Miss Freeman Is Married Saturday

Miss Lynda Kay Freeman and Jimmy Eakin were united in marriage Saturday night at 7:30 o'clock in a ceremony performed by Rev. T. James Efrin in the First Baptist Church.

Mr. and Mrs. Harvey Freeman are parents of the bride, and Mr. and Mrs. George Eakin of Wilson are parents of the bridegroom. Matron of honor was Mrs. Turner Rogers. Jimmie Isbell of Lubbock served as best man.

The bride attended Tahoka High School. Her husband is employed with Shop-Rite Foods. They will make their home in Lubbock.

Mrs. G. H. Spears continues to show improvement in the local hospital where she has been for the past few weeks. She is recuperating from injuries sustained in a fall.

House Warming For Roy Whites

Mr. and Mrs. Roy (Pistol) White was honored with a surprise house-warming Tuesday, June 13 at their new home north of town.

Forty-three guests called. Hostesses were Meses. Lonnie Isbell, O. B. Corley, Pat Chamblee, and E. W. Roe.

Mr. and Mrs. White recently purchased the home of Dub Anderson who has moved to Lubbock.

Swimming Party For Eighth Grade

There will be a swimming party for future eighth grade students at City swimming pool Saturday, June 17, at 7:30 p. m. Students are requested to bring 50 cents to cover the cost of admittance and refreshments. Eighth Grade Mothers Club.

Cynthia Havens, 19-month old daughter of Mr. and Mrs. Orville Havens, was admitted to the local hospital Tuesday night.

Jaycee-Ettes Have Family Social

Tahoka Jaycee-ettes treated their families to a picnic in the City Park Tuesday, June 13.

A weiner roast and ice cream were served to the group.

Present with their husbands were Dorothy Craig, Kathy Dorman, June Dunn, Oneita Evans, Mickey Gribble, Pat Hall, Joan Hamm, Peggy McClellan and Ima Pool. Also present were Crista Lewis and Cecile Henry.

According to an article in Cornet, this country has the youngest average marrying age in the Western world. In a late year, for instance, 40 per cent of all brides were teenagers. A result: couples were bride and groom are under 20 at the time of marriage have a 20 per cent divorce rate, highest for any age group.

If you need two to three cups of chicken for a salad or some other dish, a 3 1/2 to 4 pound hen (after simmering in water or steaming) will yield this amount

District President Visits Rebekahs

Tahoka Rebekah Lodge No. 209 met in regular meeting June 13 when Noble Grand Louise Wyatt presided.

Lodge opened and visitors recognized. Visitors included District 10 President Jessie Grimes of La Mesa Lodge No. 90. She was presented a corsage of roses and a gift by the Tahoka lodge. The commission for district deputy was read. Six other members from La Mesa lodge were also present at the meeting.

The meeting was turned to the district president who was assisted by other members of her lodge in presenting a program of Alfreda Schriber, President of the Rebekah Assembly of Texas. President Grimes said that the State head would conduct a school of instruction for District 10 at Brownfield on June 26. She urged that all Rebekahs attend the school.

An invitation was received to attend friendship night in Lubbock on June 15 at which several members of the lodge planned to go.

Lodge was then turned to Noble Grand and closed after a business session. A short program was rendered by the Tahoka lodge in which included a song by Mrs. Wyatt and daughter, Jerrie Ann. A salad supper was served by members of the lodge to all present.

Next regular meeting will be June 27 at 8:00 p. m.

Mrs. C. T. Oliver returned last Friday from a three week visit with her daughter and sister in Mineral Wells. Her sister, Mrs. D. V. Smith, accompanied her home for a few days visit here. She also spent some time with her brother and wife in Cleburne who are both very ill.

Help keep Tahoka clean.

Mrs. J. A. South, admitted to the local hospital Saturday as a medical patient, was dismissed Tuesday.

Mrs. Pauline Walters, a nurse in Tahoka Hospital, was a medical patient in the institution Wednesday through Sunday last week.

Gilbert Steinhauser of Wilson received severe wasp stings Tuesday afternoon and was hospitalized a few hours in Tahoka Hospital.

Cusme Farris, 19, was admitted to Tahoka Hospital Tuesday following a car accident in which he received pelvic injuries.

Potatoes offer a lot of food value inexpensively; they provide calories, iron and thiamine every month of the year; at some seasons they provide vitamin C.

COLLARD HAS ATTACK

Roy Collard was reported to be resting very well Thursday morning in Lubbock Methodist Hospital where he was admitted Tuesday following a heart attack. Mr. Collard is employed in Tahoka with Pioneer Natural Gas Co.

Miss Lola Johnson, sister of Mrs. C. N. Woods of Abilene, is seriously ill in Hendrick's Memorial Hospital in that city and little hopes are held for her recovery. She is owner of Lola's Beauty Salon in Abilene.

Many good cooks find it most satisfactory to bake their fruit pies on a low oven rack. This browns the bottom crust rapidly and helps to keep it from being soggy.

Cotton Insects Pose Problems

Blowing sand, wind, hail, seedling disease, and thrips have caused extensive damage to young cotton in the area, report Extension Service personnel. Billy C. Gunter, Extension Area Agronomist, states "For maximum cotton yields, healthy seedlings are essential. Seedlings stunted by wind, sand, hail, disease and insects require days and even weeks to recover; taking valuable time from our short growing season."

Thrips populations increased rapidly in many cotton plantings during the past week, reports John G. Thomas, Extension Area Entomologist. Little can be done to prevent damage by wind, sand, hail and seedling diseases; for this reason severe thrips injury should be prevented or reduced as much as possible to allow rapid, healthy growth of young cotton, Thomas added.

Hard rains will normally reduce thrips populations, but careful field inspection is necessary to deter-

TEMPORARY POSTMASTER NAMED AT O'DONNELL

Odie Line has been named acting postmaster at O'Donnell, pending selection of a new postmaster. Mrs. W. E. Singleton Jr., retiring postmistress, has been cited by the postal inspector for a record of high efficiency while holding the office.

Mrs. Emma Halamecek is at Lake Buchanan where she is looking after property interests. She just recently purchased a cabin on the lake.

Don't make the mistake of being afraid you'll make one.

mine the number of thrips hatching in the terminal growth following these rains, according to Bill Griffin, Lynn County Agent. Thrips control, when needed, will mean continued rapid growth and maturity of cotton necessary to produce maximum yields in Lynn county, Griffin added. Griffin also stated that cotton damaged by hail should be checked carefully for thrips. Thrips could retard the growth of the new buds.

TEXAS COLLEGES RECEIVE \$7,000—Representing 22 church related colleges, Dr. Law Sone, right, President of Texas Wesleyan College, Ft. Worth, accepts a check for \$3,500 from S. L. Nevins, vice-president of Olin Mathieson. Dr. Sone, also, is president of the Texas Foundation of Voluntarily Supported Colleges and Universities which acts as a distribution agency for contributions for higher education. The Olin Funds will be matched by a like amount from the Rockefeller Brothers Fund of New York. Representing the more than 45,000 students of the member schools were University of St. Thomas juniors, Annette Hill, right, and Mary Ann Belinoski, both of Houston.

Examination Set For Postal Clerk

The Tahoka Post Office is seeking applications from local residents who are interested in becoming postal clerks, postmaster W. E. Smith announces.

Persons who apply and who pass a written test given by the civil service commission will be placed on a list of eligibles, and will be considered for future job openings. The examination will be held in Lubbock.

Clerks are now paid a straight rate of \$2.16 per hour. Anyone interested in a career in the postal service may obtain complete information from the postmaster. The Post Office Department is the largest employer in the Federal service, and provides facilities indispensable to the nation's commerce and defense. Postal employment is usually stable and normally leads to a lifetime career. Outstanding postal workers advance to supervisory positions as vacancies occur.

Together with all Federal employees, they receive regular step increases in salary. They enjoy the benefits of low-cost life insurance, comprehensive health benefits programs, paid vacations, and substantial retirement incomes.

Community Refuses Government Aid

Again it makes news when an individual does something for himself or a group of people get together to accomplish what they want without governmental aid.

Up in the Willamette Valley of Oregon a group of farmers has demonstrated how to cut corners and save money for themselves and every other taxpayer in the nation.

A cutoff channel was needed to eliminate a horseshoe bend in the Molalla River. Because of the bend, the stream was eroding away valuable farm land.

Everybody, including the Army Engineers, agreed that something should be done. The Engineers Corps proposed a \$188,000 project which could be started next spring.

The farmers came up with their own plan for a \$1,500 project which could be completed in a couple of weeks. And complete it they did within the prescribed time.

The Army plan, of course, included more than a simple cutoff. There were levees, revetments, and the like. There also were added costs of some \$12,000 to the landowners for rights-of-way and such. But the \$188,000 remainder of the bill would be paid all federal taxpayers.

"Would that there were more individuals like those individuals up in Oregon who pitch in and do a job when it needs doing without asking for help from some government bureau.

Would also that somewhere, sometime, a top government official would remain the people: "Sure, the government can do it. But you can do it better and cheaper. It's not the business of govern-

Methodist Men Given Surprise

At the monthly meeting of the Methodist Men Monday night, H. W. Carter and P. G. Vander Linden were in charge of the program.

Carter made a long flowery introduction of the speaker, VanderLinden, but when Van got up to talk, he pulled out a pack of notepaper, thumbed through the sheets, and announced, "Gentlemen, I must have left my notes at home; let's play dominoes." Dominoes and "42" were played.

The meal was served by Roy Edwards and "Hick" Gibson.

Bill Wood of Midland, formerly of Tahoka, was a visitor here Friday while en route to Lubbock to be at the bedside of his mother-in-law, Mrs. Chas. M. Walden, who was critically ill. Mrs. Walden also formerly lived here, when her husband was local manager of Pioneer Natural Gas Co. Mr. Wood owns a pharmacy in Midland, and is the outgoing president of the Texas State Board of Pharmacy.

Pessimists are just average people who can't kid themselves.

There are substitutes in some lines, but none for practice.

ment to be jumping in to care for its citizens' every want. If you want something and want it bad enough, you'll go out and get it. But if government does it for you, it will do it for everyone else who has a pressure group. Then we'll control you by means of handouts with your own money—the taxes we take from you."

—From the Colorado Springs Gazette-Telegram, Jan. 27, 1961, as reprinted in the May Freeman.

America's Largest Independent Telephone System

Who owns General Telephone?

The lady pictured above is one of the owners of General Telephone. She is Mrs. Carl Harrison of Memphis, Texas. Mrs. Harrison, a widow and mother of four children, is a hospital receptionist.

Tells Wonders Of Portland Cement

"Portland Cement" was the subject of a talk and a color-sound movie presented at the Rotary Club last Thursday noon by Marvin Lee of Lubbock, representative of a cement manufacturing plant.

Cement has been in use for centuries, dating back to early Roman days when slaked lime was mixed with volcanic ash from Mt. Vesuvius to build such structures as the Forum, Colosseum, Basilica of Constantine, and the Roman Aqueduct.

"Portland" cement was discovered by an English bricklayer in 1824 and received its name because of its resemblance to natural stone on the Isle of Portland, off the coast of England. First Portland cement in the U. S. was used in 1871.

It is made from limestone, silica, alumina, and iron oxides from shale, clay and sandstones, pulverized, baked and pulverized again until it is much finer-grained than face powder.

Cement, the speaker said has become so essential that we can hardly live without it today.

The picture was an interesting presentation of how cement is made and the many uses it can be put to in the form of concrete.

Ronald Sherrill was in charge of the program.

President H. B. McCord Jr. announced that the annual installation of officers will be held at a ladies night meeting on June 29 in the back yard of the Harold Green home. Rex Webster, Lubbock advertising agency executive and a former Rotary district governor, will be the speaker.

Treadaways Visit Dad's Newspaper

Mr. and Mrs. Roscoe Treadaway and two children returned home from a two weeks vacation spent at Beaumont with her parents, Mr. and Mrs. R. M. Frost.

While there they visited the new \$3.5 million plant of the Beaumont Enterprise and Journal, of which her daddy is business manager and vice president.

The paper employs 325 people full time, 20 part time, has 200 news boys and about 400 carriers, helpers and distributors to get out the 91,000 circulation which concentrates on an eight-county area.

The paper was founded as a weekly on November 6, 1880, but one of its predecessors was started in 1860, and became a daily in 1896. W. P. Hobby, later to become governor of Texas, was once its owner.

The new plant is one of the most modern in the nation, and features a new 8-unit press with a capacity for 128 pages, prints in four colors, and can deliver at the rate of 70,000 copies an hour. The paper came out with an open house edition on May 22.

Incidentally, a picture on the front page of the Friday, June 7, society section featured Mrs. Treadaway and two daughters, Kelly Lynn and Kimbra Lee, on their visit to Beaumont. The paper was 36 pages in size that day.

W. H. Harrison Is Head Of Travelers

W. H. Harrison of Lubbock, well known by many Lynn county people, last week was elected Texas grand counselor of the United Commercial Travelers of America, a fraternal organization, at its state meeting in Fort Worth.

Mr. Harrison is a life-long friend of J. Douglas Finley. He is with the Internal Revenue Service.

This reminder from the Texas Farm and Ranch Safety Council—There's a line in the ocean where by crossing you can lose a day. There's one down the middle of a highway where you can do even better. It was put there for your protection.

Have News? Phone 998-4288.

The Lynn County News

SECTION TWO
TAHOKA, TEXAS "Heart of the South Plains" FRIDAY, JUNE 16, 1961

Rural Accidents Dropped In May

The highway patrol investigated four accidents in rural highways in Lynn county during the month of May, according to Sgt. E. L. Stroud, highway patrol supervisor of this area.

These wrecks accounted for two persons injured, and a property damage of \$4,450.00.

This brings the total for the first five months of 1961 in this county to 23 rural traffic crashes resulting in no persons being killed, 14 injured, and a combined property damage amounting to \$16,195.00.

After noting the accident picture for this county for the first five months of this year, the Sergeant pointed out another significant fact. As summer approaches with longer days and additional good driving weather, the driver should be especially aware of the danger period at dusk. Many accidents happen during this period. One cause of this is the driver fails to turn his lights on, soon enough. Although the law sets out when lights must be turned on, the driver should also use his own good judgment. Any time a driver cannot see an unlighted object approximately one-half mile away, he should turn his lights on. He may be able to see the other driver, but can the other driver see you?

Dave Sherrill Is Visitor In Tahoka

Dave Sherrill of Lubbock, district irrigation specialist of the Extension Service of Texas A&M, was a visitor in Tahoka Friday.

He reports that he and wife are having a big time entertaining their two grandchildren, Sherrill Kay and Jimmy Walker, ages two and a half years and 10 months, respectively. They are the children of Mr. and Mrs. James Prentice Walker, grandchildren of Mr. and Mrs. Prentice Walker of Clouderoft, N. M., and great grandchildren of Mrs. J. K. (Bob) Applewhite and great great grandchildren of Mrs. S. R. Kemp of Tahoka.

James Prentice is a geologist with Bartsa Oil Co. of Dallas, and he and wife are in Michigan for a few weeks where his company is drilling an oil well.

"The Enduring Values of Town and Country Life" is the theme for the 16th annual Town and Country Church Conference scheduled for Texas A&M College, June 19-21.

REV. JERRY BOLES

Rev. Jerry Boles, well known Presbyterian, who has made a hand announcing the Texas Cowboy Reunion, Stamford, for many years, and who will announce this year's Western Show on July 1, 3 and 4. Boles is remembered for his understanding of cowhand grammar—and feeling for the boys who "Get Thrown" on the toughest rides. The reunion is unique in being the only Western show of its size in America barring professionals and using only cowmen of the area.

PFC. BILLY GARRISON ARRIVES IN GERMANY

Darmstadt, Germany—Army Pfc. Billy W. Garrison, son of Mrs. Irene Garrison, Tahoka, Texas, recently arrived in Germany and is now a member of the 18th Artillery.

Garrison, a surveyor in the artillery's Headquarters Battery in Darmstadt, entered the Army in September 1960 and completed basic training at Fort Hood, Texas.

He is a graduate of Clarksville High School and was employed by Red River Arsonal in Texarkana, before entering the Army.

Use more cotton and help the farmers of our area!

New Wilson School Superintendent To Arrive On July 1

Leroy Scott, who last week was named the new superintendent of schools at Wilson, was reared at Lakeview, Hall county, and has been superintendent at Quitaque the past five years. He will assume his new duties on July 1.

He is 37 years of age and he and wife have three children.

Mr. Scott received his degree from Howard Payne College, Brownwood, and his master's degree from West Texas State at Canyon. He taught at Lakeview one year, coached two years at Esteline, and then was head coach at Muleshoe for two years before moving to Quitaque.

Scott succeeds Supt. Johnny Clark, who recently was elected head of the schools at Olton.

MANUSCRIPT COVERS, legal size, at The News.

Secy. Freeman To Visit In Texas

U. S. Secretary of Agriculture Orville Freeman will speak at 3:00 p. m. Saturday, June 17, at the football stadium in Rosebud, Texas, states Bill Griffin county agent. He will be accompanied by Congressman W. R. Poage of Waco.

Secretary Freeman's speech, which will be the first such appearance of a U. S. farm chief in Texas in recent years, will be non-political and devoted to major U. S. agricultural policies as contained in the Administration's proposed Omnibus Farm Bill.

Eddie Bowmans Tahoka Visitors

Mr. and Mrs. Eddie Bowman and adopted son were here last week end from Englewood, a suburb of Denver, Colorado.

Mr. Bowman is a former Tahoka High band director and is in the same work in Denver. Mrs. Bowman is a former Lynn county Home Demonstration agent, and also is engaged in similar work in Colorado.

Printer's Ink-lings . . .

By F. P. H.

A fine compliment we'd like to pass on to the people at Draw was a voluntary statement made to us by Rev. Claude Nixon, Methodist pastor there for three years before being moved to a church near Dumas last week. "It breaks our hearts to leave Draw," he said. "There are no finer people anywhere than the congregation we had at Draw."

Bill Newton showed us a wooden railroad spike the other day that he got up at Des Moines, New

Mexico, near Raton, a few years ago from an old abandoned railroad track. He doesn't know what kind of wood it is made from, but evidently the spike was successful in holding the rails in place a long time.

For several months George Glenn has been trying to argue The Printer into a burr hair cut. He played on our vanity—told us how becoming it would be. With our hair getting grayer all the time and hot weather coming on, we finally gave in. He was so anxious to cut our hair, he offered to do the job free. Then, we found out he had a side wager that would bring in \$5.00 worth of business. How low will some men stoop for a dollar?

Wayman Smith was describing a lazy man he had known. Said Wayman: "He laid down in the cane field and ate only the cane he could reach."

R. F. Stegemoeller of six miles northeast of Wilson drops in at The News occasionally for a visit. He says farmers in his area are thankful they missed the recent violent weather, and says most of his neighbors have good crops.

Weather in West Texas is always unusual, but we don't know a place we would rather live.

Gary Cooper in a telecast on the Real West said: "The West was irrigated by sweat, spit, blood, tears, and whiskey."

If you live in the farming country you should consider what you are voting for the next time Ralph Yarborough's name appears on the ballot. He has opposed the bracero program, favors complete government reorganization of all agriculture, broadened Social Security program, higher wages, Union Labor, socialized medicine, federal aid for school buildings and teachers salaries, more aid to colleges, more money for foreign aid, more spending and more taxes, more cooperation with the ADA and other Northern liberals, more concentration of government in Washington which inevitably results in fewer personal and community and state rights, and so far as we know has had nary a word to say about getting our government on a sound fiscal policy. He has asked us to express our opinion on such subjects. Ralph, for the most part, we are agin all these—and have no apologies to make for our stand. Now, how do you stand on integration and amalgamation of the races? We haven't heard you say. Are you really for your constituents and Texas, or strictly for the "New Frontier," ADA and a "One World"?

We believe Ray Smith over at the Rose Theatre deserves a pat on the back. He is bringing some of the better movies to Tahoka with emphasis on family-type shows. He tries to book a minimum of the type pictures many parents object to their children seeing.

Mr. and Mrs. Lon Light, formerly of Newmoore and now retired and living in Lamesa, visited The News recently. Lon had a laugh with The Printer about the old days in Roscoe, for he was right there when the writer of this column was growing up and getting into all that devilment we write about sometimes. He owns a fine irrigated farm over at Seagraves. The

LITTLE COLONEL By Bob McKinley

A. B. Griffith of 1806 Justin Lane, Austin, was a brief visitor in Tahoka Friday and stopped in at the News to renew acquaintance.

Mr. and Mrs. Griffith taught school at Edith a year and at Midway three years away back yonder. Maybe some of their pupils remember. He asked to be remembered to old friends, especially to Bob Littlepage. He is operating a private detective agency in Austin. Mrs. Griffith passed away last December.

A wife told her husband, "I cannot understand, John, why you always sit on the piano stool when we have company; everyone knows you cannot play a note." And John replied, "I'm aware of it, dear. Neither can anybody else when I am sitting there."

One such couple, Mr. and Mrs. Leroy Olsak of Lamesa, reported to the Jacobs they read all about the place in The Lynn County News. Never having heard of them, the Jacobs have wondered where and why. The other day, Mrs. Buddy (Lois) Smith, of the O'Donnell Burdets, who helps her husband publish the Dawson County Courier, was up and told us she gave them the paper, they went to Lake City and caught all the trout the law allows. A Mr. Johnny Johnson of Lubbock got the paper somewhere, and he took his family up there. The story had no effect on Mr. and Mrs. Jimmy Forbes of O'Donnell, for they had found the place years ago and have been going to Lake City a long time. But, The News gets around.

One of these Thursdays, The Printer and Mae will be leaving out for the same place. We like to fish, but the main attraction will be those three granddaughters. Over at Seagraves, where no

planting moisture has been received, O. H. Hearne & Son are running about a six dollar ad. in the paper: "Wanted — Good general rain over Gaines, Terry and Youkum counties. Prefer 3 or 4 inches, but would settle for less."

Sign on a soft drink dispenser at a Loop store: "Try your I. Q. Try to put the round bottles in the square holes."

Remember how wonderful we thought the first radios were . . . how we put on earphones or gathered close to the megaphone-type loud speaker that emitted screeches and growls along with the program? There was the Atwater-Kent and RCA and later the Majestic in a beautiful cabinet.

Remember some of the old cars. There was the ultra-de luxe Stanley Steamer and Locomobile, the popular Maxwell, the Mormon, the Star, and a lot of others. The Apperson-Jackrabbit, which raced in early day Indianapolis Speedway events, had four cylinders and two cam shafts. The Buick had a chain drive, and the engine was cranked on the side. The Ford featured simplicity and carbide lights. The axels on the Overland broke easily. The Chevrolet, some said, had too

many gadgets when it came out. The Oldsmobile was high and clumsy. In 1918, Hupmobile came out with a coupe, and although it had a porthole in the top for ventilation, some people were afraid to ride in it for fear they might smother to death.

Our Uncle Joe Hill writes a column for The Canyon News in which he deals in some fun and philosophy. He tells a true story we liked. While he was school superintendent at Richmond in 1906-07, he was invited to address an Institute for Colored Teachers. The meeting place was jammed, and Uncle Joe and the county superintendent were the only two white men present. Principal speaker was the distinguished Negro president of Prairie View College, and the presiding officer, a local Negro school man, introduced the speak-

er thusly: "You know, fellow teachers, we have tried to obtain Professor Blackshear as our principal speaker for the past three years but owing to the multiplicity of his obligations he was precluded from the possibility of addressing us."

Troy Martin of The Canyon News must be an old country boy for he asks a citizen there, in his column if he remembers walking in hot sand barefoot chopping cotton. Troy continues: "If there are any cotton choppers in the country of the barefoot variety they will remember how they used to run from one large weed to the next seeking a little relief for a pair of very hot feet."

Watch for white patent leather shoes this spring, some with trim of peanut butter colored leather.

ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES:

America's National "Open" champ is mighty like a Thunderbird!

One quick look at the beauty above . . . then one quick trick behind the wheel . . . and you'll know why the '61 Ford Sunliner is America's all-time, top-down, favorite convertible.

Here's a special brand of magic-in-motion that's a Ford exclusive . . . yours to command in the car that got its thunder from the fabulous Thunderbird. Caged under that sleek hood is a mighty Thunderbird V-8 engine . . . created by the world's foremost maker of V-8's. The Sunliner's road-ruling punch is equaled only by the famous Thunderbird itself.

And like all '61 Fords, the fun-loving Sunliner is beautifully built to take care of itself. It goes 30,000 miles between chassis lubrications—4,000 miles between oil changes, its brakes adjust automatically . . . because the '61 Ford gives you features today that most other cars can only plan for the future.

Got an urge to surge ahead this summer . . . but saddled with a sluggish car? Then, it's time to STOP wasting money on tired transportation. SWAP your present car for a bustling new '61 Ford (and do it now while sales are at a 32-year high and trade-ins are way up). Start to SAVE tomorrow with the car that's built to take care of itself—the '61 Ford! 1961 model shown. Ford Motor Company.

Today is the day to STOP . . . SWAP . . . SAVE

JOHN C. JANDER IS ABOARD CARRIER

Alameda—An eight-and-one-half-month cruise with the Seventh Fleet in the Western Pacific ended May 22, for the attack aircraft carrier USS Coral Sea.

Aboard the carrier when she returned to her home port at Alameda, Calif., was John C. Jander, machinist's mate second class, USN son of Mr. and Mrs. Fred R. Jander of Route 2, Wilson, Texas.

The Coral Sea departed for the Far East, Sept. 19, as a result of the President's decision to bolster U. S. defenses overseas.

During the cruise the 63,000-ton carrier visited Japan, Hong Kong, the Philippines and Hawaii.

MRS. DAVIS BACK HOME

Mrs. E. S. (Nettie) Davis, returned home Saturday from a visit in Marlin with her son-in-law and daughter, Mr. and Mrs. Hubert Davis. Her daughter, Veda, brought her home and remained for a short visit. While at Marlin, Mrs. Davis fell and broke two ribs, but the injury failed to show her down.

FIX YOUR FAUCETS!

Water experts estimate that leaky faucets in a town of 3,000 population require one good sized well pumping constantly to take up the slack. A rapidly dripping faucet can run a water bill up as much as 1,000 gallons in 24 hours.

WASHINGTON AND "SMALL BUSINESS"
By C. WILSON HARDER

One wag claims that the greatest hidden force behind government today is the organized horse farmer. His contention is they are striving to eliminate the automobile to bring back the horse and buggy.

Many politicians and bureaucrats have yet to understand that for millions of people, and thousands of business enterprises, the motor vehicle is as necessary as a hammer is for a carpenter. These characters still look upon the automobile as a luxury.

In fact, there have been times when some of the nation's bureaucrats have publicly been quite apologetic over fact there are many automobiles in U. S. while the poor people of lower Slobbovia have so few.

Of course, they either ignore, or are ignorant, of the fact that the automobile is a primary supplier of jobs and that many independent businesses are engaged in the selling or servicing of motor vehicles.

As any drive through the Main Streets of America will readily show, a major backbone of the community's business life are the independent car dealers who are also in many cases community leaders for civic betterment.

Thus, it is interesting to see Congressman Stan Tupper come out opposed to any continuation of the extra one cent tax on gasoline put through to finance the so-called super highway program.

He points out the fallacy of...

Congressman Chester Merrow has also taken a public stand against the temporary one cent additional gas tax being continued. He points out that \$1.7 billion of taxes paid to the federal government in highway user taxes, largely all from "temporary" taxes, are diverted to other uses.

Congressman John Ashbrook also takes quite a public stand against the continuation of "temporary" taxes. He points out that during the Korean War a 10% "temporary" excise tax was placed on automobiles. This tax, which adds about \$200 to the price of a car and brings in over \$1 1/4 billion yearly, has never been repealed, either.

It is a curious commentary on bureaucratic thinking, if the mental processes they engage in can be dignified as thinking.

Here is a nation whose steel industry practically depends on the auto business. In addition, many other business and jobs depend on it. Some economists say collapse of American auto industry would bring about the complete collapse of entire U. S. economy.

Yet, in government, both state and federal, there are those bureaucrats who strive mightily to discourage both the sale and the use of the products of this key American industry. Perhaps never in history have so many with feet in public trough worked so hard to kill goose that lays golden eggs.

What Is An American?

What is an American, anyway? He yells for the government to balance the budget and then takes the last dime he has to make the down payment on a car.

He whips the enemy and then gives 'em the shirt off his back.

He yells for speed laws that will stop fast driving and then won't buy a car if it can't make 100 miles an hour.

He gets scared to death if he vote a billion dollars for education, but he's unconcerned when he finds out we are spending three billion dollars a year for cigarettes.

He knows the lineup of every base ball team in the major leagues, and doesn't know the second verse of the "Star Spangled Banner."

He'll spend half a day looking for vitamin pills to make him live longer, then drives 90 miles an hour on slick pavement to make up for the time he lost.

He ties up his dog at night but lets his 16-year-old son run wild.

He will work hard on a farm so he can move to town where he can make more money so he can move back to the farm.

When in his office he talks about baseball, football or fishing, but when he is at the game or on the lake he talks business.

He is the only fellow in the world who will pay \$1 to park his car while he eats a 50 cent sandwich.

He is never ready for war, but he has never lost one.

This America is the only country where we have more food to eat than any other country and more diets to keep us from eating it.

We're the most ambitious people on earth and we run from

morning to night trying to keep our earning power up with our yearning power.

We're supposed to be the most civilized Christian nation on earth, but still can't deliver payrolls without an armored car.

In America we have more experts on marriage than any other country in the world—and more divorcees.

But we're still pretty nice folks. Calling person a "real American" is the best compliment you can pay him. Most of the world is itching for what we have, but

they'll never have it until they start scratching for it the way we did.—Contributed.

Texas Railroad Commission has ordered the present eight-day production pattern for the oil industry continued through June. But since June has only 30 days, compared to 31 in May, the daily allowable for June will be up by 48,013 barrels a day for a daily flow of 2,702,699 barrels.

OPENS GUN SHOP

Jack Maskew, master gunsmith, former member of U. S. Army Rifle and National Rifle Association teams and a graduate of Georgia Tech, has opened a gun repair shop at 4124 34th street in Lubbock.

The chance-taker is the accident maker.

Electric Circuits Key To Safety

College Station — Electricity as a source of power is, in some power source, but failure to take proper precautions in its use creates conditions which are certain to result in bodily harm or damage to property, or both.

Overloading an electrical circuit is an example of improper use. Not only is there a drop in efficiency as a result of an overloaded circuit, but it is unsafe, warns the Texas Farm and Ranch Safety Council. Overloading causes overheating of wires which, in turn, causes the wiring insulation to dry out, get brittle, and result in a possible fire hazard.

If the correct size fuse for the circuit is used it cannot be overloaded, because it will blow before the wiring can get too hot. The fuse is the "safety valve" of the electrical circuit, the Council explains.

In order to determine the correct size fuse, a simple guide to follow is: No. 14 wire, which is about the size of a 3-penny finishing nail, requires a 15 amp. fuse; No. 12 wire, about the size of a 3-penny common nail, requires a 20 amp. fuse. In other words, the wire size determines the correct fuse size.

Observe the three C's—caution, care, and common sense—to prevent overloaded electrical circuits, the Council adds.

ANDREWS NEWS:

At a recent medical meeting at the University of Texas, Dr. Edward L. Pratt, quoted one expert's opinion on youth:

"Our youth now love luxury. They have bad manners, contempt for authority. They no longer rise when their elders enter the room. They contradict their parents, chatter before company, gobble their food, and tyrannize their teachers."

Dr. Pratt said that the situation obviously needed to be remedied but he added that Socrates did not say what should be done when he wrote those lines in the 5th century, B. C.

Quick sauce for a green vegetable: Mayonnaise thinned with lemon juice and heated over hot water.

BUCKET SEATS ALONE DO NOT A MONZA MAKE

■ Gee! ■ Little did we know, when we introduced the Corvaire Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvaire is the only rear-engined car made in this country, and you know what that means: steering light as a thistle down. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?
