

# The Lynn County News

"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume 44.

Tahoka, Lynn County, Texas, Friday, May 21, 1948

Number 33.

## Softball Play Begins Monday Of Next Week

The 1948 Lynn County Softball League season will open next Monday night at 8:45 with a nine-inning game between White Auto Store and New Home, and games will be played during the summer on Monday, Tuesday, Thursday and Friday nights.

Eight teams will participate this summer. White Auto, New Home, V.F.W. Davis & Humphries, Wilson, Senior Scouts, New Lynn and Rutherford's.

Other games scheduled for next week are: Tuesday, Davis & Humphries vs. Rutherford's; Thursday, Wilson vs. Senior Scouts; and Friday, V. F. W. vs. New Lynn.

Organization of the league was sponsored by Tahoka Chamber of Commerce, which organization is likewise giving it financial support.

Officers of the league are: W. C. Wharton, president; Wade Holland, vice president; and Clint Walker, secretary.

Regulations for league play were formulated and agreed on at a recent meeting of officers and club representatives.

The board has the power to render decisions on any protest or league matter, arrange schedule, appoint the grounds man, and assist the Chamber of Commerce in keeping the ground.

If one of the participating teams in any regularly scheduled game cannot put a team on the field, the two managers will agree as to whether the game shall be postponed or forfeited. If the two managers cannot agree, the governing board shall decide.

Roster of each team is limited to 15, including manager, and must be turned in to the board prior to the first game. Players must reside in Lynn county.

No player can change teams without written release from the team he is leaving.

Participants in league play-off must have participated in at least three league games prior to play-off.

A strenuous play-off at the end of the league play shall determine the winner. The first four teams will meet in a series as follows: First and fourth teams will play a series, and second and third teams a series. Winners will meet for the championship. Length of the series will be determined by the managers.

Umpires have power to remove any player from the game at any time.

Amendments to rules can be made by a majority vote of managers of teams entered.

Protests of games shall be made in writing to the board within ten days.

## Youths Given Prison Terms

Three cases in which Ervin Ross of Tahoka, 17, and Glenn Boone of Lamesa, 18, had been jointly indicted, were called for trial in the district court here Monday. The three indictments charged the two youths jointly with the burglary of the Edd Hamilton place of business, the Farmers' Coop. Station in Tahoka, and the Corder Service Station in O'Donnell.

In the case charging the burglary of the Edd Hamilton store, Boone entered his plea of guilty but Ross, through his attorney, Rollin McCord, pleaded insanity and therefore not guilty. The case was tried before a jury, which rendered a verdict of guilty and assessed the punishment at three years confinement in the state penitentiary.

Both Ross and Boone then entered pleas of guilty to each of the other joint indictments, one involving the Farmers' Coop. Station and the other the Corder Service Station. Boone's punishment was assessed at two years in each case and Ross' at three years in each case, on the grounds that the evidence showed

(Cont'd. on last page)

Athens, May 20.—Bricklayers of the \$300,000 Gold Star Memorial Dormitory, shown in accompanying picture, will be completed by June 1, according to Dr. G. Cooke, president of McMurray College.

The structure, built in memory of Methodist youth from Northwest Texas and New Mexico who died in World War II, will house 175 young men. Another building — President Hall — is of similar size and almost exactly like it and house 150 young women at McMurray. Between the two dormitories is located the \$135,000 Iris Graham Memorial Dining Hall, completed last year.

## Bovell Candidate For County Judge

This week The News is authorized to announce the candidacy of T. J. (Joe) Bovell for the office of County Judge of Lynn County.

Mr. Bovell is a long-time citizen of Lynn county, and has been a success both as a business man and a farmer. He has long been active in civic affairs, and has served Tahoka as alderman and as mayor. His formal announcement follows:

To The Voters Of Lynn County: In announcing as a candidate for the office of County Judge of Lynn county, Texas, I do so with the realization of the duties and responsibilities that go with the office. I shall, if elected, give my very best efforts to discharge such duties and responsibilities.

I moved to Lynn county in 1919 and worked for the county in 1920 to 1922, grading roads. This was the first road grading work done in the county. I have been in business and farming in Lynn county since that time. During the time that I have lived in this county I served on the city council of Tahoka for twelve years, part of which time was Mayor.

I have no criticism to make of any one in this campaign but seek this office on my own merits, with a desire to render service in the county where I have spent a large part of my life. If elected, I shall seek to carry on the business of this county with the same care that I would conduct my own personal business.

Please consider this a personal solicitation to each of you to consider my candidacy and if you feel that I am the proper person to handle this office for you, I shall appreciate your votes. I shall try to see all of you personally between now and the primary election and if I should fail to see any of you, it will not be intentional in my part.

I shall appreciate your vote and friendship, and if I can't have both, then let's be friends.

Respectfully submitted, T. J. (Joe) Bovell.

## Highway 87 Body Meets In Denver

The News has received a communication from A. B. Davis of Lubbock, Manager in the United States of International 87 Highway Association, announcing that the 15th annual convention of that association will be held in Denver, Colorado, on Friday and Saturday, June 11-12.

Each county through which this highway passes is requested to have a delegation at the convention, which meets in the Brown Palace Hotel in that City. Delegations should make hotel reservations at the earliest possible date.

Any going from Lynn county would do well to contact A. B. Davis, manager of Lubbock Chamber of Commerce, at once.

Keeping the poultry brooder dry often keeps down an outbreak of coccidiosis.

## City Council Adopts Systematic Plan To Make Tahoka A Clean Town

Council in special session Tuesday night voted to institute a program of systematic and regular trash hauling. All methods previously tried have failed to keep our town clean. Since filth is a major cause of epidemics the city officials have decided to do this as a health measure.

Beginning June 1st, the trash man will call regularly every two weeks and pick up the trash that is in containers by the alley. Property owners still will have to dispose of their old trees, wire fences, concrete slabs, etc. at their own expense. The council urges all residents to help keep the alleys clean and open. There is a city ordinance against dumping in the alleys — Lets keep Tahoka clean.

Every resident will be charged 75c per month on their water bill for this sanitation program. Trash will be picked up twice per month and the alleys will be sprayed with D. D. T. several times thru the summer. The charge for this service has been figured on a cost basis and we feel that by preventing disease we will save the people money and possibly a polio epidemic that might cost several lives.

This regular trash hauling program will follow Tahoka's clean up Campaign Thursday, May 27th. After Tahoka is once clean it will be easier to keep it clean. Lets cooperate and have the cleanest little town in Texas. We can if we will.

If you own vacant lots have the mesquite grubbed off so papers won't collect on them to look ugly.

Dr. K. R. Durham, Mayor.

## Mrs. Burleson Sells Ford Shop

Tahoka Motor Company, owned and operated by the late W. L. (Bill) Burleson, has been bought by W. B. Strange and son, W. B. Jr., of Itasca, where they likewise have a garage and Ford automobile sales agency.

The new firm will be known as Bill Strange Motors. Further details will be released by the new sales agency. The elder Mr. Strange is rather prominent in Southwestern automobile circles.

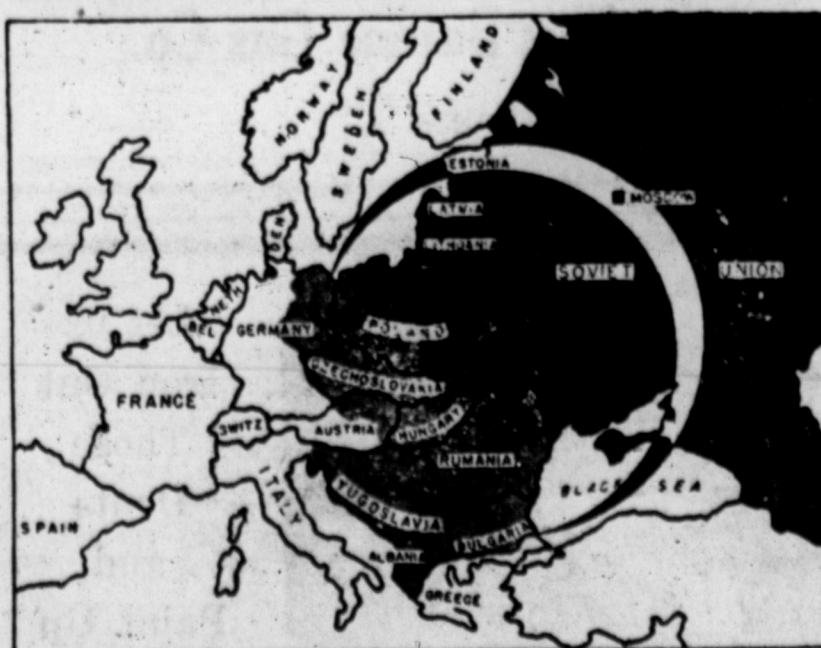

Irvin Dunagan, with the Tahoka Auto Company for several years, will remain with the new firm as parts manager.

Since Mr. Burleson became critically ill, the business has been operated by his son, W. L. Burleson Jr.

## HOPING CLUB WILL MEET

A meeting of Tahoka Roping Club has been called for Friday, May 28, at 7:30 p. m., at the Reid Parker Service Station. All ropers are invited to attend.

Fuses are safety valves for the electric system. It is dangerous to replace a blown fuse with a coin or a wrong size fuse.

EXPANSION OF COMMUNISM IN EUROPE—In timetable fashion, Czechoslovakia became the seventh state in eastern Europe to be engulfed by the red tide of Communism. The map shows the progress of encirclement. The schedule so far: March, 1945, Yugoslavia and Rumania; December, 1945, Albania; May, 1947, Hungary; September, 1947, Bulgaria; October, 1947, Poland; February, 1948, Czechoslovakia.

The speed and ease with which the Communists gained control in Prague may encourage them to take similar action elsewhere. Communism, like Fascism or Nazism and the other totalitarian ideas, seems unable to stand still. Where will it strike next?

## Two Tahokans Will Graduate At Texas U.

Austin, Texas, May 18.—Nearly 600 students in the University of Texas College of Arts and Sciences are candidates for degrees at commencement exercises May 31.

Among the 587 candidates and the degrees they are seeking are two from Tahoka: Noble Leon Rumbold, who is to receive a Bachelor of Arts degree; and Dorothy Jean Applewhite, who is to receive a Bachelor of Journalism degree.

## Honor Students Named At THS

Fifteen high ranking students of the 1948 graduating class were announced this week by authorities of the school.

Nan Beth Pennington has the highest grade average for the year, 97.36 points, and therefore is the class valedictorian, while Savannah Tunnell had an average of 97.14, and therefore is the salutatorian.

Closely behind, and in order of their grade averages, are: Frances Hane, 96.12; Wayne Sherrod, 95.06; Mary Ann Jones, 94.62; O'Gene Gill, 94.50; Mary Belle Walters, 94.50; Claudia Rainold, 94; Dorothy Foster, 94; Peggy Carter, 93.90; Neida Carpenter, 93.87; James Eubanks, 93.25; Peggy Henderson, 93.25; Bobbie Louise Cowan, 92.87; Marjorie Lishman, 91.27.

## Thursday, May 27 Is Clean-Up Day

Thursday, May 27, is Clean-Up Day in Tahoka, and the co-operation of every citizen is enlisted to make this a cleaner and more healthful town.

Trucks furnished by the City will pick up trash free of charge, if it is loaded in containers that can be handled by one man. Have your trash in gunny sacks, boxes, or barrels, not too heavy and in or adjacent to the alley.

Boy Scouts and possibly other organizations will help with the clean-up.

## PIONEER RANCHER OF NORTH PLAINS DIES

Mr. and Mrs. Terry Thompson and daughter attended funeral services in Amarillo Thursday of last week for Terry's uncle, Terry Thompson, 69, who died the preceding Tuesday.

Mr. Thompson was a pioneer and well-to-do Panhandle cattleman and owner of many gas wells. He came to the Panhandle as a child, first lived on the present site of Amarillo, and at the time of his death owned a large ranch north of the Canadian River and south of Amarillo.

## Fines Assessed In Liquor Cases

Last Sunday afternoon, Sheriff Sam Floyd took into custody Bill Bounds of Slaton, Buster McCoy and M. L. Samples of Southland, who had in a car with them 39 cases and 11 cans of beer. Monday, Bounds was fined \$150 and cost in county court, and McCoy and Samples, \$15 each.

Saturday night, Deputies Dee Sanders and Tom Hale confiscated seven gallons of "home brew" they found over on "the hill," and on Monday the alleged owner, Irvin Hatcher Jr., was fined \$150 and costs for possession.

## Road Building Progress Told

The News editor has been asked repeatedly in recent weeks various questions as to the progress being made on the road construction program in this county and as to the prospects for the future. Especially has the News been importuned for information respecting the prospects concerning the building of the proposed highway from Tahoka to Slaton.

The News has sought the information desired, and while very little definite information can be given at this time, yet we are glad to publish what we have.

First, let us state that from what we can learn, the building of that portion of the proposed Tahoka-Slaton highway extending from Slaton to Wilson will be next project to be undertaken in Lynn county, but just when the State highway commission will be ready to let the contract for this construction we are totally unable to say.

This is part of a highway building project extending from Plainview by the way of Idalou, Slaton, and Wilson to Tahoka. Its purpose is to relieve traffic over highway No. 87 from Tahoka to Plainview. Also the distance over the new highway will be considerably shorter, or than the distance over No. 87. This new highway has been completed already from Plainview to Idalou. It is to be constructed from Idalou to the canyon north of Slaton. Paving has been placed already

(Continued on back page.)

## Duane Carter Is High At Austin

Last week The News neglected to report at least one interesting news item of importance.

Duane Carter, a Tahoka High School junior, on May 8, won second place in the State Championship Class A high school high jump (5 feet and 10 inches) in the interscholastic league contest held at the University of Texas, Austin.

Miss Nan Pennington also made a creditable competitor in the girls' extemporaneous speech contest.

The two contestants were accompanied to Austin by Coach and Mrs. Jim Foust and little son, Miss Peters, and Joe Don Minor.

## Fire Destroys Farm Residence

A farm residence on the place of B. O. Bingham and occupied by Roy Botkin, located about five miles east of town, was completely consumed by fire last Friday afternoon.

Passers-by and neighbors aided in moving much of the Botkins' furniture and clothing from the burning house, but the flames, whipped by a stiff breeze had gained such headway, when discovered, that it was impossible to save any part of the house.

The local fire department went to the burning house but could offer little help.

J. M. Marshall of Colorado City was here Monday looking after business matters and greeting many friends. He lived in the county for a number of years, first at New Moore and then in Tahoka.

Hogs are better than all the other farm animals when it comes to efficiency in converting feed into meat.

## 1948 Seniors Will Receive Diplomas Here Tonight

The 1947-48 term of the Tahoka Public Schools will come to an end tonight with the presentation of diplomas of graduation to nearly fifty member of the Senior class.

The commencement program will be held in the High School auditorium at 8:00, and the address will be delivered by Dr. T. C. Root of Texas Technological College at Lubbock. Superintendent Vernon Brewer will introduce the speaker.

The program will open with the professional, Rev. J. W. Rosenberg will pronounce the invocation. A trio of Senior girls, Joretta Shawna, Billie Page Anderson, and Bobbie Cowan will sing "Now Is The Hour." Frances Haney will play "American Folk Song." Diplomas will be presented by R. H. Gibson, president of the Board of Trustees, followed by the recessional, with Mrs. Marcus Edwards at the piano.

Officers of the graduating class are O'Gene Gill, president; Nan Beth Pennington, vice president; Bobbie Cowan, secretary; Peggy Henderson, treasurer; Billie Page Anderson, yell leader; Barbara Wells, reporter; Mary Ann Jones and Savannah Tunnell, representatives on the student council; and Mrs. Charles Stewart and Mrs. Burt Stephens are the class sponsors.

Last Sunday night, "baccalaureate" services were held in the auditorium, when Rev. George A. Dale of Lubbock, formerly pastor of the Baptist Church here, delivered the class sermon before a packed house.

As The News goes to press on Thursday night, the Seventh grade exercises are being held in the school auditorium.

## Announces Grade School Graduates

Fifty-eight Tahoka grade school Seventh Grade students were to receive certificates of advancement last night, Thursday, at exercises held in the High School auditorium at 8:00 o'clock.

Valedictorian of the class was Josephine Rainold, who had the highest grade in the class, and the salutatorian was Jane Taylor. Mrs. Miriam Hutchinson played the professional and recessional, the class sang "God of Our Fathers" and "Let the Rest of the World Go By." The invocation was by Rev. J. W. Rosenberg and the benediction by Minister Luther Norman.

Principal Urban Brown presented the awards and Ivan McWhorter the diplomas.

Edith Aldridge, Thomas Aubry, Fern Barrington, Wayne Brasher, Joe Brooks, Jerome Callendar, Richard Carter, Geneva Conner, Elizabeth Cobb, John Curry, Mirio Davis, Robby Gene Dorman, T. D. Dunlap, Earnest Dean Edwards, Virgie May Edwards, Frances Flint, Shirley Floyd, John Foster, J. N. Freeman, Doris Gentry.

Donald Graves, David Hammonds, Richard Havens, Carolyn Henderson, Wilma Dean Hodge, Paxton Hutchinson, Charles Hyles, Hazel Johnson, Lola Johnson, Roy Jolly, Charles Glenn Jones, Harold Wayne Kent, Dwain Lee, Larue Mayberry, Audrey McKee, Richard Nash, Sam, my Norwood, Laddie Owen, Wardel Owens.

Jimmie Sue Patterson, Dora Perez, Norman Phillips, Josephine Rainold, Arlene Redman, Wayne Don Reed, Ronald Roberts, Charley Schulz, Joan Scott, Steve Slover, Patsy Smith, Eva Sparks, Jane Taylor, Wayne Ray Tomlinson, Charles Williams, Howard Woods, and Mark Wyatt.

Sponsors of the class are Mrs. Patricia Jacobs and Ivan McWhorter.

## LENA WILLIAMS TO GIVE EXPRESSION RECITAL

Announcement is made that the Senior Expression Recital will be given by Miss Lena Williams, daughter of Mr. and Mrs. Carl Williams, Sunday afternoon, May 23, at 3:00 o'clock in the Tahoka High School auditorium. She is a pupil of Mrs. R. L. Richardson.

**PUBLIC SCHOOL LAND TO  
SELL TO HIGHEST BIDDER**

Austin, Texas, May 19.—Bascom Giles, Commissioner of the General Land Office of Texas, has announced that approximately 20 acres of Public School Land in Lynn County will be offered for sale to the highest bidder July 6.

Over 400 tracts located in 60 counties have been listed for sale to the public through sealed com-

petitive bids to be opened in the General Land Office in Austin at 10 a. m., July 6th.

As soon as available, pamphlets describing the location, size, classification and minimum bid acceptable to the School Land Board will be sent on request to all interested persons. Instructions on methods of submitting bids and application-to-purchase forms will be included, Giles said.

**TEXAS COWBOY REUNION  
CUTTING HORSE CONTEST**

A special made saddle, first prize in the cutting horse contest at the Texas Cowboy Reunion in Stamford, July 2, 3, and 5, will be presented by the Cities Service Oil Company. A letter received by W. G. Swenson, President, from R. L. Kidd, Manager of the Land and Geological Division of Cities Service Oil Company made known the presentation.

Specifications of the saddle were to conform with the high-quality, without-fray-trimmed of the other saddles offered as prizes and the cost was to be between \$175 and \$300. In behalf of the Cities Service Company Mr. Kidd stated, "We are happy to make this award as a contribution toward the success of this fine display of horsemanship and horseflesh, and as a token of esteem for the officials and patrons of the Texas Cowboy Reunion."

One of the outstanding rodeo events, the cutting horse contest, is intricate and exciting, proving the abilities of both cowboy and horse in regular ranch work.

**POST RODEO BOOSTERS  
IN TAHOKA LAST FRIDAY**

Approximately 50 boosters for the annual 1948 Post Rodeo and Stampede which opens Thursday night, May 20 and lasts through Sunday afternoon, with only an afternoon performance on Sunday, visited here on Friday of last week and extended a public invitation to attend.

Evening performances are scheduled for May 20, 21, and 22. They will be preceded by a colorful parade, in which the new Post School Band will make its first public appearance, and will be followed by a dance in the new pavilion on the rodeo grounds.

Included among the cowboy-cold boosters was a bevy of entertainers, who presented a short program here.

Joe S. Moss, Post attorney, in extending the invitation, explained that the Post Stampede and Rodeo which advertises itself as "The Fastest Show in the West," this year will have a clown and several other features that have been conspicuously absent in postwar rodeos heretofore staged in Post.

Cowboys and cowgirls of this area were invited to enter the various contests, for which \$3,000 will be given in prizes, and the general public was invited to "begin the 1948 rodeo season with a visit to Post during May 20-23."

Plenty of young, tender green feeds often save as much as 15 percent of the mash usually fed to growing pullets. Some of these good feeds are rape, turnip greens, lettuce, ladino clover, lespedeza, soybeans, Bermuda grass, and lawn clippings.

**POULTRY RAISERS**

**FARMERS EXPECTED TO  
MAINTAIN CONSERVATION  
PRACTICES**

Farmers of Lynn County should understand that, when they carry out conservation practices under the Agricultural Conservation Program they are expected to maintain, or keep up, these practices. That is part of the responsibility accepted when assistance is received to help out the practice.

In explaining this provision of the ACP, Neal S. Parker, Vice-chairman of the county committee finds that any conservation practice carried out under a previous year's program has not been maintained in accordance with good farming practices, or if its effectiveness has been destroyed by neglect or failure to keep up the practice, deduction may be made from the current year's assistance earned under the program.

The purpose of the Agricultural Conservation Program is to conserve soil and water and not to make payments to farmers, the county committeeman emphatically stated. And while all farmers have a responsibility to the Nation to conserve their farmland, farmers cooperating in the ACP have the additional responsibility of safeguarding the investment the Nation has made in conservation through the program assistance.

Most farmers do maintain these practices, the chairman said, but for those few farmers who do not the provision for deductions was set up.

## Rotary Speaker Tells Conditions Inside Germany

Mrs. Carriwood Stephens of La-mesa, who recently spent fourteen months in Germany in company with her husband, in the Army of occupation, was principal speaker at the Rotary Club luncheon on Thursday of last week.

Mrs. Stephens brought a very interesting and informative discussion of present conditions of the German people, who, she said, are starving, homeless, and the victims of a "cigarette" economy. She says the cigarette has become the medium of exchange, largely due to the American policy. She thinks that if we are to have permanent peace, Americans in foreign lands must change their methods of dealing with the "foreigners."

She was accompanied to Tahoka by Owen Taylor and Mr. and Mrs. Carl Rountree.

The program was presented by Harley Henderson, program chairman for the month.

Charles Fulkerson and James Hardy Eubanks were introduced as the Junior Rotarians of the month by Vice President Vernon Brewer, who occupied the president's chair in the absence of Alton Cain.

Houston Spikes, formerly of Tahoka but now of Amarillo, was a business visitor in Tahoka Monday. He and Mrs. Spikes are grandparents, a daughter having been born May 9 to Mr. and Mrs. Robert Spikes at Lubbock. Robert is a junior in Texas Tech.

Mrs. A. E. Ware, who has been seriously sick in a Lubbock hospital the past week, was reported Wednesday to be somewhat improved.

## Famous Musical Autographs Added to Congress Library

A remarkable collection of musical manuscripts has been acquired by the library of congress through the generosity of Mrs. Gertrude Clarke Whit-tall, whose previous gifts to the library include a quartet of Stradivarius instruments and an endowment for concerts of chamber music.

The new gift consists of original manuscripts of the following composers: Johann Sebastian Bach, Joseph Haydn, Wolfgang Amadeus Mozart, Ludwig von Beethoven, Johannes Brahms and Max Reger.

Every manuscript represents a work of major importance, and the group greatly enriches the autograph holdings of the library's music division.

Unexcelled among these new additions is the autograph of Beethoven's piano sonata in E major, Op. 109, one of this composer's famous "last five" in which he attained his greatest maturity in writing for this instrument. Finished about 1820, it is also the first complete Beethoven sonata in original manuscript form to come to the library.

There are two Mozart autographs, one a violin concerto and the other a piano concerto. Both are full orchestral scores.

## Aztecs Paid Off Soldiers In Succulent Cocoa Beans

Long before Columbus discovered the new world, cocoa was of prime importance in the economy of Middle America. Cocoa beans were the standard medium of exchange among the Aztecs, and the Aztec emperor who levied taxes for the imperial treasury in the succulent beans, thus insuring himself an adequate supply of his favorite drink. Up to 1880, cocoa beans were still common currency in isolated hamlets of Middle America.

Aztec treasures were crammed with outsize chocolate bars. Slaves in those times went for a hundred cocoa beans the head, and soldiers were paid off in the same "coin." At once it became obvious that the American slang word, "bean," meaning dollar is of very ancient origin indeed. Cocoa bean money had a profound ethical difference from other moneys: it could not be hoarded, for it spoiled after a few months. It could only be spent or eaten or guzzled in the form of chocolate.

### Facts for Oyster Lovers

Oysters are canned commercially in the United States on the Atlantic, Gulf and Pacific coasts. Pacific oysters are much larger, are somewhat more tender, and easier to break or tear than Eastern oysters. The methods used for canning Eastern oysters and Pacific oysters are essentially the same. Oysters in the shell are steamed until the shell opens. The partially-cooked oysters are removed from the shells, washed to remove extraneous matter, such as sand, pieces of shell, and packed into containers. Water is added to fill the container, leaving only a small head space. Such water is known as "packing medium." Salt may be added for seasoning. The containers are sealed and processed by heat to prevent spoiling.

### Rebuilding Kingston-on-Hull

During the war, when German air-men were spreading destruction over England, there were vague references in news bulletins to the bombing of a "North East town." Few people were then aware that this "North East town" was the city of Kingston-upon-Hull, the third port of the country, which, it is claimed, suffered more material damage than any other center outside of London. Commonly known as Hull, from the river on which it stands, the city is an important link in the vast system of communications upon which the prosperity of an extensive industrial region depends. The task of rebuilding Hull is one of considerable magnitude, and many of its present citizens realize they will not live long enough to see its realization.

### Lowly Onion a Hardy Plant

There are many kinds and types of onions. There is, for instance, the Egyptian or tree onion, which is hardy in winter time. They are the ones that bear little bulbs on their seed stalks instead of seeds. Egyptian or tree onions are very delicious for two or three weeks in the spring until the seed stalk starts forming when they get tough. Another onion used a great deal for scallions is the multiplier onion. The multiplier onion divides the bulb and forms anywhere from three to 20 other onions. Another type of scallion onions are those which are grown from sets. Sets are also a method of growing mature onions for winter use.

### New Chrysanthemum Introduced

A new outdoor chrysanthemum, Bountiful, has been introduced by the University of Minnesota agricultural experiment station this year. Bountiful is the 24th garden chrysanthemum developed and introduced by L. E. Longley, assistant professor of horticulture at the University of Minnesota, who is in charge of the chrysanthemum breeding project. The Bountiful is an upright, spreading type, medium in height, bearing large trusses of nearly double flowers of long stems. Blossoms are carmine to oxblood in color.

## WELLS W. M. U. NEWS

Our date has been changed again, so let's meet Monday afternoon at 2:30 for our Royal Service program. We will try to arrange a special program, including special music.

Four members met Monday the 17th. Mrs. Brian brought a very interesting discussion on Stewardship.

Let us put God first and really be laborers together for Him. —The President.

Your hens are probably lousy again if they have not been treated for lice last fall. The county agent has information on poultry lice treatment.

The tops and bottoms of all door and window frames should have at least one coat of paint. This keeps out moisture and prevents warping.

Texas farmers have built enough terraces during the past eleven years to reach eight times around the world.

Freezer locker plants are located in all 48 states, with the greatest concentration in the corn belt and the Pacific Northwest.

The home garden can be protected from insects with the use of a small hand dust gun and a small quantity of good dust material.

## WARD BATTERY & ELECTRIC Located West of Gulf Service Station

We have bought the shop formerly operated by Beecher Sherrod, and are now prepared to handle all automobile repair work—Battery, Generator, Starter, and magneto.

#### LYNDON JOHNSON OFFERS A PROGRAM

Congressman Lyndon Johnson's entry into the race for the United States Senate from Texas brings into this contest an element of doubt that has hardly existed heretofore.

While George E. B. Peddy may be an able man and an eloquent speaker, he apparently had scarcely made a dent on Coke Stevenson's chances of being the next U. S. Senator.

O'Daniel has not yet announced but he probably will do so. He is a shrewd politician and knows how to stir the passions and prejudices of people, but he has antagonized so many classes of people, voted with the Republicans and cursed the Democrats so much, that it would

seem a miracle if he should be re-elected.

Thus far it has been conceded that Coke Stevenson has been far in the lead in this field. Coke makes no speeches and he has been uniformly successful in his campaigns heretofore. But it is doubtful if he can win a victory this time without going on the stump.

Lyndon Johnson is an able and eloquent campaigner. He has the confidence of the people. He was an ardent supporter of Franklin D. Roosevelt and his policies to the day of his death. Generally Johnson has been in accord with President Truman, particularly with reference to his foreign policies. He himself has been on the war front and he is thoroughly familiar with our war problems. He would bring to the office of the United States Senate a knowledge of world conditions and affairs that Coke Stevenson can not possibly have. He sees the danger of this country being catapulted at no distant date into another World War, and already has been sounding the warning that such a catastrophe is becoming more likely and more threatening every day. He states facts and figures upon which he bases his opinion.

He suggests the remedy: All-out Preparedness. Stalin, he asserts, is following Hitler's pattern. And it seems to be so. Stalin is already annexing the neighboring nations, now by force—the employment of guerrilla warfare—and now by the mere threat of force. "Each day," Johnson warns, "the iron curtain hides a larger portion of the world. If we continue to do nothing, what will happen? One day we'll wake up in a world in which the Western Hemisphere is a lonely island, and all the rest of mankind is behind the iron curtain."

What remedy does he propose?

It's drastic and it may be unpopular, but to us it seems to be not only wise but necessary: First, speedily enact the European Recovery Program; second, build up the world's best air corps; third, Even in an atomic air war, he contends, we must have bases and ground operations, and an Army.

"How can we do these things?" he asks. His answer is: First, selective service; second universal military training. He discusses both proposals in a convincing way. "I have heard the evidence and weighed the risks," he declares. "I have and will support the Marshall plan; the world's greatest air force; selective service; and universal military training."

We have had space here to quote only a small part of the speech made by Lyndon Johnson over network here in Texas on the night of March 26. His entire address is clear-cut and forceful. Most military leaders and doubtless most of those who fought in the last world war agree heartily with what he says and with his conclusions.

If Lyndon Johnson makes that speech over Texas, he will have rendered a distinct service to the nation whether he is elected to the United States Senate, or not, for in it he tells us what we need to know and causes us to stop and think.

#### CORPS OF CHAPLAINS NOW 173 YEARS OLD

On Thursday, July 29, 1948, the Corps of Chaplains will be 173 years old—within a few days of being as old as the United States Army itself, according to a communication received from Major F. L. Parks, Chief of the Public Information Division.

Today, there are still 1,097 chaplains of all faiths on duty with the Army around the world, after a World War II peak strength of 1,171 in July, 1945.

Chaplains in the last great war were awarded 2,653 decorations, and 1,543 chaplains received them. Eighteen of them received the Distinguished Service Cross, and 167 rated the Silver Star. A total of 77 of them were killed in action, five died in Japanese prison camps and 53 were wounded in action.

That is an inspiring record for church and layman alike, and there isn't a soldier or veteran today who hasn't known the touch of the Corps of Chaplains. In the strangest circumstances, and stranger places that men feel the call to turn to God in either the ordeal of battle or daily life, the chaplain has always been at hand for guidance and help.

In late May this year, the four chaplains who sacrificed their lives when the SS Dorchester sank on February 3, 1943, after being torpedoed off Greenland, will be commemorated in one of the issues of the 3-cent stamps of the Post Office Department, a gesture to the men of cloth in uniform.

I am taking this opportunity, Major Parks writes, to call to your attention this important milestone in the existence of the Corps of Chaplains, which has always had its representatives at the side of and with the soldier.

A good broiler mash is just as good as starter mash for starting young chicks, and often less expensive. Also plan now for plenty of green feed for growing pullets this spring.

**DRAW H. D. CLUB HAS ALL DAY MEETING**

The Draw H. D. Club met on Friday, May 7, at the Draw lunch room and checked pressure cookers. Miss Hard gave us a very interesting talk on lawns and shrubs.

In the afternoon, Mr. Griffin, County agent, gave us some information on our exhibits for the county fair.

We had nine members, one visitor, and the agent present. Each one carried a covered dish and spent the day, which was enjoyed by all.—Reporter.

Secretary of Agriculture Anderson estimates that soil erosion costs 4 billion dollars annually.

Mr. and Mrs. C. R. Simmons of Sweetwater, prominent in the business and religious life of that city, were brief visitors in Tahoka Tuesday, stopping at the News office to chat a little while with the editor, a friend of other days. They were on their way to Tulsa to visit their daughter and her husband, Rev. C. G. Sewell, who is pastor of the First Baptist Church there.

Mr. and Mrs. Jim Banister went to Cisco last Sunday where Mrs. Banister expected to take treatment in a sanitarium for a few weeks. They were accompanied by Mr. and Mrs. Guy Smith. Mr. Banister and the Smiths returned home Monday.

BUSY DAY ON TRIESTE FRONT—Left, Maj. Gen. Bryant E. Moore, in command of U. S. troops in Free Territory of Trieste. Right, members of American Air Forces examine maps of terrain over which they will fly in making aerial photographs.

**BLACK CATS LOSE TO SLATON MEXICAN TIGERS**

Last Sunday afternoon the Tahoka Black Cats crossed bats with the Slaton Mexican Tigers and got blasted by a score of 13 to 6 in a nine-inning game—but after all it was a good game. Johnny Martin, one of the Black Cats, declared in reporting the results. It seems that all the fans enjoyed the game, he said.

On next Sunday, May 23, the Cats will go to Brownfield and meet another strong team, and the following Sunday will move back to their home grounds. Manager Early Lee Lawson is very sure that his team is going to win the bigger portion of the games from here on out.

**DORCAS S. S. CLASS ENTERTAINS WITH CHICKEN FRY**

The members of the Dorcas Sunday School Class of the First Baptist Church entertained their husbands with a "chicken fry" at the home of Mr. and Mrs. Clay Bennett on Thursday of last week, May 13.

About sixty men, women, and children were present. Mrs. Clay Bennett is the faithful and very efficient teacher of the class.

Mrs. E. S. Davis left by bus Tuesday for Abilene to visit her daughter, Mrs. H. C. (Veda) Davis. She also expected to visit two sisters of her late husband, Mrs. M. T. Horton of Munday and Mrs. E. B. Denton of Knox city.

Mr. and Mrs. J. H. McNeely and Mr. and Mrs. W. R. McNeely drove down to Jacksboro Sunday to visit relatives. They returned home Monday.

## Methodist Board Elects Officers

The Annual Church Conference, final official meeting of the Tarkenton Methodist Church for this Conference year, was held on Monday night, May 17, with the District Superintendent of the Lubbock District, Rev. J. O. Haymes, presiding.

Reports to the Conference revealed that the local Church has made progress in many ways this year. A Hammond Electric Organ and Maas Cathedral Chimes, scheduled to be installed this month, have been ordered and funds raised with which to purchase them. New Hymnals have been placed in the church, Mission Specials have been adopted, a large contribution was sent to the Orphan's Home at Waco and many other things mark the accomplishments of the year.

One of the items of business of this Conference was the election of Officers of the Church for the new year. The following were elected: Stewards: Roger Bell, H. W. Carter, Claude Donaldson, Hick Gibson, Calloway Huffaker, V. F. Jones, Walter Mathis, Marvin Munn, Roy Poer, J. G. Price, George Reid, John Slover, Maurice Small, Ross Smith, Otis Spears, Neal Stanley, Earl Tunnell, J. M. Uzzle, and A. C. Weaver.

John Slover was elected District Steward and Calloway Huffaker Reserve District Steward. Walter Mathis was elected Church Treasurer, Maurice Small, Church Financial Secretary, and A. C. Weaver Communion Steward. H. W. Pennington and Wynne Collier were elected trustees of Church property, terms to expire in 1951.

Bro. Haymes, who was a delegate to the General Conference of the Methodist Church which recently met in Boston, Massachusetts, gave several interesting side-remarks on the Conference.

The Methodist Church year of conference ends May 30. The annual Conference meeting will be held in Lubbock, beginning May 26 and closing May 30. At this Conference, reports of the year's work in this area are made and the ministers are re-assigned to the Churches of the Conference.

### CARD OF THANKS

It is with sincere appreciation that we wish to thank all our friends and neighbors for the kindness shown us in the death of our dear wife and mother; Mrs. C. C. Britton. - C. C. Britton and children.

The ideal laundry center is a space on the main floor of the house that is convenient to the clothesline, and with plenty of hot and cold running water.

## KINGSVILLE PASTOR REJECTS CALL HERE

Two weeks ago it was stated in these columns that Rev. H. E. East, pastor of the First Baptist Church of Kingsville, had been called to the pastorate of the First Baptist Church of Tarkenton.

That was correct, but on last Saturday night, in a telephone conversation with W. A. Reddell, chairman of the board of deacons and also chairman of the pulpit committee, the Rev. East stated that very definitely he had decided not to accept the call.

He had arrived at the conclusion that he could not properly leave the Kingsville Church at this time. He is probably right in his decision and will doubtless continue to do a great work for some time to come in the South Texas city.

The local pulpit committee is already very busy seeking an able and deeply consecrated man to recommend to the Church—and one whom the committee thoroughly believe would not refuse a call.

In the meantime, Rev. E. C. McDonald is serving as supply pastor in a very acceptable manner.

## RESIDENTS OF COAST COUNTRY VISIT HERE

Mr. and Mrs. Alvin Landry of Texas City, Miss Mabel Landry and Mr. and Mrs. Ivan Guillot of Plaquemine, Louisiana, were here last week visiting Mr. and Mrs. G. M. Stewart and Mr. and Mrs. R. M. Stewart, relatives of the visitors.

Mrs. G. M. Stewart says that the visitors had many interesting things to tell them about Louisiana and the Texas Coast country, particularly about Texas City and the terrible catastrophe that visited the city last year. One of the ladies was a nurse and helped to minister to the needs of the wounded and the dying following the series of explosions that rocked the city and shocked the nation.

Dried peas can sometimes be used as a meat substitute, since they are high in protein and contain moderate amounts of the B vitamins and minerals. When used with potatoes, a yellow or green vegetable and milk, they make a complete and nourishing meal.

Soaking clothes saves hot water, work, time and wear on garments. Fifteen to twenty soaking in lukewarm water is all that is necessary. Soaping collars, neckbands, and extra soiled spots before soaking is a still further saving.

When water is carried by hand, people use only about four to six gallons per person per day; on the other hand, with a completely modernized water system about 35 gallons per day is used.

The farm which is in the profit column most of the time is the farm which goes a long way toward producing its own food and feed requirements.

Careless handling of stock on the farm, on the way to market and at the markets costs American farmers and ranchmen around \$14 million annually.

Loose paint around checked and blistered places should be removed with a wire brush or scraper before repainting.

Let us figure your Material bills. Shamburger-Gee Lumber Company, Phone 313. Adv.

## NEW HOME COMPLETING ADDITION TO CHURCH

Never before in the history of Lynn county has there been so much building activity on the part of the churches of the county, particularly of the Baptist Church.

Among others, the New Home Baptist Church is nearing the completion of a substantial addition to its house of worship. One wing had been constructed a few years ago as an addition to the church building. Another wing of the same proportions, 40 feet by about 30, is now being constructed, and an addition at the front of the auditorium, 12 by 40 feet in size, is also being constructed. So, the completed auditorium apparently will be about 70 feet long and 40 feet wide. From the tip of one wing to the tip of the other wing extending north and south from the rear portion of the auditorium is a distance of 120 feet.

The new addition will not only provide additional Sunday School rooms, but also a kitchen, a dining room, rest rooms, and other small rooms, all modernly equipped for the purposes intended.

When completed, this church will probably be the most spacious and elaborate rural church in the county with the possible exception of the Wells Church, a description of which was contained in this paper last week.

The Redwine Church has also built a substantial addition to its house of worship, consisting mainly of four Sunday School rooms.

Construction is beginning on the superstructure of the Wilson Baptist Church, the contract price for which is about \$42,000, mention of which was also made recently in our columns.

If crop and financial conditions will permit, there will probably be some additional building on the part of the First Baptist Church of Tahoka before the year ends.

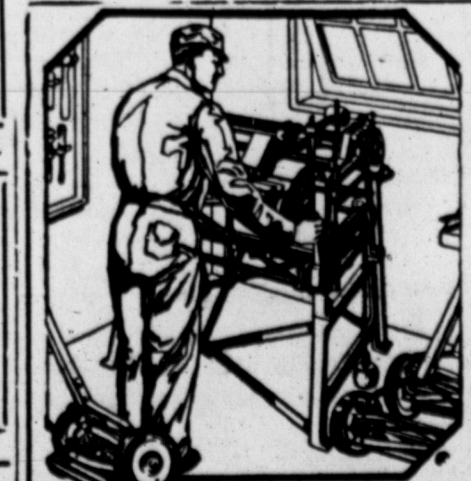

## WILSON MEN MAKE SUCCESSFUL FISHING EXPEDITION INTO OLD MEXICO

The News man sometimes wish-he were a postmaster, a banker, a big rich "armer, or sumpin'. Upon our weekly visit to Wilson last Friday, we found that Postmaster Pat Campbell, Banker H. G. Cook, Irrigation Farmer Pat Swann and two other gentlemen who have been basking in the sunlight of prosperity, W. F. McLaughlin and B. M. Miles, had just returned from a fishing expedition down into Old Mexico.

They crossed the Rio Grande at Roma, down in Starr county—now get your map and look it up—proceeded inland some fifteen miles and cast their hooks in Sugar Lake. The fish fairly jumped at the bait and they claim to have landed 196 pounds. Pat Campbell is our informant and usually he is a truthful man. Take his story for what it is worth.

Then Grady Boyd, another prosperous farmer and mail carrier, had his inning. He and Sam Kirbie had just gotten back from a fishing hole in the Brazos near Weatherford. In less than one day they had weighed up 100 pounds of cat fish that were foolish enough to swallow the two men's bait. Some time we are going fishing and see if we can get a nibble.

There's Jacuzzie Pressure Pumps with pipe to suit your needs at Shamburger - Gee Lumber Company. Phone 313. Adv.

## LAWNMOWERS SHARPENED

ON THE NEW IDEAL SHARPENER

This machine automatically grinds the blades of your mower to just the proper bevel, thus assuring a perfect cutting job. Your mower will run like new and stay sharp longer than when sharpened by any other method. Give me a trial.

## PRESIDENT OF TEXAS TECHNOLOGICAL COLLEGE RESIGNS OFFICE

Lubbock, May 18.—Freshmen enrolling in Texas Technological College in 1944 were welcomed by President W. M. Whyburn who joined the college that year as president. The same students are to receive their diplomas of graduation from President Whyburn this year, the last Texas Tech commencement program over which he will officiate.

At his first official appearance before the college students in a convocation September 19, 1944, President Whyburn said in greeting the freshmen, "In one sense I am a newcomer also, since I am just returning after an absence of 18 years. Together with the fact that I now have a new role on the campus does indeed make me feel like a candidate for membership in the class of '48."

Dr. Whyburn will leave the college shortly after the class of '48 does to join the staff of another educational institution. He resigned in April effective August 31.

More and better vegetables can be raised in the home garden if the gardener applies three or four pounds of 5-10-10 or 4-8-12 commercial fertilizer to 100 feet of row, a little lower than the seed.

**TOPS FOR YOUR Home Canning**

The new BALL DOME (2-piece metal) LID is easiest to use and surest to seal. Fits any Mason jar. To test seal press dome—if down, jar is sealed!

BALL ZINC CAPS and Rubber Rings have been favorites for generations. They seal all Mason jars. Easy to use!

Use Ball Jars for home coming success. Get the famous Ball Blue Book of canning recipes at your grocery, or send name, address and 10c to BALL BROTHERS COMPANY, MUNCE, INDIANA.

## Plans Going Forward For Proposed Hospital To Be Erected At O'Donnell

Citizens of O'Donnell are planning the construction of a hospital in that little city at a cost of approximately \$75,000.00, according to Carl Sanders, one of the promoters who visited the News office Wednesday.

He says that the people of O'Donnell and vicinity are entering into the project very enthusiastically and that many of them have already indicated their willingness to put their money into the enterprise.

Shack Blocker, prosperous business man there, is chairman of the board of directors. Mr. Sanders, Supt. S. F. Johnson, J. W. Garden, W. T. Snodgrass, J. R. Burkett, and Joe McLaurin are other members of the board.

The plan is to sell memberships to 750 families at \$100.00 per membership. The members will pay annual dues for each member of his family who is to receive hospital benefits in case of sickness or accident that requires hospitalization. The amount of dues is yet to be fixed, but it is not contemplated that it will run above \$10.00 per

person per year. After the dues are fixed, it would still depend on the number of persons in a family as to what the total annual family dues would amount to.

These dues plus room rent for patients in the hospital would be expected to pay doctors' and nurses' salaries or charge for their professional services. Room rent would probably not run more than \$5.00 per day per patient, Mr. Sanders thinks.

The campaign to sell memberships and thus raise the \$75,000 necessary for the construction and equipping of the building is just now starting, Mr. Sanders says. The name of the institution is to be the Tri-County Hospital, and subscriptions to the project are to be sought in Lynn, Dawson, and Borden counties.

Further details respecting the construction and operation of the hospital may be obtained from the board of directors, of which Mr. Blocker is chairman.

Even lighting, slow heating appliances and poorly running motors may be the signal for the need of a new building job on the farm.

Produce grown in peach orchards should be disked by the middle of April or the first of May.

Mr. and Mrs. Ira Doak of Lubbock visited old friends in Tahoka Monday.

Mrs. A. E. Ware is critically ill in the Lubbock General Hospital.

## New Grass Strain Spreads Through Northern States

Men who work for the improvement of grass have reason for satisfaction in the record of alta fescue, a new strain now well proved. It is especially useful as pasture. Alta fescue was picked out from a field of tall fescue 25 years ago. Selected by H. A. Schoth of the U. S. department of agriculture, working at the Oregon agricultural experimental station, and developed by him and the station agronomists into a popular forage in the northwest, it is working its way into favor in many parts of the northern states and may go farther. Last year the production of seed, practically all of it grown in Oregon, Washington, and Idaho, totaled close to 2,500,000 pounds, enough for seeding about 160,000 acres. Of this, Oregon produced about 1,750,000 pounds. In addition to 10,000 acres devoted to alta fescue seed production, 49,000 acres was grown for forage in the three states last year.

Stands of this new fescue have surprising persistence. The first seed-increase planting was in 1926 and that plot of one-tenth of an acre is still thriving. The plant sends its roots down 5 feet or more where conditions are most favorable, a characteristic that enables it to keep green in dry weather and to keep growing continuously over a long season. It is adapted to heavy soils and does well even where drainage is poor. Preliminary tests in Missouri indicate it may prove a good forage for growing on overflow land and on gray silt loam with tight hardpan layers.

## London Bridge Makes Trip To Serve Central Africa

When enemy bombs and rockets rained havoc on Britain during the blitz, Londoners watched squads of workmen hastily erect two large temporary bridges over the Thames. Had any of the main bridges been blown to bits, London's heavy traffic was to be diverted across these stop-gap roadways. At war's end, no traffic had ever crossed them.

These bridges are to be re-erected as a link on the main highway running between Salisbury and Lusaka, the capitals of Southern and Northern Rhodesia, two land-locked territories in the heart of Africa. This vital route is now broken at the Kafue, some 35 miles south of Lusaka, where the river has to be crossed by ferry.

This bridge will be of importance in plans now being considered to industrialize the Rhodesias and to develop the world's largest known deposits of coal and one of the biggest sources of chrome in existence. Northern and Southern Rhodesia together are larger than the combined areas of Texas and Colorado. Their combined population of nearly 3,500,000 is, however, less than half that of the two U. S. states.

## Poisonous Snake Strikes Swiftly

When the poisonous snake strikes, his mouth opens wide, so the upper and lower jaws are in a vertical line. The fangs point outward like two slightly curved lances. Several drops of venom are forced into the wound. All this is accomplished within a fraction of a second. Two or three drops of poison at one time will be released by a large snake. The size of the injection varies with the object struck and the state of the reptile's excitement. More poison is used in biting a man than a rabbit. When the poison enters the body, part of it is rapidly absorbed into the blood stream by capillary blood-vessels. The balance of the venom remains at the fang punctures until absorbed. Great swelling and discoloration quickly appear in the region of the bite. If the snake's fangs puncture a vein or an artery the victim is almost certain to die, because the poison quickly reaches the brain, heart and other vital organs.

## Whirling Dervishes Still Whirl

The whirling dervishes of Turkey were a hardy lot. They banged their heads against oak trees, thrived on a diet of broken glass, walked through beds of hot coals and came up smiling—and spinning like a top. It was the Turkish rejuvenator, Mustafa Kemal Pasha, who drove the dervishes into their final tailspin. Sometime around 1920 he abolished the crumbling caliphate, ordered women to drop their veils, and decreed the use of the Roman alphabet and western dress. The dervishes were ordered to go, but were determined to hang on, and many of them lost their necks in the process. But the dervish has not been entirely eradicated. Their habitat is the entire Moslem world, from North Africa through Asia Minor and Asia as far as India and China. Turkey and Persia have been their principal ballrooms.

## Cattle Loss from Heel Flies

Damage done to cattle by heel flies and grubs is more extensive than many people realize, researchers say. Annoyed by the flies, cattle run off much flesh in fly season. Later, when the grubs are burrowing inside the animals, the resulting irritation, soreness and general run down condition is the cause of unthriftiness of cattle. Punctured by the grubs when they move to the backs of the animals, hides are often reduced in value by 50 per cent. Because of the damage grubs cause, much emphasis has been placed on their control in recent years.

## Some of the 75,000 ABC Pins Get Ready to Travel

Did you know that rules of the American Bowling Congress call for daily replacement of the bowling pins on its 40 tournament alleys? This means some 75,000 new pins are used in the course of the event. The practice assures that every team will compete under exactly the same circumstances. In the photograph above a girl is repacking a few of the discarded pins for distribution by Chevrolet truck to privately owned bowling establishments.

## Congratulations:

Mr. and Mrs. Jesse Williams are the parents of a boy, born May 17, at the Lamesa General Hospital, weighing 8 pounds. Will bear the name Ronnie Lavelle.

A good method of shading small plants after transplanting is to set wood shingles in the ground two or three inches from the plant on the south side.

The city people should be just as concerned about soil erosion problems as the food-growing farmers. Whether you eat to live or live to eat, everybody eats.

Pick up and destroy all peaches that drop from the trees, especially in April and early May to help control the plum curculio.

For every dollar invested in building rural co-op power systems, consumers spend \$4.50 on wiring and equipment.

Mr. and Mrs. R. L. Harris and Mr. and Mrs. W. George, all of Corsicana, visited Mrs. S. J. Harris and Mrs. C. A. Thomas over the weekend.

It's time to paint up. We have the paint. Shamburger-Gee Lumber Company. Adv.

"We always have  
Ice Cream at  
our house"

## EVERYONE LIKES ELECTRIC REFRIGERATION

ICE CREAM...any time you want it. Yes, it's no wonder the youngsters like electric refrigeration. They know that with an electric refrigerator there's always the chance of having a heaping dishful of home made ice cream or other cool summer desserts.

Mother likes it too, because it keeps all kinds of foods garden fresh and healthful. Makes it easier to have chilled salads, and add wide variety to summer menus.

Father likes it because there is always plenty of ice on hand for whatever kind of cooling beverages he wants. AND he knows that cheap electricity in the area we serve makes electric refrigeration more economical than ever before.

We have nothing to sell but good electric service. You will find the new electric refrigerators available in a choice of makes and models at nearby appliance dealers.

## Youths

(Continued From Page 1)

Ross to have been the "ring-leader."

Ross also entered a plea of guilty to an indictment which charged him with the burglary of the Phillips Service Station. The court likewise assessed his punishment at three years in that case. One of the sentences against each defendant, however, was concurrently, which means that Ross will satisfy the demands of the law in all cases by confinement in the penitentiary for a period of three years and Boone by confinement for a period of two years.

Claude Johnson of Lamesa, only sixteen years of age, is also charged as a juvenile offender in connection with these three cases.

Another young man, Dewan Combs of Post, also entered a plea of guilty in the district court Monday to a charge of Forgery. He was charged by indictment with having forged a check for \$50.00 and passing it to the Petty Store after having signed the name of H. M. Lowe to the check. His punishment was assessed at two years in the penitentiary.

Judge Louis B. Reed of course was on the bench and District Attorney Calloway Huffaker represented the State in all these cases.

## WEST POINT H. D. CLUB

The West Point H. D. club met on Tuesday of last week with Mrs. H. R. Tankersley.

Rail call was answered with My Favorite Flower or Shrub.

County Agent B. M. Griffin was present and discussed with us plans for the Fair this fall.

Miss Hard gave a talk on "The Care of Lawns and How to Prepare Shrub Beds."

During the recreation hour, Mrs. M. Hale Jr. was honored with a cake and blue shower.

The hostess served refreshments to thirteen members and nine visitors. Mrs. Clayton Lawrence and Mrs. Leo Kennedy were new members. Attending from Tahoka were: Mesdames W. A. Yates, John Fulford, John Jackson, Jarrell Cox, and Paul Cox.

Mr. and Mrs. J. B. Nance, who have spent the past several months visiting a son in Barrington, Illinois, and other relatives and friends in Indiana, Ohio, and Kentucky, arrived back in Tahoka several days ago and will probably remain here through the summer at least.

Rev. and Mrs. C. F. Carmack, who have spent the past several months in San Fernando, California, returned to Tahoka this week, arriving Wednesday.

## Aviation's Forgotten Man Attends to His Trapping

Forgotten man of aviation is Johnny Moore, of Colington, N. C. He is the lone surviving witness of the first powered airplane flight, the last living man who actually lent a hand to the Wright brothers on December 17, 1903, when they put their flimsy craft into the wind and flew the astonishing space of 120 feet.

Johnny Moore is 82 years old now, weathered and carefree. He was 17 years old when he chanced by Kill Devil Hill on that memorable date and helped put the Wright plane in position for its run down the wooden rails upon which it was launched and so became truly airborne.

Having thus lent a couple of brawny arms to this historic event, watching the three other flights made the same day, and then seeing the plane crash ignominiously among the hummocks, Johnny casually went back to his self and muskrat traps and to oblivion.

For many years on Kill Devil there have assembled both visiting dignitaries and local citizens, with commemorative wreaths and often as not a squadron of modern military planes to fly over. Johnny Moore, who lives within a stone's throw of the great monument to the first flight, never attended these events. He doesn't like crowds.

## Puerto Rico Home-Building Speeded Up in Big Project

A 50-million-dollar postwar housing boom is helping to ease the extreme housing shortage that has plagued Puerto Rico in recent years.

First of the immediate projects is the huge Puerto Nuevo development in the suburbs of San Juan, where some 5,000 homes are being rushed to completion. Built by private construction interests through the personal stimulation of Gov. Jesus T. Pinero, it is the largest such development ever inspired and insured by the FHA.

Eventually a second 5,000 homes will be built in the San Juan area, while the ultimate goal of the insular government is to see an additional 10,000 low cost homes built throughout Puerto Rico. Each community will have its own schools, shops, churches and theaters, while local bus systems will provide direct transportation services to minimize travel problems.

Priced around \$4,000, these new mass-produced homes can be bought by ex-service men on monthly installments. Most are two-bedroom homes, with bath, kitchen and living room.

## Frozen Fruits and Vegetables

Frozen fruits and vegetables have several definite advantages over the fresh product. They are easier to buy, require little or no preparation for cooking, keep indefinitely in the freezer compartment of the refrigerator, are quite free of waste, and have uniform quality throughout the year and from store to store. Many products are available in frozen form when the fresh is out of season. Many people consider the taste of most frozen fruits and vegetables superior to that of the so-called fresh product that has been hauled and mangled through the usual marketing channels. The vitamin content is high. Most people, however, apparently prefer the flavor and texture of first-quality fresh fruits and vegetables. Many frozen products are superior to canned fruits and vegetables in almost every way except ease in preparation and relative cost or price. There is reason to believe that the cost advantage that processors of canned foods have today will gradually diminish as the volume of frozen foods picks up and chain stores feature the products more.

## Short History of Statehood

Hawaii has been a territory of the United States for almost half a century. Annexed in 1898, Hawaii has persistently petitioned for statehood and has waited longer for the honor than any other state, except New Mexico. Thirteen states founded the nation. Five were carved from existing states—Vermont, Kentucky, Maine, West Virginia and Tennessee. The first four were admitted to statehood directly. Tennessee was a territory for a brief period before being made a state. Two were foreign areas when acquired and were made states without being territories first—Texas and California. Twenty-eight others were first territories, then states. Two of the 28 comprised one territory before admission—the two Dakotas.

## Shoe Industry Started in 1846

Most people have worn shoes of one kind or another for centuries. The oldest type of footwear known is the sandal, created some 4,000 years ago, by the Egyptians. The shoe-making industry in the United States started in 1629 when the Mayflower, on its third voyage to America, dropped anchor in the harbor of Salem, Mass. Thomas Beard and Isaac Rickman, shoemakers, landed with bundles of hides and the rough implements used in the making of early footwear. Shoemaker's tools in those days consisted of an awl, hammer, needles, thread, pegs, beeswax, knives and a variety of rubbing sticks. In 1846 Elias Howe Jr., revolutionized the shoe making industry by putting the eye of the needle in the point and gave the world a machine which was to do away with hours of home drudgery.

## Roads

(Continued from Page 1)

from the canyon to Slaton and from Slaton to the Lynn county line. First construction in this county, in all probability, will be from the Lubbock-Lynn county line down to Wilson. Construction of the Wilcox-Tahoka end of it should follow soon thereafter, but all these matters of construction are matters for the state highway commission to determine, and nobody in Lynn county knows just when construction in this county will begin nor when it may be completed.

The State Highway Commission is now nearing the completion of one stretch of highway in this county that was designated and projected three or four years ago, the highway from Wells to Draw. The laying of the caliche base has been completed, the News is informed, and the topping will be placed soon.

Construction on the county's farm-to-market road program is proceeding satisfactorily. The road leading south from Post highway, a distance of seven miles into the Midway community is ready for the hot top. The caliche is being laid on the four mile stretch running west from the south end of that seven-mile stretch to the Tahoka-O'Donnell highway, at the Seven Mile Lake. Caliche has also been laid from a point one mile east of Wells north ten miles to the Tahoka-Brownfield highway, as pretty a stretch of caliche base as one ever laid eyes on. The caliche is also being placed on the two and one-half mile stretch of road from the West Point gin north in the direction of Lakeview.

All these roads will be ready for the topping within a very few weeks, and it is believed that the whole system will be completed by or before the end of June.

## CARD OF THANKS

We want to say thanks to our many friends and neighbors for the kindness and help given us after the loss of our home. We deeply appreciate every deed that was done. —Mr. and Mrs. Roy Botkin and family

MERCHANTS' SALES PADS, now 7 cents each at the News

## JOE BAILEY H. D. CLUB

The Joe Bailey H. D. Club met with Mrs. Jewell Sealey on Friday May 14.

County Agent B. M. Griffin gave a talk on Preparation of Different Products for the Lynn County Fair. After the business meeting Miss Hard gave a demonstration on the planting and care of lawns and shrub beds.

During the social hour, the hostess served cake and coffee to nine regular members, one new member Miss Hard, and two visitors, Miss Waller and Mrs. Busby of the Draw club.

The next meeting will be on the second Friday in June. Mrs. L. B. Jones will give a demonstration on making different type rugs. All members will please be present. — Reporter.

Ross Smith and family returned Tuesday from Aspermont, where they visited relatives and attended final rites for a brother who was killed in action during the war and whose body was recently returned to this country for re-interment.

Rat control is a five-fold job: (1) Do not shelter rats; (2) Do not feed rats; (3) Kill rats regularly; (4) Organize community rat control project; (5) Follow a year-around program.

## SGT. HILL HOME

Sgt. George Ray Hill, son of Mr. and Mrs. W. T. Hill of near Brownfield arrived home Monday on a 45 day furlough after returning from the Philippine Island. Sgt. Hill spent 28 months in Manila with the United States Air Corp as a ground crewman.

After three months in the Army Sgt. Hill reentered the Air Corp. Sgt. Hill will report back to Ft. Worth at the end of his furlough, thereupon will receive his discharge.

Mrs. W. D. Novels, who developed pneumonia after under going surgery for broken bones in one of her feet and who was in serious condition for a number of days, was reported Wednesday to be much improved.
