## City Street Paving Is Started Monday

Tahoka's 36-block \$135,000 paving program was finally started Monday morning, following unavoidable delays by the contractor, but the work is now going forward at a rapid rate.

J. R. Fanning Construction Co. of Lubbock is the contractor.

Both the new paving and the topping project were started this week.

Much of the existing paving is being patched and a new coat of asphalt and gravel applied. Holes and weak spots in the old paving are being repaired in such a manner, Mayor H. B. McCord Sr. hopes, that this surfacing will not need further repair for some time.

Work on paving new streets was started on North 8th in the new city addition, most of which is being paid for by West Texas Builders, where dirt work was going forward at a rapid rate and forms were being set for the curbs and gutters.

There is still time for other citizens who desire paving to sign up, but must be in complete blocks and connecting up with other paving. Anyone interested should call J. M. Uzzle, city secretary. Terms may be arranged, and the first payment is not due until the paving is completed.

## Tahoka May Drop Band Unless More Interest Is Shown

Unless more interest is shown by students, the Tahoka schools may be forced to do away with the school band.

This fact became evident last Friday, when a meeting of band parents and students was held and indications were that there would be only about 25 band students this year.

Supt. Otis Spears says if there is no more interest than this school board may have to disperse with the band as too expensive for the number of students involved.

Students and parents interested in the band, the director and school authorities urge those interested to take advantage of the band program and musical education now if they wish to save the organization.

During the current hot, dry spell, Tahoka is using from 800,000 to a million gallons of water daily, reports Pat Hines, city water superintendent.

City wells are holding up fairly well, and there has been no water shortage so far. Mr. Hines said that if a shower would come, or if water use is not too excessive for another couple of weeks, there will be no danger of a shortage.

Water for the street paving job will be taken from a well not in use by the city.

## Bulldog Team Small But Shows Desire

Although the Bulldog football squad has been cut down to twenty-six boys, Coach J. D. Atwell says the boys he has left have a real desire to work and to hustle for a place on the team.

The first game is a week from today with the Frenship Tigers at Wolforth, an outfit that has been pretty tough the past few years.

School authorities say boys have dropped from the squad for several reasons. Some were a little small, and some lacked the desire.

Some of them, The News is informed, couldn't take the hard work necessary to build a team and like outside activities better.

Those left are showing sincere interest, are working hard, and

### Police Chief Issues Caution On Safe Driving Practices

Now that school is starting, both adults and youths are requested by Police Chief Jack Miller on their driving, take more safety precautions, and obey all traffic laws in order that some school child on the streets may not be killed or injured.

Streets leading to the school are especially hazardous. Miller says that sometimes children forget, or get careless and walk or play in the streets. Because of this, motorists should be especially careful in driving in town.

He warns that flagrant violators of traffic laws will be subject to fine and embarrassment. He says he does not want to make arrests, but he expects to do so where drivers refuse or fail to observe safe driving habits.

### Scouts Initiated By Arrow Order

Two Tahoka Boy Scouts, Taylor Knight and Macky Joe McWhirter, were initiated into the Order of the Arrow by about 80 members in ceremonies at Camp Post Friday and Saturday.

Scouts are selected for the honor by achievement in Scout work, plus election from their troop and acceptance by the Order.

### Canadian Dam Project Advances

Tahoka and O'Donnell reached an agreement at a meeting of Canadian River Water Authority officials and City officials in O'Donnell Wednesday night whereby Tahoka will take a part of the original amount allotted to O'Donnell, which action will permit the southern Lynn city to stay in the Authority.

Tahoka's allotment of 125,000 million gallons a year was already below present normal use, states E. R. Edwards, Tahoka representative on the Authority.

Lamesa was scheduled to reach a decision on Thursday as to whether or not that city will stay in the Authority. It is the opinion of Mr. Edwards that whether or not Lamesa stays will not be a vital determining factor in the final development of the proposed project.

A subcommittee of the House Appropriations Committee in Washington late Wednesday approved an appropriation of \$300,000 for initial planning and engineering for the construction of the Canadian River Dam project.

Rep. George Mahon was quoted as saying approval is expected in the near future by both the House and Senate Appropriations committees.

This and other appropriations which are expected to follow will be reimbursed to the Government by the CRD Authority from water sales to the cities in the future.

Soon, member cities in the Authority will have to vote on approval of the project, which will be followed by another Authority-wide election.

### Reserved Seat Tickets On Sale

People who desire the same reserved seat football tickets for Tahoka home games this fall should contact the school business office and J. M. Small, district secretary, as soon as possible.

Tahoka will have only four home games this year, and the price of reserved seats is \$5.00 for the season, only \$1.00 above the general admission price. The extra dollar helps pay for the stadium improvements.

Those desiring choice seats are urged to get theirs now, as soon seats will be sold to anyone demanding them if not claimed by past ticket buyers.

### Jones' Father Dies Monday

E. C. Jones, 81, father of V. F. Jones of Tahoka, died Monday at about 3:00 p. m. at his home in Coleman. He had been in ill health two or three years, but had not been seriously sick.

Survivors include his wife; three sons, V. F. of Tahoka, Felix of Pecos, and Ray of Dallas; two daughters, Mrs. Press Galloway and Mrs. M. D. Whittington, both of Coleman; and several grandchildren.

### Craig Leslie Not Allowed To Play Violent Sports

Mr. and Mrs. Meldon Leslie and son, Craig, returned home last week from Oklahoma City, where they had Craig examined by another heart specialist.

The specialist confirmed a previous examination made at Lubbock in which the doctors said the youth had some time had rheumatic fever which had damaged his heart. The doctors say he can lead a normal life except that he should not participate in violent sports such as basketball and football.

A fine football and basketball prospect, Craig will be lost to the Tahoka teams, but the doctors recommended that he may play golf and similar sports.

Mrs. Leach has been teaching in Fort Worth Schools for several years. They are moving here.

At O'Donnell, juniors and seniors were registered Thursday, freshmen and sophomores Friday, and grades five through eight were also registering Friday. Grades one through four will register Monday, Supt. John Criner has announced.

### Gilmore, Jaquess To Sales Meeting

Jack Jaquess and Horace Gilmore will have an opportunity late this month to see firsthand just how many independent businessmen a major manufacturer needs to sell and service its products throughout the United States and Canada.

Along with some 4,500 other independent businessmen who have John Deere dealer franchises in the United States and Canada, they will go to Dallas, Texas, the last week in August for the biggest sales meeting of its type ever held.

Sixteen United States and Canadian airlines will cooperate in airlifting the 4,500 dealers and 1,500 other persons to Dallas within a 24-hour period. It will be the first time any manufacturer will utilize as many airplanes, reserve as many accommodations, and arrange for as many meals for a single group at one time.

The meeting has been called to show dealers the new line of John Deere Tractors and equipment. An announcement was made last week that the new tractors will be put on the market in late September.

Gilmore and Jaquess, who own and operate the Tahoka John Deere Store will go to Dallas Aug. 29 for the one-day sales meeting that will be held the following day. To accommodate the huge crowd, the Dallas Memorial Auditorium, the Texas State Fairgrounds, and Cotton Bowl will be utilized for various parts of the meeting.

### COTTON VERTICILLIUM WILT SERIOUS WEST TEXAS DISEASE

Verticillium wilt is becoming more important in the cotton producing areas of West Texas. It is on the increase in the irrigated areas of the High Plains, Rolling Plains and the southwestern irrigated valleys. In recent years, the fungus disease has spread eastward to a line from Wichita Falls, Abilene and San Angelo. It has been found in a few fields near Greenville and Waxahachie.

Lower production by this wilt disease may range up to 75 percent in some fields. Losses also occur in the form of lower and spot grades and the production of immature fibers.

The disease is active only when the soil temperature is below 85 degrees. For this reason damage is usually higher during the early and the latter part of the growing season.

Affected plants may become stunted and the leaves turn yellow between the veins. These yellow leaf areas die and turn brown.

Leaves are shed from the stalk. After cutting wilted stalks, one will see brownish wood underneath the bark. The disease may be confused with root rot or fusarium wilt diseases.

Verticillium wilt is spread by the movement of old cotton trash within fields and from field to field. Gin trash and the movement of soil by cultivation can spread the disease.

The disease is best controlled by growing resistant varieties. Certain cultural practices also help to

prevent serious losses. For additional information, ask for B-938, "Cotton Production in Texas."

Anyone who thinks the customer isn't important should try doing without him for 90 days.

### QUESTIONS, PLEASE

**QUESTION:** "Is there more than one scriptural reason for divorce?"

**ANSWER:** The divorce rate in America is alarming! It is said that one out of every three American marriages ends up in divorce. Many of our Texas counties grant as many divorces each year as they do marriage licenses. This is not true of smaller towns in these counties. Many of the people who divorce in smaller towns will go to a larger town to get the divorce to "keep down talk." This has a tendency to raise the percentage of divorces in larger towns. When the sanctity of the home is undermined it is a tragic thing indeed for the nation as a whole. Now to the question. When is it right for a man to put away his wife and a wife to put away her husband? "Mental

Cruelty" is usually the grounds on which a divorce is obtained. What about this? "Incompatibility" is another catch-all in the divorce courts. The Lord said, "... whosoever shall put away his wife, saving for the cause of fornication, causeth her to commit adultery; and whosoever shall marry her that is divorced committeth adultery" (Matt. 5:31). Unfaithfulness is the ONLY reason for putting away a marriage partner. Fornication is one of the works of the flesh that is mentioned in Gal. 5:19. None of the things listed there will be permitted to inherit the kingdom of God. So one who puts away his wife, or her husband, for any other reason has lost his soul! This is a great loss, indeed, just to satisfy the lust of the flesh. No, there is only one scriptural reason for divorce.

You are invited to send your questions to: Bob Barnes, Box 812, Tahoka, Texas. You are also invited to attend all the services of the church of Christ.

### Rural Heroism Awards Offered

College Station—Texans who exhibit exceptional bravery during a time of crisis or disaster are eligible for the Texas Farm and Ranch Safety Council's "Rural Heroism Awards."

Three properly engraved plaques will be presented to as many state winners during the Texas Safety Association next March. Certificates with local presentations are planned for all nominees, according to the Council announcement.

Any heroic act involving personal danger or sacrifice to aid and assist others in time of crisis is eligible for entry in the program, provided the act was performed during 1960. Deadline for nominations is February 1, 1961. Nominations may be made by any person or groups and they should include complete information and substantiating evidence of the heroic act. This material will be used by the program judges to determine the three state winners.

Nominations should be sent to Heroism Award, Texas Safety Association, 830 Littlefield Building, Austin, Texas.

The Council's Award Committee with L. O. Tiedt of Houston as chairman said that last year's single state winner was J. Manuel Corral, Mexican bracero laborer who was lowered into an abandoned irrigation well to rescue a three year old boy. This incident occurred in the Dell City area of Hudspeth county.

Acts of bravery occur in many Texas communities each year, and while they do not go unnoticed, the Council wants to express its appreciation to those responsible for making life more pleasant and enjoyable in Texas, especially the rural areas.

Local county agents and teachers of vocational agriculture and Farm Bureaus have, or will soon have, available details on the program.

## Ladies Night At Methodist Men

Dr. Calvin Froehner, pastor of St. John Methodist Church in Lubbock, was the speaker at the annual ladies night meeting of Tahoka Methodist Men Wednesday on the back lawn of the Calloway Huffaker home.

Dr. Froehner delighted his large audience with a lot of wholesome humor, followed up with an inspiring talk along the general theme, "live the good life, and make the right mark."

Rev. J. B. Thompson introduced the speaker, and Frank Hill served as M. C.

Fred Hegi played organ music during the dinner hour, and accompanied Miss Linda Jones and Conrad Archer as they each sang a solo and then a duet.

The program was arranged by

V. F. Jones, who could not be present, on account of the recent death of his father.

A barbecue steak dinner with corn on the cob, beans, salad, etc. such as only the Huffakers can prepare, was served by Mr. and Mrs. Calloway Huffaker, Elmer Owens, and John F. Thomas.

A Baptist deacon, Silas Russ of O'Donnell, furnished the corn for the Methodists, Calloway says. "Apparently the Baptist corn had just the right amount of springling," one of the Methodists declared.

Johnny Reasonover, head of the local Methodist Men's organization presided at the meeting. For the September meeting, he appointed Eldon Carroll and Charles Townes to arrange the program and Tom Gill and Roger Bell to arrange the meal.

### TO THE MISINFORMED READER

The News received a false report in last week's classified advertisement to the effect that a "Youth for Kennedy" movement was being organized in Lynn County. Please note the invalidity of said ad. Every citizen, ministers included, should be interested and concerned in civic affairs; however, I, as a minister, feel that it is unethical for the clergy to take a lead in political movement as this ad. indicated. Thank you!—Gordon Smith.

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

An issue is before this session of Congress that affects the welfare of every business, on every job. But because real issue will probably be obscured by so much political propaganda, it is perhaps well to discuss bare, brutal facts.

The issue is briefly this. While the United States government, with a debt of almost \$300 billion, has long been in debt to its own citizens, now for perhaps first time in this century, U. S. is a debtor nation.

In the last two years, due to almost unrestricted foreign imports into this country and to tariff barriers against U. S. goods existing in foreign nations, the U. S. has a \$7.4 billion trade deficit.

Not a small part of this situation has been created by about \$70 billion sunk around the world in all kinds of so-called foreign aid schemes.

In other words, the more dollars that are shipped out of this country on one pretext or other, without a commensurate flow-back of currencies, goods, or other items of value, the deeper U. S. gets into debt to the rest of the world.

This is a serious situation. In the New Deal days when heavy government deficit spending created considerable concern, even though government expenditures in those days were peanuts compared to present level, official story was "the debt is of no consequence as it only represents what we owe to ourselves."

Without commenting on the soundness or unsoundness of this position at that time, it is significant that there is a great difference when a government owes its own people, and when it owes foreigners. For one thing, citizens must abide by whatever fiduciary fingling is dreamed up.

But, foreign central banking systems have decided they would rather have American gold than American dollars, with the result that the U. S. gold stocks have been depleted by almost \$3 billion by these foreign banks exchanging dollars for the yellow metal.

But it is illegal for any American citizen to have any gold reserve.

The problem is complex. Some government economists feel that the easiest way to handle the situation is to increase taxes.

Then there are some who feel solution is to stop foreign aid, reduce government spending and employment, and also protect American business and labor from the predatory attacks made by dumping onto U. S. shores of goods made with cheap foreign labor.

This latter group may or may not turn out to be a voice crying out in the wilderness. It is quite interesting, if not ironic, that Japan, a recipient of large sums of the foreign give away schemes, has not only turned in a lot of dollars for U. S. gold, but is still embarrassed by a surplus of American dollars. It is perhaps fitting to observe that no one hears anything more about that song rushed out right after Pearl Harbor by Tin Pan Alley which was titled "You're a Sap, Mr. Jap."

**Jerry Adams Is On Howard Payne Squad**

The News this week received a copy of the 1960 Howard Payne College Yellow Jack Press Year-Book, telling the college's athletic history and future prospects.

Among the prospects for this year is Jerry Adams, son of Mr. and Mrs. Jim Adams, a 205-pound, 6-foot, 2 inch candidate for center, who played freshman football last year.

The book has the following to say about Jerry: "Jerry Wayne Adams was a prize griddy cager and cinderman at Class-AA Tahoka High School, where he was twice all-district in football. He made the mythical team at his center position during the 1958 season, and at an end slot in 1957. He was a winner of three letters in football, basketball and track, and was a member of the National Honor Society. He was coached in high school by Bill Haralson, a HPC ex. who played football here in the early forties. Adams attended HPC last year, but did not see game action, accounting for his continuing freshman athletic status."

## Robinson Shoots In Ohio Event

Britt Robinson, 12-year-old trapshooting expert, accompanied by his father, Jack Alley Robinson, is in Vandalia, Ohio, this week shooting in the 60th annual Grand American Tournament. He is the defending champion in the sub-junior division, and last year placed in other divisions of the meet.

This year, he will participate in the singles, doubles, and with 2,500 other shooters in the handicap.

In this world series of trapshooting, a million and a half shells weighing a total of 50 tons of lead will be fired at as many clay discs by men and women from all the states and several foreign countries. Last year, there was an 83-year-old entrant and others ranging down to ten years of age.

Shooting the range, almost a mile long, is continuous throughout the day-light hours of this week. Twelve gauge shotguns are used. The junior amateurs are awarded trophies, but the seniors participate in cash prizes.

However, Britt will be shooting with the seniors, or all-comers, in most of the events. He has rapidly become known over the nation in shooting circles, and has about a score of trophies to attest his rare skill. His achievements have been the subject of stories in national publications such as Sports Afield, and he rates this paragraph in the September True Magazine, written by Lucian Carey, writer and gun expert, in telling of last year's Grand American: "Another thing I saw that delighted me was a little kid, Britt Robinson, shooting a 12 gauge gun that looked almost as big as he was. He won the sub-junior trophy with 191 out of 200."

# Farmers Warned On Use of Reserve Land For Grazing And Crops

Office Manager Charles G. Bragg of the Lynn County Agricultural Stabilization and Conservation August 10th reminded farmers with land in the Conservation Reserve of their continuing responsibility to refrain from using this land for grazing or harvesting any crop from it during the contract period.

"Even though we are not authorized to take new land into the Conservation Reserve," Mr. Bragg said, "there has been no change in the regulations concerning the land retired from production under existing contracts. The farmer is being paid on an annual rental for compliance with his Conservation Reserve contract, and in most cases has already received his payment for a part of the cost of establishing a conservation practice on the land. In return, he is obligated to exercise his responsibility of withholding the land from production for the life of the contract."

There are 33,562 Conservation Reserve contracts in effect in Texas involving a total of 3,647,523

acres of cropland. Of these contracts 16,833 are "whole farm" contracts, covering all the cropland on the farm. Some of this land will be held out of production through the 1969 crop season.

Nationally, there is a total of about 28.6 million acres in the Conservation Reserve in 48 of the 50 states. This acreage involves part or all of the cropland of about 305,000 farms which have a total farmland acreage of 96.1 million acres, or nearly 10 percent of the total U. S. acreage in farms.

The Conservation Reserve program provides for limiting the production on the participating farms. In addition, new land may not be brought into production on these farms. On all participating farms the acreage normally used for the production of crops must be reduced. On farms that have all cropland in the program all the acreage is withdrawn from crop production. Nationally 70 percent of participating farms have placed all cropland in the Reserve.

## Apathy Cause Of Nation's Troubles

Otis Spears, superintendent of the Tahoka Schools, in a talk before Tahoka Rotary Club Thursday noon of last week, made an impressive appeal for a return to love of country which made America great and more consciousness of individual citizens of the principles of democracy.

Through apathy, possibly neglect of something in our homes and schools, citizens no longer respect our government and its leaders as they should.

As a background, he reviewed some of the instances that have led to apathy and lack of respect.

First, there was the secret Yalta agreement of Roosevelt, Churchill and Stalin, wherein help was promised Russia in return of the Soviet's help against Japan. Russia over-ran several European countries, and was given a big slice of Germany.

Then, there was the promise to make Korea an independent nation, and the Korean agreement that prevented American troops from passing the 38th parallel and the Yalu River to win a war against Communists in Korea.

Immediately, the U. S. lost face in the Orient. Back in 1946, the United Nations was doomed to failure, and Stalin had betrayed Roosevelt and Churchill. The kind-hearted action of the U. S. and the U.N. operated in such a manner as to throw us in an unfavorable light to the rest of the world.

Still later, came the humiliation of Vice President Nixon and wife in South America, the embarrassment of the Secretary of State in Japan on the eve of the President's visit by riots which Russia is reputed to have spent \$100,000 to promote, and the defection of Cuba toward Communism after the U.S. had practically brought into being this country.

All is not well in domestic and political affairs, Spears stated, when a nominee for president, John Kennedy, humbled himself to apologize to such near-gangster labor leaders as Walter Reuther, and George Meany in an attempt to gain their support.

Spears told of the rise from mediocrity of Patrick Henry to greatness by reason of his work in the Continental Congress and the "give me liberty or give me death" speech that helped form the principles that made the United States great.

We have gotten to a point where we think only of ourselves or our community and the immediate future, he declared. Rome was not invincible, and following a similar course the United States can fall, he indicated, for the same reasons of softness and apathy.

He read the letter of a father to his son, as printed in the New York Globe, telling of the meaning of the flag and the things for which it stands, and suggested that we again take a look at those principles and live by them as individuals.

GENERAL OF THE ARMIES John J. Pershing. With the outbreak of World War II, the services of General Pershing were invaluable to the nation's war program. He was active and willing to serve until the last years of his life. (U.S. Army photograph of a painting by Philip de Lazzo, Paris, 1934)

"How long has it been since you had a lump come in your throat when the flag went passing by?" he asked.

J. P. "Pete" Hewlett, program chairman for the month, introduced the speaker.

Granvel Ayer, institutional representative of the Boy Scout troop, announced that Rush Dudgeon has been secured to serve as scoutmaster, succeeding Allyn B. Cox, who has moved away.

Maurice Small announced that season football tickets are on sale at the school office.

**ACCURATE OVEN CONTROL AS LOW AS 140°!**

At last, here is glorious freedom from the frustrations of dinner delays and dried-out foods. With the remarkable **FLAME MASTER** oven control, you can cook meals even hours in advance . . . secure in the knowledge that whenever your family or guests are ready . . . the meal is ready, at precisely the right serving temperature!

Until now, most temperature settings below 200° have been "guesstimates"—subject to wide fluctuations. The **FLAME MASTER** provides pin point accuracy at any setting from 550° down to 140°! What's more, it lets you pre-warm your best dishes without danger . . . thaw foods more quickly and evenly. For example, a 7-lb. turkey can be thawed in about 2½ hours vs. 14 hours at room temperature!

# Printer's Ink-lings . . .

By F. P. H.

Read in the daily press the other day that Odus Mitchell, head coach at North Texas State for 14 years, has the 11th best won-lost record among coaches of the nation. We roomed with old Odus two years in college at the home of our uncle and aunt, Dr. and Mrs. J. A. Hill, in Canyon. We know him like a book, and will guarantee there have never been many finer fellows. Pete Hegi went to school with him at Petersburg, and the Printer's wife, Mae, went to school with him at Crosbyton—and they both say the same thing.

But, what we want to say here is that Odus Mitchell is a shining example of the fact that one does not have to have pa's check book in order to get a college education. Odus came to school with a few dollars, got a job and paid every penny of his own way for a B. A. degree—and didn't take the snap courses, either. And, he found time to participate in all sports.

He was the greatest athlete we ever knew—and that was before the day of athletic scholarships. He made the football team as a freshman, played in the first football game, at end, he ever saw. As a center in basketball, although only 5-feet, 11-inches tall, he never met but one man who could out-jump him. He made the track team and the basketball team, and represent-

ed the school in tennis. He excelled in all. We believe we are correct in stating he is the only athlete in Texas history to win 17 college letters in four years of sports. But, he was just about as great morally and mentally as he was athletically. Since taking a job as coach at Post in 1925, later at Pampa, he has been a builder of men—and we know that the games won are not a true indication of the worth that he is to North Texas State and the boys under him.

M. and Mrs. W. S. Jasper, now nearly 80, were in town Monday, accompanied by their daughter, Miss Ruby. Many people will remember that Mrs. Jasper farmed her own crop for many years, quite an accomplishment for a lady, and when she was past 70 years of age she was driving her own tractor. Although they retired from farming in 1954, the Jaspers are still very interested in their farms and farm life.

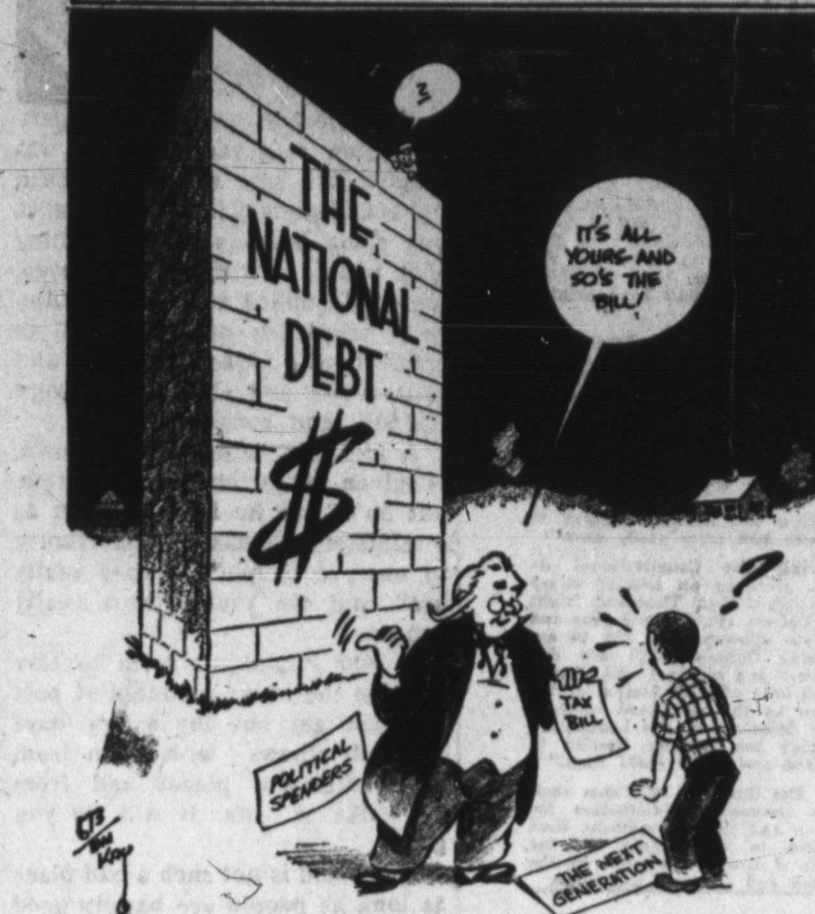

Wilmer Smith is getting a big "kick" out of serving on the Texas Tech College board of regents. He says he doubts if there has ever been a board with members more agreeable to get along with than the present one. They have their differences, and a variance of honest convictions, but every member respects every other member and remain friends—which is fine for the college.

If you haven't done so lately, drive out and look over the T-Bar Country Club. The grounds are just about covered with grass, the greens are among the best in West Texas, and the new clubhouse is nearing completion.

This has proven to be a popular recreation spot for a lot of Lynn county people, and is an asset to our town. The club now has a value of possibly \$75,000, and it was built largely by members, plus generous contributions from a number of citizens, plus the deft touch of G. S. Perez, greenskeeper.

When Mrs. Mollie Edwards gave the land and less than 100 members were signed up, a lot of home folks said it couldn't be done. But, members and others pitched in and did a lot of the manual work building the greens and fairways themselves. The project has been generously supported by such people as Mrs. Pearl Calloway of Abilene, the D. W. Gagnats and daughter, Myrna Verner, the W. B. Slatons, and

# THE AMERICAN WAY

Junior's Legacy

scores of others. Officers strive to keep the place a clean one where members may take their wives and children. The club has operated on a cash basis. The membership is growing. Principal need now, to make this a show place, is the planting of more trees and shrubs, which should come in the not too distant future.

Recently, some youths have been breaking into the clubhouse, stealing small items, and otherwise damaging the property. Club officers are appealing to the common decency of these people to refrain from such. There's a pretty good idea as to the identity of these predators, and they should take a hint and desist now, or they may suffer the embarrassment of court charges.

John F. Thomas is about to become a golfing farmer. He told his wife, Norma, who had played only a few rounds previously, that he would start playing himself if she won the final match in the ladies' consolation match. Norma won, and friends say they are going to hold John to his promise.

A talk made by Otis Spears at the Rotary Club last Thursday was a masterpiece. Of a partritic nature, the address rekindled a spark of love for our country in the hearts of all who heard him—a realization that America is only as big as its individual citizens, and that the things we teach our children at home and at school can determine the future of a nation now being discredited at home and abroad.

Grandpa and Grandma are all excited today. The kids are coming home. One doesn't miss his grandkids so much until they leave for an extended period. Vicki, Becky, and Fran will be queens at our house for a few days.

Nearly all of our controversies and combats arise from the fact that we are trying to get something from each other. There will be peace when our aim is to do something for each other. Society will take an immeasurable step toward peace when it estimates a citizen by his output rather than by his income.—William Jennings Bryan.

Heard this week on the street: A rain right now would mean 20,000 bales of cotton and 50,000 tons of maize to Lynn county.

Boyce House says: A judge in an Eastern state ruled that the mere fact that a wife shot at her husband one time was not sufficient grounds for divorce. In Texas when a wife shoots at her husband one time, he doesn't need a divorce.

A school teacher asked the pupils to write a short essay and to choose their own subjects. A little girl sent in the following paper: "My subject is 'Ants.' Ants is two kinds, insects and lady uncles."

#### ANOTHER THEORY ON NAMING OF LYNN COUNTY

I noticed an article in the Lynn County News, about how Lynn County was named after George W. Lynn.

As I was the first historian for the Old Settlers Reunion in Lynn County, I looked up the name of the man whom Lynn County was named after.

My father, C. H. Doak, had an old history on Texas and the naming of the counties. In this book it stated that Lynn County was named after Granville W. Lynn. My father and mother have been gone for several years, and in moving their things, the history book has been misplaced.

But I do remember that Granville W. Lynn was captured by the

Mexican government and placed in prison in Mexico City. He had been in prison for almost two years. The Mexicans bought a stamp mill and were trying to assemble it. Mr. Lynn could see them working on it from his window.

After they had worked on the mill for some time and could not get it to work, Mr. Lynn told his guard he could assemble the mill. The guard told the officials about it. So the Mexicans told him they would give him his freedom if he could make the stamp mill work.

And even though Mr. Lynn had never seen a stamp mill before, he was able to assemble it. He ran the mill for them for several months, and then returned to Texas.

As best I can remember, he worked in Austin, Texas in some of his official capacity. I am sure he did not die in the Alamo.

Van Sanders and my father, Charles H. Doak, were the two men who rode horseback, and carried the petition over Lynn County to get it organized.

Yours truly,  
Jewell Doak Rodgers, Vista, Calif., Aug. 27, 1960.

Editor:  
We who oppose a Catholic for President are not biased, prejudiced or disloyal Democrats. Rather we are loyal to our God who made us creatures of choice, to our Constitution that gives us freedom of religion, speech and press, and our forefathers who gave their lives that we might enjoy these freedoms.

Kennedy has stated that to criticize the Catholic church is to criticize him. He has submitted to its pressures before and he will again. The Democratic platform takes too much authority from the states and puts too much in Washington. With 91 Catholics already planted in our lawmaking body, a vote for Kennedy would be a vote to hand our country to Catholicism on a silver platter.

If Kennedy can get L. B. J. behind a closed door for a few minutes and make him turn completely around, what could the pope or Khrushchev do to him?

### Everyday Religion

The greatest thing we experienced on our vacation trip was people. We saw many beautiful sights and scenery in the mountains, but came home with the feeling that people are nice. We passed, met and rubbed elbows with literally thousands on the roads, in cafes, motels, parks, at church, and everywhere and always they were friendly and considerate.

A minister, where he is known, is given a certain consideration, but on a trip he is not known as a minister and has an opportunity to observe people "as they really are" and we found them really genuine.

If you sometimes seem to lose faith in the basic goodness of people just get out for a few days and rub elbows with them from many different places and from all walks of life. It will do you good.

The world is not such a bad place as long as people are basically good and friendly. There would be no more wars if it were left up to the people to decide the world's fate. It is selfish and greedy leaders who start wars and create world strife.

**The Upper Room**

Ye shall be witnesses unto me . . . unto the uttermost part of the earth. (Acts 1:8.)

The main business of the church, and the first business of every Christian, is to witness for the Lord. I heard Dr. Ralph Sockman say in a sermon at the Oxford Conference in 1957, "Some laymen just sit back and pay the bills, and some just sit back."

It is easy for us to "just sit back." My daughter was only six, when, coming home from a morning service, she said, "Daddy, are all those men at church preachers or just watchers?" Every Christian should be a preacher for Christ, but too many of us are just watchers.

We witness by our words. We may become false witnesses by what we fail to say for Christ as much as by what we do say. We are to witness by our works. Doing this is more than lip service. The condemnation in the parable of the Great Judgment is for what people failed to do.

We serve Christ by serving others. Above all, we witness by our worth. Earth may ask, "What have you?" Heaven may ask "What have you done?" God asks, "What one is dominates what he has and determines what he does.

Prayer: Eternal God, Thou art the source of our power. Help us to hear Thy voice commissioning us to witness for Christ. Help us to be true witnesses in what we say, do, and are. For our Redeemer's sake. Amen.
