Missionaries, Here From Cuba, Tell Conditions Since Revolution

(By Pat Jacobs)

Rev. and Mrs. Howard Conrad and their two children, David, 4, and Pamela, 2, have returned home from Cuba at the request of their church, the Church of the Nazarene, because of rising tensions in that country. They are at the home of Mrs. Conrad's parents, Mr. and Mrs. T. J. Murray in the Grassland community.

The missionaries, following their first assignment in that field, will now wait until January and may return to Cuba if the church feels that conditions will permit.

Leaving Havana, Cuba, on July 14, Mrs. Conrad said that the communist influence and the anti-U. S. feeling had made it difficult for their work to be effective. However, most Cubans like Americans and only the radical revolutionary minorities are responsible for the constant agitation against the U. S. Because of their respect for Americans, very few of the latter have been attacked. Only during the last week of the Conrads' stay in Cuba were there rumors of such attacks and none of these were against missionaries.

Mrs. Conrad spoke for the couple in her husband's absence. He is in Albuquerque for a physical check-up, which became necessary following the strain of the last few months.

Although there were no attacks against missionaries, Mrs. Conrad said that many Cubans had repeatedly warned Rev. Conrad to be careful what he said, since it has become a criminal offense to criticize the now-operating communist government.

When the couple first arrived in Cuba, Rev. Conrad was a teacher in the Bible School in Havana which (Cont'd. on Back Page)

40 People On Beef Calf Tour

About 40 people made the annual 4-H Club beef calf tour Friday of last week, according to County Agent Bill Griffin.

Refreshments, courtesy of Wells Coop Gin, were served on the Bertice Askew farm.

Parents, club boys and other interested people viewed the calves of Dean and Rex Hamilton, James Smith, Lester Ford, Jack Wood, Lyndol Askew, Harold Bessire, Ronnie Wood and Daphne Hogg.

Showers Sunday Night Helped

Showers ranging from a sprinkle up to two inches fell over much of the eastern half of Lynn county Sunday night bringing moisture needed very badly by many dryland crops.

Heaviest rain reported was two inches at the Paul McDonald place near Midway, two inches just west of Six Mile Station in the Edith community, nearly as much on the Edwards and Carter farms between Grassland and Redwine. Parts of the Redwine community received a good rain, but further south the showers dwindled to a half inch at Draw and then played out.

Good rain was reported over most of the Grassland area, parts of the New Lynn and Gordon area and extending up toward Slaton. Also, a half inch shower fell southwest of Tahoka in the vicinity of the Hagood farms but was heavier south, some of the Wells community received up to two inches.

Most crops have been doing surprisingly well. The News is informed, in spite of the dry weather. Some feed has been burning, as has some of the cotton. Cooler nights, however, have helped.

Britt Robinson Repeats As Champ

Britt Robinson, 12-year old Tahoka seventh grade student, repeated as the Sub-Junior Singles clay target trapshooter in the 61st annual Grand American Tournament held in Vandalia, Ohio, last week. His score was 196 out of a possible 200.

As the defending champion, he is the only youth ever to repeat as the world champion sub-junior. He also finished high in the Grand American Handicap shoot, competing against all-comers, a total of 2,470 marksmen from every state in the Union and several foreign countries. In this event, the winner shot a perfect 100-100, eleven shooters shot 99-100, and Britt's score was 96 out of 100, still high enough to be among the top shooters in the event.

Winner of the handicap was Roy N. Foxworthy, 31, of Indianapolis, shooting from the 20-foot line. Britt had to shoot from the 22-foot line, but he led all Texas shooters in the meet, nearly all of whom had been shooting for many years.

His record this year proved to the National shooting fraternity that his win last year was no "fluke." Britt is the son of Mr. and Mrs. Jack Alley Robinson; and his grandparents are Mr. and Mrs. Hall Robinson and Mr. and Mrs. G. R. (Bud) Milliken. His daddy accompanied him to Vandalia.

Mr. and Mrs. J. C. Burgett of Galveston were here visiting her sister, Mrs. Happy Smith, and will be here for Sue, Smith's wedding.

A cowboy who was completely disgusted was described as "lookin' for a dog to kick."

First Bale To Sell Saturday

The first bale of 1960 cotton ginned in Lynn county by Carroll Edwards raised within the city limits of Tahoka, will be sold at auction Saturday at 2:30 p. m. in front of the First National Bank by the Chamber of Commerce and Lynn county ginners.

The bale was ginned at 8:20 a. m. Friday at Farmers-Coop Gin of Tahoka. Curtis Stevens, manager, said 27 hands were sent to the field at 5:30 a. m. that morning, and in less than three hours the bale had been picked, ginned and dumped on the First National Bank corner.

Mr. Edwards' 1750 pounds of seed cotton was pulled from about 12 acres of his cotton land in the eastern outskirts of Tahoka. The ginned bale weighed 450 pounds and the seed 670 pounds. Staple and grade is reported to be "good."

The variety is Blightmaster, planted on April 20th.

Ginners of the county and Tahoka Chamber of Commerce put up the premium for the first bale. The C. of C. gives \$200, and the ginners fund stood at about \$175.00 on Thursday. Therefore, the first bale may possibly bring Mr. Edwards a \$100 per pound.

Earl Grider will auction off the bale.

Arlis Askew of Wells brought in the first bale last year on August 19, exactly a week earlier than this year's first bale.

Jim Dulin Hurt In Accident Here

J. E. (Jim) Dulin, 44, was critically injured shortly after 1:00 p. m. Wednesday when a tire rim blew off a road grader at Tatum Bros. Elevators and hit him in the forehead fracturing his skull.

He was still on the critical list Thursday morning at Methodist Hospital, but his physician had told the family he didn't think there was any brain damage. Dulin was rushed to Tahoka Hospital for treatment, and was sent on to a specialist at Lubbock in a Stanley ambulance.

Leighton Knox, manager at Tatum Bros., said Jim and B. Novian were airing up a tire on an old road grader behind the elevator from an air tank mounted on a pick-up. The lock rim blew off, striking Dulin in the forehead.

Andrew Hill of West Point is showing improvement in Tahoka Hospital after having suffered a heart attack last week.

Funds borrowed for the project from the government will be repaid by the CRD Authority.

The Authority has called a meeting for Sept. 12, at which time the board expects to set a date for an election in the member cities for final approval of the project. Then, another election will be necessary by the Authority at large to approve letting of the contract, according to E. R. Edwards, Tahoka's representative on the board.

Housing Project Work Progresses

Work is progressing at a steady pace on the 14-unit \$128,700 low rent housing project of the Housing Authority of the City of Tahoka, and workers are due to start putting on brick veneering this week end.

This project is contracted by Smith & Wardrup Construction Co. of Lubbock, and Wyatt C. Headrick of Fort Worth is the architect.

Six units are being erected for white families at South Seventh and Sanders, four units for Mexicans at South Third and McDaniel, and four units for Negroes at North Seventh and Standefer.

The brick duplex homes will be complete with lawn grass, shrubs and trees planted, and each unit will have a range, refrigerator and Venetian blinds furnished.

J. M. Uzzle, secretary of the Authority, says there are ten applicants for the Negro units, seven for the Mexican units, but only three have made application for renting the six units for white people.

For those who can qualify for renting the units, the minimum rental price is \$27.00 per month, including utility bills. The rental charges are based on size of family and income of the family, principally.

Uzzle cites this example: A couple with six children and an income of \$2,400 a year can rent one of the units for \$30.00 per month.

Visitors in the home of Mr. and Mrs. Charlie Lichey of Wilson last week were her parents, Mr. and Mrs. E. L. McCrary and a sister, Mrs. Billy Giles and boy, all of Fort Worth. They were here for the wedding of Mary Lou Lichey and Don Boggus.

Bulldogs Open 1960 Football With Frenship Tigers Tonight

Tahoka Bulldogs open the season with the Frenship Tigers tonight at Wolforth. Friday of next week the Bulldogs play at Crosbyton, and will not have a home game until they meet O'Donnell here on September 16th.

Although the squad is small in number and short on experience, Coach J. D. Atwell, here his second year since moving from Farwell, and Coach Jerry Don Brown, here his first year after having been assistant at New Home last year, are complimentary of their boys for the hustle and desire shown so far.

The boys left on the squad have been working hard and are eager to play the game. Fans expect to see them win a few games this

fall barring key injuries. The coaches say the boys are in top physical condition.

The Frenship Tigers have been pretty rugged the last few years, but had a 5-5 won-lost record last year in District 5-A. They have a crew of big experienced boys who are predicted to go places this year. Only four starters were lost from last year's team, while Tahoka lost eight starters.

Frenship plays in the same district with Sundown, Plains, Seagraves and O'Donnell.

Gene Tyler is the head coach and his assistants are Larry Roberts and Jack Tolbert.

Tackle Roy O'Donnell, 175; Guards Ira Giddens, 168, and Doug Holtzman, 140; Center, Richard Coleman, 204; Quarterback Jim Stapleton, 145; Halfback David Rich, 160; and Fullback James O'Donnell, 162.

Also seeing action will be Vernon Rae, 153, at halfback; Charles Caswell, 155, at tackle; Mike Burgamy, 140, at quarterback; and the other end is a question mark.

Following is the roster of the Tahoka Bulldogs:

100 Bridge Players Honor Mrs. Wharton At Tournament Here Saturday Night

One hundred people attended the one-session open-pairs bridge tournament held Saturday night at the City-Legion building honoring Mrs. W. C. (Louise) Wharton, who had just recently reached the Life Master goal in the American Contract Bridge League.

Her Life Master card, the highest ranking among bridge players, was presented by Johnny Wells, T-Bar Duplicate Club director, in pre-game ceremonies. The ranking is granted by ACBL when a player achieves 300 master points, a certain number of which must be "red" points achieved in National or Regional tournaments.

Tahoka now has two Life Masters, the other being Mrs. Chas. (Myrna) Verner, and Lubbock has two, which will give some indication of the honor bestowed in the bridge world.

Clint Walker, who served as master of ceremonies at the presentation, reviewed Mrs. Wharton's bridge career. She played her first duplicate bridge in Lubbock in 1954 as a partner of Mrs. Verner, and the two played together in San Antonio Regional recently when Mrs. Wharton received sufficient "red" points to become a Life Master. In between, Mrs. Wharton had played in a number of regional tournaments. Mrs. Wharton initiated duplicate play in Tahoka, and the local club trophy is named in her honor the Louise Wharton Traveling Trophy.

Representing the West Coast division, Stan Sutton of Artesia, N. M., presented Mrs. Wharton a gift.

Among players here Saturday night at 20 tables of duplicate were a number from Lubbock and Tahoka and also players from Odessa, Fort Worth, Post and Artesia.

Life Masters playing in the event were Mrs. Wharton and Mrs. Verner, Mrs. Iona Sutton of Artesia, and Calvert Curry of Lubbock. Only other Life Master in the area is Mrs. "Boots" Kendrick of Lubbock.

Duplicate play was in two sections of ten tables each.

Mrs. Dudley Walker and Mrs. Bill Swart, both of Lubbock, were the first place over-all winners.

Mr. and Mrs. W. D. Bills of Lubbock placed second.

El L. Short and H. B. McCord Jr., who have been playing bridge only a few months, were able to stump some of the experts and came in third in over-all competition.

Tahokans placing high in their section were Mrs. Wharton and Mrs. Verner, "Sonny" Roberts and Mrs. Oscar Roberts, and Mr. and Mrs. Larry Hagood.

Duplicate play was directed by Mr. and Mrs. E. L. Coggins of Lubbock, assisted by Mr. and Mrs. Johnny Wells of Tahoka.

There was also a division for party bridge players directed by Mrs. Charles Townes in which Mrs. Mitchell Williams and her mother, Mrs. Pearl Holloway of Hope, Ark., won first place and Mr. and Mrs. Roscoe Treadaway, won second. Mrs. Skiles Thomas won the bingo prize.

Refreshments were served during play by local club members, and following the sessions sandwiches, cold drinks and coffee were served.

Mr. Wells said the \$178.00 in admission receipts will be donated to the T-Bar Country Club building fund.

Choirs Organize At First Baptist

During the month of September graded choirs will be organized at the First Baptist Church of Tahoka under the direction of Bill J. Choate, minister of music. A choir will be organized to meet the needs of each age group from Primaries through Adults.

The Youth Choir, the first to be organized, will meet Sunday, Sept. 4, at 5:30 p. m. This choir will be made up of young people and intermediates. Rehearsal will precede Training Union which is at 6:30, and there will be refreshments served to the choir at the close of the rehearsal period.

Enrollment for the Junior and Primary choirs will be Wednesday evening, Sept. 7, at 7:15 o'clock. These choirs will meet each Wednesday at this time and will be dismissed at 8:00.

The Adult choir is functioning at present but will be formally organized Wednesday evening, Sept. 7, at 8:30. This is regular rehearsal time for the adult choir and it will be dismissed at 9:15.

Besides these choral groups, other ensembles will be formed in-

Two Youths Home From International Luther League

Two young members of St. John Lutheran Church, Wilson, Rodney Maeker, son of Mr. and Mrs. Edmund Maeker, Rt. 2, Wilson, and Stanley Krause, son of Mr. and Mrs. Albert Krause, Rt. 4, Tahoka, recently returned from the Constituting Convention of the International Luther League of the American Lutheran Church, held in Milwaukee, Wisconsin, August 16-21.

More than 2,000 attended this convention which merged the youth of the American Lutheran, Evangelical Lutheran, and the United Evangelical Lutheran into one Luther League.

Rodney left August 10 to attend a Youth Leadership Conference for Federation presidents of the United States and Canada. He is the president of the Northwest Texas Federation, Stanley is the president of the Luther League of St. John Lutheran Church.

The convention closed with a Holy Communion service. An added attraction of the convention was to see the Milwaukee Braves in a baseball game.

cluing a quartet, trio, and a church orchestra. Enrollment for these choirs will be open through the month of September. The next enrollment period will be in January.

All groups will be under the personal direction of Mr. Choate except the Primary choir, which will be directed by Mrs. L. D. Howell.

Mrs. John Minor returned Thursday of last week after spending two weeks with her sons, Jack Minor at Seagraves and Joe Minor at Brownfield.

HIGH-PRICED WATER (Lockney Beacon)

Voters of four towns in this area have approved contracts with the White River Municipal Water District thus almost insuring the construction of the White River Dam some 18 miles below Crosbyton. It shows that these people are optimistic of the future, are progressive and determined to solve their water problems. Surprising is the one-sided vote for the project in view of the unusually high cost the users will have to pay for the water. At Crosbyton for instance, the proposed rates are \$5 for the minimum 3,000 gallons; 80 cents per 1,000 for the next 7,000 gallons; 75 cents per 1,000 gallons for the next 10,000 gallons; 60 cents per 1,000 for the next 20,000 gallons. Compare this with our own rate of \$2.00 for the minimum 3,000

gallons and 25 cents per 1,000 after that and you'll see what we mean. The water revenue pays for only about one-half the cost of the dam, the remainder coming from tax levies.

New Home Will Play Tonight

New Home Leopards open the 1960 football season tonight at 8:00 in their new stadium, located just east of the old field, with the Hart Longhorns as their opponents.

Coach Chas. W. Yarbrough, who has a new assistant this year in Roy Lynn Kahlich of Wilson, has some good boys and a scrappy ball club which the community thinks has a chance to be the best team in several years.

Friday of next week, the Leopards will play at Ropes.

Coach Yarbrough has 18 boys with experience, and seven boys up from the grade school team.

Those out this week were:

Seniors: Ronald Wyatt, halfback; Larry Brown, end; David Crooks, fullback; Juan Rodriguez, back; Russell Balch, back; and Ronnie Harston, tackle. Wyatt, Brown, and Crooks are tri-captains this year.

Juniors: Charles Crabtree, tackle; Dennis Haley, guard; Marlow Rudd, quarterback; Clarence Nieman, guard; Russell Swinson, end and back; Lonnie Roper, center. Arthur Airhart, who has a broken arm, will be able to play soon, possibly in the Ropes game. He is a half-back.

Sophomores: Roy Draper, line; Lynn Edwards, guard; Bill Kopecky, tackle; Ronnie Mouser, back; and Basil Salmon, tackle and center.

Freshman: Terry Brown, Elton George, Billy Dave Hancock, Don B. Rudd, Max Blakney, David Unfried, and Jerry Todd.

Some of these boys may not play the positions indicated, but may be shifted around to meet conditions.

Stanley Receives New Ambulance

A new ambulance of the most modern type has been received by Stanley Funeral Home, according to Martin White, manager.

The ambulance will accommodate two stretchers, and is equipped with every modern device, including air conditioning, complete up-to-date first aid equipment, oxygen equipment, and mouth-to-mouth breathing tubes.

Furthermore, White says, the ambulance is driven by card holders of Red Cross Advanced First Aid.

Building Occupants Should Clean Roofs

Owners of business buildings may save themselves a lot of trouble and expense on roof repairs, lessen the fire hazard, and possibly prevent injury to some person if they would check their building roofs and clean them up.

This is a suggestion from Johnny Raindl, city fire marshal, who has found that there is a lot of rubbish on a lot of Tahoka building roofs.

Boards, sticks, buckets, and trash not only are the cause of wearing holes in flat roofs, and choke up drain pipes, but they are also a fire hazard. High winds sometimes blow such off of roofs onto streets and such blowing debris could possibly injure some one.

Miss Wynn Writing History of County

A history of Lynn county is being written by Miss Tommie Edith Wynn for her Master's degree thesis under Dr. Bailey C. Carrilli at the University of Texas.

Miss Wynn has been busy for some time doing research work and gathering material for the thesis, and was here last week end checking material in the office of The Lynn County News.

She formerly lived in the Gordon community and is a sister of Noble Wynn.

Just recently she had photostatic copies made of existing state records to confirm the naming of this county for George (or Granderson) W. Lynn, pioneer Texan, who died in the Alamo.

There has always been some doubt among historians as to for whom this county was named.

NEW HOME CIVIC CLUB WILL MEET MONDAY

Mr. and Mrs. Hubert Davis of Marlin were here this week visiting her mother, Mrs. E. S. Davis, and brother Otis. They went from here to Pampa to visit their son, Bob.

Hubert finished high school here in 1923 and "stole" his wife, Veda, before she could quite finish school. He was manager of the Chamber of Commerce in Marlin for many years before becoming associated with Lone Star Gas Company.

Dr. Cash King Is Visitor In Tahoka

Dr. Cash King, prominent physician in New Orleans, and his mother, Mrs. Carl King of Lubbock, were visitors in Tahoka the first of the week. He has a brother, Dr. Carl King, who is also prominent in medical circles.

The King boys were reared here. Maurice Small was recalling that when the two now-prominent doctors were in high school, they rode horses five miles to school in the morning, after they had milked the cows, built the fires in the coal stoves, and then attended class all day. At the end of the school day, they did the school janitor work, including sweeping out all the rooms, splitting kindling and bringing in coal for the next day. Then, they rode horses home, milked again and did up the other chores before doing their night study for the next day.

However, he says they were getting some training and discipline that resulted in their reaching high goals in life.

Mrs. Earl Morris of Gordon Writes of Recent Trip to East, New York City

Mr. and Mrs. Earl Morris of Gordon sends The News the following article on their recent trip to New York City:

All our lives we knew there was a big town some where called New York City, but visiting this city was beyond our wildest dreams until a daughter and family, the W. A. Lymans of Dallas invited us to go with them to visit another daughter and family, the Arden Mackers, who recently moved to Long Island, N. Y.

We left Dallas at 2:30 p. m. August 5 and drove to Benton, Ark. where we spent the night. Took off early next morning and stopped for lunch in Centerville, Tenn. The restaurant was crowded but we were finally seated with an elderly lady and in talking with her found out she was Minnie Pearl's mother, Mrs. Collee. She said, "Don't pronounce it like the dog." She is a very friendly lady and we enjoyed our visit with her. She told us she is a Methodist and a Democrat, but not a died-in-the-wool one.

We drove then to Memphis, Nashville, Knoxville and spent the night with a cousin, John Browder and family near Lenori City. We were tempted to spend our vacation here when we saw about 20 Jersey milch cows in the lot and a number of canvassed hams hanging in the smokehouse. But we drove on through this little but beautiful state with its mountains, rivers, trees and flowers.

Bristol was the next city in line where we crossed over into Virginia. This is a lovely state—we just can't describe it. We spent the night in Stanton and next morning drove over the beautiful skyline drive in the Blue Ridge Mountains, ate breakfast up there, and that cool mountain air made one forget all about his good intentions to diet. We drove around in Washington, D. C., saw the White House, the Capitol, and many other interesting sights in this city.

We drove into New York City about 4:00 p. m. and drove under rivers, over railroads, and through tunnels before we found ourselves on the other side of the city. Long Island is about 40 miles southeast and on the coast of the Atlantic. There is a canal between each two rows of houses and everyone has a motor boat parked at the back. We visited the ocean and the younger ones went swimming but we just pulled off our shoes and waded.

Sunday we attended church and spent the afternoon viewing New York City from a car. We rode a ferry boat to Stanten Island, saw the Statue of Liberty and a number of important buildings in the city. That place is okay, just so we don't have to live there.

Early Thursday, August 18, we joyfully began our tour to Texas. We drove over New Jersey and Pennsylvania turnpikes, spent the night in Columbus, Ohio, drove through Indiana, Illinois, Missouri, and spent the night at Leonardwood, Mo. Then we drove to Oklahoma and over the Will Rogers turnpike 47 miles and then turned south to Texas.

We went through 14 states, saw some lovely country and many interesting things but nothing looked as good as home. We spent Saturday night in Dallas and Sunday afternoon drove out to Rule and spent the night with a sister, Mr. and Mrs. O. G. Lewis. We found ourselves home Monday and believe we have enough to talk about for some time to come.

Our Meaker family is really enjoying the summer up in New York. Arden likes the work he's taking at Sperry Gyroscope Corp. and Janey and the girls practically live in the water. They will be sent to another state after the 10th.

On the western frontier, the woman of the saloons and honky-tonks was called a "calico queen."

Fair Boosters Coming Tuesday

Dozens of Lubbock businessmen will participate in the Panhandle-South Plains Fair goodwill booster trips, scheduled to roll into Tahoka Tuesday, Sept. 13.

The Fair has special meaning to Tahoka and Lynn county this year, as in years past, since Lynn County Agent W. B. Griffin is general superintendent of the livestock department at the Fair.

The goodwill boosters, visiting South Plains cities in an effort to build good relations throughout the trade area, leave Lubbock after an early breakfast and distribute a Fair newspaper, placards, balloons and other literature.

On the first day of the tour, the merry-makers will visit Ropesville, Meadow, Brownfield, Wilson, Tahoka, O'Donnell, Lamesa, Gail, Snyder and Post.

The visitors will be in Tahoka on the first trip. A total of five trips are planned, which will take the boosters to more than 45 South Plains cities.

Some of the boosters—seasoned veterans of the group that each year becomes for a few days a goodwill ambassador for Lubbock—have made the trips for several years in succession.

This year, each of the five trips will be sponsored by one or more civic clubs in Lubbock.

The Fair boosters will be laden with souvenirs, free tickets for Kids' Day at the Fair, and literature. The goodwill ambassadors will provide special entertainment in each city they visit.

A man who came West from the East to go into the cattle business primarily for the money that was in it, was often referred to as a "bootblack puncher" by the old cowhands.

PRADER SCHOLASTIC AVERAGE IMPROVES

Lubbock—As Texas Tech's fall roster is compared with last year's lineup, one fact is pleasantly emphasized—the Red Raider scholastic average has improved.

Of all the athletes on the football squad last spring, only one was lost by low grades. Only four fell during the fall semester. This includes freshmen and varsity performers.

Much of the credit for this improvement over previous years goes to Coach Junior Arterburn. He keeps almost daily check on the grades of Tech's athletes and recommends study hall for those needing it. Consequently, the Red Raiders go into their first Southwest Conference schedule stronger numerically than in previous years.

Two-a-day practices began Thursday (Sept. 1) and will continue until registration interrupts during the week beginning Sept. 12. Texas Tech opens its schedule against West Texas State in newly enlarged Jones Stadium Saturday night, Sept. 17.

COWBOY DANCES

In the cow country where ladies were scarce, the cowboys flocked to dances. Because there usually weren't enough ladies to go around some of the men were picked to play the part of a female and dance lady fashion. The man, so designated wore a handkerchief tied to his arms. This was called a "heifer brand." His reward was being allowed to sit with the ladies between dances.

A "boar's nest" was the cowboy's name for a line camp. It got this name because the man who occupied the camp was more interested in his duties as a cowhand than in housekeeping.

In the world ye shall have tribulation: but be of good cheer; I have overcome the world. (John 16:33.)

Not all the early Christian martyrs were sent to the stake or thrown to the lions. W. E. Sangster, of England, reminds us. Some were condemned to the mines of Numidia, now known as Algeria. They were made to row their own galleys to North Africa, then trek through the scorching mountains to the mines.

On arrival, their chains were shortened so that never again could they stand upright. They were branded with irons. Given a lamp and a mallet, they were whipped underground, never to return.

Many wrote messages on the walls of the mines—prayers, names of friends. One word appears again and again, vita!—life! They had it, even there, under such appalling conditions! Their tribulation could not rob them of their joy and victory in Christ Jesus.

Prayer: Gracious God, our heavenly Father, with whom there is neither near nor far, but one eternal presence, we thank Thee that Thou art with us always, wherever we are. Grant us in all things the joy and victory which come through knowing Christ Jesus as Savior and Lord. In His name we pray. Amen.

QUESTIONS, PLEASE

QUESTION: "Is it an impossibility for a Child of God to sin?"

ANSWER: No! There are something like 2,500 warnings in the Bible to children of God warning them against sinning. Now if it is impossible for a child of God to sin then these warnings were given when not even necessary and the Bible becomes a spurious book that cannot be relied upon! Such passages as, "Wherefore let him that thinketh he standeth take heed lest he fall" (1 Cor. 10:12); and, "Take heed, brethren, lest there be in any of you an evil heart of unbelief, in departing from the living God" (Heb. 13:12), are prevalent throughout the Bible. But what about I John 3:9 which says, "Whosoever is born of God doth not commit sin; for his seed remaineth in him; and he cannot sin, because he is born of God?" Does this mean that it is absolutely impossible? Suppose some one comes to me and says, "Let's go get drunk." My reply would be, "I cannot do that." Does this mean that it is absolutely

impossible? Of course not! I cannot get drunk and remain a Christian. This is what John meant. One cannot sin and remain a Child of God! This was given to combat gnosticism which said that when the flesh sinned it did not endanger the soul. It also said that Jesus did not come in the flesh, that he was just a phantom. This is the way they explained his not sinning, trying to justify their sins. "But one born of God cannot continue to sin," says John. The entire epistle of I John was given to combat the doctrine of gnosticism which is a prevailing doctrine in one of the largest denominations in our country. They are the ones who say a Child of God cannot so sin as to be lost. The Bible teaches otherwise! One preacher once said, "I have committed every sin under the sun, since I became a Christian, and I know that I am saved." There is gnosticism. There is the impossibility of apostasy. Take God's warnings that you can fall from grace. Paul told the Galatians that they had fallen from grace. (Gal. 5:4).

Sharron Garner Dies In Lubbock

 Burial will be in the City of Lubbock Cemetery under the direction of Sanders Funeral Home.

She was a native of Lubbock and would have been a seventh grade student at Matthews Junior High School this fall. She was a member of the Church of Christ and a member of Girl Scout Troop 136.

The Garners lived in Tahoka several years ago when the girl's father was in the Case tractor business here with his dad, John Garner.

Survivors include the parents; a brother, Wesley Thomas Garner; grandparents, Mr. and Mrs. John Garner, Tahoka; Mr. and Mrs. J. C. Guest, Dublin, and Mrs. Grace Fleaher, Bessemer, Ala.; great-grandparents, Mrs. Maude Byrd, Dublin, and Mr. and Mrs. Joe Green, Bessemer.

New SCS Man Is Moving To Tahoka

Drew Mauldin is moving from Midland to Tahoka today to take over his duties in the Lynn County Soil Conservation District office. Mr. Mauldin will take over his new duties here Monday. He is married and has two daughters.

He succeeds Allyn B. Cox, who is moving to Midland to take over similar work in Midland county, the office held by Mr. Mauldin. Mrs. Cox, who has been teaching in the Tahoka schools, has been elected to a similar position in Midland. The two men have also traded homes.

Mr. and Mrs. Cox recently returned from a vacation trip of 12 days which took them through Arkansas, Tennessee, North Carolina, South Carolina, Georgia, Mississippi, and Louisiana.

Cox brought The News, a "hand" of Golden Bright leaf tobacco from Dunn, N. C. He says the tobacco is high grade for use in cigarettes and pipe tobacco.

Missionaries . . .

(Cont'd. from Page 1)
 rains Cubans as pastors. Following a year there, the couple spent a year in Santa Clara where he served as pastor, and had only returned to Havana as director of the Bible School three months previous to being recalled. Their daughter was born in Cuba.

Although Cubans hate both Raul Castro and Ernesto Guevara, Mrs. Conrad believes the latter to be the regime. Many of them liked Fidel Castro for some time. During the first few months of his agitation against the United States, there was a definite change of atmosphere toward the church, but it did not take long for the Cubans to realize what Castro really is. However, many Protestant churches were also Castro backers for too long, she said, thinking that because he had declared war on the Catholic Church that he was befriending them, and realizing too late that Protestant churches were next on his list.

Churches enjoyed freedom under the dictatorship of Batista, she continued, and although Castro made no laws against the churches very little freedom remained following the revolution. There is no free press in Cuba. English written newspapers are permitted to enter the country because most Cubans can read only Spanish.

Mrs. Conrad feels that Cuba's only hope is through education and missionary work. It is only the ignorant who are true followers of communism, she said. Poverty, actually, is playing no part because many of the self-educated poor who can read recognize communism for what it is.

The soft-spoken, intelligent brunette said that things have been in a constant turmoil since the beginning of the revolution. Cubans almost beg for a few days of peace when new agitations are not being stirred up. She said that Castro was constantly throwing fears into the people about being attacked by another country, apparently trying to keep them so confused that they will not see what he and his government is really doing to Cuba.

The economic situation already is very severe. Because of the confiscation of American oil companies and other property and because of the collective farm system, hundreds of workers are out of jobs. There is a shortage of lard, rice and dried beans. Rice and beans are two of their main dishes. The U. S. action against importing Cuban sugar has taken its toll, but most natives feel the United States suffered with them too long and do not blame the States. Some think the U. S. should have taken such action long before it did.

Because of dissatisfaction with communist control and because of the economic situation, Mrs. Conrad said that many would not be surprised if an over-all counter revolution began. However, because of tight police security measures, it would be completely different than that staged by Castro. She feels that it will be a hand-to-hand combat rather than one of heavy artillery.

Mrs. Conrad expressed concern for her two children, first because her four year old son, David, speaks Spanish fluently and frequently listened to Castro's speeches. On one occasion, Fidel said during one of his rages that he would attack the United States and the statement has worried the child ever since.

Secondly, Mrs. Conrad was worried that because her daughter was born in Cuba it might be difficult to take her out of the country. Her latter fears were groundless, however, because the communist government is eager for everyone to leave Cuba that could influence the people against the regime.

While waiting for a new assignment, Rev. Conrad is holding services in area churches and is scheduled to speak to civic organizations.

Encourage Advance Filing Of Claims

Advance filing of claims for social security benefits is now being encouraged, according to an announcement today by John G. Hutton, manager of the Lubbock social security district office. Mr. Hutton explained that early filing of applications for retirement benefit will result in prompt receipt of the first check.

"Inquire before you retire" is a theme we've been emphasizing for several months now, in an effort to ensure speedy delivery of the first benefit check," he pointed out. He went on to emphasize that retiring workers would do well to call at their nearest office one to two months ahead of their retirement date and get their applications in early.

Mr. Hutton explained that benefit claims require some handling in the social security office before they are certified to the Treasury Department for payment. The worker's earnings record and evidence of his age must be obtained. "Getting your claim filed ahead of your retirement will allow time for the completion of these necessary details," he continued, "so that when you have stopped work, your first social security check will arrive when you need it most."

Mr. Hutton also commented upon two questions which he says are commonly asked about filing for social security—1. What should

a claimant bring with him? and—2. Is an appointment necessary?
 "Generally speaking, some proof of age and an earnings statement (Form W-2) or a last year's Federal income tax return should be brought along when you come to apply for your social security," he stated. Other documents may be

necessary in some cases. Mr. Hutton emphasized in conclusion that no appointment is necessary.
 A representative of the Lubbock social security office will be in Tahoka on Tuesday, Sept. 13, in the Courthouse at 1:30 p. m., and will be glad to assist in all matters pertaining to social security.

White and his B-47 combat crew from the 100th Bomb Wing of the Eighth Air Force, Pease AFB, New Hampshire, have been selected by "Operation Big Talk" in competition to participate in SAC-wide competition with 15 other crews in the "world series" finals at Bergstrom AFB, Texas, on September 12-16.

of bombing, navigation and air refueling competition."

Bombing missions will include air refueling, high altitude night celestial navigation leg, low altitude run, high altitude run, short look run, defense run. Tanker missions include air refueling and a night celestial navigation run.

O'Donnell Fair September 16-17

O'Donnell is making plans for a big community fair which will be held Friday and Saturday, September 16 and 17.

There will be divisions for beef cattle, dairy cattle, swine, quarter horses, sheep, turkeys, chickens, rabbits, and hantams; grain sorghums and cotton; fruits and vegetables; flowers, both cut flowers and pot plants; and in the ladies' division, embroidery, cut work, applique, crochet, quilts, spreads, comforts, rugs, arts and crafts, ceramics, and culinary, or cooking. Also, there will be educational exhibits by clubs and community exhibits consisting of at least 15 products including fruits, vegetables, and crop products.

Judging by the way some stores keep up their stocks, they need to erect a sign reading, "If it's to be had, we had it."

Savings Bonds Sales Growing

"Savings Bonds sales for the first seven months of 1960 totaled \$150,445," A. C. Verner, chairman of Lynn County's Bond Committee reported today. "Our county has now reached 63.8 percent of its 1960 goal of \$250,000. July sales were \$24,048."

Sales in Texas for July 1960 were \$12,204,662 which was 6 percent greater than the same period in 1959.

"A part of every American's savings should be invested in Savings Bonds, to provide for his future and to add strength to the National economy," stated Mr. Verner, County Chairman.

Raymond Bagby, 18-year-old son of Mr. and Mrs. R. E. Bagby, had emergency appendectomy Thursday noon of last week in Slaton Hospital where he is still a patient.

Supt. Miller Is Rotary Speaker

Homer Miller, superintendent of schools at New Home, spoke to Tahoka Rotary Club Thursday noon of last week on the subject, "Recipe for a Happy Life."

In his interesting and inspirational talk, Mr. Miller said, "One way to keep happy is to learn to enjoy our troubles. . . . To find happiness, a person may seek out the thing he likes and can do well and then put everything he has into it."

The program was arranged by J. P. Hewlett, who pointed out the fine job Mr. Miller is doing as head of the New Home Schools.

President H. B. McCord Jr. announced that Bruce Pember of Slaton, district governor of the 573 district of Rotary International, and wife, Maurine, will make his official visit to the Tahoka Club on September 14 and 15. He will meet with officers, committee chairmen and members on the evening of the 14th, and will address the club at its noon meeting Thursday, Sept. 15.

He also announced a district meeting for certain committee chairmen in Slaton on September 9.

Representing Dean Taylor, Lynn county service unit chairman of the Salvation Army, A. M. Bray made presentation of a plaque to Rev. J. B. Thompson, drive chairman.

The plaque reads: "In appreciation for outstanding service by Rev. J. B. Thompson for his loyal, faithful and unselfish work," and is signed by Ernest Dirking, Texas division commander; Don Eddy, service unit director; and Dean Taylor, service unit chairman.

McKee Twins In Wayland Choir

Mary Lou and Margaret Sue McKee, are among the Wayland Baptist College students representing nine states and South America, who will converge on Plainview Sept. 5 to begin a week of intensified rehearsals with the colorful International A Cappella Choir.

The 45-voice choir will be under the direction of James D. Cram, composer and musician, who comes from Claremore, Okla., to join the Wayland music faculty this fall.

Choir members, who arrive on campus even before new students who report for tests and orientation on September 9, come from Georgia, New Mexico, Colorado, North Carolina, Kansas, Oregon, Michigan, Oklahoma, Texas and Columbia, South America. The choir's first formal appearance will be at the annual Convocation program set for Sept. 14.

Twin daughters of Mr. and Mrs. L. D. McKee, Mary and Margaret sang with the choir during the 1959-60 season. They were both featured in the Woman's Sextet, a choir ensemble. Graduates of Tahoka High School, they have also been active in the Student Government Association at Wayland.

The Wayland International Choir has been organized for the past 12 years and has sung in Mexico, Brazil and more than half the states. Traveling tours are made each session by the choir, which also features several small ensembles in constant demand for area programs.

OTHELL MEEKS GETS FISH AT SWEETWATER "KILL"

Othell Meeks of Tahoka and his brother-in-law, O. M. Freer of Denver City, attended the "fish kill" at Sweetwater Lake Sunday carried-out by the Texas Game & Fish Commission and the City of Sweetwater.

Othell says they either didn't get a complete kill or there were not too many fish in the lake, but there were a lot of boats on the lake. However, he and Freer managed to scoop up about sixty pounds of fish, including some black bass weighing up to five pounds and a catfish weighing seven pounds.

Purpose of the program is to rid the lake of rough fish and restock with game fish.

MRS. SYLVIA McDONALD

Mrs. Sylvia McDonald Gets Baylor Degree

Waco, Sept. 1—Mrs. Sylvia Ruth Edwards McDonald of New Home received the Bachelor of Music degree from Baylor University at the 71st summer Commencement exercises August 26. She was one of the honor graduates.

Leon Jaworski, prominent Houston attorney and graduate of Baylor University, delivered the Commencement address. An honorary Doctor of Laws was conferred on Jaworski at that time.

Approximately 380 were scheduled to receive degrees at the exercises at Seventh and James Baptist Church in Waco.

Mrs. McDonald is the daughter of Mr. and Mrs. Boswell Edwards of Tahoka. She was graduated in 1957 from New Home High School. At Baylor she was a member of Mu Phi Epsilon, Alpha Lambda Delta, Alpha Chi and A Cappella Choir.

Parents At Graduation

Mr. and Mrs. Edwards and sons, Larry and Lynn, went down to Waco on Thursday, where they met Mr. McDonald's parents, H. A. McDonald, and brother from Beaumont. Following the exercises, the party went on to King Creek Lodge at Lake Whitney for the week end.

VERNON TURNER AND WIFE MAKE TRIP TO NASSAU

Mr. and Mrs. Vernon Turner of Lubbock, formerly of Grassland, returned Thursday of last week from a jet plane trip of a week to Nassau, in the Bahamas.

The trip was awarded them by the insurance firm he represents for having reached the million dollar business goal in insurance written the past year.

Drugs are not the poultryman's panacea, says Dr. A. I. Flowers, veterinary microbiology professor at Texas A & M College. He points out that disease control is, just as it has always been, a management problem. Prevention of disease should be a major objective of poultry flock management but should a flock become infected, Dr. Flowers recommends an accurate diagnosis as soon as possible.

Printer's Ink-lings . . .

By F. P. H.

Pete Hegi says there were some other good things we could have said about Odus Mitchell. Everything Odus did as a young man when Pete knew him was superlative. For instance, Odus and his brother Jay almost habitually picked a bale of cotton a day.

When Odus went off to college and became a star, Pete was still in high school at Petersburg and the question of naming the Petersburg athletic teams came up. Pete's a little modest now, but he was the outstanding basketball star of that school at the time and because of his admiration for Odus Mitchell he insisted that the team be named Buffaloes after the West Texas State team on which his idol was playing. Some wanted to call the team the Petersburg Yellowjackets, but Pete held out and won.

Paving to a community is like paint and powder to a woman. She could do without it but chances are you wouldn't look at her twice if

she did.—Ed Eakin in Quannah Tribune-Chief.

Most any driver is safer when the roads are dry; the roads are safer for most people when the driver is dry.—Ed Eakin again.

Earl Grider has pinned a nickname on the hog man, Charles "Shoot" Oliver.

We plumb forgot to get a story about Frank Greathouse's accident about three weeks ago, in which he got his right hand broken up and badly mangled in a well drilling accident.

And we had a good story some time back about Wayman Smith getting his car stolen here in Tahoka, and never did say a word about it. One day, he and Mrs. Smith came to town, stopped the car outside the postoffice while he went into Happy "Summerfield" Smith's postoffice and his wife went into a store. A few minutes later, Wayman came out and his car was gone. Sheriff's officers found it a few days later on a used car parking lot in Lubbock, and it turned out a Lubbock juvenile had stolen a car up there, drove it to Tahoka, took Wayman's and drove it to Lubbock—just a "harmless" little past-time of the youth.

While we're getting all het up about civil rights, why not return some of the land to the Indians, to whom it originally belonged? Why not give the Indian the right to vote? And, you Yankees up in Detroit that are so bothered about the South's business, why did you refuse that war veteran, an Indian, burial on the lot he had bought in your cemetery? And, how about the business man who invests his money in a store? Does he have no rights against sit-inners who can cause him to go broke? Or to choose those he wishes to serve? Do the children of Jack Kennedy and Dick Nixon or even Lyndon Johnson attend integrated schools? We are told their children are sent to special schools. The South is not perfect, but danged if we are not getting tired of all this propaganda aimed at the South by the dogooders who do not do so good themselves.

All of a sudden, the hearts of both Jack Kennedy and Dick Nixon are bleeding for the farmer. Kennedy has not been present in the U. S. Senate too many times when a roll call was taken, but he has been present on five occasions since 1951 when farm legislation was up for a vote. In 1952, he voted against supports at 90 percent parity. In 1956, he voted against 90 percent parity. In the same year, he voted for a bill to require farmers to put a portion of their land in the soil bank in order to receive price supports, and he voted to delete the provision from a farm bill calling for return to 90 percent parity. In 1959, he announced for a limit of \$35,000 price support loans per person per year. Now, however, Doane's Agricultural Digest says Kennedy favors production payments up to 90 percent of parity but LIMITED to \$2,500 to

\$3,000 to any one farmer. We're sorry, but we don't have any means to gauge Nixon by his record on the farm problem. Looks like the farm problem will continue to be a political football—used for the selfish purpose of getting votes.

We enjoy seeing and hearing people laugh—and who doesn't? For a woman, "Dink" Short has an infectious ha-ha . . . Lucille Smith's laugh is catching . . . Lucy Brice gets tickled all over . . . We like to hear Charles Townes' stuttering laugh . . . and Dr. Durham gets so tickled telling a funny story he can hardly tell it . . . We've told a few ourselves just to hear Cecil Caraway guffaw . . . We like to hear a laugh from Mae, because we know we're out of the doghouse then . . . and, then, there's Pat's cackle . . . and the happy laughs of the three granddaughters which we like best of all. You can't beat a good hearty laugh!

Shorty, Jean, and Tom McNeely of Brownfield, formerly of Tahoka, were recently camping out on a vacation trip to the Rocky Mountains near Lake City, Colorado. They had heard some talk by other campers about some near-by bear caves and the danger of bears in the area. That night the temperature got down to about freezing, and Jean and Tom and their dog Tarbaby, slept in the car while Shorty slept on the ground in his sleeping bag. Along in the night, Tarbaby got restless and Jean let him out of the car. Friendly to his master, Tarbaby licked Shorty on his exposed cheek. Now, Shorty had been dreaming about those bears, and when Tarbaby licked him, Shorty suddenly came wide-awake, jumped about four feet and tore up a lot of our National Forest before he learned the licking was by Tarbaby and not from a bear.

Is something wrong with our high school boys? Are they becoming too soft for rough sports? Do they like cars, cigarettes, girls and other extra-curricular activities better than body-building competitive sports? Anyway, only about 25 out of 100 high school boys are out for football.

And what has happened to our high school band that used to number about sixty members and now has only about 25 students sufficiently interested to participate in this from of music education?

Don't judge a man by the clothes he wears. God made one and the tailor made the other. Don't judge him by his family, for Cain belonged to a good family. Don't judge a man by his failure in life, for many a man fails because he is too good and too honest, to gain what the world calls success. Don't judge a man by the house in which he lives; the lizard and the rat often inhabit the grandest structures.—Smithfield, N. C., Rotary Cog.

On the first day of school, the little boy was telling the teacher about his new dog. "What kind of a dog is he?" asked the teacher. "Well, he's a mixed up kind," the boy answered. "Sort of cocker scandal."—Texas Outlook.

Lynn County Soil Conservation District News

E. R. BLAKNEY ELLIS BARNES
O. E. TERRY W. L. (Cap) ROWE
MELVIN WUENSCHÉ

The regular monthly meeting of the Lynn County Soil Conservation District Board of Supervisors was held August 23.

Members present were Ellis Barnes, chairman; Melvin Wuensché, vice chairman; E. R. Blakney, member. Publication of the annual report was discussed. Plans were made as to charges and dispensations of District Conservation equipment.

A close check should be made of old abandon wells before harvest time. Heavy rains earlier this summer have opened old wells that

have been closed for a number of years.

A basic soil and water conservation plan has been developed on G. W. Grogan's farm located nine miles east of Tahoka. The plan includes conservation cropping system on all the land, proper use of crop residue, development of an irrigation system that will conserve water, and prevent erosion. Grogan plans to convert approximately 15 acres of cropland to pasture.

Weich Flippin, who farms southeast of Tahoka, has completed seeding approximately 60 acres of cropland to a permanent pasture. The grass was planted in rows. Grasses planted were side oats grama, and green sprangletop.

Insect infested lawns can be cleaned up with the right insecticides, say entomologists of the Texas Agricultural Extension Service. They suggest a visit with the local county agent for complete details on control measures.

WASHINGTON AND
"SMALL BUSINESS"
By C. WILSON HARDER

Sometimes people are heard to ask "why all this concern about small and independent business in America. Don't the huge corporations furnish opportunities for the ambitious?"

This line of thought, undoubtedly engendered by considerable propaganda, is perhaps the greatest tragedy of our times, and is a false premise, to boot.

In a national survey made at the end of 1959 by C. W. Harder, a widely known research organization for one of the nation's biggest magazines, it was established that by far more men, and especially younger men, would rather be their own boss in a small company than to receive the same income from a big corporation.

The finding reveals that 65% of all men would rather be in small business than in a big corporation.

And the interesting part is of men in the 20-30 age group 67% prefer small business, while 66% of those from 31 to 50 prefer small business.

The survey also seems to explode myth big corporations capture loyalties of the cream of the American manhood.

In fact, the reverse seems to be true. Among 27% who preferred the big corporation for a career, and those who preferred small business, when it came to the reasons for their preference, 5% in both groups

said better pay, thus indicating that monetary reward is not a prime factor in either case.

But it is significant—biggest reason given for preferring a big corporation, 14% of vote, was "less responsibility." This, is a real

And it becomes all the more shocking when compared with the prime reason for the preference for small business.

Of the 63% who prefer a small business, 41% said the reason is "greater independence, more freedom."

Thus, they give what would have been perhaps the reason that would have been given by a small group on Bunker Hill not quite 200 years ago if somebody had asked them why they were there.

And the tragedy is that this type of manhood, largely through restrictions placed by bureaucrats in government, often find they have to work for a big corporation, as the laws and regulations made operation of small business too difficult.

And the greatest irony of all, perhaps, is that the typical bureaucratic official doesn't understand this desire for economic freedom, because they sought government service for the same reason given by those who prefer working for a big corporation "Less responsibility."

Thus, the question perhaps becomes one of survival. If American destiny depends on winning economic war with Russia, can this war be won by a leadership composed of men who shirk responsibility?

In areas where soils are deficient in calcium, an application of limestone will greatly improve yields of such fall-seeded crops as vetch, crimson clover and small grains. W. F. Bennett, extension soil chemist, points out that the application should be made as far ahead of planting as possible in order for the limestone to react with the soil. They suggest a soil test for any field or pasture to be treated.

Everyday Religion

By J. R. Thompson

Fightin' Corners or Frenship In "Body, Boots and Britches" by Harold W. Thompson, the story is told of a friendly, pleasant little village nestled among the hills of western New York state. It was settled in the first part of the 19th century by people from New England and the east part of the state. Unfortunately, before a name could be chosen for the new hamlet, a quarrel of some intensity broke out among the settlers and all through that section of the state the village was known as "Fightin' Corners."

There came a time, however, when the village fathers determined that a more appropriate name should be chosen: At the suggestion, of a Quakeress, Fightin' Corners became Friendship Village, a name still retained today.

Since a spirit of antagonism gave them their first name the inhabitants of Friendship Village determined to live up to their new name and it is known now as the friendliest community in the whole countryside.

The farther we go down the journey of life the more we value friends. They enhanced the passing years.

Shakespeare said, "That friend whom thou hast in time adoption tried, grapple to thine heart with hoops of steel." And Thackeray asked, "Is there a dismal day noted in last year's diary in which you lost a friend?"

It is indeed a dismal day in anyone's life when, by grim circumstance, or by sheer folly, one loses a friend." But what a happy day when one can say at eventide, "This day I have found a new friend."

Through life's long journey and into the sunset, friendships will sweeten your days and bless your lonely hours. More and more, like golden coins filling a treasure chest, friends become life's most glorious assets. Old friends and new friends, in gracious accumulation, encircle your soul as the fleeting years leave their frost upon your head: a sweet recompense for age.
