## Tahoka Bulldogs Start Basketball Season With Win

Tahoka Bulldogs opened their basketball season Tuesday night by taking a double-header from the Sundown Roughnecks, the A team winning 28 to 19, and the B team turning a 22 to 20 victory. Both games were thrilling contests all the way.

In the A team game, Sundown jumped into an early lead, and was ahead 8 to 2 at the quarter, but in the second quarter the Bulldogs found the basket three times and score stood 11 to 8 in Sundown's favor at the half. Early in the third Sundown ran its score up to 17 before the Bulldogs could find the basket and many fans began to think the game was going to be a runaway. The Bulldogs had other ideas, however, and hit the basket for 20 points in the second half to win going away. Incidentally, the visitors did not score a point after midway in the third quarter.

Among the boys seeing action on the A team were Jimmy Small and Duane Carter at forwards, Travis Morgan and Alman Crotwell at center, and Bob Boyd and Doug McNeely at forwards. Boyd was the high point man with 12 points, and Carter scored 8. McCollum was high for the visitors with 7.

The B game was a crowd pleaser, also, with the home team ahead all the way until the final two minutes, when the score was tied at 200-11. Slover got loose, sank his shot, and the game was Tahoka's 22 to 20. Bennett was high point man with 13. Boys appearing on the B squad included Brice, Adams, Lockaby, Townsend and McNeely at forward, Polk and Bill Draper at center, and Bennett, Slover and Halanicek at guard.

Among the others not mentioned above who are out for the team are Henry, Franks, and Kelley.

Though the boys have not yet developed into a smoothly operating

(Cont'd on back page)

## Decoration Prizes Offered by C. of C.

Two prize Christmas decoration contests are being sponsored again this year by the Chamber of Commerce as a part of the community Christmas program, one for store decorations and one for residence decorations.

For the best decorated show window in the business district, a first prize of \$15.00 and a second best prize of \$10.00 will be given. Prizes of \$15.00 and \$10.00 will also be awarded in the home decoration contest.

The decorations need not be expensive and elaborate, necessarily, according to Clint Walker, as it will be possible to win with the use of good judgment and good taste.

Judging will be done by an impartial committee, possibly from some other town.

## Women Present The News Force A Cake

The News owes thanks to the Home Demonstration Club ladies for a delicious Angel food cake presented the force last week.

Mrs. J. W. Lowrey, in making the presentation on behalf of the women said the cake was a token of their appreciation for the publicity The News had given their activities. Publicity is The News' stock in trade, most of which is given free to civic organizations which do not operate for profit. However, such gestures make the force feel that the space contributed was sincerely appreciated. There's nothing we like better and get less of than cake. Thanks, ladies.

## Congratulations:

Mr. and Mrs. B. L. Ernst, Route 4, on the birth of a daughter weighing 6 pounds 10 ounces at 9:52 a. m. Sunday in St. Mary's Hospital in Lubbock.

## New \$100,000 Tahoka Hospital Will Hold Open House Saturday and Sunday

## Tahoka Hospital Formal Opening This Week End

The new Tahoka Hospital and Clinic is now complete and fully equipped, and a formal opening of the institution will be held Saturday and Sunday from 2:00 to 5:00 p. m. each day, during which time the public has a cordial invitation to inspect the institution from stem to stern.

Erected by Dr. Emil Prohl at a total cost of \$100,000, the hospital is modern in every respect, has 15 patient rooms, and is built to take care of 35 patient rooms when such an enlargement becomes necessary. The building is of tile, brick, concrete and stucco construction, and is completely fireproof. Equipment is of latest hospital design, and the institution meets the full requirements of the American Medical Association.

The building itself, fronts on South First Street and is T-shaped. The top part of the T, facing the street is 89 feet long, including Dr. K. R. Durham's adjoining dental clinic. The structure extends 165 feet from front to back. The bottom part of the T is the operating department, Clinic, waiting rooms, and offices occupy the front.

The building is heated by hot air and is air cooled. The operating rooms are air conditioned, and have an independent heating system in order that the odor of anaesthetics may be kept from the other parts of the hospital.

Interior walls are plastered in restful pastel colors. Ceilings are of celotex, and the concrete floors are covered with asphalt tile. Glass brick is generously used in the structure, especially in the operating rooms, delivery room, and examining rooms, where light is so important.

The public entrance is into the waiting room. Adjoining this on the west is the business office; beyond that, the offices of Dr. Prohl and his associate, Dr. C. Skiles Thomas, and five examining and treatment

(Cont'd on back page)

## Post Antelopes Will Meet Phillips

Much interest is being shown in this area in the Post Antelopes' progress in the state Interscholastic League Class A football race, which will go to a state championship this year for the first time.

Last Thursday, Thanksgiving day, the District 4-A champion Antelopes defeated District 3-A Lockney 7 to 6 in Jones Stadium, Lubbock, before a crowd of 9,000 people.

Saturday at 2 p. m. Post meets the Phillips Blackhawks on Butler Field in Amarillo, and quite a few Lynn county fans plan to see that game.

This year, Post has defeated Ralls 40 to 6, Spur 13 to 7, Seagraves 24 to 0, O'Donnell 31 to 0, Tahoka 27 to 7, Snyder 32 to 0, Levelland 14 to 6, Lubbock Cowhands 19 to 0, Slaton 12 to 6, Littlefield 14 to 0, and Lockney 7 to 6.

Phillips, almost a suburb of Borger, has defeated Panhandle 33 to 9, Wellington 32 to 0, Floydada 32 to 6, Shamrock 7 to 6, Dalhart 38 to 0, Canyon 26 to 0, Dumas 43 to 0, Hereford 33 to 6, Tulia 19 to 0, Perryton 7 to 0, and Lefors 14 to 0.

Interesting is the fact that the Phillips teams have won 95 out of 122, and tied two games in the last ten years of competition, five of the losses being to Class AA Schools. They have in ten years won eight district championships, eight bi-districts, and six regional playoffs, with a chance to make it seven.

More remarkable, this year's team has a backfield composed of four boys, one of whom weighs only 120 pounds, two of whom weigh 128 each, and the fourth 135. However, many fans in this area don't believe Phillips can stop Post's Junior Malouf.

## Draw Churches Are Conducting Contest

The Draw Methodists and the Redwine Baptists are engaging in a S. S. attendance contest, or rather it is a joint effort to increase their attendance. The leaders are gratified with the results. The Methodists started out ahead on the first Sunday, the Baptists gaining most of that lead back on the second Sunday and going to the lead on the third Sunday. Last Sunday the Methodists pushed a little in the lead for the month. They each had an average of close to 70 for each Sunday, with one Sunday being bad weather. They each have a local church membership of in the eighties. That is about 80% of their Church membership.

The effort is to continue through December, and close with a friendly get-together of the two groups of church workers, probably in a watch-night service, December 31. There will be no "penalizing" for the church that may not be in the lead. But a big basket supper for all to enjoy after a friendly effort to excel each other, and we trust a real gain in attendance for each.

Each Church shall be glad for all of its members to get in on this friendly "contest", and make their side show up ahead, or at least with a healthy increase in attendance.

## High School Will Crown Its Queen

On Friday, December 10, at 7:30 p. m., in the grade school gymnasium, the Tahoka P. T. A. is sponsoring the coronation of the High School Queen.

There will be a variety program given for the Queen and her court. The Christmas theme will be carried out in the decorations and program, which will be one of the most beautiful and entertaining events ever held in our schools.

The price of admission will be 25 and 50 cents. —Reporter.

## George Smalls Will Observe Anniversary

On Saturday of this week, December 4, Mr. and Mrs. G. W. Small will celebrate their Golden Wedding Anniversary.

They will hold "open house" from 3:00 to 6:00 in the afternoon, when many friends are expected to call and extend congratulations.

Mr. Small says some members of the family undertook to send out personal announcements of the event but found it to be such an unending task that they failed to get around to many of their best friends and he wants it to be understood that all their friends will be welcomed.

The Smalls are among the earliest pioneers of Tahoka and their friends are legion.

## Fire Does Damage At Carmack Gin

Fire broke out in the cotton house at Carmack's gin Wednesday afternoon of last week. A considerable amount of cotton was destroyed or damaged and the building slightly damaged before the fire could be brought under control.

The loss was covered by insurance according to C. O. Carmack, the owner.

## Community Farmer Committeemen Will Be Elected December 6th to 18th

Community farmer committee elections will be held in Lynn County from December 6th through December 18th. Clarence Church, Chairman of the County Agricultural Committee announced today.

At these elections committeemen to administer the Agricultural Conservation Program and related programs for 1949 will be chosen. Since both the Agricultural Conservation Program and Price Supports are of vital concern to the farmers of Lynn County, it is to the best interest of each farmer to participate in this election.

This farm program with its elected farmer committeemen gives farmers an opportunity to administer their own program. It is truly a democratic method of administration.

Mr. Church said that any person who is participating in the 1948 who is participating in the 1948 Agricultural Conservation Program, or who is eligible for a commodity loan or other priced support, is eligible to vote in the elections.

Details of how the elections will be held are as follows: Voting by

## Baptists Sell Old Parsonage

Officials of the First Baptist Church last week entered into a contract for the sale of the present parsonage to Willis Pennington for a consideration of \$7,000 cash.

Abstract is being brought down to date and deed will be executed and the deal closed as soon as the title approved by Mr. Pennington's Attorney.

An advertisement of the property run in this paper brought several offers but the deal with Mr. Pennington had been virtually made when these offers came.

Work on the new parsonage is being finished this week. The brick have been ordered and are expected in a few days. Brick work will then begin, and it is expected to have the house ready for occupancy by the end of the month. The maximum cost was set at \$17,000 several weeks ago, and it is still believed that the cost will not exceed that amount.

When finished, this will be one of the most commodious and attractive residences in town.

## Home Burglarized Near New Home

Sheriff Sam Floyd reports that the residence of a Mexican, Pedro Quillimaco, situated a few miles out northwest of New Home, was burglarized on the night of Sunday, November 21, and a foot locker containing clothing and \$105.00 or \$106.00 in silver was stolen.

Quillimaco and his family were visiting in Lubbock at the time. Entry was made by forcing a door open.

Pat Swann and Grady Boyd of Wilson were pleasant callers at the News office Tuesday. Both have farms with irrigation wells on them and they never worry about where the next meal is coming from.

## Christmas Lights Are Turned On

The Christmas lights have been turned on, store windows are being decorated, the business houses have their holiday line of merchandise on display—and suddenly the town has awakened to the fact that holiday season is on.

Lights were turned on this week, and other decorations are going up daily.

At a recent meeting of civic club representatives, a Christmas program of activity was arranged that will be more extensive than any undertaken heretofore. This will include playing of Christmas carols, a visit from Santa Claus, a free picture show for kiddies, the giving away of turkeys to visitors to Tahoka business district during Christmas week, and delivery of Christmas cheer packages to needy families.

## Mexican Fined For Drunken Driving

A Mexican entered a plea of guilty to a charge of drunken driving in the county court here Monday morning and Judge Tom Garrard fixed his punishment at a fine of \$75.00 and costs. He paid off.

Deputy Sheriff W. C. Brush of O'Donnell is reported to have rounded up nine Mexicans in that town last Saturday night on charges of drunkenness. Complaints were filed in the justice court there and it is presumed that all of them paid off.

## REV. AND MRS. CARMACK HAD THANKSGIVING GUESTS

The Rev. C. F. Carmacks were made happy Thanksgiving by visits from a sister of Mrs. Carmack and two of their daughters.

Miss Deola Moates of Houston was the sister who visited them, and the daughters were Mrs. Ben Wileman of Oklahoma City and Mrs. A. B. Swan of Albuquerque. Mrs. Wileman was accompanied by her daughter and Mrs. Swan by her 10-year-old son.

Mrs. Swan taught in the local schools for a number of years before she and her husband left Tahoka, twelve or fourteen years ago. She states that her husband, "Boots" now has a nice garage business in Albuquerque.

## MISS MARGARET HUTCHISON OF OKLAHOMA CITY VISITS HERE

Miss Margaret Hutchison of Oklahoma City was here over the week end visiting her father, James S. Hutchison, her brother Pat, and her sister, Mrs. K. R. Durham, and their families.

Miss Hutchison, long engaged in religious work, is now Executive Secretary of the State Woman's Missionary Union of Oklahoma.

Mr. and Mrs. W. O. Robertson of Mt. Pleasant, former residents of Tahoka, came out to spend the last week-end with their daughter and little grandson, Mrs. Edith (Kenneth F. Wayne) Nevill and Leslie. They left for their home Tuesday morning, accompanied by Mrs. Nevill and little son Leslie.

## Plains High School Burned Saturday

The Plains high school building was completely destroyed by a fire of undetermined origin last Saturday night during the terrible sandstorm which swept this section, according to Mrs. Travis Mason, one of the teachers, who was here the first of the week.

The fire was not discovered until it had made great headway, and all the equipment and school records were likewise destroyed.

Mr. Mason is high school principal. Both formerly taught in the local schools.

## Former Tahoka Girl Is Seymour Queen

Relatives here report that Jane Taylor, daughter of Mr. and Mrs. Roy Taylor and a former Tahoka student, was crowned High School Queen at Seymour recently in the annual school carnival there.

Jane is also one of the baton twirlers in the Seymour High School band. She and her parents formerly lived at West Point in this county.

## MRS. E. S. DAVIS HAS CHILDREN AS SUNDAY GUESTS

Mrs. E. S. Davis had as her guests Sunday before Thanksgiving the following sons and daughters and "in-laws": Mr. and Mrs. Hubert Davis of Abilene, Mr. and Mrs. Sherman Davis of Lubbock, and Mr. and Mrs. Daniel Davis of Amarillo; also two grand-sons, Hubert Edwards Davis of the Texas Technological College, Lubbock, and Joe Bob Edwards of the West Texas State College of Canyon.

Mrs. Davis left on Friday for an extended visit with her two daughters in California.

Judge B. P. Maddox, who was recently very ill, has been back in his office in the court house.

## Boyd Tells Of Mexico Fishing

To the Editor of the Lynn County News: We have a little more news about our trip to Old Mexico that might be of some interest to the readers of The News.

On our way from Sabinas to Don Martin, we passed a group of men from Arkansas that were stuck in the mud. They wanted us to tie up with them and all go together but we went ahead and arrived at camp about sundown. They had to be pulled in the next day by an army truck with four wheel drive.

Our camp was not modern but was a good camp. The cabins were brick, covered with native straw, that lasts about ten years. The windows and doors were screened and the floor was concrete. Pat Swann and I roomed together in the kitchen while the other boys slept in another cabin.

Last February, I had an operation that gave a lot of trouble and at that time, Pat adopted me and has been taking care of me ever since. He is a good nurse and I am doing well under his care.

The first night we almost froze. It had been raining and the doors were swelled so much that we could not shut them. I thought I had a good cot but some time in the night one end of it fell to the floor and there I was with my head on the floor, my feet in the air and my finger caught in the wreck. The next night we slept with all of our clothes on except our shoes, in addition to this I kept a fire going all night. We burned green wood, so, the mosquitoes did not bother us.

After we had supper the first night, August Bruckner put on all of his fishing regalia, which included an electric light on his head. His brother said he looked more like a little boy in the funny paper than he did a fisherman. After August had been out for a few minutes he came back to the house and reported that while he was sitting on the bank, he saw some kind of a sea monster coming right toward him, so, he ran for the house and no one ventured beyond the door any more that night. We never did know whether it was a whale, hippopotamus, or a tadpole that attacked him.

Really, Don Martin is a good place to fish. Monday morning, all except this reporter headed for the lake. Several lines were baited and we took off about seventeen cats the first time they were run. These ranged in size from one to six pounds. If you really want to fish this is a good place if you want to take the risk of going in and out of the country. The bass were not biting while we were there. This gave Pat a good excuse to hunt for a better place to cast his hook. He has a beautiful new motor boat and Jiggs just would not stop long enough for Pat to fish. I had a suspicion that Pat likes to ride as well as fish.

By the way when a man goes a fishing he has to turn his check book over to his wife or give a part of the rent on his farm land, if he expects her to be in a good humor when he returns. In this case Pat gave his wife the rent off a lettuce crop. I am just wondering what the proceeds were from the sale of this crop.

If you have a weak stomach, remember, I am not responsible if you read the rest of this page. I was curious to know where our water was coming from, but some of the men assured me that it was coming from a good well near by. I was a little suspicious because I could not see the bottom of the bucket. Then, I pressed my investigation a little further, only to find that a dead mule was in the lake, near where we dipped up our water.

W. G. Boyd.

### NEXT SUNDAY IS VICTORY DAY

Next Sunday has been designated as Victory Day at the First Baptist Church, and Rev. C. T. Aly is hopeful that the Church will make it just that.

His morning sermon theme will be "Victory Through Christ."

The Church recently adopted its Financial Budget for the coming year amounting to more than \$25,000 for local, South-wide, and world-wide causes. This is the

largest budget ever adopted by this Church but it is not much larger than the total amount raised by the Church the past year.

Each member of the church will have an opportunity next Sunday to subscribe to the support of the budget and it is hoped that Victory will crown the effort.

Pastor Aly states that in taking the subscriptions emphasis will be placed on Scriptural tithing, and he expresses great confidence that the

Church will accomplish great things in this Victory Day service.

The program, he announced, will begin at 9:15 a. m. with a prayer meeting. Sunday School will open at 9:45, and the worship services at 10:50, at which time he will speak on "Victory Through Christ."

At 6:45 in the evening, a Victory Training Union program will be given, and his sermon at the evening service will have for its subject, "The Revealing Christ."

COMMUNISM AND RELIGION

The News has received a pamphlet issued by the Committee on Un-American Activities composed of nine members of the Lower House of Congress, formerly known as the Martin Dies committee, now headed by J. Parnell Thomas of New Jersey, in which said committee sets out "100 Things You Should Know About Communism and Religion."

That our readers may know generally what the findings of this committee are respecting the subject matter, we are giving a brief summation of its findings, as follows:

This is to tell you what will happen to YOU and YOUR CHURCH if Communism ever takes over the United States of America.

The long and the short of it is

DOCTORS DISAGREE ABOUT ARTHRITIS!

Some claim it is incurable—yet sufferers who have tried REUMA-RUB tell us that this new liquid analgesic gives them wonderful relief from pain and discomfort. REUMA-RUB is a pleasant-to-use Alcoholic Rub that penetrates and stimulates sore aching muscles and swollen joint areas and gives welcome relief. And Remember: You must find that REUMA-RUB gives more relief from pain of Arthritis, Lumbago and Rheumatism than any external remedy ever used—or your money refunded. A large bottle of REUMA-RUB costs only \$1.25 at your Druggist or at

WYNNE COLLEK, Druggist

just this: You can not believe in a man's having a reasonable life under Communism.

In all their plans and actions, the Communists mark down religion as Enemy No. 1. Where they dominate, they attack it head on. Where they do not dominate, they try to deceive and to corrupt from within just as they do in government, in education, in labor unions, and throughout a nation's life in general.

The aim and object of Communism is always the same—complete control over the human mind and body, asleep and awake, in sickness and in health, from birth to death. That is why Communism marks religion Enemy No. 1, for religion in some form is always a basic influence in the life and thinking of any people.

Communism can not dominate family life, for example, until it has first fought its way past the influence of religion upon the family. Communism can not force its own brand of moral code upon a person without first destroying his moral code rooted in religion.

Communism can not make education a weapon in its hands so long as religion is secure in its own right to teach and to educate.

Communism can not dominate unless it has power to remake the life of the people. It can not ignore religion and do that.

So here, then, is a report on what Communism seeks to do about religion in the U. S. A., as judged by what it has already done elsewhere and has SAID it will do here at the first opportunity.

Then follow 100 questions and their answers. We shall publish some of them next week.

After several years delay, it was announced recently that a dam is to be built across the Leon River north of Belton to impound a lake much larger than was at first contemplated. This is a part of the flood control program project to reduce damage from flood waters along the lower reaches of the Brazos River. The purpose of this and other dams is also to impound flood waters for irrigation purposes and for furnishing electric power and light. It would probably be impossible to build a sufficient number of dams across the Brazos and its tributaries to forestall all

damage from flood, but it may be possible to build a sufficient number to greatly reduce the damage. As for irrigation, such dams are of doubtful value, for the waters which they impound cover so large an area of rich farming lands and thus take them out of production as to offset the benefits to be derived from irrigation. The Leon River project, for instance, will inundate hundreds of fields of rich soil along the banks of the Leon River, the Cowhouse, Cedar Creek, Stamode Creek, and other tributaries, and will necessitate the removal of some farmers from their homes, in which case the houses will be moved also. Another item to be considered is that many fine pecan trees along the banks of these streams will be destroyed. So, as great as the value of these dams may be, it can readily be seen that they will entail considerable loss also. Of course land owners and farmers will be reimbursed for their losses but the prospect is not very pleasing to many of them. We note that the Moody Courier last week, situated on the hills seven or eight miles from the Leon River, expressed the opinion editorially that this project would be of doubtful value.

Sandstorms like that which swept over the Plains last Saturday afternoon and night and others which have visited this area recently certainly take away a heavy toll of the soil and every practicable precaution should be taken by farmers to hold to a minimum the damages which may be inflicted by them. Assisted by the Government, many farmers have gone to much expense in hedging against soil erosion by water, but they have not found it so easy to protect against soil erosion from these terrific winds. N. E. Wood and his force are seeking to help our farmers in every way possible, however, to protect their fields, and it is to be hoped that they will meet with a great measure of success in this fight.

The youngest age at which one may be married in the U. S. is 14 years for men and 12 for women.

William James is the 'American philosopher most identified with the doctrine of pragmatism.

Classified Ads Save You Money

The newspapers a few days ago reported the story as to how two men, who were reading suggestive comics were inspired thereby to commit a heartless murder and much sentiment in favor of censoring the comics that appear on our newsstands has resulted from this incident and its publicity. Patent-Teacher Clubs and other civic organizations have spoken out, and it is hoped that something definite may be done to curb this evil. We are in favor of it. But there is another evil in our country that causes a thousand murders for every one incited by the comics. That is liquor; yet, instead of undertaking seriously to curb its evil effects, many of us admit it into our homes, hear its praises sung day after day into the ears of our children, place glamorous magazine pictures of it before their eyes, gulp it down at many of our social functions, and set our approval upon its "moderate" use in every possible way. And, in accordance with the latest authentic statistics there are today 3,000,000 alcoholics in our country, one person out of every fifty having become a slave to the liquor habit. And one can read in the newspapers every day of some homicide committed or somebody killed in a wreck as a result of the use of liquor. If the comics have slain their scores, liquor has slain its tens of thousands.

James John Corbett, heavyweight boxing champion, was known as "Gentleman Jim."

The primary cause of the War of 1812 was the impressment of U. S. seamen into the British navy.

THESE POLES (PLUS WIRE & EQUIPMENT) MEAN "MORE POWER TO YOU"

They are gone from the storage yard now—set up along the new Post-Brownfield transmission line, hung with crossarms, insulators, wire, hardware. By now the line is "hot," bringing power to meet the expanding needs of towns, farms and oilfields in this area.

Those poles filled plenty of yard space. So did the cable reels, the crossarms and other equipment. Yet all that represents just a small part of the total investment we have in plants, lines and substations to furnish good electric service to the Panhandle Plains and Pecos Valley area.

More power to you—that's what we're bringing, every hour of the day and night. More dependable power, more useful power, more abundant power, for your every electrical need.

## 7,567 Bales Cotton Ginned in City

Reports from the five gins of Tahoka show that up to noon Thursday 7,567 bales of cotton had been ginned here this season.

Previous reports show that up to October 28, 3,373 bales had been ginned, and up to November 18, 5,903 bales had been ginned.

The major portion of the crop has been gathered, some of the pickers have gone, weather for gathering will probably not be so favorable hereafter, and hence daily ginnings will average progressively smaller from this time on.

A report for the entire county published last week showed that 24,672 bales had been ginned in the county prior to November 1. We have no report as to the number of bales ginned in the entire county before December 1 but taking the Tahoka ginnings as a basis, the total should run from 48,000 to 50,000 bales.

Cotton seed are still bringing \$75 per ton at the Tahoka gins.

### Travel Dangerous in Tibet

Formerly called the roof of the world, Tibet is located in the very heart of Asia. With an area approximately that of Mexico, the whole of it is more than two miles above sea level. Travel on this windswept plateau is discouraging. Expeditions must be fitted out with scores of pack animals to carry supplies sufficient to last for many months, with a sizable complement of natives to attend them. Mountain passes must be crossed, sometimes at elevations of 15,000 feet, where the air is so rare that breathing becomes difficult. It is scorching hot by day and freezing cold by night. Bandits overrun the country, especially in the nomadic central and northern parts of the country, where nearly every stranger one meets is a potential bandit.

### New Chrysanthemum Introduced

A new outdoor chrysanthemum, Bountiful, has been introduced by the University of Minnesota agricultural experiment station this year. Bountiful is the 24th garden chrysanthemum developed and introduced by L. E. Longley, assistant professor of horticulture at the University of Minnesota, who is in charge of the chrysanthemum breeding project. The Bountiful is an upright, spreading type, medium in height, bearing large trusses of nearly double flowers of long stems. Blossoms are variegated in color.

### Lowly Onion a Hardy Plant

There are many kinds and types of onions. There is, for instance, the Egyptian or tree onion, which is hardy in winter time. They are the ones that bear little bulbs on their seed stalks instead of seeds. Egyptian or tree onions are very delicious for two or three weeks in the spring until the seed stalk starts forming when they get tough. Another onion used a great deal for scallions is the multiplier onion. The multiplier onion divides the bulb and forms anywhere from three to 20 other onions. Another type of scallion onions are those which are grown from sets. Sets are also a method of growing

Our Staff of Nurses and Nurses Aids: Left to right, Mrs. Helen Honeycutt, Miss Lamyrie Ramsey, Mrs. Blanche McIntosh, M. T., Miss Jean Reed, Mrs. Marie Williams, Miss Jimmie Phillips, Mrs. Jennie Irons, R. N., Mrs. Jeanette Brock, Miss Billie Drager, Miss Thelma Romines, Mrs. Lottie Morris, Mrs. Alliene Rouse, R. N. (Not pictured: Mrs. Ola Reid, Miss Betty Findt, Edna Taylor, and Mrs. Kathleen Holtwick, R. N.)

### Experienced Staff At New Hospital

With the formal opening of the new Tahoka Hospital and Clinic this week end, Dr. Emil Prohl, the owner, has assembled a large staff of capable assistants.

Dr. Prohl was reared at Port Arthur. He graduated from Baylor Medical College, Dallas, in 1935, following which he spent his internship at St. Josephs Hospital in Fort Worth, and was on the surgical staff of the same institution for a year. He came to Tahoka in February of 1937. In 1941, he and Dr. Durham built a small clinic, the first unit of the present hospital and clinic.

Dr. C. Skiles Thomas was born and reared in Tahoka, the only child of the late C. A. Thomas and Mrs. Thomas. He went through the Tahoka schools, and in 1942 graduated in medicine from the University of Texas School of Medicine at Galveston. He spent one year at Jeff Davis Hospital in Houston as an interne and then went into the Army Medical Corps, where he spent two and a half years, two years of which he was in the Pacific giving medical and surgical aid to soldiers in the war zones. Following the war, he spent six months on the staff of Houston Methodist Hospital, a year at St. Josephs, Houston, and a year in private practice in that city before coming here to practice last April. He specializes in maternity and diseases of women.

The Hospital supervisor is Mrs.

EMIL PROHL, M. D.

C. SKILES THOMAS, M. D.

Alliene Rouse, registered nurse, who has had many years experience in hospital work.

Laboratory and X-ray technician is Mrs. Blanche McIntosh, formerly of St. Joseph's Hospital, Ft. Worth.

Other nurses are Mrs. Jennie Irons and Mrs. Kathleen Holtwick. Nurses aides are: Mrs. Jeanette Brock, Miss Jean Reed, Mrs. Marie Williams, Miss Jimmie Phillips, Miss Billie Drager, Miss Thelma Romines, Mrs. Edna Taylor.

Clinic assistants are Mrs. Helen Honeycutt and Miss Betty Findt.

Miss Lamyrie is bookkeeper. Mrs. Lottie Morris is dietician. Victor "Shorty" Gonzales is the janitor.

#### CARD OF THANKS

## Verdict's clear - it's the Buy of the Year

It's the Buick SUPER! With Dynaflo Drive! With new room—a new outlook—and features-by-the-fistful that make it the season's top buy!

RIGHT away you know it's a Buick—and another style ten-strike.

And even from the outside you can sense something of its new roominess, something of the wonderfully wide view-of-the-world you get from full-curved windshield, narrow corner posts and stepped-up glass area.

But that just makes a start on the good news.

For the silken magic of sensationally successful Dynaflo Drive is available at your option on all models of this '49 SUPER.

Every wheel rides on Buick's special soft coil springs. Every

OIL DOES IT ALL—with Dynaflo Drive! You just set a lever, step on the gas and steer. The power plant itself, not shifting gears, delivers the power you need—for starting, accelerating, climbing, cruising, every driving condition.

tire is an oversize cushion mounted on a wider-than-usual rim. And every Dynaflo model has an extra plus in self-adjusting valve lifters that keep valves seating themselves just right.

Indeed, each detail—wide swinging doors, gracefully

streamlined taillights, contoured rear bumper, Hi-Poised engine, fine rich finish—marks this as the year's standout car.

And the price tag? Matched against the field, it is almost a command to get your order in.

Check it and see. Your Buick dealer will be happy to oblige—and talk business whether or not you have a car to trade.

ROOM—WITH A VIEW! Seats are broad in this new Buick. And soft, so that there's extra room overhead. And windshields are a full 5 1/2 inches across, glass area in 4-door Sedans stepped up 22 1/2!

Tune In HENRY J. TAYLOR, Mutual Network, Mondays and Fridays

TAHOKA DRUG IS YOUR LOCAL CIRCULATOR

### Short History of Statehood

Hawaii has been a territory of the United States for almost half a century. Annexed in 1898, Hawaii has persistently petitioned for statehood and has waited longer for the honor than any other state, except New Mexico. Thirteen states founded the nation. Five were carved from existing states—Vermont, Kentucky, Maine, West Virginia and Tennessee. The first four were admitted to statehood directly. Tennessee was a territory for a brief period before being made a state. Two were foreign areas when acquired and were made states without being territories first—Texas and California. Twenty-eight others were first territories, then states. Two of the 28 comprised on territory before admission—the two Dakotas.

### Shoe Industry Started in 1846

Most people have worn shoes of one kind or another for centuries. The oldest type of footwear known is the sandal, created some 4,000 years ago, by the Egyptians. The shoe-making industry in the United States started in 1846 when the Mayflower, on its third voyage to America, dropped anchor in the harbor of Salem, Mass. The sea-beard and Isaac Rickman, shoemakers, landed with bundles of hides and the rough implements used in the making of early footwear. Rickman's tools in those days consisted of an awl, hammer, needles, three pegs, beeswax, knives and a variety of rubbing sticks. In 1846 Eli Howe Jr., revolutionized the shoe-making industry by putting the eye of the needle in the point and gave the world a machine which was done away with hours of home dexterity.

### Aviation's Forgotten Man Attends to His Trapping

Forgotten man of aviation is Johnny Moore, of Colington, N. C. He is the lone surviving witness of the first powered airplane flight, the last living man who actually lent a hand to the Wright brothers on December 17, 1903, when they put their flimsy craft into the wind and flew the astonishing space of 120 feet.

Johnny Moore is 62 years old now, weathered and carefree. He was 17 years old when he chanced by Kill Devil hill on that memorable date and helped put the Wright plane in position for its run down the wooden rails upon which it was launched and so became truly airborne.

Having thus lent a couple of brawny arms to this historic event, watching the three other flights made the same day, and then seeing the plane crash ignominiously among the hummocks, Johnny casually went back to his eel pots and muskrat traps and to oblivion.

For many years on Kill Devil there have assembled both visiting dignitaries and local citizens, with commemorative wreaths and often as not a squadron of modern military planes to fly over. Johnny Moore, who lives within a stone's throw of the great monument to the first flight, never attended these events. He doesn't like crowds.

### Puerto Rico Home-Building Speeded Up in Big Project

A 50-million-dollar postwar housing boom is helping to ease the extreme housing shortage that has plagued Puerto Rico in recent years.

First of the immediate projects is the huge Puerto Nuevo development in the suburbs of San Juan, where some 5,000 homes are being rushed to completion. Built by private construction interests through the personal stimulation of Gov. Jesus T. Piñero, it is the largest such development ever inspired and insured by the FHA.

Eventually a second 5,000 homes will be built in the San Juan area, while the ultimate goal of the insular government is to see an additional 10,000 low cost homes built throughout Puerto Rico. Each community will have its own schools, shops, churches and theaters, while local bus systems will provide direct transportation services to minimize travel problems.

Priced around \$4,000, these new mass-produced homes can be bought by ex-service men on monthly installments. Most are two-bedroom homes, with bath, kitchen and living room.

FRIDAY, DECEMBER 3, 1948

**AL SMITH'S FATHER IN CRITICAL CONDITION**

J. D. Smith of Lubbock, father of A. L. "Al" Smith of Tahoka, is very seriously sick in the West Texas Hospital and is expected to undergo a major operation this morning, Friday.

A. L. has expressed grave fears as to the results, as the malady has probably grown into the incurable stage.

Mr. J. C. Campbell received word Tuesday that a nephew, J. C. Baxter of Floydada, had died and that funeral services would be conducted Wednesday. He was not able to attend the services.

**MISS JO RITA RAY WEDS MR. THOMAS CLEO LOWE**

At four o'clock Sunday afternoon, November 21 in the home of her sister and brother-in-law, Mr. and Mrs. C. E. Scott of New Home, Miss Jo Rita Ray, daughter of Mr. and Mrs. H. F. Ray of Post, became the bride of Thomas Cleo Lowe son of Mr. and Mrs. Jeff Lowe of Lubbock, in a double-ring ceremony read by Rev. D. W. Reed of Mt. 2 Post.

The bride was given in marriage by her father, and Mrs. C. E. Scott, her sister, served as matron of honor. Mr. Scott served as best man to the groom.

The bride wore a gray dressmaker suit with black accessories and carried a corsage of pink carnations. The old tradition of something old, something new, something borrowed and something blue was carried out. Mrs. Scott, matron of honor, wore a black dress with black and pink accessories and a corsage of white carnations.

A reception followed the ceremony, at which wedding cake and coffee were served to 30 guests. The couple then left for a brief wedding trip, and as part of the bride's trousseau outfit she wore a brown dress with black accessories.

Celebration guests were from Lubbock, Tahoka, and Post. The bride had attended Post High School at the time of her marriage and was employed by the Western Union.

The groom had attended the Morton High School and is an employee of the Texas, New Mexico, and Oklahoma Coaches Inc.

**DURHAM AND WOOD ROTARY SPEAKERS**

With Wynne Collier in charge of the Rotary program Thursday, Dr. K. R. Durham and N. E. Wood were the speakers.

Dr. Durham gave a brief history of the Tahoka sewer system and particularly of the City Sewer disposal farm. Recalling that at one time this farm was a wilderness of weeds and Johnson grass, he declared, that at this time it is the cleanest farm in Lynn county. He gave N. E. Wood and Pat Hines the credit for the transformation.

Proving by Hines that soon after the City acquired it, weeds with trunks as much as 11 inches in circumference were growing upon it, requiring the use of axes and grubbing hoes to hew them down or uproot them, together with a dense growth of Johnson grass, he said that Hines undertook the task of clearing it up and putting it into a decent state of cultivation. By plowing and re-plowing it frequently

from February to September, he got the job done, and the next year they harvested a crop that sold for \$1,600. The next year, only \$600.00 was realized, and the third year only \$400.00.

At that stage the services of N. E. Wood were engaged, and he has recently been superintending the "benching" of the land.

Wood was then introduced to explain what "benching" is and to give some of the results of "benching" in this county. This he proceeded to do in considerable detail, giving much valuable information, which required the remainder of the hour.

In his closing remarks, Dr. Durham introduced Pat Hines, City Water Superintendent, as the man who is due the credit for the pure water which the people of Tahoka are enjoying and for the abundance of the supply.

### with a JOHN DEERE TWO-ROW COTTON HARVESTER

The easiest way to boost your cotton-growing profits is to use a John Deere No. 15 Two-Row Cotton Harvester. Based on 1947 labor cost, it saves \$30 or more per bale over hand pulling... does an excellent job in any crop that's suitable for mechanical stripping.

Handling two forty-inch rows at a time, the No. 15 does a clean, efficient *once-over* job of saving bolls. Its work is considered by many gin operators superior to cotton stripped by the average hand puller.

With the John Deere, you, too, can make short work of your harvest... get all your cotton to the gin before bad weather causes crop losses. For details, see us the next time you're in town.

### A. L. DUNAGANS HAVE VISITORS FROM SOUTH AMERICA

Following visits by a number of their children and families during the past weekend, Mr. and Mrs. A. L. Dunagan had as their guests Monday Mr. and Mrs. Ray Wilhelm of Bogota, Colombia, South America. Mrs. Wilhelm is a niece of Mrs. Dunagan. Mr. Wilhelm is an employee of the Shell Oil Company in Colombia. Coming back to the States for a visit, they were on their way to Nebraska to visit relatives there. Arriving here Monday morning, they left Tuesday morning.

Colombia, as our readers should know, is a country almost twice as large as Texas situated in the extreme northern and western part of South America, bordering on both the Caribbean Sea and the Pacific Ocean. Bogota is the capital, situated on a high plateau far back up in the mountains. Colombia is a country of great possibilities but as yet is little developed. But oil has been discovered there and is one of the country's most valuable products. It is a republic, patterned in large measure after the United States.

Others visiting the Dunagans during the week-end were Mr. and Mrs. O. L. Wolfe and son Mickey of Carlsbad, New Mexico; Beraice Goddard and son Jimmy of Carlsbad; both the women being daughters of the Dunagans; and Mrs. Pearl McCarver and Mrs. Viola Gasaway, both of Clarksville, Texas, and both being cousins of Mrs. Dunagan.

### J. A. WHITE FAMILY ARE APPRECIATIVE

Some weeks ago, J. A. "Bill" White of New Home underwent an operation for appendicitis at the Tahoka Clinic and New Home people made a donation to help pay the expenses. The News was asked by the White family to publish a card of thanks for this great kindness done them but in some way the matter was overlooked in the News office.

So, belatedly, we are hereby expressing the thanks of the White family to all the friends who contributed to this fund or who sent letters, cards, flowers, and other expressions of sympathy.

### MISS MARY ADAMSON GIVEN BRIDAL SHOWER

Miss Mary Adamson, whose approaching marriage to Mr. Johnny Humphries had been previously announced, was given a bridal shower on Tuesday afternoon of last week, in the home of Mrs. Charles Whitfield. Fifty lovely gifts were received, including such gifts as crystal linens, pottery, and silverware.

Mrs. Rolland Clem presided at the guest book. Miss Joy Hamilton served tea, bridal sandwiches, and potato chips.

Mrs. M. E. Hays of Donna, lower Rio Grande Valley, who has been visiting relatives in the O'Donnell-Wells area recently, returned to the Valley this week. Before doing so she ordered the News to be sent to her address down there and for it to be continued to her address here for the benefit of her relatives. She says that she misses the News greatly when it fails to come.

**MRS. J. R. GRAYSON MAKES REMARKABLE RECOVERY**

Mrs. J. R. Grayson, who was so critically ill a few weeks ago that physicians held little hope for her recovery, returned to Tahoka at an early hour Sunday morning apparently well, according to her husband, who reported at the News office Tuesday.

For the past six weeks Mrs. Grayson had been a patient in the John Sealy Hospital in Galveston, having been taken to that institution while suffering intensively from gall bladder trouble. Mr. Grayson thinks her

recovery little short of the miraculous.

**CARD OF THANKS**

I wish to take this method of expressing my thanks and deep appreciation to all my many friends for the lovely flowers and cards sent me during my long illness. May God's richest blessings be yours. — T. G. Dulin.

L. S. Lightner underwent an operation on the nose last Saturday in the Plains Hospital, Lubbock. He returned home Monday.

**Lakeview News**

The college students who spent Thanksgiving at home were, Joe Huey and Wayne Timmons, who are attending college at Denton, Delbert Timmons and Betty Fillingim from Tech, LaVerne Knight from Wayland, and J. A. Godfrey from Hardin-Simmons, Abilene.

Mr. and Mrs. Clyde Timmons from Lubbock and Mr. and Mrs. John Timmons visited in the A. E. Fletcher home at Gomez Thanksgiving.

Ann Key of Lubbock visited her grand-parents. Mr. and Mrs. Jim Key, over the week-end.

Mr. and Mrs. Levi Gray and children of O'Donnell and Mr. and Mrs. George Wade of Brownfield spent Thanksgiving in the C. E. Yeatts home here.

Payton and Billie Jean Saxton spent the week-end at Amarillo and Oklahoma City with relatives.

Mrs. Jake Fulford spent the week-end at Dublin with her mother.

Mr. and Mrs. Mac McCormick and Mrs. Minnie Timmons of Lubbock and the Herman Timmons family of Levelland, visited in the Bill Timmons home Sunday.

Walter Fulford, Bill Timmons, and Mrs. Pinkie Hall, who are on the sick list this week, are improving nicely at this writing.

Mrs. Sallie Godfrey and Delbert Timmons attended the Tech-Hardin Simmons football game at Abilene Saturday.

The Emmett Godfrey family from Arlington spent Thanksgiving day with Mrs. Sallie Godfrey.

Mr. and Mrs. Charlie Felty attended the funeral of a relative at Munday, Sunday.

Mrs. Hester Price of Ellaville visited her sister, Mrs. Bill Timmons, last week.

Mr. and Mrs. J. S. Poe of Burbank, California, were here recently visiting friends, among whom were Mr and Mrs. Frank Stuart. They also visited relatives in the Winters area and other West Texas points. The Poes formerly resided here, operating a laundry in north Tahoka for a few years. While here recently they had their names placed back on the News subscription list.

Mr. and Mrs. Garland Sharpe of San Antonio spent the Thanksgiving holidays here with her mother, Mrs. J. H. McCoy, her sister, Mrs. Wade (Dude) Holland, and other relatives.

Lt. Gen. Sir Robert Baden-Powell was the founder of the original Boy Scout movement.

"Boxing the compass" means naming in sequence the thirty two points of the compass.

A galleon was a large, unwieldy ship formerly used by the Spanish.

We write new subscriptions or renewals at bargain rates for your favorite daily paper. —Mrs. E. I. Hill at Lynn County News office.

**CAR TUNES**

By Bray Chevrolet Co.

"I guess it's O. K., but I wish you'd have had BRAY CHEVROLET COMPANY paint my car."

**Too Good to be True?**

But it is true. Through the new Franklin JUNIOR INSURED SAVINGS PLAN you can create an immediate insurance estate for your child at rates one-half or one-third of what you are now paying . . . an estate that grows with his responsibilities and matures in cash for retirement at age 55.

1. Insurance protection at no cost—full return of all deposits plus face amount of contract if death occurs at any time from issuance to age 55.
2. Insurance protection automatically triples at age 21 at no extra cost and with no evidence of insurability required.
3. At age 55 the savings plan matures as an endowment for full face amount.
4. Cash emergency and educational fund available if needed.
5. Available to children from age 1 day to 14 years.

**ROBINSON'S  
READY-TO-WEAR**

## Hospital Opening

(Continued From Page 1.)  
rooms, all fully equipped with the latest medical equipment.

The X-ray and laboratory is fully equipped with one of the best X-ray departments in this area.

Each bedroom is fully furnished and designed for comfort and convenience.

A nursery has four bassinets, infant incubator, infant oxygen tent, and is independently heated, thermostatically controlled. A plate glass window faces the corridor, through which relatives and other visitors may view new-born infants without entering nursery.

A modern all-electric kitchen planned by the Westinghouse engineers, has been installed and is equipped with stove, refrigerator garbage disposal, dish sterilizer, food mixer, toaster, coffee maker, roaster, clock, exhaust fan, and all metal cabinets.

Four rooms and a hall compose the operating department—the operating room, lying-in room, delivery room, and supply and sterilizing room.

The operating room has, in addition to the operating table, surgical cases, and anaesthetic equipment, powerful electric operating lights, and a battery operated emergency light for use in case of power shortage, glass tile windows, and independent air conditioning and heating systems.

The hospital staff is composed of two doctors, two ladies in the business office, one hospital supervisor and ten nurses and nurses aides, one laboratory and X-ray technician, one dietician, and one janitor.

Dr. Prohl opened an office in Tahoka in 1937, built the first unit of the clinic in 1941, added to it in 1943 and again in 1946. Work on enlarging to hospital proportions was begun last summer.

Dr. Thomas became associated with the hospital in April this year.

## Basketball . . .

(Continued from Page 1.)  
machine, they showed much promise Tuesday night. More boys are out for basketball this year than last, and there will be hot competition for starting positions on both the A and B teams. Tahoka won the district south half championship last year, but O'Donnell, Post, Slaton, and Seagraves all expect to field stronger teams this year than last. Last year Sundown was in the south half but it has been replaced this year by Seagraves.

Jake Jacobs, basketball coach, has arranged several non-conference games as a prelude to the opening of the conference in January. As The News went to press Thursday night, the Bulldog A and B team were playing the Class AA Brownfield Cubs in the Tahoka gym. They will return the games in Brownfield December 16, Tuesday night, Dec. 13, the potent Sudan Hornets will play in Tahoka. On December 17

## Can Black-Draught Help Physical Fatigue?

Yes, Black-Draught may help physical fatigue if the only reason you have that listless feeling is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental haziness, bad breath — and if these symptoms are due only to constipation — then see what Black-Draught may do for you. Get a package today.

OK, TX 330

and 18 the Tahoka team will enter the tournament. And on December 21, the Bulldogs will journey to Sudan for a return game. Next Tuesday night, December 7, they will return the Sunday games at Sundown.

The remainder of Tahoka's schedule, District 4-A South Half games marked with an asterisk (\*), follows:

- Jan. 3—Denver City here.
- \*Jan. 4—Slaton there.
- Jan. 6, 7 and 8—Sundown Invitational tournament.
- \*Jan. 11—Post there.
- Jan. 13, 14, and 15—O'Donnell tournament.
- Jan. 18—Denver City there.
- \*Jan. 21—Seagraves here.
- \*Jan. 25—O'Donnell here.
- \*Jan. 28—Slaton here.
- \*Feb. 1—Post here.
- \*Feb. 4—Seagraves there.
- \*Feb. 8—Seagraves there.
- \*Feb. 11—O'Donnell there.

A gusset is a triangular piece let into a garment to reinforce or enlarge.

Miss Avis Campbell reports that on Wednesday just before Thanksgiving neighboring women gathered in the home of her parents, Mr. and Mrs. J. C. Campbell, and presented many foods, including fruit juices and other delicacies, for her mother, who has been ill so long. They ask

that we thus express their thanks for all these kindnesses. Mrs. Campbell's condition has shown little or no improvement.

### ENLIST IN THE NAVY FOR ONE YEAR

Young men who are 18 years old! The U. S. Navy is proud to offer a grand opportunity. The Navy is currently offering a One Year Enlistment for this age group. During this one year's duty, the navy provides a regular recruit training of 9 to 12 weeks during which elementary seamanship, millitary routine, and drills are taught. After the recruit training opportunities are available to learn a trade. Some enlistees will have available the opportunities of ship board training and study. One real benefit is the experience gained during the tour of duty.

This is a real opportunity for young men who would like to spend a period of time in the coastal area of the U. S. before settling down to their life's trade or profession.

The Navy does not desire to enlist young men who are currently attending school. Opportunities

### McCORDS VISIT SON IN ST. LOUIS

Mr. and Mrs. H. B. McCord left Wednesday night to meet their son H. B. Jr. for a visit, half way between Tahoka and St. Louis, but H. B. Jr. couldn't get off to meet them, so they went on to see him in St. Louis.

H. B. Jr. has been stationed in St. Louis with the Air Force for some time.

His parents report that he will not be home for Christmas, as he will sacrifice his Christmas-holidays in order to receive his discharge on January the 27th in order to enter Tech January 30th.

The distinguishing feature of Gothic architecture is the pointed arch.

will be available to them after they complete their schooling. For particulars see your Navy Recruiter at Room 206, Post Office Building, Lubbock, Texas.

The nursery (pictured above) of the new Tahoka Hospital, is most modern in every respect. There are bassinets for four babies, an infant incubator, and infant oxygen tent. The room is beautifully decorated, independently heated and thermostatically controlled. A plate glass window separates the nursery from the adjoining corridor, so that visitors and relatives may view the new arrivals without entering the room. Every facility has been provided here, as elsewhere in the new hospital for the care and comfort of patients.

### ASSOCIATION BROTHERHOOD MEET DREW LARGE CROWD

W. A. Reddell, new president of the Brownfield Association Brotherhood, reports that its meeting here on Sunday afternoon, November 21, was well attended and that the program was fine.

One hundred and fifty men from over the association were present and the address by George W. Sch-

roeder, representing the South-wide Brotherhood organization, was very inspiring.

State Secretary L. H. Tapscott also made an excellent talk. The two were accompanied by Judson Burnett of Levelland, Brotherhood president for District 9.

In a theater lobby, the initials S. R. O. mean standing room only.

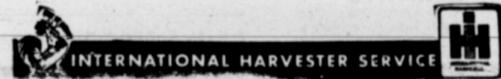

Your tractor and farm machines—you want them fixed in the shop of course, instead of in the field, where breakdowns and delays are expensive. Our shop service will put your farm equipment in tip-top running order, ahead of season. Pre-season servicing is the *stitch in time* that prevents costly field breakdowns and delays. Saves money, too.

Help us to help you! Call us now, or drop in and arrange a date for us to give your machines our top-quality shop treatment.

You'll get an economical job, and an expert job—a job done by trained servicemen using the latest equipment and factory-approved methods.

Call us or see us at once for a date to put your equipment in shape ahead of season.

### MISS MARY ADAMSON WEDS MR. JOHNNY HUMPHRIES

Miss Mary Adamson, daughter of Mrs. D. R. Adamson Sr. of Tahoka, and Johnny Humphries, son of Mr. and Mrs. J. A. Humphries of Arkansas, were united in marriage at the home of the bride's mother Thursday, November 23 at 12:00 noon.

Harold Paden, officiating pastor of the Church of Christ of Tahoka, performed the double ring ceremony before an altar decorated with palm leaves, fern, and pom-poms.

Maid of honor was Miss Connie Leeper of Denton, and Donald Adamson, brother of the bride, was best man.

Clare-de-Lune was played as the wedding march.

The bride wore a suit of all-wool white gaberdine with wine velvet blouse and hat and bronze shoes. She wore a shoulder corsage of orchids.

Following the ceremony a brief reception was held, at which coffee and wedding cake were served.

Only relatives and close friends attended the ceremony.

The bride is a graduate of the Tahoka high school. The groom is a

student of Arkadelphia, Arkansas.

Following a wedding trip to Arkansas, the couple will be at home in Midland.

### NEW HOME STUDY CLUB SPONSORS BAZAAR

The New Home Study Club is sponsoring a Womanless Wedding and Minstrel in the School Gym Saturday, December 4 at 7:00 o'clock.

All local talent in the cast.

Admission 15c and 25c. Proceeds go into a fund to buy a piano for the school.

Henry IV of France, in the Edict of Nantes in 1598, granted toleration to the Protestant religion. Louis XIV revoked it in 1685.

**FIRST AID TO AILING HOUSES**  
By Roger Whitman

**QUESTION:** The floor of our trailer home is covered with an asphalt covering which is rather badly worn. Would you recommend laying tile over this covering, or taking up the old and starting from scratch?

**ANSWER:** A good floor-covering contractor probably would prefer to take up the old covering because it might make an uneven base for the tile. He would know best about that, however, after seeing the actual condition of the present covering.

**QUESTION:** Is there a paint to seal leaks in a roof by painting over the roofing?

**ANSWER:** Leaks often can be stopped by the application of an asphalt roofing cement. A roofer can do this job for you. But if the roof leaks all over, a new roof would be more advisable.

'Tis the season to be jolly—and if you're a woman facing the vexing question of what to get him, here's a two-way perfect solution: If he's a smoker who likes his cigarettes on the cool, mild side, get him a carton of two Camels. Their choice tobaccos are sure to please him on Christmas Day. Or perhaps he enjoys smoking a pipe, too. If so, mellow Prince Albert Smoking Tobacco will round out your gift selection in a mighty handsome manner. Both items are right in keeping with your holiday sentiment; they come gaily wrapped in special Christmas packages. The Camel cartons contain 200 cool, mild Camel cigarettes. And the pound tin of Prince Albert is brimful of mild, tasty smoking that has truly earned the title—the National Joy Smoke. Each gift has space for your written greetings. When you give Camels and Prince Albert for Christmas, you can be sure of pleasing him! They're easy to order, too; a local dealer is well supplied right now. (Adv.)

Older folks say it's common sense...  
**ALL-VEGETABLE LAXATIVE**  
NATURE'S REMEDY (NR) TABLETS—A purely vegetable laxative to relieve constipation without the usual gripping, sickening, perurbing sensations, and does not cause a rash. Try NR—you will see the difference. Uncoated or candy coated—their action is dependable, thorough, yet gentle as millions of NR's have proved. Get a 25c box and use as directed.

**WEEKLY NEWS ANALYSIS**

**Pressure 'Out' in Berlin Controversy; British Welcome Lilibet's Princeling; Farmer Priority Looms in Legislation**

By Bill Schoengren, WNU Staff Writer  
EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

**PRESSURE: Polite 'NO'**

Sore point in all the Berlin controversy, continued to be the Soviet blockade of the ex-Reich capital. The Big Three Western powers still blamed Russia for continuation of the crisis through perpetuating the blockade, and President Harry Truman had given emphatic evidence that he planned no further discussions with Russia on the subject until the blockade was lifted.

Following his return from a Florida vacation, the President went into a full-dress review of American foreign policy with Secretary of State Marshall and W. Averell Harriman, U. S. ambassador-at-large in Europe.

The gravity with which United Nations leaders viewed the Berlin situation was evidenced in the efforts of U. N. Secretary General Trygve Lie, and H. V. Evatt, general assembly president.

THESE TWO made urgent appeal to chief executives of the four big powers—going over the heads of these nations' U. N. delegations to do so—to bring the Berlin dispute to an end and thus bring about world peace.

This appeal was without avail. The United States, France and England said "no," politely but firmly. They declared the issue must remain in the hands of the U. N. security council until the Russian blockade is lifted. Russia reacted as usual, blaming the Western powers for the stalemate.

Evatt and Lie argued that the dispute cannot be settled within the cramped confines of the security council and should be aired in the wider fields of the general assembly.

AGGRAVATING the situation was the coming winter with its consequent obstacles to the air lift. The Russians appeared content to wait out this phase of American aid to Germany in the apparent conviction, or hope, that bad weather would so impair air lift efficiency as to make it negative in the battle for Germany.

If the situation were to be resolved by diplomatic means, American thought and procedure on the question would carry top weight with the Big Three.

Under this setup, President Truman's evident intention to spurn discussion of the problem unless the Berlin blockade were lifted, would indicate the United States was prepared to continue the "cold war" with the Russians, and to bet with the elements that the air lift would continue to be efficient and that Premier Stalin and his Communists would have to come to terms in the end.

PRESIDENT TRUMAN reiterated that he planned no American mission of any sort to Moscow, and that he and Secretary Marshall were in accord on all questions. The President would stand for no pressuring in discussion of the Berlin question, even if it came from top chieftains in the U. N.

**PRIORITY: For Farmers**

The man with the hoe put the "X" where it counted November 2, and, as a result, America's farmers are to reap a share of President Truman's smashing victory at the polls.

Even now, administration chiefs are moving to give the nation's farmers top priority over labor in any legislative program coming up for action by the next congress.

THE FARMER'S reward is to come immediately—not in the future—and the outlook is that labor may have to stand behind the farmer when awards for a part in President Truman's triumph are to be handed out in a legislative program.

Best friend of the farmers when the plums are to be passed around is Secretary of Agriculture Charles Brannan. No doubter of where credit for Mr. Truman's victory belongs, Brannan already has assigned Louis H. Bean, department economist and election forecaster, to prepare charts and graphs to show the President that he owes his election primarily to the farmers.

THAT ISN'T all that will be done to insure the farmer a fair return on their investment in Mr. Truman, for top level planners are drafting a new "flexible" price support program to go into effect early in 1949, instead of 1950, as would have been the case under the Republican Aiken farm bill.

Add to this the fact that Senator-elect Clinton Anderson (D., N. M.),

**Day of Judgment**

Hideki Tojo, former prime minister and top war lord of Japan, was found guilty of wartime atrocities by an allied tribunal in Tokyo and was sentenced to death by hanging. He is the last survivor of the infamous Hitler-Mussolini-Tojo axis.

former agriculture secretary, took a direct hand in supervising drafting of the new measure and personally will introduce it, and it becomes evident the farmer's happy place in the administration sun is most assured.

BASIS of Brannan's contention that farmers elected Mr. Truman: If it weren't for the farm states on the agricultural west, the 11 industrial states on the Atlantic seaboard that voted for Governor Dewey would have swung the election Republican.

How will farmers fare under the administration plan? Here's the projected program:

To protect the farmer against anticipated crop price fall-offs, he would be given a flexible price floor that would protect growers, but would not burden U. S. taxpayers with any extended permanent subsidy of farm surpluses.

PROVIDE adequate storage facilities for farmers in corn and wheat belts to prevent loss of bumper crops.

Extend reclamation and soil conservation benefits to more farm-lands and provide an increased rural electrification for more farmers, this to be sponsored and paid for by the government.

This, then, is an extension of the benefits which farmers may have felt were imperiled in the Dewey program, and for which they felt they were voting when they cast their ballots for President Truman.

**WELCOME: Infant Rex**

For hours the solemn-faced constable had kept his vigil in the chill of the November night. Impassive in the face of the huge throngs that pushed against the gates he guarded, he waited for the word.

At last he saw a royal page, garbed in blue, walk stiffly from a palace doorway. The page strode to the constable's side, bent over and spoke in a low voice.

THE CONSTABLE'S face lighted, he walked quickly to the iron railing against which the crowd was densely packed and declared exultantly: "It's a boy!" Then throwing his head back, he shouted: "A prince has been born."

To Princess Elizabeth, heir-apparent to the throne of England, and her consort, Prince Philip, Duke of Edinburgh, had been born a son. A prince by a special royal decree of King George VI issued several days before the birth of the child. Their young prince was born just six days short of the royal couple's wedding anniversary, November 20.

THE NEWS that Elizabeth's child was a son told the usually stolid Londoners what they wanted to hear—that the royal heir was a child who might someday be their king.

Into a world of crisis and unrest, an age of a dwindling empire for Britain, was born a princeling whose future as a potential ruler is fraught with imperponderables.

Both he and his mother would be cut off the line of succession to the throne should a son be born to the king and queen; monarchical governments, even of the benevolent type, are fading from the world scene; the contracting empire's dimensions are subject to speculation, but even were these things non-existent, there is the last and greatest imperponderable of them all—the atomic bomb.

**REFUND:**  
If you're an ex-GI and figure to cash in on those service insurance dividends next year, make sure you're square with the Veterans' administration or you're likely to get left in the cold.  
VA says it may withhold all or part of the checks of two groups of veterans—those who have received overpayments for education or training subsistence and those who have defaulted on GI loans.

MAKE this joyful toy for your youngster! Funny Bunny is such a cheerful companion, all dressed up, too. He's easy sewing.

Stuffed bunny, fine for birthday or bazaar! Pattern 962 has transfer of toy clothes patterns.

**Household Hints**  
Brushing plain biscuits and rolls with milk before baking gives crusts a rich golden color.  
Have creamed chicken or crisp brown waffles for one extended main dish.  
Add two tablespoons sugar to the water in which you cook corn on the cob. Makes it juicy and sweet.  
To remove cream stains from washable fabrics, rinse out with lukewarm water before laundering the garment.  
Do not use water from the hot water tap in brewing coffee; the water should be freshly heated to obtain the best tasting coffee infusion.

The best way to wash a crocheted article is with a good white soap or soap chips, scald in soapy water and rinse in clean cold water without bluing. Never use bluing on any kind of crocheted lace or yoke.

You can remove the odor of onions from a frying pan by boiling a mixture of three cups of water and three tablespoons of vinegar in the pan for a few minutes. Drain, wash in hot soapy water and rinse in boiling water.

**ASK ME ANOTHER?**  
A General Quiz

- The Questions**
1. How long was the "rain upon the earth" when Noah took to the ark?
  2. What is the inscription on the shield of an army hat?
  3. What is meant by a fiasco?
  4. Where was petroleum first discovered?
  5. What is the meaning of Mine-haha?
  6. Name two tunnels under the Hudson river leading into New York City.

- The Answers**
1. It rained for 40 days and 40 nights.
  2. "E Pluribus Unum."
  3. A complete or ludicrous failure.
  4. At Baku, a Russian port on the Caspian sea, more than 2500 years ago.
  5. Laughing Water (Indian language).
  6. Lincoln and Hotland.

**THE EDITOR TAKES A TRIP**

The editor and Mrs. Hill took a little trip into Central Texas last week and upon our return people have been asking how we enjoyed our vacation.

We did not take the trip as a mere vacation project but principally to visit a sister Mrs. Sam Monroe, at Stephenville, who was seriously ill. Arriving there Sunday afternoon, we found her apparently somewhat improved, and so left out Monday afternoon to visit other relatives further downstate, the first being Mrs. J. F. Hill at Hamilton, and spending Monday night with a sister and her husband, Dr. and Mrs. E. R. McCauley at Moody, near which place this writer discovered America and grew up. That is a black-land farming country and we didn't know that there was or could be any good farming land that wasn't black until we made a rip out west thirty-two years later.

Tuesday morning we made pop calls on a few friends and kind-folks at Moody and then drove over east eight miles to Eddy, where a brother lives. Took dinner here and then ran down to Rogers and made pop calls on a few of Mrs. Hill's relatives there, then hurried back to Pendleton, where one of Frank's aunts lives, spent an hour with her, and rushed back to Eddy and spent the night with our brother W. F. Hill. That is where Tom Connolly first saw the light of day and his father's old home still stands over on the hill northeast of town. It was an old Southern home of two stories, a fit place in which to raise a statesman. Tom still visits there occasionally. The brother and this editor lived over the old days for a few hours and then we came on up to Waco Wednesday morning and visited a sister there, taking dinner in her home. Two other sisters live here but they had both been in Stephenville most of the time for more than a week at the bedside of our sick sister, one of them coming in home while we were in Waco.

That afternoon, we drove back to Stephenville, where we spent Thursday and Friday, and started home Saturday morning. We have related nothing that is of any particular interest to our reading public but we did take note of some things that we shall use as the basis for some editorial: in this and possibly in one or two following issues of this paper.

Pierre Charles L'Enfant, French engineer, planned the layout of Washington, D. C.

**THE STATE OF TEXAS**

TO: MARINA FLORES, Defendant  
Greeting:

You are hereby commanded to appear before the Honorable District Court of Lynn County at the Court House thereof, in Tahoka, Texas at or before 10:00 o'clock A. M. of the first Monday next after the expiration of forty-two days from the issuance of this citation, same being the 10th day of January A. D. 1949, then and there to answer Plaintiff's Petition filed in said Court on the 20th day of November A. D. 1948, in this cause, numbered 1838 on the docket of said court and styled Maximiliano Flores, Plaintiff, vs. Mariana Flores, Defendant.

A brief statement of the nature of this suit is as follows, to wit: That on or about the 15th day of May, 1944, plaintiff and defendant were duly and legally married, and that said plaintiff and defendant continued to live together as husband and wife, until on or about the 2nd day of January, 1945, at which time defendant abandoned plaintiff without just cause; and that Defendant, disregarding the solemnity of the marriage vows and obligations, did on the 22nd day of January, 1945, voluntarily leave the bed and board of plaintiff with the intention of permanently abandoning plaintiff, and has remained away from plaintiff continuous of said time which is more than the space of three years, with the intention of abandonment; as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and Seal of said Court, at office in Tahoka, Texas, this the 22nd day of November A. D. 1948.

ATTEST:  
W. S. Taylor Clerk, District Court,  
Lynn County, Texas. 8-412

Marie Antoinette, Queen of France, when told that the poor had no bread, said "Let them eat cake."

**Get a FORD "PHYSICAL"**

Every **5000** MILES

10000 15000 20000

IT MAKES good sense to have your car serviced regularly. The wise motorist makes it a habit to have his car lubricated every 1000 miles, and a complete "Physical Exam" every 5000 miles.

Take a look at your Ford's speedometer, today. If it's nearing a "5000" mile reading, bring it "home" to us for your Ford's "Physical"—which includes a thorough engine, ignition, electrical, wheel and brake check... and a complete inspection of the body, inside and out.

Make it a habit to let us check your Ford regularly to keep the top performance that's built into your car. It's the right way to catch the "little things" that can develop to make driving unsafe. You'll be surprised how much money you'll save throughout the life of your Ford, with regular Ford care.

Your Ford Dealer invites you to listen to the Fred Allen Show Sunday Evenings—NBC network. Listen to the Ford Theater, Friday Evenings—CBS Network. See your newspaper for time and station.

**FOR A GOOD PLOWING JOB IN TOUGH SOILS**

For an excellent job of plowing in soil which is hard scouring or hard to penetrate, we recommend the MM TRA tractor disc plow, now offered in 3, 4, 5 and 6-disc sizes. This plow is so designed that the entire weight of the plow, with the exception of the land wheel, is effective in holding the plow to its set depth. The discs cannot rise without taking the front and rear furrow wheels with them. Any linkage between the rear wheels is eliminated to assure more accurate depth control. Adjustable to plow from 3 to 14 inches deep. See this plow... see it work... you'll vouch for the fine plow it is. See us now for complete facts.

**Let 'er blow...**

The one thing that won't help you through the winter is a lot of talk. So we'll make it brief:  
Change now to winter-grade Conoco N<sup>th</sup> Motor Oil for faster starts, peak winter engine performance and the full-time protection of OIL-PLATING.  
Faster starts: Winter-grade N<sup>th</sup> is specially refined to lubricate your engine even when the temperature plunges. It's free-flowing.  
Peak winter performance: When you drain out that thick, dirty summer oil, you say goodbye to balky engine response. Winter-grade N<sup>th</sup> puts June under the hood!  
Full-time protection: A special added ingredient fastens an extra protective film of lubricant to metal surfaces... OIL-PLATES every working part... cuts down "dry" friction starts and general engine wear.  
Let winter blow...
