Tahoka, Lynn County, Texas, Friday April 6, 1951

Number 27

School Trustee Elections Are Set For Saturday

School trustee elections will be held in all Lynn county school districts Saturday of this week with two trustees to be elected in each of six districts.

Also, two members of the county board are to be elected. The name of James K. Applewhite had been filed for county trustee-at-large, and the name of H. B. Crosby has been filed to represent precinct 1 on the county board.

District trustee names filed with two to be elected in each case, are as follows:

Tahoka: John F. Thomas, W. T. Kidwell, E. W. Copelin, and Cecil Hammonds.

New Home: Adrain Evans, Howard Cowart, R. V. Phifer, and C. B. Nowlin.

Wilson: Arthur Hagens, Guy Smith, Carl Spears, Herman Schneider, and Edmund Maeker.

Newmoore: Homer Wilson, H. M. Hodges, Woodrow Rogers, Olan Blair, Jack Thompson, and Buddy Webb.

Grassland: C. O. McCloskey, R. M. Thomas, LeRoy Davis, L. B. Burk, W. H. Morrison, V. L. Melton, Charlie Ellis, and Ted Dockery.

O'Donnell: Delbert Mires and Dallas Vaughn, unopposed.

Schools Qualify For Bus Aid

Lynn county schools have qualified for \$45,835.50 from the State of Texas for operation of 28 school-owned and one private-owned buses during the current 1950-51 school session, according to Mrs. Leocore M. Tunnell, county superintendent. A total of 1956 students have been transported to and from school during this year.

Grassland operates one bus, and receives \$1,711.50 for transportation aid. It transports 54 students to the Grassland school, while two go to Post and 23 to Tahoka.

New Home receives \$7,262.50 for transporting in our buses a total of 296 students to New Home school.

Newmoore operates one bus, transports 39 students to the home school and 12 students to Dawson Rural High School in Dawson county, or which it receives a total of \$1,291.50.

O'Donnell has 544 students seven school-owned buses, for which it receives \$12,309.50 in aid, and seven Colored students in a privately-owned bus for which it receives \$108.50 in aid.

Tahoka transports 420 students in eight buses and is qualifying for \$11,098.50 in aid.

Wilson operates seven buses, hauling 557 students to its own school and two are transferred to Southland, for which it receives a total of \$12,053.50.

Research workers of the Texas Agricultural Experiment Station have found that practical control of many poisonous range plants can be obtained by using herbicidal sprays such as 2,4-D and 2,4,5-T.

Opening For Vets In GI Training

Any and all veterans who wish to attend the Lynn County Veterans School under the GI bill, Public Law No. 348, must enroll prior to July 25, according to Charles Stewart of the local school.

If enough veterans are interested, a fourth year class will be added to the school.

At the present time, there are 143 veterans attending classes in the schools at Tahoka, O'Donnell, Midway, New Home, and Wilson.

Two Critically Injured In Wreck

Two Tahoka young men were critically injured and a young lady less seriously injured at 1:45 a. m. Sunday when their car crashed into another machine parked on the highway seven miles north of Tahoka.

James Smith, 25, son of Mr. and Mrs. Guy Smith of New Lynn, received a broken left leg and possibly serious chest injuries. After receiving treatment at Tahoka Hospital, he was taken to a specialist at Baylor Hospital, Dallas, Monday morning.

R. A. McClinton, 28, son of Mr. and Mrs. R. A. McClinton of Levelland, after receiving treatment here he is reported to be improving, with head injuries and possible internal injuries.

Miss Jimmie Ruth Gayden, 18, daughter of Mr. and Mrs. James Gayden of Budge, N. M., was released from Tahoka Hospital on Wednesday, with a fractured right leg and bruises. She is reported to be improving nicely at the home of her parents.

Two Lubbock men, occupants of the other car, were uninjured. (Cont'd. On Back Page)

Junior Baseball League Planned

Plans are being made for a four team junior league in Lynn county this summer, according to Gleno Wells, local High School student. Teams expected to play include North Tahoka, South Tahoka, New Home, and Wilson.

Last Sunday afternoon, South Side defeated North Side 5 to 3 in a practice game. Ray Madrid was the winning pitcher, giving up four hits and three runs. Clayton Carter, Ronny Gurley, and Richard Havens pitched for the North, giving up a total of five hits and five runs.

Next Sunday at 2 p. m., South Side will play a practice game at the Jaycee park with the New Home Juniors.

Biggerstaffs Adopt Second Baby Girl

Mr. and Mrs. J. A. Biggerstaff have recently adopted their second baby girl through a Fort Worth "home."

The little lady, named Robbie Nell, was born March 13, and weighed 6 pounds, nine ounces at birth.

A few years ago, they adopted their first baby, Anna Lee, who is now four years of age.

CORDIE MAE FARR

Students in Wayland College at Plainview have elected as campus favorite Cordie Mae Farr of Clayton, N. M.

Chosen with her as favorite is Jake McFadden of Olton, Okla.

Cordie Mae, a senior at Wayland is the daughter of Mrs. H. Farr of Clayton, N. M., formerly of Tahoka. She is a graduate of Lubbock High School.

Last semester she was vice-president of the Wayland Baptist Student Union Council, and is now a student teacher of the second grad at Plainview Central Grade School.

Record Set In Car Registration

A new all-time record on motor vehicle registrations for Lynn county in 1951 is almost a certainty, according to J. E. (Red) Brown, county tax assessor and collector.

Up until April 1, license tags had been issued for a total of 4,785 vehicles, bringing in a total of \$76,240.00.

Last year, on the same date, 4,164 licenses had been issued for \$60,277.00.

Indications are the Lynn county registrations will bring in \$100,000.00 or more this year. Even since April 1, additional registrations have brought the total to approximately \$85,000.00.

The first \$50,000.00 from registrations all goes to the county for road maintenance and improvement. Of the second \$50,000.00 the county gets half and the state half. Last year, the county received a total of \$67,000. Up to Thursday of this week, Lynn county was already assured of getting \$67,500 this year for its part.

Wilson Juniors Presenting Play

The Wilson High School Junior class will present a three-act comedy entitled, "Look Me In the Eye," Tuesday, April 10.

An all-star cast includes, Mona Ruth Campbell, John Mark Stoker, Shirley Bartley, Joe Stone, Naomi Johnson, Harold Preston, Glenda Brewer, George Lawbright, Doris Rine, Wylie Lambright, Wilma Rogers, and Freeman Smalley.

A musical will be presented from 7:30 until 8:00 p. m. Curtain time is at 8:00 o'clock. Admission prices will be 50 cents or adults and 25 cents or children.

This comedy is well worth your time. Don't miss it!

O'Donnell Gets Oil Play

New Mayor And Three Aldermen Elected Here

A new mayor and three new aldermen were elected by citizens of Tahoka Tuesday.

James K. (Jimmy) Applewhite is the new mayor. He received 149 of the 150 votes cast.

E. R. Edwards, R. H. (Hick) Gibson, and Herman Heck were elected to the City Council. They will succeed Bill Strange, Jr., who was called for Army service a few months ago; B. L. Parker, who resigned as a council member; and J. A. Biggerstaff, who did not choose to run again.

Holdover members of the council are H. G. Hodges and Joe Bob Billman, and Mrs. Nellie Jackson is a holdover as city secretary.

Applewhite succeeds Dr. K. R. Durham as mayor. Dr. Durham has served the city first as a councilman and more recently as a mayor for a total of 14 years, and had requested that his name not be filed for re-election.

Thus, there has been a complete turn-over in City officials in Tahoka within the past year. The present City secretary and two hold-over Aldermen were named last year, and, in addition, Russell McGee was employed as auditor a few months ago.

The vote for Councilmen Tuesday was as follows: Edwards 144, Gibson 140, Heck 119, and T. T. Chaney 43. V. F. Jones received one write-in vote or mayor.

Tahoka Publicity At San Antonio

Lynn county was featured in the advertisement of the First National Bank of San Antonio in Monday's Express, daily newspaper of that city.

A clipping of the advertisement was sent to A. M. (Maurence) Bray, local Chevrolet dealer, by his mother.

A part of a good-will "Know Your Texas" series, the bank's advertisement carries a map of Lynn county and a picture of some planes and unidentified fliers at the old airport south of town.

The advertisement copy says, in part:

"Lynn county in northwest Texas presents a variety of interest from the remains of ancient cultures in the Tahoka Lake region to the modernity of a spring field day for the 'Flying Farmers' club. It is the third ranking county in grain sorghum, and considerable cotton is raised as well as fruit and truck. A good income is derived from livestock and a large egg production. From Lynn, too, come sodium sulphate and magnesium sulphate (Epsom Salts) and there are known deposits of potash and silica. Organized in 1903, Lynn was named for W. Lynn, Alamo hero."

Congratulations:

Mr. and Mrs. E. W. Copelin of Tahoka on the birth of a son weighing 8 pounds 9 ounces at 12:34 p. m. Saturday in a Lubbock hospital. The father is a farmer.

Mr. and Mrs. G. W. Grogan of Route 1 on the birth of a daughter weighing 9 pounds 1 ounce at 4:57 a. m. Monday in Tahoka Hospital. Name, Loris Kay.

Mr. and Mrs. R. B. Wilke of New Lynn on the birth of a daughter weighing 6 pounds 15 ounces on Tuesday morning in Mercy Hospital in Slaton. The little lady has been named Lilly Pauline.

John G. White, son of Mr. and Mrs. Joe White of Route 4, left Tuesday of last week for Amarillo, where he took his physical for entrance in the Army Air Force.

County's 1950 Crop Ranks Fourth In State

Lynn county's 1950 cotton crop was the fourth largest in Texas.

Up until March 1, 1951, a total of 98,989 bales from the 1950 crop had been ginned, according to reports of J. C. Womack, special agent for the Bureau of the Census.

Lubbock county led the state with 148,564 bales in 1950, Cameron county was second with 137,599, and Hidalgo finished third with 104,839 bales.

Next counties in rank following fourth place Lynn were: Dawson 87,551, El Paso 84,126, Hookley 83,324, Willacy 82,211, Ellis 67,938.

1486 Take T-B Tests In Tahoka

A total of 1486 people took advantage of the State Health Department chest X-Ray service in Tahoka: Saturday, Monday, and Tuesday, according to Mrs. John Wiet, chairman of the Women's committee.

The X-ray unit was all day Thursday, but no figures were available to The News when this paper went to press Thursday afternoon.

Men in charge of the survey here were well pleased with the response, and it is likely that the X-ray unit will be brought back here next year for a week's stay.

The survey is invaluable in detecting tuberculosis, and sometimes cancer of the lung, in sufficient time to effect a cure.

Judge Walter Mathis was county chairman of the local survey arrangements, and A. M. Bray was Tahoka chairman. Many others assisted in the arrangements and in publicizing the survey.

Baptist Revival Closes Sunday

Revival services, which have been in progress at the First Baptist Church since Sunday, March 25, will come to a close next Sunday night.

Rev. Lee Ramsour, the pastor, has been doing the preaching and Weldon Lewis of Borger has been leading the song services. Attendance has been comparatively good and the results of the meeting have been gratifying so far. Ten converts were baptized last Sunday night and already several others have been received this week for baptism.

With Mrs. W. P. Hutholish at the organ, Mrs. Lee Ramsour at the piano and an orchestra of young people performing also at the night services, the music has been fine. The choir work was never better. There were 46 persons in the choir Wednesday night.

Great services are expected at both the morning and the evening hours Sunday. A cordial invitation is extended to all.

Report of Lonnie Williams' 'Death' Was 'Slightly Exaggerated,' He Says

The recent "death" of Lonnie Williams was slightly exaggerated.

Lonnie admits that he looks nearly dead and feels a little weak from the effects of the rumor. But he doesn't intend to throw in the sponge just because of a rumor.

A few days ago, the report got abroad in Tahoka and O'Donnell that the popular Lynn county farmer of the Joe Bailey community had died.

The first that Lonnie knew of his "death" was when he went to O'Donnell on a little business mission, and an acquaintance friend accosted him with the statement, "Why, Lonnie, I heard you were dead!" Naturally, he denied the report and had the living evidence as proof.

Haskell 62,003, Hale 56,502, Williamson 56,389, Lamb 55,850, Howard 50,820, and Crosby 48,897.

Other South Plains counties include: Bailey 5,611, Briscoe 2,951, Cochran 14,958, Floyd 23,722, Gaines 9,909, and Garza 13,862.

For 25 years, Lynn county almost habitually has ranked in the high ten Texas cotton counties, has ranked second several times.

Lynn produced its record crop in 1949, 186,696 bales. The previous record had been set in 1937, when 159,110 bales were ginned.

Tahoka Places In 4-A Meet

Tahoka school students placed in several events in the District 4-A Interscholastic League meet held at Levelland last Friday and Saturday.

Jo Anne Bennett took top honors in the Ready Writing contest Friday.

In Number Sense, Wendell Moore took first place and John Shepherd took third.

The Tahoka typing team, composed of Mary Louise Fenton, Wendell Moore, and Frances Martin, took second place, and in individual competition, Miss Fenton took third and qualified for competition in the regional meet.

In the track and field meet, held Saturday, Charles Hyles was the only Tahoka boy to score. He placed third in the 220-yard dash, tied for fourth in the pole vault, and took fourth in the broad jump.

Jerry Mack Stevens was second in the district in tennis singles, losing in the finals to Cash of Post.

Patsy Locke and Sue Findt, girls' doubles team, also advanced to the finals before losing to Littlefield girls.

The tennis finals were played on Monday of this week at Levelland.

All entrants did exceptionally well in the meet, considering the fact that track and field has not been stressed here. Tennis players had worked out only a few days, and these workouts were on poor dirt courts, whereas other schools of the district have had the advantage of concrete courts.

Levelland won the track meet, Muleshoe was second, Morton third, Littlefield fourth, Brownfield fifth, Tahoka, sixth, and Slaton seventh.

Mr. and Mrs. J. M. Forbes of Muleshoe were brief visitors in Tahoka on Thursday.

New Wildcats Are Started In Lynn County

While work started this week on two new deep Lynn county wildcat oil tests, development of two new pools in Dawson county but in the O'Donnell trade territory appeared bright.

Newest discovery is the deep-zone oil pool, four miles south of O'Donnell the Athareda No. 1 Adcock on section 106, block 34, T-7-N D&SE survey. The well flowed 141 barrels of oil in four hours Wednesday on a drillstem test in the Silurio-Devonian at 10,584-647 feet. Gravity was 41.2.

Also in Dawson county, about four miles southwest of O'Donnell, two offsets have been staked to the Standard No. 1 M. V. A. Smith Sprayberry discovery. The Standard's No. 2 Smith, east offset to the discovery will be on section 34, block C41, PSL survey. Chicago Corp. of Fort Worth has announced a north offset, the No. 1 A. R. McElreath on section 35, HE&WT survey.

Magnolia's No. 1 Pearl Callaway, two and a half miles southwest of the Magnolia discovery in southeast Lynn county, southeast of Draw, in section 6, block 10, EL&RR survey, set casing at 6,070 feet to test the Sprayberry. After swabbing dry open hole at 6,150-85 feet, with no shows, the company was preparing to hydraulically fracture.

Drilling was started this week on the Hamble No. 1 Laura Thomas 11,500 foot wildcat west of Wells in Southeast Lynn, section 35, block H, EL&RR survey.

Drilling crews were in Tahoka this week looking for housing, preparatory to starting work on the Shamrock No. 1 Wm. D. Green wildcat two miles north of Wilson on league 1, Wilson county school land survey. Plans are for a 10,500 foot test.

West of Tahoka 14 miles, Standard Eryer was running an electrical log and preparing to plug back to test the San Andreas on its No. 1 Mrs. W. D. Nevels wildcat in section 4, block C-42 PSL survey. The hole was bottomed at 10,010 feet in a barren Pennsylvanian formation, and will be plugged back to 5,000 where the samples yielded some slight shows.

All entrants did exceptionally well in the meet, considering the fact that track and field has not been stressed here. Tennis players had worked out only a few days, and these workouts were on poor dirt courts, whereas other schools of the district have had the advantage of concrete courts.

Levelland won the track meet, Muleshoe was second, Morton third, Littlefield fourth, Brownfield fifth, Tahoka, sixth, and Slaton seventh.

Mr. and Mrs. J. M. Forbes of Muleshoe were brief visitors in Tahoka on Thursday.

Grassland Church Plans Revival!

Grassland Methodist Church will open a series of revival services on Friday night, April 13, according to Rev. J. E. Peters the pastor.

Rev. Horace Krebb of Whitharrel will be the guest speaker, however he will not be present until Sunday morning, April 15.

Rev. Peters issues a cordial welcome to all people who can be present to attend any and all of the services.

Bill Strange Motors Opening In Large New Building Saturday

Bill Strange Motors, Ford dealers, are holding open house in the large and beautiful new quarters all day Saturday. Six hundred Hawaiian orchids are being flown here for the occasion, and will be presented lady visitors as long as the flowers last. Twenty-five door prizes will also be presented guests.

The new building will be open to guests from 9 a. m. to 9 p. m. with the door prizes being presented at 7:30 p. m.

Located at 1229 Lockwood, three block east of the highway intersection in Tahoka, the new building and grounds is one of the nicest automobile sales and service lay-outs in this entire section.

The building itself is 90 by 120 feet in size, occupies lots 200 by 200 feet in size. Ample provision is made for customer's parking. A large used car lot adjoins the building on the east. At the rear of the building is a large enclosed parking lot. Both lots are graveled and fenced.

The building itself is substantial and beautiful and is especially designed to meet Mr. Strange's desires. It is built of brick, tile, steel, and concrete, with large plate-glass display windows across the front. Large, easily accessible entrances for cars and trucks are provided at both front and rear.

The showrooms, offices, and parts department occupy a space of 60 feet square, walls of which are in green tint, floors in maroon, and ceiling white. Fluorescent lights are used. Three offices are for sales, bookkeeping, and the management. A ladies' lounge, and other rest rooms are provided adjoining the display room.

Even the parts department has

(Cont'd. On Back Page)

New Home Civic Club Hears Talk

Fifty New Home men and a dozen visitors from the Tahoka Chamber of Commerce attended the monthly meeting held Monday night of the New Home Civic Club in the school cafeteria. A fried chicken dinner was served the group by the ladies of the community.

The Civic Club was organized about five months ago for the purpose of advancing community projects. Olan Rice is the president.

C. A. Gould, program chairman, introduced Charles Verner, president of the Tahoka Chamber of Commerce, who spoke briefly.

A recording of a talk made in Tahoka recently by Robert Stripling of Midland, formerly chief investigator for the House Un-

Mr. and Mrs. J. R. Strain of New Home spent last week end down at Colorado City visiting his brothers and their families and on Sunday they attended revival services at the First Methodist Church there, which are being conducted by Rev. H. C. Smith, a former popular pastor at Tahoka. Rev. Mr. Smith is now Superintendent of the Abilene district, and Mr. Strain declares that he is now an even better preacher than when he was pastor in Tahoka, which is saying a lot.

American Activities committee, was played as the principal part of the program by Bill Griffin. Following the recording, Truett Smith talked briefly.

Attending the meeting from Tahoka were: Messrs. and Meses, Alton Cain, Tom Gill, A. M. Bray, Truett Smith, O. C. Elliott, and Charles Verner, and Bill Griffin and Doug Finley.

Swine Program Proves Valuable

COLLEGE STATION, Apr. 5—As an example of the value of the Sears 4-H Swine Program, Tyler County Agent M. S. Hyde points out the record of a purebred Duroc gilt which James Robert Jordan of the Spurger community received in 1942.

This hog is still living and has farrowed one or two litters annually for the past eight years, raising an average of seven pigs per litter.

Hyde says, "This swine program has made it possible for many 4-H Club boys, as well as farmers, in the county to own good pigs. It is from this program that you will find a great deal of the progress in better hogs in Tyler County."

In its fourteenth year, the Sears 4-H Swine Program will operate in 167 counties in Texas during 1951, six more than last year. It is an educational program in swine production, sponsored by the Sears-Roebuck Foundation and conducted by the Texas Agricultural Extension Service.

One bear and eight gilts are distributed each year to deserving 4-H boys in each county participating in the program. Approximately 15,000 4-H Club members have received Sears gilts and bears, and many who have participated in the program are now mature men.

In May and June, 1949, 1,244 purebred gilts and 154 purebred bears were distributed to 1,380 Texas 4-H Club boys. By April 15, 1950, 68.5 percent, or 836, of the sows had arrowed 7,043 pigs, an average of 6.4 per litter.

Bear pigs distributed under the program are developed into breeding bears and used for public service after they are eight months old. Free breeding service is provided for all gilts in the program.

For the bear pigs distributed in the spring of 1949, the average income per bear from cash service fees in the first six months \$60.30.

Club boys who receive gilts agree to return a sow pig from the first litter, or to pay \$15.00, to the county fund for use in the program the following year.

The Sears Program has had a very definite effect upon the Texas swine industry, says E. M. Regenbrecht, extension swine husbandman of Texas A. & M. College. In addition to helping improve the quality of commercial hogs, the program has influenced farmers to adopt better methods of production such as improved swine pastures, use of self feeders and the feeding of balanced rations.

Mr. and Mrs. Rollin McCord left Tuesday from Lubbock by plane to Detroit, Michigan, where they were to visit the Chrysler-Plymouth plant and to accept delivery on some new cars.

Approximately 10 percent of the total acreage of cropland harvested in Texas in 1948 was irrigated, and crops harvested from this acreage accounted for nearly 30 percent of the total farm value of all principal crops produced.

Machine Picking Proves Success

COLLEGE STATION, Apr. 5—Cotton can be harvested efficiently with mechanical pickers and strippers—if proper methods of production and preparation for harvesting are used.

The results of mechanical cotton harvesting experiments conducted by the Texas Agriculture Experiment Station in 1948, 1949, and 1950 at Lubbock, Temple, Decton and College Station are given in Progress Report 1337 and are the basis for the above statement.

Stripping machines are generally used on stormproof or storm-resistant varieties of cotton with a stalk height or not more than 30 inches. Approximately 50 percent of the cotton grown on the High Plains in 1949 was harvested with mechanical strippers.

Picking machines will not successfully harvest stormproof cotton. During the past few years, mechanical pickers have been used in South and Central Texas to pick cotton of open-boll varieties.

Production methods should be used that will make the harvesting operation more efficient and these differ for the two types of harvesting machines.

General recommendations for producing cotton to be harvested with mechanical pickers and strippers are given by the research workers.

Plant storm-resistant or storm-proof cotton for harvesting with a stripper and open boll type for harvesting with a picker.

Space plants from two to six inches per foot depending upon soil fertility and moisture conditions. Such spacing tends to keep the stalk size down for harvesting with a stripper and helps to keep branch limbs short for harvesting with a picker.

Plants should also be spaced evenly. Hill-drop planting is not advised if harvesting is to be done with a stripper. When the picker is to be used, cotton may be hill-dropped with short spacings.

For the late cultivations, sweeps should be set so as to leave the middles lower than the ridge of dirt at the base of the plants.

Apply defoliant early enough so that few, if any green bolls will be left unopened when the cotton is ready to strip. After applying the defoliant, from 7 to 15 days should elapse before harvesting. On the High Plains, allow

Mr. and Mrs. Bill Reed and little son Billy, of Jal, New Mexico, came over last week for a visit with her parents, Mr. and Mrs. Oliver Green, and other relatives. After a brief visit he returned to his work at Jal, where he is employed by an oil company, but she and the baby are still here visiting. Mrs. Reed was the former Miss Mabel Green.

The well-managed fish pond will produce from 300 to 500 pounds of fish per acre of water. A fertilization program for the fish pond will make such yields up to 21 days. If available, airplanes should be used for applying late insect control and defoliant materials.

Tractor wheel shields should be used, if needed, to prevent damage to plants and bolls during insect control, defoliation and stripping operations.

The ground speed of the harvesting machine should be determined by the volume of cotton the machine can handle. Cotton should not be mechanically harvested when damp and should be ginned in a plant equipped for doing the best possible job.

A copy of Progress Report 1337 can be obtained by writing to the Publication Office, Texas Agriculture Experiment Station, College Station.

Wells Services Will Open April 9

Dr. R. G. Lee's book "The Bible and Prayer" will be taught at the Wells Baptist Church by Rev. Lee Rumsour of the First Baptist Church of Tahoka.

The study will begin Monday, April 9, and go through Friday, April 13. The services, beginning each night at 7:30, will include a teaching period, preaching period, praying period, and special music. Everyone is urged to attend.

Texas 4-H members will be represented for the fourth consecutive year in the 1951 International Farm Youth Exchange Project. Steve Lilley, Naacogdoches and Billy Roy Whitaker, Panola county are the 1951 exchangees.

Dixie H. D. Club Going To Tulia

Dixie Home Demonstration Club met Wednesday in the home of Mrs. J. H. Cobb. Twenty members and two visitors were present.

Quite a few of the members are planning on going to Tulia on April 28 to the THDA meeting.

Mrs. Claton Hamilton demonstrated aluminum trays.

A delicious refreshment plate with punch was served by the hostess.

The next meeting will be with Mrs. Troy Copelin April 27. — Reporter.

Mr. and Mrs. Albert Jacobs of Spearman are here this week visiting their son, Coach "Jake" Jacobs, wife and daughter.

GOOD HEALTH

1. WHAT DOES A HEALTH DEPARTMENT DO?

A health department has six basic functions. It provides such services as maternal and child health care, sanitation, communicable disease control, laboratory facilities, vital statistics and health education.

2. IS IT WASTEFUL TO CLEAR OUT YOUR MEDICINE CHEST?

No. Prescriptions are usually for a given disease for a given period of time. Some medicine spoils in only a short time. A drug prescribed for one person is not necessarily good for another, even though they have the same disease. It may be dangerous to use drugs prescribed for one illness to treat another sickness without your doctor's approval. Houseclean-

ing should include medicine-chest cleaning.

3. BEFORE BABIES ARE A MONTH OLD, THEY ARE OFTEN GIVEN, ON THE ADVICE OF A DOCTOR, SOME FORM OF VITAMIN D, THE SUNSHINE VITAMIN. PREMATURE BABIES ESPECIALLY NEED EXTRA VITAMIN D SINCE THEY MAY NOT HAVE INHERITED MUCH FROM THEIR MOTHERS AND BECAUSE THEY GROW SO FAST. MANY DOCTORS GIVE BABIES VITAMIN C IN THE FORM OF ORANGE JUICE BEFORE THEY ARE A MONTH OLD. MEDICINE'S DISCOVERY OF THE IMPORTANCE OF VITAMINS IS ONE OF THE OUTSTANDING HEALTH CONTRIBUTIONS OF THE 20TH CENTURY.

Shivers Calls Inflation Fight

DALLAS, Apr. 4 — Inflation is everybody's business, Governor Allan Shivers declared Tuesday in an address before the Dallas convention of the Texas & Southwestern Cattle Raisers Association.

"Inflation is adding something every day to your Federal, state and local tax bill," the Governor pointed out. "Inflation makes it more expensive to build roads, to run schools and universities, to buy office supplies, to safeguard the public health and safety, to make the most modest provisions for civil defense—in short, to carry on every phase of your state and local government."

"To all of you who have saved up some money for old age, or have put your money and your faith in retirement policies or annuities, inflation has a particular personal application."

"We are all in this thing together. When the little man suffers, eventually all suffer."

"The American economy cannot stand another big dose of inflation on top of that already experienced since 1939, Gov. Shivers said. Fortunately, he added, something can be done about inflation. Everybody can do something, he said, explaining:

"The laboring man can help by increasing his individual production."

"The banker can help by going to conservative credit practices."

"The gentleman and the farmer can help by making more food available."

"Just any citizen can help by doing without the things he doesn't really need."

"The businessman can help by playing the game fair and square, both with the government and with his customers."

"The Federal Reserve Bank can help a great deal by asserting its authority and its duty—to protect the dollar from excessive devaluation."

"We can all help by demanding, and practicing, economy in government."

"We can all help by being willing to sacrifice a little for the good of all."

"The Governor warned that Stalin's great hope is that the United States will undergo an internal economic collapse as a result of runaway inflation."

"But the cause is not hopeless," he declared. "The weapons are at hand with which to beat this insidious enemy."

Methodist Pastor Writing History

Rev. John Wesley Hawkins, beloved pastor of the Draw Methodist Church, was a caller at The News office one day this week on a little matter of business and incidentally mentioned to the senior editor that he is writing a history of the Draw Church. No doubt this chronicle of the acts of the pastor and

church during the years that have gone will be a most readable instrument and will be of great value to the church during the years to come. Somebody should do that for every church that has any history worth-while, for the history of our churches is in fact a vital part of the history of our country.

Gordon Club Has All-Day Meeting

Mmes Betty Haire and Ruby Stewart demonstrated candy making to three members of the Gordon H. D. Club on March 27 in the home of Mrs. Stewart.

The club met all day for quilting and a covered dish lunch.

New by-laws were made for the club.

The club will have a bake sale and bazaar in the Piggy Wiggly store in Slaton on April 14.

Those present were Mmes Jessie Ward, Guz Gatzki, B. H. Jones, Betty Haire, and the hostess. —Reporter.

BESSIE BRASHEAR S. S. CLASS HOLDS MEETING

The Bessie Brashear Sunday School Class of the Methodist Church met in Fellowship Hall of the church with 14 members present.

The songs "Help Somebody Today" and "I Need Thee Every Hour" opened the meeting. Mrs. Fenton then gave the devotional. Her Scripture and a reading stressed the fact that we should practice the presence of God at all time in our lives.

The class president, Mrs. E. R. Tunnell had charge of the business session, after which the program committee, under the leadership of Mrs. Ratliff, gave some very interesting contests and games which were enjoyed by all. Refreshments of doughnuts and coffee were served to the following members: Mmes. Jones, Price, Ray, Warren, Pennington, Poer, Ramsey, Ratliff, Millman, Gable, Huffaker, Fenton, Tunnell, Douthitt, and one guest, Rev. C. A. Holcomb. —Reporter.

Robert Williams and Pete Schaffner, who are in the Army stationed at Fort Sill, Oklahoma, spent last week end visiting here.

THREE HEART PATIENTS IN TAHOKA HOSPITAL

Three local men are still under treatment at Tahoka Hospital following recent heart attacks.

Joe L. Hearé, however, has been improving steadily and is expected to return to his home today.

I. I. Gattis who suffered another attack about two weeks ago, remains in a serious condition at the hospital.

R. L. "Kid" Gibson, who had an attack a little over a week ago, also is still in a critical condition.

Mr. and Mrs. E. J. Cooper are expected to return home this week end from a visit with their daughter, Mrs. Charles K. Harris, and family at Compton, California. They have written back to members of the family here that a daughter was born to Mr. and Mrs. Harris on last Saturday night. The couple already have two little sons. Mrs. Harris is the former Mildred Cooper, and was reared here.

NEW CITY ORDINANCES

Following are the captions from several of the new Tahoka City Ordinances passed, adopted and approved by the City Council on March 5, 1951:

ORDINANCE NO. 3B

Drunk In A Public Place

An ordinance making it a crime, to-wit: A misdemeanor, for any person who shall, within the City limits of Tahoka, Texas, get drunk, or be found in a state of intoxication in any public place or at any private house except his own, fixing the penalty therefor at a sum not exceeding \$100.00, and repealing all ordinances in conflict with this ordinance.

ORDINANCE NO. 4B

An Ordinance making it a crime, to-wit: A misdemeanor, for whoever shall go into or near any public place or private house within the City limits of the City of Tahoka, Texas, and shall use loud and vociferous language or obscene, vulgar or indecent language, or swear or curse or yell or shriek or expose his person or rudely display any pistol or other deadly weapon in manner calculated to disturb the inhabitants of such public place or house, and fixing the penalty at a sum of \$100.00, and repealing all ordinances in conflict with this ordinance.

ORDINANCE NO. 5B

An Ordinance making it a crime, to-wit: A misdemeanor, for any person who drives any vehicle in the City limits of the City of Tahoka, Texas, in a willful and wanton disregard to the rights or safety of others, or without due caution or circumspection, and at a speed or in a manner so as to endanger or be likely to endanger a person or property, declaring said person so violating said ordinance as a reckless driver, fixing the penalty at not less than \$1.00 nor more than \$200.00 for violating said ordinance, and repealing all ordinances in conflict with said ordinance.

ORDINANCE NO. 6B

An ordinance and Resolution making it a crime, to-wit: A misdemeanor for two or more persons to fight together in a public place within the City limits of the City of Tahoka, Texas, fixing the fine therefor, said fine not to exceed the sum of \$100.00, and repealing all ordinances and parts of ordinances in conflict therewith. 26-4tc

Mother of Two Praises Hadacol

HADACOL Supplies Deficient Systems With Vitamins B1, B2, Niacin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother. She is like all good mothers she keeps a careful watch for the welfare of her two young children. And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should do something about it, Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B1, B2, Iron and Niacin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

FOR SALE— Boston Terrier pups. —Guy Witt at 1820 North 5th St. 27-2tc

IS ALCOHOL a PROBLEM to YOU? Can you handle liquor or does liquor handle you? Do you have a sincere desire to stop drinking? If so, you can be helped! Write Alcoholics Anonymous, P.O. Box 118, Tahoka. 1tc

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL, my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

Wedding Vows Read Here Sunday For Miss Wanda Faye Smith, Sgt. Hyatt

Rev. Lee Ramsour read the double-ring vows Sunday afternoon at 3:30 o'clock for Miss Wanda Faye Smith, daughter of Mr. and Mrs. A. L. Smith, and Louis Wayne Hyatt, son of George W. Hyatt of Lamesa. The ceremony was in the First Baptist church before an altar decorated with calla lilies, greenery and candelabra.

Bob Callahan sang "Ah, Sweet Mystery of Life" and "Love Me and the World." Miss Wanda was accompanied by Mrs. W. P. Hutchison. A musical reading, "Melody of Love," was given by Mrs. W. H. Kenley.

The bride wore a gown of imported lace over white satin fashioned with a sweetheart neckline piped in satin, with a fitted bodice and long sleeves coming to a point over the hands. The full gored skirt fell into a chapel length train. Her fingertip veil was of French illusion attached to a tiara of pearls and rhinestones. She carried a white Bible topped with gardenias and was given in marriage by her father.

Mrs. Ed Chamberlain served as matron of honor. Bridesmaids were Misses Mary Lou Crump and Novella Crump of Shallowater, Joan Sover, Audrey Hood of Hereford and Lillie Ragsdale. They wore identical dresses of turquoise taffeta with a fitted bodice with a turquoise lace yoke and a full skirt. Each carried heart-shaped arrangements of yellow daisies.

Serving as best man was Sgt. Chamberlain. Ushers were Sgt. Bob Stringer of Levelland, Carroll Bailey of Lubbock, Wayne Adair, Ray Adams and Dwight Townsend. Flower girls were Barbara Bass and Anna Lee Biggersstaff, Jane Adair and Faye Narrell of Lorraine lighted candles.

At the reception in the home

of the bride's parents the couple, was assisted in receiving by Mrs. Smith, Mrs. Chamberlain and Mrs. Paul Hyatt, sister-in-law of the bridegroom. The table was laid with a white linen cloth and decorated with the bridesmaids' flowers and a tiered wedding cake. The house was decorated with calla lilies and by the side of the guest book was a miniature doll dressed like the bride. Guests were present from Levelland, Lamesa, Abilene, Dalhart, Lubbock and Littlefield.

For a wedding trip to New Mexico the bride wore a navy suit with navy and tan accessories. The couple will be at home in the Reese Air Force Base apartments. The bride formerly attended Hardin-Simmons university and Texas Tech. The bridegroom graduated from Lamesa High school.

Robert Macha Married Monday

Miss Marie Elizabeth Neu of Slaton was married to Robert Lee Macha of Lubbock, in a double ring ceremony at 8 a. m. Monday in St. Joseph's Catholic Church in Slaton, Rev. T. D. O'Brien reading the vows.

The bride is the daughter of Mr. and Mrs. Nick Neu of Slaton. She is a graduate of Wilson High School and is a member of the Catholic Daughters of America.

Mr. Macha is a graduate of Tishon High School and a former student of Texas Tech. He is a son of Mrs. Adolph Macha of Route 1, Lubbock. Robert is farming near Lubbock.

GIRL SCOUTS OFFER APOLOGIES; THANKS

We are sorry we did not have enough cookies for our sale to last through Saturday and that everyone did not get a chance to try our delicious cookies. In the very near future, we plan to continue our sale, and then everyone will have an opportunity to get a box of official Girl Scout Cookies.

We wish to thank everyone who made this sale such a sell-out. We thank Mr. Hill, Mr. Flood, and Mr. Kidwell for the publicity they gave us. We especially thank Mr. Kidwell for giving us space in his store for our cookie booth and for helping us with our sale.

Watch for date of our next cookie sale.

—Girl Scouts of Troop I

The senior editor E. I. Hill returned last Wednesday from Waco and Eddy, where he had spent practically all of the time since Christmas. He was accompanied to Tahoka by his sister, Mrs. Alice Martin of Waco, and on Thursday and Friday they visited their brother and sister-in-law, Mr. and Mrs. J. A. Hill, at Canyon. Mrs. Hill is still suffering from a fracture of a vertebra which she sustained about four months ago but she is able now to be up portions of the day and to walk short distances. Mrs. Martin left Saturday for a brief visit with a sister at Stephenville, expecting to return to her home in Waco Sunday afternoon.

During the nine-year period, 1940-1948, the area under irrigation in Texas increased slightly more than one million to 2,885,000 acres. Wells accounted for 1,369,000 acres of the increase.

RUPTURE SHIELD EXPERT HERE

H. M. SHEVNAV, widely known expert of Chicago, will personally be at the Hilton Hotel, Lubbock, Friday and Saturday, April 13 and 14 only, from 9 a. m. to 4 p. m.

Mr. Shevnav says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly in place but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnav will be glad to demonstrate without charge. 6549 N. Artesian Ave., Chicago 45. Large incisional hernia or rupture following surgical operation especially solicited. 11p

Two Injured

(Cont'd. From Page 1)

One of the men, Carl O. Hagan, 34, owner of the car, a 1947 Ford convertible, pleaded guilty in Justice Court here Monday to obstructing a highway and parking without lights, and was fined \$25.00 and costs in each case. The other, Eugene C. Wright, 28, pleaded guilty to drunkenness and was fined \$25.00 and costs. Other charges may possibly be filed pending recovery of the injured. Deputy Sheriff Otis Curry and members of the State Highway Patrol investigated.

Raymond Lawrence of Tahoka was a witness to the accident. He told officers he was coming toward Tahoka when he encountered the Lubbock car parked on the highway. After passing it, he turned around, thinking he would push the car from the pavement. As his lights turned back north, the wreck occurred.

James Smith was driving the 1947 Nash owned by McClinton. Miss Gayden was thrown clear of the wreckage. Jerry Sosebee and Roy Elliott, and other Tahoka people also returning from Lubbock, arrived on the scene and attempted to give relief to the injured while Stanley ambulances were called.

Deputy Curry said one of the men, Wright, was still sleeping in the Ford when he arrived 15 or 20 minutes later. Witnesses said the Ford was squarely on the pavement, and Smith was possibly blinded by another car's lights and did not see the obstructed road until too late.

Smith, a graduate of Tahoka High School, has been a cripple for many years as a result of infantile paralysis in his right leg, and has several times been a patient of the Dallas Hospital. The bone in his good leg is reported to have been badly shattered by the break incurred Sunday morning. A part of his crutch was found beside the demolished car.

McClinton, employee of an oil well drilling company here, served for several months as deputy

Methodist Men's Meeting Monday

Tahoka Methodist Men will hold their monthly meeting next Monday night at 7:30 p. m. at Fellowship Hall of the church.

Ralph Brock, Lubbock Attorney, will be the principal speaker, and some special music is being arranged by Omas. Verner. Walter Mathis and Claude Donaldson are in charge of the program.

The meal will be prepared and served under the direction of R. A. DuBose and Roger Bell.

C. O. Clumack, president of the organization, issues an invitation to all men of the area to attend the meeting.

Revival Opens At O'Donnell Sunday

Revival services are to open next Sunday morning in the First Methodist Church at O'Donnell, according to an announcement made in the O'Donnell Index-Press.

Dr. Edmund Kirby, district superintendent of the Panhandle district, living at Perryton, will do the preaching and Rev. David W. Binkley, pastor of the Anson Methodist Church, will lead the song services.

Rev. Mr. Kirby was formerly pastor of the First Methodist Church at Sweetwater and is reported to be an able and consecrated Minister.

CEMETERY WORKING IN DRAW COMMUNITY

All people of the Draw community, or those having close friends or relatives buried there, are invited to help in a "cemetery working" on Tuesday afternoon, April 10, J. E. Sherrill and Edd Busby state.

People are urged to bring their hoes, rakes, spades, etc., and help out in this worthy undertaking.

sheriff of Lynn county.

Miss Gayden was reared in this county and is employed at the First National Bank.

GOOD HEALTH

1. WHY ARE MANY SCHOOLS SO CROWDED?

2. ARE HOSPITAL BILLS TOO HIGH?

3. WHAT IS GERIATRICS?

© 1950 HEALTH INFORMATION FOUNDATION

Answer to Question No. 1:

1. Not only are more children born but many more now live long enough to go to school. The death rate among pre-school children has declined from 20 deaths per 1,000 in 1900 to 1 per 1,000 today. With so many childhood diseases conquered, pediatricians report they spend most of their time supervising the health of well children and thus preventing illness.

Answer to Question No. 2:

2. The American Hospital Association says it costs an average of \$14.33 a day for a general hos-

pital to take care of a patient but the hospital receives \$2.59 a day less than that from patients. Patients are being cured faster, which reduces the bill, and millions now take advantage of voluntary insurance plans such as Blue Cross and others to prepay hospital bills on an insurance basis.

Answer to Question No. 3:

3. It's that division of medicine which has to do with old age and its diseases. Because we now live much longer, more and more doctors are studying the problems of health in old age.

Men At Wells Host To Ladies

The Brotherhood of the Wells Baptist Church held open house Tuesday night for the women of the church. The men prepared and served the meal and put on the program, and all the women had to do was to sit and listen.

The pastor of the church, Rev. Sheldon Russell, was away conducting a revival meeting, and as a last resort and almost at the last moment this writer was invited to speak to the Brotherhood, and the speaker had a wonderful time. Pity the audience.

Mrs. Thomas J. Williams, who recently moved to Colorado Springs, Colo., to live with a daughter, is here this week visiting. She says she likes it very much up there. The weather is a bit colder but she says one hardly notices the difference.

HERE FROM CONNECTICUT

Mr. and Mrs. Charles Stephens are here visiting his mother, Mrs. Jessie Jewell Stephens Charles being on leave from his Naval Training Base at New London, Conn.

In fact, they are also on their honeymoon, the couple having been married in New York City on March 22. They will return to the East about April 11.

Mrs. Stephens was born and reared in New York City, and this is her first trip out of the metropolis. On being asked what she thought of Texas she replied, "It's just more space to me."

Charles was reared here and is a graduate of Tahoka High.

Herbs such as anise, caraway, coriander, cummin and marjoram can be used by the homemaker to add flavor to cooked foods as well as salads.

BOILED DRESSING

A smooth, skillfully blended homemade boiled dressing, with its subtle seasoning and flavor, brings instant popularity to any salad. Try this excellent dressing on a broccoli salad and you will hear requests for an encore.

Boiled Dressing
2 teaspoons dry mustard
1 teaspoon salt
2 teaspoons sugar
2 tablespoons flour
dash cayenne
2 eggs
1 1/2 cups milk

1/2 cup lemon juice or vinegar
1/2 cup fortified margarine
Mix mustard, salt, flour, and sugar. Heat the milk and add gradually, stirring constantly. Cook in the top part of double boiler over boiling water or over very low heat until thickened, stirring constantly. Cook for ten minutes, stirring occasionally. Beat the eggs and add a little of the thickened hot mixture to the eggs. Mix and add to the remaining mixture and cook for about three minutes, stirring constantly. Remove from heat and add the lemon juice or vinegar and fortified margarine, stirring them in well. The amount of lemon juice or vinegar can be varied to give the texture desired. Cool. Chill before serving. Store in covered container in the refrigerator. If a spicy dressing is desired, add 1/2 teaspoon caraway or dill seeds and minced chives.

For other tempting, nutritious food ideas, send today for your free copy of "Meatime Marvels with Margarine," a helpful, 32-page recipe booklet in two colors. Write National Cotton Council, Box 76, Memphis, Tenn.

been made attractive by use of counters and new-type parts bins furniture. Just behind this department is a large 26 by 30 foot storeroom.

In the service department, near the front of the building, is the tune-up and minor repairs equipment, while major repairs will be handled in the rear.

Also, in the west rear, is the automobile wash room featuring the latest type power washer; and the grease room, with hydraulic lift, grease machines, and undercoating machine.

Though much of the garage equipment is already in place, other new equipment for the modern plant is arriving almost daily.

W. B. (Bill) Strange, Sr., came here as Ford dealer about three years ago following the death of W. L. (Bill) Burleson, who had been dealer here a number of years. Mr. Strange spent about 25 years in various positions with the Ford Motor Company before becoming a dealer a few years ago at Itasca.

He established the Tahoka dealership for his son, Bill Strange, Jr., who was recently inducted as a reservist lieutenant in the Army, stationed at Fort Eustis, Virginia. Bill, Jr., will have a nice set-up to return to when released from the service.

Both are progressive and alert business men and since moving here have taken time out from their business to participate in various civic affairs.

REV. HOLCOMB HELD MEETING AT PLAINS

Rex C. A. Holcomb, Jr., pastor of the Tahoka Methodist Church, conducted revival services for the church at Plains last week.

Rev. J. E. Stephens of Post, a retired minister, filled the pulpit of the local church last Sunday in the pastor's absence.

Karen Dean Gave, 3, daughter of Mr. and Mrs. Baron Gave of Route 5, underwent a tonsillectomy at Tahoka Hospital Tuesday.

Write In Candidate O'Donnell Winner

O'Donnell, Apr. 3 —A last-minute write-in campaign resulted in the election of John Ellis, local Chevrolet dealer, to the city council here today in elections that saw a tight turnout of only 38 voters.

Ellis nosed out incumbent S. M. Clayton, 19 to 18, to take his place on the city governing body along with incumbents John Earles and J. T. Middleton, Sr.

Earles and Middleton received 36 votes each.

Mayor Jimmy Hash's term has another year to run, according to Mrs. Guy Bradley, election judge.

Thomas Fulkerson, son of Mr. and Mrs. W. H. Fulkerson, who entered the Army Air Force several months ago, recently was transferred from Lackland Air Force Base at San Antonio to the Francis E. Warren base at Cheyenne, Wyoming.

Credit Association Plans Meeting

The seventeenth annual meeting of the Lubbock Production Credit Association will be held Thursday, April 12th, in Jamboree Hall of the old South Plains Army Air Base north of Lubbock. Ross Smith, local field representative, says all stockholders of the association are urged to attend, and a free barbecue lunch will be served to them and their guests. Principal speaker will be L. Roy Prescott, Secretary-Treasurer of the Production Credit Corporation of Houston.

Business to be transacted will include the annual report of the Directors, financial report of the

Secretary-Treasurer, and discussion of current credit problems. Also two directors are to be elected to fill the expiring three year terms of E. R. Davis of Adriff and A. B. Roberts of Littlefield. A nominating committee has offered as director candidates for Place One: E. R. Davis, Lubbock county and J. H. Moore, Crosby county; for Place Two: A. B. Roberts and Clyde Weaver of Hockley county.

Officers of the association are as follows: President, E. R. Davis, Lubbock; Vice-President, C. E. Hicks, Meadow; Directors, E. L. Carlisle, Rolls; Fred McGinty, Tahoka; Littlefield, Post, and Lamesa, with the central office being located in Lubbock. Territory serviced by the association includes all of Cochran, Crosby, Gaines, Garza, Hockley, Lubbock, Lynn, Terry, and Yoakum counties. Smith stated that the Association has a local capital structure of over \$529,000 which is owned entirely by its members.

New Home May Increase Values

The School Board at New Home is notifying property holders of the district that it sees no alternative other than to raise the values in order to secure more money for operation of the school.

The following letter has been addressed to the taxpayers of the district; which letter is self-explanatory.

"We, the directors and superintendent of the New Home School, wish to inform you of our intentions regarding the raising of money and plans for the improvement of our school.

"As you know, the only method we have of securing money on which to operate our school is through state aid and local taxes. The present low evaluation of our land, in comparison with that of neighboring school districts, may help to explain why we have been held back and unable to achieve the standards we desire for our school. It is our wish to provide for the children of this district a school comparable with the best, and we feel that this can be done if we increase our financial standing. We are, therefore, increasing our land evaluation and plan to vote bonds for the building of teacherages and remodeling of the grade school building. By doing this, we feel that we shall be able to secure and keep better qualified teachers and have them in our community.

"There have been rumors of losing our high school. As you realize, this would destroy community interest, hurt the evaluation of your land, and send the children too far from home to school. With your cooperation in building up our school and main-

tenance of our high school, we can assure you it will not be taken from us.

"Respectfully yours,
 New Home Local Board of Education, Superintendent of Schools."

HO HO HUM AND A BOTTLE OF MILK!—Everybody has his own ideas of how to make the most of a situation. But this swarthy buccaneer, says the National Dairy Council, has exactly the right idea. In a recent mock invasion of Tampa, Fla., he gladly settles for a draught of refreshing, nourishing milk while crewmen from his vaunted pirate ship swarm over the city in search of other treasures.

Franklin Life At Billion Dollar Mark

The Franklin Life Insurance Company of Springfield, Illinois, has passed the Billion Dollar mark as to insurance in force, according to an announcement just released by President Chas. E. Becker to R. C. Wells, local representative.

The significant event provided a dramatic climax to the Company's 67th anniversary celebration held during March. A net increase of \$70,000,000 during the first quarter of this year put the Franklin well ahead of schedule in attaining Billion Dollar stature.

The Franklin Life is one of the fifteen oldest legal reserve stock life insurance companies in America, and the oldest existing life insurance company granted its charter in the State of Illinois. The company now operates in forty-three states, the District of Columbia and Hawaii, and has substantial business in this area.

All ingredients for a salad should be chilled unless it is to be a hot salad.

Southwestern Sets Two New Marks

Texans, who like to tell their out-of-state friends about Texas "facts," could add to the state's already fabulous reputation by reference to Southwestern Life Insurance company's 48th Annual Report, recently distributed to policyholders. The booklet reveals that Southwestern Life:

1. Is the largest life insurance company in the United States States that does business in only one state (Texas, naturally).

2. Ranks in the top eight per cent of the more than 600 legal reserve life insurance companies in the country from the standpoint of the amount of life insurance in force.

For the benefit of folks who think all dollars paid out by life insurance companies are related to the unhappy occurrence of death there's a surprise in Southwestern Life's report. During 1950 more dollars were paid to living policyholders—in the form of maturities, cash values, annuities, disability benefits and other income payments—than were paid to beneficiaries of deceased policyholders. The former received \$5,943,138 and the latter \$4,346,418.

Southwestern Life also acknowledges the professional-like caliber of its agency force and its home office staff. There are now in the ranks of Southwestern Life an accredited high school, we feel that we can assure you it will not be taken from us.

"Respectfully yours,
 New Home Local Board of Education, Superintendent of Schools."

In the brief time we have in the last two or three weeks to scan the daily newspapers, we have seen little about that resolution introduced and carried almost unanimously by the Lower House of the Texas Legislature calling upon the board of regents of the University of Texas to fire a certain professor in that institution for the alleged offense of teaching socialism whatever that may be. The House made the request precipitately without

stopping to investigate the alleged offense, without appointing any committee or making any other provision for investigating the charge, but merely demanded that the board of regents investigate and fire the Professor within ten days, reporting its action back to the House at the end of that time.

The board of regents presumably made some sort of investigation. If the board as a whole made any report back to the House, that escaped our notice. We did see a report or two from newspaper correspondents quoting one or two members of the board as saying that the Professor would not be fired. After that the whole matter seems to have fizzled out, as probably it should have done.

This newspaper is expressing no opinion as to the guilt or innocence of the Professor. But we do think that, even if there appeared to be solid grounds for the charge, the Legislature or some members of the Legislature should have made a quiet preliminary investigation of the matter before making a public charge to that effect and calling upon the board of regents to put aside under the alleged offender. Common fairness demanded that much. Any member of either House of the legislature can jump up before that House at almost any time and make any sort of charge, true or false, harmless or slanderous, against any person not a member, and not even subject himself to a slander charge or to a suit for damages for the defamation of character.

Therefore, the legislature should be careful not to make such charges, either against private individuals or against other employees of the Government, unless they are convinced that the charges are true.

Now, there is another thing to be said about the charge made against Prof. Avers. It demanded his discharge for doing a thing that is not per se a crime and offense in no way against the laws of Texas or of the United States. He was merely guilty, according to the charge, of teaching Socialism. It was not charged either directly or by inference that he was advocating or in any way suggesting the overthrow of this Government by violence or force.—Only Socialism as an economic system.

What is Socialism? Well, this Government of ours, both the Government at Washington and the Government at Austin, is not only teaching socialism but is also practicing it along many different lines, already. No need to go into that further, for everybody knows it to be a fact.

Why, then, was a charge made against one member of the faculty of the University of Texas? We suspect that it was made in order to stir up a great fuss about the teachings that are being permitted in that institution and to bring it somewhat into disrepute and enable the instigators of the charge to fight down taxes proposed on some of the natural resources of this state which are largely escaping taxation, some of which taxes are to be used for the expansion of the University and other institutions of higher learning in this state. Evidently there was some such bug under the chip and good men in the legislature fell for the deceitful trick.

The good people of Tahoka and of all Texas, yea of the entire United States, should staunchly back up Senator Kefauver and his committee at Washington in their fight against the big gamblers everywhere who have not been content to corrupt and cheat full grown men all over this country but have shamefully corrupted college students and even high school students and have induced them to throw football and basketball games to opposing teams for pay. That has not been done here on the South Plains, we think, but there is evidence that it has been done at some points here in Texas and in many other states of this Union. It's a shame and a disgrace, and the guilty crooks should be stepped into jail.

ADDING MACHINE rolls, fit all standard machines.—The News.

ODds AND EndS

(By E. I. The Elder)

Well, folks, unlike Boyce House, I am not going to "Give you Texas," but this week I am going to give you just a little chunk of Texas—I am going to tell you about Sage Chapel, which was built and flourished for a few years down here in the southernmost corner of McLennan county in the days when this was still a pioneer country. This story is being written from Eddy, Texas.

Sage Chapel was not a mission enterprise. There was no town where Sage Chapel was built, not even a school, nor a store, nor a blacksmith shop nor a parsonage, nor a residence. There was one new and handsome residence a little more than a half-mile away but few others within a radius of several miles. It was built out on the black-land prairie, "far from the maddening crowd's ignominious strife," and there it stood for six years silent and alone save when God's children: from far and near gathered therein to worship Him or to attend funeral services for some relative or friend. Also, in the summer months, they came in great numbers for that day and generation to attend "prayed meetings." While few conveniences had been provided for the living, yet a resting place for the dead had been provided on a plot of ground near the site of the chapel a year before the chapel itself was built.

My brother William, four years older than I, told me last summer as he lay on the bed of affliction in his home in Eddy, that he and I, our elder brother and sister, and our parents attended a funeral service in Sage Chapel once when I was only two years old. The wife of a great uncle of ours, Parson John Witt (all preachers were called "Parson" in those days) had died. Either his brother, Parson William Witt, our grandfather, or Parson Silas Witt, our great-grandfather—my brother had forgotten which—preached the funeral sermon. Of course I could not remember the event, and my brother's memory as to some of the details had gotten a little hazy during the intervening 73 years.

I can not remember the time when I did not hear Sage Chapel mentioned frequently, but it never occurred to me until last summer that there was anything strange or unusual about the history or the background and founding of Sage Chapel, although I had been born within ten miles of where it stood and had grown to manhood in the same vicinity. But when my brother last summer told me of that funeral service, he also told me something of the founding of the chapel, and I readily saw that there was an interesting story back of it. He knew enough about it to whet my appetite for more information, but I never found time or took time to investigate until recently. When I did begin to investigate I found that the story runs clear back to the Texas Revolution for Independence in 1836 and even back of that, in point of time; that it runs clear back to New York and Massachusetts for the background; and that it includes directly or incidentally important activities on the part of some of the financial barons and political high-lights of the states mentioned. It involves also the story of a New Yorker who came to Texas to fight for her independence and how his grand-son years later came to Texas on personal business, became fascinated with the country, went back home and married, and brought his young wife back to Texas with him the next year, spending the remainder of their lives here.

We shall get to that story presently, but first just another word about Sage Chapel itself.

The Chapel was built in 1875, two and a half miles west of the present town of Eddy and four miles or more east of Moody, on the well-known Dunning farm. The handsome two-story Dunning residence, facing west, stood a little more than a half-mile east of the chapel, on another hill. This handsome residence had been erected in 1874. It bore the earmarks of wealth and culture. The cemetery mentioned above had been started in 1874. At that time neither the Santa Fe nor the M. K. & T. (K. T.) railroad had been built through Central Texas. There was no town of any consequence within twenty miles of the chapel. Waco was then a thriving small town situated twenty miles to the North-Northeast on the banks of the

Ed into Eddy to become the first public school building the town had and also the first meeting place of the Eddy Baptist Church, which was organized about that time. It stood on a lot owned now by Mrs. J. R. Laughlin one block west of my brother's residence built some years later. After the chapel had been doing school and church duty in Eddy a few years, it was accidentally destroyed by fire.

It may be said that little Sage Chapel, a small structure possibly about 24 by 40 or 50 feet in size, was a more important religious center during its six years service on its original site than was almost any other one single church in all central Texas.

In 1876, the Waco Baptist Association was organized with 11 members present, in Sage Chapel, Parson Mangum seems to have been the moderator and a Waco layman named Walker was the clerk.

Here we will run ahead of our story far enough to state that soon after the Katy railroad was built through McLennan county and the town of Eddy was started in 1881, Sage Chapel was mov-

ed into Eddy to become the first public school building the town had and also the first meeting place of the Eddy Baptist Church, which was organized about that time. It stood on a lot owned now by Mrs. J. R. Laughlin one block west of my brother's residence built some years later. ON NEW DODGE "Job-Rated" TRUCKS
THE TRUCKS THAT DO THE MOST FOR YOU

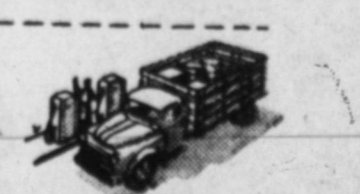

NOW! ANOTHER DODGE EXCLUSIVE!
99% FLUID DRIVE Available on 1/2-, 3/4- and 1-ton models—for smoother starts . . . easier handling . . . lower upkeep costs . . . longer truck life. Ask for free Fluid Drive booklet.

NEW! More power
Power increases as high as 20% in eight-high-efficiency truck engines—94 to 154-horsepower. They're the most powerful Dodge "Job-Rated" trucks ever built!

NEW! Easier handling
Shorter turning diameters than ever—and extra-easy steering with new worm-and-roller gears on most models. Short wheel-base, cross-steering, wide front tread for easier maneuvering.

PLUS ALL THESE TIME-PROVED FEATURES DODGE TRUCKS HAVE HAD FOR YEARS
Steering column gearshift standard on 1/2-, 3/4- and 1-ton models with 3-speed transmission. Chrome-plated top piston ring for longer ring life, better sealing. Synchronizer transmissions (3-, 4-, or 5-speed) rugged, silent, precision engineered. De Luxe and Custom cabs (with rear quarter windows) available on all models. And many other proved Dodge dependability features!

NEW! Bigger payloads
Increased Gross Vehicle Weights and Gross Combination Weights on many models, because of scientific weight distribution and increased rear axle capacity.

NEW! Greater safety
Molded Cyclebond Tapered brake linings on hydraulic brake models 1 ton and up. Brand-new! Extra quiet! Other features include independent hand brake, extra-big windshield.

NEW! Better comfort
"Oriflow" shock absorbers standard on 1/2-, 3/4- and 1-ton models. Self-adjusting! New seat design, new steering wheel angle—plus lower hood line for improved visibility.

Odds & Ends

(Cont'd. From Editorial Page)

builders of his day. For some years he was associated with the great financial baron and railroad king, Jay Gould. When I was a lad we used to hear and read in the newspapers much about each of them, and you, dear reader, can yet find a nice story about each in any good Encyclopedia that you may have in your library. I just mention this as a sidelight on the family connections and the probable standing of Charles Sage himself.

Well, some years before the Texas Revolution started, probably about 1830 or a little later, during the colonization period when immigrants from many states were coming to Texas this same Charles Sage came to the scene and he and an associate engaged in the buying and selling of land in and about Harrisburg, afterwards known as Houston. It is claimed that he obtained a headright or some sort of claim to a part of the land on which the city of Houston now stands. At any rate he plied back and forth between New York City and Texas during that period of time looking after his interests, and when war broke out or was in prospect, he came back to Texas and joined the Texas army. It is said that he personally engaged in one or more battles.

After the war closed he was awarded a land bounty entitling him to receive some 1200 acres of land in this area for his service as a soldier. With these pe-

pers and his other personal effects he boarded a ship in 1838 and started on home. But the old boat was shipwrecked somewhere on the Florida coast and most if not all of the passengers were murdered by hostile Indians. Charles Sage was one of the victims. His personal effects including these land papers were found, however, and were sent to his family in New York.

His family and all the other relatives regarded land in Texas as worthless, however, and did nothing about it. Texas was too wild and woolly for them to be interested.

So there the matter rested for years. But in the course of time, Charles Sage's daughter, Lucy Adelaide Sage, was married to Dr. E. J. Dunning, who became one of the most eminent dentists in New York City. His clientele consisted largely of the wealthy class in the city, and his professional earnings grew to great proportions. Mrs. Dunning, wealthy in her own right, traveled much, making several trips to Europe.

One of their children was Charles Dunning, who was born on Bank Street in New York City on April 20, 1846. He received his literary education at Lawrence Scientific School at Cambridge, Massachusetts. After graduating at Harvard he became interested in the land claims held by his grandfather, Charles Sage, the Texas Revolution soldier, when he was killed by the Indians in 1838. In spite of discouragements on the part of relatives, Dunning decided to come to Texas and investigate about the year 1873. He had no luck in establishing any claim to the Houston property, but did succeed in establishing his claim to his mother's share, 320 acres, of the war bounty tract of 1200 acres just west of the present town of Eddy, and he later bought the claims of her brother and sister, the total tract being 600 acres.

He was delighted with the beauty of the country and the richness of the soil and went back home and in October, 1874, he married Miss Charlotte Strong of Lenox, Massachusetts, brought her to Texas, and they proceeded to occupy the home which he had built. A baby was born to them and died and was buried in the rear-by cemetery that already had been started. The next year, 1875, his mother, Mrs. Lucy Adelaide Dunning, came out to visit them, saw the need for a place of worship, and proceeded to have the chapel built with her own funds on the southwest corner of the 600-acre Dunning tract of land, for use by all denominations. Born a Sage, she gave her original name to the Chapel.

Capt. and Mrs. Dunning continued to occupy their stately home and this 600-acre farm and ranch until his death in 1924, a period of about 50 years. He devoted much time to the raising of livestock, especially fine horses. The Dunnings were highly respected and his friends invariably referred to him as Captain Dunning.

Now, another interesting sidelight. Mrs. Dunning's mother died when she, Charlotte Strong, was six years old, and she was adopted and reared by an uncle and aunt, Mr. and Mrs. William Henry Taft, clerk of a court in Massachusetts. He was a relative of William Howard Taft, who later became President of the United States, of Charles P. Taft, who formerly owned a large ranch in south Texas, and of the very present Senator Charles Taft of Ohio.

Since the death of Captain and Mrs. Charles Dunning, the home here has been the property of their son Henry Dunning and wife and their two sons, Clayton and Edwin. Much of the furniture in the home was formerly the furniture owned and used by Mr. and Mrs. William Henry Taft in their Massachusetts home nearly a century ago, Mrs. Henry

HAVE you ever wondered how it would feel to go the limit on power and comfort and quality in an automobile?

Or how it would feel to be lord and master of a car that can take its place with the finest in the "fine-car field"?

Then, sir, this is a call to action.

The first action is yours—the simple action of getting in touch with a Buick dealer and planting yourself behind the wheel of a ROADMASTER.

Then let this great-powered and dazzling performer take over.

There's action in every one of the 152 horsepower in its Fireball engine—more action than most proud owners of this eager beauty will ever use.

There's counter-action in its gentle and sure-gripping brakes, the finest that Buick has ever engineered.

But there's also luxury—the luxury of double-depth Foamtex cushions and custom upholstery—and of ample

roadweight magnificently poised on coil springs which individually cushion every wheel.

There's a spacious feeling of room, above and around you—room that is unsurpassed anywhere in the fine-car field.

And to make every mile effortless and relaxed, there's the very exclusive advantage of Dynaflo Drive—not as an "extra," but as a standard ROADMASTER feature.

So why not drop in and satisfy yourself, as our guest, that here indeed is a fine car that goes the limit—in everything but price!

Check for yourself what others ask—and what others offer—and you'll discover ROADMASTER prices a call to action that a wise man can't ignore.

Equipment, accessories, trim and models are subject to change without notice.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

Wells Gets Farm Labor Co-op Charter

The Wells Co-op Farm Labor association of O'Donnell was granted its charter of incorporation by the office of the Secretary of State in Austin, Dallas Vaughn, director, announced.

The association, which will bring Mexican migratory laborers to this area from Mexico, was incorporated for \$100,000.

Five men, Lester Stretton and Bertice Askew of Wells, Vaughn and J. W. Gardenhire of O'Donnell, and Earl Cocley of T-Bar, were named directors of the corporation.

The association operated last planting season, and Vaughn reported its work was effective in helping farmers in the area obtain enough labor to work the cotton crop.

"Men in the area tell us how many Mexican laborers they want and we take the orders to El Paso and process that many laborers," Vaughn said. "This year, we will get as many as are needed around here. If we don't get some rain, the number may be cut down sharply, but our plan is to get them for the hoeing and picking seasons," he added.

Calves Gain On Fertilized Pasture

COLLEGE STATION, Apr. 5—More than twice as much weaned calf weight was produced on a 640-acre pasture on the King Ranch which was fertilized with 200 pounds of triple superphosphate per acre as was produced on a 650-acre unfertilized pasture.

During the six-year period, 1941-1947, an average calf crop of 98 percent was obtained from 62 cows on the fertilized pasture, while 42 cows on the unfertilized pasture produced a calf crop of only 69 percent.

The 229 calves produced on the fertilized pasture averaged 551 pounds at weaning time, compared with an average weight of 489 pounds for the 116 calves produced on the unfertilized pasture.

Applying phosphate to range land on the King Ranch increased the average yield of pasture forage from 35 percent to 84 percent. The phosphoric acid content of the grasses also was increased greatly, in some cases as much as three-fold.

Grasses fertilized with 220 pounds of triple superphosphate per acre supplied enough phosphorus for range cattle except during periods of severe drought. One application of 200 pounds of triple superphosphate was effective for five of six years.

A summary of this study is given in Texas Agricultural Experiment Station Progress Report.

A local man who dug out his last winter's suit when the temperature dropped says that he is having difficulty getting into it. It seems to have shrunk considerably on the thirty eighth parallel.

And then there was the man who was so fond of horses he married a nag.

GOOD HEALTH

Answer to Question No. 1:

1. Because of the improvement in medical treatment given at the aid stations in World War II, the effects of shock, loss of blood and infection were greatly counteracted. After that, the patient stood an excellent chance of recovery when he reached a hospital. According to the medical military record, 96 out of 100 men who reached hospitals were saved. In World War I, when a lower percentage of wounded reached hospitals, the number was 89 out of 100.

Answer to Question No. 2:

2. Yes, in infancy. When contracted at school age the disease is less dangerous if proper medical care is given. Measles, since it takes epidemic form, runs in cycles with relatively few cases for several years and great number of cases in other years. For example in 1947 there were 221,100 cases whereas in 1949 there were 620,900 cases.

Answer to Question No. 3:

3.—A 36-mile hike will take off just one pound of fat. In addition, the hiker would lose several pounds of water, which he would replace rapidly. Obviously, walking is not much of a solution for overweight. The age-old answer remains. Just don't eat so much of the wrong foods.

Musical Program At Study Club

A musical program was presented at the regular meeting of the Phebe K. Wampler Club meeting in the home of Mrs. J. K. Applewhite Tuesday afternoon of last week.

Winston Redwine presented several piano selections, and Mrs. Ellis K. Taylor, accompanied by Mrs. Walker Stapp at the piano, rendered several violin numbers. Delicious refreshments were served the members and several guests present.

"I EXPECT HIM TO PROPOSE ANY DAY NOW..."

Here's great news for you if you've been bothered by excessive fatigue, constipation, weakness and 'nerves' due to the fact that you do not get enough B-Vitamins in your diet.

Bexel Special Formula, a new scientific product, combines the important B-Vitamins with Iron! Also Choline, Inositol and Liver in supplementary quantities.

Everybody knows the importance of Iron in your diet... how it helps the body to build RICH, RED BLOOD. One capsule of Bexel Special Formula (that's all you take a day) contains 5 times the minimum daily

requirement of Iron. Also 5 times the minimum daily requirement of Vitamin B₁₂.

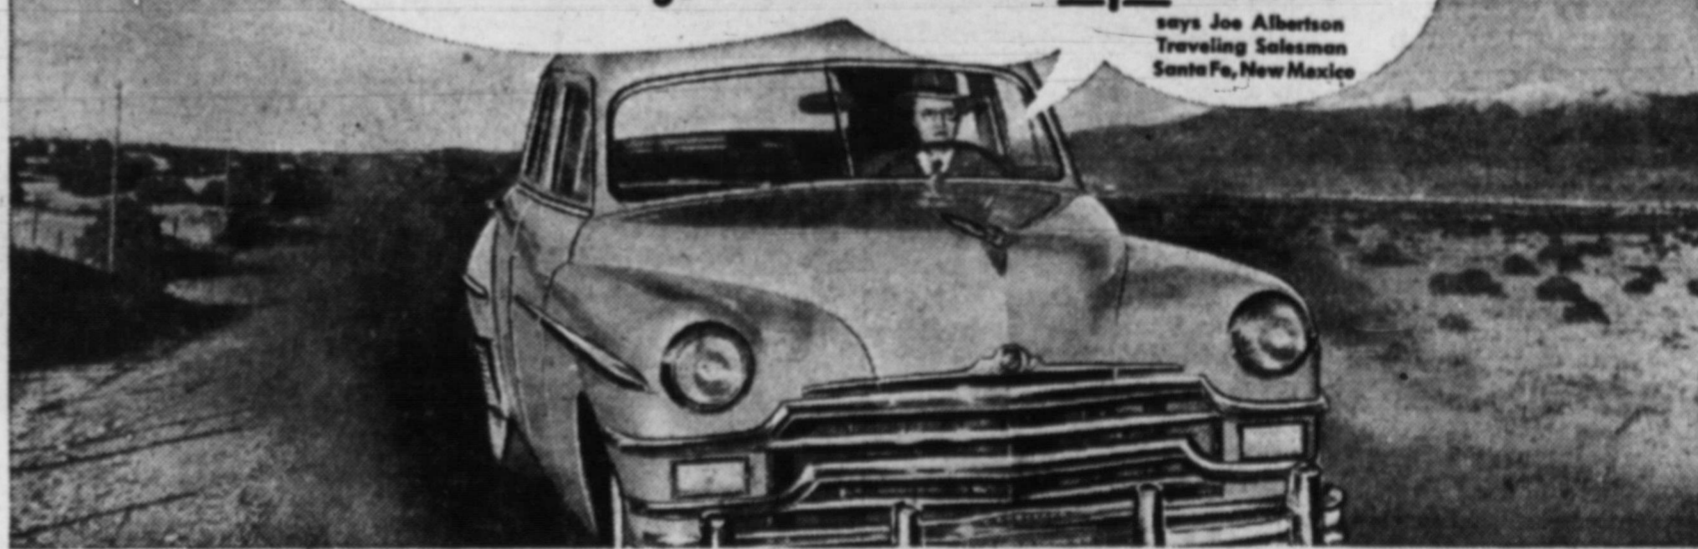

Miss Evelyn Zarider, 2154 Dean Street, Brooklyn, N. Y., says: "Bexel Special Formula really made a new woman out of me. My friends all say I'm full of pep... that I've got new sparkle and charm. One friend... a man I'm very fond of... seems especially attentive and I expect him to propose any day now."

Try Bexel Special Formula yourself. You get your money back if you don't feel decidedly better in 30 days!

TAHOKA DRUG

"I got the story on
50,000 Miles-No Wear
and changed to New Conoco Super Motor Oil"

says Joe Albertson
Traveling Salesman
Santa Fe, New Mexico

"50,000 MILES-NO WEAR!"—PROVED HERE:

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence... in fact, an average of less than one one-thousandth inch on cylinders and crankshafts.

AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your car last longer, use less gasoline and oil.

Ask Me About "50,000 Miles No Wear!"

CONTINENTAL OIL COMPANY

"MANY OF MY CUSTOMERS have actually gone out of their way to thank me for servicing their cars with new Conoco Super Motor Oil, because it has reduced their repair bills by a good margin," says T. S. Young, Young Motor Company, Walsenburg, Colorado. "I know Conoco Super is the finest motor oil on the market."

"I'M ON CALL 24 HOURS A DAY and my car must be ready to roll over the roughest roads in any weather," states B. F. Bryant, Oil Field Engineer, Abilene, Texas. "That's why I changed to new Conoco Super Motor Oil. Never have I had such good gasoline mileage and cost-free operation."
