## STANDING ON THE CORNER

With P. J.

A friend is a gift you give yourself.

We had a letter this week from Senator Lyndon Johnson asking our, and your, opinion in his stand against the portion of the civil rights bill doing away with trial by jury and enabling a Federal District Attorney and Judge to decide when someone has been deprived a voting right, issue an injunction and assess fixed jail sentences and fines.

I don't know your opinion, but before I give mine this is just for the record. Every citizen of the United States, regardless of color or creed, should have a right to vote and there should be some way to see that this right is protected.

However, in my opinion, this is not the way. It could be used as a wedge later on for more Federal power and perhaps in a very harmful manner against the rights of people.

If we're going to take away the right of trial by jury, why not just organize a security police that can drag people, guilty or not guilty, out of their homes by night, take them before the Federal judge, and then line them up before the firing squad? Don't be so shocked—it might come to that.

We're mighty glad the trial by jury amendment was hung on the civil rights bill before it was passed by the Senate—even if it doesn't get signed.

Father to small boy dragging top half of Bikini bathing suit along the beach: "Now show Daddy exactly where you found it—"

It was bound to happen. The other day Mrs. Beecher Sherrord was in quite a stew when she walked by the office and said she couldn't find her car.

Sure enough, her car was gone, but one just like it was parked near the place where hers had been.

After consulting with several side walk bystanders about who could have "swapped" cars, who should nonchalantly come driving down the street but Oran Ramsey!

Even after Mrs. Sherrord identified her car, Oran couldn't be persuaded that he was in the wrong one. The only thing that convinced him was the can of Sir Walter Raleigh in the front seat of the car that was still parked.

Was his face red!

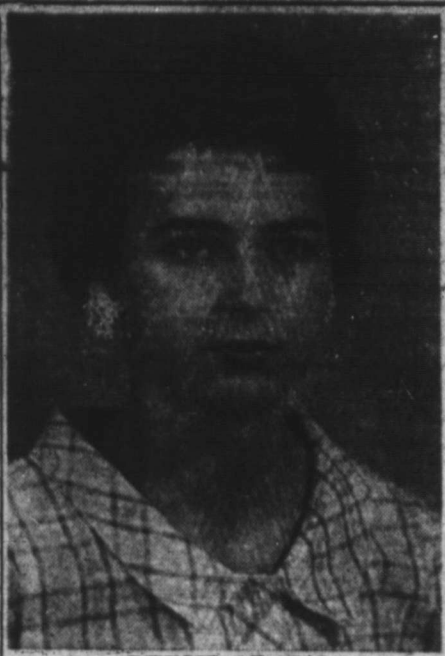

The Lee McFaddens are eating beans—but they are not sure what kind. In fact, they've been eating beans off the same vine all summer. One of the little vegetables measures 40 inches long and 10 inches in diameter and another is 37 inches long and nine inches in diameter.

Naturally, this isn't an ordinary vine either. It's growing "all over the place."

J. E. Ketter, 90, who has been in Lynn county 57 years, is the only living member of the county's first official family. He was a member of the first commissioner's court, and was sworn in by Judge Geo. A. Bean of Lubbock, also still (Cont'd. on Back Page)

## Labor Committee Is Formed For County

Three Lynn county citizens, Otis Spears, E. L. Blankenship and Frank Hill will serve as a County Farm Labor Committee and meet with Mr. Dayton Carroll, manager of the Texas Employment Commission office, and Wayne Grant, district director, Amarillo, to review the total seasonal employment needs developed by the TEC.

The Committee was presented with the figures of the TEC that Lynn County will be short 8,590 cotton pullers during the peak period of the cotton harvest.

The Committee will function under Public Law 78, obtaining facts relevant to the supply of domestic farm workers existing in Lynn County and the shortage of workers, if any, which must be met by importing Mexican Nationals to harvest the cotton crop. Under Public Law 78 the TEC must supply this information to the Secretary of Labor who must limit the number of Mexican Nationals to be used in this country by granting a "ceiling." The Committee consults with the Local Office Manager to assist him in estimating the number of workers who will be needed, based on current local conditions affecting the cotton crop.

"Ceilings" granted by the Secretary of Labor limiting the importation of Mexican Nationals into this area will be posted in Post Offices in Tahoka, O'Donnell, Wilson, in the County Agent's Office, and in the County Courthouse.

The TEC has estimated that 4,500 number of Mexican Nationals will have to be imported into this county to harvest this year's cotton crop.

Dear Editor:

P. J. in "Standing on the Corner" has the right idea, but she should develop the theme a little further. Juvenile delinquency is a Problem—no one denies it but let's problem—no one denies it but let's it in 1946, if you'll remember, was the year in which the divorce rate for the United States was at its highest—before or since. Why? The Second World War, of course had just ended, and a lot of men who came back from the war found to the girls whom they had married they had no reason to be married two, three, or even four years before, while they were in a sort of fatalistic emotional state. At any rate, there was a large number of divorces—some 610,000 in 1946. The children of those broken homes are now adolescents. Considering the vast number of children born during this time, just look at the wonderful things today's youth can chalk up to its credit.

More young people are going to college than ever before; church attendance and membership is at an all-time high; never before have there been as many bands, orchestras and choruses in public schools; all the athletic activities are better organized than ever before; and there are more individual clubs than ever before. Look at the scouting, 4-H, FFA, FHA, De Molay, Rainbow, and the hundreds of others.

Now thing of a typical teen-ager you know I'd hate to try to be as good a participant in one of his activities as he is in all of them! There are misguided young people, but that is our fault, too! How can we criticize these young people for

**Loans Set For Grain Storage**

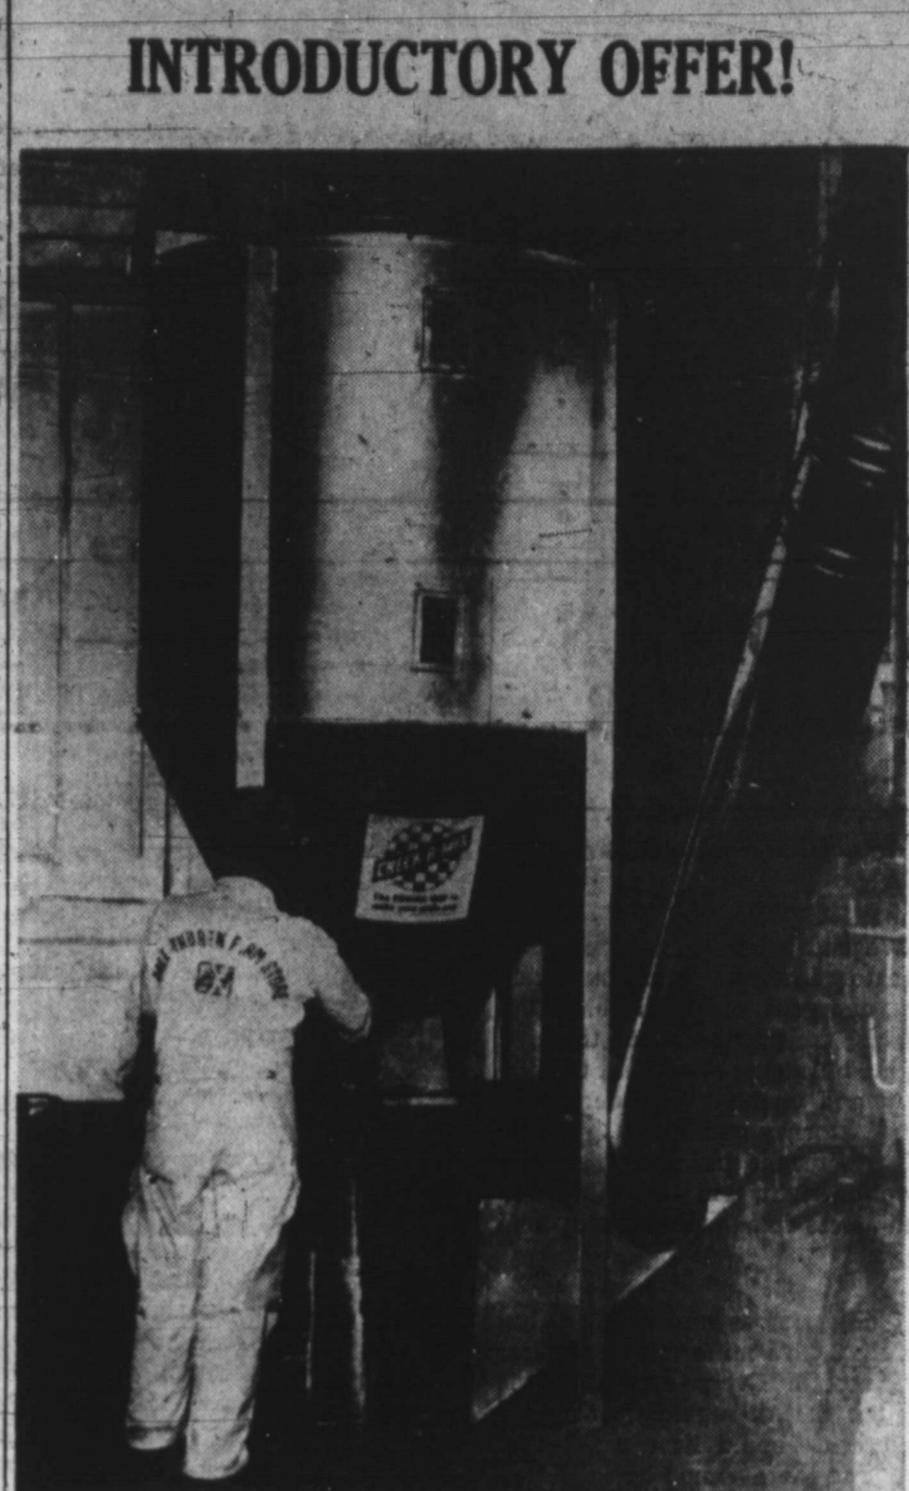

College Station, July—Time for providing storage space for your grain sorghum is rapidly growing short. If you do not have enough storage space and need financing for this, you will find loans available through the Commodity Credit Corporation, according to W. S. Allen, extension agricultural engineer.

These loans are available through local banks or directly from the CCC, says Allen. Owners-operators, share tenants, share landlords, and producer partners are all eligible. Applications can be made at the local Agricultural Stabilization and Conservation Committee office.

These loans can be paid off over a four-year period beginning on the first anniversary of the loan. Interest is at 4 percent per year. Storage structures built with these loans, however, must meet standards for storage under the CCC price-support program, points out Allen.

"Adequate storage space means getting a better price for your crops after the usual low harvest-time price levels have passed. If you could use more space, why not drop into your local ASC office

and discuss the possibilities," suggests details as they apply in your par- gerts Alley. "They can give you the ticular area."

# Odds and Ends

(By E. L. The Elder)

Last week I started in to show the readers of this Column what a great wealth of material I have on which to draw for the writing of this Column for years to come if the Lord lets me stay here long enough to do it—political, historical and literary material contained in a work of eleven volumes which my wife bought for five "bucks" from a retiring school superintendent in Temple more than fifty years ago. I commenced with the founding of Jamestown, Virginia, the first English colony founded in our country. The work included articles and stories of political events, poems, and contributions of various kinds written by most of the best authors our country had produced up to the year 1880 or 1885.

Virginia, that gave us a period of about 270 or 275 years to cover; if we begin with the landing of the Pilgrims at Plymouth Rock, we still have 260 years to cover; if we begin with the landing of that silly Spaniard, Ponce De Leon, at or near Bimini in Florida, in search of that fabled fountain of perpetual youth in April, 1513, we still would have about 260 years to cover. He found no Fountain of Youth but he found a lot of flowers, and since it was Easter Sunday, he wanted to honor the Lord in some way so he named the country in honor of the Heavenly Father who had himself created a Garden of Eden, fruits and flowers in the Long Ago. And so the land became known as Florida, the flowery kingdom. There have been times, however, when Florida did not seem to be very Edenic. Furthermore, she has no apples, but we surely do like her oranges and grape-fruit. Whenever we get to craving either of these palatable fruits, all we need to do is to say, "Eve" (Beg your pardon, I meant to say Eva) will promptly supply the fruit. So, we have fully 260 years in which to cover the period. But we still think that Ponce DeLeon was just an ignorant, superstitious, highly credulous but abnormally vain old Spaniard.

We actually began last week with Jamestown, the first permanent English colony established in America. For that reason and for a number of other cogent reasons Americans have ever since had an almost reverential regard for the little town. My wife and many thousands of other Americans have visited Jamestown in recent years. They can give us much about the location of Jamestown and vicini-

ty. But authentic history gives the facts respecting the establishment of the colony and the numerous lines of background that led up to it.

First, why was the town named Jamestown and why was the vast unexplored country surrounding it named Virginia?

The answer is that it was named Jamestown in honor of King James of England. The territory surrounding Jamestown which gradually developed into an English colony was named Virginia in honor of Queen Elizabeth—"Good Queen Bess" as she was called, because she was England's virgin queen. She had many suitors but she never married. She was an excellent woman politician and often inspired her suitors with hope, as some women do yet, not because she loved them but because she wished to use them for her own purposes. No wonder that they called her "Good Queen Bess," but the World Book tells us and authentic historians tell us that she was a high-tempered woman—who often fell into a rage and fairly castigated those men who had given her offense.

One of her masculine favorites was Sir Walter Raleigh, whom she highly regarded, no doubt, and before Jamestown was founded she sent him, or permitted him to make several expeditions to the New World with a view to planting a colony or colonies on its shores. But for some reason he never succeeded in doing so! In 1584, twenty-three years before Jamestown was founded, Queen Elizabeth had granted to Raleigh the territory on which to establish a colony. There is a well authenticated story that one colony was established before Jamestown but was never heard of again. In 1587, the story goes, Raleigh, who had become rich through the financial favors granted to him by "Good Queen Bess," sent to America a colony of 121 persons. The voyagers arrived in Virginia in due time, and on August 18, 1587, the first white child ever born in America was born to Ananias and Eleanor White Dare, and on August 20, she was christened Virginia Dare. Many legendary stories have been told respecting the final earthly destiny of the first white-born American babe but little is positively known. It is believed that she grew up among a tribe of Virginia or North Carolina Indians and like Cynthia Ann Parker of more recent times became virtually an Indian herself.

But who was King James, for whom the first English colony in America was named? In order to obviate any possible confusion, permit us to remind

Your Church of Christ is a friendly Church!

the readers of this Column that there were two kings of England who bore the name of James. James I and James II. It was James I who reigned at the time the King James version of the Bible was published. James II did not follow immediately after James I, but he was a Frenchman and a Roman Catholic and did not come on the throne as King of England until many years later.

James I was born in 1566 and died in 1625. The King James version of the Bible was published in 1611, as most of your Bibles will tell you.

Permit me to explain also that in 1611 there was no such thing as the separation of Church and State. In Catholic countries the Pope was not only the head of the Church but he was the Sovereign or Ruler of the state also. But England had rebelled against Catholicism and had established instead thereof the so-called Church of England; and the King of England was the head of the Church of England. Now I am go-

ing to quote from the World Book, a popular and reliable Encyclopedia used in schools and colleges in the United States. Now we quote:

"In 1603, on the death of Queen Elizabeth, last of the English House of Tudor, he (James I) was crowned King of England with the title James I. Scotland and England were thus united under one sovereign, though their political union was deferred until the accession of Queen Ann. James, like the other members of the Stuart family, believed firmly that kings ruled by 'divine right.' He quarreled with his Parliaments, whose determined opposition to his acts of tyranny had an important influence in preventing the decline of popular liberty in the kingdom. . . . (In 1605 a plot by Catholics to blow up the House of Parliament was discovered and thereupon its leaders were executed.) Two years later the first permanent English colony was established in America and named for the sovereign (James

settled in 1620 by a band of puritans who were driven out of England by the King's threat to 'harry out of the land' all who refused to conform to prescribed forms of worship.

Another act of cruelty and treachery was the execution of the loyal and faithful friend of the late Queen Elizabeth, Sir Walter Raleigh.

Now this is the King James who authorized the translation of the Bible into English by fifty-four eminent English scholars beginning in the year 1604. They worked at the task for seven years and completed and published the result of their labors in 1611. They had accomplished the greatest task of that kind, it is believed, in all history.

(town, 1607.) A second permanent colony was founded in Massachusetts. Baptists have been slower to accept revised versions of the King James Bible, apparently, than have the communicants of any other Christian denomination, yet there was not a single Baptist on the entire body of the King James translators; all of the 54 members of the Board were members of the Church of England.

On the other hand, an interdenomination board of Biblical scholars representing most of the leading

denominations of Christians in America finished a Revision of the entire Bible in 1902, which is undoubtedly the most nearly perfect Translation of the Scriptures ever published, and some people, including many Baptists, have bitterly denounced it and in some cases have burned it at the stake.

One of our greatest troubles in America is that too often we get excited and exorcise somebody who are more nearly right than ourselves.

Oh that we should some time learn to use some common sense.

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room THE UPPER ROOM, NASHVILLE, TENNESSEE

I have learned in whatever state I am; to be content (Philippians 4:11, RV.)

One of the rewards of a proper adjustment to life is the attainment of patience. One man who claimed this spiritual heritage for himself was the Apostle Paul, who suffered inner turmoil, frustration, fatigue, starvation, shipwreck, beatings (and imprisonment.)

Actually, what is patience? Is it not a word for complete trust in the goodness of God's will for our lives, whatever the circumstances in which we find ourselves?

**County May Raise 107,000 Bales**

The Lubbock Cotton Exchange and the Plains Cotton Growers have predicted that Lynn county will produce about 107,000 bales of cotton this year. However, this figure depends on the dry-land output, which can go either way depending upon the rains this month. This county has 25,000 acres of dryland acreage and 55,000 irrigated acres. With favorable conditions Lynn county might possibly produce much more cotton than estimated.

A total of 1,854,000 bales has been estimated for the Texas Plains, with a possible 100,000 additional bales if rainfall and the freezing season are favorable. Lubbock county is predicted to have the largest yielding crop of the Plains, 215,000 bales, with Hale county next at 170,000. This estimate is 200,000 bales higher than the first one for the 1956 crop, which produced the second largest in the history of the area 1,640,000 bales.

**Roy Botkin Raises Bumper Spud Crop**

Roy Botkin of Castro county, near Hereford, sent the News some Golden Spread potatoes that he has grown this year on his 500 acre irrigated farm. On the 20 acres of potatoes, Roy has produced the biggest yield per acre in the county this year. He raised 4,088 sacks of number one spuds, which average about four inches in diameter.

The only yield even coming close to his 204 sacks per acre is a farm yielding 190 sacks per acre. During his six years at Hereford, Roy has worked up his own brand of potatoes, "Golden Spread." He is now harvesting a big crop of carrots on 40 acres, which his father, V. L. Botkin, says promises to be another record breaker. Roy also has seven acres of parsley.

The rest of his farm is planted in 125 acres of cotton, which V. L. says is lapping in the middle, wheat and milo maize. Roy is a former Tahoka High School athlete. He married the former Miss Marjorie Lawrence and they have three children, Ronnie, 14 years old, Nelda Faye, 12, and Myrna Jean, 10.

Finis Botkin and family, another son of Mr. and Mrs. V. L. Botkin, also live at Hereford and is raising a fine crop. Louis and family live at Olton.

Let's face it — a truly clean, sparkling wash is not acquired by so-called "water saving" methods. The "hotter the water, the whiter the wash," with hot water plenty, are two rules-of-thumb that will do more to assure laundering success than any other single factor. And here's where a GAS water heater shines. Heats MORE water... FASTER... at LESS COST... than any other type of water heater. Any wonder, then, that Smart Moderns go GAS?

## Football Workouts Scheduled To Start August 26, Prospects Are Good

Football work-outs will begin here the morning of Aug. 26, according to Dean Wright, assistant football coach, and two work-outs will be held daily until the beginning of school. Bill Haralson is head football coach and is attending coaching school in Dallas this week.

Prospects are for a better team this year, Wright says. However several teams in the district will also be stronger and the final tabulation in the win and loss columns may not be changed a great deal.

The local Bulldogs will have 11 lettermen on the 1957 team, with only one being a two-year letterman, Karl Prohl. Seven of these will be senior students and four juniors. However, a fairly good crop of freshmen and sophomores will appear on the roster.

Returning senior lettermen include Prohl, quarterback; Richard Brooks, half back; Donald Williams, end; Jay Gurley, end; Virgil Hicks, tackle; Jerry Brown, end; James Adams, guard. Other letter-

men are Billy Tomlinson, half back; John Hegi, center; Jerry Adams, tackle; and Cecil Hammonds, center.

Squadmen returning from last year's team are seniors Gayton Tekell, halfback, and Steve Riddle, end; juniors, Robert Cloe, half back, Weldon Calloway, full back, Don Young, full back, David Bray, guard; sophomores, George Adams, quarter back, Jerry Bragg, half back, Kenneth Stice, full back, and Richard Stice, tackle; and seven freshmen.

The 1957 football schedule for District 2-AA follows:

- Sept. 6, Plains, there.
- Sept. 13, Denver City, here.
- Sept. 20, O'Donnell, here.
- Sept. 27, Seagraves, here.
- \*Oct. 4, Spur, here.
- \*Oct. 11, Floydada, there.
- Oct. 18, open.
- \*Oct. 25, Abertamy, here.
- \*Nov. 1, Slaton, there.
- \*Nov. 8, Post, here.

## Draw Team Still Leads Ball League

On Aug. 2 O'Donnell defeated Lewis Construction Co. 15 to 9 in a game that saw Shoemaker on the mound for the winners and Davis getting credit for the loss.

Lewis Construction forfeited to Draw on Aug. 5, but the second game saw Gail down O'Donnell 10 to 5. Huffaker hurled for the winners and Shoemaker was the losing pitcher.

Again on Aug. 6 Lewis forfeited a game to Gail, and in another Draw downed O'Donnell 14 to 2 with Gribble on the mound for the winners and Shoemaker getting credit for another loss.

## LITTLE AND PONY LEAGUE OFFICIALS EXTEND THANKS

Officials of Little League and Pony League are expressing their appreciation to every citizen of the county who made the season this summer a successful one.

C. W. Conway said that Little League especially would like to thank the towns who came to Tahoka for the play-offs and for their cooperation during the three-day tournament.

## Methodist Men Hear Howard Hollowell

About 165 men and women attended a barbecue supper on the lawn of the Calloway Huffakers when the Backsliders of the Methodist Men, losers in an attendance contest, entertained the Roughnecks.

Rev. Howard Hollowell, pastor of Laurel Heights Methodist Church in San Antonio, was the speaker and talked to the group on the difference in real and artificial faith. He said that church people sometimes put too much emphasis on religious customs rather than on religion itself.

Wynne Collier is president of Methodist Men and during the contest, the organization usually had an attendance of about 100 men from the local church and area.

## O'Donnell Church To Have Gospel Meeting

Owen Miller of Marshall, Texas will be the evangelist in a gospel meeting to be held at the O'Donnell Church of Christ beginning Aug. 19 and continuing through Aug. 25.

Services will be held daily at 8:00 p. m. according to Carl Cain, minister of the O'Donnell church. Miller is a graduate of Abilene Christian College and was formerly minister of the Seminoe Church of Christ.

Everyone in the area is invited to attend.

## Baptist Revival To Conclude Sunday

The revival services at the First Baptist Church will continue through Sunday night, with Rev. Homer Martinez the evangelist and "Tony" the singer leading the song services.

On Saturday night, Martinez will tell the story of his conversion at the age of five years old from the Catholic faith, how he taught a Sunday School class of the age of seven and began preaching when he was 11.

He will close the meeting Sunday night with what he calls his message service—"S.H.A.L." Charles Hines, who entered the Army on July 16, is now stationed in Fort Carson, Colorado. He is expected to be home on leave in September.

Robert Clements, and for every prayer uttered for my recovery. God is good and I know he hears and answers prayers. May he always be your friend and guide in your time of need.—Mrs. Gloria Ellen Crooks.

## Dog Winner . . .

Some local citizens have requested that we ask the owners of vacant lots in Tahoka to have them shredded. The City now has a machine that is available for a small fee, and is worth every cent it costs to do the job.

The Weimarner is a fairly rare breed in the U. S. The first one brought here in 1932. The breed was recognized by the American Kennel Club in 1943. They are very valuable animals in Germany although one is never sold. If they exchange owners, they are given away. However, the country only allows 1,000 to live there at one time. The most perfect species are chosen and the rest destroyed.

Bruno won his championship and confirmation at the age of 18 months. This is considered to be an unusually young age for a Weimarner to accomplish such high honors and the Stults are looking forward to his future with high expectations.

Bruno stands about 27 inches tall and weighs 85 pounds. He is very adept in the art of playing cowboy and Indians with three-year old Bruce and has become a beloved companion of the boy.

## New Home Plans Methodist Revival

The revival meeting for the New Home Methodist Church will begin this Sunday and continue through Aug. 18 with Rev. Allen Adams, pastor of the First Methodist Church in Lorraine, bringing the messages.

Rev. Allen is well known in the Northwest Texas Conference as a worker with youth. He and the pastor of the New Home church, Rev. Hugh Daniel, were college and seminary friends.

Song services will be led by Orville Ray Phifer, Jr. in the mornings and by Gene Roper in the evenings.

Morning services will be held at 7:00 a. m. and evening services at 8:00 p. m.

During the week's revival, the Methodist Youth Fellowship will also be observing Youth Fellowship Week from Aug. 12 through Aug. 16, when a guest speaker will meet with the young people at 6:30 p. m. each evening. Theme of youth week is "Improving Ourselves to be Better Christians."

Rev. H. C. Smith, former Methodist pastor here, was in Tahoka Friday and Saturday visiting friends on his way home from Ceta Camp. He is now district superintendent of the Big Spring District.

## CARD OF THANKS

I want to thank my friends for the lovely flowers, cards and visits while I was in the hospital and my neighbors for the food and visits since I came home. I also want to thank Dr. Prohl and the hospital staff for their kindness to me. May God bless each of you and keep you well.—Mrs. C. T. Tankersley.
