Number 23

## New Home Girls Advance In State Tournament

LATER—New Home Wednesday night defeated Cranfills Gap 63 to 33, and was to meet East Chambers at 6 p. m. Thursday.

New Home basketball girls went to Hillsboro Tuesday to play in the state tournament. This year is the first time in the history of the school that the girls have won the right to participate in the state meet. The girls have won second place several times in the district, but have never before won first place.

The 4-day tournament got underway Wednesday and the championship game will be played on Saturday night.

The 16 state tournament teams are survivors of a field of 350.

The New Home team has met some of the strongest teams of the state this season and many pick them as eventual favorites of the state tournament.

A. L. Pace has coached the girls until he became ill several weeks ago. Since then Bill Fleming and Wilmer Smith has been coaching them.

The New Home first team players are Emadene Robinson, Joy Dean McClintock, Colene Savage. (Cont'd on back page)

## Lions Club Has Interesting Meet

The Lions met in their usual Lions Den, the school cafeteria, Tuesday night, with Lion President Jack Alley Robinson in charge.

All enjoyed the fried chicken supper served by Mrs. Locke and her help.

The Lions voted and gave \$25.00 on the shade being built on the court house square, which will be of great benefit to our elderly men and any one else who has time to sit and talk.

The Lions' play is progressing nicely. The books have arrived and parts have been assigned. Watch for the date and name of play.

One visitor was recognized, Thurston Carter of Abilene. He and Sheriff Clem were in the service together.

Lion Kemp had the program, a quiz program, which was enjoyed by all.

We urge all Lions to be present next Tuesday night. —Reporter.

## PTA Will Sponsor Youth Talent Night

A Youth Talent night has been planned for the next regular meeting of the PTA which is March 17.

The Executive PTA committee met March 3. Six delegates were appointed to attend the District meeting in Lubbock, April 26-27. The delegates appointed were Mesdames W. M. McNabb, Lawrence Taylor, C. B. Nowlin, Adrian Evans, Jesse Wilson, and the two alternates were Harlan Dean and Murray Nettles.

The Gilmer-Aiken bill was discussed.

Characters for the play which the PTA will present soon was assigned.

## METHODISTS PLAN PRE-EASTER REVIVAL

Pre-Easter revival service will be conducted in the Methodist Church here from April 10 to April 17, according to announcement made by Rev. C. A. Holcomb Jr.

Rev. G. R. McCollum of Wichita Falls will be the preacher. Rev. Alby Cockrell of O'Donnell will lead the song services and be the worker with the Youth.

## GOSPEL MEETING AT GORDON ANNOUNCED

Beginning on March 20, there will be a ten-day gospel meeting at the Gordon Church of Christ with Lloyd Moyer of Slaton doing the preaching. Services each evening at 7:30 o'clock.

The public is cordially invited to attend each service.

## Veteran School May Add Class

The Lynn County Veterans Vocational School has recently moved to its new quarters in a building acquired from Amarillo Army Air Field. The building is located on West Lockwood Street.

Charles Stewart of the school states that another instructor will be added if there is sufficient demand. Veterans farming for themselves, not already signed up for training, should see him at his office in the court house. No places are open now, but if sufficient veterans sign up, another class will be started.

## Officials Seek Funds For Roads

Judge Tom Garrard, County Commissioner E. J. Cooper, W. A. Reddell, president of the Texas Rural Letter Carriers Association, and George H. Spears, an interested citizen, have been in Austin this week working in the interest of more improved rural roads in Lynn county. In fact, thousands of people from all over Texas have been there on the same mission, according to numerous press reports. The Tahoka delegation returned home late Wednesday—too late for the News to get a report of their activities for publication this week.

The presence of so many visitors in Austin fighting for a common cause must have spurred to increased activity the members of the legislature, for press reports bring the news that it has already passed two measures to provide more funds for the paving or otherwise improving the rural roads in this state.

## FHA Girls Attend Area Meeting

The FHA meeting of Area II was held in Whiteface last Saturday, March 5, with 40 schools represented and 532 people present.

The program started at 9:30 and closed at 3:30 in the afternoon. The program theme was "Views on FHA." Two local girls participated in a panel discussion; Velma Ruth Howell spoke on "What FHA Offers for the Future" and Patsy McGinty spoke on "What FHA Has Done for Me." Miss Josephine Pazdral, State FHA advisor, Austin, spoke on "Facts and Futurism" and Miss Esther Sorensen, our Area Advisor, discussed "FHA Goals."

New officers were installed for next year. The organization meets twice a year and our next meeting will be held at Jayton, the first Saturday in November.

Others attending from Tahoka were Geneva Marlin, Nelda Faye Schaffner and Mr. and Mrs. Granvel Ayer.

## DRAW METHODIST PASTOR BEGINS NEW METHOD REVIVAL

Rev. and Mrs. John W. Hawkins are among the number from Lynn county who were attending the Wilson Lectures at McMurry College, from Tuesday until Friday of this week. Four lectures were scheduled for each day.

The pastor began a new-method revival at the Draw Church last Sunday morning. For eight consecutive Sundays special evangelistic services will be held both in the morning and the evening hours. Instead of having evangelistic services on eight consecutive days, beginning with Sunday and closing with Sunday, all the services in this meeting will therefore be spread out over eight weeks. He hopes that the results will be most satisfactory.

His subjects for next Sunday will be:

Morning: For their sakes I sanctify myself that they also might be sanctified.

Evening: Where is Abel thy brother?

## TAHOKA STUDENTS ON HONOR ROLL

Tahoka students in the Texas Technological College who made the honor roll for the fall semester were Nana Beth Pennington and Delbert Timmons.

Rev. White Parker, son of the noted Comanche chief, Quannah Parker, who will preach at the Methodist Church in Tahoka next Sunday night at 7:30. Rev. Parker's father is probably the best known of all the Comanche chiefs. In 1874, according to Ben Moore of O'Donnell, who is a long-time friend of the Indian preacher, Chief Quannah Parker was chosen by all the Plains tribes as their leader in the last great battle with the Whites at Adobe Walls in what is now Hutchinson county. His son, Rev. White Parker, is now serving an Indian Mission at Ponca City, Oklahoma.

## Awards Presented Local Boy Scouts

Quite a number of awards were presented local Boy Scouts at a Court of Honor held Monday night at the Scout Hall, according to H. G. Hodge, chairman of the troop committee. Present were 43 Scouts and 60 parents and visitors.

Leslie McKee was presented the Life Scout award, and Charles Uzile and E. B. Gaitner received the Star Scout Award. First Class badges were presented Wiley Lee and John Cuzzy, Lynn Carl Halameck, and James Foster. Also, 50 Merit badges were presented to Scouts, 9 received Tenderfoot awards, and 12 were advanced to the rank of Second Class.

Vernon Brewer presented the 23rd Troop Award, and the Scoutmaster award.

Monday, March 28, will be parents' Night, and all parents of Boy Scouts are urged to be present.

## School Census Is Being Taken Now

Parents of school children living in the Tahoka district should see that their children are properly enumerated in the scholastic census now being taken, according to Mrs. Helen Ellis, district secretary.

Census blanks have been issued to all school children. Parents are requested to fill these out and return them by the children immediately.

People having children not attending school but of school age, or children who will be six and under 18 before next Sept. 1, should be enumerated. If blanks have not been received by parents for any such children whatever, the parents should call Mrs. Ellis, phone 383-W, or see her at her office in the Deen Nowlin building immediately.

Each scholastic enumerated is worth \$55.00 in state funds.

## FRANCES HANEY ELECTED OFFICER OF SORORITY

Austin, Tex. Mar. 7, 1949.—Frances Marion Haney of Tahoka has been elected vice-president of her pledge class in Delta Zeta social sorority at The University of Texas.

She is the daughter of Mr. and Mrs. L. C. Haney of Tahoka and is a freshman pharmacy student.

## RITA PETTIGREW JOINS ARCHERY CLUB

A news communication from the University of Texas states that ten sports clubs at the University have recently initiated 58 co-eds.

Among the number is Miss Rita Gwen Pettigrew of Tahoka, who was initiated into the Bow and Arrow Club.

From The Tahoka Ad.

## New C-C Officers Plan Program For New Year

Plans for the coming year's work were discussed at a meeting of the new officers and directors of the Tahoka Chamber of Commerce on Monday night.

Secretary Clint Walker discussed the work of the past year, and the new president, Hubert Tankersley, outlined some of the accomplishments he hoped the organization could achieve this year.

Each director was appointed as chairman of a specific committee on which to work, and he will select his own assistants. The chairmen are:

Membership and finance committee: Herbert Carter.

New projects committee: Maurice Bray and Bill Strange Sr.

City planning and beautification: Terry Thompson.

Highways: Vernon Brewer.

Agriculture, livestock, and Lynn County Fair: Ronald Sherrill.

Oil mill: Hubert Tankersley.

Trade extension: Otis Spears.

Housing: J. A. Biggerstaff.

Transportation and advertising: Frank Hill.

## Tahoka Teachers Are Re-elected

At a meeting of the school board Tuesday night, all white teachers of the Tahoka schools were re-elected on the condition that college training will meet the requirements prescribed by the State Department of Education and such other requirements as may hereafter be prescribed by legislation which may be enacted at the present session of the legislature.

Teachers for the colored school were re-elected on the condition that their qualifications meet any and all requirements prescribed by the State Department of Education and which may be included in any legislation passed by the legislature, provided the average daily attendance and—or the number of scholars shall be sufficient to warrant three teachers.

Superintendent Vernon Brewer was given a new three-year contract beginning July 1, 1949, and renewable yearly.

## Herman Renfro Is New Conoco Agent

Winston C. Wharton this week announced that he has resigned as local wholesale agent for Continental Oil Company, and will devote his entire time to his automobile, appliance, and other lines of business. His station will continue to handle Conoco products.

Herman Renfro, who has been with Wharton for several years, is the new Conoco agent.

## YOUTH PAYS FINE FOR RECKLESS DRIVING

Thomas E. Cox paid a fine of \$10.00 and costs in the Justice Court here Monday for speeding over the streets of Tahoka. Some other young chaps were in the car with him. It is said, and he had to be called down the second time before the admonition of officers had any effect. The offense occurred on or about February 14. He was released at that time on a promise to send or bring in the fine by the next day, but several days passed before the money came in. He lived over in an adjoining county.

The youthful driver seemed to be out just for a hilarious good time and was endangering his own life and that of others in the car with him as well as other people who might be out on the streets. The punishment, though light, should be a lesson to him and others of his kind, but will it?

Mr. and Mrs. L. C. Haney visited their daughter, Frances Marion, and Al Lehman visited his son, Irwin at Austin Sunday, where the young people are students in the University of Texas.

## Appreciation Day Program At Fair Barn This Week

Maurice Bray, chairman of the Tahoka Appreciation Day program, announces that the regular weekly event will be held this week only at the Lynn County Livestock Show grounds at 3 o'clock Saturday afternoon. Then, each following Saturday it will be held on the court house lawn, as usual.

An award of \$16.00 was presented Sam Pridmore, High School student, last Saturday.

## Recreation Arbor For Elderly Men

For years the elderly men of Tahoka have been meeting daily except in the winter months under a few shade trees that fringe the "triangle" on the court house lawn, spending the time in pleasant conversation.

To add to their convenience, Sheriff "Slick" Clem has raised the money, or is raising it, and is this week having a nice shed constructed, 12 by 20 feet in size, with seats placed under it along each side. All men will be welcome to meet and pass away the time in this little shady center as often as and as much as they care to do so.

They will have plenty of opportunity and freedom to exchange views on every subject imaginable in this little "town hall" during the years to come, on current events, politics, religion, education, government, international problems, town gossip, and what-not. Take to it, boys; we are for you.

Organizations contributing to the building fund include Jaycees, the Lions Club, the Rotary Club, the Chamber of Commerce, and possibly other organizations of the town.

## Wharton Breaks Foot On Fishing Trip

Winston Wharton declares he has made his last fishing trip to Mexico.

Last Friday, he, Terry Thompson, and H. C. Green of Water Valley returned from an expedition down to a lake in Mexico. They had a great time, caught 80 or 90 bass, but—

While trying to get their pick-up out of a mud hole, Winston slipped and injured a foot, which caused him much discomfort, the weather was cold and rainy, and fishing none too good considering the effort put out for them.

On returning home, Wharton had his foot x-rayed and found that a bone had been broken, and now he is on crutches and wearing a cast.

Last year the same party, on a similar fishing trip had their car held up for several hours, and in addition Winston lost a handbag full of clothing.

Mexico is all right for Thompson and Green, but Wharton has had enough.

## REV. J. O. HAYMES PREACHES HERE SUNDAY

Rev. C. A. Holcomb Jr., pastor of the Tahoka Methodist Church, announces that Rev. J. O. Haymes of Lubbock, District Superintendent, will fill the pulpit at the Methodist Church at the morning service next Sunday. The pastor it is presumed, will preach at the evening service.

The District Superintendent will return to Tahoka for the fourth quarterly conference on the evening of May 5, Pastor Holcomb announces.

The annual conference will be held in Amarillo on May 25.

## "BOY'S RANCH" PICTURE WILL SHOW HERE

"Bad Boy," a feature motion picture based on Variety Clubs International Boys Ranch at Copperas Cove, Texas, will be shown at the Rose Theatre here Sunday, Monday, and Tuesday, according to Lester Flood, manager. Audrey Murphy, the war hero, has the leading part in the picture.

The Copperas Cove Ranch, similar to the one at Old Tascosa, will receive a part of the film rentals from the picture.

## Annual Livestock Show Will Open Here Saturday

The annual Lynn County Livestock Show will be held in Tahoka at the Fair exhibition hall all day Saturday of this week, and indications are that this will be the biggest and best show ever held here.

Baby beeves, fat barrows, and fat lambs will be exhibited by 4-H and FFA club boys who have been raising such animals as educational projects.

Entries must be made from 1 to 5 p. m. today, or before 9 a. m. Saturday. Judging of swine will begin at 10 a. m. Saturday, of calves at 3 p. m., and of lambs at 4 p. m.

County Agent Bill Griffin is the general director of the show, assisted by the vocational agriculture teachers of the county.

George Claud Wells is superintendent of the beef division, Roy Botkin, Ward Eakin, and Charley Lichey of the hog, and Frank Parrish and Hubert Tankersley of the lamb division.

Judges are L. M. Hargrave and T. L. Leach of Texas Tech.

Prize money in the various contests is being furnished by the Tahoka Chamber of Commerce and the Tahoka Rotary Club.

Citizens of the town and county are urged to go out and view the fine stock these boys have raised this year. The winners will compete the following week in the area show at the Panhandle-South Plains Fair grounds in Lubbock.

## Finley Starting New Building

Douglas Finley, local Allis-Chalmers and Minneapolis-Moline dealer, announces this week that he is starting construction on a large new building for his Tahoka Implement company on the lots he owns on Lockwood street between his present building and the Davis-Humphries store.

The new building will be the largest commercial building in the business section, 90 by 120 feet, and will completely fill the space between the two buildings. His present building will also be modernized and a new front built on it to harmonize with the new building.

The new structure will give his business 14,200 square feet of floor space, the old building being 40 by 90 feet in size.

## Methodists Plan Building Repair

Committees of the Methodist Church, who have in hand the raising of the money for the church improvement campaign, have met with fine response on the part of the membership up to this time, according to the pastor, Rev. C. A. Holcomb Jr.

He does not anticipate that the reconstruction work will actually begin until after Christmas, however.

## VISITORS WILL GIVE PROGRAM AT BROTHERHOOD MEET HERE

On account of the opening of the Simultaneous Revival meetings in the Baptist Church here and at other places in the county on Sunday, March 20, the regular monthly Brotherhood meeting has been moved back to this coming Monday night, March 14.

Members of the Brotherhood of Calvary Baptist Church, Lubbock, have been procured to give the program. An excellent program is expected, and the membership of the local Brotherhood is urged to be present in full force. In fact every man in the church and every Royal Ambassador, real or potential, is invited to be present.

Lunch will be served.

## Congratulations:

To Mr. and Mrs. L. H. Moore of New Home on the birth of a daughter weighing 4 pounds and 11 ounces, born February 25.

**ACCORDING TO THE HITLER PATTERN**

That scheming old dictator Joe Stalin and his co-conspirators, without any grounds whatever on which to base their charges, are continually spreading their lies about the United States being an aggressor nation and plotting another war. The official Red Army newspaper in Berlin recently carried the following inspired editorial: "The Soviet army once before demonstrated to the world how it could deal with aggressors. If the United States has not learned a lesson, if the United States continues policies of force, it must some day experience the same fate as its predecessor Hitler."

Wouldn't that cork you? Back yonder about 1940 and 1941, when the United States was lending barrels of money to the nations of western Europe in their fight to stop Hitler, old cut-throat Stalin was plotting with Hitler for the invasion of Poland and dividing it between them. When the two cut-throats fell out and Hitler invaded Russia, the United States, knowing that Hitler's ambition was to subdue and enslave the world, began lending money and sending guns to

the Russians and building airplanes for them in order to help them stop Hitler.

Now they are using exactly the same tactics that Hitler used. They are pointing their finger at Uncle Sam and yelling "Wolf! Wolf!" while they are themselves gobbling up all the lambs in Europe and Asia that they can get their teeth on. All the indications are that these Godless atheists and robbers are planning to start a war themselves to subdue and ravish the rest of mankind, just as soon as they feel sure that they have the power to do it. But if they do, it is they who will meet the same fate as Hitler.

There will be a bond election in Tahoka Saturday, but up till the time this was being written we had heard practically no discussion at all of the proposal. It is proposed that the City issue its bonds in the sum of \$50,000 for the following three purposes: Bonds in the sum of \$35,000 to be used in paving many blocks of the streets of Tahoka; \$10,000 to be used in extending and enlarging the water supply system of the city; and \$5,000 to be used in extending, improving, and enlarging the sewer disposal plant. Certainly Tahoka needs more of its streets paved, a more extensive and reasonable water system, a larger sewer disposal plant, and some repairs on the present paving. The proposed bonds will bear interest at a rate of not exceeding 3 3/4 per cent and will be payable serially for a period of twenty years. The paving done heretofore certainly has been worth the money, both the brick paving done in 1923 and the concrete paving done more recently while the late Deen Nowlin was mayor. In fact, we don't know how the town could have gotten along without this paving. It needs more.

Liquor does not cause all the car wrecks but it causes thousands of them every year. It does not produce all the human wrecks, but it likewise produces thousands of them every year. It does not break up all the homes but it is breaking them up in some cities almost as fast as they are being built. There were more divorces than marriages in Dallas in 1947, and a large percent of the divorces was due in whole or in part to liquor. It does not lead all the boys to ruin, but it is leading hordes of them in that direction every day. Then why do we permit the sale of the stuff? You tell us.

A new anti-submarine destroyer will be named in honor of Vice Admiral Theodore S. Wilkinson, World War II hero.

**STATED MEETINGS** of Tahoka Lodge No. 104 the first Tuesday night in each month at 8:30. Members urged to attend. Visitors welcome.  
**BUEL DRAPER, W. M.**  
**H. G. HODGES, Secretary.**

By deception and trickery Communism has secretly worked its way into many colleges and universities in this our country and into some of the departments of our government. Aroused and alarmed, our Government has been seeking to uncover and to suppress its treacherous activities—and rightly so. But what about Liquor? By deception and trickery and often by bold audacity it is creeping into our colleges and universities and even into our public schools, into our homes and sometimes into our churches, and luring hundreds of thousands of our youths into its deadly clutches before they reach manhood's or womanhood's estate. Many of these bright young folks are destined eventually to fill drunkards' and paupers' graves. What are we doing about it? We are voting to keep up the dastardly work. Does that make sense? It does not. But it makes money for the liquor dealers.

A lot of New York Benedict Arnolds declared recently that in event of War between the United States and Russia, they would be for Russia. Those guys do not belong in the United States; they belong in Moscow, or its twin city, Hades.

A new anti-submarine destroyer will be named in honor of Admiral Marc Andrew Mitcher.

**NOTICE OF ELECTION—**

I, K. R. Durham, Mayor of the City of Tahoka, Texas, by virtue of the power vested in me by law, do hereby order that an election be held in the City of Tahoka, on April 5th, 1949, being the first Tuesday, for the purpose of electing the following officers of said city, To-Wit: Mayor and 3 aldermen. Said election shall be held at the City Hall, in said city. E. R. Edwards having been appointed election Judge. The polls are to open at 8 o'clock A. M. and close at 6 P. M.

K. R. Durham, Mayor—  
Attest: Rosemary Nelms, City Secretary. 22-2tc

**CARD OF THANKS**

I wish to thank the many friends for the flowers and cards sent me and also the lovely gifts presented me while I was in the hospital. I appreciated them all very, very much. —Mrs. O. W. Green.

In three years 151,000 successful landings were assisted by Navy Ground Controlled Approach units.

Mrs. O. W. Green, who underwent a very serious operation in the Lubbock Memorial Hospital recently, was released back to her home here Sunday. Her daughter, Mrs. Mabel (Bill) Reed of Slaton, has been with her much of the time in the hospital and was with her here the first of this week.

**LYNN COUNTY PEOPLE ATTEND BAPTIST MEET**  
Representatives of various Baptist churches in Lynn county attended one or more of the sessions of the District Nine convention which was in session at Falls on Tuesday and Wednesday.  
Among those attending were Mrs. Mary Woods and Mrs. E. I. Hill of Tahoka, who attended Tuesday afternoon and night, and J. A. Big-

staff, A. L. Smith, J. C. Womack and E. I. Hill, who attended the Brotherhood meeting Tuesday night.

Attorney-General Price Daniel of Austin was the principal speaker at the Brotherhood meeting. Stressing the need of the world for Christianity, and the blighting evil inherent in Communism, he yet declared that Communism has a mighty appeal to millions and millions of people in its promise of economic security for all and is a real menace to liberty and democracy throughout the world. Wherever and whenever it has been tried, however, it has necessarily resulted in government by dictators. Teaching that men have no rights except those derived from the State, it can call a man to his door and shoot him down if he stands in the way of the State or of the dictators who run the State. Christianity on the other hand exalts the individual. It teaches that man has certain inalienable, God-given rights. Its teachings are directly contrary to the teachings of Communism, which denies the very existence of God, and Communism therefore is bent on destroying Christianity. He appealed to Americans to support and cherish the great principles of Christianity.

He had spent some time both in Japan and in China immediately following the war, and declared that the Japanese as well as the Chinese are extremely receptive to Christianity. He related how a Baptist chaplain and a native Episcopalian clergyman had jointly conducted a religious service on one occasion in Japan which thrilled the crowds that heard it. He said that to him also it was a thrilling service. He thought that Baptists and Protestants should do their utmost to Christianize those people before Communism gets them.

Other speakers of the occasion were four associational Brotherhood presidents in District Nine, one youth from Lubbock, District Missionary F. E. Swanner of Plainview, and Rev. Lee Hemphill, pastor of the First Baptist Church of Littlefield.

Charles Heathman, who resided several years in Tahoka as a boy, and Ira Powell, music director of the First Baptist Church of Plainview, favored the audience with vocal numbers. Charles' friends here may be assured that he sings with wonderful power and effect. The W. M. U. had been in session in the afternoon, hearing reports and discussions and one inspiring

address from Mrs. J. U. Moss, missionary to Columbia, S. A.

Training Union and Sunday School programs were rendered Wednesday. On Wednesday night a message by District Missionary F. E. Swanner and a discussion of Evangelism in the District by Rev. A. A. Brian of Brownfield were heard, and then Wayland College took over, four foreigners being on the program, one each being from Cuba, China, Hawaii, and Chile.

The LSMR (Landing Ship Medium Rocket) has gunfire potential to five destroyers.

The Navy has found loud, long words are best on radio-phone communication.

Word has come back to relatives and friends from H. L. Cook and family, former residents of Wells, that they are greatly pleased with their new home in Arkansas. They slipped off a couple of months ago or such like without our knowledge or consent and just kept going till they got clean out of Texas. They are now on a Star Route out of Milbourne, Arkansas. H. L. is planning to do a lot of unfinished fishing and the kids are enjoying the branch water. We know they are going to miss these West Texas sandstorms terribly. Bet they get home-sick every time they get a copy of the Lynn County News, which a friend here is sending them. They lived here too long to ever get used to Arkansas.

## Soil Conservation District Annual Report Shows Progress In Farming

Much information of interest to Lynn county farmers in contained in the annual report of the Lynn County Conservation District No. 119 recently made by N. E. Wood of the local office to the State office. The News has condensed the report that follows:

The local district received its first application on Nov. 29, 1942, and the total through last December 31 had reached 614, for 237,201 acres. The supervisors approved 80 totaling 23,986 during 1948. Applications on hand totaled 195 for 121,298 acres.

The first cooperative agreement was approved Feb. 20, 1943, and at the time this report was made there had been a total of 419 approvals for 115,903 acres.

During 1948, technicians of the Soil Conservation Service assisted the district in developing and preparing conservation plans on 71 farms consisting of 19,897 acres made farm planning soil conservation surveys on 11,021 acres (total of 248,214 acres to date); assisted district cooperators in establishing conservation practices to the following extent:

Practices	1948	To Date
Contour farming	11,307	81,350
Cover cropping	14	530
Crop residue management	16,074	57,625
Strip cropping	0	227
Range improvement	0	6,145
Seeding of range	0	910
Seeding of pasture	10	68
Farm & ranch ponds	0	8
Terraces (miles)	331	1,449
Field diversions (miles)	2	8
Irrigation land preparation	101	935
Improved water application	5,424	11,240

### Results of Conservation Plan

Due to the drought the past two years, many acres of land have suffered slight to moderate damage, with severe damage on small areas from wind erosion. However, the moisture in January of 1949 has greatly relieved this condition. The present emergency has made us realize the importance of establishing sound land use, cover crops, crop rotation, and proper crop residue management in order to prevent this condition from happening again. On land where the

combine sorghum stubble had been left and chisel-type plows were used to rough up the surface and leave the residue on top, very little blowing was observed. Due to the drought and lack of cover, emergency tillage had to be practiced on a large scale. Deep chiseling on the tighter soils, and deep plowing of the sandy soils proved to be most effective.

Due to the low rainfall the past two years, we have had an excellent opportunity to observe the benefits of soil and moisture conservation on farms of district cooperators who had established improved methods of water application on irrigated lands, obtained uniform yields over the entire field, and made maximum use of irrigation water which was applied. In general, district cooperators on irrigated land produced 15 to 30 percent more grain and cotton per acre, due to uniform distribution of moisture this dry year. For example, Lee Savage and B. A. Morrow, district cooperators in the New Home community, produced approximately one bale of cotton per acre, whereas on many non-cooperators' farms yields were only 15 to 24 bale per acre.

On dry land farms, district cooperators who had established terraces and farmed with terraces produced 25 to 50 percent more cotton and grain sorghums than did non-cooperators in the same community. For example, Clarence Kopecky, T-Bar, made 38 bales on 200 acres, and 40,000 pounds grain on 100 acres. A neighbor non-cooperator made 30 bales on 280 acres and 3,000 pounds of grain on 20 acres.

Many district cooperators report that since they have established improved methods of water application on irrigated lands, labor has been saved. Luther Thomas, Grason, reports that before this system was established he used three men in applying water, and now uses only one man. Others have reported 25 to 50 percent labor saving with improved systems of watering.

Most all cooperators are reporting that their terraces and contour farming are preventing damage from water erosion, and that the establishment of sound land use and residue management are controlling

### wind erosion.

#### Farmer-Rancher Attitude

Interest seems to be growing each year. When the district began operations about five years ago, the farmers in general thought of conservation farming as terraces and contour cultivation. Today the farmers are not only thinking of these practices but are thinking of sound land use, crop residue management, and rotation of crops, so as to leave the necessary trash on the land to prevent erosion.

At the close of 1948 we had 195 active applications, which, to some extent, show the interest and demand for assistance in establishing conservation practices in the district. Farmers are still not as interested in putting in a complete conservation program as we would like for them to be. However, the interest as shown by farmers in regard to seeding land to grass, the use of soil improving crops, and proper crop residue management, make us realize that the interest is continually increasing in a complete program. One farmer in the district owns a large caterpillar tractor and large plow to do deep breaking of the sandy land on his farm.

#### Business Men Assist

The Commissioners Court is very cooperative in using their equipment to assist farmers, which equipment is available when not in use on roads. Each commissioner has furnished a large tractor and large plow to do deep chiseling to help protect as much land as possible from wind erosion. While the dirt storms were bad during the latter part of the year, they kept this equipment going 24 hours per day, at a cost of only \$1.25 per acre for the farmer.

Business men have at all times shown a cooperative attitude, and have been willing to assist at any time we have asked them. The Chamber of Commerce sponsored a soil conservation tour of the district last spring. The city commission worked with the supervisors in sponsoring a land leveling demonstration on the city farm.

#### Plan of Operations

In carrying out a conservation educational program, we have a committee consisting of vocational agriculture teachers, Veterans' Vocational School teachers, Farmers Home Administration, Home Demonstration agent, Production & Marketing Adm., and Soil Conservation Service, with the County Agent as chairman.

The program has been advertised through one conservation tour, & one conservation educational meeting, newspaper articles, each agency explaining and discussing the program and plan with the people with whom they are working, and one land leveling demonstration.

The policy of the board of supervisors is to work with individuals and groups. Applications are approved as they are received, and, in general, are given assistance in the order in which applications are made by farmers. There are emergency exceptions. Since we now have a large number of applications on hand, we are attempting to work in groups where possible to serve more farmers. When groups have been organized, they receive a high priority for assistance.

It is the responsibility of technicians of the SCS to help farmers in preparing their conservation plans and practices which they cannot do themselves.

#### Other Agencies Assist

The Extension Service has given much assistance. The county agent attended three Supervisors' and five special board meetings. The conservation tour and bench leveling was attended by 475. Assistance was given 320 farmers with soil conservation practices including irrigation, deep breaking, wind erosion control, land use problems, contouring crop and pasture land, and seeding irrigated cropland pasture. 200 Extension bulletins relating to soil conservation were distributed.

The Production and Marketing Administration cooperated by setting up payment for conservation practices.

Vocational agriculture teachers have assisted by explaining the or-

ganization and benefits to students and their parents.

Farmers Home Administration realizes the value of any and all measures for the purpose of soil and moisture conservation. A meeting of 32 farm families was held in March, and N. E. Wood attended and stressed the working of SCS. An April newsletter to 150 families invited them to the field day. An October newsletter stressed importance of chiseling and listing.

#### The Veterans Vocational School

Teachers have assisted with two conservation educational meetings by furnishing movie projector to show five conservation films and a large number of their students attended one meeting. One teacher reported he held 12 classes on soil conservation. On occasion they take their classes to the field to practice and observe practices.

SCS personnel has assisted district supervisors in preparing 10 district news articles, conducting one conservation tour, one land leveling demonstration, and two conservation educational meetings. Technicians have attended five group planning meetings, assisted 71 farmers in preparing plans, and 300 district co-operators in one or more conservation practices.

#### District Problems and Needs

The district needs, for educational purposes, a 16 mm. movie projector, a slide projector, and a 35 mm. camera. During the next year the District expects to have more conservation educational meetings, newspaper and magazine articles, and conservation demonstrations.

More technicians are needed, and also a secretary-manager, conservation and engineering aid to assist SCS technicians, as well as money to purchase more equipment to apply practices on land. Equipment and material needed include two large deep breaking plows, one large caterpillar tractor, one pick-up, one maintainer, two carry-alls, two I-9 tractors and one terracing machine. grass and winter legume seed to begin our grass seed production program in the district.

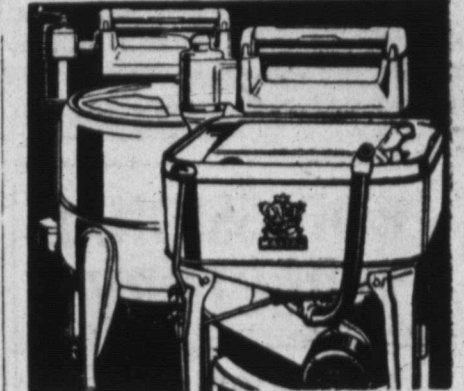

The SCS granted the following kinds and amounts of grass seeds to the district during the year: Western wheatgrass 180 pounds, Canada Wildrye 40, sand lovegrass 47, weeping lovegrass 47, King Ranch bluestem 104, little bluestem 44, blue grama 140, and side oats grama 112. Approximately 40 percent of this seed was drilled with the district's grass seed drill on several cooperators' farms, and the remainder will be seeded this year.

The annual report was signed by Kay K. Moore, secretary of the Board of Supervisors.

R. L. Littlepage is district board chairman, and other members are H. O. Hargett, A. E. Hagens, and W. R. Ledbetter.

During the past year, 43,000 Naval Air Reservists participated in regular drills or annual training.

## SAVE ON A MAYTAG!

Rebuilt—Guaranteed—  
Low as \$49.50

Imagine... a genuine Maytag for much less than an ordinary washer! Every one is rebuilt to meet rigid factory specifications, with genuine Maytag parts. Each is in faultless running order, and backed by a written guarantee.

See these washers in our showroom now. Wide range of prices... all well within your budget. Easy terms. Don't wait, come in today... values like these go quickly!

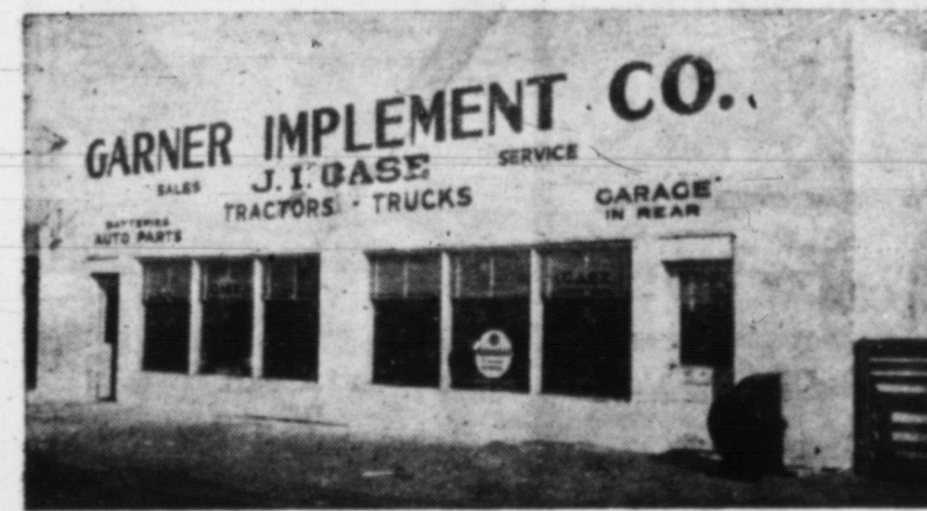

We service all makes of washers.

**THE LAWYERS DID THEIR STUFF**

Charles Townes was in charge of the program at the Rotary luncheon on Thursday of last week, and he called on three good lawyers to help him out. They did a good job of it.

Calloway Huffaker was the first man up. He recited the facts which were placed in evidence in the trial of a real law-suit and then proceeded to ask various Rotarians how they would have decided the case had they been called on to do so. A lot of them made a stab at it. Some of them answered correctly and others incorrectly, according to the actual decision rendered by the supreme court. Then Calloway stated the reasons given by the higher court for its decision. It had revered the decision of the trial court and of a court of civil appeals.

Then Truett Smith stood before the bar and submitted the facts in another case, and then still another, both of which were interesting. Again the dignified—somehow dignified—judges vociferously disagreed.

Judge Tom Garrard was the last to pose a grave judicial problem, with results similar to those who preceded him.

The purpose of all this was not to reveal how greatly brilliant lawyers and even learned judges may differ among themselves but rather to show why it is that there are so many lawsuits. Even when laws are most carefully and studiously drawn, situations will arise which could not have been foreseen, and then the proper interpretation and application of these laws to the new situation may result in differences of opinion. Lawyers will differ and lawsuits will result. The cases go up on appeal to the higher courts and the judges must decide the points involved according to justice, the intent of the legislators if ascertainable, the probable consequences, and other factors. The decision that ultimately prevails and becomes the recognized law of the land is usually the one that is arrived by the most perfect course of reasoning and logic.

That is the reason why the study of the law is one of the most intriguing studies that the lover of logic may find.

**LYNN COUNTY PASTORS ATTENDING WILSON LECTURES**

Rev. C. A. Holcomb Jr., pastor of the Tahoka Methodist Church, and Rev. Alby Cockrell, pastor of the O'Donnell Methodist Church, left early Tuesday afternoon to attend the Wilson Lectures being given this week on the campus of McMurtry College and closing today. Friday, Rev. J. M. Hawkins of Draw and presumably other Methodist ministers in this county are also attending.

Dr. Charles Ray Goff, pastor of the Chicgo Temple, and Dr. Grace Sloan Overton of New York are the lecturers. Both are highly esteemed throughout the country. Possibly hundreds of Methodist ministers throughout the Northwest Texas Conference have been hearing them this week.

These lectures are sponsored and made possible by Mr. and Mrs. J. M. Wilson of Floydada, whose contributions are paying the expenses.

**BEATS HEATING PAD FOR RHEUMATIC PAIN!**

Thousands of sufferers from rheumatism, Sciatica, Lumbago, Arthritis, Muscular Cramps or minor sprains, are happy over their new discovery of BEUMA-RUB, the new Analgesic Alcoholic Rub. BEUMA-RUB is really pleasant to use—yet penetrates and stimulates sore muscles and gives welcome relief from pain. Remember, if BEUMA-RUB does not give you more relief than any other remedy ever used—purchase price will be promptly refunded. The large bottle costs you only \$1.25 at your Druggist or at WYNNE COLLIER, Druggist.

**MRS. W. J. FAIRES HONOR ON BIRTHDAY**

The friends and neighbors of Mrs. W. J. Faires and Mr. Faires expressed their esteem of them when they celebrated Mrs. Faires' birthday with a reception shower in her home on South Sweet Street, last Friday afternoon, March 4.

Mrs. Faires was 75 years of age and almost that many guests registered at her home, each bringing a gift of money, good things to eat or other useful articles.

Previous to the party friends had made the house and all things ready. Mrs. Ted Terry brought a beautiful birthday cake and a corsage for Mrs. Faires to wear during the party. Mmes. J. C. Gable, Lawrence Harvick, T. M. Lockaby and Miss Valerie Wells composed the committee who received and displayed the gifts, registered the guests and served punch and cake throughout the afternoon.

**SMU HAD REMARKABLE GROWTH UNDER LEE**

Dallas, Mar. 8.—During the ten-year period of the administration of Dr. Umphrey Lee, Southern Methodist University has seen its assets triple, its physical plant double in size, and its annual enrollment climb from an average of 1,800 to 7,000 students, university officials announced March 7.

The announcement was made in connection with a luncheon honoring Dr. Lee on the tenth anniversary of his taking over as president of the Methodist institution.

SMU has added an average of \$1,000,000 in assets each year since 1939. Counting buildings completed in the ten-year period, now under construction, and in immediate plans, SMU is in the process of adding 14 permanent structures to the 12 that existed on the campus in 1939.

Overall growth of SMU during the period can be visualized by comparing the 1939 university catalog with the catalog for this year. The 1939 catalog contained 246 pages in one volume, whereas the 1949 catalog is in ten parts and has 556 pages.

Enlisted women recruit training consists of classes in naval history, organization and administration, military courtesy, discipline, chain of command and ship and aircraft guidance.

**FOURTH AND FIFTH GRADE 4-H CLUB MEETS**

Thirty-seven girls were at the meeting of the 4-H club of the fourth and fifth grades in the school building Monday afternoon. Our new sponsor, Mrs. Fred McGinty, was also present.

Miss Hard talked to us about dress patterns and how to put the material on the pattern.

We are going to have an apron display the last of April or the first of May, so she asked us to have our aprons ready for the meeting last Monday. —Club Reporter.

**CARD OF THANKS**

I wish to thank each and every one of you who had a part in making my birthday such a happy one. Words cannot express the gratitude I feel, for your many expressions of kindness and love toward me. — Mrs. W. J. Faires, W. J. Faires.

**Leto's Helps Your Gums Get Well**

**PONTIAC NO. 3,000,000 COMES OFF LINE**

The three millionth Pontiac, a cream-colored convertible sedan, was produced this week by Pontiac Motor Division of General Motors. Harry J. Klingler, general manager of Pontiac for the last 15 years, drove the history-making model off the production line. With him, standing, is L. W. Ward, general sales manager. The city of Pontiac made the occasion a civic celebration.

**SENATOR CORBIN SUPPORTS GILMER-AKIN PROPOSALS**

Austin—Senator Kilmer Corbin of Lamesa strongly supported the second of a series of Gilmer-Aikin educational bills last week after the highly controversial measure was amended several times.

Corbin and other West Texas senators added amendments to the bill that will provide for greater transportation aid to the sparsely settled areas that they represent also guaranteeing at least as many teachers as the small schools now have.

Senator Corbin this week also introduced a bill that will set up a Commodity Distribution Agency for the purpose of aiding the school lunch program, dependent children, the aged, needy and blind. He voiced the opinion that this measure will meet with little opposition.

A bill that will benefit the rural areas of the state with more farm-to-market roads quickly passed the senate this week. It would provide \$1,250,000 a month for the next 2 years for rural roads.

"I want to do my part to help set up some kind of definite policy on rural roads," Senator Corbin said in urging passage of the bill.

The Naval Air Reserve has 2,183 planes of all types.

**WILSON 4-H GIRLS CLUB NEWS**

The Wilson 4-H Club Girls met Tuesday, March 1, at the Wilson School with Miss Graham Hard, Home Demonstration Agent. Grovanda Coleman, president, presided. The girls enjoyed a demonstration on pattern cutting by Miss Hard. They are interested in aprons and dresses. Forty-three girls were present. The next meeting will be in April.—Reporter.

**CARD OF THANKS**

We wish to thank Dr. Prohl and Dr. Thomas and their staff of nurses for their help and kindness shown us and to our baby, Earline, while she was a patient in the Tahoka Hospital. We also wish to express our thanks to our neighbors and friends for their kindness shown us during our sickness. Many thanks to all.—Mr. and Mrs. Arnold Lehman and family.

Mr. and Mrs. Billy Hill of Muleshoe and Mr. and Mrs. W. M. Flint of Tahoka visited with Mr. and Mrs. Billy Meeks at Goldsmith recently. Mrs. Billy Hill and Mrs. Billy Meeks are daughters of Mr. and Mrs. Flint. The Hills also visited in his father's home while in this area.

Advertising doesn't cost, it pays!

**TEXAS MANUFACTURERS SELL TO GOVERNMENT**

Dallas, Feb. 28, 1949.—Manufacturers and dealers of Texas furnished materials valued at \$54,964,933 to the Federal Government under the Walsh-Healey Public Contract Act during 1948. It was announced here today by William J. Rogers, regional director in the five Southwestern states for the Wage and Hour and Public Contracts Divisions, U. S. Department of Labor. Commodities covered by the contracts last year included: Petroleum products, \$14,212,556; stone, clay and glass products, \$9,339,627; transportation equipment, \$6,296,805; food and kindred products, \$4,467,149; textile and apparel, \$3,148,965; fabricated metal products, \$1,765,456; chemical products, \$961,965; metals and basic metal products, \$892,722; wood products and furniture, \$868,605; ordnance and accessories, \$666,000; machinery, other than electrical, \$360,431; electrical machinery, \$200,357; paper and allied products, \$179,442; printing products, \$12,304; and miscellaneous products, \$11,592,549.

Five Southwestern states—Arkansas, Oklahoma, Texas, New Mexico and Louisiana—accounted for a total of \$78,921,013 in such contracts last year, Rogers said at his headquarters, 1114 Commerce Street.

The Walsh-Healey Act, he pointed out, applies to Government contracts in amounts over \$10,000. It contains sections dealing with minimum wages, overtime pay, health and safety measures, child labor and convict labor, he said.

"The child labor provisions," he added, "fix an assessment against the employer of \$10 per day for each day a boy under 16 years old or a girl under 18 is employed in filling a Government contract."

Mrs. H. C. Bristow of Denver City, who has been seriously sick recently, spent last week here with her daughter, Mrs. M. L. Bentley, but left Sunday with a son to spend this week with him and his family at Big Spring. The Bristows formerly lived here but moved to Denver City several months ago.

In Winter maneuvers off Argentina, only one warship fitted with modern gear was "lost" and five "enemy" snorkel submarines were "sunk."

More than 10,000 people are expected to attend the next session of the Southern Baptist Convention meeting at Oklahoma City, May 18, 22, 1949.

**CARD OF THANKS**

Words are inadequate to express our thanks and appreciation for the many kind thoughtful deeds and words of sympathy that were bestowed upon us in our sorrow. We feel that the largest measure of your devotion was for another soldier who gave his life. May God help us all never to forget what all of these men and women have done.—Mr. and Mrs. Henry Maassen and Joyceelyn.

The first book printed on the North American continent, was a hymnal, produced on a printing press brought across the Atlantic by the Puritans. The book was entitled "Bay Song Book."

Take care of your clothes Electrically

EVER stop to think of what a beating your clothes take when hanging on the line on a windy spring day?

That whipping wind tosses them, pulls them, twists them, detracting every minute from their future usefulness to you.

That can be easily avoided through the use of a scientifically designed labor saving home clothes dryer. In this economical machine, gentle puffs of warm air remove the moisture from your wash, leaving it toasty dry. You'll avoid, too, the trouble of bundling up to go out to "hang up clothes" and resulting colds and sniffles.

Put an electrical clothes dryer on your list of electrical needs... you'll like it.

Your appliance dealer will gladly give you a demonstration of the efficiency of the new automatic clothes dryers. See him soon.

## Stupendous Water Project Planned

A stupendous water project involving the building of an immense dam across the Canadian River north of Amarillo to serve the cities and towns of the Plains and adjacent territory was proposed at a meeting of U. S. Reclamation Service officials who met in Plainview Monday, representatives of many cities and towns being present.

If the proposed project should be pronounced by engineers as feasible and the estimated cost not too high, a drive will doubtless first be made to find out how many cities and towns would sign up for their water supply from that source.

Lubbock representatives at the meeting were reported to be unanimous in favor of the project provided the cost is not prohibitive. Tahoka, O'Donnell, and even towns further south have been mentioned as being within the service territory.

There will likely be plenty of discussion of the project for many weeks or even months in the future if engineers as a whole together with city officials in the larger cities and towns of the area, after due study, should conclude that the project would be feasible.

**CHECK AND REPAIR FARM IMPLEMENTS NOW**

Here's a reminder about your implements.

A few hours work now may save you a breakdown in the field next spring. Implements in good condition do a better job and do more work per hour.

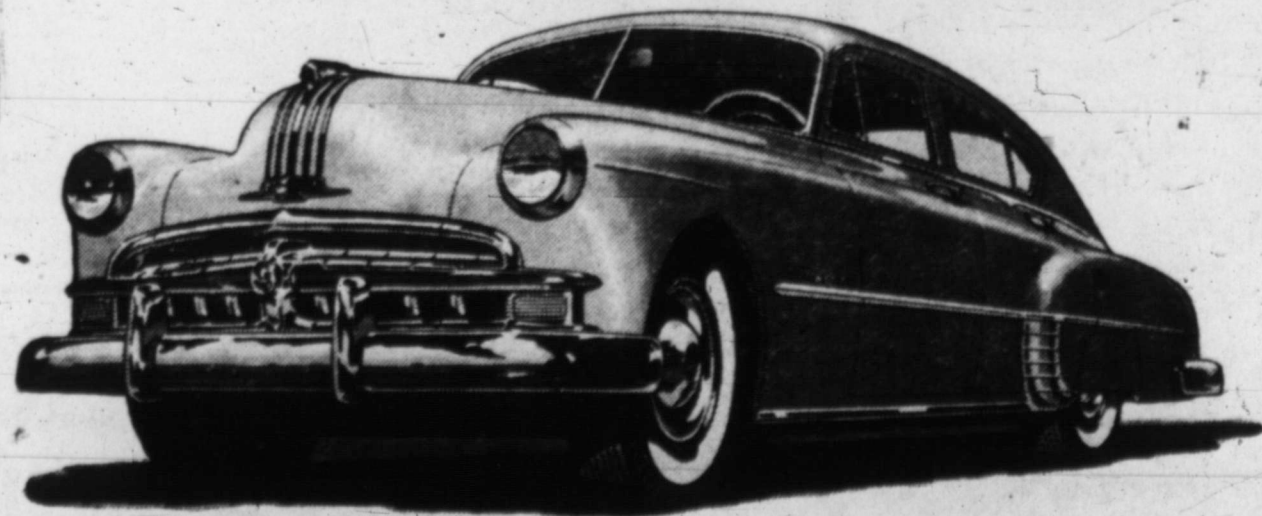

1. CHECK ALL IMPLEMENTS for worn or broken parts. Tighten bolts, replace worn bearings.
2. REPLACE WORN PARTS. Our parts department has a good supply of Allis-Chalmers repair parts made in the same factory and to the same specifications as the original parts in your equipment.
3. WELDING, PAINTING, aligning and major repairs should be scheduled with us soon. Phone or bring in equipment.

Start now. Be ready to go when the weather is right. **ALLIS-CHALMERS SALES AND SERVICE**

## New Home

(Cont'd from front page)

Letta Dell Roland, Katherine Roper, Martha Crabtree. On the second team are Bernice Fillingim, June Huey, Joyce Jones, Mell Alice Davis, Jackie Jo Rogers, and Norma Evans.

Emadene Robinson is high point player for the year with 667 points. She is a very outstanding left-handed forward. She is a senior student and has attended the New Home high school all of her high school years. Emadene has 4 years on the team.

Joy Dean McClintock has made 300 points for this year. She has played on the high school team for 4 years. Joy could not play in quite a few games this year because of injuries, but she was able to play in 25 out of 33 games. She is a senior.

Coleene Savage is a forward with 457 points. She has played three years.

Letta Dell Roland is an outstanding guard and is a senior and has played four years.

Katherine Roper, a guard, has played for 2 years and is a junior, attending New Home schools all of her life.

Mell Alice Davis, a guard, is in her first year of play.

Jackie Jo Rogers, known as the little forward, 5 feet tall, is a freshman and weighs only 85 pounds.

June Huey, forward, is president of the Junior class.

Bernice Fillingim is a freshman and a forward. She has lived a New Home all of her life.

Martha Crabtree is a guard and a senior and has lettered four years.

Joyce Jones is a freshman and is on the B team. She was elected the most popular girl in the freshman class.

Norma Lee Evans is on the B team and is a freshman. She is a guard.

A large number of people from the New Home community went to Hillsboro to see the team in play.

## SLATON DAVIS APPEARS ON RADIO QUIZ HOUR

Slaton Davis, 10, son of Mr. and Mrs. A. L. Davis of Dallas and the grandson of Mr. and Mrs. W. B. Slaton of Tahoka, was one of six students representing his school, the Teller School, where he is a low sixth grade student, in a radio quiz program over station WFFA Dallas last Saturday at 12:30 noon, and performed his part most excellently, according to those who heard the program. Norvell Slater conducted the program, a contest between this school and another.

Slaton Davis is the son of the former Miss Lucille Slaton, who was reared here.

Tonsillitomy at Tahoka Hospital this week included the three children of Mr. and Mrs. A. D. Riddle, Glenden, 20 months old, June 4, and Dewey 6.

## HIGHWAY WORK IS PLANNED IN AREA

Press reports from Austin are to the effect that the State Highway commission on Monday took steps to have more than 104 miles of highway in the South Plains area sealed to a "seal coat" soon. A "seal coat," it is explained, means a single application of asphalt and crushed rock or gravel on a road already paved.

Segments of highway thus to be improved are given as follows, the mileage in some cases stated in round numbers: 10.6 miles on highway 290 in Lubbock county extending from the Hockley county line eastward to a point just west of the City of Lubbock;

Lubbock and Crosby counties: U. S. Highway 82, from Idalou to Ralls, a distance of 17.3;

Hockley county: U. S. Highway 84, 7.76 miles from west line of Lubbock county across N. E. corner of Hockley county to south line of Lamb county;

Crosby county: U. S. Highway 62, from Ralls north 11 miles to the Floyd county line;

Lamb county: from Spring Lake 5.6 miles to Castro county line; and 6.8 miles from Littlefield to Hockley county line;

Hale county: State Highway, 17 miles from Swisher county line to

Plainview; also building 19 miles of Farm-to-Market roads from Plainview north and east, and 4.5 miles south and east;

Andrews county: 24.4 miles of surfacing on farm roads.

No call for bids was made on

any road improvement in Lynn county. The people of Tahoka, Wilson, Slaton, and the intervening country are anxious for something to be done soon with the proposed Tahoka-to-Plainview highway via Wilson, Slaton, and Idalou.
