STANDING ON THE CORNER

With P. J.

One of the most difficult things to give away is kindness, for it is usually returned.—The Echo (prison paper), Huntsville, Texas.

We hear that amid squealing and squirming, Sunny Gibson and Vicky Hamilton dug their worms and prepared to join the fishermen at Lake Thomas last Sunday.

Johnny Reasonover said he remembered the days not so long ago when daughter Ann joined him on such excursions. He recalled the screams that accompanied bathing the hook, which he usually wound up doing himself. No sooner had he returned to his own line than more screams called for help to remove the haul. After hours of such "nerve-calming" relaxation, always came the timeless remark, "Why, Daddy, I've caught more fish than you have."

Ann has returned from a year at McMurry, but is taking off to join the staff at Cota Canyon camp any day.

Many of you will remember Willie Pearl Dockery, especially if you were in school here in the late 30's and early 40's. A wonderful teacher and person she was, so most of us were not surprised, but very pleased, to read in the Sunday Avalanche that she was married there the day before.

What did surprise us is the exciting career she has had since leaving Tahoka. After teaching in Andrews, she filled positions in Honolulu and Straubing, Germany before entering adult education work in Korea. She has just completed a year's work in Santa Monica, Calif. and will now live in Brentwood of the same state. Who said a school teacher's life necessarily has to be dull or limited?

Following a few hours of pleading from some of the parents of the town, Deane Wright has agreed to teach swimming to children who have completed their first year course. A series of 10 lessons, it will be more advanced than that offered beginners. He will accept the first 25 students who contact him at 50 cents per lesson, the same for beginners, and is payable in advance.

The beginners class and second-year class will begin on June 9 and those interested should contact him early.

Theo Campbell Is One of 25 Farmers Receiving Award

Theo Campbell has just received word that he has been named one of twenty-five Texas farmers and ranchers selected to receive an unusual reward in recognition of the excellent soil and water conservation work done on his land. This word has just come from W. C. Howard, president of the Association of Texas Soil Conservation Districts which is co-sponsoring this awards program with the Great Southwest Life Insurance Company of Dallas.

This unusual award will be a beautiful 18x24 inch oil colored and farm serial photograph of Mr. Campbell's farm.

This beautiful picture will be presented to Mr. Campbell after it has been exhibited at different farms and shows in the state, and after being displayed at the January Convention of Texas Soil Conservation District Supervisors at Abilene.

This is the second year of this awards program, and Mr. Campbell is to be congratulated for being selected as one of the award winners. Selection of the twenty-five outstanding conservationists was made from nominations submitted by the 173 Texas Soil Conservation Districts. From this list of nominations the twenty-five Directors of the Association of Texas Soil Conservation Districts then selected one farmer or rancher from his group of Districts to receive this award. Selections were based on the progress made in applying sound soil and water conservation program on their farm or ranch lands.

Mr. Campbell is a cooperator of the Lynn County Soil Conservation District, and will now live in Brentwood of the same state. Who said a school teacher's life necessarily has to be dull or limited?

Burglars Caught By Local Officers

Tracks made by a horse's hoofs led to the arrest last week of a man who has been charged with burglary of a farm home.

When Mr. and Mrs. Lewis Manly returned home Tuesday of last week from a visit to Abilene, they found someone had broken into their home a mile north and a mile west of Gordon. Entrance had been gained through a kitchen window, and missing were an electric steam iron, a 16 gauge shotgun and some shells, an electric razor, a ladies dress and a slip.

Sheriff Norvell Redwine and Police Chief Miller went to the place, found the horse tracks and followed them two miles west to another farm. There, they picked up a Negro farm hand for questioning. As a result, the merchandise was found, and a charge of burglary was filed against Fred Rogers. The latter was released on making bond for \$1,000.00.

A Mexican is also charged here with burglarly and is being held on failure to make \$1,000 bond on a charge of burglarizing the home of some people living on the Vernon Davis farm west of town and taking a radio, record player, and a zipper bag.

He is Ignacio Gonzales Romero, a "wetback" also wanted for crossing the border illegally, who was caught recently in Sidney, Montana.

Thursday night someone broke into the Ince Oil Co. station on the Lubbock highway and stole four used tires.

In Bible School the children had as much opportunity for teaching as they have in five months of Sunday School.

The attendance has been the largest in the history of the Church. The faculty, which consisted of fifty of the best trained workers, was very faithful, considering sickness, accidents of fractured ribs, vacation trips to Austin, Washington, D. C., Oklahoma, Brownwood, Lake Thomas and sickness such as measles, whooping cough, chicken pox, principal in the hospital.

Thrips Already In Young Crop

Most of the county's cotton is either up or coming up, farmers report, and the past few hot days have been conducive to rapid growth.

Much maize is yet to be planted, as most farmers will wait a few days before planting most of their grain.

Threatening clouds Tuesday night failed to bring heavy general rain and few crops were damaged. Heaviest fall was at Midway, where an inch fell, and Draw, where up to .5 of an inch was reported. In the Slaton area where a very heavy shower Tuesday afternoon, accompanied by hail did damage to a limited area. Some cotton at Midway may have to be replanted.

Rainfall in Tahoka Tuesday afternoon and night amounted to only .16 of an inch.

Some Damage In Tuesday Rain

Thrips are already being reported in older cotton, that is cotton in the three to four leaf stage, County Agent Bill Griffin reports.

In fact, one farmer found a heavy infestation and poisoned Monday. This was on old cotton planted early in May that was saved from replanting.

Poisoning is done with one pint of toxaphene to the acre. Griffin advises farmers to keep a close check on their cotton. The holes in leaves are from spring tails, which do not hurt cotton after it comes up. But, thrips in young, tender cotton gives the plant leaves the appearance of sand damage.

He says some adult fleahoppers were found during an inspection trip Monday.

Low Flyers Are Not From Local Airport

Seth Lewis states that some low-flying done in airplanes over Tahoka recently was not done by any of his pilots, nor was it done by any pilot from the local airport so far as he knows.

He says several people complained to him that some one flew too low over local churches one Sunday recently during services, and he wishes the public to know that none of his flyers were guilty of this poor judgment. He also had heard of an unknown flyer who has flown low over Tahoka, but no one so far as he knows has been able to secure the plane's number.

Local flyers have specific instructions not to fly low over town.

Polio Vaccine Costs Little, Saves Much

Polio time is here—and still there are a lot of susceptible people who have not been immunized.

In fact, there are 48 million people in the United States under 40 years of age, up to which age people are most subject to contracting the disease, who have not had the recommended Salk vaccine shots.

Forty percent of the children five and under have not been immunized.

Tahoka Rotary Club this week is helping H. B. McCord, Jr., county chairman of the National Foundation for Infantile Paralysis, in sending out publicity through leaflets and newspaper advertising more people under 40 to take these shots.

Worth of the three-shot series is indicated by the fact that polio occurrence has dropped to less

College Station, —Cows were standing knee deep in grass and starving to death" is an expression often used to describe many Texas pastures.

This "starvation" is due to the fact that the grass does not contain enough mineral for good growth because of low mineral soils, points out Bill Bennett, director of the Texas A&M College Soil Testing Laboratory.

Several minerals necessary for good growth are often deficient but the main ones are calcium, phosphorus and potassium, says Bennett.

Calcium can be applied in the form of limestone, he points out. Money spent for limestone is one of the best investments a livestock man can make if the soil is deficient in calcium, and it can be applied anytime during the year.

Phosphorus and potassium can be supplied in the form of chemical fertilizers, says Bennett.

Common grades, such as 5-10-5 or 10-20-10, can be used advantageously in supplying the phosphorus and potassium which is needed for good growth of high quality forage and for good livestock gains.

The quantity of lime and fertilizer needed to supply these necessary nutrients is variable, depending on the soil, notes Bennett. He suggests a soil test for determining this quantity. The spring pumping rush is over, and soil samples that are taken now can be processed in a very short time and returned in plenty of time for the limestone and fertilizer to be applied this spring to the advantage of the farmer.

SOIL TESTS IMPORTANT FOR PROPER GROWTH

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room

Therefore, my beloved brethren, be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labour is not in vain in the Lord.—(1. Corinthians 15:58.)

God's physical laws are unchangeable. If we plant good seeds in soil that is prepared for them and they are given the necessary moisture, the seeds will sprout. If we keep the weeds out, and the young plants continue to receive moisture and sunshine, in due time they will bear fruit.

God's spiritual laws are unchangeable. God uses us to plant His Word, the spiritual seed. By our Christian witness, we prepare the soil. We water it with Christian service and lend it the warmth of intercessory prayer. In due time it bears fruit in the lives that are won to Christ and His way of life.

If the spiritual seeds we plant are good and are tended well, God gives us the increase in the form ship.

PRAYER
Eternal God, knowing that our reward is sure when we serve Thee in sincerity and truth, we humbly seek to do Thy will. To this end, grant us courage and faithfulness this day. In Jesus' name we pray. Amen.

THOUGHT FOR THE DAY
I will sow good seeds that others may know Christ.—Edwin E. McDonald, Pharmacist (Colorado)

"I bought my first ELECTRIC RANGE in 1928—out of a mail order catalogue!"

says Mrs. E. B. McMahan
BOISE CITY, OKLAHOMA

★ Mrs. McMahan insisted on clean cooking 30 years ago when electric ranges were something of a novelty. Her first electric range was only 27 inches wide, "But," says Mrs. McMahan, "It was clean—and that's what I wanted most."

Today Mrs. McMahan has a modern double-oven electric range with automatic control on both ovens. She has push-buttons, too, and bakes pies, 3 at a time, to put in her electric home freezer. This grand lady, who has kept pace with the advances in electric cooking, says of her electric range, "Nothing goes wrong and the porcelain finish is so easy to keep clean." In addition to her range, Mrs. McMahan has every modern convenience in her kitchen and laundry—all completely electric.

Thank to your friendly electric dealer and don't have to buy an electric range from a catalog. See him, take an electric range demonstration and get a certificate good for two big lamps. Yes, Yellow bug lamps, which is ordinary sockets, almost made of the light bulb sockets, yet provide a soft, comfortable light for out-of-the-ordinary work.

O'Donnell Sailor In South Pacific

Western Pacific (FHTNC) — Francis E. Barnett, yeoman first class, USN, son of Mrs. Lola A. Barnett, O'Donnell, and husband of Mrs. Virginia E. Barnett of National City, Calif., is serving aboard the destroyer USS McDermut, operating with the U. S. Seventh Fleet in the Western Pacific.

Since leaving her homeport, San Diego, Calif., in March, the destroyer has visited Pearl Harbor, Hawaii; Pago Pago, Samoa; and Sydney, Australia.

The McDermut's cruise is expected to last for six months.

Mr. and Mrs. A. J. Jester and children visited in Tahoka last week-end with Mr. and Mrs. G. B. Tomlinson and family to attend the graduation exercises.

A lifetime can be spent in crossing the street!

Rev. George Young Wayland Graduate

Plainview, May 28.—Rev. George Young, Farwell, is among the 47 candidates for graduation at Wayland Baptist College exercises on June 2. Mr. Young is pastor of the Tahoka Baptist Mission in Tahoka.

Commencement ceremonies start June 1, with the baccalaureate services being held at 10:50 at First Baptist Church. Young and his family will be honored guests at 4 o'clock at the reception given by President and Mrs. A. Hope Owen at their home on the campus.

The following day members of the Class of 1958 will be special guests for the Association of Former Students chapel program and the luncheon at which they will be recognized as members of the Association. Graduation exercises will be held at 7:45 that evening with James C. Cantrell, Dallas, executive secretary of the Baptist Foundation of Texas, as Commencement speaker. Both he and Rev. W. Neil Record, Tullia will have honorary degrees conferred on them.

Son of Mr. and Mrs. E. H. Young, Farwell, Young is majoring in art and minoring in Bible. A ministerial student, he is pastor of the Baptist Mission in Tahoka.

Young, who recently was featured in an art exhibit at Wayland which displayed an accumulation of four years of art study, is among 47 students from eight states who will be graduated this spring from Wayland, a four year liberal arts college, located on the High Plains of West Texas.

C. T. Oliver and Mr. and Mrs. Charles Oliver and children visited in Mineral Wells Thursday and Friday with the former's daughter and Charles' sister, Mrs. Truman Balch, and family and the former's in-laws, the Verner Smiths. Principal reason of the visit was the fact that Tommy Brock, son of Mrs. Balch, was graduating from grade school. Also, Mrs. C. T. Oliver was there visiting, but she will remain two more weeks to visit relatives in Cleburne and Fort Worth.

Gerald Bradley of Post, a junior, is the new president of the chapter.

Bible Topics

By Leroy Cowan

ONE LORD . . . "There is one body, and one Spirit, even as ye are called in one hope of your calling, one Lord . . ." Eph. 4: 4-6. The one Lord is in reference to Jesus Christ. The Spirit and God the father are also mentioned in passage, thus "one Lord" is referring to Jesus, one of the three persons of the Godhead. Jesus is the Christ or Anointed one. Peter, by the Holy Spirit, declared Jesus to be both Lord and Christ. Acts. 2. The word, Lord, means a ruling one; one in authority. After the resurrection Jesus said, "All power (authority) is given unto me in heaven and in earth." Matt. 28:18. The Father "hath put all things under his feet, and gave him to be head over all things to the church which is his body." Eph. 1:22-23. Peter tells us of "Angels and authorities and powers being made subject to him." 1 Pet. 3:22. God hath "highly exalted him and given him a name which is above every name. Phil. 2:9 Christ in lord of all with the exception of his Father, for he is expected who put all things under him.

Inasmuch as Christ is the one Lord . . . with all authority . . . it is manifest that no man or group of men have the right to make religious rules and creeds. To claim such authority is to deny that Jesus is the one Lord. The doctrines and commandments of men are vain and will be rooted up.

Safety is in the Lord. "Be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord."

Miss Agnes Kelsay of Paul's Valley, Oklahoma arrived in Tahoka Friday to spend the summer with her grandmother, Mrs. J. L. Tomlinson.

HAIL INSURANCE

Why did over 5000 farmers buy Panhandle Mutual Insurance in 1957?

They are the largest single insurer of cotton crop in Texas in 1956 and 1957.

Every policy written is reinsured with Lloyds of London for the farmers' protection.

No replant clause in policy. You do not have to wait until it is too late to plant to collect. Do not be misled about a full policy when cotton is up. With a Stock Company policy you have only 7 percent in-force until it is too late to mature a crop. Which is about June 15th. This is on a 10 percent deductible.

Panhandle Mutual is 30 years old this year and has a good reserve deposited in West Texas banks.

Judge Reed Is Rotary Speaker

Judge Louis B. Reed of Lamesa, district judge of the 100th judicial district, was the speaker at Tahoka Rotary Club Thursday noon of last week.

Judge Reed told many of the humorous incidents he has witnessed in the court room during many years of legal practice as a lawyer and during his service on the bench as a judge. Even in this locale, where there is far more tragedy, pathos, and heartbreak than humor, still there are many happenings which are downright humorous.

His talk was much enjoyed by his audience. Tom Gill arranged the program, and Truett Smith introduced the speaker.

Wynne Collier spoke briefly on the need for more polio immunizations, and the Rotary Club voted to sponsor a publicity drive in an effort to encourage wider use of the Salk polio vaccine in Lynn county.

Fraternity Honors Ann Reasonover

Miss Ann Reasonover, sophomore student at McMurry College, was announced winner of the annual election for "KIVA Sweetheart" at the annual spring banquet held in Sweetwater in May. She was presented a corsage and a sweater bearing the KIVA insignia.

KIVA is a social fraternity at McMurry College in Abilene. It was organized in 1939 to spread the Indian spirit of friendliness among students, to preserve Indian traditions on the campus, and to provide an opportunity for personal development, both socially and aesthetically.

Ann is a member of the Delta Beta Epsilon Social Club and has been elected its capitan for the ensuing year. She is a member of the Christian Service Volunteers. She has been elected cheerleader for 1958, and in addition to leading the cheering section at all college events, the cheerleaders are in charge of "Slime" activities during Freshman inductions.

Ann attends Elmwood West Methodist Church in Abilene and teaches a Sunday School Class of primary children. She is majoring in Elementary Education and is a graduate of Tahoka High School. She is the daughter of Mr. and Mrs. Johnnie Reasonover of Tahoka, he being local manager for Southwestern Public Service Company.

CARD OF THANKS
We would like to express our gratitude to all of those who helped in any way during the loss of our loved one, for all the food, flowers, to those who sat up, and the other things that lightened our grief. May God bless each of you.—The Cook Children.

Mr. and Mrs. Bill Haralson and boys left Wednesday for Burk Burnett to visit a few days with Mrs. Haralson's mother, Mrs. J. F. Kelly, who had undergone major surgery.

Commencement exercises for Southland High School were held in the auditorium of the school last Friday night. Supt. F. W. Callaway says in his 25 years of teaching this was the first time two students in the senior class tied in everything, and we had two valedictorians—Jerelyn Huddleston, daughter of Mr. and Mrs. J. H. Huddleston and Linda Ann Halliburton, daughter of Mr. and Mrs. R. L. Halliburton. Jerelyn and Linda and Chris Gindorf made speeches and R. L. Halliburton passed out diplomas. The class that graduated into Junior High also received diplomas Friday night. Carol Stolle was valedictorian and Brenda Dabbs was salutatorian for this class. Milton Gindorf gave the welcome address.

Saturday morning, May 24 at 5:00, thirteen members of the 1958 Class, two class sponsors, Mrs. Kenneth Davies and Mrs. Marcus Wilke and Supt. F. W. Callaway left on a chartered bus for a tour of Louisiana and South Texas. Mrs. Carl Wartes tells us she heard them recognized over radio from Shreveport and the class gave a "Texas Yell" for the listeners at 9:30 p. m. over the Louisiana Hayride.

The Vacation Bible School of the Methodist Church will begin June 2, at 3:30 in the afternoon with Mrs. Duane Hill as sponsor. There will be three classes, and all parents are urged to bring or send their children to the church Monday afternoon.

Miss Harriet Bean, a student in McMurry at Abilene, came home Saturday to spend the summer with her parents. The Rev. and Mrs. Bean will go to Lubbock Tuesday to attend the annual conference of the Northwest Texas Methodist Church.

Guests in the Roland Rhodes home this week are a son-in-law and daughter, Mr. and Mrs. Charles Honaker and children from Venezuela, South America. Honaker is connected with an oil company in that country and the family says they like living in South America. They flew to Florida where they

SIGHTS TO SEE IN TEXAS

There's plenty to see in Texas, wherever you may roam on a holiday jaunt or on a vacation trip. Clockwise from the lower left hand corner, some of the impressive sights to see in Texas are: The Big Bend, some of the most striking scenery in the state; Guadalupe Peak, highest point in Texas at 8,751 feet; the Palo Duro Canyon, camping grounds for Indian tribes in frontier days; East Texas oil fields,

biggest of them all; the 570-foot San Jacinto Monument, commemorating decisive battle of Texas history; Gulf Coast Beaches, some of the finest in the world; the Alamo, "Cradle of Texas Liberty," and in the center of the state, Texas Longhorn Cavern, biggest cave in the state and third largest in the world, one of Texas' most spectacular natural wonders. Sightseeing is fun in Texas.

Frances Shepherd Is Award Winner

Mrs. John (Frances) Shepherd, bookkeeper for Shipley Motor Co., has received the much-coveted Senior Accountant award for proficiency during 1957 from the Ford Motor Company, Dallas District.

The award is presented to only those dealer bookkeepers and accountants who qualify for the honor roll by meeting strenuous requirements in submitting monthly dealers financial statements and records to the company.

Only a few such dealer employees qualify each year for the high honor, which requires that not more than one error be made in the 12 monthly reports of the year.

Frances' achievement, Mrs. Fred Shipley told The News, is more remarkable when one considers the fact that she is now holding the first bookkeeping job she ever held and started to work here in October, 1956. In fact, Mrs. Shipley was about as proud of the honor as is Frances.

Mrs. Shepherd's husband is principal of Tahoka High School. They have a young daughter, Angela.

Jerry Cain, who has just finished his junior year at the State University, arrived home Saturday from Austin. He expects to attend Texas Tech this summer.

Large Crowd Attends Opening Of Pony, Little League Season Here

(By Larry Spruiell)

A large crowd was on hand Monday night at 7:00 for the formal opening of the Little and Pony League season at the improved ball field at City Park.

Actually, only one game was played, with the Wynne Collier Cubs defeating the Lynn County News Giants, Little League champions the past two years, by a score of 10 to 8.

But, all Lynn county players in both leagues were present the first night for the pre-game ceremonies, during which President C. W. Conway introduced all the players, managers, coaches, bat boys, and umpires. He also explained a number of playing and ground rules for the year.

Tuesday night, The Union Compress Cardinals defeated the Piggy Wiggly Yankees in the Little League. In Pony League play, Levi Ranch Cafe Indians of Post won over the Goodpasture Grain Braves of Tahoka 8 to 5. The game between the Co-op Gino Orioles and the Post White Sox, scheduled at Post was rained out.

Cubs 10, Giants 8

In the Cub-Giant game, Adolph Chapa was the winning pitcher and Dickey Davis was the losing pitcher. Terry Brown, who started for the Cubs, gave up eight hits and four runs before being relieved in the third by Chapa, who gave up two hits and four runs. Davis gave up only six hits as the opponents garnered 10 runs.

The game was called at the end of the fifth on the rule that no inning can be started in Little League after 9:30 p. m. In case of a tie at that time, the game must be finished at some other time.

Cards 4, Yankees 1

In the twilight of a double-header here Tuesday night, the Cards over-ran the Yankees by a score of 4 to 1 behind the pitching

of Terry Harvick. The Cards held the Yankees scoreless until the fifth. Losing pitcher Elton George gave up 10 hits but only one base on balls, while Harvick gave up only three hits and one base on balls. Fine hitting of the Cards gave the edge all the way, as they scored once in the first, once in the third, and twice in the sixth.

Indians 8, Braves 5

In the first Pony League game of the 1958 season, the Indians from Post edged out the Braves of Tahoka 8 to 5. The winning pitcher, Valdez, gave up only five hits and one base on balls, but Robert Hood slammed out two home runs for Tahoka. Curtis Harvick, the losing pitcher gave up six hits, one base on balls and four runs before being relieved by Hood with two outs in the third inning. Hood gave up three hits, four runs, and 13 bases on balls. The Indians scored two in the first, two in the third, and our in the fourth, while the Braves scored two in the first and three in the sixth.

Field Improved

A number of improvements have been made in the ball park this year. Bleachers have been added on the north, east of the press box. The fence and advertisements have been repainted. A new scoreboard has been erected by Tahoka Lions Club. Maurice Huffaker last year built new bat racks, which are now in use.

Also, restroom facilities have been provided in nearby City Park.

Last year, lights were added to the field. These have been paid for. This year, in addition to paying for balls and bats and electricity, the collection taken in by passing the hat at games will be used to pay for the bleachers. When the hat was passed Monday night, \$25.00 was donated by fans, the largest hat collection that has ever been realized from a single game.

How to Keep a Free Press FREE

SELDOM does Freedom of the Press disappear in one annihilating blow.

In countries where the Press has been chained, there was first a period when it failed to realize and resist the beginnings of its end - the first encroachments on its freedom. There were powerful interests which wanted certain facts "kept out of the newspapers." There was pressure here and pressure there to have the truth withheld.

Before the Press of any nation succumbs to tyranny, there always has been a period of failure to speak out.

Here in America there is only the limitation of national security - the necessity to protect and preserve confidential military and scientific information - which can be accepted by a Press that is determined to stay free.

America's newspapers have made, and will continue to make, a conscientious effort to protect that security - at the same time keeping the people informed as fully as possible on all matters concerning their welfare. So long as American newspapers pursue that policy fearlessly, our Press, our people and our country shall remain free of tyranny.

Dock L. Redman Is Death Victim

Dock L. Redman, 55, formerly of Tahoka, died in Fort Worth Tuesday afternoon of last week of a heart attack, according to a newspaper clipping sent The News by Mr. and Mrs. Verner Smith of Mineral Wells.

Funeral services were Thursday at 2:00 p. m. in River Oaks Baptist Church, and "burial" was in White Chapel Memorial Gardens, Arlington.

Born at Cleburne, he had lived in Fort Worth 34 years, and was employed at Convoir in plant protection. His wife is the former Catherine Knoy, member of a pioneer Tahoka family, and he once led the singing at the First Baptist Church here while the Rev. B. N. Shepherd was pastor.

He is survived by his wife; four daughters, Mrs. Carolene Evans, Mrs. Alice Bryant, and Misses Melba and Patricia Redmond, all of Fort Worth; three brothers and two sisters.

Rearing pullets on a range requires constant and unceasing watchfulness and close adherence to a few points of good management, says Bill Cawley of the Poultry Science Department, Texas A&M College.

"SMALL BUSINESS"

According to reports, percentage-wise, the business slump has hit Canada to a greater degree than the U. S.

This is perhaps natural in view of the fact that so much of the goods sold to the U. S. by Canada have been sold at a price fixed by a Canadian monopoly. A case in point is the fantastic prices U. S. newspaper publishers must pay for newsprint. As bulk of this paper comes from C. W. Harder Canada, Canada fixes price.

And even though there are complaints across the border of slow business, it is significant no attempt has so far been made to perk up sales through the medium of lower prices.

Thus, it is of great interest to everyone, as everyone is vitally affected by newspapers, that Sen. William Proxmire, Wisconsin, has introduced a bill in Congress to give the Small Business Administration sufficient funds to set up a pilot test plant on making newsprint out of low grade hardwood from the states of Wisconsin, Minnesota and Michigan.

Sen. Proxmire pointed out that in his state alone, almost half of the land, or somewhere over 13 million acres is covered with hardwoods with no other commercial value. The Forest Service has found that this low grade material makes good newsprint.

He also points out that besides building a worthwhile industry and source of employment in these states, success of such a measure would be a most valuable contribution to the National Federation of Independent Business.

able step toward the preservation of American liberty.

The Senator says, "It would relieve publishers from recurring newsprint shortages. When supplies of newsprint become short and prices rise, it is the smaller weekly and daily publications that are squeezed hardest. They often operate on extremely narrow margins under the best of circumstances: uncertain supplies and undependable prices for their most essential raw material imposes a dangerous threat to the very survival of this extremely important sector of our free press."

It is not the intent of his bill to put the government into the paper business. Rather, it is merely that government set up and operate for a limited time a pilot test plant to prove that not only can newsprint be made from this low grade hardwood, but that such an operation is practical. Private enterprise would then enter into this industry.

Success of such a project would probably open the doors to entirely new competitive forces in the vital newsprint industry. At present, some of the giants of the industry, doing business as American firms, are heavily involved in Canadian operations and thus are presumably involved in Canadian monopoly.

About two years ago the Senate Small Business Committee made a very searching inquiry into the newsprint situation and concluded until smaller independent press is relieved of reliance on imported newsprint, traditional American system of a free press would always be in danger.

In addition, the study pointed out, in practically every instance, the hometown newspaper furnished the only economical and practical advertising medium for independent business.

Everyday Religion

By J. B. Thompson

Near a small railway station in the mountains of Switzerland stands the statue of an early Alpine guide. His face is turned toward the lofty Alps and his back is ever to the crowds that gather there. He seems to have no interest in the valleys below. His gaze is fixed on the snow capped peaks above.

Mountains have always challenged and inspired mankind. "I will lift up mine eyes unto the hills from whence cometh my help," said the sweet singer of long ago. "We grow taller when we look up to the summit of some lofty mountain peak. God has always seemed a little nearer in the hearts of the mountains. He reveals himself to us in a special way up there in the high places.

The writer was playing golf on a rugged and interesting course in the foothills of the plains country once. Number two green was obscured from the tee box by a sharp hill. "Where do we go?" I asked my partner who had played the course many times before. He pointed toward the path running up the side of a mountain several miles away, saying, "Drive toward the path on the slope of that mountain yonder and you will come out alright." I could not get away from the wonderful suggestiveness of his casual advice. When we aim toward the mountain paths life always comes out alright.

Many of us will probably spend some time in the mountains this summer. We will not only enjoy the cool atmosphere and the fresh fragrance of the pines, but we

should grow taller in soul as we feel the uplift of God's mountains. Check your walking habits and take steps to keep living! Drive right so more people will be left! Safety is everybody's right and everybody's duty.

Being a doting relative, Happy gave him the reins, but as soon as the lad faced difficulties, turned his head around and said in a most adult way, "Help me, Happy. Don't you know I'm just a little feller!"

Besides offering a helping hand, the Salvation Army offers services in countless ways. This week there are six Lynn county boys attending camp at the Salvation Army camp for boys near Dallas. Four of these from the Tahoka unit and two sponsored by the O'Donnell unit.

Enjoying a week of swimming, handwork, hiking, and the other things that go with a successful boy's camp are Jerry Wayne Scott of near Wilson, Adolphus Lewis of route 4, James Stanley and Emory Stokes Jr., both of Tahoka, all sponsored by the local unit. The O'Donnell boys' names were not available.

The youngest in the family came home from Sunday School the other day beaming with new-found knowledge. "I found out who the first two people were," she announced, "but I can't remember if it was Odd and Even or Even and Odd."—Texas Outlook.

A Boy's Message to His Dad: His little arms crept round my neck

And then I heard him say
 Four simple words I shan't forget—

Four words that made me pray—
 They turned a mirror on my soul,

On secrets no one knew.
 They startled me, I hear them yet;

He said, "I'll be like you."

How Valuable

... IS LOCAL NEWSPAPER ADVERTISING TO LOCAL BUSINESS PEOPLE.

Here's What The Banker's American Magazine, a publication which represents a traditionally hard-headed profession has to say.

"No business man or woman in any town should allow a newspaper to go to press without his or her name and business mentioned somewhere in its columns.

"A stranger picking up a newspaper should be able to tell what business is represented in a town... it's the best possible town advertiser. The man or woman who does not advertise does an injustice to himself or herself and definitely to the town.
