Johnson Grass Control Will Be Demonstrated

The Lynn County Johnson Grass Committee has completed plans for the demonstration of equipment used in the control of Johnson Grass here on August 9.

Dr. A. W. Young of the Department of Plant Industry of Texas Technological College will be on hand to give the results of experiments run at the College and other valuable information on Controlling Johnson Grass.

A wide assortment of equipment will be demonstrated. Numerous sprays, a newly invented weed burner, flame cultivator, and other interesting pieces of equipment will be on the lot for your inspection.

We have many ingenious farmers in the county who have built their own spraying equipment. We want them to bring their equipment for inspection so that we may profit from their ideas.

The demonstration will be held Saturday, August 9th beginning at 2:00 p. m. at the Tahoka Airport.

Former Citizen Died Here Monday

Suffering from an illness of four years duration and conscious of approaching death, Mrs. Dora Mae Morse of Whitesboro, 48, who had once lived in this county, came back with her husband, perseveringly, to the county and to the home of her sister-in-law, Mrs. J. E. Stigler, in Tahoka, just ten days before the end came, to pay Mrs. Stigler a last visit and possibly to arrange some important temporal affairs before she should pass away. After arrival on July 11, her condition did continue to grow worse, and at about 3 o'clock on Monday morning of this week death put an end to the physical suffering that had racked her body so long. For four years Mrs. Morse had been seriously sick, suffering from kidney trouble and complications.

The body was prepared at the Stanley Funeral Home here for burial, and was taken Tuesday in a Stanley Funeral coach to Floydada, where the family formerly lived, and where funeral services were to be conducted at two o'clock Tuesday afternoon, followed by burial in the Floydada cemetery.

Surviving her are the husband, T. P. Morse, and eight sons and a little daughter, as follows: J. B. Morse, whose present address was not immediately ascertainable, Lawrence Morse of Denison, Tommy of Whitesboro, Theodore of Southmayd, Wayne and Ross of Denton, Billy and Floyd of Whitesboro, and Retha Mae Morse, also of Whitesboro. Three grandchildren also survive.

Wells S. S. Teacher Has Never Missed In Nineteen Years

Rev. W. P. Brian, pastor of the Wells Baptist Church, has unearthed a marvelous Sunday School record which one of his members has marked up.

W. J. Jordan has been superintendent of the Wells Baptist Sunday school for nineteen years and has never been absent a single Sunday in all that time. The pastor says:

If anybody else in these "dig-gings" can match that record, regardless of his church affiliation, we'll cut a water melon and whack up with him, if he will furnish the melon.

That is a wonderful record—a wonderful example of Christian loyalty and devotion.

Free Delivery On Express Packages

As a result of efforts made by the Tahoka Chamber of Commerce, by Secretary Clint Walker and President Winston C. Wharton and others, Tahoka business houses are now receiving free pick-up and delivery service on express packages. The service was instituted Tuesday.

This information was given the secretary Tuesday by W. W. Groves of Dallas, superintendent of the American Railway Express.

The Chamber of Commerce began negotiations with the express company about three months ago for the free service, and a representative of the company was here recently to confer with officers of the body.

City's Maintainer Finally Arrives

Dr. K. R. Durham, mayor, announced Monday that the City's long awaited Maintainer arrived on the first of July, the very day that he left on his vacation.

This machine has been ordered by the City more than a year ago and its delivery at an early date had been promised two or three times.

When it did finally arrive, the cost price had run up considerably, and the Doctor reports that it lacked just 30 cents of costing \$9,000. He didn't state how that thirty cents would be spent, but it wouldn't buy even a watermelon.

Any way, the City officials are now delighted to have this much needed piece of machinery and are just waiting for a rain to try it out on Tahoka's streets.

County Pioneer Visits Tahoka

Mr. and Mrs. Terrell McCloud of Kingsville spent last Friday night here as guests of Mr. and Mrs. Claude Donaldson. As a boy, Mr. McCloud lived here for several years, his father J. B. McCloud being postmaster here for sometime. He left here 36 years ago and came back through Friday just to see what he might be able to recognize here. He recognized the postmaster for one thing, for he and Hap Smith were kids together. Others he met included Ruby Wells, Mrs. Hall Robinson, and we don't know how many others.

Mr. McCloud came here with his father in 1906. The elder man, A. M. McCloud served as postmaster from 1906 to 1911.

Mr. and Mrs. Happy Smith and girls left Tuesday for a summer vacation in the mountains in northern New Mexico.

Light Showers Are Some Aid

Light showers fell in various parts of Lynn county Wednesday afternoon and night, which had the effect of laying the dust and cooling the atmosphere—or, was it the cooling of the atmosphere which caused the showers?

At about 6:30 o'clock in the afternoon a dashing shower placed .07 of an inch of water in the local weather observer's can, and a slow drizzle during the night added .06 more.

Heavier showers were reported Wednesday afternoon in the Draw and Grassland communities. Some reports were that a quarter of an inch had fallen, and it may have been a little more than that in some small localities.

So far the current month has been very dry and many feed crops are beginning to feel the need of rain. Cotton as a rule is still doing well, but a good rain now would be helpful even to cotton.

Other showers may have fallen before this paper reaches the reader, for the signs at this time are propitious.

Large Section Of T-Bar Ranch Is Sold For \$77,000

A deal is being consummated this week whereby Dick Mitchell, a ranchman residing in Martin county, purchases about seven sections of land comprising 4,413 acres out of the T-Bar ranch, lying north of the Brownfield highway and in the old West Point school district, from Key H. Wilton, who purchased the land from Wayne Chandler of San Angelo in January 1946.

The consideration being paid for the land is \$77,227.50, or \$17.50 per acre. Some of this land is a little rough and some a little sandy but possibly most of it can be converted into good agricultural land, if and when the new owner desires to do so. On much of it is a heavy growth of mesquite.

Also included in the deal is the transfer to Mr. Mitchell by Mr. Wilton of the lease which Wilton holds on 26 sections of the ranch, also situated north of the Brownfield highway, and including the old ranch headquarters and much of the lake land on the ranch.

Skip Tyler is preparing the abstract and deed and other papers and he stated Wednesday that the deal would doubtless be closed before the end of this week.

Quite a number of sections and smaller tracts have been sold out of the T-Bar the past few years and placed under cultivation, and a number of farm houses have been erected. Much of this land has promising cotton and feed crops on it now. It is presumed, however, that Mr. Mitchell intends to operate the lands he is purchasing as a ranch.

NEW TEXAS ALMANAC NOW OFF THE PRESS

A record of wartime and post-war economic, political and social development in Texas is portrayed in the half million or more facts presented in the 1947-48 edition of the Texas Almanac which has just been published by The Dallas Morning News.

Industrial development in the period, 1940-46, inclusive, was greater than in all previous Texas history. As measured by number of employees there was a net gain of more than 100 per cent even after the closing of some of the larger war plants. As measured by value of products the gain was more than 200 per cent. State and national bank assets were up 200 per cent and other data indicate a general advance of 100-200 per cent in the state's industry, commerce and finance.

Momentous in this development has been a net increase in the state's population. There has been a large shifting from rural to urban residence and vocation, with an accompanying rapid decline in farm tenancy. Big increases in average farm acreage and high degree of farm mechanization are recorded. The large industrial expansion, data presented by the Texas Almanac show, solved an accumulated problem of fifteen years of declining cotton acreage by giving employment to displaced tenants and greatly increasing the average individual income of both rural and urban population.

Features of the new Texas Almanac include complete text of the State Constitution with historical notations on all present and past amendments. The book presents an interesting account of Texas' activities in World War II, revised population estimates for late 1946 for all counties, cities, towns and villages. There is a complete summary of the new agricultural census and extensive information on the cattle industry, which now brings greater cash income than Texas crops, including a history on the development of ranching.

There are extensive reviews of postwar oil, gas and other mineral production, manufacturing, communication and transportation, including rail, highway, aviation and shipping. An extensive chapter on State Government gives a catalogue of all officials, detail of state finances, including statistics of educational support, eleemosynary institutions and public welfare, including old-age and other pensions.

The 608-page book, containing approximately 750,000 words and statistical word-equivalents, covers several thousand separate subjects, including such diversity as rainfall data, a forestry survey of East Texas, flora and fauna, religious bodies, recreational resources and state national parks and forests, libraries, penitentiary system and complete political calendar for 1948. There are also the usual revised lists including all county officials, officials of the various civic and commercial organizations, superintendents of the independent school districts, detailed election returns and revised, up-to-date articles on the 254 counties, accompanied by revised individual county maps. The volume also has the usual folded highway and railroad maps revised to March 1, 1947.

Mr. and Mrs. Bob Fisher returned recently from Salinas, Calif., where they attended funeral services for a sister-in-law, Mrs. Juanita Fisher, wife of Fred Fisher, a brother of Bob.

Mrs. Fisher, 48, died at her home in Salinas on July 12 after a long illness there.

A native of Detroit, Texas, Mrs. Fisher had lived in Lubbock before moving to California six years ago. A number of relatives from Lubbock and other places in this area also attended the funeral services.

Besides the husband, survivors include three sons and four daughters, all of whom reside in California, and a number of other relatives in this state and in California.

BROTHERHOOD MEETS AT REDWINE AUGUST 5

After consulting members of the Redwine Baptist Brotherhood and a number of pastors and laymen in the association, the Association of Brotherhood president makes the announcement that the Association meeting will be held on Tuesday night, August 5, at Redwine.

A change in the date was made necessary by reason of the fact that the regular date for the meeting, October 29, conflicts with the date of the district encampment which meets on October 28-29-30.

It is believed that a good program can be assured, and the Redwine people are making preparation to entertain the visitors in a fine way. Members are reminded to bring four-bits along and a real feast, different from the ordinary, will be served.

Baptists Attend Workers Meeting

Quite a number of Lynn county Baptists attended the Workers Conference at Foster, some ten miles south of Brownfield on Tuesday of this week.

Representing the Tahoka Church were Rev. and Mrs. Levi Price, Mrs. Jarrel Cox, Mrs. D. V. Smith, and Mr. and Mrs. E. I. Hill.

The general theme of the discussions was the Doctrines of the Bible as believed and taught by Baptists. Program speakers were Rev. Pierce, pastor of the Brownfield Mission; Rev. A. A. Brian, pastor of the First Baptist Church of Brownfield; Pas. W. T. Sparkman of Gomez; and Rev. Dubois, the new pastor at Tokio. The discussions were able and vigorous.

Miss Wynona James of the Southwestern Seminary, who is in this association this week, was present and addressed the W.M.U. workers.

Among the announcements of importance was one made at the board meeting to the effect that at last a missionary for Mexican work in the association has been procured and he is now moving upon the field. He is a Spanish-speaking Anglo-Saxon and will devote a part of his time to the Mexican work in Tahoka.

Other Lynn county people attending the Conference included, Rev. E. K. Shepherd of Wilson, Rev. E. C. McDonald of New Home, Rev. W. P. "Ted" Brian of Wells, together with a number of women and a few men from these and other churches. Among the latter were W. J. Jordan of Wells, G. L. Autry of Redwine, and others.

BAPTIST ENCAMPMENT RUNS NEXT WEEK

A few Tahoka people are planning to attend the Baptist encampment at Palo Duro twenty miles east of Happy and four miles northwest of Wayside for two or more days next week.

The general encampment begins Monday night and closes Wednesday at noon. The Girls encampment begins Wednesday afternoon and continues until Friday. Few cabins have been built yet and people must take their own tents or prepare to sleep in the open.

The services will be held in a big tabernacle which has been built down in the canyon. A road has been constructed down into it but has not been completed. In spite of the incompleteness of the improvements, many people are expected to be in attendance.

Rev. and Mrs. Levi Price will not be there, however, for he has accepted an invitation to be the camp pastor of another encampment meeting at the same time in the Vernon district.

ALL RILED UP

The News editor doesn't want to become a bore on any particular issue; we do not like to ride any good horse to death. Therefore we had intended to "lay off" of the liquor evil this week. But some of our good newspaper friends, who do not like prohibition at all, seem to get a bit "riled" up every time we give liquor a jab in the short ribs and especially when some lawmaker proposes to tighten up a bit on our liquor laws.

Saturday our good friend Jack Stricklin of the Terry County Herald got down to reading D. L. Watson's "Pirootin' Around" column in the Seminole Sentinel and ran across a literary and political gem that he thought would be good for our constitution, or sumpin', and so he reached for his typewriter and promptly addressed the thing to us. Here is the way Watson began his diatribe.

"It is interesting to watch the hypocrisies of people. Up in Kansas, where it is a proven fact that bootlegging interests have even the state government by the tail and are paying off regularly, Senator Capper starts a campaign to ban liquor advertising from newspapers and magazines."

After taking a side-swipe at "An old lady who says she was born in Kansas" and who had apparently written an article favoring the Capper idea, quoted briefly by the

Scurry County Times, Watson proceeds to unload on Kansas, as follows:

"Any man who has ever traveled through Kansas, unless he is deaf, dumb, blind, and has no sense of smell, knows that a kid who wants liquor in any town of 300 or more in the state would be a blithering idiot if he didn't know where to buy it. You don't have to be a drinking man and be hunting for it, you can smell it pass you in cafes and hotel lobbies and on the streets. You can spot it watching the trays going to the rooms in hotels. Prohibition! They've got it in Kansas, just like they have it in Snyder, Seminole, or any other so-called dry town."

Well, David, if bootlegging in Kansas is that bad, how do you figure out that a law prohibiting liquor advertising would make it worse? Why not adopt the Capper bill and other measures that would tighten up a bit on the liquor business?

Furthermore, although we have not been up in Kansas smelling around to find out just where liquor can be bought, we have a sneaking idea that you have overdrawn the picture just a bit. It all reminds us of an actual conversation we heard a year or so ago. A fellow was raving about how easy it was to buy liquor in Tahoka. You couldn't drive into Tahoka and get out of your car, he averred, until some bootlegger would be trying to sell you a jug of liquor. And heaved on. Finally, one fellow who had been listening to his palaver remarked: "Well, I've been going to Tahoka pretty often now for more than twenty years and nobody ever did try to sell me a drink of liquor. If I ever saw a bootlegger there I didn't know it. Guess the bootleggers know their customers." The moral is that good citizens sometimes get so "riled" up in talking about the prevalence of bootlegging that other folks will unjustifiably suspect them of having had personal experience in the matter.

But Dave doesn't confine his animadversions to Kansas. He talks about his home county. Just listen to this: "This county (Gaines) voted dry and then sat and smiled virtuously while the big bootlegger up in the northwest part of the county amassed a fortune in the undisturbed sale of whiskey, and the youth of this county wore a path to his door in their parents' automobiles. There were other bootleggers and still are."

If conditions are as bad as you assert, you should interview the sheriff, Dave, and if that does no good you should elect another one. By the way, it's funny, Brother, that after enduring the legalized beer joints for several years the people of your county voted her dry and then when you "weas" called another election they voted her dry again. 'Splain that, Dave.

Sidelights From Washington

By George Mahon

Congress is scheduled to adjourn on July 26, one week from the day this is being written. Legislative decisions are now being made rapidly. Tax reduction legislation was killed for the session when the Senate voted to sustain the President's veto on the second tax bill. Very likely in 1948 Congress will pass, and the President will approve, a more equitable tax bill than the one which Congressman Knutson has tried twice to enact into law this year.

It is now a foregone certainty that the Senate will approve the terminal leave bill for enlisted men which passed in the House some time ago. This will mean that ex-servicemen can convert their terminal leave bonds to cash if they desire on or after September 2, 1947.

The Presidential Succession bill has now become the law. It provides that Speaker Joe Martin, a Republican, would become President in the event of the death or resignation of Mr. Truman. I was surprised to observe on the final roll call on the bill that I was one of only 11 Members of the House voting against the measure. I feel that when the people elect a President of one political Party for a four-year term that such Party should remain in power under our system of Government until the next Presidential Election. I agree that it would be all right for a Democratic Speaker to succeed a Democratic President, or for a Republican Speaker to succeed a Republican President, but not otherwise.

The so-called Stratton bill which would admit into the United States from Europe 400,000 displaced persons has been sidetracked for the session. I have all sympathy for the unfortunate peoples of foreign lands, but I have resisted action by Congress to admit these 400,000 immigrants. We have enough problems without admitting all these people, many of whom would be malcontents and trouble makers. We have fed them and protected them abroad, but we should not be required to share our homeland with them.

Final action on the Agriculture Appropriations bill will soon be taken. It now appears that substantially all AAA payments which were authorized for the 1947 crop year will be paid.

A few days ago we had our final meeting of the session of the Texas Congressional delegation. Words of admiration and praise were spoken for the late Congressman Mansfield of the Galveston District, who passed away a short

time ago. Judge Mansfield was one of the most amazing men I have ever known. Although he was 86 years of age at the time of his death, and had been confined to a wheel chair for about 20 years, he was remarkably effective as a legislator. Everybody liked him and respected him. Prior to the last Election he was Chairman of one of the important Committees of Congress and performed a great national service in that capacity. The Judge was never heard to complain of his handicap and his ever cheerful disposition won him the title of the most beloved man in the House.

Congressman Ewing Thomason of the El Paso District is retiring from Congress next week to become Federal Judge in the Western District of Texas. He is one of the top Texans in Washington and his influence will be greatly missed. Like the late Judge Mansfield, he is one of the favorites of the Texas delegation.

This leaves Texas with 19 Members of the House, but the two vacancies are to be filled in elections in the Districts involved on August 23rd.

PATTERSON-SCHLUTER RITES READ SUNDAY

Choosing the twentieth of July as her wedding day, Miss Wanda Faye Patterson became the bride of Roy Schluter, the ceremony being solemnized in the Redwine Baptist Church at 9:00 o'clock Sunday evening by Rev. T. L. Pond, the pastor.

The altar was decorated with numerous garden flowers, with two tall candelabra shedding soft light on the scene. Floor baskets of flowers stood at either side of the altar.

Mrs. Granville Billingsly of Amarillo, pianist, played "Always," "I Love You Truly," the Prelude and the traditional Wedding March. Miss Clonnie Mae Gaebble of Lubbock sang "End of a Perfect Day."

Attending the bride as matron of honor, was Mrs. Ross Harmonson Jr., who was attired in white and carried a colonial bouquet of pink and white garden flowers with frayed fern tied with loops of white net and ribbon.

Rev. Ross Harmonson Jr. of Plainview served as best man and the ushers were Mr. W. Z. Florence and Mr. G. C. Watson. Ronnie Walters carried a large red rose which contained the wedding ring. The candle lighters were Billie Louise Patterson and Walter Pond.

The bride was given in marriage by her father. She wore a street length dress of powder blue nylon marquisette, designed with a tight-fitted bodice and accentuated with a peplum. Her sheer spun veil of illusion was held in place by white lillies. She carried a white Bible topped with two gardenias showered with ribbons and bows.

For her daughter's wedding Mrs. Patterson wore a light blue dress with white accessories and a corsage of white carnations. The

MRS. ROY SCHLUTER

bridegroom's mother was attired in nylon blue with matching accessories and a corsage of white carnations.

A reception was held at the home of the bride's parents. Baby fern encircled the three-tiered wedding cake and punch was served from a small table. Floor baskets of garden flowers were at either side of the table.

The couple will honeymoon in various parts of Colorado and after August the 15th they will be at home near Ralls, Texas.

The bride is a graduate of Draw high school and attended Wayland Baptist College in Plainview.

The groom, son of Mr. and Mrs. Fred Schluter of Ralls, is a graduate of Robertson high school and attended Wayland College.

STATE FAIR TO HONOR RURAL LETTER CARRIERS

The rural letter carrier—the man who moves through ice and snow in winter, and the sweltering heat of summer to deliver mail to even the most isolated sections—will be honored this year by the State Fair of Texas.

W. H. Hitzelberger, executive vice president and general manager of the State Fair, announced that Oct. 5 had been set aside on the Fair's calendar as Rural Letter Carrier's Day.

"It is a privilege to honor this group," Mr. Hitzelberger said, "for their unfailing faithful service to the citizens of Texas."

Arrangements for the day are being made with Oran T. Gray of Florence, Tex., president of the Texas Rural Letter Carriers' Association, and Bun Raley of Valley Mills, Tex., editor of the organization's official organ, "The Texas Carrier." A special program is to be planned.

W. A. Reddell of Tahoka is first vice-president of the Texas Rural Letter Carriers Association.

BALES OF A FEATHER
Flock Together!

Spinning mills require cotton in lots of 100 bales of the same grade and staple.

Since bales from the same farm — even grown in the same field — often are not of the same grade and staple, it is necessary that they be sorted and grouped before marketing.

Providing the necessary concentration point where "bales of a feather" are brought together is one of the essential services your cotton warehouse contributes to the orderly and economical marketing of America's major agricultural crop.

IRENE GALLAGHER AND GARLAND SHARPE MARRY

Announcement of the wedding several weeks ago of Irene Gallagher to Mr. Garland Sharpe, now of San Antonio, was made this week, to the surprise of many friends and acquaintances.

Mrs. Sharpe has lived here most of her life and is well known to almost every man, woman, and child. She has been with Cobb's Department Store here for the past nine years, and served as manager of the business during the war while Randolph Rutherford was in the Army.

Mr. Sharpe served in the Navy during the war, and is known to many people here, having been with Calvary's Hatchery for some time. At present, he is poultry technician for Edwards Feed Mill at San Antonio. Mrs. Sharpe will join him there on August 1st.

The presence of flea hoppers in cotton can be detected by looking for small, blackened, dead squares, less than one-fourth inch in size.

TO the resident qualified property taxpaying voters of the City of Wilson, who own taxable property therein and who have duly rendered the same for taxation:

TAKE NOTICE that an election will be held in Wilson, Texas, on the 26th day of July, 1947, the same being the fourth Saturday in July, 1947, on the proposition and at the place more particularly set forth in the ORDINANCE CALLING SAID ELECTION, passed by the City Council on July 2nd, 1947, which ordinance is substantially as follows:

An ordinance by the City Council of the City of Wilson, Texas calling an election to be held within and for said City for the purpose of submitting to the resident qualified property taxpaying voters of said City, who own taxable property subject to taxation therein and who have duly rendered such property for taxation the question of whether or not the Bonds of said City shall be issued to the amount of \$50,000.00, to bear interest at a rate of not exceeding 5% per annum from date and maturing at such time or times as may be deemed most expedient by the City Council, serially, not to exceed forty years from their date and whether or not ad valorem taxes shall be levied sufficient in amount to pay such bonds as they mature and the interest thereon as it accrues; Determining the place and time of said election, enacting provisions incident to the purpose of this ordinance and declaring an emergency:

WHEREAS, it is deemed advisable that there should be immediately installed, erected and constructed a waterworks system for the City of Wilson and that the cost of such construction should be paid by the issuance of the ne-

gotiable coupon bonds of said City, which requires that an election be called to determine whether or not the resident qualified taxpaying voters of said City who own taxable property therein and who have duly rendered the same for taxation shall favor the issuance of said bonds and the levying of taxes in payment thereof:

Now, THEREFORE, be it ordained by the City Council of the City of Wilson, Texas:

Section 1: That an election be held in and throughout the boundaries of the City of Wilson, Texas, on the 26th day of July, 1947, the same being the fourth Saturday in July, 1947, which is within the time prescribed by law, at which election the following proposition shall be submitted to the resident qualified property taxpaying voters of said City who own taxable property therein and who have duly rendered the same for taxation, for their action thereon, such election to be held in accordance with the Constitution and Laws of the State of Texas:

Proposition
Shall the City Council of the City of Wilson be authorized and empowered to issue the bonds of said City in the amount of \$50,000.00, to bear interest at a rate of not exceeding five per centum per annum (5%) and maturing at such time or times and in such amounts as shall be deemed most expedient by the City Council serially, not later than forty years from their date for the purpose of constructing, installing, extending and improving the waterworks system of said City and shall there be levied, assessed and collected for the year of 1947 and annually thereafter, while said bonds or any of them are outstanding a tax sufficient in amount to pay the interest on said bonds as it accrues and the principal thereof as it matures?

Mrs. D. C. Newsom, Associate Judge.
Mrs. Willa Wakeland, Clerk.

Section 3: The ballots for said election shall have written or printed thereon the following:

Official Ballot Proposition
For the issuance of the Bonds and the levying of taxes in payment thereof.

Against the issuance of the Bonds and the levying of taxes in payment thereof.

Section 4: None but resident qualified property taxpaying voters of the City of Wilson, who own taxable property within said City and who have duly rendered such property for taxation shall be allowed to vote in said election.

Section 5: That a substantial copy of this ordinance shall constitute notice of said election and a substantial copy thereof shall be posted by the City Secretary at three public places within the City of Wilson and inasmuch as the City has no established City Hall an additional copy shall be posted at the Wilson State Bank, which is the temporary quarters for the City Offices. That inasmuch as no newspaper of any kind or nature is published in the City of Wilson, but the Lynn County News is a newspaper published in Tahoka, Texas, the County Seat of Lynn County, and is a newspaper of general circulation within said County and within the City of Wilson, such notice shall also be published in the Lynn County News on the same day in each of two successive weeks, the date of the first publication to be no less than fourteen days prior to the date fixed for holding said election, all as provided for in Article 704 of the Revised Civil Statutes of Texas.

Section 6: Immediately after said election has been held, the officers holding the same shall make returns of the result thereof to the City Council and return the ballot boxes of said election to the Secretary for safekeeping.

The manner of holding said election shall be governed as near as may be possible by the General Election Laws of the State of Texas, except as modified by the provisions of Articles 701 to 706, inclusive of the Revised Civil Statutes of the State of Texas and this City Council will furnish all necessary

ballots and other election supplies required in holding said election.

Section 7: The fact that the City of Wilson has recently been incorporated and is in critical need of immediate water supply for the safety and health of the Citizens and protection of the general welfare of the City and its inhabitants creates an emergency and an imperative public necessity requiring the suspension of the rule that ordinances be read at more than one meeting and such rule is hereby suspended and this ordinance shall take effect from and after its passage and it is so ordained.

Passed, Approved and Adopted, this 2nd day of July, 1947.
Enrolled and entered of Record, this July 2nd, 1947.

Chicken Feed

"Folding Money" NOW

Poultry raising in our area has come a long way since Mother kept a few chickens for egg money and Sunday dinners.

Today there's a lot of good "folding money" in scientific poultry raising. It's not "chicken feed" any more, for more folks than ever before are making big money in the poultry business in the Panhandle-Plains-Pecos Valley Area.

We have so much confidence in the poultry industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and farms and better living—electrically—to everyone.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine, which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

suppose the City Slickers and the Farm Hands feel sorry for those boys up there in St. Louis, Cincinnati and New York and just don't want to show them up.

Sam Flyod is the best catcher we've seen in years and he can also burn up the bases so fast that he looks like a "supersonic disc" streaking across the sky. . . . Then Ray Weathers can pitch that pill like it was a Mexican Jumping Bean. . . . Not to mention Mr. McClinton and several others that were on the Farm Hands team.

There has been no announcement yet as to whether there will be a play-off between the two teams or not, but it is rumored that such a game may be played in the near future.

Donkey Ball Game

A donkey ball game may be played here sometime next week or week after next. No definite date had been set on the game when the News went to press and no hint was given as to who the two teams would be that would participate in the game.

The game is to be sponsored by the local American Legion and an admission will be charged.

Former Citizen . . .

(Continued from Page 1)
 in-law here, Mrs. Eula Eason, and Oka Tabor of Whitewright.

Dora Mae Tabor, daughter of B. S. Tabor and Lucinda Davis Tabor, was born on March 10, 1899, in Kentucky.

She was married to T. P. Morse on June 30, 1915, at Sherman, Texas. To this union the eight sons and the little daughter above mentioned were born, and all of them except the oldest son were at her bedside here when she passed away. That she had been a faithful and dutiful wife and mother was attested by the devotion of her family.

As a member of the New Light Holiness Church she was a zealous Christian, and though she was scarcely known here, kind hands and hearts ministered lovingly to her during her last hours and to the bereaved ones after she had passed away.

HALLS ATTEND FAMILY REUNION AT LUEDERS

Mr. and Mrs. Carl Hall and daughter, Miss Billie Hall, attended a family reunion held in the Baptist encampment grounds at Lueders from Thursday of last week until Sunday, at which Mrs. Hall's parents, Mr. and Mrs. Perry Fite, 74 and 70 years of age respectively, were the honorees, their golden wedding anniversary being celebrated on Sunday, with "open house" from two to five o'clock in the afternoon.

Attending the reunion were their six daughters and a son, together with their families, including eight grandchildren and seven great-grandchildren.

The daughters and the son—all of the living children of the aged couple—are: Mrs. Carl Hall of Tahoka; Mrs. Thomas Teague of Hamlin; Mrs. S. E. Johnson, Los Angeles; Mrs. R. D. Duke, Los Angeles; Mr. P. R. Fite, Albany; Mrs. Dorothy L. Howsley, Los Angeles; and Mrs. J. L. Hart Jr., Lueders.

One grandson, 19, who is stationed in Alaska with the U. S. Army air force, necessarily was absent.

Mrs. Fite has two living sisters and three brothers, who were present on Sunday. Mr. Fite and two sisters are the last three of a family of twelve children, and these too were present on Sunday.

During the "open house" hours on Sunday afternoon friends came from far and near—Abilene, Stamford, Albany, Throckmorton, Cisco, Wichita Falls, Spur, Aspermont, Dallas, Post, Lubbock, Tahoka, and other places.

Mr. and Mrs. Fite were married on February 8, 1897, in Albany, at the home of Mrs. Fite's parents, Mr. and Mrs. B. F. Parish. It was a double wedding, a cousin being married at the same time. Mr. and Mrs. Fite had a "buggy honeymoon," the trip of about forty miles being made in a buggy. Mr. Fite has dealt in cattle all of his life and was an early-day Shackelford county stock farmer. He has lived in Shackelford county ever since his marriage with the exception of twelve years in Spur. He now operates a market in Lueders.

MRS. SHAWN'S BROTHER HURT IN ACCIDENT

Mr. and Mrs. E. W. Shawn arrived back home Sunday from Sinton in South Texas, to which place they had been called the first of the week by very serious injuries which Mrs. Shawn's brother, C. P. Pugh had sustained in an automobile head-on collision on the highway near Sinton on Friday.

The car, driven by her brother, had been struck almost head-on by another car at an early hour in the morning. The driver of the other car had been killed instantly and Mr. Pugh had sustained injuries that were well-nigh fatal. Both legs and the pelvic bone had been broken, injuries to the head inflicted, and other injuries sustained whose seriousness had not been fully determined.

His condition remained so serious up to the time of Mr. and Mrs. Shawn's departure that physicians were still doubtful as to the outcome.

Mrs. J. B. Edwards of New Home was released from a Lubbock hospital and brought back to her home Tuesday after having undergone a major operation several days before.

County Clerk and Mrs. Walter Mathis are down in the lower Rio Grande Valley this week visiting relatives.
