## Slaton Policeman Shot Here While On Hunt For Elusive Negro Man

Pursuit of an unknown Negro man through four South Plains counties this week resulted in the shooting of a Slaton policeman in Tahoka and the theft of a Tahoka school bus. The man sought had not been found up to noon Thursday.

South Plains officers and Texas Rangers have been hot on his trail for two days.

The chase began in Lubbock Wednesday morning shortly after midnight when Lubbock Police-man Smallwood found the Negro parked in a car near the railroad. The Negro escaped officers while they looked for his reputed companion, returned to his car and fled. He escaped a roadblock in getting away from Lubbock.

In Slaton, Policemen Andy Smith and Bill Frank White joined in the chase after apprehending him trying to steal some gasoline there.

They chased him into Tahoka. The Negro abandoned his car near the Pak & Pak Grocery and Paul Pittman Service Station on North Main. Smith, in plain-clothes, took after the Negro while White radioed Tahoka officers. Then, White thought he saw a man with a gun in the shadows, fired, and mistakenly shot Smith in the left side.

White took Smith to Tahoka Hospital and later to Mercy Hospital in Slaton, where he was reported Thursday not to be critically wounded.

In the meantime, Policemen L. N. Bartley, Roy Wilhelm and Roy Hefner and Deputy Sheriff Otis Curry arrived on the scene, but not before the Negro had escaped to the school grounds, where he is alleged to have stolen a Tahoka school bus and headed west.

When Brownfield officers met the bus two miles east of that city, he abandoned it and fled into a field. The search of that area continued throughout Wednesday.

He was tracked about 15 miles southeast toward Wells, Lynn county, Wednesday night, the Highway patrol picked up a man near Lamesa, who had allegedly been drinking, who claimed he had picked up a Negro near Wells and hauled him to Lamesa.

The car, a 1951 Chevrolet, now at Bray Chevrolet Co., here, is believed to have been stolen and contained a number of articles believed to have been stolen.

## Two Injured In Car Wreck

Two young O'Donnell men were victims of a near-fatal car accident on U. S. 87 about eight miles north of Tahoka Monday afternoon at 3:30. A left front tire of the 1951 Cadillac blew out, and the car rolled over five or six times and came to rest in the Lynn West field.

Injured were Benny Middleton, 24, son of Mrs. Dewey Middleton of O'Donnell and driver of the car, and Ronny Gass, 18, son of Mr. and Mrs. Bill Gass, also of O'Donnell. They were the only two occupants.

The two young men were brought to Tahoka Hospital. Middleton received a severe laceration of a leg, abrasions about the face and body. He was able to leave the hospital Tuesday.

Gass received abrasions and lacerations of the face and head, was unconscious a few hours, but was still in the hospital Wednesday for observation for possible concussion.

Local officers said the two young men had started to Plainview, and were not believed to have been traveling at a high rate of speed.

## Brian R. Stone Hurt In Wreck

Brian Ray Stone, about 18, son of Mr. and Mrs. H. O. Stone of West Point, was seriously injured early Tuesday when his 1952 Ford convertible crashed into a telephone pole at Whiteface.

He was taken to a Levelland hospital, where he is resting after regaining consciousness from a possible skull fracture, severe bruises, lacerations of the scalp, and shock.

Stone was said to be en route from his home here to his job at Morton. He is believed to have fallen asleep, and the car crashed into the telephone pole, possibly about 4 a. m. The car was demolished.

Though dazed from the impact, Brian Ray managed to get out of the car and secure help at a Whiteface residence. Shortly afterward he fell into a state of unconsciousness, but he was reported late Wednesday to be conscious again.

Brain Ray is a 1952 graduate of Tahoka High.

## Eisenhower Urges Nation Support March of Dimes

President-elect Eisenhower meets 1953 March of Dimes Poster Girls Pamela (left) and Patricia O'Neil, of Raleigh, N. C.

NEW YORK CITY—President-elect Dwight D. Eisenhower called on the American public to support the 1953 March of Dimes being conducted throughout the nation during all of January.

He joined in the annual appeal after meeting the two Raleigh, N.C., sisters who are pictured on the 1953 March of Dimes poster. They are Patricia, 6, and five-year-old Pamela O'Neil, both of whom were stricken with polio but now are recovered completely.

"It's hard to believe that these are the same little girls whose pictures are on the March of Dimes poster," he noted. "Now they're completely recovered from polio, thanks to the generosity of the American people."

He urged all Americans "to help the others like them by joining the March of Dimes."

Later, he joined the poster girls in making a short film which is being shown by television stations throughout the nation.

This year's March of Dimes follows the all-time record, polio epidemic of 1952 in which more than 55,000 were stricken. At the beginning of 1953, there were 58,000 polio victims of former years still undergoing treatment, with financial help from local March of Dimes chapters.

Tahoka won the A game 53 to 38 and the B game 42 to 13. Coach Jake Jacobs used 24 boys in the two contests.

Coach "Chat" Johnson's Seagraves boys scored first in the A game, but Tahoka soon took the lead and stayed out front all the way. The only time they were threatened by the visitors was in the third period, when Seagraves momentarily pulled to within two points of the victors. The score by quarters was 13-9, 24-16, 39-28, and 53-38.

Charles Hyles of Tahoka and Ray Kennison of Seagraves tied for high-point honors with 11 each, but 11 of the 12 Tahoka boys seeing action broke into the scoring column.

The Bulldogs showed some improvement, but were badly off on their shots in the first half.

The B team boys showed the greatest improvement, and gave indication that Tahoka has some excellent material coming up for future teams.

Fourteen Tahoka boys got into the B team game, and they led the visitors all the way. The score by quarters: 9-2, 17-5, 31-10, and (Con'd. On Back Page)

Lynn county's officials for the next two years, 1953 and 1954, took oath of office in a public ceremony before nearly 400 citizens in the district court room Thursday morning, January 1, at 11:00 o'clock.

The public ceremony was sponsored by the Lynn County Democratic Committee, of which Bill Strange, Jr., is chairman, and the oath of office was administered by District Judge Louis B. Reed of Lamesa.

The oath was given only four entirely new officials. The others were re-elected to office. New officers are: Norvell Redwine, sheriff, succeeding Roland W. Clem.

E. H. West, commissioner of precinct 4, succeeding G. W. (Dick) Turner.

A. L. Dugagan, justice of the peace for precinct 1, Tahoka, succeeding P. D. Server.

# Odds AND Ends

(BY E. I. THE ELDER)

In 1913, forty years ago—My! How time does fly!—I made two trips, by train, from Roscoe to old Tascosa, situated on the north bank of the Canadian River about forty miles by rail north-west of Amarillo. But the railroad depot was situated on the south side of the Canadian River nearly a mile from the courthouse, for Tascosa was then still the county seat of Oldham county. My train arrived at the depot in one of the mid-hours of the night. I alighted and looked for a hack or conveyance of some kind in which I might cross the river. None was to be seen, and I was told by the agent that none would be seen until after daylight. There was nothing left for me to do but to bunk on a bench in the depot, for the river was several hundred yards wide and the sand in the bed of it was very deep. I was the only oc-

cupant of the waiting room of that depot for the remainder of the night and before morning came I was ready to bet my ears that it was the longest night anywhere between the equator and the arctic circle.

Finally came the dawn, and I began to watch for that old mail hack. I think I waited for another hour or so before I espied it making its lazy descent down onto the sandy bottom of the stream and then slowly picking its way on across. I lost no time in climbing aboard and was soon crossing the Canadian.

On the other side there was the antiquated old court house, the age-worn old hotel, almost hidden under a grove of giant cottonwoods, and out yonder was the Cowboy saloon, where Billy the Kid used to hang out, and away up the River yonder was "Boot Hill," so named because so many men were buried there who had died with their boots on. An aged lady, as I remember it, operated the hotel; and a venerable Scotchman, who looked and talked the part, was the district clerk. Other noble cottonwood trees stretched for some considerable distance on down stream on and along its north bank. So, that was the contact that I made with Old Tascosa some forty years ago. But two years later the county seat was moved to Vega, and Old Tascosa had nothing more to do except to finish dying. One of the wildest of the "Wild West" communities had run its course. It had written its history in liquor and blood.

The years came and went. Old Tascosa soon became little more than a memory and a bunch of ruins. But Amarillo forty miles to the southeast was rapidly growing into a little city, populous and prosperous. Oil and cattle were making it the metropolis of Northwest Texas. But there was a citizen of the town who had some money and who was more interested in boys than he was in bulls. He took great delight in helping boys who needed help—helping one to get a square meal, or to get a bath and clean garments, to get a job, or to go straight and stay out of jail. In other words, Cal Farley became known throughout the city as the "boys' friend." Then he conceived the idea of getting other business men to join him in an organization to provide a permanent home and permanent help for down-and-out boys. It was an easy thing to do, for there were other prosperous men in the city who were generous-hearted and took as great delight in saving under-privileged boys as they did in saving under-ferc-steers. The benevolent organization of business men in Amarillo and in many other cities of the Panhandle was effected, and one man who owned a ranch out at Tascosa donated a tract of land which included the old town-site as a ranch-home for boys. The enterprise prospered and soon proved its worth, due largely to the efforts and the generous spirit of Cal Farley, who became the president of the organization and was soon devoting all of his time to the enterprise.

Once he came to Tahoka and spoke to the Rotary Club and most of the members at that time agreed to contribute a stated sum monthly for the maintenance of the ranch. We suspect that most of them are contributing yet. Mr. Farley sends out a "Thank you" letter to each contributor each Christmas season together with a bit of information regarding some phase of the work there. One was sent to me and I am sure to many others here during the recent Christmas season, and I am taking the liberty of printing it in the following paragraph.

"In writing and thanking you for your help during the past year for the many homeless, unwanted, and forgotten boys, I couldn't help thinking of what a Greek cook said to me when we gave a home to his two little nephews.

"Their father was killed in Greece, and the mother had abandoned the two little fellows. The cook and his wife had work-

ed and saved to care for their own six children but took enough out of their small savings to bring the two unwanted nephews to America. Our government wouldn't let them bring the boys unless there was definite assurance that there would be some source to fully care for them. So when the Greek cook and his wife brought them to the Ranch and we agreed to take the youngsters without any remuneration at all, the big 200-pound foreign-born American reached out his hand, as tears rolled down his cheeks, and said, 'Only America do that. Some day I pay you eyes if I have to come cook for the boys.'

"Only America do that" was made possible because of fine folks like you who feel as we do, that if a boy is brought into the world, he is entitled to be given a decent place to sleep, eat, and get an education so that he might make a worthwhile part of our country instead of a liability, whiling away his life in some reformatory.

"When you visit the Ranch, be sure and see these two little black-headed youngsters. The smallest one is only four years old, the youngest we have ever taken.

"Thanks again and best wishes. I am Sincerely yours, Cal Farley, Founder and President."

Letters like the above should not only help Cal Farley to take care of the under-privileged boys in the Tascosa Boys' Ranch, but also many inmates in every orphanage in Texas, and even the under-fed and under-clothed men and women and children overseas which the CROP organization is seeking to help.

Mr. Farley also sends to each regular contributor to his Ranch an honorary membership card with a fine little poem printed on the back thereof, which I am reproducing below for the enjoyment and inspiration that it may give the readers of this column. It is entitled

O Lord, I've never lived where churches grow,  
I love creation better as it stood  
That day you finished it so long ago  
And looked upon your work and called it good.  
I know that others find you in the light

That's sifted down through tinted window panes,  
And yet I seem to feel you near tonight  
In this dim, quiet starlight on the plains.

I thank you, Lord, that I am placed so well;  
That you have made my freedom so complete;  
That I'm no slave of whistle, clock, or bell,  
Or weak-eyed prisoner of wall and street.

Just let me live my life as I've begun,  
And give me work that opens to the sky;  
Make me a partner of the wind and sun,  
And I won't ask a life that's soft or high.

Let me be easy on the man that's down,  
And make me square and generous with all,  
I'm careless sometimes, Lord,

when I'm in town,  
But never let them say I'm mean or small.  
Make me as big and open as the plains,  
As honest as the horse between my knees,  
Clean as the wind that blows behind the rains,  
Free as the hawk that circles down the breeze.

Forgive me, Lord, when sometimes I forget;  
You understand the reasons

that are hid;  
You know about the things that gall and fret;  
You know me better than my mother did.  
Just keep an eye on all that's done and said,  
Just right me sometimes when I turn aside,  
And guide me on the long, dim trail ahead,  
That stretches upward toward the Great Divide.

# JAN. 3rd! First Showing of the

## NEW FORD TRACTOR Golden Jubilee MODEL

- ★ MOST ADVANCED Hydraulic System in any Tractor!
- ★ EXTRA POWER with New Overhead Valve Engine!

Yes, it goes on display Sat., Jan. 3rd, ready to show you what a really modern tractor can and should be. It's ready with extra power, extra size, extra weight. It's ready to demonstrate new handling ease, comfort and convenience.

It's ready also to introduce you to the most advanced hydraulic system in any tractor. We call it Live-Action Hydraulic Control. That means split-second hydraulic response any time the tractor engine is running. Then there's a choice of hydraulic speeds when you want even faster action. It is called Hy-Trol.

This new tractor is ready with its great new overhead valve "Red Tiger" engine. With its greatly reduced piston travel, lessened friction and other advanced design features, this engine develops ample reserve power with new economy of gas and oil. But it would take a full hour to tell you of all the features and advantages of this new engine—let alone the rest of the tractor.

Most important of all, Ford's Golden Jubilee Model is eager to show you what it can do—what this great combination of modern advancements and every time-proved Ford Tractor advantage means in more and better work, done more easily and more profitably.

Don't miss this first showing! Come in and get all the good news, firsthand. Why not make it Saturday for sure?

### YOU'VE NEVER SEEN A TRACTOR TO MATCH THIS!

Built-in Live-Action Hydraulic System, with Constant Draft Control, Implement Position Control and Manual Touch Control • Provision for complete range of remote hydraulic cylinder applications • Hy-Trol, for extra fast hydraulic response • New lightning-fast governor • New weatherproofed ignition • New rotating exhaust valves • New live PTO • 3-Point implement hitch • New streamlined, row-vision hood • New extra-size differential and rear axle gearing • Selec-Trol\* for hydraulic control of front and rear mounted implements • A lot more!

## SEE IT SOON!

### See What the New Ford Tractor Means to You in More Work Done Faster and Easier—At Less Cost!

**Attach-mounted implements** Attach most Dearborn implements can be attached to the new Ford Tractor in 60 seconds or less. No wrenches, no lifting, no tugging! Time saved in attaching-detaching can equal several days per year.

**Control implements like never before!** Touch the hydraulic control lever and you get split-second response. Lift, lower or adjust implements whenever tractor engine is running. Turn the Hy-Trol knob for even faster hydraulic action.

**Step up performance of power take-off driven machines** with new LIVE POWER TAKE-OFF\*. Stop and start tractor while PTO operation stays under full power. Less slow-down, less clogging, less gear shifting. Increases safety, too.

SO LOW IN PRICE, TOO! Convenient terms available.

## Ex-Employees Visit The News

The Lynn County News office was visited last week by two former employees who got their first experience in the printing business right here in this office and both of them have made good in a big way since leaving Tahoka.

scarcely seen inside a printing and publishing establishment when he was given his first printing job in this office when he was a lad some fourteen or fifteen years old. Starting from scratch he worked as a part-time employee in The News office until he had graduated in the Tahoka High School and then a year longer. He had entered the Texas Technological College and paid his way by working part-time in the print shop of that institution. He spent four years there as an under-graduate and another year studying for his master's degree. After obtaining his master's degree he was given a good job on a south Texas weekly newspaper; and then went into the armed

## WARREN CHILDREN HOME CHRISTMAS

Mr. and Mrs. W. R. Warren had all their children but one daughter, Mrs. Sid (Vasti) Pipkin of Clovis, N. M., home for a Christmas visit early last week. Those present were Billy Warren of Sheppard Field, Wichita Falls, Mrs. Lennie (Verdie Mae) Baker of Lubbock, Wayne Warren of Knox City, Mrs. Herbert (Alta Faye) Hale of Witharral, and Robert Warren of Lubbock. Mr. Warren's brother, Randolph Warren of Pontotoc, Mississippi, also came and spent a week. It was his brother's first visit to the Plains, and he was impressed with the bigness of the country.

service of the U. S. in World War II. Later he held other newspaper jobs, and a few years ago he was elected as a professor of journalism on the faculty of the S.M.U. in Dallas. He still holds that position.

He was here last week visiting his parents, Mr. and Mrs. J. L. Reese, and he and his sister, Mrs. Jack Keyser of Huntington, W. Va., the former Miss Lorene Reese, also visited the senior editor in his home.

Then on the next day, the senior editor opened up The News office for a few minutes and the doors had barely swung open until walked in Mr. and Mrs. George Hogan and their son, George Hogan, Jr., of Corpus Christi to meet the editor and force. Only the senior editor, however, was present. The Hogans had been visiting relatives in Lubbock. Little George is now an oil reporter for the San Antonio Express, and as such rakes down a considerable amount of the coin of the realm as the days come and go. In other words, his daddy says that little George has a dandy good job. The latter incidentally remarked, "I, surely, have folded and wrapped many a paper right back there," and he said the shop of The Lynn County News was the first newspaper establishment he was ever in. And he was delighted to learn that Sylvester had done so well. The News editors are delighted that Little George has also done so well.

And there are others of our former employees who have done well, a fact which added much to our Christmas joy.

## Plan Hearing On Water District

BORGER, Dec. 23.—The necessary legal papers have been forwarded to the Sheriff of each County of the Canadian River Project cities for posting and publication in support of the official hearing to be held by the State Board of Water Engineers on January 12, 1953 at Austin, Texas, on the question of the need of the Water District proposed by the twelve Panhandle and South Plains cities.

Members of the Executive Committee of the Canadian River Project met with the State Board of Water Engineers on Nov. 20

## Social Security Man Coming

"Quite a few employers continue to carry on their payroll long-time employees who for reasons of illness or age are no longer rendering any actual services." This was stated today by John G. Hutton, manager of the Lubbock Social Security Administration office in the Broadway Building. "When the worker is retired, such payments are pensions and not wages under the Social Security Act, and a former employee who is over 65 may, at the same time, receive an old-age and survivors insurance benefit check each month.

"Within the past few weeks we have found a number of retired employees in the Lubbock area who have lost several hundred dollars by failing to file claims for social security benefits because they and their former employers have not understood that pensions are not wages. The more or less accidental discovery of these cases leads us to believe there may be a considerable number of employers having on their payrolls persons over age 65 who are not actually rendering any services. All such persons should contact us if they have not previously filed a claim for old-age and survivors insurance benefits."

Gerald L. Schantz, Field Representative of the Lubbock Office will be in the Post Office in Tahoka at 9:00 a. m. on Wednesday, January 7, 1953, to assist in all matters concerning social security.

## BARTLEYS HAVE REUNION

Mr. and Mrs. L. N. Bartley had all their children present last week for a Christmas reunion. Their sons, Melvin of Kermit and Arnold of Brownfield, and wives and children were here for the event. Others included Mr. and Mrs. Coy-Fielder of Tahoka and Tatum, N. M., and Earl and Roswell of the family home. Also visiting them were his sister, Mrs. T. H. Murrah, and husband of Levelland. The Murrahs formerly lived here.

Mr. and Mrs. W. S. (Skip) Taylor spent Christmas in San Antonio, visiting her mother, Mrs. Aver Meadow. Skip says all of Mrs. Meadow's eight children were at home with her Christmas, the first time they had all been together, at the same time in fully 25 years.

Joe Don Minor, Junior student in the University of Texas, spent the Christmas holidays here, with his parents, Mr. and Mrs. John Minor. He left this week to attend the Cotton Bowl game in Dallas between Texas and Tennessee.

and arranged for the hearing at the State Board's office in Austin beginning at 10:00 a. m., January 12, 1953, the earliest date on which the Board could function on the requested hearing.

The Executive Committee has arranged for representatives of the Bureau of Reclamation who prepared the original report for the Bureau of the Budget which cleared the authorization bill for presentation to Congress, to be present at the hearing, and there will be others familiar with the details of the project present to also give testimony if required.

Mayor C. A. Huff, vice-chairman of the Executive Committee, has expressed the hope that the Mayor from each of the Canadian River sponsoring cities will attend the hearing at Austin on January 12, or, if they cannot go personally, that they will arrange to send a representative to the hearing. He stressed the fact that the hearing to be held by the State Board of Water Engineers is of great importance to each of the sponsor cities and has urged that they advise A. A. Meredith, secretary-treasurer, Borger, immediately so efforts can be made to obtain the necessary hotel reservations for those who will be obliged to be in Austin overnight. Because of the opening of the State Legislature it is understood hotel space will be very difficult to arrange unless done immediately.

The Executive Committee met with Congressman A. L. Miller of Nebraska, and Congressman Walter Rogers of Pampa, in Amarillo on the night of December 10, when information concerning the Canadian River Project was thoroughly discussed with Congressman Miller whose trip to

**HAS IRRIGATION WELL.**  
Last week in listing some of the new irrigation wells drilled recently in Lynn county, The News stated G. E. Birdwell had a new well. C. E. does not have a well, but Lynn Birdwell, who lives in the southeastern part of the county does have one.

Gene Carpenter, who lives on the Dr. A. C. Surman farm northeast of Redwine, has a new water well he believes will be an eight-inch; and Claud Brown, who lives northeast of New Home also completed a new well.

There are many more new wells, but The News does not have a complete list of them.

## Outgoing Sheriff Thanks People

Having served the people of Lynn county the past four years as your Sheriff, I wish to thank each of you sincerely for the kindness, friendship, and cooperation you have shown me.

Of course, during my term of office, all of you could not be pleased all of the time, but I assure you now that I tried to do the job the best way I knew how. I know I made mistakes, but I tried to profit by them and believe you will agree serious major crime has been at a minimum during these years.

Like all other good citizens, I wish the new sheriff the best of luck in this difficult position, and will ever stand ready to help him in any way I can.

I hope to remain among you, to work for the betterment of our county, and to serve you any way I can.

My wife, Melba, and son, Dennis, join me in these thanks, and we wish each of you a happy new year. Sincerely,

Roland W. (Slick) Clem

## Retires As Justice of Peace

P. D. Server had served ten years in office when he retired as Justice of the Peace of Precinct 1, Tahoka, on Thursday of this week. He went into office January 1, 1922.

He is succeeded by A. L. Dunagan, a long time citizen of Tahoka and vicinity.

Mr. Server expects to take things easy, he says, and spend a lot of time enjoying television.

In retiring Thursday, Mr. Server revealed that during the past year he has collected in fines a total of \$3,808.05. This money goes into the county treasury for operation of the county government.

The Justice of the Peace is paid a salary, and also takes in a small amount from issuance of birth certificates and from holding inquests.

## Pioneer Teacher Dies Suddenly

Ernest Henderson, 76, well-known Garza county farmer and former school teacher, died suddenly of a heart attack in his pickup near his farm home at Close City at about 10 a. m. Monday.

Funeral services were held at 2:30 p. m. Wednesday in Post Baptist Church, with Rev. J. E. Stephens, retired, and Rev. Joe Boyd, pastor of the First Methodist Church, officiating. Burial followed in Terrace Cemetery at Post.

Mr. Henderson was well known by many Lynn county people.

He was born in Smith county Nov. 22, 1876, and came to Garza county in 1916. For 26 years he taught school in this area, including the schools at Close City, Garnolia, Garlynn, and Pleasant Valley. He had been county commissioner for three terms since retiring to his farm at Close City. He was married to Miss Carrie McCasland at Blackwell, Nolan county, in 1916.

Survivors include his wife, one son, E. J. of Post; one grandchild; four brothers, and two sisters, one of the latter being Mrs. D. T. Kincannon of Post.

## What Good Is a Baby?

The story is told of a research man who had just discovered a new substance. A friend asked, "What good is it?"

"What good is a baby?" countered the researcher.

Babies and new products have to grow up before anyone knows how important they may be. Quite a lot of infants have been brought up at General Electric during the past 75 years. During the bottle stage, nobody could predict their future accurately. But as it turns out today, they were real prodigies. Here are just a few that were first brought to the American public by General Electric men and women:

- the first electric lamp
- the first home refrigerator with sealed mechanism
- the first high-vacuum radio power tube
- the first fluorescent lamp
- the first automatic electric blanket
- the first large steam turbine for electric power
- the first jet plane engine in U. S.
- the first disposer for kitchen food waste
- the first high-voltage x-ray

We don't ordinarily trot out the past like this. But 1933 marks a birthday. For it was in 1878 that Thomas Edison organized the first of the companies which, in 1892, became the General Electric Company. And, like anyone on his birthday, we do look back over our shoulder.

This is just the beginning, really. Research and engineering are bringing out new things faster than ever—"babies" to lighten labor and brighten everybody's life.
