Mrs. Jean Pirtle, all of Draw Mr. and Mrs. J. B. Florence of Tahoka, and Mrs. J. P. Davis of Garrison, Texas, who is visiting her sister, Mrs. C. C. Johnson Sr. of Draw. All enjoyed a pleasant day.

Mrs. Adline Higbee of Lubbock spent several days here this week visiting Mr. and Mrs. Will Montgomery and family. She is a sister of Mrs. Montgomery.

GORDON ITEMS

T-Sgt. Earl Dyer Morris, son of Mr. and Mrs. Earl Morris of Gordon community, has re-enlisted after serving over three years in the army, one of which was spent in the European theatre of war. Sgt. Morris will be located at Camp Polk, Louisiana. Mrs. Morris and son plan to join him there when school is out at Meadow, where they live.

Another son, Pvt. Jimmy Morris, is spending a furlough in the family home. He is being transferred from Camp Pickett, Virginia, to Fort Sill, Oklahoma.

A daughter, Wave Mary Lynn Morris, Y 3-c., has been moved from Camp Christi, Texas, to Arlington Farms, Arlington, Virginia, just across the Potomac from Washington, D. C. where her work is.

Merwyn Edmunds writes the family, Martin Edmunds of Gordon community, from Europe that he is being promoted to Pfc.

Janey Ruth Morris of Tech spent the week-end with home folks at Gordon. She was accompanied by a friend, L. Nerne Gary, who is also a student at Tech.

4-H CLUB GIRLS DAY TO BE HELD IN PLAINVIEW

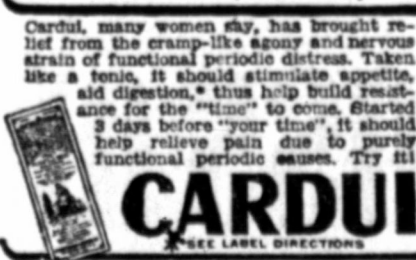

Plans are being made to hold a district 4-H Girls' Day in Plainview on June 14. The program will begin at 10:00 a. m. and be over between 4 and 5 p. m. the afternoon. Three girls from each county, one adult leader, and the county agent will be expected to attend.

The winner in the Clothing Revue Contest will go and model her costume. The winner from Lynn county will be selected on June 8. Two other top girls selected by her records kept in club work will also be honored with the trip to the district 4-H Day.

Doris Waller and Claude Isbell are county contestants in the Clothing Revue Contest. Both are from Law 4-H Club.

V. F. W. Aiding In Search For New Service Officer

By Billy Hill
Last week the V. F. W. tagged me as their "official publicity agent". However I am supposed to be a linotype operator but will give writing a try, so hold on—here goes. Lynn county is now in need of a Service Officer as Elbert Carey tendered his resignation not long ago.

Most people don't realize how important this job is to at least one-fourth of Lynn county's population. It is the most important job in the County—bar none.

Many Lynn County Vets are not getting the full benefits due them under the G. I. Bill of Rights and also many of the families of the boys that didn't come back have many rights and benefits that they are probably failing to receive because there is no one here in this county to help them out. Of course a few men are helping as much as they can to get these benefits for the fellows but they don't have the time to really look after the job as it is a full-time job within itself.

At the V. F. W. meeting last week his problem was discussed and a committee consisting of Kirk Pitts, Roy Botkin, David Weathers and myself were appointed to be on the lookout for a man that could handle the job. We have scoured the barrel and nearly all of the men that we could think of off-hand already held positions that they would not want to quit to take over the job as Service Officer. Finally we decided that Jackie Weathers would qualify and he was contacted and after talking to him he talked with Judge Garrard and now is sent to Austin for his application blank in order to apply for the job.

There are several other men that have been thinking about making application for this job. They are Truett Tyler, Draw; Elma Webb, Denver City; Harold Cromer, Lubbock; Frank McGlaun, Jr., Tahoka and possibly others that we don't know of right now.

In order to make application, you have to write for the application blanks, fill them out and turn them over to the Commissioners' Court of Lynn County.

Here are the addresses of two places from which you can obtain application blanks: A. O. Wilman, Director Veterans State Service Office, Land Office Bldg., Austin 14, Texas; Roy L. Beard, Veterans State Service Office, Box 404, Amarillo, Texas.

Now if you are wondering what the Commissioners' Court has to do with the Service Officers job, it is this. The County pays the Service Officer his salary and therefore selects one of the applicants.

for the job because of his ability to handle it. Actually a man should be a good lawyer, advisor, business expert, doctor, preacher, and general genius to really qualify for the job but where are you going to find a man with all this ability to take a job of this kind at the wages prescribed by law.

So the next best thing to do is to find a man with the best qualifications available, send him to the Service Officer's Training school in Waco and then start him out on the job. Of course he would probably have to have some help now and then with some of the technicalities of the law that he may not be able to understand, but he would eventually learn how to handle the job well through experience and continuous study.

One of the qualifications is that you must be an ex G. I. of either World War I or II.

By-the-way, it sure would look good to have all the members of this V. F. W. to attend our next meeting which will be May 30.

The Social meeting for next Thursday night was called off because the boys and girls at the high school will be having some of their graduation exercises on that particular night.

It has been calculated that a fly makes 330 wing strokes a second; a bee 240; a wasp 110; a dragonfly 28; and a butterfly 8.

FOUR CANDIDATES FOR ATTORNEY GENERAL
The office of attorney-general is not going begging for candidates this year. Just now we can recall the names of four who have announced for the place—all being men of character and ability.
Pat Neff Jr. of Houston announced Saturday that he would be a candidate. He is a son of the former governor. He has served as an assistant under three attorney-generals, James V. Allred, Bill McCraw, and Gerald Mann. Then he enlisted in the service, was later granted a discharge and is now practicing law in Houston.
Then there is Price Daniel of Liberty county, deep in the pine forests of East Texas. He has served with distinction as Speaker of the House at Austin, and is said to be a gentleman of high character.
A third chance to get a good attorney-general may be found in Judge Yarbrough of Austin. He is a distinguished lawyer and a man of much political influence in his city and vicinity. His name has been in the newspapers often, and some of our readers may be better acquainted with his qualifications than are the publishers of this newspaper.
The fourth man who has announced for the office is James K.

Evetts of Belton, former district attorney of that judicial district and one of the most successful and popular prosecuting officers the district ever had. He is a first cousin of Frank P. and Billy Hill of the Lynn County News force, all being grandsons of William (Bill) Evetts, one of the pioneer citizens of Bell county. James K. Evetts' father before him was a well-known lawyer at the Bell county bar. James K. was elected district attorney three times in succession, and after Hitler and Hirohito made war on the United States Evetts was given a place in the U. S. Adjutant-General's office in Chicago. He saw combat service in Europe, and was wounded in action. Now he is back in Belton and his friends announced him for the office of Attorney-General. He has a brilliant mind and a most pleasing personality, and while he is scarcely known here, the Senior Editor is predicting that if he visits this county he will have many friends here when he leaves.

Humane Americans will not begrudge the emaciated, starving peoples of India, China or any of the subjugated and impoverished nations of Europe one morsel of bread or other food sent from America for their relief. They will be willing to sacrifice a loaf of bread now and then, here and there, without complaint, to save the lives of these starving or undernourished millions. But what sober Americans do have a right to complain about is that while our Government is asking upon us for help in the conservation of food, it is permitting the brewers and the distillers of America to use hundreds of thousands of bushels of grain for the making of liquor when it might be used for bread with which to feed the starving. We ought to have sense enough to see that the use of grain for the making of liquor is pure waste and "guts" enough to put a stop to it.

We do not claim to know much about the internal politics of France but we were gratified to learn from the Sunday newspapers that a national Constitution written, proposed, and supported by the Socialists and Communists in that country had been defeated by the people, being opposed by those who favor a republican form of government. The Socialist-Communist proposed constitution—presumably was patterned somewhat after the Russian or Soviet form of government, while the Popular-Republicans favor a form of government similar to our own. With more than thirteen million votes counted the Popular-Republican majority against the Constitution was more than a million. Maybe France will soon return to sanity and to probity.

Twenty-seven of Japan's war lords were arraigned Monday (Sunday by our time) before an international court constituted to try war criminals, the charges against them being that they had plotted to plunge the Asiatic world into war. Each one of them pleaded not guilty, some of them defiantly. We are sure that they will get a fair trial and if they are convicted the world may rest assured that the judgment is in accordance with the law and the evidence.

Gold, osmium, platinum and tungsten are our heaviest metals.

IS GETTING UP NIGHTS GETTING YOU DOWN?
Thousands say famous doctor's discovery gives blessed relief from irritation of the bladder caused by excess acidity in the urine.
Why suffer needlessly from backaches, run-down feeling from excess acidity in the urine? Just try DR. KILMER'S SWAMP ROOT, the renowned herbal medicine. SWAMP ROOT acts fast on the kidneys to promote the flow of urine and relieve troublesome excess acidity. Originally created by a practicing physician, Dr. Kilmer's is a carefully blended combination of 16 herbs, roots, vegetables, balsams. Absolutely nothing harsh or habit-forming in this pure, scientific preparation. Just good ingredients that quickly act on the kidneys to increase the flow of urine and ease discomforts of bladder irritation. All druggists sell Swamp Root.

Democracy seems to be working in the Philippines. They had a national election over there a few days ago. Contrary to all expectation, the President was defeated, but the defeated candidate and his supporters submitted gracefully. They neither staged a rebellion nor a riot. It looks like they are going to be content to be governed by ballots and not by bullets.
Some folks seem to think that the antics of a drunken fool are delightfully funny. Not so with a lot of us. To us, drunkenness always seemed such a tragedy and a drunk person so pathetic as to create in us only a feeling of pity or disgust. Moreover, some folks who ought to have sense enough to know better, seem to think it is "smart" to drink and even to become intoxicated. What idiots!

Money placed on deposit with the national temples, in the early days of Greece, was loaned out at rates of interest varying from 10 to 30 percent a year.
Inscribed on the east face of the aluminum cap crowning the Washington Monument are the two words "Laus Deo" meaning "Praise God."

"We're switching to a Servel!"

says **JOAN BENNETT**
famous star of screen and radio

"It'll be a silent Gas Refrigerator for us! Good-bye, noise! Good-bye, repairs!"

When you choose your new refrigerator, you—like Joan Bennett—will want to remember what America's 2,000,000 happy Servel owners discovered. It pays to pick the modern gas refrigerator—because of its big basic difference. Servel freezes with no moving parts. A tiny gas flame does all the work. There's nothing in the freezing system that can wear or get noisy—ever. So a Servel Gas Refrigerator stays silent and lasts longer.

Stays silent... lasts longer

WEST TEXAS GAS COMPANY

Sidelights From Washington

(By George Mahon)
Our Subcommittee on Appropriations for Government-owned Corporations is now in the third week of hearings. It will be late in May before our bill will be ready for submission to the House for action. We have concluded hearings on the seven corporations which operate in the interest of agriculture. The Commodity Credit Corporation

is perhaps the most powerful Government Corporation which deals with agriculture. The CCC operates the price support and loan programs for cotton and grain and numerous other agricultural crops. Congress has guaranteed a support price, or loan, of 92½ percent of parity on cotton for a two-year period following the year in which the official end of the war is declared. A support price of 90 percent of parity is similarly provided for other basic crops.

Loans and purchases through the years by the CCC on cotton, wheat, corn, peanuts, eggs, and other farm products run into the billions of dollars, but CCC has sustained relatively few losses on crop loans and purchases. On cotton the CCC has made a net profit of \$147,000,000. Cotton farmers will rejoice over the fact that practically all Government-owned cotton will have been disposed of prior to August 1st. This is particularly gratifying when it is recalled that at one time the CCC had on hand over 11,000,000 bales of surplus cotton.

Governor I. W. Duggan of the Farm Credit Administration has appeared in support of the four Government Corporations under his supervision, all having a direct bearing on the year to year operations of millions of American farms.

Governor Duggan expressed alarm over the sky-rocketing of farm land prices. However, in contrasting the rise in farm real estate during World War I and World War II, he pointed out the encouraging fact that while the mortgage debt of farmers rose sharply during World War I the mortgage debt of farmers went down during World War II. The mortgage debt of farmers is now 5¼ billion dollars, the lowest since 1916.

The remarkable war record of the farmers of America was made in spite of manpower and machinery shortages and often in face of inadequate prices.

According to Governor Duggan, the total assets, real estate and otherwise, of farmers have increased from 53 billion dollars in 1940 to 90 billion dollars in 1946. He said that American farmers are now indebted for all purposes only to the extent of 10% of their assets. It is estimated that in cash, Government bonds and bank deposits the farmers of the Nation have a total of 15 billion dollars.

Of course, what we need in West Texas right now is not agricultural statistics but a good rain. Quite often these days Members of Congress from agricultural areas can be seen standing in front of a weather map which hangs just outside the House of Representatives and which records weather conditions throughout the Nation as of one-thirty o'clock each morning, Washington time. The red arrow indicating fair weather and no rain, is too often apparent over West Texas.

By order of the President, American flags are flying at half mast for thirty days on public buildings in the United States and on our embassies, legation and consulates in foreign countries out of respect to the memory of the late Chief Justice Harlan F. Stone.

SGT. ROSS GETS FURLOUGH AT RECREATION CENTER

Baguio, P. I., April 17—Staff Sergeant Carl Ross, recently spent an eleven day furlough in Baguio, Luzon, summer capital and playground of the Philippines, as a guest of Camp John Hay's recreation center.

Sgt. Ross entered the Army, August 14, 1944, from his home in Tahoka, Texas, where his parents, Mr. and Mrs. C. C. Ross, reside. After training at Camp Roberts, Calif., Sgt. Ross embarked January 19, 1945, for overseas duty in the Philippines.

Sgt. Ross has been awarded the Purple Heart, the Asiatic-Pacific Ribbon with two battle stars, the Philippine Liberation Ribbon with one battle star, and the Good Conduct Medal. He is now serving with the 2nd EMERGENCY RESCUE SQUADRON, 13th AIR CORPS, on Luzon.

VISIT TAHOKA

After a week's visit here, Mr. and Mrs. W. D. Knighton and son Dee of Trinidad, Colorado left about the first of the week to visit relatives at Snyder, before returning to their home.

Mrs. Knighton is a sister of J. E. Keiner and visited the Keiners here and the Walter May family out southeast of Wilson. Mr. and Mrs. Knighton came to Lynn county and pre-empted a section of land two miles north of the May place in 1902. They lived out there for about fifteen years, removing to Colorado in 1917. This was mostly a ranch country when they left here, there being just a few farms in the county at that time, and Dee Knighton declared to a News representative that there had been a marvelous change here since that time.

Dr. Ann West of Dallas and Mr. and Mrs. Herbert Hunt of Claude were here over the week-end visiting Mrs. Iona West, the ladies' mother, and Lynn West, their daughter. Try Classified Ads.

DANGER AHEAD!

GET YOUR CAR SERVICED FOR SAFETY!

THERE'S NO PLACE LIKE "HOME" WHEN YOUR FORD NEEDS ATTENTION! EXPERT SERVICE GENUINE PARTS

●● Careful driving alone cannot insure safety. Unless your car is in good operating condition, there's danger ahead! ●● Remember—many motoring accidents are due to faulty brakes. Do you know whether your brakes will stop your car within the margin of safety? The sure way to find out is to bring your Ford back "home" for inspection. Your Ford dealer's expert mechanics will check it thoroughly—including brakes, wheel alignment, tires, lights! ●● As cars grow older, they require more attention to keep them rolling safely and maintain high trade-in value. With the return of many veteran mechanics, your Ford dealer can now offer you fast, expert service. He uses genuine Ford parts and saves you time and money on any job. Remember—Ford's out in front in service, too!

BAPTIST NOTES

A Mexican baptismal service was held in the First Baptist Church here Sunday afternoon. Two men and a woman were "buried with Christ in beautiful baptism." Rev. Silvero Linares, Mexican missionary for the Brownfield Baptist Association, officiating. About forty-five Mexican men, women, and children and about the same number of Anglo-Americans were present to witness the administration of the ordinance.

Also present was Rev. Lloyd Corder of San Antonio, a missionary from the Home Mission Board of the Southern Baptist Convention, who made a brief talk to the Mexicans in the Spanish language and who also interpreted for them a brief talk made in English by Rev. Levi Price, pastor of the First Baptist Church. Mrs. Corder accompanied her husband.

Some of the fine old songs were sung in the Spanish and the English languages simultaneously by the two congregations.

Accompanied by Rev. Linares, the new converts presented themselves to the Church at the morning service to be approved for baptism, and they returned in the afternoon to observe the ordinance.

These converts are the fruits of the mission work being done here by Rev. Linares and others of his race. A number of Brownfield Mexicans were here Sunday afternoon to participate in the service. Sunday school is being maintained in a building near the railway tracks procured for the purpose at 10 o'clock each Sunday morning and Rev. Linares is also preaching here when not filling an appointment at Brownfield or elsewhere in the association. He is sent out by the Brownfield Baptist Association but the place of worship here was provided for by the local Baptist Brotherhood. The Sunday school has two teachers, both Mexicans, one for the adults and one for the children.

Rev. and Mrs. Levi Price, Mrs. Joe Bob Billman, and Mr. and Mrs. E. I. Hill of Tahoka attended the ground-breaking ceremonies at Wayland College, Plainview, last Friday, preliminary to the construction of a Boys' Dormitory for the accommodation of a hundred students at that institution.

A lengthy program preceded the ground-breaking exercises in the College gymnasium, at which Rev. P. D. O'Brien of Big Spring presided and Dr. A. D. Foreman, pastor of the First Baptist Church of Amarillo, was the principal speaker. Pastors and laymen from Churches all over the Plains were present. Rev. A. A. Brian of Brownfield, a graduate of Wayland, also made an address.

Wayland students gave some fine musical numbers under the direction of the music teacher in that institution.

A board meeting of the Baptists of District Nine, embracing practically all of the South Plains and some contiguous territory, was held in the forenoon, at which discussions relative to the improvement of the tract of land recently acquired in the canyon and on the rim of the twenty miles east of Happy as a site for the Northwest Texas Baptist Encampment were heard and considered. It was decided to recommend to the churches that some seven or eight thousand dollars be raised without delay for the building of a road down into the canyon and for other necessary improvements.

Mrs. Lennie Lumsden of Wilson was a member of the committee that selected and recommended the site and that consummated the purchase of the land. She was present and active in the morning conference. Rev. E. C. McDonald, pastor at New Home, Rev. E. K. Shepherd, pastor at Wilson, Rev. J. M. Hale, pastor at O'Donnell, and Rev. Howard Martin of Tahoka, pastor at Union, and possibly others from Lynn county were also present and participating in the activities of the occasion.

New Home News

(Mrs. A. L. Pace)

The New Home Baptist Church is observing Youth Week this week. They are having a Mothers' Day program Sunday. The youths are taking over the pastorage, officers of Sunday School, Training Union, WMS, and the deacons. Laverl Kite, a ministerial student from Wayland preached last Sunday night.

The sophomores, freshmen, and the eighth grade pupils went to the Mackenzie State Park for a picnic and they also enjoyed the amusement park. Mrs. Loyd McCormick sponsored the sophomores and they went to the show after their picnic. Mrs. Wilmer Smith sponsored the freshmen. Mr. and Mrs. Gene Roper carried the eighth grade in their truck. Mr. and Mrs. Cecil Bradshaw, Mr. and Mrs. Crawford Holtzclaw, Miss Fredie Smith, Mrs. Caille George, Mrs. W. J. McClintock, and Mr. and Mrs. A. L. Pace attended the eighth grade picnic.

Garrett McKinnon from Lubbock who has been a major in the air corps visited in Loyd McCormick's home last week.

Dr. Lipscomb held quarterly conference in the New Home Methodist Church last Sunday night. They had visitors from Lakeview and Slide.

Mrs. Jane Westfaal from Pennsylvania has been visiting her daughter, Mrs. Durwood Unfred. Mrs. Henry Heck honored Mrs. Westfaal with a tea last week.

POWER POWER POWER AND MORE POWER FOR THIS AREA!

WE'RE BUILDING AHEAD OF A FAST GROWING TERRITORY

This territory is on the move—and it has everything it takes for more industry, more and better business, better and more modern farming and better living in the home. The aggressive people are here, the natural resources are here—and also plenty of low-cost electric power.

Our vast expansion program which includes a complete new power station, additions to others and miles and miles of new transmission lines, proves that we have faith in the future of this area. We'll continue to do everything within our power to help in its sound development for many years to come.

No. 17 of a series of advertisements designed to help build this fast-growing territory in which we serve.

SOUTHWESTERN PUBLIC SERVICE COMPANY
31 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Southland News

A good-sized congregation attended services at the Methodist church Sunday. There was one conversion and two were baptized at the morning service.

There was a good crowd at the Baptist Church Sunday morning and a B. T. U. was organized Sunday night. Also a W. M. U. was organized Monday afternoon.

The vacation Bible school will begin at the Baptist Church on Monday morning, May 27, with Mrs. D. H. Mayfield as principal. Mrs. T. J. Duff will be one of the teachers but the others have not yet been named. All children are invited regardless of denomination.

There were services at the Church of Christ Sunday. The minister, Elder E. C. Thurman of Abilene, was the dinner guest of the J. L. White's and in the afternoon they visited Mr. and Mrs. Collins and their new baby.

Those visiting the H. D. Hallmans recently were her sister from California and Mr. and Mrs. H. D. Hallman Jr. of Lubbock.

The Baccalaureate sermon will be delivered to the Senior Class here by Rev. Emmett Brooks on May 19, and the Commencement exercises will be held on May 21, with Rev. Robinson of Lubbock delivering the class address.

The play last Friday night was well rendered and brought in \$72.90, for which the Seniors and their sponsors wish to express their thanks.

The Seniors will leave on the morning of May 22 on a trip to South Texas.

Congratulations to Mr. and Mrs. Collins on the birth of a son on Sunday, April 28, and to Mr. and Mrs. Hardy Storms on the birth of a daughter on May 29, who will be called Bobby. Mrs. Storms is the former Ben Elita Mining.

R. E. Horne, son-in-law of the August Beckers, was taken to the hospital last week.

Mr. and Mrs. Leroy Voight attended the funeral of her brother, Ropes last Thursday. He died on Wednesday night after a long illness.

Mrs. Portwood's mother died last Monday at Spur.

Billy Joe Haire is now home and in civilian clothes again.

Dickie Martin arrived home Saturday from California.

Leon King returned home early Wednesday morning from Phoenix, Arizona.

Ben (Bo Bo) Becker Jr. is another one of our boys back in "civvies" among the others who have returned.

John Baker, who was taken to the hospital last week, seriously sick, was thought to be some better at last report.

Joe Samples and wife spent a few days here visiting his brother

Everett Samples and went from here to Pampa, where they plan to make their home. Joe has just gotten his discharge from the army.

Mr. and Mrs. G. W. Basinger and son Clarence are away on a fishing trip at Brownwood.

T. J. Duff was in Mercy hospital three days last week for a check-up.

Joe Villa became seriously sick Saturday evening and was rushed to the Mercy Hospital, Slaton, for treatment.

Mrs. W. T. Diamon, Mrs. J. H. Wimberley, and Mr. and Mrs. R. G. Bond, all of Merkel, visited Mrs. B. R. Arthur here recently while Mr. Arthur attended the Golden Wedding Anniversary of his sister at Crowell.

First Sgt. and Mrs. Chester Pennell of Lawton, Oklahoma, who visited his mother and his brother Don Pennell here for several days, returned to their home last Sunday.

Mrs. Duff's room went on a picnic at Mackenzie State Park Tuesday and had a grand time.

Mr. and Mrs. Roy Williams and son and Mr. and Mrs. Herbert Dunn and children visited Mr. and Mrs. R. B. Loveless recently.

Rev. Vick Allen of Smyer, formerly of Southland, accidentally shot himself while hunting one day recently, the bullet striking the left leg just below the knee. He and friends were shooting rabbits in the Spade Ranch west of Lubbock and he had placed a pistol which he had been using in the car beside him. The motion of the car in some way caused the pistol to fire. The wound was not healing as well as had been hoped when last reports came.

ADDING MACHINE PAPER, 2 rolls for 25c at The News office.
