

The Lynn County News

Football Training Starts; Schedule Now Complete

With the 1946 football schedule complete, and 35 candidates out for the current Bulldog team, Coach Jim Foust is working the team candidates daily in preparation for the season's first game with Crosbyton here on next Friday night, September 13.

Coach Foust says the boys are working hard and are "plenty stiff" but as a whole the squad is shaping up fairly well.

Though a little light and inexperienced, the coach hopes to put on a happy team that will make a creditable showing.

The first game is a non-conference battle, since Crosbyton is not in this football district. However, Crosbyton was champion of its district and will have practically the same team this year.

Among the boys showing the best chances for making the team are: Centers: Ken Weaver and Phil Bairington.

Guards: Don Akin and Bob McMillan.

Tackles: Randie Hinkle, Harold Crowell, N. M. Barham, Almon Crowell, and Wayne Sherrod.

Ends: Billy Dorman, Dan D. Cowan, C. A. Short, Kenneth Reid, and Duane Carter.

Halfbacks: H. R. Tankersley, Bobby Boyd, and Sargent Munn.

Quarterbacks: Joe Don Minor and Stanley Ratliff.

Fullbacks: Finis Botkin and James Cleave Bairington.

Last week the coach and a large group of the squad were camped near Fort Stockton getting in condition for the season. This week boys are receiving instruction in fundamentals of the game as well as further conditioning.

The schedule follows:
Sept. 13—Crosbyton Here
Sept. 20—Post There
Oct. 4—Slator There
Oct. 11—Denver City Here
Oct. 18—Seagraves There
Oct. 25—Sundown There
Nov. 1—Seminole Here
Nov. 8—O'Donnell Here
Nov. 15—Andrews Here
Nov. 22—Littlefield There
Conference Games

AAA Committee Attending Meet

The Lynn County Agriculture committee, composed of Carl Sanders, chairman, Aik Botkin, Dan Carpenter, and AAA Secretary Clint Walker, are attending a district meeting of agricultural workers at the Lubbock Hotel Thursday and Friday of this week.

Purpose of the meeting, according to Walker, is to discuss 1946 applications for payment, and the 1947 Federal crop insurance program.

Walker states that notices are being mailed Lynn county farmers this week regarding the amount of premium due under the 1946 insurance program.

He says approximately 43% of Lynn county's farms have the crop insurance this year. A majority of these will collect insurance.

Congratulations...

Mr. and Mrs. Newman Bartley, of Rt. 1, Tahoka, upon the birth of a son in the Tahoka Clinic on Wednesday, August 28, weight and name not given.

Mr. and Mrs. J. W. Jolly, city, upon the birth of a son on Friday, August 30, in the Tahoka Clinic, weighing 9 pounds. He has been named David Larry.

Mr. and Mrs. R. B. Terry, city, upon the birth of a daughter, whom they have named Carolyn Kay, in the Tahoka Clinic, on August 22.

Mr. and Mrs. Hornaday McLaurin on the birth of a son weighing 6 pounds 14 ounces at 2 p. m. Friday in a Lamesa hospital.

Miss Barbara Ann Seale, daughter of Mr. and Mrs. Charles Seale of Lubbock, had her tonsils removed at the Seale Clinic here Thursday morning.

Two Youths Are Painfully Injured

Leslie Ray Paris, 12, son of Mrs. Annie Paris, fell off of a barn and dislocated both arms Monday. He was treated at the Tahoka Clinic and is said to be doing fine.

Unreported at the time was another injury sustained by Malcom Young, about 8, son of Mr. and Mrs. W. W. Young living out east of Tahoka, who fell from the platform of a gin two weeks ago Wednesday, August 21, and sustained a fracture of the skull. He is also reported by the Tahoka Clinic to be recovering nicely.

Mrs. Hutchison Died Thursday

Stricken with an attack of heart trouble after having eaten a hearty breakfast Thursday morning, Mrs. J. S. Hutchison, 72, died a few minutes later at 9:40 o'clock at the home of her daughter, Mrs. K. R. Durham. Deceased was also the mother of W. P. Hutchison of Wells, this county.

The body was prepared for burial at the Stanley Funeral Home and was taken Thursday night to Shreveport, Louisiana, for burial there. The husband and the Durham and W. P. Hutchison families also left Thursday night for Shreveport where it was planned, funeral services would be conducted Saturday.

Mrs. Hutchison had been in failing health for a year or more but suffered her first attack of heart trouble, so far as the family knew, about a month ago. This was the second severe attack that she had suffered.

Mr. and Mrs. Hutchison had made their home here only since May of this year but she had visited here a number of times before that, sometimes for a number of weeks at a time, and had become well acquainted in Tahoka and had made many warm friends here.

Deeply religious and strongly devoted to her church, she was the daughter of a pioneer Baptist preacher and educator who spent his life in the states of Arkansas and Louisiana. Her mother also was a teacher. She was born in Shreveport, La., on March 25, 1874, and she was married to James Strother Hutchison in the Administration building of Ouachita College at Arkadelphia, Ark., while her mother was teaching in that institution, February 15, 1893. She had graduated at that institution in June of the preceding year.

For many years, she and her husband lived in Little Rock, where he was engaged in the mercantile business. He retired in 1922, and since that time they have lived in Shreveport until they removed to Tahoka last May.

Mrs. Hutchison united with the Baptist Church in early childhood and was an active church worker throughout her life. For many years she was a teacher in the Sunday school of the Highland Baptist Church in Shreveport.

Survivors include the bereaved husband, four sons and two daughters: Lawton H. Hutchison of Kilgore, Texas; W. P. Hutchison of Wells, Lynn county; Miss Margaret Hutchison, who is employed in mission work by the Home Mission Board of Atlanta, Georgia, and who has been visiting here recently, leaving for her work just exactly one week before her mother's death; James S. Hutchison of Corona, California; Charlie Hutchison of Shreveport and his twin sister, Mrs. K. R. (Eloise) Durham of Tahoka.

Also surviving are two aged sisters, Mrs. D. W. Saunders of Mansfield, La., and Mrs. D. C. Scarborough now of Shreveport but a resident of Natchitoches, La., for sixty years.

Also surviving are several grandchildren.

Mrs. Lou Rusk underwent major surgery in a Lubbock hospital a few days ago and has not been doing quite as well as had been hoped, it is reported.

S. R. Kemp underwent a major operation in a Lubbock hospital Wednesday and is reported to be doing "just fine."

Dorothy Carmack Will Be Given Screen Test

Miss Dorothy Lee Carmack, who recently won the title of Miss South Plains in a contest sponsored by the Wallace Theatres, will receive a screen test in Colorado Springs on September 23, Ted Waggoner, local theatre manager, announced this week.

As a result of having won the recent South Plains-wide contest, Miss Carmack will receive a free one-week's vacation for her and an escort at the Bradmoor Hotel, one of the nation's finest, in Colorado Springs. Mrs. C. O. Carmack, her mother, will accompany her as escort.

The screen test made of Miss Carmack will be shown in the local theatres about 15 days after the screening in Colorado Springs. The test will also be viewed by movie producers.

Miss Carmack, who has been working in Lubbock this summer, also won the title of Miss Lubbock in another contest and she was a participant in the state contest for the title of Miss Texas, being among the top five in the latter.

Nazarene Revival Will End Sunday

The Revival at the Church of the Nazarene will continue through Sunday, according to Mrs. J. D. Roedler, the pastor.

Rev. and Mrs. Whitley are rendering wonderful help as workers. Rev. Whitley preaches an old-time religion in a spirit of love. Mrs. Whitley's singing is thrilling the hearts of those who hear. Why not avail yourselves of the opportunity to attend these last few services, she asks. We will welcome you.

Services each evening at 8:00.

Cpl. Townsend Is Home From Japan

Cpl. Houston Dwight Townsend, son of Mr. and Mrs. N. O. Townsend, who has been in the overseas service as a Marine for the past 14 months, most of which time was spent in Japan, arrived home with his discharge on last Sunday night.

He was accompanied from San Diego, California, by his brother, Wailan Townsend and the latter's wife and two daughters, who came to visit here about three weeks.

Another brother lives in Lubbock and one in the home, so Mrs. Townsend reported delightedly that all four of their sons were at home Sunday night, for the first time in several years.

Mr. and Mrs. E. J. Cooper left Thursday morning for a visit with relatives at Terrell, McKinney, and Whitesboro. They expected to be away for a week or ten days.

Mrs. Charlie Terry brought to the News office this week some of the smoothest, finest tomatoes one ever sees. And they were fine in every way. Thanks.

Rev. Levi Price is doing the preaching in a revival being conducted at the New Home Baptist Church this week.

Showers Continue To Fall Over Much of County

Heavy rains visited portions of Lynn county again this week. On Sunday night, the Petty community was flooded with another down-pour. Wilson, which had received 8.72 inches last week, got .87 more on Sunday night.

The rainfall in Tahoka Sunday night was only .40 of an inch, and on Tuesday afternoon .14 more fell. Added to the 3.43 inches which came last week, this makes a total of 3.97 for the period.

A heavy rain fell Tuesday afternoon between the Wayside and Cross-Roads filling stations on the Lubbock highway, and other showers have fallen in various portions of the county of which we have had no report. Suffice to say the ground is pretty thoroughly soaked but we have heard nobody yelling calf-rope yet.

Brewer Tells of Teacher Shortage

Vernon Brewer, superintendent of the Tahoka schools injected much wit and humor into a talk on the seriousness of the current teacher shortage in Texas at the Rotary Club luncheon Thursday of last week.

Brewer pointed out the importance of having skilled classroom instructors for our children, and decried the fact the garbage collectors draw more salary than the average classroom teacher. Thousands of teachers are leaving the profession for other lines of work, and a small percentage of the college students are preparing themselves for the teaching profession.

President L. C. Haney announced that District Rotary President Aubrey Stephenson, a professor in Hardin-Simmons University, Abilene, will meet with the club on Thursday night of next week at 3:00 o'clock at the Legion Hall.

This Thursday, with Vice President Alton Cain presiding, Vernon Brewer, program committeeman, introduced a program in which various members told some of their vacation experiences. Those making short talks included Terry Thompson, Winston Wharton, Dr. Emil Prohl, Frank Hill, and Truett Smith.

Leroy Waggoner, Thurman Wells, and Mack Noble of O'Donnell, Lloyd Moyers of Slator, and Don Turner were among the guests present Thursday.

WOMEN ATTEND ANNUAL MISSIONARY MEETING

Mrs. Levi Price, Mrs. H. P. Caviness, Mrs. Garland Pennington, Mrs. D. V. Smith, Mrs. E. I. Hill, and possibly other Tahoka women attended the Annual meeting of the Woman's Missionary Union of the Brownfield Baptist Association, which was held at the Wilson Baptist Church Thursday.

Eibert Bouillon Jr., student in the University of Texas law school, is home visiting his parents.

If you plow down the stakes that are on the edges of your fields you are costing the County as well as yourself MONEY. 47-tfc.

School Registration Totals 725 In City

Burial Association Is Formed Here

Neal Stanley, owner of Stanley Funeral Home, formerly owned by W. M. Harris, announces this week the formation of the Stanley Burial Association.

Mr. Stanley says his insurance plan will guarantee the policy holder a nice funeral at an extremely low cost, without red tape and by the local funeral home.

Important to the town and the county, the plan will help keep our money at home, as well as furnish another convenience when needed.

Softball Draws Large Crowds

Tonight is the beginning of the finals between the two top teams in the Lynn County Softball Tournament which is being played on the local softball field just two blocks east of the Rose theatre.

We do not know at this moment who will be in the finals as the paper will be published before the last two games of the semi-finals have been played, but any of the four teams in the semi-finals may move into the finals providing they won last night.

The four teams playing in the semi-finals were: V.F.W., O'Donnell, Flash-O-Gas, and Grassland.

The teams were paired-off and were to play two out of three wins to put them in the finals, which will be played in the same manner.

V.F.W. and O'Donnell have both won a game each. Monday night V.F.W. took the O'Donnell team to a cleaning and then O'Donnell came back Tuesday night to plaster the V.F.W. team good and proper. The play-off was set to be played last night and the two winners of those games will be in finals.

Grassland and Flash-O-Gas were in the same fix as O'Donnell and the V.F.W. They have each won a game a piece and was to also battle it out last night to see which team would meet the winner of the V.F.W.-O'Donnell duel.

Tuesday night Grassland won over F.O-Gas and Wednesday night the F.O-Gas team romped over the diamond defeating Grassland.

Tonight the two top teams will play the first game of the finals and will meet again Monday night. If each team wins a game on these two nights, then the final game will be played Tuesday night, but should one of the teams win two games in a row, they will be the champs of Lynn County and there will not be a game Tuesday night.

Large crowds have been attending these softball games all season and it is expected that over a thousand fans will be on hand to see these championship games tonight and Monday night and maybe Tuesday night.

Judge Grider and Johnny Wells are the official announcers over the public address system.

ARMY RECRUITERS TO BE HERE ON MONDAY'S

Your U. S. Army Recruiting Representative will be in Tahoka each Monday from 10:00 a. m. to 3:00 p. m. Anyone desiring information about the New Regular Army may contact the representative between these hours at the Post Office."

TRY-OUT FOR FOOTBALL

A. L. Hodge and LaVaughn "Seabiscuit" Caraway, former Tahoka High football players, are at Canyon for a try-out as members of the West Texas State Buffalo football squad. Hodge is a 210-pound tackle, and Caraway is a 203-pound fullback.

Caraway was recently discharged after nearly two years of service in Uncle Sam's Navy.

MISS GAIGNAT HOME

Miss Myrna Deen Gaignat, the daughter of Mr. and Mrs. D. W. Gaignat, who is attending a designers' school in Los Angeles, is home visiting between semesters.

More than 200 pupils enrolled in the Tahoka schools during the first three days of this week.

In the high school proper, there had been 225 to 230 registrations. This includes the 9th, 10th, 11th, and 12th grades. In the 8th grade, which is also handled in the high school building, there had been 58 registrations, making a total of about 285 in the high school building.

In the first seven grades, which are being handled in the Grade School building, there had been about 420 registrations. This would make a total of a little more than 700 in the schools for white children.

At the colored school, 26 pupils had registered. Supt. Vernon Brewer reported that he visited the school Tuesday and found it starting off well. Eight grades are being taught there by a single teacher, Miss Paralee Sayles. He planned to get some athletic equipment and other needed equipment for the school soon, and to have some improvements made there.

Mr. Brewer also reports that he is well pleased with the way things have started off at the high school and grade school buildings. He is expecting a most successful school year.

Mr. Brewer further reports that a new commercial stove has been installed this week in the lunch room.

Principals are: Travis Mason at the high school and Urban Brown at the grade school. Jim Foust is the coach. A full faculty of teachers as heretofore announced are at their respective posts of duty and under all the circumstances it is a very fine faculty. The Tahoka school should have one of the best years in their history.

Judge Garland, Lamesa, Dies

Judge J. E. Garland of Lamesa, 68, one of the best known and most beloved lawyers in this section of the state, died suddenly and unexpectedly in his home in Lamesa at about 11:15 o'clock Sunday morning. Judge Garland, it is said, was assisting his wife in the kitchen when he suddenly collapsed and died a few minutes thereafter.

Funeral services were conducted in the First Methodist Church in Lamesa at 3:00 o'clock Tuesday afternoon, with Rev. Cal C. Wright officiating. The body was interred in the Lamesa cemetery. Attending the services from Tahoka were Judge Tom Garrard and the entire local bar consisting of Judge C. H. Cain, B. P. Maddox, Truett Smith, Rollin McCord, and Calloway, Huffaker and possibly other citizens. Lawyers from Lubbock, Big Spring, Seminole, and other places also were present.

Judge Garland was of the old-style, old-fashioned, Southern type, who adhered strictly to the highest standards of his profession and was the "soul of honor" both in his public and his private relationships. He therefore enjoyed the esteem and admiration of the lawyer and the layman alike.

Judge Garland had served as special judge in the 106th judicial district for some three years while Judge Louis B. Reed was in the army, and during this period Lynn county jurors and others having business in the courts came to recognize his high character and his impartial service on the bench.

Joseph Edward Garland was born March 17, 1878, in Red River county. In boyhood he moved with his parents to Bowie county, and he studied law in law offices in New Boston and Texarkana and was admitted to the bar in 1901. He practiced law in Texarkana for a few years and then moved to Lamesa in 1907. He was a member of the Dawson county bar for 37 years. He served in our armed forces through the Spanish-American War, served as county judge of Dawson County through World War I, and loyally supported this (Continued on last page Sec. 1)

WORKHORSE OF THE PACIFIC WAR—Present standby strategic weapon of the Army Air Forces, the Boeing B-29 Superfortress, spews forth tons of bombs on a large Japanese supply depot. From the days of its first missions against the enemy, until its present 39th anniversary protective role, the B-29 has shattered world records both in battle and in scientific demonstrations.

McMURRY COLLEGE TO OPEN SEPT. 16

ASBLEN, Sept. 5.—McMurry College will open on September 16, instead of September 9, Dr. Harold O. Cooke, president, announced today, giving as the reason for the postponement the need for additional time to complete housing facilities for students this fall, mainly veterans.

"By the later date, we will have accommodations for most of our veterans who are married, and all of the single students who have made application so far.

"Nearby homes have opened their rooms to college students and we will be able to place many of the students there, at least until the new dormitories are completed," Dr. Cooke said.

"We have not closed our enrollments as yet, but students should

check, either by a personal visit or by letter, if facilities are available," he added, "and we will make every effort to see that no one who seeks college training this fall will be turned away."

CELEBRATES 77th BIRTHDAY

(O'Donnell Index-Press) Mrs. J. F. Rogers Sr. of the New Moore community, better known as Grandmother Rogers, was given a surprise birthday dinner last Sunday on her 77th birthday. She is the mother of fifteen children of which 13 are living; all but three of her children were present. Those present were Mrs. W. A. Wilson of Littlefield, T. H. Rogers of O'Donnell, C. L. Rogers of New Home, Mrs. J. E. Blair of O'Donnell, Mrs. W. A. Rodgers of Lubbock, Mrs. Joe Williams of Seagraves, Mrs. H. C. King of Big Springs, Mrs. Virgil Adams of O'Donnell, Mrs. Earl Crutcher and Clyde Rogers of Puntkin Center. 33 grandchildren were present and 32 great grandchildren. There were ninety six relatives present in all; a host of friends called during the day. Mrs. Rogers received many lovely presents. Dinner was spread in the open; there were more than 100 to eat.

The first American flag flown over a foreign fortress was raised above the pirate stronghold in Tripoli after U. S. Marines took it from the Barbary pirates in 1805.

The oldest church bells in America are at Trinity Church in New York. Some of them came from London on the ship Favorite in 1797.

The Patent Office in Washington is averaging only about 430 new patents a week this year as against a prewar average of almost 800.

Good Health

Good health doesn't just happen. We all know it is something we must think about and work for. Medical care specialists in the U. S. department of agriculture suggest a number of ways people can protect their health and prevent sickness. For example, they can eat enough of the right kind of food, get plenty of sleep and recreation, wear clothes that are suitable for the weather, keep everything clean, and avoid accidents. Along the lines of cleanliness, they can keep a safe drinking water supply, screen doors and windows, keep out-houses in a sanitary condition, and get rid of breeding places for germs and rodents.

Longest River

The Missouri river, which, from its source to the mouth of the Mississippi river, has a total length of 4,200 miles, is the longest continuous single waterway or river course in the world. This, however, is generally considered part of the great Mississippi-Missouri river system which measures 6,970 miles in all. Second is the Nile, which is 4,000 miles in length. When the Mississippi was named it was supposed that the Missouri was a tributary but geologists state that the Missouri is really the main trunk of the Mississippi, and what is known as the upper Mississippi, that is, the part of the river above the point where the Missouri joins the Mississippi, is really only a tributary.

Restores Nitrogen

Alfalfa plays an important part in putting nitrogen back into the soil. A four-ton yield of alfalfa was found to contain an average of 220 pounds of nitrogen, 14.4 pounds of phosphorus, 100 pounds of potassium and approximately 500 pounds of limestone. As a legume crop, alfalfa takes only about one-third of its nitrogen from the soil and two-thirds from the atmosphere. This allows a gain of 147 pounds of nitrogen in four tons of hay. With only one-third of the nitrogen in alfalfa taken from the soil, this would mean a removal of 18 pounds of nitrogen, 3.4 pounds of phosphorus, 25 pounds of potassium and about 125 pounds of limestone by each ton of hay.

Despite the severe conditions caused by war and defeat, the population of Italy increased from 44,600,000 in 1939 to 45,800,000 in 1946.

The salary of members of the British Parliament was recently raised from 600 pounds to 1000 pounds (about \$4,000) per year. American Congressmen receive \$10,000.

WELL KNOWN MAN FELT LIKE SWOLLEN BALLOON; FULL OF STOMACH GAS

Recently, a well known man stated that he used to feel like a swollen balloon after every meal. He would bloat full of gas and spit up acidulous liquids for hours after eating. Was terribly constipated. This man is one of the hundreds in this vicinity who now praise INNER-AID. He states he was amazed at the results when he took this medicine. Now he eats what he wants without gas or bloating and bowels are regular for the first time in years. He feels like a new man. INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores here in Lynn County.

Olympia Stands in Midst Of Nature's Wonders

Olympia, Wash., occupies what has been pronounced one of America's finest examples of natural landscape gardening, in a setting of snow-capped ranges, vast forests, wild rhododendrons, and mountain streams. Mount Rainier rises to the east; visible to the north are the lofty Olympics, whence the city takes its name.

The governor's mansion is in a park setting near the new state capitol, on a rising knoll. The capitol dome is modeled along lines of that in Washington, D. C. The new governor's mansion is of Georgian style, red brick with marble trimmings.

The city developed at the head of navigation on the Sound, end of the Oregon trail, at a time when waterways were the natural highways, preferred to overland routes. While the capital is dominated by government, excellent rail and highways have developed the port. Olympia grew on land belonging to Edmund Sylvester, a Gloucester fisherman who held the property under the Oregon Provisional government, the original dating from 1848. It was thus one of the early northwest settlements.

Precautions Help to Preserve Dinnerware

Many of the precautions usually reserved for fine china are in order for everyday dinnerware. Here are a few suggestions that will help in giving dinnerware good care:

Scrape dishes with a rubber scraper or paper instead of a metal instrument that may mar their surfaces. Stack them in neat piles according to size—many crashes result from haphazard or top-heavy stacks. Wash just a few dishes at a time and have a folded dishtowel in the bottom of the dishpan or drain pan and on the enamel, hardwood or metal drainboard. This will help reduce breakage and is especially needed for fragile china.

Avoid harsh scouring powders, steel wool, or metal cleaners which may scratch dishes; dampened whitening on a cloth will remove stubborn stains. Remember too that strong soaps, ammonia or washing soda is hard on gold and silver trims.

Soak Dishes

Many dishes and pans used in getting meals will wash more quickly and easily if they are filled with water immediately after using and allowed to soak until washed. A cold-water soak is recommended for loosening starchy foods, like dough or cereal, and also for eggs and milk. A hot-water soak is best for utensils which have held sugary foods like syrup or icing because sugar dissolves faster in hot than in cold water. Greasy utensils should have all possible grease removed — to save for cooking use later or salvage — and then should be wiped out with paper and allowed to soak in hot water containing a little baking soda. A time-saving way to keep silverware bright is to have a little aluminum pan filled with hot soda water near the dishpan and put into it any silver, tarnished with egg or other food.

A tattered remnant of the American flag that flew at Corregidor was hidden away by two brave men during the Japanese occupation and flies today on the Pentagon Building in Washington.

W. V. McElroy, was taken to the Veteran's Hospital in Amarillo on last Saturday after having suffered an attack of heart trouble. He is now back home, however, and able to be down town.

Irvyn Lehman will leave next week for Austin to enroll in the University of Texas.

To The People of Lynn County—

It is nearing the six weeks mark since the first primary was over. During this time the voters have been showered with so many thanks and handshakes until their hands and backs were sore and numb.

I sincerely hope the people have recuperated sufficiently to withstand another appreciative note from a defeated candidate and also to express why I appreciated so much the support I received.

First—They took in consideration all facts they knew and had learned before going to the polls.

Second—They exercised a fairness in their own minds and were not interested in vote swapping.

Third—My supporters were not influenced by "Pow-wows" instigated by "Political-Dads" in some of our larger communities.

I want every one to know that I am as proud of each vote as I would have been had I won my campaign for County Clerk.

Jas. D. H. (Jim) Woods

NORWOOD KIN HAVE FAMILY REUNION

All of the children of S. N. Norwood but one, Floyd Norwood of Slaton, gathered in the family home of Mrs. A. Pendleton on August 26 for a family reunion. All brought basket dinners and stayed for supper.

Those present were Mr. S. N. Norwood; Mr. and Mrs. A. Pendleton of T-Bar; Mr. and Mrs. Fred Nethleton and daughter of Brownwood; Mr. Warren Norwood and daughter and Mrs. Carl Carnes and son of Goree; Mr. and Mrs. Samie Norwood and family of Redwine; Mr. and Mrs. Lee Norwood and sons of Lamesa; Mr. and Mrs. Jess Hill and son of Petty; Mr. and Mrs. Fred Pendleton of Wells, and also a friend, Mrs. L. M. Barrett and grandson of Wells.

Mrs. W. E. (Happy) Smith and daughters and Calvin Smith, son of Mr. and Mrs. Lynn Smith, returned a few days ago from a vacation and visit of about three weeks spent in San Antonio and Galveston.

KEITHS SPEND VACATION IN THE ROCKIES

Mr. and Mrs. L. C. Keith of New Home have returned from a week's vacation spent in Colorado Springs, Colorado, and other scenic places in the Rockies.

They had the pleasure of having their children and families with them. Dr. George Edds and wife and two babies from College Station and LaMon Keith and wife and two babies from Richmond, California. They report that all had a wonderful time.

Some of Nature's most scenic places visited were Pike's Peak, the Garden of the Gods, the Seven Falls, and Royal Gorge.

MISS ELIZABETH MARTIN WEDS CURTIS MCGUIRE

Miss Elizabeth Martin, daughter of Mr. and Mrs. Ernest Martin, and Curtis McGuire, son of Mrs. Lela McGuire, all of this city were united in marriage last Friday night at 11:15 at the Assembly of God parsonage, Rev. Leon Cullin, pastor of the church, performing the ceremony.

The bride is employed at the Tahoka exchange of Southwestern Associated Telephone company.

Mr. McGuire is projectionist for the Wallace Theatres here.

They will make their home here

Farmers Should Avoid Risks in Haying

Since farm accident statistics show that the haying season is one of the most dangerous times of the year on the farm, farmers should put haying machinery in good safe condition before the season starts.

It is suggested that farmers check all pulleys, ropes and hitches to be sure they are in safe, workable condition; that mowers and rakes are in good repair; and that all parts of the stacker are in sound condition to bear the strain of loads of hay. If racks are used, the floors should be level and all weak spots repaired. Ladders on racks should be strong enough to support the weight of a heavy man and should extend one foot above the top cross pieces of the rack.

A good practice, too, is to instruct inexperienced workers in the safe handling of pitchforks and to take mowers out of gear before working on them.

Quick Treatment

The army's policy of moving medical care, as well as surgical care, nearer and nearer to the front lines has proved eminently successful. The primary task of the medical corps is to keep soldiers on active duty, and this is especially vital in combat areas where regiments, divisions and whole army groups function as a team, with each unit doing its special task. Internists and the psychiatrists return about 66 per cent of the men who go back to combat duty while surgeons—because of the more serious nature of the cases they have to handle—return the other 34 per cent. The figures vary from one theater of operation to another but the medical division plays a most important role.

RELATIVES OF THE HILLS VISIT HERE

Mrs. F. T. (Myrtle) Connor of Fort Worth, a cousin of Frank and Billy Hill of the News, and her daughter, Mrs. Julia Ann Dunken of Ruidoso, New Mexico, visited here Monday afternoon.

They were on their way to Fort Worth from Ruidoso, where Mrs. Dunken had just purchased a lodge which is known as Judy Dunken's "INN-BY-THE-ROAD," said to be not only the newest but also the most modern lodge in Ruidoso, headquarters for hunters of bear, deer, antelope, and wild turkey.

Mrs. Connor is a sister of Everts Haley of Canyon, who is well known here and who also visited here one day recently.

The "Robber" Hen Profit Enemy No. 1

Every flock has "Robber" hens. Whether you have a hundred chickens or a thousand, these hens are eating their share of expensive feed and producing no eggs in return. The Eamesway System of Poultry Inspection will find those "robber" birds for you.

Eamesway, a totally different system of culling is amazingly effective. Time and again it eliminates 25% or more of the hens with no decrease in egg production. These hens should be culled out now and sent to market while they are in marketable condition. Let an Eamesway technician cull your flock and you'll save many times the small cost on feed.

LET'S SAVE THE PARK
All Texas, and especially all of Northwest Texas, should feel a vital interest in the preservation and improvement of the Palo Duro Park east of Canyon. With the exception of the Big Bend country, it offers to the people of Texas and of the nation the most marvelous scenic wonder to be found within our borders.

It comprises more than 15,000 acres of terrain lying in and upon the brink of the most startling chasm to be found in all this region—startling because you are likely to run upon it unawares. It cuts back 500 to 700 feet deep for 30 or 40 miles into the level plain. Its walls in some places are perpendicular or nearly so for hundreds of feet.

It was acquired, technically, many years ago, but its improvement has been greatly retarded by a stunning debt that has hung over it like a pall. All the improvements, thus far, except an inadequate and uncompleted road, are situated on 120 acres of land on the brink and on one side of the canyon thirteen miles east of the town of Canyon. This little tract, we understand, is

owned by the State in fee simple. The debt hangs over the other 15,000 acres, or more than 23 sections, which extend east and south down the canyon.

We know little about the history of the debt but somebody probably made a blunder in agreeing to pay the price stipulated. At any rate the purchasers finally despaired of ever being able to pay the debt. The holders of the mortgage were about to foreclose recently when a compromise was made whereby the debt was reduced to \$300,000 and the interest reduced to 3 per cent, but the Park board was slow to act and the creditors were again preparing to sell the property. Just a few weeks ago, another postponement of the sale was procured for a period of one year upon the promise made by the Park board, if we understand the matter correctly whereby it would ask the legislature at the approaching session to appropriate the funds necessary to take care of the debt.

Since the debt has been reduced, although it may yet seem too large, we believe that all West Texas should get in behind the project and appeal to the legislature to make the necessary appropriation and save the park.

Furthermore, it occurs to us that a state highway should be constructed down through the entire length of the Canyon. The State has built a highway from Canyon east 13 miles to the park headquarters and thence down into the canyon. A highway coming west from Memphis, Hall county, has a dead end near the mouth of the canyon. Another highway coming north from Turkey also has a dead end in that vicinity. Extended a few miles to a junction and thence up the canyon to meet the highway coming down from Canyon City, there would be a drive of thirty or forty miles unsurpassed in Texas for scenic beauty. Such a highway would follow alongside the Palo Duro or Prairie Dog Town Creek, which is one of the prongs of the Red River.

Recently, the Baptists of District 9 bought a small tract of land lying mostly within the canyon a few miles below the proposed state park and from a half mile to a mile back from Palo Duro creek, and on this tract of land alone there are several fine springs of water. In two or three places the water comes leaping down from the wall of the canyon to the rocky soil several feet beneath and hastens on its way to join the larger stream in the bed of the canyon. At just a little expense these can be made real beauty spots.

Likewise at little expense, bath-

ing pools and other recreation places can be created at various points along the stream in the proposed state park whose soft sylvan beauty would almost match the rugged magnificence of the canyon walls.

Certainly, the State of Texas should not permit this opportunity to establish a park of marvelous beauty in Northwest Texas to slip away. The people of this section of the state should begin bombarding the legislature at an early date to take the necessary action at the right time. The cost will be small as compared with the expenditures required for the Big Bend Park, which also is to be improved.

Many people throughout the United States observed "Labor Day" last Monday by doing no labor on that day and keeping it as a holiday. Both Philip Murray of the CIO and William Green of the AFL observed the day by verbally belaboring Congress. That body had not been as servile to the Labor leaders as they desired and hence they brought forth the bludgeons of the Cave Man and proceeded to give Congress a wallop. We sympathize with the man who toils arduously with his hands for a livelihood. We think he ought to be well paid. He ought to be able to support himself and dependents in comfort and to have most of the modern conveniences in his home. And he ought to have the means with which to give the children a high school education. The children however should be taught and required to work as time and circumstances may permit and thus help as members of the family to bear the family burdens. But, while laborers should be paid well for their labor, they should respect the right of every other man to work whenever and wherever he can get a job and is willing to work for the wages offered. The laborer has the right to strike but he has no right by force or threats to keep his neighbor from working when said neighbor can get a job and wants to work. The trouble with organized labor is that it wishes to monopolize all labor. If it could, it would prevent any man from working in any industrial plant until he had joined a union. It seeks to bring about this condition throughout the United States. It demands that Congress help it to bring it about. To that end, it seeks to control Congress, to make of Congress its tool with which to accomplish its purposes, regardless of the rights and the welfare of the other millions of our population. When Congress hesitates and lags, it gives Congress a larrup across the head. That's what Murray and Green undertook to do on Labor Day. We hope that Congress has the nerve to fight back.

More than \$3,000,000 worth of automobiles are owned by the State government—and the expense of operating this tremendous fleet of cars is just about equal to the entire cost of running the State government when Pat M. Neff was Governor.

An editor sent out the following reminder to delinquent subscribers: "There is a little matter that some of our subscribers have seemingly forgotten. Some of them have made us many promises but have not kept them. To us it is a very important matter—it's necessary in our business. We are very modest and do not like to speak about such remissnesses."

One of the most impressive sights of Texas: the ancient oaks, hung with moss, in Columbus. Some of these huge trees are said to be 600 years old; they were casting a shade and furnishing a haven for birds a century and a half before Columbus set sail. One stands in awe before such antiquity as he realizes the fleetness of human life.

A few definitions by a cynic: A co-ordinator is a man who brings organized chaos out of regimented confusion.

Watering Plants
 Even though you've got good intentions, sometimes you can injure your trees and shrubs by the way you water them. The idea is to do a good job of watering no oftener than necessary. For if you sprinkle plants frequently and the water doesn't soak down more than two or three inches deep you've done your plants a bad turn. The roots may grow toward the surface and unusually hot dry weather will kill them off too readily. Incidentally, this is one reason why hand watering with a hose is seldom satisfactory. For one thing, most folks are too impatient and will wander on before the job is well done. And for another thing, usually the water is sprayed on too fast. The ideal way is to apply a small amount of water per minute continuously for several hours. Then you won't have to water so often.

Preparing Compost
 Compost should be prepared in some out-of-the-way place where water may be obtained for wetting it down. It is well to select a depression where leaching cannot occur. Pile the materials in layers in the proportions of about one part of fresh cattle or horse manure or decayed plant remains to two parts soil. The thickest layer should be only six or seven inches thick, and the pile may be as large and as high as needed to give the desired quantity. It may be in the form of a rick four to six feet high, and in that case there should be a trough or depression on the top to catch and hold rain water or water applied through the hose.

Speed Plane Development
 The first Boeing B-17 Flying Fortress was built in 1935 and its production started in 1938. The Consolidated B-24 Liberator was designed in 1938 and was in production early in 1941. The North American B-25 Mitchell was designed in 1938 and the Martin B-26 Marauder in 1939. Both were in production by February, 1941. The Lockheed P-38 Lightning was designed in 1936, made its first flight in 1939 and went into production in January, 1941. The Bell P-39 Airacobra and the Curtiss P-40 Warhawk were being produced in 1940, and the Republic P-47 Thunderbolt and the North American P-51 Mustang in 1941.

Remove Stains
 Since stains set with age, it pays to get at them as quickly as possible. Berry and fruit stains should be treated immediately. Stretch the stained part of the cloth over a pan or bucket. Hold it in place by means of a string. Then pour boiling water on it from a height so that the water will strike the stain with force. This method is also good with coffee or tea. To remove blood stains on blankets, mattress or other heavy material, mix starch and water to a thick paste and spread on the stain. Brush off when dry. Repeat if necessary.

Opened Mesabi
 It was in 1892 that Henry W. Oliver, a Pennsylvania delegate to the Republican National Convention at Minneapolis, heard of a new iron range at Mesabi, Minn. He hurried to Duluth, spent his first night sleeping on a billiard table because the town was filled with prospectors and every hotel room was occupied. Oliver bought a horse next morning and set out through the wilderness to Merritt's camp. Impressed by the possibility of feeding the then-infant steel mills of Pittsburgh from this vast new source of ore, he leased a mine and returned to the East. That move "rubbed the lamp of Aladdin." It brought together the expanding needs of the blast furnaces with mountains of newly developed ore.

Sugar Savers
 As sugar savers, use dried fruits, rich in natural sugar, to add sweetness to desserts. Fill layer cake with chopped dried fruit, mixed with nuts, and moistened with honey or corn syrup. Make steamed dried fruit into fruit whips, or fillings for pies, turnovers and tarts. Instead of sugar in the center of baked apples or pears, fill with raisins and corn syrup or honey, or with mince-meat.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Here's how it may help:

- 1 - Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.
- 2 - Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

MISS LOIS WALKER WEDS ROYCE DABBS
 Announcement has been made of the marriage of Miss Lois Walker of Tahoka and Mr. Royce Dabbs of Gordon, this county, which event occurred in the home of Rev. Howard Martin, the officiating minister, at 8 o'clock Monday night, August 26, in the presence of a number of friends. The double ring ceremony was used.
 Mrs. Dabbs is the daughter of Mr. and Mrs. C. L. Walker of New Lynn and is a graduate of the Tahoka high school. She has been employed for many months as secretary in the sheriff's office in Tahoka.
 Mr. Dabbs is a graduate of the Southland high school and recently received his discharge from service in the U. S. armed forces, having served three years in the Pacific area.
 The maid of honor was Mrs. Clinton Gandy of Post, a sister of the bride. Clinton Gandy acted as best man.

Present and witnessing the event were Mr. and Mrs. C. R. Dabbs of Gordon, Lamyrie Ramsey, Isla Shaffner, James G. Walker, Mrs. Corrine Holder, Mr. and Mrs. M. L. Moore and daughter Phyllis, Mr. and Mrs. Sam Floyd and two daughters, and Mr. and Mrs. J. G. Gandy.
 The couple plan to make their home in Lubbock, where Mr. Dabbs is employed.

BROWN FAMILIES HAVE REUNION

Mr. and Mrs. E. S. Brown were happy to have all their sons and daughters and their families in their home over the week-end. Those present were E. R. Brown of Tulsa, Oklahoma; Mr. and Mrs. Bryan Brown, Olympia, Washington; Mr. and Mrs. L. A. Brown, Loveland; Claude Brown and family, Dewey Brown, and Mr. and Mrs. C. W. Hart of Fort Worth; Mr. and

Mrs. B. W. Bealliff, Ft. Worth; Mr. and Mrs. R. J. Maloney, Lipan; eighteen grandchildren and two great grandchildren.

The children have not been together since 1940. The Fort Worth families brought fish from Eagle Mountain Lake, which every one enjoyed.

BOTKINS VISIT NORTHWESTERN STATES

Mr. and Mrs. V. L. Botkin and sons, Lewis and Finis, returned home Monday afternoon after a tour of six northwestern states.

The Botkins visited in Canon City, Colorado, Colorado Springs, on Pike's Peak, in Denver, Estes Park, Colorado, Cheyenne, Wyoming, North Platte, Nebraska, Garden City Kansas, in Oklahoma and New Mexico.

The trip was out short because of the Tahoka schools beginning soon. Finis, 15, will be a junior this year. Lewis, 18, will leave on September 30 for New York City, where he will enter a school in Dramatic Arts and Music.

Don't move that stake. It is being used for your road construction. Don't delay the engineers.

FLUSH KIDNEY URINE

Benefit wonderfully from famous doctor's discovery that relieves backache, run-down feeling due to excess acidity in the urine

People everywhere are finding amazing relief from painful symptoms of bladder irritation caused by excess acidity in the urine. DR. KILMER'S SWAMP ROOT acts fast on the kidneys to ease discomfort by promoting the flow of urine. This pure herbal medicine is especially welcome where bladder irritation due to excess acidity is responsible for "getting up at night." A carefully blended combination of 16 herbs, roots, vegetables, balsams; Dr. Kilmer's contains nothing harsh, is absolutely non-habit forming. Just good ingredients that many say have a marvelous effect. All druggists sell Swamp Root.

We feature this well-known line of dresses for children.

Sharp Lawn Tools

When cutting grass, use a sharp mower. A dull mower chews off the grass and bruises it, resulting in a brownish cast to the lawn. Cutting grass often and not too close will minimize the presence of weeds, smother some of them out, and prevent weed seeds from germinating. Adjust the mower to cut 1 1/2 to 2 inches from the ground.

The longer top-growth means a more extensive root system to search for food and moisture, and requires less watering. However, close cutting is good for creeping-bent grass, for lawns infested with crabgrass, and old lawns which are being renovated and reseeded.

Clippings benefit the lawn by providing a mulch and furnishing a portion of the necessary plant food. If the lawn is mowed often, and the grass cut high, the clippings will work down in the grass and not be unsightly. They may need to be removed, however, during periods of wet weather, and if they begin to mat together.

Store Whole Blood

Development of new and improved mechanical refrigeration equipment has been one of the chief reasons why the use of whole blood and blood plasma has been so successful. Whole blood must be kept under refrigeration at all times until it is used, and all three types of blood plasma - liquid, frozen and dry - involve the use of mechanical refrigeration during processing. Liquid plasma must be kept at a controlled temperature constantly, and the frozen plasma is kept at a temperature of 20 degrees below zero, Centigrade, by means of mechanical refrigeration. In the field of medicine, special refrigeration has been a leading factor in the volume output of penicillin and the sulfa drugs.

Squeaking Floors

Squeaks in floor boards, often a source of great annoyance, can frequently be remedied simply by dusting talcum powder into the spaces between the boards, if the boards are not too closely joined. Or, simply take a thin-bladed knife and work glue into the cracks between the boards; when the glue has had time to set, the squeaks will go away. If the squeaks cannot be remedied by either of these methods, then the weaving that causes the squeaks must be stopped. This can be done by putting extra nailing in the floor boards, using finishing nails and sinking them below the surface of the flooring with a nail set, filling the hole with plastic wood. Small wedges, driven between the sub-flooring and the joist at the points at which the weaving occurs, will often stop squeaks.

New Tomato

United States soldiers stationed in the Panama Canal Zone were among the first to taste a new variety of tomato developed for the tropics by the Inter-American Institute of Agricultural Sciences at Turrialba, Costa Rica. The annual report of the institute said 7,000 pounds of the new tropical tomato were picked for shipment to the Canal Zone when the army heard about the merits of the plant. The tropical tomato, the report explained, is a hybrid between an "unusual wild tomato and Marglobe, a North American variety." Already seed of the third generation "has been planted and 125,000 plants will be grown."

Miss Sibyl Pirkle, daughter of Mr. and Mrs. R. L. Pirle of Draw, who was recently discharged from service in the WAVES and has been doing library work at the Texas Tech, is planning to leave soon to take a Library course at the University of California, after which she will resume her library work at Tech.

FINANCIAL STATEMENT

Of City of Tahoka

(Furnished By Mayor T. J. Bovell)

CONSOLIDATED BALANCE SHEET
AS OF MARCH 31, 1946

ASSETS	
CURRENT ASSETS	
Cash	\$ 29,713.86
Paving Assessments Receivable	3,183.00
Government Bonds	35,000.00
TOTAL CURRENT ASSETS	\$ 67,896.86
OTHER ASSETS	
Land and Improvements	\$ 1,983.48
Streets and Improvements	63,597.62
Water Works and Equipment	98,352.19
Fire Department and Equipment	6,404.00
Sewer Plant	16,326.58
Dodge Pick-up	935.00
Tractor	1,619.11
Farm—200 Acres	2,000.00
TOTAL OTHER ASSETS	\$191,220.98
TOTAL ASSETS	\$259,097.33

LIABILITIES AND SURPLUS	
CURRENT LIABILITIES	
Meter Deposit	\$ 2,974.75
Bonds Outstanding and Payable of the \$30,000 issue of street paving Bonds, dated 1924	14,000.00
Of the Water Improvement Bonds dated 1926	37,000.00
TOTAL	\$ 53,974.75
SURPLUS	\$205,122.58
TOTAL LIABILITIES and SURPLUS	\$259,097.33

ADDITIONAL INFORMATION:
All Sewer bonds issued in the sum of \$15,000 and all Street paving bonds issued in 1939 in the sum of \$35,000 have been paid, and the 24-cent tax set up in 1939 to retire these bonds will automatically come off of the \$1.50 tax rate next year, 1947, leaving the rate at \$1.26.

The above Financial Statement is based upon an audit of the City's Books which has just been completed and which was accepted by the City Council in session on Monday night, September 2, 1946.
T. J. BOVELL, MAYOR

I THANK YOU ...

Yes, I thank you, every one of you who helped in any way to carry Lynn county for Beauford Jester in the recent July and August elections. Having known him intimately for many years, I was asked to serve as his campaign manager in this county, which I did, and I am much gratified that you responded so nobly. Again I thank you.

W. M. (Bill) Thompson

Lynn County Campaign Manager for
BEAUFORD JESTER

JONES DRY GOODS
TAHOKA, TEXAS

CHARLEY WELLS IS THE NEW DEPUTY AT O'DONNELL

On Monday of this week Charley Wells took over the job as Deputy Sheriff at O'Donnell after the former Deputy had resigned after serving that city since last spring. Charley Wells had been employed by the Gilson Motor Freight before taking over the Deputy's job and it has been reported that he was carrying an empty holster as he had been unable to procure a pistol at the time he took the job as Deputy.

Beck beer drew its name from a German city famous for this dark type of beer. The city was called Einbock (now Einbeck).

Canned Orange Juice

Low storage temperature helps prevent loss of flavor in canned orange juice, says a study, reported to the American Chemical Society. Excessive oxygen also will cause rapid loss of flavor and development of foreign flavors as well as darkening it is said. Storage temperature is very important for flavor-retention and for best results the canned juice should be kept at the lowest temperature, above freezing, which is economically practicable. Another prime factor is that the juice should be pasteurized by a high-temperature, short-time method with complete cooling, at least to 100 degrees, in the shortest practical time. The length of heat treatment was more important in flavor loss than the temperature itself.

Lake Sinking

If it were possible to drain the Great Lakes, literally hundreds of ghostly hulls and treasure — estimated at \$17,000,000 worth — would be laid bare. That much has accumulated since the middle of the last century. Storms account for most of the losses. Those fusses the lakes kick up are no teapot tempests. In 1905 and 1906, wrecked vessels totalled 51 and 52 respectively. The 100-mile gale in 1913 sank 10 steamers, 2 barges and a lightship and wrecked 6 other vessels. But radiotelephones have cut sinkings to a minimum. The 125-mile-an-hour gale in 1940 — first big one since radio came into use — took but three ships out of the 400 plying the lakes at that time.

Soluble Paints

Laboratories are improving water soluble paints for home and factory use. They also are working on one-coat fast-drying lacquers for automobiles, better and tougher industrial finishes and paints that will stand 400 degrees of heat. Base of these new paints is one or more of the dozen new plastics known to the chemist as "resins." These bear the same relation to the natural resins, age-old foundation for paints, that the various synthetic rubbers bear to natural rubber. Because of the diverse qualities of these plastics, paint makers can mix new solvents and new oils with them and develop scores of new paints to meet specialized requirements.

U. S. Eats Well

U. S. citizens have had 10 per cent more food per capita during this war than in 1917-18—with 10 per cent fewer on farms and a one-third increase in the total national population, and twice as much food has gone each year to the armed services and for overseas shipments as during the last war. Production figures during the two wars show: Wheat production in 1944 was 1,079 million bushels, compared with 904 million bushels in 1918; corn, 3,228 million bushels compared with 2,441 million; beef and veal, 10,732 million pounds, compared with 8,486 million; pork, 12,893 million pounds, compared with 8,349 million; chickens, 3,460 million pounds, compared with 1,896 million; milk, 119 billion pounds, compared with 73 billion pounds; total fats and oils, 7,787 million pounds, compared with 4,866 million.

New & Complete Protection

We are now offering Hospitalization coverage for the entire family. Also, Health and Accident for employed persons. All policies pay from the first day. This service is in addition to our regular Life, Educational, and Annuity plans. Call or write us for information.

THE LYNN COUNTY NEWS

TAHOCA, TEXAS

FRIDAY, SEPTEMBER 6, 1946

Importance of Publication of Legal Notices Is "Brought Home" To Tahoka

That all public notices should be published in some newspaper was thoroughly demonstrated recently in Tahoka.

For instance, before the special election was called recently for the election of a councilman to take the place of J. L. Heare, resigned, the City Council was given legal advice to the effect that the posting of notices of the election in three public places was legally sufficient. The advice, be it said, was correct. The City Council accordingly had notices posted, one in the courthouse lobby, one in the post office lobby, and one in another public place in the city. Under law, the notices could have been published 10 days before the election in a newspaper in lieu of the posting of notices, or could have been published in addition to the posting of notices. But this was not required by law and was not done.

Nobody seems to have read the posted notices, at least not immediately, and few doubtless knew that an election had been called. When interested parties desired to file the name of a citizen to be printed on the ballot, they found that it was too late.

When the News was published on Friday before the election to be held on Tuesday, it carried a news story on the front page stating that the election had been ordered and that only one name had been filed for printing on the ballot. The information was given, however, that voters might write in the name of any person they desired to vote for.

Election day came and few citizens of the town went near the polling place, knowing that only one name had been printed on the ballot. Up till mid-afternoon not more than 20 votes had been cast, according to election officers. Then a few write-in votes began to trickle in, and as news of this development spread over town it became evident that a contest was on. For the last hour or two it was quite spirited. The result was a tie, and another election has been called.

If the election notices had been published in this newspaper for at least ten days before the election, as is permissible under the law, the name of the write-in candidate doubtless could have been filed with the city secretary and printed on the ballot, in which case there could have been no grounds for criticism or misunderstanding.

Incidentally, we might say that the week following the News published a correct account of the affair, dropping in a side-bar remark or two that was not official but was, we believe, true and authentic. For this, the writer of the news story has been criticized, but since there is no apparent error, there is no correction to be made.

The City Council is having the election notice published in this paper this week. The election is to be held on Tuesday, September 17. Let the names of candidates be filed with the city secretary at least ten days before the election.

WORLD CLOSES IN—From polar projections like this comes the future thinking of the Army Air Force. New Long range AAF bombers operating from the 65th north parallel can strike anywhere within the area bounded by the 30th north parallel of latitude on the south and the 65th on the north. In this area lies every nation or group of nations at present capable of waging war against the United States.

Sherrod Honored On 90th Birthday

The Sherrod and related families had a reunion and enjoyed a sumptuous meal Sunday at the home of Mrs. Jewell Connolly in honor of the aged father, F. M. Sherrod, who was to become ninety-years of age on Wednesday of this week.

The celebration of his birthday was held three days early on account of the fact that Carl Sherrod, the oldest of the sons, was about to leave for his home in La Habra, California, after a visit here with his father and other relatives.

Mr. Sherrod has not only lived longer than possibly any other citizen of Lynn county but he has doubtless lived longer in the county and on the South Plains than has any other Lynn county resident. He first came to the Plains as a buffalo hunter in the 'eighties, and he took up his residence within this county before it was organized and before the townsite of Tahoka was laid out.

His life companion, Mrs. Martin C. Sherrod, died on September 14, 1945, almost a year ago, and a brother, Jeff Sherrod, 96, died at Sterling City on August 25.

Here for the celebration dinner Sunday were all the children: Mrs. Pearl Brown and Mrs. Iva Shaffer and her husband G. C. Shaffer of Tahoka; Carl Sherrod of La Habra, (cont'd. on last page)

To the Faculties and members of the Student Bodies of the Schools of Lynn County—

We wish you a happy and successful year.

The House of Flowers . . .

Mr. and Mrs. J. B. Billman — Phone 330

per this week. The election is to be held on Tuesday, September 17. Let the names of candidates be filed with the city secretary at least ten days before the election.

RAINDL'S RETURN FROM SOUTH TEXAS VISIT

Tech. Sgt. and Mrs. Joe F. Raindl and Merna Jan returned last week from a trip to points in South and East Texas. Mrs. G. W. Forsythe returned home with them from a visit in Houston and Beaumont.

Sgt. Raindl has been on a ninety day furlough. They have visited Mr. and Mrs. J. B. Oliver and Mr. and Mrs. Frank Raindl Sr. the past few days.

NOTICE OF SPECIAL ELECTION FOR THE PURPOSE OF ELECTING AN ALDERMAN

The State of Texas, City of Tahoka, County of Lynn

To all qualified voters of the City of Tahoka, Texas:

Take notice that a special election will be held at the City Hall of Tahoka, Texas, on the 17th day of September Nineteen Hundred Forty Six, for the purpose of elect-

ing an alderman to fill the unexpired term of J. L. Heare and which election was duly called and ordered by the City Council of said City of Tahoka on the 2nd day of September, Nineteen Hundred Forty Six.

Notice given this the 3rd day of September Nineteen Hundred Forty Six.

ROSEMARY NEIMS, City Secretary.

The Force that Holds a Giant Stalactite Up... OIL-PLATES Your Engine!

THE tons-heavy stalactite—the giant "icicle" of stone—is held tight to its cavern roof by the tremendous attractive force of molecules pulling up against gravity. Utilizing the force of molecular attraction (basic force that holds things together) Conoco scientists bring to America's motorists the benefits of new and better oils.

By molecular attraction, a special ingredient of Conoco Nth motor oil is bonded so strongly throughout your engine that cylinder walls and other parts are OIL-PLATED! And because molecular attraction holds Conoco OIL-PLATING up where it belongs ... prevents it from all draining down to the crankcase, even overnight ... you get these benefits:

- added protection when your engine starts up
- added protection from corrosive action
- added protection from wear that leads to fouling sludge and carbon
- added smooth, silent miles

That's why to OIL-PLATE now ... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company

CONOCO Nth MOTOR OIL

BETTER OIL-PLATE NOW!

 Conoco Representative

To those who are awaiting delivery of their New Oldsmobiles

Series "70" Club Sedan. GM Hydra-Matic Drive optional at extra cost.

A Word of Appreciation . . . and a Suggestion, too!

We know how anxious you are to get your new Oldsmobile. And there's nothing we'd like better to do, right now, than to say to every Oldsmobile buyer: "Your car is here. Come get it!"

But frankly, it just isn't possible to do that. There still aren't enough new Oldsmobiles to go around. Due to shortages in materials and unavoidable limitations on production, the output of new cars still is behind schedule. And our allotments are far below the figures that we originally anticipated.

We want to assure you, however, that everything possible is being done, both here and at the factory, to get your car in your hands promptly. And we'd like to take this occasion to thank you sincerely for the patient and considerate way in which you have borne with us during this period of waiting.

Meanwhile, we have an important suggestion: Don't neglect the car you drive today.

KEEP AMERICA'S HIGHWAYS SAFE—DRIVE CAREFULLY

T-Hangar Flying . .

Last Sunday afternoon many local pilots flew over to Grassland and watched Buddy Norris of Brownfield dust crops with his crop-dusting Stearman. That is the first time many local people ever witnessed anything of that kind especially from the air. Mr. Claude and Auvie Thomas of Grassland, whose crops were being dusted by Mr. Norris observed the job from the air after a little persuasion to make their first trip into the open spaces above and really enjoyed their airplane ride and the dusting operations from a grandstand seat.

Local pilots and other citizens of Lynn county that are planning to leave here today for the first "Air Day in Texas" Airshow which is to take place in Harlingen on Saturday and Sunday are Clayton Beard, "Kid" Gibson, Judge Tom Garrard, Emory Nance, Hulan Bolch and Bill McNeely. All have been invited as special guests of the Gov. of Texas. Many other local pilots have also been invited, but it is not known whether any of them are planning to attend.

GETS "THANK YOU" LETTER FROM BEAUFORD JESTER

Bill Thompson dropped into the New office Monday with a letter which he had received from Beauford Jester thanking him for the latter's activity in Jester's behalf in the recent political campaign.

In addition to the work done in Lynn county Bill visited a number of reeds and other gatherings in other counties in this section scattering Jester literature. Bill says he distributed 200 pounds of it.

In his letter of thanks, Jester says: "I am deeply grateful to you for the fine work you have done in my behalf in my campaign for Governor. Your splendid cooperation with Colonel Brown in the organization of the campaign and your generous response in time and personal effort have all contributed in a large measure to the final victory. The campaign was handled magnificently and I want to thank you personally for the part you had in it. My office in Austin will always be open to you and I shall be glad to have the benefit of your advice at all times.

"With kindest personal regards I am Yours most sincerely, Beauford H. Jester.

CARD OF THANKS

I take this method of expressing my sincere thanks to those who sent cards or letters to me while I was in the hospital.

May peace and happiness be yours as the days go by. Sincerely, Mrs. R. L. Pirtle.

There has been a lot of air activity here the past several days as the veterans are really beginning to fly 'em round-'n-round. Veterans that have already started their training are: Jess Gurley, Billy J. Hancock, Glen Loyd, Jimmy Yandell, Duane Jones, Melvin Leslie, Hubert Smith and a fellow named Schaffner. Sorry we didn't get the first part of his handle. . . . There are about 3 or 4 vets from O'Donnell that will start their training soon and at least ten vets from Post will also start training in the very near future.

There have been several visitors at the local field the past week, including a couple of well known airplane distributors. The visitors list include the following: Roy Nell, Lubbock, West Texas Aircraft; J. D. Jenkins, Lubbock, Jenkins Aircraft; Buddy Norris, Brownfield; Frank Tong, Lamesa and three student pilots of Lamesa who were up here to get their student's permit from B. T. Smith.

Lane Jones who has been absent from the field for several weeks showed up Monday afternoon and shot a few landings. Guess he's getting ready for a try at his private license.

Calvin Edwards limbered up the old Flying Six Sunday. He took a little pleasure hop around the country. We suppose he made the trip without any trouble. . . . at least there wasn't any cotton bolls on the landing gear when he got back.

John Beard sent his plane to Lubbock the other day to get it re-licensed. John's P-40 got sick several weeks ago and had to have a little minor work done on it before he could get it re-licensed. . . . John and his daughter Joyce have certainly been missed and everybody will be glad to see them in the air again.

T. A. Bairrington has been so busy at home with his little son that he can't find time to do much flying, but he takes a hop occasionally just to stay in practice.

Jenkins Aircraft of Lubbock, distributors for the Cessna Airplane is sponsoring a supper and big hangar dance Saturday night, Sept. 14 for all the pilots in this area that want to attend. He said there would be plenty of refreshments and eats. We'll bet money the party is a big success.

The Lynn County Flying Farmers held a regular meeting at the Tahoka Airport Wednesday night and served ice cold watermelon to the members and their wives.

Your U. S. TIRE Dealer invites you to a Preview of

AMERICA'S NEWEST, MOST MODERN PREMIUM TIRE...

U.S. ROYAL Air Ride

There's a great new premium tire on the way—the U. S. Royal Air Ride. Although it has not yet been released for sale, you can preview this important development in tire design at your U. S. Tire Dealer's today!

The Air Ride is more than a new tire. It represents a completely new concept of tire engineering. The result is a wholly new kind of tire performance.

The Air Ride principle is a simple one: more air where it does the most good. You'll get all the dramatic advantages of greatly increased air volume at lower air pressure—for air-cushioned riding and driving ease such as you've never known before. And because of the Air Ride's unique tread and shoulder design, it is a magnificently balanced tire—a nimble, fleet-footed tire that achieves a new high in effortless steering, driving comfort, car control.

When U. S. Royal Air Rides are available for your car, you'll have a new understanding of what smooth riding really means—a new feeling of safety and confidence as you drive. And you can count on these great new tires for thousands of extra miles of safe, dependable service.

The new U. S. Royal Air Ride is now at your U. S. Tire Dealer's for display only, prior to its announcement for regular sale. It's worth seeing, and worth waiting for—the tire you'll want on your car tomorrow. See it now—today!

SOUTHWESTERN PUBLIC SERVICE COMPANY
22 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Sherrod . . .

(Continued from page 1, Sec. 2)
California; Guy Sherrod and his wife and three children of Lubbock; G. B. Sherrod, wife, and one child of Tahoka; Beecher Sherrod, wife and two children of Tahoka; Mrs. Jewell Connolly and daughter and her husband, Mr. and Mrs. Grady Lankford; Mrs. Lois McMahan, a granddaughter of the honoree, and her son Laylan. Present also were Joe Sherrod, a brother, and his wife, and their daughter and son-in-law, Mr. and Mrs. McArthur of Lubbock; Mr. and Mrs. Skinner Connolly and family, Mr. and Mrs. Clay Bennett and daughter Joann, Jeff Connolly, and Mr. and Mrs. Ott Patterson, all of Tahoka.
Mr. Sherrod was the recipient of many gifts.

Donald and Jesse Ray Adamson left Monday morning for Stephenville to enter John Tarleton College as students. Both are graduates of the Tahoka high school of the class of 1945.

METHODIST CHURCH

Last Sunday afternoon at the fourth quarterly conference, the conference recommended George Maurice Small to be licensed to preach. Monday afternoon at the First Methodist, Lubbock, he went before the licensing committee, which was composed of Dr. Lipscomb, Dist. Supt., Dr. H. I. Robinson, pastor of First Church, Dr. C. A. Bickley of Asbury Church, Rev. Cecil Mathews, professor of Tech., Rev. Luther Kirk of Slaton, and Rev. H. A. Nichols of Tahoka.
After a long examination the committee unanimously granted George a license. The committee was highly pleased with the correct answers given by the candidate for the Ministry to the many and varied questions propounded.

George will enter McMurry College the 16th of this month. He will occupy this pulpit at the eleven o'clock service on Sunday the 15th, the day before he leaves for McMurry.

This month will be Rally and Promotion days in the Sunday

School. Let every irregular pupil begin Sunday to be present and regular hereafter. The Sunday School has had a large increase in numbers this year. New classes have been organized and the basement rooms are filled to capacity. Three classes meet in the auditorium. Be in your class Sunday. You will find a welcome.

Services at 11 o'clock Sunday morning and 8 in the evening.

Mr. and Mrs. Marvin Munn had as their guests last week Dr. and Mrs. W. S. Larson and son Royce from Olney and Mr. R. D. Woods of Electra.
