## City Ordinances Paving Way For Construction

City of Tahoka is continuing its program of raising standards for building requirements in Tahoka so as to make the securing of FHA and other loans easier, to meet specifications for the proposed Public Housing Authority Low Rent Housing Project, and to provide more building room.

An ordinance has been approved by the City Council, on petition from property owners, taking into the city limits four more blocks of the Roberts Addition west of the high school.

Another new ordinance sets up an industrial zone in Tahoka.

A Planning Commission of three men has been set up, backed by the resolution from the Council pledging support in issuance of building permits. More stringent requirements will be followed in the future in the issuing of building permits, which are required for new building, moving a building or setting down of house trailers in residential areas of North Tahoka, Roberts Addition, and Old Town additions of the city not now designated as Industrial Area. Such permits must be reviewed by the Planning Commission of the City of Tahoka before building permit is issued.

Several months ago, City of Tahoka passed a modern standard electrical wiring ordinance that meets FHA and other requirements.

Results are already being received from the action being taken by the City.

FHA and other lending agencies are now approving loans for construction in North Tahoka, and (Cont'd. on Back Page)

## New Traffic Law For School Area

City of Tahoka has passed a new ordinance placing stop signs on North Fourth street in the vicinity of Tahoka schools, placing a speed limit of 20 miles per hour on vehicular traffic along five blocks of North Fourth, and has instructed City Police to start enforcement.

Stop signs are being placed on North Fourth intersections with Ketner, Taylor and Wells streets, and the speed limit set at high speeds per hour along this route as a protection to school children.

Since changing the school parking lots, students and some adults have been taking off at high speeds down North Fourth, which is the reason for the new regulations. Violations will draw fines up to \$100.00.

## Children Burned At New Home

Two small children were burned Tuesday about 11:00 a. m. at their home while they were playing with a gas jet and were ignited from a heater in the next room. They are Vicky, 2, and Dale, 1, children of Mr. and Mrs. Raymond Edwards of New Home.

It is believed that the burns are not too serious, but may be classed as second degree burns. The little girl received most of her burns on her face and hands. Dale's left leg, left arm, and left side of the face were burned more seriously than any other part of his body.

This may serve as both a reminder and as a warning for parents to be sure and tap off gas jets after removing heating stoves for the summer.

## Labor Control of Farming Threatened By Proposals of Labor, Government

Five men from Lynn county, Woodrow Brewer, Bill Griffin, J. C. Dunlap, B. K. Cooley, and Charles Reid, attended the meeting in San Angelo Friday to hear discussion of the Department of Labor directives affecting farm labor.

Principal speaker was Matt Triggs of Washington, D. C., assistant legislative director of American Farm Bureau, who told the group they should send communications immediately simple and to the point, expressing an opinion that the Secretary of Labor, James A. Mitchell, is usurping power never intended by Congress and urging withdrawal of his proposed regulations for employment of domestic labor.

He urged these letters by farmers and businessmen be sent to President Dwight D. Eisenhower, White House; Vice President Richard M. Nixon, Senate Office Building; Republican National Chairman, Senator Thurston B. Morton and Senator Everett R. Dirksen, both at Senate Office Building; Secretary of Agriculture Ezra Aaft Benson; Secretary of Labor James P. Mitchell; Senators Lyndon Johnson and Ralph Yarborough, and Representatives in Congress, including George Mahon.

Mitchell's proposal to regulate housing and wages and to require travel expense payment for domestic labor hired by farmers through state and federal agencies drew fire at the meeting, as did the proposals to do away with the "acero" program, the move by Labor to organize farm labor and agricultural industries such as oil mills, compresses, and gins.

Union Labor (AFL-CIO) has instituted a program to organize farm labor by putting crew leaders on union payrolls as organizers and to sign up workers as union members as they join the crew. Such would mean subservience of farmers to labor unions.

Through bringing farm labor under minimum Wage and Hour regulations, probably \$1.25 per hour, (the Labor Department and Union (Cont'd. on Back Page)

## High Rating For School Choir

The Seventh Grade Girls' Choir of North Elementary entered an elementary music meet Saturday, April 18. About 550 elementary students from seven schools met in Plainview for the Interscholastic League band and choral contest.

Unlike most Interscholastic League contests, the students did not compete against each other, but against a perfect score of 1. Each entry was given a rating designating the excellence of its performance as follows: I, superior of perfect (95-100); II, excellent (87-94); III, good (80-86); IV, fair (75-79); V, below average (below 75).

In the vocal division Tahoka entered four numbers and received two I's and two II's.

The Girls' Octet, composed of Nancy Collard, Carolyn Cowan, Janis Gattis, Montie McGinty, Sharon Patterson, Patricia Sikes, Linda Thomas and Louella Tomlinson, received a I rating. The octet sang two songs, "Tell Me Why" and "Children of the Heavenly King."

Sharon Patterson sang a solo, "Love's Old Sweet Song," and earned a perfect score of 1.

An outstanding feature of the meeting has been the men's breakfast sessions at 9:00 a. m. each weekday. Monday, 45 men were present, Tuesday 65, Wednesday 53, and Thursday 86. On Thursday, girls and ladies were special guests.

Milt Draper left Tuesday for Lubbock, from which place he was to be sent on to an Armed Forces training camp.

## South Tahoka Gets FHA Loan Approval

FHA has announced it will approve home loans in Southwest Tahoka on an individual basis for a maximum of \$8,000, according to Floyd Goad, district manager of Cicero Smith Lumber Co.

Until now, FHA has refused to approve loans for new homes in this area of town.

There has been some building in this area recently, and there are many good building sites in this part of town. Development of the new City Park on South Eighth has helped improve prospects for building in this area.

Goad told The News that Tahoka could make securing of loans for homes here more easily obtained by setting up of building codes and by setting up a zoning board with authority to zone the town for protection of home builders. City of Tahoka recently passed an electrical code ordinance.

While unable to work on his farm, Orville's neighbors, Elvis Philpot, Willey Wilder, Raymond Ashbrook, O. E. Eubank, and Gus Bairington put up his land, for which he and Mrs. Havins are truly grateful.

### Failure To Appear Fines Are Assessed

Department of Public Safety officials said today there is a large number of motorists who fail to appear in court after giving their written promise to appear on a traffic violation.

Major R. A. Crowder, Commander of Region No. 5, issued a reminder to motorists that a charge of "Failure to Appear" can be filed in addition to the original traffic charge in the event the defendant fails to appear in court for violation of the Uniform Traffic Act. The motorist may be found guilty of a misdemeanor and fined up to \$200.00 for failing to appear even though found not guilty of the original traffic violation.

The Major said that the problem is serious, in that serving warrants on motorists who fail to answer a traffic summons requires many man hours away from necessary patrol duties of traffic supervision.

In an effort to combat this, Crowder stated that he has issued instructions to all personnel under

his command to advise those persons arrested that they may have a charge of this nature filed against them if they fail to appear in the proper court within the designated time. When the defendant realizes that one additional charge was brought about by his failure to keep his promise that he made when he signed the traffic ticket, he may think twice before disregarding the next summons.

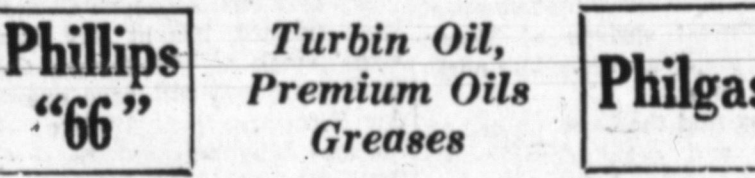

### REV. W. A. BROOKS RETURNS TO PULPIT SUNDAY

Rev. W. A. Brooks, pastor of the First Baptist Church, will speak at both worship services Sunday. Mr. Rowland Nitcher will direct the music.

Both the Pastor and Mr. Nitcher have been directing revivals in West Texas. Pastor Brooks spoke at the Reese Airforce Base for 10 days, and Mr. Nitcher directed the music for a revival at Halfway Baptist Church near Morton. Pastor Brooks urges every member to be present for all services Sunday.

## "Student Behavior Policy" Is Set Up For Guidance of Tahoka School Pupils

A "Student behavior policy" has been announced by the Tahoka School Board of Trustees, a copy of which has been given each student for study and to hand to their parents.

Following is the text of the policy as set up by the board:

The student behavior policy of the Tahoka High School District was developed as part of the program to raise the academic and behavior standards in the schools. The board of trustees stated that "a student attends school for the primary purpose of gaining knowledge and, further, that students are expected to work to the limit of their individual abilities."

The board, at the same time, directed the superintendent to establish standards of promotion from grade to grade, to increase the requirements for graduation, and to prepare a policy regarding student conduct.

teachers and other students. f. Be regular and punctual in attendance.

Your attention is directed particularly to your duty to be diligent in study. As with the other duties listed, failure to comply with this duty to be diligent in study will mean that you are guilty of misconduct. If this is the case, you may lose the privilege of attending school. Each case of misconduct will be handled on an individual case basis since each student is treated as an individual.

A failing grade does not mean necessarily that you are guilty of misconduct. However, it will mean that an investigation will be started to see why you are failing and if you have not performed your duties as stated above, then such corrective measures as are necessary will be taken. These would include conferences with your parents, teachers, principal and others. If further action is necessary, you might be put on probation, suspended or expelled.

The acts of probation, suspension or expulsion have extremely serious consequences to you and are viewed as acts of last resort to be taken only when other means of correction have failed, and allowing you to stay in school would not benefit you, or would be harmful to the school or its student body. However, if necessary, these actions will be taken.

The board of trustees has publicly stated that every student who has a sincere desire to remain in school, to be diligent in study, and to profit by the educational experiences provided will be given every opportunity to do so and will be assisted in every way possible to achieve scholastic success. Therefore, this student behavior policy is not a threat to any student who performs his duties as defined above.

To perform these duties is quite easy—conduct yourself as a lady or a gentleman; be courteous and respect the rights of others; obey your teacher; and prepare your lessons. That's all there is to it. You will gain much. So will your classmates, and you will make the Tahoka School District, your parents and your teachers very proud of you, and you can be proud of yourself.

### Draw People To Clean Cemetery

Residents of the Draw community will observe a clean-up day at the Draw Cemetery Monday, April 27, according to Mrs. A. R. Hensley.

Those wishing to work are requested to bring tools to work with so that the community's cemetery may be kept clean. Mrs. Hensley stated that the work will begin at approximately 9:30 a. m.

Otis Curry, who underwent surgery in a Lubbock hospital, was able to return home Sunday.

### TOLERS BUILDING HOME

Mr. and Mrs. John F. Toler are preparing to build a new three bedroom and den brick home in the 1800 block of North Third Street, across the street from the Tom Bartley home.

Mrs. Ramon Reyna underwent major surgery in Tahoka Hospital last week with Dr. Noble Rumbo of O'Donnell performing the operation.

Richard Rogers was dismissed from Tahoka Hospital recently after receiving medical treatment for cuts and bruises sustained in a fall from a pickup.

### Union Labor ...

(Cont'd. from Front Page)

abor hope to get their foot in the door. Because of the nature of farming, this could be disastrous. Labor proposes to cut out the Mexican farm labor program, which would affect 450,000 workers, and his law must be renewed by next year if it is to be continued. AFL-CIO and Labor Department oppose the bracero program.

Unable to get the laws they wanted passed by Congress, now the Labor Department proposes to put their ideas on farm labor into effect by directive. These proposals would be published in the Federal Register about May 1. Under them, the farmer would be required to meet stringent housing regulations set up by the Labor Department, wage rates would be not less than prevailing wage rate set by highest wage paid such workers in the area and not less than Minimum Wage and Hours regulations to domestic workers.

Farm wages have already gone up six times the level of 1910-14, while farm prices are only two and a half times the level of 1910-14. Furthermore, to bring in workers, the farmer would have to pay round trip transportation. Next, would be required transportation and housing for families, then school problems and racial problems. Next would be specialized labor, and an irrigator would not be allowed to drive a tractor or pickup, hissing would have to be by a Union driver, repairs by another union member.

Farmers contend Labor authorities and government bureaus are stretching their authority too far, but such directives would probably be upheld by a liberal radical Supreme Court that is now becoming the judge, jury, and enforcement agency, as well as the writer of new meanings into laws passed by Congress. Together, the bureaus and the courts have taken the ball away from Congress, as one farmer has stated, it, and "about all we seem to need with Congress now is to meet, talk, appropriate, tax, hire a few relatives, and belch."

The News is not exaggerating in making the statement that, to say the least, many Lynn county farmers are getting pretty hot under the collar—maybe, too late!

A few months ago, many laughed off the charges that the Junior Senator from Texas was pro-labor and that other representatives from Texas were not showing enough concern over the centralization of power in Washington and the taking away of individual rights. If there is enough concern over giving up of individual rights, there may yet be time.

**BULLETIN**—Senators Johnson and Yarborough, in effect, voted with Union bosses Wednesday in attempting to kill amendments to the Kennedy bill by Sen. McClellan of Ark. which would protect Union members against Union bosses and make violations by the bosses criminal offenses. The bill, as amended by McClellan, passed 47-46.

Texas citizens should take note both their Senators give the impression of lining up with the racketeering Union bosses.

### Local City Men At Water Meet

Five employees of the Tahoka City Water department attended the monthly meeting of the Permian Basin Water and Sewer Works Association held in Seminole Tuesday night.

Pat Hines, local water superintendent, says average attendance from towns of the 16-county district the past few months has been 102, the largest average attendance of any such association in the state. The association has 196 paid up memberships.

Attending the meeting were Hines, Evon Wilson, Owen Schneider, A. C. Davis, and Jesse Arousa.

### T-Bar Club Open Set For May 24-31

The third annual T-Bar Country Club city open golf tournament will be held May 24 through 31. All men and women residing in Lynn county are invited to participate, whether members of the country club or not.

C. W. Conway is tournament chairman, J. E. "Red" Brown and Jack A. Robinson are his assistants, and Mrs. Jewel Smith is ladies chairman.

More details will be given later, and in the meantime all golfers and "duffers" should make their plans to enter.

We wish to acknowledge with grateful appreciation your kind expressions of sympathy during the sickness and death of our mother. May God bless each of you. H. D. Daniel family.

### Ordinances ...

(Cont'd. from Front Page)

is last week FHA announced it would accept limited loans up to \$8,000 in Southwest Tahoka on an individual case basis.

Plans for the 14-unit Tahoka Low Rent Housing Project, for which an appropriation has already been set aside, awaits only final approval by the Public Housing Authority, states City Secretary J. M. Uzzle, who is also secretary of Tahoka Housing Authority.

The Annexation Ordinance takes in most of four blocks, a total of 80 lots, in the Roberts Addition. Four lots on the east sides of these four blocks, Lots 1 and 2 and 23 and 24 of each block, were already in the city limits. These are Blocks 14, 19, 22, and 27, lying between Edwards (R) and Lynn (S) streets on the east and west and bounded by North First and North Fifth, south and north boundaries. The tract is 560 feet wide by 1,455 feet long, including the street on the west.

To facilitate building in the area, City of Tahoka is making plans for a sewer lift pump to be installed, which will be necessary to serve homes built in this area.

The Industrial Zone Ordinance will permit more stringent enforcement of regulations governing types of building erected and of protection to building of homes in residential areas.

Roughly, the Industrial Area being set up will include that part of town east of Doak (F) street, the proposed new four-lane high-

way, including Higginbotham-Bartlett, the new Farmers Cooperative gin, etc., bounded on the south by South Second and nine blocks east, or five and a half blocks east of the Santa Fe railroad to Mearl Street (east of delimiting plant), except that there is also a spur extending south along the railroad nearly to the Tahoka Cemetery.

East boundary of the industrial district extends north three blocks, or one block across north of Hwy. 380, thence west to the Union Compress cotton yards, thence north along Hall (A) two more blocks, back west nearly a block to the Railroad. North boundary of the Industrial District extends from a point on North Doak (F) on North Fourth to the Compress area beginning on Randall (C), thence north to the city limits at North Eighth and thence east to the Railroad.

These new ordinances and recommendations from the Planning Commission, composed of A. C. Verner, Charles Townes, and W. T. Kidwell, are all in keeping with regulations and ordinances in other towns in the area.

Members of the Council are: H. B. McCord Sr., Mayor, Winston C. Wharton, Albert Curry, Dr. C. Skiles Thomas, Everton Nevill and Meldon Leslie.

### REBUILDING STORE FRONT

J. E. Nance, owner of the building occupied by W. T. Kidwell's Piggly Wiggly store, is having the old awning torn away. A new aluminum marquee will be installed and over improvements made to the building front.

Mr. and Mrs. Houston Spikes of Amarillo were here a short time Tuesday visiting old friends. JOB PRINTING of all kinds given careful attention by The News printing department.

# Texas Cotton Statistics

(Clip and save for Future Reference)

The U. S. D. A. has placed the 1958 national cotton crop at 11,581,000 bales. Texas will account for approximately 4,350,000 bales or 37 per cent of this total, a significantly larger portion than the average for the last decade. As big as 1958's total Texas cotton crop is (4,350,000 as compared to 1957's 3,632,000 bales), the big production news in 1958 is acre yield. The indicated yield per acre for 1958 of 387 pounds of lint (4,350,000 bales raised on 5,400,000 acres) far exceeds the previous record of 325 pounds per acre (359,000

bales harvested from 490,000 acres), set 92 years ago in 1866, and is 31 percent above last year's 295 pound per acre yield (3,632,000 bales harvested from 5,905,999 acres), which had been second highest in history.

What has happened to acre-yields during this 92-year period makes an interesting study in cotton production economics and gives a factual foundation for speculation on the future of Texas cotton.

## Rural Accidents Show Decline

The Highway Patrol Service of the Texas Department of Public Safety investigated a total of three rural traffic accidents in Lynn county during the month of March with the following breakdown: Property damage two, personal injury

one, and fatal accidents, none. In making this announcement, Patrol Sergeant E. L. Stroud reported a total property damage of \$3510.00 with one person injured and none killed. This is decreased three accidents for the same period of 1958.

According to the sergeant this brings the total rural traffic accidents in Lynn county for 1959 to 12 as compared to 21 for the first three months of 1958.

The sergeant advised that traffic deaths in Texas are 12 percent higher this year than they were at the same time last year.

He stated that we have seen what can be done when we all get together in a statewide crusade and campaign with the determination to stop highway slaughter. This was evidenced in the 8 percent reduction in our death toll last year. This year we must do even more if we wish to further reduce this terrible toll.

Visitors in the George Glenn home Sunday were Mrs. Glenn's parents, Mr. and Mrs. Eugene Tomlinson and family of Odessa.

## Lubbock Christian College President Tells of Threat of Communism To U. S.

"Forty thousand communists in Russia were able to overthrow the government of that country in 1917, and that is fewer Communists than there are in the United States today," Dr. F. W. Mattox, president of Lubbock Christian College, told Tahoka Rotarians in a talk before the club Thursday noon of last week.

Dr. Mattox is largely responsible for a Citizenship Training Course now being conducted at the new Lubbock college which is "an adult educational program designed to re-examine the facts which have made America great and to develop in Americans a determination to preserve the free enterprise system."

This course was initiated some time ago by a Sercy, Ark., college and has since spread to 120 other colleges over the nation.

Dr. Mattox also has a hand in the current "Project Alert" program in Lubbock in which a community-wide program is being carried out to point out the evils of Communism and Socialism and to rededicate citizens to American ideals. Speakers are appearing before 100 Lubbock civic clubs in a series of talks on "The Face of the Fox, The Bloody Trail, What's Right With America, and We Choose Freedom and Progress."

Communism and Socialism are one and the same, Dr. Mattox declared. He hinted that the United States is very rapidly traveling down the road to this form of government.

When asked why the Socialists did not enter the last presidential campaign, Norman Thomas, perennial candidate for president on the Socialist party ticket, replied that there was no need, for both major parties had already adopted all the major plans of the Socialist party.

Our Supreme Court, he pointed out, has recently made 22 decisions favorable to Communists. These decisions have caused the release from penitentiaries of a number of convicted Communists who advocate overthrow of our government and has nullified investigation and need for trial of others.

He declared that the Welfare State and government ownership of land is "not what it's cracked up to be."

As Socialism rises in a country, the national income decreases. Socialism sounds good, but it destroys incentive. When a man's incentive is destroyed, he ceases to produce effectively. As an example, in Socialistic England, a coal miner produces only two-thirds as much coal using the same tools as the United States coal miner and working eight hours a day longer.

He cited a table showing that,

under Socialism, comparable workers in Norway pay 42 percent in income taxes and have a monthly income of \$140.00; Sweden, 35 percent and \$152; France, 42 percent and \$72; Belgium, 35 percent and \$98; England, 34 percent and \$103; Italy, 35 percent and \$61 per month. All these are based on a 48 hour work week.

In "capitalistic" United States, a comparable worker pays 27 percent national income taxes, works only 40 hours a week, and draws \$350.00 per month.

Everything is not wrong with America, he strongly hinted, but if the present trend continues we will soon be Socialistic, Communistic, or whatever you wish to call it.

The talk, one of the most impressive heard by the local club in many months, was arranged by Johnny Reasonover, who is taking the adult citizenship training course now being given by Lubbock Christian College.

## Bob Foster, 79, Rites On Friday

Funeral services for R. B. (Bob) Foster, 79, were held at 3:00 p. m. Friday, April 17, at the Stanley Funeral Home Chapel here in Tahoka. Rev. Bill Burton, pastor of the First Baptist Church, officiated. Burial was in O'Donnell Cemetery.

Foster died early Thursday at the home of a sister, Mrs. A. R. Kimbrel near O'Donnell. He had been in ill health several years. A retired farmer, he had lived in Lynn county since 1924, having gone to O'Donnell from Oklahoma. He was a native of Mississippi. Survivors include three sisters,

Mrs. Kimbrell, O'Donnell; Mrs. Walter Smith, Cortez, Colo.; and Mrs. Lewis Gordon, London, Eng.; two nieces and a nephew.

### NEW HOME OMITTED

Among the new homes in Tahoka omitted in the building story in The News last week is that of Mr. and Mrs. Hubert Tankersley. Although not completed as yet, the home is the former Price Seely residence of O'Donnell, moved last fall to lots on North Third, just west of the high school building, remodeled into a three bedroom and den residence.

### O'Donnell Contracts New City Hall, Community House

City of O'Donnell has recently let contracts for construction of two new municipal buildings, a community club house and a combination city hall and fire station. The city hall and fire station contract, to be located immediately west of the present fire station, was let to Cicero Smith Lumber Co. on a low bid of \$9,748.00. The club house, which will be erected

in the new city park, will also be built by this firm on a low bid of \$9,774.00. Both will be constructed of tile and concrete. Contract was let several weeks ago for the swimming pool.

According to the Index-Press, John Earles closed out 23 years of service on the City Council at the recent meeting, and Dub Middleton closed out 10 years of service on the body. They have been succeeded by "Shag" Garrett and Norman Shaw, elected to the council in the recent city election.

### Senator Preston Smith

One procedure the much-talked-about tax measure opens in one which retail merchants fought in their appeal against the general sales tax: that of collecting the tax on separate sales items at retail level. The proposed House bill as written will require the retailers to collect taxes on tobacco products, except cigarettes; luxury items of various sorts, distilled spirits, hotel meals of more than \$1.00, lubricating oil and numerous other specified sales. Business will give close scrutiny to one article in the proposed tax bill. Business and industry use many machines on a lease basis. The proposed act levies a tax of 5 percent of the retail sales values of business machines, or 5 percent of the rental lease value.

Another levy the tax committee will bring in at least \$10 million a year is the levy under which the construction industry will come in for a new tax of 1 per cent of any material, and supplies used in construction, remodeling or repairing of real estate. Whether there is an exemption for home repairs done by the home owner was not made clear.

It will even cost money to lose weight. Reducing salons, which have become a fad in fashionable circles, will be touched for a small take, as will dance studios. If Texans take up sports to work off excess fat, they will pay the tax on sporting goods they purchase.

The 56th Legislature is the first air conditioned session of the Texas law making body in history. In the past, near the close of the regular 120 day session, warm weather has been blamed for frayed tempers. However, it is doubtful, during the squeeze starting in a couple of weeks to wind up on time, that artificial cooling will prove to be 100 percent effective in keeping tempers as cool as room temperature.

# ELECTRIC HEATING

HIGH IN COMFORT

Luxurious warming comfort — the kind an electric blanket gives you — is what you get from electric heating — a gentle warmth that makes you feel, oh, so cozy.

It's rather amazing to some people that you can get such gentle, safe warmth from electric heating for so little cost — but, it's true. A typical electric wall heater, for example, operates for less than 3c an hour and for completely electric house heating there's a new, even lower, heating rate.
