"Oldest Business Institution In Lynn County"

"I wholly disapprove of what you say but will defend to the death your right to say it."—Voltaire
Tahoka, Lynn County, Texas, Friday, January 27, 1961

Volume 57

Number 17

Poll Tax Paying Deadline Near

Only 1,130 Lynn county people had paid their poll taxes Tuesday, according to George McCracken, tax assessor and collector.

Next Tuesday, January 31, is the final day for paying of poll taxes as a qualification for voting in 1961.

Unless there is a speed-up between now and next Tuesday, many Lynn county citizens will not be able to vote this year.

Mr. McCracken says that some people who mailed in checks for their property taxes failed to include \$1.75 for each poll tax receipt desired. Those who mailed in property tax checks should check to see if they also paid their poll taxes.

There will be several important elections during this year. Already scheduled are the special election and run-off election for U. S. Senator, and others are also certain to be called later in the year.

Mr. McCracken will be in O'Donnell at Moore Insurance Agency this Thursday and Friday to write poll tax receipts and to transact any other business pertaining to his office. On Saturday, the 1946 Study Club will be writing poll tax receipts at Lott Pharmacy in that city, and Mr. Lott has consented to write poll tax receipts at his store on Monday and Tuesday, also.

Poll tax receipts may be bought in Wilson from Mrs. Bill Vardeman at the school tax office on Monday and Tuesday.

Also, at New Home poll tax receipts may be obtained on Monday and Tuesday at Farmers Co-op Gin, Bobby Carroll, manager.

PORTRAIT WINS FIRST PLACE—Mr. and Mrs. C. Edmund Finny, local photographers, are shown above with their portrait of M. H. (Marcus) Edwards, pioneer Tahoka citizen, which won first place in the recent print exhibit of the South Plains Professional Photographers held in Lubbock. Second and third places in the contest were won by Lubbock photographers. This is the third award by the Finneys in the exhibits during the past year.

New Pastor For St. Paul Church

Rev. Robert F. Kamrath is the new pastor of St. Paul's Lutheran Church in Wilson, having conducted his first service there last Sunday.

He and his family moved to Wilson on January 13, and was installed on Sunday, Jan. 15, in ceremonies conducted by Rev. Elmer Neunbor, pastor of Redeemer Lutheran Church in Lubbock, who has been serving as interim pastor at Wilson since Rev. Geo. W. Heinemeier moved to Olney last of November.

The new pastor came to Wilson from Mount Olive Lutheran Church in Corpus Christi. Before that he served three congregations out of Crosby, N. D.

Rev. Kamrath, who was born and raised in Nebraska, graduated from Concordia Seminary in St. Louis, Mo. in 1954. His wife, Doris, was born and raised on a farm near Alice, Texas. She received training and taught in the Christian day school of the Lutheran church for two years before the couple's children were born.

Rev. and Mrs. Kamrath have five children, Sherri Lynn, eight years old; Stephen, seven; Timothy, five; Mark, four; and Susan, two.

Mrs. Lonnie Howell Undergoes Surgery

Mrs. Lonnie Howell underwent major surgery in Methodist Hospital Sunday night in an effort to save her sight in the right eye, which had become endangered by glaucoma, a disease of the eye that sometimes results in blindness.

However, Mrs. Howell was reported to be resting well following the surgery. She has been a teacher in the local schools for many years.

Local Case To Highest Court

Representing Mrs. C. O. Edwards of Fort Worth, owner of T-Bar Ranch lands in Lynn county, and J. E. Brown and B. A. Young, farm tenants, in Washington, D.C., before the United States Supreme Court last week was John Saleh, Lamesa attorney.

The plaintiff in the case is Wilson Dickson.

The "best" case involved the receipts of payment from a soil bank contract originally made in 1957, two-thirds of which was then payable to Dickson, the tenant at that time. However, Brown and Young became tenants in 1958 and contract was adjusted therefore.

Methodists Open O'Donnell Church

The new O'Donnell Methodist Church was consecrated in services held Sunday afternoon at 3:00 p. m. The church plant, including the new sanctuary, is now valued at \$140,000.

Construction on the new sanctuary began last May and was completed in November. Actually, aside from volunteer labor the pastor, Rev. Howard Marcom, and others, the new building represents only about \$66,000 in money spent. The church is expected to be free of debt within a year or two.

The Methodist Church plant now has 21 class rooms, a youth assembly room, two kitchens, etc.

O'Donnell organized its first Methodist Church in about 1922 and met in the school building a few months before the first building was constructed. The original building had been remodeled and added to several times and has been incorporated into the present plant.

Membership of the church totals 360 and average Sunday School attendance is 150. It has one of the most active youth programs in the 30-church district.

Mrs. Glenn Allen is a charter member of the church and there are possibly other charter members still in the area.

At the consecration a devotional service was held during which time Mrs. Wayne Clayton presented a vocal solo, "Bless This House." Dr. D. D. Denison, district superintendent of Brownfield, participated in the consecration ceremonies.

Farm Meeting Next Tuesday

The second in a series of farm management meetings will be Tuesday night, Jan. 31, at 7:30 p. m. at Lyntegar REA in Tahoka, according to Bill Griffin, county agent.

The meeting was to have been conducted Tuesday night of this week but was postponed because of weather conditions.

Discussion will be on leases, rental agreements and contracts by John Seibert, area farm management specialist, and Mrs. Mildred Webb, area home management specialist, both of Lubbock.

Griffin said a check will be composed consisting of things that a landlord and tenant normally make agreements upon, or should agree upon.

In addition the group will discuss cases where written agreements should exist.

IN CAR ACCIDENT

Mr. and Mrs. Claude Pyron and two children, Darlene and Larry, were involved in a two-car collision at 21st St. and Joliet Ave. in Lubbock Saturday morning. No one was injured or required treatment as was reported in another publication.

Clay McKibben, 17-month-old daughter of Mr. and Mrs. Don McKibben, is a patient in Tahoka Hospital. She was admitted recently with pneumonia.

Mrs. J. A. South was admitted to the hospital Monday as a medical patient.

More Rain, Sleet And Snow Improve Underground Season

Cotton ginnings for the year totaled 28,894 up until noon Thursday, according to reports of local ginneries, with only a few scattering bales left to be ginned.

Based on previous reports, The News estimates that the county has ginned approximately 145,000 bales of 1960 cotton.

Cotton Ginnings Here Are 28,894

Tahoka officially measured .74 inch of moisture, bringing the January precipitation to 1.39 inches, far above the average of .61 inches. Tahoka had received .65 in a wet snow on January 10 and 11.

This week's precipitation started with light rain before daylight, which continued until noon, when the rain turned to sleet. Later this turned to snow and continued into the night. An estimated two inches of sleet and snow fell here.

A low temperature of 10 degrees was recorded Wednesday morning, and on Thursday morning the low was 18 degrees.

There was still some snow on the ground Thursday.

Added to the fall rains and the big snow a week before Christmas, this has made most Lynn county farm land "too wet to plow."

Although most farmers are away behind with putting up their land for a new crop year, few are complaining as they have plenty of time before spring comes.

Court Summary For Year 1960

Some statistics in regard of 106th District Court cases in Lynn county during 1960 have been released by W. S. (Skip) Taylor, district clerk:

There were 59 civil cases filed during the year and 37 disposed of. On January 1 last year there were 52 cases pending, and at the end of 1960 there were 66 pending. During 1960, there were 26 divorce cases filed and 18 disposed of during the year. At the beginning of the year 1960, there were 51 cases pending and at the end of the year there were 23.

Criminal cases filed during 1960 totaled 38, and 39 such cases were disposed of during the year. The year 1960 started with 13 criminal cases pending and ended with 12 still on the docket.

Mr. Taylor says a new court term opened on February 6, during which a number of pending cases are expected to be disposed of by the court.

Records Set In Milo Production

Fabulous reports of grain sorghum production in this area during the 1960 crop year were confirmed Tuesday with the announcement of winners of the DeKalb Agricultural Association, Inc., sorghum production contest winners.

Top producer in Lynn county was Clarence Church of Wilson, who harvested 7,096.85 pounds per acre from a measured plot.

Second high producer was C. G. Eades of New Home, who had a production record of 6,479.59 pounds per acre. F. R. Nolte, also of Wilson, produced 3,639.83 per acre.

Mothers March Set For Tuesday

The Mother's March for the annual March of Dimes campaign will be held here on the night of Jan. 31, according to H. B. McCord, Jr., county chairman of the National Foundation who is acting as drive chairman this year.

The Pythian Sisters of Lynn Temple No. 45 are again sponsoring the Mothers March, and the organization is asking the help of about 50 women volunteers to aid in the yearly event.

The March will begin at 7:00 p. m. at the WOW Hall.

McCord says that he is hopeful that the quota can be raised during the Mother's March and that businessmen will not have to be contacted at their places of business.

O'Donnell has begun its annual drive and is tentatively planning a program with proceeds going to the March of Dimes, McCord said.

Smith Attending Farm Conference

A large farm meeting with Secretary of Agriculture Oliver Freeman was held Thursday in Washington, D. C. when opinions and views were being gathered that will probably have a bearing on shaping of farm policies later on.

Wilmer Smith, immediate past president of the American Cotton Producers Association and vice president of Plains Cotton Growers, was representing the ACPA at the meeting. Also attending was George W. Pfeiffenberger, executive vice president of the PCG.

The two attended a meeting of the ACPA Saturday of last week in Memphis, Tenn.

At the Washington meeting, attended by representatives of major farm groups, Freeman was to preside and give an opening statement. The five major national farm organizations were allotted 20 minutes for oral presentation of their views and recommendations with 40 minutes of questions and discussion to follow. However, regional farm organizations were not being permitted oral presentation of opinions, but written statements could be permitted if desired.

Smith and Pfeiffenberger attended Kennedy's farm meeting about two or three weeks ago, but this meeting this week is the one from which future farm policies are expected to be developed.

There is not expected to be any major change in the cotton program in 1961, since time does not permit for legislation before planting time. Cotton supports will probably be above the minimum.

Last week Kennedy named Charles Murphy as undersecretary of Agriculture. Murphy served as chief legal advisor to Harry S. Truman during his terms in the White House.

Mrs. Cody Bragg underwent surgery in Medical Arts Hospital in Plainview Thursday of last week. She was released from the institution Wednesday but is remaining in Plainview with a daughter, Mrs. Joe Ramsey, for a few days and will probably return home over the week end.

Dennis Newsom In Dallas Hospital

Dennis Newsom, 8-year old son of Mrs. Curtis E. Newsom, of 2028 South Fifth St., Tahoka, was admitted on Friday, January 20, to the Scottish Rite Hospital for Crippled Children in Dallas.

Texas Scottish Rite Masons founded the hospital thirty-five years ago in an effort to provide a chance at a normal life for the handicapped child. The hospital, which has accepted more than 130,000 children for examination and treatment since 1925, is supported by public contributions and requests.

An expert staff, plus exceptional physical facilities and dedication to the welfare of the child, make the Scottish Rite Hospital an outstanding treatment center which serves the entire state.

Wesley Roberts In Senate Race

Wesley Roberts, Seminole, State representative from the 99th District, which includes Lynn, was in Tahoka Saturday and announced that he has joined the throng of 15 or 20 candidates in the state wide race for U. S. Senator to fill the office left vacant by resignation of Vice President Lyndon B. Johnson.

Roberts says he is the candidate of no special group but is just entering the race as a "lone wolf." He thinks we have too much government by pressure groups and says he wants to represent the common people.

He has a good record as a State Representative, but says he does not "fe-tow" to either the ultra liberal or the extreme conservatives, union labor or big business.

He will have a statement at a later date.

In the election set for April 4, two high men will enter a run-off election.

C. A. Gould, 68, Dies At Dallas

C. A. Gould, 68, a former Lynn county citizen, died Friday, Jan. 13, in a Dallas hospital.

Reports of his death last week could not be confirmed by Mrs. Louis Brosch of Lubbock confirmed the report.

Gould farmed the Brosch land about one mile west of Wayside for several years. He moved to Dallas about eight years ago, where he had spent most of his life. He was born in Buffalo, N. Y.

He is survived by his wife, Gisella Gould, and two sons, James and Ray all of Dallas.

Relatives from this area attending funeral services in Dallas on Monday, Jan. 16, were Mr. and Mrs. Louis Brosch and daughters, Theresa Marie and Victoria Ann, Mrs. Freda Edwards, all of Lubbock, and Mr. and Mrs. F. S. Kallich and Mr. and Mrs. E. I. Brosch, all of Slaton.

Home Near Wilson Damaged By Fire

A fire at the home of Paul Dworaczyc, one mile east of Wilson, at noon Wednesday, damaged the kitchen and caused some smoke damage, according to members of the Tahoka Volunteer Fire Department.

The couple were not at home at the time of the fire and a passerby, who discovered it, called fire departments from Tahoka and Slaton, who arrived in time to help put the fire out before it became wide spread.

The fire was believed to have been caused from a gas leak on the cook stove in the kitchen.

WINSTON WHARTON IS BUILDING NEW HOME

Winston C. Wharton has started a large, new modern home on his farm north of town, facing U. S. Highway 87. His brother, Joe Wharton, is the builder.

The home will contain 3,400 square feet of floor space, contain three bedrooms, living room, family room, kitchen, utility room, double garage, and covered patio. It will be finished in lodge stone.

Mrs. John Chape Jr. was admitted to the hospital Sunday as a medical patient. She was dismissed Tuesday.

Pay your poll taxes NOW!

REBEKAH BAKE SALE

Tahoka Rebekah Lodge is sponsoring a bake sale Saturday, Jan. 28, from 8:00 a. m. until 4:00 p. m. at Fluffy Wigley's Place, cakes and cookies will be on sale and the ladies invite everyone to purchase their baked goods.

Lavern Leuderdale, Tahoka High School senior, was admitted as a medical patient to Tahoka Hospital Tuesday.

SPORTS

Tahoka Boys Win At Stanton

In a game that saw the Bulldogs below par, Tahoka edged out a 49-45 victory over Stanton Friday night there, but the girls were defeated 74-64, and the "B" team lost 42-23. The win gave the cagers a 2-1 record in conference play and the girls a 0-2 record. Tahoka led 14-8 at the end of the first quarter, but Stanton had

2 ways to feel good...

give a portrait—the truly personal gift... the one gift that only you can give... a gift that's always appreciated because it's a little bit of you.

give a portrait gift certificate—always in good taste... and always sincere... the nicest way to say "I want a portrait of you."

Eighth Grade In Split With Post

Tahoka eighth grade boys squeezed past Post in the last 15 seconds of play last Thursday night to win 32-31, but the girls were not so fortunate and lost their battle 16-6.

Eddie Howard made two free shots in the last 15 seconds to secure the points needed to win the game. Halftime score was 12-12. Adolph Chapa led Tahoka with 14 points and Terry Hravick made 8.

Both girls teams scored all but two points each in the first half of their game the halftime score being 14-4 with Post leading. Joyce Huey made three points for Tahoka.

sneaked closer at halftime when the Bulldogs held a 28-23 lead. Third period score was 39-31.

Frank Greathouse and Perry Flippin held scoring honors with 18 and 12, respectively. Thad Kbonec and Jerry Polson had 14 and 10 for the losers.

The local girls led the game until the final period of play, when Stanton overtook Tahoka and passed them, behind the shooting of Frances Graves who collected 48 points for the winners, while Janice Glaze added 19 more. Kay Halamick made 28 and Loretta Short 20 for Tahoka.

The "B" game saw Steve Ellis make six points for Tahoka while Buddy Gillespie and Mike Sorley each made seven for the winners.

Tahoka And Post Play Here Today

Tahoka's cagers take on Post here tonight and Slaton here Tuesday night in conference games that could spell out whether or not the Bulldogs have a chance at the district 3-AA crown.

Both boys, girls, and "B" boys from Post and Slaton will visit here with games beginning both nights at 6:00 p. m.

The varsity five go into these games with a record of 2-1 in conference play. They lost their conference opener to Slaton and will be playing for "keeps" from now on.

The way the standings are presently, Denver City is leading the district with a 3-1 record having defeated Slaton Tuesday night. Both Slaton and Tahoka have lost one game, but have not played as many games as Denver City. The Tigers beat Tahoka, Tahoka beat Denver City, and Denver City beat Slaton. The outcome of conference play could at this point be called a "toss up." To win district the Bulldogs need to take all of the remaining games.

Although the girls have lost their first two conference games, they still have an outside chance if they can win the remainder of their games, and strong Slaton and Stanton each lost two games. Denver City is the only team in the district that does not have a girls team.

On Thursday night, Feb. 2, Post seventh and eighth girls and boys come here with games beginning at 5:30 p. m. As the News went to press Thursday night, Jan. 26, Slaton seventh and eighth girls and boys were playing here.

Legal Notices

NO. 120,689
EX-PARTE: THE CANADIAN RIVER MUNICIPAL WATER AUTHORITY.
In The District Court of Travis County, 53rd Judicial District.
NOTICE OF SUIT TO VALIDATE ORGANIZATION OF CANADIAN RIVER MUNICIPAL WATER AUTHORITY AND CONTRACTS WITH THE UNITED STATES OF AMERICA AND ITS MEMBER CITIES.
NOTICE is hereby given to all persons interested, including among others all persons owning or claiming to own any right, title, interest or estate in or to any land within the CANADIAN RIVER MUNICIPAL WATER AUTHORITY that a suit was filed on the 19th day of January, 1961, by Canadian River Municipal Water Authority, as Petitioner, in the District Court of Travis County, Texas, 53rd Judicial District, styled "Ex Parte The Canadian River Municipal Water Authority," No. 120,689 on the docket of said Court, said suit being filed for the purpose of validating the organization and corporate existence of said Authority; for the purpose of validating a contract entered into by and between said Water Authority and the United States of America, on the 28th day of November, 1960 wherein the United States has agreed to construct the Canadian River Project at a maximum construction cost of \$96,000,000 and wherein the Water Authority has agreed to reimburse the United States for said maximum construction charge, plus interest, over a period of fifty years after completion of the said project; and for the purpose of validating ten several water supply contracts entered into by and between said Water Authority and its member cities of Amarillo, Borger, Brownfield, Levelland, Lubbock, O'Donnell, Pampa, Plainview, Slaton, and Tahoka, Texas.

NOTICE IS FURTHER given that this cause will be tried on the 6th day of March, 1961 at 9 o'clock a. m., or at such later date as the Court may determine.
Any person interested in this cause may intervene or file answer therein. Any judgment finally made and entered herein shall be received as res adjudicata in all cases thereafter arising in connection with any matters pertaining to the establishment, organization and corporate existence of the Canadian River Municipal Water Authority or in connection with the validity of the aforementioned contracts and the obligations of the contracting parties to fulfill their engagements thereunder as stated in the terms and conditions thereof.
GIVEN AND ISSUED under my OFFICIAL HAND AND SEAL OF OFFICE this 19th day of January, 1961.

County Agent

Soil Testing For Available Nitrogen.

The new Soil Testing Laboratory being operated by the Extension Service in Lubbock is now chemically processing soil samples to determine the plant nutrients that the soil can supply the crops to be grown in 1961 and 1962. Each sample is analyzed for reaction (pH), organic matter, available phosphate, available potash, available calcium, and soluble salts.

It should be kept in mind that nitrogen as such cannot be practically determined by the soil test. Nitrogen fertilizer recommendations are based primarily on the amount of organic matter the soil contains, the crop to be grown, along with anticipated yields, and the amount and kind of nitrogen carrying fertilizers previously applied.

As stated in the Information Sheet that must be sent in with soil samples it is extremely important to avoid sampling in the fertilized bands where phosphate and potash were previously applied. However there is no particular hazard involved in sampling areas where nitrogen fertilizers alone have been applied. The soil test does not detect these nitrogen materials. The nitrogen recommendation given on the Lab Report is the total amount needed for the particular crop. This makes it very important for the farm to show on the Information Sheet the amount of nitrogen already applied to the area concerned.

Soil testing affords the quickest and most reliable method available to Plains farmers for estimating the kind and amount of fertilizer needed for a particular crop. The fee of \$2 per sample could well be one of the most profitable investments in a farm operation.

Girls Team Winner Over Wilson 68-50

Wilson girls met defeat here Tuesday night at the hands of the local basketball squad 68-50 in a game that saw three of Tahoka's forwards scoring in double figures. Judy Thomas and Kay Halamick each hit the basket for 24 points and Loretta Short made 14. Carol Lamb was high point for Wilson with 23.

Halftime score was 30-27 with Tahoka leading by a narrow margin.

Girls "B" teams scrimmaged preceding the "A" game.

Boys games scheduled at Plains on Tuesday night were called off because of hazardous road conditions.

Lynn County Soil Conservation District News

WARD EAKIN ELLIS BARNES
E. R. BLAKNEY W. L. (Cap) ROWE
MELVIN WUENSCHÉ

A Great Plains conservation plan has been developed on the Cass O. Edwards farm operated by Rollin McCord. The farm is located eight miles northwest of Tahoka.

The plan includes terracing, contour farming, use of all crop residue to retard wind erosion, and a cropping system to meet the needs of the land.

O. C. Sikes who farms four miles northeast of Tahoka has completed installation of approximately 1152 feet of underground concrete pipe. Pipe will be used for transporting irrigation water with minimum loss of soil and water. Other farmers who have completed installation of underground pipe are: Joe D. Unfred, New Home community,

and Frank Schneider, northeast of Tahoka.

Grassed waterways are among the most satisfactory ways of safely disposing of excess water on crop land, and the plan is coming into wide use on the Plains. But establishing vegetation in waterways in an erratic climate has been a perennial problem. These problems can be minimized by use of the following steps:

First, shape the waterway, locating it in natural depression if possible.

Second, establish a dead litter cover. A crop such as sorghum in a good thick stand makes a good cover, but such a crop should be mowed or shredded about eight inches high to prevent maturing of seed.

Third, establish perennial grass in the dead litter, with such grasses as Western Wheatgrass, buffalo, vine mesquite, or Caucasian blue stem, drilled at double the normal seeding rate.

Fourth, divert excess water to the waterway, after grass is established and waterway stabilized.

Over 26,423,000 merit badges presented to Boy Scouts over the past 50 years.

Over 8,433 members of the Boy Scouts of America have taken part in 10 world Jamborees.

Farm Facts

While it is generally known that farmers in this country are the most efficient in the world, the rate at which they have progressed in recent years is one of the most significant developments of the century.

As research develops new techniques, materials, and machinery, and education speeds their adoption by farmers, production per acre and per man-hour is stepped up vastly.

Per-acre yield of 18 leading field crops, for example, is 71 per cent more than 20 years ago. It rose almost 40 per cent between 1944 and 1959.

From 1944 to 1959, corn yields rose from 32.8 to 51.5 bushels per acre, wheat from 17.7 to 21.5, and soybeans from 18.8 to 24.

Cotton yields jumped from about 300 pounds per acre in 1944 to 465 pounds in 1959, peanuts from 678 to 1,097, and rice from 2,093 to 3,349.

During the same period, sugar beet production rose from 12.1 to 18.8 tons per acre, deciduous fruits (apples, peaches, pears, etc.) from 3.51 to 5.79 tons, and dry edible beans from 754 to 1,458 pounds.

This efficient output makes possible an abundance of food and fiber, contributing tremendously to our high standard of living.

Seven-Step Cotton Program Has Materially Aided Texas Economy

College Station, Jan.—The economy of Texas was materially aided in 1960 by the 7-Step Cotton Program. Initiated 15 years ago by the Texas Agricultural Extension Service, the program brings together of the county and state basis committees representing every segment of the cotton industry and all have worked together for needed improvements.

Fred Elliott and Glenn Black, extension cotton specialists, in their 1960 annual report point out some of the year's outstanding results. They say the state's cotton producers saved an estimated \$65.2 million in labor costs by harvesting more than 50 percent of their crop with machines. Another \$26.4 million was saved through the use of mechanical and chemical grass and weed control methods.

Despite unfavorable weather conditions at different times during the year, producers came up with the third highest average lint yield per harvested acre on record, 329 pounds. Since 1946, the yield figure has climbed from 134 pounds per acre.

The specialists added that county agents in 207 Texas counties gave assistance to producers on a multitude of problems. Among the major ones were the use of cotton burs for soil improvement and to reduce fire hazards. Burs were spread on 10,485 farms in 140 counties. A few years ago most of the burs were burned as waste. Each ton of burs has an estimated fertilizer value of \$7.50 and their application has increased yields by 25 percent.

The use of defoliant and desiccants for preparing cotton for mechanical harvesting continued to expand. One or the other was used on 49,041 farms in 166 counties. A comparatively new device, the moisture meter, was used in 29 counties to improve quality. The 103 meters in use helped farmers and ginners do a better job of machine harvesting and ginning through more careful attention to the moisture content of the cotton in the field and at the gin.

The extension entomologists working as members of the 7-step Cotton Team reported that county agents conducted 2,251 cotton insect control result demonstrations and that 65,908 growers followed recommendations and treated 3,708,318 acres.

To carry the information required to keep the 7-Step Program moving forward, a team of extension specialists composed of the cotton specialists, an entomologist, cotton gin specialist and at times other staff specialists, conducted 152 training meetings in the counties. Growers attending these meetings numbered 11,872 and county agents held another 1,788 meetings on the community and county basis and reached 43,740 growers and others.

To implement the meetings and tours, Elliott and Black said the local agents also prepared more than 1,800 timely news stories on cotton, appeared on 1,910 radio and 39 television programs.

To save on labor costs, the specialists said tremendous investments are made by cotton growers in

machinery and other production items. Last year alone, producers invested over \$26 million in new picking and stripping machines. They used 32,042 stripper harvesters in 152 counties and 4,505 spindle pickers in 110 counties. They operated 46,360 rotary hoe equipped tractors in 172 counties; spotted 194,427 acres of Johnsongrass in 158 counties; spot sprayed Johnsongrass with water carried chemicals on 69,649 acres in 136 counties and in 75 counties lateral oiling was used on 71,184 acres to cut the hoe bill by as much as \$25 an acre.

The specialists give full credit to the county 7-Step Cotton Committees and the county agents of Texas for the outstanding records made in 1960 but emphasize that the cooperative efforts of all segments of cotton industry will continue to be needed to keep the program moving forward.

Over \$72,000,000 has been invested in Scout camps and Council properties.

Legal Notices

CITATION BY PUBLICATION OF FINAL ACCOUNT

THE STATE OF TEXAS. To all persons and parties interested in the estate of W. M. Dulin.

You and each of you are hereby cited, required and commanded to appear before the County Court of Lynn County, Texas, to be held in the county court room in the courthouse of said county in the City of Tahoka, in said county, such appearance to be at or before ten o'clock A. M. of the first Monday next after the expiration of ten days from the date of service, exclusive of the day of such service, which day and date of service shall be the date of publication that this newspaper bears, and which day of appearance will be the 13th day of February, 1961, and contest, by filing written answer of the contest, if they or any of them see proper so to do, a verified account, the nature of which is an account for final settlement of such estate, which has been filed by W. L. Rowe, the Guardian of the Estate of W. M. Dulin, and is now pending there, a probate proceeding on the probate docket of said court styled Guardianship of W. M. Dulin, A Person of Unsound Mind, the file number of which account and the docket number of which proceeding is 842, which account will at such 10 o'clock hour, on such day, and at such place be considered by such court.

If this citation is not served within 90 days after date of its issuance, it shall be returned unserved.

Witness, C. W. Roberts, clerk of the county court of Lynn County. Given under my hand and the seal of said court at office in the City of Tahoka, this 24th day of January, 1961.

C. W. ROBERTS,
Clerk of County Court of Lynn County, Texas
By: Joy Riley, Deputy

CARD OF THANKS

We wish at this time to take the opportunity to thank our friends for the many kind deeds, the beautiful flowers and cards and for the food that was sent us during the recent death of our loved one. Thanks ever so much for the many kind words of sympathy and all other acts of kindness shown. May God bless each of you in our prayer.—The family of Winnie Willett. 1tc

Honor Roll For New Home Schools

Following is the honor roll for the New Home schools for the final six weeks of first semester:

Senior Class: Juan Rodriguez, Becky Gregg, Betty Taylor, Lee Finch and Ronnie Harston.

Junior Class: Sharon Blakney, Charlene Edwards, Ara Ann Mitchell, Donna Smith, Georgie White and Joyce Swinson.

Sophomore Class: Ann Gasper.

Freshman Class: Max Blakney, Terry Brown, Elton George, Dave Hancock, Patsy Swinson, Jerry

Todd and Carolyn Morrow. Eighth Grade: Eddie Jo Halford, Donna Sue Morris, Diane Nowman, and Alice Nunley.

Seventh Grade: Linda Burleson, Peggy Marshall, Kenneth McClung, Dickie Turner and Randy Unfred.

Sixth Grade: Rhonda Gill, Yvonne Nettles, Sidney Sealy, Nancy Unfred, Yvonne Moore, Susan Hancock and Sylvia Weaver.

Fifth Grade: Marilyn Hill.

Fourth Grade: Judy Gossett, Kathy Hancock, Lera Nettles, Laura Seary and Stanley Gill.

SPECIALS GOOD THROUGH WEDNESDAY

Gordon-Southland

(By Mrs. Jesse Ward)

Funeral services were held Monday at 3:00 p. m. in Gordon Church of Christ for Miss Mattie Lee Dabbs, Rt. 1, Post—who died in Mercy Hospital, Slaton, Sunday afternoon.

Officiating was W. M. McFarland, Carlisle minister, who was assisted by Cline Drake, minister of the church. Burial was in Southland Cemetery. Nephews were pallbearers.

Survivors include seven sisters: Mrs. C. W. Steel, Ventura, Calif.; Mrs. M. F. Dulin, Phoenix, Ariz.; Mrs. Tom Dikes, Mineral Wells; Mrs. J. L. Bageette, Eastland; Mrs. George Shahan, Truth-or-Consequences, N. M.; Mrs. Helen Richards, Lubbock; and Mrs. Maggie Hallman, Rt. 1, Post; three brothers, Bill Dabbs, Amarillo, Charlie Dabbs and Herman Dabbs, both of Rt. 2, Post.

Mr. and Mrs. Martin Edmunds returned home the first of last week from a visit with their daughter and son-in-law, Mr. and Mrs. S. A. Wall and two daughters at Florin, La.

Mr. and Mrs. Ed Milliken have been hospitalized over a week in Mercy Hospital in Slaton. At this writing their improvement has been very slow. Friends wish for them a speedy recovery.

Mr. and Mrs. Paul Winterrowde and children spent the week end with his parents, Mr. and Mrs. Bill Winterrowde in Amarillo.

Mr. and Mrs. Earl Morris returned home Sunday after spending last week with their daughter and son-in-law, Rev. and Mrs. J. L. Gary and son Alvin Lynn in Roswell, N. M. Rev. Gary underwent major surgery and was in the hospital five weeks. He was released and came home Saturday. While in Roswell, the Morris visited her sister, Mrs. S. W. Hawthorne of Morton who was visiting her daughter and family, the Kingston Crouch family in Roswell.

Mr. and Mrs. D. J. Dunn were dinner guests Saturday in the home of her brother and sister-in-law, Mr. and Mrs. D. W. Livingston of Close City community. The Livingstons and Sue Oats from McHenry were visitors at the Southland Methodist Church Sunday.

Mr. and Mrs. N. E. Denton and Lin from Lockney spent Sunday in the home of Mr. and Mrs. J. B. Rackler and children. They visited Sunday afternoon with his parents, Mr. and Mrs. Ed Denton.

Mr. and Mrs. Jerry Dixon from Plainview spent the week end with her parents, Mr. and Mrs. J. B. Robinson and sons. Sunday afternoon they visited in the home of her grandmother, Mrs. B. D. Robinson.

Carolyn Sue Kaysinger spent the week end in Lubbock with friends.

Mrs. Robert Lee Hagler and Mrs. J. B. Rackler went to Coahoma Friday to bring Mrs. Hagler's mother, Mrs. Susie Bradshaw home after an extended visit with a friend there.

Mr. and Mrs. Winston Lester and children spent the week end with his brother and sister-in-law, Mr. and Mrs. Troy Lester and family in Midland.

Cline Drake, Lubbock, minister of Gordon Church of Christ, was a dinner guest in the home of Mrs. Susie Bradshaw, as were her daughter and son-in-law, Mr. and Mrs. Robert Lee Hagler and Jean.

Mr. and Mrs. Hershel Adamson of Lubbock were visitors in the

THANKS MRS. McCORD

The New Home Schools wish to take this opportunity to thank Mrs. Lillian McCord, Tahoka School of her time to assist Mrs. Naylor nurse, for volunteering and giving with the testing and vaccinating of the school children and their families last week.

Approximately 120,000 boys and adults have camped at Philmont Scout Ranch since 1939.

There are 731 Units serving handicapped boys, an estimated 111,100 handicapped boys.

home of Mr. and Mrs. Robert Lee Hagler Sunday afternoon.

The pastor at Southland Methodist Church, Rev. and Mrs. Bill Yates and two little daughters were dinner guests in the home of Mr. and Mrs. W. P. Lester Sunday.

Today's MEDITATION

from The World's Most Widely Used Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Let this mind be in you, which was also in Christ Jesus. (Philippians 2:5)

One sunny spring morning I was a guest in a rural home in Minnesota. While I was sitting in the living room reading a book, my hostess came in. As we talked briefly, she went to the window and turned some flower pots.

I asked her why she disturbed the lovely plants. She replied, "Plants grow toward the light; and if they were not turned occasionally, they do not grow straight."

After she left the room, I pondered what she had said. Growing toward the light became a searching test for me. I thought of Jesus' words, "I am the light of the world." Across the centuries I heard Him say again, "Learn of me." "Follow me."

The Christian life is not static, but expansive. There are always deeper insights to gain and loftier heights to scale. Even Paul confessed that he had not arrived, but we who fix the limits of diving blessings we receive. It is not a still reached out for the goal. It is not a question of God's willingness to give, but of our capacity and willingness to receive.

PRAYER: Help us, dear Father, to look unto Jesus, our Saviour, and Master, and learn of Him: to trust Thee as He did, to obey as He obeyed, to love as He loved, to

Everyday Religion

by R. Thompson

Our school students have just gone through that delightful experience of final or mid-term exams. They feel light hearted and free when exams are over; until the next time. Trouble is, they will never be really over. In the school of life everyday is examination day. The aim of the school of life is not-graduate but to grow.

walk, and to serve with His compassion. In His name. Amen.

THOUGHT FOR THE DAY—In the school of Christ we always have deeper insights to gain and loftier heights to scale.—Theodore W. Anderson (Illinois).

Each one, no matter what profession or occupation he belongs to, is on trial every day. Van Wick Brooks once said that when he began each day's work he had the feeling that he was on trial for his life and might not be acquitted. We face heart searching questions every ray and bur devotion

and sincerity determines the grade we make.

No, the exams are not over. They have just begun. We may as well get accustomed to them.

The Fair Labor Standards Act, passed in 1938, set the minimum wage level at 40 cents an hour.

BOOST YIELDS PER ACRE...

with engineered irrigation and Alcoa Aluminum Pipe!

With a complete line of lightweight Alcoa Aluminum Irrigation Pipe, your Alcoa dealer can design a portable sprinkler or gated system for any need!

You apply an exact amount of water when it's needed, from germination to harvest, with engineered irrigation using Alcoa® Aluminum Pipe. You get higher yields per acre cultivated, better quality crops, earlier maturity to catch peak market prices.

Pick the Alcoa Aluminum Pipe you need!

Alcoa Standard Class 150—a heavy-duty, seamless pipe with full-thick walls to take rough handling and high pressures—comes in eight diameters from 2 in. through 10 in. Alcoa Lite-Line is either extruded—lightweight, low-cost pipe for most normal uses; or welded—alclad inside for maximum corrosion resistance. It's available in nine sizes from 6 in. through 12 in. for tapping high-volume water sources. Both Alcoa Standard Class 150 and Alcoa Lite-Line come in 20-, 30- and 40-ft lengths; larger sizes of Alcoa Lite-Line Welded, also in 50-ft lengths.

Ask your local dealer about Alcoa's 48-Month Irrigation System Finance Plan.

Provisions of this finance plan allow your new irrigation system to serve as security against your loan. There's no red tape; you get immediate action on application for a loan. You pay for your system out of your increased profits.

Your Irrigation Dealer has quality Alcoa Irrigation Pipe available for immediate delivery from local stocks. He can engineer an irrigation system specifically for your land, your crops; provide local service on a complete system.

TREAT 'EM ROUGH!

STANDARD ROOM & PEASE STA-OPEN AND GRIP-LOCK ALUMINUM SHEET HOLDERS

Made in finished aluminum all sizes both End and Side opening. No rings are needed. Sheets will not slip out. Use them where protection of papers from heavy duty is essential.

Training School At First Baptist

The members of the First Baptist Church will participate in a Music Training School beginning Monday night and continuing through Friday night of next week, January 30 through February 3. Three courses will be offered each night.

Ed Witnor, minister of music at the First Baptist in Lamesa, will teach a course in voice, "The Beginning Vocalist."

Bill Choate, minister of music at the First Baptist Church, Tahoka, will teach a course in the fundamentals of music, "The Beginning Music Reader."

Mrs. Clay Bennett will teach "The Beginning Organist" to those who desire to learn to play the organ and to those who would like to know more about organ playing.

These courses will be offered from 7:00 to 8:00 p. m. From 8:00 to 9:00 p. m. practical application

Icy Pavement Cause Of Local Accidents

During the icing over of streets and highways Tuesday afternoon and when sleet was falling following a rain, three automobile accidents here occurred within two hours and 15 minutes, resulting in an estimated \$375 damages. No one was injured, according to Chief of Police Jack Miller, who investigated the accidents.

At 2:15 p. m. David Wayne Copeland and Mrs. Otho Wood collided at the intersection of North 2nd and Miller Street. The cars were damaged to the extent of about \$100 each.

A station wagon and pickup truck accident on U. S. 87 at 3:40 p. m. occurred when the pickup driven by Louis Pierce of Draw lost a wheel, and as Pierce stopped for help, the station wagon driven by Mrs. Lena Lowrey of Westbrook, Texas, ran into the pickup. Estimated damages on the pickup were \$75.00 and on the station wagon \$50.00. Pierce was traveling north on U. S. 87 and Mrs. Lowrey was traveling south.

At 4:30 p. m. a trailer truck driven by Clifton Parson of Rankin was attempting to pass a car driven by Mrs. Bernice Copeland of Lubbock on U. S. 87 in front of Chestnut Service Station, when the truck skidded into the car. Damages to both vehicles were estimated at around \$50.00. Both were going south.

WASHINGTON AND "SMALL BUSINESS" BY C. WILSON HARDER

It is no secret that one of the many problems of the new Congress and new administration will be the farm problem.

Perhaps it will even take a display of raw courage to at least mitigate or alleviate the problem insofar as it affects the American taxpayer.

Independent retailers have long known that when through circumstances, or bad judgment, they are stuck with an excessive inventory, there comes a time when the moment of truth must be faced.

Sen. Karl Mundt believes it is high time that something be done about the situation, pointing out that it is now costing the taxpayers just to store surplus wheat over a half million dollars per day, almost a half million dollars per day to store surplus corn, over a quarter million dollars per day to store surplus sorghums.

In other words, it is costing about a half billion dollars per year to pay storage costs only on these three commodities. Much of it has become unfit for human consumption, more goes down in quality every day.

Sen. Mundt believes it is high time that some steps be taken to reduce their surplus products to alcohol for mixing with motor fuel. In Europe this is a common practice, he reports.

Sen. Mundt suggests that if gasoline were to contain five per cent alcohol, the public

Thuren Sponsors Fertilizer Meeting

Fifty farmers attended a breakfast meeting Tuesday morning in the City-Legion building sponsored by Dale Thuren at which results of cotton fertilizer demonstrations were presented.

Following a talk by Thuren, H. C. Brumlow of Midland, representing International Minerals & Chemical Corporation, showed a film, accompanied by a talk, to point out the importance of "trace elements" in the fertilizer used by the farmer.

"We are farmers, not miners," Brumlow stated. "We are taking elements out of the soil year by year and we must put 'em back."

Thuren told of the use this past crop year of 10-25 fertilizer and the results.

He said Rebel Thomas produced 120 bales on 80 acres in spite of part of the crop being flooded out.

L. M. Thomas of Grassland produced 39 bales from 19 acres.

Vernon Willhoit made 36 bales on 36 acres he had intended to irrigate. But, after his cotton had been burned by sand, he gave up on the crop and did not water it.

However, with help from the fertilizer, the crop came out and made a bale per acre anyway.

He also told of test plots managed by Leonard Crawford on the G. M. Stewart place. On one plot fertilizer was spread broadcast and turned under eight inches by moldboard, on another broadcast and listed, on a third banded in 3-inch bands, and on the fourth banded in the bed.

Men Needed By Highway Patrol

"The Texas Department of Public Safety still has an ever present need for young men who are interested in the field of Law Enforcement as a career," Major Hutchison said today.

Major Harry Hutchison, Commander of the Department's 60 County Region No. 5, announced the deadline of February 10, 1961 for applicants who desire to take the next entrance examination.

The next examination to select recruit patrolmen to fill the vacancies now existing in the Department's Field Services will be given in different cities of the State on February 14, 15 and 16.

"Young men between the ages of 21 and 35, and who have the other basic qualifications have an opportunity to receive the best police training in the nation," Major Hutchison said. "Our Training Academy in Austin offers approximately 14 weeks of training in all of the modern, up-to-date methods and procedures of police work. The salary starts when the recruit starts training, and upon graduation from the school all of the pitper working tools are furnished each man."

Young men who are interested in becoming a patrolman with the DPS should contact the nearest Field Office of the Department of Public Safety or the Department's State Headquarters, at Box 4067, North Austin Station, in Austin.

Cain Predicts Better Year '61

Alton Cain made his annual "predictions" for the coming year in a talk at Tahoka Rotary Club Thursday noon of last week.

As usual, his talk was filled with humor, philosophy, and serious observations.

For example, he predicted the beatniks will disappear like the buffalo because they look so much alike.

In spite of an increase in government spending, he predicted our economic position will be improved.

Dr. Skiles Thomas was in charge of the program. Mitchell Williams, club vice president, presided in the absence of President H. B. McCord Jr., out of town on business.

He read a letter from District Governor Bruce Pember in regard to the District Assembly to be held in Tahoka this spring. The club voted to entertain the Assembly here on Saturday, April 22.

Senior student guests for the month, Harvey Pyburn and James L. C. Haney and Ghormley, were introduced by L. C. Haney and E. L. Short, respectively.

C. T. Tankersley returned home Thursday of last week from Plainview where he had been a patient about three weeks at Medical Arts Hospital. He is reported to be doing very well.

Robert Harvick Gets Promotion

Robert Harvick received a promotion the last week in December to West Texas state manager for the investment division of the Great Commonwealth Life Insurance Company, effective Jan. 1, 1961.

He has already taken over his new position and he, his wife and three sons will move to Lubbock soon.

The promotion came after Harvick had only been with the company since the middle of November. He had been an investment salesman and in the last week of December was the top producer for the company in that week.

In his new capacity as West Texas state manager, he is over six district managers in this area. Harvick had thought of the possibilities of being promoted to a district manager's position, but the West Texas manager promotion came as a surprise.

W. A. (Dub) Harvick, Robert's brother, who travels this territory for Armour & Co. of Fort Worth, also recently received commendation in two separate news items in the company paper, "Eyes of Texas," one for a fine selling job on a large special order and another for working out a difficult problem for the company in this area.

Average expenditure for drilling wells in Texas is \$10.55 per foot.

Social Security Benefits Extended

Your social security is now better than ever. Because of the 1960 amendments, coverage has been extended, less work under social security is needed to qualify for benefits, and a person no longer need be at least 50 years old to receive disability insurance benefits.

Mr. John G. Hutton, District Manager of the Lubbock Social Security Office said today that there have been large crowds in his office ever since the law was changed, and it shows no sign of letting up. "We welcome everyone who thinks he might qualify under the new law," Mr. Hutton emphasized. "In fact, we're glad to see such crowds because it means word of the changes is getting around." He went on to say people who are unable to wait to see a representative of the office try again as soon as possible.

Mr. Hutton suggests that anyone who answers one of the following questions "yes" get in touch with the nearest social security office as soon as possible.

1. Have you ever had your application for social security benefits denied because you, or the breadwinner in your family, hadn't worked long enough under social security?

2. Have you delayed filing for disability insurance benefits because you are not yet 50 years old?

3. If you are a widow, were you ever told that you couldn't qualify for benefits on your husband's social security account because he died before 1940, or had not worked under social security?

4. Have you been told you can't receive benefits on your husband's account because you haven't been married to him for 3 years?

Read the questions carefully, and if your answer to any one of these questions is "YES," get in touch with your social security office right away. There may be good news for you.

A representative of the Lubbock Social Security Office will be in Tahoka on Tuesday, Feb. 7, at 9:30 a. m. in the courthouse and will be glad to assist in all matters pertaining to social security.

Since the inception of the religious awards program in 1939, 171,327 boys have been awarded church recognitions.

Buy, build, live in Tahoka.

Making Check On Irrigation Wells

Lyntegar Electric Cooperative is cooperating with the Texas State Board of Water Engineers in a program to check draw-down in irrigation wells over the territory it covers and seeking to anticipate future water development.

Here the first of this week gathering water and power data were Frank Rayner, engineer, of the Lubbock office, and Don Draper of Austin, both of the Texas State Board of Water Engineers; and John H. Shanklin, REA agricultural engineer, from Albuquerque, N. M.

The two Water Board men have been checking irrigation wells and trying to assemble more data on undeveloped areas.

Shanklin, an irrigation engineer with the REA, is also checking wells and trying to anticipate future development and possible electrical power needs in the future for pumping such wells.

Wes Owens, engineer of Lyntegar, is working with these men in their studies.

Back in 1950, Manager Garland Pennington of Lyntegar, says there were about 1,200 irrigation wells being pumped by electric motors on the cooperative lines. At that time, they estimated there would be 2,500 such wells by 1960. As it turned out, there are now more than 2,900 wells on Lyntegar lines, and more are being added each year.

Shanklin is concerned about the depletion of underground water supply and is of the opinion that some day in the future water will become a priceless commodity on the South Plains due to heavy pumping.

February 8, 1961 will mark the 51st anniversary of the Boy Scouts of America.

Advertising doesn't cost, it pays.

PUSH'S HAND IMPROVES

A. B. Bush, who received a badly cut hand while operating a power saw recently has the member out of the cast and says it is improving. Incidentally, Mr. Bush has a brother working with an oil company in Libya to whom he sent a clipping of the story about his injury "just to save writing him the details."

More than 640,000 boy scouts have spent a week or more in Scout Camps in 1960 alone.

Car Inspection Time Is Here

The director of the Texas Department of Public Safety today urged motorists to secure their 1961 vehicle inspection stickers "before the time gets short and the lines get long."

Col. Homer Garrison, Jr. said approximately half of the inspection period has expired and only about one-third of the vehicles in the state have been inspected. Unless the number of inspections is increased appreciably soon, he added, long waiting lines will be forming at inspection stations when the April 15 deadline approaches.

After that date, vehicles not displaying the new inspection sticker will be operating in violation of the law, Garrison said.

"The 4,800 authorized inspection stations over the state are ready and capable of handling the inspection of Texas registered vehicles without delay if owners will not wait until just a few days before the deadline," he said.

Garrison called attention to the fact that since the beginning of the inspection program, vehicles having a defect that was a causative factor in fatal accidents decreased from 13 per cent to five per cent.

"The purpose of the motor vehicle inspection program is to discover any maladjustment which might become a link in a cycle of events leading to an accident and, by removing the link, prevent the accident," he pointed out.

We Have A Good Supply Of HYBRID GRAIN SEED

Shown above is a field of Hybrid Grain, grown by Cletus Floyd. Hybrid Grains have proven themselves on the South Plains and more and more farmers are planting them every year. For the best Hybrid Grain Seeds — plant locally produced seeds.

Terry County producers of Hybrid Grain Seeds are receiving wide acclaim. These seeds are in demand, not only locally, but throughout our area. Seed growers — such as Purcell Seed Farms, Waters Bros., and Winfred Tucker — are having their seeds field tested in Old Mexico. Results of the tests will be announced at a later date. Test results, conducted in Old Mexico last year, gave locally produced seeds a 1 and 2 rating. According to the Texas Department of Agriculture,

Texas farmers are producing 30% more grain on the same acreage by the use of Hybrid Seed, than they did before Hybrids were introduced. And the outstanding quality of locally produced seeds has caused them to be in great demand outside our local area. All of our Terry County Seed Growers have received "tops" in the testing of their seeds. Give them a try, see if you don't think they are the best seeds for your farming operations.

THE SEEDS LISTED BELOW ARE CERTIFIED HYBRIDS:

- Purcell Seeds 610 & 620
- Waters Bros. 601, 610 & 660
- Winfred Tucker Seeds 608 & 610

We Also Have on Hand MARTIN'S, PLAINSMAN HYBRIDS and KAFARI, HEGARI, SUDANS, ALFALFA, BLACKWELL SWITCH AND BLUE PANIC GRASSES

YOU PAY THE LEAST! YOU SAVE THE MOST!

In just five minutes, we Ford Dealers will show you how to save over one hundred dollars a year in operating costs with America's lowest-priced, full-size 6-passenger car (including the equipment most people want) and we'll give you a free copy of this folder to prove it!

You can ride in this rich-looking '61 Ford Fairlane... with radio, heater and automatic transmission... for less than the price of any other full-size, 6-passenger car in the U.S.A.

In fact, this car is priced nearly \$100 below some of the compact cars.*

And this low price brings you a car that's Beautifully Built to Take Care of Itself. That means you'll save plenty in operating costs.

Figure it out for yourself with our FREE fact-filled folder, "Here's Proof..." At the same time, get our unbeatable SAVE-MOST DEAL on a '61 Ford Fairlane—for a limited time only. Don't waste another day or another dollar.

Here's how the '61 Ford takes care of itself

Lubricates Itself—You'll normally go 30,000 miles before clean lubrication (which cost only about \$4.00 and take about 20 minutes) because Ford has replaced conventional grease fittings with a new lubrication system.

Checks Its Own Oil—You'll go 4,000 miles between oil changes because Ford's full-flow oil filter gives you 100% clean oil. Trapping more dirt than any other type of filter made.

Adjusts Its Own Brakes—New Track Size brakes adjust themselves automatically.

Checks Its Own Motor—Ford motors are double-approved and shimmed-in last three times as long as ordinary motors.

Protects Its Own Body—All vital underbody parts are specially prepared to resist rust and corrosion, even in salted body panels beneath the doors.

Takes Care of Its Own Tires—New Diamond Lubrication keeps your wheels clean.

*Based on comparison of manufacturers' suggested retail delivered prices, including radio, heater, automatic transmission and white sidewall tires.

Get our January SAVE-MOST DEAL on a '61 FORD FAIRLANE!

No. 2 In A Series Of Stories About Businesses that Make Our Town "Tops"!

As hard-working townspeople, we are apt to overlook many personalities and programs that aid in making Tahoka a fine and prosperous place in which to live.

Among the folks who deserve recognition and reward for outstanding help in reaching our town goals are the businesses and business men that serve our town and area.

To acquaint you with the folks and firms that mean much to us, The Lynn County News is printing a series of stories about these people and places. We know you will be interested in the stories we tell. We also feel that when you have need for what these friends and their firms sell, you will reward them with your purchases.

(By Frederic de Vries)

Thousands Of South Plains People Enjoy Soft Water The Culligan Way

Would you like to "erase" forever that old nuisance... the "hard-water ring" around the bathtub? Are you tired of fighting "hard-water curd" which traps and embeds grime in fabrics? Does your hot water heater "gurgle" and "cough" because the supply pipe is "choking" on "hard-water scales"? You can banish these "hard-water ills," plus a dozen others for just pennies a day. How? With Culligan Soft Water Service.

The compact Culligan Service-type Water Softener, pictured at the right, is attached to your water supply at any convenient location. You buy no softener, do no maintenance work. The Culligan Soft Water Service, 208 College Avenue, Lubbock, owns the Service Unit, absorbs the cost of wear and tear without depreciation, and takes care of

it. Every Friday the Culligan Serviceman exchanges the Unit for a fresh one which has been "sealed" at the Lubbock plant. This exchange takes but a few seconds and there is no fuss or muss. You receive a small bill for the Service, and that is all there is to it. It amounts to just pennies per day. If you're wondering just how big the Unit is, here are the dimensions... only 44 inches high, occupies less than a square foot of floor space.

"Soft water pays its own way," says Harold Johnson, owner, Culligan Soft Water Service, Lubbock. "The family budget can show savings up to 25 per cent on coffee and tea," states Mr. Johnson. "Soaps and detergents can show savings up to 66 per cent... 24 per cent on water heating costs... 33 percent longer wear from washables," he added.

According to Mr. Johnson, it makes no difference if the source of your water is lake, river, pond, reservoir or a deep well, no water is entirely soft or pure without conditioning or softening. Hard

water uses from two to three times more detergent or soap and produces less lather. Clothes washed with hard water are said to wear out faster. Hard water can harbor dangerous bacteria, according to scientific investigators.

Culligan soft water is always filtered. It is fresh, clear and better to drink. In soft water, foods cook faster, more appetizing. Coffee and tea reflect dramatic improvement.

All the countless everyday household chores involving the use of water are made easier with soft water. Shampooing the hair and bathing can be done without the adding of "softening chemicals" to the water. Laundry, dishwashing and housecleaning are made easier.

Actually there are three ways you can enjoy unlimited soft water automatically the Culligan way. For information about Culligan services, you are invited to call Culligan Soft Water Service, 208 College Avenue, Lubbock. The telephone number is Porter 5-9307. In a moment or two—in your own home—the Culligan Dealer can show you the amazing difference between the water you are now using... and Culligan Soft Water.

Culligan Water Softener, like the one shown above, has been installed in many Tahoka homes to bring better living to those using this service.

IF IT WASN'T FOR "MONEY", YOU'D BE "DEPOSITING" COWS INSTEAD OF CHECKS... COTTON INSTEAD OF CASH AT—

THE FIRST NATIONAL BANK

"What is money?" Today we think of it as being the pennies, nickels, dimes, quarters, half-dollars, silver dollars and "dollar" bills that we get for work we do or things we sell and which we exchange for things we need and want.

"The dictionary," states A. C. Verner, executive vice president of the First National Bank, says that money is anything customarily used as a medium of exchange and measure of value... shells, shovel handles, cattle, copper wire, grain, beads, tobacco, etc.

"History tells us," Mr. Verner added, "that all of these things, plus many others, have been used for money."

"Let's suppose you lived a long time ago. You had an elevator full of grain. You wanted a horse. You would have to find a rancher who wanted some grain for his cows. Maybe you could make a trade. Suppose, though, that the rancher didn't want any grain... he wanted a pair of shoes. You can see that it would be desirable to find some one thing that everybody wanted... something that could be used for 'money.' Strange

as it may seem, such a commodity was 'salt.' Everybody wanted salt. It was scarce, it was easy to carry, easy to divide; it was durable.

According to Mr. Verner, it was a long time before "money" was made out of metal. First iron was used. Tin, copper, silver and gold... all had their day.

Because large sums of "metal" money became cumbersome to carry, people began conducting transactions on paper... making promises to pay by writing on pieces of paper. That was the beginning of the use of "paper" money.

The use of "checks" for transacting business was originated scarcely a century ago. Today "checks" are used by everybody to transact every kind of business. According to Mr. Verner, First National Bank of Tahoka.

This page will appear in The News twice a month, and during the series there will be two news stories, one with a picture on each business represented here.

The industry spent \$1.8 billion on production equipment and supplies in 1958.

Printer's Ink-lings . . .

By F. P. H.

Here of late, Tahoka is being treated like a step-child by General Telephone, and some steps must be taken to improve the service we are getting. Tahoka has been pretty good to General Tel., but General Tel. is living up to its reputation for being cold-blooded.

When General Tel. asked for help to cover extended-area service to Poka-Lambro Rural Telephone, Tahoka granted a raise in rates for this. When General Tel. proposed to install dial telephones, Tahoka granted another raise to cover this cost.

What does Tahoka get in return? Its local office is closed, and Tahoka loses a large payroll as all operators and other personnel are transferred to Brownfield. We are told that a business office will be left in Tahoka, but it is gone, too. We are told that Tahoka will be made the collection office for Post, Wilson, and Tahoka—but Post gets that office. What gripes us is that Post, under Mayor James Minor, fought the General Tel. proposal for raise in rates to change over to dial in every way conceivable for a year or more. The company was blasted in the Post

Dispatch. So, it appears that the only way to get attention from the company is to "raise Cain."

We got very aggravated before Christmas when we were trying to operate this business without telephone service for four days. We couldn't even get an operator for two or three of these days to place a long distance call. Then, two weeks ago we were laid up a few days at home with a cold—and, sure enough, the telephone went out—and we couldn't direct operations at the newspaper by phone. Finally, after reporting the phone out of order the third time, it was put in operation—after the paper was out. But, then, in order to get the phone fixed, we had to threaten to have the service discontinued. On another occasion we tried to call Loop-HU 7-2787, and the Brownfield operator told us there was no such number—and we had to tell her there better be because it was our farm.

We have an extension phone here at the office and we asked for a second directory, but so far have not received this. It seems that General could furnish two directories as they sell advertising in these directories and make an additional profit from their issuance. Another fault of the service is—if you need some information, of course, no Brownfield operator knows anything about Tahoka.

We have been hearing a lot of grumbling from other patrons, but we just mention the above because they are the ones with which we are acquainted.

W. T. Hanes, Irving school superintendent and formerly of Tahoka, got in the newspaper headlines recently in the Dallas area when he announced his school system will cut out some of the frills of education and place more emphasis on history, patriotism, Americanism, free enterprise, free labor, free opportunity, etc. Now, why should this be news? Has it come to such a state of affairs in our schools that these principles are no longer taught? Maybe we are further along in our Socialistic State drive than we thought. Recently, in a talk before Tahoka Rotary Club, our town school superin-

tendent, Otis Spears, outlined similar principles as objectives of the Tahoka schools, which we were glad to hear. Otis raised the question, have we gotten to the point where we are ashamed to salute the flag, to take off our hats as it passes by, to read the Constitution and Bill of Rights, to take the pledge of allegiance, or in short, to love our great country and its democratic principles and objectives?

We were impressed the other day with the apparent sincerity with which President Kennedy took his oath of office, pledged support of the Constitution, and repeated the words of the Star Spangled Banner as it was sung as a solo. We hope he carries out this pledge, although some of the incoming administration's proposals have been contrary to the Constitution—or, at least, stretch it considerably.

It won't do any harm to any of us to again read the Constitution, or even the "American Creed" which follows; and consider carefully every phrase:

"I believe in the United States as a Government of the People, by the People, for the People, whose just powers are derived from the consent of the governed, a Democracy in a Republic, a Sovereign Nation of many Sovereign States; a perfect union, one and inseparable, established upon principles of Freedom, Equality, Justice and Humanity, for which American patriots sacrificed their lives and fortunes. "I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag, and to defend it against all enemies."

People who have been here more than thirty years may remember Hall Robinson as a catcher on baseball or softball teams, and there were few players, with his booming voice, like him.

The other day Hall got to reminiscing about the old old days in baseball—he won't tell what year he started playing. He says he started playing on the school team in Fort Worth at the age of 14, then caught for the Armour & Co. and other semi-pro teams before playing for the Fort Worth team in the Texas League. The Fort Worth club was then owned by a saloon man, John L. Ward. Later, he played baseball at San Angelo and Ballinger before coming to Tahoka in 1905.

Hall could hit the long ball, but on one occasion at San Angelo he got a home run when the ball rolled into the outfield and down a prairie dog hole. Another time he got a freak home run when the ball rolled up a leaning support to the outfield fence and then jumped through a knot-hole.

John F. Thomas, who now owns the old Joe Thompson homestead east of town, and Albert Curry a few days ago found out at that place the First World War Army "dog-tag" of the late Dr. L. E. Turrentine, which bears the inscription "First Lieutenant L. E. Turrentine, M. R. C., U. S. Army."

The two also want to know why there was not a big story in The News last week about their fishing expedition to Falcon Lake. Well, boys, one reason is that you didn't bring us any fish. They claim to have hit the jackpot and caught a "boat load."

Mrs. Grady Herrin was telling her Primary class at Sweet Street Baptist Sunday School the story of Shadrach, Meshach and Abednego and the time when the king put them into the fire. On completion of the story she asked little Roger McClintock, "Now, Roger, what have we been studying?" The youngster replied, "Shadrach, Meshach and a Billy goat."

"Dub" Harvick was telling this one: A Texan was visiting Niagara Falls with a Yankee friend. "I'll bet," said the New Yorker, pointing toward the falls, "that you don't have anything like this in Texas." To which the Texan replied, "Nope, but we got plumbers who can fix it."

Someone has defined a gentleman to be a man who has had the same operation you had but says nothing about it.

There are two kinds of advice—the kind you get but don't want, and the kind you want and can't get.

Father (looking over his son's report card): "One thing is in your favor. With these grades, you couldn't possibly be cheating!" — Santa Fe Magazine.

Mrs. Charles H. (Mary Preston) Schroder of McNary writes: "We were receiving your paper when your family became owners of it (Nov. 1, 1923). We not only read it but made a file for Home Demonstration agents for fifteen years. There are issues which mean much and we surely know if we miss getting a copy. It is fortunate for me to get news weekly through your paper. For 25 years Lynn county was our home."

Mrs. Mrs. C. W. Conway of Seminole writes: "I look forward to getting The News. . . I still have a warm spot in my heart for Tahoka and all the nice people over there."

GOAL OF EDUCATION A BETTER AMERICA

(Dallas News) Some of the most vociferous lovers of peace seem to find it wrong to love America. Nationalism, of course, is another name for patriotism. A man who is not prejudiced in favor of the land which gave him birth is either ill-born or ill-bred.

W. T. Hanes, superintendent of schools in Irving, puts it another way: "We have a better product to sell than the Communists do, but

we've done a poorer job of salesmanship." For his own scholastic system, Mr. Hanes proposes to institute instruction on a positive basis—what America is, how it came to be what it is, what it means to be an American.

History can be dates and names and facts—or it can be ideals and honor and challenge. Hanes sees it in the latter sense. Economics can be figures and tables of statistics and dry data—or it can be the interflow of the vital currents of daily life. Hanes again takes the latter view.

With history and economics so presented, they come to glow with the vital force that is our America, the America of Bunker Hill, the America of the supermarket, the America of free labor, free enterprise, free opportunity. After all, that is a pretty good America.

That kind of teaching is bound to help to make it a still better America. Why isn't that the proper goal of education, after all? Irving Chamber of Commerce thinks so. How about you?

About one out of every 11 Texas workers is in oil and gas industry.

A "space telescope" now under construction in Sugar Grove, W. Va., will use more than two million pounds of aluminum.

The Boy Scouts of America, was granted a National Charter from the Congress of the United States in 1916.
