Tahoka, Lynn County, Texas, Friday, July 8, 1949

Number 40

West Texas Gas Co. Short Wave Radio Station Installed

A short wave radio system is being installed over the West Texas Gas Company's network of pipelines and one of the key broadcasting and receiving stations has been located at Tahoka.

Work of installing the station and tower here was completed several days ago. Other stations in the system are located at Lubbock, Midland, Plainview, Littlefield, and Turkey Creek.

The Tahoka station, located at the compressor station two miles west of town, has a tower 200 feet in height, surmounted by 12-foot aerial, and may be seen for many miles, particularly at night, when the red warning lights are on. The call letters are KNAZ and broadcasts are over 3782 kilocycles, with 500 watt power.

The station is strictly a company affair, of course, enabling the various divisions to keep in constant and immediate contact with main offices, booster stations, and maintenance crews. Also 35 cars and trucks being equipped to tie in with the stations. However, the station can be used for community emergencies such as the severe ice storm which occurred last winter, isolating many towns for hours.

The local compressor station has been undergoing constant improvement and enlargements, and now employs four full-time employees, Roy Harvick, V. L. Clem, Alex Nevill, and Troy Havins.

A. V. Barnes recently moved to Tahoka from Slaton, and now is the local manager for the company.

Granary Loans Now Available

Commodity Credit Corporation will make loans available to farmers for constructing or acquiring farm storage facilities, according to Roy O. Nettles, vice-chairman of the Lynn county A. C. A. committee. Nettles attended a meeting at Lubbock on Tuesday where details of the program were discussed by FMA officials.

The amount of the loan cannot exceed 85 percent of the total cost of the structure or 45 percent per bushel of the rated capacity, whichever is the smaller. Nettles points out that Lynn county has quite a large acreage of grain sorghum crops due to some areas being hail-damaged and blown out, and if a normal crop is made on the acreage seeded to grain sorghum, Lynn county farmers will need a large amount of storage to handle the grain. The loan on grain sorghum for 1949 will be \$2.03 per hundred pounds stored on the farm, and \$1.25 per hundred pounds where it is stored in approved elevator.

Any producer who is in need of additional storage capacity on or nearby his farm to store his own production of corn, wheat, grain sorghum, oats, or barley is eligible for this storage construction loan. Commodity Credit Corporation will guarantee loans made by local lending agencies to producers for construction of the additional storage. If producers do not wish to or cannot obtain from credit sources, Commodity Credit Corporation will make the loans direct. These loans may be made for a period not exceeding 5 years; and will bear 4 percent interest rate per annum.

Full information on this type of storage loan is available at the A. A. office. Other members of the Lynn County A. C. A. committee are Clarence Church, chairman, and Fulian Pirtle, member.

FREE SEWING MACHINE DEMONSTRATION ANNOUNCED

Mrs. Lucille Ayers, home economics teacher, announces that Mrs. Peyton Tucker of the Singer Sewing Machine Shop in Lubbock, will give a free demonstration of the use of sewing machine attachments at 10:00 o'clock next Tuesday morning, July 12, in the home economics department in the Tahoka High School building. Everybody interested is invited.

Bill Hanes, son of Mr. and Mrs. W. T. Hanes, of Cameron was admitted to the United States Naval Academy this week. He completed his high school work at Yoe high school, Cameron, where his father is Superintendent of schools, and he had completed his freshman year of college at Baylor University where he was an assistant trainer to the Varsity football team and was manager of the freshman baseball team.

In high school Bill was a letterman for three years in basketball and baseball. He won a letter in football in his senior year.

Take Allotments For 1950 Wheat

In order to receive a 1950 wheat acreage allotment on farms that did not seed wheat for harvest during the years 1947, 1948, or 1949, it will be necessary for the operator of the farm to request a "new grower allotment" before September 1, 1949. Clarence Church, chairman of the Lynn County A. C. A. committee, released this information today.

Requests for the allotments must specify the number of acres the operator wishes to plant, and the request must be in writing by the owner or operator to the County Committee. Farmers wishing "new growers" allotments are advised to contact the A. A. A. office in Tahoka for further information.

Mrs. Oliver Home From VFW Meet

Mrs. J. B. Oliver, president of the V. F. W. Ladies Auxiliary, and Mrs. Pauline Smith were sent as delegates from Tahoka to the V. F. W. State Convention in session in El Paso June 24-29.

The V. F. W. of Amarillo, Mrs. Oliver says, chartered two buses and took all delegates free of charge. Amarillo's candidate, Cleo Clayton, was elected state commander for the ensuing year. Next year's convention will be held in Houston.

A very interesting talk was heard from Martin C. Dies, former congressman from Lufkin, who talked about Communism and warned the V. F. W. of dangers that are hidden among us.

Olen Culbertson talked on the Legislature, and we had three national speakers, she says, the Past National President, the National Adjutant and the National Commander.

The National Convention is to be held in Miami, Florida, the last week of August and the first week of September.

Mrs. Oliver reports that they had a nice time indeed.

UNDERGOES OPERATION FOR RUPTURED APPENDIX

Rayford Smith, son of Mr. and Mrs. Noah Smith, underwent an appendectomy operation at one o'clock Tuesday afternoon. His condition Wednesday was reported to be satisfactory, although the appendix had ruptured previous to the operation.

Rayford had attended and participated in the rodeo down at Stamford and it is believed that a shock he received caused the rupture.

Mrs. Charles Oliver and baby Zackie Anne of Odessa and Miss Johnnie Mae Anderson of Midland spent their holiday here with their mother, Mrs. Tom Anderson, and with other relatives and friends.

Remodeled Tahoka Methodist Church Is Rapidly Nearing Completion

The work of remodeling the entire interior of the Methodist Church here has advanced to the point that a mere casual inspection reveals that when finished its beauty and its utility both will have been greatly enhanced.

To begin with, the auditorium, instead of being a rather unattractive one, will be one of the most artistic and beautiful in this entire area. The old wooden arch over the choir loft has been removed and a plaster arch takes its place. All the walls have been repainted and all the woodwork retained and varnished. The floor has also been re-sanded and refinished.

The gallery at the rear has been converted into three Sunday School class rooms and cut off from the auditorium with a celotex wall. The space under the gallery has likewise been cut into two Sunday School class rooms. A lot of lost space has thus been utilized in providing five neat and commodious class rooms on and above the auditorium floor, where none existed before.

The pastor's study has likewise been remodeled, repainted, and re-varnished.

Going downstairs, one finds other revolutionary changes. Stairways from the auditorium down to the basement have been changed so as

(Con'd. On Back Page)

Wilson Woman Buried Tuesday

Funeral services were conducted at 3:30 Tuesday afternoon at St. Paul Lutheran Church at Wilson for Mrs. Emma F. Umlang, 82, who died at 5:30 Sunday afternoon at the home of a daughter, Mrs. A. A. Teinert, who lives three miles north of Wilson.

The pastor of the St. Paul Lutheran Church officiated. With her grandsons acting as pall bearers, the body was laid to rest in the Wilson cemetery a mile south of the town.

Mrs. Umlang had been a resident of Wilson for 22 years.

Survivors include five daughters: Mrs. Teinert, at whose home she died; Mrs. Amanda Schuach of New Braunfels; Mrs. Gertrude Murray of Denver, Colorado; Mrs. Henry Schwartz of Las Vegas, New Mexico; and Mrs. John Hahn of Wilson.

Also surviving is one sister, Mrs. Marie Mroeking of Hamilton; one half sister, Mrs. Rose Asel of Denver; and one brother, Herman Lorenz of Winchester; eighteen grandchildren and seven great-grandchildren.

A Lubbock funeral home directed the funeral and burial services.

ATTEND MEETING OF STATE BAR ASSOCIATION

Judge Tom Garrard and his son Sam Garrard, who recently received his law degree and located in Tahoka to practice his profession, attended the meetings of the State Bar Association held in Fort Worth the latter part of last week.

Speeding through the night, the driver of this car was momentarily blinded by approaching headlights. Because he was going too fast to control his car instantly, he swerved off the highway and crashed into a telegraph pole with such force that the car was almost broken in two. He was dead when help arrived. National Conservation Bureau advises night-drivers to keep their eyes focused on the side of the road, never to look directly into headlights and—most important of all—to drive at moderate speed.

Firemen To Attend School At A & M

Roy Harvick and Rayford Dodson will represent the Tahoka Fire Department at the State Fireman's School which will be held at Texas A. & M. College in Bryan beginning Sunday.

Expenses of the two local volunteer firemen to the school will be paid by the City of Tahoka. They will receive instructions in the latest fire fighting methods.

Seagraves Plays Here Next Sunday

Next Sunday afternoon, Seagraves come here for an Oil Belt League baseball game. As The News went to press Thursday night, Tahoka was scheduled to play at Post.

Dale Thuren states that make-up double-header games will be played here soon with Levelland and Post.

Fans are urged to go out to the games and give the team support. At times, the boys have been playing some excellent baseball. Anyway, the team is badly in need of your financial support, and cannot complete its schedule unless some support is forthcoming soon from some source.

Thursday night of last week, Tahoka lost a very close game to Slaton at Slaton 6 to 3. With Pierce on the mound, the score was tied 3-3 in the last of the eighth, when Slaton got three scores to win.

Sunday afternoon, the team lost both ends of a double-header at Denver City 11 to 2 and 14 to 0. Holcomb pitched both games. Denver City, with the three best pitchers in the league, Davidson, Epperson, and Martin, aided by a number of ex-league players, was not to be denied these victories.

Plan Barbecue For New Citizens

The Tahoka Chamber of Commerce will play host to local oil exploration crews at a barbecue to be held in City Park Friday night of next week. All members of the organization and their wives together with members of seismograph and drilling crews, their wives, and children are invited to the barbecue and program.

An unusual program has been arranged for the meeting which will feature fun and entertainment.

UNDERGOES MAJOR SURGERY

Mrs. Bill Zachary of Brownfield, the former Miss Bertha Green of Tahoka, is reported to have undergone major surgery in the Lubbock Memorial Hospital on last Friday.

She is said to be recovering satisfactorily.

"Leity" Squires of Gulfport is here visiting his mother, Mrs. J. A. South, Miss Mary Squires, and other relatives and friends.

Jaycee Officers Will Be Installed

Tahoka Junior Chamber of Commerce will install officers for the new year at a special evening banquet in the American Legion hall next Thursday night at 8 o'clock.

Jim St. Clair of Levelland, state vice president of the Jaycees will conduct the installation. Bill Woods will succeed Wilton Payne as the president.

Several Charged In Local Courts

Rufus Herrera, a Mexican, was arrested by city police officers here; during the past week-end and charged with the unlawful sale of beer. He made bond but indicated his purpose to plead guilty.

John B. Williams of San Antonio, colored, was arrested Monday on two charges, one for drunken driving and one for the unlawful possession of intoxicating liquor for the purpose of sale. He made bond but is also expected to plead guilty, according to the Sheriff's office.

Billy Gene Johnson was arrested Saturday night and charged with drunken driving on the highway. He was apprehended near Wayside. He made bond in the sum of \$1500 and indicated his intention of fighting the case.

Three other persons in the car with him were charged with drunkenness and each pleaded guilty. They were each fined \$10 and costs. All were from Lubbock, their names being Ewen Houx, Arlin S. Hensley, and John W. Walkup.

Wilson Leading Softball Play

Wilson continues to set the pace in the Lynn County Softball league play, and indications are that the Lutheran Church boys are likely to repeat as champions this year.

Thursday night of last week, Rutherford's broke into the victory column at the expense of New Home. The score was 14 to 11.

Friday, Wilson ran away with a game in which Davis & Humphries was stung to the tune of 25 to 8.

Monday, Grassland and New Home were scheduled to play, but the former named team failed to show up again. Grassland now has four postponed games to make up.

Tuesday Wilson had a close call, but came out on top over White's 13 to 12.

Wednesday, White's defeated the Bray boys 12 to 8 in a make-up game.

Thursday night, Rutherford's and Bray's were scheduled. New Home and D&H play tonight, Wilson and Bray on Monday, Grassland and Rutherford on Tuesday, and White and D&H next Thursday.

Junior Boys Team Loses Two Games

The American Legion Junior baseball team, coached this summer by Jake Jacobs, lost two games this week, one each to O'Donnell and Brownfield.

On Tuesday afternoon, in a game at O'Donnell, Tahoka went down 15 to 0, and Wednesday afternoon Brownfield came to Tahoka to win a 11 to 5 victory.

The local boys have been coming along nicely this summer, but are too young and too small, and too many of them have been kept busy farming. However, most of them show promise of being ball players in a year or two.

DR. LEHMAN HERE

Dr. Jo Lehman of Dallas is here visiting his parents, Mr. and Mrs. Al Lehman. He has just completed his internship in Baylor Hospital, and will soon be "hanging up his shingle." He has not decided on a location as yet, but he will probably locate in West Texas.

His wife did not come with him, but he brought out her 11-year-old brother, Tommy Moss of Dallas, for a visit.

Mr. and Mrs. Truman Balch of Fort Worth and her children visited here with relatives over the holidays.

Bids Are Received On Tahoka City Paving Project

Contract for city paving was let on last Thursday, the time set for the opening of bids. The lowest bid was that of Sam Sanders of Artesia, New Mexico, approximately \$198,000. Five bids were submitted, the next lowest being about \$2,000 higher. The highest bid was approximately \$232,000.

Dr. K. R. Durham, the mayor, was not prepared to give details as to figures or even as to the items included in the project, the amount of curbing, etc., but he could say that the paving on streets of normal width will cost property owners on each side of the street about \$4.75 per foot front.

The curbing to be placed along the highways within the city limits will cost the property owners about \$1.90 per foot front.

While some preliminary matters must yet be worked out, Dr. Durham was of the opinion that work could be begun within the next three or four weeks. Further and more definite information will be given, however, before work begins.

Clay Bennett At Hearing On Dam

Along with many other South Plains officials, City Commissioner Clay Bennett of Tahoka left by plane for Washington, D. C., Wednesday to appear before a committee of Congress to urge the construction by the Government of a great dam across the Canadian River north of Amarillo by means of which water may be impounded for use by many cities and towns of the Plains-Panhandle region.

Among the towns to be served are Amarillo, Borger, Pampa, Plainview, Littlefield, Levelland, Lubbock, Slaton, Tahoka, O'Donnell, Lamesa, and possibly a number of others.

Engineers, it is claimed, have approved the project as feasible. If built, it is claimed that each of these cities and towns would have an abundant supply for all domestic purposes, and in the case of many of them, Tahoka included, the rate would be much cheaper.

Pictures Shown At Rotary Club

A color film dealing with the subject, the electrical home of the future, constituted the principal part of the program at the Rotary Club program Thursday. The film was shown by Jeff Lewis and Ernie St. Clair of the Lubbock office of the Southwestern Public Service company. Bill Clark and H. B. McCord are program chairmen for the month.

Dr. Emil Prohl occupied the president's chair for the first time officially as the new club head. He announced his committee members for the new Rotary year.

A. R. Milliken invited the Rotarians to visit the improved Boy Scout camp grounds near Post.

Congratulations:

To Rev. and Mrs. Boyce Evans upon the birth of a daughter at 5:12 p. m. Friday, July 1, in Hendrick Memorial Hospital in Abilene. The little lady weighed 6 pounds and five ounces and has been named Mary Suzanne. The parents formerly lived here but now lives in Abilene. The grandparents are Mr. and Mrs. H. O. Hargett and Mr. and Mrs. C. B. Evans, all of Tahoka. This is the second grandchild of the Hargetts that was born within four days time and the second one for the Evanses born within fifteen days of each other.

To Mr. and Mrs. Daniel Davis of Amarillo upon the birth of a daughter on June 25 in the Northwest Texas Hospital, weighing 6 1/2 pounds. She has been named Nancy Lou, the last part of the name being given in honor of her aunt, Mrs. Lou Calvery of Tahoka. Mrs. Davis was formerly Miss Mayfair Woolsey and lived here in her girl-hood days. Daniel was reared here.

People in this entire section of the state should feel gratified that Girlstown, established a few months ago at Buffalo Gap, is to be moved soon to the South Plains and that ample provision is being made for its future growth and usefulness. It was established by Miss Amelia Anthony as a home for homeless and needy girls and has had hundreds of applications already for entry. Facilities at Buffalo Gap were limited, however, and the Home has only twelve occupants. In most respects Buffalo Gap would seem to

be an ideal place for it, but it has no water. T. B. Duggan of Lubbock heard of the Home and its plight and came to the rescue. He has made a gift of 1,336 acres of land situated a few miles south of Whiteface, which is some 15 miles west of Levelland, and has also announced a gift of \$20,000 in cash with which to construct a building for the home. The land is pasture land and is unimproved. The original building, as planned, is to be a dormitory of 28 bedrooms and with a kitchen and dining room. A much larger sum of money will be needed to make the necessary improvements and supply the needed facilities. The land will have an abundance of water, however, and is said to be in the oil-belt also, but Duggan retains the mineral rights. It should become a marvelous institution, just as Boys Ranch at Old Tascosa has become a wonderful institution for boys. Of course provision will also have to be made for the education and religious life of the girls. It should have the moral support of the people of this area and also such financial support as may be needed.

Perhaps we are not sufficiently familiar with the evidence to pass judgment on Judith Coplon, who was convicted by a jury on both counts of an indictment on Thursday of last week charging her as a spy for the Russian Government and specifically with stealing secret documents from the files of the Justice Department in which she was employed for the purpose of selling them to Russian governmen-

tal authorities. Nevertheless, the evidence against her seemed to be most convincing and her denials and explanations had a very hollow ring. Cornered and caught, she sought to escape by creating a scene in court, screaming out that she had been framed and denouncing her Russian friend and confederate as one of the conspirators who had framed her. It all had the earmarks of mere pretense and insincerity. And true to Communistic form, she showed the utmost contempt for the Judge on the Bench as well as everybody else who had anything to do with her prosecution. Communists have as their purpose and final goal the eventual overthrow of our Government by force if they can not effect its overthrow by threats, fraud, and chicanery. That is why they hold in contempt every arm and agency of our Government and in fact every local and patriotic American citizen. Notwithstanding this contempt they have for us and our government they are ready to hire able lawyers to guard them in every right accorded to them under the Constitution and laws of this Government, which they hate, when they are accused of disloyalty to it. Yet, while this Government is carefully guarding them in their every right, they continue to harbor in their hearts the purpose to stab it in the back at every opportunity. That is Communism in the raw.

By a vote of 23 to 0, the Texas Senate sent to the Governor a few days ago a measure known as the state-supported colleges and unless it had been previously passed by the House. The measure requires teachers, students, and employees of state-supported colleges and universities to swear that they do not support or belong to any organization or group which advocates the overthrow of the government by force. Students refusing to sign the oath will not be allowed to sign the or to attend the college as a student. Teachers are not to be employed until they do sign the oath; and the same rule goes for all other employees of the particular college or university. It is a good law. While such an oath would not be necessary in the case of most teachers, yet there are a few who may be and should be cut off from the privilege of teaching in these institutions if the signing of an oath is required. And even though some Communist Professor conceivably might swear a lie and thus get on the faculty, yet he would be compelled to keep very quiet as to his off-brand beliefs. That might interfere with the "academic freedom" of some Marxist Professor now and then but it would at least protect the tax-payers of this state against the use of their money in paying teachers to teach Communism to the boys and the girls of such tax-payers. We are going to quit breeding Communists in the class-rooms of the Texas University and the state colleges of Texas.

Incited no doubt by vain visions of social equality held out before them by racial leaders of their race and by some ambitious white politicians, seventy Negro youths appeared at a swimming pool for Whites in the City of Washington, D. C., a few days ago, with the evident intention of demanding the privilege of going in swimming with the Whites. Police were called to halt a threatened race riot and they hurried to the scene. Either accidentally or carelessly, a mounted policeman ran over a girl and injured her. Any effort of the Government, Mr. President, to regulate the purely social affairs of the people by prohibiting racial discriminations, is sure to breed trouble. Instead of bringing about a friendlier feeling between the races, it will only stir up bitter racial antagonisms and conflicts. Politicians, who insist on pressing these racial issues upon the people, whether from humanitarian or purely political motives, must be held responsible for the consequences.

JULY 9 WILL MARK MOST FAMOUS TRAIN RIDE IN HISTORY
Los Angeles, July 7, 1949.— July 9 will mark the 44th anniversary of one of the most famous train rides in history—Death Valley Scotty's special run from Los Angeles to Chicago on a schedule that cropped 133 hours and two minutes from the previous record.
On July 8, 1905, this legendary Californian strode into the Santa Fe offices at Los Angeles and said he wanted to make a trip to Chicago faster than any human had ever made the trip before. Without batting an eye the passenger agent said it could be done, but that the 2265-mile trip would be a bit expensive.

"How much?" snapped Scotty.
"Five thousand, five hundred dollars," he was told.
Good enough, said Scotty, and at 1 p. m. the next day—it was Sunday—his "Coyote Special" rolled out of Santa Fe's Los Angeles station, onto the main line, and the history-making run was underway. Just 44 hours and 54 minutes later the special steamed into Chicago's Dearborn Station, having crossed mountains, desert and plains to set a record. It took real railroading to push the "Coyote Special" that distance in that time back in 1905, and real team-work to do it without a hitch.
James Marshall, in his book "Santa Fe, the Railroad that Built an Empire," notes that Mr. and Mrs. Scott, Charles E. Van Loan, a writer, and Frank Newton Holman, a Santa Fe representative, were the passengers on the bob-tailed train which consisted of a baggage car, diner, and Pullman-observation car. Nineteen engines, manned by eight different crews, were used on the trip. Marshall relates that Scotty, a few miles before the end of each division, would make his way through the baggage car, climb recklessly onto the tender and slide down into the cab to hand out twenty-dollar gold pieces to the engineers, fireman and to the division superintendent who usually rode the head end.
Scotty's run demonstrated that regular fast passenger schedules could be possible. With changes in roadbed and equipment, Santa Fe's famous Super Chief has lapped 5 hours and 9 minutes from Scotty's record, covering the same route

every day in 39 hours and 45 minutes. News Classified Ads get results.

MAINTENANCE CREW WADES MUD

To Maintain Good Gas Service

The Picture

Members of one of West Texas Gas Company's maintenance crew are carrying a section of pipe to the scene of a pipe line break. Mud was so deep repair equipment could not be transported on trucks to the break, indicated by arrow, which is over one quarter of a mile from the men.

PIPE line maintenance crews are but one of many divisions behind your natural gas service. A crew's job is to keep transmission pipe lines, carrying natural gas to your home, in good repair and to work during such emergencies that might occur.

The picture, shown above, was made of a maintenance crew carrying repair equipment to the scene of a line break. Maintenance crews are trained to meet such emergencies, and due to their training the customers of the town this line serves continued to have good gas service although the natural gas flow was cut while the repair was being made.

Yes... maintenance of pipe lines is very important to good gas service.

Maintenance of pipe lines is only one of many functions performed by employees of West Texas Gas Company... all of which are designed to furnish you good natural gas service, high in quality, low in price... the best bargain in your family budget.

Good Gas Service Doesn't Just Happen

Odds & Ends

(By E. I. The Elder)

The month of June which has just passed was a month in which marvelous displays of power and beauty were flashed across the heavens by day and by night for the eyes and the ears and the spirits of men and women and children who could really appreciate and enjoy them.

We wonder if many really enjoyed these super-human and awe-inspiring heavenly displays.

Most of us watched them with much trepidation and fear, uneasily feeling that a tornado might be developing or that downpours of rain and hail might again destroy our crops. Possible physical injury or property loss were the predominating reactions that these majestic displays of divine power inspired in most of us.

We wonder if many of us ever stop to look upon and to admire the serene beauty that the God of this universe paints upon the heavens—the glory of a matchless sunset, or a sun-rise; great mountain-like thunder-head clouds that pile up in the heavens on a summer afternoon; and other master-pieces of handwork that He often casts upon the screen of the firmament.

The ancients of early Bible times were nomadic in their habits. They dwelt chiefly in tents. They slept much out under the stars. The writers of the Bible had much to say about "the stars of the heavens." They spent many of the daylight hours out on the open range with their flocks and their herds. Egyptians and Arabians and Chaldeans and others became sun-worshippers. Jews likewise were sometimes lured away by their powerful neighbors into the worship of the sun and of idols generally, but they were duly punished for their disloyalty to the one true God.

Such men as David, however, never did stray off into idolatry. He had spent his boyhood days out with the flocks of his father and lived close to nature. But back of the stars and the heavens he knew that there was a great Creator and Ruler of the universe: It is any wonder that after he grew up and became famous and powerful, he could write that wonderful Nineteenth psalm? Here are the first six verses. Read them, and then go out tonight and lie down on the grass and look up into the starry expanse, and just meditate

"The heavens declare the glory of God:
And the firmament showeth his handwork.
Day unto day uttereth speech,
And night unto night showeth knowledge.
There is no speech nor language
Where their voice is not heard.
Their line (sound) is gone out
through all the earth,
And their words to the end of the world.
In them hath he set a tabernacle
for the sun,
Which is as a bridegroom coming
out of his chamber,
Rejoicing as a strong man to run
a race.
His going forth is from the end
of the heaven,
And his circuit unto the end of
the earth:
And there is nothing hid from
the heat thereof."

Say, folks, you know that most of us miss half of the real joy of

living by failing to see the beauty all about us and above us. We get so busy making a living, or getting rich, or chasing pleasureable amusements, or just driving our cars at break-neck speed just for the thrill of it, that we do not take time to drink in the beauty of a noble tree, a flower bed, a grassy lawn, a field of Tahoka daisies, a brilliant evening star, or a cloud-flecked patch of the heavens.

If any of you folks have not visited the Carlsbad Cavern, have not visited it in recent years, you should take a day or two off and visit it. As a brother remarked recently after having seen it for the first time, those ancients who bragged about their "Seven Wonders of the World" hadn't seen nuthin." If all those buildings could be reconstructed as they stood originally and moved into the Cavern, the whole capoodle would not fill one corner of the Big Room, and their rich ornamentation would pale into insignificance in the midst of the draperies and fantastic crystal tapestries that have been wrought by Nature on the walls and within the confines of that under-ground fairy land.

For the third time in my life, I was one of a party recently that visited this natural wonder, and its wonder grows upon me every time I

visit it. In one compartment of the Big Room, the lighting has been done so artistically that the great, expansive dome, 200 or 300 feet above the floor, looks for the world like the distant cloud-flecked firmament outside as you have seen it on rare occasions. This effect is probably produced by the lights and shadows that result from the rather dim light cast upon a rough ceiling by electric light bulbs properly placed and distributed. That is our guess. We heard no explanation of the remarkable phenomenon.

This is written just before the Glorious 4th. Before you read this, if you read it at all, the fourth will have passed into history. People will have rushed hither and yon to spend the Day. Not all of them will have returned—alive. Many who went out with gay hearts will have returned with sad ones. Somebody will be in a new tomb because somebody was thoughtless for a split second. Others will have flowers above their graves because they met a drunken driver. Cars filled with people will have been rushing over the highways everywhere, some going to various pleasure resorts, some to liquor towns and road houses, some to visit their kin folks, some just for a pleasure outing. O that people would learn to drive carefully out on the highways! O that they

would learn that it is criminal to drink if they are going to drive; and that it is foolish to drink whether they are going to drive or not!

This is a beautiful old world, folks. Let's enjoy it only as the righteous can enjoy it.

The accident death toll of Memorial Day approximately 400. Just plunged into sorrow in one day because we treat alcohol as though it cause of drinking by themselves or were milk.

Is Your Farm Machinery Ready For Use?

Nearly every year is an unusual year in the farming business, but THIS YEAR it is more important than many that you KNOW your farm machinery is in tip-top condition when you need it.

We can usually do emergency jobs promptly—but, even then you may waste time that is costly to you. Keep your machinery ready to go!

HURRY NOW WHILE THEY LAST

Don't miss this chance! Seasonal demand for retreads has made your used tires worth more than ever to us. Come in and see all you can get. We guarantee you'll make the best trade-in deal in town. Hurry in now for big savings on the safest, softest-riding tires you ever put on your car.

THE TIRES THAT REVOLUTIONIZED AUTOMOTIVE RIDING AND DRIVING

SWAP and SAVE SALE!

CHECK THESE ADVANTAGES AGAINST ANY TIRE YOU HAVE EVER USED!

1. The tires that perform with more air and less air pressure.
2. The only tires of low air pressure with especially designed tread for easier steering.
3. The tires that absorb the road they travel on.
4. The tires that fully cushion every shock and road strain.
5. The tires that radically influenced modern automotive engineering.
6. The tires that have been copied and imitated but neither equalled or duplicated.
7. The tires without any excess rubber—run cooler and, therefore, wear much longer.
8. The tires that make old cars feel like new.
9. The tires that outsell because they deserve to outsell.
10. The tires that pay for themselves in pleasure, protection and long wear.
11. FIRST CHOICE FOR THE FINEST OF THE NEW CARS.

4-H Safety Workers in All-Out Attempt to Reduce Accidents on Farms in 1949

MR. FARMER, has the 4-H Club member in your family checked your farm and home for accident and fire hazards lately? If not, you can expect him to do so any day now. 4-Hers are making an all-out attempt to reduce the annual cost of accidents affecting farm folks—including motor vehicle, fire and property damage—which totals more than one billion dollars, or about \$35.00 per person! They are also trying to cut down the number of accidental deaths, which kill 51 farm residents in the U. S. every day in the year.

Your 4-H'er doubtless will caution you to drive carefully on highways, and use proper signals when turning or stopping (top right). More than 7,300 rural people are killed annually in motor vehicle accidents. In fact, more fatal auto accidents occur in rural areas than in any other location.

Falls rank second in farm accident causes. So watch your step when carrying a clothes basket, like the girl shown in right photo. Your 4-H safety worker probably will suggest you tack down throw rugs or put them on non-slip matting, and keep stairways uncluttered. Are your lightning rods properly grounded? The 4-H'ers shown at top left found the ground wires broken, and therefore worthless. Lightning, which is one of the greatest causes of farm fires, each year destroys 20 million dollars worth of farm property, kills 500 farm residents and injures 1,300 others.

National Farm Safety Week will be observed July 24-30. Rural boys and girls taking part in the National 4-H Farm Safety program

want to make you, your family and neighbors safety minded so that accidents mentioned above won't happen.

For achievements in safety work, the 4-H boy or girl may receive a prized sterling silver medal of honor as county winner. General Motors also provides an educational trip to the National 4-H Congress, Chicago, next November, for the state winner, and \$300.00 college scholarships for each of the eight national champions. By practicing safety from this time on, you'll not only help your 4-H'er in his safety work, but help save a life—which may be your own.

The National 4-H Farm Safety program is conducted under the direction of the Cooperative Extension Service.

FLORENCE FAMILIES AND CONNECTIONS HAVE REUNION

Mr. and Mrs. W. Z. Florence of Draw were thrilled last Sunday to have all of their children and their families home with them for a reunion. This was the first time that all the children had been together at home with their parents in four years.

Those present included Mr. and Mrs. W. Z. Florence of Draw; Mr. and Mrs. A. J. Hackenberg and family of Jersey City, New Jersey, accompanied by his aunt and uncle, Mr. and Mrs. Henry Hackenberg, also of Jersey City; Mr. and Mrs. Willie Florence and family of Abernathy; Mr. and Mrs. J. B. Florence and family of Tahoka; Mr. and Mrs. Z. K. Hensley and family of Draw; Mr. and Mrs. Charles Florence of Edinburg; Mr. and Mrs. Willis Pennington and uncle, D. Pennington, of Tahoka; and Mr. and Mrs. C. C. Johnson Sr. of Draw.

All had a wonderful time and enjoyed plenty of good food.

MRS. HALL ROBINSON IS RELEASED FROM HOSPITAL

Mrs. Hall Robinson, who had been under treatment for a severe illness for three weeks in the West Texas Hospital, was released Wednesday and returned to her home here. While she is much improved, she may not be able to take her place in the store for a number of days yet.

TAKES SCOUT TRAINING

Patsy McGinty of the Senior Girl Scout troop here recently spent one week in training as an aide in the Scout camp program at Camp Leonitis near Slaton, then spent a week as a Camp Counselor's Aide. Miss Patsy is showing an aptitude for Girls' Scout work and will no doubt make a great success at it. Mariana McGinty also spent one week at the Camp.

MRS. R. C. WOOD'S BROTHER DIES IN OKLAHOMA

Mrs. R. C. Wood had a message from a niece in Redlands, California, informing her that her father, W. F. Brundrett, who was a brother of Mrs. Wood, had died on Thursday, June 30, at Ada, Oklahoma, where he lived.

Mrs. Wood was unable to attend the funeral services.

EX-STUDENTS OF W. T. STATE COLLEGE TO MEET

Ex-students of West Texas State College are hereby invited to attend a basket lunch picnic in the Mackenzie State Park in Lubbock Saturday, July 9, beginning at 4:00 o'clock p. m. and continuing until 7. All Exes of WTSC are invited to attend, announces W. L. Hester, Ex-Student, Lubbock.

Mrs. Coy Fielder has been down at Dallas the past several days for treatment in a hospital there and it was thought probable that she will undergo surgery Saturday.

C. B. Earley of the Midway-Redwine vicinity has been in a Lubbock hospital the past several days for treatment and a possible operation.

Mrs. Bobby Hefley and baby spent the week-end and the Fourth here with her mother, Mrs. W. A. Reddell, and her sister, Mrs. Joe Bob Billman.

Mr. and Mrs. W. W. Rowland of New Lynn had as their holiday guests her sister and husband, Mr. and Mrs. F. M. Foreman of Plainview.

Clark Dyess, 16, grandson of Mr. and Mrs. J. Y. Thompson, had his appendix removed in the Tahoka Hospital Monday morning. Dr. Seale operated.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. M. H. Edwards announce the engagement and approaching marriage of their daughter, Joann to F. Joab Alexander, son of Mr. and Mrs. J. E. Alexander of 1922 7th Street, Lubbock. The marriage will be on August 7, in Tahoka.

DIXIE H. D. CLUB NEWS

The Dixie Home Demonstration Club met Wednesday in the home of Mrs. J. R. Dunlap.

A Council report was given by Mrs. Elmer McAllister.

Mrs. Clifton Hamilton was named to go to the short course at Lubbock on August 2, 3, and 4.

Members exchanged gifts with their Sunshine pals.

Refreshments of punch and cookies were served to 19 members and Miss Hard, the H. D. Agent.

The Club adjourned to meet again July 20 in the home of Mrs. Elmer McAllister. —Reporter.

Mr. and Mrs. H. R. Minor spent the week-end and the Fourth with their children; Mr. and Mrs. A. A. Michael and Ino Faye of Odessa, and Mr. and Mrs. O. C. Arman of Crane.

J. B. Oliver, accompanied by Mr. and Mrs. C. T. Oliver and a sister from Big Spring, returned late Tuesday from San Antonio, where they had visited another sister of J. B. and C. T.

REDELL ATTENDS BIG R. L. C. MEET AT LaGRANGE

Accompanied by his son-in-law, Bobby Hefley, W. A. Reddell, president of the Texas Rural Letter Carriers Association, attended a meeting of rural carriers and their families from south Texas principally, held at La Grange, Fayette county, on July 4, as well as a regular Fourth of July barbecue and celebration there at the same time. The Letter carriers and their families, who constituted a group of possibly five hundred people or more, were celebrating the establishment of the first rural route in Texas, which opened for service out of La Grange on August 1, 1889, just sixty years ago next August. As a matter of convenience, this celebration was held on July 4. Mr. Reddell says that quite a program was rendered out at the Fair Grounds celebrating this event. A great barbecue dinner was ser-

ved at the noon hour and an immense crowd, estimated at 5,000 to 6,000 people, was present to enjoy the barbecue and the regular Fourth-of-July festivities, including a big parade and everything.

Price Daniel, Attorney General of Texas was the principal speaker at the Letter Carriers' meet.

Mr. Reddell arrived back home Tuesday afternoon.

THE DIXONS OF OHIO VISIT HERE

Mr. and Mrs. Henry Dixon and their four children of Akron, Ohio, arrived Sunday to visit her parents, Mr. and Mrs. H. P. Caveness, and also relatives of his at Winters. Mrs. Dixon, the former Jeanette Caveness, was reared in Tahoka.

Miss Lydia Bravo, who resides with the Rev. C. T. Aly family here, left Monday morning for Oklahoma to do religious work through the summer months under Miss Hutchison sister of Pat Hutchison and Mrs. K. R. Durham of Tahoka, who is one of the workers under the Baptist State Board of that state. Miss Bravo will re-enter Wayland College in September.

Misses Dorothy and Jeanette Kidwell spent the week-end and the Fourth with relatives at Comanche.

IN MEMORY OF J. D. CRAWFORD

(By Silas W. Russ)
At 4:15 o'clock on Wednesday, June 29, the ship of life raised its anchor and sailed from this life to the great Beyond with our friend as its passenger.

We are deeply grieved because of his passing and wish that we could say something that would comfort the hearts of the dear wife and children in their hour of sorrow, but we know we can't, for only God and God alone can give one comfort in their hours of sorrow.

It is true he is gone, but he is not dead, for he is now more alive than ever before because he is at home with God. He so lived a life in this world that others might see that he was a child of God. He was truly a friend to all mankind and was ready at all times to lend a helping hand to those who were in need.

We will miss him lots in this life but, thanks be to God, he lived such a devoted life in this world that the memory of him shall ever live on in the hearts and lives of those who knew him. It is fathers like him that make this world such a grand place in which to live. He endeavored to plant roses of beauty along the highway of life which would make it more lovely for those who followed.

Mr. Crawford was converted at

an early age and joined the Baptist Church and has been an active member ever since, being a member of the Redwine Church at his death.

Eye has not seen, ear has not heard, and neither has it entered into the heart of man the things God has in store for those that love Him. We believe that Mr. Crawford loved God with all his heart. He labored faithfully for God while in this world, and has now gone to claim his reward.

Death is a sad thought for us and we know that this companion and the children are heart-broken because of the passing of this dear loved one. But it was a happy occasion for him because he was a child of God and is now in Heaven basking in the sunlight of God's love and enjoying peace and happiness in that place where there will be no more sorrow, heartaches, or tears—nothing but joy, happiness, and peace to enjoy throughout the eternal ages.

Yes, if we are a child of God, we can lift our eyes Heavenward and look through our heartaches, sorrows, and tears and say "Thanks be to God for the hope that lies beyond the grave."

We believe we knew Mr. Crawford well enough that we can say that he was more concerned about the spiritual welfare of mankind than he was about the material things of life. While in this world, he so lived a life that he laid up treasures in Heaven and became rich toward God, knowing that a life lived for the service of others was the only life worth living. Our hearts go out in deepest sympathy for this family, and may God give them comfort in their hours of sorrow.—Silas W. Russ.

HUTCHINSONS HAVE RELATIVES AS HOLIDAY GUESTS

Mrs. W. H. Luck of Minden, Louisiana, her sister, Mrs. Nettie Peabody, a teacher of Cincinnati, Ohio, their nephew, Wilbur L. Ratliff of Shreveport, and Mr. and Mrs. John Luck and their four children, also of Minden, arrived Saturday for a visit in the home of Mr. and Mrs. W. P. Hutchinson.

Mrs. Hutchinson is Mrs. W. H. Luck's daughter and John Luck's sister.

Can Black-Draught Help That Dull, Dopey Feeling?

Yes, Black-Draught may help that dull, dopey feeling if the only reason you feel that way is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental haziness, bad breath — and if these symptoms are due only to constipation — then see what Black-Draught may do for you. Get a package today.

FORMER TAHOKA YOUTH WEDS DALLAS GIRL

Friday night the Methodist parsonage at Groom, Texas, was the scene of the marriage of Miss Wanda Hopkins and Mr. Edwin "Tiny" Jolly, both of Dallas. A nuptial prelude played by Mrs. Bill Wagoner of Groom, included "Let Me Call You Sweetheart," and Mr. Wagoner sang "Because" and "I Love You Truly." He was accompanied by Mrs. Wagoner.

Rev. C. M. Ryan read the double ring ceremony. Mrs. Ryan, sister of the bride was their only attendant. The bride was attired in a dress of sky blue waffle pique. With it she wore a white linen zuchetto with a white veil. She carried a white Bible topped by a bouquet of white gladioluses.

Mrs. Jolly graduated from Abilene High School and has been employed for Safeway Inc. in Dallas for several years. She is the daughter of Mr. and Mrs. F. W. Hopkins of Abilene.

Mr. Jolly was graduated from Tahoka High School and served in the Navy one year. He is the son of Mr. and Mrs. J. L. Jolly of Tahoka. He is employed for the Continental Gin Co. of Dallas.

After the ceremony a short reception was held. The bride and groom cut the beautiful two tiered wedding cake topped by a miniature bride and groom. Cake and punch were

served to the bride and groom, Rev. and Mrs. C. M. Ryan, Mr. and Mrs. Bill Wagoner, Mrs. C. S. Harris of Turkey, Texas, sister of the bride, Mrs. Rosalie Saul, Mrs. Leone Steed, Molly Harris, Phil Harris,

Jimmy Wagoner, Johnny Wagoner, Wanda Jean Ryan and Mel Ryan. The couple will make their home in Dallas.

Stay at Home Money
THERE'S AN OLD THEORY that money kept at home is idle money.
That's not the case with your Public Service Company. A great deal of our "stay at home money" actually stays in the area we serve in the form of wages, rents, local and school taxes, dividends to stockholders and purchases from local businessmen.
It's as simple as this: the money we receive from our customers is put back to work for the progress and prosperity of everyone in the Panhandle-Plains-Pecos Valley area.
Free enterprise and sound business-management go hand in hand to bring better living . . . electrically . . . from your Public Service Company.

Methodist

(Cont'd. From Page 1)
 to conserve space, and a door has been cut in the front wall of the building so as to provide a ground-level entry into the basement just south of the outside steps leading up to the auditorium. A concrete walk has been laid from this basement, entry out to the sidewalk in front of the Church. Inside, there is a stair-way leading down to the floor of the basement and also leading upward to the new class rooms at the east end of the auditorium.
 In the basement, in the southeast corner, is a large Sunday School class room. Next to this, on the south side, is an assembly room, cut into three smaller rooms separated one from the other with folding doors, which, when the doors are closed, can be used as class rooms; when opened, the three constitute an assembly room, about 28 to 45 feet in size.
 Across the hall, on the north side, is a nursery approximately 14 by 24 feet in size, and two suites of class rooms, each suite consisting of one large room, and two adjacent smaller rooms.
 At the rear on the south side, next to the assembly room heretofore mentioned, is the kitchen, about 12 by 18 feet in size, with cabinets remodeled, water heater, and other equipment; neatly finished and convenient to the assembly room.
 In the extreme west end is one class room and the new central heating unit. From this central heating unit, hot air will be distributed throughout the entire building. In the southwest corner of the basement is one rest room and in the northwest corner is another.
 All the floors in the basement will be covered with asphalt tile; all the walls and ceilings will have a Tex-tone finish; and all the woodwork will be finished with white enamel.
 Some outside redecorating also is to be done. New front doors are to be installed and all woodwork is to be repainted.
 The estimated cost of all these improvements and repairs has been placed at somewhere in the neighborhood of \$10,000.00.
 The work is expected to be finished within the next few weeks.

Rev. C. A. Holcomb Jr., the pastor, states that when the work is finished, the Church will have an open-house night, when everybody will be invited and shown through the building. The following Sunday will be observed as Fill-the-Pew Sunday.

MRS. MERLE HAWKINS RETURNS TO TAHOKA

Mrs. Merle Hawkins, chief operator of the Southwestern Associated Telephone office here, recently returned to Tahoka, after having spent four and a half months at Paducah training up a chief operator there. The Paducah chief operator had been seriously hurt in a car accident, and another operator had to be given training for the place.
 Mrs. Hawkins was accompanied by her mother, Mrs. Ida Madera, and the two are expecting to visit their son and brother, W. B. Madera, at Abilene this week-end.

Among the Tahoka people who spent the Fourth at Ruidoso, New Mexico, were Mr. and Mrs. Grady Lankford and Mr. and Mrs. Dan Brookshire.

CARD OF THANKS

Baptists Of Area Hold Sunday School Meeting In Tahoka

About eight or ten churches of the Brownfield Baptist Association were represented at the quarterly Sunday School meeting here Tuesday night, ninety-five S. S. workers being present.

Lakeview had the largest delegation present, 24. Their enrollment is only 37. Petty, doubtless the smallest church in the Association, had eighteen present. Tahoka had only 20. Three Brownfield churches, Wilson, O'Donnell, Redwine, Central, and Johnson were also represented.

The devotional service was conducted by Rev. A. A. Brian of Brownfield. Departmental conferences were held, the general theme of all the discussions being Sunday

TEXAS RURAL CARRIERS FAVOR BETTER ROADS

Harry Roldy, one of the rural mail carriers out of Tahoka, has furnished the News with a copy of Rural Roads, Vol. 1, No. 1, issued in June, which has been started for the purpose of creating public sentiment in favor of the passage of House Bill No. 59, and for promoting the building of a system of rural roads throughout Texas.

House Bill 59 proposes the levy of a tax of one cent per 1,000 cubic feet of natural gas produced in this state; the money derived therefrom to be allocated, one-fourth to the public schools and three-fourths to the rural roads of the state.

The funds would be allocated on what is claimed to be an equitable basis to the various counties of the state and the commissioners courts of each county would designate the rural roads in that county to be constructed or improved, using the priorities of: (1) School bus routes, (2) rural and star mail routes, and (3) all other roads classified as first class country roads; the funds to be expended under the supervision of the State Highway Department's staff of Engineers or a County Engineer approved by them.

Necessarily, there are many other provisions in the bill which the News can not publish in this issue, but further information may be given in subsequent issues.

I. N. Brundrett and family of Little Rock, Arkansas, were week-end guests of his aunt, Mrs. R. C. Wood and Mr. Wood. They were enroute to San Diego, California. Mrs. Wood had not seen her nephew in fifteen years.

School Enlargement.

Conducting these conferences were Rev. A. A. Brian in charge of the Adults; Rev. Harris Ray of Redwine in charge of the Young People; Sheldon Russell, Tahoka, Intermediates; Rev. John H. Johns of O'Donnell, Juniors; Mrs. Harris Ray of Redwine, Primaries; Mrs. A. A. Brian of Brownfield, Beginners; Mrs. Ivan McWhirter of Tahoka, Cradle Roll and Nursery; Mrs. C. T. Aly, Extension Department.

Rev. C. T. Aly presided, and Sheldon Russell conducted the song services. Cold drinks and sandwiches were served.

Tahoka Boys Will Attend Baptist Encampment

Quite a group of Junior Boys from the various churches of Lynn county are expected to be in attendance upon the District Junior Boys Baptist encampment to be held on the Plains Assembly grounds in Blanco Canyon about ten miles south of Floydada on Monday, Tuesday, and Wednesday of next week. On Wednesday and Thursday, the Intermediate boys are to attend a like encampment for them.

District 9 extends from O'Donnell to Canyon and from Spur and Matador to the New Mexico line, and boys from more than a hundred churches will probably be present.

Shelden Russell, associate pastor of the First Baptist Church of Tahoka will conduct the song services at these encampments, and Carroll T. Aly will serve as the pianist.

Any Tahoka boys or their parents who wish to attend are requested to see Mr. Russell and make proper arrangements at once.

It is desired that a number of the men of the Church shall also go and act as sponsors for the boys.

A. L. DUNAGANS HAVE WEEK-END VISITORS

Mr. and Mrs. A. L. Dunagan had as their week-end guests their son Morris and his wife and their little daughter of El Paso; their daughter, Mrs. Ira Knox and husband and their little daughter, of Carlsbad, New Mexico; and another daughter, Mrs. R. R. Hoyle of Carlsbad and her son Lynn of Lubbock.

Mrs. C. L. Driver left here Tuesday to spend the next few months at Brownsville, where her husband is already employed in operating a gin. They expect to remain there until the ginning season closes.

OUR GENERAL RULE ABOUT OBITUARIES

The News last week carried normally full and complete accounts of the death of seven residents and former residents of this county who had just died or had been killed over-seas and of two others who were relatives of Lynn county people, an unusual number, but there is possibly an average of three or four each week.

All this requires a bit of space, since we carry, as a rule, longer and fuller reports of local deaths than any other weekly newspaper that comes to our desk. Our readers can readily see therefore, why we can not afford to make a habit of publishing lengthy obituaries of persons after normal reports of their deaths have been published. We are making an exception to this rule, however, in the case of the good man whose obituary appears in this paper this week because of his long residence in this county and his useful life among us together with a request from friends and loved one that it be published.

Mr. and Mrs. Roy Edwards spent the July Fourth week-end visiting his niece and husband, Mr. and Mrs. Phillip Curd at Los Alamos, the Atomic bomb city, northwest of Santa Fe, New Mexico. They also visited Taos, Eagle Nest, and Red River briefly. They accompanied Mr. and Mrs. J. Dyess of Bryan, parents of Mrs. Curb, and Mr. and Mrs. Calvin Ellis of Dallas. Mrs. Dyess and Mr. Ellis are sisters of Mr. Edwards.

Miss Marilyn Fuller, daughter of Mrs. M. L. Bentley, underwent tonsillectomy at the Tahoka Clinic Tuesday morning and is reported to be "doing fine."

Mr. and Mrs. J. S. Poe, and Bobby Ray are here from Burbank, California, visiting friends. They formerly resided here in Tahoka.

Mr. and Mrs. C. D. Morrel of Post and their granddaughter, Ann Wharton, daughter of Mr. and Mrs. they had a grand time and greatly Sue Williams, daughter of Mrs. Albert Williams, returned Sunday from a 25-day vacation trip to the scenic points of Colorado, Yellowstone National Park, the Teton Mountains and Jackson Hole country, Southern Idaho, Salt Lake City, Utah, the Grand Canyon in Arizona, and other points. Ann reports that Winston Wharton, and her friend, enjoyed the wonderful scenery.

Mr. and Mrs. Frank Greathouse of Tahoka and Mr. and Mrs. Jess Benson of Post left Saturday for Sulphur, Oklahoma, to be at the bed-side of the grandfather of the two women, who was reported to be at the point of death. They returned home Monday, leaving their grandfather still alive but having little hope for his recovery. Mrs. Greathouse and Mrs. Benson are sisters.

J. H. KNIGHT IS GRANDPA AGAIN

J. H. Knight, who lives out north of Tahoka, received a letter from Fresno, California, last Friday informing him that he has another little grand-daughter, Sandra Naomi Moffett, who was born on Monday of last week, June 27. The little lady's mother is his daughter, the former Rose Mary Knight. Mrs. Knight had gone out there a few weeks ago to be present when the young lady should arrive, and to visit two other daughters living in that vicinity, one of them, Mrs. Ruth Atkins at Fresno, and the other, Mrs. Ed Bayer, at Dinuba.

Mr. Knight says that on the same day that he received news of the little grand-daughter's arrival, he also received a crate of Santa Rosa plums, almost as large as ordinary baseballs, sent to him by his daughter, Mrs. Bayer. He is one happy man.

It's like getting a dollar's worth of gas for 85¢ with

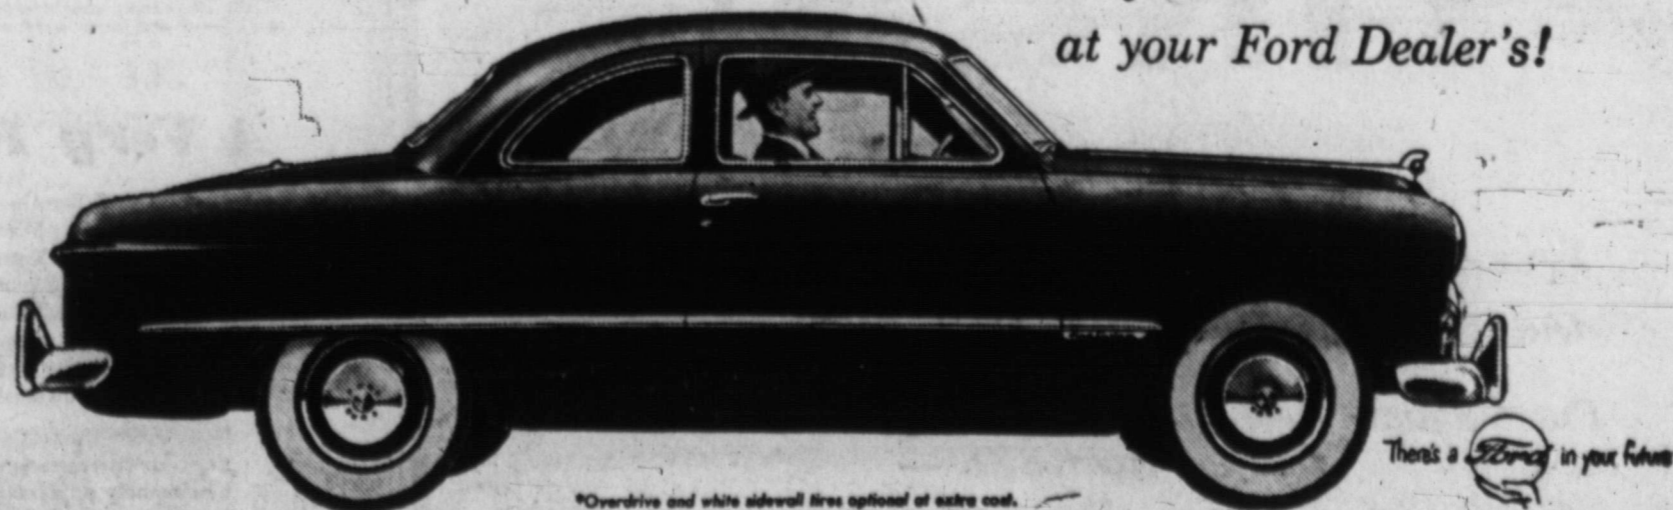

Drive one of our demonstrators and see for yourself how Ford Overdrive smooths your ride. Your engine speed actually drops 30% without any drop in road speed. For example, while your car's road speed stays at 50 m.p.h. your engine speed drops to 35 m.p.h. in Overdrive. This actually adds to engine

smoothness and quietness and engine life. It saves you up to 15% on gas and oil... cuts service costs... it's like getting a dollar's worth of gas for 85¢. And for added safety, a touch on your gas pedal releases a magic-like surge that makes passing and hill-climbing a breeze.

It accents the new FORD "FEEL"

Take the lower, level "Mid Ship" ride... the power of new V-8 or Six engines... the "feel" of "Hydra-Coil" and "Para-Flex" Springs... the 35% easier "Magic Action" brakes. Add the many other firsts of the "Fashion Car of the Year" and you'll see why you should be ordering your Ford now.

Take the wheel... try the new Ford "FEEL" at your Ford Dealer's!

Bill Strange Motors

AWARDED THE FASHION ACADEMY GOLD MEDAL AS THE "FASHION CAR OF THE YEAR"

MISS BILLIE RUTH PARIS WEDS J. R. THURMAN
 Miss Billie Ruth Paris, daughter of Mrs. J. E. Hill, became the bride of Mr. J. R. Thurman, son of Mr. and Mrs. Joe M. Thurman of New Lynn, at 8:15 o'clock last Friday evening in the Pioneer Church of Christ in Lubbock, Rev. Hershel Dyer performing the single ring ceremony.
 The bride wore a navy suit with white accessories. Her corsage consisted of white carnations.
 Mrs. Thurman is a 1949 graduate of the Tahoka High School.
 Mr. Thurman served 34 months with the United States Army, serving as a sergeant, 28 months being overseas. He is employed at the Plains Motor Company.
 Mr. and Mrs. G. D. Fuller moved on Thursday of last week from Ackery to Tahoka. He has accepted a position with the Wharton Motor Company here. Mrs. Fuller is a daughter of Mrs. M. L. Bentley.

Jesse Hill and wife and their two children and his brother David Hill, all of Weatherford, were here over the week-end visiting their parents, Mr. and Mrs. W. T. Hill. They brought along with them some fine specimens of Weatherford peaches, plums and watermelons for the special benefit of the parents.
 Dr. Ann West of Dallas came out last week end to spend a few days, including the Glorious Fourth, visiting her mother, Mrs. Ione West, Lynn, and other relatives and friends.
 Miss Marlene McKeehan of Fayetteville, Arkansas, is visiting in the home of her uncle, Dr. K. R. Durham, and family, Miss McKeehan was a student in Cotey College at Nevada, Missouri, during the past school year.
 Mr. and Mrs. Ed Bailey and daughter Sharon and Mr. and Mrs. Jesse Kenemer and daughter Wanda June all of San Angelo, were week-end guests of Rev. and Mrs. C. T. Aly and daughter Jo Helen.

Yale Professor Explains Why Ireland Has No Snakes
 Why are there no snakes in Ireland?
 The popular legend says that St. Patrick drove them out, but now a Yale professor offers a possible scientific answer.
 Edward S. Deevey, Jr., assistant professor of biology, points out that scientists have long speculated on the absence of snakes in the "Auld Sod" particularly when Great Britain, which is just as much an island as Ireland, has at least three kinds of native snakes.
 Writing in the "Scientific American" magazine, Professor Deevey draws upon the research of both biologists and geologists to explain the missing snakes.
 Here's how many bio-geographers explain it, according to the Yale professor:
 During the ice age, both Ireland and Great Britain were connected by land to the European continent. Virtually all plant and animal life perished under the glaciers, and the forerunners of modern flora and fauna migrated to Ireland and Britain from southern Europe after the glacier had disappeared.
 The first migration of animals and reptiles included those species which are now common to both Ireland and Britain. But by the time snakes began to wriggle their way northward, the land-bridge between Europe and Ireland was no longer open.
 This closing of the land-bridge was accomplished by the rise of the sea level that was to make islands of Ireland and Britain. But the sea encircled Ireland before it cut Britain from the continent because of a difference in the level of the land.
 The bottom of the Irish sea is deeper than the bottom of the English channel. Thus, Ireland was already an island when England and Scotland were still connected by the land-bridge to Europe. It was during this period that snakes migrated to Britain, but obviously could not move on to Ireland because of the sea, according to Professor Deevey and other biogeographers.

New 'Electric Brain' Will Solve Problems, Translate Tongues
 LOS ANGELES.—A new type of "electric-brain" calculating machine, capable not only of performing complex mathematical problems, but even of translating foreign languages, is under construction at the U.S. bureau of standards laboratory at the University of California's institute of numerical analysis here.
 While the exact scope which the machine will be given in the translating field has not been decided, the scientists working on it say it would be quite possible to make it encompass all the 60,000 words in the Webster Collegiate Dictionary, with equivalents for each word in as many as three foreign languages.
 The machine, tentatively dubbed the "Zephyr," involves two basic advances in design over the previous "electric brains"—notably the Eniac, Edvac, and Univac machines.
 Its "memory" for numbers and "commands" fed into it, instead of being based on vacuum tubes or containers of mercury in which electric impulses are stored, will be based on a cathode-ray tube of the same sort as is used in television. This will increase its scope and speed and greatly simplify its design.
 This "short-term" memory will be supplemented by a magnetic drum, which is just an elaboration of the magnetized wire or tape now used for record broadcasts and other sounds.
 It is on this drum that the machine's vocabulary can be stored. Words are converted into the same sort of electrical symbols by which the machine assimilates numbers for calculation.
 When a foreign word for translation is fed into the machine in the form of an electro-mathematical symbol on a tape or a card, the machine will run through its "memory," and if it finds that symbol on record, will emit automatically a predetermined equivalent—the English word.

B. T. SMITH ESCORTS GROUP TO MEXICO CITY
 B. T. Smith, now of Lubbock but formerly a well-known citizen and teacher of this county, was here last Friday on the eve of departing on a trip to Mexico City. He was escorting a group of sightseeing tourists to the capital of our sister republic. They expected to make the trip and return within less than a week time.
 Mr. Smith and a group of students spent several weeks there last

summer and he and some others did some fancy mountain-climbing while there, of which he gave an account in this newspaper.
 Mr. and Mrs. Clay Bennett and daughter Joan, and Mrs. Jewell Connolly returned Wednesday of last week from a brief visit with relatives in Hill county.
 Frank Strickland of San Angelo was here Sunday visiting his friend, Carroll T. Aly.

Risk of Death Goes Up With Rise in Auto Speed

When you speed the needle of an automobile speedometer, you are gambling with much higher stakes than when you spin a roulette wheel—because you bet your life!
 The chances of death in a speeding automobile are being emphasized by the National Safety Council in a nationwide program to reduce traffic deaths.
 The adage that the faster you go the harder you hit is proved by figures of the council which show that fatalities increase enormously as speed increases.
 If you have an injury accident at 45 m.p.h., the chances of someone being killed are one in 16, according to the council. At 55 m.p.h. the chances are one in 12. And at 65 m.p.h., the odds are one in six that someone will be killed.
 To drive 400 miles, you can gain a little more than one hour by increasing your constant speed from 55 m.p.h. to 65 m.p.h., the council said. But to gain that one hour, you double the chance of someone being killed if you have an injury accident!

Readers of Law Books
 A total of 59,807 readers—an all-time high—made use of 183,197 books in the collections of the law library in the library of congress during the last fiscal year, it is stated in the annual report of the librarian of congress. The increase in readers was 9 per cent over the total number in the year preceding, but because of the unusually large increase in the use of the law library during fiscal year 1947, it reflects also a 77 per cent rise in the annual number of readers and inquirers since June 30, 1946.

Russians Bring About Bar To Proposed Hunt for Ark

LONDON.—Three explorers—accused by Moscow of being western spies—won't hunt for Noah's Ark on Mount Ararat, this year at least.
 Egerton Sykes, leader of the British expedition to the mountain in Turkey near the Soviet frontier, said Turkish authorities refused permission for the journey.
 He said Hans Roozen, a young Dutch explorer, also was refused. Sykes said Turkish authorities indicated the ban also would apply to explorer A. J. Smith, Greensboro, N. C.
 Sykes said the Turkish embassy in London told him it was "instructed to confirm that the Turkish authorities find it impossible to grant permission for an expedition to Ararat."
 Moscow radio said members of the expeditions really were going to Mount Ararat to spy on Russia.

As Sophocles said in the second Oedipus, Cease lamentation, for verily these things stand fast.

You ought to be driving a '49 **PONTIAC**

A Very Fine Car at a Very Low Price!

When the 1949 Pontiac was introduced, its public reception made Pontiac history. Yet today, some six months later, it still continues to grow in public popularity and demand! For this extraordinary situation, there is a very simple and obvious reason. This big, distinctively styled beauty enables people to enjoy fine car ownership at a very low price.
 Powered by the world's sweetest engine, it provides fine car performance wherever you drive. Its handsomely appointed Fisher body affords fine car spaciousness and fine car atmosphere. Because of the exclusive Travelux Ride, Pontiac comfort over every road is fine car comfort. Its fine car steering and general handling ease are the happy result of fine car engineering and design. As you have the right to expect of a fine car, Pontiac ownership carries with it the definite promise of satisfactory, dependable performance over the years.
 Yet for all its fine car quality, Pontiac is not expensive. Few cars undersell it. In fact, it is America's lowest-priced straight eight. Buy this fine car at its very low price and you'll be very, very happy for a long, long time!
