

# The Lynn County News

"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire.

Volume 45.

Tahoka, Lynn County, Texas, Friday, November 26, 1948

Number 7

## New Deep Test For Oil Will Be Made In County

An old dry hole oil test in the west part of Lynn county will be re-opened and deepened to about 9,750 feet for a test of the Pennsylvania strata, according to announcement made a few days ago by the McAlester Fuel company of Magnolia, Arkansas. The rig was being set up this week, and deepening is scheduled to start today.

The well is on T-Bar ranch property and about 14 miles west of Tahoka, 440 feet from the south and west lines of section 58, GRR survey, and was known as the C. O. Edwards No. 1.

The abandoned hole had a depth of 7,244 feet in lime and shale, York & Harper, Inc., of Midland, started development in 1947, and drilled to a depth of 5,500 feet. Then Honolulu Oil Corporation took over the project and drilled to a depth of 7,244 feet without finding any showings of oil and gas, it is reported. York & Harper are retaining interests in the adjacent area.

The test is possibly the result of a strong oil showing picked up a few weeks ago by the Seaboard No. 1 Henson well just over the line in Terry county, west of Salt or Umbigo Lake in the Pennsylvania at slightly over 9,000 feet. This well was drilled to the Ellenburger formation but no more oil found. It is reported that the Seaboard Oil Company is preparing to go back to the original strike and attempt to make a well.

Much leasing in Lynn county followed the excitement over the Henson well showing, and much of Lynn county not already leased was leased by oil companies and speculators at \$5.00 per acre. Observers predict that there will be much deep prospecting for oil in this area as a result.

## Area Methodists Meet In Tahoka

Representatives from seven churches in the Lubbock District met in the local Methodist Church last Tuesday evening in the interest of the Adult work of the church. Arthur Gamble of Lubbock, the District Director, presided. Rev. J. O. Hoynes, the District Superintendent, spoke. Rev. Uel D. Crosby, the Executive Secretary of the Conference Board of Christian Education, also spoke and led the discussion period of the Young Adult group. The Young Adults were organized on a Sub-District level. The next meeting will be held in Slaton.

The following Churches were represented: Slaton, O'Donnell, Post, Draw, Grassland, Southland, and Tahoka.

The Woman's Society of Christian Service served refreshments from a beautifully decorated table.

The advance for Christ and His Church was stressed during the evening. Objective one in the advance is a preaching and teaching endeavor throughout the Church. The purpose of this endeavor is that Methodists may achieve a deeper understanding and commitment to Our Faith, Our Church, Our Ministry and Our Mission.

## RUTHERFORDS MAKING STORE IMPROVEMENTS

Extensive improvements are being made on the interior of Rutherford Department Store.

A new ceiling has been installed, and the entire interior is being re-decorated, greatly adding to the appearance of the store.

Many Tahoka young people who are attending the various colleges of the state are home for the Thanksgiving week-end holidays.

Hugh Taylor of Royce City has sent in his renewal to The News, and states that he enjoys reading of his old friends here.

Liningrad has formerly been called both Petrograd and St. Petersburg.

## Tahoka Is Closed For Thanksgiving

Tahoka business and professional firms were closed up Thursday, as has long been the custom on Thanksgiving.

Many people went to Lubbock for the Post-Lockney bi-district football game, some went to the shows or visited, while others stayed at home and rested.

Tahoka schools will observe a two-day holiday, and will be re-opened on Monday.

Though dated Friday, The News is printed on Wednesday this week in order that the force may enjoy the holiday. Since the rural carriers do not make their runs on holidays, many of the subscribers will get their paper at the usual time, however.

## Basketball Will Start Next Week

Since close of Tahoka's football season, candidates for the Bulldog basketball squad have been working out every school day. Coach Jake Jacobs reports. Several of the boys are showing up well in pre-season practice, and by January a smooth working team may be developed. Tahoka will open the conference basketball season at Slaton on January 4.

Several pre-Christmas games have been arranged, however, the first will be next Tuesday night, when Sundown plays here. The B teams will play at 7:30 p. m., and the A teams will play at 8:30.

Then, on Thursday night Class AA Brownfield will come here for A and B squad games.

The Bulldogs will return the games at Sundown on December 7 and at Brownfield on December 16. The Bulldogs were District 4-A South Half champions in basketball as well as in football, but like the football team, the basketball team will be hampered this year, since most of the first team graduated.

Lettermen Bob Boyd, Jimmy Small, Duane Carter, and Douglas McNeely are back, however to form the nucleus of a team. Among the others out for basketball are: Travis Morgan, Charles Polk, John Henry, Bobby Franks, and Robert Adamson, who, as are those named above, are Seniors; Alman Crowell, Dewaine Townsend, Bill McNeely, Bill Draper, and Charles Brookshire, Juniors; Ronnie Gurley, Dale Wilhoit, Bland Draper, Jackie Slover, Clark Farr, Sophomores; Lynn Halameck, Delwyn Kelly, Riger Hensel, Don Brice, Sammy Pridmore, and Bill Short, Freshmen.

However, this large squad will be cut considerably soon in order that more intensive training may be given the first string.

Coach Jim Foust will train the boys cut, from the first string.

Boxing, tumbling, track, and other health and physical training will be given in Coach Foust's classes.

## D. C. DAVIS FAMILY HAS THANKSGIVING DINNER

The children of Mr. and Mrs. D. C. Davis and their families, gathered in the Davis home here Sunday for a Thanksgiving repast. Twenty-one people sat down to the table loaded with roast hen, furnished by Mmes Tinsley, Dollins, and Rogers, and all the trimmings.

Among those present were: Mr. and Mrs. J. O. Tinsley and Jimmie of Lubbock, Mr. and Mrs. Travis Davis and Luan of Union, Lubbock county, and Mr. and Mrs. Bert Bert Dollins and Sue of Tahoka; Mr. and Mrs. D. Davis of Lubbock, Mr. and Mrs. Bill Lumsden and two children of Wilson, Mr. and Mrs. Raymond Davis of Lubbock, and Mr. and Mrs. Turner Rogers of Tahoka.

D. C. requests The News to inform Uncle John Evans that it is none of the latter's business where the hens came from.

Samuel Jones Tilden was disallowed his election to the presidency of the United States in 1876 because of irregularities in the Louisiana ballot.

## Telephone Rate Increase Declared Necessary Here

Announcement of necessity for new telephone rates at Tahoka was made today by Mills Roberts, District Manager for the Southwestern Associated Telephone Company.

Greatly increased costs of furnishing telephone service make it necessary for the telephone company to place new rates into effect immediately. Mr. Roberts states that he plans to go before the City Council Monday night to explain the need for new telephone rates here.

The present rates for telephone service were established in 1940 when the new common battery system was installed. The telephone system at Tahoka has grown from 419 telephones on August 1, 1940, to 712. "We are proud," Roberts said, "that in these eight years we have been able to provide more and better telephone service without increasing rates. However, the pyramiding effect of higher costs of operations—higher wages, taxes, equipment and supplies—make new rates necessary despite every possible economy that could be used."

Mr. Roberts said that while revenues had increased, expenses had increased much faster and that the Company's net revenue had dropped until today it is losing approximately \$6,700.00 per year.

"The new rates are reasonable and are necessary to help pay the cost of furnishing telephone service. We do not seek big profits, but are asking only for rates that will provide enough earnings so that we can continue to expand and improve service," it was stated.

For residence users the new rates represent an increase of 1 1/2 cents per day.

For business users the new rates represent an increase of from 3 1/2 to approximately 4 cent per day.

## EDITOR VISITS SISTER

The Editor and Mrs. E. I. Hill left Sunday for Stephenville to visit his sister, Mrs. Sam Monroe, who has been critically ill. He wrote Monday that they found her much improved and were going on to Central Texas to visit other relatives a few days.

## TWINS BORN, DIE HERE

Twin children, a boy and a girl, born to Mr. and Mrs. Ramon Espinoza of Weslaco in the Seale Clinic, one Monday and one early Tuesday, died a few hours after birth. The Espinozas were pulling bolts in the Newpoore community.

There are five oceans, the Atlantic, Pacific, Indian, Arctic, and Antarctic.

## Cotton Ginnings 24,600 on Nov. 1st

Lynn county had ginned a total of 24,672 bales of 1948 cotton up to November 1, 1948, according to report of James C. Womack, special agent of the Department of Commerce Bureau of Census.

Last year at the same time, 52,996 bales had been ginned.

## Jaycees Plan Work Program

Tahoka's newly-organized Junior Chamber of Commerce had its first regular meeting Thursday night of last week, adopted a constitution and by-laws, and discussed a proposed program of work.

One of the first projects which will be undertaken by this civic group will be a long-range clean-up and improvement program in Tahoka, the principal purpose of which is to encourage local business establishments to modernize their store fronts. Owners of buildings and their tenants can greatly improve their own property and their business and at the same time add to the town's general appearance by modernizing, painting, etc., the store fronts, and the interiors, as well.

A committee composed of Chas. Reid, David Weathers, Dale Williams, and Bill Chancey, was appointed to initiate the program.

Officers of the Jaycees are: Wilton Payne, president; Reid, vice-president; Wayne Shaw, secretary; and James Lindly, treasurer. Board of directors include Bill Strange Jr., Bill Griffin, Dr. Skiles Thomas, Dale Thuren, Roy Botkin, and Seth Lewis.

## Hunters Bring In Two Fine Bucks

Roy Botkin and Thomas Tippit returned Thursday of last week from a successful deer hunt in the Hill Country. Their bag consisted of two fine bucks, one a ten-pointer and the other a four.

The same day, Roy's wife returned home from a visit with relatives at Chico, bringing with her about 40 pounds of fish she had helped catch at Lake Bridgeport.

## COLORED INFANT DIES

Sorrow was brought to the home of Mr. and Mrs. James Soders, colored, Monday by the death of their infant daughter, Carol Nan, who lacked just one day being a month old. Funeral services for the infant were held Tuesday at 11:00 a. m. in the Colored Baptist Church here, and burial followed in the local cemetery.

Linen rags are used in making the best grade of writing paper.

## Tahoka Civic Organizations Plan Big Christmas Program for This Season; Civic Federation Also Is Proposed

### School of Missions Is Being Held Here

A School of Missions is being conducted in three Lynn county Baptist Churches this week, Tahoka, New Home, and Petty.

Monday night, the speaker in Tahoka was Rev. Luke Johnson, a Pima Indian from the Pima Reservation at Bapchule, Arizona, on Tuesday night the speaker was Rev. Ruiz of El Paso; Wednesday, Rev. O'Neill of Nacogdoches; and Friday, the speaker will be Rev. A. R. Arnett, district missionary of Big Spring. All are with the Baptist Home Mission Board.

## J. H. McNeely, 78, Buried Monday

John H. McNeely, long-time citizen of Lynn county, was buried here Monday afternoon. He died Sunday morning at 7:34 o'clock in the West Texas Hospital, after an illness of about two weeks.

Funeral services were held at the Tahoka Methodist Church at 4:00 p. m. Monday, with Rev. C. A. Holcomb, pastor, conducting the rites, and burial followed in Tahoka Cemetery under direction of Stanley Funeral Home.

Mr. McNeely had been a resident of Lynn county since 1914, coming here from Wellington. For many years he engaged in farming, but about fifteen years ago he retired and moved to town because of ill health.

John H. McNeely was born on November 3, 1870, and therefore was a little over 78 years of age. Tennessee was his birthplace, but he came to Jack county, Texas, at the age of 12. Here he was married in 1900, and later moved to Wellington.

Mr. McNeely became an orphan early in life, and he and Mrs. C. M. Whipp, now of Lubbock, were reared together.

He was well known to most people of Tahoka and Lynn county, and a great host of friends mourn his passing. He was of a cheerful disposition and a friend to all.

The deceased is survived by his wife, Mrs. Etie McNeely, and five sons, Charlie E., who is employed by an oil company in Saud Arabia, A. A. Arlie, Bill, and W. B., all of Lynn county. Also surviving are eight grandsons and three granddaughters.

Pallbearers were: Henson, Sheldon, Jim Hill, Charlie Terry, W. T. Kidwell, Ed Hamilton, Tommie Lishman, W. H. Fulkerson, Joe Cabe and Mr. Buchanan.

Flower girls: Loretta Bartley, Joy Hamilton, Vickie Hamilton, Sandra McNeely, Barbara McNeely, May Fenton, Joycie Weaver, and Dorothy Durham.

## ROTARY CLUB WILL PRESENT FREE SHOW

Vernon Brewer, president of the Tahoka Rotary Club, announces that the club will present its annual free Christmas picture show of the kiddies of Lynn county. The show will be on the morning of December 23, at 9:30 o'clock.

Through co-operation of Lester Flood, manager of Wallace Theatres here, a good show suitable for the children is being booked, and will consist mostly of color cartoons.

Heligoland, an island in the North Sea, was bought by Germany from England before the First World War and turned into an immense fortification and naval base.

Worshippers of the God Juggernaut are said to throw themselves under the huge car of Juggernaut as it is dragged through the streets, seeking to be crushed by its wheels.

The largest Protestant denominations in the U. S. are the Methodists and the Baptists.

In a meeting held Monday night at the Lyntegar building, Tahoka civic clubs planned an extensive Christmas program for the town and county, features of which will include:

Stringing of Christmas lights in the business section of Tahoka, a custom for several years.

Playing of Christmas carols over a public address system during the Christmas week.

A visit from Santa Claus Thursday and Friday before Christmas.

A free picture show for the kiddies on Thursday preceding Christmas.

Christmas cheer packages for the needy families of the area.

A store and home decoration contest with prizes for winners.

Four turkeys, and possibly other prizes, to be given free on each of four days of Christmas week.

Present at the meeting were representatives of the Rotary and Lions clubs, the Chamber of Commerce, Jaycees (Jr. C-C) Boy Scouts and Girl Scouts, City of Tahoka and County of Lynn, the Tahoka, the Child Welfare Club, American Legion, V. F. W. and possibly other organizations.

The group made extensive plans for the Christmas program for this year, full details of which will be announced later in The News.

Lights are now being strung in the business section of Tahoka, and it is hoped that they will be ready to turn on by December 1.

Other organizations of the town who may wish to assist in the staging of the Christmas program are urged to contact Clint Walker, secretary of the Chamber of Commerce.

As a side issue of the meeting numerous other civic enterprises and projects were discussed, and out of the meeting came the suggestion that such meetings held more often could be of great benefit in building a better and bigger community.

Some one proposed that another such meeting be held in January and that a federation of Tahoka civic organizations be formed, every organization in town sending one representative to such meetings to correlate the work of them, to encourage a better understanding, and to prevent too much overlapping of projects. The proposal met with the hearty approval of all present, and each one present agreed to present the idea to his own organization.

Out of the move could come a new awakening to the civic development of the community.

## Tahoka Hospital Work Completed

Work on the extensive additions to the Tahoka Hospital and Clinic is entirely complete, and Tahoka can now boast of one of the best small town hospitals in this area.

Among the features of the addition are an operating room, delivery room, treatment room, laboratory and x-ray room, kitchen, nursery, and 15 patient bedrooms.

Drs. Emil Prohl and Skiles Thomas announce that a formal opening will be held at the end of next week.

The News will carry more complete information on the hospital and its formal opening in the issue of next week.

Mrs. C. C. Dwight, who was painfully injured in a fall down a flight of stairs about two weeks ago, was released from the hospital on Monday. Though greatly improved, she is still confined to her bed most of the time.

Tobias Hobson, an English stable keeper, made customers take the horse nearest the door, hence the term "Hobson's choice" meaning to take what's offered or nothing at all.

General Jan Christian Smuts was a famous general in the war against England, and later became a great colonial statesman for England.

TESTING THE ROOF OF AN IGLOO—These soldiers of the U. S. Arctic Infantry patrol have completed a snow hut on the shores away up north and are making sure that the dome will withstand more than 500 pounds weight. These huts provide shelter for troops for many weeks.

**CHILD GUIDANCE CLUB HAS REGULAR MEETING**

Members of the Child Guidance Club held their regular meeting Monday night in the home of Mrs. Everton Nevill with 16 members present.

During the business session Mrs. Maurice Huffaker was appointed reporter for the next three months. Mrs. Vernon Steele and Mrs.

Shorty Chestnutt were in charge of the program "Safety in the Home" which was preceded by each member answering the roll call with an accident that had happened in their home that could have been prevented.

Following the program, Mrs. Fred McGinty, Chairman of the Lynn County Welfare Unit, who had recently attended the State Conven-

tion at Houston, gave a brief report of the Unit and her recent trip.

Mrs. O. B. McElroy, who is vice-president of the local Parent-Teacher Association, and who had attended the State Meeting at El Paso the early part of last week, also a brief discussion of her trip. Both discussions were enjoyed by all members.

Refreshments were served by the hostess to the following members: Messrs: Fleix Jone, Parker Burford, Lynn McWhirter, Alton Cain, Shorty, Chestnut, Fred McGinty, Neal Stanley, Fred Hegl, O. B. McElroy, Slick Clem, Vernon Steele, Maurice Huffaker, and Mrs. Jeter. The next meeting will be December 6th in the home of Mrs. Dub Kenley.

Abraham Lincoln, James A. Garfield, and William McKinley were assassinated while serving as President of the United States.

In 1869 the gypsy moth was accidentally introduced into America by a naturalist carrying on experimental work with insects.

A government, under the right of eminent domain, can take private property after making compensation to the owner.

The greatest rise and fall of the ocean's tide is at the Bay of Fundy, New Brunswick, Canada.

Early Christians of Rome met in the catacombs which were underground cemeteries.

From Vulcan, God of fire and metal works, comes the word vulcanizing.

Governmental securities of Turkey and Russia are known as consols.

**QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID**

Sold on 15 days' "Willard's Message" which fully is treatment—free—at WYNNE COLLIER DRUGS

**Pvt. Billy Anderson Stationed in Japan**

With The 11th Division in Camp Younghans, Jinmachi, Honshu, Japan—Private Billy E. Anderson, son of Joe R. Anderson of Tahoka, is now on occupational duty with the 11th Airborne Division in Japan. He is presently a jeep driver assigned to A Battery 675th Glider Field Artillery stationed at Jinmachi, Honshu, Japan.

Private Anderson entered the Army May 21, 1947 at Fort Bliss Texas and received basic training at Fort Ord, California. Upon completion of his basic training he volunteered for Airborne duty and was sent to the Airborne Infantry school at Fort Benning, Georgia. After a rugged six week training course and five jumps from an airplane in flight at 1200 feet he qualified as a parachutist and became entitled to wear the coveted paratrooper wings and boots. The Texas paratrooper was sent overseas and arrived at the 4th Replacement Depot near Yokohama, Honshu, Japan, and on up the line to where he is now stationed with the 11th Airborne Division Artillery.

Superior, Huron, Michigan, Erie and Ontario are the five Great Lakes.

**MISS JOY WILLIAMS AND JAMES BROOKSHIRE WED**  
Miss Joy Williams, daughter of Mrs. Gussie William of Tahoka, and James Brookshire, son of Mr. and Mrs. W. G. Brookshire of Grassland, were united in marriage at the Williams home here Saturday morning

at 8:30 o'clock. Rev. Jesse E. Young, Methodist pastor at Robertson, Lubbock county, formerly of Draw, performed the double ring ceremony. Immediate members of the two families and a few friends attended. The ceremony was read before an

altar decorated with large white chrysanthemums, pink carnations and ferns. Matron of honor was Mrs. Pat Hensley, sister of the bride, while Van Brookshire, brother of the groom, was best man.

Mrs. Melvin Brookshire played a traditional wedding march, and Mrs. Marvin Munn sang "I Love You Truly" and "Beesuse."

The bride wore a light gray suit with dark gray accessories and carried an orchid on a white Bible. Following the ceremony a brief reception was held, at which coffee and the wedding cake were served. Miss Billy Faye Anderson and Mrs. Pat Hensley presided at the refreshment table, and Mrs. Dan Brookshire presided at the registration table.

The bride is a student in Tahoka High School. She was reared at Draw and in Tahoka. The groom is a 1944 graduate of the local schools, following which he served in the Army two years, part of that time overseas. He is engaged in farming and is engaged as bookkeeper at the Co-op gin at Grassland.

Following the ceremony and reception, the couple left on a short honeymoon trip, and they are now at home here in Tahoka.

**HONORED AT PARTIES**

Miss Joy Williams, who was married Saturday to James Brookshire was honoree at two social events held last week.

Thursday afternoon from 3:00 o'clock to 5:00 o'clock p. m., the bride was honored with a shower in the home of Mrs. I. Stewart, at which many beautiful and useful gifts were displayed. Coffee, cake and mints were served guests.

Friday at 5:30 o'clock p. m. the wedding party was entertained with a buffet dinner by Mrs. Roy Edwards. Immediate family members, the bride and groom and other participants in the wedding attended.

**Aviation's Forgotten Man Attends to His Trapping**

Forgotten man of aviation is Johnny Moore, of Colington, N. C. He is the lone surviving witness of the first powered airplane flight, the last flying man who actually lent a hand to the Wright brothers on December 17, 1903, when they put their flimsy craft into the wind and flew the astonishing space of 120 feet.

Johnny Moore is 62 years old now, weathered and carefree. He was 19 years old when he chanced by Kill Devil hill on that memorable day and helped put the Wright plane in motion for its run down the wooden rails upon which it was launched and so became truly airborne.

Having thus lent a couple of crowny arms to this historic event, watching the three other flights made the same day, and then seeing the plane crash ignobly among the dummies, Johnny casually went back to his red pots and muskrats and to oblivion.

For many years on Kill Devil there have assembled both visiting dignitaries and local citizens, with commemorative wreaths and often as not a squadron of modern military planes to fly over. Johnny Moore, who lives within a stone's throw of the great monument to the first flight, never attended these events. He doesn't like crowds.

**Puerto Rico Home-Building Speeded Up in Big Project**

A 50-million-dollar postwar housing boom is helping to ease the extreme housing shortage that has plagued Puerto Rico in recent years.

First of the immediate projects is the huge Puerto Nuevo development in the suburbs of San Juan, where some 5,000 homes are being rushed to completion. Built by private construction interests through the personal stimulation of Gov. Jesus T. Pinero, it is the largest such development ever inspired and insured by the FHA.

Eventually a second 5,000 homes will be built in the San Juan area, while the ultimate goal of the insular government is to see an additional 10,000 low cost homes built throughout Puerto Rico. Each community will have its own schools, shops, churches and theaters, while local bus systems will provide direct transportation services to minimize travel problems.

Priced around \$4,000, these new mass-produced homes can be bought by ex-service men on monthly installments. Most are two-bedroom homes with bath, kitchen and living room.

New York City's Empire State Building is the tallest man-made structure in the world.

There are 240 pounds difference between a long and a short ton.

Advertising Rates on Application.

**AN INEXCUSABLE NEGLECT**

Following every general election that has been held in this state in recent years one or more county judges in the state, apparently through pure indifference or neglect, have failed to send in the election returns, in time for them to be canvassed at the time prescribed by law. Many newspapers, including this one, have frequently called attention to this failure of duty on the part of such officials, but nothing more has ever been done about it.

According to Paul Brown, secretary of state, 37 county judges did not send in the returns of the votes in their respective counties for President and Vice-President in

time for them to be officially included in the Texas results. These returns had been counted approximately 90,000 votes in the Presidential election but could not be counted in the total official results because they had not been received by the secretary of state. In the race for United States Senate, the returns from 42 counties had not arrived.

This lapse of duty on the part of county judges is absolutely inexcusable. If there is no penalty affixed by law for such lapses, the legislature should pass a law which in it promptly after assembling, or at least during its regular session. Grand juries in the home counties of the respective judges and also in Travis county should be authorized to investigate such cases and it should be made the duty of the attorney-general as well as of district and county attorneys to prosecute such offenses.

The people have a right to have their votes included in the final results and when some lazy or indifferent or possibly disgruntled county judge with-holds the results, he ought to be slammed in jail for term unless he can show a good excuse for his failure.

The Gilmer-Aikin committee heretofore appointed by the State Senate to study our public school system and recommend changes to the legislature when it meets in January is reported to be planning to recommend, for one thing, that public school funds hereafter shall be distributed on the basis of average attendance and not on the basis of scholastic enrollment. That is a proposed change that West Texans have been advocating for years. It has been the custom in some sections of the state for census trus-

tees to enroll every Mexican child and every Negro child that can be found in their school districts in March when the census is being taken so that these school districts may draw funds thereon and then they make little or no provision in the matter of buildings and equipment for pupils of these races to attend. It is a species of near-fraud that ought to be stopped. If school districts do not provide buildings, teachers, and facilities or teaching these children then they should not be allowed to draw state funds thereon. When they do so they are reducing by so much the funds for districts which makes provision for schooling the children in them. Under the proposed change, these racketeer districts must make provision for all the scholastics within their borders to attend school or to accept a reduction of their apportionment.

If the Federal Government takes the oil-bearing tidelands away from the states, as President Truman and the Democratic Party has pledged in the platform that it will do, then there will be a decided decrease in the public school funds in Texas and Louisiana, which will have to make up from some other source. This shortage will afford another argument and demand for the Federal Government to furnish the additional needed funds. And so, that is what the Federal Government will promptly do. And it will not be doing that long until it will be dictating how those Federal Funds are to be used by the state or local authorities. And that will give the racial-equality maniacs and politicians in other parts of the country an added opportunity to cry out against segregation in the public schools. Then we will see white and colored pupils attending the same schools and white and colored teachers teaching the same schools. Mix up the funds and we will mix up the folks—It's a sure bet.

A district judge down at Fort Worth recently held that the state Democratic convention held in Fort Worth a couple of months ago turned out to be not a legal convention at all because it refused to seat some delegates who had been duly elected by the county conventions back home and seated other individuals who had not been legally elected as delegates. It just became therefore a conglomerate mass of individuals not a convention at all within the legal meanings of that term. We hope that the politicians will get a lesson from this. There are two reasons why conventions are regarded so lightly by the people. One reason is that delegates are usually elected by a mere handful of people to start with and then they are frequently denied seats in the convention to which they were elected if it suits the purpose of the group of politicians in control to deny them seats.

**with a JOHN DEERE TWO-ROW COTTON HARVESTER**

The easiest way to boost your cotton-growing profits is to use a John Deere No. 15 Two-Row Cotton Harvester. Based on 1947 labor cost, it saves \$30 or more per bale over hand pulling... does an excellent job in any crop that's suitable for mechanical stripping.

Handling two forty-inch rows at a time, the No. 15 does a clean, efficient once-over job of saving bolls. Its work is considered by many gin operators superior to cotton stripped by the average hand puller.

With the John Deere, you, too, can make short work of your harvest... get all your cotton to the gin before bad weather causes crop losses. For details, see us the next time you're in town.

**FLEET HOME TOWN NEWS CENTER SHOWS LARGE DISTRIBUTION**

The distribution of more than 5,000,000 news stories and pictures of individual Naval personnel ashore and afloat to the country's home town newspapers is the two-and-a-half year record of the U. S. Fleet Home Town News Center.

From the Naval Training Center, Great Lakes, Ill., where the News Center is presently located, on October 15, the five-millionth release on a Naval service man was mailed to his home town newspaper and radio stations.

The Fleet Home Town News Center was commissioned in April, 1945

by the Secretary of the Navy to provide the media in the home town of the millions of men in the wartime Naval service with news stories and photos covering the activities of the Navy men on the fighting fronts and duty in continental United States. In order to insure that relatives, friends and neighbors might follow in their local press the activities of their men and women in the Navy throughout the world, the Navy's home town news program was retained after the war as a permanent unit of the Naval establishment.

**BUTANE DUE TO BE SHORT THIS WINTER**

Many people who use butane, a liquefied petroleum gas, for heating their homes, face another cold winter.

Information gathered from many sources—oil refiners and other producers of butane, dealers and distributors, the Railroad Commission of Texas and the United States Bureau of Mines—in a survey completed Saturday, all point to a chilling conclusion:

Domestic users with small fuel tanks may not be able to get them refilled as often as needed during the severest weather of January and February.

The reason is simple: Not enough butane storage capacity all along the line—at the producing plants, on the dealers' lots, on the consumers' premises.

Consumer demands for fuel for heating are five times greater in the winter months than in summer. Demands for butane in cold weather have jumped far ahead of the increases in storage capacity. Furthermore, consumption in the cold months far outstrips the slight rise in production during those months.

In 1947 domestic consumers in Texas used an average of 700 gallons of liquefied gas. This year the demand is running at the rate of about 750 gallons. This indicates the 410,000 consumers will need at least 307,000,000 gallons in 1948, compared with 280,000,000 last year. Some estimates put this year's demand as high as 400,000,000 gallons.

The use of butane for domestic purposes has more than doubled in three years. The consumption in 1945 was 60 per cent above that in 1944. The jump in 1946 was 44 per cent above 1945 and the rise in 1947 was 32 per cent over 1946. The gain this year over last year is estimated to reach at least 25 per cent.

Last winter the demand was so much greater than the stocks on hand that thousands of butane users, especially those with small tanks, suffered acutely.

The best immediate insurance for the small-tank owner against a recurrence of last winter's shortage is to buy or lease a larger tank.

All living things can be grouped into two main divisions, flora and fauna.

**FEEDING EXPERIMENT ON LARGE SCALE**

Lubbock, Nov. 23.—A commercial feeding test involving 10 Hereford calves with an eye to saving time and money at no sacrifice to quality cattle is underway at Texas Technological college.

Dean W. L. Stangel, head of the animal husbandry department, expects the experiment to continue a year. To further substantiate findings of the initial test, a second group of 10 Hereford calves will begin identical testing in January.

Calves under observation are to be fed as stockers throughout the winter and early spring. They will be placed on pasture in the late spring, and early fall. Then for the final feeding period they will be divided into lots of five each and one group hand fed while the other group is self-fed.

The experimental calves will make their first public appearance at the spring livestock show in Lubbock, and will be exhibited in one group as stocker calves.

Results of the test, feeds used along with charted weight gains and time spent will be posted a year later at the South Plains livestock show where they will be entered in the fat yearling steers class.

Possibilities of commercial feeding will greatly lighten the burden of raising show calves, Dean Stangel said, emphasizing that commercial feeding will cut the financial burden for youngsters interested in raising show cattle. It will relieve the necessity for nurse cows and for so much personal attention by the boy, an attendant or his parents.

Exact techniques employed and proper feeding of the cattle commercially will be available along with any other information desired from the animal husbandry department on the successful completion of the project.

The calves to be used in the project are from the Pan Tech farms at Amarillo.

Lubbock, Nov. 23.—D. E. N. Jones, vice president of Texas Tech. Agricultural College, will represent Texas Tech at the national meeting of Sigma Xi in Cleveland, Ohio, November 27.

**STANLEY RATLIFF AND VELMA GENTRY MARRY**

Miss Velma Gentry, daughter of Mr. and Mrs. R. R. Gentry, and Stanley Ratliff, son of Mr. and Mrs. W. F. Ratliff were united in marriage last Thursday afternoon at 6 o'clock at the home of the bride's parents, the rites being read by Rev. C. A. Holcomb Jr., pastor of the Tahoka Methodist Church.

The bride is a student in Tahoka High School, and expects to continue her school work. Stanley is a graduate of the local school, and was a member of the Bulldog football team two years ago.

**Lowly Onion a Hardy Plant**

There are many kinds and types of onions. There is, for instance, the Egyptian or tree onion, which is hardy in winter time. They are the ones that bear little bulbs on their seed stalks instead of seeds. Egyptian or tree onions are very delicious for two or three weeks in the spring until the seed stalk starts forming when they get tough. Another onion used a great deal for scallions is the multiplier onion. The multiplier onion divides the bulb and forms anywhere from three to 20 other onions. Another type of scallion onions are those which are grown from sets. Sets are also a method of growing scallion onions for winter use.

**New Chrysanthemum Introduced**

A new outdoor chrysanthemum has been introduced by the University of Minnesota agricultural experiment station this year. Bountiful is the 25th garden chrysanthemum developed and introduced by L. J. Longley, assistant professor of horticulture at the University of Minnesota, who is in charge of the chrysanthemum breeding project. Bountiful is an upright, semi-double type, medium in height, bearing numerous of nearly double flowers with long stems. Blossoms are characterized by a rich color.

**Cattle Loss from Heel Flies**

Damage done to cattle by heel flies and grubs is more extensive than many people realize, researchers say. Announced by the flies, cattle run out much flesh in fly season. Later, when the grubs are burrowing inside the animals, the resulting irritation, soreness and general run-down condition is the cause of unthriftiness of cattle. Punctured by the grubs when they move to the back of the animal, hides are often reduced in value 50 per cent. Because of the damage grubs cause, much emphasis has been placed on their control in recent years.

**Kiskadee National Forest**

In central Louisiana lies the beautiful, rugged Kiskadee National Forest. It has always been a favorite hunting and fishing spot. In recent years it has been taken over by the government. Many game birds of it now constitute the Kiskadee national forest. This area has a wealth of upland game, including deer, turkeys, wildcats and other species. There are some wild turkeys ranging the wilds within 20 or 25 miles of New Orleans. The wild turkey is a wary bird, and hunting for him calls for more patience, knowledge and skill than any other game bird.

Ulysses's wanderings are recorded in the epic poem The Odyssey.

**DIXIE H. D. CLUB**

The Dixie H. D. Club met Nov. 17 in the home of Mrs. A. C. Aycox with ten members present.

At the business meeting, Mrs. Buel Draper gave a report on council and the club voted to participate in the food sale.

The demonstration on stenciling was given by Mrs. Buel Draper. Refreshments of fruit cake and coffee were served the members: Mesdames Dick Mitchell, Guion Cobb, Troy Copelin, Omar Allen, Chas. Schulz, T. D. Lishman, G. B. Sherrod, A. L. Dunagan, Buel Draper, Miss Virgie Cobb, and one visitor, Mrs. J. H. Cobb.

The next meeting will be held on December 1 at 2:00 p. m. in the home of Mrs. Troy Copelin.

## YOU CAN HAVE PLENTY OF BUTANE ALL WINTER IF YOU HAVE ADEQUATE STORAGE

Will you be sure of having all the LP-Gas you will need this winter? Or will you be at the mercy of bad roads, bad weather and possible gas shortages? There is only one way in which your Butane-Propane dealer can promise you all the gas you'll need and that is for you to have adequate storage now!

So if you want to enjoy all the advantages of gas next winter — without any empty-tank worries — let your dealer explain how you can be guaranteed of having dependable, year-round gas service. Write, phone or see him today.

**HERE'S THE PICTURE**  
The refineries which produce LP-Gas (Butane or Propane) have the same capacity all the year around. They produce the same amount of gas in the summer as they do in the winter. Yet there is four times as much gas used during the four winter months as there is during the other eight. The extra LP-Gas produced in the summer must be stored for use in the winter. The refineries have increased their storage facilities. Your local dealer has increased his. But there's still not enough! Even more gas must be stored.

**HERE'S THE ANSWER**  
The only solution to this problem is for you folks who use LP-Gas to increase your storage facilities. And that's the only possible way in which your dealer can assure you of having a dependable, year-round supply of LP-Gas. Remember — your storage tank is like the gas tank in your car. If it's too small you're always running out of gas. So play safe. Get set for winter by getting adequate storage NOW!

**HOW BIG A TANK DO YOU NEED?**

You'll have adequate storage when you have a tank big enough to hold a supply of gas that will carry you through the four winter months. A tank that size will enable you to have it filled now while plenty of gas is available. Then, this fall, you can have it refilled and start off the winter with enough gas to see you through

### All-Out Effort Will Be Made to Aid All Needy Christmas

In an all-out effort to make sure that every family in and around Tahoka has a bountiful Christmas the various civic organizations met Monday night and discussed the following plans:

Each person and each organization is asked to send a written report of needy families you happen to know about. This report must give the name and place of residence, and the names and ages of the children. A committee of Child Welfare workers will look into the needs of such families. Their report may be turned in to Tom Garrard, or Mrs. Shores Chestnut at the Judge's office, or mailed to Mrs. Fred McGinty, by December 7th.

On the 7th, the listings will be compiled and the Churches will each be given a chance to "adopt" families or parts of family units as

Let one stop do it. Renew your Daily and your Lynn County News at the same time. Mrs. E. I. Hill, at The News Office.

### REAL ESTATE

FARM RANCHES  
CITY PROPERTY  
OIL LEASES AND ROYALTIES

A. M. CADE

Office Over First National Bank

their Christmas responsibilities. The families will speak for various members of these families and every one will in turn have an opportunity to do more of the "real spirit of Christmas," making happiness reach those who know very little happiness and cannot afford the necessities at this season of the year.

After the Churches adopt their needy families, the remainder of the list will be distributed to the Rotary, Lions, Child Guidance, and the K. Harner Clubs; the Pythian Sisters, the Eastern Star, Veterans of Foreign Wars, The American Legion, Chamber of Commerce, Jaycees, Parent Teacher Association, and any other organization we have failed to mention.

It is hoped that in this manner that no one will be left out or overlooked while others are visited more than once. Spokesmen from each of these organizations have approved this plan and promised full-fledged co-operation.

We urge the full cooperation of you as individuals to report the needy NOW. Do not wait until the dead line, December 7th. Your committees cannot know everyone—they can work only from your report. And only when you have submitted your report can they commence their work. So please be a good fellow to some needy family by letting the proper persons know who they are before December 7th.

### CARD OF THANKS

We wish to take this means to thank our friends, Pastor and Ex-Pastors, for the nice deeds, beautiful flowers, cards and the wonderful comforting words spoken.

May God's richest blessings rest upon each and every one of you.—The Huffaker Children, Grandchildren and Brother.

See us for Bargain Day rates on all leading daily papers.—Mrs. E. I. Hill at Lynn County News Office.

### MISS FAYE JOHNSON WEDS MR. CLOIS LEVERETT

Miss Faye Johnson of Tahoka and Clois Leverett of the T-Bar community were united in marriage Sunday at the Lamesa Baptist Church parsonage, Rev. Julius Ackwood officiating.

Attendants were Miss Jo Ann Henderson of Tahoka and Tommy Leverett, brother of the bride-groom also of the T-Bar community.

The bride is a graduate of Tahoka High School, and has been employed with the John Witt Butans Gas company here. She has been making her home with her aunt uncle, Mr. and Mrs. Lee McFadden. She is the daughter of Mrs. Jackie Fenton of Lamesa and L. B. Johnson of Tahoka.

The groom, son of Mr. and Mrs. A. E. Leverett of the T-Bar community, is also a graduate of the Tahoka High School. He is a farmer.

The couple will live in Tahoka after they return from a wedding trip to El Paso and Old Mexico.

### THE STATE OF TEXAS

TO: MARINA FLORES, Defendant

Greeting:

You are hereby commanded to appear before the Honorable District Court of Lynn County at the Court House thereof, in Tahoka, Texas at or before 10:00 o'clock A. M. of the first Monday next after the expiration of forty-two days from the issuance of this citation, same being the 10th day of January A. D. 1949, then and there to answer Plaintiff's Petition filed in said Court on the 20th day of November A. D. 1948, in this cause, numbered 1838 on the docket of said court and styled Maximiliano Flores, Plaintiff, vs. Mariana Flores, Defendant.

A brief statement of the nature of this suit is as follows, to wit:

That on or about the 15th day of May, 1944, plaintiff and defendant were duly and legally married, and that said plaintiff and defendant continued to live together as husband and wife, until on or about the 2nd day of January, 1945, at which time defendant abandoned plaintiff without just cause; and that defendant, disregarding the solemnity of the marriage vows and obligations, did on the 22nd day of January, 1945, voluntarily leave the bed and board of plaintiff with the intention of permanently abandoning plaintiff, and has remained away from plaintiff continuous of said time which is more than the space of three years, with the intention of abandonment; as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and Seal of said Court, at office in Tahoka, Texas, this 22nd day of November A. D. 1948.

ATTEST:  
W. S. Taylor Clerk, District Court, Lynn County, Texas. 8-4d

### GRASSROOTS

(County Agent)  
Now is the time to treat your peach and plum trees for peach tree borer Control. Ethylene dichloride emulsion is the most satisfactory material for peach tree borer control. Directions for diluting the stock solution are given on Manufacturer's container.

To apply Ethylene dichloride clear grass and weeds from around tree trunk. Dig a shallow trench to completely circle the trunk, 1 inch to 1 1/2 inches deep and 4 to 6 inches away from the trunk. Apply 1/2 pint of diluted Ethylene dichloride emulsion in trench for mature trees, and 1/4 pint for young trees. Cover the liquid with dirt.

Paradichlorobenzene Crystals will control peach tree borers. The crystals should be placed in a circle around the tree about two inches from the base. For matured trees 1 ounce, by weight, should be used and 1/2 ounce for young trees. Immediately after crystals have been applied they should be covered with several shovelfuls of dirt, and the dirt packed with the back of the shovel to make a cone shaped mound. After about 6 weeks the mound of the earth should be torn down and the residue or crystals removed.

In sending in his renewal to The News, Jim Dye of San Angelo, writes: "We enjoy getting The News, and learning what our friends are doing. We still call that home. A little cool here, but not bad—just right for fishing; better come go along."

We are ready to renew your daily! —Mrs. E. I. Hill at The News Office.

**More About Fishing In Old Mexico**

In Piedras Negras a Mexican of-ficer was searching our suitcases and he found a Spanish Bible in my suitcase and he opened it and began to read; then he said, "This is a good book." I asked him if he was a Catholic and he said, "No, I am a Methodist." That Mexican was the best looking Methodist I ever saw because I knew we had found a friend. He read a little, closed the book, shut up the suitcase, and said, "Everything is all right."

We left the pavement as Sabinas and headed for the wilderness. It had rained for about ten days and the roads were terrible. It looked as if a maintainer had made one

round on a straight line for the entire distance between Sabinas and Don Martin. The road was so narrow that the bushes scraped the car, even though we were on what was supposed to be the highway to the lake. There were only two or three shallow creeks because the land was practically level all the way. The ground was muddy and the road was just a chain of chug holes. It kept the driver continually changing gears and throwing on the brakes. We had to pick our way as the highway was impassable in places and we had to get out and search the thicket for a way around the places we could not go thru. Sometimes we would have to back up and turn around. Then, we would cross the road and try the other side.

The reason there are so many fish in the lake is because fishermen do

**Local CROP Program Feeds Children**

Farm commodities now being contributed in this state to the Christian Rural Overseas program (CROP) will be distributed overseas on the basis of need alone, with much of it going to children such as those shown above, according to John D. Metzler, national CROP chairman.

These five Chinese orphans recently were picked up on the streets by CROP's sponsoring church agencies, and are now being nursed back to health, although their ribs still stick out like ridges on a washboard. Children, widows, the aged, and those in pro-tubercular centers are among those who benefit most by CROP contributions—which are distributed in 43 different countries.

More than a score of states, including this one, will have assembled trains of food for CROP by late November or December. The effort is nationwide and is sponsored by Catholic Rural Life, Church World Service, and Lutheran World Relief.

**L. D. HOWELL'S NEPHEW NOW IMPROVING**

Eighty-six days ago—on September 1, to be exact—the 12-year-old nephew of L. D. Howell, Harry, son of Mr. and Mrs. A. J. Howell of Childress county, while riding his bicycle, was in collision with an automobile. As a result of the collision he was paralyzed from the waist down. L. D. went over to see him and the family a few weeks ago, and at that time it seemed very doubtful if Harry ever walked again.

But just recently Harry underwent an operation known as laminectomy in a Fort Worth hospital, as a result of which the little fellow was enabled to move both his legs and there was strong hope that he would soon be able to walk again.

The operation and the effects were regarded as somewhat remarkable and a photograph of the young fellow appeared in the Star-Telegram of last Friday.

**TEXANS IN EUROPE WIN ARMY MEDAL**

Wiesbaden, Germany, Nov. 13.—Three airmen from the Lone Star State who recently received Army Good Conduct medals while stationed with the 7100 Headquarters Command Wing in Wiesbaden, Germany, were, Corporal Henry F. Parker of Houston; Pfc. Rudy Perez of Lubbock, and Pfc. John D. Laseter of Corsicana, Texas.

All three of the Airmen are assigned to the Transportation Section of the Wiesbaden (AF) Military Post. Corporal Parker is the son of Virgil C. Parker of Houston, Texas, Pfc. Perez, the son of Mr. Pete Perez of Route 3, Lubbock, Texas, and Pfc. Laseter, the son of John W. Laseter of Corsicana, Texas.

Euclid, a mathematician of Alexandria in the 4th century B. C., compiled the first systematic treatise on geometry which is still in use.

not wish to undergo the hardships and risk the danger in order to reach the place.

One Mexican guide said that many people had been robbed along the road. I do not always believe what Mexicans report but that is entirely possible. We certainly saw some tough looking hombres riding in pairs along the thickets. I do not remember if any of them had guns but one thing certain they all had their cuchillos. A cuchillo is a dagger that they all wear in their belts. It is a very useful instrument to have while fishing, hunting or out on the ranch. It is a very dangerous weapon when they use it for fighting. The Mexican dreads the cuchillo much more than he does a gun. They practice throwing these weapons until they are quite accurate with them.

I am glad I saw the forty miles of wilderness but I am not too anxious to go over them again. The first eight or ten miles is a little rougher than the remaining thirty. This is an irrigated territory, but they have no modern machinery and accomplish very little. They barely eke out an existence raising corn and wheat. They get water only once a month.

I always enjoy reading ancient history and I was glad to have the opportunity to see first-hand the primitive conditions under which these people live. Just after we came into the country we saw a house, where some people were liv-

ing, that was made of mud and the roof was covered with straw. It was a typical Mexican home. The mother and children came out of the house and stood in a row as we passed by. They were all smiles and waved at us.

A little farther on we saw a few more huts that would not even make a cow barn out here. Some of them have no doors, no windows, and no furniture. Their bed was a goat-skin laid on the ground or some boards. The conditions under which these people live, in this desert and up and down the river are inconceivable and you would have to see them with your own eyes before you could believe the truth about them.

Next week we will tell about the actual fishing experience and life in the camp. W. G. Boyd

## WEEKLY NEWS ANALYSIS

### New Crisis Appears in Germany As Russ Threaten Berlin Airlift; Rent Control Extension Proposed

—By Bill Schoentgen, WNU Staff Writer—  
 (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

#### AIRLIFT: New Crisis

Morally defeated in their efforts to make good the blockade of Berlin, the Soviets were brewing up a new batch of trouble to keep American planes out of the skies over the German capital.

The Russian military administration in Berlin charged that foreign planes had flown illegally over the Soviet zone of Germany and threatened to force such planes down if it ever happened again.

IT HAD all the earmarks of a desperate, last-ditch attempt to keep the U. S. airlift from succeeding in its mission of supplying food and fuel to Germans inside the blockaded zones.

But American officials weren't having any of it. In a brittle reply to the Soviet letter, Brig. Gen. C. K. Gailey stated that if any Americans were injured as a result of a plane's being forced down the full responsibility would rest on Soviet shoulders.

THE RUSSIAN letter, received from Lt. Gen. G. S. Lukyanchenko, chief of staff of the Soviet military administration, asserted that "foreign aircraft not bearing identification marks of nationality" had flown over Soviet territory both within and without the international air corridors.

His missive concluded with a flat, two-point threat of Red intentions in the future:

1. SOVIET air patrols would force down all unidentified aircraft over the Soviet zone.

2. SOVIET air patrols would force down all foreign aircraft appearing over the Soviet zone outside the limits of the air corridors and greater Berlin.

The incident was tabbed as "the latest crisis in the Berlin situation, but in comparison to the other crises that have come and gone this one appeared to be little more than a tempest in a teapot. It seemed to convey the impression that the Russians were losing their grip—that they couldn't even foment a real, hot crisis any more.

Not that the affair was to be taken lightly. In an atmosphere charged with hostility it wouldn't take much more than the intentional destruction of one American plane to touch off a serious conflict.

CONTROL: On Rents

One of the promises that President Truman made to the people during his campaign tour was that he would secure an extension of rent controls.

And scarcely had the startling election day passed before a concerted rent control effort was being brought under way by the Democrats. Rent Director Tighe E. Woods announced that he would ask the new congress not only to extend but to strengthen the present rent control law.

HE SAID he would ask congress to extend the rent law for 12 months past its present expiration date, March 31, and to close what he considers three big loopholes in the present act.

"The shortage of rental housing is more serious today, especially in the smaller communities, than it was a year ago," he declared.

In addition to extending and buttressing the present law, Woods indicated that he probably would propose that congress give him new authority to restore controls, or impose them for the first time, in areas that may be boomed by new defense activity.

These are the changes he will ask:

1. EVICTION CONTROLS—Restore federal control over evictions. New evictions are left to local courts. The result, Woods said, is a serious black market in rents.

2. TREBLE DAMAGES—Give the rent director power to sue rent violators for three times their overcharge. Now only the tenant can bring such suits. This means that landlords usually get off with simple repayment of the overcharge.

3. CRIMINAL SANCTIONS—Provide jail terms and fines for convicted violators. This would give the rent director a weapon to back up his orders.

Woods was confident that the new Democratic congress would receive his proposals cordially, and "most sources on Capitol Hill confirmed that belief.

**POLLING THE VOTES**

#### Strides Made in Production of Electricity

While the output of electricity has more than doubled in the past eight years and has been rising to new record heights for each successive month, the unit cost to consumers is less than before the war.

In a recapitulation of strides made by the industry, an article in the November issue of "Business Comment," bulletin of the Northern Trust company, states that power

production during the first nine months of 1948 was about 11 per cent above the corresponding period in 1947. Output in 1947 was 15 per cent above 1946.

The electric power industry now serves more than 40 million customers, contrasted with 29.1 million customers as of December 31, 1939, an increase of more than one-third.

#### LUCIUS CLOBB On Election Polls

Lucius Clobb, elder statesman and political pollster of Pawbooley county, wore a strained expression as he opened the frosted glass and chicken wire door of Mayor Ryerson Buckner's office.

"Morris" and a variety of congratulations, Rye, said he. "Mighty glad to see you overhavin' the same old hole in that chair seat. That upstart Clem Gropper that the opposition put up as a candidate again you run a poor race, didn't he?"

"You mean," snapped Rye Buckner, "the upstart that you were running around the county wading your hair in the election hands down? You and your scientific barber poll. Ha!" The mayor snorted stridently.

"Now, Rye," said Mister Clobb with some dignity, "you shouldn't talk like that. I voted for you. Or I would've if I hadn't needed in the voting booth and blew out the candle so I couldn't see where I was making an X. Turned out that I didn't get an X in any one of those danged circles."

"And what about your (yuk) barber poll?" yanked the mayor.

"Well, now that was what I thought was a genuine scientific poll from which I thought sure I could predict the outcome of the election. I was so blinded objective that I didn't ask nobody notbin'."

"Then how in the name o' Harry could you get any opinions?"

Mister Clobb combed his whiskers reflectively. "That's why I called it a barber poll," he said. "Day after day I set in Ebenezer Snook's barber shop and watched people get haircuts. I figured I had a system."

"When a man come in and said to Eb, 'Clippers all around, Eb,' I figured him for a Democrat. And anybody who come in and asked to have the whiskers left on—well, what could be but a Republican? I thought they'd vote according to their haircuts."

"Beauty of the system was that it didn't involve no subtle unknown quantities like the quick shiftn' of a man's opinion or the deep currents that flow beneath a man's conscious thinkin'."

"Yeah, a beautiful system, Mr. Clobb," sighed the mayor in a more kindly tone. "I'm kinda sorry it didn't work out right."

"Tbanks, Rye," murmured the elder statesman, and his whiskers twitched. "It was beautiful. A beautiful system."

#### INDICTED: Thomas

Red-fighting Rep. J. Farnell Thomas (R., N. Y.), chairman of the house un-American activities committee, was in hot water, and it was making his neck as red as the political complexion of any Communist he had ever pointed a finger at.

AFTER two months of ominous rumblings to the effect that something dire was in store for the GOP congressman who had caused the administration so much trouble by shouting that the government was employing Communists, the news broke: Thomas was charged by a federal grand jury of conspiring to pad the payroll of his congressional office.

The indictment accused Thomas and his former secretary, Miss Helen Campbell, of conspiring to maintain fictitious employees in Thomas' office so the salaries paid to these persons could be diverted into Thomas' bank account.

At his Allendale, N. J., home, Thomas growled, "I have nothing to say at this moment." But he would have an opportunity to speak when his trial got under way, probably in January.

Meanwhile, it appeared certain that the spectacular Communist spy investigation which held the national spotlight last summer now was deadlier than a month-old red herring.

#### Kicked Back

Miss Helen Campbell, ex-secretary to Rep. J. Farnell Thomas (R., N. J.), is involved with the congressman in a federal grand jury indictment on charges that he "induced" her and another employee to "kick back" their salaries to him.

## Woman of the Year

For "eminent achievement" in the field of commerce and industry, 70-year-old Dr. Lillian M. Gilbreth (right) was honored by the American Woman's association as the nation's "Woman of the Year." Mrs. Fanny S. Sweeney presents the award. Dr. Gilbreth is the mother of 12 children and grandmother of 18.

## CHINA WAR: Panic

In Nanking, Peiping, Shanghai and other terrorized cities along the China coast the words on the lips of all foreigners was "when will the Communists come?"

And the Chinese themselves, torn with indecision, doubts and mob violence, were wondering the same thing.

FOOD RIOTS and strikes flared in Hankow, Shanghai and Nanking. Undisciplined throngs roamed the streets. People were trampled to death or injured. Police fired on the rioters. The evacuation of Americans from China was being carried out hastily but efficiently.

In north central China the position of the Nationalist forces was growing worse hourly. Suchow and Pengpu were reported virtually isolated by Communists. The Yangtze river was feared open to a Red crossing that would expose Nanking.

THE WHOLE economic structure of the Chiang Kai-shek government appeared to be crumbling and sliding into a Red ruin in the wild melee along coastal China. Value of the gold yuan plummeted downward.

The question was not only, "when are the Communists coming?" but "how long will the central Chinese government last?"

This appeared to be the great, all-consuming crisis in Chiang Kai-shek's decade-long struggle to maintain a spark of life in the Chinese republic. But the cold, smothering wind of Communism was blowing strong.

RED TROOPS had taken control of Manchukuo, former National stronghold in the North, and that victory appeared to be the key which the Communists could use to sweep down into the vital areas of China itself.

For Chiang and his woefully weak Nationalist government the past 11 years had been nothing but an agonizing battle against imperialism—from the Japanese Fascistic brand beginning in 1937 to the Communist type which presents the current peril.

## REBUILT: By Stassen?

In the clear, bitter post-election light the Republican party turned upon itself in a fury of self-examination and didn't like what it saw.

MOST OF the top-level influential party members wanted to see some changes made, and most of them seemed to think that Harold E. Stassen was the man to make them.

As a result, the former governor of Minnesota, now president of the University of Pennsylvania, may be assigned the job of rebuilding the GOP for the 1952 presidential campaign.

STILL licking their wounds, GOP leaders were urging the youthful Stassen to lead a movement to shape the party along more liberal lines. Those party liberals were planning to meet with Stassen for a "brass tacks" discussion of a party reconstruction.

Stassen was refusing to comment on the reports that he might step in as general contractor for the reconstruction job, but it was a known fact that he was being swamped with requests, many of them from Republican bigwigs, to undertake the task.

"I THINK the situation calls for some reflection," was the only comment the man who had been defeated by Governor Dewey for the GOP presidential nomination would make.

One of Stassen's promises when he dropped out of the presidential nomination fight at Philadelphia last June was to work toward strengthening "the liberal viewpoint within the party."

## MILLIONS DEAD: Legally Now

The United Nations has made public a projected world convention for declaring dead the millions of refugees, soldiers and other persons who disappeared between 1939 and 1945 under circumstances suggesting "death as a consequence of events of war, of racial, religious, political or national persecution."

It is aimed to solve such problems as inheritances, adoption of children and remarriages

## NEEDLEWORK PATTERNS

### Gay Apron Has Circular Skirt Crocheted Motif Prize Winner

#### Lacy Tablecloth

THIS lovely five-inch motif can be used for a lacy tablecloth, bedspread or as a long runner as pictured. Crochet it in white or ecru cotton. It's a design that has won many prizes; you'll look a long time before you find a prettier one.

#### Kitchen Apron

A WONDERFUL idea for a kitchen shower or for your own apron wardrobe! This handsome circular skirt apron is so easy to make and does a good job of protecting pretty dresses. Gay colorful tulips are embroidered in simple cross stitch.

To obtain hot iron transfer for embroidery design, tissue pattern for medium size, step-by-step instructions for embroidering and sewing apron (Pattern No. 5798) send 20 cents in coin, YOUR NAME, ADDRESS and PATTERN NUMBER.

#### Child's Wheelbarrow Is Constructive Toy

CHILDREN love equipment that looks like the real thing. This wheelbarrow is an exact duplicate, measuring 46 inches overall. Since the sides are removable, the youngster can help with many gardening tasks. Be sure to per-

mit the child to help build this wheelbarrow. It will provide many constructive hours and tend to make him more careful when using it.

The full size pattern offered below takes all the mystery out of building. Merely cut each piece of wood according to the pattern, then assemble it exactly as step-by-step directions indicate.

No special tools or skills are required. Anyone who knows the difference between a lathe and a saw should be able to build this wheelbarrow in a minimum of time.

Send 25¢ for Wheelbarrow Pattern No. 5864 to Lacy-Child Pattern Company, Dept. W, Pleasantville, N. Y.

## ASK ME ANOTHER?

### A General Quiz

1. What fabulous lost body of land will soon be searched for by radar?
2. How many descendants of the Mayflower colonists are there in this country?
3. Which ball game has the highest forfeit score?
4. Was Abraham Lincoln the only President of the U. S. born in a log cabin?
5. What is a bird's temperature?

### The Answers

1. The legendary continent of Atlantis.
2. About 61 million.
3. Baseball. The score of a forfeited baseball game is 9-0.
4. No, there were six others: Jackson, Polk, Buchanan, Garfield, Arthur and Harding.
5. From 104 to 110 degrees Fahrenheit.

Quick, do something about it. Take Crazy Water Crystals. Help drive away that miserable feeling. This pleasant tasting mild laxative is used by multitudes. Crucian, use only as directed. Sold by drug stores everywhere.

## CRAZY WATER CRYSTALS

**Pay Heed To Highway Signs And 'Stick Around' Awhile**

Signs and signals are among the biggest helps to safe driving, the National Safety Council says. "They give drivers warning of the dangers that lie ahead. But they are worthless unless seen and obeyed. The safe driver will follow these signposts:

1. Give signs, signals and markings the same respect you would a traffic officer. Here's one place you may lose if you cheat.
2. Reduce speed and be on guard when you see a diamond-shaped sign (this shape carries a warning) or a round sign (this signifies a railroad crossing is ahead).
3. Come to a complete stop at an eight-sided or octagonal sign. This shape means only one thing—stop!
4. Know what an oblong sign says. This shape carries regulatory messages such as speed limit.
5. Heed the cross-buck sign at railroad crossings. If there is a flasher or wig-wag, wait until it stops operating before crossing. There may be another train you can't see.
6. Watch for the signs of life even on familiar roads. Three-fourths of the drivers in fatal accidents lived within 25 miles of where the accident took place.

If you—like millions of others—are pondering the Christmas present problem, a local dealer has a handy answer. He will have Christmas gift cartons of cool, mild Camel cigarettes and pound tins of flavorful Prince Albert Smoking Tobacco. Both these items come festively dressed for the holiday season and make ideal gifts for your smoking friends. The Camel carton contains 200 mild, flavorful Camels, while the Prince Albert container is chock-full of mellow smoking joy that has made Prince Albert the country's largest-selling tobacco. Both gifts require a minimum of fuss, due to the unique space provided for your personal Christmas greetings. (Adv.)

**CHANGE of LIFE?**

Are you going through the functional "middle age" period peculiar to women (35 to 52 yrs.)? Does this make you suffer from hot flashes, feel nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a stomachic tonic effect!

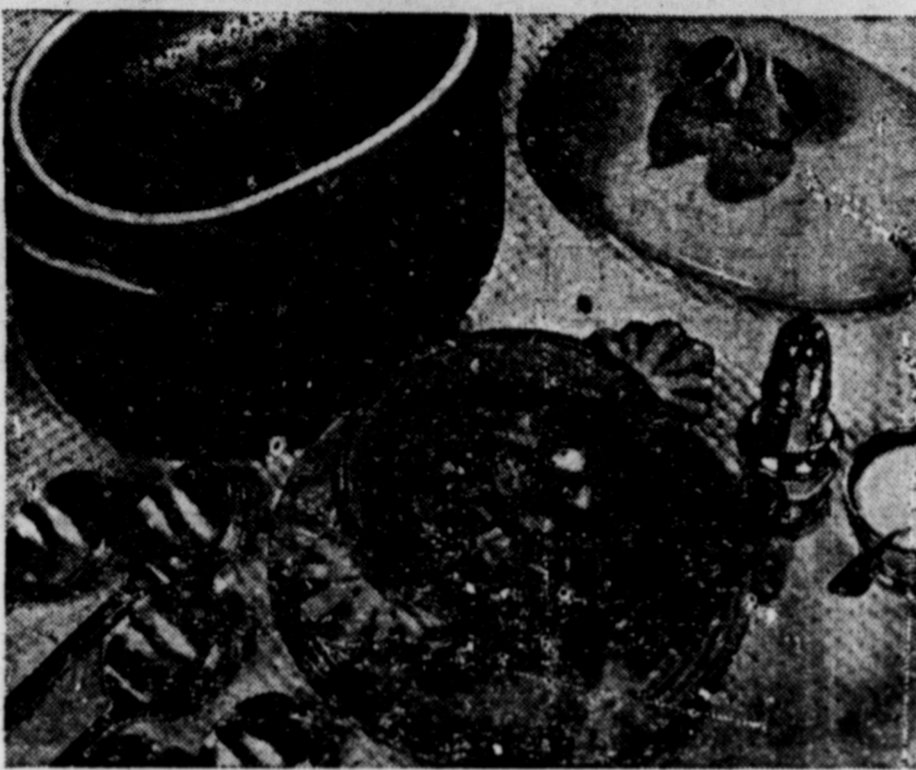

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

**Kidneys Must Work Well—**

For You To Feel Well  
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus acid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.  
Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging back-ache, headaches, dizziness, rheumatic pains, getting up at night, swelling.  
Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

**DOAN'S PILLS**

**HOUSEHOLD MEMOS... by Lynn Chambers**

Soup Makes an Easy Supper!  
(See Recipes Below.)

**Menu Short-Cuts**

THERE'S shopping, cleaning, baking, decorating, wrapping Christmas presents and a hundred other things to do these days before Christmas. Where does one find time to plan and make meals? Now is an excellent time to put menu short-cuts into operation. Plan to serve soups often, not as a first course, but as a main dish. Serve those casseroles, too, that whip together in no time and bake in half an hour or so without any watching or further attention. Have foods that are hearty, and make certain there's enough for seconds or thirds because the family will be hungry now that appetites have been sharpened by cold weather.

HERE ARE some excellent soups which can easily take the place of a main dish at dinner.

- Navy Bean Soup (Serves 6)**  
1 1/2 cups dried pea beans  
2 quarts cold water  
Lamb bones  
2 tablespoons salt  
1 clove of garlic, peeled  
8 to 10 peppercorns  
1 bay leaf  
4 sprigs parsley  
1/2 cup minced onion  
1/2 teaspoon pepper  
1/2 teaspoon marjoram  
2 cups canned tomatoes

Pick over beans, then wash and soak in cold water overnight. Drain; measure liquid, from beans and add enough to make two quarts. Add to beans with lamb bones and salt. Tie the next six ingredients in a cloth bag and add to water and bones. Cover, bring to a boil, then simmer for four hours until beans are tender. Remove bones and spice bag, then strain soup. Mash beans. Add any pieces of meat which cling to bones and the tomatoes. Reheat and serve hot.

SOUPS take long to cook, but, of course, need little watching, and thus they are such time-savers to have for meals. Here's another delicious, hearty soup!

- Oxtail Soup (Serves 12)**  
1 1/2 pounds lean beef  
2 oxtails, split  
5 quarts cold water  
1 tablespoon salt  
1 large onion, diced  
1/2 cup celery root, diced  
1 tablespoon chopped parsley  
2 tablespoons fat  
2 tablespoons flour  
3 carrots, diced

Cut oxtail into small pieces and fry lightly in fat. Cube the beef and add with oxtail to water and salt. Place in large kettle, cover and let cook slowly for about four hours. Add vegetables and cook for one hour longer, or until stock is reduced by half. Strain. Heat fat in skillet, add flour and brown slowly. Add one cup of the soup and then stir into remaining stock.

**LYNN SAYS: Now's the Time to Get Ready for the Holidays**

If you're buying fresh flowers, lengthen their life by spraying liquid wax on them. Be sure the leaves and petals are free from water before waxing.  
Broken bits of cookies, rolled fine, should be kept in jars so they will be ready at a moment's notice to be rolled into a crust for pie. Use one of the ready-mix puddings for the filling and top with whipped cream or meringue.

**LYNN CHAMBERS' MENU**

- \*Corn Chowder
- Toasted Muffins Butter Jelly
- Grapefruit-Pineapple Salad Beverage
- \*Fig Pudding Cream
- \*Recipe given

- \*Corn Chowder (Serves 6)
- 4 cups diced potatoes
- 2 cups boiling water
- 1 2" square fat salt pork
- 1 large onion, sliced
- 1 No. 2 can kernel corn
- 1 quart milk
- 2 teaspoons salt
- 1/2 teaspoon pepper

Cut salt pork into cubes and brown in a large saucepan. Add onion and cook until tender. Add diced potatoes and water; cover and cook until potatoes are tender. Add corn, milk and seasonings. Heat and serve garnished with a sprinkling of paprika.

Leftover meats are put to good use in these casseroles which will make easy work for you on these busy days before the holidays.

- Noodles Neapolitan (Serves 6)**  
1/2 pound noodles, cooked  
2 1/2 cups sliced chicken or ham  
1 cup milk or cream  
2 eggs  
1 cup buttered bread or cracker crumbs

After noodles are cooked in boiling, salted water, rinse and drain them. Into a well-greased dish, place layers of noodles, then meat and repeat until all are used. Beat eggs, add milk, and pour over noodles and meat. Top with crumbs. Bake in a moderate (350-degree) oven for 25-30 minutes or until browned on top.

THE FRUIT puddings mentioned earlier need take no longer to make than the main dishes for the meal. Both of these recipes for desserts are nourishing and will be well received.

- \*Fig Pudding (Serves 6)**  
2 eggs, beaten  
1 cup sugar  
2 tablespoons flour  
1 teaspoon baking powder  
1/2 cup walnuts, chopped  
1 cup figs, chopped

Beat eggs until light, then add sugar, sifted flour and remaining ingredients. Stir well and bake in a buttered casserole dish in a slow (325-degree) oven for 25 minutes.

- Apricot Whip (Serves 6)**  
1/2 pound dried apricots  
1/2 cup sugar  
Whites of 5 eggs  
1/2 teaspoon lemon juice

Pick over and wash fruit. Cook in water, just enough to cover, until soft. Remove stones and put through strainer. Add sugar and cook five minutes. Beat egg whites until stiff and fold in fruit. Heap lightly in a buttered baking dish and bake in a slow (325-degree) oven 35 minutes. Serve with custard sauce or cream. Released by WNU Features.

If you're making several different kinds of cookies, label their tins and jars so you can find each kind when you want them.  
Crisp cookies should not be stored with soft ones or they will become soggy.  
Jars of cheese kept on hand will be put to work easily, satisfying a horde of hungry guests who just drop in for a visit.  
One fruit gelatin salad and one molded vegetable salad are good to have on hand for holiday week-ends for unexpected guests.

**SEWING CIRCLE PATTERNS**

Pattern No. 1823 is for sizes 12, 14, 16, 18 and 20. Sizes 14, short sleeve, 4 1/2 yards of 29-inch.  
The Fall and Winter FASHION offers a wealth of sewing information for the home dressmaker. Special designs, fabric news—free pattern printed inside the book, 25 cents.

**Development of Bicycles Traced to 1816 'Celeripede'**  
Joseph B. Niepce, French physicist best known as one of the inventors of photography, was active in other fields as well. In 1816 he invented the "celeripede," or "hobbyhorse"—two wheels and a crossbar upon which the rider sat while he propelled himself with his feet against the ground. It was the forerunner of the modern bicycle.

There were a few minor improvements during the next two or three years. But the price was high and the machine was not within the reach of ordinary folk; thus it became known as the "dandy horse." It even reached America, but the natural crudities of the device finally ended the craze.

The idea of propelling oneself on wheels, however, had taken root. The velocipede, or "boneshaker," was the first crank-driven bicycle, developed in 1865. It was well named. With heavy wooden wheels, thick iron tires and a massive iron backbone, these machines were extremely heavy and they vibrated in a terrifying manner over the rough roads.

Then came the tall "ordinary," with front wheels sometimes over five feet in height. But it was not until 1876—a little over 70 years ago—when H. J. Lawson invented the first rear-driven bicycle. Then followed many patented improvements and in 1877 Col. Albert A. Pope of Boston organized the Pope Manufacturing company, launching the bicycle-making industry in the United States.

Pneumatic rubber tires followed in 1889. Free wheels, which enabled the bicycle to coast, were introduced in 1894. By the turn of the century the tandem, or "bicycle built for two," had become exceedingly popular. The bicycle industry, spurred by invention, soared to new heights.

Today it is estimated that more than 60,000,000 bicycles are in use throughout the world, 12,000,000 of them in the United States.

**Italian Riviera Is Cheaper Than French**

If you are confused on the "Riviera" shores of the Mediterranean, as between Italian and French, this may help: The French Riviera begins at Marseilles and runs past the resort cities and towns of Cannes, Nice, Cap d'Antibe and Juan Les Pins to Monte Carlo. There begins the Italian Riviera, much less expensive than its French neighbor.

**STATE TEACHERS MEET, PLAN SCHOOL BETTERMENT**

Austin, Texas, Nov. 22.—Legislation the 40,000-member Texas State Teachers Association will sponsor for improvement of the state educational system will be determined at its seventh annual convention in Dallas Thursday, Friday, and Saturday of this week.

A record number of more than 15,000 teachers are expected to attend the three general sessions and the more than seventy sectional meetings and other special sessions arranged.

Educators agree that the main requirements to improve the public school of Texas are more qualified teachers and better school buildings and equipment. Miss Emma Mae Brotze of Marshall, president of the Association, pointed out here today.

To attract more persons into the teaching profession, the association is expected to ask the legislature to increase the minimum annual salary for teachers with bachelors degrees to \$2,400. The minimum is now \$2,000. Texas this year is short several thousand qualified teachers.

Teachers also receive increments for their years of experience and additional degrees. An increase for these is also expected to be asked. The convention will consider means of more equitable distribution of state funds to the districts, possible by extending the provisions of the equalization law. Under it, schools in less prosperous sections, up to those having fewer than 1,500 pupils are now given funds in addition to the per-capita apportionment.

The teachers are also expected to vote favorably upon a proposal to enact a uniform contract law. The general sentiment at present is in favor of such a measure under which school districts must hire teachers for a specific number of years, the number increasing with the second and third contracts under which the teacher serves.

A mandatory, cumulative sick leave law is also scheduled for consideration.

The convention will hear reports on the recommendations of the Gilmer-Aikin committee. It was created by the last legislature, ordered to study the needs of the Texas schools and make recommendations to the next legislature, which meets in January.

Legislature matters and various reports will be placed before the general convention, the associations 350-member house of delegates and the executive committee.

The convention, in its three general sessions, will hear a number of nationally-known educational authorities. They include Dr. Frank P. Graham, president of the University of North Carolina and a pioneer in atomic research; Dr. Willard E. Goslin, Pasadena, Calif., president of the American Association of School Administrators; Bruce Findlay, assistant superintendent of the Los Angeles, Calif., school system, and Lew Parmenter of the National School Service Institute, Chicago.

More than 150 leading educators and laymen will participate on the program of seventy-six sectional meetings, breakfasts, luncheons and dinners.

Slated to succeed Miss Brotze as president of the association is Joe C. Humphrey of the Abilene High Schools and a former state representative. Miss Waurine Walker of Waco, president of the Texas Classroom Teachers Association, is expected to be elected first vice-president. Neither is opposed.

Charles Mason and Jeremiah Dixon surveyed the boundary line between Pennsylvania and Maryland which came to be known as the Mason Dixon Line.

# Why New Telephone Rates Are Necessary At Tahoka

NO BUSINESS CAN long survive and charge less for its products and service than it costs to furnish them.

GREATLY INCREASED COSTS of furnishing telephone service make necessary for the telephone company to place new rates into effect at Tahoka.

PRESENT RATES for telephone service were established in August 1940. Since August 1, 1940, the telephone system at Tahoka has grown from 419 telephones to 712. We are proud that in these eight years we have been able to expand and improve our service without increasing rates. But the pyramiding effect of increased costs of operation—higher wages, taxes, materials and equipment—make new rates necessary despite the use of every possible economy consistent with sound business management.

## EXPENSES ARE GREATER THAN INCOME

During and since the war, the demand for telephone service has been tremendous. While revenues have increased, the costs of furnishing service have increased much faster.

Present trends indicate that we will lose approximately \$6,700.00 in 1948 at the present rates.

The cost of almost everything that goes to make telephone service—and almost everything is needed—has increased sharply since 1940.

For illustration:

Payroll (wages), our biggest expense, is away up. Seven (7) general wage increases have been granted employees since 1940. Telephone poles cost 110 percent more than in 1940—cable is up 119 percent—and manufactured items as much as 139 percent.

## NEW RATES ARE REASONABLE

The new rates are reasonable and are necessary to help pay the cost of furnishing telephone service. We do not seek big profits, only reasonable rates that will provide enough earnings to place the system on a sound financial basis, and which will enable us to expand and improve service.

## ADEQUATE EARNINGS ARE ESSENTIAL

To carry out its expansion and improvement program, the company must spend many thousands of dollars for new plant and equipment. This money must come from the savings of people who want to invest in something that will bring them a reasonable, regular return. A sound financial business with reasonable earnings is essential to attract new money necessary to expand and improve telephone service.

## NEW RATES

The new schedule of rates for Tahoka is given below. Federal taxes which apply are not included.

Class of Service	Rate Per Month		
	Wall	Desk	Handset
<b>BUSINESS:</b>			
Individual Line Service			\$5.50
Two-Party Line Service			4.25
Extension Service			1.50
<b>RESIDENCE:</b>			
Individual Line Service			\$3.00
Two-Party Line Service			2.50
Extension Service			.75
<b>RURAL:</b>			
Business (Metallic)	\$3.50	\$3.75	\$4.00
Business (Grounded)	3.00	3.25	3.50
Residence (Metallic)	2.50	2.75	3.00
Residence (Grounded)	2.00	2.25	2.50

For residence users the new rates represent an increase of 1 1/2 cents per day. For business users the rates represent an increase of from 3 1/4 to approximately 4 cents per day.

Compared with increases in prices you must pay for other things—food, clothing, automobiles and almost every other item in the family budget—the increase in telephone rates is moderate.
