## Youth Sentenced On Theft Charges

Gilbert Vines, 18, was fined \$100.00 and costs and 60 days in jail on each of three charges of theft, terms to run concurrently, on pleas of guilty in County Court here last Friday.

The charges arose from the theft of batteries from tractors and county maintainers in Lynn county on February 21. Nine batteries were reported missing to sheriff Norvell Redwine, who retrieved eight of them from Lubbock junk dealers.

## Pioneer Gas Is Expanding Lines

Further improvements and enlargement of the Tahoka compressor station of the Pioneer Natural Gas Company, located a mile west of the city limits, are being made in conjunction with the laying of the new 55-mile pipeline from here south.

Extensive enlargement work on the compressor station was done last year.

A new 10-inch pipeline is being laid from the Tahoka station to a point 27.5 miles south, just north of Lamesa, and a 22-inch line is being laid from there on south 28 miles into Martin county. This will give the company two 10-inch lines from here to Lamesa.

Originally, the Tahoka station boosted the gas from the main lines southward and westward. Now, since gas fields have been acquired to the south, the company compressor station is boosting the gas northward.

Work of laying the lines is being done by R. H. Fulton and Company of Lubbock, general contractor.

Six employees are maintained by the company to operate the compressor station here, according to Troy Havins.

## Fire Consumes Lumsden Home

The farm home of Wm. G. (Bill) Lumsden, located about a mile and a half northeast of Wilson, was destroyed by fire Monday afternoon.

Many Wilson people rushed to the scene of the fire and helped carry most of the furnishings and clothing except for kitchen equipment, from the burning home.

Expensive kitchen equipment, and a deep-freeze full of meat were a complete loss, as was the home.

Fire is believed to have started in or under the kitchen or back porch. Mrs. Lumsden had, a few hours before, been burning some trash in the back yard. Friends theorized that sparks from the fire may have blown under the porch and set the house.

Tahoka Fire Department made a run to the fire, but could do little because of its advanced state and because of lack of water.

Mr. and Mrs. Lumsden had just recently returned from a trip to Mexico.

## E. S. Brown Hurt In Fall At Home

The show is open to all 4-H and FFA club boys and girls of the tendent of the Baby Beef division; county.

George Claude Wells is superintendent of the Fat Lamb division.

Deadline for entry is 9 a. m. Saturday, but because of the many entries in the Swine division boys are being requested to have their hogs in the barn pens Friday afternoon. Judging will begin shortly after 9 a. m.

All people of the county are invited and urged to turn out and view the boys' livestock projects, as this is one of the best shows of its kind that may be seen anywhere.

## Local Entry Wins Talent Contest

Thursday night, they won first place and a \$10.00 award in the Elementary division.

Friday night they competed with winners of the other three divisions, Junior High, High School and Colored divisions.

Their act was judged the best in the finals, the grand prize award being a \$50.00 watch. Since they are two in the act, each received a watch.

Mother of the boy, Mrs. LaVoyle Parker, teaches dancing here and at Brownfield.

## Little League Play Is Set For This Summer

Everyone interested in the Little League, including each committee member, is requested to meet Tuesday night, March 6, at the Legion Hall at 8 o'clock for the purpose of electing officers and completing details for securing of the franchise.

Playing equipment was ordered and other plans made Monday for the setting up of Little League baseball for Lynn county boys 8 through 12 years of age here this summer.

City of Tahoka is building the field at City Park, and nothing will be spared to make local entrance into the national organization for summer recreation and training of boys in baseball.

A four-team league is planned this summer, and if demand warrants such, the league may be increased to six teams later. With 15 boys to the squad, four teams will carry a total of 60 players.

Drawings were made Monday by sponsors for club names and colors. Piggly Wiggly will sponsor the "Yanks", Wynne Collier Drug the "Cubs", Union Compress the "Cards", and the First National Bank and The Lynn County News the "Giants".

Sponsors will furnish all uniforms, caps, hose, bats, etc., while individual players will furnish only their shoes, sweat socks.

## Work Is Started On Local Airport

Work has been started laying caliche for the initial landing strip at the Tahoka Airport, northwest of Tahoka, on the land donated the people of Lynn county by Mrs. Cass (Mollie) Edwards of Fort Worth.

J. E. Nance states that the north-south runway now being laid will be 2,000 feet long and 75 feet wide. Plans are to lay an east-west runway later. The landing strip will be used by the crop dusters as well as by local flyers.

Members of T-Bar Country Club being developed on the site, state the greens are coming along in fine shape, some grass in the fairways has weathered the drought, tee-boxes will be planted soon, and the course is expected to be ready for play in the late spring or early summer.

Clarence L. Steele, 55, of Andrews, former Tahoka automobile mechanic, was killed and his wife and two children critically injured Wednesday night at about 6:45 o'clock when his car collided with a truck south of Lamesa.

In critical condition in Lamesa General Hospital were his wife Imogene, 37, broken wrist, possible internal injuries, and shock; their son, Vaughn, 13, fractured skull and possibly other injuries; and daughter, Leona, 11, multiple fractures.

The accident occurred on the Patricia road Hwy. 349, 7 or 8 miles south of Lamesa. Officers said Steele, in his 1948 Chevrolet, started to pass a 1956 semi-trailer truck owned by Morrison Supply Co., and driven by Robert W. Smith of Arlington. While attempting to pass, he saw an oncoming car and applied his brakes in an attempt to pull back behind the trailer truck. The car was almost demolished, but damage to the truck was slight, and Smith was uninjured.

Steele lived in Tahoka 10 or 15 years, operated his own repair shop for a while, and worked for various other garages here. A few months ago, he moved to Sudan, and from there he moved to Andrews recently.

Another daughter, Beth, age 8 who received terrible burns about three years ago while the family was living here, is under treatment in a Dallas hospital.

A brother, Vernon, who also formerly lived here, now lives in California.

No funeral arrangements had been made Thursday morning.

ELMER BLANKENSHIP

Once again the benefits of stubble on cultivated land to retard wind erosion was observed during last Friday's wind storm. In some cases here, fields had enough soil movement to fill the road bar ditches, while adjacent fields with standing stubble had very little soil loss. Particularly on dry land, stubble mulching seems to be the most effective means of controlling wind erosion. The problem follows of leaving crop resi-

due on the soil surface throughout the crop year.

Terrace lines were completed on Mrs. Calloways farm south of Draw by engineers of the Soil Conservation Service assigned to the Lynn District. These lines were the last of a system of terraces on an entire section of cultivated land the first lines having been run several weeks ago. Other terrace lines were run on Ellis Martin's farm west of Tahoka and on the Duckworth farm east of town. A diversion terrace is to be constructed on E. L. Thomas' farm below which is to be built a new terrace system. Engineers designed this diversion to intercept outside water and carry it at non erosive velocities to a point of safe release.

One of the District's Sparling Meters was used to register gallons per minute on a new well for Hub Pitcup, west of Draw. These meters are furnished at no charge for farmers to gage new wells and are another service of your Lynn Soil Conservation District.

Mr. Ebersole, area Agronomist of the Soil Conservation Service, showed the colored slides on grass and legumes last Thursday afternoon in the District Court room. There were some very good suggestions for soil improving crops that can be planted on those extra acres.

**Farmers Owe Social Security**

College Station, March—Self-employed farmers and ranchers can become eligible for insurance benefits under the social security law by mid 1956 if they have earned as much as \$400 from farming in both calendar years 1955 and 1956, A. B. Wooten, extension economist, reminds Texas farm operators.

Along with this goes the responsibility to report earnings from farming and pay the 3 percent social security tax not later than April 15, 1956. The Social Security Administration has suggested that payments be made as early as possible after January 1.

The form for making a report and remitting the required tax for social security insurance (Schedule SE) comes with the Federal Income Tax Return, Form 1040. If your net earnings from farming were as much as \$400 in 1955, you are obliged to fill out and file this return and pay the social security tax, according to social security law, even if you do not owe any Federal income tax for 1955.

Older farmers—those 65 or over—can retire after mid 1956 and start getting monthly old-age insurance payments if they have met the earnings requirements and paid their tax. Other farmers, regardless of age, will acquire family protection in the form of monthly payments to surviving dependents in the event of their death, provided they meet the same requirements.

In either case, the payment of the social security tax must accompany your income tax declaration or return. This responsibility is required by law.

Further information on social security taxes may be obtained at your nearest Internal Revenue Ser-

vice office or from the local county agent. Information about benefits can be obtained from your social security district office. If you do not know where these offices are, your postmaster can tell you, says Wooten.

## Farmer Calls Attention To Importance Of Cotton Welfare To Lynn County

An open letter to all citizens of Lynn county interested in cotton:

How much did cotton production in Lynn county contribute to your income in 1955, directly or indirectly?

How much money are you investing in 1956 that will have to be paid by the sale of cotton, directly, or indirectly?

For the greater number of us, cotton is our money crop.

For the past four weeks, many citizens of the Plains cotton growing area have been working for the organization of a consolidated voice in Plains cotton.

Much has been said and written about our situation regarding pending farm legislation in Washington.

We now have three (3) representatives of the Plains Cotton Growers in Washington representing our views on that legislation. They are W. O. Fortenberry, chairman of Plains Cotton Growers; Wilmer Smith, vice chairman and farmer director from Lynn county; and a Lamb county man.

These men are not on a salary, but we are expected to pay their expenses while away from home.

We in Lynn county are asked to pay 10 cents per bale on our 1955 crop production. And businesses are being asked to contribute accordingly, depending on their interest in the program as stated. Cotton gins have agreed so far to pay at the rate of one cent per bale.

These figures are temporary. By this fall, a more suitable method will be devised to finance and establish a goal for the Plains Cotton Growers.

## CARD OF THANKS

We, the family of Mrs. D. F. Hanes, wish to express our gratitude to you, our friends, for your many acts of kindness extended to us during the illness and death of our mother and wife. To each one who came and helped to care for Mother, for all the food sent to our home, for all the flowers, for all the cards of sympathy, and for each word of comfort and cheer given to us, we are truly grateful. May God bless each of you for your kindness to us.—D. F. Hanes and family.

A Brazoria county ranchman, Bascom Munson, caught 122 buzzards in his demonstration trap at one time. Buzzards pollute drinking water and grass, peck the eyes of baby calves sometimes killing and eating them and may even attack a weak mother cow.

About two-thirds of the poult losses during brooding period can be traced to management factors and the balance to specific diseases.

## Basketball Boys At State Meet

Tahoka Bulldogs basketball squad, accompanied by Coach Jake Jacobs, Calloway Huffaker and John Thomas, left Wednesday afternoon for Austin to attend the State Interscholastic League Basketball tournament.

Play began Thursday morning at 8:45, and will continue through today, with finals in all four classes on Saturday afternoon and night.

Tahoka boys making the trip are: Ted Pridmore, Gordon Smith, Junior Fitts, Carlton Bell, and L. W. Castleberry, all seniors; Jerry Brown, Karl Prohl, and Jay Gurdley, all sophomores; and Dee Blevins, a freshman.

The group will return home Sunday.

Tahoka tied with Abernathy for the District 5-AA championship, but Abernathy won the right to advance. The Antelopes lost to Seminole in bi-district play, and Seminole was nosed out by Phillips in the regional tournament for the right to play at Austin.

Wayland Craig and wife arrived home Saturday from Fort Ord, Calif., where he has been stationed in the Army. He will report back at Fort Bliss, El Paso, on March 9 for duty.

### Power-Packs In District Meet

The Bray Chevrolet "Power-Packs" won two games in the local gym this week. Monday night they defeated the Seagraves Independents by a one-sided score of 110 to 28. Tuesday night they were more evenly matched by the Paul Graham Co. team from New Home, but defeated them 91 to 78.

In the game against Seagraves, the Power-Packs had five men to hit in the double figures. Junior Fitts led the scoring with 30 points. Tommy Murray had 23; Charles Hyles 18; Steve Slover 16; and Gainard McNeely 12. Harold Crump came through with 9 points and Richard Havens failed to score.

For Seagraves, Smith was high point man with 11 points. Cason had 10; Welcher 4. Martin 2; Livesay 1; and Bandy 0.

The game Tuesday night was as you might say, "won on free throws." The Power-Packs made 21 of 29 free throws while New Home made only 10 of 28. The Power-Packs were behind only once during the game and that was during the early minutes of the first quarter when New Home led 2 to 0.

New Home's lead was short-lived however and the Power-Packs led by a good margin until the third quarter when New Home came within two points of them three times during that period. But the Power-Packs came through with a 91 to 78 victory.

Tommy Murray was high point man for the Bray team with 22 points. Junior Fitts had 18, Gainard McNeely 14, Richard Havens 10, Steve Slover 9, Charles Hyles 6, Harold Crump 6, and John Curry 6.

Tull was high point man for New Home with 29 points. Kenneth Rogers had 19, Milton Evans 8, Arms 6, Wayne Tekell 6, Bob Fillingim 5, Don Smith 4, and Caudle 1.

The Power-Packs now have a record of 10 wins against 3 losses. They have scored 962 points (74 point average), to their opponents 717 points, (55 pt. average).

The Power-Packs are entered in the District No. 2 T. A. A. F. tournament at Ralls which will be during the week of March 5-

### W. M. U. In Monthly Business Session

The W. M. U. of the First Baptist Church met Monday at the church with 18 members present for the monthly business session.

The program was led by Mrs. Terry Noble. The opening song was "The Kingdom Is Coming," and the devotional was given by Mrs. E. J. Cooper, reading from the book of Luke.

A special prayer carried the plea that "we might pray more for all our missionaries in all our fields of mission work."

The minutes were read by Mrs. Truett Smith.

The Community Mission report was by Mrs. W. P. Hutchison. She gave a report on the shower that was given the Bro. George Young family, the pastor of the Mexican Mission.

Mrs. A. D. Riddle gave a report on the Girl's Auxiliary and the good work the girls are doing in their handwork and also the book study.

In the prayer chairman's report, we were asked to use our prayer list in our Royal Service for our missionaries having birthdays—each day of each month of the year. Let's do this for our missionaries, who are doing so much for our people all over the world.

Mrs. Hutchison gave our prayer for our missionaries having birthdays on Monday. There were six of them.

The vice president, Mrs. H. B. Howell, gave her report on new enlistments.

We were dismissed in prayer by Mrs. J. H. Kuykendall.

Next Monday, the W. M. U. will meet at the church for the Week of Prayer. We will meet Monday, Tuesday, Thursday, and Friday at 3:30 p. m. Let's have a good group from each Circle every day and make the Prayer Week a good one. Let's all plan to attend each day.—Reporter.

#### Preacher Talks At Rotary Club

Rev. Harry Vanderpool, Littlefield Methodist minister, was the speaker at Tahoka Rotary Club Thursday noon of last week. He was introduced by Rev. J. B. Stewart, local Methodist Minister, program chairman for the day.

Using the subject, "The Unusual Key," the speaker injected a lot of humor into a talk which emphasized the possible "doors" an unused key might open in the heart and soul of man.

Rev. Vanderpool, past president of the Littlefield Rotary Club, was named the outstanding young man of that city last year.

Dean Taylor, new Pioneer Natural Gas Company manager here, Winston Wharton introduced as a new member of the club.

Roy Edwards was appointed by President Harold Green as the chairman of the attendance committee for the District Assembly.

Green announced the club would decide this week whether or not it would sponsor the visit of another foreign student in Tahoka next summer. New club directors were to be elected also.

He also announced that this Rotary district led the world in attendance last year. During the month of January Tahoka club had an attendance of 91.2 percent, but at that stood 28th in attendance in the district.

Johnny Reasonover told of progress made in formation of the Little League here.

#### New Home Ladies Attend Program

The New Home Home Demonstration Club met Thursday, Feb. 23, in the Community Center with 22 members present.

Mrs. Virgie Haley, vice-president, presided in the absence of Mrs. Carlice Edwards.

Mrs. L. C. Unfred and Mrs. Carlton Davis were hostesses, and brought a very interesting program on Party Dishes, consisting of rolled and checkerboard sandwiches, dips, and a very attractive jello desert served on French pastry.

Mrs. Carlice Edwards was elected as a delegate to the THDA Council.—Reporter.

The play, a comical mystery, is entitled, "You'll Die Laughing," written by Jay Tobias.

The cast includes Othelda Freeman as Bridget, Gordon Smith as Kim, Ware High as Tommy,

Don Blair as Gus, Virginia Gable as Peachie, J. E. Nance as Levi, Ruth Curry as Marilla, Sue Williams portrays Di, Iona is characterized by Ann Reasonover, Kitty is played by Margis Curry, and Otto is played by Kenny Durham. The terrifying Ghost Boy is played by N. E. Wood, and Bonnie White plays the Ghost Girl.

Mrs. Frank Hill returned home Sunday from Floydada, where she spent two weeks visiting her sister, Mrs. Del Reagan.

Those interested may contact Mrs. E. R. Blakney or Mrs. Roy L. Williams for more information.

#### Square Dance Lessons Planned

Mozell Ratliff of Brownfield has agreed to come to the Community Center in New Home to teach the young people of the community who are interested to "do-do" to the appealing rhythm of the square dance.

There will be a series of five lessons, dates to be announced later. There will be a charge of \$2.50 per person for the lessons, payable in advance.

# Odds and Ends

(By E. I. The Elder)

None of us knows, I guess, how this fuss over the segregation of the races down in Alabama and several other Southern states on the one side and the Supreme Court of the United States, apparently, on the other side is going to terminate, but the surface indications are that the Court eventually will win out.

It is to be hoped, however, that the Court will find a solution of the matter without a resort to armed force. For a very ugly spirit already has developed between the whites of those Southern States and the colored organization which calls itself, National Association for the Advancement of the Colored People. Some blood already has been spilled, and the feeling between the two races in several states in that area does not seem to be growing any less tense. On the other hand some of the white people in the North have been giving the N. A. A. C. P. encouragement in its fight, and while most of the white people in the South have seemingly assumed a neutral attitude in the matter, yet millions of them really are in sympathy with the white people of those Southeastern states for the reason that they too for generations have been practicing segregation of the Colored people among them. And now the Governor and the Attorney-General of Texas have recommended that this state start a movement for the permanent segregation of the Negroes from the Whites in Texas schools and colleges. So, if and when Federal authorities undertake to desegregate the races in this state, violence and bloodshed may develop in many places in Texas. Certainly desegregation by force is not going to deepen the spirit of friendliness that has existed between the two races in Texas as for so long. I think, however, that the Supreme Court and the N. A. A. C. P. may be assured that better school houses and better school facilities will steadily be

provided the colored people throughout Texas where such improvements have not been made already, if the Federal Government will keep its hands off of our schools.

All of this turmoil and rioting has resulted from the recent "discovery" made by the Supreme Court that it has the Constitutional or "implied" right to run our state schools and colleges and our denominational and parochial schools at the Court may deem necessary in the enforcement of the Fourteenth and Fifteenth Amendments to the Constitution. As strange as it may seem, it took the Supreme Court eighty years to find out that it had this power. The Fourteenth Amendment was adopted in July, 1868, and the Fifteenth Amendment in June, 1870, and the people of the South have been practicing segregation of the colored population ever since, and no supreme Court that has convened in all these intervening years had discovered that it had the power to stop the segregation of the colored race until just a few years ago.

None of those great Justices of the Supreme Court, whom we have been taught to believe were very able and learned lawyers, have had the sagacity or mental keenness, it would seem, to find this power, latent or hidden away in the Constitution, until this present Court came on the scene. Not even that hand-picked Court that the late President Franklin D. Roosevelt picked out to serve his own particular purposes ever dreamed that it had this power. Of course no case involving the question may have ever been presented to that Court, and so it was left untouched and unsuspected for some N. A. A. C. P. lawyer to find and haul out for use by the present Court. Or it might have been some C. I. O. lawyer. At any rate, here it is being used by the Supreme Court as a benevolent tool for the purported purpose of breaking the detestable social shackles off the colored race and at the same time disturbing and confounding half of the schools in the South as well as many of the buses, railroad cars, and other public places. We sincerely hope that the Supreme Court uses its power to pass this cup from the lips of the South.

Now, while I blame the N. A. A. C. P. and some of the labor organizations, I have no word of censure for the colored people of Tahoka. Nearly all of them are well-behaved and are friendly toward the whites. Since this is true and since there are so few colored students here who are prepared to enter high school, I think very few white people would object to their entering the Tahoka High School. Otherwise they will have no chance to get a high school education without going to Lubbock or possibly Slaton for it. And students who are studious and ambitious enough to want to take

high school work, should have the privilege of doing so, under these circumstances, I believe. Of course, under these circumstances, teachers should use good judgment in seating them and should also see to it that they are not mistreated in any way by white students. Of course, I have not been asked for any advice about how the local public schools should be run, I feel that most white people here feel just as I do about the local situation.

Possibly the time is not ripe yet for Congress to act: probably it should wait until the Supreme Court takes final action respecting the troublesome racial problems now pending before it, and until the masses of people in the various states have time to see how the proposed policy of integration works out if generally adopted, and what fate awaits the proposed doctrine and action known as Interposition being proposed in several Southern states. If the period of confusion and turmoil continues and if the Supreme Court does not slow down in its usurpation of power that rightfully belongs to the states or the people, then I think it will be high time for Congress to submit another Constitutional Amendment or two calling a halt.

Like most old-time Southern people I have long been a conservative advocate of States' Rights. I have ever believed that States' Rights and local self-government are not only the most democratic form of government but also the most economic and least wasteful. A strong centralized government with much power concentrated in Washington, far away from the masses and out of the sound of the voice of

the people, is the least democratic and the most dangerous form of government for any people who love liberty and justice.

There is another feature about this Alabama affair that sounds exceedingly ominous. Tempers are flaring violently on both sides. Each side is becoming radical in its attitude and conduct toward the other. Dr. Carmichael, president of Tuscaloosa University, seems to be about the sanest individual connected with the whole affair, even though he is the one perhaps most deeply concerned. Others have provoked violence on the campus and elsewhere. Mis-led Negroes in Montgomery, the capital of the state, peevish because bus drivers have been requiring them to conform to Alabama's segregation law on buses, recently staged a mass boy-cot of the bus companies, and then the grand jury indicted 115 of them in a single day on a charge of boycotting. Whether a law against boy-cotting would stand up or not under a plea that it is unconstitutional, I do not know, but it does look to me as if a Negro or a thousand Negroes have the right to walk if they prefer to do so. I think that is radical legislation and is calculated to do more harm than good. It puts another weapon into the hands of the N. A. A. C. P. with which to fight the Alabama white people and widens the breach of enmity between the two races in Alabama. Also it gives the Supreme Court another ground for justifying its course in the Alabama affair in the eyes of the Nation. It was radicalism on the part of leaders both North and South that brought on the War of Secession

in 1860. I do not think there will be a second war as wide-spread and as destructive as was the first one, but there should never be another one of any spread or any destructiveness. We should have learned by now how to live together in unity and in strength. Neither the Supreme Court nor any single State should stubbornly pursue any policy that is calculated to produce division, bitterness, and bloodshed between any section of our country and the whole of it.

As for the Negroes, they will get along remarkably well with the whites among whom they live as long as their minds are not poisoned by wicked and designing white men.

Now, we have much reason to blame that trouble-making Negro organization which calls itself the National Association for the Advancement of the Colored People, and also certain selfish and unpatriotic labor organizations in the cities of the North and the East, as well as our own cupidity here in the South, for the dissatisfaction and wide-spread disturbance.

### Odds & Ends

(Continued)  
 bances that have flared up among the colored population recently. But these elements do not deserve to bear all the blame.

As I see it, many of our well-meaning church people, including particularly those of my own denomination, must bear some of the blame. Without having done very much, financially or otherwise, for the advancement of the colored people religiously, they have given encouragement to those organizations that have been poisoning the minds of the Negroes and leading them to believe that they are being grievously mistreated because they are not invited to move in the same social circles as the whites. Many of our leading Ministers have been advocating the de-segregation of the Negroes in the public schools and colleges, but I have noticed that they rarely ever invite colored people to attend religious services in their churches and rarely ever offer their services to the Negroes in the Negro churches. I do not agree entirely with Dr. Criswell, pastor of the First Baptist Church of Dallas, who made a somewhat sensational address to Baptists in Columbia, South Carolina, a few days ago, for I believe that white Baptists should help Colored Baptists more than they do, though they are doing a most commendable missionary work in Nigeria, Africa.

But I feel that Dr. Criswell's criticism of our professed concern for the Negroes here in our own homeland were timely and reserved. quote his remarks as published a few days ago in the Fort Worth Star-Telegram. (Quote) Under a Columbia, South Carolina date line of February 22, A.P.: "Dr. W. A. Criswell, pastor of the First Baptist Church in Dallas, says those pushing de-segregation in the South 'are not in sympathy with the great spiritual aims of our churches.' "Integration is a thing of idiocy and foolishness," the pastor of the world's largest Baptist Church told the annual statewide Baptist Conference on evangelism here Tuesday night.

"Criswell said there are 'Intelligentsia' who say that 'We've all got to be together in local and national and world councils of churches. They tell us to join in and have a great super church. Once there was a super church and we call its time the 'Dark Ages.' "Negroes don't want to integrate in the Baptist Church," Criswell said. "It is a kindness and a goodness to them that they go to a colored church while we seek to develop our own people in our church."

"Desegregation where we live, Dr. Criswell said, "is the stirring up of our people over a cause that, as of now, is not wisely presented. The people who seek to further this among us are not in sympathy with the great spiritual aims of our churches." "Dr. Criswell said that on a recent world tour of missions he found many places in the world where he said a desegregated society is acceptable, "but it is not here in the Southland or the Northland either."

Barring a few extremely harsh expressions, I think that Dr. Criswell, for the most part, is talking sense. Some other members of his denomination have been talking nonsense. That's all.

## 4-Door Hardtops?

ROADMASTER 4-Door Riviera—custom-built by Buick

## BEST CHOICE YET

THE SUPER 4-Door Riviera, Model 53  
 —Buick's extra-spacious medium-price buy

THE SPECIAL 4-Door Riviera, Model 43  
 —Buick's biggest buy in the low-price field

THE CENTURY 4-Door Riviera, Model 63  
 —Buick's top power buy

Big news in hardtops these days is the 4-door model.

And the biggest news of all is Buick's 4-Door Riviera. Ever since its introduction last year, this handy Buick hardtop has taken the country by storm.

But the newest note about this newest of models is the price choice Buick offers you.

Now you can have this much-wanted Buick model in four different price series—and that's a choice you'll get nowhere else.

Now you can have the 4-Door Riviera in the custom-built ROADMASTER, the extra-spacious SUPER, the supremely-powered CENTURY, or the bedrock-priced SPECIAL.

What follows from there? Plenty—really plenty.

For in every 1956 Buick there's a wealth of thrills—a

spirited gait—a trim maneuverability—a sheer enchantment in styling.

In power, it's a pistol. Every Buick packs a high-torque 322-cubic-inch V8 engine—each Series with the highest horsepower and compression ratio in Buick history.

In take-off, it's trigger quick. A new Variable Pitch Dynaflo\* betters the best Buick getaway on record—with instantaneous response at the very first inch of pedal pressure, and engine revolutions at normal cruising speed.

In emergency, it's double-barreled—with that new Dynaflo changing to full-power safety-surge acceleration the instant you floor the pedal and switch the pitch.

And in roominess, in luxury, in handling ease, in ride steadiness, in directional sense—you'll discover a literal truth:

This is the best Buick yet.

Can you come in tomorrow to see and sample the greatest Buick ever—and to note the prices that make this the best buy yet?

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
