## City Calls Election On Bond Proposal

A \$50,000 bond election has been called by the City of Tahoka for the purpose of providing funds for the proposed four lane US 87 expressway through the city and for possible further paving of city streets. Date for the election has been set for August 9 in the City Hall.

The action was taken at a special meeting of the City Council last Friday.

If voted, the bonds would mature serially over a period of years not to exceed 20 years.

The action was taken by the Council as a result of demands from the State and Federal governments and Lynn county, all participants in the securing of right-of-way for the new road.

Texas Highway Department has proposed to build the road through the city of Tahoka, leaving the present highway at a point one mile south of the square at the I. M. Draper place and veering east and proceeding north along Doak (G) Street, a block and a half east of the square, northward to the outskirts of town, then veering west to the present highway in the vicinity of the drive-in theatre.

Most of this route will require 280 feet right-of-way for the four lane road and the additional two lane access roads on either side.

Highway Department officials have told The News plans are to build a modified cloverleaf overpass at the intersection of US 87 and US 380, with the through traffic on 87 going over 380. Ultimately, there would be a similar overpass at the south edge of town, another at the north edge of town, and still another at the intersection with the Wilson road.

The State of Texas, with aid from Federal funds, will build the highway, and will also furnish half of the right-of-way expense. The county and city furnish the other half jointly inside the city limits.

Mayor H. B. McCord Sr. does not believe the entire \$50,000 would be needed for right-of-way purchases, but proposes that whatever is left may be used in a new city paving program. However, this would possibly be left up to future City Councils.

County Judge W. M. Mathis says all the right-of-way easements have been settled from a point two miles south of Tahoka to the Dawson county line at O'Donnell, except for two small tracts which may require filing of condemnation proceedings.

One of these tracts is about one-third acre on the west side of O'Donnell owned by a Mr. Nowlin of North Carolina. The other involves a one-fourth interest in some of the Beard land south of Tahoka held by a lady living in Germany.

Texas Highway Department had once considered building the US87 road to the west of Tahoka, but found the proposed route cut across the middle of two irrigated farms and the corner of a third irrigated farm, as well as two or three dryland farms.

The Texas Highway Commissioners Also, Chairman Marshall Formby of the Texas Highway Commission favors keeping these new highways as close to the center of the small cities they pass as possible.

Curry said maximum size pumps will not be placed on the wells. He said Water Supt. Pat Hines expects to pump them this winter and give the wells north of town in the city water field a rest.

He received severe lacerations of the nose and lip, and 30 stitches were required to close the wounds. After receiving treatment at a Sundown Clinic, he was transferred to Methodist Hospital in Lubbock.

Garland Pennington, manager of Lyntegar, for whom Ingle works, said Ingle was atop the 35-foot pole and had taken the service wire loose. Strain on the pole from the other line caused the pole to break just below the ground, where there was an undetectable weak spot. The young man jumped free of the falling pole, but landed on his face, causing the injury.

## Interest Grow In Saturday's Democratic Primary Election

### Postal Rates Go Up On August 1

For the second time in a quarter century, the cost of mailing a letter has been increased.

Effective August 1, regular letters and first class mail postage will be increased from three cents to four cents for the first ounce or fraction thereof.

The postal rate was boosted on July 1, 1953, making the letter rate rise from two cents to the current three cent price.

Other types of mail will cost more also after August 1. Postmaster W. E. (Happy) Smith warns.

Postal cards, for instance, will cost three cents instead of two, and this same rate applies to letters mailed for local delivery.

First class airmail postal cards will go from four to five cents, and airmail letters, will cost seven cents for the first ounce or fraction thereof, as opposed to the current rate of six cents.

Although new denominations of postage stamps are being issued to meet the increased rate, Postmaster Smith points out that new stamps will not be necessary after August 1, just so long as the correct amount of postage is affixed to your letter, card, or package.

Therefore, don't throw away all your two cent postal cards, and three cent stamps. Just buy some ones and stick them on. They'll do.

Merchants mailing out their statements the end of the month may save a penny an envelope by mailing them before July 31.

### Saturday is election day!

Local interest in the race for United States Senator, the County Clerk's and two Commissioners' races may yet bring out a pretty fair vote, local observers believe. However, many potential voters failed to pay their poll taxes in January and will, therefore, not have a vote.

During the past week interest has picked up in the race between Senator Ralph Yarborough, serving an unexpired term by reason of his election in a special election, and William A. Blakley, a newcomer to the Texas political ranks who served a four-month interim term in the office.

Other important races to be decided at the polls include:

Governor: Price Daniel, seeking a second term, but opposed by Henry B. Gonzalez of San Antonio and now a State Senator; former Governor and Senator W. Lee O'Daniel of Dallas; and Joe A. Irwin, retired Dallas real estate man.

Lieutenant Governor: Ben Ramsey of San Augustine county, present incumbent, and George Nokes of McLennan county a lawyer and state senator.

Associate Justice of Supreme Court, Place 1: J. Edwin Smith of Harris county, Robert W. Hamilton of Midland, and Wilmer B. Hunt of Harris county.

Associate Justice of Supreme Court, Place 4 (unexpired term): Joe Greenhill of Travis county, the present incumbent, and Sarah T. Hughes of Dallas county.

Commissioner of General Land Office: Incumbent Bill Allcorn of Brown county, opposed by L. J. (Lil) Dimmitt of Dallas county.

Commissioner of Agriculture: John C. White of Wichita county, the present incumbent, is opposed by Tom Griffin of Bastrop county and Glenn H. Kothman of Bexar. For State Representative, 99th Legislative District, Wesley Roberts of Lamesa, the present representative, is opposed by Charles T. McReynolds of Andrews.

For County Clerk, the candidates are E. A. Howle, C. W. Roberts, and Mrs. Wade (Dude) Holland.

For County Commissioner of Precinct 2, Woodrow (Ode) Brewer, seeking a second term, is opposed by O. J. Stanley, well-known farmer.

In Precinct 4, E. H. West, the present commissioner, is opposed by L. K. (Heavy) Nelson, also a long-time citizen of the county.

For Justice of the Peace of Precinct 4 (O'Donnell), Horace Brunette, present incumbent, is opposed by J. F. White, St.

All other candidates are unopposed.

What the Lord does for us depends upon what we do with Him and for Him. We can determine what our life will be after death by the way we spend our days before death.

Too many have improved cars, improved homes and the like, but have neglected to improve themselves because they have not chosen the things from above.

DOCUMENTARY PROOF

Big Unions Give Generous Funds To Yarborough!

By SAM WOOD Capitol Correspondent

WASHINGTON—Ralph W. Yarborough's 1957 election to the United States Senate was financed in part by money from six of the most powerful labor unions/organizations in America.

Affidavits on file here with the clerk of the US House of Representatives, in compliance with the federal corrupt practices act, show that Yarborough's campaign in the special race for the US Senate last spring drew \$28,143 from labor groups headquartered in Detroit, New York, Cleveland, Washington and Pittsburgh.

The federal records are the first documentary proof of a charge hurled at Yarborough in past and present state-wide political races that he had the financial backing of the nation's biggest labor bosses.

The US House clerk's records show that big labor's help to Yarborough is part of a nationwide pattern of labor contributions to selected candidates. Among those listed in the 1957 expenditures reports from major labor organizations are Senator William Proxmire of Wisconsin and Senator Wayne Morse of Oregon. The latter received big labor help on a "Morse deficit fund" apparently from a previous campaign.

The big labor money sent to Texas was in addition to the contributions which Ralph Yarborough reported receiving from Texas supporters. Yarborough's own expense report is on file with the secretary of the US Senate. It shows \$56,312 contributed to him and \$54,328.32 expended by him in the period Oct. 3, 1956 through April 13, 1957. The election was on April 2, 1957.

The \$28,143, sent to Texas last spring in amounts ranging up to \$5,000, did not go to Yarborough personally, according to the sworn statements on file in the House clerk's office here. The money, earmarked for Yarborough's campaign, was sent to Texas labor leaders and to one liberal Demo-

crat group in Harris County (Houston).

Texas law does not require any reporting or accounting by recipients of such funds and there is no public record in Austin to show what the Texas labor leaders did with the \$28,143 sent to them by the United Auto Workers, United Steel Workers of America, the AFL-CIO Committee on Political Education, the Railway Labor's Political League, Amalgamated Political Education Committee, and the Textile Workers Union of America, designated for Yarborough's Senate campaign.

The Texans who received the national labor money for the Yarborough campaign are well-known in Lone Star state political circles. They are officials of the splinter Democrat group wearing the label "Democrats of Texas," which is admittedly driving for control of the Democratic Party in the state.

Coincidentally, the Congressional Record on June 16 carried a discussion of how organized labor operates in the political arena supporting candidates and taking over when possible the state party machinery.

The Congressional Record discussion showed a plain parallel between activities of the DOT in Texas and a similar labor group in Michigan, both designed to capture Democratic Party control in the respective states.

Yarborough's opponents, past and present, have often charged him with accepting important financial support from national labor leaders.

Allan Shivers defeated Yarborough for governor twice and Price Daniel nosed him out for the same office in 1956.

In each race, the pro-big-labor tag was hung on Yarborough but without documented proof.

Former Senator William Blakely, campaigning against Yarborough this summer, has made the same charge.

The documentation, direct from the office of the clerk of the US House of Representatives, shows: UAW-CIO (Walter Reuther,

President) Political Action Committee, 8000 East Jefferson Ave., Detroit, Michigan, on March 8, 1957, to "Yarborough Senatorial Campaign," recipient not recorded, \$5,000. (On the same series of reports UAW-CIO noted contributions of \$5,000 to a Senator Wayne Morse "deficit fund" and \$2,000 to the "Wisconsin Proxmire for Senate" campaign.)

Committee on Political Education (AFL-CIO) 816 16th St. N.W., Washington, D.C., two \$5,000 contributions, both made on March 6, 1957, to "Texas AFL-CIO Joint Committee, Texas R. Yarborough," a total of \$10,000. The report was signed by James L. McDevitt, co-director and notarized by Robert J. McKenna, notary public, District of Columbia.

Feb. 28, 1957; Railway Labor's Political League, Washington, D.C. to Robert Bryant, 100 West 15th St., Austin, Texas, \$2,000 contributed for "General activity." (All political contributions of Railway Labor's Political League appear on the reports as for "general activity." The same designation is used in contributions of the organization to the "Morse Deficit" fund and to the Proxmire for Senate campaign in Wisconsin.)

March 14, 1957; Railway Labor's Political League, Washington, D.C., to Robert Bryant, 100 West 15th Street, Austin, Texas, \$2,000 contributed for "General Activity." Railway Labor's Political League reports were signed by C. T. Anderson, Secretary-Treasurer, before notary public Margaret E. Murphy.

March 15, 1957; United Steel Workers, 1500 Commonwealth Building, Pittsburgh 22, Pennsylvania, \$5,000 to Harris County Democrats. The report did not show the name of the individual receiving the money for the "Harris County Democrats." The report was signed by I. W. Abel, Secretary-Treasurer, before notary public Edward G. Nassar, Allegheny County, Pennsylvania.

March 5, 1957; Amalgamated Political Education Committee, 16 Union Square, New York 3, N.Y., to Fred Schmidt, Secretary, 1011 San Jacinto (spelling not corrected) Austin, Texas, as "Campaign Contribution, Ralph Yarborough for US Senate," \$1,000. The report was signed by Frank Rosenblum, Treasurer, before notary Valentin J. T. Wertheimer, New York.

March 19, 1957; Textile Workers Union of America, New York, to Texas State Industrial Council, 310 East 14th Street, Austin, Texas, Contributed to Senatorial Campaign in Texas for Ralph Yarborough," \$1,000.00. Report signed by John Chupka, Secretary-Treasurer, notarized by Wilbur R. Samuels, notary public.

Records of the Trainmen's Political League of Cleveland, Ohio, dated February 18, 1957, show a notation: "\$250 to W. F. Kennedy, 1370 Ontario Street, Cleveland (official address of the organization) as reimbursement for donation in behalf of Judge Ralph Yarborough, Austin, Texas, candidate for US Senate." The report was signed by W. K. Sullivan, Secretary-Treasurer, and notarized by Roy H. Neville, notary public.

C. T. ANDERSON

Railway Labor's Political League secretary-treasurer, C. T. Anderson, in a sworn statement to Congress, listed two contributions of \$2,000 each to Robert Bryant of Austin, who is on the railway legislative board, "for general activity" in Texas.

I. W. ABEL

United Steel Workers secretary-treasurer, I. W. Abel, acknowledged a contribution of \$5,000 to the Harris County Democrats. The liberal organization in Houston backed Yarborough in his special campaign that sent him to the U. S. Senate.

COPE. Holleman too is an executive of DOT.

Mrs. R. D. Randolph of Houston, national committeewoman, is chairman of DOT, and is nominal leader of the Harris County Democrats who have the strongest liberal organization in Texas. It was to the Harris County Democrats that the steel workers directed their contribution. (Mrs. Randolph's name is not mentioned in any of the campaign reports.)

Only Texas organization that filed a report in Congress under the Federal Corrupt Practices Act, was the Yarborough committee of Dallas. This group filed a complete list of contributions and expenses.

Among expenditures of the Dallas committee was \$1,000 from a Yarborough appreciation dinner, contributed to the Yarborough campaign headquarters in Austin on March 8, 1957. This \$1,000 contribution is duly recorded as received March 9, 1957, by Yarborough in his personal campaign report of special election contributions and expenses.

Six contributions of more than \$1,000 appear on Yarborough's senate campaign report. These were \$2,500 and \$2,000 from the Central Texas Yarborough Club; \$2,500 from Gulf Coast Texans for Yarborough; \$2,500 from Mirron Love, address not given; \$1,500 from H. J. Yarborough, Dallas, and \$1,500 from Marvin Easter, Houston.

Sixteen contributions of \$1,000 each, all by individuals, appear on the Yarborough list of campaign contributions.

In the Congressional Record (Senate) of June 16, 1958, a report of political action group expenditures during 1956 is submitted by Senator Goldwater, Republican of Arizona, during debate on the labor bill.

political education, Washington, D.C., to Texas State Industrial Council "R. Yarborough" \$663.

June 18, 1957; Texas COPE "deficit of expenses" by committee on political education, Washington, D.C., \$1,230.06. (Other refunds by COPE to Texas COPE totalling \$3,986.46 are not counted in the total of funds clearly earmarked for the Yarborough special Senate election campaign.)

Sworn reports of the national labor organizations on file in the clerk's office of the House of Representatives show numerous contributions in other sections of the nation for political campaigns, including members of legislatures, and in some instances candidates for city offices. Large contributions were made to the "Wayne Morse deficit" and to "Proxmire (Wisconsin) senator" fund.

An accounting of COPE political contributions for the year 1956, preceding the 1957 special Senate election in Texas, shows the Texas AFL-CIO joint committee received \$10,000 earmarked for "congressional campaigns." Of 339 separate listings of political contributions by COPE in 1956, except for one donation, the \$10,000 fund sent to Texas AFL-CIO joint committee was the largest. One other \$10,000 contribution that year went to Michigan political action committee.

Labor funds sent to Texas for use in the 1957 special Senate election in behalf of Yarborough, as shown by the sworn reports, were directed to principal leaders of the splinter "Democrats of Texas" organization.

Bryant, who received the money from the railroad labor's league, is legislative representative in Austin of the railroad firemen and engineers, and is a member of the executive committee of DOT.

whenever practicable the party machinery."

A long discussion in the Congressional Record includes an analysis of Michigan PAC activity. (As noted earlier in this article, Michigan PAC and Texas AFL-CIO joint committee each received \$10,000 in 1956 from COPE, the two largest single political contributions from national COPE to local groups.)

The Michigan PAC analysis is from an article written by Miss Fay Calkins of the University of Chicago on a research project on the political activities of labor organizations.

She said "in Michigan PAC formed a liberal coalition with the Michigan Democratic Club, reform Democrats, A.F. and L., and a few patronage interest groups.

By entering precinct captains in the primaries, especially in Wayne County, the coalition was able to control a number of district Democratic conventions and send a majority of delegates to the state convention.

From this position the liberal coalition was able to determine the composition of the Democratic state executive committee, PAC was the strongest single interest group in the coalition.

The contributions from national labor organizations to state labor leaders in Texas for political activity, and the coalition between the "Democrats of Texas" liberal group headed by Mrs. Randolph, follows exactly the Michigan pattern.

Texas labor leaders, Holleman, Schmidt and Bryant, to whom the contributions for political activity were sent, hold executive positions with DOT. They represent the strongest single interest group in the DOT coalition.

In Texas, Harris County and its strong liberal organization, is the counterpart of the key Wayne County organization in Michigan.

In Texas, as in Michigan, the avowed purpose of DOT is the same — to capture the precinct

conventions and control the State Democratic Executive Committee.

Second quarter (1958 reports) of the national labor organizations, when they are filed with Congress in compliance with the Federal Corrupt Practices Act, will reflect their contributions, if any, to current political campaigns and political activity in Texas.

Quoted from the Congressional Record, Senate, June 16, 1958, Page 10214:

"COPE—While it is by far the most highly organized and most richly endowed political machine controlled exclusively by the labor bosses—is not the only political action group of organized labor. Actually, there are some 40 separate outfits which, under federal law, have reported spending millions of dollars for direct political action."

"Besides COPE some of the larger ones are: United Auto Workers PAC, International Ladies Garment Workers Campaign Committee, Machinists Non-Partisan Political League, Amalgamated Clothing Workers PAC, Railway Labor's Political League and Trainmen's Political Education League, United Steel Worker PAC.

Six of the above were sources of what appears to be a separate fund sent into Texas to back Ralph Yarborough's special Senate campaign in April 1957—The national labor contribution for that campaign, as shown by their sworn reports to Congress, totalling approximately one half of the amount of contributions from individual Texas backers of the candidate, as shown by his personal campaign contribution list.

National labor organizations backed Yarborough with \$28,143 clearly earmarked, plus other funds which could have been used in the campaign. For these there is not public accounting at state level.

Texas individual supporters of Yarborough contributed in his behalf a total of \$56,312.58.

EMIL MAZEY

UAW International's secretary treasurer, Emil Mazey, a star witness before the McClellan subcommittee labor hearings, certified that UAW-CIO Political Action Committee contributed \$5,000 to the "Yarborough Senatorial race" in the special election.

JAMES L. McDEVITT

A co-director of Committee on Political Education (AFL-CIO), James L. McDevitt, certified two contributions of \$5,000 each were forwarded to Texas AFL-CIO for "R. Yarborough" campaign. Another \$663 was sent to the Texas Industrial Council.

Railway Labor's Political League secretary-treasurer, C. T. Anderson, in a sworn statement to Congress, listed two contributions of \$2,000 each to Robert Bryant of Austin, who is on the railway legislative board, "for general activity" in Texas.

Texas like a public official who is independent in his thinking and doesn't have to account for his actions to anyone except the voters themselves.

William A. Blakley is such a man. Of his race for U. S. Senate, the *Fort Arthur News* says: "He entered this race by his own decision. He is beholden to nobody. He doesn't have to promise special interest groups anything and he wants to represent all of Texas, not any political splinter or fragment or faction above the rest."

A vote for Bill Blakley on July 26 is a vote for returning to Washington a man who will truly represent Texas.

of trout three or four times. One of the largest hatcheries in New Mexico is at Parkview, which is supplied by springs from the mountains. Trout are hatched for the rivers in the Chama area, and there have been plenty of fish in the streams and lakes since March.

To date this season, they have planted 26,000 pounds of fish and plan to plant about one-fourth that many more this season if the river does not run too low. If the river gets real low, there will not be enough oxygen and there will be a slow-down of planting. The Parkview hatchery will hatch about one and a half million trout this season.

The Red River hatchery, the largest in the state, will hatch about five and a half million trout this season.

Some of the lakes that have good fish are as much as 10,000 feet elevation.

Cumbres Pass Lake on the continental divide is 10,022, 17 miles from Chama, has no fish and is said to be "bottomless" but has rare and beautiful lilies that grow on its edges. There is still snow on Chama Peak.

Non-residents pay \$8.00 for fishing for the season, but it seems to be worth it when one can catch the limit of 12 a day for a few days during the season.

This season has been mostly dry since the snow melted. Grass is good and all kinds of livestock are fat. There seems to be plenty of deer. They range around our place. There are also some bear and elk.

### Everyday Religion

By J. E. Thompson

Bill, Cliff and Carol Thomas brought back a bulletin from the church in Hollywood, where they attended services while on their vacation trip, which contained this suggestive sentence: "About the best way to multiply happiness is to divide it."

There is nothing sloppy or sentimental or silly about the old idea of sharing happiness. The world needs this divine multiplication that comes by division. You may know a lovely couplet from Browning:

"God uses us to help each other so, Lending out our minds."

He also uses us to help each other by "lending out" our hearts in unselfish love. When von Hugel, the great philosopher, mystic and saint, was dying, his niece bent over her uncle because she could see his lips moving and could not catch what he said. She put her ear close to his lips and heard him whisper, "Caring is everything; nothing matters but caring."

Dr. Leslie Weatherhead suggests that the everyday phrase, "I couldn't care less," is a selfish luxury that needs to be changed to "I couldn't care more," as we learn to share our life and our love.

This divine division of happiness can begin in the home and radiate out and until the whole world is touched by a multiplied happiness. But it also multiplies within the heart of those who share their lives. They who give most have most to give.

"The ELECTRIC home freezer is a necessity, not a luxury for us!"

says MRS. R. L. HENRY, 255 NORTH 17TH ST. SLATON, TEXAS

"There are 5 in our family," says Mrs. Henry, "and they come and go, so you can see that our frozen foods are necessary to make quick meals. We bought our freezer to save work and to save money. We've had it now for over a year and a half. The freezer has our blessing on both counts — it does save work and it does save money. It's wonderful for making use of extra food. That's why I'll cook more than we'll eat at one sitting — I freeze the 'extra' food for later use — you can freeze it and know that the original tasty flavor will remain."

## Mrs. Pridmore Tells of Many Duties Performed in County Clerk's Office

Mrs. Beulah Pridmore, who is retiring on January 1 as county clerk of Lynn county after serving in this office ten years, was the principal speaker at Tahoka Rotary Club Thursday noon of last week. She told the duties of the county clerk, and surprised her audience with a recounting of the many duties the office performs.

She said the work becomes fascinating, for it is usually possible to trace the recorded life history of a citizen from the cradle to the grave—and beyond.

The office records the birth, possible juvenile court actions, appointment of guardian by probate court, military discharge, marri-

age certificate, birth records of children, chattel mortgages and releases, cattle marks and brands, deeds to real estate, surveys and land patents, Lis Pendens, civil cases, Federal liens, judgments, criminal court actions, bills of sale, hospital liens, probate claims, and death certificates; and after death, the probate minutes, including will, property, and disposition.

Among the other records recorded by the county clerk are: Attachments, landlord's liens, record of opening or closing of all roads, school consolidations, applications to purchase land, classification and appraisal, record of purchases, estray, and registry of optometrists, embalmers, nurses, naturopaths, and dentists.

The clerk gets appointment for every notary public and files notary bonds, files warehousemen's bonds, files and records bonds of directors of Canadian River Municipal Water Authority, files and records bond of every county official, and records deputation of every deputy in county.

The clerk attends meeting of the Commissioners Court and also writes and records its minutes; files election minutes and records election returns, files expense accounts of all candidates, handles absentee voting, prepares ballot boxes for elections.

The county clerk files budgets for the four county schools, files monthly reports of county officials, figures up fees of office and makes monthly report, assembles all bills against county and presents them to Commissioners, and if they are approved she writes warrants for payment, figures payroll and writes warrants, issues warrants of arrest, collects fines and costs in county court criminal cases, files papers in civil cases and collects costs; files and opens lists of jurors, gives copy to sher-

Herman Heck, member of the board of directors of the West Texas Chamber of Commerce, announces that board members living in this area will meet in Lubbock Tuesday, July 29, 2:00 p. m., in the Lubbock Chamber of Commerce offices.

The meeting is one of a series of district meetings being held for WTCC directors in which the program of work for the coming year will be outlined for board approval.

The work program includes the West Texas Chamber's activities in the fields of agriculture and livestock, public information, industrial development, state affairs, water resources, national affairs, community services, and member relations.

The board will be given a brief review of last year's activities. Heck stated that particular emphasis has been placed on national affairs, including taxation and legislation.

### Glenn Fleming Gets Scholarship

Glenn Fleming, son of Alton Fleming and grandson of Mrs. P. K. Fleming, formerly of Tahoka, was notified last week that he had received a cash scholarship from the Compton, Calif., Secondary Teachers Club, given to prospective teachers. This \$250.00 scholarship is given to a graduate of each school who definitely plans on a career as a teacher in the public schools.

Fleming plans to teach in the elementary grades, and is an outstanding student and citizen in his school and community.

The Committee for Teacher Education and Professional Standards (TEPS) of the Teachers Club conducted oral interviews and selected the recipients of the award on the basis of scholarship, school and community activities, confidential references, their rating in the oral interviews, and need.

Fleming is a 1958 graduate of a high school in California. He received a part of his elementary education in Tahoka, where he was an honor student.

iff, and issues warrants to pay jurors. She helps people get delayed birth certificates, and makes copy of anything in office.

Recording is a big job in the office. All records for recording must be entered in the fee book, file register, typed, compared, indexed (direct and reverse), indexing checked, seal and signature checked on clerk's certificate, and then check off file register to show what becomes of it, make invoice and mail it out.

Answering some questions frequently asked her, Mrs. Pridmore said birth and death certificates are recorded in the county where the event takes place, but marriage licenses are recorded in county of issuance. There is no waiting time required after license is issued before a marriage can take place. Chattel mortgages stay on file until released. Notes are not recorded unless attached to and made a part of the security instrument. Also, under a relatively new law, wills can now be recorded.

She expressed her appreciation for the opportunity to serve in this office the past ten years. The program was arranged by Johnny Reasonover.

Melvin Wuensche states this year's crop of blue panic grass seed is giving a good cash return at lower grass seed prices. Some dryland blue panic is yielding above 200 pounds per acre of cleaned seed, making a gross return of approximately \$50 to \$60 per acre on the first harvest. Another harvest is expected this fall. Melvin, Martin Wuensche, Jr., and Cecil Wied are using this grass as part of their soil-improving crops in their cropping system.

**SCS Official Urges Conservation Practices For Efficient Irrigation**

By Lee H. Williamson  
Soil Conservation Service  
Irrigation systems are being operated to replace moisture in the upper portion of the soil profile. Hot weather and high velocity winds have helped in depleting soil moisture near the surface. Many acres are practically air dry for a depth of six to twelve inches.

water may also cause the irrigator to over irrigate the near end in order to get water to the far end of the run. Excessive differences in operating pressures of near and distant sprinkler heads will give unequal applications of irrigation water. It may be necessary to over irrigate with the near sprinkler in order to apply with the dis-

The objective of farmers is to apply irrigation water to as many acres as possible to bring soil moisture back up to or near field capacity. To realize this objective the irrigator must know how much moisture his soil will hold in the root zone and how much moisture is present in the root zone at the time of irrigation. The difference between these two figures is the amount of moisture that needs to be replaced.

In order to do an efficient job of replacing soil moisture by irrigation, the irrigator must know his irrigation system and how to operate it efficiently. It may be difficult to operate some systems efficiently under existing conditions of water supply, delivery system and water conditions. Assuming the irrigation system can be used to efficiently apply irrigation water, then it is up to the irrigator to use the irrigation system in a way that will apply the desired moisture with the highest degree of efficiency.

The irrigator must understand the rate at which the irrigation system will apply water, the minimum application that may be applied and the time required to apply the desired amount of irrigation water.

Any quantity of irrigation water applied in excess of that required to bring soil moisture up to field capacity, which is the root zone, may be considered as wasted. Uneven applications of irrigation

tant sprinkler an application that will bring the soil moisture up to the desired point.

Since with most irrigation systems the total amount of irrigation water applied is a function of time, any over irrigation wastes time as well as irrigation water. The objective of the irrigator is to efficiently irrigate as many acres as possible with the available water and to get water to the crop before it suffers. Any waste of water by over irrigation or inefficient application will reduce the amount of land that may be irrigated before the crops suffer and also reduce the water available to irrigate with.

Irrigators that have any questions concerning their irrigation systems or the soil moisture of their land should request assistance from Soil Conservation technicians assisting their Soil Conservation District.

**Terry Spears Will Attend Musicians' Camp At Canyon**

Canyon, July 24.—One student from Tahoka is among the more than 200 who have already registered for the sixth annual West Texas Music Camp, slated Aug. 4-15 at West Texas State College.

David L. Kaplan camp director, has announced that with the registration of a number of string students, an orchestra will be added to the camp's musical groups, which include three concert bands, a "reading" band, a choir, and twirling ensembles.

The addition of strings instruction this year marks the first time an orchestra has been formed for the camp. The strings students will be organized and directed by John Tesovnik of Bakersfield, Calif., where Tesovnik is an orchestra director for the public schools.
