Jaycees Completing Boxing Tourney Plans

Bulldogs Defeat Slaton In First District Game

Tahoka Bulldogs' basketball team will test the strong Post Antelopes in games in the Post gym next Tuesday night. Both A and B teams will play, with the A team game counting in the Conference race.

This week end, the Bulldogs are playing in the Abernathy tournament, where they expect to get some valuable playing experience. They meet New Deal at 1:30 p. m. today, and their second game will be with either Sudan or Post.

As The News went to press Thursday night, the boys were playing Seagraves here. The Bulldogs took an easy victory over Slaton Tigers here Tuesday night, the first conference game of the season, by a score of 57 to 26. The B team also won handily 51 to 22. Every Bulldog on the squad saw action.

The Tigers made a game of it during the first quarter of the A game against the Bulldogs' man-for-man defense, but in the second quarter Coach Jake Jacobs set his boys into a zone defense and the game was not even close from then on. The score was 13-11 with Tahoka in the lead at end of the first quarter, 23-13 at halftime, 40 to 15 at end of the third, and 57 to 26 at the end.

The visitors scored only 4.

(Cont'd. On Back Page)

O'Donnell, New Home Split Games

O'Donnell won the boys' game, but New Home girls' teams were victors in games played at New Home Tuesday night.

The boys' game, a conference Class B affair, was won by O'Donnell 35 to 34 and was a rough hair-raiser. The Eagles got away to a long early lead and led at halftime by a 24 to 8 score. The New Home Leopards came back fighting in the second half to score 26 points while O'Donnell was scoring 11. Rogers of New Home had high point honors with 15, while Britton was high for O'Donnell with 12.

New Home took easy victories in both A and B team girls' games. In the A team game, the score was 56 to 36, with Jo Ann Harrison accounting for 15 points and Shirley McClintock 14 for the winners. However, Simpson of O'Donnell was high point scorer in the game with 20.

In the girls' B team game, New Home scored 33 to O'Donnell's 4 points, with Barbara Pifer high with 12 points. Shaw and Gass each scored 2 points for O'Donnell.

WILSON BOYS VOLUNTEER

Three young men from the Wilson community left Lubbock Tuesday afternoon for Albuquerque, N. M., where they will take physical examinations for entrance into the Navy. They are: Victor F. Steinhauer, Kenneth E. Hargrave, and Marvin H. Hagens.

Preliminary plans have been completed for the 3rd annual Jaycee Boxing Tournament which will be held in the Tahoka gym three nights, Thursday, Friday, and Saturday, January 25, 26, and 27.

Since the Lubbock Golden Gloves tournament will not likely be held this year, the Jaycees are making an effort to make this a big tournament. President Chas. Reid and other Jaycees inform The News.

There will be two classes for fighters in all weights, the novice or High School class, and the open class.

Coach Joe Turner will direct the High School division, and High School boys from over the entire area may enter and be assured that they will fight only high school boys at closest age and weight that is possible.

The open division will be for the more experienced and older fighters. These fights will also be closely matched giving each fighter the same advantages.

Half of the proceeds from the event, as in the past, will go to the High School Athletic Fund and half to the Jaycee organization.

(Cont'd. On Back Page)

Livestock Show Date March 3

Lynn County's Junior Livestock show will be held this year on March 3, according to County Agent Bill Griffin.

There will be classes for both dry lot beef calves and milk-fed beef calves, light and heavy in each class; classes for six breeds of swine, and for sheep.

Mr. Griffin states that there should be approximately 75 head of calves this year, and 220 head of fat barrows.

Judges of the show this year will again be L. M. Hargrave for beef cattle and T. L. Leach for swine. Both are professors in the Texas Tech Agriculture department, Lubbock.

Oil Test Near Prospective Pay

Sunray Oil Corporation No. 1 Sunray-Schito-Bryce, northwest Lynn county well, was reported Wednesday to be hearing the Pennsylvania test zones. It was cutting Tuesday below 9,106 feet in lignite and shale.

Reef production in the Mound Lake pool, six miles to the southwest, is from an average of 9,300 feet.

Contract depth for the Sunray venture is 10,500 feet. Location is in section 140, block 12, EL&RR survey, and three miles southwest of Lakeview.

In southwest Lynn county in the O'Donnell multipay pool Magnolia Petroleum company No. 1 Caswell, west of town, was drilling below 9,055 feet in time. Operators are planning to retest the Mississippian zone, which failed to produce in the original hole of the No. 1 Caswell. Operators are now cutting back into that zone with a side-tracked hole.

Wayland Singers Coming Here

The Wayland Pioneer Choralists, to make an appearance on January 17, 1951, at the First Baptist Church here. The choir of 36 voices, under the direction of Ben W. Shanklin, who is professor of voice and organ will present a program of "Music That Lives Forever." The program will be made up of a variety of types of music from mountain folk-songs and traditional western ballads to the deeply moving Negro spirituals and sacred anthems.

Featured in the program will be the Cow-Poke Quartet and the Poke-Bennet Trio.

The Choralists will wear robes for the first part of the program and for the second part they will be dressed in the traditional western attire of levis, plaid shirts, denim skirts, boots and moccasins, whence comes the name of the organization. The program will be presented at 8:00 o'clock p. m. on January 17.

REV. & MRS. ALVIN MAUL, EVANGELIST & SINGER

Rev. and Mrs. Alvin Maul, evangelist and singer, will conduct a revival meeting at the Grassland Church of the Nazarene beginning next Wednesday and continuing through January 28, with services each evening at 7 o'clock.

The meeting is being sponsored by Young People of the Church, C. O. McClesky is president of the Young People's organization, and Rev. W. M. Dorough is pastor of the church.

Fines Assessed In Local Courts

Fines of \$50.00 and costs were assessed against three men in county court Monday by County Judge Walter M. Mathis.

Two Negroes pled guilty to aggravated assault as the result of a fight at O'Donnell. The other fine was against a man for driving while intoxicated.

A North Plains man was last week fined \$100.00 and costs in county court for carrying a concealed weapon, and \$1.00 and costs in Justice Court for drunkenness.

One man drew a fine of \$25.00 and costs in Justice Court for drunkenness, and four other men drew fines of \$1.00 and costs.

Set for trial in Justice Court next Monday is a case in which a Wilson Latin-American is charged with parking on a public highway north of Central Church resulting in a wreck.

Polio Funds Aid Local Victims

Polio struck down well over 30,000 children and adults in 1950. This was the second worst year in the history of this crippling and costly disease.

Your dime and dollars given to the Lynn County March of Dimes will enable the National Foundation for Infantile Paralysis to give help promptly to every polio patient in need. Half the money raised remains with the local Chapter for local patients or, in emergencies, supplements national epidemic aid wherever needed.

Last year in Lynn county 5 people received assistance. Campaign Director Terry Thompson said. The Chapter spent \$3,646.10 for patient aid. The National Foundation sent \$694,821.17 to 88 Chapters in Texas in the first eleven months of 1950, after local funds were depleted. Such advances totalled \$7,700,000 to 990 Chapters in 46 states, toward the \$25,000,000.00 patient bill for 1950.

Mrs. J. F. Rogers, 83, of New Moore, is a medical patient in Tahoka Hospital.

8-Year-Old Girl Burned To Death In Grassland Fire Wednesday Night

Nephew Reported Missing In Korea

Opl. Fred Fleener, Jr., 19, son of Mrs. Mary Walker Fleener of Houston, has been missing in action in Korea since November 28, according to Clint Walker, his uncle. He had previously been wounded while fighting with the Second Division.

Fleener was reared in Houston and was a graduate of Milby High School there. His mother was reared in Tahoka, the daughter of Mr. and Mrs. J. B. Walker.

Water Program Is Now Complete

Tahoka's City water improvement program was completed last week with the laying of a main to the Tahoka Cemetery, according to Dr. K. R. Durham, mayor.

The Cemetery has long been without sufficient water, and the laying of the city mains at a cost of \$2,000 to the burial site completes the program started more than a year ago.

Tahoka citizens voted \$275,000 revenue bonds in 1948. Since that time, the City's water system has been almost completely rebuilt. New and larger mains have been laid over the entire town, extensions made, and new fire hydrants installed. Also, a new 250,000 gallon overhead storage tank was erected in west Tahoka to augment the small 50,000-gallon overhead tank and the large ground storage tanks.

Only \$225,000 of the bond issue were used, the other being held in reserve in case of some early emergency water distribution need.

Methodist Men Hold Meeting

Tahoka's Methodist men met last Monday evening in regular session with V. F. Jones, president, in charge.

A very good meal and program was enjoyed by a large number of men. The committee were: program, C. O. Carmack and W. E. Smith; food, Jim Ward and H. E. Rudy; Mrs. E. W. Patterson, choir director, led the singing with Mrs. Ira Joe Hart at the piano. The food committee was assisted in preparing and serving by Maurice Huffaker, Earl Tunnell, Mrs. Ward and Mrs. Rudy.

Truett Smith was the speaker of the evening. Choosing as his subject "Can Communism Win?", he brought his address to its climax with the statement, "Communism cannot win for God has been left out."

The next meeting will be Monday evening, February 12. Food committee: H. W. Carter and Calloway Huffaker; program committee, W. C. Huffaker and Wynne Collier. Officers for the new year will be elected. All men of the community are cordially invited to be present.

Wilson Girls On Wayland Team

Two Wilson girls are members of the Wayland College Harvest Queens basketball team this year. They are Juanell Schneider and Pat Smith.

The girls' team at Wayland has gained national recognition. Flying in four Beachcraft Bonanzas, last Friday and Saturday they journeyed to Houston for two games. From there they flew to Mexico City for three games early this week.

This week end they will be in a four-team tournament in Dallas.

Sgt. E. Parker, 25, was killed in action on November 29 in Korea.

Sgt. E. Parker Is Killed In Korea

This sad news was received by his wife, who lives in Lamesa, and by his parents, Mr. and Mrs. N. S. Parker, of the New Moore community last week end. Nearly two weeks before, they had been notified that he was missing in action on the above date.

Sgt. Parker was believed to have been leading a group of South Korean soldiers on the battlefield at the time of his death, for he had written home on November 20 that he had been assigned to such duties.

He had been serving with the Second Division of the Army, and in September had been awarded the Silver Star for distinguished service in action.

Entering the Army first in 1943, he saw service during World War II in the South Pacific. Following that war, he returned and went to Italy, where he met and married a native Italian girl, Edi Presslor. Later that year, he was sent back to the states and some time later he succeeded in getting his wife to this country. While he has been away, she and their infant child have lived, until recently, in Lamesa.

Sgt. Parker was reared in the New Moore community, and attended school there and in O'Donnell before entering service.

He has two brothers in the Army, Cpl. Lewis Parker, 24, who is stationed at Camp Hood and expects to go overseas soon; and Cpl. L. D. Parker, 20, who is in Korea with the 10th Corps, which also has been in heavy fighting.

Three Other Family Members In Hospital With Serious Burns

An 8-year-old Latin-American child was burned to death, and three other members of a family suffered serious burns, Wednesday night at about 7:30 p. m. when a stove exploded in a small house near Grassland.

The dead girl is Tamarita Perez, age 8. The girl's mother, Mrs. Mary Lopez Perez, and sister, Noemi Perez, 9, are in Tahoka Hospital with serious and possibly critical burns on the face and hands. A fourth victim is Margarita Lopez, a sister of Mrs. Perez, who also received burns of lesser degree on the face and hands. Four other little children in the house at the time it caught fire escaped uninjured.

The family about a week ago moved into a small house on the Joe V. Huddleston farm a mile south and a mile and a half west of Grassland, while picking up cotton behind bollpullers on neighboring farms. They are from Odom, Texas.

The head of the family, Erasmo Perez, Mr. Huddleston, and others reconstructed the story of the accident as follows:

Perez came in from work. There were no matches in the house. He lighted a lamp with a

(Cont'd. On Back Page)

Kennels Available To General Public

This year, for the first time, the High School yearbook, "The Kennel," is being made available to citizens of the community as well as to students.

Up until January 26, these books may be ordered for \$3.00 per copy. After this date, the price will go up.

Anyone wishing a yearbook may call the High School, leave his or her name and address, and a student member of the yearbook staff will contact you.

Server Officiates At Three Weddings

Justice of the Peace P. D. Server reports he had a lot of fun last week end, officiating at three weddings of Mexican citizens.

Friday afternoon he conducted a "floose" affair in his office. The principals and their five or six attendants were elaborately dressed for the occasion. And Saturday, he officiated at two other weddings of Latin-Americans.

Congratulations:

Mr. and Mrs. James Edward Hill of Tahoka on the birth of twins, a girl and a boy, each weighing almost exactly 6 pounds, a few minutes before 12 noon Wednesday. The little girl, who arrived first, has been named Janice Ann, and the little boy will be known as Jimmy Dan. Dr. W. H. Stapp was the attending physician.

Mr. and Mrs. James (Sonny) Roberts on the birth of a son weighing 7 pounds, 1 ounce in Tahoka Hospital at 12:29 a. m. Thursday. He has been named Steven Kenneth.

Mr. and Mrs. James G. Roates on the birth of a son weighing 8 pounds 3 ounces at 8:50 p. m. Wednesday in Tahoka Hospital; name, James Byron. The father is pharmacist at Tahoka Drug.

Mr. and Mrs. James Cliff, 4817 Doolittle St., Houston, on the birth of a daughter weighing 5 1/2 pounds on December 30; name, Paul Gene. The mother is the former Miss Betty Louise Edwards, daughter of Mr. and Mrs. Frank Edwards. Mr. and Mrs. J. H. Edwards of Austin are the proud great grandparents. The Edwards were citizens of Lynn county for many years.

Tahoka Man Has 'Close Call' With Desperado

Lee B. Archer, 52, Tahoka mechanic with Shambeck Buick company, possibly narrowly escaped death in a recent holdup, but his encounter with a desperado pulled the trigger on one of the most widespread man-hunts in the history of the Southwest.

The fugitive, William E. Cook, 24, an ex-convict from Joplin, Missouri, is suspected of having murdered eight persons including an Illinois family of five in his foray over the Southwest and West following the hijacking of Mr. Archer last Saturday morning in Oklahoma.

After having worked until a-

bout 11 p. m., Mr. Archer left Tahoka about midnight Friday, December 29, destined for Quapaw, in the extreme northeastern portion of Oklahoma, to spend the New Year's week end visiting relatives.

In the east edge of Lubbock, he picked up a hitch-hiker, who said he was headed for Joplin, Mo. They drove the rest of the night and passed through Oklahoma City at about 9:30 the next morning.

Mr. Archer told The News his suspicions of the fellow were not aroused until they reached a joint just the other side of Okla-

homa City, where they encountered a train wreck. Officers lined the highway directing traffic. He says Cook appeared jumpy every time they passed an officer, and he asked him what was the matter. Cook explained that he had been nervous ever since his service in World War II.

A few minutes later, Cook pulled a revolver on Archer and directed him to take a back road, made him stop the car out of sight of passers-by, and threatened to kill him if he made a false move. He told Archer to lay the car keys on the seat and get out.

Mr. Archer, though excited, managed to remain calm, for he decided this might be his only chance to get out of a jam. He and Cook talked for several minutes, Archer trying to persuade the desperado to take his car and money and go ahead. But Cook was fearful Archer would notify officers, and told him he would release him in two or three days.

Holding a gun on Archer, Cook forced the Tahoka man to open the trunk of the car, take the spare tire out, and to crawl in to the trunk. Cook took what money Archer had in his pants

pocket, about \$85.00, but Archer had several more dollars in a shirt pocket the man did not find.

After being locked in the trunk, Archer began working on the trunk door latch with a tire tool as the car sped along country roads. Soon he had the trunk door unlatched, and made a decision to jump out of the car at the first opportunity.

That opportunity came when he felt the car laboring through a sandy stretch of country road. The car slowed down, made a quick turn, and just as it did,

Alabama but was brought to Texas. The public, or that portion of it who read this column occasionally or regularly, will please pardon me if I am just a bit more personal this week than usual.

First, I wish to thank the Tahoka friends who sent sympathy cards following the death of my brother here at Eddy last week. Also I wish to thank the First Baptist Church of Tahoka and the High School and other friends who sent those marvellously beautiful floral offerings.

Numerous friends of the deceased and the family here and in this area also sent wonderful sprays and garlands of flowers and likewise a number of lovely pot plants in expression of their sympathy. Included among these were the Methodist and Baptist churches here and were held in Baptist Church of Moody. Services were conducted by the pastors of the Methodist and Baptist churches here and were held in the Eddy Christian Church, of which deceased was a member. He was also a Mason and a Knight of Pythias. The body was buried in an old cemetery near

Brought to Bell county by his parents when he was a little more than three years old, the deceased, William F. Hill, was reared in Bell county. As a boy he attended a country school and then spent nearly three years in the Thomas Arnold High School in Salado, where he graduated. He was married at Troy in Bell county in 1895, and a year later bought a little drug store in Eddy in McLennan county, but on the south line, where Bell and Falls counties have a common corner. Here he and his wife lived until their deaths, a period of more than fifty years. She preceded him in death by two years. He continued to live up to the time of his death in the same home which they had acquired nearly fifty years previously. During this period, he served as the town druggist, as a fire insurance agent, as a stockholder and assistant cashier of a small bank, successively; and during the most of this time he was also the town's notary public. As such he drew many legal instruments and also served as administrator of a number of estates.

About 18 months ago, a few months after his wife had died, he visited in Canyon and in Tahoka, and from Tahoka my wife and I accompanied him and our sister to the Carlsbad Cavern, and although more than 78 years old at the time, he walked down into and through the main portion of that big hole in the ground, without aid—the big room alone excepted. It proved to be a never-ceasing wonder to him.

His final and fatal trouble began on January 6, last year, when he fell on the ice and broke his hip.

William—for that is what his family called him throughout his life—was born in Alabama, but parents and two older children started with him to Texas when he was only three weeks old. I don't think he remembered much about Alabama. They stopped over in Cass county, in the heart of the pines, for three years and then came on to the black lands of Bell county. He has been a black-lander ever since.

Now, in this connection, we have another story to relate, a story of much personal interest to me but possibly of little interest to you, dear reader. A third cousin of ours, S. M. Witt of Moody, principal owner of the funeral home at Moody, directed the funeral and burial services. He is 83 years old but is as active as most men at 65. He too was born in Alabama but as by his parents when he was a-

about four years old. Settling in Bell county, his father was a farmer, and the son also farmed until after he was married and had a family. Then he moved to Moody near the Ede of Bell county and engaged in business, in which he has greatly prospered. He is an outstanding character. He is 79 years of his life in and near Moody. One of the interesting facts of his life is that he has been superintendent of the Sunday School of the First Baptist Church of Moody for thirty-nine years. Before moving to Moody he had been superintendent of the Sunday School of the Stimpede Baptist Church in Bell county for several years. But the story which we started out to relate pictures graphically an important and meaningful era in the history of our country. You will find it in the next paragraph.

Not all Southerners were secessionists by any means. It was the big plantation owners and slave holders who fomented secession. But the people of the hill country in Georgia, Alabama, Tennessee, and even in North Carolina and Virginia were not enthusiastic over the movement started by the wealthy plantation and slave owners and the leading politicians to bring about the secession of the Southern States. And the Hills and the Witts of Alabama before the War between the States lived in the hill country. They owned no large plantations and had few slaves. When Alabama seceded from the Union most of them fell in line as a matter of expediency or necessity, but their hearts were not in the fighting; at least they were not as enthusiastic soldiers as those whose lands and whose slaves were at stake. But by reason of the outcome of the war, they lost practically all of their small holding just as the Southern plantation owners and aristocrats lost theirs. Financially, they were ruined. Immediately after the War the before the Carpet-bag days were over, thousands and thousands of these people from the hills turned their faces westward, most of them toward Texas. The dawning of 1870 found multitudes of them migrating or preparing to migrate to Texas.

S. M. Witt the other day told me of one of these migrations.

"I was only four years old," he said, "but I remember it almost as well as if it had been yesterday. A large number of the Witt families living mostly in Morgan county, Alabama, gathered at the home of my father, Minor Witt, or rather at the home of my grandfather, Joseph Witt, who lived near by, to make the start to Texas. It certainly was a sad occasion, for my father and his family and his older brother John and his family, were remaining in Alabama. The other brothers and some of the uncles and cousins, and our aged great-grandfather and great-grandmother, Rev. Silas and Susannah Witt, were leaving for far-away Texas.

HOUSE of FLOWERS

There must have been twenty wagons in the company. All of them were "covered wagons" and were drawn by horses with the exception of one. It was drawn by oxen, driven by a cousin of mine, Jim Ike Witt. It would start out ahead each morning but would get behind before night and had to catch up with the rest of the company after dark. The great-grand-parents, Rev. Silas and Susannah Witt, came in their buggy. Religious services were held at frequent intervals en route. Little Sim was not in that company but he heard the folks talk about the trip so much thereafter that he knew it almost as well as they themselves. Besides, his father and family came out to Texas over much the same route a little later. They all settled in the northern part of Bell county, a rich, virgin, black-land prairie. For the next half century, the Witts were as thick as blackbirds on that entire area.

Now, a further word of explanation. Sim Witt's great-grandfather, Rev. Silas Witt, and his great-grandmother, Susannah Randolph Witt, were my great-grandfather and great-grandmother too. I can remember seeing both of them when I was a child. Both were born in the mountainous region of East Tennessee. He was born in 1790 and was a soldier under Andrew Jackson in the War of 1812. She was born in 1795. Her maiden name was Susannah Randolph and she was a member of the numerous Randolph families of Virginia, and the tradition has come down from generation to generation that she was a descendant of Pocahontas, as many of the Virginia Randolphs claimed to be and doubtless were. I have never been able to prove, however, beyond a reasonable doubt that Pocahontas was actually one of my ancient grand-ma's.

But the tombs of Rev. Silas Witt and his wife Susannah Randolph Witt still stand in the old Perry Cemetery less than

Farmers Income Tax Service:

The income Tax law requires, and the Government demands that every firm or individual engaged in business keep such permanent books of account and records of all business transactions necessary to establish the amount of gross income, deductions, credits, net income and other information required by an income tax return, and to produce such books and records for the inspection of internal revenue officers.

The burden of proof rests with the individual who is required to keep books and records in condition for quick audits by internal revenue officers, and to prove the amount of its net income.

I will file your Income Tax Returns and prepare your Social Security Returns on monthly or yearly basis, at a price you can't beat—

Johns Quits Post With Chamber

ABILENE, January 11. —Raymond Lee Johns has resigned from the position of manager of the Panhandle-Plains Branch of the West Texas Chamber of Commerce, effective February 1. He has held the position one year and has maintained offices in Plainview, serving some 40 counties in northwest Texas. No successor to the post has been named.

Johns will become actively associated as President and Publisher of "Southwestern Crop and Stock," farm and ranch magazine published in Lubbock. He has been part owner of this firm since 1946. Besides his Lubbock interest he will look after farming interests in Lynn and Hale counties and Cimarron ranching in Plainview.

Since about 90 percent of all farms in Texas now have electricity, there is little excuse for farmers to do their chores in the dark.

NATION-WIDE ASSISTANCE IN NATIONAL GUARD RECRUITING—Hundreds of the country's leading business and industrial firms are cooperating in the distribution of posters calling attention to the recruiting of the Air and Army National Guard. The posters illustrated are now being distributed through Air and Army Guard units.

Many Purina Range Checker Feeders Get BIG CALF CROPS

Many cattlemen get 90% calf crops, or better, by feeding Purina Range Checkers to cows when range is poor. Checkers have what it takes to bring cows through in condition to drop strong calves. Checkers help cows have plenty of milk to get calves off to a fast start, too. Range Checkers have a variety of proteins, cottonseed, linseed and soybean oil meal, plus minerals, and molasses—a fine conditioner.

Please see us before you buy or book feed. PURINA RANGE CHECKERS ARE PRICED RIGHT... made right for results you'll like!

AERIAL SURVEY: PICTURE OF MOUNTAIN TERRAIN—This Air Force aerial photograph shows a portion of the Barranca de Cobre (Copper Canyon) of the Urique River in the State of Chihuahua, Mexico. Although the gorge never has been surveyed, the Aeronautical Chart Service knows that its maximum depth does not exceed 5,500 feet and that its length is about 80 miles. How can it tell? By using such photography as a measuring stick. Mechanical devices in the hands of skilled technicians examine the photographs, compare heights and depths and come up with the answers. Photos like this supply information essential to the making of the best aeronautical charts.

FIGHTING HIS THIRD WAR—No ordinary soldier is M/Sgt. Arne Stenslie, 60 years old, of Devil's Lake, a member of the U. S. 23rd Infantry Regiment, 2nd Division, just now slugging it out in Korea. He is a veteran of World War I and World War II, and two tours of duty in Korea. He resigned his commission of major to return to his comrades in the ranks when hostilities broke out last June. Here the Sergeant is recounting some of his experiences to William H. Burson, a press correspondent from Atlanta, Ga., during a lull in the fighting in North Korea.

Look For The Blue Star Seal of Approval

West Texas Gas Company

HELPING BUILD WEST TEXAS SINCE 1927

Odds & Ends

(Cont'd. From Editorial Page)
 of his two sons, Rev. William C. Witt, my grand-father, or Rev. John Witt, my great-uncle, who held the services at frequent intervals for that great company of Wits who migrated from Ala-

bama to Texas in 1871-72. There were six other sons of this grand old Baptist patriarch who came from Alabama to Texas, most of them being members of the company mentioned above. Nearly all of the eight raised large families, and their descendants, scattered throughout the South and the western coastal

States, are now like the stars of the heavens for multitude.

Looking backward, the story is just as interesting, as the beginning with the birth of this old rugged mountaineer preacher of Eastern Tennessee; for my sister Mary, with the aid of a genealogist, has traced his ancestry back to Wilhelm de Witte, his great-grandfather, who was born in France in 1675. Religiously, he was a Huguenot, and because of his religious views he fled from France to England in the last years of that century to escape possible imprisonment or death at the hand of the Roman Catholics, who at that time were mercilessly persecuting all Protestants. Witte, whose name anglicized became Witt in Witt, sailed with his family and others in 1699 from Southampton, England, to the Huguenot Colony at Manakin-town, Albemarle (now Nelson) county, Virginia, and thus became the first known settler in America bearing the name of Witt. They established a homestead there named "Roselands," which remained in possession of some representative of the family for 200 years. Both William Witt and his wife, who was also a Huguenot and whom he married in France, are buried in St. Ann's Parish in Nelson county, Virginia. They were the great-grandparents of our great-grandfather. The son and the grandson respectively of this original William Witt were Charles C. Witt, born in Virginia in 1712, and Joseph Witt, born in the same state about 1740; but the latter moved west across the mountains, and his son, Silas Witt, our great-grandfather, was born in Jefferson county, Tennessee.

The original American William Witt and his wife had six sons other than the Charles C. Witt who is in our line of ancestry, and hence the lateral kindred bearing the name of Witt, if gathered together today, would probably appear to bea numberless as the sand of the seashore, or as the sands of the atmosphere either, as for that matter, when a sandstorm is sweeping over our town from Terry county.

But the Witts and the Hills who came from Alabama to Texas in the 1870's in such great numbers were just a drop in the bucket as compared with the total stream of immigrants who came in those years; for, in addition to the Witts and the Hills, there came also, in caravans or by single families, from the old red hills

Lone Star 4-H'ers are National Champs

THREE Texas youth won 1950 national honors in the 4-H Tractor Maintenance, Dairy Achievement and Farm and Home Electric programs. Each received a trip to the 23rd annual 4-H Club Congress held recently in Chicago, and a \$300 college scholarship.

Marcus Hoelscher

T. G. Herring, Jr.

Charles Hoelscher

Marcus Hoelscher, 20, of Rowena, won the tractor maintenance award which was provided by Stanolind Oil & Gas Co. One of his main accomplishments was to save some 150 gallons of gasoline per year in operation of the family tractor on the 160-acre farm. Marcus attributes this savings to proper carburetor adjustment which he learned through his tractor project. A 4-H'er for eight years, he has won several awards, and was president of the county 4-H group. He also is junior leader of his local club.

An outstanding record in the dairy achievement program brought high honors to T. G. Herring, Jr., 19, of Crosbyton. Also an eight-year club member, young Herring has made 176 dairy exhibits, and was high point man in dairy judging at Round-Up this year. He has won seven grand, eight junior and five senior championships. These activities are directed by the Extension Service of the State Agricultural College with USDA cooperating.

Charles Hoelscher, 19, of Rowena, was named national winner in the 4-H Farm and Home Electric program. His award was provided by Westinghouse Educational Foundation. Charles has applied knowledge gained in the project to adjustments, repairs, and installation work around his home and farm. Among his many innovations are an electric cream separator, an improved electric motor for the washing machine, and a thermostatically controlled electric brooder.

The Extension Service of the State Agricultural College with USDA cooperating.

Since the beginning of the occupation 2,248 Christian missionaries have been cleared to enter Japan.

of Alabama, Georgia, and Tennessee to the black-land prairies of Texas, the Smiths and the Joneses, the Johnsons and the Jacksons, the Wilsons and the Williamses, the Harries and the Harrisons, the Carters and the Carpenters, the Millers and the Minors, the Cooks and the Hickers, the Browns and the Greens, the Whites and the Blacks, and countless others bearing good old American names, and their descendants have populated Texas and made her the greatest state in the Union. The 1870's and the 1880's constitute one of the most interesting and important eras in the history of our Southland and of the whole country. And that is all until next week.

in the Union. The 1870's and the

Mrs. Belle Matthews, formerly of Grassland, writes from Ontario, Oregon, that she greatly enjoys getting the news from Lynn county through the Come paper. "We have had rain for a month," she writes, "and today (Dec. 28) it is snowing, but so cold weather to speak of so far."

WELLS H. D. CLUB NEWS
 Mrs. T. B. Bacon was hostess to the Wells Home Demonstration Club January 2. Three regular members and the agent, Miss Hard, were present. Mrs. W. F. McLaurin was enrolled as a new member. Miss Hard's program was on "Purposes and Characteristics of Comfortable Living Rooms." Using colored slides to illustrate her talk, the members greatly enjoyed the program. She stressed the importance of considering each member of the family when building, planning and furnishing the living room. The next regular meeting will be January 16 in the home of Mrs. W. F. McLaurin. —Reporter.

A well located electric light in the barnyard will make night trips to and from the barn and other outbuildings safer.

The trouble with most writers is that they have succumbed to the theory that an interesting story is more important than the truth.

"Through blizzard after blizzard my car performed better!"

"I was one of those selected to test new Conoco Super Motor Oil in my own car before it was put on the market. Through blizzard after blizzard, I travelled in Northern Colorado and Wyoming.

"BUT THOSE WERE THE TWO BEST WINTERS I EVER HAD ON THE ROAD! New Conoco Super improved the operation of my car. And at the end of the test, with proper drains and regular care, gasoline mileage was virtually as good as at the beginning."

After a total of 386,422 miles, logged by Mr. Hubbard and other winter test drivers, Conoco engineers found no wear of any consequence! Analysis of crankcase drains showed that this great new oil actually stopped the dangerous accumulation of free water and acids, chief causes of winter wear. This test proved that new Conoco Super Motor Oil, with ON-PLATING, fights off rust, corrosion and sludge. So, change to winter-grade Conoco Super Motor Oil.

NEW 1951 Chevrolet

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR

It has that longer, lower, wider big-car look!

- NEW! AMERICAN BEAUTY DESIGN**—Brilliant new styling... featuring new grille, fender moldings and rear-end design... giving Chevrolet that longer, lower, wider big-car look.
- NEW! AMERICA-PREFERRED BODIES BY FISHER**—With strikingly beautiful lines, contours and colors... plus extra sturdy Fisher Unisteel construction, and Curved Windshield with Panoramic Visibility.
- NEW! MODERN-MODE INTERIORS**—With upholstery and appointments of outstanding quality... and with extra generous seating room for driver and all passengers on big, deep, "Five-Foot Seats."
- NEW! SAFETY-SIGHT INSTRUMENT PANEL**—Safer, more efficient with overhanging upper crown to eliminate reflections in windshield... and with plain, easy-to-read instruments in two large clusters.
- NEW! MORE POWERFUL JUMBO-DRUM BRAKES** (with Dabi-Life rivetless brake linings)—Largest brakes in the entire low-price field... giving maximum stopping-power with up to 25% less driver effort—and longer brake life.
- NEW! IMPROVED CENTER-POINT STEERING** (and Center-Point Design)—Making steering extra easy, just as Chevrolet's famous Knee-Action Ride is comfortable beyond comparison in its price range.

Here's America's largest and finest low-priced car—the newest of all new automobiles—as trustworthy as it is thrifty to buy, operate and maintain. New with that longer, lower, wider big-car look! New in its strikingly smarter Fisher Body styling and beautifully tailored Modern-Mode interiors! New in safety, new in steering ease, new in feature after featured! Moreover, it's thoroughly proved in all things, from the finer no-shift driving of its Powerglide Automatic Transmission,* or the finer standard driving of its Synchro-Mesh Transmission to the fleet, frugal performance of its Valve-in-Head engine.

PLUS TIME-PROVED POWER Glide AUTOMATIC TRANSMISSION

—proved by more than a billion miles of performance in the hands of hundreds of thousands of owners. *Combination of Powerglide Automatic Transmission and 105-h.p. Engine optional on De Luxe models at extra cost.

WEAVERS CELEBRATE 50TH ANNIVERSARY

Mr. and Mrs. Richard D. Weaver of Levelland, formerly of the Morgan community in northeast Lynn county, and the parents of A. C. Weaver of Tahoka, celebrated their Golden Wedding Anniversary at their home in Levelland last Sunday.

The Weavers were married January 3, 1901, in Comanche county, from which place they

moved to Eastland where they lived 24 years. They were residents of Lynn county three years, and then moved on to Hookley county, where they have lived 24 years. They have lived on the farm most of their lives; but retired about six years ago and moved into Levelland. They are members of the Methodist Church.

W. S. Anglin of Lubbock and Mrs. Elsie Hey of Littlefield, who

were present at the wedding, were also present for the anniversary observance.

The Weavers have three daughters and one son: Mrs. J. B. Reese of Lubbock, Mr. Clyde Craig and Mrs. O. D. Spear of Levelland, and A. C. Weaver of Tahoka. They also have eight grandchildren and one great-grandson.

Their anniversary celebration was delayed until Sunday in order that their children and grandchildren might be present.

BESSIE BRASHEAR CLASS HOLD SOCIAL MEETING

The Bessie Brashear Class of the First Methodist Church met Tuesday afternoon at 3:00 o'clock in their monthly social and business meeting with sixteen members and one visitor present.

A devotional brought by Mrs. R. W. Fenton, Sr., preceded the business session.

A good report was made by the Secretary-Treasurer, Mrs. Roy Poff.

Refreshments of cookies and coffee were served.—Reporter.

CARD OF THANKS

We would like to take this opportunity of thanking you for the kindness shown our wife and mother during her long illness and on her death. The kindnesses have been too numerous to enumerate. Flowers came all during her illness, and many are those folks we did not have the opportunity to thank. We also thank you for the many prayers offered in her behalf; also, we appreciate your visits with her while ill. Again we say, "Thank you very much."—Coy and Phyllis Ann Fielder.

CARD OF THANKS

We wish to thank each and everyone of our friends for all the help, cards, and flowers we have received following the accident which hospitalized Mildred Peltworth. We also extend our thanks to the doctor and nurses of the Mercy Hospital in Slaton. Sincerely,—The H. A. Roberts family.

Mr. Bob Callahan, Minister of Music, and Mr. A. L. Smith, Superintendent of the Sunday School, both of the First Baptist Church, left Monday morning to attend the Evangelistic Conference in Dallas. They will return from the Conference on Wednesday.

Some of the enemies of communism are doing a lot to divide the American people. The effort to produce uniformity, if successful, means the end of human progress.

Lynn County PMA Newsletter

Cotton Crop Insurance Available Until January 31, 1951

Farmers of this county will have until January 31, 1951 to decide whether or not they want to take advantage of the Federal Crop Insurance Program on cotton in 1951.

This insurance is a monetary coverage insurance and guarantees you that you will get back a specified return from your crop which about equals your investment in the crop. Your past yield per acre has nothing to do with your premium or indemnity since the premium rate per acre is the same on all farms with the exception of different premium rates and coverages on dry land and irrigated land.

This insurance is an all-risk insurance and protects you from unavoidable losses due to hail, insect infestation, drought, flood, freeze, excessive rain, tornado, fire, wind, frost, etc. This insurance will attach when the cotton is planted and will cease only when the cotton is removed from the field.

This insurance program is available to landlords, tenants, and sharecroppers. Each person sharing in the crop may take out the insurance and insure only his share of the crop. The landlord may take out the insurance without the tenant insuring his crop or vice versa.

Since the premiums collected under this insurance program are used only to pay losses and are not used for administrative expenses, you can readily see that this insurance is much cheaper than it would ordinarily be.

If you are interested in this program, we urge you to contact the local PMA office as soon as possible and, in no event, not later than January 31, 1951.

Applications For Payment Being Sent In

At the date of this newsletter, approximately 300 applications for payment under the 1950 Agricultural Conservation Program have been transmitted to the State Office for payment. These applications are being prepared as fast as possible and if you have qualified for a payment under this program and have not signed your application, we will send you a card as soon as the application is typed and is ready for your signature. We will appreciate your cooperation in writing until you get the card notifying you that your application is ready for you to sign.

Contour Listing Practice For 1951 Explained

If you intend to qualify for the practice of contour listing cropland at least 30 days prior to seeding, you must secure a written prior approval from the PMA.

UNITED PENTECOSTAL CHURCH

 The Church with a cordial invitation and a friendly greeting.

office before you start your listing.

The specifications for the contour listing practice are: Contour listing must be done following level guide lines not to exceed twice the terrace interval or follow terraces. Furrows must be at least four inches deep, and on slopes averaging greater than three per cent. Contour listing must be in combination with terraces.

If you had a written prior approval to carry out the practice of leaving stubble under the 1950 program and have not reported this practice being carried out to the County Office, you must do this by not later than January 15, 1951. If you have not reported this practice by that date, we will assume that you did not comply with this practice and your prior approval will be cancelled.

Do You Intend to Terrace in 1951
 If you intend to terrace your farm under the Agricultural Conservation Program in Lynn County, you should follow the steps listed below:

1. Secure some capable person or persons to run your terrace lines.
2. After the lines are run, come to the PMA office and get a prior approval to carry out the practice. This prior approval is a written form and must be obtained before the practice is begun.

3. After you have the written prior approval, you are written to start work on your terraces. You can do the work yourself or secure a contractor to do the work. Several contractors are terracing in this county and we will be glad to furnish you their names.

For further information on this practice as well as other practices, call at the local PMA office in Tahoka.

—Clifton M. Walker, Adm. Officer, Lynn County PMA, Tahoka, Texas.

MRS. SMITH HOSTESS TO REDWINE CLUB

The Redwine Home Demonstration Club met with Mrs. Tom Smith on Thursday, January 4. Miss Hard brought interesting information on living rooms. She said, "What is a living room—is it a room 'dressed up' shut off, and used on special occasions? No, it is a room that suits the needs of every member of the family."

She also showed color slides of

Built in Texas . . . and helping build Texas

Ford is the only Automobile Manufacturer Building Cars and Trucks in Texas

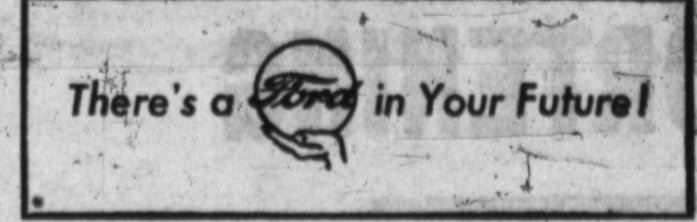

ALL THE FORDS made are not built in Detroit. There are plenty of them built right here in Texas—last year over 128 million dollars worth of cars, trucks, parts and products were made at Ford's Dallas Assembly Plant. What's more, 1,722 Texans put them together or followed through with their consignment to dealers in the Dallas, Houston, Oklahoma City and New Orleans Sales Districts.

The folks who work in Ford's Dallas Assembly Plant and District Sales Offices earn over \$7,000,000 every year. They spend it mostly in Texas. Texas benefits from Ford in other ways, too. For example: during 1950 Ford bought over \$1,000,000's worth

of material and supplies from Texas merchants and manufacturers and paid over \$7,500,000 for incoming and outgoing transportation. Then, too, there is a total of over \$148,000 paid by Ford in local and State taxes.

Yes, Texas is building a lot of cars and trucks for Ford . . . and in the process Ford is helping to build Texas, too!

Shelter Protects Hogs From Flu

COLLEGE STATION, January 11. —Swine influenza and human influenza are closely related. In fact, the virus of human influenza have been known to produce flu in swine. Therefore, the same basic principles apply for the control of flu in swine as in human beings.

If good shelters are not provided, hogs are in great danger of contracting flu when cold damp nights follow warm days, says Dr. W. C. Banks, veterinarian for the Texas A. & M. Extension Service. He says that hogs, like human beings, need a warm, dry place in which to sleep.

At this time of the year, he recommends that all hogs be inspected daily for symptoms of flu. Once swine influenza appears, it spreads rapidly through the en-

"I do not prize the word 'Cheap.' It is not a word of hope; it is not a word of comfort; it is not a word of inspiration; it is a badge of poverty; it is a sign of distress. Cheap merchandise means cheap men and cheap men mean a cheap country."
—President McKinley.

tire herd. Infested pigs become listless and go off feed. Their breathing is labored and jerky and they cough and usually recover rapidly after five or six days of sickness.

Although swine flu is seldom fatal, it causes a big loss in flesh and slows down the rate of gain, says Dr. Banks. He advises putting infected hogs on a laxative diet—one that contains some bran or some oil meal.

Some of the new drugs are effective in helping to control flu in swine. However, Dr. Banks warns that they should not be expected to take the place of a warm, dry hog house.

Win Watch Awards for 4-H Work

HANDSOME gold-filled watches were awarded club members for achieving highest rating in Texas for work in the 1950 national 4-H dairy achievement, frozen foods and leadership programs. A review of their records indicates they were active all-round 4-H'ers.

T. G. Herring, Jr., Ruby Schmidt, Howard Altenhof, Carolyn Curry held several offices and is the current president. With money earned from 4-H projects she and her brother purchased a home freezer. At that time they had 12 turkeys and six geese ready for market. Since the market was low, Ruby, dressed and froze them. The freezer now is always filled with pork, beef, poultry, fresh vegetables and fruits which makes good eating all year round.

Outstanding leadership in club and community brought state honors to Howard Altenhof, 21, of New Braunfels, and Carolyn Curry, 15, of Sweetwater. A 4-H'er for 11 years, Howard has been Leader or Junior Leader of his local club during the past six year period. He was elected recently to head the County Fair program, and is already chairman of the County 4-H Club Council and Vice-president of the District 4-H Council. Howard served on a discussion panel before some 400 County Fair and Home Agents at the A. & M. College recently, again proving his ability to lead in thought and discussion.

Miss Curry has been a club member five years. With both her parents 4-H leaders, Carol can look back on a record of outstanding leadership herself. She has held all the offices of her 4-H Club at various times, and is now vice-chairman of her County 4-H Committee. Her leadership qualities were recognized when she was sent to the State 4-H Leadership Laboratory during 1950. A handsome gold watch appropriately inscribed was presented to each by Edward Foss Wilson, president of Wilson and Co., Chicago.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

DRAW H. D. CLUB MEETS WITH MRS. HENSLEY

The Draw Home Demonstration Club met in the home of Mrs. A. R. Hensley.

Of the twenty members, the following were present: Mmes. Martin McKay, E. C. Busby, J. W. Hawkins, Jo Hensley, L. B. Jones, Virginia Hensley, W. T. Lutzell, and Miss Emily Waller.

Miss Graham Hard gave a very interesting talk on living rooms and arrangements for same. She showed many interesting slides (with a projector) of living rooms, taken in the various homes that were visited last year.

The members went home wondering if this wasn't the year they could do a little more about their living rooms. —Reporter.

Mrs. Berta Jennings and Mr. and Mrs. Abb Crompton and family of Waxahatchie were here last week end visiting the A. D. Riddle family.

FOR COLD COMBAT

This serviceman's cotton uniform designed for cold climates makes use of the layer principle of warmth without excessive weight. Instead of a bulky, heavy uniform for cold weather, this naval seaman is outfitted with many light layers of clothing to trap insulating air. One advantage of this type uniform is that men doing strenuous work can shed layers as bodily heat increases while men at stationary posts can add articles of clothing for warmth.

Farmer Worker Tax Information

B.H. Griffin, County Agent, Bureau of Internal Revenue, United States Treasury Department has issued a circular containing instructions for the reporting and payment of employer and employee taxes on the wages of farm employees, including workers who perform service of a household nature in or about the private home of the employer on a farm operated for profit. You may secure a copy of this circular by writing to the Collector of Internal Revenue, Dallas, Texas.

During the last week several farmers have asked if the calendar quarter from October 1—December 31, 1950 can be used as a qualifying quarter for regular farm workers. Yes, if you had an employee who worked from October 1 1950 to December 31, 1950 and continues to work during January, February, and March or works 60 days and earns as much as \$50.00, you must make a tax payment by April 30, 1951.

CROP — The Christian Rural Overseas Program—brings hope and faith through Christian giving to thousands who are in dire need of church sponsored relief overseas. This is the belief and conviction of Willard L. Russell, Houston attorney and rice grower, who with Mrs. Russell, has given three carloads of rice through the Russell Foundation to CROP for church relief abroad during the last three years. Near Christmas time this year as he gave the carload of rice he picked up a CROP folder to acquaint himself a new with CROP's role of advancing the Christian cause throughout the world by the distribution of life sustaining commodities by CROP's parent agencies which are Catholic Rural Life; Church World Service; and Lutheran World Relief.

CARD OF THANKS

I wish to take this means to express my sincere thanks to everyone who was so nice and thoughtful during my stay in the hospital. The visits, cards, and flowers—helped more than you will ever know. My very special thanks to Dr. Prohl, Dr. Thomas and the entire staff of nurses for their kind and considerate attention.—Mrs. C. L. Walker.

Mrs. M. C. Thomas writes that she and Mr. Thomas are spending a few weeks in the lower Rio Grande Valley. They accompanied their son-in-law and daughter, Dan and Jo Ann Martin, to College Station, where she has enrolled for the second semester in Texas A. & M. College, and went from there to the Valley.

A Preacher's Point of View—

By Lee Ramsour

Tomorrow May Be Too Late
If I ever saw a place where the people ought to be thankful, this is the place. Do you remember the months past? At planting time, too much rain, wind and cutting sand, hail and replanting. Then in the summer, not enough rain at times, too much rain at other times, weevils, worms, and fleas; these with the mournful predictions of short crops and a disappointing year.

Do you remember that these distressing walls could have come true, but they did not. Instead, we have good crops, good prices, and much wonderful weather for the harvest.

Now, who is responsible for this? Has not God been wonderfully good?

Surely a deep sense of gratitude should cause us all to be faithful and regular in our worship of Him and we should return to Him the tithe of our increase. "The Tithes is Holy Unto the Lord."

You intend to do this some day. Tomorrow may be too late.

Mrs. C. A. Clem was released Tuesday from a Lamesa hospital, where she had been undergoing treatment; since Thursday of last week.

Mr. and Mrs. J. W. Warrick have gone to San Benito, in the Lower Rio Grande Valley, to spend a few weeks in that milder climate.

Composure is that state of being wherein you don't bother to answer the telephone bell.

Any community can progress if it possesses some unselfish leaders and some unselfish people.

The New Plymouth Cranbrook Four-Door Sedan

Featuring improvements which produce unprecedented roadability and riding qualities, the beautifully redesigned 1951 line of Plymouth cars have numerous mechanical improvements and have retained their traditional roominess. Shown above is Plymouth's Four-door Cranbrook sedan.

New Plymouth Combines Beauty and Riding Ease

Detroit, Mich.—Spectacular new qualities which produce driving and riding ease heretofore unknown in automobiles of any price feature the new line of Plymouth cars. Combining smart new body lines with unprecedented interior luxury, the new Plymouth will go on display in dealer showrooms throughout the United States Saturday, Jan. 13.

Designers have given the Plymouth a striking new silhouette, and refinements in the interior are innovations in the lowest price field. The styling improvements retain the traditional roominess of the cars.

Easier to drive and more comfortable, the new cars have greater beauty, more safety features and broader ranges of vision than ever before.

Engineers say the new "Safety-Flow ride" takes the bounce and wallop out of bumps. A new application of hydraulic flow control in the shock absorbers provides a more gradual change of resistance during spring deflections and thus a softer ride when driving on average roads. It also exerts extra resistance on rough roads to a degree where driver and passengers are almost completely freed of the discomfort of being jolted around.

The "Safety-Flow ride" is one of the greatest contributions to driving comfort and safety in recent years, according to D. S. Eddins, president of Plymouth Motor Corp.

"The new Plymouth gives you roadability never before offered in any car," he said. "There is no necessity for steering wheel fatigue to control the car on difficult roads. The driver is no longer required to focus full attention on the condition of the road. He may be more watchful of oncoming traffic, pedestrians, curves, crossroads and other potential hazards."

Eddins called the new development a major step toward restful motoring. More confidence is gained by driving or riding in a new Plymouth with the "Safety-Flow ride," and as a result there is less driver and passenger fatigue, he said.

The lines of the new Plymouth

have been beautified. An appearance of massiveness combined with smart streamlining is induced by a new grille, beautifully redesigned front fenders and hood, a wider windshield and a larger rear window. Narrower windshield pillars together with the wider windshield provide additional lateral vision. To utilize fully the greater vision through the new rear window, the rear view mirror is two inches wider. The chair-height front seat and the new design of hood and front fenders permit the driver to see the road near the car.

There are numerous mechanical improvements. Windshield wipers are electrically operated, and are of the single-speed, self-parking type.

A unique pressure-vent radiator cap, which has been added as standard equipment, permits the cooling system to be operated at atmospheric pressure during normal driving conditions. Under high-load, high-temperature driving conditions, the new radiator cap provides a pressurized cooling system to allow high coolant temperature without boiling or loss of anti-freeze.

All Plymouth engines now have a built-in by-pass cooling system permitting water circulation and resulting in more uniform temperature throughout the engine during the warm-up period. The new system consists of a passage in the cylinder head and block providing direct access to the water pump, and a choke-type thermostat to regulate coolant flow to the radiator.

The generator output has been raised to 45 amperes, an increase of five amperes, providing greater electrical capacity for the operation of car accessories. The new hand brake "H" control handle is more accessible, and, as on former models, it operates independently of the foot brake as an added safety measure.

In the convertible club coupe, the spare tire is mounted vertically as in other coupe and sedan models, rather than on the trunk floor.

The new Plymouth interiors offer the finest selection of upholstery and trim and the most harmonious color

schemes in the company's history. The colors which have been chosen provide throughout the interior a pleasing combination of shades in harmony with the car's exterior color. Designers say the interior is an unparalleled achievement in combining practicality with luxury. Always noted for spaciousness, Plymouth now has even more head room and more room to stretch out in comfort in the rear seat.

To go with the high quality of the upholstery, there is a handsome new instrument panel which features a more convenient grouping of controls, newly shaped instruments and improved coloring and lettering for easier checking while driving.

The wide, deep chair-height seats, the ease of entrance and exit, and all the other traditional Plymouth features for driver and passenger comfort have been retained.

There are nine body-types in the new Plymouth line: the Concord series includes a two-door sedan and a three-passenger coupe as well as the two all-metal utility models, the Suburban and the Savoy; the Cambridge series has a four-door sedan and a club coupe; and the Cranbrook series includes a four-door sedan, a club coupe, and a convertible club coupe.

The Suburban and the Savoy, with their smart, distinctive lines are all-purpose vehicles. They have the beauty and comfort of a sedan, and by simply lowering the rear seat flush with the floor they become sturdy cargo carriers for farmers, salesmen, sportsmen, tourists or others who require large cargo capacity. The Savoy, called the "country club companion" of the Suburban, provides a greater variety of luxurious interior appointments and more exterior refinements to enhance the car's striking appearance.

Among the "high-priced car" features which are retained are six-cylinder, 87-horsepower engine with a 7 to 1 compression ratio, the combination ignition and starter switch, automatic electric choke, super-cushion tires, safe-guard hydraulic brakes, and safety-rim wheels.
