## Fun Program For Pioneer Reunion

### Annual Event Set June 23 For This Year

Program for the Lynn County Pioneer Association reunion to be held in Tahoka all day Saturday, June 23, has been completed, according to J. E. (Red) Brown, program chairman.

The entertainment promises to be among the best that has ever been offered at the event.

The meeting will open with registration beginning at 9 a. m. at the Legion Hall.

The morning program will open at 10:30 a. m., with the popular and humorous speaker, Judge Homer Winston of Brownfield bringing the address.

Barbecue lunch will be served at noon in the City Park.

The afternoon program is expected to be the high-light of entertainment, details of which 'Red' Brown is keeping secret. However, it may be said there will be music, songs, dances, and a lot of comedy.

Following this program awards will be made to the oldest man, the oldest woman, the ugliest man and the ugliest woman, and to the person who has traveled the greatest distance to the reunion.

Election of officers will end the official program. Happy Smith is president this year, Fred McGinty is vice president, and Mrs. Eloise Griffin is secretary.

### Jaycee "Parties" Wage Contest

Members of the "Friendly Honey Bee Party" of the Tahoka Jaycees this week were flying their flag atop the court house.

But members of the opposition, the "Yellow Dogs" laughingly explained that they did not propose to do anything about the acts as the Honey Bees themselves ran up the flag at half-mast, thereby admitting they are "dead ducks."

Each party is campaigning for a slate of new officers for the Jaycees.

### Light Showers Are Some Help

Dry Lynn county again missed the rain Wednesday night. Only .07 of an inch of moisture was caught in the Government gauge kept by The News.

The northeast quarter of the county received possibly an average of one-fourth inch.

West half of Lynn county remains in fair shape, but the east still has not received sufficient planting moisture.

Most farmers in the west half have their cotton up to a good stand and much of it in this area is growing beautifully, but this will need more rain very soon.

Quite a bit of cotton is up in the east half, but some of it has died or is dying and the rest will be gone unless it receives more moisture immediately.

With a good rain now, Lynn county could yet raise a big cotton crop. However, if rain does not come in a few days, most of the land will be planted to maize if rain comes in the next few weeks. Prospects are that maize will bring a high price, itself.

### Mrs. W. S. Perry Is Buried Here

Funeral services for Mrs. Inda Perry, 75, wife of W. S. Perry, of the Lakeview community, were conducted in the New Home Baptist Church at 3:30 o'clock Sunday afternoon in the presence of a great concourse of relatives and friends which overflowed the spacious auditorium, many being compelled to stand in the vestibule and outside the building during the entire service. Rev. C. E. Strickland, pastor of the New Home Baptist Church, officiated.

Following the services at the church, the body was brought to the Tahoka cemetery for burial under the direction of the Rix Funeral Home of Lubbock. Grandsons of the deceased served as pall bearers.

Mrs. Perry died at about 9:00 o'clock Saturday night in the Lubbock Memorial Hospital after an illness of about one year. She had been a patient in the hospital.

Attorney General Price Daniel, left, obtains a court order from District Judge Jack Roberts of Austin stopping the Maceo gambling syndicate of Galveston from using telephone wires and equipment to bring horse race gambling information into Texas.

## Bobby Boyd Named To Naval Academy

Bobby Boyd of Tahoka has passed qualifying examinations and received an appointment to the U. S. Naval Academy at Annapolis, Md. He expects to be called to the school about July 1.

He received the appointment through Congressman George Mason.

Bobby is the second son of Mr. and Mrs. M. M. Boyd. He is a graduate of Tahoka High, where he played football and basketball.

On his graduating here, he was awarded the annual Jesse Jones scholarship in A. & M. for "the Texas high school graduate of the year best fitted by scholarship, and aptitude to become an Army officer."

He has attended Texas A. & M. two years of the possible four years on this scholarship, but will give it up to accept training as a Naval Officer. All his expenses will be paid at Annapolis.

Two other former Tahoka boys are upperclassmen in Annapolis. They are Billy Hanes, son of Supt. and Mrs. W. T. Hanes of Cameron, and Randall Hinkle, whose parents now live in Oregon.

Bobby arrived home a few days ago to visit his parents.

Also here last week end for a visit were the Boyds' other son, Major William Knight Boyd, wife, and daughter, Gloria, age three. He is now stationed at Kelly Field, San Antonio.

Major W. K. Boyd has been in the Army about 12 years. He was in the Philippines when World War II started, fought on Bataan, retreated to Corregidor and there was taken captive by the Japanese. He suffered many hardships for three and a half years in Japanese prison camps before being liberated at War's end. After recuperating in Army hospitals, he returned to duty and has been stationed at San Antonio since.

(Con'd. On Back Page)

### Methodist Men Guests At Post

Twenty-six members of the Tahoka Methodist Men's organization were guests of the Post Methodist Men at the church in that city Monday night.

Following a dinner, a program was presented which included talks by Rev. Joe Boyd, the Post pastor; Rev. J. H. Sharp, the Tahoka pastor; and C. O. Carmack, president of the Tahoka Methodist Men. A quiz program conducted by the Post men furnished a lot of fun and entertainment.

The Post men were invited to a return visit here at the next meeting of the local organization on the night of Monday, July 9.

### Methodist Youth To Attend Camp

Several young people from the Tahoka Methodist Church will attend the annual Intermediate Camp next week, June 18-24, at the Methodists' Ceta Canyon encampment grounds southeast of Canyon.

Rev. J. H. Sharp, local pastor, will accompany the group.

The camp is located in a beautiful branch canyon to the noted Palo Duro.

### Three Fined On Liquor Charges

Three men drew fines in County Court here over the week end for liquor law violations.

Saturday, a Grassland Negro was fined \$500.00 and costs on a charge of illegal possession of whiskey and wine, and a Lakeview Mexican was fined \$450.00 and costs on a similar charge for possession of whiskey and beer.

Monday, a Negro entered a plea of guilty to illegal possession of beer, and was fined \$100.00 and costs.

The Grassland Negro was still in jail early this week pending payment of fine.

The charges were filed following raids made by members of the Sheriff's department.

### Presbyterians To Hold Services

Tahoka Presbyterian Church is again holding regular services each Sunday with Sunday School at 10 a. m. and preaching at 11 a. m.

A special service will be held next Sunday, beginning at 6:30 o'clock at the church. There will be a song service, followed by the showing of a movie, "Love Thy Neighbor."

The regular pastor, Rev. C. H. Leonard of Lubbock, preaches each first and third Sunday.

Beginning last Sunday, however, a Texas Tech student will conduct 11 o'clock services on the other two Sundays of the month, the second and fourth Sundays.

He is Tom Cleveland, 23, son of a missionary to Africa. Tom was born and reared in Africa, and is in this country to complete his higher education, following which he expects to return to Africa to help the natives develop agriculture. He is a very interesting youth, members of the church state.

He currently is spending two or three days each week in Tahoka, and soon will conduct a youth program at the church.

### Cotton Insurance Deadline June 18

Lynn county farmers who have Federal Crop Insurance on their cotton crop and have not reported their planted acreage are urged to turn this acreage in not later than June 18th.

448 farmers are insured in this county which represents about 35 percent of Lynn county farms. An acreage report must be turned in to the local PMA office on every farm covered by the insurance, according to Clint Walker, Administrative officer of the Lynn County PMA, and he urges those who have not reported their planted cotton acreage to do so immediately.

### BUYS WARRICK HOME

Kenneth Turner this week became the owner of the J. W. Warrick home on North Fourth Street, built a few months ago by H. G. Hodges and sold by him to Mr. Warrick.

## Vernon Brewer Resigns As Superintendent City Schools

### New City Court Hears First Case Next Monday

First session of Tahoka's new corporation court will be held next Monday morning at 9 o'clock at the City Hall, when a local Negro expects to contest a charge of gambling.

He was one of five local Negroes arrested at about 11 a. m. Sunday by City police. Four of the men pled guilty when arraigned before the Corporate Judge, Russell McGee. Two paid fines of \$15.00 each, including costs, and two are laying out their fines in jail.

Local police also charged four people with violation of traffic laws over the week end, and these have five days in which to appear and pay their fines.

One man was given a ticket for running a red light and for not possessing a drivers' license. The other three were charged with speeding.

B. P. Maddox several months (Cont'd. On Back Page)

### Singers Coming To Local Church

Boles' Home Royal Singers will appear in a special program Thursday morning, June 21, at 11:00 o'clock at the Tahoka Church of Christ.

The chorus, from Quinlan, has appeared before church and civic groups throughout the United States and Canada. The purpose of their extensive travels is to acquaint the people with the high type of work being offered in the institution.

The local Church of Christ has made numerous contributions to Boles Home, and only recently aided in the reconstruction of the Home's administration building which had been completely destroyed by fire.

The public is cordially invited to attend the program. No contributions will be taken at this time.

The chorus will also sing before the Tahoka Rotary Club at noon next Thursday.

### New Home Scouts At Encampment

Seven members of New Home Scout Troop No. 28 this week are attending the encampment at Camp Post, with Dan Cowan in charge as Patrol Leader.

Scoutmaster Winston Davies, Mrs. Davies, Mr. and Mrs. N. Barnett and Emily, and Garland Peek took the boys and their camp equipment to the encampment grounds Sunday afternoon.

Those attending the camp are: Dan Cowan, Jimmie Peek, C. L. Rogers, James Barnett, Jimmie Brown, Jimmie Keith, and Kenneth Fletcher.

### Picture Show Is Rotary Program

A moving picture dealing with employee-customer relations was presented at Tahoka Rotary Club Thursday at noon by "Cotton" Carter and Dr. Skiles-Thomas.

Three new members, Geno Jones, Stanley Sigman, and Coy Fielder, were given the official welcome by Wynne Collier. Mitchell Williams, another new member, will receive the welcome later.

Last week, the new Methodist pastor, Rev. J. H. Sharp, spoke to the club.

Miss Patsy McGinty, club sweetheart, was presented a graduation gift by the club.

Trade at home and save!

### Laying Brick On School Building

Brick work on Tahoka's new \$200,000 elementary school building is nearly half complete this week.

Though there have been delays, workmen say they are just about on schedule with the structure, which they hope to complete before next Christmas.

The new school will have 10 classrooms, offices, and an adjoining cafeteria. The structure will not be quite so large but will harmonize with the present grade school building, which will be converted to Junior High purposes.

### Three Injured In Car Wreck

Three persons were injured in varying degrees at about 11:30 o'clock Monday morning when the car in which they and five other persons were traveling, coming west on highway No. 380, was struck by a Tahoka car going east on the highway a few miles out from Tahoka.

Mrs. A. H. Tucker of Graham, Texas, sustained painful facial bruises and a near-serious injury to one of her eyes, that made hospitalization necessary. She was treated at the Tahoka Hospital but was able to be released Tuesday. Her husband was slightly injured but was not hospitalized.

Most seriously hurt of the three was their little grand-son, Bobby Tucker, 9, son of Mr. and Mrs. Ernest C. Tucker of Roswell, New Mexico, who sustained a serious fracture of one of the (Cont'd. On Back Page)

### 4-H Team Wins First In District

Lynn county's 4-H Club boys' entomology judging team won first place in the District II judging contests held at Texas Tech in Lubbock Saturday.

The team, coached by County Agent Bill Griffin, will go to College Station on June 25 to participate in the annual statewide contest.

Entomology judging was the only event entered by the Lynn county boys.

Members of the team are: Don White and Corbell Hagens of Wilson, and Leroy Edwards and John Lester Mason of Tahoka, route 1.

Mason was second individual in the contest and scored highest on insects. White placed fifth individually but had a perfect score on insect identification. Hagens placed fourth as an individual.

### Dave Cook, 66, Dies Suddenly

David Alfred Cook, 66, well-known farmer of Draw died at 11:15 o'clock Saturday night in the Tahoka Hospital following a stroke suffered at about 3:30 that afternoon at his home. He had been sick for about two weeks preceding the stroke.

Funeral services were conducted at two o'clock Monday afternoon in the Draw Methodist Church, of which he was a member. Officiating were the new (Cont'd. On Back Page)

### Leaving After Six Years With Tahoka Schools

Vernon Brewer, superintendent of the Tahoka Public Schools for the past five years, tendered his resignation at a meeting of the school board on Tuesday night, effective August 31.

Mr. Brewer had another year remaining on his present contract. He told The News he could not yet announce his future plans. He is attending the Texas Tech summer session mornings and expects to receive his Master's degree in August.

Mrs. Helen Ellis, school district secretary, told The News that so far she knew the board had no one in mind to replace Mr. Brewer.

There have been differences of opinion on policies of school operation between Mr. Brewer and the present board. However, The News has been informed by a member, the board maintained highest respect for Mr. Brewer.

Mr. Brewer came to Tahoka in the fall of 1945 as high school principal under Supt. E. E. Hancock, after having been at Brownfield for nine years.

Following some trouble in the school that fall, Mr. Brewer was given much credit for straightening out the difficulty. Mr. Hancock resigned on July 1, 1946, and Mr. Brewer was elected to succeed him and has been head of the schools ever since.

Tahoka schools have had smooth sailing under his administration. Many physical improvements have been made, and faculty and student relations have been excellent.

Mr. Brewer has been active in many civic affairs including the Rotary Club, Chamber of Commerce, and Scout organizations as well as having served as Superintendent of the Methodist Sunday School. He has also been active in area school circles, and is highly regarded by school people of the South Plains.

Mrs. Brewer and Vernon, Jr., have likewise been active in many community activities.

MAN FROM MARS—A soldier tests a regenerating respirator attached to an Arctic mask. He is one of the U. S. Army Ground Forces' men testing equipment for the sub-zero temperatures of Alaskan maneuvers.

The respirator, designed by the Quartermaster Corps and intended to be worn with a mask and parka, is made of soft rubber.

Fitting snugly around the nose and mouth, it has metal wool in the lower portion. The metal retains heat from the exhaled breath and, by releasing it to the inhaled air, protects the lungs and conserves the body heat.

This is one of the new articles now undergoing tests or are in process of production to provide the most modern equipment for U. S. armed forces. Home front workers in labor and industry do the rest.

DODGING ENEMY MINE FIELDS—U. S. troops take cover on the south bank of a Korean river as tanks leave the road to avoid striking an enemy mine field.

Announcement has been made that a new university is to be opened in Moscow next fall in which 25,000 students will be offered free tuition. But we will bet that not a one of them will be taught the truth about individual freedom in America. On

**ED GOSSETT'S RESIGNATION**

We are truly sorry that Ed Gossett from our neighboring Wichita Falls district has offered his resignation as a member of Congress to take effect July 31, in order that he may devote his time to making a living for his family. We understand that there are several men in that district who are willing to undertake the task of living on the some \$12,000 plus trimmings that the office pays. Ed will get \$25,000, it has been announced, as attorney for the Southwestern Bell Telephone Company. We hope that he will manage to make ends meet on that puny little stipend. But in all seriousness we are sorry that Gossett is quitting Congress. We think that he has come to be one of its most valuable members. He has been proposing and advocating in Congress the adoption of a change in our Constitution relating to the election of the President which undoubtedly would bring about one of the greatest election reforms in the entire history of our country. It would destroy the extraordinary power of small pressure minority groups in the doubtful states and thus make this government more truly a government of the people, by the people, for the people. The Democratic party ought to have snapped up this opportunity to serve the people years ago, but instead it has turned a cold shoulder to the proposal from the very beginning. Even Southern Congressmen have shown little interest in the matter although it would prove a greater blessing to the South, perhaps, than to any other section of the country. If this change had been made such proposals as the FEPC and abolition of our Southern race segregation laws never would have gotten to first base. Gossett has served his district, our state, our Southland, and our whole country ably and well. Since he is retiring, we hope that other able Democrats will pick up the fight and carry it to a successful conclusion. All honor to Ed Gossett.

Governor Shivers has been a popular governor, but we are of the opinion that his popularity has waned considerably during recent weeks by reason of his fight on the proposal to levy a tax of one cent per 1,000 cubic feet of natural gas mined in this state, the larger part of which goes to Northern and Eastern states to be used principally in industrial plants and Texas gets no substantial benefits therefrom by taxation. We have been helping to build up these industries in the North and East with our gas practically free of charge. Yet this gas is one of the most valuable Texas natural resources. The proposed tax, of course, has been fought consistently by the big pipeline and natural gas companies, and Shivers stood with them in the fight. A compromise was finally reached whereby one-half of one cent per 1,000 cubic feet of gas is to be collected. Even one cent per 1,000 cubic feet would have meant only a very small sum for each domestic consumer and for most industrial consumers in this state to pay, but like the tax on gasoline it would raise a considerable amount of revenue for our state treasury and would be an easy tax to pay. We think that Shivers was wrong in fighting this measure.

Mrs. Nathan Shepherd and children of Snyder spent last week end visiting her sister, Mrs. Travis Inman, of the Midway community. Mrs. Shepherd and Mrs. Inman are cousins of Wayland Walton and Mr. Inman is an uncle of Ann Cowan, who were married at New Home Saturday.

**THE AMERICAN WAY**

Dirty Work

**Care Is Urged In Insecticide Use**

**COLLEGE STATION**—The battle with bugs is now underway. As the fight becomes more intense, there often develops a tendency among the human fighters to become careless. Any relaxation of proper handling and methods of application of many of the commonly used insecticides can result in injury or even death, say the Extension entomologists of Texas A. & M. College, to the careless handler.

They point out that insecticides kept in the house should be stored only in a closed metal container. When insecticides that are classed as dangerous are being mixed or applied, the handler is urged to wear a respirator and avoid dust or spray mist. The clothing worn when dangerous materials are being handled should be removed and washed before being worn again.

They advise anyone to consult a doctor immediately if any degree of illness is noted during or after applying one of the dangerous type insecticides. All fruits and vegetables that have been treated with insect poisons

A lawyer is a man who will work as hard as he can to see that you get what's coming to him.

should be washed thoroughly before they are eaten. Applications of organic insecticides such as DDT should not be made within two weeks of harvest.

Materials that are highly flammable should not be stored in places where there is a fire hazard. When sprays are used in the house or barn, the specialists caution against getting any of the material in dishes, utensils and drinking- or feeding troughs. Insecticides stored in barns or other farm buildings should always be clearly labeled poison.

The specialists suggest that you check with your local county extension agent regarding the toxicity of any particular insecticide.

### Wayside Winner Over Tahoka

Wayside took a five run lead in the first two frames and went on to hand Tahoka North Side a 16 to 6 defeat in a game played last Sunday afternoon.

"Punk" White won his second league victory as he pitched six hit ball and fanned 11 batters. He had good support from teammates.

Doug McNeely started for the North team, but was knocked out of the box in the second with two out and the bases loaded by reason of two walks and one hit batsman. Morgan Howle came to the mound and fanned big Jackie Slover to retire the side. Howle allowed only four hits but received poor support from his teammates.

The scheduled game between Wilson and Southland at the latter place was postponed because of rain.

Next Sunday, North Side will play Southland at Jaycee Park in Tahoka at 2:30 p. m. Morgan Howle will start for North, and Lefty Tremble will probably hurl for Southland.

At Wilson, the boys of that town will take on the league-leading Wayside team. Leonard Breiger or Thomas Mason will oppose "Punk" White.

League standings follow:

	Won	Lost	Pct.
Wayside	2	0	1.000
Wilson	1	0	1.000
Southland	0	1	.000
North Side	0	2	.000

Mr. and Mrs. A. L. Smith returned Monday from Albuquerque, New Mexico, to which place they had taken their daughter, Mrs. Wanda Faye Hyatt, to join her husband there, Sgt. Louis W. Hyatt, who is stationed there in the Air Service.

During the past 15 years, cash operating expenditures by farmers have increased from an annual outlay of 5 billion dollars to 18 billions last year.

### Cripple Children Clinic Planned At Brownfield

A Crippled Children's Clinic will be held in the South Plains Health Unit, Brownfield, Texas, June 20, 1951, from 9 a. m. until 5 p. m.

The program will be conducted by the five counties of the Health Unit, Terry, Gaines, Yoakum, Dawson, and Hockley. All surrounding counties are invited to attend this Clinic.

The purpose of this Clinic is for diagnosis and referral for treatment; also, for those who have in applications and appointments are pending, or for those who have not visited their doctors within the last six months. This clinic will be counted as a regular visit. If you have a crippled child, you are cordially welcome to attend the clinic.

Three orthopedic surgeons will be present to examine the children, Dr. Frank C. Hodges, Abilene, Texas, Dr. W. Compere Bascom, El Paso, Texas and Dr. Edward T. Driscoll of Midland, Texas.

Lunch and mid-morning and afternoon snacks will be served in the Health Unit to the children and their parents. All children whose last name begins with A through the alphabet to M will come from 9 a. m. until 12 and the remaining alphabet from 1 until 5 p. m.

Mrs. Florine Best and her two children, Gloria and Carroll, left early Sunday morning in company with Mr. and Mrs. M. W. Todd of Lamesa on a two-weeks vacation trip out into New Mexico and Colorado and possibly other states to the northwest. Mrs. Best and Mrs. Todd are sisters and are daughters of Judge and Mrs. P. D. Server of this city.

Mr. and Mrs. G. W. Loden of Waco arrived Wednesday to visit a few days with Mr. and Mrs. Frank Lisebmy of New Home. Mr. Loden is a brother of Mrs. Lisebmy.

### GOOD HEALTH

**Answer to Question No. 1:**  
1. Total blind population of the United States is about 260,000. After a child is three years old his sight should be tested yearly. Treatment of the eyes at birth has saved the sight of many infants.

**Answer to Question No. 2:**  
2. The percentage of patients admitted to hospitals who show chest diseases after routine X-ray is higher than that of the general population. Therefore, a hospital which checks its patients on admission should be an

ideal center for detecting tuberculosis and other diseases of the chest. Many hospitals now take this chest X-ray as a matter of course.

**Answer to Question No. 3:**  
3. The percentage of students planning to enter general practice has increased from 36 to 47 per cent in the last three years, according to a recent poll taken in 19 medical schools. This increase promises more doctors for small town and rural areas.

### Baptist Men Plan Meetings

The pastor and executive officers of the Brotherhood of the First Baptist Church met Tuesday and made plans for the next meeting of the organization to be held on Tuesday night in the building recently purchased by the Church situated on the camp grounds of the Plains Baptist Assembly in Blanco Canyon seven miles south of Floydada.

Also, as many men of the Church as can do so are requested to go over to the Assembly grounds in the morning of that day and donate to the Church a few hours work. Some repairs on the building must be made and a number of men already have volunteered to help do the work. If you can wield a hammer or a saw, "tote in wood and water," or do any thing helpful in putting the church's lot in order, you are cordially and even enthusiastically invited to lend a hand. It is hoped that none of the volunteers will work themselves

down, however, for you will be expected to listen to, visualize, enjoy, and participate in a program to be given by the Brotherhood beginning at about eight o'clock in the evening.

Arrangements have also been made to have plenty of food on hand for the day, and a feast will be served immediately preceding the program.

The first number of the program will be a motion picture of the encampment grounds and activities thereon recently made by Dr. K. R. Durham, which will be shown not only in proper order but also in reverse. That promises to be a treat.

Some of the men have promised to form an a-cappella choir and render one or two of the good old hymns.

Dr. Durham, who has attended a number of the meetings at the camp and is familiar with its activities, purposes, and possibilities, will give in his own cogent and racy style a discussion of the subject, "Why I favor the supporting and upbuilding of the Plains Baptist Encampment."

Following his talk, a number of men are expected to tell briefly some of their experiences, and impressions obtained by attending meetings of various kinds held on the encampment grounds—a kind of testimony service.

Then the pastor, Rev. Lee Ramsour, will put on the finishing touches in a talk that is expected to touch the pocket-books, lightly or heavily, of the men present, to raise funds to pay for the repairing of the building and putting it in condition to be used by the church for all the encampments to be held this summer. The touching talks will probably be continued back here at home, as quite a sum of money will be needed to finally complete the building and making it a good average of those on the encampment grounds, of which there are many.

President Herman Heck will preside at the meeting and E. I. Hill will have charge of the program.

Mr. and Mrs. Pat Chamblee left Wednesday afternoon for Texarkana, where they were called by the serious illness of her brother, Jerry.

### THE AMERICAN WAY

A Reasonable Question

#### NEW PARTS MAN AT STRANGE MOTORS

T. E. (Shorty) Huffman and family have moved to Tahoka from Itasca. He is the new parts department manager at Bill Strange Motors.

Mr. Strange says Huffman is an experienced automobile trader man, having been raised in the garage business.

#### TAHOKA GARDEN CLUB WILL MEET TUESDAY

Tahoka Garden Club will meet Tuesday, June 19, in the First Methodist Church at 10:30 a. m. Mrs. Claude Keeton from Lubbock Garden Club will direct a flower clinic.

Luncheon will be served. Each member may invite a guest.

Mr. and Mrs. J. L. Reese returned home Monday after having visited briefly with their son Carna, wife, and baby in Fort Worth, with M. S. and wife in Dallas, and with other relatives in Gatesville, Waco, The Grove, San Antonio, and San Angelo.

#### VISIT WITH CHANDLERS

While Pvt. Tom Chandler, in the Army stationed at Finley, N. D., was here visiting his parents, Mr. and Mrs. "Bunk" Chandler, his brother and two sisters also came to visit. His brother is Pvt. Ellwayne Chandler, who is stationed at Camp Wolters. His sisters are Mrs. Bill Strickland of Lubbock and Mrs. J. M. Graves of Idalou. Husbands and children of the sisters were also here. One day during Tommy's visit, Mr. and Mrs. Elmer Sproles entertained him with a chicken supper.

### Citizens Praise Park Project

Building of the proposed Jaycee sponsored Lynn County Memorial Park in South Tahoka is receiving the approval of many leading citizens of the county.

Members of the Jaycee organization have received the following comments from local citizens of the park, etc.

**Minister Approves**  
"These 'high plains' are the only place to live! But aside from enjoying cool nights and rolling fields and living off the fat of her land we can hardly compete with the lower, or higher, playgrounds of nature's own provision. So, I say, let's provide a playground for the community. Of course, it will be a small scale job, but ONE TALENT is better than no TALENT at all, and who knows it might grow with the use."

—Ernest E. West, Church of Christ Minister.

**Give Moral Support**  
Members of the Tahoka City Council have given the Park project their personal support.

Mayor Jimmie Applewhite says: "Tahoka needs a park and swimming pool. It has my personal support."

Councilman H. G. Hodges says: "The park you propose would be a credit to the community."

Councilman R. H. Gibson says: "A park is a very worth while project."

Councilmen Roy Edwards and Joe Bob Billman have constantly given the Park project their support since its beginning, and have donated time, labor and money to it.

Many other leading citizens, according to the Jaycees, have expressed a desire that the Lynn County Memorial Park be built.

# Early Season Insect Controls Highly Recommended

County Agent W. B. (Bill) Griffin states that Harry Harvey, Associate County Agent-Entomology, has released the following report on the 1951 cotton insect control program.

With the urgent need for high yields and a 16,000,000 bale cotton crop this year, producers can't afford to not follow a strict insect control program. Growers can't depend on last winter's cold weather to kill the insects this summer. In other parts of the state where the temperature dropped very low for long periods of time, damaging infestations of thrips, aphids, and boll worms are already showing up.

Alfalfa fields, in this area, which are excellent hosts for several cotton insects reveal fleahoppers, lygus bugs and thrips. It has been proven that when alfalfa hay is cut that in 24 hours all the thrips have left the alfalfa. Since thrips can't fly, they will migrate to the nearest green vegetation they can find. Therefore, if cotton fields are near there is danger of getting thrip damage.

Beginning very early, growers should watch for thrips. Their damage can be noted by the silvery appearance on the underside of the leaves. Thrips are slender straw-colored bugs about

one sixteenth of an inch long. Wherever silvering of the leaves occurs generally through the field it is time to start poisoning.

It is highly recommended that growers follow an early season control program based on automatic treatments which may be done at time of cultivation thus eliminating some of the expense. It must be remembered that insects are easier killed early in the season and that it takes less insecticide.

In areas where fleahoppers usually occur in some degree every year, the first application should be put on in the eight leaf stage or earlier if necessary depending on the thrips and aphids. It is about this time that the squares first begin to form and this is a critical time for the fleahopper. If the first application is put on in the eight leaf stage then seven days later a second application should follow. After these two applications, the early season automatic treatments should stop to allow time for the beneficial insects to build up. Seven days later the cotton should be inspected and continued to be inspected once a week for fleahoppers. If fifteen fleahoppers are found per one hundred terminal buds it is time to put on another application. By using the two early ap-

plications the fleahopper should be knocked out; however, constant watch should be maintained, for the fleahopper is a migratory insect and can move in at any time.

All growers should obtain "The Guide for Controlling Cotton Insects" from their County Agent. This guide has a lot of valuable information including a table listing all the dusts and sprays that will control the early and late season insects. There are several insecticides listed and they are all good. Use the one that you prefer or whichever one is available at the best price.

Whether sprays or dusts are used, it is important to remember that the poison must cover the plants to kill insects. When the plants put on new growth, or the poison is washed off, the plants are no longer protected.

Insects are indeed a major threat to economical cotton production, but they can be profitably controlled if growers will use the right to poison at the

## Motor Tours For 4-H Members

COLLEGE STATION — Motor tours of the Texas A. & M. College campus are planned for 4-H Club members who will be on the campus Monday, June 25 to take part in the state 4-H elimination programs. Each tour is expected to take about one hour.

These tours will give the boys and girls an opportunity to see the campus and provide them with something to do either before or after they are through competing in the contests, said Mrs. Eloise T. Johnson, chairman of the State 4-H Roundup planning committee.

Individual and group tours were right time. With the chance for a good price and the urgent need for cotton, growers more than ever should include in their plans for this year's crop, a good insect control program.

## GOOD HEALTH

1. WHO INVENTED SPECTACLES?

3. WHY DO MOST PEOPLE GO TO DOCTORS?

**Answer to Question No. 1:**  
1. Both the Chinese and the Italians claim the honor of having invented eye glasses. However, it was during the Middle Ages that Europeans hit upon the idea of putting lenses in frames and perching them before the eyes. The modern application of this old idea has saved many eyes, and has provided many more with better vision.

**Answer to Question No. 2:**  
2. Herpes zoster, or shingles, is a painful disease affecting old and young. It is in all probability a virus infection, extending to the sensitive nerve ends of the skin. The sores appear on

the skin over the tips of the nerves and may cover a considerable area of skin. Medical treatment can reduce the itching and pain and shorten the duration of illness.

**Answer to Question No. 3:**  
3. More patients seek medical help because of headaches than for any other single reason. Causes range from eye trouble to brain tumors. Treatment ranges from eyeglasses to surgery. In the case of persistent headaches, see your doctor. He has at his command modern scientific methods for diagnosis and treatment.

## Crackdown On State's Gamblers

AUSTIN, June 14. —The past week witnessed Texas' biggest crackdown on gambling and organized crime.

The House Crime Investigating Committee held closed hearings which blew the lid off secrets of the Maceo gambling syndicate in Galveston and revealed an annual gross income in excess of \$3,000,000 from slot machines, tip books, dice tables, roulette, horse race betting, and related businesses. A public hearing is tentatively scheduled for June 25.

Attorney General Price Daniel, who helped the committee in its investigation, followed through with a law suit against the 15 Maceo partners, Southwestern Bell Telephone Company and Southwestern Associated Telephone Company, to stop horse race gambling information from being brought into Texas over telephone wires.

District Judge Jack Roberts of Austin granted Daniel's request for a temporary restraining order and set the hearing for a temporary injunction for June 18.

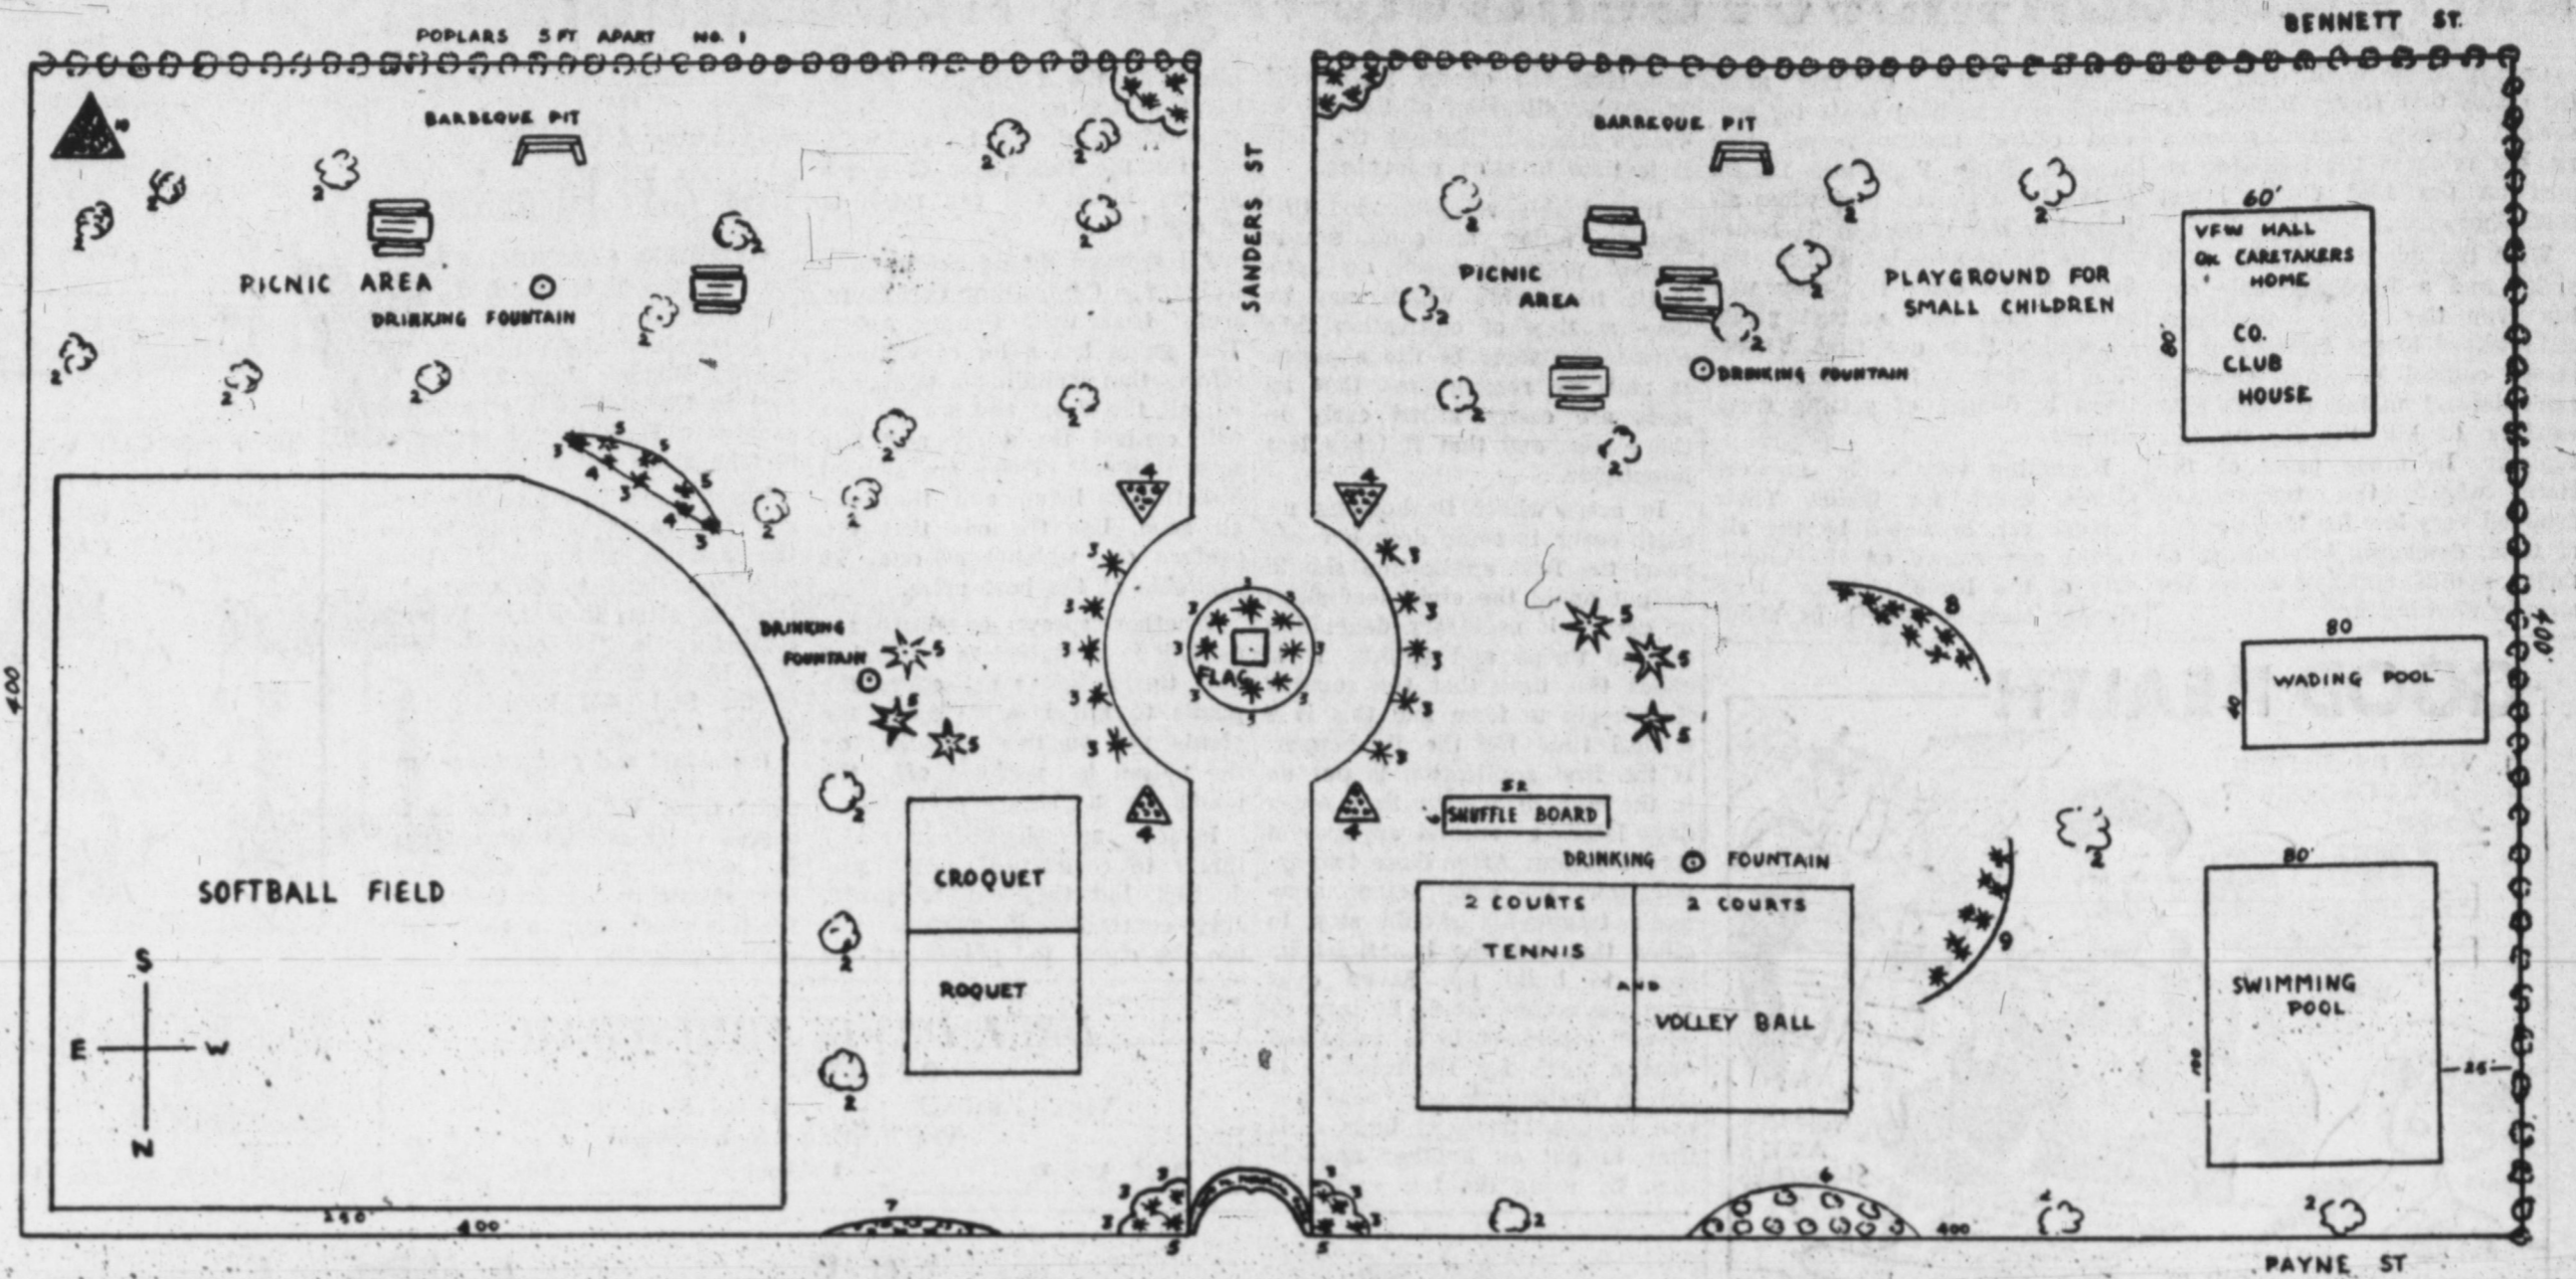

By 3 o'clock on the afternoon of filing suit the five elaborate Maceo gambling parlors had closed down because their wire service had been stopped by the court's order.

Daniel's suit was similar to the one he brought in 1949 against Western Union Telegraph Company and the Texas "front" for Continental Press which resulted in the first state-wide injunction in the country against using telegraph wires for transmission of gambling information.

Daniel alleged that the gambling information was being assembled from race tracks throughout the nation by "a so-called news service known as the Continental Press." He said "this organization is substantially influenced and in some places controlled by the Capone Crime Syndicate, which steals or otherwise obtains racing information from most tracks in violation of state laws."

Daniel said his assistants and investigators had been working on the case for months, but that they had withheld action until the House Crime Investigating Committee could complete their preliminary hearings on the Maceo operations. He said the committee hearings had been very helpful in completing certain phases of the case.

## Proposed Improvement For Lynn County Memorial Park — Jaycee Sponsored

### Savannah Tunnell Enters Radcliffe

Miss Savannah Tunnell left Tuesday morning for Cambridge, Massachusetts, where she will take a six weeks course in "Publication Procedures" in Radcliffe College. She graduated with a Journalism major at Texas Tech this spring.

Accompanying her were Miss Paula Fix of Lubbock, who will also study in the same school, and Mrs. W. A. Fix and Miss Rachel Dunaway, also of Lubbock, who will visit in the East.

The two girls recently were selected by the school for special work there.

Mrs. B. H. Baker of San Angelo is here this week visiting Miss Mary Seroyer.

Fresh, crisp vegetables provide vitamin, minerals and lots of just good eating for the family. Continuous planting will keep the home garden producing.

### Sheriff's Posse Will Ride Again

Lynn County Sheriff's Posse will make its next public appearance at the Lubbock Rodeo on next Wednesday, June 20.

Though the posse did not win first place at the recent Crosbyton Rodeo, the local group did receive the largest trophy it has yet won. This trophy was presented by Crosbyton to the Lynn county posse because it had the largest group of riders of any posse at the Rodeo there.

### Dr. Durham Buys Ranch Near Here

Dr. K. R. Durham has bought four and a half sections of grassland in the west part of the county from Winston Prichard, who also holds a lease on a large area of the T-Bar lands.

The land acquired by Durham is located just west of Double Lakes and surrounds a farm owned by him. His brother-in-law, Pat Hutchison, who operates the farm, will also operate the ranch.

### Woodworth's Kin Buried Recently

Mr. and Mrs. C. E. Woodworth on Tuesday of last week attended the funeral services in Vernon of a brother-in-law who died Sunday.

He was Gilbert Baskerville, 68, and had been ill nearly a year. His wife, a sister of Mrs. Woodworth, died about three years ago of a heart attack. Mr. Baskerville leaves one son and two grandchildren.

He had visited in Tahoka several times and had several acquaintances here.

More than 30,000 landings have been made on the carrier USS Leyte since it became part of the United Nations Naval Forces in Korean waters.

The Navy's air station at Coco Solo, C. Z. was used during World War II as the fleet air support and patrol plane base.

Last year, 299,500 pedestrians were injured in traffic mishaps in the United States.

### Letters From News Readers—

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

**A Note From Ben Moore**  
Saturday, we ate lunch in Temple. Stopped in Belton, where I ran into a suspicious character on the steps of courthouse. Name was SHIPP—owns a farm N. E. of Tahoka—been in Belton since the '70's, making him almost as old as the Editor of News?

I was watching for Salado, but hardly saw it as we dashed through enroute to Austin. Asked a well educated Mexican this morning just what the word means. Replied that it pertains to salt or salty formation. YOU should know more than I about that. Looked like a nice little stream there.

This owl tale of a few minutes ago strikes me as the most interesting to be received in a good many moons. Strange, we have not heard of this before. Probably been happening for a thousand nites.

—Ben.  
E. Note:—Yes, Ben, Bill Shipp and I went to school together at that same old college town, Salado. Shipp afterwards served as county judge of Bell county. His Lynn county land is out near Tahoka Lake. Glad he didn't tell on me. E. I. H.

**W. E. Holcomb—Bats At Carlsbad**  
(By Ben Moore)

W. E. Holcomb, O'Donnell, Texas ginner and who is a very observing sort of fellow, relates that late one afternoon he observed the bats as they emerged from Carlsbad Cavern. After circling about for a moment, they formed into pretty good sized armies and took off to the southeast. He also noticed a large owl sitting atop of a scrubby tree about 150 yards away, and beneath the usual path of the bats as they left each evening in search for flying insects.

An organized mass of the bats was approaching the owl's resting place when it rather leisurely glided up into their line of travel, spread its wings and appeared to almost sit upright in the air. It simply appeared to reach out with both feet, clamping down upon two "fistsful" of bats, none of which seemed to try to dodge the owl.

Mr. Owl simply dropped to earth with its prey, no doubt going back up for another helping at will.

This, it seems is a wonderful nature story. Some may suggest that such a naughty owl should be exterminated, but, on the other hand, this is probably Nature's way of helping to hold down the increase of the bats.

Forty-five farmer cooperatives were organized in 1950, not including health centers, cooperative hospitals and R. E. A. associations.

### Former Tahoka Resident Dies

Mr. and Mrs. J. R. Wyatt attended funeral services Tuesday at Levelland for a brother of his, Jordan Wyatt, who died on the preceding Friday morning. Deceased formerly lived in Tahoka working for Hall Robinson and others.

Funeral services were delayed pending efforts to secure permission of a son now in Korea to attend.

Another brother, W. N. Wyatt of Memphis, Texas, came for the funeral services and remained for a few days visit with J. R. Wyatt here.

Farmers should review their insurance needs in light of present day building costs and make needed adjustments.

**Endurance**

others talk about it, but

**MERCURY Proves it!**

**Facts Prove it!**

YES, OFFICIAL REGISTRATIONS PROVE THAT 92% OF ALL MERCURYS EVER BUILT FOR USE IN THIS COUNTRY ARE STILL ON THE ROAD!  
Extra Durability—Mercury's heavy-gauge, all-steel body and frame has special "bridge-type" bracing, reinforcing, welding—to withstand hard use.  
Less Maintenance—Mercury engine features like "controlled finish" cylinder walls, "full-flow" cooling, and chrome-plated top piston rings help assure top performance for thousands of extra miles.

**Miles Prove it!**

YES, MILE AFTER MILE OF TESTING—UNDER WORST POSSIBLE DRIVING CONDITIONS—PROVES MERCURY'S AMAZING DURABILITY.  
The Mercury you see in showrooms is built to withstand rougher handling than you will probably ever give it. Every part of the Mercury—the chassis, body, steering assembly, the "Hi-Power Compression" engine—is test proven to serve, to perform, to last years longer than you'd ever expect!

**3-WAY CHOICE!** Mercury now proudly makes available a triple choice in transmissions. Merc-O-Matic Drive, the new simpler, smoother, more efficient automatic transmission—or Buick Touch-O-Matic Overdrive are optional at extra cost. There's also silent-quiet standard transmission.

It's proof that may astonish you, but it's no surprise to Mercury owners. They know the dependability of their cars—the brassy frames, powerful engines, sturdy bodies. They know about the economy that took first-in-class honors two years in a row in Mobilgas Economy Run. They know about low upkeep, too! And your Mercury dealer can tell you his experience regarding resale value. He'll show you why your Mercury's value stays up—and he'll even prove it with used car market reports. Just one more way you save with the great new Mercury!

Standard equipment, accessories, and trim illustrated are subject to change without notice.

Try it today—**MERCURY** For 'the buy of your life!'

**INDIAN ENVOY ACCEPTS CROP GIFT**

A nation-wide appeal for grain contributions for India was opened in Chicago by the Christian Rural Overseas Program (CROP) in the presence of the Indian Ambassador, Madame Vijaya Lakshmi Pandit. CROP is shipping immediately 40,000 bushels of wheat to Bombay. Madame Pandit said, in accepting the gift: "This wheat will not only feed my people but also revive their spirit and show them the warmth and generosity of the American people, and it will build a bridge of friendship between our countries." Madame Pandit is seen above with officials of CROP, from left to right: John D. Metzler, Church World Service; Madame Pandit, Ray F. Murray, Catholic Rural Life, and Clifford E. Dahlin, Lutheran World Relief.

**OPS Price Clinic Here Monday**

By the time price specialists from the district Office of Price Stabilization start their price clinic day program next week, two important compliance deadlines will have fallen. They concern posting beef prices and consumer services. In their conferences with business men of the Far West Texas district, they will stress to merchants that if they haven't complied, they should do so immediately in order to continue to operate their business legally.

To assist the merchants, W. C. Reynolds, specialist in the Fuels and Chemicals branch, will be in Tahoka Monday afternoon, June 18. While here he will maintain offices in the City Hall.

Although he is a specialist, he will be able to answer most questions concerning compliance in any field, or will be able to help the business man find the answer. This price clinic program is conducted throughout the district under the co-sponsorship of the Lubbock district Office of Price Stabilization and local Chambers of Commerce and other community and civic organizations and officials.

Business men are not only invited, but urged to avail themselves of the assistance that can be given by the specialists. It is the plan to continue the price clinic day schedule throughout the district during the remainder of June and July, with the specialists visiting each town on the same day of the week.

Miss June Heck, who has been doing hospital work recently in a hospital in Lockney, has been here on a two-weeks visit with her parents, Mr. and Mrs. Herman Heck. She left Wednesday for Floydada to begin work as Medical Technician in the People's Hospital of that city.

**Plan Meeting At West Point**

Representatives of the Tahoka Baptist Brotherhood and of the Lakeview Baptist Brotherhood had a joint meeting at West Point Monday night at which plans were made for a revival meeting to be held at West Point soon under the sponsorship of the two Brotherhoods. Joint committees on arrangements, publicity, etc., are being named.

W. A. Reddell, associational Brotherhood president, Herman Heck, president of the Tahoka Brotherhood, and W. P. Hutchison, a member, announce that the preaching in the meeting will be done by the pastors of the two churches, Rev. Lee Ramsour of Tahoka and Rev. Vance Zinn of Lakeview.

Services will be held at night only, and Kevil Coffman, manager of the West Point Gin, tendered the use of the gin lot for the meeting. The grounds will be well lighted and every necessary facility provided. Jim Pendleton operates a grocery store near by and cold drinks and eatables of various kinds will be available.

The committee is already making arrangements for the seating of the premises. The meeting is being planned not only for the benefit of the West Point community but for all adjacent communities—Lakeview, Petty, Three Lakes, Newmoore, and other communities. It is expected that many from Tahoka and some even from Wells and New Home will attend.

Messrs. Reddell and Heck say that Lakeview has one of the most active and enthusiastic Brotherhood organizations on the South Plains, and that it is going "all-out" for this revival.

The meeting is being planned for July 29 to August 5.

Mrs. Lillah St. John and her daughter, Mrs. W. O. Wilson, left for their home at Richardson, Dallas county, Wednesday after having visited Mr. and Mrs. John Donaldson and other relatives here. Mrs. St. John and her daughter, Mrs. Wilson, came as far as Snyder Sunday, where they visited Mrs. Maude Donaldson, widow of the late Charley Donaldson, both of whom formerly lived here. The visitors came on up to Tahoka Monday afternoon.

**Marianna McGinty At Art Colony**

Marianna McGinty, daughter of Mr. and Mrs. Fred McGinty, left last week for Ruidoso, New Mexico, where she is spending three weeks studying in the Ruidoso Art Colony.

**THE LYNN COUNTY NEWS,**

### Denton Cotton Variety Tests

COLLEGE STATION—With 403 pounds of lint per acre, the Empire variety of cotton produced the highest yield in the 1950 variety tests conducted at the Denton Experiment Station, announced J. H. Gardenshire and D. I. Dudley, station research men.

Lockett 140, Deltapine (TPSA), Lankart 57 and Mebane 8G, Floyd, were the four next highest yielding varieties, in that order. All produced more than 350 pounds of lint per acre.

The research men report that Empire produced an average of 30 pounds more lint per acre than any other cotton variety in the tests conducted at Denton since 1946. The next highest yielder for the five-year period was Northern Star, with a 307-pound average.

Deltapine (TPSA), Deltapine 15 (Miss.), Dorch 1 (Roldo Rowden) and Mebane 8G, Floyd, followed closely behind Northern Star in average yields for the five-year period.

Also included in the 1950 variety tests were Hi-Bred; Rowden 41B (TPSA); Stoneville (TPSA); Stoneville 2B (Miss.); Texacala; Rogers; Mebane; Watson; Western

Prolific; and Acala 442 (Calif.). All varieties tested produced yields of 239 pounds of lint or more per acre last year.

These results are given in Texas Agricultural Experiment Station Progress Report 1366, available from the Publications Office, College Station, Texas. In addition to the yields of lint per acre, the report gives the grade, lint length, percentage of lint and boll size for each variety tested.

### Tahoka Students Are Accepted For McMurry Clinic

ABILENE, June 14.—Five students of Tahoka High School have been accepted for the McMurry Band School slated for July 23-August 4.

One-hundred and thirty-two students representing 26 West Texas towns have already enrolled in the school, which will be directed by Raymond T. Bynum, McMurry Band Director.

The summer band school is open to college and high school players and also advanced junior high players.

Classes will be offered in general musicianship, conducting, marching, twirling, elementary and intermediate theory in addition to band performance.

The Tahoka students and the instruments that each will study follows: Paxton Hutchison, trombone; Harold Hamilton, cornet; Sylvia Ann Thompson, drum; Jerrie LeMond, clarinet; Jeanell Martin, trombone.

Miss Laquita Smith underwent appendectomy in the Tahoka Hospital Monday. Her condition was reported Wednesday as entirely satisfactory.

French Equatorial Africa exported 343,000 tons of merchandise in 1950.

# Wildlife Furnishes Large Texas Income

COLLEGE STATION—Wildlife furnishes not only recreation and food for a considerable number of the people of Texas, but also an income of more than \$2,000,000 years to landowners for hunting and fishing leases, while the pelts taken by hunters and trappers of furbearers amounts to several million more. The wildlife population of the land is perhaps

more thoroughly safeguarded and more widely distributed today than at any time in recent years. In 1950, for example, 996 deer, 160 antelope and 557 other wild species were shifted for restocking game preserves in other adapted areas. Inland fish resources stem from about 150,000 ponds on farms, 1,049 lakes of five acres or larger with a com-

ing in marksmanship and these youths accounted for 6,594 predators by different means in 1950. In the same period, 1,002 club members produced 28,657 rabbits for meat or breeding, while over the state 124 community cooperative game management associations were active.

The variety of Texas' wildlife is diverse and several species are plentiful. The Extension specialist lists 32 game and fur bearing animals extant, and 11 species of native and migratory fowls and birds. But some animals have dwindled to mere traces. Bighorn sheep, for example, are found sparingly in two Texas counties; black bears in three, and ocelot in a like number.

The specialist emphasizes that while protection is needed at all times, it is not self-sufficient. Wildlife population is largely dependent upon available food and shelter and closed seasons mean little where food and cover are lacking. The harvesting of game as a crop is encouraged and such is preferable to long-time closed seasons except when seed stock is at stake or a species is approaching extinction.

Preservation and propagation of species of animal and bird life in Texas is attributable in substantial measure to the demonstrations in conservation which the A. & M. College Extension Service has sponsored in cooperation with land owners for the past decade and a half.

The Extension program is headed by R. E. Callender, wildlife conservation specialist, working as an assistant-at-large to county Extension agents who deal directly with the people. In this capacity Callender prepares subject matter for use in the field and assists Extension district agents with plans for demonstrations in their districts. In addition, he cooperates with Federal, State and local organizations concerned directly, or in association with phases of wildlife.

Selections from achievements in 1950 reported by county agricultural agents reveal substantial to excellent wildlife programs in 212 counties; 13,500 persons cooperated in 2,089 demonstration areas representing 14,631,000 acres, and 37,000 protective signs or markers were posted on property of cooperating land owners. The Extension specialist estimates that since the Extension program was commenced 14 years ago, more than 125,000 such markers have been erected at a cost of about \$73,000 to cooperators. Other, but related, activities included 9,761 farmers assisted with specific improvements for wildlife; 18,407 farm ponds constructed by cooperators; 6,233 farm ponds stocked with fish; and more than 38,000 predatory species trapped or destroyed by other means during the year.

A wildlife conservation demonstration program for members of 4-H clubs, with 11,034 enrolled was conducted by the Extension specialist in association with county agricultural agents parallel with that for adults. In the course of this work 13 county wide 4-H Club conservation camps were held and 298 communities were represented at county, district, or state camps. A total of 3,800 4-H members received train-

### SHARP KNIVES MEAN EASIER HAYMAKING

Sharp knives in the hay baler can save lots of time and trouble in the hay field. Handling knives safely is important when removing and installing as well as when sharpening, when goggles should be used. It is important to keep the original degree of angle to avoid getting the blade so thin it might bend instead of cut. If least a 6" grindstone should be used to avoid hollow-grinding. Farm Engineers at New Holland, Pa., also offer this tip: Don't grind down to remove a "nick". Just sharpen the "nick" where it is... it will cut just as well that way.

### Hints Given On Child Care By The State Health Dept.

AUSTIN, Tex., June 14.—"Being a baby is a real hazard in either winter or summer but much can be done to avoid or at least lessen some of the hazards that are associated with hot summer days," declared Dr. Geo. W. Cox, State Health Officer. Summer is the season in which death from intestinal disorders has in the past exacted its greatest toll.

"To guard the infant against such danger, care must be taken that his food, especially milk is pure and kept safe. If there is any uncertainty concerning the water supply, the baby should drink only water which has been boiled and cooled and kept covered. The baby and all his food must be protected against flies.

"Baby himself and all the things with which he comes in contact should be kept as clean as possible. Plenty of fresh air and sunshine are essential for the best health of the infant. The baby's body should be gradually exposed to the direct rays of the sun; begin with exposure of only part of the skin surface for three to five minutes and slowly increase the area of skin and time once

or twice daily. "Care must be taken to keep the baby free from prickly heat by keeping the skin clean and not too warmly dressed or covered. If the baby is comfortable, he will get his usual amount of sleep and will eat and develop normally. In case the child shows symptoms of any abnormal conditions, the family physician should be consulted at once."

Every day should be Farm Safety Day on the farm. The practice of removing hazards from about the farm and home may prevent farm accidents that too often are caused by carelessness.

# Post Sets Date For Their Annual Junior Rodeo

## Myrla Holcomb On Honor Roll

ABILENE, June 14. — Myrla Holcomb, McMurry College student from Tahoka, was named to the honor roll for the spring term, according to Jerome Vannoy, registrar.

## CARD OF THANKS

We wish to thank all of our neighbors and friends for the many acts of kindness shown us during the illness and upon the death of our beloved husband, father, and grandfather. Also we deeply appreciate the words of comfort, the food prepared, and the lovely floral offerings. May God bless you all. — Mrs. D. A. Cook, Thedo and family.

Scalloped cabbage is a delicious dish to serve with frankfurters. While you have the cabbage in the oven bake some potatoes to serve with this menu, too.

Official slogan for the second Armed Forces Day was, "Defenders of Freedom."

## ROSE

— FRIDAY & SATURDAY —

— SUNDAY & MONDAY —

— TUESDAY —

— WEDNESDAY & THURSDAY —

The Post, Junoir Rodeo, Inc. will present the fourth annual Southwestern Championship Junior Rodeo at Post, on August 7, 8, 9, 10, and 11. This rodeo is produced by and for boys and girls under twenty years of age.

Seven events will be featured in the rodeo and they are calf roping, bull riding, calf bolting, bareback bronc riding, cutting horse contest, barrel race, and flag race.

All interested boys and girls should write Leon Miller, Post, for entry blanks and other information on the show. All entries must be in by noon on August 6.

More than three hundred contestants are expected for the rodeo this year as more than two hundred and fifty competed last year. This is the largest event of its kind in existence and it is the "World's original all-junior rodeo."

A Quarter Horse Show is to be held in connection with the rodeo and adults as well as juniors may enter horses in it. Entry blanks for it are available on request.

Two long parades featuring riding groups from all over West Texas, national magazine and movie coverage, top stock and specialty acts, should make the show one of the best to be presented this season.

For a fresh asparagus treat try serving them with fish fillets and cheese sauce. Add crusty rolls, fruit salad and a beverage, and you have a whole meal.

Go To Church Sunday.

## Bray Chevrolet Will Demonstrate Power Glide From June 18 to 30

If you want to drive a Powerglide Chevrolet visit the showrooms of the Bray Chevrolet company from June 18 to 30.

A. M. Bray has set aside special demonstrators for use of the public and the period will be devoted to giving as many people as possible rides in the cars. Because of the customer demand for Powerglide automatic

transmissions in this area, Mr. Bray explains, he has been unable to set aside demonstrators. However, he will hold cars solely for this purpose through the demonstration period.

"Chevrolet has just built its 500,000th Powerglide and to observe the milestones it has requested all dealers to co-operate in mass demonstrations," he de-

THE LYNN COUNTY NEWS,

Friday, June 15, 1951

clared.

Mr. Bray pointed out that Powerglide differs from other automatic transmissions on the market in that it represents a "package" improvement. Included, besides the revolutionary automatic shift, are a more powerful engine of 105 horsepower and an "Economiser" rear axle.

"The opportunity for mass demonstrations here will show what owners have learned in more than a billion miles of driving," Mr. Bray declared. "Even a brief trial will prove that Powerglide-equipped cars are easier and more restful to drive.

"With Powerglide, the car has no clutch. This means the elimi-

nation of hundreds of manual operations in the course of an average day's driving. The result is that a driver finishes the day more refreshed and relaxed. A person has to experience the effortless process of automatic Powerglide fully to appreciate its advantages.

"We urge everyone not acquainted with automatic transmission to visit our showrooms during the special demonstration period to find out for himself all the features of Powerglide automatic transmission."

Insubordination seems to be a bigger reason for dismissal than inefficiency.

# Gifts to Please EVERY DAD

FATHER'S DAY . . .  
SUNDAY, JUNE 17th

Just once a year, this day has been set aside on which to honor Dear Old Dad . . . He will appreciate a remembrance that he can use . . . and he always appreciates something he can wear. See our selections of suitable and economical gifts he will be proud to receive.

## Southland Lead Is Cut Down

Grassland and Tahoka softball teams are back in the running in the Square Deal League by virtue of victories the past week.

Tahoka defeated the league-leaders, Southland, there Tuesday night by a score of 7 to 2. Last Friday night, in a game played here, Tahoka nosed out O'Donnell 8 to 7. Bobby George Oliver was on the mound against Southland, and J. W. Rainey was the winning pitcher in the O'Donnell game.

Since last week's News was published Grassland has won three league games, two against Post and one against O'Donnell.

Thursday night, Storie Motors of Post and Grassland replayed a game previously thrown out as result of a protest, and Grassland won easily 13 to 0. Bill Murry was the winning pitcher and Ingram the losing hurler. Friday night, Grassland again whipped Post by a 15 to 4 score. Tuesday night, the Grassland team downed O'Donnell 8 to 0.

Last Friday night, Southland won a non-league game from a Lubbock team 4 to 2.

Standings in the league to date, according to results released by E. L. Short, secretary, are:

	Won	Lost	Pct.
Southland	6	2	.750
Grassland	6	3	.667
Tahoka	6	3	.667
Post	2	5	.286
O'Donnell	1	8	.111

Southland and Post yet have one game to complete which was ruled a tie in the ninth inning.

Tonight, Friday, Southland plays at Grassland, and O'Donnell is at Post.

Next Tuesday, Post goes to Southland, and Grassland comes to Tahoka.

### WILSON GIRL BREAKS ARM

Willie Pat Baxley, daughter of Mr. and Mrs. W. T. Baxley of Wilson, fell from a swing on Thursday of last week and broke her arm at the elbow. She was taken to a Lubbock hospital, where the injury was given surgical treatment.

Her father, Mr. Baxley, is carrier of the mail from Slaton to Wilson.

Go To Church Sunday.

## City Court

(Cont'd. From Page 1)

ago was named City Attorney.

Russell McGee was recently elected Corporation Judge. New City Ordinances have been written, and the City Council believes it now has met proper regulations to enforce its ordinances.

The Council and Police have been warning citizens of Tahoka for several months that laws, especially traffic regulations, will be enforced more stringently in the future in an effort to cut down on accidents and promote safety within the city limits.

Fast and reckless drivers will receive special attention. The News is informed. Now, the citizens are respectively asked to give their full cooperation to this tightening down on traffic violators which they have been demanding for so long.

Parents of children drivers are warned that they face possible embarrassment unless they exercise more care in who drives the family vehicle and how it is driven on Tahoka's streets.

The City has also bought 40 stop signs which will be installed in the next few weeks at dangerous intersections in the town.

### Local Methodists At Lubbock Meet

Attending the Lubbock District Methodist Stewards meeting in that city Tuesday were Rev. and Mrs. J. H. Sharp and daughter, Miss Grace Marie, Rev. Ben Hardy, Mrs. Maurice Small, and John Sløver, district steward of the local Methodist Church.

Rev. Sharp had a part on the program, speaking on the Mission program for the district this year.

Rev. D. D. Denison of Brownfield spoke on the Evangelistic program which is coming up in October.

Many other different phases of the Methodist work were discussed at the meeting.

### BURKHART GETS WELL

Grady Burkhardt has a new irrigation well on his farm in the Edith community. The well is said to be one of the best in this area, capable of well over a 1,000 gallons.

## Meeting Closes At Sweet Chapel

A highly successful three-day revival at the Sweet Street Chapel came to a close Sunday night with the addition of nine new members, eight by baptism and one upon the promise of a letter.

There were four other professed conversions, and one re-dedication.

Rev. W. H. Scantling is the popular and hard-working young pastor of the Sweet Street Mission. Rev. Ross Anderson, a Ministerial student in Wayland College did the preaching for the meeting. The song services were led by a local man, Albin Ratliff.

A very successful Vacation Bible School was also conducted in the Chapel last week, coming to a close with a program Friday night. About sixty children and workers enrolled in the school.

On Sunday morning, 69 persons were present at the Sunday School hour and many others during the worship services that followed.

### Congratulations:

Mr. and Mrs. Edgar Esch of Route 4, Tahoka, upon the birth of a son weighing 9 pounds at 10:51 a. m. Thursday, June 7, in the Tahoka Hospital. The athletic little fellow has been named Robert Dewayne.

Mr. and Mrs. Leonard Nash upon the birth of a tiny little daughter weighing only 4 pounds and 12 ounces at 12:12 a. m. Friday, June 8, in the Tahoka Hospital. The mother was released from the hospital on Monday, May 11, but the babe is yet under the care of a physician in the hospital but is said to be doing well. She has been named Margaret Ruth.

Mr. and Mrs. Dale G. Zant, Wilson, Rt. 1, on the birth of a daughter weighing 6 pounds 8 ounces at 3:03 a. m. Monday in a Lubbock hospital. The Zants live about six miles north of Tahoka.

Mrs. W. C. (Dub) Harvick has been a medical patient in the Tahoka Hospital since Friday of last week. Her condition was very serious for several days, but she was reported to be much better Wednesday. She is the former Miss Valerie Wells, daughter of R. C. Wells.

## Wreck

(Cont'd. From Page 1)

legs at the knee. He also was rushed to the Tahoka Hospital, where he received surgical treatment but there was considerable swelling of the leg, and before it could safely be placed in a cast, Tuesday, pneumonia developed, and his condition throughout the day was not as favorable as might have been desired. He was better Wednesday morning however, with prospects of being taken home that day or the next.

The boy's mother was in the car when the accident occurred but was not injured. His father rushed down to Tahoka from Roswell as soon as possible after he was informed of the injury. The father and mother remained here with their son until he was able to be transferred to Roswell. The mother of the boy is a cousin of Mrs. Lee Ramsour, whose husband is pastor of the Frist Baptist Church here.

Billy Moore, about 19, an older son of Mrs. Ernest Tucker, was driver of the car, a Studebaker, at the time of the accident. He was practically uninjured. There were three other children also in the car but none of them was injured except from shock.

All the Roswell-Graham residents in the party proceeded on to Roswell Tuesday except Bobby and his parents, Mr. and Mrs. E. C. Tucker.

Dr. G. W. Williams, a veterinarian and a pioneer resident of Tahoka, was the driver of the other car. He was not seriously injured, but received a cut on the head that required only a few stitches to close.

The smash-up occurred out near the J. T. Tippit home. It is said that Dr. Williams was intending to turn onto a side road near the place of the collision but apparently was wavering in his mind whether to make the turn before or after meeting the approaching car. Possibly he became confused and got partially over on the wrong side of the black mark in the middle of the highway at the wrong time. Apparently the driver of the Studebaker, in the emergency that confronted him, swerved his car to the left in an effort to avoid a collision, for it was the right-hand side of the front of his car which the Williams car struck and smashed in. The car appeared to be almost a total wreck. The Williams car, which was an old model, was also badly wrecked.

Ernest Tucker is said to be a business man in Roswell. Leaving him at home, the family had gone down to Graham to visit his parents and to take them out to Roswell for a visit there. This they were doing when the accident occurred.

Although the injured persons were strangers to the people of Tahoka, everybody here apparently is hoping for the complete and speedy recovery of little Bobby.

Of course they sympathize with Dr. Williams too, for they know that he had no intention of causing such a tragedy.

### Dave Cook

(Cont'd. From Page 1)

pastor, Rev. Silas Dixon, and a former resident of Draw, Rev. Gerald McCollum, now Superintendent of the Wichita Falls district of the Northwest Texas Conference.

Burial followed in the Draw cemetery under the direction of the Stanley Funeral Home of Tahoka.

Survivors include his wife, Mrs. Della Cook; one son, Thedo Cook; and two grand-daughters, Bertha Marie, 15 and Druella, 13, all of Draw; one brother, J. H. Cook of Lubbock; and one sister, Mrs. Mattie Murray of Athens, Texas.

Mrs. Murray and her husband and their son, Roy Murray, and his wife and baby, all of Athens, came out for the funeral.

Mr. Cook was born November 1, 1884, in Erath county. He moved with his parents to Anderson county when he was a small boy. His parents, Mr. and Mrs. Daniel Cook, both died in Anderson county, and he came to Hill county as a youth of 18. He was married at Huron in Hill county on June 25, 1911, to Miss Della Basham. One son, Thedo, was born of this marriage. The family removed to Lynn county in October, 1923, and they have continued to reside in this county at Draw ever since.

He was highly respected by his friends and acquaintances, a great number of whom attended the funeral services Monday.

Song books containing hymns in English and Korean have been distributed in Korea by the U. S. Army to American and Korean Christian soldiers.

## Mrs. Perry

(Cont'd. From Page 1)

pital since March 27 of this year.

Born in Burleson county on December 9, 1875, her maiden name was Miss Ina Price. She grew to womanhood and was married to W. S. Perry in that county, and the family moved to Lynn county in 1916. She had been a Christian since her girlhood days and united with the Baptist Church at New Home soon after moving to this county.

She and her husband reared a fine family of ten children. Surviving her are the husband, four sons, and six daughters.

The sons are: H. H. Perry of

Gladolia, New Mexico; Seaborn W. of Meadow, Texas; John B. of Marysville, California; and Rev. Wayne O. Perry of Sudan, Texas, pastor of the Sudan Baptist Church.

The daughters are: Mrs. Beulah Nettles of Meadow, Texas; Mrs. Lora Watson of Sacramento, California; Mrs. Dottie Harmonson of Meadow, Texas; Mrs. Katherine Bartlett of Lorenzo, Texas; Mrs. Nettie Mae Dillard of Lubbock; and Mrs. Estelle Clopton of Lubbock; 33 grandchildren and 13 great-grandchildren.

One brother also survives, O. B. Price of Patricia, Dawson county.

The esteem and affection in which Mrs. Perry was held is amply attested by the great out-

pouring of relatives and friends at the funeral and the unusually long procession who followed the remains to the Tahoka cemetery. She was a devout Christian, a devoted wife and mother, and a warm-hearted friend to everybody who came to know her.

A delicately balanced system of efficient farming, public relations farming and political farming is very important to American agriculture.

Research reveals that men become much smarter after marriage. But then it is too late.

Remember, it is easier to throw out rubbish today than to put out fires tomorrow.

## Miss Anna Faye Cowan, Wayland Walton Vows Read In Church Ceremony Saturday

Miss Anna Faye Cowan, daughter of Mrs. Winston Davies of New Home, and Wayland B. Walton, son of R. C. Walton, of Snyder were united in marriage at the First Baptist Church in New Home at 2:00 p. m., Saturday, June 9. Rev. C. E. Strickland read the double ring ceremony.

The church was decorated with baskets of gladioli and fern.

Traditional wedding music was played by Mrs. R. B. Daugherty. Boswell Edwards sang "Ah Sweet Mystery of Life," and "Indian Love Call" was sung by Mr. Edwards and Mrs. Claude James, aunt of the bride.

The bride, was given in marriage by her twin brother, Daniel Ray Cowan. She wore a ballerina length dress of white embroidered organdy, with all-around gathered skirt scalloped around the hemline, and worn over a taffeta underskirt. Solid embroidery formed the bodice front with very full three-quarter length sleeves set into dropped shoulder armholes. She wore white accessories and a cloche of white lace with shoulder length veil. She carried a white Bible topped with orchids and stephanotis.

Mrs. Charles Freeman of Crosbyton attended her sister as matron of honor. She wore a navy blue organdy dress over taffeta, with white accessories, and carried colonial nosegay of miniature asters.

Bridesmaids were Sue Beth Cowan, sister of the bride, and Norma Evans. They wore identical dresses.

### CARD OF THANKS

I wish to take this method of expressing my sincere thanks and appreciation for all of the kindness and thoughtfulness of all my friends and neighbors while I was in the hospital and since I have been home too. May God bless you all. —Earl Proctor.

ADDING MACHINE rolls, fit all standard machines. —The News.

cal dresses of pink organdy over taffeta with white accessories and carried nosegays of miniature asters.

For something old, the bride carried a handkerchief which had belonged to the groom's late mother and for something borrowed, a bracelet belonging to Mrs. Graham George; something new, a white Bible, and she wore blue garters and a sixpence in her shoe for good luck.

Gerald Walton of Snyder brother of the groom, served as best man. Ushers were Don Cowan of Lubbock and Carleton Davies.

At the reception which followed at the home of the bride, the young couple were assisted in receiving by Mrs. Davies and the bride's attendants. The table was laid with a lace cloth over blue and centered with a white three-tiered wedding cake topped with a miniature bride and groom. White daisies and fern surrounded the punch bowl, flanked by blue tapers. Presiding at the table were Misses Bernice Fillingim, and Norma Evans, Mesdames Claud James and Boswell Edwards. Miss Patricia Inman, cousin of the bride, presided at the bride's book.

Out of town guests registered from Crosbyton, Lubbock, Snyder, Colorado City, Lamesa, Southland, Tahoka, Sudan, Anton, and Culver City, Oregon.

Miss Gerald Walton, aunt of the bride and sister-in-law of the groom, made moving pictures of the wedding.

After a wedding trip to New Mexico and Colorado, the couple will be at home at 2401 Avenue H., Snyder, Texas, after June 17. For traveling, the bride wore a white linen dress with a bolero, white accessories and an orchid corsage.

The bride was reared in Tahoka and lived here until two years ago when they moved to New Home and graduated from New Home High School with the class of 1951.

The groom was reared in Snyder and is a graduate of the high school there. He served 15 months with the U. S. Navy. He is now employed with McCormick wholesale Gas Co., in Snyder.

A rehearsal dinner was given Friday night in the home of Mr. and Mrs. Boswell Edwards, for the bridal party.

## Jack Brice, James Price Received Their Degrees At S. M. U. On June 4

DALLAS, June 4. —Two students from Tahoka received Bachelors degrees from Southern Methodist University in graduation exercises held June 4.

Dr. Umphrey Lee, president of the University, gave the commencement address to more than 700 graduating students.

Jack H. Brice, son of J. T. Brice, Tahoka, received a Bachelor of Business Administration degree. Brice, who majored in General Business, graduated from Albany high school in 1946.

James Edward Price, son of Mr. and Mrs. J. G. Price, Tahoka, re-

ceived a Bachelor of Divinity degree. Price, who served in the Air Force during World War II, graduated from Tahoka high school in 1939 and attended Texas Tech before coming to SMU.

Mrs. Maudie Chandler and daughter, June, of Culver City, Oregon, arrived in Tahoka Saturday morning to visit her mother, Mrs. W. P. Inman, and to attend the wedding of her niece, Miss Ann Cowan, in New Home.

# Here's 180 Horsepower... on regular grade gas—Now!

NEW YORKER NEWPORT

It's always interesting to hear about future-looking experiments with new super engines to run on new super-octane fuels...someday.

But it's even more interesting to hear today's real life, on-the-highway talk about Chrysler's new super-performing FirePower engine. FirePower takes any regular grade gas you care to buy... and adds its own

**180 HORSEPOWER** Here's the new Hemispherical Combustion Chamber that's the heart of Chrysler FirePower. Its new, designed-in "mechanical octanes" make regular grade gas do what best premium grades can't do in any other engine you can drive today!

new mechanical octanes to the power-giving octanes of the gasoline itself. The result is 180 horsepower performance such as no other passenger car built in the U.S. today can equal.

If you haven't driven Chrysler FirePower yet, your Chrysler dealer invites you to do so now. It's the most revolutionary engine in 27 years. It offers highway satisfaction and safety such as you've never known.

And it's a sounder engine other ways than any other on the road. Its new design keeps it almost completely carbon-free. It is smooth and quiet... but also rugged

and strong and free from need for great attention and repair.

Now remember that this same new Chrysler offers you the new Hydramatic power steering\*... plus the amazing new rough-road stability of Oriflow shock absorbers... plus Water-Proof Ignition, and Vacuum-Ease Chrysler Cyclebonded super-brakes... then come see what we mean when we say the car of your tomorrow is right here for you to drive... today, and for years to come!

\*Hydramatic regular on Crown Imperials, optional at extra cost on other Imperial and New Yorker models.

# Odds AND Ends

(By E. I. The Elder)

(As Told To Him By Ben Moore of O'Donnell)

As you, dear reader, will remember, I told you last week a lot of things about our friend Ben Moore of O'Donnell. But there is one very important thing that I forgot to mention. Ben Moore is almost an authority on the Indian lore of the great Southwest, which includes Texas, Oklahoma, New Mexico, and Arizona. Of course he doesn't know everything about all the Indians who have inhabited this great section of our country during the past century but he knows a lot about a few of the most important ones. He has known some of them personally and intimately. So, recently, I suggested that he give my readers, if any, the benefit of some of his knowledge. He consented to do so and so wrote

down most of the facts set forth in this column this week. Of course the comments are mine, unless otherwise indicated.

The thing that aroused my immediate interest was the fact that when we got ready to start out on a little expedition of exploration in these diggings recently, he stuck a big Indian bow almost six feet long and a quiver of five or six arrows in my car. I began to wonder how come, where he got them, and if he was expecting to need them somewhere on the trip. Well, you will find his answer in the story below, most of which is written in his own words, and all of which is authentic. So here goes.

Got Arrows from Quannah Parker's son  
In 1941, a son of Quannah Parker,

They're Ready to Answer ANY Call

Telephone people have always outdone themselves when the pressure is the greatest. In local emergencies, the cool efficiency of the telephone worker has been duly noted and praised.

In the national emergencies such as the present one, you can depend on them. The telephone workers will keep running smoothly the communication that has been rightly named "the speaking voice of America's might."

Ciceró-Smith Lbr. Co.

er, Rev. White Parker, visited Ben Moore in his home in O'Donnell, having previously become acquainted with Ben, and according to Indian custom he brought along a "peace offering" consisting of a very fine bois 'd arc bow and 22 arrows, giving them to Moore's young son, Elvin Ray, then 13 years of age, the approximate age of the Indian daughter, Cynthia Ann, who also came along. Elvin Ray became adept in the use of the bow and can today outshoot his Indian contemporaries, although he rarely ever has anything to say about his superior skill.

This son of Quannah Parker had been converted to Christianity and had become a Methodist Minister and Missionary among his people years before he visited Mr. Moore at O'Donnell. His daughter, Cynthia Ann, was a great-granddaughter of the original Cynthia Ann Parker who was captured by the Comanche Indians at old Fort Parker on the Navasota River near the present town of Groesbeck May 19, 1836 and taken by them to the then far Northwest, and who was re-captured by Sul Ross of Waco and his Texas Ranger force 24 years later, 1860, on the Pease River near Medicine Mound, Texas, and restored to her relatives. She was eight years old when taken into captivity and was about 32 years old when re-captured. In the meantime she had married Chief Nocono and had left at least one son, Quannah, who himself later became an Indian chief. He was only half Indian, and half white. His son, the preacher, was reputedly 3/4 Indian and 1/4 white, but among his white friends he was known as "White Parker." His Indian name, Ben says, was Mahchut-towovky (you pronounce it, Ben and I can't do so) but Ben learned that its meaning was "Pushing one off the precipice from behind." All Indian names, you know, have a meaning.

Cynthia Ann Parker, daughter of the preacher, Rev. White Parker, who accompanied him to O'Donnell in 1941, was also a very devout and zealous Christian; but several years ago, Ben says she married a full-blood Comanche Indian, and the couple now have at least two sons. It is presumed that her husband is also a Christian, although Ben had no information on that point. They live near Lawton, Oklahoma.

Rev. White Parker visited Mr. Moore also in August, 1949, and was accompanied on that trip by a granddaughter, whose name was Topetchy Quannah Kay. She is a great-great-granddaughter of the original Cynthia Ann.

Moore Meets Missionary Butterfield, Friend of Parkers and Geronimo

Rev. A. E. Butterfield, many years ago, was sent by the Texas Methodist people as a missionary to the then wild Indians in the Fort Sill area, and after the turn of the century he spent much time traveling over West Texas, preaching at country school houses and churches, and often showing to his friends what in those

days was not fully appreciated, a most valuable collection of Indian goods and artifacts, which he had gathered among his many converts in Oklahoma—the Comanches, Kiowas, and Apaches, especially.

More than once, in the 1930's, Butterfield visited one of his favorites among Methodist pastors, Rev. George Montgomery, the pastor at that time of the O'Donnell Methodist Church. Montgomery had been reared principally in the vicinity of Tule Canyon and he and White Parker were fast friends. It was on these visits of the old Missionary, Rev. A. E. Butterfield, with his friend Rev. George Montgomery that Ben Moore met him, learned that he was a nephew of the famous John Butterfield who had operated a stage-coach line over the Butterfield Trail away back in the years of 1857 to 1860, and became fascinated, he says, by the rugged character of this unique man who had lived so long with the Indians but took no credit for having brought about the conversion of a good number of the wildest chiefs, among whom were Lone Wolf, Kicking Bird, and others as famous. Butterfield could have convinced the gullible, Moore says, that he had converted Quannah Parker, greatest of the Comanche chiefs, and Geronimo, probably the most wily of all the Apache chiefs. But not so, Quannah was Butterfield's close friend; but Geronimo, though preached to by Butterfield, first at the invitation of the U. S. Government military officers, Gen. Miles and Gen. Mackenzie, died in 1909, still mad with all Palefaces.

It was through Ben's chance meeting with Missionary Butterfield in O'Donnell in the 30's that he got acquainted with Butterfield's fast friend, White Parker.

Geronimo Was Neither Killed Nor Captured

The reports often made and generally believed that Geronimo was finally captured out in Arizona and that he was confined in a prison cell at Fort Sill, Ok-

lahoma, for a number of years preceding his death, are not true, Butterfield vehemently contended, Ben says, and picture shows that picture him as having been killed in battle are pure bunk. The picture show people are not interested in the facts of history; they are simply trying to make an exciting show on the screen.

As most historians know, Ben says, Geronimo, the last leader of the fighting Apaches, was in Arizona, across the line from Silver City, New Mexico, in September, 1886, when he came to realize that to continue fighting the Palefaces meant only the needless sacrifice of his own people. An emissary was sent to his enemies whereby he offered to surrender, notwithstanding the common belief that he was captured. Of course his offer was eagerly accepted, and he was taken to San Antonio on a Southern Pacific train. From the train, he and his wife rode in a hack to Fort Sam Houston. Then he and a number of others who had been rounded up in Arizona were removed to Florida for a long stay, a rather cruel act on the part of the Government, Ben thinks, since the Apaches were accustomed to a high climate.

Some False Beliefs De-Bunked

In the course of time, while Butterfield was preaching at his Mission in the Anadarko-Fort Sill section, Geronimo was taken from Florida to the Fort, not in chains, as blood-and-feathers writers would have you believe, but of course under close guard. Butterfield curtly remarked that Geronimo had plenty of brains and knew better than to make a break so far from his stomping grounds. Butterfield was also much disgusted with the theory that Geronimo almost wore out the cement floor in the prison as he paced back and forth. Butterfield never saw Geronimo in a cell, he said, even if he was ever placed in one.

Geronimo's Wife Sells Bow and Arrows

Geronimo and wife were living

in a tent, as were the other Apaches, under guard, when the wife called to the young Missionary in much broken English but mostly through sign language, Butterfield asserted, offering to sell to him the chief's finely decorated bow and quiver, neither of which had been molested by U. S. Army officers. However, they had been secreted under the Geronimos' bedding, which lay upon the ground in the tent.

Butterfield informed her that he was but a poor Methodist preacher and hence he was unable to make the purchase.

She replied, "White man heap big lie, got plenty money," then demanded his purse. She emptied it, but no one will ever know the amount taken, since the mouths of all the participants in the deal are forever closed.

The scowling husband could speak a bit of English and remarked, "No difference about the bow; the woman she make it." Continuing, he said, "Hate to see quiver go, my mother make it when I was (measuring himself) a small boy." Likely the quiver of dressed horsehide was made

about 1840. It is now quite fragile, though once evidently very beautiful. "Certainly, palefaces have fallen from arrows taken from this carrier of the dreaded weapons which were so efficiently directed by the wily Apaches," (Continued)

## Flies Cause Of Livestock Loss

COLLEGE STATION—Flies affecting livestock cause tremendous loss to the farmer each year. Therefore, it is to the livestock man's advantage to provide the best possible control of these pests.

R. O. Dunkle, Young county agricultural agent, reports that many ranchmen in Young county are spraying their herds for hornfly control. Dunkle estimates that if one-half of the cattle in the county were sprayed regularly through the fly season, beef production would be increased over half a million pounds.

Charlie Cavp, Kaufman county cattle breeder, said recently that the cattle in his herd, which were sprayed last year, were at least 10 percent better than unsprayed animals.

It is usually necessary to apply specific control measures for each species of fly, says James A. Deer, assistant entomologist for the Texas Extension Service. Deer points out also that different control measures are required for different types of livestock. Dairy cattle should not be sprayed with insecticides that may contaminate the cows' milk. He suggests that livestock men contact their county agricultural agents for the latest recommendations on controlling hornflies, stable flies, horse flies and houseflies. Hornflies alone may cost the livestock producer 50 pounds or more of beef per animal a year.

Go To Church Sunday.

## Odds & Ends

(Cont'd. From Page 2)  
 Ben Moore observes. "We do not have an accurate account of the fashioning of the bow," Ben says, "only that 'the woman make it.'"

"The woman," (Geronimo's widow) died in the Indian hospital in Mescalero about 20 miles south of Roswell, New Mexico, about 11 months ago, July 6, 1950, 41 years after the death of her notorious husband. Shortly before her death Mr. Moore had "the privilege of placing a hand upon the brow of the cringing follower of the wild chief" who had struck so much terror into the hearts of so many of the palefaces of the great Southwest. She was known in later years as "Kate Crosseyes" Geronimo, because of this unfortunate defect in her eyes, of which she always seemed to be ashamed, which explains, as Ben says, "why she closed her eyes as the hand touched her forehead." Even though she was very old and ready to die, she recognized Ben, a fact of which he is very proud and by which he is thrilled every time he thinks of it.

One son survives the Geronimo family. Now in frail health, he desires to remain in semi-seclusion.

More Coming Next Week

THE LYNN COUNTY NEWS, Friday, June 15, 1951  
 story, friends, but this explains how it happened that Ben Moore became well acquainted with the old Missionary, Rev. A. E. Butterfield; with the Indian preacher, White Parker, son of the old chief Quannah Parker; with Geronimo's wife, or squaw, Kate "Crosseyes" Geronimo; and how he came in possession of that marvelous Indian bow, and quiver of arrows, which he placed in my car—and carried around with us on that little search for river heads, arrow heads, gorges and waterfalls, and other tell-tale evidences of the passage of time, years of ages, along the rim of the caprock, and below the rim. We found no Indians, but we found some of his ancient habitats. We are sorry to have to break Ben Moore's story in two right in the middle, but we promise to give you the rest of it next week. Right now, I'm thankful that Quannah Parker and Geronimo had both dropped out of the picture before I came to West Texas. I hope that both old Joe Stalin and those old Red Savages of China will also drop out of the picture before I have to leave West Texas. Some more from Ben Moore next week, folks.

25 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

THESE folks are enjoying something that's being pioneered by Buick.

It's freedom from the blinding glare of bright summer sunlight.

It's freedom from hot laps—caused by the sun's rays beating down through the broad expanse of windshield.

These freedoms trace to a new feature you may have noticed in '51 Buicks—a new kind of glass with a cool, soft, blue-green tint, in every glass area of the car, front, side and back.

Buick engineers tell us that this "Buick first" reduces glare 18% over conventional glass—cuts sun heat as much as 45%—and Buick engineers are very conservative fellows.

This glare-and-heat-reducing Easy-eye glass is factory-installed at moderate extra charge. It gives you a built-in transparent "sun visor" right in the windshield—and it also dulls the dazzle of oncoming headlights at night.

As we've said, this is something Buick owners were the first to enjoy. It takes

\*Optional at extra cost—available on most models. (Not presently available in California and Massachusetts.)

its place with such exclusives as the valve-in-head Fireball Engine—coil springs on all four wheels—the firm power linkage of torque-tube drive—and the magic of Dynaflo.\*

As we've also said—rather modestly—"Smart buy's Buick."

Come in soon and find out what an understatement that really is.

Equipment, accessories, trim and models are subject to change without notice. \*Standard on ROADMASTER, optional at extra cost on other Buicks.

### No other car provides all this:

DYNAFLOW DRIVE • FIREBALL ENGINE  
 4-WHEEL COIL SPRING • DUAL VENTILATION  
 PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE  
 WHITE-GLOW INSTRUMENTS • DREAMLINE STYLING  
 BODY BY FISHER

### Frontier Day Celebration Is Planned At Slaton

SLATON, June 14. —The Slaton Frontier Day celebration will get under way Saturday morning, June 16th, beginning at 10:00 a. m., with a giant parade which will be headed by the Reese Air Force Band and followed by several Sheriff's Poses and many floats prepared by civic and service clubs and individual business firms.

Among the other attractions of the day will be a band concert by the Reese concert band, the best performing Sheriff's Posse and various other premiums including a shetland pony complete with saddle and all accessories to some child 12 years or younger.

Wiley & Gene, the famous radio and television team from Oklahoma City, and the Circle B Bar Ranch boys will entertain during the afternoon.

The evening session will be given over to the annual outdoor square Dance of the Westerner's Square Dance Association. The Cosden Play Boys of Big Spring will furnish the music for the dance and all squares in the South Plains Area are invited to take part in any or all parts of the all day celebration.

"I got the story on  
**50,000 Miles-No Wear**  
and changed to New Conoco Super Motor Oil"

says R. L. Emerson  
Traveling Salesman  
Cedar Falls, Iowa.

"I travel 60,000-80,000 miles a year. I thank Conoco for oil that lets me operate at such low expense," says Mr. Emerson. "With me it's Conoco Super or none!"

**"50,000 Miles-No Wear!" Proved Here:**

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

**GARAGE OWNER**  
"I recently gave Conoco Super a thorough test," writes A. E. Stanbridge, Garage Owner, Salt Lake City. "My engine never performed more perfectly. Conoco Super gave me 'super' economy in oil consumption and gasoline mileage."

**MAIL CARRIER**  
"I depend on my car for my living, so I'm looking for the best in motor oil," states Ewell T. Roe, Rural Mail Carrier, Waxahachie, Texas. "I've found it in Conoco Super. This car still runs like new, after 40,000 miles of service!"

# POWER- PACKED

- and then some!

There are a lot of reasons you can expect a new GMC to keep hauling a lot longer than any other truck you can buy.

First is the fact of horsepower. Whether it's a gasoline-powered 1/2- to 2-tonner with horsepower unbeaten in its class, or one of the new heavy-duty Diesels—you can't beat a GMC for "go!"

But the extra value you find in these great trucks doesn't end at the power plant.

There's the smooth GMC Synchro-Mesh Transmission linked to a sharp-shooting drive line, pouring every ounce of power back to the rugged rear axle. And the solid way horsepower becomes wheel-action—you know there's extra depth of truck performance engineered right down through

the broad-shouldered frame of a GMC!

And standing guard over these long-time trucks are husky brakes with more area than most—the surest, easiest steering ever devised to direct a pay load home—all controlled from a spacious "Six-Footer" Cab that's Weathersealed for a lifetime.

GMC's are made in the widest variety of engine-body-chassis combinations to meet any trucking need. And the prices? No better buy anywhere! Come see for yourself.

**Get a real truck!** Your key to greater hauling profits
