

**PRODUCTION PAYMENT PROGRAM EXPIRED JUNE 30th**  
 According to Clinton M. Walker, Secretary of the Lynn County A. C. A., the offer of the Commodity Credit Corporation to make Beef

Cattle Production Payments and Sheep and Lamb Production Payments expired June 30th. These subsidy payments were initiated during the war for the purpose of stimulating production and several thousand dollars have been paid to livestock feeders in this county through this program.

Beef animals and sheep and lambs that are otherwise eligible under this program are not eligible for this payment unless delivered to the slaughterer for slaughter before mid-night, June 30th.

All applications for payment under the above programs must be submitted to the County A. A. A. office not later than August 31, 1946.

Nicotine spray in roosts has been found effective in ridding chickens of feather mites and body lice.

**NURSE LOSES FAT SAFELY AYDS WAY**  
*Get slimmer without exercise*  
 Eat starches, potatoes, gravy, just cut down AYDS Vitamin Candy Reducing Plan is safe, sensible, easy. No exercise. No drugs. No laxatives.  
 Nurse was one of more than 100 persons losing 14 to 15 lbs. average in a few weeks in clinical tests with Ayds Plan conducted by medical doctors.  
 Delicious AYDS before each meal dulls the appetite. Yet you get vitamins, minerals, essential nutrients in Ayds. Start the AYDS Vitamin Candy way to lose weight now. 30 day supply of Ayds, \$2.25. MONEY BACK on the very first box if you don't get results. Phone.

**New Officers . . .**

(Continued from Page 1)  
 sisting him, had been the acting secretary, assisted by her daughter Mrs. Ola Belle Lamb. They were present and gave information as to the financial condition of the association, before retiring. Miss Rosemary Neims was nominated and elected as the new secretary. It was pointed out that her office is close in, that she has the time to devote to the work, and also is thoroughly capable.

Before the election of new officers, the salary of Harvey Davis, the caretaker of the cemetery, was raised from \$90.00 to \$100.00 per month. He had been serving only three or four months but had done a good job. Recently, with the help of other labor, he thoroughly cleaned the cemetery and placed it in good condition.

At the meeting Saturday, a move was also started to procure additional grounds for the use of our growing Mexican population and also for the expansion of the main cemetery grounds.

Judge Elliott expressed the purpose to have regular quarterly meetings of the association hereafter with the hope that many members will attend the meetings.

It is due Mrs. Stokes and Mrs. Egger to say that for many years the responsibility of looking after the cemetery has devolved chiefly upon them. They have devoted much time and thought to its up-keep without remuneration and are due the thanks of the entire community for their valuable services. Of course the matter of keeping the books and records, collecting dues, and looking after the finances generally has been the duty of the secretary-treasurer, who has worked at the job faithfully for small pay.

It is hoped that city water can be extended to the cemetery at no distant date, and if so our City of the Dead should be made into a beauty spot indeed.

**COLORED BASEBALL TEAM MAKES REPORT**

The Tahoka Helix Baseball club has come back alive. They have been playing away from home since the 19th of June. They defeated the Big Spring Tigers 9 to 7 on that day, and they have played three games since then, lost only one of them.

Last Sunday the Helix defeated the Post Mexican club by a score of 12 to 11, in Post. The Helix will play the same club here Sunday at 3:00 o'clock. Everybody come and see a good game. Johnson will start the game for the Helix and Martin will relieve him if necessary.

**KILL RED ANTS!** You can easily rid your premises of Red Ant Beds with **Durham's Extermo Ant Balls** at a cost of less than 5c per dozen. Six Balls 30c and 12 Balls 50c at your druggist or at **WYNNE COLLIER, Druggist.**

**VFW Plans Dance, Other Entertainment**

Next Monday night there will be a dance, refreshments and a lot of fun had by all the local Vets and their wives or girl friends that attend the dance.

The VFW will have something for entertainment every Social Meeting night from now on in order to create a little more interest by its members.

The Benefit show that was put on by the VFW last week was a success and we certainly hope you enjoyed it and we appreciate all of the stores all over the County that helped us in our ticket sales.

We have a big booster from up Wilson way . . . he donated "five bucks" to the VFW the other day. We did know his name, but it has

slipped our mind right now . . . but we sure do appreciate your donation and we will always know you are behind us one hundred per cent.

Don't forget now . . . All you Vets . . . You'll miss a lot of fun if you fail to attend the VFW dance Monday night, July 15.

Mrs. Lula Grice of Stephenville is here this week visiting her only sister, Mrs. D. C. Davis. Mrs. Grice's daughter, Mrs. Mabel Barham of Kermit, is coming Sunday for a brief visit and Mrs. Grice will accompany her back to her home for a visit there.

**To Our Customers:**

**A Statement of Price Policy on PURINA CHOWS**

It is true that our prices on Purina Chows have increased since the end of OPA ceilings on July 1 . . .

**BUT . . .**

. . . These new higher prices are due entirely to the increase in the cost of feed ingredients. All ingredients have risen sharply . . . some as much as \$37.50 a ton.

. . . This increase in the price of Purina Chows is not as large as the increase in ingredient costs. New prices reflect only a part of the out-of-pocket increase to Purina.

. . . The new prices on Purina Chows do not include a single cent per bag or per ton more profit for Purina. The profit margins on Purina Chows have never been up to the full amount allowed under OPA and will not be raised now to margins previously permitted.

**We Are Proud To Follow Purina's Policy**

As authorized Purina dealers we are pledging ourselves to follow the manufacturer's lead. We know that our first responsibility is to our customers—we want to keep feed prices down as much as possible. We are not increasing our margins—we will not be short-sighted and take advantage of the present situation at your expense.

True, feed prices will go up or down as prices of ingredients vary—but we promise as always to do our best to supply all the Purina Chows we can get at the best price possible.

**All-Day Program For 4-H Clubbers Set For Tuesday**

Tuesday, July 23 has been set as Lynn County boys and girls 4-H Club Play Day. All Lynn County 4-H club members will meet at Tahoka City Park Tuesday morning July 23, at 8 o'clock. Each member is to bring a paper sack lunch, bathing suit, and enough money to pay for transportation, swim, and picture show ticket. Your parents are invited and they may ride in the trucks with the group, or in their personal cars.

The program for the day will be as follows:  
 8:00-8:30 Meet at Tahoka City Park.  
 8:30-9:50 Journey to Mackenzie Park (South side).  
 9:30-10:00 General Assembly  
 10:00-12:00 Swimming and games.  
 Noon—Lunch.  
 1:30-3:30 Picture Show.  
 3:30-4:00 General Assembly (for departure).  
 4:00-5:00 Return to Tahoka.  
 A good time is assured for all. It is hoped that all 4-H members and a good number of parents attend this Play Day.

After visiting in Odessa and Lubbock, Mrs. Taylor White came to Tahoka Monday to visit a few days in the home of her brother, Vernon Smith, before returning to her home in Austin. Mrs. White was a resident of Tahoka for five years while Mr. White was teaching vocational agriculture in the high school here.

Little Barbara McNeely, eight year old daughter of Mr. and Mrs. W. R. McNeely underwent an appendectomy in the Memorial Hospital in Lubbock.

Mr. and Mrs. H. C. Harter, Sr. of Tahoka have been visiting in Rhame, Texas with relatives, returning home last week accompanied by a son-in-law.

**Atomic Era to Bring New Navy**

**Science Is Drafting Plans For Vastly Different Fighting Force.**

WASHINGTON. — A navy radically different, even in appearance, from that of today may be produced in 10 years of revamping along atomic era lines, so says Adm. Harold G. Bowen, head of the navy's recently established office of research and inventions, as reported by the Associated Press.

Discussing the work of his group representing the naval service, industrial laboratories and the nation's universities, the admiral told a reporter:

"We have officers and civilians proceeding with the drafting of plans that may mean, 10 years from now, a navy bearing very little resemblance to that of today."

The research office has set out to inquire into everything that relates through science and industry to the navy's striking arms on the sea, above it and under it. Through its own experts, civilian scientists and navy-sponsored research in colleges and universities, the research program is probing into such subjects as electronics, nuclear physics, chemistry, mathematics, guided missiles and flight.

**Had Role in Atomic Work.**

A technical information office to encourage the free exchange of research information among scientists has been set up here with branches at London, Boston, New York and San Francisco.

Deputy director of the office of research and inventions is Rear Adm. Luis de Florez, like Bowen active in research since World War I days. Bowen played a prominent part in the atomic bomb project and in radar development.

The research office will have a vital interest in the forthcoming navy-army test of the atomic bomb on warships. Results of that test, the navy has announced, "will be their translation into the terms of United States sea power."

Bowen noted that virtually all the new weapons and equipment which appeared in the late war had research history dating before the war. But, he added, "the stockpile of research" has been depleted.

**Seeks Atomic Defense.**

In the field of pure research, ranging up to applied science, here are some of the subjects:

1. The use of atomic energy Bowen says must be explored: for ship propulsion. "Perhaps we'll have an atomic firebox instead of a boiler. That would save valuable space for other equipment, give us unheard-of cruising radius and more speed—and if surface ships are going to last we'll have to hike up the speed like hell."

2. Explore the prospects of a countermeasure for the atomic bomb.

3. Join in the worldwide effort to find a cheaper and better way to produce the raw material for atomic power.

4. Probe into the abstract science phases of guided V-weapons, supersonic speeds for aircraft.

"The navy recognizes that a navy can't be run without intimate contact with science," the admiral said. "It is for that purpose this office has been organized."

In its contacts with the colleges, universities and with industrial organizations, the navy says it is "offering the scientist complete freedom" to initiate, teach and publish fundamental research.

To date, it has made contacts with or is negotiating with more than two score schools or industrial research organizations.

Ralph and Gene Earl Cates are here from Fort Worth visiting their grandmother, Mrs. H. W. Caloway. Their mother is the former Dimple Caloway.

Vote for Frank McGlaun, Jr. for Tax Assessor and Collector on July 27.—It will be appreciated and not forgotten.

LAWRENCE PRICE

Miss Margaret Hutchison, state secretary of Young People's work in the Baptist Women's Missionary Union of the state of Arkansas, is spending her vacation here with her parents, Mr. and Mrs. James Hutchison, and other relatives. Her headquarters are at Little Rock.

Mr. and Mrs. Newt Barham and sons, Bill, N. M., and Garner, left Thursday to spend a few days at Fulkosa, New Mexico. Mrs. Jean Yocum, a daughter, who resides at Clovis, was also expected to join them at Roswell on the way out.

## FOR Attorney General

### PRICE DANIEL of LIBERTY COUNTY

Able lawyer; former Speaker of the House; World War II veteran, entered as a private; married and has 3 children—the only married man in the race for Attorney General.

(Pd. for by Rollin McCord)

## Uncle Hank Sez:

IT USED TO BE WHEN A WOMAN BEGINS TO GET UP IN YEARS HER HAIR TURNED GRAY... BUT NOW IT SEEMS MOST OF THEM TURN RED.

Don't worry over the possibilities of spending years in the country without the modern convenience of Butane or Propane gas. The TAHOKA FLASH O-GAS COMPANY can bring you the comfort of city life in the country.

**Sharp Lawn Tools**  
When cutting grass, use a sharp mower. A dull mower chews off the grass and bruises it, resulting in a brownish cast to the lawn. Cutting grass often and not too close will minimize the presence of weeds, smother some of them out, and prevent weed seeds from germinating. Adjust the mower to cut 1 1/2 to 2 inches from the ground.

The longer top-growth means a more extensive root system to search for food and moisture, and requires less watering. However, close cutting is good for creeping crabgrass, and old lawns which are being renovated and reseeded. Clippings benefit the lawn by providing a mulch and furnishing a portion of the necessary plant food. If the lawn is mowed often, and the grass cut high, the clippings will work down in the grass and not be unsightly. They may need to be removed, however, during periods of wet weather, and if they begin to mat together.

**Store Whole Blood**  
Development of new and improved mechanical refrigeration equipment has been one of the chief reasons why the use of whole blood and blood plasma has been so successful. Whole blood must be kept under refrigeration at all times until it is used, and all three types of blood plasma—liquid, frozen and dry—involve the use of mechanical refrigeration during processing. Liquid plasma must be kept at a controlled temperature constantly, and the frozen plasma is kept at a temperature of 20 degrees below zero, Centigrade, by means of mechanical refrigeration. In the field of medicine, special refrigeration has been a leading factor in the volume output of penicillin and the sulfa drugs.

**Squeaking Floors**  
Squeaks in floor boards, often a source of great annoyance, can frequently be remedied simply by dusting talcum powder into the spaces between the boards, if the boards are not too closely joined. Or, simply take a thin-bladed knife and work glue into the cracks between the boards; when the glue has had time to set, the squeaks will go away. If the squeaks cannot be remedied by either of these methods, then the weaving that causes the squeaks must be stopped. This can be done by putting extra nailing in the floor boards, using finishing nails and sinking them below the surface of the flooring with a nail set, filling the hole with plastic wood. Small wedges, driven between the sub-flooring and the joist at the points at which the weaving occurs, will often stop squeaks.

**New Tomato**  
United States soldiers stationed in the Panama Canal Zone were among the first to taste a new variety of tomato developed for the tropics by the Inter-American Institute of Agricultural Sciences at Turrialba, Costa Rica. The annual report of the institute said 7,000 pounds of the new tropical tomato were picked for shipment to the Canal Zone when the army heard about the merits of the plant. The tropical tomato, the report explained, is a hybrid between an "unusual wild tomato and Marglobe, a North American variety." Already seed of the third generation has been planted and 125,000 plants will be grown.

**Leto's Helps Your Gums Get Well**  
Are your gums unsightly? Do they itch? Do they burn? Druggists return money if first bottle of LETO'S fails to satisfy.

WYNNE COLLIER, Druggist

**Watering Plants**  
Even though you've got good intentions, sometimes you can injure your trees and shrubs by the way you water them. The idea is to do a good job of watering no oftener than necessary. For if you sprinkle plants frequently and the water doesn't soak down more than two or three inches deep you've done your plants a bad turn. The roots may grow toward the surface and unusually hot dry weather will kill them off too readily. Incidentally, this is one reason why hand watering with a hose is seldom satisfactory. For one thing, most folks are too impatient and will wander on before the job is well done. And for another thing, usually the water is sprayed on too fast. The ideal way is to apply a small amount of water per minute continuously for several hours. Then you won't have to water so often.

**Preparing Compost**  
Compost should be prepared in some out-of-the-way place where water may be obtained for wetting it down. It is well to select a depression where leaching cannot occur. Pile the materials in layers in the proportions of about one part of fresh cattle or horse manure or decayed plant remains to two parts soil. The thickest layer should be only six or seven inches thick, and the pile may be as large and as high as needed to give the desired quantity. It may be in the form of a rick four to six feet high, and in that case there should be a trough or depression on the top to catch and hold rain water or water applied through the hose.

**Speed Plane Development**  
The first Boeing B-17 Flying Fortress was built in 1935 and its production started in 1938. The Consolidated B-24 Liberator was designed in 1938 and was in production early in 1941. The North American B-25 Mitchell was designed in 1938 and the Martin B-26 Marauder in 1939. Both were in production by February, 1941. The Lockheed P-38 Lightning was designed in 1936, made its first flight in 1939 and went into production in January, 1941. The Bell P-39 Airacobra and the Curtiss P-40 Warhawk were being produced in 1940, and the Republic P-47 Thunderbolt and the North American P-51 Mustang in 1941.

**Remove Stains**  
Since stains set with age, it pays to get at them as quickly as possible. Berry and fruit stains should be treated immediately. Stretch the stained part of the cloth over a pan or bucket. Hold it in place by means of a string. Then pour boiling water on it from a height so that the water will strike the stain with force. This method is also good with coffee or tea. To remove blood stains on blankets, mattress or other heavy material, mix starch and water to a thick paste and spread on the stain. Brush off when dry. Repeat if necessary.

**MISS VIRGINIA MONTGOMERY WEDS GRANVILLE BILLINGSLEY**  
Miss Virginia Montgomery and Mr. Granville F. Billingsley were married at nine o'clock last Saturday night in the home of the bride's parents, Mr. and Mrs. J. R. Montgomery, at Draw, the officiating minister, Rev. Lloyd Gentry, using the beautiful double ring ceremony. The bride wore an aqua blue rayon jersey dress with black accessories. Her only ornament was a string of pearls, a gift from the groom.

Virginia was a student in the Draw-Redwine schools and graduated from the Tahoka High school in 1945, after which she attended Wayland College for one year. She was also a student of piano both in the public schools and in college. Mr. Billingsley is the son of Mr. and Mrs. J. E. Billingsley of Amarillo. He is a graduate of the Floydada High school and before the war was a student in Lippert's Business College, Plainview. He spent three years in the service, having been staff sergeant in the air force. Eight months of this time was spent in the foreign service. He was taken prisoner when forced to parachute from his plane in an air raid over Germany and spent five months as a prisoner of war in

Northeastern Germany. He is now an employee of the Santa Fe Railway Company in Amarillo.

After spending the night in Plainview, the couple went on to Amarillo where they will make their home.

Misses Georgetta and Betty Grace Akin, daughters of Mr. and Mrs. George Akin, are visiting their

cousins, Patsy and Beverly Bedford, at Winters after the latter had spent a week here in the George Akin home. They went down on Wednesday of last week.

Dr. and Mrs. K. R. Durham and children left last Sunday night for a week's visit with his parents, Rev. and Mrs. J. P. Durham, in Shreveport, Louisiana.

# Why I'm For George Mahon!

- I'M FOR GEORGE MAHON**  
Because this is a farm District and George is a farm boy. He wouldn't fit into an industrial District, but he fits into this District perfectly.
- I'M FOR GEORGE MAHON**  
Because of all the people I know in high public office, he is the most modest and unassuming, he is as kind to a beggar as to a banker. I like a man like that.
- I'M FOR GEORGE MAHON**  
Because he is as clean as a hound's tooth and as honest as the days are long. Nobody ever wonders where he stands on moral issues.
- I'M FOR GEORGE MAHON**  
Because he is a man of outstanding ability. He can cross swords with the best of them and hold his own. He is strong in mind and body. He knows how to speak—how to vote—and how to work.
- I'M FOR GEORGE MAHON**  
Because he is one of the top men in Washington, and I like a top man to be my Congressman, particularly at this critical time.
- I'M FOR GEORGE MAHON**  
Because I have helped put him where he is near the top, and I don't want my District to go down to the foot of the class in Washington. Mahon will be Chairman of the Texas Delegation next year. He is chairman of one of the important committees, and I don't want to see my District lose this position of power and influence.
- I'M FOR GEORGE MAHON**  
Because of the outstanding job which he did in hastening victory—carrying the ball on the atomic bomb project and saving lives.
- I'M FOR GEORGE MAHON**  
Because I want to see the GI's get a square deal and Mahon is one of seven men in the House of Representatives responsible for the appropriation of all money for veterans and their dependants. He will use his power for the best interests of the veterans and the country.
- I'M FOR GEORGE MAHON**  
Because I have found him worthy of trust in matters small and great. He is a friend of all the people and my idea of the kind of Congressman this Nation needs. We need more, not fewer men like George Mahon in Congress.

Hear George Mahon speak in O'Donnell and Tahoka Saturday afternoon, July 20, as follows: O'Donnell, 3:00; Tahoka Courthouse Lawn 5:00 o'clock.

(This ad. paid for by Lynn County friends of George Mahon.)

## To The Voters Of Lynn County:

I wish to take this opportunity to ask for your vote on July 27th. I have tried to see each and every voter of Lynn County personally; however, if I have missed you, it was not intentional, and I do earnestly solicit your support at this time.

I feel that due to my bookkeeping, study, and experience that I am qualified to handle the affairs of this office in a manner that will please you. If I am elected, I will endeavor to serve you in a courteous and efficient manner.

**David G. Weathers**

## We Wish To Thank

the good people of Tahoka and Lynn county who have so generously cooperated with us in the funeral home. Had it not been for your kindness and cooperation we might not could have put it over as we did. I assure you we have done our best to please everybody. Now that we have sold the home to Mr. and Mrs. Neal Stanley who come here so highly recommended to us, they will appreciate the same good cooperation that you have given us. If any place needs cooperation it certainly is a funeral home. Mr. Stanley has embalmed for 12 years in much larger places than Tahoka and has the name of being one of the most outstanding embalmers in Texas. He is a young thrifty business man and is acquainted with the work. We want to again thank you for every kindness you have shown us.

**Mr. and Mrs. W. M. Harris**

Balford Jester is telling the people of Texas that with a surplus of 25 million dollars now lying idle in the state treasury, Texas does not need to levy any additional taxes whatever. He goes into much detail and gives the people the "low-down" on the sources of the state's revenues, the existing situation and what may be expected under the laws of this state in the future. He proposes to greatly improve our public school system by raising very substantially the salaries of teachers, to build a great Negro medical school, law school, and engineering school as adjuncts of Prairie View University or to build a new University for Negroes if that seems advisable, to greatly improve the public health system, to build a great system of farm-to-market roads and repair and improve the main highways, to assure pensions of \$40.00 per month to all of the needy old people, and to do many other useful things for the people of Texas, without levying one cent of additional taxes; and, as remarkable as it may seem, apparently he just about proves his case. Jester has really given more light to the people of Texas on the tax situation and the operation of our state government than all the other

candidates for governor combined. He undoubtedly represents "Big Business" however, and we still believe, that there should be further reduction of the ad valorem tax, and that the need for any additional funds should be raised by an increase of the taxes on our natural resources that are being sent almost tax free to other states of this Union and to other countries of the world.

We think that the next governor of Texas, whoever he may be, should be unusually wise and fair in appointing members to the board of regents of the University of Texas. Neither the Texas "Regulars" nor the "New Dealers" should be punished or ignored because of their political beliefs. There are wise and just and well qualified men in each of these groups who would serve the people of Texas patriotically and well on this board. No rabid "Regular" and no rabid "New Dealer" should be appointed. Men who can not or will not see the viewpoint of the other fellow except through the glasses of prejudice or suspicion are not fitted for the job.

As election day draws nigh, it looks more and more as if Jester is to be the second man in the run-off. It has been generally believed from the start that Rainey would be the high man. And the chances are that the run-off will be a horse-race, with the chances in favor of Jester. If Rainey does not get more than 35 per cent of the vote in the first primary—and that is a little higher than any Biden poll has given him—then he will probably be defeated in the second election, for it seems highly probable that only a small percent of votes that go to other candidates in the first primary will turn to Rainey in the second. Rainey must get 40 per cent of the votes in the first primary or he will lose in the second.

Are the Negroes of Texas prepared to cast an intelligent vote in the coming Democratic primaries? If they are, they have a lot of us white folks "skinned." A lot of us are going to vote with the uneasy feeling that we may be making a serious mistake, especially in the case of candidates for state office. And a lot of us who are very positive that we are right, may be dead wrong. The candidates and the issues have probably been more confusing this year than for many years in the past.

Negroes in Tahoka who wish to vote should feel no fear in visiting their polling places and casting their ballots. We are quite sure that nobody is going to molest any of them in any way. As is the case with a few white people, however, some of the Negroes may need help in marking their ballots. It is the duty of election judges, when requested, to help them are not permitted to advise them as to whom they should vote for or against. That must be left up to the voter strictly.

**Political Announcements**

The following authorize The News to announce that they are candidates for public office subject to action of the July Democratic primaries:

- For Congress:**  
GEORGE MAHON.  
HOP HALSEY
- For State Representative:**

P. D. SERVER  
J. C. EVANS.

"Doc" Rainey may be a great statesman and all that, but somehow or other his methods do not just exactly appeal to us. We think we can detect a good deal of clap-trap in what he says, and his complaints about being given a raw deal by the big radio broadcasting companies seem childish to us. We just wish he would leave off a lot of that stuff that smacks of demagoguery.

ADDING MACHINE PAPER, 2 rolls for 25c at The News office.

Whether the Negro vote in the coming Democratic primary election in Texas will be comparatively light or heavy is yet problematical. The figures range from 75,000 on up to 200,000 as estimated by political observers. Our guess is that the lower figures are more nearly correct. While there may be as many as 200,000 in Texas who are legally qualified to vote, and while many of them in the heavily populated Negro sections may vote, our guess is that in most counties of the state, even in those which have a large Negro population, comparatively few of them will go to the polls.

### T-Hangar Flying . .

By Billy Hill  
John Reid Townes has been a frequent visitor of Tahoka in the past week flying a PT-19 and Mrs. Mabel Gurly took a buzz around town with him on one occasion.

Billy Hill and "Shorty" McNeely took a few minutes duel on Reid's PT-19 last week.

T. A. (Fat) Bairfringon was requested by his draft board to appear in Houston for a physical, so he flew the Flying-6 Club plane

down and is expected to return this week-end.

Mrs. "Shorty" Presley has been out learning to fly and is really doing all right . . . but we have noticed that her husband is not instructing her.

Irene Gallagher has been out brushing up on her flying while on her vacation. She also recently joined the Lynn County Flying Farmers organization and also the Texas Flying Farmers organization.

Vodene Page is a student at the Tahoka airport and it is claimed that she is practically ready to solo.

Mr. and Mrs. Herbert C. Martin of Littlefield dropped into the Tahoka airport for fuel last Saturday afternoon. They were on their way to San Angelo. Mrs. Martin was piloting the plane, a brand new Cessna, since her attorney husband can't fly yet.

About 7:30 tomorrow morning there will be at least ten planes, and twenty Flying Farmers will take off from the local airport destined for Sweetwater where they are to hold their State Meeting.

Many other Flying Farmer members will go down by car.

J. E. Nance soloed the other day and is now working on his private license. Emory also joined the Flying Farmers organization recently.

John Beard has been working on his P-40 putting it in shape for an inspection for re-licensing of the ship.

Bill McNeely is making a lot of progress in building his new all-steel shop and it will be completed very soon. He is also installing an electric gasoline pump and a pit which will be a great improvement over the present refueling system.

Mr. and Mrs. Elmer Newton flew in last Saturday from the Draw area in their Aronica. Mrs. Newton is a flying enthusiast and has been learning to fly as she is tired of being a back-seat flyer.

Well that's about all the buzzin' around we know about so if you'll tighten your safty-belt we'll go in for a landing.

### PRICE DANIEL SAYS ATTORNEY GENERALSHIP BELONGS TO THE PEOPLE

The office of Attorney General of Texas belongs to the people, not to the politicians, Price Daniel of Liberty, candidate for that office declared while on a visit in Tahoka Monday.

Daniel, who spent most of the week campaigning in West Texas, warned that an attempt was being made to set up a political dynasty in the Attorney Generalship.

"I have no big political names or former officeholders to parade before the citizens of Texas to tell them how to vote," Daniel said. "It was my observation before entering the Army three years ago that Texans like to see a man run on his own name and his own merits. I haven't found that the war has changed this feeling."

The former Speaker of the House of Representatives asserted he is encountering general popular resentment against "the attempts of politicians and past officeholders to take over control of the Attorney General's office." He predicted that this feeling would be evidenced in the voting on July 27, with a large majority for him over his opponent.

"The people are with me in this race," Daniel declared.  
Daniel, who has practiced law in Liberty County since receiving his law degree from Baylor University in 1932, served three terms in the legislature and was elected Speaker of the House in 1943. He resigned the Speakership to enter the Army as a private and was discharged only two months ago. He is married and the father of three children.

### SOUTHWESTERN LIFE INS. COMPANY SHOWS GAIN

A business gain of 43% for the first six months of 1946 for Southwestern Life Insurance Company is indicated in information received here today from C. F. O'Donnell of Dallas, president, by the Company's local representative, Mrs. Gladys M. Stokes. Total paid for business for the period amounted to \$44,505,000. President O'Donnell's announcement said.

The Company's gain in insurance in force of \$31,220,000 for the first half of the year is the largest such gain for any similar six-month period since organization of the Company.

Adding Machine Paper, 2 Rolls for only 25 cents. 15 cents each.

### CITATION BY PUBLICATION THE STATE OF TEXAS

To: James William Gist Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Lynn County at the Court House thereof, in Tahoka, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 27th day of August A. D. 1946, then and there to answer Plaintiff's petition filed in said Court, on the 8th day of April A. D. 1946, in this cause, numbered 1692 on the docket: of said court and styled Helen B. Gist Plaintiff, vs. James William Gist Defendant.

A brief statement of the nature of this suit is as follows, to wit: Plaintiff alleges that she and defendant were lawfully married, on the 25th day of October, 1941, at Reno, Nevada, and that Plaintiff has been for a period of more than twelve months prior to the filing of this Petition, an actual bona fide inhabitant of the State of Texas, and has resided in Lynn County, Texas, where this suit is filed, for more than six months next preceding the filing of this suit. That the Defendant is a non-resident of the State of Texas, and is now, according to Plaintiff's information and belief, a resident of either the State of Oregon or the State of Washington. That during the time that the Plaintiff and Defendant lived together, as husband and wife, the Defendant was addicted to drinking intoxicating liquors to ex-

**NEW HOME GIRL WEDS  
TAHO A MAN**

Miss Ua De H n s s o n, daughter of Mr. and Mrs. Foy Todd of New Home, became the bride of Freddie D. Baraber, son of Mr. and Mrs. M. H. Brasher, who reside six miles north of Tahoka, in a ceremony read Friday by Rev. Howard Martin, who resides in the same neighborhood.

The bride wore a blue street length dress with black accessories. Miss Elene McMillan, the maid of honor, wore a light blue crepe dress. Edward Pool served as best man.

Both the bride and the groom attended the Tahoka High school. The groom was recently discharged from the army after having served 17 months overseas.

Mr. and Mrs. Ruby Wells, Valerie and Glen spent a few days last week at Christoval. Mrs. Irene Gallagher and the two Wells boys, James and Johnny, also visited them there. Mr. and Mrs. Wells, Glen and Valerie also visited in Dallas and in Temple before returning home on Monday of this week.

**World War II Big Job  
For Quartermaster Corps**

Created in 1775 by the continental congress, the mission of the quartermaster corps has been, in peace and in war, to provide American armies with their necessities. In the present war, its task has been greater in difficulty, scope and in monetary value than for all other wars combined.

During the two years immediately preceding V-E Day, it supplied European and Mediterranean troops with more than 15,000,000 pairs of trousers, 11,000,000 field jackets, 3,500,000 overcoats and 10,000,000 blankets in addition to sleeping bags. For these operations, it shipped more than 1,500,000,000 gallons of gasoline, 75,000,000 gallons of lubricating oils, and more than 45,000,000 pounds of greases to keep the tanks, trucks and other mobile equipment running.

More than 100 fixed laundries, 60 of them shipped from the United States, have been established for hospitals and troop units overseas. Scores of mobile laundries have been sent to the battle areas for use of field hospitals and to provide clothing exchange service. Hundreds of millions of dollars are saved annually by the quartermaster-operated repair shops, fixed and mobile, which are maintained at home and in the field.

Here is a bit of verse by an anonymous writer:

"When I was at the party," said Betty (aged just four),  
"A little girl fell off her chair,  
right down upon the floor;  
And all the other little girls began to laugh but me—  
I didn't laugh a single bit," said Betty, seriously.  
"Why not?" her mother asked  
"I'm full of delight to find  
That Betty—bless her little heart—  
—had been so sweetly kind."  
"Why didn't you laugh, darling,  
or don't you like to tell?"  
"I didn't laugh," said Betty,  
" 'cause it was me that fell!"

"A Printer's Prayer" makes use of terms that are connected with the work and equipment of a newspaper composing room:

To the Great Printer Who prints in all colors of the rainbow and Whose type faces are stars and clouds, autumn leaves and sunbeams, snowflakes and flowers, this is my prayer:

That I may set up my life to the measure of a man; that I may have the courage, win or lose, to follow the rules of the game; that I may point my life toward the things that count; that I may lock up within my heart idle tales, gossip and words that hurt; that I may make ready for the opportunities to serve that come my way; that I may register in my memory the splendor of sunsets, the glow of friendships, the thrill of great music, and the mental lift of inspiring thoughts; that I may press forward in the spirit of adventure toward the new horizons of achievement; that I may also consummate worthy accomplishments; that the impressions that I make

on the white pages of time may usage cheer and inspire all those who cross my path; that I may bind together in my own life all those positive qualities—that make for happy, creative, triumphant living; and finally, O Master of Printers, help me avoid the disgrace of making pi of my life and guide me safely around the yawning mouth of the hell box."

**Develop Plastic Materials  
For Skin Imitation**

It is now possible to cover a mechanical hand with a lifelike surface, simulating the human texture and skin tracery, even to the fingernails, according to an article of the American Journal of Surgery.

Technology of plastic materials has advanced so rapidly, the article stated, that lifelike restorations for missing hands and fingers can now be provided, doing away with the necessity for the leather glove worn for aesthetic reasons. The substitutions have a lifelike feel, wear well, and slip glove-like over the missing member. The edge may be disguised by wearing a wristwatch.

In addition to post-operative emotional shock suffered by patients after amputation, they were usually disturbed to discover that although their surgery was individualized, their replacements were not. Artificial limbs were formerly supplied in three sizes, without personal similitude.

...and from the models we've seen, they're worth while waiting for! When a gas range bears this famous CP trademark (whatever its make), you can be sure it will give matchless performance. Some twenty leading manufacturers are building gas ranges which will proudly display this stamp of highest approval... There's no trial period when you buy a new CP gas range—it already has been tested and promises to give you cooking perfection.

**Price Daniel Is Visitor In Tahoka**

Price Daniel of Liberty county away down in East Texas where the redbuds bloom and the pine trees sigh and sing was out here in Tahoka last Monday meeting and greeting the voters and incidentally getting a colorful sur-ar. Literally burnt into his cattle and the tang of these West Texas breezes injected into his heart and his bloodstream to such an extent that when he left here he looked like a real West Texan. A tennagon hat would really have been becoming to him.

Getting down to bed-rock, Price Daniel is a candidate for attorney-general. Soon after receiving his law degree, he broke into the legislature and served in that body for

three successive terms, being elected speaker of the house the last time. Then he went into service in the armed forces, following which he came back and settled down to his law practice.

But soon he decided he would like to practice for the entire people of the state, and so he hopped into the race. He and his friends deem him capable of rendering distinguished service. Of course an attorney-general's ability to accomplish things depends more on the character and the proficiency of his corps of assistants than on his own legal attainments. It is hoped that whoever is elected, he will surround himself with a corps of assistants distinguished for their character and ability as lawyers.

Price Daniel is a likeable fellow.

Mr. and Mrs. C. C. Johnson of Hobbs, New Mexico, were here Wednesday and Thursday visiting relatives. They lived here for many years and Mr. Johnson was in business here for some time, but they moved to Hobbs 16 years ago. Nevertheless, they have maintained their interest in Tahoka all these years and Mr. Johnson indicated that they might move back some time. They have been constant readers of The News.

Miss Mary Fisher of Providence, Rhode Island, is spending her vacation here with Miss Clara Gene Scruggs and Mr. and Mrs. Jim Banister. This is her first visit to this part of the United States, and her one ambition, Clara Gene says, is to see a tumble weed tumble. She is to spend two weeks here. She should come back late in the fall if she wants to see the tumble weeds tumble.

Mrs. John Brock and three children are here from California visiting Mrs. Brock's parents, Mr. and Mrs. C. T. Oliver.

Vote for Frank McGlaun, Jr., for Tax Assessor and Collector on July 27.—It will be appreciated and not forgotten.

**Farmers Should Avoid Risks in Haying**

Since farm accident statistics show that the haying season is one of the most dangerous times of the year on the farm, farmers should put haying machinery in good safe condition before the season starts.

It is suggested that farmers check all pulleys, ropes and hitches to be sure they are in safe, workable condition; that mowers and rakes are in good repair; and that all parts of the stacker are in sound condition to bear the strain of loads of hay. If rakes are used, the floors should be level and all weak spots repaired. Ladders on racks should be strong enough to support the weight of a heavy man and should extend one foot above the top cross pieces of the rack.

A good practice, too, is to instruct inexperienced workers in the safe handling of pitchforks and to take mowers out of gear before working on them.

**Quick Treatment**

The army's policy of moving medical care, as well as surgical care, nearer and nearer to the front lines has proved eminently successful. The primary task of the medical corps is to keep soldiers on active duty, and this is especially vital in combat areas where regiments, divisions and whole army groups function as a team; with each unit doing its special task. Internists and the psychiatrists return about 66 per cent of the men who go back to combat duty while surgeons—because of the more serious nature of the cases they have to handle—return the other 34 per cent. The figures vary from one theater of operation to another but the medical division plays a most important role.

Capt. J. E. Brown of the Army left last Friday after visiting here several days with his mother, Mrs. Pearl Brown. He is stationed at Camp Kilmer, New Jersey.

Mrs. R. I. Hart of Estelline is here visiting her parents, Mr. and Mrs. J. A. Sanders, and her son Glyndale Hart, who stays with his grandparents.

**Mother of Fred Bucy Is Buried**

Fred Bucy and family were called to Fort Worth last Friday by the death of his mother, Mrs. Wardie Bucy, 73, who died that morning in a sanitarium there.

Funeral services were conducted at 10 o'clock Saturday morning in the chapel of a Fort Worth funeral home by Rev. Mr. Smith, pastor of the Polytechnic Methodist Church of that city, of which Mrs. Bucy had long been a faithful member, and the body was laid to rest in the Caddo cemetery in Johnson county, some eighteen or twenty miles south of Fort Worth.

Mrs. Bucy had been in good health for about seven years but in last April she fell and broke a leg. She was immediately taken to a hospital but her general condition at the time was not such that physicians could set the broken bones. They placed the limb in a cast and sought to build up her condition so that the bones might be properly set, but she gradually dwindled away and was never able to undergo the necessary surgery.

Surviving her are three sons and a daughter, Matt Bucy of Oklahoma City, Fred of Tahoka, Glenn of Lubbock, and Mrs. Mary Elam of Fort Worth, the latter two being twins, and all were present for the funeral services. Also surviving are a number of grandchildren and other relatives.

Mrs. Bucy was a long-time resident of Johnson county but for the past 21 years had lived in Fort Worth. She had visited here several times.

Mrs. Maude Donaldson of Snyder was here this week on business.

**Bamboo Blowgun Weapon Of Tropical Natives**

The very light blowguns of tropical natives may be quickly made from bamboo alone, convenient because it is hollow. The needed rigidity in such guns is gained by placing the small-bore bamboo tube in a tight-fitting casing of thicker bamboo.

The darts, carried by the quiverful, are usually 8 to 10 inches long and made from hard, straight palm fiber whittled to the thickness of a steel knitting needle. For hunting animals, but rarely for hunting birds, the sharpened points of the darts used by Borneo natives are coated with the poisonous sap of the upas tree (Antiaris toxicaria), and notched so that the tip will break off in the wound. At the butt end of the dart, a small wad of pith serves as the piston by which the dart is blown through the tube.

Natives skilled with the device can hit small targets 50 yards away, and reach game in tall treetops. Stealth is the secret of its effectiveness, however. The wily tribesman, creeping through the forest, can quietly send his poisoned barbs from short range into several monkeys of a band before creating any general alarm.

**Special Preparation Needed For Frozen Fruits**

Properly prepared, frozen fruits are a good dessert in themselves and a tasty topping for ice creams and sherbets. But without special preparation, fruits suffer radical changes in color, flavor and appearance.

After washing the fruit carefully, prepare it for packing by cutting or slicing. Berries may be frozen whole or sliced. The fruit should then be packed in dry sugar, sugar syrup, or a syrup made of sugar and corn syrup.

If the dry pack is used, mix three parts of fruit with one part of sugar, shaking the container after the fruit is packed to be sure all the fruit is covered with sugar. By the time freezing starts, the sugar will be dissolved.

When you use the sugar syrup pack, prepare and pack the fruit and then cover it with a sugar syrup solution, allowing from a half inch to an inch head space in the containers to permit expansion.

**Eggs Nutritious**

Eggs contain most of the nutrients required for an adequate human diet and for that reason should be included in the diet of every person both young and old. An egg a day is recommended, but three to four each week is a safe number. Eggs are classed as a protective food because of their high vitamin, mineral and protein content. An egg, when broken, should have a delicate odor. Freshness of an egg does not depend on time elapsed since it was laid. Eggs held at 40 degrees Fahrenheit for 100 days are fresher than eggs held 3 days at 100 degrees. Food value is determined by feed given the hen. In cooking eggs, regardless of the method used, one rule must always be remembered—They belong to the protein and fat foods and should not be cooked at too high a temperature.

W. H. Wilbourn of Dallas spent last week-end here with Mr. and Mrs. Frank Stuart. Mrs. Wilbourn, who has been dead for many years, was Mr. Stuart's daughter.

Mrs. Paul Storch and daughter, Martha, arrived on Thursday of last week from Gallatin, Tennessee, to visit with the former's mother, Mrs. M. A. Farberley, and other relatives in this section.

Vote for Frank McGlaun, Jr., for Tax Assessor and Collector on July 27.—It will be appreciated and not forgotten.

### PREPARATIONS FOR SOUTH PLAINS FAIR BEING MADE

LUBBOCK, July 18—Work has started on the 29th Annual Panhandle South Plains Fair, the first to be held since 1941. Fair officials announced recently. Tentative date of the Fair, which will be held at the Fairgrounds in Lubbock, is October 7-12.

In preparing for the first Panhandle South Plains Fair since before the war, officials announced that the Fairgrounds are being reconditioned, and that buildings are being painted and renovated so that everything will be in top condition when the Fair gets underway. They also disclosed that a carnival, races and midweek auto races have already been lined up for appearances every day of the Fair.

Bob Ensor and family of Petty left Monday to visit relatives in Belton and Temple. Belton was Bob's old home town. A brother still lives in Temple.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like aches and nervousness of functional periodic distress. Take a Cardui, it should stimulate appetite, aid digestion, and help build resistance for the "time" to come. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try it!

### New & Complete Protection

REPUBLIC NATIONAL LIFE INSURANCE COMPANY

### PRESERVING PEACHES

(Ala Mae Anderson)

In selecting peaches for canning or other methods of preservation, color and texture of skin are sometimes misleading, for the best tasting peaches ripen from the seed out. Peaches of finest quality have a fresh appearance and when broken open are thoroughly ripe around the seed as well as under the skin.

Care must be exercised with ripe peaches, as they deteriorate quickly and should be canned as soon as possible after picking. If they must be kept for several days, cold storage at 36 to 40 degrees F. is the best method for holding them.

A standard bushel of peaches weighs about 48 pounds and should yield about 30 No. 2 cans or pint jars, or 20 No. 3 cans or quart jars. This bushel of peaches, if a light syrup is used will need about three pounds of sugar. For a light syrup, to each 3 cups of water use one cup of sugar.

Corn syrup or corn sugar may be substituted for part or all of sugar. One cup of sugar and two cups of corn syrup to six cups of water makes a desirable thin syrup. Brown sugar or syrups that have strong flavor are not desirable for canning. Honey may be used to replace a small part of the sugar, but it affects the flavor of the fruit more than corn syrup. Never use saccharin in canning as heat makes it bitter. If used at all, add when the fruit is served. It is advisable to consult a doctor before using it, because too much saccharin may be harmful.

For complete instructions on canning peaches, ask your county home

demonstration agent for a copy of C-224, Can Fruits in a Water Bath.

### TO MY FRIENDS IN PRECINCT NO. ONE:

May I take this method to again ask your support in the July 27 Primary and to pledge my full time to you and the office.

I am for better schools, more good roads and a square deal to every tax payer. If elected as your

Commissioner, I will do my very best to make a good hand.

Your friendship and influence will be greatly appreciated.

A. E. (Arthur) Hagens, candidate

for County Commissioner, Precinct No. 1.

**ACTS ON THE KIDNEYS** To increase flow of urine and relieve irritation of the bladder from excess acidity in the urine. Are you suffering unnecessary distress, backache, run-down feeling and discomfort from excess acidity in the urine? Are you disturbed nights by a frequent desire to pass water? Then you should know about that famous doctor's discovery—DR. KILMER'S SWAMP ROOT—that thousands say gives blessed relief. Swamp Root is a carefully blended combination of 16 herbs, roots, vegetables, balsams. Dr. Kilmer's is not harsh or habit-forming in any way. Many say its marvelous effect is amazing. All druggists sell Swamp Root.

**BUGS IN YOUR BUSHES**

The chances are that arborvitae, cedars and evergreen cypresses are infested with red spiders or cedar bagworms or both.

The red spider is tiny... so you'll have to use a magnifying glass to see him. The chances are that the first you'll know of the red spider being with you is that you'll notice the leaves of your cedars turning first gray, then brown, which starts in the center of the plant. The spider does its worst in dry, warm weather. A hard beating rain will check the red spider. So will a good strong stream of water with cotton dusting sulphur.

The bagworm causes a lot of trouble on cedars... It has beat the housing shortage. It builds its own home and camouflages it with bits of leaves and twigs. When resting it ties up on the tree. To control it, spray with two or three level teaspoonsful of lead arsenate to a gallon of water.

As the bagworm gets older, the poison seems to bother it less and less. If you have a lot of old tough bagworms and not too many arborvitae or cedars, your best bet is to pick them off. Dunk them in kerosene or burn them.

**Dan Daniel Is Slowly Improving**

Mr. and Mrs. Louie Weathers and Mrs. Henry Maasen arrived back at home Monday after the former couple visited their son, Dan Daniel, who has been critically ill in a hospital near Washington, and after Mrs. Maasen had visited her daughter, Miss Jocelyn Maasen, who is in the service as a Marine at Washington and who received a promotion to Corporal on the very day that Mrs. Maasen arrived.

Mrs. Weathers reports that they left their son, Dan Daniel, very much improved and were advised by physicians that he could probably be released from the hospital in two or three weeks but would doubtless have to remain in bed for two or three months longer. Dan was suffering from coronary thrombosis, which means a blood clot in one of the arteries of the heart. His condition had been exceedingly critical, but he was improving and it was hoped that in the course of time he would grow much better.

Dan was quite an athlete here during his high school days before the war and won honors at many boxing bouts. He assisted for a time as part-time employee in the news office.

Mrs. Weathers reports that while in Washington she and Louie took advantage of the opportunity to see the sights of the city and to visit the Senate in session one afternoon. They looked about assiduously for Pappy O'Daniel but were never able to locate him.

**BIRTHDAY SUPPER**  
A birthday supper was given in the home of Mr. and Mrs. W. E. Pierce July 15 for S. A. Mensch and grandson Jesse Calvin Mensch. S. A. was fifty-four and Jesse C. was five years old.

Those present were: Mr. and Mrs. S. A. Mensch, Fay and LeRoy, Mr. and Mrs. W. E. Pierce, Mr. and Mrs. Otis Mensch and family, Mr. and Mrs. Clemmie Mensch and family, Mr. and Mrs. Alvis Mensch and baby, Mr. and Mrs. Doyle Mensch. All children were present except Mr. and Mrs. Reid Yandell who live at Brownfield.

**W. S. C. S. MEETS**  
The Methodist W. S. C. S. met Monday July 15, in the basement of the church to continue their study of "These Moving Times."

The lesson was brought by Mrs. W. W. Roland. Prayer was led by Mrs. H. A. Nichols and Mrs. Terry led the singing.

Mrs. Terry and Mrs. Floyd gave talks from supplementary material.

Those attending were Mrs. A. E. Ware, W. W. Roland, H. A. Nichols, C. A. Thomas, Mrs. Paul Johnson, Mrs. Ted Terry, Mrs. C. L. Steele, Mrs. Tom Gill, Mrs. W. Mathis, Mrs. Sam Floyd and Mrs. V. C. Steele.

**Flying Farmers . . .**

(Continued from Page 1, Sec. 2)  
The Lynn County Flying Farmers have designed an emblem which will be sewed on their khaki shirts and will present it at the State meeting in order that this emblem may be adopted as the official Texas Flying Farmers emblem.

A few of the Lynn County Flying Farmers that are planning on flying down are: Clayton Beard, President; Thad Smith, Mr. and Mrs. Bill McNeely, Ira Page, Manuel Ayers, Ellis Barnes, Hulan Balch, A. N. Norman, Billy Hill, Calloway Huffaker, B. T. Smith, John Beard, Calvin Edwards, "Kid" Gibson, and several others. There are several who will go down by car.

Two or three members of the Tahoka Chamber of Commerce have been invited to fly down as guests but it is not known at the present time whether any of the C of C members have accepted this invitation or not.

**To The Voters of Lynn County:**

On Saturday of July 27th you people will vote on a man to serve you as sheriff for the next two years. I want to assure you that I will appreciate anything that you may do for me between now and then and your vote on that day.

I have worked hard to see each of you and have seen the most of you and solicited your vote and influence personally and to those whom I have not seen may I take this method of asking you for your help.

In making this campaign I have brought my wishes straight to you in the best way I knew. As you know this is my first trial at politics and all I know how to do in a political race is to try to see the people, run on my own merits and not make any unkind remarks against any of my opponents, and that is what I have done. It is your office to give, and if I am elected your sheriff I shall do my very best to make you the kind of an officer that will never give you any cause to regret having voted for me.

If you elect me sheriff of this county, I pledge you my very best efforts to enforce the laws of this state without prejudice or favor to any one. May I have your help between now and July 27th and on that day your vote.

Sincerely,

**SAM PRICE**
