Number 40

Work Officially Started On Memorial Park

GROUND BREAKING ceremonies held last Friday by Tahoka Jaycees, sponsors of the new Lynn County Memorial Park project, are pictured above.

L. D. Whiteley, right, of Lubbock, State Jaycee President, is shown congratulating Seth Lewis, on progress of the work. Others in the picture are, left to right, J. E. "Red" Brown, incoming Jaycee president; Rollin McCord, first donor to the Park Fund; Granvel Ayer, one of the originators of the Park idea; H. G. Hodges, city councilman, who turned the first spade of dirt at the ceremonies; and Ralph Grebbs, Lubbock Jaycee leader.

In the bottom picture, outgoing president Charles Reid congratulates Rollin McCord, who donated a part of land for the park. The proposed park occupies two large blocks, an area 900 by 400 feet. The site was acquired over two years ago, and a lighted softball field installed in the northeast corner. The rest of the area has been broken and will be seeded to Bermuda grass and landscaped. Plans call for picnic units, tennis courts, croquet courts, playgrounds, and the last and biggest unit, a swimming pool.

Loan Contract For Rural Telephone Co-operative Is Received Tuesday

Loan contract and other necessary papers making the Poka-Lambro Rural Telephone Co-operative, which has headquarters in Tahoka, eligible for requisition of funds was received here Tuesday by Sam L. Allen, the cooperative coordinator.

Mr. Allen had been reassured last week of a loan approval of \$910,000.00 of the \$1,837,000.00 allotted for the project by George W. Haggard, acting REA administrator, who was killed in a plane crash early Saturday.

Construction of a rural cooperative telephone system in the Southland, Tahoka, O'Donnell, and Lamesa areas is assured.

However, there is yet some red tape to go through before actual construction begins, including the submission of plans for immediate construction, their approval, ordering of materials, and letting of contracts. It is not believed that the plane crash which took the lives of 50 people, including five top REA officials, will materially delay the local project.

The REA officials were en route to Lubbock from Salt Lake City for a conference with Poka-Lambro, South Plains, and other telephone co-op officials. The United Airlines plane crashed into Crystal Mountain, 17 miles west of Fort Collins, Colorado, at about 1:00 a. m. Saturday.

Charles Birdwell, 14, Drowns In Stock Tank

Rescue Efforts By Boy Futile

Tragedy struck this community Monday morning with the death by drowning of Charles Glenn Birdwell, 14, son of Mr. and Mrs. C. E. Birdwell, in a stock tank five or six miles southeast of Tahoka.

Funeral services were conducted at 4:00 p. m. Tuesday in the First Baptist Church with the pastor, Rev. Lee Ramsour, and Rev. W. H. Scantling, pastor of Sweet Street Chapel, officiating. Interment followed in Tahoka Cemetery under direction of Stanley-Jones Funeral Home.

Charles was among a group of boys of the neighborhood who had gone to a tank on the Thomas place, farmed by John Inman, for a swim.

Others in the group were Charles' little brother, J. E., age 6; Lyndell Wood, 14, son of Mr. and Mrs. Luther Wood; Roy Lee Davis, 13, Jerry Lyndell Davis, 12, and little Lonnie Davis, 4, sons of Mr. and Mrs. Ernest Davis.

Charles and Jerry Lyndell Davis, both good swimmers, dived in to test the water, while the others remained on the bank. The water (Con'd. On Back Page)

Clint Walker Is New President Of Rotary Club

Clint Walker, new president of Tahoka Rotary Club, was in charge of club affairs for the first time at Thursday noon. He succeeds Charles Townes, who has been president the past year.

New secretary David Weathers, who succeeds Bill Clarke, reported on club finances at opening of the new club year.

With Fred McGinty in charge of the program, brief talks were made by Mitchell Williams and A. V. Barnes in which they told of events in their lives before coming to Tahoka.

Turner Resigns As Coach Here

Coach Joe Turner of the Tahoka Schools resigned his position here last week-end, and has moved to Austin to become assistant state agent for the Farmers Insurance Group.

Coach Turner told The News he sincerely regretted leaving Tahoka, but the position with the insurance company was a better job and offered a more promising future.

His brother, Bob Turner, recently became state agent for the company, an old line company entering Texas for the first time. The first handles fire, casualty, public liability, automobile and truck insurance.

His leaving was a disappointment to many Tahoka people. Though here only a year, he had made many friends. Last fall, Tahoka football prospects were dim, playing in one of the state's toughest Class A districts, but his fighting little Bulldogs won five and lost four games. Three of the victories were in conference games, and Tahoka finished in fourth place among eight strong contenders.

"Our 18 to 0 victory over Brownfield, formerly in Class AA, last fall was the biggest thrill of my coaching career," Turner told The News.

Before coming to Tahoka, Turner was assistant at Olney one year and head coach at Nocona three years. He also coached track and boxing here.

His wife and young son, Bob, accompanied him to Austin Sunday.

Sheriff Solves Two Burglaries

Two burglaries in Lynn county Sunday night are believed to be solved by Sheriff "Slick" Clem with the arrest of a Big Spring man Tuesday night.

During Sunday night, the George Shoemaker station at O'Donnell was entered through a window, and 17 tires were taken. The same night, Shamburger-Gee Lumber company here was entered, and some knives and a sledge hammer were reoperted missing.

Bert Brown, 30, Big Spring, was arrested in that city Tuesday night and has been charged with the crime. The tires and hammer were found at his residence and have been identified.

Another man allegedly participated in the burglary but has not yet been found.

SOLDIER COMING HOME

Cpl. Rex Marshall of Petersburg, formerly of O'Donnell, who has been in action in Korea for 10 months, left that country on June 17 en route home, according to Ted Terry, his uncle.

Mr. and Mrs. J. E. Sherrill of Draw and Judge and Mrs. W. M. Mathis visited three days of last week with Rev. and Mrs. Bervin Caswell in El Paso. Rev. Caswell is pastor of the Fort Boulevard Methodist Church in that city.

SENATOR KILMER CORBIN

Speaker Tells Of New State Laws

The 52nd session of the Texas Legislature accomplished a great many worthwhile things for the State of Texas, and particularly West Texas, according to Senator Kimer B. Corbin of Lubbock. The senator, a former resident of Lamest, was guest speaker at Tahoka Rotary Club Thursday of last week. He spoke on the high points of the session as they affected West Texas.

One of the most important measures was the natural gas gathering tax. This is the first natural resource tax of this kind, and falls chiefly upon out-of-state consumers in the form of a natural gas pipeline tax. This tax will raise \$12,000,000 a year additional revenue. In this way natural resources will bear more of (Con't'd. On Back Page)

Dr. W. H. Stapp Goes To Army

Dr. W. H. Stapp, local physician and surgeon, has been called back into the Army. He left here Thursday, and will be processed at Fort Sill, Okla., beginning Sunday. He will be commissioned a Captain.

He accompanied his family to Waco, where they will reside temporarily, and he was to go from there to Fort Sill.

Dr. Stapp came here last September from Hale Center, acquired the Seale Clinic, and since that time has been operating it under the name of Stapp Clinic.

Both he and Mrs. Stapp have been active in church and civic affairs. They have made many friends while here, and he was building up a nice practice.

Receive Details On Dockery Wounds

More details on the wounds sustained by Marine Pfc. Billy Wayne Dockery, 18, son of Mr. and Mrs. Ted Dockery of Grassland, were given in a letter to the parents last week-end from the Department of Defense.

The letter said Billy had his arm in a sling and was recovering in a Yokohama, Japan, hospital. He was wounded near Inje, Korea, on June 11.

Cerebral Palsy Clinic July 9

The Lubbock Cerebral Palsy Treatment Center will hold a clinic for the examination of cerebral palsied children on Monday, July 9. Dr. E. T. Driscoll, Midland, Dr. R. Q. Lewis, Lubbock, orthopedists; Dr. R. K. O'Loughlin, neuro-psychiatrist; Dr. T. M. Lunceford, pediatrician; Dr. G. W. Wallace, eye specialist; Dr. J. M. Reynolds, dentist, will be present to examine children.

Parents interested in bringing their children to the clinic are requested to register their child at the Center some time before the clinic date. Further information may be obtained by contacting Dr. Esther E. Snell, Director of the Treatment Center, 3502 Avenue N, or calling Lubbock, 4541.

Late Rains Are Some Aid To County Crops

Natives of India Will Appear At Methodist Church

Two natives of India, Mr. and Mrs. Chris Dutt, will speak at the Tahoka Methodist Church Sunday night at 8 p. m., according to Rev. Jim Sharp, pastor.

He has been studying medicine at Vanderbilt and she has been working toward her Doctor of Philosophy degree at Scarratt, both in Nashville. They are said to be outstanding speakers.

Last Sunday morning, Rev. J. E. Shewbert, new superintendent of the Lubbock district, brought the sermon at the church.

Tahoka Students To FFA Meeting

Four Tahoka FFA boys and one girl will represent the local schools at the 23rd annual convention of the Texas Association of Future Farmers of America in Houston July 11-13.

Mr. and Mrs. V. P. Carter will accompany the group. Mr. Carter is Tahoka Vocational Agriculture teacher and FFA Chapter sponsor.

Wayne Martin, Roger Hensley, and Brian Ray Stone, Tahoka FFA boys, are expected to receive the Lone Star Farmer award. Richard Carter also is a delegate.

Miss Edith Aldridge of Tahoka is an Area I candidate for the State FFA Sweetheart honor, and will attend.

They will be among about 3,000 Future Farmers from over the state. Scene of convention meetings is the famous Shamrock Hotel.

In addition to the informational FFA convention meetings, much entertainment has been planned for the youngsters.

They will visit San Jacinto battleground, the Battleship Texas, a Texas League baseball game, a swimming party at the Shamrock, and a gigantic torchlight ceremony during the coronation of the State FFA Sweetheart.

Team Is Third In State Contest

Lynn county's entomology team won third place at the annual 4-H Club Roundup held last week at College Station.

Members of the team were Don White, Corbell Hagens, John Lester Mason, and Leroy Edwards, and County Agent Bill Griffin was the coach.

Mary Beth Eades and Ann Moore represented the Girls' 4-H Clubs of the county and participated in the Dress Revue. Miss Graham Hard, county home demonstration agent, and Mrs. Clarence Eades also attended the meet.

Bobcat Is Killed By Carl Williams

Carl Williams brought to town Monday afternoon a 60-pound bobcat which he killed at about noon on his farm a mile north and 3 1/2 miles east of Draw.

He and his son, Donald Gene, were at the vacant house on the farm when they heard something under the floor bumping the joints. Carl looked under the structure and saw an animal run out on the other side. He circled the house just as a bobcat leaped up into a tree.

Having nothing with which to kill the animal, Carl remained nearby while Donald Gene got in the pickup and went a mile to borrow a shotgun.

One blast from the gun ended Mr. Bobcat.

Mr. and Mrs. J. W. Warrick are now making their home in San Benito. They recently sold their home here to Mr. and Mrs. Kenneth Turner.

Many Farmers Planting Feed

Belated but yet beneficial rains fell over nearly all of Lynn county Sunday afternoon and night which ranged from a mere sprinkle to three or four inches. Hail damaged a large area.

Farmers are now busy planting feed, and a few have even planted some cotton.

Tahoka received .51 of an inch Sunday afternoon, and during that night received another .67 inch for a total of 1.18.

Small areas in the west, especially around West Point, received little or no rain, and a part of the New Lynn community east of town received little rain.

The ground was so dry that a number of farmers, especially in the northeast quarter, do not yet have enough moisture to plant feed.

Very heavy rains fell in the old South Ward, Midway, and Joe Bailey communities, ranging up to three or four inches. Hail east and northeast of O'Donnell was exceedingly heavy and ruined what crops were up in that area. Other scattered areas received hail which did less damage.

Much cotton in Lynn county had already died from lack of moisture, or had been destroyed by blowing sand. However, much cotton that was suffering was greatly revived and the possibility remains that Lynn county as a whole can yet make a pretty fair cotton crop. Had sufficient rains come early, this county would have had its largest cotton acreage in history.

Work Started On Soils Map

Work is being started here this week on a soil testing and classification project leading to the making of a soils map of all Lynn county. The project will require about two years.

I. C. Mowery is moving here from College Station to direct the work, conducted by the U. S. Department of Agriculture through the Texas Agriculture Experiment Station.

Detailed information on the county's soils may prove of much benefit to farmers of the area. One of the leading benefits is that it will help farmers determine possible soil deficiencies and thereby furnish them the needed information to build up such soil for the crops they wish to plant.

Mr. Mowery expects to bring his wife and two young daughters here soon, and is looking for a two bedroom unfurnished house in which to live while conducting the survey.

Grassland Heads Softball Play

Grassland has climbed to first place in the Square Deal Softball League, according to incomplete reports furnished The News by E. L. Short, league secretary.

Tuesday night, Grassland defeated the league-leading Southland team in both games of a double-header, 8 to 5, and 4 to 1. Last Friday, Grassland downed O'Donnell 9 to 2.

Tahoka was idle Tuesday night, a scheduled game with Southland last Friday night was postponed, and the 3 to 4 loss to O'Donnell on June 26 drops the local team into a tie with Southland for second place.

The News has no report on the Post-O'Donnell game Tuesday night.

League standings follow:	W	L	Pct.
Grassland	10	4	.710
Southland	8	4	.667
Tahoka	8	4	.667
Post	3	8	.273
O'Donnell	2	11	.154

Although the Communists have proven over and over that they are a tricky and deceitful outfit and can not be trusted far, yet their agreement to have their representatives to meet with a representative of United Nations to discuss a possible end to the Korean War gives some hope. Possibly it means that they have had enough of it. Possibly the Red Chinese have become dissatisfied with the limited aid that Russia has furnished them. Possibly Russia herself has seen little possibility of winning a clear-out victory in Korea and is furthermore leery of entering at this

time into an all-out world-wide conflict which she fears more aid to the Red Chinese would bring on. At any rate, the acceptance by the Reds of the Ridgway proposal will soon reveal to the world whether the Reds really want peace or are just sparring for a little more time or other advantages.

We guess that all this wickedness and crime now so rampant, these murders, kidnappings, rapes, and robberies, will be charged up to Prohibition if the Eighteenth Amendment and the Volstead Act had not been repealed years ago. Everything, from the stealing of a sack of peanuts by a kid to a murder of one thug by another, was charged up to National Prohibition as long as it was legally in force. But now the "wets" no longer have this alibi, and the legalized liquor traffic is costing this country more in loss of life and limb and health and in property-destruction than ever before in history. The Alcoholics Anonymous in the meantime are proving that beverage alcohol is a habit-forming drug, and it should therefore be treated as any other narcotic. Maybe some time we will exercise sense enough to stamp out the infamous liquor traffic.

During 1950 Texas 4-H boys made history with their exhibits of fat steers at the major stock shows of the nation. Grand championships were won at the State Fair of Texas; International at Chicago; American Royal at Kansas City and Houston and San Antonio fat stock shows.

The annual Cotton Congress will be held at College Station, July 26-28.

ODDS AND ENDS

(By E. I. The Elder)

When I started in a few weeks ago to write something about the scenic beauty that may be found in Lynn county, especially along the cap-rock, I thought that I could cover the subject in two articles at the most. But the more I investigated the more I found that interested me; most of which I should have known already, and some of which I had learned long ago but had almost forgotten.

What I had to say about the springs that bubble up at the head of a canyon two miles southeast of Grassland, constituting the fountain-head of the Double Mountain Fork of the Brazos River, was a revelation, I have found, to many of the people of Lynn county. Quite a good many people who lived or had lived in that vicinity and quite a few residents of Tahoka, O'Donnell, and other parts of the county had visited these springs at one time or another and knew what I was talking about, but probably a vast majority of the people in the county knew little or nothing of them. They were utterly surprised to learn of these springs and the rugged scenery which surrounds them and to learn also that one of the main prongs of the Brazos River rises in Lynn county.

Now, I am wondering if many people in Lynn county know there is another prong or tributary of the Double Mountain Fork that also has its rise in Lynn county.

O yes, we all know something about Moor's Draw. The little town of Draw, presumably, was named for it, and yet the town of Draw barely lies within the drainage basin of Moor's Draw. Some of the water that falls around Draw finds its way into the stream that bears that name; but some of it runs into a lake that never, or scarcely ever, overflows; and some of it runs in other directions and never gets into the short stream known as Moor's Draw.

A few years ago, Grover Stewart of Tahoka built a big dam across Moor's Draw three miles east, slightly southeast, of Redwine. That dam now impounds quite a sizeable lake of water and has become quite a popular fish-

ing resort. Occasionally it attracts picnickers and other pleasure seekers also, and quite a good deal of attention has been drawn to it within the past two years. It has been a fine place for catching perch particularly, but now Mr. Stewart has the promise of state and governmental authorities to stock it with bass also, and it will doubtless grow in popularity in a great way within the next few years. We will tell you more about this lake a little further on, but just now we want to tell you more about the stream.

There are no permanently flowing springs above the lake or in it, but the lake has in fact become the fountain head of living, flowing water that begins at the base of the Dam and thence proceeds uninterruptedly and unceasingly down the channel of Moor's Draw to its confluence with the Grassland prong of the Double Mountain Fork of the Brazos. Although the dam at its base in the channel is approximately 250 feet thick, the water from the lake appears to be oozing out in very small quantities under the base of the dam and thus forming a small stream in the channel below the dam.

Possibly few people who have been fishing, boating, swimming, or otherwise finding recreation in and on the waters of the lake have ever taken the trouble to find out what lies below the lake, for a short distance below the dam is an air-tight barbed-wire fence that separates the Double-U ranch from Stewart's section and there is no possibility of entering the ranch in a car at that point. A man's only chance of

making investigations as to what becomes of the little stream of water that, like Tennyson's brook, seems to be going on forever, is to take the risk of tearing his shirt or his britches in crawling through that pesky fence.

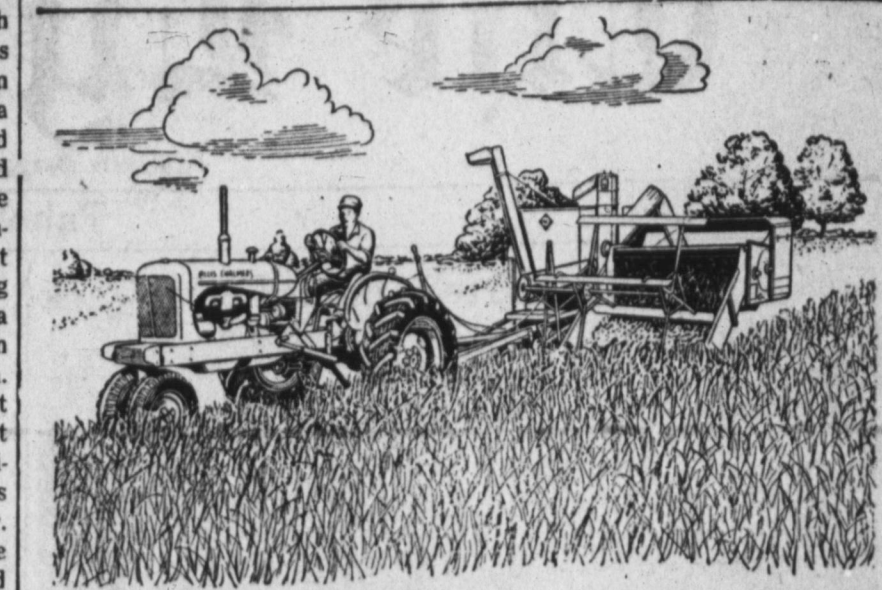

Well I did it, and it was worth the money. Less than 300 yards below the dam, that little stream of water goes hurtling over a precipice some 12 feet high and falls amid rough rocks and boulders into a chasm whose walls for the next several hundred yards rise 20 to 30 feet high. I followed a cow trail along the eastern bank for nearly a quarter of a mile and then down into the bed of the stream. Water from other springs must have joined the little stream that came tumbling over the precipice, for in the chasm there was one pool of water after another. I tried to take a picture of the water-fall from the east bank, and of the chasm from the bed of the stream, but on account of the poor lighting at that time of day, neither picture was a success. I then entered a side gorge coming in from the west and, after following it for a considerable distance, succeeded finally in climbing out, but I was beginning to think that I was going to be compelled to call for help.

On top of the earth again, looking across the gorge to the east, there was a beautiful view of a second line of low white cliffs, I turned my camera upon it and pulled the trigger. The result was a fine picture. Leg-weary and foot-sore I trudged back to my car, seemingly a mile away, climbed clumsily into the seat, and thanked the Lord that no rattlesnake had gotten me yet.

I had reason to be leery of rattlesnakes, for the first time I expressed to Grover Stewart a desire to go down to the lake he readily consented and offered me

every possible accommodation, but he warned me that I had better look out for rattlesnakes. Well, when I really got ready to go, I drove down to his headquarters one morning and he invited me in, but about the first thing I saw upon entering his door was

a rattlesnake's appendage of 12 rattles lying on a table, which some serpent had contributed recently but unwillingly to Grover's collection. Grover told me that his Mexican, who was then out, would come in soon and would go (Continued)

Your neighbor will tell you what the ALL-CROP Harvester does for him

Give us a ring while the harvest season is still on. We will call for you at your farm and drive you to a field where an All-Crop harvester is working. You can talk to the owner, look at the grain and straw for yourself.

The All-Crop harvester handles more than 190 different crops from feathery grass seeds to large beans. Full 5-foot cylinder handles the crop in a thin stream, just as it comes off the sickle.

Let us show you. No obligation.

ALL-CROP is an Allis-Chalmers trademark.

Letters From News Readers—

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

Editor The News:
Our subscription to The Lynn County News has been out for several weeks; sure miss getting all the news from out that way, so am enclosing check for it.
H. L. and son Don are in Kansas for the wheat harvest.
We have had plenty of rain here, and crops of corn and cotton are fine. We are hoeing cotton the second time. We sold 3000 broilers this month and have 2,000 more. We got 1,000 less due to farm weather. Gardens are fine here, too.
Sincerely,
Mrs. H. L. Cook.
(Editor's Note: Mr. and Mrs. Cook were long prominent residents of the Wells community who moved to Arkansas for their health. They have many friends over Lynn county.)

Are Your Brakes Safe?

Can You Stop in the Required Distance Specified by State Laws

We will replace your Worn Brake Linings at this SPECIAL PRICE. The prices listed below apply only to Chevrolet Passenger Cars and 1/2-Ton Pickups.

Others Are Priced According to Size of Truck and Style!

BONDED LINING, 1949 to 1951 Chevrolet Cars and 1/2-ton Pick-Ups:	SPECIAL PRICE	REGULAR PRICE
Includes Parts and Labor	\$16.65	\$22.90
RE-LINING OLD SHOES, 1936 to 1948 Chevrolet Cars and 1/2-ton Pick-Ups:	SPECIAL PRICE	REGULAR PRICE
Includes Parts and Labor	\$11.05	\$14.35

Above prices do not include turn or replace brake drums or bleed hydraulic lines. Any other necessary brake work or parts such as overhaul master cylinder or wheel cylinders will be at our regular prices.

ACCORDING TO STATE LAW, passed by the Texas State Legislature in May, 1951, your car MUST PASS the test specified in the chart below. Without your car meeting the manufacturer's standards, you will not be able to get the proper permit to operate your car.

Why Delay? Have Your Car Brought Up To Specifications Now!

We will check all of the below listed points and make notes of needed repairs on any make or model of passenger car or truck for the price of \$1.00 per car or truck. (Does not include necessary repair work or parts.)

District Meeting Held At Wilson

Luther Leaguers from Lubbock, Littlefield, Lamesa, Lockney, and Slaton gathered Sunday evening for a Choral Union rehearsal at St. John's Lutheran Church, Wilson, with the local league being the host. The regular monthly rehearsal of these young singers was very well attended this month, reported the Rev. C. C. Elher, pastor of the Wilson church.

The choral group, under the di-

rection of the Rev. D. V. Sieberg of Lubbock, concluded its last rehearsal before singing at the annual Lubbock Federation Convention and Bible Camp which will be held at Camp Chrysalis, Kerrville, August 1-5. Music rehearsed included "My God and I" by I. B. Sergi and the newly written 1951 Convention Hymn, "Thine Is The Power" by Rev. John E. Meyer of San Antonio.

The rehearsal ended with a recreation hour and refreshments were served by the Wilson young people.

WILSON STATE BANK

at Wilson, Texas, at the close of business on the 30th day of June, 1951, pursuant to call made by the Banking Commission of Texas in accordance with the Banking Laws of this State.

Wilson Women Attend State Meet

Mrs. Edmund Maeker and Mrs. Werner Schaffner, delegates from St. John's Lutheran Women's Missionary Society, returned Friday from the Tenth Biennial Convention of the Women's Missionary Federation of the Texas District of the American Lutheran Church which was held at the beautiful St. Martin's Lutheran Church, Austin, June 27-28.

Some 400 delegates from all over the state of Texas attended the inspiring convention which had as its theme "Advancing With Him." Some of the inspiring addresses were given by Mrs. E. W. Steinbring, President of the Texas District W. M. F.; Miss Dorothy Haas, President of the W. M. F. of the American Lutheran Church; and Dr. Wm. F. Kraushaar, President of Texas Lutheran College, Seguin, Texas.

At the regular Tuesday Women's Missionary Society meeting, the two Wilson delegates shared their experiences by giving vivid and interesting reports of the convention held in "the shadow of the Capitol."

FRANK BRYAN VISITS IN CENTRAL TEXAS

Frank Bryan returned Monday from a combined business and pleasure trip that took him to many points down east.

First, he stopped in Stamford and visited a little while with J. C. May, well known here. From there he went to Grand Prairie, where he visited a brother, and from Grand Prairie to Waco, for a visit with his sister. In Waco, he also attended a dealers' meeting of Rawleigh salesmen, which was the chief item of business on his journey.

From Waco he went down to visit his old home and a brother and sister at Lexington in Lee county.

He reports that crops are generally good in that section of Texas. He says that at Lexington he ate roasting ears a foot long, big red tomatoes right off the vine, and plenty of fried chicken. And the watermelons were getting ripe. From what we gathered, Frank is "sorter" in love with that country, though of course he has no idea of leaving Lynn county.

CARD OF THANKS

We want to thank our friends for their thoughtfulness of us while Bettie Lou was in the Clinic where she underwent an operation; for the cards and for the flowers. May God bless each and all of you is our prayer. —Bettie Lou and Mr. and Mrs. George Henry and the family.

CARD OF THANKS

The sudden loss of our fine little boy has been a great shock to us. The kindness of the people of this community has made our burden of grief a little easier to bear. May God bless each of you for your kindness, words of comfort, flowers, interest and help given. —The C. E. Birdwell family.

Two Local Couples Married In Home Of A. I. Baucom Here Last Friday Night

In a double wedding ceremony performed in the home of the brides' parents, Mr. and Mrs. A. I. Baucom, at 7:30 p. m. Friday, June 29, Miss Jeannette Baucom was married to Bentley Gaither, and Miss June Baucom was married to Harry Ford. Rev. W. H. Scantling, pastor of the Sweet Street Baptist Chapel, read the single ring ceremony.

The wedding was performed under an arch flanked with baskets of flowers.

The brides were attired in dresses of black marquisette over black barnett satin, with the tops of white lace over white satin. The accessories were white, and their flowers were red carnations.

Following the ceremony, a brief reception was held at which the brides cut the three-tiered wedding cake. The table was centered with a hand painted linen cloth. Punch and cake were served guests.

The brides came to Tahoka a-bout a year ago, their father being engaged in construction work here.

Bentley is the son of Mr. and Mrs. E. B. Gaither of Tahoka. Harry is the son of Mr. and Mrs. John Ford. Both were reared here, both graduated from Tahoka High, and both are employed by Fulkerson Butane company.

After a short wedding trip to New Mexico, the two couples are making their home in Tahoka.

Attending the ceremony were: Mr. and Mrs. A. I. Baucom and Faye, Mr. and Mrs. John Ford and family, Mr. and Mrs. E. B. Gaither and Wanda; Mr. and Mrs. D. Baucom of Hale Center, grandparents of the brides; Mrs. Omega Baucom of Borger, aunt of the brides; Mrs. Leroy Akin, Mrs. Beulah Atkins, M. O. Davidson, Miss Veda Grace Johnson, and Rev. and Mrs. Bill Scantling.

Go To Church Sunday.

Odds & Ends

(Cont'd. From Page 2)

with me to unlock the gate, etc. Well, that Mexican walked in pretty soon, and about the first thing he did was to draw just ten freshly acquired rattlesnake rattles out of his pocket, and deposit them on the table. He had been out in the pasture on a pony. Suddenly he heard the warning sound of a rattler. At the same instant his pony snorted and jumped away. He knew Mr. Rattler was there, so he dismounted and began his search for the diabolical reptile. Finding him in a hole he shot his satanic old head off. Then he cut

off the scoundrel's tail, which is the only good thing about a rattlesnake.

But, I do not think that there are many rattlesnakes near the lake. The water drove them out of their former haunts and Grover thinks that they migrated to the brushier and rougher country below the dam—and that's where I went exploring, but I kept my eyes and ears open all along the way.

When Grover built that dam, I secretly thought that it was a visionary and impractical project. I didn't think that enough rain water would fall in a year's time—or any amount of time—to fill the thing. That dam was a whopper, built out on dry land, across a dry draw that seemingly a mounted to little more than a gully, and that flowed no water except when it rained. If you have never seen that dam—and I am sure that there are many in Lynn county who have not—then these figures might be interesting to you. The dam, Grover says, is approximately 800 feet long. It is 80 feet high at the deepest point, 80 feet from the bed of the channel straight up to the top of the dam. It is 250 feet thick at its base and 16 feet thick at the top. Of course that is no Buchanan Dam, and no Possum Kingdom dam, but it is a pretty big pile of dirt to be thrown across a dry West Texas draw. Built in the midst of a drouth, it remained practically empty for a long time. But eventually copious rains came and the water went roaring over the spillway at the north end like a mad thing and it must have gone over the precipice and down into the gorge 300 yards below the dam like Southey's waters come down at Lodore.

When full, the lake covers about 125 acres of land, Grover says. Three or four weeks ago, he estimated that it still covered about 80 acres. There has been scarcely enough rain all this year to keep things alive and to bring up crops. Grover estimated that a four-inch rain would send water over the spillway again.

Where does this water come from? Well, it comes from about 20 sections of land, Grover says. The Draw basin begins up west of Redwine. It reaches about three miles north of that place and at least two miles south. The channel begins to form, he says, up on the Bob Traweeck place, and gradually grows a little deeper and larger as it crosses the Tom Smith and Mrs. Albert Williams farms. It is still more clear-cut by the time it crosses the road at Grover's headquarters, and a bridge had to be built across it where it crosses the road coming down from the north by the Carlice Edwards residence. When full, it backs water up to that bridge. So, in a sense, most of the Redwine community in wet weather constitutes the head of that branch of the Brazos River.

The Grasland prong and the Moar's Draw prong of the Double Mountain Fork come together a few miles below the head of each. The united stream then flows southeastward for quite a number of miles through a really scenic country, marked by

deep chasms and precipitous cliffs. Coming down into the sub-crook area into a region of rolling hills, the stream turns to the northeast and flows down by Justiceburg, where the Lubbock-Sweetwater highway crosses it over a bridge some 200 feet long. With many a crook and turn, the stream makes its way on through Garza county and into Kent, where it is soon joined by the Yellowhouse that comes down through Lubbock by Slaton and Post. This Lubbock prong is also dubbed on some of the maps as the Double Mountain Fork, but after it joins the Lynn county Justiceburg stream in western Kent county, the united stream is universally called the Double Mountain Fork. It flows on down by Rotan, past Double Mountain, from which it gets its name, passes on between Aspermont and Hamlin, and continues its eastward course to Sagerton, where it turns north, passes to the west of Rule, and then bends back to the northwest a few miles to join the Salt Fork of the Brazos in northeast Stonewall county; the Salt Fork being the stream that comes down through Plainview and designated there as Runningwater Draw, then on down through Blanco Canyon, where it becomes known as the White River, proceeds on down by Jayton and Clairemont as the Salt Fork, and after its union with the Double Mountain Fork, the united stream is known simply as the Brazos River. As such it swings around by Seymour and on down to Graham and into Possum Kingdom Lake. Into this lake also flows the Clear Fork of the Brazos, which has its headwaters near Snyder and Sweetwater and drains parts of Scurry, Fisher, Nolan, Taylor, Jones, Shackelford, Stephens, Throckmorton and Young counties. It's a long, long way from the head of any one of the prongs of the Brazos River to its mouth at Freeport; on the Gulf Coast.

There is a theory that the chain of lakes extending westward from Redwine through Luttrell Ranch Lake, the Midway Lakes, the Seven-Mile Lake, between Tahoka and O'Donnell, Guthrie Lake, Double Lake, Mound Lake, and possibly others further west, marked the course of a lost ancient river. In the crooked stream or its tributaries could have been included even Three Lakes, The South Ward and Slover Lakes, and various other lakes in Lynn county. Tahoka Lake seems to be a little too much out of line to

have been included in this same stream, if there was one, but it seems to have more historic interest for us of this day than any of the others. F. M. Sherrod of Tahoka, now 94 years old and an old buffalo hunter himself, has doubtless had a more intimate personal acquaintance with it than any other man now living; but Frank P. Hill of this newspaper has probably gathered more authentic information and historical facts concerning it than any other person, for some 18 or 20 years ago he wrote a history of this area and the life story of the late Jack Alley, who for years was manager of the Slaughter Ranch, which included Tahoka Lake within its boundaries, which story was published in the Lubbock Avalanche and also in The Lynn County News, but I will have neither the space nor the desire to use much of his thunder as interesting and as valuable as it is.

You may not have seen Tahoka Lake at close range lately. It is strictly private property; well stocked with cattle; and intruders with guns or with any evil intent are not welcome. But I am going to tell you next week a little about this historic lake as it is today. Maybe you know it already, maybe not.

MR. AND MRS. MADDOX ATTEND REUNION

Mr. and Mrs. E. P. Maddox returned last Saturday from Palo Pinto and Grafard, where they spent a week visiting relatives and also attended a community reunion.

Judge Maddox was born and reared four miles east of Grafard. Both families came to that area when Palo Pinto was on the Texas frontier.

How to make Wise Tracks to a Beauty

How do you buy a new car?
Are you one of those people who buy on love at first sight?
Or do you check cars feature for feature, price for price—then pick the one that gives you the most for your money?

Whichever you are, we'd like to suggest that you come in and see our 1951 Buicks. It's a sure bet you'll go for the swift, smart look of a SPECIAL, SUPER or ROADMASTER—fall seriously in love with the pace and power of its bonnet-filling engine. And it's a cinch you'll go for the room and richness of those Buick interiors—the serene smoothness of Dynaflo Drive* and all-coil springing.

But don't let your emotion be the only

judge—get the practical picture too.

Note that the power that gives you such a big kick here comes from Buick's famed valve-in-head Fireball Engine—which means you get a lot of miles from each gallon of gas you buy.

Note that the silken ease you enjoy with Dynaflo* goes hand in hand with real money savings in maintenance costs.

Above all, note what a Buick's price tag includes—how much more sheer automobile you get in a Buick than the same money would buy elsewhere.

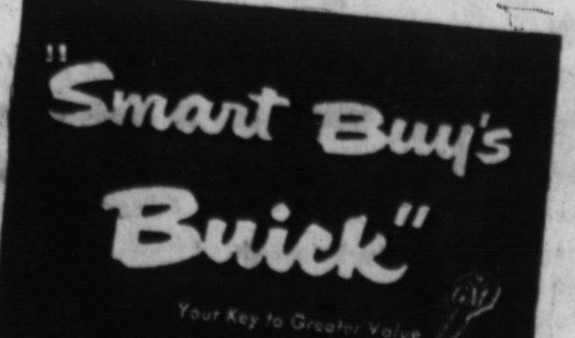

How about making tracks to our showroom right soon—checking thoroughly into the matter—and see if you don't fall in love with a smart-buy Buick?

NO OTHER CAR PROVIDES ALL THIS

DYNAFLOW DRIVE* • FIREBALL ENGINE
4-WHEEL COIL SPRINGING • DUAL VENTILATION
PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE

NEW HOME H. D. CLUB NEWS

The New Home Home Demonstration Club met June 28, with Mrs. W. C. Thompson, vice chairman, leading. The roll call was answered by stating "Why I have curtains at my windows."
"Glass curtains may be used in any room with any period of decoration. They may be used alone or with draperies or venetian blinds or a combination of all three," stated Mrs. G. B. Mayfield as she discussed the use of glass

curtains in the home. A refreshment plate was served by the hostesses, Mrs. Aubrey Smith and Mrs. Gene Roper to the following members: Mesdames B. G. Smith, J. W. Edwards, W. C. Thompson, Fred Edwards, G. B. Mayfield and Boswell Edwards.

The U. S. Navy has research contracts with over 200 institutions involving about 1200 projects.

Southland Takes Baseball Lead

Southland took the lead in the Lynn County Junior Baseball League Sunday by defeating Wilson 11 to 8. The game between North Side and Wayside was rained out.

Lefty Tremble, pitcher, got credit for his third win in a row, but needed relief from Tillie Baisinger in the last two frames. Leonard Brieger went all the way for Wilson.

Wayside and North Side were tied 0-0 when the rain came down in the fourth inning. Morgan Howle was pitching for North and James Foster for Wayside, and each had given up only one hit. The two teams will play a double header next time they meet.

Next Sunday afternoon, Tahoka North Side will play at Southland, with Morgan Howle (1-2) opposing Lefty Tremble (3-1). Also, at Jaycee Park in Tahoka, Wayside will meet Wilson with James Foster (0-0) or "Punk" White (2-1) opposing Breiger (2-1). League standings follow.

	W	L	Pct.
Southland	3	1	.750
Wilson	2	2	.500
Wayside	2	2	.500
North Side	1	3	.250

Beef Charts In All Markets

Official charts of retail beef cut ceiling prices will be posted in meat shops throughout the country on June 25, says the district OPS office at Lubbock. This date for posting ceiling prices is a week later than previously announced and was finally selected as the date to allow for last-minute price revisions and distribution.

Housewives can refer to the price charts which must be posted by butchers in a readily visible place, to be sure they pay no more than the ceiling price for beef set for this area. The district OPS explained that the ceiling prices for beef cuts have been determined by geographic zones of the country.

The listed prices are for the cuts that are legally required by OPS. In addition to the posted price charts, retailers are required to have separate grades in separate trays with each tray tagged with its correct price.

New price charts showing lower prices will be effective August 1, and still lower prices will go into effect October 1. After the last reduction, beef will be selling at retail from 8 to 10 cents less, while cattle prices will be about 25 per cent higher than parity.

Along this same line, the Office of Price Stabilization is now engaged in a study of dollar-and-cents price ceiling at wholesale for veal. Provisions for a retail veal price regulation have already been studied. The proposed wholesale and retail ceiling price regulation of veal will be issued together and will be patterned after the beef regulations now in effect.

The district OPS office explained that before the regulations are issued that OPS discusses the problems involved with members of the industry. Both large and small packers and wholesalers make up the 13-man industry advisory committee on veal.

Mrs. Amelia (R. H.) Turner and her daughter, Mrs. Imogene Lynch, returned last mid-week from a visit with Mrs. Turner's grand-daughter, Mrs. Bobby Jean (John) Nichols in Houston, and also from a day's fishing on the pier in Galveston. Mesdames Turner and Lynch were gone just a week. They report an abundance of rain recently in the coast area.

Marine Recruits Get Historic Flag

LUBBOCK, June 14. —M-Sgt. W. N. Burnette of the Marine Corps Recruiting Office here announced today, that the South Plains Recruit Platoon would carry the same flag to recruit training, that the NorTex Recruit Platoon carried with distinction.

Burnette stated that Major E. L. Bale, Jr., Officer in Charge of the Dallas, Marine Recruiting Office has informed him that the flag is available to the South Plains Platoon.

"The flag will be presented to the man in charge of the platoon, the day the group is sworn-in to the Marines, on June 20th" he added.

As "Operation Marine Recruit" rolls to the 2nd week the area has produced over 25 applications for the South Plains Marine Platoon.

Sergeant Burnette said, "Thus far the interest in service with the Marines and for enlistment with the platoon, has been more than gratifying."

Good Fishing Waters Opened

AUSTIN. —Some of the best catfish waters in the state have been opened to trotline fishing under a new law, according to the Executive Secretary of the Game, Fish & Oyster Commission.

Under the act, trotlines with a maximum of 30 hooks are permitted from the mouth of Bull Creek in Lake Austin to the headwaters of Buchanan Lake in San Saba and Lampasas counties. Not more than 30 hooks in the aggregate may be used by one person at any one time. Throw lines and rod and reel equipment are limited to six hooks each.

The Executive Secretary pointed out the law affects Lake Travis, Roy, Inks Lake, Buchanan Lake and most of Lake Austin, and all other waters of the Colorado river within the boundary prescribed.

He said this area abounds in the three principal kinds of fresh water catfish. They are the flat-head or yellow cat, the blue channel cat and the southern cat.

The law also specifies that none of the devices authorized in the measure shall be attached to any other trotline or fishing device by use of bouys, jugs or other means.

The law also makes it unlawful to place or set any trotlines in the vicinity of any boat dock, boat or bathing pier, or bathing beach or any place commonly used as a swimming and bathing area. Fines up to \$200 are authorized for violations.

A Navy enlisted man was elected to the Indian state legislature while on active duty in Korean waters.

Bill To Simplify Mexican Labor

Representative George Mahon reports from Washington that the so-called Poage Farm Labor Bill has now passed the House and is in conference between the House and Senate. The House rejected the so-called Douglas Amendment to the bill which would make it a felony for a cotton farmer to knowingly employ a Mexican citizen who was in the United States illegally.

The object of the Poage Bill is to simplify the process of bringing Mexican labor from the Republic of Mexico to help in the harvesting of cotton and other crops—labor that will be greatly needed if the 1951 Texas cotton crop is to be harvested.

Mahon participated in seeking passage of an amendment by Congressman Rogers of Pampa which would have repealed existing federal law prohibiting the employment in agriculture of children under 16 years of age when school is in session. The amendment was held out of order and was not adopted. Both Rogers and Mahon have separate bills pending which would accomplish the same purpose but to date favorable action has not been taken.

Mahon expressed elation over the passage of the Poage Bill. He said that there had been a ru-

mor that the President might veto the bill when it arrived at the White House for his signature. However, he felt that the President would be compelled to approve the bill in view of the tremendous importance to the national defense effort of procuring labor for the harvesting of the 1951 cotton crop.

Longest underwater snorkel cruise by a U. S. submarine was made in April 1950, by the USS Pickerel, going 5,194 nautical miles from Hong Kong to Pearl Harbor.

Joy Dean McClintock Weds Ropesville Man In New Home Church Ceremony

Before an altar flanked with baskets of shasta daisies, gladioli, and tropical foliage, with a background of white cathedral tapers, Miss Joy Dean McClintock of New Home became the bride of Willard Allyn Tibbets of Ropesville in a candle-light service at 6:30 Monday evening, June 25, in New Home Methodist Church. Rev. J. L. Mayhew of Slaton read the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Weldon McClintock of New Home, and the groom is the son of Mr. and Mrs. W. B. Tibbets of Ropesville.

Miss Alice Loyd of Amarillo played "Claire de Lune" and the traditional wedding marches, and accompanied C. E. Roper of New Home as he sang "Because" and "O Promise Me."

The bride was given in marriage by her father. She wore a ballerina length gown of white silk organza over satin with a chantilly type lace bodice fashioned with a Peter Pan collar and tiny covered buttons down the front to the waist line. Her veil of silk illusion was featured with tiny seed pearls. She carried an orchid with lace streamers on a white Bible.

Maid of honor was Miss Shirley Jean McClintock, sister of the bride. She wore a ballerina length dress of pastel green organza, fashioned with a low neckline and rolled bertha collar; tiny self covered buttons were down the front to the fully gathered skirt. She carried a basket of yellow daisies.

Bridesmaids were Misses Doyle Tibbet of Ropesville, sister of the bridegroom, and Letha Roland and Emma Dean Robinson of Lubbock. They were dressed in ballerina length dresses of orchid organza, fashioned after that of the maid of honor, and carried baskets of yellow daisies.

Miss Katherine Roper of New Home and Miss Carole Johnson of Shallowater were candle-lighters. They wore dresses of yellow organza with a double collar, gathered skirts, and wristlets of yellow carnations.

Bobby Reynolds of Ropesville was best man. Kent McClintock of New Home, brother of the bride, was an usher, as were H. B. Holdrige, Jr., of Lubbock, cousin of the groom, and Charles Shanon of Ropesville.

A reception immediately followed the ceremony in the church Fellowship hall. The couple was assisted in receiving by their parents and members of the bridal party. Miss Trudy Barret of Cotton Center was at the guest book.

The bride's table was laid with a lace cloth, centered with a double wedding ring cake. The attendants' flowers and candles completed the decorations.

Guests were present from Idalou, Ropesville, Amarillo, Cotton Center, Lubbock, Shallowater, Roswell, N. M., and Upland, Calif.

For traveling, the bride chose a dress of melon colored sheer worn with a white linen duster, white accessories, and an orchid corsage.

After a wedding trip to Carlsbad, N. M., the couple will be at home after July 4 in Enterprise, Ala., where the bridegroom is stationed at Camp Ricker.

The bride is an honor graduate of New Home High School and attended McMurry College in Abilene.

The bridegroom is a graduate of New Home High School and attended Draughtons' Business College in Lubbock.

Sheriff's Posse To Big Spring

BIG SPRING, July 5. —The Lynn County Sheriff's Posse will appear with the Hardin-Simmons Cowboy Band in the opening day Rodeo Parade at Big Spring, July 18.

The Lynn county group is the first mounted organization to accept the invitation for the Big Spring parade.

The famous Cowboy band will be on hand for the afternoon parade and will perform at the opening night edition of the rodeo which is Big Spring's eighteenth annual one.

The rodeo will be held in the new concrete rodeo bowl west of town.

An active organization, the Lynn county paraders have appeared in numerous West Texas parades. Acceptance of the parade invitation was received from Otis Curry, secretary of the organization.

Visiting Sheriff's Posse will be guests of the Big Spring Posse for buffet supper following the parade. They will also ride in the Grand Entry.

Congratulations:

Mr. and Mrs. W. E. Tregoe upon the birth of a little son at 6:11 p. m. Saturday, June 30, in the Tahoka Hospital. The little fellow weighed 6 pounds and 11 ounces and has been named Terry Lee.

Cpl. and Mrs. Grady A. Akin on birth of a daughter, Patricia O'Neil, weighing 7 pounds 8 1/2 ounces, in a Brownfield hospital on June 19 at 10:04 a. m. Cpl. Akin, son of Mr. and Mrs. Marshall Akin of Brownfield, is in Germany with the Fourth Infantry. She is the daughter of Mr. and Mrs. Homer Romine.

Mr. and Mrs. Albin Ratliff on Tahoka upon the birth of a daughter at 10:00 o'clock Tuesday night in the Tahoka Hospital, weighing 6 pounds and 10 ounces. No name for the little lady had been announced Wednesday night.

Mr. and Mrs. Albin Ratliff on the birth of a son weighing 10 1/2 pounds at 2:30 a. m. June 25 at Stapp Clinic. The boy has been named Lary Gene.

Did You Pay Your 1950 TAXES?

A few have not. May we suggest that you check your tax receipts to make sure you did not overlook paying your State and County Taxes.

Penalty and Interest now applies on delinquent 1950 Taxes. This cost increases each month, and if you did overlook paying them it would pay you to attend to the matter as quickly as possible.

Legal Notices

CITATION BY PUBLICATION
The State of Texas

To: The unknown stockholders of the Temple Trust Company, a defunct corporation, and their heirs and legal representatives, Defendants, Greeting: You are hereby commanded to appear before the Honorable District Court of Lynn County at the Court House thereof, in Tahoka, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 13th day of August A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court on the 25th day of June A. D. 1951, in the cause, numbered 1958 on the docket of said court and styled S. R. Schooler, Plaintiff, vs. Unknown stockholders of the Temple Trust Company, a defunct corporation, and their heirs and legal representatives, Defendants. A brief statement of the nature of this suit is as follows, to-wit: The State of Texas
In the District Court Of
Lynn County, Texas.

TO SAID HONORABLE COURT: NOW COMES S. R. Schooler, hereinafter called plaintiff, who resides in Lynn County, Texas, complaining of the unknown stockholders of the Temple Trust Company, a defunct corporation, and their heirs and legal representatives, whose names and residences are unknown to plaintiff, and for a cause of action plaintiff would respectfully show the court the following:

1. On the first day of January, 1951, Plaintiff was, and still is, the owner in fee simple of the following described premises situated in the County of Lynn, and State of Texas, and known and described as being: "Approximately 2.75 acres of land out of Section No. 53, in Block No. 3, E.L. & R.R.R. Co. in Lynn County, Texas, and being described by metes and bounds as follows: BEGINNING at a point in the North line of said Section 53, that is 2278.6 feet West of its Northeast corner, same being in the West line of U. S. High-

way No. 87, and at a point in the South line of a paved county road running East and West along the North boundary line of said Section 53, where such paved county road intersects said U. S. Highway No. 87; "THENCE West along the South boundary line of said paved county road, a distance of 430 feet to the Northwest corner of the tract herein conveyed and being a point where said paved county road intersects a paved county road cut-off which latter road runs in a Southeasterly direction; "Thence in a Southeasterly direction along the Northeast side of said paved county road cut-off, a distance of 420 feet to a point where said paved county road cut-off intersects said U. S. Highway No. 87; "THENCE in a Northeasterly direction along the Northeast side of said U. S. Highway No. 87, a distance of 454 feet to the place beginning, and containing approximately 2.75 acres of land."

2. On such day also, Plaintiff was in possession of such premises, and afterwards on the 2nd day of January, 1951, the defendant unlawfully entered upon and dispossessed him of such premises and withheld from him the possession thereof.

3. Defendants have occupied and used such premises under such unlawful possession for a period of six months, and the rental value thereof during such occupancy is \$300.00, in which amount by virtue of such wrongs the defendants are justly indebted to plaintiff, but though repeated demand for the payment thereof has been made of defendants by plaintiff, defendants have failed and refused and still fail and refuse to pay the same to plaintiff.

tiff's damage in the sum of \$300.00.

WHEREFORE, Plaintiff prays that the defendants and their heirs and legal representatives be cited by publication to answer this petition, and that plaintiff have judgment for title and possession of the above described premises, for his damages, for costs of suit, and for such other and further relief, either in law or in equity, as he may show himself justly entitled to receive, as is more fully shown by Plaintiff's Petition on file in this suit.

The officers executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Tahoka, Texas, this 29th day of June A. D. 1951.

ATTEST:

Hazel Johnson And Billy Bert Stevens Are Married In Saturday Ceremony

Miss Hazel Johnson, daughter of Mr. and Mrs. Jess Johnson and Bert Stevens, son of Mrs. Jessie J. Stevens, were united in marriage in the home of Mrs. Stevens Saturday afternoon, June 30, at 6:30 o'clock.

Rev. Bill Scantling, pastor of the Sweet Street Chapel, read the double ring ceremony before the parents of the couple.

Following the ceremony, the couple left for a trip to California.

Both are 1950 graduates of Tahoka High School. They will be at home in Tahoka where the groom is employed by the Lyntegar Electric Co. and the bride by the Southwestern Associated Telephone company.

Mr. and Mrs. Clayton Beard of Brownwood visited relatives and friends here the first of this week.

Mr. and Mrs. G. H. Spears attended a state-wide two-days Sacred Harp singing convention held in one of the Primitive Baptist Churches in Lubbock Saturday and Sunday. E. I. Hill also attended Sunday afternoon, expecting to meet some relatives there. They didn't come, but he greatly enjoyed the singing. Mr. and Mrs. Spears report that it was one of the best and most largely attended conventions they have ever attended.

Mrs. Wynne Collier last week end carried her daughter, Jan, and her niece, Jackie Rawlins, who had been visiting here, to the latter's home in Dallas. Jan is visiting her cousin there, and on July 9 Jan and Jackie will go to the Dallas Girl Scout Camp for a two weeks stay.

Sen. Connally Introduces Bill To Correct 'Ridiculous' Wage-Hour Act

WASHINGTON, (Spl.)—Senator Tom Connally last week introduced a bill to correct what he called the "ridiculous interpretation" of the Wage-Hour Act by the Department of Labor.

The Connally bill would make it plain that wholesale petroleum marketers are not engaged in interstate commerce and are therefore not covered by the Wage-Hour law. Most of these marketers operate within a radius of 30 miles and within only one county.

"Investigators of the Wage and Hour Division have recently begun a campaign of harassment against these independent local businessmen," Connally told the Senate. "The investigators carry on a process of coercion and intimidation to bring about a supposed compliance with the wages-and-hours law."

But, Connally argued, the Wage-Hour Act was never intended to apply to business of this kind.

"Only by the wildest stretch of the imagination can they be considered to be in interstate commerce," he declared. "If they are engaged in interstate commerce, then every person in the United States is engaged in interstate commerce. I do not think the Senate is ready to accept such a concept."

The pretense upon which the Wage-Hour Division attempts to apply the law to the petroleum wholesalers, Connally explained, is that they sell to farmers and the things the farmers produce may go out of the state.

"That is a ridiculous proposition," the Texas Senator declared. "This is growing to be a bureaucracy of the worst character. Nevertheless, some petroleum marketers now find themselves facing suits for back pay amounting in some cases to as much as \$9,000."

"It is significant," Connally said, "that these suits do not come from the employees to whom the back pay is allegedly due. They come, instead, from the wage-hour investigators. The employees themselves do not want to sue. In many instances, they are getting a monthly salary in excess of the requirements of the act."

Connally noted that the Wage-Hour Division has a heavy backlog of complaints but that only complaint.

"The Division ought to devote itself to getting rid of this backlog. It is made as the result of a one out of four of its investigators," he suggested, "instead of snooping around people who are not covered by the law and who are not complaining."

Gas Rates

(Cont'd. From Page 1) The fair share of the burden of dental and business customers are for two thousand cubic feet or less.

To show the effect of the rate increase the company has made application of the new rate to the actual annual consumption of over seven hundred residences representing several from every town served. The average annual residential consumption for the calendar year 1950 was 86 MCF.

Taking the first fifty examples cited in each of several groups, arranged by annual consumption, the following average increases will occur:

Annual consumption, 41 to 60 thousand cubic feet, annual increase in bill, \$2.82;

Annual consumption, 61 to 80 thousand cubic feet, annual increase in bill, \$4.55;

Annual consumption, 81 to 100 thousand cubic feet, annual increase in bill, \$5.99;

Annual consumption, 101 to 150 thousand cubic feet, annual increase in bill, \$8.13.

Homes Present Fire Hazards

COLLEGE STATION, —Fireproof housekeeping can be every homemaker's job in keeping the country safe. Mrs. Bernice Claytor, home management specialist for the Texas Extension Service, says this will aid defense efforts.

For fireproof housekeeping five steps are suggested by the National Board of Fire Underwriters to reduce common fire hazards in the home: first, clean out all rubbish from closets, attic, basement, and other places. Then put waste paper in covered metal containers and empty them frequently; keep oily rags and plain cloths in covered metal containers; get rid of gasoline, benzine or other highly inflammable liquids; keep electric wiring, extension cords, and appliances in good repair.

Have an emergency kit including a flashlight, extra batteries, portable radio, first aid kit, several days' supply of canned food and drinking water.

Have some home fire-fighting equipment handy—a five gallon hand pump, a hose and several buckets of water, sand and a shovel.

Mrs. E. Follis and Mrs. J. A. Loyd of Tahoka entered the Tahoka Hospital as patients, Wednesday morning, July 4. T. T. Shepherd of Post entered Tuesday night, and Leonardo Chaves, a Mexican, was a patient Wednesday, suffering from an injury to one of the hands.

LEAVE FOR REUNION

Justice of the Peace P. D. Server and Mrs. Florene Best and children will leave Saturday for Temple to attend the Walker family reunion. Walker Server of Welch and Mrs. Melvin Todd of Lamesa and families will also go. Tom and Hattie Short of Port Arthur expect to meet them there.

CARD OF THANKS

We deeply appreciate the many kindnesses extended us during the long illness and upon the death of our loved one, I. I. Gattis. Your many acts, words of comfort, beautiful flowers, etc., in our time of trouble will ever be remembered. We also want to thank those who sent in food. May God bless you good people, is our prayer. —The Gattis families.

Nationalist forces on Formosa are found well trained.

New Laws

(Cont'd. From Page 1) State financing rather than placing the load on the consuming public.

Other important legislation, Sen. Corbin outlined, concerned re-districting, increase in truck load limit with stricter enforcement features, and cinching present funds for farm-to-market roads.

In addition, five constitutional amendments were passed and will be presented to the public in November. Two others will be voted on in the general election, 1952. The five coming up are:

1. Increasing amount of tax for rural fire prevention;
2. Changing the limit of loans of veterans land program from \$25,000,000 to \$100,000,000;
3. Raising ceiling of old age pensions and other public welfare from \$35,000,000 to \$42,000,000 a year with a stipulation that liens cannot be issued on property of old-age recipients;
4. Authorizing statewide retirement system for county employees, and;
5. Authorizing the investment of the university's permanent fund in certain corporation securities.

Regarding re-districting, Sen. Corbin said this district has been reduced from 24 to 11 counties for the Senate and to four for the House. The senatorial district will include Cochran, Hockley,

Lubbock, Crosby, Yoakum, Terry, Lynn, Gaines, Dawson, Martin and Andrews. In all, the South Plains gained 11 new representative in the lower house through the bill, one which drew hot debate from the south and east sections of the state.

The load limit for trucks was raised from 48,000 pounds to 58,420 pounds, but on-the-spot unloading of overloaded vehicles was written into the law.

The senator authored a bill for county offices to operate on a four-year plan rather than two years. It passed the Senate but was killed in the House.

The Legislature was in session 151 days and passed 541 bills through both houses aside from approving the seven amendments to be submitted.

Youth Drowns

(Cont'd. From Page 1) had been made icy cold by rain and hail of the night before, and after a few moments, Charles went under, came up, and yelled for help. Roy Lee went in to attempt a rescue. Charles got hold of him in desperation, and Roy Lee could not manage him. The boys said he flayed the water with his hands, but the lower part of his body was likely cramped and soon he did not come up.

Roy Lee and Jerry Lyndell Davis ran to the Birwell home to notify Mrs. Birdwell; Lyndell Wood ran first to the Davis home for help, and thence to his own and called Sheriff R. W. Clem. In the meantime, Jerry Lyndell ran to meet a pick-up coming down the road occupied by Alton Greer and a Mexican man. These two men and a Mr. Walker began a search of the waters for the body.

The youth was drowned at about 9 a. m. Though the tank was only about 30 yards in diameter and 10 feet in depth, divers were unable to locate the body. Lubbock Fire Department was called, and they located the body at about 12 noon.

Mrs. Birdwell, hysterical and suffering shock, was taken to Tahoka Hospital at about 10 a. m. Mr. Birdwell, also near collapse, was later brought there.

Charles Glenn Birdwell was born March 23, 1937, at Floyd, Texas. He came to Tahoka with his parents nearly two years ago. He had just this spring completed the eighth grade, and was a popular member of his class. He was also a Boy Scout, a member of the First Baptist Church and a true Christian.

In addition to his parents, Charles is survived by one sister, Carolyn, 11, and one brother, J. E., 6, and his grandfather, L. Swindall of Houston.

People of the community and the county deeply sympathize with the shocked parents in the loss of their fine young son.

You'll be in clover

10 Times Over

With A New AUTOMATIC Gas Clothes Dryer

See Your Gas Appliance Dealer

1. SAVES TIME—As much as 15 times faster than the old clothes line routine.
2. SAVES WORK—No back-breaking toil... lugging baskets of wet clothes is a thing of the past.
3. SAVES WORRY—Never again will you have to put off washing because of dusty or rainy weather.
4. SAVES CLOTHES—Eliminates danger of tears from clothes pins and whipping winds.
5. SAVES SPACE—Simple... smart... compact—it takes only 6 feet of floor space.
6. SAVES HEALTH—An automatic gas clothes dryer sanitizes, sweetens and purifies clothes.
7. SAVES IRONING—Gives a professional finish to towels, cotton knits, flannels, without any ironing at all.
8. DEPENDABLE—Protects you from dusty "disasters."
9. COMPLETELY AUTOMATIC—Toss the wet clothes in the dryer, set the dial and the dryer does the rest.
10. ECONOMICAL, TOO—Operating cost is low... plus a big savings in clothes wear.
