

## Rival Mentors and Captains Guests At Lions Luncheon

Coaches and captains of the Springlake and Muleshoe football teams were special guests of the Muleshoe Lions club at their luncheon meeting Wednesday noon.

Program chairman Blondy Ray introduced coaches Mantooh, Taylor and Washington, of the Muleshoe staff, who each spoke briefly and humorously, and then introduced the co-captains of the Muleshoe team, Derrell Oliver and Jack Wright.

Then Ray introduced Springlake coaches Don Townsend and Hugh Sullivan, who presented their co-captains, Dean Jones and Dick Evans.

None of the coaches gave away any secrets, but all promised a good game Friday night when the two teams meet in Benny Douglass stadium at 8 o'clock.

## Overseas Mailing Of Yule Gifts Dates Are Told

Postmaster Arnold Aloor this week announced mailing deadlines for sending Christmas packages overseas.

The postmaster said packages to be sent to the Far East must be mailed by October 15. Packages for Christmas destined for the Near East and Africa must be mailed by November 1. And packages for South and Central America and Europe, have a November 10 deadline for mailing.

Overseas mail for Christmas of the armed forces if sent by surface mail must be sent between November 1 and November 20. Air mail for armed forces personnel may be sent between December 1 and 10.

The postmaster urges patrons to check with the postoffice for regulations regarding size and weight limits on overseas packages, as well as forms to fill out.

## Two Youths Shot In Separate Accidents Near Here Sunday

Larry Dobbs, son of Mr. and Mrs. Johnnie Dobbs of Lubbock and Harold May, of Sudan, were injured Sunday in two separate shooting incidents, both termed accidental.

Young Dobbs was wounded in the stomach when a .22 caliber bullet entered his body while he was cleaning the rifle. His condition was listed as serious at a Muleshoe hospital, where he drove himself after the accident. May sustained a 16 gauge shotgun wound in the left side in a hunting accident on the Tom King place near Sudan. May was listed as in critical condition from the gunshot wound.

May was hunting with his twin brother and two other Sudan high school students at the time of the accident.

## SEE NEED FOR 3,000 MORE Shortage of Bracero Domestic Labor Slows Harvesting Of Record Crop

At least 3,000 agricultural workers are badly needed in Bailey county and vicinity right now, farm labor officials announced late last week, pointing out that the current ceiling of 1860 Braceros is woefully short of the actual number of hands required for the harvest just getting under way. Many fields in the south part of the county are suffering because of the shortage of boll pullers, officials said, with bolls falling to the ground as they ripen.

More than 300 bales have been ginned by the end of last week. It was reported, with the principal ginning confined to the south county, from dryland fields. All dryland cotton is coming off earlier this year, and the need for hands to pull bolls is becoming acute.

Despite the current ceiling of 1860 Braceros for September, labor officials are hopeful of securing at least 1,000 additional by the end of the month. Stating that the need is urgent and fast becoming critical as the crop matures, the labor officials believe they can secure extra hands.

The cotton crop is not alone in needing harvest hands. Vegetable growers, particularly tomato farmers, are hurting now for hands to help with the harvest. Processing of tomatoes has been drastically cut by the lack

of hands to pick the fruit in the fields. Continued high humidity has slowed the grain harvest somewhat, although many loads of maize have been brought to local elevators, primarily in the mid-afternoons, when early morning moisture has dried out somewhat.

Prospects continue to point toward a record agricultural yield in all crops, despite the current squeeze because of labor shortage. Migrant crews, delayed by late crops in the south part of the state, are beginning to trickle into the High Plains counties, and will relieve the situation to a degree, along with the anticipated increase in the number of Braceros to be imported.

## Muleshoe Civil Air Patrol Squadron Receives Charter At Monday Meet

Captain Clayton Campbell of the Plainview Civil Air Patrol squadron, presented the charter to members of the recently organized Muleshoe CAP squadron at a banquet meeting Monday evening at Leigons.

Buddy Blackman and Howard Cox accepted the charter on behalf of the squadron, in the absence of the commander, Morgan Locker. Cox is temporary squadron leader.

About 30 members of the Plainview, Amarillo, and Dalhart squadrons and cadet corps were present for the meeting. A delegation from Ft. Worth was unable to attend due to poor flying weather.

In presenting the charter, Campbell promised the local squadron delivery of a training plane in the near future.

## D. H. Long Rites September 13 At Baptist Church

Funeral services for Daniel Homer Long, 73, were held September 13 at 3 p.m. from First Baptist Church in Muleshoe, with Rev. Jim Green of Longview officiating, assisted by Rev. E. K. Shepherd. Interment, by Singleton Funeral Home, was in Sudan Cemetery.

Mr. Long passed away September 11 in West Plains Hospital where he had been a patient 13 days. He was a retired oil field worker. A native of Elrod, Penn., Mr. Long resided in Kilgore and Needmore, prior to moving to his Star Route, Sudan, home in 1946.

Surviving are three stepsons, Loys Jishman of Ft. Worth, Charles of Odessa and Weaver of Andrews; two step daughters, Mrs. Ethel Keith of Henderson and Mrs. Frances McCullough. Also one sister, Mrs. J. W. Jennings of Bellflower, Calif.; four nephews, Elmer Long of Clute, Homer Long of Muleshoe, W. H. Long of France, L. C. Long of San Diego; and seven nieces: Mrs. Virgil Webb of Needmore, Mrs. Newt Burns Mrs. P. J. Barnett and Mrs. Alta Long, all of Muleshoe; Mrs. Howard Jackson of Los Angeles; Mrs. H. C. Stevens of San Diego, and Mrs. Jack Sidwell of Clute, Texas.

Pallbearers were George Tompkins, Fred Beene, Ed Ary, Coleman Terrell, Kelly Joe Banett and Billy M. Barnett.

## Credit Union Gets Federal Charter

Muleshoe Federal Credit Union has been granted a charter, according to word received here this week from the Federal Credit Union Bureau in Washington.

Connie Gupton, who received the message, said the charter was dated September 12.

Gupton was named "key man" to attend to correspondence during the wait for charter approval by the group which applied for the charter a few weeks ago.

The union can operate in a territory with a radius of five miles from Muleshoe.

J. D. Luton, of Lubbock, who represents the Texas Association of Credit Unions, will come to Muleshoe, probably in the second week of October, to assist with the organization.

An announcement of the day he can be here will be made as soon as he makes a firm date.

## Seek SC Posts In ENMU Vote

Two students from Bailey county, attending ENMU at Portales, are among 55 students seeking places on ballots in student officer elections.

## 4-H Club Boys Show Swine In Sears Foundation Show

Lamar Pollard of Bula, showed his 4-H club Poland China male to fourth prize in the area Sears Foundation show at Texas Tech Saturday.

Bert Green of Roaring Springs, took top honors on another Poland China male in the same class. Lamar's winnings were valued at \$20. Danny Gade of Olton showed his Duroc gilt to first prize in the area.

Durwood Aaron, also of Bula, and recent winner of the county gilt show, showed his 4-H club Poland China gilt to sixth place and a total of \$25 value in prizes at the show Saturday at Tech.

Nelson Shipman of Muleshoe, took second in the county show, followed by Travis Bessire of Muleshoe, Bruce Angel of Enochs and J. C. Pearson of Enochs.

Sixth and seventh place prizes were won by Winston Pattie and Troy Tyson in that order.

## Crop Prospects Continue Good As Harvest Gets Back In Swing

Monday night's inch and a half slow rain brought smiles to the faces of farmers who have just planted winter wheat and cover crops, but frowns to the faces of cotton and grain farmers who see a possible threat to the current heavy crop, waiting now to be harvested. Lodging of grain sorghum, possible mildew of cotton and the almost certain lowering of cotton grade by the rain, are problems brought on by the moisture.

However, the picture is not yet a grim one. Sunshine and dry weather can quickly wipe out any ill effects the rain might have begun. Most farmers feel the rain did no great harm unless it is the forerunner of another wet fall such as hit the 1957 harvest about this time of year.

## Strain Brothers Low Bidders On Area Hiway Work

A contract for 17,276 miles of construction on U. S. Highway 84 and 70 in Bailey and Lamb county has been awarded to a San Angelo firm, it was announced in Austin this week by the State Highway Commission.

Strain Brothers, Inc. submitted the low bid of \$628,524.14 on the project. Construction of grading, structures, flexible base and three coarse surface treatment from 8th St., to Sherman St., in Muleshoe; from Muleshoe to Lamb County Line; from Bailey County Line to 1.8 miles southeast and from Muleshoe to Lamb County Line is expected to take 240 working days, according to O. L. Crain, District Highway Engineer at Lubbock. The awarding of the contract to this firm is subject to the concurrence of the Bureau of Public Roads.

Rhea E. Bradley, resident engineer at Littlefield will be in active charge of the project while under construction.

## Pancake Supper At Methodist Church Friday

## Homemaking III Class Holds Panel Discussion

Problems of dating, engagements and marriage, and the way they affect the teenager, were the topics discussed during panel periods sponsored last week by the Homemaking III class at Muleshoe high school.

Girls in the class, members of Ag. III class, and ministers and adults of Muleshoe joined in the three panel discussion periods held last Tuesday, Thursday and Friday at the school.

For the panel on dating, Lois Williams was moderator, with Rev. E. K. Shepherd, Mrs. Bernard Phelps, Rita Turner and Judy Hanks, taking part in the discussion.

For the engagement problem panel, Dorothy Hickman was moderator. Taking part in the discussion were Donnie Shafer, Rev. Shepherd, Bro. W. R. Tittle, Mary Gross and Dessie Pope.

Rita Turner was moderator for the panel discussion of marriage. Taking part were Senn Slemmons, Rev. Edwin Hall, Peanut Hawkins, Bonnie Wood and Rita Lewis.

## County and District School Officials To Enforce School Attendance Laws

County and district school authorities this week issued a warning that they will begin an intensified effort to locate children not attending school and take steps to see that they do attend classes.

"The warning came on the heels of a report that a large number of children in the school district are not attending school, and are working illegally. Investigations by Department of Labor officials in the area of violations of the child labor laws, triggered the concern of school officials.

County Judge Glen Williams, who is ex-officio county school superintendent, met Wednesday with Muleshoe school superintendent Jerry Kirk, and other school officials to discuss ways of enforcing laws requiring school children to attend classes.

Judge Williams said the law requires all school age children to attend school until they are 16 years of age, or until they have completed the ninth grade. It is against the law also, Judge Williams pointed out, for school age children to work during school hours.

Parents, Judge Williams said, are liable for the care of their children and can be punished by law and fined for wilfully keeping children out of school.

Farmers and business men are cautioned about employing children, and urged to make certain they do not employ school age children during school hours.

## Five Digit Phone Numbers Sign Of Better Service, General Explains

Because a lot of new equipment has been added to the General Telephone company plant in Muleshoe, some phone subscribers in Muleshoe will have their phone numbers changed to five digits, and some

new subscribers will receive five digit numbers.

That's the word received this week from Bob Saunders, district man for General Telephone.

Saunders said the new five digit numbers, all of which will bear the prefix nine, have been assigned to about 15 or 20 subscribers already, and more will be assigned as the program progresses to provide better service to Muleshoe subscribers.

Phone company officials expressed the hope that all number changes may be made to be included in the new directories due in December.

A lot of work has been done at the Muleshoe plant, Saunders told The Journal, much of it unseen, but all of which will ultimately provide more phone service for new subscribers, and better service for present phone users.

Work was started this week on putting in outside distribution cables, a job which is expected to take from 90 to 120 days to complete. Other work done here includes new underground conduit and an additional main feeder cable and 200 lines, rotary out dialing on trunk lines, and

several other projects to improve local service.

The additional outside distribution cables will provide additional upgrading of service, and also allow provision of service to areas not now served, Saunders said.

## Texas Sesame Field Day and Barbecue Monday Attended by Crowd of Over 250

A crowd estimated at 250 persons inspected the USDA regional field test plantings of sesame varieties, ate barbecue dinner, and heard Dr. J. O. Culbertson, head of the Industrial Crops Section of the Department of Agriculture, speak on new crops, at the Texas Sesame Growers, Inc., new plant in northwest Muleshoe Monday morning.

The U. S. D. A. regional yield test of sesame varieties is one of several such being conducted throughout the cotton belt of the U. S., and was under the general direction of Dr. George Rivers of the Texas A & M Extension Service.

Dr. Rivers and Texas Sesame Growers executive vice-president Robert L. Parker, pointed out features of the different varieties in the test plot, and told how they were planted, and what the test is expected to yield in information.

Following a barbecue dinner served to about 250, Dr. Culbertson presented his talk on the search for new crops to replace those no longer economically desirable.

All members of the board of directors of Texas Sesame Growers, Inc., were present, having come out from Paris, Texas, headquarters of the corporation, for the field day and barbecue.

### REMEMBER WHEN?

by JOHN CROW

Followers of the turf say there's nothing more beautiful than a great running horse pounding down the stretch. And old timers say that the most beautiful sight of all, in the year of his peak, was the legendary Man o' War.

When a horse becomes great, or begins to run up an impressive total of winnings, he is always compared to that first big money-winner of the turf, Man o' War. This mighty horse set his phenomenal record as a three year old. Later his total was beaten, and in modern horse racing it has been far outstripped because of the larger purses offered.

But Man o' War was the horse that started the big money cycle in horse racing. He helped to make this one of America's most popular sports. And you'll find a lot of horsemen who'll declare that in his big year, this was the greatest horse of them all.

Remember the year?

A tremendous number of Americans bought new cars that year . . . and the horse was fast disappearing from the streets. Buyers in those days weren't pushed into a "fast deal". They bought carefully.

The year was 1920.

You want get fast talk or high pressure from us when you stop in to inspect and drive the powerful new CHEVROLET. We think the car will sell itself . . . and we know we can give you the best deal today . . . reliable service to back it up tomorrow.

Sheila Martin of Littlefield and Joyce Thompson spent Monday night with Patricia Locke, helping Patricia to observe her birthday.

Norvel Roberts was confined the first part of the week in the Littlefield hospital, suffering from a burst vein in his arm. This was caused from an old injury caused in ball practice.

Guests Saturday night and Sunday in the Hugh Cook home were their son and wife, Mr. and Mrs. Bobby Cook of Lubbock. Other guests Sunday were Mrs. T. W. Mackey of Littlefield and her mother, Mrs. C. C. Lewellyn of Lubbock.

Mr. and Mrs. Dexter Nebbutt and girls of Morton spent Sunday with her parents, the R. A. Vestals and were also supper guests Sunday night with Mr. and Mrs. Jimmy Drake.

The Bula FHA girls sold home made ice cream at school four days last week. Proceeds go to helping take care of the expenses of the club.

Mr. and Mrs. E. O. Battles returned Friday from Hollis, Okla., where they had spent seven weeks helping care for Mrs. Battles' father, Mart Estes, who

was seriously ill, suffering from a burn.

Mr. and Mrs. DeWitt Tiller and girls, Beverley and Elaine, spent the weekend at Eldorado, Okla. They attended the funeral for a great-aunt of Mrs. Tiller, Mrs. Will Garren, held in the First Baptist Church in Eldorado, Saturday afternoon. They spent Saturday night and Sunday in the Jimmy Crume home of Eldorado.

### Womens Society of Christian Services Circles Begin Study Courses Tuesday

A program on Hawaii, a part of the study on Christian Concern for North American Neighbors, was conducted at the Tuesday afternoon meeting of Alpha Circle of Women's Society of Christian Service at First Methodist Church. Mrs. Hilbert Wisian and Mrs. Earl Ladd, Jr., led in the study which disclosed the fact that there are today in Hawaii fewer members of Christian churches than in 1880 and that there is a growing trend toward cults and other faiths.

As the group gathered they were presented with crepe paper leis. Dolls dressed in Hawaiian costumes were used to underscore the theme. Refreshments of Hawaiian salad and punch were served to nine members and a visitor, Mrs. Jim Gaede.

Others in attendance were Mrs. David Anderson, Mrs. Edwin Hall, the hostess and two visitors, Mrs. George Mitchell of Muleshoe and an Amarillo visitor.

Mrs. J. G. Arnn and Mrs. Oscar Allison presented a program on The Middle East for members of Mary and Martha Circle. Mrs. A. H. Owen read a scripture from Psalms 122.

The group voted to join the Alpha Circle in serving a pot luck supper at the kick-off meeting of the Roy Farrow campaign. Announcement was made of the District WSCS meeting to be held in Floydada October 2. Members attending are expected to bring a sack lunch and to meet at the Muleshoe church at 7:15. It is requested that those planning to attend call Mrs. Merwin Wilttering at 5113.

Mrs. E. T. Pittard, president of the Northwest Texas Conference will be guest speaker at the meeting.

Mrs. Eugene Black was hostess to the Esther Circle Tuesday morning at her home north of Muleshoe.

Mrs. Arnold Morris led in the

### Study Club Prexy Attending State Meet In Denton

Mrs. Thurman White

Mrs. Thurman White, new president of Muleshoe Study Club, left Wednesday afternoon for Denton where she will attend the official meeting of the State Board of Directors of the Texas Federation of Women's Clubs and Presidents' Parley being held on the campus of Texas Women's University, September 25 and 26.

Mrs. Glenn Dunn, vice-president of the local club, who is in Temple this week, hopes to join Mrs. White for the last day of the meeting in Denton.

Mrs. White, who moved to Muleshoe in 1945 from Lubbock, organized the first Girl Scout Troop in Muleshoe in 1946 and was leader of this troop for two years. She also has worked with Rainbow Girls and was Den Mother of her son's Cub Scout Den in 1952.

Mrs. White is also the president of the Muleshoe Ladies Golf Association, vice-president of Fl-

Grace Winn, pianist; Maude Harvey, Birdie Paul and Grace Winn, group captains, and Beulah Motheral, reporter.

Eleven members and one visitor were present.

delis Sunday School class of First Baptist Church, treasurer of Muleshoe Parent-Teacher Association and a member of Muleshoe Chapter 792, O. E. S.

Driving to Denton with Mrs. White was Mrs. E. A. Flatt, who has gone to Dallas to visit her sister, Mrs. Dudley Robertson. Mr. White accompanied them as far as Wichita Falls, where he is attending to business.

### Bridal Shower In Moore Home Fetes Mrs. Kirk Holt

The lovely home of Mrs. N. C. Moore was the scene of a bridal shower Monday evening honoring Mrs. Kirk Holt, nee Morna Beth Shafer.

Receiving the guests was the honoree, her mother, Mrs. Arthur Shafer, Mrs. Marvin Holt, mother of Kirk Holt, and Mrs. Moore. Also in the house party was Mrs. Bob Glass who served lemon punch and little white cakes topped with yellow roses from the crystal and silver service. An arrangement of yellow roses centered the bride's table which was covered with lace over yellow polished cotton. A miniature bridal figurine in white satin and tulle completed the table decor.

Among the guests registered by Judy Hanks was the honoree's grandmothers, Mrs. Mary B. Maxwell of Bakersfield, Calif., Mrs. A. P. Barnett of Baileyboro and Mrs. W. A. Shafer of Needmore.

### Initiate 45 Freshman Girls Into FHA Little Sister Chapter Monday Evening

Forty-five Muleshoe freshman girls were initiated into the newly formed Little Sister chapter of Future Homemakers of America at a meeting in the high school auditorium Monday evening.

New officers elected by the group include: Doris Gregory, president; Sandra Harris, first vice-president; Sandra Hodges, second vice-president; Louise Stinson, third vice-president; Rhonda Johnson, fourth vice-president; Linda Bartlett, fifth vice-president; Mary Sanders, secretary; LaNell Boothe, treasurer; Sue Phipps, historian; Julia Hollis, song leader; Anita Schmitz, sergeant-at-arms; Student Council representative, Ira Lea Inman; parliamentarian, Sylvia Pool.

The initiation took place before a table covered with a white cloth and featuring a red candle and red rose with four white candles on either side. The white candles stood for the purposes of the club, and the rose is the chapter flower.

Guides, usher, initiating officers and initiates were dressed in formals of red or white.

Mr. and Mrs. M. E. Hickman were named chapter father and

Mrs. Holt, assisted by Mrs. Jim Hanks, displayed the many lovely gifts, including an electric skillet, a gift from the hostesses.

They were Mmes. Bob Glass, Lester Elmore, Jim Hanks, Rudolph Moraw, W. R. Young, Wiley Moore, Neil Ray Arnold and Mrs. N. C. Moore.

## Rundown On District 2-AA Football Games

Class 2-AA teams still showed the forms this past weekend as two teams were defeated in play. The Morton Indians fell to the Plains eleven 20 to 0, and the Olton Mustangs were stampeded by the Littlefield Wildcats 42 to 6.

Springlake, after three consecutive losses this year, finally broke the ice with an 8 to 6 win over Class B New Deal Lions. It was Springlake's first win in 14 games. The Wolverines are the next op-

ponent for the Mules. They square off with each other at Benny Douglass Stadium here Friday night at 8 p.m.

The Dimmitt Bobcats, remained unscored on for the third week as they dumped the always tough Hereford Whitefaces, 6 to 0. The Bobcats had previously beaten the Springlake Wolverines 42-0 and Lockney 26-0. Friday night they meet their toughest test so far, the Antelopes from Abernathy. Muleshoe will meet Abernathy in a

## Shafer Leads Team To Victory

# Mules Roll By Hale Center 36 - 20

Muleshoe's Mules stamped past the Hale Center Owls last Friday night at Hale Center, 36 to 20, with the running of Donnie Shafer sparking the game. Sputnik Shafer scooted for four touchdowns of 60, 54, 52, and 90 yards.

Shafer had 226 yards rushing in eight tries before he was ejected from the game early in the third quarter on a penalty.

Shafer started things off right for the Mules when he scooted 60 yards on a quick opener in 2-minutes of the first quarter. Derrell Oliver ran the extra point over.

Hale Center struck back early in the second period with the help of a 15-yard penalty, from 1-yard out. The try for extra point was no good.

Shafer struck again—and again in the second quarter. He scampered 54 yards around end for one tally and, the next time he carried the ball, 52 yards for another tally. The half ended, 22 to 6.

After Shafer's was thumbed from the game, along with a Hale conference game there in the last game of the season.

The Mules meet the tough Bobcats there on October 17 here. The Friona Chiefs came from behind in their encounter with the Happy Cowboys with a 24-14 win Friday night. The Mules take on the Chiefs there October 10.

The Olton Mustangs took it on the chin as they were outclassed by the Wildcats from Littlefield, 42 to 6. The Mustangs are the first conference foe for the Mules as they meet on October 17 here.

The Morton Indians, another district foe of the Mules, went down before the Plains Cowboys 20 to 0 in their first setback of the year. They will meet the Muleshoe eleven here October 31.

Lockney Longhorns bounced back from a shut-out by the Bobcats, to slip by the Tulla Hornets in a 14 to 6 contest. The Longhorns and Mules meet there November 7 for another district encounter.

The Abernathy Antelopes continued on their winning way as they swamped the Sundown Roughnecks 30-8. The top ranked 2-AA team by many, made it three wins in a row with the easy win. The Mules play the Abernathy eleven there in the final game of the season, November 14.

Center Owl, fullback Gerald Shanks showed his heels to the Owls as he took off on a 45-yard scoring sprint. Oliver again added the extra point, making the score 36 to 6.

Late in the third quarter, the Owls recovered a fumble on the Mule 1-foot line after an attempted quick kick by the Mules.

Coach Mantooth sent in his second unit in the last quarter to finish the game. Hale Center scored again in the last minute of play on a 33 yard pass-and-run play from Donald Dollar to left end Luke Williams.

Muleshoe gained 426 yards during the contest to Hale Center's 227, but the Owls led in first downs 16 to 12. The Mules were also assessed over 100 yards in penalties, mostly for the 15-yard count.

Oliver showed some pile-driving, hard hitting from the halfback slot after Shafer was ejected from the game. At one time he literally ran over three Owl defenders, almost breaking into the clear, until ridden down from the back. Corrales also showed some sharp running throughout the game with quick bursts into the secondary, despite an ailing foot.

Lyndall Black showed a lot of defensive savvy as he made a lions share of tackles. Also Camp and Oliver, who showed he could hit as hard on defense as on offense.

## Junior Teams Win Games Tuesday

The seventh and eighth grade teams really swamped the two Clovis grade school teams Tuesday night at the local stadium.

The young Colts of the 7th grade swept by the Clovis eleven by the score of 30-0.

The future Mules, not to be outdid, swamped the Clovis 8th grade with a 32-0 thrashing.

## Muleshoe Men Thump Morton Golfers; Club Tournament Begins Here Oct. 5

Muleshoe golfers turned back Morton's challengers here Sunday afternoon; on the point system Muleshoe's men had 51 points to 16 for the visitors. The Muleshoe Golf Club now is in permanent possession of a trophy that has been contested for during the last five years, having won three of these inter-city tournaments.

Thirty-three men from each

club participated, considered a very fine turnout. Club officials announced that the annual Muleshoe Golf Club tournament will be held beginning Sunday afternoon, October 5.

Ray Hardy, club pro, said first and second matches will be played during the week, with finals October 12. Anyone who expects to enter may qualify September 28 to October 4 with the exception of medallist contenders, who must qualify only on October 4.

A club party will precede the beginning of the tournament and will be held at the clubhouse the evening of October 4.

## Shafer Named Back Of Week In Area Papers

Donnie (Sputnik) Shafer, the 167-pound whiz kid from Muleshoe was named "Back of the Week" for area AA football teams by area daily papers.

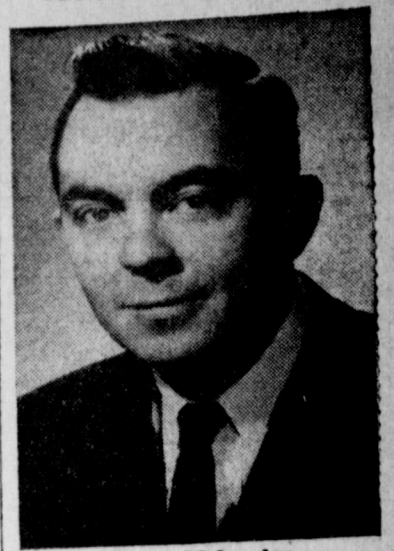

Shafer gained a staggering 267 yards in only seven tries while scoring four times, on runs of 60, 54, 52 and 90 yards. He did all this while playing slightly more than two periods, 29 minutes of playing time.

He gained 90 yards more than the old individual records at Muleshoe, which he had set last year in the conference opener against Olton. The 90-yard touchdown run from scrimmage is also a new record—topping the 85-yarder by fullback Eugene Huff in 1946 against Abernathy.

The Mules also racked up a new standard in rushing yardage. The Mules gained 398 yards to top the old team mark of 385 set last year against Tulla.

For this season Shafer has gained 474 yards in 29 tries, for an amazing 16.3 yards per try. He also leads the Muleshoe scoring with 36 points—six touchdowns.

## Heads '59 Drive

Gordon McLendon

Gordon McLendon has been named Texas state chairman for the 1959 March of Dimes, Basil O'Connor, president of the newly expanded National Foundation announced today.

The "March of Dimes" has a bigger job than ever to accomplish", said McLendon in accepting the appointment. "We must continue to care for over four thousand Texans already stricken by polio. New funds are needed to tackle additional major health problems, with arthritis and birth defects as initial new targets."

## BABSON DISCUSSES The Law Of Supply And Demand

Babson Park, Mass., Sept. 25—Government decisions, including those determining federal and local taxes, will now affect our businesses and personal lives more than ever before. To prosper in business, we must know what our government is doing on all affairs. We must also heed the Law of Supply and Demand. Our politicians refuse to tell the voters the truth about this Law.

Importance of Commodity Prices  
 Goods are plentiful today, for the most part. Now that the shortages of war and its aftermath are gone, few people stop to think much about commodities and the Law of Supply and Demand. Many who invest sizeable sums in securities—sometimes nearly all their life's savings—will buy stocks in companies about which they know little.

When I buy stocks, I like to know something about the goods or services which the company makes or sells; to find out what raw materials it uses, and how plentiful or scarce, these are. Knowledge of such conditions, upon which your investments depend, will help you when buying or selling a business, when seeking new employment, and especially when making investment decisions.

### Depressions Are Natural

The Law of Supply and Demand shows that there is nothing unnatural about depressions. Those who prepare for both depressions and booms by keeping out of debt and working harder and better will have little to fear. The present recession should be a healthy development. It permits us to digest the excesses of the last boom.

During a recession period merchants should increase their advertising. At the same time, they should attend more strictly to business by reducing inventories and liquidating debt. Manufacturers should recognize that recessions call for a thorough reorganization of their employment

and manufacturing to bring them into closer harmony with prevailing supply-demand conditions. Agriculture should keep in mind that freezes and drought also are natural and should prepare for them. There is no sense in thinking that the economy will ever remain stationary for very long.

### WATCH DEVELOPMENTS AHEAD

Recent cuts in the price of aluminum were originated by Canadian producers to offset increasing competition from Russia. Reliable reports indicate that we may expect further changes in domestic supply-demand ratios in key commodities due to Russia's rapid industrial progress. If this increase persists, Russia will eventually be supplying large quantities of coal and oil to all Europe. Naturally, this could lead to weaker price trends in the U. S., and—for oil—in the Middle East. We, therefore, may be forced now to temporarily ignore the Law of Supply and Demand, as a defensive move, and charge certain economic legislation to defense along with our cost of missiles and other shooting devices.

Russia does not now possess anything like our standard of living. But she does possess vast resources, excellent scientists, and a dedicated, disciplined determination to make best use of these resources and talents to advance her political aims. As she pursues her foreign trade program, changes in individual supply-demand relationships will occur. Some of these will have far-reaching effects upon our entire economy and upon specific American businesses. Think what has recently happened to copper, lead, zinc, wool, and certain other products.

### Money and Labor Markets

Few people fully understand our money system or the precise significance of labor in our economy. Banks make their money only by lending cash. Wage earners secure their employment according as their services can be used advantageously by business. The ups and downs of these money and labor markets should be governed by this Law of Supply and Demand.

### Depressions are usually merely periods when demand, in the aggregate, has fallen off. At such times bargains are available and the bases of new fortunes are made. Truly the Law of Supply and Demand is as fundamental as Gravitation. What a pity it is not honestly and frankly explained by our political leaders.

—ROGER W. BABSON

## Sandhill Philosopher Claims Little Rock Has Opened Up New Idea For Much Better Football

Editor's Note: The Sandhill Philosopher on his Johnson grass farm has his tongue in his ears this week, and possibly his too, in his mouth. You decide.

Dear editor:  
 I have been keeping up with what's going on in Little Rock, Ark., not because I know the answer but because it's interesting to find out what other people's answers are, and I'm just as confused as you and the rest are, yet there's one point that has been developed there that the rest of the country seems to have overlooked.

As I understand it from reading the newspapers that turn up out here on this Johnson grass farm, even though the chooks are closed in Little Rock, the football team is going ahead and playing.

This seems to be one of those great historic discoveries that nobody at the time seemed to recognize, but as I see it, it opens up a brand new idea and is exactly what the schools, especially the colleges, have been needing.

As everybody knows, classes get in the way of football practice on most college campuses, you try flying half way across the United States to play football on the weekend and still get back to class on Monday, when you ought to be watching the films of the game and finding out what you did wrong so you can correct it before the game on the next weekend, and you'll see what I mean, although personally I've never tried it. A college team that doesn't eat, sleep and talk football, well, it just ain't headed for any bowl game.

However, if it's possible to have a football team without attending classes—I'm talking about college football, not professional football, as everybody knows you don't ordinarily play professional football until you make a name for yourself in college—then the long-sought answer is at hand.

Don't misunderstand me, I'm not opposed to football, I'm just trying to help the game. You can't tell me colleges wouldn't play a better brand of football if the player's didn't have to attend classes and could devote their entire time to it, and if the Little Rock experiment proves it can be done, there's the answer.

By the way, I sure would like to see Muleshoe play Springlake next week. If you've got a press pass, I'd be glad to borrow it.

Yours faithfully,  
 J. A.

### Today's Meditation

Read Psalm 32:1-7.  
 I said, I will confess my transgressions unto the Lord; and thou forgavest the iniquity of my sin. (Psalm 32:5.)

Some years ago I was pastor in a rural church. I often visited a blind man, who was almost 90 years old, I would read the Bible to him and pray. He would tell me of his work in former years.

One time I paid a visit to him, he was very dejected. He said he had something he must confess. So he told of an old sin done in his early youth. The remembrance of it had been a burden

on his soul through all the years. But he had never had the courage to confess. As a result, his heart could find no peace.

He now asked me to pray together with him that the Lord would forgive him and give him peace.

This is an illustration of the great truth given in Psalm 32. If we try to hide our sins, we will not find peace. If we acknowledge our transgressions unto the Lord, He will forgive our sin.

PRAYER  
 Our heavenly Father, help us we pray Thee, to bring every sin to the throne of grace. Forgive us our trespasses and give us peace—Thy eternal peace. In the name of Christ, Amen.

THOUGHT FOR THE DAY  
 When Christ cleanses us of sin and reconciles us to God, we find peace.

The Campus of the Babson Institute was selected because the meetings must be secret and strictly classified. The public meetings will be held in Boston under the direction of Harry A. ## Parmer County Man Reports— Increased wheat yield 24 bushels per acre

Leon Billingsley, successful High Plains farmer, says: "I applied 100 pounds per acre of Phillips 66 Agricultural Ammonia pre-plant to my irrigated wheat and increased my yield from 18 bushels to 42 bushels per acre. I figure my net profit increase to be around \$40 per acre."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields... and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that the 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

## Beef Leads List Of Plentiful Foods For October

Beef is on the U. S. Department of Agriculture's plentiful foods list for October. It is the first such listing for this favorite meat for 1958.

October supplies of beef are expected to be seasonally large as fed cattle marketings increase and coincide with marketings of grass-fat cattle. The number of fed cattle going to market this fall is expected to exceed last fall's total, reports the Agricultural Marketing Service.

Broilers, fryers, cheese and apples have been designated as the foods to feature in October meals because of heavier than usual supplies.

Three other meats, hens, lamb

and pork, are also listed as plentiful in the southwestern area. Other October plentifuls include small and medium eggs, potatoes, honey, canned ripe olives, and peanut butter.

### VISIT MRS. KING

Mr. and Mrs. Preston Johnson and daughters of Grants, N. M., visited over the weekend in the home of her mother, Mrs. E. L. King. Mr. and Mrs. Grady King and sons, and Janice Clark, all of Lazbuddie, were dinner guests of Mrs. King Sunday.

## Agriculture Has Lost None Of Its Vast Importance To Economy Of United States

Almost two out of every five Texans are engaged in agricultural production or in supplying machinery and other farm and ranch needs or in processing and distributing farm and ranch products. This amounts, says John McHaney, extension economist, to approximately 40 percent of the State's population.

It is true, he points out, that 34 percent of all Texans lived on farms in 1940 compared with only 11 percent today, but this in

no way means that agriculture is of less importance. Today 11 percent of those engaged in agriculture are classed as suppliers as compared to 4 percent in 1940 and 18 percent process and distribute farm products compared with only 7 percent in 1940. This shift is of great importance, says the economist, for it means that others are now doing jobs which once were performed in a large measure by the producer. It has added efficiency to the industry

and permitted the producer to concentrate on production. In 1940 the average farm in Texas consisted of 367 acres. Today's farm contains over 500 acres and is highly commercialized with thousands of dollars invested in capital operations. Farmers are buying more items in town and marketing more agricultural products that ever before in history but it must also be remembered, says McHaney, that costs of operation are also much higher.

The self-sufficient farm is no more. Texas farmers and ranchmen annually go to the market place for about \$59,000,000 worth of machinery; \$106,000,000 worth of petroleum products; spend \$14,000,000 for construction materials; \$18,000,000 for pesticides; \$31,000,000 for lime and commercial fertilizers; \$221,000,000 for feed and approximately \$881,000,000 for other goods and services. Such business transactions, says the economist, are very important to the entire economy of Texas.

Because about 96 percent of the total agricultural production goes into the channels of industry and business, town and city dwellers benefit, says McHaney, for this production passes thru many hands before finally reaching the consumer.

### Parmer County Farm Bureau News

Thirty-to-one is the ratio of surplus commodities that can be delivered to needy people of the world through Christian Rural Overseas Program this year. All elevators and gins in the county have the simple, easy to prepare slips for you to make your designation with. This means that if you give 100 pounds of milo, it will provide for the delivery of 3,000 pounds to the people who are in the vicinity of christian missionary workers in foreign countries.

The same ratio covers cotton gifts, or if you are not a farmer, cash will do the same thing. Pastors of most of the churches will also help explain the workings of CROP. Unless your church has a specific program for getting food

and clothing to the needy, this is a good thing for you to work with. Let's share our plenty with those who have nothing.

We don't know the origin of the club, Oklahoma Lane Women's Society of Christian Service. We do appreciate the letter to the editor they sent in under their signatures last week, expressing concern and interest in the welfare of their young people. We'd like to see such a society in every town and community.

Keep October 6 in mind for the annual Farm Bureau convention. Rural roads, REA, school financing, minimum farm wages, water development, right to work, highway safety, redistricting of commissioners precincts, National farm program, Federal aid to education, and others, are subjects to be discussed and voted upon. Everyone of these subjects concerns you and yours. You can help do the right thing about them by being present at the convention. This is a family affair, and ladies and children are urged to come with their husbands and fathers. "Tenderfoot in Europe" will be an interesting film, shown by Cotton John, along with his comments, too.

If you want your membership to count in the total for Texas Farm Bureau, for this year, join soon, or pay your dues as soon as you receive your notice. You are counted only when you have paid your dues for the current year.

**CONSIDER THIS: Whose keepeth the fig tree shall eat the fruit thereof: so he that waiteth on his master shall be honored.**  
—Proverbs 27:18.

### LONE STAR AGRICULTURE

TEXAS POULTRY MARKET TRENDS  
Texas, as a major poultry producing state, is waging a pitched battle to show a profit this year in competition with Arkansas, Georgia and Mississippi.

The poultry industry, specializing in broilers or frying chickens, has been operating on such a narrow margin between production costs and sales price in the late summer and fall that a 1c difference up or down on live birds per pound can mean the difference between profit and loss for many buyers and sellers. Under such tight conditions, an accurate price reporting system is a vital necessity to all the trade.

The Texas Market News Service, operated by the State Department of Agriculture in Aus-

tin, reports poultry trading prices every weekday morning. Market trading is determined by calling both buyers and sellers of birds to determine the actual confirmed sale prices. These prices are subject to rapid changes, often fluctuating overnight and even within a few hours.

Many people in the broiler industry believe the price reported by the market news service each morning is a fixed price for the day. They wait for the price to be announced and then accept that amount as a positive rate of trading.

Actually the market news report should be used by buyers and sellers merely as a gauge by which to judge their own selling activities. In recent months, fully 845 to 90% of the trade has delayed setting a price on their birds until the market report is announced.

This means that 10 to 15% of the people who actually get a firm price for their birds and report their trading to the market news service are setting the price for nearly all the chickens in Texas.

It is to the buyer's and seller's advantage to establish their own price for their chickens without depending solely on a market news report. These confirmed sales are vital to the market news service in reporting trading as it occurred. Otherwise, if no one buys or sells until the report comes out, how is the reporter going to establish any true market trends?

The buyers or sellers who report their activities to federal or state market news services and then use the final data as a check against their own sales are utilizing the market service to its best advantage.

Those persons who allow the market reports to determine their prices exclusively are permitting other members of the industry to do their job for them, and should not complain about prices if they

## Muleshoe Area Well Represented At Second Field Day At Halfway

Muleshoe and Bailey county were well represented among the 97 communities and seven states at the second annual field day of the High Plains station of the Texas Research Foundation at Halfway on September 17.

Projects with top popularity among the visitors were the recharge well, irrigation studies, grain sorghums and cotton varieties and fertilization tests. One hundred and forty-seven varieties of corn, 37 varieties of cot-

ton and 155 varieties of grain sorghum were on display. Explanations of tests under way were made at eight stops on the tours.

Among those from this community who attended were Mr. and Mrs. J. K. Adams, Mrs. Laura Cox, John Agee, Sherman Inman, Jolen Ballew, Dale Fischgrabe, Bob Crawford, Carl Barnert, Mack Ragsdale, Bill and Owen St. Clair, E. W. Bass, F. W. Jones, Verney Towns, Marlon Inman, Bill Bickel, J. W. Bickel, E. E. Buchanan, Gene Caldwell, Dale

Fields, Arch Fowler, Lester Howard, M. F. Blackman, O. N. Jennings, Joe Dan Jones, F. K. Jones, I. L. Kitchens, Cecil and Harold Mardis, A. R. McGuire, J. E. McVicker, Bobby Measels, Kenneth Duncan, W. E. Meyers, W. T. Miller, Jesse Osborn, E. J. Parks, Norman Thomas, Bill Thomson, A. L. Robinson, J. D. Rucktashel, H. E. Schuster, D. L. ### Wildlife Improvement Practices Come Under Soil Bank Conservation Loans

Conservation practices which provide habitat and protection for wildlife qualify for assistance under the conservation reserve phase of the Soil Bank program. Up to 80 percent of the cost of putting cropland into wildlife habitat plus an annual rental each year the land is under contract, will be paid by the Soil Bank program, says Ed Cooper, extension wildlife specialist.

Under the program, Cooper says farmers have a choice of 5 or 10 year contracts for planting trees or shrubs on conservation reserve acres. Cost share payments for such plantings cover land preparation, planting, mulching and, in some cases, cost of necessary soil building elements. Also included are food plot plantings to attract a quail, doves, deer and wild turkeys. Food plots adjacent to protective cover or water may include domestic grains as well as natural foods, says Cooper.

Water habitat for ducks, geese and fur bearing animals are also included under the program. In addition to the restoration of former marsh lands by plugging drains, ditches may be dug or a series of shallow water areas may be provided on reserve acreage.

For those interested in fishing, do not participate in the active trading which is reported by the news service.

the conservation reserve program includes the construction of ponds. Cost share payments are available for the construction of fish ponds and annual rental payments are made under 5 or 10 year contracts at the choice of the farmer.

Details of the wildlife practices under the conservation reserve program are available at all county Agricultural Stabilization and Conservation (ASC) offices. The deadline, points out Cooper, for filing a request for a maximum rate for a farm is September 26. After the maximum rate is determined, farmers have until October 17, 1958 to apply for conservation reserve contract.
