Number 41

Telephone Rate Raise Refused By City Council

Tahoka City Council has refused to grant the rate increase in local telephone rates recently asked by Southwestern Associated Telephone company.

The unanimous action was taken at a meeting of the Council last week.

Mill Roberts of Hobbs, N. M., district manager for the company, told The News he did not know what the company's next move would be.

He contends that the company can not operate on the present rates charged in Tahoka. He told the Council local service may be curtailed and threatened the cutting of the staff and removal of the service man to some other city.

The company had asked for an increase in rates of approximately fifty percent.

The City expressed a willingness to grant some raise in view of other rising costs, but was not willing to go as far as the telephone company demanded and turned down the rate raise proposal.

Members of the Council, in retaliation, complained that the service in Tahoka is none too good as it is; and suggested that the company might receive more sympathy if the service were better.

Mr. Roberts points out that the company has spent considerable money in the last year or more, and the Tahoka outside plant has been almost completely rebuilt to give Tahoka as good or better service as that of comparable towns.

Posse Attending Many Rodeos

Plans are about complete for the big annual O'Donnell Rodeo which will be staged in that city on the nights of July 26, 27, and 28.

Stock for the rodeo will be furnished by "Goat" Mayo, the same man who furnished the "salty" stock for the Tahoka Rodeo.

Lynn County Sheriff's Posse will participate in the parade and appear in the grand entries.

Wednesday, the Posse left for Santa Fe, New Mexico, where they were to ride Thursday in the Old Santa Fe Trail Days parade, one of the most colorful events in the West. The riders will return home today.

The Posse will ride in the Big Spring rodeo parade next Wednesday night, July 18.

OPS Specialist Will Be Here Thursday

The OPS price specialist from the district office who comes to Tahoka next Thursday afternoon, July 19th, will take the information and assistance needed right into the office of the business men asking for it.

City Cracking Down On Traffic Violators

Fifty cases were filed in the new Tahoka Corporation Court during the first month of its operation, according to Russell B. McGee, City Judge.

Ten cases were filed in the court this past week.

Of the 50 cases, 41 have been brought to trial and fines totaling \$511.50 have been paid. One violator laid his fine out in jail, and one laid out a part of his fine. The remainder are pending.

A total of 39 charges have been filed for traffic violations, five for gambling, three for drunkenness, one for passing a funeral procession, and two against peddlers for not obtaining a City license.

The City Judge has issued one warrant of arrest for a violator who failed to appear, but this man "got word" and sent in his fine. Other warrants are pending issuance for the same reason, but six are not yet due. The man charged has five days in which to make his appearance.

Charges of "failure to appear" accompany the warrants when the Judge deems it necessary to send out after a delinquent violator.

"The Police have been very lenient on traffic violations," McGee states, "but the Council may ask them to tighten down."

"Cooperation and attitude of local citizens have been splendid, and the Mayor and City Council wish to express their appreciation for the manner in which the people are cooperating and in which the Police are doing their jobs."

"The Council also wishes to state to the public that the Police Department was not set up for revenue purposes, but to enforce the laws and ordinances of the City of Tahoka, making this a better and safer place in which to live."

4-H Boys Win Pig Premiums

Eight Lynn county 4-H Club boys placed in the South Plains area Sear Foundation pig growing contest, according to information received by County Agent Bill Griffin.

Thirty-nine youths placed in the contest, based on weight gains of their pig litters.

Lynn county boys, and their prizes follow: Harold Sanders, Rt. 3, O'Donnell, sixth, \$15.00; Hilton Wood, Rt. 5, Tahoka, fourteenth, \$9.00; Walter Lee Stice, Rt. 4, Tahoka, twenty-first, \$8.00; Dan Tom Stoker, Rt. 1, Wilson, twenty-fourth, \$7.00; Slaton D. Harris, Rt. 3, O'Donnell, twenty-fifth, \$7.00; and Wendell Norman, Rt. 2, Post, thirty-second, \$7.00.

New Policeman On City Force

L. N. Bartley, night policeman here for the past several months, resigned his position with the City of Tahoka Saturday to accept a similar job at Slaton.

Dwaine Jones was appointed to succeed him, and went on the job Sunday night. Jones was formerly on the Snyder police force.

Man Charged In Burglary

A second man was taken into custody Monday at Big Spring on charges of burglarizing Shamburger-Gee Lumber company here and the George Shoemaker service station at O'Donnell on Sunday night of last week.

He is Charles Read of Big Spring. The other man charged with the two burglaries is Bert Brown, also of Big Spring. Read was brought here early this week by Sheriff "Slick" Clem.

Shoemaker lost 17 tires and Shamburger-Gee lost a sledge hammer and some pocket knives in the burglaries.

New Oil Test For Lynn County

A new 4,000-foot wildcat for northeastern Lynn county to test the San Andreas has been announced by the William Herbert Hunt Trust Estate of Dallas.

The test will be known as the No. 1 C. D. Young, with location stake 330 feet from the north and west lines of section 1, block M, EL survey. It is four and a half miles north of Wilson, a half mile south of Lubbock county line, and two or three miles north east of the Shamrock No. 1 Green test.

The Humble No. 1 Launa Thomas wildcat, west of Wells, was reported Wednesday to be drilling below 10,980 feet in Mississippi lime, chert and shale.

Latest drillstem test from 10,936 to 10,977, recovered 50 feet of drilling mud and 450 feet of salt water with the hole open 32 minutes. Last week, at a higher depth, 1200 feet of free oil rose in the hole.

Drilling is now well underway on the Humble No. 1 Cox wildcat north of West Point with the bit past 4,400 feet. The test is southeast of the Terry county Mound Lake pool.

Position Open In Local Postoffice

"The Civil Service Commission announces an examination for filling vacancies in the Tahoka, Texas Post Office in the position of Substitute Clerk-Carrier at the salary rate of \$131 1/2 per hour. To be eligible to take the examination applicants must actually reside within the delivery of the Tahoka Post Office or be bona fide patrons thereof.

"Application forms and additional information may be secured from the post office or from the Regional Director, Fourteenth U. S. Civil Service Region, 210 South Harwood Street, Dallas 1, Texas."

The condition of Mrs. Valerie Wells Harvick was reported Wednesday afternoon as being apparently somewhat improved. She is in Tahoka Hospital.

Jesus Fuerta had his appendix removed at 2:00 o'clock Wednesday afternoon at the Tahoka Hospital.

Never put off enjoyment. There is no time like the present.

A. Waldrep (Bud) Johnson of Monroe, La., (above) will do the preaching in a Gospel meeting at the Grassland Church of Christ beginning Sunday, July 15, and continuing through July 25, according to O. J. Stanley.

Services will be held at 7 a. m. and 8:30 p. m. Singing will be led by J. I. Parham of Lubbock.

The public is cordially invited to any and all the services.

Methodist Men Hear Rev. Small

Rev. George Maurice Small, senior student in Perkins School of Theology at S. M. U. in Dallas and a native son of Tahoka, was the principal speaker at the regular monthly meeting of Methodist Men Monday night.

He was introduced by his dad, J. M. Small, who, with Mel Leslie, served on the program committee; and his grand-daddy, George Small, was one of his listeners.

George Maurice brought a very interesting and informative talk on the Bible, in which he told some of the known facts and theories on how this great book was written, assembled, and translated.

Brief talks also were made by C. O. Carmack, president of the Methodist Men, and Rev. Jim Sharp, pastor.

An excellent meal was prepared and served by Jess Gurley and Winston Redwine.

Next month, the meal will be prepared by J. M. Uzzle and A. C. Weaver. The program will be arranged by H. W. Pennington and Frank Hill.

YOUTH IN CALIFORNIA

Jerry Cain, son of Mr. and Mrs. Alton Cain, left Sunday morning for California to visit his grandmother, Mrs. S. W. Cain, at Long Beach, and his uncle and aunt, Mr. and Mrs. Charles (Mildred Cooper) Harris, at Compton.

He plans to see some television and radio shows, the scenery, and other things of interest in the West Coast state.

Congratulations:

Mr. and Mrs. Frank Makovy up on the birth of a daughter at 10:20 o'clock Tuesday night, in Tahoka Hospital. No name given.

Otis Spears New Head Tahoka School System

Mexican Fined On Liquor Charge

Deputy Sheriffs Otis Curry and W. D. Reese arrested a man at O'Donnell at about 7 a. m. Sunday and charged him with illegal liquor transportation.

The man, Salvador Antega, pled guilty to the charge before County Judge W. M. Mathis Monday, and was fined \$100.00 and costs.

Antega was found hauling 89 cases of beer in a truck belonging to another man. The beer was confiscated.

Local Building Changes Hands

D. V. Smith has sold his building at the corner of Alley and Lockwood streets to Claude Donaldson and the hatchery equipment to Jones Grain & Seed company.

V. F. and Felix Jones have moved the hatchery equipment to their building east of the railroad on Lockwood, and next winter they expect to open a chicken hatchery in connection with their grain and seed business.

Mr. Donaldson is cleaning up and reconditioning the frame and stucco building, which occupies a lot 30 by 88 feet in size, and next month expects to move his cotton office to this location. He hopes to rent out a part of the building.

Thomases Will Hunt In Alaska

Mr. and Mrs. Claude Thomas of Grassland will leave Monday on a two months hunting and fishing trip to Alaska.

They will be accompanied by Mr. and Mrs. Nolan Van Roeder and Mr. and Mrs. Marvin Key and family of Snyder, and will make the trip over the Alcan International Highway.

The men will spend a part of their time hunting and fishing. They expect to hunt for bear, caribou, mountain sheep, and possibly other big game, according to Mrs. Thomas.

While the men are on their hunt, the women expect to visit Rev. and Mrs. Orland Carey in Fairbanks, Alaska. The Careys were both reared in Snyder and now are doing missionary work in Alaska.

Parker Opening Service Station

Reid Parker has enlarged his business on North Sweet Street by adding a service station in connection with his wash and grease business. The firm is now operating under the name 1-Stop Service Station.

His building has been remodeled, office and rest rooms installed, and other improvements were made.

S. R. Kemp, 77, Buried Tuesday

Funeral services for S. R. Kemp, 77, were conducted at 10 o'clock Tuesday morning in the First Baptist Church here, followed by burial in the Tahoka cemetery.

Mr. Kemp had been in bad health for a long time but his condition became so serious Sunday afternoon that he was taken to the Tahoka Hospital for treatment. He died at about 12:00 o'clock midnight in the hospital.

Funeral services were conducted by the pastor, Rev. Lee Ramsour, and by Rev. D. W. Reed of Garnolia, who had been Mr. Kemp's pastor for several years in that community when Mr. Kemp and family resided out there. Rev. Reed delivered the funeral discourse.

Rev. Ramsour read the obituary and offered prayer.

Mr. Kemp, who was born on March 30, 1874, was reared in Bell county, later moved west, and in 1920 he and his family came to Tahoka. He was engaged in business for several years in the Shook building at the corner of Main and Harper Streets, now occupied by Lankford Variety Store. During those years he and Mrs. Kemp and other members of the family were active members of the First Baptist Church here. Selling the business, he and family moved to a farm in the Garnolia community, where they resided for a number of years and where they were likewise active in church work. His health failing, he retired from farm work a few years ago and he and Mrs. Kemp moved back into Tahoka, but have

Tahoka Youths Attend Camp

Rev. Lee Ramsour accompanied 16 Intermediate boys over to the annual meeting of the Plains Baptist Assembly in session from Monday until Wednesday afternoon. He reported that 400 Intermediate boys from over District Nine had registered up to Monday night.

Possibly less than a dozen Junior boys, accompanied by John Roberts, Mr. and Mrs. John Fulford, and Mrs. Carl Williams, went over Wednesday for the Junior boys' encampment.

The number was greatly reduced this year on account of the extremely busy activities of farmers and hoe-hands at this particular time.

Charles Ware Gets Further Honors On His Poetry

Charles Ware, son of A. E. Ware, who recently received a free trip to New York as third place winner in a National Poetry contest, on Friday received another high poetry honor.

He was admitted as a life member of the American Poetry Society. He was already a member of the National High School Poetry Association.

Charles' permission was asked to publish his poem, "He Will Care," which has already appeared in the Annual Anthology of High School Poetry, in the forthcoming edition of "Sermons in Poetry," published annually.

"Sermons in Poetry" is a compilation of religious and philosophical poetry written by the youth of America, representing almost every state in the Union. Selections are made by the Board of Judges from almost a thousand poems.

Charles' poem, "He Will Care," was an alternative sent in for the National Contest.

Otis Spears was unanimously elected superintendent of the Tahoka Public Schools at a meeting of the local school board Tuesday night. He will take office Monday, July 16.

Mr. Spears at present is superintendent of the Cooper Rural High School at Woodrow, Lubbock county. He was high school principal at Tahoka for two years prior to moving to Cooper last fall.

The new superintendent and his wife were both reared in Lynn county in the New Lynn community. He holds B. A. and M. A. degrees from Texas Tech.

During World War II, Spears served as an officer in the Army Air Force. Following the war, he was in business in Big Spring for a while; then opened an insurance agency in Tahoka. He was elected Tahoka High School principal in 1948.

The local board had considered several applicants, and had delayed the naming of a superintendent in order that the desires of patrons might be sounded out.

No doubt, the action will prove popular with patrons, school students, and teachers, since Mr. Spears is highly respected here for his ability, character, and congeniality.

Mr. Spears will succeed Supt. Vernon Brewer, under whom he worked the two years in the local schools. Mr. Brewer resigned his position here a few weeks ago.

Grassland Wins Over Tahoka, 3-2

Grassland improved its first-place standing in Square Deal Softball League this last week by winning a close 3 to 2 decision over Tahoka, in a game played at Grassland, Friday night.

Tahoka was leading 2 to 1 in the seventh. With two out, two strikes, and one man on base, Grassland's J. B. Greer hit a long fly to score the base runner and then scored himself on an error by Tahoka. Bobby George Oliver, on the mound for Tahoka, gave up only three hits in losing, while Gribble pitched good ball for Grassland. Tahoka errors were the difference.

Tuesday night Tahoka lost at Post by forfeit because only seven players showed up at game time, several being absent because of illness in their families.

Last Friday night, Post defeated Southland 11 to 1 in five innings. However, completing a make-up game, in which a protest was granted on the last inning, Southland was a 11 to 10 winner.

The July 3 O'Donnell Post game, not reported here previously, was won by O'Donnell 9 to 7 after 4 1/2 innings. This was ruled a win for O'Donnell by the League officials. E. L. Short told The News a wind blew up in the middle of the fifth and rain was threatened; the wind died down in a few minutes, but Post had gone home.

Standings through last Friday are as follows:

Team	W	L	Pct.
Grassland	11	4	.737
Southland	9	5	.639
Tahoka	8	5	.616
Post	4	10	.284
O'Donnell	3	11	.213

The regular League season will close on July 31. The playoff between the two top teams will follow.

Southland expects to hold a tournament immediately following the playoff in which many top teams of the South Plains will be entered. Tahoka and Grassland expect to enter a combined team in this tournament.

BLAIR IMPROVING

L. R. Blair, who suffered a heart attack over two weeks ago, was able to be down town a few minutes Monday for the first time. He spent a week in a Lamesa hospital under treatment.

VISIT IN DALLAS

Mr. and Mrs. A. M. Cade returned home last week end from Dallas, where they visited their daughter and husband, Mr. and Mrs. T. T. Turner. Their granddaughter, Geraldine Tippit, accompanied them to Dallas and remained for a longer visit with her aunt. Mr. and Mrs. Cade also visited in Fort Worth and in Oklahoma.

REMODEL BEAUTY SHOP

Miss Echo Milliken has had her Duchess Beauty Shop closed for several weeks while the interior is being remodeled, new booths installed, and redecoration done. The shop is now open a gain for business.

The Thailand Royal Navy has two ships operating with the United Nations Fleet in Korean waters.

The Navy has had seven ships named Ranger.

ODDS AND ENDS

(By E. I. The Elder)

Though not the largest, Tahoka Lake, without a doubt, is the most historic and the best known natural lake on all the Plains of Texas. Ever since human beings of the present era began to roam over these Plains or to pass across the great Llano Estacado for any purpose, Tahoka Lake has been more serviceable and valuable in sustaining human life and also animal life than has any other natural lake in all this region.

While all the so-called lakes on the plains—at least those of major proportions—are alkali lakes and are usually dry, and while that is true of Tahoka Lake also if only the bed of the lake is to be taken into account, yet it is far from true if the general depression enclosed within the banks of these lakes, and not simply the flat beds thereof, are to be considered. The difference is the abundance of fresh living water to be found within the bounds of Tahoka Lake as compared with the scarcity of such water to be found in other Plains lakes.

Some of them, it is true, do have small springs within their bounds but none to compare with the Big Spring and the abundance of water to be found in Tahoka Lake.

And yet we are constrained to

believe that a vast majority of our own people here in Lynn county have no conception of the abundance of fresh, living, flowing water that springs perennially and unfailingly from beneath the ledge of rock and clay at the head of the North draw that leads down from the northwest into Tahoka Lake, thus creating a veritable elongated oasis of green grasses, plants and shrubs, a hundred yards or so in width and a mile or so in length.

Widespread ignorance of the existence of this abundant fresh water supply is due largely to the fact that in recent years Tahoka Lake has become almost completely isolated from the world. People in cars can scarcely get close enough to the lake to tell what it looks like. They can catch a glimpse now and then of the level alkali bed a mile or so away, but they can get no idea whatever as to the number or the out-put of the springs up the draws that came down from the adjacent prairies into the lake. Thus it would seem that Tahoka Lake, like the lovely flower mentioned in Grey's Elegy, was "born to blush unseen and waste its sweetness (beauty) on the desert air."

We are not blaming anybody for this situation. The Lake and the lands surrounding it belong to a ranchman. The ranch is a valuable one not only on account of the abundance of water. The ranchman has stocked it with many fine whiteface cows, and he must protect his property; for men who seem to take a delight in violating every traffic law in the category—men who race recklessly up and down our highways endangering human life—could not be expected to be very careful to preserve the life of a cow that might be within the range of his bullet if a coyote or a cotton-tail should suddenly jump up and he should fire at the fleeing beastie. So, of necessity the ranchman has erected strong and impassable fences to protect the lives of his cows against intruders who doubtless care no more for the life of a cow in the pasture than they do for the life of a child in a car out on the highway. But I will drop that phase of the matter for the moment to return to the spring.

I had been out to Tahoka Lake on several occasions years ago, when it was more accessible to the public than it is now. But I never did explore the whole thing. I can not remember that I ever did go far up the north draw and I am sure not as far as the "Big Spring." So I must confess with shame that I lived here for more than 27 years without seeing or even knowing anything about the most important feature of Tahoka Lake, the lake for

which my town was named—and to which I could have driven in 30 minutes on almost any day even before we had paved roads. Surely not many other people who have lived here that long are as ignorant of Tahoka Lake's interesting features as I was.

But I drove out there a few weeks ago just to get better acquainted with Tahoka Lake. I stopped at the former Gibson residence to get permission to enter and also to get directions. The gentleman who now lives there very courteously gave me the permission together with instructions as to how to reach by car a point nearest to the lake but warned me that even then I would be compelled to walk some distance. I found it to be true; for after parking the car and climbing through a wire fence, I trudged on and on, almost endlessly, it seemed to me, before I came in sight of the north draw. Then I started up the draw to find the "big spring," and as I went my amazement grew and grew and grew until I believe that it actually surpassed my sense of shame and regret for having been so ignorant for so long.

I was surprised at the amount of water I found in the draw. I had expected to find a few little puddles of water, some large enough to make a pretty good watering place for stock, and possibly a little stream a hundred yards or so long, but I did not expect to find a stream that flowed many hundreds of yards, and pool after pool of water that a man could swim in or drown in according to his mood or his skill. But that is exactly what I found. Several pools that apparently were several feet deep, and twenty or thirty feet long, though usually just a few feet wide. There was one regular "swimming hole" I found, some twenty feet in diameter or more. And there were the tracks and the beaten paths to show that the boys had been using it. Some 200 yards on up stream I came to the head spring, the "big spring." It was just another deep pool of water, half hidden by a dense growth of shrubs, willows, and other small trees, 20 to 30 feet tall and growing as thick as cane-brakes. This pool was flanked by banks of rock and soil 10 to 15 feet high, which make it a little difficult for one to go down into near to the water or to climb back up

and out of after going down. Still higher walls and steep hills rise a little further back from the bed of the stream.

This head spring is only 400 or 500 yards down the draw east from the Santa Fe Railway bridge that spans the draw at a point about three miles southwest of Wilson. Paralleling the railroad on the west is the Tahoka-Wilson-Slaton highway, or farm-to-market road.

Now it is the possibilities of this place—rather than its present aspect that charmed and thrilled me most.

If that draw, extending east from the railroad bridge, were converted into a public park for a half-mile down-stream, say, or even for a shorter distance, and were cleaned up, dredged, improved, and kept as a park should be, what a wonderful park it would be! Fresh, flowing water, crystal clear pools of it; a swimming hole enlarged and equipped—a natural one is already there;—ornamental trees planted out along the stream, cotton-wood, pecans, sycamores, etc; necessary buildings constructed, possibly a tabernacle; a paved road built from the Tahoka-Wilson highway down into the park, a distance of only a few hundred yards; and all this within eight miles of Tahoka and three miles of Wilson! Wouldn't it be wonderful?

And there would be plenty of water and watering places still left in the draw below the park, we are sure, to take care of all the cattle that might be placed on the ranch at any time hereafter.

Of course the park would not be immune from floods when big rains fall, for the other day I noticed drifts of trash that indicated that at some time recently the stream of flood waters had been four or five feet higher than the present level of the pools in the channel.

What becomes of this water flowing perpetually from this big spring and other little ones and occasionally from floods of rain that fall in the draw and on the prairies above it?

Well, sometimes it stands for long periods of time in the big alkali lake, where eventually it either evaporates or sinks into the sands. The broad expanse of the lake bed, which is two or three miles long and a half-mile wide, is conducive to rapid evapo-

ration, but a lot of the water gradually sinks into the sands, for we all have noticed that the water in the streams of this area do often completely disappear in their sandy beds.

I hate to cut this story in two, folks, for I visited the south section of the lake, whose approach is entirely cut off from the approach to the north section, on one of the days on which I visited the North Draw and the "Big Spring," but this is probably as much as you will want to read at one sitting any way, if you take time to read it at all, and so I will wait until next week to give you a little "dope" on the south section and some general comments. Adios.

Mr. and Mrs. A. C. Weaver and family visited relatives in Dallas last week, returning home Sunday.

Mrs. Rollin McCord and daughter, Mary, and sister, Mrs. Russell York of California returned to Tahoka last Friday from a month's visit with relatives in New Hampshire. They went the

Great Lakes route. Mrs. McCord says it was cool all the time they were in the North, and much of the time fires were necessary. Mrs. York proceeded to her California home Sunday.

Oldest Plains Buffalo Hunter Relates Early Experiences

Last week Odds & Ends made mention of F. M. Sherrod of Tahoka as the oldest buffalo hunter in Lynn county and better acquainted with that period in our

history than any other man in this area by reason of having gone through it and having had an active part in it. Recently Ben Moore of O'Don-

nell, who through the years has been collecting data about that period and wrote one book about it, interviewed Mr. Sherrod and got an interesting story from him about his early experiences, and The News is publishing that story this week. So here it is, as Ben Moore handed it in to The News.

Frank M. Sherrod Speaking

"I am now past ninety-four years of age, so it goes without saying that very few, possibly none remain who were real buffalo hunters. I experienced a good many thrills before becoming old enough to engage in the business of killing buffalo.

"During the early 'seventies there was but one store, one blacksmith shop, and a saloon in Brownwood, Texas, our home. The woods were full of bear, panthers, turkeys, and other game. But above all, we were in constant fear of Indians.

"In the year of 1873 a fight took place out near the present town of Bangs between Texas Rangers and a band of Comanches. The post oaks out there were well riddled with bullets and flint spikes, which in later years were often found in logs as we burned them in our fireplaces. Following this fight the Rangers picked up one Indian with about forty bullet holes in his body. I have a most vivid recollection of the Rangers as they returned, riding along the one street, each with an Indian dragged along with a rope tied to the horse's tail, seemingly as unconcerned as though they were bringing in so many bears. The reason for their being so angry was that the Indians had slipped into camp and had stolen a number of horses, and several saddles as well. This was about the worst insult possible in the eyes of a Texas Ranger.

"My first long-drawn-out buffalo hunt occurred in the late fall of 1874, when I left home with my older brother, Noah, Mr. Hardester and son Price, and Tom Starky. The first night out, we camped at Santa Anna Mountain. Next morning, while eating breakfast, we saw seven buffalo quite a distance away. Noah and I grabbed our rifles and commenced stalking them. Since they were traveling at a rather fast pace, Noah soon turned back toward camp. But this being my first experience, I kept right af-

ter them. Finally, I squatted and fired into the little bunch. Luck was with me. At the crack of my gun, one of them fell mortally wounded.

"We then hitched up our oxen and started in a northwesterly direction into the section near the present town of Snyder, where J. Wright Moorar, king of all buffalo hunters, settled two years later. There we struck what was known as the Syndicate Trail and followed it out to the Tahoka Lake section of the Plains, where we made camp and remained for two weeks. At that early date Tahoka Lake was a very well known landmark.

"Buffalo sometimes drank from this alkali lake, but a good spring at the northwest and another at the southwest part of the lake were their principal watering places. Deep trails were made by buffalo leading to Tahoka, Cedar, and other large alkali lakes on the Plains which are readily noticed by old-timers to this day. We found a large number of buffalo in the Tahoka Lake region and killed many before moving over to some springs several miles southwest of our earlier camp. After killing a good number we decided to move down along the headwaters of the Colorado River. After getting our new camp well established, we began reconnoitering for game.

"This location was some-

where within the triangle which touches Lamesa, Gail, and O'Donnell, where several branches of the Colorado rise, each of which contains watering holes to this day. In that section are many bleak red hills which stand out in a greatly eroded area, upon one of which I took my stand and was soon rewarded by having a large herd begin passing within rifle range. I soon decided that I was a pretty good shot, for within an hour's time I had downed 27 of the shaggy beasts.

"In the meantime snow was falling in such great profusion that it became difficult to move with safety among the deep, narrow canyons. This herd appeared to be very hungry. I saw a number fall into snow-filled canyons, disappearing entirely from sight.

"We dried some meat, salting down a great amount each day following a kill. About 65,000 pounds was hauled back to Brownwood at the end of this hunt. I killed 165 buffalo on this trip myself, but the humps and hindquarters were the principal portions saved. It is not likely that any wagon tracks other than our own had been made about Tahoka Lake before we were there in 1874.

"While drying meat just before leaving for Brownwood, Rangers killed four Indians near our camp, two of which proved to be 'White' Indians (renegade white

men). They had stolen a bunch of horses in the settlements and were passing near when overtaken by the Rangers. In the skirmish, an Indian girl was captured—a very unusual occurrence on the frontier. They brought her into camp and 'gave' her to us. We tied her to a wagon wheel and shortly after their departure

we turned her loose. I have seen a lot of wild-life but I do believe that this girl could have put a coyote to shame for speed. She really spilt the wind as far as we could see her, heading up the Colorado. I have never doubted that she easily returned to her band. Indians seldom become lost."

Poor Response To Game Poll

AUSTIN, Tex. —A "disappointing response" to the sportsmen's poll on the 1951 mourning dove season was reported by the Executive Secretary of the Game, Fish & Oyster Commission.

He said "less than 100" letters or postal cards had been received one week after the poll was announced.

The greatest response, he explained, has been from the Houston area. Most of the writers want a later season.

In announcing the poll last week, the Executive Secretary said the Commission wanted to obtain sportsmen's opinion as a basis for making recommendations to the Federal Fish & Wild-

life Service which sets the season since doves are migratory.

The Commission plans to prepare its recommendations at its next regular meeting in Austin.

The Executive Secretary said there has been some sentiment to have the mourning dove season in the south zone coincide with the bobwhite quail season which usually is later than the dove shoot.

North zone dates last year were September 1st to October 15th. The south zone dates were from October 20 to December 3. The general state law for quail hunting is from December 1 to January 16.

MAKE THE 2-Way Test

Standard equipment, accessories, and trim illustrated are subject to change without notice.

...prove Mercury best!

3-WAY CHOICE!

For "the drive of your life" Mercury offers a triple choice in transmissions. Merc-O-Matic Drive, the NEW automatic transmission, Touch-O-Matic Over-drive, both optional at extra cost, or standard synchronized standard transmission.

1 Road-Test a Mercury for Proof of Performance!

Get into a Mercury and out on the road —and you'll find power, smooth and purring V-eight power—more of it than you may ever need.

Now, swing into traffic and discover what a joy it is to handle. Climb a hill. Try an S-curve. Turn down the roughest road you can find and see how Mercury's springing smoothers the bumps.

Comfort? There's move-around space for six. It's room with a view; big windows for extra visibility. Drive a mile and you'll want to drive it home.

Try it today—
MERCURY
for "the buy of your life!"

2 Budget-Test a Mercury for Proof of its Rock-Bottom Economy!

Does it have a down-to-earth first price? Mercury's price tag you can understand—gives you a big dollar's worth for every dollar invested.

Will you be sure of good gasoline mileage? Mercury has proved its more-miles-per-gallon by winning officially sponsored economy tests.

Is it famous for long life? It is indeed! 92% of all Mercurys ever built for use in this country are still on the road, according to latest annual official registration figures.

Will trade-in value stay high? Mercurys keep their value; and used car market reports consistently prove this to be true.

Flapjacks for President and Dan'l Webster

Chef Williams and Aunt Jemima reenact the preparation of the traditional American dish served at the stations along the Erie Railroad on the historic first run of 1841. President Fillmore and Senator Webster made the inaugural trip on the linking of the Atlantic and the Great Lakes.

Mix-UP In Story About Birth Is Somewhat Comical

Someone in The News plant last week, in making corrections before the paper went to press, replaced the wrong line under the "Congratulations" heading and caused a comical and somewhat serious error to appear in the paper.

Two birth items involved in the mistake. One paragraph started off: "Mr. and Mrs. B. A. Young of..." Under this paragraph was another beginning "Mr. and Mrs. Albin Ratliff on..." In the galley proof, an error was found in the latter line and marked on the proof. A printer set the corrected line in the Ratliff item, but took out the first line of the Young item.

The comical aspect of the thing was that The News made the Ratliffs the parents of a 6 pound 10 ounce daughter born at Tahoka Hospital Tuesday, and the next item made them parents of a 10 1/2 pound son born at Stapp Clinic June 25.

Here's the way the two "congratulations" should have read:

Mr. and Mrs. B. A. Young of Tahoka upon the birth of a daughter at 10:00 o'clock Tuesday night in the Tahoka Hospital weighing 6 pounds and 10 ounces. No name for the little lady had been announced Wednesday night.

Mr. and Mrs. Albin Ratliff on the birth of a son weighing 10 1/2 pounds at 2:30 a. m. June 25 at Stapp Clinic. The boy has been named Lary Gene.

Rev. and Mrs. George Maurice Small and baby of Dallas were here the first of the week between semesters visiting his parents, Mr. and Mrs. Maurice Small, and other relatives. He is a student in the Perkins School of Theology at Southern Methodist University.

New Game Laws Go Into Effect

AUSTIN, Texas.—Fifty-six bills bearing on wildlife were passed by the recent Legislature.

A tentative check on the measures enacted indicates that only a few have a state-wide effect. Most of them were local bills.

The major acts, according to the Executive Secretary, were those to:

Increase the Game and Fish Commission from six to nine members.

Provide one hunting license at a cost of \$2.15 instead of the old small game license of \$2.00 and the big game license for \$2.15.

Authorize the Commission to accept the state's share of the new federal tax on sporting fishing equipment.

Require boat-for-hire operators to furnish life preservers for each person using a rented boat, with game wardens empowered to enforce the law.

Give local courts power to revoke hunting and fishing privileges after game or fish law violations.

Some of the more important "local" bills passed were to:

Set up a new wildlife regulatory area in the counties of Jack, Young, Stephens, Palo Pinto, Erath, and Hood, with the Commission authorized to open and close seasons and determine bag limits.

Authorize the Commission to cooperate with federal authorities in margining wildlife in the National Forests in Houston and Trinity counties.

Permit commercial fishing of menhaden with purse seines in a restricted Gulf area since scientists have found that game fish do NOT use these rough fish species for food.

Clean Milk Is Health Factor

AUSTIN, Texas.—Dr. Geo. W. Cox, State Health Officer, endorsing the observance of June as National Dairy month today released a statement congratulating Texas dairymen on the remarkable progress they have made in the past few years.

The use of clean safe milk is a health measure. Milk is our most nearly perfect food as it is rich in proteins, vitamins A and G and the minerals calcium and phosphate. Improved methods of producing wholesome milk have been a great help in the saving of infant lives.

Milk is perishable and especially during hot months. To insure milk of good quality requires cleanliness, sterile utensils, protection against flies, careful bottling and maintenance at low temperature. The presence in fresh milk of large numbers of bacteria, due to insanitary methods of production is a health hazard.

Dr. Cox added, "Among the diseases which may be transmitted through milk are tuberculosis, typhoid fever, scarlet fever, diphtheria, septic sore throat, undulant fever, diarrhea and enteritis. Numerous milk-borne outbreaks of disease occur every year in this country from the use of milk that might have been safe with proper care."

"We should firmly insist that the milk we drink be carefully produced, so that we will have the maximum practicable protection along the line from the cow to the consumer."

Geno Jones of Stanley-Jones Funeral Home is expected home this week end from Louisiana, where he has been spending two weeks on maneuvers with the National Guard.

Mrs. Oliver Tells Of VFW Meet

Thelma Oliver, who was recently elected District 7 president of the VFW Auxiliary, attended the Veterans of Foreign Wars Department Encampment in Dallas June 23-27, where she was officially installed in her new office and also as a member of the State Council.

She will attend a Tri-State Council meeting in Austin October 27 and 28 of representatives from Missouri, Oklahoma, and Texas. Next year's Department Encampment will be held in Galveston.

J. B. Oliver accompanied his wife to Dallas. He especially enjoyed Governor Allen Shivers talk on Communism. The parade, headed by the Governor, was likewise impressive. First place float, entered by Port Arthur, featured two small children about seven years of age, dressed in "nighties," kneeling in prayer, and on the float, in gold, were the words, "Pray for Peace."

The couple declare that they greatly enjoyed the Dallas meeting, but are already looking forward to the Galveston meeting next year.

Mrs. Stokes Wins Insurance Award

Mrs. Gladys M. Stokes, representative in Tahoka of the Southwestern Life Insurance company, has been notified that she is a 1951 winner of the National Quality Award, granted by the National Association of Life Underwriters and the Life Insurance Agency Management Association to agents whose records of service to the public qualify them for the award.

The National Quality Award recognizes the Life underwriter who has an outstanding record in maintaining in force from year to year a high percentage of the life insurance he has placed on the lives of his clients.

The National Quality Award has been granted annually for the past seven years to Life underwriters whose production and persistency records have qualified them to receive it.

American farms produced about \$30 billion worth of produce in 1950.

Mr. and Mrs. Perry Walker and children returned home last week end from a week's fishing and vacation trip to Chama, away up northwest of Santa Fe near the Colorado state line. Perry declares he had excellent luck though this was his first experience fly-fishing for trout.

Mr. and Mrs. Notley Wyatt and son Mark of Snyder came up to Tahoka Monday and left Tuesday on a vacation trip to California.

Pfc. Bill Draper recently wrote his parents, Mr. and Mrs. Howard Draper, that he was going back into combat the next day (the letter was written June 23) as an ammunition bearer for machine gunners. He has been back in Korea several weeks after having been hospitalized in Japan with frostbite.

A model marriage is one in which the wife is a treasure and the husband is a treasury.

More Seeking Old Age Aid

During the first six months of 1951 the Lubbock office of the Social Security Administration has received an average of 175 claims per month for old-age and survivors insurance. This is an increase to about 4 times the figure for the same period last year; according to John G. Hutton, manager of the office.

Most of this increase, Hutton explained, is due to changes made last year in the law, which drastically reduced the requirements for eligibility. Under the new rules payments can be made in many cases after a year and one-half—in jobs covered by the law.

The new eligibility rule applies to two types of cases:

(1) Retired workers past the age of 65;

(2) Survivors of workers who have died since August, 1950. The required six quarters of work may have been done at any time since the law went into effect in 1937 and can be from either steady work or scattered jobs with several different employers.

One effect of the changes, Hutton pointed out, is that a large number of workers, many well past the age of 65, who were not eligible under the old rules, may now qualify for payments. The majority have already filed applications, but Hutton is certain that there are many in the Lubbock area who have not filed claims and are losing payments.

"We can make back payments for only 6 months," Hutton said, "so that a claim filed now will cover only the months from January on. Any payments which might have been due for 1950 are now lost. If a claim is delayed until August, then January will be lost, and so on, a month lost for each month of delay. For this reason, we urge anyone who believes he may be eligible for payments to get in touch with us at once."

Bud Milliken Has Something Here!

A little more than two years ago Bud Milliken built a nice new home out in northwest Tahoka, 1701 North Sixth Street.

Immediately after moving into it he began utilizing and beautifying the premises consisting of three lots. He took the editor out to his home Saturday primarily to show him his young fruit trees already loaded with fruit. And the editor can testify that these two year-old trees are indeed a sight for the eyes. Two squatly, spreading plum trees especially would make even a nurseryman gaze in wonder. Each tree has possibly hundreds of limbs and most of the limbs are maturing plums stuck just as close together as if you had done it with your own fingers. Some of these limbs are lying on the ground but they do not break for the reason that they are so close to the ground to begin with, and the limbs higher up are very pliant and evidently very strong for their size, for none of them have broken off either. We have never seen anything quite like it in the matter

Game And Fish Affairs Studied

AUSTIN, Tex. —Results of an analysis of the Texas Game, Fish and Oyster Commission were made public today.

The survey was made by Dr. Ira N. Gabrielson of Washington, D. C., by request of the Commission. According to the Executive Secretary, the Commission hopes to use the study as a means of advancing administration of game and fish affairs.

Ira N. Gabrielson formerly was director of the Fish and Wildlife Service of the United States Department of the Interior. He is now President of the Wildlife Management Institute of Washington, D. C.

Dr. Gabrielson has devoted his whole life to the cause of conservation and is considered the greatest living authority on wildlife on the Continent.

The survey notes "the accentuated demand for fish and game and a continuing decrease in the habitat available to produce it" in Texas and adds:

"Texas is only now entering the phase of exploration which long ago passed over older states and left its mark, some of which are permanent."

Dr. Gabrielson recommends steps to meet the challenge, observes the need for more revenue for wildlife projects and suggests that all adults should be required to buy fishing or hunting licenses. He notes that the Commission "almost completely lacks the authority to manage the fish and wildlife resources according to the crop available each year" and observes that "it is amazing that the Commission has accomplished as much as it has under this basic handicap . . ."

of plum production. And then Bud has two or three fine peach trees, one of them about the largest we ever saw for its age—it was set out in March two years ago—and these peach trees themselves are well fruited to be so young.

Yes, and there is an apricot tree, a fig tree, and two beautiful pecan trees, thrifty and symmetrical. They will soon be bearing too, and possibly kids will still be eating pecans from these trees fifty years from now.

O yes, and there is the garden—a marvelous garden. We guess that Mrs. Milliken is chiefly responsible for it, but Bud claims

McMurry Fund Nears \$250,000

ABILENE. —Advance gifts amounting to nearly a quarter of a million dollars have already been contributed to the McMurry College Living Endowment Campaign, reports Dr. Harold G. Cooke, president.

Organizational and promotional work for the program is being carried on now with the actual solicitation scheduled to begin in September.

Campaign goal is \$1,500,000 and the program, to be carried on through individual donors of the New Mexico and Northwest Texas conferences of the Methodist Church, instead of through church and district divisions, will be continued until that goal is reached.

With Living Endowment the donor does not pay the capital sum to the college but retains it for his own use and pays annually four per-cent interest on that capital sum to the support of the institution.

At the annual meetings of the Northwest and New Mexico conferences, it was decided to adopt this Living Endowment Campaign.

that he has actually been getting out there in the late afternoons and working it also.

Any way, the Millikens have just a little corner of Paradise up their way.

"I got the story on
50,000 Miles-No Wear
and changed to New Conoco Super Motor Oil"

says Walter James
Buick Dealer
Fairview, Oklahoma

"I use Conoco Super Motor Oil in my demonstrators. It gives me a better sales advantage, because of the quieter motor. I use it in my own car, too!"

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

SCHOOL BUS OPERATOR

"Operating in all kinds of weather, with frequent starting and stopping, sure gives an oil a test all its own," says Paul F. Gadke, School Bus Operator, Stanwood, Iowa. "Conoco Super is my oil! It does the job for me in every way."

PRODUCE BUYER

"Time is the element in my business of buying and selling perishable produce," writes Hanley H. Payne, Twin Falls, Idaho. "In the 55,000 miles I have used Conoco Super, I've spent no money for repairs, and gasoline mileage has been fine!"

When better automobiles are built BUICK will build them

Standard on ROADMASTER, optional at extra cost on other Series.

PARDON us if we play switchboard with a familiar railroad phrase, but we aim to flag down some certain people . . .

Those folks who've always had a great big yen for a new Buick, but a big worry that Buick prices ran too high for their budgets.

Now we'll have to grant you that —on style and beauty and size and impressive appearance — a 1951 Buick looks like a pretty high price tag.

And we'll have to grant, too, that the zooming power and the luxurious ride and the heavyweight steadiness you get in a Buick would also indicate prices beyond the reach of most people.

But honestly, you'll find nothing farther from the truth when you note the price tags on 1951 Buicks.

You'll find that beauty with the big-power, big-mileage, valve-in-head Fireball Engine is really within your budget picture—with prices starting below those of many of today's sixes.

And you'll have to admit then and there that you can have Buick room and comfort, can have Buick ride and handling, can have Buick style and size—for little, if any, more than you've been paying for lesser cars.

That leaves the next step up to you—stopping in to see us.

Come in soon, look over the SPECIAL, SUPER or ROADMASTER you've always wanted — and let that happy glow go surging all through you as you sign up for your smart-buy Buick.

Equipment, accessories, trim and models are subject to change without notice.

**Play It Safe—
Danger Lurks In
Swimming Holes**

COLLEGE STATION, —The old "swimming hole" provides welcome relief from the heat of summer but if the rules of water safety are ignored by the swimmer, results can be disastrous.

The number of swimming casualties, says W. L. Ulich, extension agricultural engineer and member of the State Farm Safety committee of Texas, is directly in proportion to the care that is exercised by those who participate in water sports. He points out that there are seven cardinal water safety rules and offers them to those who will be visiting their favorite swimming pool, lake, river or beach this summer.

Never swim alone or in unfamiliar water and don't try to swim long distances, especially in cold water, unless followed by at least two people in a boat. Ulich says never dive into water until you are sure that no underwater obstructions are present. Don't go into the water for at least one hour after eating and don't stay in the water after you become tired or cold.

He says the careful water sportsman will never take a chance with a small boat in rough water. And last but not least in importance, he adds, don't move around or "cut up" when out in a small boat. Entire groups have drowned as a result of a careless act on the part of just one member of a boating party.

Practice safety whenever you are in or around water. Don't ruin your picnic, summer camp, or vacation, warns Ulich, by forgetting even for a moment that water sports can be dangerous.

**Dixie H. D. Club Has
Called Meeting**

The Dixie Home Demonstration Club was called in a special business meeting on Monday, July 9, in the home of Mrs. T. D. Dunlap, president.

Mrs. Lishman and Mrs. Munn were elected to take leather-craft. The next regular meeting is July 18 in the home of Mrs. Bertram Hatchell.

All members are urged to attend this meeting. —Reporter.

**Texas High In
Stock Auctions**

COLLEGE STATION, —Texas is the leading state in number of livestock auctions and in the number of cattle, sheep and hogs marketed by this method, according to a new bulletin released by the Texas Agricultural Experiment Station. The greatest growth in numbers of auctions has occurred in the past fifteen (15) years.

Several reasons are given for the increased growth. Farmers and ranchmen like the ease and convenience of selling and buying through auctions. They like the social and educational aspects of the auction. It provides an opportunity to meet friends and discuss the merits of the animals sold in relation to the prices paid.

According to the Livestock Sanitary Commission of Texas, 168 auctions were operating in Texas on October 20, 1950. Thirty-seven of these auctions in vari-

**Donley Stockmen
Solve A Problem**

COLLEGE STATION, —Stockmen in Donley county have realized the need for a veterinarian and have done something about getting one.

Early last April, 25 ranchmen and dairymen met in County Agent H. M. Breedlove's office at Clarendon to discuss the need for

ous parts of the state were included in a study made recently by Dr. John G. McNeely, Charles B. Brotherton and Travis M. McKenzie, research agricultural economists.

This study of livestock auctions is mainly descriptive. It does not attempt to point out any advantages this method of sale may have over other methods, McNeely said. It is an introductory step in what is hoped to be a continuing study of the various types of market outlets available to Texas livestock producers.

Bulletin 732, "Livestock Auctions in Texas," is available from the Publications Office, College Station, Texas.

a veterinarian in the county.

They raised \$5,000 at the meeting to build a veterinary hospital. Forrest Sawyer was elected trustee for the group; E. Simmons was elected treasurer and H. M. Breedlove secretary.

Breedlove reports that the building has been completed and is in operation.

C. E. Deyhole, a 1951 graduate of Texas A. & M. College's School of Veterinary Medicine, has signed a contract with the trustee of the Donley county veterinary hospital. Deyhole is a regular practicing veterinarian in the county and will receive an option to buy the building.

SLIGHTLY MIXED—

"Do you love me, darling?"
"You know I do, Harry?"
"Harry? My name's Sam."
"Of course! I keep thinking to-day is Monday."

Mrs. A. Penclenton has been a patient in Tahoka Hospital since Monday.

The Navy's first submarine cost \$150,000. Fleet-type subs of World War II cost between \$6 and \$8 million.

Do you know that hundreds of people burn to death each year because they smoke in bed? If you're smoking in bed now, take a tip from your fire chief. Reach for an ashtray and put out that cigarette, now. Stop fires! Stay alive!

Legal Notices

CITATION BY PUBLICATION
The State of Texas
To: The unknown stockholders of the Temple Trust Company, a defunct corporation, and their heirs and legal representatives, Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Lynn County at the Court House thereof, in Tahoka, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 13th day of August A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 29th day of June A. D. 1951, in the cause, numbered 1953 on the docket of said court and styled S. R. Schooler, Plaintiff, vs. Unknown stockholders of the Temple Trust Company, a defunct corporation, and their heirs and legal representatives, Defendants.
A brief statement of the nature of this suit is as follows, to-wit:
The State of Texas
County of Lynn,
In The District Court Of
Lynn County, Texas.

TO SAID HONORABLE COURT: NOW COMES, S. R. Schooler, hereinafter called plaintiff, who resides in Lynn County, Texas, complaining of the unknown stockholders of the Temple Trust Company, a defunct corporation, and their heirs and legal representatives, whose names and residences are unknown to plaintiff, and for a cause of action plaintiff would respectfully show the court the following:

1. On the first day of January, 1951, Plaintiff was, and still is, the owner in fee simple of the following described premises situated in the County of Lynn, and State of Texas, and known and described as being:
"Approximately 2.75 acres of land out of Section No. 53, in Block No. 8, E.L.&R.R.R.R. Co., in Lynn County, Texas, and being described by metes and bounds as follows:
BEGINNING at a point in the North line of said Section 53, that is 2278.6 feet West of its Northeast corner, same being in the West line of U. S. Highway No. 87, and at a point in the South line of a paved county road running East and West along the North boundary line of said Section 53, where such paved county road intersects said U. S. Highway No. 87, THENCE West along the South boundary line of said

paved county road, a distance of 430 feet to the Northwest corner of the tract herein conveyed and being a point where said paved county road intersects a paved county road cut-off which latter road runs in a Southeasterly direction;
THENCE in a Southeasterly direction along the Northeast side of said paved county road cut-off, a distance of 420 feet to a point where said paved county road cut-off intersects said U. S. Highway No. 87;
THENCE in a Northeasterly direction along the Northwest side of said U. S. Highway No. 87, a distance of 454 feet to the place of beginning, and containing approximately 2.75 acres of land."

2. On such day also, Plaintiff was in possession of such premises, and afterwards on the 2nd day of January, 1951, the defendant unlawfully entered upon and dispossessed him of such premises and withhold from him the possession thereof.

3. Defendants have occupied and used such premises under such unlawful possession for a period of six months, and the rental value thereof during such occupancy is \$300.00, in which amount by virtue of such wrongs the defendants are justly indebted to plaintiff, but though repeated demand for the payment thereof has been made of defendants by plaintiff, defendants have failed and refused and still fail and refuse to pay the same to plaintiff's damage in the sum of \$300.00.

WHEREFORE, Plaintiff prays that the defendants and their heirs and legal representatives be

cited by publication to answer this petition, and that plaintiff have judgment for title and possession of the above described premises, for his damages, for costs of suit, and for such other and further relief, either in law or in equity, as he may show himself justly entitled to receive, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.
Issued and given under my hand and the Seal of said Court, at office in Tahoka, Texas, this 29th day of June A. D. 1951.
ATTEST:

Southland Wins Fourth Victory

Southland took their fourth victory in Junior Base League play Sunday by downing Tahoka North Side 15 to 14.

Pitcher Gentry, who replaced Howle in the second, was the winning pitcher. Morgan Howle suffered his third loss.

The game was a nip and tuck affair all the way. Going into the eighth with a 12-12 tie, Northland scored twice, but lost the game when Southland came back to score three runs.

There was a great deal of contention on the plays in the first and ninth as Howle knocked Southland catcher from his feet a play at home, and Howle was called safe by the umpire. Southland's manager informed manager Wells and the umpire intended to protest the game.

However, due to the final outcome, the protest was withdrawn. Each team committed 5 errors. Southland had 13 hits to Southland's 11.

Wilson Defeats Wayside
Wilson defeated Wayside in a game played in Tahoka, but the score is not known by the writer.

Next Sunday, July 15, Tahoka North Side will play Wilson at Wilson, with Morgan Howle hurling for Tahoka and Leonard Brejler for Wilson. In previous meetings, Tahoka has won one and Wilson has won one.

Wayside will take on Southland at Tahoka, with James Foster or "Junk" White opposing Gentry or Fremble. Both games start at 2:30. League standings are:

Team	W	L	Pct.
Southland	4	1	.800
Wilson	3	2	.600
Wayside	2	3	.400
North Side	1	4	.200

Mr. and Mrs. C. A. Palmer and two children of San Antonio returned to their home Monday after spending several days here with her parents, Mr. and Mrs. I. M. Draper, and other Draper families.

Dockery Writes Parents From Japan Hospital

Mr. and Mrs. Ted Dockery of Grassland have received two letters in the last week from their son, Pfc. Bill Dockery, 18, who was wounded in the fighting in Korea on June 11. He is a member of the Marine Corps.

Pfc. Dockery writes that he received a wound on the right side of the face, one in the right shoulder, and one in the side. All are about healed, but plastic surgery was necessary to remove the bad scar from his face.

He was just a little disappointed that the wound in the side did not include broken ribs—for a broken bone usually means "Stateside" for a fighting man in Korea.

He has been awarded the Purple Heart because of receiving wounds in action. He is in a hospital at Yokosuka, Japan.

Another Lynn county boy, Pfc. Jimmy L. Chancellor of New Home, in the same outfit with Bill Dockery, has written Mr. and Mrs. Dockery of Bill's misfortune.

He writes them, in part: "I was with him right after he got hit, and the corpsman (doctor) was working on him in a matter of seconds. He was given the best of treatment and was on his way to the rear soon after. I know you wonder where he was wounded: The bullet grazed his face and hit him in the shoulder, the doctor told me later, and he said Bill would be all right."

Jimmy recovered a camera Bill had and is saving it for him.

Naturally, the parents are elated to learn that their son is not critically wounded.

ENLISTS IN MARINES
LUBBOCK, July 12. —Billy Bailey Murphy, 19, son of Mr. and Mrs. D. L. Murphy of Tahoka has enlisted in the Marine Corps. He left Lubbock last week and was inducted at Dallas on Friday.

Many a couple thinks their crying need is solved when they secure a baby-sitter.

OUR HATS OFF TO—

Those fine public-spirited citizens who are contributing their time and money to the Lynn County Memorial Park project.

The co-operation of all can make our dream of an excellent place for clean and wholesome recreation come true. Our kids deserve such a park, and we are in favor of giving it to them.

FRED BUCY'S BROTHER DIES IN KANSAS CITY

O. G. Bucy, who had visited in Tahoka many times, died last week in Kansas City of a heart attack after having been ill for some time.

He was a brother of Fred Bucy of Brownfield, formerly of Tahoka, and a cousin of Charles Townes of this city.

It's strange how girls with the cleanest minds give you the dirtiest looks.

"Going Places" Will Feature Baby Contest

A baby contest will be held in conjunction with the production, "Going Places," which is being presented under the auspices of the Youth Center next Friday and Saturday, July 19-20, in the High School auditorium.

The whole town is talking about the show and the contest, and the big question is, "Who will the winner be?"

There will be prizes and honors galore as well as prestige and fun aplenty connected with this clever contest.

The popularity contest will start today, July 13, and it closes at 4 p. m. on July 20.

For information about entering a child in this popularity contest, contact Abbie's Fashion Shop.

283 Cases Polio Reported This Year In Texas

AUSTIN—During the first five and one-half months of this year 283 cases of poliomyelitis, polio for short, have been reported to the Texas State Department of Health.

Stringent efforts should be made to eliminate house-flies, mosquitoes, and rodents and to destroy their breeding places.

Over-exertion in children should be avoided. Children should not visit homes where there is illness.

All raw foods and vegetables should be washed thoroughly before use and protected from filth and insects.

Over-exertion in children should be avoided. Children should not visit homes where there is illness.

Letters To The Editor

The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed.

The senior editor a few days ago received a letter from his son, E. I. Hill, Jr., not intended for publication.

"Dear Dad: Congratulations upon becoming the grand-father of a boy!!"

"This news was certainly surprising and unexpected! You had written in detail about the affairs of Aunts Alice, Betty, and Ola (He should have included all the other aunts too)."

"The picture you sent seems to indicate that the baby is strong and healthy—and strongly resembles Bill."

"Again, congratulations!" (And soon thereafter there came from Mt. Rainer, Maryland, a neatly wrapped box containing baby's wearing apparel.)

Buying insurance should be approached as a family affair and the protection sought should include a study of all types of insurance.

THE LIGHTER SIDE—The faces of these infantrymen express their appreciation of a recent special services show presented before a group of United Nations troops at a rest area behind the lines in Korea.

Mr. and Mrs. George Nixon recently spent a few days of their vacation fishing on the San Saba river at Menard and old Fort McKavitt.

Cancer Crusade Results Given

TEMPLE, Tex. —Cancer Crusade results in Texas have exceeded \$465,000 this year, according to Dr. G. V. Brindley of Temple, Executive Committee chairman of the American Cancer Society, Texas Division.

"The prospects are that our volunteer workers will reach \$490,000 when they make final reports," Dr. Brindley said. "This would be only \$10,000 short of the state need, which was set at \$500,000 by the Executive Committee."

"Every additional gift at this time is vital to the success of this work," he added.

Sixty-one counties have exceeded their goals, and several more expect to make the mark with last-minute contributions. Of the 254 counties in Texas, 175 were organized for the Texas Cancer

Crusade this year, the physician said.

The Cancer Crusade is an annual educational and fund-raising event. Funds are used to further a three-fold program of public and professional education, volunteer service for cancer patients, and a vast cancer research effort.

Dr. Brindley compiled results to date in preparation for a series of committee meetings the week of July 9 which will appropriate funds to support tumor clinics, hospital projects, local information centers and statewide educational and service operations in the coming year.

Counties which had reported exceeding their Cancer Crusade goals by July 5 included:

Big Spring-Midland area: Lynn, Garza, Midland, and Stonewall.

Former Citizen Weds In Arizona

In renewing her subscription for The News, Mrs. J. R. Montgomery of Eloy, Arizona, a former long-time resident of Lynn county, wrote: "We still miss our Lynn county friends and acquaintances and still are interested in what is happening in Lynn county. So, we will again look forward to reading your paper."

Mrs. Montgomery also sent a clipping from the "Eloy Enterprise," giving an account of her daughter Patsy's recent wedding, a brief of which we gladly publish, for she had many friends in this county when the family moved to Arizona a few years ago. Says the Enterprise:

"The First Baptist Church was the scene of wedding vows said by Miss Patsy Montgomery and Donald Lamb on Saturday, June 23 at 7 p. m. Rev. Loyd T. Gentry, pastor of the First Baptist Church of Ajo and an old family friend, performed the double-ring ceremony in a beautiful candle-light service.

Mrs. G. F. Billingsley, a sister of the bride, presided at the piano and played conventional wedding music, and Miss Jo Montgomery, another sister, sang a couple of selections.

The bride was given in marriage by her father, J. R. Montgomery. Her sister Ruth served as maid of honor and Georgiann Crawford and Betty Montgomery, a sister, served as bridesmaids. Candle-lighters were Jane and Jo Montgomery.

The groom was attended by Gid Lawhon as best man, and Gail Lamb, brother of the groom, and Gene Smith were ushers.

Mrs. Lamb was a graduate of the class of 1951, of the Santa Cruz Valley Union High School, where she was outstanding in Journalism and Music, being a member of the Girls' Trio, Girls' Chorus, and piano accompanist for the Boys' Chorus.

Mr. Lamb, son of Mr. and Mrs. H. L. Lamb, graduated from Casa Grande High School in 1949, and was an outstanding agricultural student. He attended the University of Arizona the following year and is now associated with his father in farming near Coolidge, where the couple now reside.

Mr. and Mrs. Joe Bob Billman are returning home this week end from Chama, New Mexico, where they have been vacationing and fishing for over a week.

Maybe two CAN live as cheaply as one—but not quietly.

WARMING UP

The redistricting of Texas was finally accomplished by the just-ended legislature. The bill, as it stands now, could have far reaching effects on the Andrews district.

The South Plains area gained eleven new representatives in the redistricting which is good. Up until now, we have had the same amount of representation as we did twenty or thirty years ago.

Andrews has been placed in a senatorial district which will include Cochran, Hockley, Lubbock, Crosby, Yoakum, Terry, Lynn, Gaines, Dawson, and Martin counties.

A quick glance at the map and a longer look at the 1950 population figures will show who is going to dominate the politics in this district.

Total population of the entire eleven-county district is somewhere around 203,000—and of

that amount Lubbock county accounts for over a 100,000.

A candidate with the backing and support of Lubbock county has an inside rail, a light jockey, and a fast track straight into Austin. Of course, politics being politics, it's no lead pipe cinch that Lubbock county can put its man in office.

With a majority of the counties going against a Hub City candidate, a tight, tight, race could emerge.

One thing for sure, however, is the fact that politics, especially senatorial politics, are bound to get warmer. —Andrews County News.

Yes, and you had noticed, hadn't you, that Senator Kilmer Corbin of Lamesa had already moved to Lubbock, having formed a law partnership with the Honorable John Vickers? Senator Corbin knows his politics.

Go To Church Sunday.

THE LYNN COUNTY NEWS,

Friday, July 13, 1951

Mr. and Mrs. Lawrence Harvick are expected home this week from a two weeks vacation in California. They also visited Marine Sgt. and Mrs. Robert Harvick at Santa Anna, and Mrs. Harvick returned home with them.

Miss Mary Draper, a junior in Abilene Christian College, accompanied by her cousin, Grace Wales of Eden, spent Saturday until Wednesday here with her parents, Mr. and Mrs. Howard Draper, and family.

Yes, the Demand is Endless,
but Yours are on the way!

The demand for these U. S. ROYAL TIRES has been going on for years. It has nothing to do with world conditions, or any sudden stampede of tire buyers. It originates in the tire's quality and performance!

The Royal Master—a new, modern tire with great mileage capacity—with TOTAL TREAD-DEPTH SAFETY that can be renewed when other tires are smooth and worn... their sidewalls protected by their own exclusive CURB GUARD.

The Royal Air Ride—the tire that changed everything a short while ago when it demonstrated how a tire could successfully absorb the road's shocks on wet roads on special steering treads—with cushioning protection to both car and passengers from wearing road shock and irregularity.

Choose between them and make your one tire investment for years to come. Stop around for a visit—we'll arrange for delivery of your new U. S. Royals. Convenient credit terms if desired.

HEFTY HAULER

that's quick on its feet!

GMC

GASOLINE & DIESEL TRUCKS

1/2 TO 20 TONS

Your key to greater hauling profits.

YOU want a truck that has plenty of heft for the pay load—but the right kind of power is the clincher.

That's why so many truckers turn to GMC for swift performers that can pack home the pay load.

For in these broad-shouldered carriers—chassis and engine are yoked together to form a perfect team for hauling, a team that's built for keeps!

The result is a great line of trucks—from nimble 1/2- to 2-tonners with horsepower

unsurpassed in their class, up to brawny Diesels with two-cycle efficiency that has made them first in sales in the nation.

That's why—whether your cargo is compact or bulky, liquid or solid, grain or cement—if you load it on a GMC, you deliver it faster at less cost per mile!

As your GMC dealer, we can give you the long-time benefits of the right combination of axle, engine, transmission and frame for the loads you have to work—skilfully engineered by the world's largest exclusive manufacturer of commercial vehicles.

Get a real truck!

Farmers Improve Many Buildings

Farmers in Lynn county have been improving and modernizing their homes, barns, and other buildings at an unprecedented rate in the last few months, according to R. R. Sherrill, local lumber and building materials dealer and member of the National Retail Lumber Dealers Association.

"In view of the importance of large crops to the defense program, the Federal government has placed no restriction on farm building, except the credit regulations which apply to homes only, and the high level of farm incomes has permitted a large amount of construction," Mr. Sherrill said.

"Owing to the controls on housing and commercial construction,

the supply of lumber and most other building materials is sufficient to meet all farm needs.

"The defense agencies in Washington have refrained from limiting farm construction because of the proven fact that farm animals are healthier when housed in up-to-date, sanitary buildings and that losses are reduced when grain, hay, and other crops are stored in sound, weatherproof structures.

"Judging by the demand for materials, the last five years have seen the greatest period of farm building improvement ever experienced locally, together with the greatest increase in home comforts and conveniences on our farms."

Talking about safety in the home and on the farm isn't enough; it must be practiced by every member of the family every day in the year.

Miss Marianne Reed Weds Dan Minshew

Miss Marianne Reed, daughter of Mr. and Mrs. Tom S. Reed, and Daniel H. Minshew of Colorado City were united in marriage Friday, July 6, at 4:00 p. m. in the home of Rev. W. B. Brian at Plains. The Rev. Brian officiated.

Mrs. Minshew is a graduate of Tahoka High School, and has been a nurse at Tahoka Hospital. Mr. Minshew is employed by Price Drilling company of Snyder.

After a short wedding trip to New Mexico and Colorado, the couple will be at home in Colorado City.

RETURNS HOME

L. S. Todd returned last week end from a two weeks visit with his son, "Pete" Todd, at Morton. He reports that crops are pretty good in Cochran county but that many of them are blowing out from Ropesville back this way.

S. R. Kemp

(Cont'd. From Page 1)

been confined to their home most of the time on account of the condition of his health.

He is survived by his aged companion, Mrs. Sarah Elizabeth Kemp; by one daughter, Mrs. Lucille Foster of Abilene; two sons, Simeon of Tahoka and Keith of Post; one step-daughter, Mrs. Beulah (J. K.) Applewhite of Tahoka; one step-son, J. S. Skaggs of Oklahoma City; two brothers, John and Ben Kemp, both of McCaulley in Fisher county; several grandchildren; and numerous other relatives.

Quite a number of relatives and friends from other counties were here Tuesday attending the funeral services.

Mr. Kemp had long been a member of the Masonic fraternity, being a Master Mason, his membership being in the Lodge here, No. 1041. He had also been a member of the Baptist Church since 1919 and served as a deacon for many years.

He was an honest and highly respected citizen of every community in which he lived, the editor of this paper having known him while he was still a citizen of Bell county. His widow, Mrs. Kemp, was born at Florence in Williamson county, near the Bell county line, and her brother, Zachew Kemp, and the editor were schoolmates at Salado.

Long will he yet live in the lives of those who knew and loved him.

Garden Club Will Meet On Tuesday

Tahoka Garden Club will meet at the Methodist Church next Tuesday, July 17, at 10:30 a. m.

Four ladies from the Lubbock Garden Club will have a flower arrangement clinic.

These clinics are always informative. We want each member to come and bring a guest. Bring your own lunch and one for your guest. —Reporter.
