

SAYS STATE EMPLOYEES ARE UNDERPAID

Austin, Tex., Dec. 8— It is becoming increasingly difficult to maintain efficiency in the state's government.

"That is because the best-qualified applicants are no longer interested in state jobs," says W. P. Watts, Executive Director of the Texas Public Employees Association.

"State salaries have lagged far behind both the rise in the cost of living and the rise in income of all other groups of wage earners."

"While the average employee of the state has received an increase in salary of 17.2 per cent since 1939, other wages," Watts declared, "have climbed as follows:

"Finance, insurance, and real estate, 49 per cent; transportation, communication, and public utilities, 95 per cent; services, 102 per cent; mining, 103 per cent; wholesale, 120 per cent; manufacturing, 121 per cent; construction, 186 per cent."

In a booklet entitled "Are They Worth Less Now?" Watts asserted: "As a citizen of Texas you are

one of the largest employers in our state.

"You employ 20,000 public servants who perform each day a great variety of essential services without which your life would be uncomfortable, inconvenient, and dangerous.

"The jobs of these people on your payroll range from insuring the purity of our drinking water, building our roads, and protecting our lives and property, to relieving the distress of the old and needy.

"Your state employees have felt the bitter lash of inflation more deeply than any other group of workers in Texas.

"They are fighting a losing battle to maintain the high standards of efficiency and capability which you as a Texas citizen, have a right to demand.

"The quality of public service rendered depends upon the conditions under which your state employees work . . .

"Cheap, inefficient employees have never been considered an asset to any business, and certainly not to state business."

TAHOKA WOMEN ATTEND MEADOW W. M. U. MEET

Mesdames C. T. Aly, E. I. Hill, Garland Pennington, and W. H. Kenley attended a one-day School of instruction for W. M. S. members at the First Baptist Church in Meadow Tuesday.

The women's work was explained and discussed by Mrs. A. E. Cook, president of the W. M. U. of the First Baptist Church of Lubbock.

The Meadow Baptists have recently built a new Church building and the Tahoka women report that it is a commodious and handsome structure.

Mr. J. A. Humphries, long prominent in educational and political circles and a life-time friend of the editor and Mrs. Hill, and Judge Walter Davies, soon to begin his third term as county judge of Lubbock county, were visitors in Tahoka Tuesday afternoon and made a pleasant call at the News office. Mr. Humphries held office in Bell county for a number of years and later taught in this area. He once made a creditable race for State Superintendent of Public Instruction.

Assassination of the Crown Prince, Franz Ferdinand of Austria, precipitated the First World War.

STATED MEETINGS of Tahoka Lodge No. 1041 the first Tuesday night in each month at 8:30

Members urged to attend. Visitors welcome

BUEL DRAPER, W. M.
H. G. HODGES, Secretary.

Wilson Men Tell Of Fishing Trip

To the Editor of "The Lynn County News":
It was decided by the group that Pat and I should go to Don Martin, the headquarters for the entire lake, and get our permits and fishing license which also included hunting. Geese and ducks are on this lake by the thousands. We spent about \$177.00 (Mexican money) at the headquarters, but the man in charge

did not give us anything to how that we had paid for the license, etc. e asked for a receipt, but he said we did not need one, as he was the only one who could give us any trouble.

We got stuck in a mud hole about two miles from camp. It wasn't long until three Mexicans suddenly came out of nowhere. Two of them fishermen, the other a cowboy, and all three had their huchillos. With the help of the cowboy and his horse pulling and the others pushing, we were soon out of the mud. We talked nice to those boys and gave them \$3.80 in Mexican money, and everybody was happy.

Life in the camp was very pleasant, as all the members of the crew were agreeable. Glenn Shelton was very quiet and we hardly knew he was there until meal time. Alfred Lichey was the entertainer. When he started talking, you thought you were at the Helpy-Selfy laundry on an early Monday morning. Alfred usually drinks barn paint for breakfast, but he said the coffee we made was a good substitute and he made out on that until we got back across the river.

We really broke camp Friday night but waited until Saturday morning to clean our fish, which weighed 371 pounds. The Mexican experts at cleaning fish cleaned up very quickly. One of the Mexicans (Lupel) was bare headed, and had only a very ragged pair of trousers and a heavy coat that was full of holes. We had to wait awhile before leaving and he wanted to go home but we

fed him and he was satisfied. We felt so sorry for him that Pat gave him a Khaki suit and I gave him a pair of overalls, so he was happy and we were too.

Antonio and Pedro owned the camp. They were Italians and were just as agreeable and reliable as could be. We hired Pedro to do most of our work, and when we were preparing to leave he stood with tears in his eyes.

Before closing, I want to mention two or three things about our friend Bill Bruckner. Bill is a fisherman of no small repute. One morning he left camp waving a rod about 3 1/2 feet long with a large hook on the end of it, which he said he would use to grab big ones before they got off the line. The big one, weighing 25 pounds was on the line and Bill just sat there with his mouth open while the fish crawled off and swam out into the lake. If you want to know why he didn't use the hook, you will have to ask him.

The last and most interesting things that happened to Bill was that he lost his passport, a necessary little paper to have when you want to get out of Mexico. When we passed the post of inspection, I slowed down and Bill said, "No! No! Don't stop here, they won't let me go any further if you do." Of course I wanted to help Bill, but I had to stay out of jail myself. I stopped but they waved us to go ahead. Bill took it easy then until we arrived at the border where we had to surrender our passports. Poor Bill had none and he was in trouble. He could not speak Spanish, and I could not miss the opportunity to have some fun. The others were a head of us and Bill told the Mexican that they had his passport, but that failed to work because the Mexican showed him all their passports and Bill's was missing. I asked what he was going to do with Bill, and he said it was a question of seeing the judge. I asked him where the judge was and he didn't know. Then I told Bill he would have to wait over there while I went and got the other boys to help us. Bill said that I couldn't go off and leave him because he wanted to see his wife and children instead of going to a lousy Mexican jail. I asked the Mexican officer what he wanted to do about it and he said, "nada mas que un regalo o propina." The secret was out—he just wanted a tip. I told Bill he would have to pay 50c to get out of Mexico. He paid it and at the same time got even with me by borrowing a quarter. We jumped into the car and started to leave, but we heard a whistle blow and we stopped, no fooling. We had not paid our toll to cross the bridge. I held out my hand with some hat dollars and a Mexican peso (worth 15c in American money) which I about the same size. Probably by mistake, he grabbed the peso. He had charged the other boys 45c American money, so we never got gyped so badly after all.

Mexico is a land of idolatry, ignorance, superstition, and bondage to paganism. It is a mission field at our very doors. They have never had religious freedom and never will have as long as there are powers that can prevent it.

Will we who live in America pro-

tect our freedom or will we do the ostrich act?

I shall speak on Old Mexico, in The Lynn Baptist Church, Sunday, December 26, 1948. This is the end of our story and we hope that you have enjoyed it, but we will tell you many more interesting things in the Church. —W. G. Boyd.

DIXIE H. D. CLUB NEWS

Members of the Dixie Home Demonstration Club met December 1 in the home of Mrs. Troy Copelin. New year-books were given out and meetings for the coming year were discussed. Christmas gift suggestions of home-made articles was brought to the Club.

Plans were made for a Christmas party to be Thursday night, December 17 in the Buel Draper home for Club members and their families.

Delicious refreshments of Fruit Cake, Mints, and coffee were served to members; Mmes: A. L. Dunagan, A. C. Aycox, E. R. Tunnell, Guion Cobb, J. O. Allen, Chas. Schulz, B. C. Aycox, G. B. Sherrod, Buel Draper, T. D. Lishman, the hostess, Troy Copelin, and two new members, Mrs. T. D. Dunlap and Mrs. Lee Holden.

Next regular meeting will be January 5 in the home of Mrs. J. O. Allen.

Mr. and Mrs. George C. Lindly of O'Donnell are leaving this weekend for the Rio Grande to spend the winter.

ASTHMA
Don't let coughing, wheezing, recurring attacks of Bronchial Asthma ruin sleep and energy without trying MENDACIO, which works thru the blood to reach bronchial tubes and lungs. Usually helps nature quickly remove thick, sticky mucus. Thus alleviates coughing and aids freer breathing and better sleep. Get MENDACIO from drugist. Satisfaction guaranteed.

Mind Wields More Control Over Dice of a Distance

NEW YORK.—The power of mind over matter is just as great at a distance of 30 feet as it is at 3 feet according to tests made at Washington college, Chestertown, Md.

In fact, at 30 feet the mind power worked a little better than close up. These experiments are part of a series originating at Duke university.

Dice-throwers try to influence the turn of the galloping dominoes in the Duke, and other similar experiments, minds are reported showing a little influence.

When thousands of throws are averaged, with people trying to think success, the averages are mathematically better than chance.

But in 768 throws, at 3 feet, the excess due to mental effort was only 39 and at 30 feet 119. The 39 is not enough to be certain, mathematically; the 119 is considered good evidence, mathematically.

The Washington college dice throwing was conducted by Dr. C. B. Nash and Miss Alice Richards. Forty-eight students used their mind powers on the dice. There was no hand throwing. A string was pulled to tip over a box containing the dice, which then rolled down an incline and across a flat to bounce against a conventional dice backstop.

Husband Sends Money to Wife by Carrier Pigeon

DETROIT.—Joe Andanowski sent \$20 of his pay home by carrier pigeon.

Andanowski's wife, Grace, told him at the breakfast table she needed cash for groceries, and the factory worker, too, was a little short-changed on the morning of pay day.

"But I'll fix that, honey," he told her. "As soon as I get to work I'll send the money right to you."

Andanowski then left for the plant, first stopping at his pigeon rookery and picking an honest-looking bird to tuck under his overcoat.

When he got his pay, he carefully taped a \$20 bill to the leg of the pigeon and sent it flying home. About 45 minutes later, Mrs. Andanowski reported, she heard a commotion in the rookery behind their home.

She had to examine many of the 80-odd birds before she found the one entrusted with the big bill.

"You could have knocked me over with a feather," she exclaimed. I thought Joe was only sending me a dollar."

Rocketeer Waves at Auto Of Pals; Goes to Jail, Too

PHILADELPHIA.—Detective John Moros arrested two numbers racket suspects and instructed them to drive their automobile to the city hall.

En route a man stepped into the street waving frantically for the automobile to stop and Moros ordered the driver to halt. The man walked up and handed the startled Moros a bag. It contained slips for 160 numbers "plays."

Moros ordered the bag borne into the car and proceeded to the city hall with three suspects instead of two.

Epicure comes from a school of philosophy founded by Epicurus in the 4th century, B. C.

ALYS ATTEND FUNERAL OF BROTHER-IN-LAW

Rev. and Mrs. C. T. Aly received a message Saturday informing them of the death, at about six o'clock that morning of her brother-in-law, Ed Etröman, 53, in a hospital in Pleasanton, Atascosa county. He had died of heart trouble.

They and their daughter, Jo Helen, left at 3:30 Saturday afternoon, for that place. Funeral services were conducted at 2:30 p. m. Sunday afternoon, in the First Baptist Church of Charolette, Atascosa county, where he lived. He was a deacon in that church, and in business life he was the Ford dealer at Charolette.

He had been ill for some time and had recently entered the hospital in Pleasanton, the county seat, for treatment. His wife, Mrs. Aly's sister, had been at his bedside almost constantly, but had gone to her home for a brief rest at the time, and death came while she was away.

Rev. and Mrs. Aly and Jo Helen returned home Monday.

Mr. and Mrs. John Garrison of Childress visited her father, Mr. Frank Stuart, and Mrs. Stuart here last week, and all visited other relatives in this area. The Garrisons came Wednesday and left Friday.

General John J. Pershing is credited with having said, "Lafayette, we are here."

NOBLE RUMBO WEDS AUSTIN GIRL

Miss Mary Ann Crabb, daughter of Mrs. Clinton Elmiere Crabb of Austin, and Noble L. Rumbo, son of J. L. Rumbo of Tahoka, exchanged nuptial vows on Wednesday, November 24, in a double-ring ceremony read by Dr. Edmund Helmsohn, pastor of the University Methodist Church, in the Austin Presbyterian Seminary Chapel in that city.

The bride is a graduate of the Breckenridge High School and also of the Seto School of Nursing, and is a student in the University of Texas.

Noble Rumbo is a graduate of the Tahoka High School, and of the University of Texas. He served in the Navy two years and is now taking post-graduate work at the University.

Vows were made before an altar banked with chrysanthemums and gladioli, palms, and seven-branched candelabra. Mrs. J. G. Wilcox, organist, played a medley of pre-nuptial selections and accompanied Mrs. A. E. Rhodes, who sang "Because" and "I Love Thee."

The bride was given in marriage by her mother. She was attended by Miss Sara Lou Rumbo. Robert Rumbo was best man to the bridegroom. Ushers were Rufus G. Ransome of Brownsville and James Reynolds of Austin.

After the ceremony a reception was given in the home of Mrs. A. E. Rhodes. In the receiving line were the bride and bridegroom, the bride's mother, and the members of the wedding party. Miss Ann Ransome served cake and Miss Daisy Tinney presided at the coffee service. Miss Margaret Ann Olle presided at the guest register. Other members of the house party were Mrs. H. C. Suddeth, Mrs. R. G. Ransome, and Mrs. Ed Olle.

Out-of-town guests included J. L. Rumbo and Miss Sara Lou Rumbo of Tahoka, and other guests from Brownsville, Breckenridge, Houston, and Alice.

Mr. and Mrs. A. R. Owen have moved to San Angelo and have ordered the News to follow them to their new address.

Mrs. Vester Botkin, who has been a patient in the Seale Clinic for the past three weeks, is said to be showing some improvement.

Cpl. Olon Ray arper, stationed at Camp Perrin, Sherman, was a weekend visitor in the home of his parents, Mr. and Mrs. Claude Harper.

EASTERN STAR

The Worthy Matron, Etta Lorene Reid, of Tahoka Chapter 743, Order of the Eastern Star, called a meeting on Monday 13, at 7:00 p. m. for the purpose of celebrating the Silver Anniversary of the Chapter. The charter members and past matrons and past patrons will be the honored guests.

The past matrons and past patrons will fill the stations in the opening and closing ceremonies.

Tahoka Chapter 743 has grown and prospered in the past 25 years. 25 women have served as worthy matron and 9 men as worthy patron. C. H. Cain and W. E. Smith each served 7 years.

We urge all members of Eastern Star to come help celebrate this occasion.

Mr. and Mrs. C. T. Tankersley left Wednesday for the lower Rio Grande Valley, where they expect to spend the winter months, probably at Harlingen.

Mr. and Mrs. M. L. Kuykendall of Abilene spent the week-end here visiting his mother, Mrs. J. H. Kuykendall, and the wife's parents, Mr. and Mrs. Claude Harper.

Blowing Soil

(Continued from Page 1)
adequate cover or sorghums, the group of experienced farmers advised. If the land in this condition should begin to blow, use chisel-sweep type plows so as to leave all of the stubble on the surface of the land.
The supervisors believe that the roughened condition of such land together with the stubble cover is the best method of controlling soil loss during this emergency.
Mr. Littlepage, chairman of the Soil Conservation District Board, pointed out that the moisture conditions are almost identical to those that prevailed in the fall of 1933 and 1934—the beginning of the last "dust bowl."
Due to the bad dust storm last Saturday and Sunday the Supervisors urge that all farmers in the

district immediately begin plowing the land according to their recommendations. If all of us will work together and use our equipment as recommended we can prevent a lot of damage that is now taking place.
Supervisors present unanimously agreed that oneway plows should not be used to break land at the present time.
In opinion of Mr. Kay Moore, tillage operations as recommended at this time are strictly emergency practices to aid in combating wind erosion. The main long range aim of the Soil Conservation District of combating wind erosion would best be accomplished by sensible conservation planning wherein the proper rotation of adapted cover crops and proper management of crop residues are used.
The board approved the cooperative agreements and conservation plans on the following farms: M. B.

Benton, Lubbock, Oswald Dube-operator; M. B. Benton, Lubbock, A. L. Perdue-operator; C. L. Tomlinson, O'Donnell; C. R. Roberts, Rt. 1, Meadow. Applications for soil conservation assistance were approved for the following farms: T. E. Weaver, Southland; Fred Kahlich, Slaton, C. J. Miller-operator; C. D. Young, Slaton, Fred Ferguson-operator; Lloyd Meers, Wilson, R. L. Thomas, Tahoka; Wyatt Bros., Tahoka, N. M. Wyatt-operator; Grady LeMond, Tahoka; Mrs. M. L. Henry, Tahoka, Milton Huling-operator; Mrs. Alice V. Jasper, Tahoka; E. L. Cromer, Tahoka and J. R. Strain, Tahoka. The following also attended the meeting: Louis Dawkins of Plainview, Field Representative of the State Soil Conservation Board and Marshall W. Howard of Lubbock District Conservationist for the Soil Conservation Service.

DECEMBER 15TH DEADLINE FOR REPORTING FUEL PRACTICE
According to Clint Walktr, Secretary of the Lynn County A. C. A., the deadline for reporting the practice of leveling stubble on the land for protection against wind erosion has been set as December 15th, 1948, by the Lynn County A. C. A. Committee. Prior approvals for carrying out this practice were issued earlier in the year, and farmers who have not reported this practice are urged to do so by the 15th if they intend to comply with the provisions of the soil building practice.

Congratulations:
To Mr. and Mrs. Charles K. Harris of Compton, California, upon the birth of a son at 6:30 a. m., fellow weighed 7 pounds and 2 ounces and has been named Charles Tuesday, December 7. The little Frederick, Mr. and Mrs. E. J. Cooper of Tahoka, grandparents of the baby, and their daughter, Mrs. P. A. Nowlin of Brownfield, were in Compton when the baby was born. Mr. and Mrs. Harris have another son about 3½ years old. Mrs. Harris was the former Mildred Cooper.

Travel Dangerous in Tibet

Properly called the roof of the world, Tibet is located in the very heart of Asia. With an area approximately that of Mexico, the whole of it is more than two miles above sea level. Travel on this windswept plateau is discouraging. Expeditions must be fitted out with scores of pack animals to carry supplies sufficient to last for many months, with a sizable complement of natives to attend them. Mountain passes must be crossed, sometimes at elevations of 15,000 feet, where the air is so rare that breathing becomes difficult. It is scorching hot by day, and freezing cold by night. Bandits overrun the country, especially in the nomadic central and northern parts of the country, where nearly every stranger who meets is a potential bandit.

Suggestions Offered On Christmas Mailing By Postmaster 'Happy' Smith

With the approach of what promises to be the biggest Christmas season in history, Postmaster W. E. Smith of the local postoffice offers a few suggestions which, if followed by the patrons of the office, will greatly facilitate handling of the holiday mails.

All parcel post should be wrapped in heavy wrapping paper and securely tied with plenty of strong twine. Parcels gift-wrapped in flimsy colored paper and tied and decorated with cellophane ribbons are not acceptable for mailing unless they are enclosed in regular wrapping paper and tied with heavy string. The sealing of parcel post is forbidden either with glue, Christmas seals or scotch tape, unless the commercial type of address label is used which states that the parcel may be opened for postal inspection, etc. Such labels are not obtainable at the postoffice but may be purchased at the local drug stores and variety stores. Fragile articles must be carefully and thoroughly packed in heavy cardboard cartons before being acceptable for mailing. Because of the limited shipping facilities available during the Christmas season, all gifts should be mailed as early as possible; otherwise their delivery might not be effected until after Christmas.

Christmas cards are still mailable at the third class rate of postage, that is, one and one-half cents each, provided they are unsealed and contain no writing other than the name of the sender. They may be sent sealed or unsealed for one cent each if intended for delivery to persons receiving mail in the local post office boxes or in general delivery. Those mailed to people on the local routes or in other cities require one and one-half cents unsealed or three cents when sealed. Christmas cards are not forwardable at the one and one-half cent rate but can be forwarded when mailed at the first class (three cent) rate; therefore if there is any doubt

as to the present address of any person to whom a greeting is to be sent, a three cent stamp should be used. If ten or more cards are being mailed at the same time, it will be appreciated if they are handed to one of the clerks at the window instead of being thrown through the letter drop one at a time.

If Christmas gifts or cards are sent to children they should in all cases be addressed in care of the children's parents, otherwise delivery probably will be delayed while the identity of such children is being established.

CHILD GUIDANCE CLUB WILL ADOPT NEEDY FAMILY

The Child Guidance Club met Monday night, December 6, in the home of Mrs. Dub Kenley, with 13 members and the hostess present.

During the business session the Club agreed to adopt a needy family to favor with gifts of clothing, food, or toys for Christmas.

Mrs. Charlie Whitfield gave a very interesting and helpful discussion on the Wise Selection of Toys for the Child from 1 to 4 years old. Mrs. Joe Bob Billman discussed the same subject pertaining to children 5 to 10 years old. These discussions were interesting and helpful.

Cakes and delicious cookies were served to the following members: Mesdames Urban Brown, Alton Cain, Fred Hegl, Felix Jones, Fred McGinty, Ivan McWhirter, Charles Nelms, Maurice Huffaker, Charles Whitfield, Elmo Jeter, Joe Bob Billman, Neal Stanley, "Slick" Clem, and the hostess.

WEEKLY NEWS ANALYSIS

President Hints Controls on Way As Cost of Living Drops Slightly; Western Mutual Aid Pact Prepared

By Bill Schoentgen, WNU Staff Writer

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

DILEMMA: Sharp-Horned

Perched uncomfortably astride a dilemma having the sharpest horns ever to plague a sitter, President Truman ponders ways and means of getting off. The situation is as clearly defined as it is bothersome.

IN SHORT, the president must work the seemingly impossible miracle of knocking prices down while keeping wages and farm prices up. Mr. Truman is indubitably committed to the former, and it was a great majority of opinion that he could do just that which helped account for his victory.

THE PATTERN is clear. Industry raises wages and the cost of its products goes up. Wages must increase if these products are to be purchased. Labor comes in to ask for more money in order to buy these products. And so the cycle continues.

Meanwhile, it is obvious that Americans expect the President and congress to do something about getting the cost of living within reasonable bounds—and to do it quick. On the other hand, labor, which backed Mr. Truman at the polls, and farmers, who generally supported him, are expecting action as swift on legislation favorable to them.

As administration leaders sought a course of action to satisfy all groups, congress said little for public consumption. Methods of price control, if any have been conceived, have not been discussed.

ONE THING, however, is clear. The situation poses the major test of how effective in solving the problem will be the cooperation of congress and the President.

From Capitol Hill came persistent whispering that Mr. Truman's thumping victory did not necessarily arm him with the equivalent of a magic wand which he might wave over congress to bring about legislation in any form he may desire.

Solution?

Then there was a break on the inflation front. Americans who had come to accept the inevitability of the high cost of living raised their eyes with surprise over the development—although it amounted to only the merest chink in the price barricade.

TWO THINGS happened almost simultaneously: President Truman ordered administration agencies to work out a "definite" anti-inflation program to be presented to the Democratic congress in January, and the bureau of labor statistics reported a dip of one-half of 1 per cent in its cost-of-living index for October.

The significance of Mr. Truman's proposal for anti-inflation legislation was established; it was something to look forward to. But how much real importance should be attached to the almost infinitesimal break in the price line would remain to be seen.

FOR ONE thing, the price dip—unless it grew to miraculous proportions—would not cancel out any anti-inflation measures, such as "standby" price control and rationing, which might be imposed.

Edwin G. Nourse, chairman of the President's council of economic advisors, opined that a lowering of prices, washing out the need for drastic controls, would be "swell." But he didn't predict it would happen.

Another top fiscal official said he believed inflationary forces still had the upper hand. And Chester Bowles, one-time OPA boss, stated that congress "unquestionably" would act against inflation.

The precise nature of the program President Truman will lay before congress in January was not yet known—probably not yet determined. Its general outline probably will be made public when he delivers his "State of the Union" message in January.

But there was little doubt that a return to more or less stringent economic controls was in the cards for 1949.

Atlantis Debunked

If you take the word of Dr. Maurice Ewing of Columbia university, everyone who's been waiting around for the fabled "lost continent" of Atlantis to show up may now relax. Dr. Ewing says he has mapped, photographed, probed, sounded and visited the ocean floor since 1935, and there just isn't any evidence of the mysterious continent. Atlantis was believed to have sunk in a great prehistoric cataclysm.

Global Christmas

People of the nations of the earth are going to see Christmas from an American viewpoint this year through the medium of typical American Christmas greeting cards being sent by the state department to U. S. embassies and consulates throughout the world. Here Miss Frances Kane, state department employee, sits below an enlarged photograph of the cards.

TREATY: Mutual Aid

The cold freeze being turned on Russia by the western nations plummeted several more degrees when Great Britain, France and the three Benelux nations, after long negotiations, agreed on a 17-point mutual assistance pact.

THAT the U. S. is involved in the agreement goes almost without saying, for without American sanction and at least an implied willingness to help out militarily in the event of aggression no western Atlantic treaty would be worth a "whereas" or even a "hereinafter."

Primary proposal in the plan calls for a pledge of mutual armed assistance by the U. S., Canada and the five western European nations in case one or more of them should be attacked.

SECONDLY, it provides that the pact be left open to membership of certain other nations. It calls, also, for the setting up of military and political boards—immediately after the pact's signature and ratification—to make the treaty operate.

Containing 17 points in all, the program of "agreed opinions" has been presented to the U. S. and Canada for consideration. There was no immediate reaction from the two governments on the matter, but it seemed logical to presume that the idea for such a treaty had received their prior blessings.

Although the pact in its present form refrains from designating a fixed period of years for its life, it does recommend "a long duration." Actually, the five European governments have been thinking in terms of a 50-year period, but the decision on that is being left to the last stage of negotiations.

RUSSIA as a nation—peaceful or belligerent—is scrupulously ignored in the document. Nowhere is any mention made of the Soviet Union.

Nevertheless, the treaty itself offers grim proof of the fact that the western democratic nations have seen fit to construct the nucleus of a great regional defensive alliance against Russia and the spread of communism.

PEACEABLE: Party Line

The official "line" of the Communist party has gone off on a new tangent in a tactic described as a "peace offensive" by U. S. intelligence authorities who reported the switch.

WORD IS that the Kremlin has ordered peace propaganda and demonstrations of various kinds as the official party line for all Communist parties, organs and front organizations. The intelligence boys claimed that this ostensible about-face would become apparent in the near future.

Soviet rulers are supposed to be setting the stage for a world-wide "peace" maneuver as part of their cold war strategy to embarrass the United States and its western allies in the clash over the Berlin situation.

How much will this spurious peace offensive mean? Literally nothing, as far as any genuine desire or effort for peace is concerned. The Russians haven't undergone a change of heart; their aims are the same as always.

KEEP DIGGING: No Tax Cut

All hope for an income tax cut in January may as well be ruled out now. This is on the authority of Sen. Walter F. George (D., Ga.) who is returning to chairmanship of the senate finance committee. He has said that increased aid to Europe and additional funds for national defense would bar any reductions. He estimated that ERP would get an additional one or two billion dollars.

FIRST AID to the AILING HOUSE

by Roger C. Whitman

QUESTION: Our water supply has so much iron in it that the wash sheets, pillow slips, towels, etc. The water doesn't seem hard, and it is easy to make good suds. Is there any help for the trouble?

ANSWER: Yes, but at a price. You need an iron removal unit in the water supply. For information on this unit, inquire of the Architects Samples exhibit, 101 Park avenue, New York 17, (a non-commercial organization.)

QUESTION: How can I remove rust stains from rubber tile?

ANSWER: You may be able to make them less noticeable by rubbing with very fine steel wool moistened with a little water.

A cheerful Christmas note is the news that your Christmas budget can be made to perform wonders with little time and effort. Just write down the names of friends who smoke; then visit a neighborhood dealer. He'll be well stocked with gay cartons of mild, flavorful Camel cigarettes and pound tins of mild, mellow Prince Albert Smoking Tobacco—the National Joy Smoke. Both gifts come ready-dressed in colorful Christmas containers. You can even dispense with the usual fussing with cards, due to the novel space provided for personalized season's greetings on the wrappings of both items. Your budget will like these modest gifts. And your friends are certain to welcome holiday-sent Camels and Prince Albert! (Adv.)

FOR A GOOD PLOWING JOB IN TOUGH SOILS

For an excellent job of plowing in soil which is hard scouring or hard to penetrate, we recommend the MM TRA tractor disc plow, now offered in 3, 4, 5 and 6-disc sizes. This plow is so designed that the entire weight of the plow, with the exception of the land wheel, is effective in holding the plow to its set depth. The discs cannot rise without taking the front and rear furrow wheels with them. Any linkage between the rear wheels is eliminated to assure more accurate depth control. Adjustable to plow from 3 to 14 inches deep. See this plow... see it work... you'll vouch for the fine plow it is. See us now for complete facts.

WATER

While we were visiting down in central Texas recently, we heard the same cry everywhere, the "terrible drought." From Abilene to Stephenville, from Stephenville to Waco, from Waco to Temple and beyond the cry was the same—almost no rain for the past two years. In some places the scarcity of stock water and of city water for domestic use has become quite a serious problem. And repeatedly as we heard this mournful cry we remember the demands that many of the people down-state have been making that some law be passed to limit the amount of underground water that may be pumped to the surface and used for irrigation purposes out on these plains, imagining that in some way that would help to increase their water supply.

As a matter of fact, however, the pumping of water from underground surfaces out on these plains has very little effect, if any, on the amount of stock water available to other portions of the state or on the supply of water for domestic use in the cities and towns down-state. Practically all of the stock water down-state comes from surface water that drains off into creeks and ponds and surface tanks built to impound surface water. Practically all of the water used by cities and

and towns for domestic and commercial purposes comes from lakes and streams. Little water runs down there comes from underground sources on the plains.

What the people of those portions of the state need to do is to make provision for the conservation and use of larger portions of the water that falls in their own respective vicinities.

There is scarcely a farm or a pasture anywhere below the cañon on which a dam could not be built across some creek or draw that would impound all the water needed for the stock used on the farm or that graze on the pastures.

Likewise, the amount of water needed by cities and towns could be provided in abundance by the building of more or larger dams across streams in their respective vicinities. These are the only means by which they can materially increase their water supply. They certainly can not materially increase it by shutting down wells out here on the plains or by preventing the drilling of wells in this area. The people of those areas down-state have in their own hands the means of solving their own water problems. It is up to them to use the means they have. It will cost some money, but it likewise costs money and a lot of it, to drill and equip irrigation wells on the plains.

PECANS

L. C. Haney handed us a few pecans one day last week grown on his own premises here in Tahoka. There were about three varieties. Some were round and plump, some were elongated, about like the average pecan, and some were more elongated still. Some were native varieties, and some were the paper-shell variety. The latter, of course, is much better for eating right out of the hull. The hard shells are used principally in candies, cakes, and pies.

A reference to the Texas Almanac reveals that Texas produces about one-third of the crop of the entire country. But it also reveals that Texas has given less attention to the improvement of the nut than has almost any other pecan growing state. Georgia, for instance, produces about 35 per cent of the improved or thin-shell varieties while Texas produces only five per cent.

or a little more, of these varieties. We were in two pecan orchards in Central Texas last week, one on the head of the North Bosque in Erath county near Stephenville and one in the Little River Bottom near the Bell and Milam county line southwest of Rogers. Strange to say, the pecans in the Stephenville orchard were about normal in size while those growing on the great spreading trees in the Little River Bottom were scarcely half that size. Both varieties were selling, however, at about the same figures per pound, about 10 1/2 cents. The smaller size was said to have been due to long drouth that has prevailed in that section of the state.

Harvesting is a slow and tedious process, being done by hand, but purchasers and processors of the nuts crush them with machines which separate the "meat" from the hulls and thus prepares them for use in candies, cakes, and pastries. Another thing impressed upon us was this, that the pecan-grower must know his business. One versed in pecan-growing, we were told, even in the dead of winter can cast his eyes hurriedly over a pecan grove and almost unerringly pick out the trees that are poor producers and those that are good producers. He knows what trees should be cut out and what should be pruned, and how much. He knows how many trees should be planted or allowed to grow in any given space. He knows about the insects that damage the trees and the nuts. He knows all about spraying them—when and how often they should be sprayed. We were convinced that if expert knowledge were generally used in the growing of pecans, the quality of the product could be greatly improved and the production in Texas could be doubled or trebled within a few years.

There are no pecan orchards in Lynn county but there are many individual trees scattered over the county which are proving yearly that pecans can be and are being grown successfully in this area. Texas, by the way, frequently produces as much as 45,000,000 pounds, or more, in a year, the crop selling for \$4,000,000 to \$5,000,000. We can visualize the time when the crop will amount to three or four times that much, with the quality of the nut generally of the best varieties.

It seems that whenever our State Commissioner of Agriculture runs anything else to do he gets the Governor to declare all of the cotton-producing counties of West Texas to be infested with pink boll worms and to declare a cottonseed quarantine against them. He and the Governor took such action recently, according to a communication received a few days ago by the News, designating 65 West Texas counties, including all of those on the plains, and all the West Texas territory extending as far east and south as Wichita, Foard, Baylor, Shackelford, Coleman, San Saba, Mason, McCulloch, Menard, and all the intervening territory as pink boll worm infested area declaring them under quarantine, and requiring that all seed shipped out of such areas shall be treated for pink boll worms. We seriously doubt if there is or ever has been any serious infestation of pink boll worms in any of these counties. We have not heard of a pink boll worm in Lynn county since the great bollaballo raised during the administration of Dan Moody as Governor, and we never heard of any then except one or two dead ones that inspectors claimed to have found somewhere in Lynn county that year. Yet nearly every year they quarantine a lot of these West Texas counties against the pink boll worm. We notice that they waited this year until after the election to declare such a quarantine, and possibly they have so waited every election year. We do not think

that any good can come out of these quarantines and possibly not much harm except the annoyance it causes many people to suffer. We think that our commissioner of Agriculture and our governor have very little to do when they spend their time in hunting out West Texas counties to harass by placing them under pink-boll-worm quarantine. We will bet that no inspector has ever seen a live pink boll worm in any South Plains county. They don't thrive in this climate.

time in hunting out West Texas counties to harass by placing them under pink-boll-worm quarantine. We will bet that no inspector has ever seen a live pink boll worm in any South Plains county. They don't thrive in this climate.

Andrew Q. Allen, Newly-elected Baptist S. S. Secretary.

NATIVE OF PETERSBURG BECOMES STATE SUNDAY SCHOOL SECRETARY

Baptists and other residents of the South Plains will be interested in the announcement made last Thursday that Andrew Q. Allen, director of public relations for the Baptist General Convention of Texas, has accepted the position of state Baptist Sunday School secretary, to which he was elected by the Baptist state board recently. He succeeds Dr. G. S. Hopkins, who will retire on December 31 after serving as secretary for 23 years.

A native of Petersburg, Hale county, Allen attended the West Texas State Teachers College at Canyon, is a graduate of the University of Texas in Business Administration, holds the Master of Religious Education degree from the Southwestern Baptist Seminary, Fort Worth, and the Master of Arts degree in Elementary Education from the George Peabody College, Nashville, Tennessee.

He served for five years as Dr. Hopkins' associate in Sunday School work, three years as state Sunday School superintendent in Tennessee, and seven years with the Southern Baptist Sunday School Board in Nashville. In 1944 he became business manager of Baylor Hospital in Dallas, and in 1947 was elected as director of public relations for the Baptist General Convention of Texas.

He will begin his work as Baptist State Sunday School Secretary on January 1.

CARD OF THANKS

We take this method to thank our dear friends for the kindness shown us, on our return from the funeral of our beloved sister and sister-in-law, Mrs. Daisy Hardy. The food and flowers were deeply appreciated and again we say a sincere thank you.

May God bless each home is our prayer. —Mr. and Mrs. W. R. Owens and children.

CARD OF THANKS

We want to take this method of thanking our friends and neighbors for the pretty cards and kindness shown me while I was in the hospital and since my coming home. I wish to thank Dr. Zee and the entire staff, at Lamesa, for their kindness. —Mr. and Mrs. Clyde Childress.

Yessir! that's my- "Lubri-tection"!

It's Super Quality and I'm Proud as a New Papa of Phillips 66 Premium Motor Oil!

Boy-oh-boy, here's something to point to with pride! Because "Lubri-tection" means lubrication plus protection... it means the kind of a job you get from a fine motor oil, expertly refined with varnish and sludge-retarding additives as added protection! Yes, this Phillips 66 Premium is a motor oil that actually helps your engine!

Phillips 66 Premium Motor Oil is a really good lubricant with extra additives and inhibitors to help prevent the formation of sludge and varnish. So remember the name "Lubri-tection"! It's the word that means Phillips 66 Premium Motor Oil... the word that means lubrication plus engine protection!

PHILLIPS 66 PREMIUM MOTOR OIL

* "Lubri-tection"—the protection rendered by an oil of fine base stock containing special detergent and oxidation inhibiting ingredients.

G. W. SMALLS HONORED ON GOLDEN ANNIVERSAR

The home of Mr. and Mrs. G. W. Small was the scene of a happy gathering of friends and loved ones last Saturday afternoon from three to six o'clock who came in great numbers to honor the happy couple on the fiftieth anniversary of their wedding.

Miss Eva Wright, daughter of Dr. and Mrs. T. D. Wright of May, Brown county, Texas, became the bride of George W. Small, also of Brown county, on December 4, 1898, as the two stood before the altar in the First Methodist Church of May and took the wedding vows read to them by the pastor.

Four years later, in November, 1902, the happy couple came to Lynn county, and during the next spring they helped to organize the county and to lay out the county seat. They have made Tahoka their home ever since, and during the years have accumulated a great host of friends, many of whom have passed on to the other side, but many of the living crowded in to their home Saturday afternoon to offer congratulations, present gifts expressive of their esteem and affection, and to pass a pleasant hour with the honorees. The register shows that there were 161 callers, possibly a record for this town and vicinity.

For many years Mr. Small was actively engaged in business in Tahoka, for other years he looked after his farming operations in the county. During his residence here, he has served the public in various capacities, several years as county commissioner, and possibly the county has never had a finer or better one.

During these years also Mr. and Mrs. Small have reared a fine family of children. One son and four daughters were born of their marriage. One daughter, Birmah, died in 1923, and another, Ida, in 1933. Living are Mrs. Era Stewart, Mrs. Alice Warnick, and Maurice Small. The honored couple have four grand-children, Aleta (Stewart) Thomas, George M. Small, Jimmie D. Small, and J. O. Warnick.

Out-of-town relatives here for the occasion were: Mrs. S. P. Burns of Brownwood, a sister of Mr. Small; Mr. Onlee Powell of Brownwood, a nephew; Mr. and Mrs. Charles Tunge of Brownwood, a niece and her husband; Mrs. Bettie Small and son Jimmie Small of Geary, Oklahoma; Mrs. Jimmie Smith of Seagraves, a niece; Mrs. J. W. Small of Lamesa; Mrs. Joe Alexander of Lamesa, a niece; Mr. and Mrs. J. D. Burns of Whitesboro, niece and nephew.

Out-of-town guests were: Mr. and Mrs. R. H. Roach of Amarillo; Rev. and Mrs. H. A. Nichols, Stratford; Mr. and Mrs. W. M. Scott, San Angelo; Miss Billie June Sandr, San Angelo; Mrs. Bill Guin, Knickerbocker; Mr. and Mrs. W. G. Williams of Snyder; Mr. and Mrs. Mac Garner of Ruidoso, New Mexi-

CHAMPION HEREFORD BRINGS \$6 A POUND

4-H Club work has always proved rewarding in knowledge and experience gained but, taken from the 60 members of the Pecos County 4-H Club, it can also result in sudden wealth.

The Club added more than \$5.00 to their coffers last Thursday when their steer, Texo, reserve champion of the International Livestock Exhibition at Chicago was sold for \$4 a pound. W. T. Posey, Pecos County Agent, said they will use the fund to expand club activities.

Texo began his show winning career in October when he was chosen Grand Champion of the Texas State Fair, where he was shown by Sim Reeves Jr. of Fort Stockton. At that time he was purchased by Wiley Akins, manager of Burrus Feed Mills, Fort Worth, for \$2 a pound which placed the purchase

price over \$2,000. Young Reeves plans to use his prize money for his college education.

Akins has always been intensely interested in 4-H Club work. Recognizing the fine quality of the steer, he said, "This animal is too fine to slaughter. Instead, Burrus Feed Mills is giving him to the boys and girls of the Pecos 4-H Club in the belief that he will win greater honors for them."

The Pecos Club named the steer Texo for the product of the Burrus Feed Mills and with Mr. Posey made plans to exhibit him in Chicago.

Akins proved to be a true prophet for on November 30 Texo became champion Hereford of the International show. That same day he was also selected reserve champion, honors going to an Aberdeen Angus steer, Old Gold, owned by C. E. Yoder and sons of Muscatine, Iowa.

On December 2, Glenn McCarthy, Houston oil man, caused a whirlwind of excitement when he bought Old Gold for a record price of \$10 a pound, and Texo \$1 a

pound. In addition, McCarthy paid 77 cents a pound for the champion carlot of 15 steers.

McCarthy announced that he would serve the champion animals at the opening of his new hotel, The Shamrock, in Houston. The 13 story, 1100 room hotel will be formally opened on St. Patrick's day. McCarthy also displayed his interest in 4-H Club work by arranging a pre-showing of his soon to be released, "The Green Promise" starring Walter Brennan for the 4-H Congress.

Thus Texo, a Texo bred and fed steer, has brought \$6 a pound in his two trips to the auction block and a bright future for the activities of the Pecos County 4-H Club. All this was brought about by a chain of events beginning with Sim Reeves, Jr.'s successful feeding of Texo, followed by the generosity of Wiley Akins, the skill of County Agent Posey in the show ring at Chicago and the millions of Glenn McCarthy. This should prove to the world once again that Texans do things on a scale as huge as the state and the hearts of Texas people.

DO YOU "RUN DOWN" AFTER 9 P. M.

Do late evening hours find you feeling tired? Limp? Listless? Men and women, especially over 30, often discover these symptoms are due to bloodiron deficiency. When this is the cause, thousands find new vigor, new energy with W. H. Bull's HERBS AND IRON. This amazing tonic contains Iron which helps enrich red blood cells. Other needed ingredients help restore appetite, aid digestion. Try W. H. Bull's HERBS AND IRON—in tablets or liquid. Don't wait any longer. Ask your druggist for it today!

W. H. BULL'S HERBS and IRON

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.

Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

HOUSEHOLD MEMOS... by Lynn Chambers

Plan Your Christmas Goodies Now
 (See Recipes Below.)

Holiday Sweets

CHRISTMAS is the time when the larder is constantly raided and homemakers have to plan more than enough to take care of snack ideas the family comes up with at a moment's notice.

Christmas is a time when goodies are in demand. Have several jars or tins of cookies ready if you want to keep the sweet tooth satisfied. With the gala recipes I'm giving you today, everyone is certain to be satisfied!

It isn't enough just to have several kinds of delectable cookies on hand. You'll need candies, too, and probably some festive popcorn balls to place on the tree.

THE FIRST of the recipes in this parade of holiday sweets is a chewy type that keeps well and is extra good eating. Make one recipe or two, but I guarantee that even that won't be enough as soon as the word gets around how really good Party Chews are:

Party Chews
 (Makes 40 1½-inch squares)

¾ cup butter or substitute
 ½ cup brown sugar
 1 cup sifted flour
 2 eggs
 1 cup brown sugar
 1 teaspoon vanilla
 ¼ teaspoon salt
 1 cup shredded coconut
 1 cup oven-popped rice cereal
 1 cup chopped nut meats

Blend butter and sugar thoroughly. Add flour and mix. Press mixture on bottom of a shallow baking pan (9 x 13 inches). Bake in a moderate (350-degree) oven about 15 minutes or until a delicate brown. Beat eggs well. Add sugar gradually and continue beating until mixture is light and fluffy. Add flavoring, salt and coconut. Blend in rice cereal and nut meats. Mix well and spread on baked crust. Bake in a moderate oven about 25 minutes. Remove from oven and cut into squares while warm.

Pecan Molasses Brownies

¾ cup flour (¾ cup plus 2 tablespoons)
 ¼ teaspoon salt
 1 cup pecan meats
 ½ cup butter
 ½ cup powdered sugar
 ½ cup pure dark molasses
 1 egg

Sift flour, measure and sift twice with salt. Lightly mix in broken pecan meats, reserving a few whole ones for decoration. Cream butter and sugar thoroughly. Blend in molasses and well-beaten egg. Add dry ingredients and mix well.

Place dough into a square pan (eight-inch) and arrange pecans on top of dough. Bake in a moderate (350-degree) oven for 20 minutes. Cut into small squares.

Pecan Cakes
 (Makes 24 2-inch squares)

1 cup butter
 1 cup sugar

LYNN SAYS:
Here are Short Ideas, Long on Taste Appeal

Mushroom soup is a good braising liquid to use for veal steaks. When the steaks are tender, thicken the liquid and serve as gravy.

Have you ever tried cooking short ribs with tomato pulp, green pepper and a bit of garlic? The flavor's worth it!

If you have any small baskets left, these are excellent containers for popcorn balls, cookies or jellies and preserves.

LYNN CHAMBERS' MENU

Baked Ham and Sweet Potatoes
 Waldorf Salad Hot Rolls
 Succotash Beverage
 Pineapple Chiffon Pie

1 egg, separated
 2 cups flour
 1 teaspoon cinnamon
 4 cups pecans, chopped

Cream butter and sugar; beat in egg yolk, then flour sifted with cinnamon; blend in pecans. Spread thin on a buttered flat tin. Beat egg white stiff and spread on top. Bake in a hot (375-degree) oven for eight to ten minutes, then cut in squares while still warm.

Maple Creams

1 cup maple sugar
 1 cup light brown sugar
 ¼ cup water
 ½ teaspoon almond extract
 Walnut meats

Cook the sugars and water to the soft ball stage (240-degree); add almond extract. Cool to lukewarm, then beat until creamy but firm. Knead until smooth, form into small balls and press a walnut meat into each ball.

Chocolate Taffy

1 cup brown sugar
 ½ cup corn syrup
 ½ cup water
 1 cup molasses
 ¼ teaspoon salt
 2 tablespoons butter
 4 ounces chocolate, melted
 1 tablespoon vanilla

Combine first six ingredients. Cook slowly, stirring constantly until mixture boils. Cook to (290-degree) the soft-crack stage. Pour into a buttered pan and then pour chocolate over candy and as edges cool, fold in the center. Add vanilla and fold until cool enough to pull. Pull until cold and cut into pieces.

HERE IS a cookie which is very much like the praline for which the South is so famous.

Brazil Nut Patties
 (Makes 36 patties 1½-inches in diameter)

2¼ cups sugar
 ½ cup milk
 2 tablespoons butter
 1¼ cups coarsely chopped Brazil nuts
 1 teaspoon vanilla

Place two cups sugar and the milk in a saucepan. Have over low heat and stir until sugar is dissolved. While sugar syrup is cooking place remainder of sugar in a heavy saucepan and stir constantly over low heat until a light brown syrup is formed. Add to sugar syrup slowly and cook to 236 degrees or when a soft ball is formed when some of the syrup is dropped in cold water.

Remove from heat; add butter and beat until mixture thickens and begins to lose its gloss; add Brazil nuts and vanilla. Drop from tablespoon on heavy waxed paper. If candy gets too firm, add a tablespoon of water and place over heat, mixing until candy melts, then continue dropping from spoon.

Electric and Mechanical Toys

Electric toys should never be handled with wet hands. If a youngster has been playing in the rain or snow, he should put on dry clothing before playing with electric toys. A heavy mitten worn by a child when using a play electric iron or stove will help prevent hand burns. All electric toys should be of approved design and construction such as those bearing the label of the Underwriters' Laboratories, Inc. All electric toys should be maintained in a safe condition. At the first sign of a defect, the necessary repairs should be made or the toy discarded.

STATE V. F. W. OFFICERS TO MAKE TOUR OF STATE

Austin, Texas, Dec. 3.—Lyall T. Beggs, Commander-in-Chief of the Veterans of Foreign Wars, will make an extended tour of Texas during the week of December 12th, S. A. Childress, Texas V. F. W. Commander, has announced.

Commander-in-chief Beggs will begin his swing across the state from Amarillo the morning of December 13th, and in succession will make noon and overnight stops in Childress, Abilene, Fredericksburg, Kerrville, San Antonio, Austin, Waco, Fort Worth, Dallas, and Lufkin.

Norman L. Summers, state adjutant of the V. F. W. will accompany the commander-in-chief throughout the five-day tour. State Commander Childress will join the national commander on part of the tour, as will other state V. F. W. officials.

The official visit of the commander-in-chief will officially begin with

a dinner in his honor at Amarillo the night of December 12th. The following day he will be in Childress for a noon speaking program engagement, and that night he will be in Abilene for a special program being arranged by the state's largest V. F. W. Post.

His itinerary will take him to Fredericksburg for a luncheon engagement the following day, and during the afternoon he will visit the Veterans Administration hospital in Kerrville, going to San Antonio for a dinner and other functions that night.

Commander-in-Chief Beggs will meet Beauford H. Jester in Austin at 11:30 the morning of December 15 to discuss various phases of Veterans affairs. Austin V. F. W. officials are planning a luncheon in honor of the visiting commander. That afternoon Chief Beggs will visit McCloskey VA hospital, and be in Waco for an informal smoker that

night.

A luncheon engagement in Fort Worth, a visit to Lisbon VA hospital, Dallas, and a dinner in Dallas at night will provide another busy day on December 16.

Climax of the tour will be a full day's program in Lufkin on the 17, this including a luncheon speaking engagement, and a special V. F. W. program that night will be highlighted by the obligation of more than 100 new members by the commander-in-chief.

He will leave the following day for his headquarters in Kansas City, Missouri.

THE STATE OF TEXAS TO: MARINA FLORES, Defendant. Greeting:

You are hereby commanded to appear before the Honorable District Court of Lynn County at the Court House thereof, in Tahoka, Texas at or before 10:00 o'clock A. M. of the first Monday next after the expiration of forty-two days from the issuance of this citation, same being the 10th day of January A. D. 1949, then and there to answer Plaintiff's Petition filed in said Court on the 20th day of November A. D., 1948, in this cause, numbered 1838 on the docket of said court and styled Maximiliano Flores, Plaintiff, vs. Mariana Flores, Defendant.

A brief statement of the nature of this suit is as follows, to wit: That on or about the 15th day of May, 1944, plaintiff and defendant were duly and legally married, and that said plaintiff and defendant continued to live together as husband and wife, until on or about the 2nd day of January, 1945, at which time defendant abandoned plaintiff without just cause; and that Defendant, disregarding the solemnity of the marriage vows and obligations, did on the 22nd day of January, 1945, voluntarily leave the bed and board of plaintiff with the intention of permanently abandoning plaintiff, and has remained away from plaintiff continuous of said time which is more than the space

BACKACHE

CHEVROLET
ADVANCE-DESIGN HEAVY-DUTY
TRUCKS

Only Chevrolet Heavy-Duty Trucks offer all these extra-value features!

Speed and momentum are maintained on grades with Chevrolet's 4-SPEED SYNCHRO-MESH TRANSMISSION!

Another Chevrolet innovation, the new SPLINED REAR AXLE HUB CONNECTION insures added strength and durability.

Chevrolet's famous CAB THAT "BREATHES" brings you all-weather comfort!

Chevrolet's LOAD-MASTER VALVE-IN-HEAD ENGINE, is now more durable and efficient in operation.

Plus: • The Flex-Mounted Cab • Unweld, all-steel cab construction • All-round visibility with rear-corner windows • New, heavier springs • Full-floating Hypoid rear axles in 3/4-ton and heavier duty models • Hydovac power brakes on 2-ton models • Ball-bearing steering • Wide base wheels • Standard cab-to-axle dimensions • Multiple color options

*Heating and ventilating system and rear-corner windows with deluxe equipment optional at extra cost.

There's a mighty big difference in heavy-duty trucks and you'll know it the moment you hit the highway in one of Chevrolet's new heavyweight haulers. For there's a rock-solid quality, an ease of handling and pull-away power in these Advance-Design trucks. But discover the facts yourself. Compare values! Then—compare prices! You'll find that only Chevrolet heavy-duty trucks have 3-WAY THRIFT—low cost of operation, low cost of upkeep and the lowest list prices in the entire truck field!
