

GRASSROOTS

By BILL GRIFFIN
County Agent

LEAF-NUT RATIO

The size and quality of pecans are influenced by the leaf-nut ratio—the number of leaves per nut. Roughly, 10 compound leaves, each consisting of 9 to 13 leaflets, are required to produce and support a good, medium-size pecan. More are needed for large nuts and fewer for small ones. Pecan clusters are borne terminally on new shoots, and most of the leaves have already formed on a tree when the cluster develops. The soil needs to be fertile to stimulate this strong, vigorous growth and provide a generous number of leaves to support the tree and enable it to mature a good crop of pecans.

Pecan trees will grow and thrive on soils that range from slightly acid to slightly basic, with PH values ranging from about 6.0 to about 7.5.

GOOD VARIETIES

Many native pecan groves in Texas are highly productive and profitable. The best commercial pecan groves however, consist of standard

Pancake Supper Is Set For March 17

All people of the area are being invited to attend a pancake supper sponsored by Tahoka Rotary Club on Friday night, March 17, from 5:00 to 8:00 p. m. in the Tahoka school cafeteria.

Proceeds from the supper will be used to bring another foreign college student to Lynn county to spend eight or ten weeks this summer as a part of the club's international good-will program. Hereafter, the club has borne all the expense of bringing these students to Tahoka.

Rev. J. B. Thompson, in charge of arrangements for the supper, says those desiring tickets may get them from any Rotarian—at \$1.00 each.

Fred McGinty will be in charge of the catering.

varieties. These varieties have varying adaptation to separate pecan growing areas. The choice of a good, adapted pecan variety is necessary for successful pecan growing.

An adapted tree should make strong and vigorous growth; it should be resistant to disease pests; it should start growth late in the spring to avoid possible damage by cold weather, and should mature the crop fairly early in the fall to make harvesting easy and also avoid possible freeze damage to immature nuts; and it should bear regular crops of pecans, without undue failures, and also without overbearing.

The nut of an adapted variety should be large, 50 or fewer weighing 1 pound; it should contain 50 percent kernel or more; the kernel should have good color and taste and should separate readily from the shell in cracking.

Texas Gets 84% of March of Dimes Funds

THE FIGHT AGAINST CRIPPLING goes forward on many fronts with funds raised through the March of Dimes. The scientist in the laboratory seeks answers on the slides under a powerful microscope. The doctor in his office brings to bear all of medicine's present knowledge to relieve pain and crippling for the individual patient.

NEW YORK, N. Y.—The state of Texas has been the principal beneficiary in the allocation of March of Dimes funds raised in the state over the past 23 years, it was disclosed today in a financial summary prepared by The National Foundation.

More than 84 cents of every dollar from Texas' March of Dimes has been put to use in aiding the state's disease victims and in research and education projects conducted by Texas institutions. Of the remaining 16 per cent accruing to the national headquarters, a large portion also has come back to Texas in shipments of polio vaccine and gamma globulin and in other nationwide services conducted by The National Foundation.

The summary covers the period since the first March of Dimes was held in January,

1938, and compares the net total of funds raised in the state with amounts made available to Texas through September 30, 1960.

In this period, Texas chapters of the March of Dimes organization raised a net total of \$28,255,310.30 at an average fund-raising cost of less than 7 per cent. Of this amount, \$20,578,742.57 has been available to the county chapters in carrying out their extensive patient aid programs, including advances of \$8,593,351.71 from the national office to meet local emergency situations.

In addition, 65 grants totaling \$2,946,584.11 have been made in support of research and professional education projects at Texas institutions. Principal beneficiaries of these grants have been: Baylor University, \$1,748,928.28; Jefferson Davis Hospital, \$654,797.54; University of Texas, \$332,781.57 and the Texas Institute for Rehabilitation and Research, \$162,179.85. The latter institution also has benefited to the extent of \$1,514,672.42 from

those grants made to Baylor University and Jefferson Davis Hospital.

Over and above the 84 per cent used by institutions and county chapters in the state, The National Foundation has financed within the state projects such as the historic field trials which proved the effectiveness of the Salk vaccine, epidemiological studies and scholarship and fellowship grants to Texas residents. National headquarters' expenditures for the vaccine trials in Texas amounted to \$359,726.07. In addition, the national office has sent into Texas \$291,718.84 worth of Salk vaccine and 654,924 cc's of gamma globulin in support of its polio prevention programs.

Two years ago, the National Foundation for Infantile Paralysis changed its name to The National Foundation in expanding its areas of interest beyond polio to include birth defects and arthritis, using the scientific knowledge and experience gained in the fight against polio.

Don Brice Takes Special Training

Charles Don Brice, an associate of the Lubbock General Agency for the Massachusetts Mutual Life Insurance Co. in Lubbock, Tex., has completed two weeks of specialized training at Springfield, Mass., as a member of his company's 45th Home Office School for Career Underwriters. The school was attended by 28 field representatives from 23 agencies in 15 states and the District of Columbia.

A native of Texas, Mr. Brice was graduated from Texas Technological College where he was a member

of Phi Gamma Delta fraternity, served as business manager of the student council and was active in student government. He served as a Lieutenant (j. g.) in the U. S. Navy prior to becoming affiliated with Massachusetts Mutual. He is a member of the South Plains Underwriters' Association. He and Mrs. Brice, the former Mary Jo Cappelman of Dallas, Texas, and their daughter live at 2833 57th St.

Texas oil and gas dollars paid for 43 percent of state cost of public education; 60 percent of state cost of teacher retirement, old-age assistance, blind assistance, and aid to dependent children in 1960.

Ladies Tell Of Trip To Arkansas

Mrs. Ola Reid and Mrs. Beatrice McLaurin have returned from Arkansas, where they went on a combination business and pleasure trip. They visited the Reid family in Dequene, and a nephew at Little Rock, who teaches in the schools there, that Mrs. Reid hadn't seen in 12 years. The ladies went to Lake Grecon fishing and hunting, and Mrs. Reid reports that although she couldn't keep Mrs. McLaurin out of the briar patches, the latter enjoyed her trip. Spring has arrived in that state, the ladies report. "Flowers are in bloom, the birds are singing, and the rivers are rolling."

SCHOOL CAFETERIA MENUS FOR WEEK MARCH 13-17

Cafeteria menus for week of March 13-17 to be served in the school cafeteria are as follows:

Monday: Fish with tarter sauce, cream potatoes, English peas, apple sauce, rolls, butter and milk.

Tuesday: Pinto beans, spinach, nacaroni and potatoes, beet pickles, corn bread, butter, peanut butter cookies and milk.

Wednesday: Roast beef with barbecue sauce, green beans, buttered broccoli, cabbage-radish salad, whole-wheat bread, date cake and milk.

Thursday: Viennas, kraut, black-eye peas, buttered corn, sunglow

salad, rolls, butter, honey and milk.
Friday: Hamburgers, onions, lettuce, tomatoes, baked potatoes, fruit cups and milk.

Texas has 59,600 miles of oil pipelines—26,500 miles of trunk lines; 26,600 miles of gathering lines; 6,500 miles of product lines.

Mr. and Mrs. W. N. Stone, Ann and Charlie, spent last week end in East Texas, accompanying his brother home, who had arrived here Friday morning.

Petroleum accounts for nearly three-fourths tonnage handled in Texas ports; about one out of every 14 tons of Texas rail traffic.

Lynn County Soil Conservation District News
 WARD EAKIN ELLIS BARNES
 E. R. BLAKEY W. L. (Cap) ROWE
 MELVIN WUENSCHÉ

Great Plains conservation plans have been developed on the Frank Lisenby Sr. and Frank Lisenby Jr. farms northeast of New Home.

The plans include terracing, conservation irrigation system, crop rotation, and use of all crop residue to prevent wind erosion, and for soil improvement.

Adequate amounts of residue, for

protection from wind erosion, are still present on many grain sorghum fields. Tillage should be delayed until the critical blow season is over, to get the maximum erosion control from the residue.

Terrace lines have been run, and construction started on the Magnus Klattenhoff farm northeast of Wilson.

New basic plan is being prepared on the S. E. Lehigh farm east of Draw. The plan includes conservation cropping system, crop residue use, cover crop, terracing and contour farming.

Terrace lines have been run on Mrs. Mattie Caviness' farm three miles north of Tahoka. Terraces will be constructed and cost shared under the A. S. C. program.

Level irrigation system has been laid out on the Lonnie Lumsden farm. When the irrigation system is installed, length of run will be cut down to get maximum use of irrigation water, and rainfall.

Wilmer Smith At Cotton Meeting

Clemson, S. C.—Wilmer Smith of New Home was one of 12 representatives of the major cotton producing states meeting last week at Clemson College here as members of the Cotton and Cottonseed Research Marketing Advisory committee.

The committee, authorized by an act of Congress in 1946 and composed of farmers and men from all phases of the cotton industry, meets annually to review the Department of Agriculture's research program and to make recommendations on the most important problems of research.

Grassland News

(Mrs. D. H. Hoover)
 Tandy Edwards, long time resident in the Grassland community, passed away Tuesday, Feb. 28. He came here with his family in 1916. Most of the children were small at that time. They grew up, married and made homes of their own but Tandy and Sallie as we all called them maintained their home north of Central church till Sallie passed on in 1957. Since then he has lived with his children. We extend our sincere sympathy to the children and other relatives.

Mr. and Mrs. Ted McDonnell of Post and Mr. and Mrs. W. G. McCleskey visited with the C. O. McCleskeys Thursday.

Mrs. Tom Murray fell Monday evening late and broke her leg jamming the bone up into her knee and damaging her kneecap severely. She was carried to Garza Hospital at Post but later was transferred to Methodist Hospital at Lubbock where she had surgery.

Jerrie LeMond, daughter of Mr. and Mrs. Roy LeMond spent the week with her parents. She teaches school in Midland.

Mr. and Mrs. Gus Porterfield went to O'Donnell Saturday to the stock show. Their grandsons, Tommy and Danny Stone exhibited fat hogs. Tommy "kinda" lost out but Danny won first place on heavy Chester Whites, grand champion on Chester Whites, and reserve grand champion on all breeds. Congratulations Danny.

Mrs. Donald Carpenter came home from West Texas Hospital Tuesday. She had had major surgery but is doing fine now. Mrs. W. A. Morris kept the Carpenter children, Donna and Larry in school while their mother was hospitalized.

Mrs. Richard Brooks has been staying with the W. H. Normans for some time while her husband went to South Texas with a loaded truck. He is a trucker for his father, owner of Brooks Trucking Co.

Mr. and Mrs. Bill Moore and Christy Lynn of Seagraves spent the weekend with Mr. and Mrs. C. A. Walker.

Wendell Norman finished his basic training at Ft. Leonard Wood, Mo. on March 9. He is due home to spend his leave of two weeks with his mother and dad, Mr. and Mrs. W. H. Norman and little sister, Penny.

Miss Jan Thomas and Patsy Brooks were in Lubbock Tuesday afternoon.

We are losing another young family of our community, Mr. and Mrs. Adrain Cook and two girls are building a new brick home in Post. It's a three bedroom home with large living room, den and dining area combined, also a double garage. We wish them contentment in their new home.

Mr. and Mrs. E. B. Gregg's two grandsons from Abernathy stayed over the week end with them. Their mother, Mrs. Gene Nunn had an ear abscess.

Mrs. W. G. McCleskey and Mrs. H. D. Gartman went to Lubbock Monday to visit Mrs. Tom Murray who has a broken leg and is in the hospital. She is improving.

Miss Linda Davis spent the week

UNDERWAY: The prototype rises swiftly from the launching pad. Army spokesmen forecast a NIKE ZEUS firing in 1961 from Kwajalein Island to intercept an incoming ICBM launched 4,500 miles away in California. The NIKE ZEUS will meet and master the ballistic missile threat presented by the Soviet Union.

THE SHORT COMPANY

SCIENTIFIC SABBATICAL: Under the auspices of the US Army Engineers (Polar Research and Development Center), two Explorer Scouts are spending the six-month winter season at Camp Century on the Greenland icecap. The two young men, one an American (Kent Goering, center) and the other a Dane (Soren Gregersen, left), are instructed by Army Captain Harvey Arnold in the operation of Camp Century's nuclear reactor built under the snow. Gregersen and Goering were selected by Boy Scout officials after a series of tests and other examinations of their qualifications and interests.

Former Citizen Dies In Houston

C. A. (Chester) Walters, 69, an old-time citizen of Tahoka died Thursday of last week in Houston while attending a Masonic Lodge meeting.

As a young man in Tahoka, he worked for Joe Haire at the Santa Fe depot before going into the Army during World War I. After the war, he moved to Houston and worked for Hughes Tool Co. for 28 years before retiring in 1952.

Attending funeral services Monday were his sisters, Mrs. H. B. Howell and Mrs. Oran Short of Tahoka, Mrs. Edith Dickson of Lubbock, Mrs. Edna Kyle of Fort Sumner, and brothers Lorn Walters of Plainview and Earl Walters of Cleburne. He is survived by his wife and one son.

Claude Carter Win 25-Year Awards

Claude Carter, owner of the station and store eight miles north of Tahoka, was recently honored by Phillips Petroleum Company at a dinner meeting in Brownfield for having represented the company for 25 years, according to H. B. McCord, Jr. He was presented a 23 jewel Lord Elgin wrist watch and a diamond lapel pin in recognition for his long affiliation in selling Phillips products.

The presentation was made by J. A. Gilmer of Amarillo, assistant division manager for Phillips.

Senator Preston Smith

A red-hot issue which will bring the country boys of the Legislature out of their seats is the recommendation of Gov. Daniel that the farm-to-market road program be transferred from the state's general fund to highway funds.

Daniel insists the transfer, whether for two years or permanently, will not damage the program.

But the transfer of the \$15 million annual obligation will cut the Texas, highway program by that amount annually. The goal will be the primary and state road system, the in-between of the farm-to-market construction program which is perpetuated by the mandatory "mud to pavement" spending program, and the gigantic highway construction program which is sustained mostly with federal funds.

A joker in the state highway program consistently pointed out by the highway department is that after spending earmarked funds for farm-to-market construction, and the state's 10 per cent matching funds for the interstate construction, there remains the state obligation of maintenance on the entire farm-to-market system and the largely federally financed interstate system. But with practically all of the money earmarked for building, there is very little left to keep them from deteriorating through lack of maintenance.

The farm-to-market road program was one of the most important ever adopted by Texas in the development of its outstanding highway system. Texas has something over 30,000 miles of this relatively inexpensive construction, but roads located where traffic would not justify the building of the US designated or state-designated highways.

No proposal has been made, and none will be made, to abandon the program bearing the name of farm-to-market roads. It has too much support for that. Significantly, much of the support comes from business and industry interests of the cities, which share with the farmers and the ranchers the benefit of good transportation to and from the remotest rural areas.

The program will continue, and more roads will be linked up as needed, whether the money comes out of the general fund's deficit or the highway fund's surplus.

Actually, one of the main problems of the highway department, increasing the load of maintenance costs of the farm roads, is that these roads are so, much more convenient in many instances that the heavy truckers insist on using them. The roads are not built heavily enough to support the heaviest legal traffic, and often a truck will seriously damage a strip of road by a single trip over it. Thus maintenance is made more necessary, and more expensive.

Mrs. F. E. (Lou) Calvery and a friend, Mrs. Pat Wright of Elore, between Seminole and Andrews, were Tahoka visitors Tuesday. "Miss" Lou, formerly of Tahoka, and her husband operate the store and postoffice at Elore.

Your RIGHT TO VOTE

MR. AND MRS. VOTER, do you feel that you should have an opportunity to vote on legalizing Parimutuel Horse Race Betting?

A constitutional amendment (H.J.R. #4) is being considered whereby Texans will be given an opportunity to legalize horse race betting in Dallas, Tarrant, Harris, Galveston, Bexar, Midland, Hidalgo, Cameron and Webb Counties, subject to approval by LOCAL OPTION.

H.J.R. #4 provides for distribution, ANNUALLY, among all counties that do not have race tracks, one-half of the STATE TAX REVENUE obtained from horse racing. Each county would receive approximately \$1.00 per capita population the first year. Counties where the tracks are located would receive 2% of parimutuel handle. The state's tax income from horse racing alone would run close to \$12,000,000 the very first year—possibly more—besides all the income tourists would bring to Texas—which would amount to millions of dollars, plus a great deal of valorem tax on race tracks, breeding farms and many valuable race horses.

Please express your opinion by checking the appropriate box below. You do not have to sign your name unless you like, but we would prefer it.

POLL

YES: I feel that the people should have an opportunity to vote on horse race parimutuel betting.

NO: I am not in favor of letting the people vote on the subject.

OKRA SEED HARVEST on the farm of Lewis Alsup and Winston C. Wharton was done a few days ago by Jimmy Dulin, using a new method, with a self-propelled grain combine. Dulin and the crop owners said they had never heard of this method, but the experiment worked. About 1,300 pounds of okra seed was threshed from five acres of the two men's vegetable farm. Dulin is shown above with his combine in the field.

Congratulations—

Mr. and Mrs. Roy Riddle, Rt. 1, Box 271-A, Jacksonville, Alabama, on birth of a son at 11:34 a. m. Feb. 25 in a hospital there. Weighing 9 pounds he has been named William Nicholas. Mr. and Mrs. T. R. Riddle are paternal grandparents, and Mr. and Mrs. Ollie Riddle, Wilson, are great grandparents.
Mr. and Mrs. Rollin McCord Jr., 2216 47th St., Lubbock, on birth of a daughter Thursday, March 2, at 5:15 a. m. in Tahoka Hospital. The

couple's second child has been named Tonya Sue and weighed 6 pounds 14 ounces. Mrs. Lillian McCord is paternal grandmother, and Mr. and Mrs. R. L. Miller are maternal grandparents.

Mr. and Mrs. Homer (Sonny) Guinn on birth of a daughter at 10:48 p. m. Tuesday, March 14 in Methodist Hospital, Lubbock. She weighed 6 pounds 2 1/4 ounces and has an older brother. The father is a rancher for T-Bar Ranch.

Feed Grains . . .

(Cont'd. from Page 1)
vides for—(1) a substantial increase in price support rate on feed grains, (2) a diversion of acreage from feed grains, as a condition of price support, (3) a payment in cash for half of the reduced production at 50 percent of the support price, and (4) payment-in-kind for the other half of the reduced production at 60 percent of the support price.

The details of the proposed diversion are similar to those worked out by Congress on past wheat bills. The total acreage of corn and grain sorghum, and the total acreage of such other feed grains, if any, as might be designated by the Secretary, would be cut below their average acreage for the years 1959 and 1960; and the total acreage of nonconserving crops would be cut by this combined acreage. Specific acreage representing the reduction would be developed to conservation, and not harvested or grazed. This acreage would be in addition to conservation reserve acreage.

For the acreage of each feed grain reduced pursuant to the program the producer would be paid in cash for half of the reduced production at 50 percent of the support price and in kind for the other half at 60 percent of the support price. The amount of the reduced production would be based on the 1959-60 average annual yield.

The Secretary of Agriculture could make adjustments in base acreages and yields for various factors such as abnormal weather, soil bank participation, and crop rotation.

The ASC office is now in the process of gathering a special report from every farm in the county regarding land usage in 1959 and 1960. The data compiled will

be used to establish base acreage and history for use in the feed program.

Cooperation among Lynn County farmers has been excellent, according to Charles G. Bragg, ASC office manager. Appointments were arranged with the farmers by letter, and the interviews have been processed at the rate of about 50 per hour. From Saturday morning until Wednesday noon, crop acreages were reported on approximately 1350 farm units. All farm operators who have not called at the ASC office for this report are urged to do so as soon as possible.

Mrs. Willhoit Dies Recently

Word was received March 3 of the death of Mrs. D. F. Willhoit, mother of Vernon Willhoit. Mrs. Willhoit died at 5:15 a. m. Mountain standard time in Myrtle Creek, Oregon. She had been in ill health for several years, but suffered a heart attack on Saturday, Feb. 25. Vernon left Tahoka on Monday with his sister, Mrs. Henry Newman of Brownfield, and a brother, D. B. Willhoit of Hobbs, N. M. A daughter-in-law, Mrs. Floyd Willhoit and her three children from Detroit, Texas accompanied them. They arrived in Oregon late Wednesday.

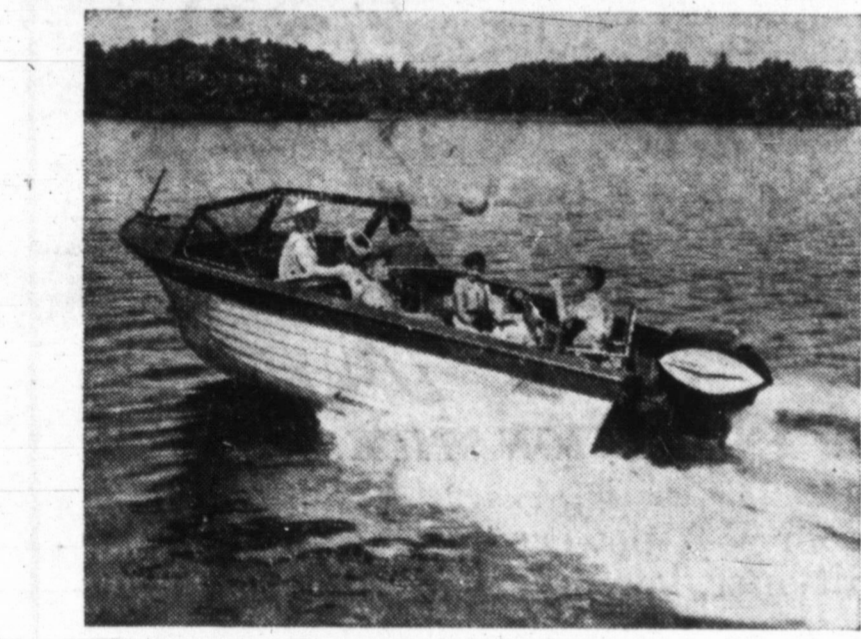

Mrs. Willhoit's maiden name was

Campbell-Ewald Serves 50 Years

The News extends congratulations to Campbell-Ewald Company of Detroit, Michigan, advertising agency which has been handling Chevrolet dealer advertising for fifty years, since 1911. Most of these fifty years, The News has been doing business with this agency, and the relations have been the best at all times. In fact, so far as the present management knows, the only years that The News has not been affiliated with this advertising agency were intervals back in the "old days" when there was no Chevrolet dealer in Tahoka.

Almost every manufacturer of national score is represented by some advertising agency that helps the firm plan its advertising program and place advertisements in newspapers and magazines. Some of the agencies come and go. Some firms change agencies occasionally.

But, Campbell-Ewald has rendered such outstanding service to its client that Chevrolet has stayed with it for 50 years.

The News joins other newspapers of the nation in extending congratulations to Campbell-Ewald on its long service to Chevrolet, the local dealers (including Bray Chevrolet of Tahoka), and the newspapers in all the towns where there are Chevrolet dealers.

—The Publishers.

Ida Emaline McKnight. She was born in Mississippi, her father being an overseer on a large cotton plantation. Observing her last birthday Feb. 22 she became 91 years of age.

She is survived by eight of her nine children, a son having died in May, 1960. Her husband, D. F. Willhoit, preceded her in death on February 25, 1952. Among those surviving are five sons and six daughters, namely, D. B. Willhoit, Hobbs, N. M.; Fred Willhoit, Myrtle Creek, Oregon; Mrs. Eva Blosser, Winston, Oregon; Mrs. J. B. Nelson, Roseburg, Oregon; Tim Willhoit, Brownfield; Vernon Willhoit, Tahoka; Mrs. Mabel Newman, Brownfield; Guy Willhoit, Citrus Heights, Calif.; 22 grandchildren, 21 great grandchildren, and one great grandchild.

The Willhoits are former residents of New Home where he followed the blacksmith trade.

Results of Cotton Burr Demonstration On J. B. Jones Farm Are Revealed

A cotton burr demonstration with fertilizer was carried out last year on the farm of J. B. Jones, 12 miles east and five miles north of Tahoka, in the Gordon community.

County Agent Bill Griffin has completed his check of the results. Six tons of burrs were applied to the demonstration in December, 1959. The land was chiseled twice, listed, and irrigated. Following the irrigation, 82 pounds of nitrogen was applied. The check plot received the same treatment of nitrogen and the same cultural practices as the treated plot.

Plot 1, with six tons of burrs plus 82 pounds of nitrogen, produced 1160 pounds of lint cotton per acre.

Plot 2, with 82 pounds of nitrogen, produced 1088 pounds of lint per acre.

The increase from cotton burrs was 72 pounds of lint per acre. The application of burrs cost \$15.00 per acre. The increase in income amounted to \$20.88, with \$1.39 return per dollar invested.

Rev. Copeland Is Pastor At Knapp

Rev. D. W. Copeland has accepted a call to Knapp Baptist Church, which is located three miles north of the east end of Lake Thomas in Scurry county and he and his wife will move there next Tuesday.

Rev. Copeland resigned his position as pastor of Redwine Baptist Church in Lynn county in January and moved back to Tahoka, where he and his family had made their home for many years. The couple have a son, David, who is a student in Baylor University.

In addition to the Redwine church, Rev. Copeland has served other Lynn county churches including, Wells, Central and Bethel. His new pastorate is 19 miles southwest of Snyder on Farm-to-Market Road 1606.

Rev. Copeland said he and Mrs. Copeland regret leaving their many friends in Tahoka and Lynn county, but are looking forward to their visits both in their home and at the Knapp Baptist Church while spending week-ends at Lake Thomas.

His pastorate covers a large area since there are few churches in that part of Scurry county. It is the nearest church to Lake Thomas and also serves many farmers, ranchers, and oil field workers in that area.

Texas has 68,000 miles of gas pipelines.

New Church Opens Tahoka Services

A new church has been formed in the city with services to begin Sunday at 10:00 a. m. Services are to be held in the home of Jim Usery which is located two blocks west of Kenley Food Mart.

The new church is non-denominational, independent and the minister is Roland Usery, who formerly attended Tahoka High School and completed his education in Oklahoma. An invitation is extended to all to attend.

Have News? Phone 998-4888.

Honor Roll For Wilson Elementary

Lloyd Jones, Wilson Elementary School principal, announces the following students on the honor roll for the past six weeks of school:

- First Grade: Joy Clark.
- Third Grade: Carolyn Baker, Jimmy Clark, Steve Meador, Betty Shaw and Shiela Turner.
- Fifth Grade: Vicky Lane, Francis Maeker, Patricia Rinnie and Carolyn Schneider.
- Fourth Grade: Kathy Christopher.

INCOME TAX DEDUCTIONS . . .

Overlook one and the penalty runs up fast. Uncle Sam wants only what is due and it's simply money out of your pocket if you fail to take advantage of those to which you are entitled.

You can watch your deductible expense like a hawk if you pay by check. And if you don't, you would be wise to open a checking account before another week goes by. Stop in.

The First National Bank

Of Tahoka, Texas
MEMBER OF F. D. I. C.

Why settle for the inconvenience of an awkward "lift-up" gate?

Before you put hard-earned cash on the line for any compact wagon, just try this: open the tailgate. If it swings up, as shown at left, you could be in for some lumps and bumps on the head as your cargo rolls out. But Falcon's tailgate, with the built-in, roll-down window, swings down. That means easier loading—and 26.1 inches more cargo deck (with tailgate down) for carting those long loads—up to 31% more cargo area with tailgate up. No doubt about it. Falcon hauls more—and that's what you buy a compact wagon for!

Pay up to \$508 more? What for? Only Falcon offers the just-right compact wagon!

Just Right in Convenience!
Check the current crop of compact wagons. You'll find they all fall short of Falcon's convenience. For instance, seven out of eleven don't give you a handy, swing-down tailgate with roll-down rear window on all models. There's attention paid even to the "little" conveniences, such as two arm rests, two sun visors, two coat hooks, all standard at no extra cost! And of course, you can have your choice of Tudor or Fordor Falcon Wagons, too.

Just Right in Price!
Cast an eye on that low price sticker and you realize what a sensational value the Falcon wagon really is! Imagine . . . up to \$508 less* than some compact wagons, not stripped but equipped the way most people want their wagon . . . including radio, heater, automatic transmission and deluxe trim. With all this that you save on Falcon's low price, you're still driving a dazzling new beauty, handsomer than ever inside and out.

Just Right in Economy!
Of all compact wagons, Falcon's the economy champ! America's sweetest, savingest 6-cylinder engine takes you up to 30 miles per gallon on regular gasoline—4,000 miles between oil changes. And Falcon's sensible engineering makes for rock-bottom repair costs and lower maintenance, too. You save on tires, mufflers, every driving cost in the book. P.S. For an extra measure of performance, try Falcon's briak, new 170 Special engine option.

Printer's Ink-lings . . .

By F. P. H.

Nope. The News will not accept liquor advertising. Several have asked us in recent weeks if we were going to accept such advertising since the Lubbock precinct voted wet and 18 liquor stores have opened on the highway between Tahoka and Lubbock. A newspaper in a dry area has a legal right to accept such advertising, but it has no moral right. Two weeks ago we were offered some lucrative liquor advertising

accounts that would have brought us several hundreds of dollars in added revenue. We turned them down. We'll continue trying to make our living with what we consider more legitimate advertising placed by home businesses and national agencies.

We also recently turned down a contract from a large Lubbock department store. Lubbock cares little for Lynn county except for the business it gets from us. Although the account would have brought us upwards of a thousand dollars, we believe we will stand or fall with our home town and county.

Lynn county raises some important crops, but the most important crop of all is our kids. And, since most of them will continue to pursue agriculture through life, or be closely connected with it, vocational agriculture and the 4-H club programs should remain most important. Three years now we have staged the county livestock show in make-shift or substitute quarters. We hear a move is being started to build a suitable show barn. We believe we need this badly in Tahoka to help promote agricultural education.

Down at Austin, a bill has been introduced in the Texas Legislature

that would permit electric cooperatives to serve residents of towns and cities which overflow into rural areas, and inferentially prevents private power companies from serving such areas. This is just another step toward stifling private industry and of using public tax monies for purposes for which they are not intended.

We are for the REA's all the way—as long as they stay in their field. Rural electricity and telephones have proven wonderful for rural areas, and have helped develop our county to a point where it is as desirable to live on the farm as in town. But, government is already too big and has encroached on too many businesses, including the printing business. We do not favor spending tax money to put even REA in competition with private power companies in the cities and towns. We want to see REA prosper and grow and continue to serve our rural areas. But it is not fair to private industry or the taxpayer to use money to serve areas that can be served and are being served by private industry.

Walter Dubree, the ginner, says Grassland ginned 14,000 bales of cotton this past season for the biggest year since 1949, when 16,000 bales were ginned in the community. He thinks this year, however, was the biggest per acre yield Grassland ever had. He said customers of his gin had 6,000 acres in cotton and ginned 7,200 bales.

Does Ed Mcmanus ever worry? Don't think we ever met him that he didn't seem as happy as a new bridegroom.

Among the "characters" who helped make Tahoka and Lynn county distinctive was the late "Uncle Ike" Metcalf, "the law at the head of Moar's Draw" and this area's nearest counterpart to Judge Roy Bean. Living was made just a bit more pleasant for The Printer for having known "Uncle Ike" well.

Before he started dispensing justice here, "Uncle Ike" had been a courier for the Union Army in the Civil War, came to Texas as a youth and "fit" Injuns. He had preached a little and dispensed a little fire-water. Moreover, he was a good story teller.

One time he told us this joke on himself: He was sitting in his basement office in the court house one dull, dry summer Saturday, wondering how he would be able to buy "vittals" for the Sunday table. "I was really down in the dumps," the Justice of the Peace continued. "Wondering why the sheriff didn't bring in a law violator with some money in his pocket, and was looking out the window when I saw a cowboy coming toward the court house with a sweet young thing cuddling up close to him. That made me perk up, for here was a good chance for a wedding fee. Sure 'nough, the couple headed up stairs and I peeked out the door in time to see 'em gain' into the clerk's office."

In a few minutes, they appeared in my door, and all doom was dispelled, for an old cowboy in to get married nearly always tipped the Justice a ten or twenty spot. Almost before they announced their intentions, I had taken my cud of tobacco out and laid it on the desk, spat the juice towards the spittoon, got my false teeth out of the drawer and put them in place, buttoned up my shirt collar, put on my specks, and smoothed down my hair. I took the Bible down off the shelf and gave that love-sick couple the \$20 ceremony, complete with advice for a happy marriage. Then, I gave the bride a little hug and a smack on the cheek and told her how beautiful she was. I gave a warm hand to the groom and told him how handsome he was. The old cowboy asked, "How much do I owe you Judge?" and I replied, "Well, son, make it light on your self, the law allows me \$20. You know what that old boy did? He handed me a silver dollar and says, "Here, Judge, this'll make it three."

From then on "Uncle Ike" made sure of the fee before he went into each elaborate wedding ceremony.

lines, 1210 N. Lea, Roswell, writes: "We enjoy The News as it is our best way of keeping up with people over there."

Mrs. O. H. Hoover, who writes the Grassland News, says she has had several cards from people living away from here telling her how much they appreciate the news from that community. Incidentally, Mrs. Hoover is not writing the Grassland News for profit, but she turns her correspondence check over to her church to apply on its "God's Acre" program.

R. R. (Roy) Adams writes he and his wife have sold their New Mexico property near House and are now staying at 4434 34th Street, San Diego 16, Calif. "Don't want a job from anybody," Roy writes.

Even the convicted law violators, or some of them, have a heart, as shown by a story in the February issue of The Echo, monthly newspaper published by the inmates of the Texas Prison System at Huntsville. They have "adopted" Vicki and Bubba Erier, age 13 and 11, who have a rare blood disease, Mediterranean anemia, requiring ceaseless blood transfusions to live. Vicki has had more than 300 transfusions. Bubba more than 250. When their problem was presented inmates at a chapel meeting, 300 inmates stood up to answer a call for blood. Now, a year to year plan has been worked out to provide the children blood.

Our least granddaughter, Fran, age two, was over to spend the night with us. Left the television on while we went to the kitchen to eat supper. When the "Rawhide" program came on with the bawling cows, without even looking up from her plate, Fran exclaimed, "H-e-y-a-h, move 'em out!"

Texas' 57 refineries processed 778 million barrels of crude oil in 1959, an amount equal to 79 percent of state crude production.

2 ways to feel good...

give a portrait—the truly personal gift... the one gift that only you can give... a gift that's always appreciated because it's a little bit of you.
give a portrait gift certificate—always in good taste... and always sincere... the nicest way to say "I want a portrait of you."
For your portrait, for a gift certificate, drop in soon.

GOT A PENCIL HANDY?

30

Then why not divide your last electric service bill by 30 in the handy space provided. That will give you Reddy's daily wage for all of the jobs he does for you at your house.

Then check the list below to see how many of those jobs he is doing.

Quite a number, isn't it?
True, your electric service bill is higher—because it is an electric service bill, not just a light bill. But the unit cost of that electric service is less than ever before, and each of your electric service dollars buys 21% more than ever before.
