Senator Fulbright Sees Dock Strike As Threat to Arab-American Relations

By Hussein Kamel Selim, Ph.D.
Emeritus Professor of Economic History, Cairo University

Dr. Hussein Kamel Selim

The recent picketing of the United Arab Republic ship Cleopatra by American dock workers may well prove to have more far-reaching results than the participants in this "wildcat" boycott yet realize.

Already the State Department has called this picketing of the Cleopatra "embarrassing" to American foreign relations. But, in a statement made in the Senate April 25, Senator J. W. Fulbright was more explicit. He said that this picketing bordered upon irresponsible private intervention in the U.S. foreign policy. (Italics ours). The Arkansas Democrat and Chairman of the Senate Foreign Relations Committee discussed the picketing in a speech on the efforts of "special interest groups" to push foreign policy in "special-interest directions."

Sen. Fulbright added that "these private groups proceeded by coercive devices of their own to interfere with the official activities of our government in the field of foreign policy." Under the constitution, the American senator observed, the conduct of foreign policy is confined to the President or his designated representatives.

Senator Fulbright could not have expressed the problem more clearly. It is our opinion that in the future, it would be advisable for strike-intent workers to take precautions to stay out of the quagmire of international politics for the sake of both national and job security.

Ostensibly a gesture made in protest against the Arab boycott of American ships trading with Israel, the American picketing, which is generally believed to be Zionist inspired, has endangered the whole intricate network of Arab-American relations which have been improving during the past 18 months.

Despite the allegation by the officials of the seafaring and longshore unions that the move was taken because the Arab boycott of Israeli shipping had jeopardized maritime jobs available to American workers, the maneuver seems to be an attempt by Zionist elements to use American dock workers to punish President Nasser for the Israeli boycott.

Obviously, such an incident as the tie-up of the Cleopatra can not help but spark retaliation in the Arab world. The question now arises as to what the effect of such retaliation would be.

The UAR has a small ocean-going merchant fleet of about 10 ships. No more than one of these ships calls at an American port each month. On the other hand, about 25 ships of the vast U.S. merchant fleet call at Arab ports each month. It is easy to see, then, that an Arab boycott of American shipping would threaten the jobs of many more American mariners than the small number presently being affected by the boycott of ships handling Israeli cargoes. Furthermore, if the Arab boycott were to spread to American commercial airlines, as has been lately reported, the damage to American interests would be considerable.

It was clearly evident to most observers that, unless the New York dockers' picketing of the Cleopatra were quickly called off, a retaliatory move by the Arab countries was in the offing. The International Arab Trade Unions Federation called a meeting in Cairo on April 13 to determine Arab policy for just such a move to counter the American action. The Jordanian and Lebanese Trade Union federations quickly pledged their support to any policy adopted in Cairo. Aden trade unions also pledged to support the decisions of the other Arab union federations. Iraq and the Arab Gulf states may well be expected to follow suit.

Arab indignation over the American move is now such that there is little likelihood of government interference with a similar retaliatory move by Arab dock workers. If a forthcoming Arab boycott were extended to include not only ships flying the American flag, but American owned ships of Panamanian, Liberian, and other registry, the effect could be almost crippling to the oil industry.

Although the situation is still one of turmoil and general dissatisfaction on both sides, it is clear that Zionist influences are conspiring to drag America into a dispute between Israel and the UAR and, no matter what happens, the United States stands to come out of the fray as the loser.

RICHARDSON PUPILS ARE PRESENTED IN RECITAL

Printer's Ink-lings

By F. P. H.

When the election returns come in we are always a little sad, for we can't help but have a warm place in our hearts for the defeated candidate.

In most cases, all the local candidates, we feel, are our friends. We have voted for the one we think is best qualified for the public office to be filled. But, the

man that loses, friend or acquaintance, has reached his hour of disappointment and disillusionment. Actually, he has performed our democratic process of government a service by offering himself for the office, even if his motives may have been a little bit selfish—and who is not a little selfish when seeking a job to care for himself and family?

The defeated candidate could have been the winner. But, the public for one reason and another, did not see fit to elect him. Many times he has been disillusioned by the fact that many prospective voters have given him encouragement. Some have told him they would support him—and didn't. We congratulate the winners, but we also doff the sombrero to the losers for we know it's hard for them to hold their chins up, sometimes, in the face of defeat at the polls.

"The Echo," newspaper published by the inmates of Texas Prison System (population 11,306) has these gems: If you would reform the world from its errors and vices, begin by enlisting the mothers. Silence is golden; that's why there are so many poor people. The only time you should beat anyone to his knees is in church. The trouble with life is that by the time you know how to play the game, you are too old to make the team.

cracks at Senator Ralph Yarborough, who is a staunch advocate of about all the liberal, socialistic ideas for spending more government money. But, believe it or not, Ralph is carrying out his word in fighting to retrench on one phase of the One-World program. He promised to help "trim the fat out of foreign aid." He recently voted to lop off \$20 million from the foreign aid spending program, and has voted for other proposed amendments to put limitations on the reckless expenditure of American funds abroad. Credit where credit is due!

We are not wholly against the foreign aid program. Much of it is necessary. But, we think, much of it is waste and baloney. Much of it never gets to the people it is supposed to help but is spent by the government in power, and the man on the street in those countries never know (if they get a few cents out of a dollar we send over there) that the money came from the U. S.

Tahoka Rotary Club the past five years has had some pretty intelligent and well-read young men as guests in Tahoka from France, Austria, Switzerland, Belgium, and Sweden. We have made a point of asking these boys about our help to each of their countries. In every case, these young men had heard or read a little about our aid, but they knew very little about it.

We doubt if we are making many friends among these nations simply by giving them financial aid. The Printer never made a friend out of a bum by giving him a hand-out every time he came around. In fact, we had a man to get mad at us because we finally got tired of helping him. And, you've seen fathers who kept helping a no-account son—and that son had less respect for his old dad than did any of the other children. We are pouring a lot of money down a rat hole!

Bill Strange Jr., formerly of Tahoka, now a registered broker with Bache and Co. and residing at 1245 Delmont, in Richardson, a suburb of Dallas, has been appointed to the Richardson City Council. Bill was associated with his dad in the Ford agency here and served on the Tahoka City Council, as well as being active in many Tahoka civic affairs.

Believe it or not, 27 people turned out Saturday for the North Tahoka Democratic precinct convention, one of the largest turn-outs ever. But, this still is not representative when it is considered there are fully 900 voters in the precinct.

John Slover thinks there should be some better method of apportioning precinct representation to the county conventions. In his precinct, South Tahoka, there are about 500 voters, but in the last general election there was little to be decided and only about 80 voted in South Tahoka. Therefore, under the present system, South Tahoka is entitled to only three delegates representing fully 500 at the County Convention.

Another thing, last week's precinct conventions were held at 2:00 p. m. No one could enter them that hadn't voted. Therefore, only about half of the voting Democrats were eligible to attend the conventions. These should be held after the polls close in the future, or at least later in the day.

Did you ever forget your wife's birthday or your wedding anniversary? After carrying all those ads last week, we forgot Mother's Day,

and Mac was a little aggravated at us!

And here it is graduation time again! With an election, Mother's Day, and graduation all coming up together, this is a busy time. Attend the school closing exercises. Give the graduates a pat on the back and a word of encouragement. Our hope for the future rests on the shoulders of these kids.

Ament that word "apartheid." Randolph Rutherford had figured out its meaning, after all. Mrs. Lois Mason called to inform us the Webster's New World Dictionary defines the word: "The policy of strict racial segregation and discrimination against native Negroes and other colored peoples as practiced in the Union of South Africa."

Mrs. "Babe" Moore over at "Booger" Redwine's office also looked up and found the definition, and another reader says the word means "closing the door to the blacks in South Africa." Mrs. George M. Reid was another to bring in the definition.

Mrs. Judy Treadaway reports a black and white female Cocker of Water Spaniel, five or six years old, wearing collar but no tag, has taken up at her home.

"If Only She Could Cook!" Hear the one about the man from Mars who landed in Los Angeles? He was dressed in a paceman's suit—complete with metal antenna, the whole bit. He wandered into a neighborhood tavern where his attention was caught by a flashy juke box playing a sweet recording. The Martian ambled over to the juke box, put his arm around it and said, "What's a nice girl like you doing in a joint like this?"—Santa Fe Magazine.

EARLY COTTON!

ORTHOcide Soil Treater X is the cotton grower's best insurance against the high cost of replanting. It creates a protected zone in the furrow around the seed and allows the tender seedling to develop normally in spite of cold, wet, infected soil. The early maturity and better stands which result can bring greater profits from higher yields of top grade cotton.

QUESTIONS, PLEASE

Question: "Is the washing of feet a necessary act of worship when the church assembles together?"

Answer: There are two references to the washing of feet in the New Testament. One of these accounts is found in John 13 verses 4 through 17. This act was done by Jesus during the observance of the feast of the Passover at which time He instituted His supper. There were two obvious reasons as to why Jesus did this. (1) He was teaching them a lesson on humility. The disciples were constantly vieing for "first place." He said, "If I, your teacher and Lord, have washed your feet, you must be ready to wash one another's feet." (2) Jesus stated to Peter that one who has bathed need not be washed all over but washing the feet will make one clean. Further, He said, "For ye are clean but not all." This He said because of Judas Iscariot. The disciples were clean but not all—Judas was evil. The disciples did not understand because he explained it; Christ spoke of Judas.

The other reference to the "washing of feet" is found in I Tim. 5:10. This was one of the qualifications of widows who were to be taken into the charge of the church of financial aid. One translation puts it this way: "If she has served the saints in a menial way." (Phillip's Translation). In other words, if she has the humility to wash the saints' feet or to serve them in any menial way then she is at least qualified on this count. If one will not humble himself even to the washing of the saints' feet then he is not humble enough to be accepted to Christ.

If the command to "wash feet" had been given as an act of worship then surely we would find just one account of the saints engaged in it as worship. But not one account exists. Christ instituted the Lord's Supper and we find examples of the saints engaged in this as an act of worship (Acts 2:42; 20:7).

No, the act of washing feet is not an act of worship to be engaged in by the church!

You are invited to send your questions to: Bob Barnes, Box 812, Tahoka, Texas. You are also invited to attend all the services of the church of Christ.

THANK YOU!

I want to express my deep appreciation to the people who supported and voted for me in my race for State Representative. I wasn't elected your Representative, however I don't feel that I have lost. I enjoyed the campaign, and I have made many new friends. To know that 5,700 people had enough confidence in me to give me their votes—somehow, just doesn't seem a loss.

Thank you!

Birthday Party At Special School

Mike Ann Middleton, daughter of Mr. and Mrs. J. T. Middleton Jr. of O'Donnell, was given a birthday party recently at the Special School in Tahoka.

The honoree's mother brought a large white birthday cake topped with 13 candles. She also brought candy and favors for all of the children present. Mike Ann was a happy little hostess sitting at the end of the long white table, and she wore the silver crown that made her queen for the party.

Excitement ran high when she opened her gifts. After opening each package she embraced the giver and said "Thank you."

Mrs. J. T. Middleton Sr. set up a picture show in the spacious workshop and showed many pictures of interest to children.

Every child in the Special school has had a birthday party this year, Mike Ann's being the last one of the season. These and other parties have helped to teach these children good manners and etiquette. Most of all it makes them feel important and that they are needed, wanted and loved.—Margaret Renfro, teacher.

THE FACT THAT SO MANY SOLDIERS OF DIFFERENT RACES AND NATIONS ARE TODAY READING AND STUDYING THE SAME BIBLE MEANS A GREAT DEAL NOT ONLY IN TERMS OF THEIR OWN INDIVIDUAL LIVES, BUT IN TERMS OF BRINGING THE WHOLE HUMAN RACE TO A UNIFYING DETERMINATION TO LIVE UP TO A MORAL LAW WHICH IS JUST AS REAL AS ANY OF THE LAWS OF PHYSICS.

Our word "chairman" harks back to the olden days, when only kings, bishops or nobles were permitted to sit in a chair—common people stood, sat on the floor, or used benches. Hence, the leader was an important man, and got to use a chair. Husbands may not be the best informed people in the world, but they are the most.

Do You Know The Bible Says—

By R. C. Coppedge
That, no man can say that Jesus is the Lord, but by the Holy Ghost. I Cor. 12:3.

That, the Bible says, there is one Spirit. Eph. 4:4.

That, the Lord is that Spirit. II Cor. 3:17.

That, the Spirit of truth, whom the world cannot receive. John 14:17.

That, God is a Spirit; and they that worship him must worship him in spirit and in truth. John 4:24.

That, if you have received the Spirit you are the temple of God, and that the Spirit of God dwelleth in you. I Cor. 3:16.

That, if any man defile the temple of God, him shall God destroy. I Cor. 3:17.

That, the temple of God is holy. I Cor. 3:17.

That, if any man have not the Spirit of Christ, he is none of his. Rom. 8:9.

That, the Spirit of life in Christ Jesus hath made me free from the law of sin and death. Rom. 8:2.

That, to be Spiritually minded is life and peace. Rom. 8:6.

That, the Spirit also helpeth our infirmities, and that the Spirit maketh intercession for us. Rom. 8:26.

That, the Holy Spirit is given to them that ask the heavenly Father. Luke 11:13.

That, you must repent and be Baptized in the name of Jesus Christ for the remission of sins, and ye shall receive the gift of the Holy Ghost. Acts. 2:38.

Then why will some say that you don't need the Holy Ghost to be saved?

Today's MEDITATION

The Upper Room

The Lord hath appeared of old unto me, saying, Yes, I have loved these with an everlasting love. (Jeremiah 31:3.)

Many years ago I took a little friend from another country to see that wonder of God's creation—Niagara Falls. He was terrified when he saw the rushing waters. He refused to go near. So we left the Falls and went for a walk.

A few hours later we returned to the same place. He was willing to go a little closer. As he looked at the water, his remark was: "It hasn't all gone over yet."

That remark reminded me of God's constant love and care—so much He has given and sent out, and still enough yet for every one of us. Divine love is constant by day and by night. Our shortcomings are as rocks and our sins as barriers, but the love of God flows around us and over us and goes with us all the way.

Prayer: For Thy love which never changes, our Father, we thank Thee. Establish us in faith in Christ so that we are no longer turned with the tide of everyday living. Keep us, we pray, always in Thy care and in the knowledge that Thy great love sent Jesus Christ to be our Savior. Forgive us our sins and redeem us through Him, who suffered that we might have life eternal. For His sake. Amen.

PLANT TEXIOCA-54

MUST BE GROWN ON IRRIGATED LAND

Under a simple contract, deliver it to us 15 per cent or lower moisture content this fall, and

We Will Pay—
\$1.63 per 100 pounds

Come by Wilson Co-op Gin for your seed and be ready to plant!

Seed \$6.00 per 100 pounds

There is nothing complicated or involved about the deal. You plant it, grow it, and we take the crop off your hands at our Wilson, Texas, Elevator.

Following are some of the questions we have been asked by Farmers:

QUESTION: Is Texioca-54 the same as the Waxey Kaffir, grown during the mid-forties?

ANSWER: No, Texioca-54's main parent is Martin Milo.

QUESTION: How is the Yield?

ANSWER: Substantially the same as Red Hybride.

QUESTION: How can we pay \$1.63 per 100 pounds?

ANSWER: Because the yield from the acres you plant is already contracted to Corn Products Company at that price. Corn Products Company makes a high-grade cooking starch to go in frozen foods.

QUESTION: Is it more difficult to raise than Milo?

ANSWER: No. The same farming methods are used as for Milo.

QUESTION: Does it stand as well as Milo?

ANSWER: Yes. Better, in fact.

QUESTION: Do you have an unlimited amount of seed?

ANSWER: No. The seed we have on hand is all there is available, so it will be well for you to make arrangements for your seed now.

QUESTION: What are the prospects for growing Texioca in the future?

ANSWER: There will be more seed available next year and there will be a demand for more acres.

QUESTION: What is the planting rate?

ANSWER: 4 to 6 pounds per acre is recommended.

QUESTION: When is the best planting time?

ANSWER: June 10-20th. However, it makes as well proportionately as Milo when planted earlier.

QUESTION: Must it be 13% moisture when you deliver it to us?

ANSWER: No. 15% or below.

QUESTION: Will it dry well in the field?

ANSWER: Yes. About like Martin and better than most Red Hybrids.

QUESTION: Is it difficult to harvest?

ANSWER: No. The head grows well above the leaves. It has an open type head which threshes more easily than most Red Hybrids.

Science Show At Rotary Meeting

Charles Compton of Oklahoma State University, former teacher in Andrews schools, was the speaker at Tahoka Rotary Club Thursday noon of last week. He had spent the week in Tahoka High School giving lectures and demonstrations to arouse interest of students in study of science and mathematics.

His Rotary program dealt with his work in visiting schools of this area to develop more interest in math and science, and he used simple devices he had organized to illustrate the workings of the combustible engine, gravity and centrifugal force, the three dimensions of solid geometry, torque, the action of hydrogen and oxygen, the gyroscope, etc., all of which proved very interesting to his audience.

He wound up his talk with some admonitions to parents. "Your child's teachers are his foster parents," he declared. "They have your children in their care more hours than you do. Yet, most parents never go to see these teachers, never consult with them about their children and their children's problems and progress. Until you do this, we will go along the same old road we have followed the last fifty years. If you want your teachers to do a good job, consult with them and let them know you are interested."

The program was arranged by Supt. Otis Spears, who introduced the speaker.

Alton Cain, chairman of the rural-urban relations committee, announced that there will be a special program on May 26 at which there will be an outstanding speaker from Texas A & M College, and each Rotarian will be asked to bring a farmer guest.

The club elected Charles Townes its official delegate to the Rotary International meeting in Miami, Florida, and Otis Spears as the alternate.

Student guests for May, Kenneth Stice and James Hicks, were introduced by Dean Taylor and Fred McGinty, respectively.

Why Install a Gas Light?

If you are a home owner who takes justifiable pride in the appearance of his property... if you have a regard for the convenience and safety of folks who come to see you... and if you have a keen sense of economy as well as for things functional... then a Gas Light will be a satisfying addition to your yard.

Neighbors welcome its glareless illumination... insects give its soft, mellow glow a wide berth. And regardless of the architectural style of your home, gas lights provide an indefinable "something" that adds noticeably to the appeal of any residence, at an amazingly small cost of operation.

Why not call Pioneer tomorrow and find out all the details about Gas Lights? Special Budget Prices start at just \$49.50, installed.

It's DOWPON—the economical grass killer. Instead of chopping or cultivating all season, just apply Dowpon to your fields—in the spring before planting, or in the fall, after harvest—and you'll be rid of tough problem grasses. Everyday Religion

By J. B. Thompson

Father and mother were married fifty-eight years ago this week. When they celebrated their golden anniversary this writer was in the hospital for surgery and unable to attend.

The following poem was written for the occasion and sent to them. It is given here in their honor.

"For fifty years you dears have walked,
Life's pathway, side by side.
Your youthful love has been your light;
The Lord of Life has been your guide.

The years are kind to tender hearts,
To spirits such as you,
And you are so young today,
As when your love at first we knew.

This golden day is rich indeed
To all who love you two,
And golden words alone can tell
Our golden love to you.

(Detailed Labor Classifications and Corresponding Wage Rates are set out in the Specifications.)

Bidders are expected to inform themselves regarding the General Conditions, Special Conditions and other Contract Documents which include the specifications and plans.

If we made Gladiola Flour for Minneapolis, Kans...

the quality wouldn't matter so much

...but we make it for you

All our customers live in Texas, or right next door. They're amazingly particular about flour. They have to be—to keep their reputation as the best home bakers in America.

These ladies buy far more Gladiola Flour than any other brand. They're loyal to us because we're loyal to them. For 47 years, nothing but the finest flour has ever seen the inside of a Gladiola bag.

Just as sure as there's a Minneapolis in Kansas, Gladiola quality is your best bargain in flour. Remember—snow-white Gladiola costs the average family only about 1/2¢ a day more than the cheapest flour made.
