Number 35

Many Students Home For Summer From Colleges

Many students attending a number of different colleges are returning to their respective homes here following the closing of the regular terms of these institutions.

Quite a number of Tahoka students have been attending the University of Texas, and Robert Maddox graduated this week with two degrees from that institution. B. S. in Pharmacy, and B. S. in Oil Engineering. Rober, married a few months ago and has been residing in Austin temporarily. The News is not advised as to his plans for the immediate future. Other students in the University the past year or more are: Misses Peggy and Mary Fenton, Dorothy Applewhite, Rita Pettigrew, Noble Rumbo, Irwin Lehman, Sam Garrard, Ebert Bouillon Jr., Travis D. Shelton, Winston Redwine, and Bill Woods, former employee of the Wynne Collier Store, who expects to remain in the University this summer. Probably there are others whom we have overlooked.

Lynn county students who graduated at the Texas Technological College this week include James Price, of Tahoka, B. S. in Agriculture; Jean Elizabeth Slover of Tahoka, Bachelor of Arts; Arnold Masket of Wilson, Bachelor of Architecture, Engineering division.

Other students in the Tech this year were: Jim Ed Poer, Claude Donaldson, James Wells, Claude Slover, Jean Slover, Clara Faye Nordyke, Gay Jackson, Jeannine Smith, Wynne Davis, Johnnie Margaret Price, Charlene Bucy, now Mrs. Robert Baumgardner; Ira Joe Hart, Larry Hagood, Buddy Brass, W. H. Fulkerson, Nita Brass, Roy Anglin, Yvonne Beard, Billy Jack Warren, Geraldine Frazier, Dorothy Lee Carmack, the Florence brothers, and doubtless a number of others.

"Sonny" Roberts and Carl Griffling Jr. have been attending Texas A. & M. College.

Patricia Hill Jacobs, daughter of (Continued on last page Sec. 1)

Stewart Building Enormous Tank

G. M. Stewart, who a little over a year ago purchased the section of land at the mouth of Moor's Draw canyon about three miles east of Redwine, this week began construction of a huge dam on the property which is expected to form a lake covering about 200 acres.

The dam will be about 700 feet in length, 70 feet high, and 240 feet thick at the base. A Dallas man has the contract.

The lake will have a large area of drainage, and in addition springs in the pasture will help keep water in it.

Mr. Stewart expects to stock the resulting lake with fish and to make a recreational center of the property.

Aged Twin Sisters On Visiting Tour

Mrs. F. H. Hancock and Mrs. H. W. Calaway, twin sisters and longtime residents of Lynn county, have returned from a ten-day trip and visit which took them first to the home of the former's son, E. E. Hancock of Lubbock, on Sunday, May 25; thence by bus to Quanah for a visit with Mrs. Hancock's daughter, Mrs. Albin Seth; from there to Altus, Oklahoma to visit Mrs. Calaway's daughter, Mrs. L. I. McIntosh, and back to Burk Burnett, Texas, where they visited their sister.

Of course they greatly enjoyed all these visits.

METHODISTS WILL CONDUCT VACATION BIBLE SCHOOL

A Vacation Bible School is to be conducted throughout next week at the Methodist Church here. All children, as we understand, are invited to attend whether they come from Methodist homes or not.

Much good is done at these Bible schools and all parents who can do so should send their children.

L. C. Haney Is In Lubbock Hospital

L. C. Haney, local druggist and Rotary Club president, was carried to Lubbock Memorial Hospital seriously ill last Friday afternoon, and on Saturday morning underwent an operation for appendicitis.

It is hoped that he will be able to return home by next week.

O'Donnell School Improves Plant

A new gymnasium is being constructed by the O'Donnell consolidated school district and will be completed by July 15 according to present plans, reports the O'Donnell Index-Press of last week.

Also, at a meeting of the O'Donnell school board Tuesday night of last week, an election was ordered to determine whether or not bonds should be issued in the sum of \$25,000 with which to build a new study hall.

A proposal to increase the tax rate from \$1.00 to \$1.50 on property valuations is being submitted to the voters at the same election. Another proposal being submitted is the assumption of the bonded debt of the Draw district, which was recently consolidated with the O'Donnell district.

A new coach, Gena Tubb of national Agriculture teachers and Levelland, has been elected for the O'Donnell schools. Science and Vocative grade teachers are yet to be elected, The Index-Press says. All other faculty members have been elected.

City Officials Elected At Wilson

The town of Wilson, which recently voted to incorporate itself, turned out Tuesday at another election and selected its city officials.

Pet Campbell was chosen as mayor; Leon Tamplin as City marshal; and J. P. Covey, Clarence Church, H. G. Cook, Pat Swann, and D. C. Newsom as aldermen. A group of splendid citizens are these.

It is expected that some city improvements will be made soon. One of the important projects contemplated is the issuance of bonds for the construction of a system of water works, so that the town may have better protection against fire. A very destructive fire last winter almost wiped out the business section of the town, but new and better buildings have been constructed in place of the old ones, and in addition a small theatre building has been constructed and was opened for business just recently.

Durham Conducts Rotary Program

Dr. K. R. Durham conducted a Man on the Street program at the Rotary Club luncheon Thursday noon of last week.

During the program he entertainingly interviewed various club members, including H. B. McCord, Winston Wharton, Terry Thompson, and Sam Floyd on various topics ranging from Rotary activities to juvenile delinquency.

Nina was a Sumerian deity, the name being A with Nin (lady) as a prefix.

Lynn Old-Timers Making Plans For Annual Reunion

Plans are being made by officers and committees for the annual Lynn County Pioneers' Reunion to be held in the City Park here on June 24th.

The day's program will consist of a barbecue, talks by pioneers, and "just visiting."

Anyone who came to Lynn county 30 years or more ago is eligible to membership (fee \$1.00) and to attend the barbecue. None but Old Settlers and the families may attend the barbecue, but the afternoon program will be open to the public. The barbecue and afternoon program will be in the City Park, and the night social at the American Legion Hall.

Prizes will be awarded a number of the visitors, one each for the oldest man present, the oldest lady, the person who comes the longest distance to attend the reunion, the man who has lived longest in the county, the lady who has lived the longest in the county, and so forth. The Association hopes to have talks by Mrs. Jessie Randall, who taught the first Lynn county school in a dugout at New Lynn, by Mrs. J. B. Walker, and others.

Claud Wells, as usual, will be in charge of the barbecue.

Officers of the Association are: Harley Henderson, president; Mrs. Jack Wells, secretary; and Judge W. Elliott, finance chairman.

Local Council Makes Changes

At a regular meeting of the city council Monday night, the council voted to assume payment of the salary of the night watchman, according to Dr. K. R. Durham, mayor.

The night watchman heretofore has always had to collect his own salary. The change will save the business man money, time, and trouble, Dr. Durham points out. It has been costing each business concern from \$30.00 to \$60.00 per year heretofore.

The City has also employed an assistant for Pat Hines, Mayor Durham announces. This has been made necessary by the growth of the city, which has been constant for the past few years. In the first place, the City a few years ago acquired the sewer system with 25 acres of irrigated land, which it farms at a profit of about \$1,000.00 per year. The City water system is constantly growing and is scattered over an area of about five miles.

All of these things together with the care of the streets make it essential that Mr. Hines have an assistant, so that the people of Tahoka can better be served.

A street maintainer has been promised for the near future. The City ordered this equipment about two years ago and have been promised many times that it was forthcoming, the Mayor declares, and the council has been assured that this promise will be fulfilled soon. That will doubtless prove to be a very popular step forward, for it will enable the City to keep the unplaved streets in much better condition.

The flavoring substance of onion is an oil that blends with other fats and oils in food.

Alton Cain Leaves For Rotary Meeting

Mr. and Mrs. Alton Cain and two children left Thursday for a vacation trip to California.

Alton is president-elect of the Tahoka Rotary Club, and will attend the convention of Rotary International at San Francisco. In the meantime, Mrs. Cain and the children expect to visit relatives in the Los Angeles area.

Make Changes In Methodist Charges

Although only seven months had elapsed since the last Conference, a number of changes were made in assignment of pastors of Lynn county churches at the session of the Northwest Texas Conference held in Amarillo last week. As was expected, Rev. J. W. Rosenburg was sent back to Tahoka, however.

Rev. E. H. Crandall of O'Donnell was sent to Lubbock as associate pastor of the First Methodist Church of which Dr. H. I. Robinson has served as pastor for the past seven years and was returned. The associate pastor's specialty will be director of visitation.

Rev. Alby J. Cockrell comes as pastor of the O'Donnell Church.

A change was also made at Wilson. Rev. J. E. Peters of the Wilson circuit was sent to Grassland, and Rev. C. A. Hartley comes to the Wilson circuit.

Rev. A. D. Moore succeeds Rev. Wilton E. Lynn at Draw.

Rev. W. R. Fleming was assigned to the New Home charge.

Of course, Rev. J. O. Haymes retains his position as District Superintendent of the Lubbock district.

Petty Thefts Are Committed Here

At least four places of business were entered here Monday night and small quantities of pennies and possibly some small articles of merchandise were taken from each of them. The places entered were Boyd Driver's Cafe, the Jolly Cafe, the Cafe operated by two ladies at the Kincaid store in the Gin district, and the Jim Burleson service station operated by Kermit Brown.

Apparently the miscreants were a couple or more of small boys. No doors nor windows were pried open to effect entry. At the Jolly Cafe, entry was made through a hole in the wall left by the removal of a motor for repairs. It is believed that entry of the Driver Cafe was also made through an open space. At the Kincaid Cafe and at the Burleson station, entry apparently was made through the door.

The fact that a man's body could not have gone through the openings at some of the places burglarized and the fact that only pennies and other items of small value were taken, together with other circumstances, indicate that the burglaries was the work of mere kids.

J. A. Airheart, who is employed at the Woodworth Barber Shop, underwent a major operation in the Price Hospital in Lamesa on last Saturday morning and will be brought back to the Seal Clinic here this Saturday. He is reported to be recovering nicely.

Corrugated cardboard has been made from cotton stalks.

Tahoka School Board May Purchase Surplus Army Buildings To Increase Classroom, Cafeteria Facilities Here

W. T. Hanes Family Visits In Tahoka

Supt. and Mrs. W. T. Hanes and son, Billy, of Cameron, Milam county, spent last Friday night here with old friends. Mr. Hanes was superintendent of the local schools for about seven years before moving to Cameron two years ago.

Mr. Hanes is president-elect of the Cameron Rotary Club, and they were en route to San Francisco to attend the international convention of Rotary.

New Plans For County Softball League Revealed

A new team was voted into the County League at a meeting of the team managers held here last Tuesday night, bringing the total number of teams entered in the league to ten.

Since there are so many teams in the league it was decided that two games would be played each night instead of one. However, a time limit has been set for each game, and if seven innings of play have not been completed when the time is up the game automatically ends with the leading team winning the game.

The first game each night will begin promptly at 8:30 and will end at 9:50. The second game will start at 10 o'clock and will end at 11:20.

All league games that have already been played will count. The new schedule will begin Monday night.

Monday night in the first game, Grassland will play New Home. In the second game VFW plays D&H.

Tuesday night American Legion plays O'Donnell in the first game, Collier Drug plays Calvery Hatchery in the second game.

Thursday night VFW plays A. Legion, and Whorton plays Grassland in the second game.

The News failed to obtain any results of the County League games played to date, but will try to get them each week from now on through the season.

Davis-Humphries played Wilson last Sunday afternoon in a practice game between the two teams. Davis-Humphries won 15 to 9. Billy Dorman pitched for D&H and Heinz pitched for the Wilson team.

C. of C. Drops Two More
The C. of C. lost to Blue Bonnet Laundry last Friday night by a (Continued on last page Sec. 1)

Rev. Levi Price Is Lions Club Speaker

Rev. Levi Price was the speaker at the Lions Club at its meeting last Tuesday night, and those who were present are said to have thoroughly enjoyed the address.

Tuesday night of last week the club held a Ladies Night, and the entertainers were a group of ten Colored citizens, headed by Minnie Sayles. The group presented chorus numbers and two or three playettes to the great enjoyment of the Lions and their guests.

BLACK CATS TO PLAY BROWNFIELD SUNDAY HERE

The Tahoka Black Cats, managed by Early Lee Lawson will play the Brownfield Cubs on the local hard-ball diamond over on the hill at 3 o'clock Sunday afternoon.

Early says that his pitching staff is pretty weak, but that he has a couple of scouts looking around for some more material. His scouts are Truett Smith and Pete Hegl.

The Black Cats played Petersburg there last Sunday afternoon and was defeated by that club.

Manager Early stated that his boys played hard-ball almost as bad as the American Legion softball team plays. He said that a good game is expected to be played against Brownfield Sunday.

Arrangements were made Tuesday by the board of trustees of the Tahoka Independent Consolidated School District for the purchase of two large frame structures now located at Camp Berkeley, Abilene, to be moved here and used as a classroom building and a cafeteria building. However, it is likely that a bond issue must be approved by the voters to make the needed improvements.

Board President E. R. Edwards, Maurice Small, member, Ivan McWhirter, secretary, and Supt. Vernon Brewer went to Abilene to investigate the purchase of surplus property, and they think they have a plan worked out whereby it will not be necessary for this district to vote a large bond issue at this time to take care of the additional patrons of the district added by recent consolidations and possible future consolidations.

They found a large hospital ward 26 by 151 feet in size that could be converted into four large class rooms and two rest rooms. This structure is built of first grade, seasoned materials, with double floors, triple walls, solid sheathing roof, and containing plumbing, wiring, gas radiators, and a boiler heating plant, all for about \$3,500. They also found a mess hall 25 by 94 feet in size, almost as well built that can be converted into a cafeteria. The building includes the cook and heating stoves, plumbing and lighting facilities. The building is available at about \$2500.

Since the building of an additional grade school building at this time of high materials and high labor would require a bond issue of approximately \$100,000, the board feels that it is more practical to buy these frame structures, move them here, and get by with them for at least a few years until the building crisis eases.

Since other repairs need to be made to the school plant, the board is considering the calling of a bond election for the issuance of about \$30,000 to put the school plant in (Continued on last page Sec. 1)

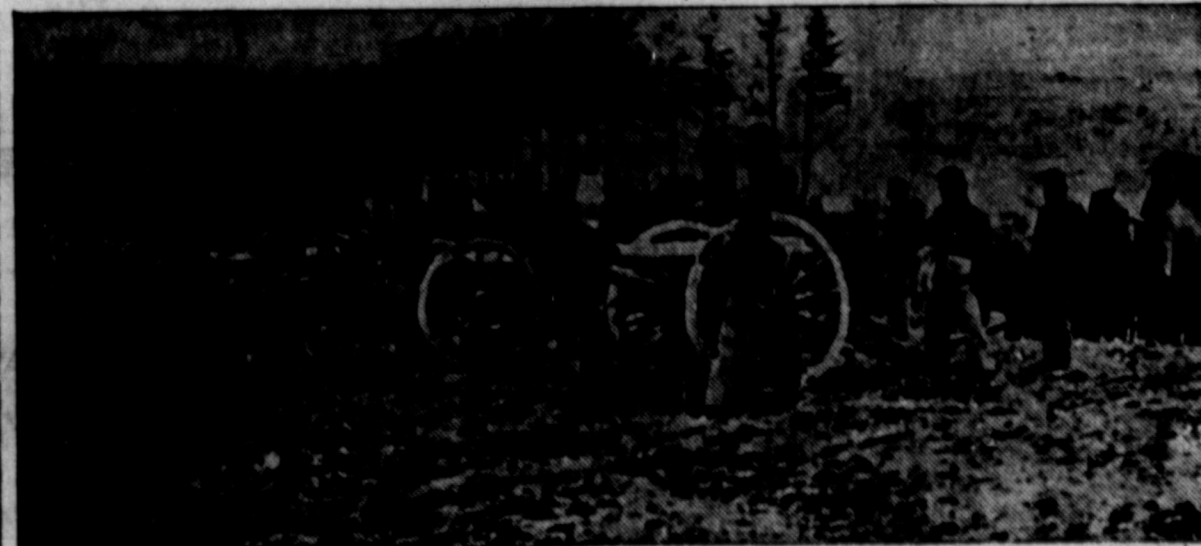

Local Man Is Accidentally Shot

Mrs. Ted Chaney received a telephone call Sunday morning advising her that her son, Tom Cloe, had been accidentally shot and was in a Brownwood hospital for treatment. On Tuesday morning she telephoned her daughter-in-law, Tom's wife, and was given a more detailed and accurate account of the accident. Also, she was informed that the wound had produced immediate paralysis of the lower limbs and that he had been taken to the Medical Arts Hospital in Brownwood, where an operation was performed. A tube had been placed in his side to keep it drained. The bullet had struck a rib, had been deflected, but had passed entirely through his body. The purpose of the operation was to determine whether or not the intestines had been punctured.

The surgeon found that there had been no puncture of the intestine, the bullet having missed it about an inch. If it had passed an inch and a half further over either to the right or to the left, the surgeon was quoted as stating that the wound would have been fatal. Mrs. Chaney's latest information is that Tom is doing nicely.

The accident occurred at about 7:30 o'clock Sunday morning at his camp 32 miles out from Brownwood. He was loading up and preparing to move his camp to Brownwood Lake. Dwayne Jones, his brother-in-law, who was with him, set his .22 caliber rifle down with the butt resting on the ground and the barrel resting against the turtle back of the car, and when the engine was started the gun fell and was discharged.

Tom was reared here, and as a boy he worked at Bouillon's grocery store and at other places of business in Tahoka. He is now employed at the Lubbock Army Air Field, but is residing in Tahoka.

FIRST ACTUAL PHOTOGRAPH OF THE U. S. ARMY IN COMBAT — In May, 1863, Mathew B. Brady, pioneer American photographer, made this picture of a Union battery in action near Fredericksburg, Virginia, during the battle of Chancellorsville. It is one of 2,000 Brady negatives acquired by the War Department and preserved in the National Archives.

STATE FAIR BUILDINGS ARE REMODELED

DALLAS, June 5.—Interiors of the giant exhibit halls at this year's State Fair of Texas will have completely new modernistic and futuristic appearances, W. H. Hitzelberger, executive vice president and general manager, revealed today.

Although opening date, Oct. 4, is four months away, construction and remodeling already is more than 60 percent complete, Mr. Hitzelberger said. This year's State Fair promises to be the greatest in the exposition's 61-year history.

Four gigantic theme units, graphically portraying the stories of petroleum, homes, electricity, and food, are nearing completion, Mr. Hitzelberger said. New decorations and rearrangement of exhibitions are progressing rapidly in the General Exhibits Building, Food Building, Hall of Agriculture, and Poultry Building.

Many other improvements are being made, such as paving of streets, enlarging the parking areas and the livestock barns as well as building new midway attractions.

J. S. Skaggs of Oklahoma City spent last week-end with his mother, Mrs. S. R. Kemp.

A Two-Fold Job

The latest boon to Spring cleaning, is a colorless liquid coating that, when brushed on screens, kills mosquitoes, flies and other insects on contact and, at the same time, puts a resin covering on the mesh to protect screens from weather exposure. The coating, called Festroy, contains 6% DDT and can be applied before or after screens are installed.

Ted Clayton is building a large new home in the Roberts Addition in the west part of town.

Hobson Whitesides, an old Baylor county citizen, visited here this week with Harley Henderson.

Your Home

By Frances Alworth

One evening last week my younger sister and her husband came to dinner. They were bubbling over with plans for the new house they're building . . . and looking over our own house over for ideas and information. My sister told me that the contractor had promised they could be settled in their new home "just in time to put the insect screens up" and I immediately asked her what kind they were buying.

Well, neither of them had actually realized that there was a difference in materials . . . so we proceeded to tell them what our own contractor had advised. When we quitted our home, he reminded us of the importance of good durable insect screens, of rust-proof metal—and advised us to buy bronze. For bronze, he said, would resist corrosion and cannot rust, which causes most of the breaks in ordinary screens. He told us, too, that this metal would wear indefinitely . . . and it cannot burn which is definitely important.

Having durable insect screens is important to every family—not only from a comfort standpoint, but because insects are notorious germ carriers. And, especially, with small children in the house, every possible precaution should be taken for their protection. That's why so many hospitals—which must be careful—prefer bronze insect screens.

Well, my sister said she was very glad we had mentioned insect screens . . . for she has a small baby, too—and of course, she wants the best in her home. So before they left they jotted down the name of our dealer and resolved to place their order the first thing in the morning.

Mr. and Mrs. John McAda and little daughter Barbara Jeanne of Temple are visiting Mr. and Mrs. G. B. McAda and Johnny.

EVERY TOWN CAN HELP IN AIR SAFETY DRIVE

Every community in America can help in the drive for greater air safety—at cost of a couple gallons of paint.

If a plane is lost in bad weather and electrical disturbance blots out radio reception, the name of a town painted on a prominent rooftop may mean the difference between a safe landing and an accident. This year more than half a million people will be flying more than 100,000 planes over the U. S. Many of these people and planes will be guided to port by civic-minded people on the ground who have air-marked their communities.

The U. S. Civil Aeronautics Administration, Washington, D. C., will provide free plans and instructions to any civic groups interested in airmarking their towns.

The "Grizzly Giant," a tree in Yosemite National Park, is 27.6 feet in diameter, 209 feet tall and more than 3,000 years old.

African Depths To Be Explored

New Expedition to Penetrate Mountains of Moon and Lost Lakes.

CHICAGO.—An expedition to Africa's fabulous Mountains of the Moon to explore the mysterious Lost Lakes of the Ruwenzori and to conduct scientific research and short-wave radio experiments will leave the United States in August.

Equipped with mobile radio stations, traveling laboratories and specially built equipment, the expedition will explore the haunts of Africa's obscure tribes of pygmies and "Living Pharaohs," the giant Watusi princes, while technicians accompanying the party plan to study radio phenomena under climatic conditions ranging from snow-capped mountain peaks to steaming equatorial jungles. The expedition will spend six months in the field.

Led by Comdr. Attilio Gatti, famed explorer and author who has spent more than 14 years on African expeditions, the undertaking is being sponsored by the Hallcrafters company of Chicago. The expedition will carry with it assignments from several scientific organizations and similar institutions — assignments which are expected to bring the answers to questions on radio phenomena as well as anthropologic, ethnographic and scientific mysteries that have baffled scientists in those fields for years.

Maintain Radio Contact.

The expedition is expected to be in constant touch with "hams"—amateur short wave radio enthusiasts—throughout the world for the entire six months during which the party will explore parts of Zanzibar, Tanganyika, Kenya, Uganda and possibly the Belgian Congo.

Near Fort Portal, Uganda, high on the eastern slope of the Ruwenzori mountain range, native laborers will erect the base camp.

A powerful radio station will be set up on Ruwenzori, capable of short-wave contact with Commander Gatti's home station at the Hallcrafters plant in Chicago. From this field camp the expedition's short-wave equipment will broadcast to amateur radio operators throughout the world.

Here the expedition leaders will plan the scientific safari into the legendary Mountains of the Moon, which lie surrounded by almost impenetrable jungle forest—the "Fons Nilus" of the ancients, with snow-capped mountain peaks towering nearly 17,000 feet into the equatorial sky. Members of the expedition will plunge into deep, untrampled forests and great stretches of elephant grass in search of the fabulous "Lost Lakes," innumerable craters hundreds of feet below the peaks of Ruwenzori—the mysterious Bijongo, held in superstitious awe by the native Batoro.

To Utilize Planes.

Here, where no white man has ever approached, and where even the tribesmen have left the region untouched, will appear for the first time the Gatti-Hallcrafters' "floating island," a strange silently propelled craft entirely camouflaged by fresh vegetation, which will approach wild life along the lake shores to photograph them and record their sounds for science, meanwhile sending back radio reports on the safari to the base camp. The "humming bird," a specially adapted helicopter, will hover over these hidden game havens, photographing and recording the life of strange jungle animals; many of which have never been seen even by natives.

Down into the virgin depths of these lakes will sink the "diving eye," a grotesque contraption which will photograph in natural color the submarine monsters described in superstitious awe by the few natives who have dared to penetrate the sacred shores of dread Bijongo.

Scientists of the expedition will penetrate the Eturi forest, along the western slope of the mountain, where torrential rainfall and perpetual seepage of snow have made it the wettest spot on earth.

1,700 Tons of Bacon Shipped To Ukraine as Relief Supplies

MOSCOW.—The Ukrainian Pravda of Kiev has reported the arrival in Odessa of 520,000 pairs of men's shoes and 3,450,000 pounds of bacon, all as UNRRA relief supplies.

The shipment reached Odessa aboard the SS William Allen White. The shoe shipment was the largest received in Russia to date through UNRRA, the Kiev paper said. The report said all the supplies had been distributed through the Ukraine and that the shoes went to teachers, doctors, medical personnel, factory and farm workers and to war-bereaved families.

Design New Wire Tire for Planes; Bears Heavier Weight

CLEVELAND.—A new wire airplane tire, described as capable of supporting twice the weight of present standard tires despite its smaller size, was displayed here.

Developers of the tire said the use of fine, flexible steel wire cord gave it a stiffer carcass. It was designed to meet the need resulting from thinner wings of super speed planes.

NEWTONS MOVE TO NEW MEXICO

Mr. and Mrs. Bill Newton left Monday for Capulin, New Mexico, where they expect to make their home. They have been residents of Tahoka for many years. Mr. Newton has been engaged in barbering here while Mrs. Newton has devoted a large part of her time to religious work, having served for a time as pastor of the Church of God at O'Donnell.

Mr. and Mrs. L. R. McCormick of New Home returned Monday from Abilene, where they had attended the Commencement exercises of Hardin-Simmons University and where a nephew graduated. Their son, Lloyd Russell McCormick, who had just completed his sophomore year in Simmons since returning from over-seas service, accompanied them home.

VACATION BIBLE SCHOOL BEING HELD THIS WEEK

A vacation Bible School is being conducted in the Baptist Church this week beginning Monday and running through Friday.

Children in three departments, Junior, Primary, and Beginners, are being instructed; 116 enrolled Monday, including the leaders and workers, about twelve or fifteen in number.

The attendance is larger than was expected and the "kiddies" seem to be enjoying the work. The public will be invited to inspect their work at the close of the school, Friday night.

Glassblowing was developed in the Third Century, B. C., revolutionizing the methods of glass production.

A. L. White left with his truck Sunday for Crowell to assist in harvesting the big wheat crop. The crop in all the wheat-growing counties below the caprock as far east as Wichita Falls is said to be excellent and it matures in that area about two weeks earlier than it does out on these Plains. The crop is fine all over the Plains and Panhandle also and many weeks will be required to harvest the crop.

Mr. and Mrs. Raymond Procter were over from Midland Sunday visiting in the home of Mr and Mrs. Elmer Hillin and their little three-months-old baby. Mrs. Hillin and Mrs. Procter are sisters.

The planet Venus is less than 26,000,000 miles from the earth at some periods of the year.

Money Is Bore, Comes Too Easy For This Man

Dog-Track Owner Has to Have Collars Made From His Shirt Tails.

LONDON. — Money always came easily to Sydney E. Parkes, so easily that at 65 he is fed up with being a Midas. At least he said as much when London reporters found him at home recently.

"What's the use of a big fortune?" — Parkes' income is something like 430,000 pounds a year — "when I have to get my collars made of material cut from my shirt tails?" he demanded gloomily, adding with a soupcon of bitterness: "Well, perhaps you can understand how it feels to be rich."

The reporters could not, but they nodded agreement with the notion that making one pound every minute was one of those things in life that couldn't be helped and had to be put up with as stoically as might be.

"I'd give every penny I have to be 30 again," Parkes sighed as he sank back in his armchair and clouded the circumambient air with smoke from one of his 100 pipes.

Owens Three Dog Tracks.

Parkes was ensconced beside the fire in his Georgian home, Devonshire house, Wandsworth, which he had bought a few weeks previously with its 28-acre estate, said to be the largest private property in the London county council area. He owns three greyhound racing stadiums and was being interviewed about a dispute between bookmakers and Wandsworth stadium over betting pitches, which had just been decided in the high court. It was during this talk he revealed that his personal income last year was 430,000 pounds.

"It mostly went in income tax," he said. "I got 4,800 pounds on the first 20,000 pounds, and after that only 6 pence in the pound—10,000 pounds at the most. The rest I didn't even see."

While Parkes pondered the eternal verities that there is no way back across the ever-widening gulf of time, no staying the fight, all too swift, of the winged years, his visitors departed and headed in the general direction of Fleet street. Being reporters, therefore skeptics by nature and cynics through daily experiences with all and sundry, they harbored the suspicion that their host derived at least a modicum of consolation from the knowledge that the hard realities of the present were cushioned for him in a measure by his dog tracks.

Soft, Eh What?

Totalisator receipts at Wandsworth stadium alone last year were 3,250,000 pounds, of which Wandsworth stadium limited received 6 per cent. In 1942, the company netted 70,000 pounds; 1943, 74,000 pounds; 1944, 89,000 pounds; 1945, 197,000 pounds.

"Pretty soft, what!" soliloquized Archibald. "Pretty soft," echoed Percy.

At 27 Parkes was a successful real estate operator. Before he built the Wandsworth stadium 13 years ago he had sold on one development in seven months houses to the value of 750,000 pounds. He put up the stadium, he explained, "to give employment to 400 excellent workmen" who had served him well. His intention was to sell it and get out. But he went on a summer cruise and on his return found that the venture was doing so well he decided to stay in the greyhound racing business for good.

Russ Beggar Worth Fortune Had Saved 260,000 Rubles

MOSCOW.—A 71-year-old Moscow street beggar—a former monk—was discovered to have amassed a personal fortune of 260,000 rubles. (The official ruble rate is 5.3 to the dollar, the diplomatic rate is 12 to the dollar.)

Press reports said Vasily Yefremovich Vasiliev, formerly a monk from a monastery on Lake Ladoga, had aroused suspicion by begging in the capital's Yelokhov Square.

Upon investigation, the reports continued, it was discovered that from 1930 until 1940 Vasiliev was a collective farmer and had a home garden in a village near Volozda but "was not satisfied with this," and came to Moscow to beg in 1940.

The paper said he had saved the 260,000 rubles in the six years since and that the whole sum had been "discovered."

Need Extra Bars to Keep 90-Pound Boy in Jail Cell

BOONEVILLE, KY.—A boy so small that extra bars had to be placed in his cell to keep him from slipping out was held for the grand jury on a murder charge.

Owensley County Judge J. M. King said he ordered Lester Little, 14, held on the charge under \$5,000 bond in connection with the fatal shooting of the boy's cousin, Price Little, 23. Lester weighs only 90 pounds.

The cousins and four other boys were engaged in a shooting match, the sheriff said, and the Little became involved in an argument over a watch chain.

**MIDGET AUTO RACES
OPENS SEASON AT LUBBOCK
FAIR GROUNDS TRACKS**

LUBBOCK, June 5.—Lubbock's 1947 midget auto racing season got underway, May 29, with a nine-race program at the Panhandle South Plains Fair grounds.

Lloyd Ruby of Wichita Falls took top money in the opening session. He had the evening's fastest time of 17.5 seconds. Other drivers here for the first races of the season included Don Brown, Wichita Falls and Red Dowdy, Dallas.

Races ranged in distance from eight to twenty laps around the one-fifth mile caliche track. Although hampered by a muddy track the first night, officials expect drivers to set new speed marks at future races.

The races will continue each Thursday night throughout the summer. Time trials begin at 7:30 p. m. Races start at 8 o'clock.

FOR SALE

The Tahoka School Board offers for sale, upon sealed bids to be filed with Ivan McWhirter, secretary, the following described property: 1. A 3-room teacherage at Draw belonging to the old Redwine school district.

2. The teacherage and the brick school building consisting of four rooms and an auditorium at Dixie.

3. The 3-room brick school building at Edith.

Bids will be received on these properties separately. Purchasers will be required to remove buildings and clear the rubbish off the premises.

Ivan McWhirter, Secretary
Tahoka School Board

**Griffin Tells About
Flying Farmers**

At the Rotary luncheon this week, Bill Griffin, pinch-hitter for Clayton Beard, gave a brief history of the Flying Farmers of Lynn County and Texas. Beard, president of the local and State organizations, had gone to Texas A. & M. College to attend a state meeting there.

Griffin also recited several ways in which farmers can use the airplane to advantage on the farm, and cited a number of examples.

Of course he reminded his auditors that the Lynn County Flying Farmers organization was the first organized in Texas, and that it had promoted the organization of the state body effected at the Texas A. & M. later. He also reminded his hearers that the Lynn County Flying Farmers had given the city of Tahoka and Lynn County as a whole much nation-wide publicity, and he thought the people of Tahoka should give them a little more recognition than they have yet received.

Tom Garrard made an announcement about the next district convention of the West Texas Chamber of Commerce which will convene in Plainview next fall and he told the Rotarians that he was sure Tahoka could get the following meeting if the town will go after it. It would bring possible 300 or 400 people from 30 or 40 neighboring towns and cities to Tahoka for a single day, he pointed out, business and professional leaders from these places. The matter will probably be given further attention.

**MRS. J. H. McNEELY
GIVEN BIRTHDAY PARTY**

Mrs. J. H. McNeely was honored with a surprise birthday party on her 87th birthday Tuesday, June 3, at the home of Mrs. Beulah Davis Atkins. Fifty-five gifts were displayed.

Mrs. McNeely made the remark that another happy surprise had come to her on that day. She had just received a telegram from her son who is in Arabia and whom she had not seen for three years that he would sail for home on June 4.

Miss Dorothy Irene Newberry of Elk City, Okla., visited in the O. L. Kidwell home a few days last week.

**EASTERN STAR INSTALLS
NEW OFFICERS**

In a public ceremony in Masonic Hall Saturday night, May 31, incoming officers of Tahoka Chapter, Order Eastern Star, were installed by past District Deputy Grand Matron, Imogene Burleson of Tahoka. Mrs. Burleson the Grand Installing Officer, was assisted in this beautiful and impressive installation ceremony by the following Installing Officers: Marshal, Minnie Davis; Chaplain, Zella Thomas; Secretary, Grace Clinton; Organist, Frances Haney; Soloist, Nan Weathers; Reader, Gracye Fleider.

The softly lighted hall tastefully decorated with spring flowers made a beautiful setting for the corps of officers in their white dresses as they moved to the strains of music. The following were installed to serve one year: Zella Thomas, Worthy Matron; Ed Hamilton, Worthy Patron; Eta Lorene Reid, Associate Matron; G. M. Reid, Associate Patron; Jane Morehead, Secretary; Opal Hines, Treasurer; Omega Hensley, Conductress; Opal Hamilton, Associate Conductress; Mittie Walker, Chaplain; Rosa Davis, Marshal; Era Stewart, Organist; Willie Thomas, Ada; Anita Billman, Ruth; Virginia Hensley, Esther; Jewell Connolly, Martha; Lonelle Brown, Electa; Gussie Williams, Warder; Imogene Steele, Sentinel.

Mrs. E. Prohl is the retiring Worthy Patron.

**REDWINE CHURCH CONDUCTS
VACATION BIBLE SCHOOL**

The Redwine Baptist Church is conducting a Vacation Bible School this week for Intermediates, Juniors, Primaries, and Beginners, with about 80 pupils enrolled, according to H. M. Patterson, one of the leaders. Rev. T. L. Pond is the pastor.

For their hand work, the boys are building five nice secretary tables for the five rooms in the Church, under the supervision of the pastor, who is also a skilled carpenter, according to Mr. Patterson.

Mr. and Mrs. Douglas Carter, of Austin visited Mr. and Mrs. I. L. Carter the past week-end.

Mr. and Mrs. Otto Carter are in Temple where Mrs. Carter will go through the clinic.

**PLAN PROPOSED TO DIVIDE
INDIA INTO TWO NATIONS
BY GREAT BRITAIN**

NEW DELHI, June 3.—Britain announced today to India's nearly 400,000,000 people a new plan for independence which probably will mean splitting the vast sub-continent into two huge nations, each of them among the biggest in the world.

Indian leaders of the embittered rival factions appealed to the people in broadcasts to support the plan. They assured the Viceroy Lord Mountbatten, that under the plan they would proceed with the division of the country into Hindustan, a Hindu state, and Pakistan, a Moslem nation, and would take over the power from the British as peacefully as they knew how.

The new plan left the Indians the option of choosing for themselves whether they would be unified or divided.

Power would be transferred this year on the basis of dominion status and that the Indians could elect later whether they would remain within the British Commonwealth of Nations.

India's leaders appealed to the people to put an end to the country's violence and bloodshed and to maintain order during the critical period of transition.

They indicated dissatisfaction with the plan but said it was the best available solution to the coun-

Summer Storage

A most convenient method of storing winter clothing is to pack it away in a suitcase you won't be using during the summer. This keeps your garments clean and practically uncrumpled and provides drawer space for summer ones. As a precaution against moths, be sure clothing has been laundered or dry cleaned first and then sprinkled freely with a moth-killer like the new activated DDT Pestroy powder. As an added convenience, tag each suitcase to show contents.

try's fierce political and religious differences.

**Redistricting Plan
Submitted To People**

The fiftieth regular session of the Texas legislature is to adjourn today.

It had turned down all re-districting bills introduced, but just before finally lowering the curtain on its work, it voted to submit to the people a constitutional amendment embodying the Moffett plan providing for redistricting following each decennial census by a board if the legislature fails to pass a redistricting bill.

The people of Texas should adopt the amendment by a unanimous vote, although we can see that a legislature made up of wilful and selfish men could still defeat the purpose of the amendment by passing a redistricting bill providing for practically the same districts as those already existing. That would comply with the letter of the Constitution, though not with the intent of it.

In such an eventuality, public sentiment could not even compel an immediate or prompt correction of the fiasco perpetrated by the legislators. It is a sorry form of democracy that will permit the people of one section of the state to perpetuate an injustice against the people of another section.

West Texas Gas Company

Schools . . .

(Continued From Page 1)

condition for the next few years.

This would be considerably more than necessary to pay for these two structures, move them here and remodel them for school purposes, but Mr. Edwards points out that it will be necessary to buy another half block of land immediately south of the present grade school playground, and it will also become necessary to buy much new equipment for the buildings, just as it would be necessary if a new brick were erected. Also, repairs must be made to the present grade school heating plant, to the high school building roof, and other improvements and repairs made to the two present structures.

Mr. Edwards also points out the fact that if bonds were voted for a new brick it is not likely that the building could be completed in time for the next school term but if bonds are voted for a temporary building and other improvements the added space would be available for next school year.

The district has been almost doubled in area already this summer by the consolidation policy, and should Three Lakes and West Point and any other districts join this district it will soon be even larger. These districts have had little or no bonded debt, the old Tahoka district was in excellent financial condition, and therefore Mr. Edwards believes that there would be very little additional tax burden, proportionately.

The board invites the expression of opinion of citizens of the district on the proposal, since they wish to take the most practical action possible under the circumstances.

Softball . . .

(Cont'd from page 1)

score of 8 to 1.

Brown, pitching for the Laundrymen got 13 strikeouts allowing only 6 hits, one of which was a home-run by Joe Raindi.

On Tuesday night of this week Brownfield won over the local boys 24 to 15 in a slugger's duel.

Warden pitching for the Brownfield team allowed 13 hits, striking out 7. Bingham allowed 17 hits, striking out 3 and walking 7.

P. George of Brownfield swatted three out of the park for home runs. J. Morehead and Finley also got a home run apiece to their credit for Brownfield. Jones and Bingham both got a home run apiece for the Tahoka team and on each occasion the bases were loaded.

Several errors were also made, Brownfield making 5 while Tahoka made 10.

Tahoka vs. B. Bakery Here Tonight

Plainview There Tuesday Night Tonight C. of C. meets another Lubbock team, Baldrige Bakery on the local field. This is the second game between the two clubs. The Bakerymen won their first encounter by a score of 25 to 13.

On Tuesday night Tahoka goes to Plainview where they will play a double-header. Game time for the first game will be eight-thirty.

Tahoka has played Plainview two times, losing the first game and winning the second game. These two teams are about evenly matched and both games should be good.

Mr. and Mrs. Grady Lankford and Mr. and Mrs. Sam Miller left early this week to spend their vacation on a fishing trip somewhere east and south.

Students . . .

(Continued from Page 1)

Mr. and Mrs. Frank P. Hill, has just completed her Junior year in Wes. Texas State College; and her husband, Ledru Jacobs, received his B. S. degree Thursday. Fred Grider is also a student there.

A. L. Timmons and Ross Harmonson, both of Lakeview and Rev. O. N. Reed, former pastor at Bethel, have just graduated from Wayland College at Plainview.

George Maurice Small is a Ministerial student in McMurry College, Abilene. Other students there the past year were Jimmie Lou Thomas, Mrs. Eva Jo King, and Nancy Nell Wyatt.

Lloyd Russell McCormick of New Home, Ernest C. Reese, Boyce Evans, and Dale Lavender have been students the past year in Hardin-Simmons University, Abilene.

The News has no prepared list of students from this county attending the various institutions of higher learning and was compelled to gather the names as best we could. Of course many others belong in these lists and the News would be glad to have their names.

W. M. Lankford and family of Jennie Lankford and other relatives several days last week. Mrs. Lankford and her grandson, Willie Gene Garrett, son of Mrs. Hattie Garrett, accompanied them home for a visit there and with another of Mrs. Lankford's sons and his family at Denison.

BELL COUNTY ASS'N. TO MEET AT BUFFALO GAP

Joe E. Childers of Abilene has announced that the Bell County Association will meet on Sunday, June 15, on the Presbyterian Encampment grounds at Buffalo Gap. All West Texans who ever lived in Bell county are invited to attend, and hundreds of them usually do.

A number of Lynn county people usually attended before the meetings were suspended for the period of the war. They were resumed last year, with a good attendance.

CLEANS UP FENCE ROWS

PURINA WEED KILLER

It's easy to wipe out weeds in fence rows, ditch rows and other hard-to-get-to spots with PURINA WEED KILLER. This amazing product causes weeds to grow themselves to death by giving them an unbalanced diet. Destroys entire root systems

and helps prevent seed spread. Kills Wild Grape, the weed that's such a hazard to fences. It won't harm corn, sugarcane, grass or small grain crops... or grazing livestock when used as directed. See us for details.

SENATE JOINT RESOLUTION NO. 4

Proposed amendments to Article VII of the Constitution of the State of Texas by the addition of two new sections to be known as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of payment for the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for an election and the issuance of a proclamation therefor.

Be It Resolved By The Legislature Of The State Of Texas:

Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Sections 17 and 18 which shall read as follows:

"Section 17. In lieu of the state ad valorem tax on property of Seven (7c) Cents on the One Hundred (\$100.00) Dollars valuation heretofore permitted to be levied by Section 51 of Article 3, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy, frontier organizations, and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate hereinabove levied.

"Also there is hereby levied, in addition to all other taxes permitted by the constitution of Texas, a state ad valorem tax on property of Five (5c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings, or other permanent improvements at the designated institutions of higher learning; and the governing board of each of such institutions of higher learning is hereby authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by

the governing boards of said respective institutions, shall not exceed three (3%) per cent per annum and shall mature serially or otherwise not to exceed ten (10) years from the first (1st) day of January of each year in which such funds are allocated or re-allocated to said respective institutions; provided, the power to issue bonds or notes hereunder is expressly limited to a period of thirty (30) years from the date of the adoption of this amendment; and provided further, that the Five (5c) Cent tax hereby levied shall expire finally upon payment of all bonds hereby authorized; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"Funds raised from said Five (5c) Cents tax levy for the ten (10) year period beginning January 1, 1948, are hereby allocated to the following institutions of higher learning, and in the following proportions, to wit:

Institution and Per Cent of Total: John Tarleton Agricultural College, 5.72107; North Texas Agricultural College, 6.17028; Texas State College for Women, 11.52992; Texas College of Arts and Industries, 4.75551; College of Mines and Metallurgy, 4.71936; Texas Technological State Teachers College, 16.54877; East Texas State Teachers College, 8.10657; North Texas State Teachers College, 12.64522; Sam Houston State Teachers College, 5.55068; Southwest State Teachers College, 6.78474; Stephen F. Austin State Teachers College, 4.55414; Sul Ross State Teachers College, 2.15315; West Texas State Teachers College, 5.41643; Prairie View Agricultural and Mechanical College of Texas, 5.34416.

"Not later than June 1st of the beginning year of each succeeding ten (10) year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student enrollment for the preceding five (5) year period of time, shall reallocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five (5c) Cent ad valorem tax for said ten (10) year period; and all such designated institutions of higher learning which participate in the allocation or reallocation of such funds shall not thereafter receive any other state funds for the acquiring or constructing of buildings or other permanent improvements for which said Five (5c) Cents ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution in which case an appropriation in an amount sufficient to replace the loss so incurred may be made by the Legislature out of other state funds. This amendment shall be self-enacting. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this amendment; and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose."

"Section 18. For the purpose of constructing, equipping or acquiring buildings or other permanent improvements, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Five Million (\$5,000,000.00) Dollars and the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Ten Million (\$10,000,000.00) Dollars. Any bonds or notes issued hereunder shall be

payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than twenty (20) years from their respective dates, and in no event later than twenty-five (25) years after the date of the adoption of this amendment. This amendment shall be self-enacting.

"Said Boards are severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of this State at a special election to be held throughout the state on the fourth Saturday in August, A. D. 1947, at which election all ballots shall have printed thereon:

"For the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents, for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning, in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

"Against the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to

create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five (5c) Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

Sec. 2. The Governor shall issue the necessary proclamation for said election and have the same published as required by the constitution and laws of this state.

Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of the state, not otherwise appropriated, to pay the expenses of such publication and election.

ATTORNEY-GENERAL RECEIVES HONORARY DEGREE

LUBBOCK, June 5.—"Unlimited opportunity awaits youth of today who have qualities of ability, industry, imagination and perseverance," Tom Clark, attorney general of the United States, declared in his address June 2 at the 21st annual commencement exercises at Texas Technological College.

SLEEP ALL NIGHT

Getting up every few hours destroys your rest. Save this energy. Correct the ph. in your body fluids with CIT-ROS, avoid this discomfort. CIT-ROS for sore, aching back, burning bladder, swelling feet. Get CIT-ROS \$1.00 at your druggist today. For sale by

WYNNE COLLIER, DRUGGIST

An honorary doctor of laws degree was conferred on Attorney General Clark during the exercises by Dr. W. M. Whyburn, president. Mark McGee, vice chairman of the college board of directors, who presented him for the degree, paid high tribute to the cabinet member, saying that in his rise from the ranks to his high office, he had provided inspiration for every young man and woman in the state.

In accepting the degree, Attorney General Clark said, "This hood is a tribute to the office of attorney general of the United States and to the department of justice. I am grateful to this school, especially since it is a Texas school. The phenomenal growth of Texas Technological College has been a source of gratification to me."

The college conferred 391 bachelors degrees and 15 masters degrees to members of one of the largest graduating classes in its history.

In his commencement address Attorney General Clark counseled his listeners to be vigorous against "those in our midst who would trade our freedom for totalitarian ideologies."

"Don't listen to alien ideologies," he said, "because history teaches that only democracy provides a good and full life."

The speaker further advised graduates to work for strong homes, pointing out that the nation is only as strong as the homes within it. He said that the home is the highest type of school, church and unit of government in the world and that it should be regarded as the bulwark of American life, not as "an overnight hotel."

Youth should interest itself in the science of government and develop a spirit of unity and peace, he declared.

"Freedom is earned," the speaker stated, "and must be earned again and again by each successive generation. To make democracy grow you must continually freshen your spirits, strengthen your resolutions and revivify your ideals."

Citing numerous examples of persons who have risen from lowly occupations to key positions, the speaker reiterated throughout his talk that boundless opportunity is awaiting today's youth.

"There is no limit to the potential development of the mind," he said. "Recent advancement in medicine, atomic energy, jet propulsion and thousands of other fields opens that many more doors to youth of today."

"Truly there has been no greater age than that in which we live. Let me welcome you into full American citizenship, and may you create a greater life and bring more happiness and peace to this world of ours," Attorney General Clark concluded.

PYTHIAN SISTERS

Lynn Temple No. 45 met in regular meeting Tuesday night with 23 members present.

The Temple regretfully accepted the resignation of our Mistress of Finance, Frances Chestnut, who is moving to Phoenix, Arizona, because of the health of her husband and little son, who are suffering with asthma, and it is hoped the change will relieve them.

Pauline Warren was appointed to fill the station of M. of F.

It was voted to have a "42" party at the Hall Tuesday night, June 10. Sandwiches, cookies, and cakes will be served by the hostesses, Minnie Nance, Mille Hill, and Fannie Lee Server.

CARD OF THANKS

We wish to take this means of thanking our friends and relatives in Lynn County, Idalou, and Lubbock, who helped out in any way while I, Mrs. Driver, was in the hospital. Your prayers, blood donations, flowers, cards, and visits were all greatly appreciated. May God bless each of you is our prayer.—Mr. and Mrs. Curtis Driver and family.

Many friends were delighted to see Mrs. Curtis Driver here Monday, apparently almost completely recovered from her recent serious illness. They moved from Tahoka to Idalou a few weeks ago and Mrs. Driver became critically ill soon thereafter.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 8:30. Members urged to attend. Visitors welcome.

RUSSIA THE AGGRESSOR
 It has become apparent that Russia is now the outstanding aggressor nation of the world. Recently she was accusing the United States of having imperialistic designs. There were practically no grounds for it. But it is easy for dictators to suspect others of the same unholy designs which they themselves entertain. Besides, such a charge would be useful to Russia as a smoke screen.
 To be sure, Russia does not want war—not yet. But neither does she want to be bound down hard and fast to a policy of peace. She wants to get what she can without war, but she is intent on getting all she can. She doesn't like too much prosperity among her possible enemies. She is striving not only to bring all the second-rate nations of Europe under her thumb, but she wants them to bleed the United States white in feeding and financing them while she herself is getting on her feet again commercially and industrially and spreading her power over all her neighboring nations. To do this she works through spies and she works under cover. Already she has virtually gathered into her fold most of the Balkan states—Roumania, Bulgaria, Yugoslavia, also Poland, and now her latest coup takes in Hungary. She is practicing imperialism with a vengeance.

CITY, FARM, and RANCH LOANS

A. M. CADE
 Office Over First National Bank

She is doing this in part on means and money furnished her by the United States. And still she refuses to agree to most of the things that we think are right and fair. She wants us to reveal to her all of our secrets and to keep all hers to herself.
 We wish that we could entertain a more charitable view toward the Russian dictators. The masses of the people, doubtless, are all right and want to do the right thing so far as they know. But they're kept in the dark largely, and it's still true that "Men love darkness rather than light because their deeds are evil."
 If Russia would be trusted she should turn on the light. She should give her people the blessings of free speech, a free press, and freedom to gain information, knowledge and instruction by all the ordinary means available to peoples of democratic nations, the radio, the picture show, books and magazines. Until she does this, we should not trust her across the horse lot, nor permit her to fool around one minute inside our hen roost.

The liquor interests are a wicked and wily bunch. They are forever scheming to slip something by the Government, the legislature, or somebody else. Some sort of bill relating to liquor was pending in the Senate the other day after having passed the House. We know nothing about its nature, or merits. But some wet Senator quietly proposed an amendment which would permit wet precincts in a dry county. For instance, the entire county of Lynn is dry by a vote of the people. No precinct in the county, big or little, can call an election for that precinct alone and vote liquor in. For it to be able to do so would nullify county-wide prohibition. And that is what the Senator proposed to do with his little amendment. It would practically nullify local prohibition laws throughout the state. For, what would the "county-wide" law amount to if liquor could be sold legally in Tahoka, or O'Donnell, or Wilcox, or any other election precinct in the county? If the "wets" should win such a victory in the legislature, the "drys" would be compelled to bring on a state-wide election in self-defense.

In discussing International Affairs before the Rotary Club recently, Rev. Levi Price declared that if another war should come it would not be primarily a war between Communism and Democracy but a war between Communism and Christianity, for it is Christianity, which generates and nurtures democracy. For the good of this world as well as for the next one, it behooves people to line up spiritually and temporally with the Christian forces of the world. By that we mean the real, not the spurious, Christian forces.

KILL RED ANTS!

WYNNE COLLIER, Druggist.

In an interview given at Dallas Saturday, U. S. Attorney-General Tom Clark disclosed that it is the intention of the Justice Department to publish at an early date a list of organizations which it considers disloyal to the U. S. Government. The unmasking of such organizations is one of the incidents of the drive to rid the Federal payrolls of disloyal workers. Such a list complete, will enable investigators to trace employees who have membership in such organizations. It is a wholesome move. Not only is the Government under no obligations to keep disloyal Americans on its payrolls but it is doing an injustice to capable and loyal Americans who are seeking employment. Furthermore, disloyal Americans should not be placed or kept in positions that would give them opportunity to gather information that might be useful to our enemies. Turn on the light, Tom.

Sidelights From Washington

By George Mahon
 Previously I reported that the Republican majority in the House of Representatives would seek to reduce sharply the requests of the President for agriculture. Last week the Agricultural Appropriation Bill passed the House in a form that was very unsatisfactory to many members from farm areas. I voted against reporting the bill out of the Appropriations Committee and spoke and voted for many amendments offered to the bill.
 Briefly, here is what the bill does.
 1. Cuts AAA soil conservation payments from \$300,000,000 to \$164,000,000. Farmers will have every reason to feel that this is a breach of faith by the government as Congress and the President had in effect months ago promised to provide the full amount of \$300,000,000 for the 1947 crop year.
 2. The bill provides that the Farmers Home Administration, successor to the FSA, must discontinue the farm ownership program known as the Farm Tenant Purchase Program. FHA loan funds for crop production are cut by one-third.
 3. REA funds for administration of the program were cut by \$1,600,000 and loan authorizations for REA coops were reduced by \$25,300,000.
 4. Funds for the Soil Conservation Service to be used in connection with the conservation districts, and otherwise, were cut by 10 per cent.
 5. Funds for the school lunch program were reduced from \$75,300,000 to \$45,000,000.
 6. In previous years 30% of the tariff receipts have been available for supporting farm prices and disposing of agricultural surpluses. The bill reduces this program by two-thirds.
 The votes in the House of Representatives on most of the above issues were very close. On a motion by the Democrats to restore the full \$300,000,000 for soil conservation payments and some of the

other items, we lost by a count of 174 to 180.
 What the Senate will now do with the bill remains to be seen. Undoubtedly some changes will be made by the Senate and House before the measure goes to the President for final approval late in June. The outcome of the controversy over this legislation is of vital importance to all farm areas.

2:20-24. Here we find that God commanded Abraham to do certain things, and that Abraham obeyed God. Again we see that God blessed upon the principle of, "Faith That Obeyed".

Now God speaks to us through his Son, Heb. 1:1. We hear Christ by hearing his apostles, Lk. 10:16. The apostles were guided by the Holy Spirit, Jno. 16:7-13. Acts 2:1-4. The apostles preached the gospel of Christ, Mk. 16:15. Any one that preaches any other gospel will be accursed, Gal. 1:6-9. Those who do not obey the Gospel of Christ will be lost, Read 2 Thes. 1:1-10 for yourself. John said, blessed are they that do his commandments, that they may have a right to the tree of life, and may enter in through the gates into the city, Rev. 22:1. Christ said, "Not every one that sayeth unto me Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of my Father which is in heaven." Mk. 7:21. While the apostles were here, "a great company of the priests were obedient to the faith," Acts 6:7. (To obey the faith is to obey the gospel. Read Gal. 1:23 and 1 Cor. 15:1.

Attend the services of the church of Christ in your community, hear and obey the gospel of Christ while 'tis called today. Continue to send your questions and criticisms if such you have. The gospel of Christ as the apostles preached it is all I want to preach.

Price Bankhead, Post, Texas, Pt. 3.

P. S. If God should bless today upon a faith before it obeys then he has changed. But the "Lord changes not."

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "blow" to come. Started 3 days before "your time," it should help relieve pain due to purely functional periodic causes. Try it!

MRS. STOKES AGAIN WINS HIGH HONOR RECENTLY

High honors in the field of life underwriting have again come to Mrs. Gladys M. Stokes, Tahoka representative of the Southwestern Life Insurance Company. For the second time consecutively, Mrs. Stokes has qualified for the Woman's Quarter Million Dollar Round Table, honor group of the National Association of Life Underwriters. In this edition of the paper, her Company is saluting her in a formal advertisement.

Mrs. Stokes wrote and paid for more than \$270,000 of life insurance during the past year to achieve the distinction. She produced more than \$260,000 during 1946, when she qualified for the Women's Quarter Million Dollar Round Table initially.

Entering the life insurance business here in 1925, Mrs. Stokes has achieved many honors from her Company. During that time, she has qualified more than 20 times for membership in the Southwestern Life Club. She is a member of her Company's Top Club, organization of leading producers for the Southwestern Life, and of its Million Club, composed of those agents who have in excess of \$1,000,000 of life insurance in force on lives of their clients.

Average length of life in the 16th century was 20 years.

W. L. BURLESON

Grassroots . . .

By Bill Griffin
County Agent

Several issues back, I wrote an article on treating Grain Sorghum seed with Oil of Tansy and Alcohol to protect them against wireworms. Because of some reason, Oil of tansy is not being produced this year, so we need another fumigant to protect our seed. Kerosene is about the next best protector against wireworms. Many of you farmers have used this method for several years with a reasonable amount of success.

Probably the greatest fault of kerosene is that we are inclined to put too much on the seed. In some cases where seed are saturated with kerosene you lose part of your germination. One way to use kerosene which has proved satisfactory, is to dip a piece of cloth in a buck-

et of kerosene, then work this cloth through the seed in your planter box. It may be necessary to do this several times to get the desired smell to the seed. The important thing is not to saturate your seed.

CARD OF THANKS

We take this means of thanking our friends and neighbors for the many kindnesses extended us during the last illness and death of our loved one, Mrs. Minnie Lee Anderson. We are glad to know we have such fine friends to sympathize with and help us in our time of sorrow. May God bless all of you.
—Joe B. Anderson and family.

James Minor, who was reared in Tahoka, was recently elected president of the Post Rotary Club. He and Mrs. Minor are attending the Rotary International Convention in San Francisco.

Woman Leaps 8 Floors;

Hits Auto; Tells of Fall

SANTIAGO, CHILE. — Olga Leiva, 25, a dressmaker, leaped from the eighth floor of the Central building here and hit the top of an auto owned by the minister of health. She remained conscious and told of her experience as she was taken to a hospital, where doctors said she probably would live.

Guzzling Ghost Is Now Without Home

His Taste for Beer at Midnight Disturbed Travelers.

KUMBA, CAMEROONS, EAST AFRICA. — The ghost with a taste for beer, which had been disturbing travelers for nearly 30 years, has been left homeless by demolition of an old rest house here.

Tradition had it that the ghost was the restless spirit of a former German district officer, notorious for the iron hand with which he ruled the people of the Cameroons.

Known before World War I as the Johann Albrechtshohe station, the haunted house served as the Prussian-like officer's quarters, district office and military barracks.

It was built 1,200 feet above sea level, on the lip of a drowned volcano crater, with a wide lake 300 feet below.

In more recent years, the building was turned into a resthouse for visiting government officials.

But so many visitors were badly frightened by the creaks and groans of the ancient timbers that the place received a bad name.

It was said that the only way to get a good night's sleep was to place a bottle of beer and a glass on a tray shortly before midnight. This seemed to satisfy the thirsty ghost, for he left the occupiers in peace.

In the morning, according to the story, the bottle was found empty, the glass encrusted with dried froth.

Skeptics who had never spent a night in the haunted house had amusing explanations for consumption of the unguarded bottle of beer.

They never could, however, explain why the cap was always still gripped firmly around the neck of the bottle, and never showed any evidence of being touched with an opener.

"I'm getting about four laps to the mile," said the sweet young thing as she righted herself after the bus lurched.

TEXAS UNIVERSITY TO HOLD 64th COMMENCEMENT JUNE 1-2

AUSTIN, May 27. — Impressive ceremonies at the University of Texas June 1 and 2 will make up the 64th annual commencement for the school.

Approximately 1,250 candidates will receive degrees June 2. Governor Beauford H. Jester, ex-student and former regent, will address the graduates. Sunday Commencement exercises will be held June 1 with the Rev. John E. Hines of Austin, bishop coadjutor of the Diocese of Texas, Protestant Episcopal Church, as speaker.

ARMY CADET PROGRAM NOW OPEN TO CIVILIANS

Young men between the ages eighteen to twenty-six and a half years are now given the opportunity of enlisting in the Aviation Cadet Training Program, recently opened up by the Army Air Forces for civilians. The requirements are as follows: Unmarried male citizens of the United States, be able to pass such examinations or possess such educational qualifications as prescribed by the Commanding General, Army Air Forces; be of excellent character; sound physique and excellent health. Young men interested in obtaining full particulars on this program may do so at the U. S. Army Recruiting Station 115, N. 5th St., Brownfield, Texas.

The degree of acidity of the soil, and the kind of plants to be grown, determine whether or not the land needs lime. Soil acidity is expressed in terms of pH. For most legumes, soils which have a pH of less than 5.5 need enough lime to bring the pH to that figure.

Cantaloupes are really muskmelons, but are so called because Italian fruit dealers in this country thought they resembled an Italian melon grown near Castle Cantaloupe.

Heredity is believed to be the chief factor in longevity and virility.

FLOYDADA MAN GIVES \$15,000 TO WTSC

CANYON, June 5.—A gift of \$15,000 to endow a religious lectureship has been made West Texas State College by J. M. Willson, Floydada business man, announces Dr. J. A. Hill, president of the college. The first \$1,000 from the increment of the gift already is available and will be used during the 1947-48 college year for two series of lectures, each of four days.

The first visiting lecturer will be Dr. Roy L. Smith, editor of the

Christian Advocate, official organ of the Methodist Church according to Mr. Willson's stipulation. The second will be chosen later by an ex officio committee not yet named according to the Rev. Hubert Thomson, pastor of the Canyon Methodist Church. The endowment of the lectureship though made through the church is to promote Christianity, not Methodism. "For some years I have dreamed about an endowed lectureship at West Texas State—one that would bring the campus leading, colorful and spiritual personalities of the nation", commented Dr. Hill early this week.

"Mr. Willson has opened the door to the realization of this dream. He is one of the people of Northwest Texas who are becoming conscious of their opportunities and obligations to West Texas State in the matter of endowments of all kinds", the President continued. There are a great many people in this area who could easily match or exceed Mr. Willson's gift that would mean much to the youth of our state and nation."

THANKS

To each of you who so generously added to the lovely set of dishes and wool blankets for our wedding gifts, we want to extend our thanks and appreciation. Sybil (Brown) Wilkerson and Billy Amarillo, Texas.

EASTERN STAR MEETING

Tarkenton Chapter No. 743 of the Eastern Star will have its regular meeting Friday, June 6, at 8 o'clock.—Zuelia Thomas, W. M., Hester Moorehead, Sec'y.

Robbery Victim Profits From Attempted Holdup

LOS ANGELES, CALIF.—Mrs. Nadine Rathbone told police that two men attempted to rob her in her flower shop. Her reply to the stickup order was: "If you need the money worse than I and my four children, take it." Instead of taking her money, they gave her \$5.

Act of Kindness to Stranger Rewarded

Mercy Hospital Receives Gift of \$615,000 for Charity.

CHICAGO—Thirty-five years ago a penniless stranger made his way to Mercy hospital and asked to see the mother superior. "Sister, I am sick," he said. "I need medical care that may require weeks or months. I have no money. I am not even a Catholic." The Sisters of Mercy took in the stranger, just as they had taken many before him. He received the best care the hospital could give and several weeks later went on his way in good health. The sisters marked it down as a charity case. They had forgotten all about the incident when, nearly a year later, a check for \$250,000 arrived from Paris, France. The check was signed by Ferris Thompson, a native New Yorker living in Paris with his wife. Thompson wrote that the man the sisters had treated was his friend. He added that he never had heard of the Sisters of Mercy and was not a Catholic, but that he wanted them to use the money to treat others in need.

Thereafter the sisters received each year a check for \$5,000—\$165,000 in all. Thompson died in 1913, but the checks continued to arrive, signed by his widow, the former Countess de Beau Repaire. In 1930 the Sisters of Mercy erected a nurses' home near the hospital and named it Ferris Thompson hall in memory of their benefactor.

One day recently Sister Mary Therese, administrator and superintendent of Mercy hospital, received a letter from a New York law firm informing her that Mrs. Thompson died last August 20. The estate had been probated, the lawyers wrote, and they were awaiting word as to where to deposit the \$300,000 Mrs. Thompson had left the Sisters of Mercy in her will.

The money brought to \$615,000 the return from one humane deed, and Sister Mary Therese said the final request would be regarded as an anniversary gift, commemorating 100 years since six nuns arrived here from Pittsburgh to begin their long and extensive service to the community.

Mr. and Mrs. Price Richey spent last week with her parents, Mr and Mrs. Samie Norwood and family before leaving on Monday of this week for Utah, where they are expecting to stay for several weeks. Mrs. Richey is better known here as Drucilla Norwood.

LAMON KEITH

(Continued from Page 1, Sec. 2) surviving, due to the loss of blood. His sister from Conege Station also went by plane to be with him through the operation but for some cause the operation was delayed and they returned home. But when they did perform the operation some weeks later he stood it fine and has been improving ever since and can use his hand to some extent already.

He has two more operations to be performed yet, one of the elbow and one of the hip. It's marvelous how he has gone through it all with very little complaining.

E. N. Tomlinson and family left last week for Oklahoma, where the family will visit while Mr. Tomlinson works in the harvest fields.

Rheumatism and Arthritis

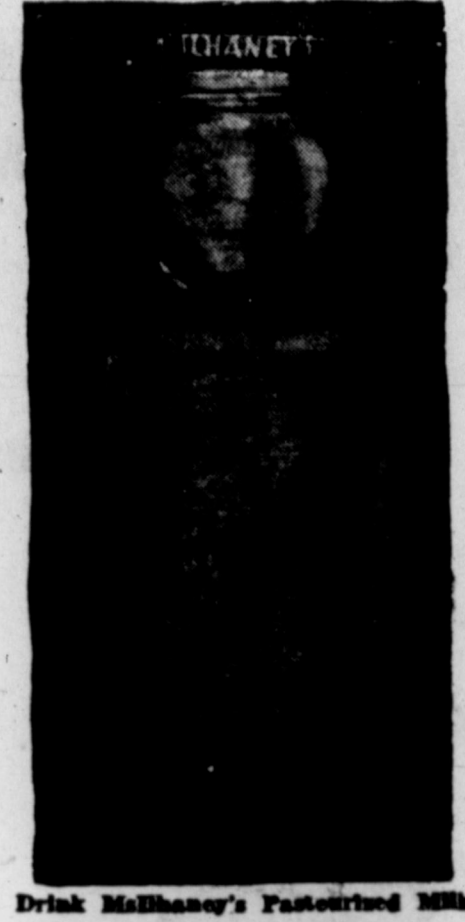

Doctors differ as to the merits of NUC-OVO. Many users say it has brought them relief. If you suffer from Rheumatism or Arthritis why not write for literature on NUC-OVO from Research Laboratories, Inc. 408 N. W. 9th, Portland, Oregon Pd. Adv.
