TV Cable System To Be Installed

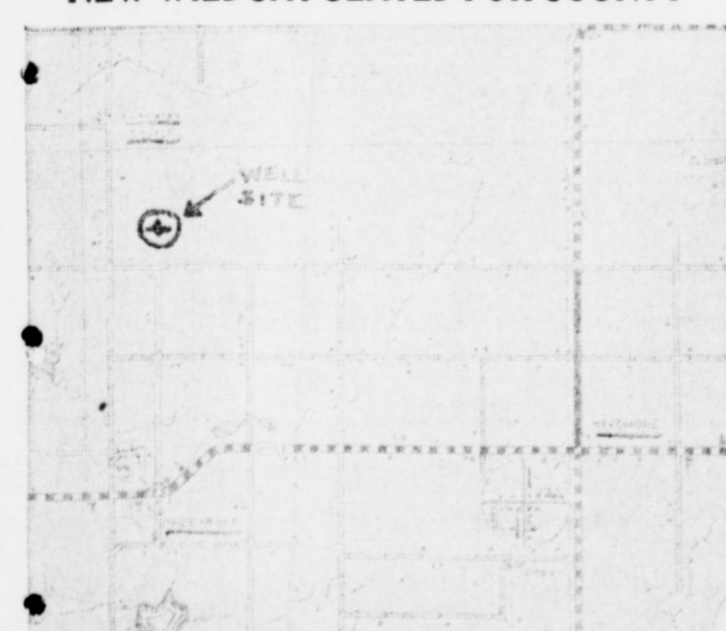

A group of local and out of town investors are working out plans now to install a 500 foot tower in Muleshoe as the first step in a cable TV service, to be put into operation locally by April 1, 1960.

A representative of the group reported this week that the service will offer five snow-free channels of TV reception, on a monthly pay basis, after an initial connection charge is paid.

The representative said the firm will offer three Amarillo channels in their service, giving subscribers a choice of all major network television shows.

The Muleshoe City Council granted a permit for installation of the necessary wires and poles of the service, several months ago.

TO BRING CHRISTMAS TO CHILDREN . . .

Goodfellows Need Volunteers, Toys And Donations For Yule Visitation

"Christmas is for children, and we are again going to do everything we can to see that every needy child in the Muleshoe area receives a visit from Santa Claus," a spokesman for the Goodfellows said this week, in announcing the annual campaign for good used toys, money, food and clothing to be distributed to needy families at Christmas.

The Goodfellows, an anonymous group of local people, each year seeks out needy families and visits them at Christmas with boxes of toys for the children and food and clothing for other members of the family.

At the present time, Goodfellows spokesmen are asking for volunteer workers, cash dona-

tions, toys in good condition, and donations of wearable clothing and food supplies.

A typical case to be helped by the Goodfellows is a family with

several children in school, the father is unable to work, and the mother does field work to sustain her family. The children are eating raw potatoes, and Christmas is but a dim hope for them.

Families like these can be made happy on Christmas by contributions are needed now. They can be left with Mrs. Billie Bayless at City Hall, who will pass them on to the Goodfellows. Mrs. Bayless will also accept the names of needy families, to be checked out by the organization.

Funeral services for J. C. Terrell, 74, of Rt. 4, Muleshoe, will be held Thursday morning at 10 o'clock in the First Baptist Church here with Rev. E. K. Shepherd officiating, assisted by Rev. J. E. Moore and Rev. Jim Green of Longview.

Mr. Terrell died early Tuesday morning in Muleshoe Hospital after a brief illness. He had been a resident of this county since 1927, and was a farmer.

Find Liquor, But No One Claims It

"FOUND: large quantity of beer, wine and whiskey. Owner may claim same at the office of Doc Clements, in the county courthouse."

Thus might read a classified ad written by the Bailey county sheriff's office. Officers found ten cases of beer in quart cans, one and a half cases of wine and a sack full of whiskey in pint bottles in an empty house in the "flats" this week.

So far no one has come forward to claim the liquor, but if they do, the sheriff's office is prepared to ask some rather searching questions of the owner.

Grand Jury Finds Ten True Bills In Thursday Meet

A Bailey County grand jury returned ten indictments last Thursday, including one of murder without malice, against Leo Vann Nicholson in the shooting of Arthur Junior Rayburn, 15, on September 6.

Other true bills were found on four theft charges, three breaking and entering to rob a coin machine, one forgery charge, and one charge of removal of mortgaged property.

Special Judge Willard Street heard pleas of guilty on three counts of theft from one suspect, in a non jury trial, and assessed concurrent five years sentences in each count.

Commissioners Issue \$20,527 In Time Warrants At Monday Session

The Bailey County Commissioners Court met in special session Monday to issue time warrants in the amount of \$20,527.35 to pay for curb and gutter and the relocation of utilities for widening of U. S. Highway 84 east of Muleshoe to the Lamb county line.

The warrants were issued for the following purposes and amounts:

Relocating Southwest Public Service Co. utility lines at a cost of \$11,977.35; relocating Bailey County Electric lines at a cost of \$648.00; relocating El Paso Natural Gas Co. gas lines at a cost of \$3,102.00; and curb and gutter for 1203 feet at a cost of \$480.

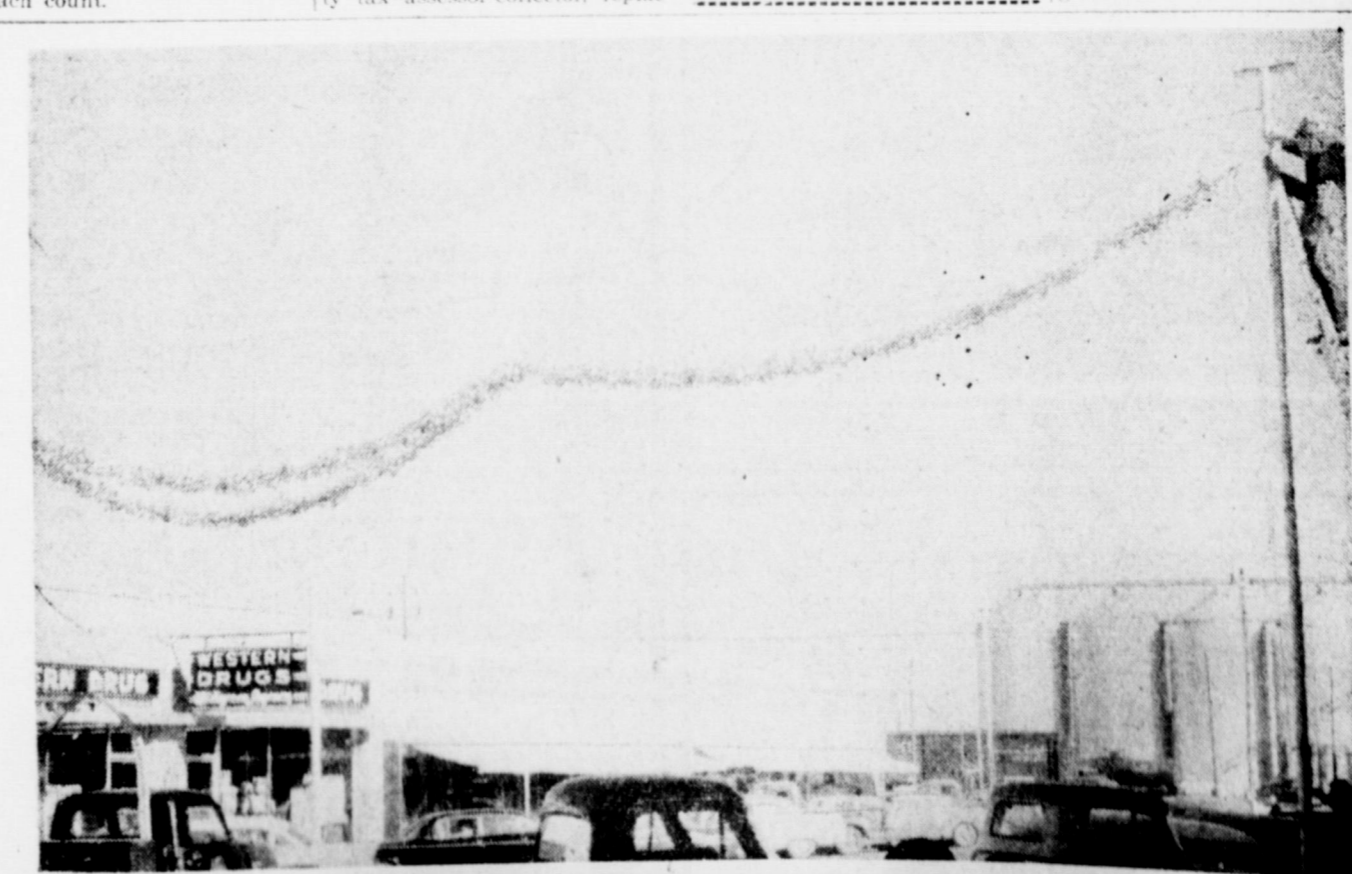

The Commissioners also approved Alta Moore as new deputy tax assessor-collector, replacing Mrs. Emil Macha who recently resigned.

Commissioner W. W. Couch was authorized to negotiate for right of way to extend FM road 716 in precinct 2, with owners along the proposed route.

After paying routine bills, the Court adjourned.

Early Mailing Urged To Avoid Jams In Postoffice As Yule Season Nears

Postmaster Arnold Alcorn is pleased with the prompt response to his recently announced "Mail Early For Christmas" Campaign. He said today, "The biggest single factor in getting all mail delivered before Christmas is the full cooperation of the public in early mailing of all Christmas cards and gifts. Post Office facilities have been expanded, extra personnel will be available, and everything is geared up to handle a record Christmas mail in Muleshoe this year."

With Christmas only a month away, the Postmaster says it's not a bit too soon to start following these three simple rules to insure delivery of your gifts before Christmas: Wrap them securely, Address them correctly, and Mail Them Early!

The Postmaster said you shouldn't take chances on mailing poorly wrapped packages. Use corrugated mailing cartons, plenty of heavy brown wrapping paper, and be sure that every package is tied with strong cord. Cartons containing several gift packages should be stuffed with tissue or old newspapers to cushion the contents.

"Careful addressing of your Christmas cards is equally important," the Postmaster said. Bring your Christmas card mailing list up-to-date and be certain that you have the complete name, address, zone number, city and state for everyone on your list.

Always send your Christmas

cards by First Class mail. They will be processed and delivered quicker and they'll be forwarded or returned, if it becomes necessary. Christmas cards sent by First Class mail may carry written messages; whereas, cards sent with Third Class three cent postage may only have a written signature.

Don't fail to put your return address on your Christmas card envelopes. This is not only socially correct, but it will enable both you and your friends to keep your mailing lists up-to-date.

When mailing your Christmas cards, use the free labels from the Post Office reading, "All For Local Delivery," and "All For Out of Town Delivery." By sorting your Christmas cards and tying them in two separate bundles, with the addresses all facing one way, you're sure to speed their arrival.

All mail going long distances should be sent well before December 10th, and Christmas packages for local delivery should be mailed by December 15th. Mail all Christmas cards for nearby destinations by at least a week before Christmas.

Also in county jail were four drunks, two drunk and disturbance, one investigation, two for gambling and one for child support.

Prior to the organizational meeting, vocal music director F. Wayne Murphy presented his fourth grade, elementary, junior high, and concert choirs in concert for the parents.

The fourth grade chorus has about 100 members, and the elementary chorus about 150 voices. There are 44 girls in the junior high choir, and 63 voices in the concert choir from the senior high school.

The Choir Boosters will meet the first Thursday of each month either in the band hall or the choir room, which ever is available.

Norther No Bother As Cotton Harvest Passes 80% Mark

A chilling cold front which blew into the West Plains late Tuesday dropped temperatures to the mid-twenties during the early morning hours Wednesday, but failed to halt harvest operations.

The weather remained clear and dry, with the promise of continued favorable skies over the Thanksgiving weekend.

The cotton crop is about 80 per cent harvested, according to agricultural observers, who predict that the cotton will be all in by Christmas. The only detriment to faster harvesting now is the tie-

up of cotton trailers on the gin yards.

The grade and staple of West Plains cotton continues good with majority grading as white and better.

The TEC office reported more than 67,000 of the estimated 85,000 bale crop already ginned as Wednesday morning.

Harvest Festival Yields \$3269 At Lazbuddie Church

The membership of Lazbuddie Methodist Church contributed \$3,269.15 during a special Thanksgiving Harvest Festival held last Sunday at the church. Rev. Bernard Seay, pastor of the church has announced.

The special offering will be used to provide an altar communion rail for the church, missions and budget items outside the church, and \$2168.86 will be used to pay off indebtedness of the church building.

Rev. Seay said that the special offering represents a per capita contribution of \$32.05 from each of the 102 members of the church. The per capita amount for each person contributing totaled \$33.40, the pastor said.

Rev. Seay announced his deep appreciation to the church congregation, and pointed out that the contribution came from tithes paid on the altar in thanksgiving, and not from outside projects such as rummage sales, etc.

Silver Coffee Thursday Morning At Methodist Parsonage By WSCS Ladies

The parsonage of First Methodist Church was the scene Thursday morning of a Silver Coffee sponsored by the Woman's Society of Christian Service.

In the receiving line was Mrs. H. Jay Weyer, president, who greeted guests and introduced them to Mrs. Edwin Hall, wife of the pastor. Mrs. Hall then introduced Mrs. W. D. Moore, Mrs. Jack Morris and Mrs. Paul Summersgill, chairmen of the three circles of the Muleshoe WSCS.

The serving table was laid with natural linen applied in pink and centered with an arrangement of maroon mums in silver and flanked by maroon tapers in silver candelabra. Other table appointments were in silver and

crystal. Alternating in serving coffee, tea, holiday breads and dainty fruits were Mes. J. E. McVicker, Oscar Allison, and H. C. Holt.

Waxed fruit in milk glasses graced the buffet and other arrangements of dried materials and silvered leaves added to the decor. Mrs. A. J. Lenderson, Mrs. Sam Fox, Mrs. Noel Woodley, and Mrs. M. D. Gunstream served on the decorating committee.

Others responsible for arrangements included Mes. Arnold Morris, F. B. Pierson, Weyer, Summersgill, Jack Morris, Moore, O. N. Jennings, C. R. Farrell, J. G. Arm, David Stovall, and George Chambers.

Sixty persons were registered during the hours of fellowship. The proceeds will go to pay for the various projects sponsored by the WSCS.

WSCS Circles Meet Tuesday Morning

Mrs. Edwin Hall led a program on world missions at the Tuesday morning meeting of Esther Circle of First Methodist WSCS in the home of Mrs. Houston Hart.

Her study was taken from World Outlook, the church periodical, and based on the "inasmuch" scripture, Matthew 25:31-46.

She was assisted by Mrs. James Fite who spoke on Youth work and read the closing prayer by St. Francis.

In a short business session presided over by Mrs. Jack Morris, Mrs. Arnold Morris reported to the group on the Silver Tea recently given in the home of Mrs. Hall. She also reported for the Commission on Missions on progress of a program to help establish a church for Latin-American people in Muleshoe.

Mrs. Hart served delicious refreshments to eight members.

Thankfulness for God's blessings and His promises was the thread woven through the program on missions presented for Mary Martha Circle Tuesday afternoon in the Youth Chapel.

Farm Worker Saved By Artificial Respiration

Doctors in Olton credited the quick thinking of A. L. Hollingsworth this week with saving the life of Benny Gozman who was critically burned when he touched a 7200 volt electric line on the

Hollingsworth farm four miles north of Springlake Monday afternoon.

Bailey County Electric officials reported Gozman accidentally touched the REA line while tromping cotton on a trailer on the Hollingsworth farm. He was knocked unconscious and his breathing stopped.

Hollingsworth was driving the tractor, and immediately began giving artificial respiration by the prone method. Seeing no results, he began artificial respi-

ration via the mouth to mouth method, and Gozman began breathing and was rushed to the Olton Community Hospital, with second degree burns of the face and third degree arm burns. The full extent of his injuries will not be known until Friday, doctors said.

Rev. Hall Talks On Thanksgiving At Lions Meeting

Drawing an analogy between the freedom of the Pilgrims, and the shrinking freedoms of today, Rev. Edwin Hall addressed the Muleshoe Lions club Wednesday on "Why We Should Be Thankful".

Rev. Hall told how the Pilgrims came to this country to find freedom of speech and religion, and how gradually these freedoms are being restricted by the encroachment of government into the private lives of American citizens.

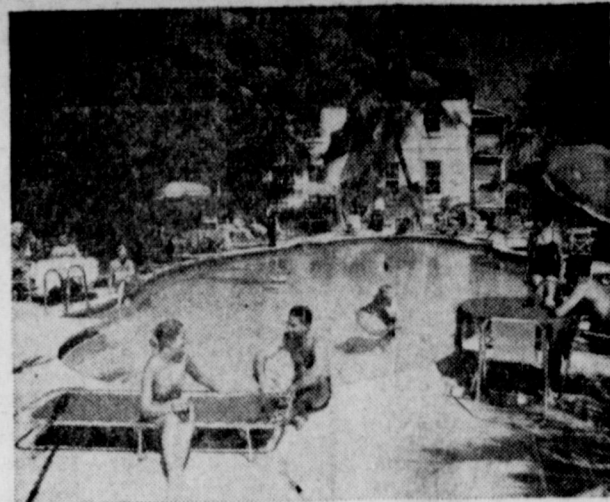

He cited examples of government restrictions on speech, schools and religion, to illustrate his talk.

Pat Bobo was program chairman, and introduced Rev. Hall.

Dramatic Hit For Lubbock Dec. 2

With the announcement by Civic Lubbock, Inc., that the acclaimed dramatic play "The Diary of Anne Frank" will be presented at the Lubbock auditorium on December 2, the Lubbock group has stepped out and gotten one of the most moving plays of the last ten years. Seldom has a play been so highly praised by critics and audiences alike as this particular story of a young girl seeking refuge in a garret in Amsterdam during World War II.

The play will be given for one performance only at the auditorium on December 2 at 8:00 p.m., and Francis Lederer will portray "Otto Frank" and newcomer Pauline Hahn will be "Anne." When the show first appeared on the Broadway stage critic John Chapman of the Daily News said,

SHOW PLACE—First stop for the 1959 Maid of Cotton will be Nassau, where she will star in a charity fashion show at the palm-ringed swimming pool of the Royal Victoria Hotel. She will fly to the island via British Overseas Airways in late January for the beginning of her international tour. Cotton Belt beauties, between 19 and 25, may enter the 1959 Maid of Cotton contest. Entry blanks are available from the National Cotton Council, Box 9905, Memphis 12, Tenn.

WILL COME ABOUT GRADUALLY... Voc. Ag. Instructor Sees Return To Livestock, Vegetable Growing

A prediction that the Plains in coming years will turn somewhat from cotton production to livestock growing, vegetable production, more vegetable acreage was made by Jerry Adams in a talk before the Rotary Club Tuesday.

"There is so much beauty, warm humor, gentle pity and cold horror in 'The Diary of Anne Frank' that it is difficult to imagine how this play could be contained in one set on one stage." The play ran for over 90 weeks on Broadway before starting its cross-country tour.

The unique set was designed by Boris Aronson and Leland Watson designed the intricate lighting used in the two act drama.

Tickets for the one night engagement are on sale daily in the lobby of the auditorium and prices are \$4, \$3.50, \$3, \$2.50, \$2, and \$1.50. According to the box office there are good seats left in all price ranges at this time.

"The Diary of Anne Frank" certainly promises to be one of the truly dramatic presentations in Lubbock's theatrical history.

Mr. Adams is one of the instructors of Vocational Agriculture in Muleshoe school.

He based his opinion upon the difficulty experienced here, because of climate and other factors, of producing a high quality cotton here, such as is grown in California, Arizona, and other sections of the country. And he thought there may be less water for irrigation in the distant future.

He brought out his ideas in discussing the various phases of agriculture education his department presents to the some 100 boys now enrolled in Voc. Ag.

Mr. Adams outlined the courses offered, including livestock, crop, and land judging; orderly conduct of meetings; marketing and buying of livestock and crops; insecticides and insect control; fertilizers; how to show animals, how to care for them; tool and machinery use and maintenance, and many other phases of agriculture.

Stock Show Dates Set

He announced that the annual 4-H and FFA livestock show will be held in Muleshoe for Bailey County boys and girls March 13 and 14. He predicted that this will be the largest and best show held by the students in many years, saying that 4-Hers, students at Bula, Three Way, and Muleshoe now have more animals on feed than ever.

Mr. Adams was introduced by Earl Harris, program chairman.

Parmer County Farmers Union

In the past few years integration has taken on the meaning of confusion and strife. It is now beginning to mean the same thing when applied to the principles of agriculture. In the past ten years agricultural know-how has increased, cost of production has increased as machinery prices have also skyrocketed. Government farm programs designed to bring stability to farming have been distorted and have failed. Farm prices and farm income have dwindled.

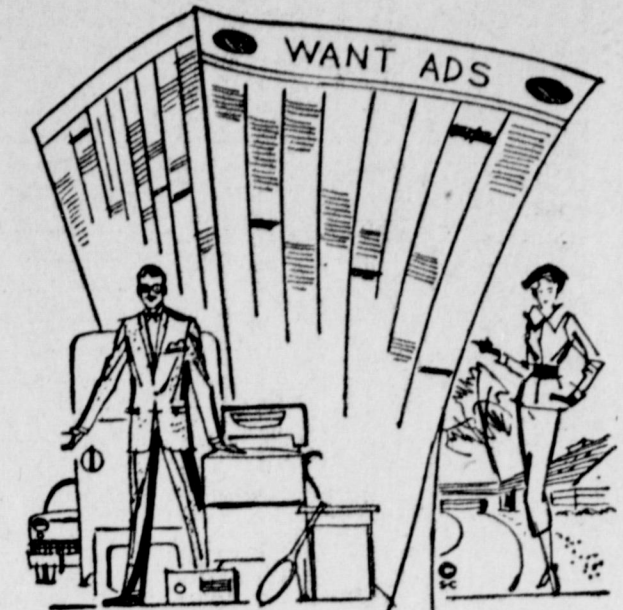

Farmers have responded to these events by increasing production in an effort to maintain income. This increased volume of farm products and the farmer's need for some kind of income stability have allowed off-farm interests to gain complete control of various stakes in the production and marketing of some farm conditions. In many cases the only choice farmers have had

FREEDOM IS A MIGHTY SWORD

We Americans can rightly be proud of the fact that we are a peace-loving people. That our aim as a nation is to strive to improve human welfare, with freedom and justice for all. *Such a people is always slow to anger, tolerant and patient. But when patience is exhausted, a peace-loving people can turn its peace-time skills into weapons of fierce and righteous wrath. There is only

one way such a nation could be enslaved. That would be through propoganda that misleads; through lack of knowledge, and of truth. America's greatest strength is...freedom of the printed word...to give the people truth, truth that builds freedom of thought, of word, and of vision. *This great Freedom tempers the steel out of which a nation and a people can forge mighty swords.

Exploring Program Launched By George White District Of South Plains Scouts

Following several years of research the Boy Scouts of America is launching this fall a new Exploring program designed to be attractive to boys of high school age whether or not they have ever been members of the organization.

The research studies revealed that to appeal to boys of these ages, a program must be broad in scope, flexible in operation and balanced in content.

"To meet these needs the new Exploring program," said H. P. Clifton, chairman of Explorer Committee, of the South Plains Council, Boy Scouts of America, "will cover six areas of experience."

"These cover citizenship experiences," continued Mr. Clifton, "including meeting responsibilities and a knowledge of the American heritage and understanding the fundamental freedoms of worship, speech, press, and enterprise. Explorers will learn of the vigilance needed to retain liberty and to appreciate America's responsibilities in world leadership." The new program, he said, includes a personal fitness emphasis, social experiences, vocational exploration experiences, and outdoor and service experiences.

One feature of the new program will enable an Explorer to adopt a specialty if it desires, in addition to its regular well-rounded program. The specialty chosen makes possible the assistance of experts and the use of necessary equipment and facilities. It is expected that posts will adopt and change their specialties from time to time. In launching the new program, a total of 55 sample specialties are suggested.

An Explorer post is sponsored by a church, school, civic or industrial group whose aims and

purposes are in harmony with those of the Boy Scouts of America.

Christian Science Services

The imperative need for spiritual alertness on our defense from evil will be stressed in Christian Science services Sunday.

Bible readings in the Lesson-Sermon entitled "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, Denounced" will include the following from James (1:2, 3, 12):

"My brethren, count it all joy when ye fall into divers temptations."

Knowing this, that the trying of your faith worketh patience... Blessed is the man that endureth temptation: for when he is tried, he shall receive the crown of life, which the Lord hath promised to them that love him."

A correlative passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy declares, "Christians must take up arms against error at home and abroad. They must grapple with sin in themselves and in others, and continue this warfare until they have finished their course. If they keep the faith, they will have the crown of rejoicing" (29:1).

Cadillac

Even Newer from Behind the Wheel!

Odds are you've seen the new 1959 Cadillac by now—perhaps sweeping regally past you on the boulevard... perhaps making its majestic arrival at a fine club or hotel. And odds are, too, that you've wondered if this 1959 "car of cars" could be as superlative in performance as it is in appearance.

Well, once you've found out for yourself, we think the truth will very likely amaze you. For this Cadillac is even newer from behind the wheel!

You will sense it, in fact, the moment you hear the whisper-quiet response of its great new engine. And your sentiment will grow to conviction as you discover the other wonders of Cadillac's new performance... responsiveness so immediate and so silken in every driving range that it is difficult to believe

... handling ease so remarkable that you follow the curves and corners with the lightest imaginable movement of hand and wheel

... a quality of ride so smooth and level and quiet that even the byways travel like boulevards.

Indeed, the evidence will be overwhelming—a journey at its wheel is the world's most glorious interval between start and stop.

And the proof of all this is no farther away than your nearest authorized Cadillac dealer. He'll be delighted to make you his guest—to explain the virtues of each of Cadillac's thirteen new Fleetwood-crafted models, including the fabulous new Eldorado Brougham—and to let you take the wheel for yourself.

BABSON DISCUSSES . . .

POLITICS

Babson Park, Mass., Nov. 27—While I was on the ocean returning from Africa, an important Congressional election took place. In looking over the newspaper headings I find they range from "A blow to Eisenhower" to "The GOP is dead." Of course, the election is a great disappointment to Mr. Eisenhower; but my statistics show that the GOP got 44% of the national vote. This is not too bad.

When the Democratic Party Was "Dead"
Let me answer the second comment with a personal story. When I was Assistant Secretary of Labor during World War I, I became well acquainted with the Cardell Hull, who later became Secretary of State. After the death of President Wilson, followed by the Republican landslide, Mr. Hull had no official position, but was chairman of the defunct Democratic committee. Before leaving Washington, I called on the man who was later to become Secretary of State, I found him in a tiny office of the Press

Sandhills Philosopher Finds . . .

A Dollar Earned These Days Is Not Necessarily A Dollar Saved

Editor's note: The Sand Hills Philosopher on his Johnson grass farm has his mind on economics this week. Anything to keep it off of farming.

Dear editor:
According to a newspaper I was reading last night, there's going to be a great contest in the next session of Congress over who's going to keep from spending too much.

The Republicans say the Democrats elected a lot of spenders, and the Democrats say if it hadn't been for them the Republicans would have spent five billion dollars more than they did in the last session.

What puzzles me about this is that in the same newspaper I read a statement by the former president of the National Council of Economic Advisers that "the American consumer could be called the hero of the recent recession. The consumer's sustained and confident spending sparked the upturn."

As I understand this, the public kept on spending money and whipped the recession, if they'd held on to their money we might have had a real depression, and what I want to know is why can't the government be as broad gauged about this as you and me, although it must have been

pect a shooting war. I believe, however, that Russia has planned an intensive economic war and that the recent recession marked the beginning of it. Even today, though feeling is much better in this country, we have statistically a large number of unemployed. Therefore, our drift toward inflation and socialism must make Russia very happy.

Unfortunately, being in Africa, I did not hear the addresses of the successful Democratic candidates. An analysis of the returns indicates that the election was a great victory for the union labor leaders. Not only was the "Right to Work" proposal snowed under, but this was after the investigations of the Teamster's Union and of other union misdoings. Why the stock market should have gone up in view of the election is beyond me. We are feeling better only as a man does when he takes a "highball."

What It All Means

My greatest surprise has been talking this past week with businessmen, manufacturers, and even bankers. Their explanation of the election was, unanimously, the taxes which we are compelled to pay. They recognize that President Eisenhower is a good man with high ideals and that he is trying hard to do right, but feel that he is not "practical." Of course, this is weak reasoning.

It seems as if the independent American voters are getting tired physically, mentally, and even spiritually. This group (about 10% of the voters) consists of intelligent independent citizens with Republican leanings to the right. They visualize a top for profits, with the cost-of-living, taxes, and competition constantly climbing. They are not voting against anyone or for anyone; but are voting for a change.

Having been on my African trip for the past two months, I ask each reader of this column to answer for himself "what it all means" and not depend upon my conclusion. Let me repeat, however, that the Republican Party is not dead and will come back with a landslide after this 10% become again disillusioned. Yes, they will find that the promised "cure" will be worse than the "disease."

Exploring MARS

IF THE LINES WE SEE IN OUR TELESCOPES ARE CHANNELS, MARS MAY LOOK LIKE THIS.

A ROLLING, BARREN LAND—TRACES OF LOWLY VEGETATION ALONG THE CHANNEL BANKS—AN OCCASIONAL OASIS. SOME OF THE CHANNELS ARE ESTIMATED TO BE THOUSANDS OF MILES LONG AND AS MUCH AS 150 MILES WIDE. THEY ARE PROBABLY NATURAL FEATURES LIKE RIVERS, CONVEYING WATER FROM THE MELTING POLAR ICE CAPS.

IT'S EASY TO JUMP TO THE TOP OF A MARTIAN TREE, WITH ONLY YOUR GRAVITATIONAL PULL OF EARTH. IF YOU WEIGH 150 LBS., YOU'LL WEIGH ONLY 50 LBS. ON MARS! EVERYTHING WILL FEEL 1/3 AS HEAVY FOR YOUR STRENGTH REMAINS THE SAME.

THIS LESSER PULL OF GRAVITY WILL MAKE IT THAT MUCH EASIER TO BLAST OFF ON OUR 250-DAY RETURN TRIP TO EARTH. ONE THING IS CERTAIN, MARS, UNLIKE OUR OWN MOON, PLUTO, AND OTHER PLANETS OF THE SOLAR SYSTEM... IS A LIVING—NOT A DEAD WORLD.

Day. A man standing back of another in the office heard him mutter, "Thankful! For what?"

Let us be thankful for our families. Be thankful for someone to love and someone to return that love. Be thankful for someone with whom to share both sunshine and sorrow.

Let us be thankful for sustenance—evidence of God's bounty and provision. God provides our food and raiment and other necessities of life.

Let us be thankful for our churches. They are temples of God, places where God's Word is preached, places where we can honor and worship Him.

Today's Meditation

Read Psalm 100.

Be thankful unto him, and bless his name. (Psalm 100:4.)

The notice on the bulletin board stated that the post office would be closed on Thanksgiving

Speedup Seen In Handling Claims For Retirement

Would you like to help your local security office reduce the length of time necessary to process applications for retirement benefits? According to John G. Hutton, manager of the social security district office in Lubbock, people making application for their retirement benefits can speed up the handling of their applications if they bring along the papers necessary to establish their right to benefits. These papers should include their social security card, proof of their age and proof of recent earnings.

Hutton explained that your most recent W-2 form furnished at 9:30 a.m. at the Courthouse by your employer, or your last income tax return along with matters pertaining to Social Security Schedule C or Schedule F and

the cancelled check showing payment of the self-employment social security tax. If you are self-employed, will suffice for proof of recent earnings.

Hutton added that a birth certificate is not necessary for proof of age, but that any old document giving your date of birth, an old family Bible, or an old insurance policy might possibly be all that is needed for proof of age.

Hutton cautioned that no one should delay filing a claim because he or she does not have one or more of the documents necessary to establish right to benefits. The people at the local office at 2878-34th St., will be happy to give assistance to anyone in securing these proofs, Hutton concluded.

A representative of the Lubbock Social Security Office will be in Muleshoe on December 4, and will be glad to assist in all matters pertaining to Social Security.

Texas Water Prospects In 1959

It won't be news to people in the flood-soaked Rio Grande Valley but fall rains over much of Texas bring reasonable assurance of good surface water supplies for 1959.

The Falcon Dam on the Rio Grande has backed up more than his share of irrigation water for the next growing season. But unfortunately, the seate as a whole, has not even approached its potential in construction of surface storage facilities along its major streams and rivers. However, prospects are good for the natural underground water resources upon which so many of us depend.

Snow survey experts along the Continental Divide report 1958 as a good year as a result of heavy snow water runoff, high streamflow and good carryover storage. Gradual seepage of snow water from the mountains of New Mexico and Colorado account for a big portion of our underground water supply in the Panhandle area of Texas. Although nothing is more unpredictable than the weather, indications are for additional heavy snows this winter which will eventually add to Texas' natural subsurface supplies.

It is no secret that our underground water reservoirs took a real beating during the seven year drought. Many natural springs in Central Texas dried up for the first time in the history of white settlements and our water tables in West Texas dropped alarmingly.

The year 1958 saw these

Parmer County Farm Bureau News

The Plains cotton production, class and stage of completion of harvest are all ahead of last year's schedule, apparently. In a report from the Plains Cotton Cooperative Association we have gleaned these good looking figures:

So far this year, ginnings of 1,219,087 bales have been reported. Last year at the same date, only 425,000 bales had been ginned and there was snow on the ground over a large part of the area. Also, to date, 45.9 per cent of the Plains cotton has a staple length of one inch or over, and 94 percent of it is white. These factors mean a lot to cotton producers on the Plains.

Farm Bureau people are greatly sorrowed at the loss of one of their faithful directors, J. D. White. J. D. had served as a director since his first election in 1956. He was re-elected in our last annual convention. Mr. White was not a man to talk much, but he was fair and firm in his convictions about things of concern to the American farmer. He was always present at meetings of his fellow workers when it was physically possible, and had intended to attend the state convention in Corpus Christi this year. We are happy to know that neighbors of the family and gins are cooperating in getting the cotton crop out and ginned the first couple of days this week.

Directors will meet in the Friona office Monday night. Remember that you and your neighbor are welcome to attend this and any other meetings.

Roger Fleming, sec.-treas., of

springs once again flowing and some improvement was noted in the water tables along many irrigation belts of the state. Early fall weather conditions indicate a wet winter is in store for many sections of Texas. However, years of good water supply point up the importance of adequate water storage facilities, both for better distribution through the irrigation season, and for balancing the available supply between dry years and those of abundant snow and rainfall.

Demands upon our Texas water supplies are increasing every year. More and more water is required by agriculture, industry, rapidly expanding city populations and for recreational and other uses.

A TRIBUTE . . . TO OUR ROTARIANS!

Someone once said that it is the Rotarians who make the world go round! Perhaps this isn't entirely the case, but it is a recognized fact that the men whose emblem is the Wheel of Progress contribute much to America . . . and, more specifically, to our own City. Always eager to advance business, good fellowship and the general well-being of our community, these reliable Rotarians comprise a group of citizens of whom we're all mighty proud! With all sincerity we applaud their goals and their achievements. The Rotarians do things . . . in a big way!

AFBF makes this statement regarding the American FB policy regarding labor: Farm Bureau definitely is not anti-labor. In fact, Farm Bureau strongly approves the right of workers to organize and bargain collectively. But these rights must be exercised in consideration for the public interest, the welfare of others, and the preservation of basic individual rights and freedoms. Farm Bureau opposes recognition picketing, secondary boycotts and compulsory unionism. It favors state jurisdiction in those cases where the NLRB will not accept jurisdiction, and inclusion of labor and all other organizations under the provisions of the anti-trust statutes.

CONSIDER THIS: Whoso walketh uprightly shall be saved; but he that is perverse in his ways shall fall at once.
—Proverbs 28:18.
