Rain Wednesday Benefits Crops

Though Tahoka received only light mist and rain, much of the west portion of Lynn county received sufficient moisture to help early Wednesday morning. The rain out west covered a territory where crops were suffering because of the drought.
C. T. Tankersley reported about an inch, Maurice Small nearly an inch, and others in that area received from half an inch to an inch and a half.
Also, 57 of an inch was reported at the J. H. Cobb place seven miles north of town.
Tahoka received only .15 of an inch.
The east and south portions of the county received mist only, so far as The News could learn Wednesday.

Tahoka Golfer Gets Hole-In-One

C. N. Woods, Tahoka jeweler who plays golf as a hobby, made a hole-in-one while playing in a foursome on the Lubbock Country Club course a few days ago.
"Shorty" stepped on the No. 3 tee box with a No. 7 iron, hit the ball, and it rolled in the cup 140 yards away. Other members of the foursome were Q. B. Taylor, S. P. Boling, and Oscar Taylor.
This was his third hole-in-one a very rare thing in golf. He made his first in 1935 on the old County club course 135-yard No. 9 hole, and his second in 1936 on the Tahoka course 200-yard No. 2 hole.
Mr. and Mrs. Ed Hamilton, Harold Joyce, and Charles Eddie spent Monday and Tuesday in Roswell, New Mexico, with Mr. and Mrs. Charles Whitfield, Sr.

Local Jayees Install New Officers At Annual Banquet, Social Is Held

Sixty people attended the third annual Tahoka Junior Chamber of Commerce installation banquet held Thursday night of last week in the American Legion Hall.
New officers were installed by Ralph Krebs of Lubbock, vice president of the Texas State Jaycee organization.
Wagoner Carr, also of Lubbock, gave the address of the occasion, speaking on the abilities and opportunities of young men in the building of a better country.
Charles Reid of the local Jaycees, was master of ceremonies at the banquet, and he also presented the progress made by the organization during the past year and the financial statement.
Bouquets of flowers were presented Mrs. Seth Lewis, wife of the outgoing president, and Mrs. W. T. Hines, wife of the incoming president.
New officers installed are: W. T. Hines, president; Dub Gurley, vice president; Wilton Fyfe, treasurer; and A. V. Barnes, secretary.
Officers for the past year have been: Seth Lewis, president; Dr. W. A. Schaaf, vice president; Jim Lindy, treasurer; and Granville Ayer, secretary.
Wives of members were special guests, and following the banquet a social meeting was held.
The annual meeting of the Texas Pecan Growers Association will be held in Tyler on July 11 and 12.

New School Laws Raise Attendance

AUSTIN, July 3—Texas' new school laws, in force one year, have had the desired effect of providing better education and of bringing more children into the classroom.
Average enrollment skyrocketed more than 100,000, L. P. Sturgeon, state associate commissioner of education, said here today.
"A renewed interest among educators in getting children into the schools, plus more attractive programs offered the pupils have had the desired effect," Sturgeon said.
"The spotlight of publicity thrown upon the schools while new education laws were being studied by the public and enacted by the last legislature has caused Texans to take more interest in their schools than ever before."
"An illustration of this is the fact that in some districts members of civic clubs have designated themselves as attendance officers. They have been extremely helpful to the school administrators in urging attendance so that Texas children can have a better education."
Every district in the state has waged intensive campaigns to get children in school and keep them there," Sturgeon said.
Schools have expanded or instituted classes in shop work to interest older children.
Classes for handicapped children have increased 50 per cent. They, like many other special school services, were made possible by allocation of state funds under Gilmer-Aikin school laws.
Visual aid facilities have been augmented, Sturgeon said, increasing the interest of children in school work.
School terms of six to two months during the summer are popular in many sections of the state, according to Sturgeon. These make it possible for students to complete their annual scholastic work and yet allow schools to be dismissed during cotton picking time.
Sturgeon also reported that inroads are being made on the problem of regular attendance of Latin-American and Negro pupils. Itinerant workers are prone to leave their children in school only two or three months of the year, at most, Sturgeon pointed out.

Oil Showing Found In Williams Well, Two More Tests Are In Prospect

Some free oil was encountered Sunday in the J. H. Snowden et al. No. 1 Bryan Williams test, another wildcat test is scheduled to be announced any day, and a third test is rumored in the Draw section.
The Williams well, about 15 miles east and a little north of Tahoka and about due northeast from Central Church, encountered the show of oil at 8,815-75 feet, according to unofficial sources. Gas showed at the surface in 55 minutes, and recovery was 1-300 feet of free oil and 250 feet of salt water.
The operators then cored 20 feet deeper to 8,895 and ran another drillstem test Tuesday and Wednesday. The News had no report on this test at press time.
The test had previously encountered oil shows in the San Andreas and also in the Upper Pennsylvania. Contract is for a 9,000 foot hole, to test the Ellenburger.
The Williams well is on section 1407, block 1, EL&RR survey. Though not officially announced as this is written, preparations are being made for another deep test in the Draw area north of the Magnolia No. 1 Garza Land & Cattle Co. discovery well and the Magnolia No. 1 W. W. Caswell row drilling.
The new wildcat is on an Humble lease of land owned by Bill Dulin. Workmen this week were drilling a water well and road to the location.
Another well for the immediate area has also been rumored.
The Caswell well, a few hundred yards from the discovery well, was reported Wednesday to be setting casing at about 3,500.
Houston Oil Co.'s No. 1 H. B. Howell in the Redwine community was reported drilling below 4,500 feet on Wednesday.
Last week, a wildcat was announced three miles south of the Magnolia discovery to be known as the MFC Corporation of Level-land No. 1 Garza Land & Cattle Co. just inside Lynn county on the Borden-Lynn line. It is on section 10, block 10, EL&RR survey.

"I wholly disapprove of what you say but will defend to the death your right to say it." —Voltaire.

Volume 46. Tahoka, Lynn County, Texas, Friday July 7, 1950 Number 40

Absentee Voting Is Now Possible

Absentee voting, which began this week, will be possible through Tuesday, July 18, according to Beulah Pridmore, county clerk.
Persons who will not be in Lynn county on election day, Saturday, July 22, or those who for some reason will be unable to go to the polls, are requested to contact the county clerk as soon as possible.
Candidates have until July 13 to file their second campaign expense reports. July 16 will be the first day for filing such reports.

Highway Improvements Underway In County

Junior Baseball Games Planned

One of the closest Junior League baseball games of the season was played here Sunday afternoon, when the Southside team defeated the Northside team 3 to 2. Ray Madrit was on the mound for the South, and Ronny Gurley pitched for the North.
Next Sunday afternoon, the South plays the Negro boys on the Jaycee field in South Tahoka. The North team plays New Home at New Home.

Cars Are Wrecked, Liquor Is Found

Two Negroes are charged with driving on the wrong side of the road as the result of a head-on collision between a 1950 Pontiac driven by one of them and a 1937 Dodge driven by the other, which occurred on the Tahoka-Wilson highway at about 4 a. m. Sunday.
Four occupants of the Dodge were taken to a hospital in Slaton with injuries. The driver of the Pontiac was not injured sufficiently to remain in the hospital.
Sheriff Clem says the accident was reported at Slaton, and Lubbock county officers came down to investigate and called him to the scene. On the nearby railroad right-of-way, the officers found hidden in the weeds one case each of whiskey, gin, wine, and beer.
The Highway patrolmen arrived on the scene, next, and filed charges against both drivers for being on the wrong side of the road.
Sheriff Clem confiscated the illegal liquor, but now he has a problem. He did not know, early this week, at least, who the liquor had belonged to and must have some proof as to its owner before he can file any charges for its possession. County Attorney B. P. Maddox has advised him. Anyway, the Liquor Control Board will likely end up with the "Joy-Juice."

Prohls Attend Rotary Meeting

Dr. and Mrs. Emil Prohl were back through Tahoka a few days ago, returning from Detroit, Michigan, where they attended the annual meeting of Rotary International. They are spending the rest of their vacation visiting and will be back home next week.
More than 6,500 Rotary delegates and members of their families from 60 countries of Europe, Asia, Africa, and North, South and Central America attended the convention.
Arthur Legueux of Quebec City, Canada, head of an investment corporation and an outstanding citizen of that nation, was elected president of Rotary International for the year beginning July 1. The International organization now has 7,100 clubs with a membership of 240,500 business and professional men in 83 different countries.
Dr. Prohl is the outgoing president of the Tahoka club. Charles Townes is the incoming president, having officially assumed the office Thursday of this week.

Highway Patrol Warns Drivers

State Highway Patrolmen are warning the public that they are tightening down on fast and reckless drivers.
The Department has on a statewide drive to cut down on the number of accidents in Texas, and the Patrolmen have orders to arrest and file charges against any and all motorists found violating laws for safe driving on the highways.
The statement says in part: "Watch your speed and be sure that you get where you are going," they advise. "Not only watch your speed and driving, but also be on the lookout for others who may not be as careful as could be. Speeding may cost you your life and that of your family and perhaps some other innocent family. Five minutes lost in getting to your destination at a safe speed may save twice that many lives."

Five Road Projects Are Under Way Or Are Planned

One major and five minor highway projects are underway or in prospect for Lynn county.
The major project is the widening and repaving of the two highways through the city of Tahoka. Workmen are this week completing the laying of the curbs, base, and triple asphalt toppling will be applied as soon as the base has been sufficiently packed.
Originally, it was intended to widen the existing paving, but after the project was started it was found that the existing paving was in such a bad condition, the State Highway Department decided to completely rebuild the paving on both U. S. 380 east and west along Lockwood Street through Tahoka and on U. S. 87 along its route over Main and Sweet streets through the town.
Property owners paid for the curb and gutter work done last spring. When completed before fall, this widening project will greatly improve the town's appearance and facilitate the handling of traffic.
Pouring of new topping on U. S. 380 from Tahoka to Post was started Friday of last week, and completion of this project is expected this week. This road was getting in bad condition, and the new topping is a welcome relief to those who travel over it. The paving from Tahoka to Brownfield is likewise getting rough, but the Highway Department has given no indication that this will be retopped soon. Warren and

Methodist Men Meet Monday

The Methodist Men will hold their regular monthly meeting next Monday night in Fellowship Hall of the Church basement.
Departing from the usual program type, Bill Clarke and Tom Gill, who have charge of the program, will present three sound movies that should be of interest to most men. They are entitled "Deep Sea Fishing," "The Bashful Bass," and "Sports Highlights of 1949."
The meal will be prepared and served under the direction of A. C. Weaver and Perry Walker.
All men of the town, as well as members of the church, have a cordial invitation to the meeting.

Sheriff's Posse Trophy Winner

The Lynn County Sheriff's Posse took first place honors in the seventh annual Levelland Rodeo parade held at the opening of the show there last Saturday.
Sheriff "Slick" Clem, president of the local posse has a beautiful trophy in his office attesting the fact with the following lettering: Presented to Lynn County Sheriff's Posse—Outstanding riding group participating in the Levelland Rodeo parade, 1950.
The local posse is one of the youngest in this area, and rode in the parade late Saturday afternoon in competition with other posses from Post, Brownfield, Crosbyton, Littlefield, Hereford, Seminole, and Levelland.
Sheriff Clem states that the organization now has its Sheriff's Posse badges, which completes the uniform for the 41 riders.
Bill Barham went to Clovis Wednesday and expects to go to work for the Santa Fe railroad.

Mrs. Bill Thompson Is Brought Home

Mrs. Bill Thompson was brought home last Saturday from a Lamesa hospital, where she had been a patient for over two weeks. She is reported to be "doing as well as could be expected."
Three weeks ago Wednesday, Mrs. Thompson fell at her home east of Tahoka and broke her right hip. She underwent an operation at Lamesa, and was in a critical condition for some time. She has shown some improvement, and many friends are hoping that she may soon recover.

Nephew of Mrs. Tanner Is Killed

Cecil McNew, 21, who worked in Tahoka for several months in 1948, was killed instantly in a car wreck at Gustine, Comanche county, Monday of last week. He was alone in the car at the time, and had started to town when another car crashed into his car.
Mr. McNew was a nephew of Mrs. E. J. Tanner, Sr., of Tahoka. Mrs. Tanner and Mrs. E. J. Tanner, Jr., and Billy attended the funeral services the next day at the Gustine Church of Christ.

City's New Lighting System Work Is Planned For Near Future

Installation of Tahoka's new street lighting system is being held up briefly because of a possible change in the type of light standards, according to Bill Clarke, local manager of Southwestern Public Service Co., which supplies this city with electricity.
Some months ago, the City of Tahoka entered a contract with the company to install 36 1,600-lumen mercury vapor street lights in down-town Tahoka and a number of 1,000, 2,500, and 4,000-lumen incandescent lights in the residence section. These were to be on pine poles.
However, a number of business men have been protesting the proposal to take out the old metal standards and replace them with pine poles, and have asked that the Council reconsider and install the more attractive metal poles in the business section.
Installation of the metal poles will cost the City an additional \$1.00 per month per standard for the 36 standards.
The power company has had new contracts drawn for such equipment, which contracts now await the signature of the City officials.
In the meantime, all the materials except for down town use are on order and are expected in the very near future.

New Cotton Production Record Set In 1949

Lynn county ginned a total of 186,695 bales of cotton from the 1949 crop, a record for the county, according to the final official report received by County Agent Bill Griffin.
Mr. Griffin also has been furnished a copy of the final official ginnings for District 2 of the Extension Service, compiled by F. E. Lichte, cotton gin specialist, which, in many cases, have a greater number of bales were ginned some years than were at the time carried in the preliminary Government totals.
For instance, in 1937, Lynn county's production was announced in March, 1938, as being 154,000 plus bales. This figure has been quoted a number of times by The News, and this figure is carried yet in the Texas Almanac as the final official figure. However, after all adjustments had been made, the report in the hands of Mr. Griffin shows that Lynn county's final official ginnings for that year totaled 159,110 bales.
For those interested in cotton production in Lynn county over the years, here are the official figures:
1913 1,896
1914 6,835
1915 4,757
1916 3,906

1917 (drouth)	No report
1918 (drouth)	No report
1919	10,771
1920	9,556
1921	12,387
1922	16,666
1923	25,045
1924	38,179
1925	42,466
1926	51,161
1927	42,959
1928	33,936
1929	31,561
1930	29,117
1931	54,081
1932	62,412
1933	70,222
1934	8,526
1935	47,965

1936	52,944
1937	159,110
1938	58,984
1939	62,214
1940	42,037
1941	70,258
1942	101,564
1943	75,679
1944	92,102
1945	7,405
1946	18,780
1947	106,022
1948	51,573
1949	186,696

in cultivation. These years were 1914, 1915, 1925, 1934, and 1942.
If the arithmetic of The News is correct, Lynn county produced 1,689,775 bales of cotton in these 35 years, not counting the two years for which there is no report.
Thus, the 35 year average is 48,279 bales.
Average for the past 20 years, which is actually a more fair indication of an average crop in this county, is 67,435 bales.
However, during the past ten years, during which time cotton growers have been constantly improving their farming methods, the average has been 75,212 bales per year.

Since 1914, the first year there is a report for Lubbock county, Lynn county has out-ginned Lubbock on five occasions, although that county has much more land

erable amazement among the people of this area. Many of them who keep informed about such matters were not greatly surprised but the great masses were.

Fifty years ago—yes, even thirty years ago—Waco was a charming old town of the Old South, breathing out its spirit, its culture, and its beauty with every breath. Today, it is a fine little city of the New South, rapidly becoming more and more industrialized and commercialized.

More of that later, but just here we want to register a grouch against the thing we most dislike about Waco. It does not sit straight with the world. The streets do not run north and south but almost exactly northwest and southeast. The avenues do not run east and west but almost exactly northeast and southwest. This messes things up for us.

What the Wacoans call East Waco—that portion of the city lying across the Brazos River—looks like north Waco to us. Riding in the same car with folks going north, we invariably seem to be going due west or nearly so. When they turn to the "west" we find ourselves headed south, and so on around the circle. The sun rises every morning away up the far northeast, almost north, and it sets every evening away down in the southwest. Every night, if we attempt to locate the North Star, we have to hunt all around in the western skies for it. So, we are tired of all this morky business. We wish that in some way we could get in touch with that old Grecian God that the Athenians called "Atlas," who could stand around all day, presumably on nothing but thin air, with the whole world resting on his shoulders. If we could attract his attention, we think that we would persuade him to come down to Waco, grab the whole town by its ears, yank it up from its moorings, whirl it around about 45 degrees and set it down straight with the rest of the world. He is the only guy that we know of that we might get to do the job. Of course, in doing so, he might break the Brazos River in two in two or three places, and we don't know how in the world he would get it back together again as it was before, but that would be his problem, not mine. Frankly, however, we would not like to be up on the 22nd floor of the Amicable building while old Atlas were setting things straight.

They started something here in Waco away back yonder about thirty years ago when they constructed that "Amicable" building. Nothing so tall has been built here since and it is still the pride of the town. They do have quite a number of ten and twelve story buildings here though, and some that may be taller than that. One of the newest and most attractive buildings in the town today is the Masonic Grand Lodge building, which all Texas Masons, including the members of the Tahoka Lodge, know about and are proud of. But we can't start to tell about all the splendid new buildings and new industries here in Waco, and so we hurry on.

We dealt last week with the "arms" of the Brazos. This week we have a word to say about the main body of the stream, from the convergence of all its arms into a single stream at Possum Kingdom Lake on down to Waco. Just recently another huge dam has been constructed across the Brazos near the little town of Whitney in Hill county which will impound another huge lake or water, containing about the same volume of water, we believe, as Possum Kingdom Lake. According to present plans at least two other dams are to be constructed between these two in the not-distant future, we believe. All of these dams, we are told are being constructed and to be constructed for a triple purpose—flood control, irrigation, and the generation of electric power. They will also be enjoyed each year by thousands of visitors seeking recreation and amusement and doubtless also by many hundreds of fishermen.

And Waco is placing considerable reliance upon the completion and maintenance of these projects to insure and promote its future growth.

Waco, in fact, has enjoyed a remarkable growth during the past ten years, as shown by the recent U. S. Census report, giving its present population within the city limits as 83,787; but greater Waco, which includes several unincorporated areas outside the city limits but adjacent thereto, has a population of possibly 95,000. This is an increase of 35,000 to 40,000 over the population of the same area in 1940. McLennan county now has a population of approximately 128,589, according to the census figures recently released.

We might remark that Lubbock's revealed population of more than 71,000 created consid-

g while old Atlas were setting things straight.

They started something here in Waco away back yonder about thirty years ago when they constructed that "Amicable" building.

Nothing so tall has been built here since and it is still the pride of the town. They do have quite a number of ten and twelve story buildings here though, and some that may be taller than that. One of the newest and most attractive buildings in the town today is the Masonic Grand Lodge building, which all Texas Masons, including the members of the Tahoka Lodge, know about and are proud of. But we can't start to tell about all the splendid new buildings and new industries here in Waco, and so we hurry on.

We started to say awhile ago that Waco is a very beautiful little city. If you are from Missouri, I can take you out onto the porch of the third floor of the Hillcrest Hospital on any clear afternoon and show you. Everybody with an eye for the beautiful who goes out there raves over the magnificent view of the city that is presented—and a view not only of the city but also of its environs for many miles around.

Hillcrest Hospital, where my brother is a patient and where I have spent a large part of the time every day since I have been here on this trip, is situated in one of the newer sections of the city. Most of the residences in the vicinity are four and five and six-room residences of modern structure, as neat and as "spic and span" as a city show window. The numberless new roofs, red and green and black and blue, glowing in the bright sunlight, set on intensely green little lawns and interspersed with trees or various kinds and sizes, present a picture as gorgeous as the sunset or as the glowing new neck-ties that the men are now wearing.

As we mentioned above, Old Waco smacks of the Old South. We believe there are more old two-story mansions of the Southern plantation type in Waco than in any other city we have ever visited unless it be Austin.

There they still stand, side by side, on expansive lawns, stately but silent reminders of a day and an age that have forever gone—gone but leaving their indelible impress upon the present age and possibly upon all the ages that are to follow.

Other reminders of the Old South are the many thrifty and lovely, typically tropical magnolia trees now blooming all over the city.

We have been down there, and

specimens of flowering trees that are prevalent throughout Waco. The flowering mimosas are to be seen on many lawns; and of course there is an abundance of crepe myrtles and other flowering shrubs.

Waco is a city of trees—fine old gnarled oaks, towering elms, countless cottonwoods and sycamores, imperious pecan trees, symmetrical cedars, elegant evergreens of many kinds—trees, trees everywhere! Few cities are more abundantly blessed.

Waco has only one major institution of higher learning, Baylor University; but it is one of the most historic, and one of the most outstanding history-making institutions in Texas.

But magnolias are not the only our impression is that it needs a larger campus. In fact, we are not sure but that it needs a new location, in whole or in part, out on some of the suburban hills, for instance, where there is more open space and fresh air. But there is no present prospect of that, and it is not our problem any way. So we leave that suggestion right there.

Across the River, in East Waco, is Paul Quinn College, a Methodist institution for Negroes. We have little information as to this institution but understand that it is doing a great work in the matter of Negro education.

In North Waco is the Methodist Orphans Home, where that

dynamic Denomination is doing a great and good work in caring for and educating orphan children.

Besides Hillcrest, there are two other hospitals in Waco much older and larger than Hillcrest. One is the Provident Heights Hospital built and maintained by the Catholics and another is the

**Methodist Hour
Speaker Named**

Featuring one of the younger leaders of Methodism, the Sunday, July 9th broadcast will present the Rev. W. Jeff Cunningham, First Methodist Church in Greenville, Mississippi, who will speak on the subject "The Voice of God Himself," which is a part of the present denominational emphasis on The Advance for

Christ and His Church. "The Wayside Cross," one of the dramatic gospel hymns is featured on this 115 station network radio program by the Methodist Hour Choir. Music for this thirty minute worship program is by the thirteen voice Methodist Hour Choir with John Hoffman as director and George Hamrick as organist. The Methodist Hour may be heard on station KGNC Amarillo at 7:30 A. M. each Sunday.

PREPARING FOR ATOMIC WARFARE—The advent of the atomic bomb has presented many problems for all types of warfare. One solution is being developed by the Marine Corps by the use of transport helicopters for moving a landing force from ship to shore. Based on ships widely dispersed off-shore, helicopters can load assault troops, flying from different directions, circumventing powerful beach defenses and land accurately in any desired position. Above, landing party disembarks. Below, troops deploy while helicopters return to ships. Range, speed and mechanical limitations of helicopters are expected to be improved by technical improvements.

THE LYNN COUNTY NEWS,

Friday, July 7, 1950

Mr. and Mrs. Fred Crozier of Fort Worth spent the week-end and July 4 with her parents, Mr. and Mrs. J. C. Wells, and Mrs. Crozier's daughter, Sandra Kemp, who had been visiting here.

Price of Insolvency
Senator Harry F. Byrd (May 1, 1950): "People can't cash war bonds of an insolvent nation. No solvent nation ever went socialist."

A. H. Hood of Post, who farmed near Central Church for many years, was in Tahoka Saturday visiting with old friends.

Reforestation is the process by which man helps nature to restore forest cover where the natural timber stand has been destroyed or allowed to deteriorate excessively.

**IH PISTONS and SLEEVES
Give Me Lots of Pep, Power and Pull!**

"No, the boss hasn't been feeding me wild oats! It's just my new piston-and-sleeve transfusion that gives me all this pep, power and pull. "It was just yesterday the boss was bragging to the neighbor across the fence about my operation." "You know," he said, "I'm not only getting more work done since I had those IH matched pistons and sleeves put in, but I'm getting it done cheaper. I've already made more than the cost of the job in oil and fuel saved. Besides, it's a lot more fun driving a tractor with lots of zip and go."

Bring in Your Tractor For a Piston-Sleeve Transfusion TODAY

You'll be surprised, too, at what a piston-and-sleeve transfusion can do for your tractor. Be ready for the busy season. Drop in and talk it over NOW.

**Gives Instructions
For Grass Spray**

When trichloroacetate spray is used to eradicate Bermuda grass or Johnson grass, it should be mixed at the rate of one-third to three-fourth of a pound per gallon of water, says M. K. Thornton, agricultural chemist of Texas A. and M. College.

About one gallon of the spray will be needed per 100 square feet of area, depending upon the size and density of the plants. If applied during the months of June and July, this amount of trichloroacetate will kill practically all of the Bermuda and Johnson grass on the land.

Thornton says that trichloroacetate, commonly called TCA has been recommended for the control of Johnson grass, Bermuda grass, and other grasses for some time, but farmers are still unable to buy the compound locally. Many of the large chemical companies manufacture the product, but do not sell it to the public in small packages.

TCA is particularly useful for the eradication of Bermuda and Johnson grass from fence rows, roadways, small spots in fields, and areas that are inaccessible for machinery. However, the cost of the compound prevents it being used for eradicating grass from large areas.

Normally some drying of plants can be seen in about 24 hours after the spray is applied, says Thornton, and most of the plants that are going to die will be dead within a week after being sprayed.

Hot, dry conditions with a moderate amount of moisture in the ground are favorable for spraying with TCA. The compound is water soluble, and it penetrates the ground in addition to acting on the tops of the plants. If a rain occurs immediately after the spray is applied, some of the TCA will be carried away in runoff water, some will leach out through the soil, and the percent kill will not be as high.

TCA may affect the growth of plant life for 90 to 120 days after the date of application. The chemical action varies with different species of plants, and rainfall shortens the effective period of influence.

TCA proved to be very efficient for the eradication of Johnson grass in a test run at the Blackland Experiment Station, Temple, Texas, and in test runs at experiment stations in other states. At the Blackland station, sodium TCA gave a 90 percent kill in four and one-half months

JEEPERS!
Jeepers! That's the name of these new knee length clam diggers made of sturdy denim. With the comfortable jeepers, this attractive beachcomber wears a cotton T-blouse designed in a matching color by Jantzen.

THEATRE MANAGER MARRIED RECENTLY

Miss Virginia Robertson of Andrews and Lester P. Flood of Tahoka were married in Abilene on Sunday, June 25.

The bride is the daughter of Mr. and Mrs. F. M. Robertson of Andrews. She is a graduate of Andrews High School and has been a student in Texas Tech.

Mr. Flood is originally from Kingsville. For the past five years he has been with the Wallace Theatre chain, and for the past three years he has been manager of the Tahoka Wallace theatres.

The couple arrived here Friday to make their home in Tahoka.

- 600002. 1 1/2 Ton.
- 3— One 1944 Ford— 48 Passenger Bus Mtr. No. 991-599043. 1 1/2 Ton.
- 4— One 1946 G. M. C.— 48 Passenger Bus Mtr. No. 2319116. 1 1/2 Ton.

This equipment may be seen at Tahoka School Bus Barn at any time. (Bids will be received on each unit separately).

Bid proposal may be secured by contacting Mrs. Helen Ellis, School Secretary, at School Tax Office in the Nowlin Building in Tahoka, Texas.

And in compliance with law, we give this notice by publication in the English language, once a week for two consecutive weeks immediately preceding said day of sale, in THE LYNN COUNTY NEWS, a newspaper published in Lynn County.

Witness the Tahoka Consolidated Independent School District signed this 1st day of July, 1950 by President and Secretary of School Board.

—Mrs. Helen Ellis, Secretary, Calloway Huffaker, President.

WAC RESERVISTS STUDY TRAFFIC REGULATION—On this Training Supply ship on a weekend cruise the 834th Transportation Traffic Regulation Group held life boat and fire drills, put "ducks" over the side for landing experience and attended lectures. The group in Washington, D. C., composed of officers and enlisted men and women, is training in traffic regulation matter for all forms of transportation regarding the movement of personnel and materiel.

W. L. Knight, 86, Has Been Driving Car 38 Years Without An Accident

W. L. Knight, age 86, of Tahoka, has driven an automobile 38 years and never has had an accident of any kind.

He thinks automobile drivers should drive slower and keep their eyes on the road. There would have been a lot fewer accidents over the July 4th weekend if drivers would have practiced his policy.

Mr. Knight says he has never bumped into anyone, and no one has ever bumped into his car. However, he has had to do a lot of zigging and zagging sometimes to keep from getting hit.

During his 38 years of driving, he has made a practice of never driving over 40 miles an hour. That may seem slow to some in this fast age, but he says he would rather take life and travel a little slower and live to tell about it.

Mr. Knight bought his first car down in Eastland county in 1912. It was a Krit, probably never heard of by younger generation, but he drove it for six, two years after coming to Tahoka in 1916. He says the late Bill Nevels also owned a Krit. Since that time, most of the cars he has owned have been Chevrolets.

During his 38 years of driving, he has steered automobiles through 13 states and the District of Columbia, having made two trips to Washington, D. C.

He thinks one good way to live to be 86 years of age is to drive slower and to keep your mind and eyes on your business.

Tough to Take

About 1 1/2 million Federal civilian employees are given 26 working days of vacation leave each year. They are also entitled to 15 working days of sick leave. These add up to 8-1/3 work-weeks of time off with pay. In addition, they receive eight regular holidays a year.

EXPERIENCE Is What Counts

BEN RAMSEY
Candidate for
LT. GOVERNOR
Has the Experience!
A Backstop Road
To Every Farm Home

U. S. vs Us
For 15 cents the U. S. Government Printing Office will mail you a booklet entitled "Guiding Family Spending" (Catalogue No. A1.38.061). This booklet is not to be confused with another recently issued by the GPO on "Increasing Cost of the Federal Government" (Document No. 150) which shows that the Federal Government intends to spend \$42 billion in 1951 although it expects to take in only \$37 billion in revenue.

Non-War Spending Up
Domestic-civilian expenditures of the Federal Government amounted to \$6.9 billion in 1948. The President has requested a total of \$12.2 billion for these items for 1951. This is an increase in Federal non-war expenditures of \$5.3 billion or 77 per cent in 3 years.

You Pay Postal Deficit
The 1950 operating deficit of the U. S. Postal Service will amount to \$569,000,000. This means an extra tax of about \$4 for every man, woman and child in the United States.

Curry Family Hold Reunion

The family of Mr. and Mrs. Jack Curry were all together Tuesday, July 4, in a reunion held in Mackenzie State Park in Lubbock. This was the first time all the family had been together since before the war.

Present at the meeting were two daughters, Mrs. E. L. Roman and family of Knott and Mrs. Arthur Hodge and family of Levelland; and four sons, Roy Curry and family of Snyder, Lloyd Curry and family of Big Spring, J. D. Curry and wife of Oakland, California, and Floyd of the family home.

Also present were several grandchildren and four great-grandchildren. The married grandchildren present were: E. L. Roman and family of Knott, Mrs. D. L. (Joyce Hodge) Reid and baby of Levelland.

Double Wedding Held At Carlsbad

A double wedding involving three Lynn county young people and one young lady from Pecos was performed at Carlsbad, New Mexico, Friday of last week in the Methodist parsonage by Rev. Jo Emanuel.

Miss Rildabeth Wood of Tahoka was married to Elvin Ray Moore of O'Donnell; and Miss Verna Mae Hilton of Pecos was married to M. L. McLaurin of O'Donnell. Rildabeth is the daughter of Mr. and Mrs. Horace Wood of the T-Bar community. She is well known in Tahoka, having been employed at Wynne Collier Drug for some time. Mr. Moore is the son of Mr. and Mrs. Ben Moore of O'Donnell and is associated with his father in the insurance business there and they will make their home in O'Donnell.

M. L. was reared at O'Donnell and is the son of Mrs. John McLaurin, but has been working with a gin and oilmill at Pecos, in which city he met his bride.

Go To Church Sunday.

Double Wedding Held In Lovington

On June 24 Miss Eva Mae Norwood of Tahoka and C. J. Renfro of Petty and Mary Evelyn Young of New Home and V. G. Pendleton of T-Bar were united in marriage in a double wedding in Lovington, New Mexico.

Both of the brides were dressed alike in Beige Satin trimmed in beige lace, and carried a white Bible.

On Sunday afternoon at 5:00 o'clock Mr. and Mrs. Samie Norwood gave a supper in their home in west Tahoka, for families of each couple and a few close friends.

Mr. and Mrs. V. G. Pendleton are making their home in O'Donnell and Mr. and Mrs. C. J. Renfro will live at Petty.

Holcomb To Attend Sequoia Meeting

Rev. C. A. Holcomb, Jr., pastor of the Tahoka Methodist Church, will attend the Annual Missionary Conference of the South Central Jurisdiction of the Methodist Church at Mount Sequoia, Fayetteville, Ark., July 10 to 13.

The program for this year is sponsored by the Home Division of the Board of Missions of The Methodist Church.

Rev. Holcomb is the Lubbock district secretary and will attend the Conference as an official delegate of the Lubbock District.

Food Poisoning Can Be Avoided

AUSTIN, July 4— Food poisoning and the spread of food-borne diseases can be "things of the past," State Health Officer Geo. W. Cox asserted here today.

"People need only remember three things to bring about the end of the food poisoning disease classification," Dr. Cox declared. "Buy food from safe sources, prepare it in a sanitary fashion, and serve and store it correctly."

He said state laws covered the sale of contaminated food to the housewife, but "only the home-maker can see that food is properly stored and cleanly prepared for serving to the family."

There is a difference between food infection and food intoxication, he pointed out.

Food infection comes from eating or drinking a product contaminated by a germ. Typhoid, typhoid fever, paratyphoid fever and tuberculosis are examples. Animal parasites can also gain entry to the body in this way. That, the doctor said, is how people get trichinosis and tapeworm.

The growth and multiplication of certain toxin forming bacteria in unrefrigerated foods bring on food intoxication, according to the explanation. That is the source of staphylococcus infection and the badly botulism. Some kinds of fishrooms and certain shellfish are also poisonous.

Some poisonous substances may be accidentally introduced into food, Dr. Cox said. "For instance, rodent and insect poisons, spray residues on fruit and vegetables, and poisons from metal containers."

To point up the deadliness of

Brownfield, 1950 on your dial

some food poisons, he related the story of the housewife who suspected some home-canned green beans she had just opened were tainted.

"She barely tasted of them, but it killed her in a matter of hours. Such instances are rare but do occur."

CHURCH OF THE NAZARENE WELCOMES YOU

Baptist Services For Next Sunday

Rev. Lee Ramsour, pastor of the First Baptist Church, and family left Monday of this week for Alabama, where he will be engaged for three weeks in revival meetings.

Rev. Ira Harrison, manager of the Baptist Book Store at Lubbock, will fill the pulpit at the church here next Sunday morning and evening.

Last Sunday, Rev. Bob Callahan, the new education and music director of the church, was here for the first time in this capacity.

The infestation of thrips on flowers and many ornamental plants is particularly heavy this year in many sections of the state. They are hard to see and often are unnoticed until damages caused by them begin to show up. They suck the sap from the plants and cause the affected parts to take on a dried up appearance.

Rev. Callahan is a student in Wayland College, and at the present is doing part-time work with the local church. As soon as he completes his work at Wayland, he will be with the church full time.

Freshly laid eggs will cool from 100 degrees F. to 50 degrees F. in three hours if spread out on a wire tray. They'll cool in five hours if held in a wire basket; twelve hours when held in gold-pails and 18 to 24 hours when held in an egg case. Fast cooling is essential to quality.

Three tablespoons of lead arsenate dissolved in one gallon of water and applied as a spray will control bagworms. A second application may be needed in two or three weeks to get the late hatches. Wet the infested plants thoroughly.

Terry County Editor Visits, Praises Lynn County's 1950 Pioneer Reunion

By Jack Stricklin,
Terry County Herald

By invitation we had a seat in Bob Noble's car to the old settlers reunion at Tahoka last Saturday. Bob never misses, even though he came near being a Territe, as he was reared only a mile from the line, and part of the Noble ranch was in Terry county in the Westpoint community. Dad and Mother Noble were unable to attend, and the rest of

the family were busy. So, Bob and the writer had a car all to ourselves.

As usual there was a good crowd on hand that are still Lynn countians, and when the Exes are added, and guests, like the writer, there is always a great gathering. For instance, Matt Smith of Yoakum county, and Uncle Jack Blankenship of this city never miss. And there was Dan Davis of Amarillo. He was seen about

lunch time. Anyway, it is always worth your time and more to visit this reunion. Your change is no good over there—everything is paid for—and you just help yourself when hungry or thirsty.

We, as well as others, have often wondered why Terry county does not have a Pioneer Reunion yearly. Is it selfishness or do we just lack leaders? Your guess is as good as ours. This year the sessions were held at the Legion hall, as it was very hot and the hall is air conditioned. But the eats were as usual, served in the city park. And such a feast.

The main speaker of the morning was a Rev. Dick O'Brien, Baptist minister of Big Spring, who was reared down in old Comanche, and knows west Texas like a book. He is witty—note his name again—and got many hearty laughs from the audience. Truett Smith and others made short talks. Oscar Roberts, the president seemed to be very busy with details of the barbecue lunch, and R. P. Weathers acted as master of ceremonies.

The afternoon affair was given over to music, a stringed orchestra, some singing and tap dancing, as well as an oration from Robert Nelson, former Tahokite, and others. The afternoon session was quite short.

We thank Editor Frank Hill for his many courtesies, one of them was in having us sit down in the shade at the park, while he rustled our lunch. All the Hill family are really nice folks.

Miss Lucille Collier, teacher in the Lubbock public schools and formerly a teacher here, visited in Tahoka Monday with her brother, Wynne Collier, and family.

Local Students On Honor Roll

LUBBOCK, July 6—Three Tahoka students of Texas Tech were named to the spring semester honor roll of the college, it has just been announced. The roll includes the upper five percent, scholastically, of students.

Peggy Jo Carter, arts and sciences, sophomore, had a grade point average of 2.56; Charles Diseker, arts and sciences, sophomore, 2.44; and Delbert Timmons, agriculture, senior, 2.59. An average of 3.00 is the highest possible.

Odds & Ends

(Cont'd. From Ed. Page)

Veterans Hospital for mental patients. It is a large institution but we have no information as to the number of patients.

There is also a Crippled Children's hospital here, maintained by civic organizations, which is doing a good work.

Waco is a city of churches. In the page of church announcements in the Waco News-Tribune last Saturday, we noted sixteen regular cooperating Baptist

churches and two non-cooperating Baptist churches, the Free will Baptist and Rev. Reilly Copeland's "Fundamentalist" Baptist church. More than half of these have each a membership and a house of worship comparable to or much larger than the First Baptist church of Tahoka. Only two or three of them could be legitimately called small churches.

There are seven active and growing Methodist churches in the city, members of the Central Texas Conference; at least two large Churches of Christ and one Christian Church; two Presbyterian churches; two Lutheran churches; two Interdenominational churches, whatever that may mean; three or more "Missions" of various types; a "Faith Tabernacle;" St. Paul's Episcopal Church; "Zion Evangelical Reformer" church; two or more Catholic churches; two Jewish

Temples; one Christian Science church; and a Mormon church. There are also a number of churches of various denominations maintained by the colored population of Waco.

The origin of the city of Waco deserves more investigation than I have given the matter. A popular legend is that the Indians selected this particular spot for the establishment of their village because of the fact that it was free from violent storms. It is said that no destructive windstorms has ever visited Waco. Tornadoes and other destructive storms frequently strike in this general area but no person has ever been killed by any kind of storm in Waco. We do not know whether that statement is true or not but we do know that brisk breezes have been blowing down here almost unceasingly for the past many weeks. Out on the third-floor porch of Hillcrest Hospital it has been blowing steadily and almost strong enough day and night to whip the hair off of a man's head. I am surprised that there are any natives down here who have any hair left on their pates. It is practically impossible to read a newspaper out on that porch, and if you wish to insure continued possession of your headpiece you had better anchor it down in some room inside the building and lock the door.

I have an idea that those Waco Indians settled where they did because there were fresh springs of water there. We do not know just what year it was that the Waco tribe discovered the springs but they had a little village there when we first discovered them some 110 or 115 years ago. I do not claim that I personally discovered them at that time, mind you; I am just telling you what has been told to me. They might have been living there for a hundred years before the white man showed up, for all I know, as they neglected to scribble down any history of themselves or ancestors.

But as I have been able to frame the story, a tribe of peace loving Waco Indians, fleeing one day from some local Red-skinned Joe Stalin, stumbled upon those sparkling springs on the banks of the Brazos and stopped to quench their thirst and rest. The water was so cool and the shade so refreshing that those lazy whelps decided to stay right there. Pretty soon one of the squaws cut

Political Announcements

The Lynn County News is authorized to announce the following candidates for office, subject to the Democratic primaries:

For State Representative, 119th District:
Forrest Weimhold, Levelland.
Wagoner Carr, Lubbock.

For District Judge:
Louis B. Reed (re-election)
Tom Garrard, Tahoka.

For District Attorney:
(100th Judicial District)
Karl Cayton, Lamesa

For District Clerk:
W. S. (Skip) Taylor (re-election).

For County Judge:
Walker M. Mathis.

For County Attorney:
B. P. Maddox, (re-election).
Sam Garrard.

For Tax Assessor-Collector:
J. E. (Red) Brown.
Marvin Munn.

herself some poles and erected a wigwam for herself, her papooses, and her lazy hubby, and started life a-new in the wilderness. Then another squaw followed suit, and another, and another, until finally the had quite a little village there on the banks of the Brazos.

But the squaws built their wigwams in a crooked line that followed the general course of the River Bank; then soon white traders came and later white settlers began to come, some of whom erected their crude houses near the Indian village, and didn't have any more sense than to build their houses in a northwest-southeast line also, following the Indian pattern and the river bank.

So, we are still traveling streets in Waco that run northwest and southeast and avenues that run at right angles to the streets; and so we get our directions all mixed up and have to hunt for the North Star when we need it.

For County Clerk:
Beulah Primmore (re-election)

For Sheriff:
Roland W. "Slick" Clem, (re-election).
Charles F. Wells.
A. L. (Allie) White.

For County Superintendent:
Mrs. Lenore M. Tunnell, (re-election).

For County Treasurer:
Thomas (Tom) Reid.
Mrs. Tommy Lishman.
Mrs. Opal Nowlin.

THE LYNN COUNTY NEWS,

Friday, July 7, 1950

For Commissioner Prec't. 1:
E. J. Cooper, (re-election).
P. K. Fleming.
Clarence Church.

For Commissioner Prec't. 2:
Willis Pennington, (re-election).
C. W. Roberts.

For Commissioner, Prec't. 3:
F. E. Redwine.
Will Edd Tredway.
John Earles.

For Commissioner, Prec't. 4:
G. W. (Dick) Turner, (re-election).

Mr. and Mrs. Homer St. Clair of Lamesa were here Monday and Tuesday visiting Mrs. St. Clair's mother, Mrs. S. N. MeDaniel.

First of the Fine Cars in Value

The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.

There is the all-important point about what a car does for you—and that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand—when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-

eight power plant—when you feel the smooth surge of its Dynaflo-cushioned take-off—

Man, then you know you've got a real automobile!

And don't overlook this:

That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.

Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.

There are a lot of good, solid,

dollars-and-cents reasons for making ROADMASTER your choice over any other car:

size. The commanding performance of its 152-hp Fireball in-head straight-eight engine. Dynaflo Drive standard. Ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Dixie H. D. Club Have Meeting

Wednesday afternoon, July 5 the Dixie Home Demonstration Club met in the home of Mrs. Clifton Hamilton. The meeting was called to order by president Mrs. T. D. Lishman.

Women taking part on the program and their subjects were Mrs. Clifton Hamilton "Scoring Drop Cookies and Refrigerator Cookies;" Mrs. E. J. Cooper, "Scoring Corn Bread;" Mrs. T. D. Lishman, "Scoring Biscuits and yeast bread;" and also an interesting talk on Canning and preserving.

Virgia Cobb "Scoring Cakes Containing Fat," "Angel or Sponge Cakes."

Refreshments of sandwiches, individual cakes, and bottle cokes were served to 10 club members and little Lynetta Cain of Tahoka.

The club will meet again on July 19 in the home of Mrs. Carl Spears.

Mrs. W. P. Inman Is Honored With Dinner, Shower

Mrs. W. P. Inman of Tahoka was the honoree at a dinner given Sunday in the home of her daughter, Mrs. Claude James of New Home.

Sixty-four guests were present and enjoyed the bountiful dinner spread at the noon hour.

Those present for the occasion included: Mr. and Mrs. M. M. Shearer and sons, Tommie and Curtis of Sudan; Mr. and Mrs. Sherman Inman and three children of Muleshoe; Mr. and Mrs. Tiny Nelson and daughter, Donna Sue of Brownfield; Mr. and Mrs. Luther Wood and three children of Tahoka; Mrs. John Inman and two daughters of Tahoka; Mr. and Mrs. Gerald Walton and three children of Snyder;

Mr. and Mrs. Winston Davies, Canton, Ann and Sue all of New Home; Mr. and Mrs. Wellard Tapley and Charles Mack of Lamesa; Mr. and Mrs. Freeman and Jo Loyd of Crosbyton; Mr. and Mrs. Rupert Walton and children of Tahoka; Mr. and Mrs. Precher Roberts and daughter of Grassland; Mrs. Babe Car and Kay of Colorado City;

Miss Wanell Peak of New Home and Don Dee Cowan, Texas Tech students; Miss Peggy Nelson, of Hardin-Simmons, Abilene.

The host and hostess, Mr. and Mrs. Claude James and daughters, Gloria and Gaylan of New Home.

The honoree, Mrs. Inman was presented a gift shower by her children.

Tiny baseboard lights that stay on at night make for safety in home.

School Laws

(Cont'd. From Page 1)

Some districts which have heavy Latin-American and Negro populations reported gains in attendance of 15 per cent and more during the last school years as compared with less than 5 per cent state-wide gain.

But even with the increase in attendance, there are still approximately 150,000 children of school age in Texas who are not enrolled, Sturgeon said. These are children whose parents are starting them in school a year late or older children who do not enter high school.

One of the most serious problems confronting school districts is lack of classroom facilities, according to Charles H. Tennyson, executive secretary of the Texas State Teachers Association.

Surveys by that organization and state school officials show that 50 per cent of the school districts this year increased their will add classrooms during 1950 and 1951, Tennyson said.

"These necessary additional facilities will be made available due to increased revenue obtained by the schools through the new and equitable 'ISWS'—which produce more funds, from both state and local taxes," Tennyson said.

IN NAVAL TRAINING

Kenneth Weaver, son of Mr. and Mrs. A. C. Weaver, left Wednesday of this week for San Diego, California, where he will take special training for six weeks in the Naval Reserve Training School.

Rev. J. Paul King and family of Davidson, Oklahoma, visited from Monday until Friday of last week with his parents, Mr. and Mrs. J. O. King. Paul is a graduate of the local schools, and now is a Methodist pastor.

Mrs. Harold Edwards of Houston arrived last Saturday for a visit with her parents, Mr. and Mrs. Roy E. Poer.

Maurice Smith Gets Special Course

Maurice L. Smith of 308 West Buckley, Brownfield, junior student in the Providence Hospital School of Nursing at Waco, is now at De Paul Sanatorium in New Orleans for a twelve-week course in psychiatric nursing. The course includes both theory and clinical experience in the care of the mentally ill.

The work at De Paul is a part of Providence's program of affiliated study. Providence students also take anatomy and physiology, chemistry and microbiology at Baylor University. Girl students have six weeks of pediatric nursing in the children's wards at Santa Rosa Hospital, San Antonio.

Mr. and Mrs. Tom Gill left last week end on their vacation. They expected to visit in Albuquerque and Gallup, New Mexico.

Highways

(Cont'd. From Page 1) Burtell of Lubbock have the contract for the Tahoka-Post job.

Three miles north of Tahoka, a crew of the State Highway Department has torn up and is rebuilding one and a half or two miles of U. S. 87 through the sand bed, which stretch had deteriorated badly. Caliche base is being laid 40 feet in width, but the topping will be only 22 feet wide, same as present paving.

The Highway Department is said to have long range plans for widening U. S. 87 all the way from Tahoka to the Lubbock county line, but evidently this project is not due to come up any time soon.

As soon as the stretch north of Tahoka is complete, the construction crew will move to Wilson, where it will rebuild 1,500 feet of paving through the town of Wilson. Paving through Wilson will be widened approximately nine feet.

Contract was let some time back for paving the stretch of road west from Dixie and north to New Home but work has not started on this project.

This week, the Highway Department is advertising for bids on proposed paving in Lynn and Terry counties totaling 17,324 miles. Only 3.5 miles of the road is for Lynn, however, this being from Newmoore north one mile, thence west to the Terry county line and beyond to Union and toward Brownfield.
