## Tax Collections For Year Above Normal

Tax collections up to January 1 have been unusually good according to local tax collecting agencies. State and county taxes, on which a discount is allowed for payment in October, November or December, are much higher in comparison to city and school district taxes, where no discount is allowed for early payment.

State and county were 80 percent paid up as of January 1, according to George McCracken, county tax assessor and collector. Of the total tax roll of \$247,232.70 on a county valuation of \$10,956,139.00, a total of \$198,233.29 had been paid up to January 1. The county rate is \$1.90 and the state rate 42 cents. Property owners in the water district in the north part of the county also pay a five cent water district tax.

Many school and city tax payers do not pay their taxes until January, but 65 percent of the Tahoka school district taxes and 62.6 percent of the city taxes have been paid to date.

J. M. Uzzle, city secretary reports that \$27,616.63 in city taxes have already been paid out of a total due of \$44,071.89. City valuations total \$2,938,105.00, Mr. Uzzle says.

Tahoka School District, according to J. M. Small, tax collector, has collected \$101,536.25 out of a total of \$153,810.17 on a total valuation of \$8,789,287.00.

## Skip-Row Rule Helps Farmers

Many local cotton producers think relaxation of the four-row limitation on "skip-row" planting, announced Wednesday by Secretary of Agriculture Orville Freeman, will be the biggest benefit to dryland cotton farmers that has come in the last few years.

Under the new ruling, farmers may plant two-in and two-out, or any method of skip-row planting, without the blank rows being counted as cotton acreage. In the past, this was limited to four-in and four-out, and anything below this had to be counted as cotton acreage for blank rows.

In other words, if a farmer this year plants two rows of cotton and leaves the next two rows blank, he may plant 150 acres if he has a 100-acre allotment. If every row is planted, naturally, he would plant only 100 acres.

These idle rows may now be left blank to increase production, or may be planted to some other crop.

Although such planting will probably raise production of cotton somewhat, it is expected that it will have the effect of cutting down grain acreage, and right now grain is in surplus.

Naturally, retired grain acres under the grain acreage allotment program still can not be utilized in the skip-row planting.

Wilmer Smith, an advisor to Washington officials on problems of the cotton farmer, said this new ruling came as the result of work done by many people. Plains Cotton Growers, Inc., has been pushing for the move, as have Arizona growers and also planters in the Delta country, where the skip-row method may help them offset the boll-rot problem.

Born June 27, 1895 at Austin, he came to Lynn county in 1919 from Burleson county and farmed for many years in the New Lynn community. Mr. Hardt retired in 1945 and later moved to Tahoka where he lived at the time of his death. He was married to Miss Mary Edith Whaley May 5, 1912 at Caldwell, Texas. # Big Harvest Season Nearing End

LOCAL COTTON YARD SCENE looked like this less than two weeks ago, but this week gins have caught up and the season is nearly over. Indications are that this year's cotton crop will reach or pass 170,000 bales and Tahoka's ginnings will near 35,000.

With fair weather the past week, cotton harvest is rapidly drawing to an end. Local ginner do not expect much more than a thousand more bales will be ginned here.

Tahoka's ginnings had reached 33,632 up to 10:00 a. m. Thursday, but this was an increase of 2,655 bales over the report of a week before for possibly the best record in history.

Considerable cotton is still being ginned from the Gordon, Grassland, Draw, and O'Donnell areas, but strippers are reported to be winding this up rapidly.

O'Donnell reports approximately 40,000 bales ginned in the town. Reports indicate that New Home, Lakeview and Petty have ginned approximately 30,000 bales. The News had no late authoritative report from Wilson, but only a very little "scrapping" remains in that area and about 20,000 bales ginned in town and at Wayside.

Grassland's two gins were past the 12,000, more than a thousand bales were on the yards, and the ginner there indicated there will be 1,000 to 2,000 bales yet to be harvested.

Ginning at Draw got off to a very late start and had ginned 3,421, with 200 bales on the yard and about 300 yet to be harvested.

West Point gin reported a total of 6,900 ginned Thursday with less than 100 bales yet to be ginned.

Wells is reported to be passed the 8,000 mark, but no report was available from Newmore.

Hackberry and Gordon were reported to have ginned "about 7,000 or 8,000," but this report was also unauthoritative.

Thus, it would appear that the county's ginnings are getting close to the 170,000 bale mark.

## C. R. Riley, 70, Is Buried Here

A former Tahoka resident, Claude R. Riley, 70, of Lubbock, died Friday, Dec. 29, at 11:40 a. m. in St. Mary's Hospital in Lubbock. He had been hospitalized on Christmas Day.

Mr. Riley lived in Tahoka about 15 years, coming here in the 1920's and moving to Brownfield about 1942. From there he moved to Lubbock in 1958.

Born July 21, 1891 in Arkansas, he was married to Miss Emma Sikes in 1935. He was a member of the Trinity Baptist Church in Lubbock, served as Worshipful Master of the Masonic Lodge of Tahoka two different times, and was a veteran of World War I.

He worked for the West Texas Gin Co., in Tahoka and Brownfield. In 1947 Mr. Riley suffered a heart attack and was forced to retire.

Funeral services were held in the First Baptist Church in Tahoka at 2:30 p. m. Sunday with Rev. C. Melvin Rathaal, pastor of the Trinity Baptist Church in Lubbock, and Rev. George A. Dale of Lubbock, officiating. Burial was in Tahoka Cemetery under direction of Stanley Funeral Home.

Survivors are his wife; one daughter, Miss Mary Louise Riley, of the home; four sisters, Miss Frances Riley, Mrs. C. H. Little, Mrs. Ethel Stewart, all of Dallas, and Mrs. Jewel Couch of Paris; five brothers, Rocco Riley of Tahoka, Harvey Riley of Post, Cecil and O. S. Riley, both of Malvern, Ark., and R. T. ## Albert Krause Gunshot Victim

Albert A. Krause, 61 year old farmer of the West Point community, died Thursday, Dec. 28, about 5:00 p. m. when the shotgun he was carrying discharged when he apparently caught his foot in a barbed wire fence.

The accident occurred near the barn on his farm on route 5, Tahoka. Justice of the Peace Horace Brunette of O'Donnell told Stanley Funeral Home that his death was termed a hunting accident.

Mr. Krause, who was alone at the time of the accident, was found by his son, Stanley, soon afterward. His foot was still caught in the fence and the shotgun was lying beside him.

Mr. Krause was born Jan. 11, 1900 in Troy, Texas and came to Lynn county in 1937 from his home town. He farmed in the Southland area until moving to the West Point community in 1953. Mr. Krause was married to Miss Tillie Laura Becker Nov. 27, 1925 at Southland. He was a member of St. John's Lutheran Church in Wilson.

Another son, Glenwood, was killed in an automobile accident on Oct. 22 near Del Rio while Stanley was in Methodist Hospital in Lubbock recuperating from another accident which occurred

## 11,133 Vehicles Registered In County This Past Year

Vehicle registrations in Lynn county last year totaled 11,133 and brought in a grand total of \$163,136.05, according to George McCracken, county tax assessor and collector.

Of this amount, \$106,416.60 remains in Lynn county for building and maintaining county roads, and \$56,719.45 goes to the State of Texas.

The county receives all the first \$50,000 from vehicle registration and 50 percent of additional monies up to \$175,000.

Of the 11,133 vehicle registration receipts issued, 3,478 were for passenger vehicles. Largely as a result of the new farm trailer license law, 3,782 farm trailers were registered in the county this last year. The remainder of the total includes commercial and farm trucks and truck-tractors, trailers, house trailers, and dealer tags.

## Poll Tax Payments Above Last Year

Poll tax payments have been coming in pretty well since January 1, and a total of 911 receipts had been issued up to Thursday morning, states George McCracken, county tax assessor and collector. Last year, 809 poll taxes had been paid to January 1.

However, he reports that some people failed to pay their poll taxes when paying their property taxes, and suggests that anyone not sure he has paid his poll taxes should check on them immediately.

Poll taxes must be paid by January 31 in order for a citizen to be eligible to vote in elections this year.

Mr. McCracken says citizens may pay their poll taxes at his office, or at Moore Insurance in O'Donnell, at New Home Co-op gin, or at Wilson Co-op gin through the month of January.

## LUTTRELLS MOVE TO TOWN

W. S. (Skip) Taylor announces he is a candidate for re-election to the office of District Clerk of the 106th District Court for Lynn county.

Mr. Taylor sold his abstract business on January 1, 1959, to Mrs. Beulah Pridmore, and since that time has devoted his full time to the office of District Clerk.

Those in a position to know declare "Skipper" is very efficient and diligently attends the duties of this office which requires some technical knowledge of the operation of the courts.

He says he will continue, if elected, to render the very best service possible. He is a long-time Democrat, and invites the support of the voters in the Democratic Primary election on May 5.

He has been a resident of Tahoka since May, 1921, and all this time until 1959 was engaged in the abstracting business.

## Mrs. Reid Seeks Second Term

Mrs. Ola Reid, treasurer of Lynn county, announces that she is a candidate for a second term to the office, and will appreciate the vote and support of the people in the Democratic Primary on May 5.

Mrs. Reid was appointed to the office on the death of her husband, Thomas Reid, in 1958, and was elected to a full term the next year by the voters.

She says she is deeply appreciative of the favor extended her by the voters in the past, and declares she is attempting to return the favor with efficient service and devotion to duties of the office. She invites voters and taxpayers to investigate her record in office.

Mrs. Reid has lived in Tahoka 26 years, and has had much experience meeting the public in other lines of work.

A. G. Freeman, 89 years old, was admitted to Tahoka Hospital Saturday as a medical patient. His condition is reported to be improved.

Corra Ellison, colored lady from Tahoka, is a medical patient in Tahoka Hospital with an eye infection having been admitted Wednesday.

## Water Election On January 9

The time of the annual elections of officials for the High Plains Underground Water Conservation District is again at hand.

The elections this year will be held throughout the District on January 9th.

Nominees for Committeemen from Precinct 1, Lynn county, are Weldon Bailey and T. J. Swann, both of Route 1, Wilson. The polling place is at Wilson State Bank.

Committeemen nominees for Precinct 4, Lynn county, are Harold Gene Franklin, Route 4, Tahoka, and Robbie Gill, Route 1, Wilson. The voting place is New Home Community Center.

No other commissioners precinct in Lynn county is in the water district.

The terms of office of the two Directors on the District's Board expire this year. Directors are elected for two years.

Cochran, Hockley and Lamb county residents will elect one representative to the Board of Directors. Floyd county residents will also elect one man to the Board.

The terms of two Committeemen in each of the thirteen Water District counties also expire this year. Committeemen are elected for three years.

Qualified voters who reside within the areas affected by the election will be eligible to cast a ballot. The 1960 poll-tax receipt will be the one used for voting. That is, the receipt used during 1961.

It is not necessary to be a farmer, an irrigator, or involved in any other specified occupation to be eligible to vote in this election—this has been a point of misunderstanding in the past. Any qualified voter is eligible to vote in any race that affects him.

Voters must cast their ballots in their home county; however, they may vote at any one of the polling places in that county.

### Farmer At Gordon Critically Injured

(Mrs. Jesse A. Ward)  
Hardie Smith, 65 year old farmer in the Gordon community, 14 miles northwest of Post, was in critical condition last week at Methodist Hospital after he was struck by a tractor, run over by a shredder and lay in the field

about three hours Wednesday, Dec. 27.

He underwent emergency surgery that night.

Garland Huddleston of Hudman Funeral Home in Post said Smith told him he was plowing in his field and had gotten off the tractor when the accident occurred. The tractor apparently started again, striking Smith in the chest and knocking him down. The shredder caught his left foot and leg. Huddleston said.

A neighbor, W. J. Kuykendall called the funeral home for an ambulance after he saw the tractor running in the field about 4:00 p. m. He found Smith in the middle of the field. Huddleston said Smith told him the accident happened about 1:00 p. m.

Major addition to Southwestern Public Service Company's facilities in 1962 will be the second 112,500 kilowatt generator at Nichols Station, northeast of Amarillo. The new unit is pictured at right. The electric light and power company will invest approximately \$20,000,000 in this area in 1962 to meet expanded needs for electric power.

## Southwestern Public Service Plans \$20 Million Expansion Program In '62

Southwestern Public Service Company will invest approximately \$20,000,000 in its service area in 1962. A. R. Watson, president of the electric light and power company, has announced.

1962 will be the second year of a five year expansion program, announced at the start of 1961, which anticipates the investment of \$117,000,000 of new money in the region by the end of 1965. At that time the company's investment in plant and equipment will be nearly \$400,000,000, or ten times greater than it was in 1942, when the company took its present form.

Two major generating station projects call for a large portion of the 1962 construction budget. The second unit at the company's Nichols Station, located northeast of Amarillo, will go into service in early Summer, while, at Plant X, near Earth, Texas, construction will start this Spring on the fourth unit at that station.

The number two unit at Nichols, at 112,500 kilowatt generator, will double the capability of that plant. Also, when it goes into service, the generating capability of the twelve plants in Southwestern's system, will pass the 1,000,000 kilowatt mark.

"There is no more accurate evidence of the growth of a region than the increase in the amount of generating capability necessary

to meet its electric service needs. You can readily see the ten year growth in this area when you realize that our generating capability in 1951 was 354,000 kilowatts, or just a little more than one-third of what it will be when this second unit goes into service at Nichols," Watson pointed out in highlighting the significance of going over the 1,000,000 kilowatt capability figure.

The evidence is equally conclusive that the electric company does not anticipate a growth stoppage in the future. The generating unit for which ground will be broken at Plant X this Spring, will have a generating capability of 210,000 kilowatts, the largest single generator in Southwestern's system.

"Nothing is as perishable as electric service. It is needed—and used—the instant that it is created. But, we must plan from three to five years ahead to have the power available at that instant the customer requires it. This requires a faith in the future of our region—and we have it," Watson said.

Transmission lines construction and planning will call for a 1962 investment of nearly \$7,500,000. The majority of the projects are designed to provide additional transmission circuits for the region, and to have the facilities available for anticipated increasing loads in industrial, agricultural

and commercial fields.

A transmission line investment in 1962 with a long-range view is the engineering and survey work and right-of-way purchase for additional lines capable of transmitting 230,000 volts. The company is in the process of increasing its major transmission voltage from 115,000 to 230,000 volts. Doubling the voltage of a line increases the amount of power that the line can carry by four times. At the present time, construction has been completed on line segments capable of carrying 230,000 volts from the Riverview Plant, at Borger, to Plant X and from Cunningham Station to Artesia, New Mexico. When the section from Plant X to Cunningham is completed and necessary substations are installed, the entire main transmission line extending from Borger, Texas, to Artesia, New Mexico, can be operated at the 230,000 volt capacity.

"We shall continue, as we have in the past to make the investment necessary to provide electric service for this growing area—well in advance of the actual need. And we shall make every effort, too, to keep electric service the biggest value in our customer's budgets. I think the fact that the unit cost of our service has decreased more than 20 percent in the last decade, while the cost-of-living has risen 23 percent is proof of our efforts to accomplish this goal," Watson said in conclusion.

## WASHINGTON AND "SMALL BUSINESS"

By a virtual unanimous vote, the independent business and professional people of the nation, voting through the National Federation of Independent Business, have asked that the U.S. mails be barred to the free delivery of communist propaganda.

And this may open up the most fantastic story of the year. Before Congress adjourns, a bill will be introduced by Congressman John M. Ashbrook and C. W. Harder, several colleagues sought passage of a bill which would stop the United States taxpayer from subsidizing the dissemination of tons of propaganda.

For many years there has existed among nations what is known as Postage Courtesy Laws. Any government could send to the citizens of any other country newspapers and magazines with no postage charge.

About 1948 this practice was stopped by the U.S. government insofar as free mailings from any communist country was concerned.

However, in March of this year, the practice was resumed and already so far this year 14,000,000 packages of communist propaganda have been carried free by the U.S. Postal Service to American citizens, a large part of them being college students.

When Congressman Ashbrook pressed postal authorities for an answer he was told the reason for discontinuing the practice was the National Federation of Independent Business.

By a virtual unanimous vote, the independent business and professional people of the nation, voting through the National Federation of Independent Business, have asked that the U.S. mails be barred to the free delivery of communist propaganda.

It would seem that the post office got its orders from the U.S. State Department.

So now the U.S. postal authorities face a strange paradox.

They can stop the use of the mails, even at full rates, for the transmission of obscene literature. Yet, they are powerless to stop the flood of mail promoting the greatest obscenity of all, communism. Not only can they not stop it, but they must carry it for free.

Thus, there must be jolly, jolly times in the mail room of the Kremlin. Merrily, they make up sack after sack of communist newspapers and magazines to be mailed to U.S. citizens, knowing that as soon as it reaches the American shores, the U.S. postman, despite sleet, or snow, or hail, or his own outraged sensibilities as an American, must dutifully deliver this treasonable material free.

It is to be expected that in the next session of Congress, there will again be a drive to raise postal rates. Presumably this time the rallying cry behind the attempt will be the slogan "No matter what it costs Americans, for sweet friendship's sake the Kremlin mail must go through." It is said the Russians don't have any great comedians. Obviously, they need none. They get their laughs out of the Americans. It is also a sure thing the National Federation of Independent Business will work at the next Congress to stop this nonsense.

## Christmas History Related In Book

It all started with gold and frankincense and myrrh . . .

Since the time of the three wise men, Christians have celebrated the birth of Jesus Christ by exchanging gifts. But the exotic fragrances have disappeared and the wise men have been almost crowded out of the Nativity scene.

In many European countries, reports World Book Encyclopedia, gifts are believed to come from Saint Nicholas. This kindly bishop lived in Asia Minor in the A. D. 300's and became famous for his generosity. Children receive toys and sweets on December 6, his feast day.

Americans added a bit of fur, a reindeer-driven sleigh and a few extra pounds to the saint to create Santa Claus. His name comes from the mispronunciation of the name which Dutch settlers in New York called the saint.

In Italy it's La Befana, a kind of aging fairy queen, who comes down the chimney, and in France the bearer of gifts is the Christ Child Himself, known as the Petit Noel.

Children in South America, however, still wait for the three wise men. And to compensate them for their long journey from the East, they leave water and hay on the doorstep for the wise men's camels.

### I. THE SCRIPTURES

We believe that the Holy Bible was written by men divinely inspired, and is a perfect treasure of heavenly instruction; that it has God for its author, salvation for its end, and truth, without any mixture of error, for its matter; that it reveals the principles by which God will judge us; and therefore is, and will remain to the end of the world, the true center of Christian union, and the supreme standard by which all human conduct, creeds and religious opinions should be tried.

Luke 16:29-31; 2 Tim. 3:15-17; Eph. 2:20; Heb. 1:1; 2 Peter 1:19-21; John 16:13-15; Matt. 22:29-31; Psalm 19:7-10; Psalm 119:1-8.

Pastor T. James Efrid of First Baptist Church will discuss this subject in radio messages each day next week at 9:00 A. M. on the church's local station broadcasting at 11:00 KC.

MRS. DON MORTON (nee Miss Peggy Polk) (photo by Finney)

## Miss Peggy Polk, Don Morton Wed In Church Ceremony

First Baptist Church was the scene for the wedding of Miss Peggy Polk and Don Morton at 7:30 p. m. Friday, Dec. 22. The Rev. T. James Eflrd officiated at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Dave Polk. Mr. and Mrs. J. W. Morton of Wilson are parents of the bridegroom.

Mrs. Clay Bennett, organist, accompanied James Hollars as he sang "Melody of Love," "Because," and "The Lord's Prayer."

Given in marriage by her father, the bride wore a gown of imported lace fashioned with a sequin sweetheart neckline, and long sleeves extending to points over the hands. The dress terminated in a point at the center of the front waistline. The six-tiered skirt fell into a chapel length train. Her headpiece was a pearl and sequin trimmed crown from which descended her fingertip veil. She carried a bouquet of red roses atop a white Bible.

Maid of honor was Miss Mary Jane McCord. She was attired in a red dress of velveteen and taffeta which featured a bell skirt. She wore a headpiece of red velveteen ribbon with matching net.

Kim Treadaway, flower girl, wore identical colors of the bride's attendant.

Dickey Maret of Slaton was best man. Ushers were Glen Polk, cousin of the bride, and Jerry Adams. Ringbearers were Larry Vandiver and Bruce Kenley, nephews of the bride.

At the following reception in fellowship hall the houseparty was composed of Mrs. Lyndell Kenley, sister of the bride from Lubbock, and Misses Sue Walker and Elaine Buchanan.

The bride's going away dress was an off-white sheath trimmed with fur and complimented with red accessories.

Mrs. Morton is a 1961 graduate of Tahoka High School and was recently employed as secretary of the First Baptist Church. Her husband, who attended the Wilson public schools, is stationed with the Marines at Twentynine Palms, Calif., and was to report there the first week in January. Mrs. Morton will join him in February at the California base.

MRS. JACK G. HOSKINS (nee Miss Iris Gail Tyler) (photo by Finney)

## Iris Gail Tyler and Jack Glen Hoskins Exchange Marriage Vows In Lubbock

Miss Iris Gail Tyler and Jack Glen Hoskins exchanged wedding vows Saturday at 7:30 p. m. in Bowman Chapel of the First Methodist Church in Lubbock. Rev. Glenn A. Chambers read the single ring ceremony.

The bride is the daughter of Mr. and Mrs. Ira Graham Tyler of Tahoka. Parents of the bridegroom are Mr. and Mrs. Jack Leigh Hoskins of Newmoore.

Mrs. Rollna English Hendri sang "Because" and "Whither Thou Goest" accompanied by Mrs. Aggie Mars, organist.

Given in marriage by her father, the bride wore a gown of deluster satin designed with a yoke and bracelet-length sleeves of Chantilly lace banded with satin. From the fitted princess bodice flowed a bouffant skirt highlighted by a wide band of lace. Her fingertip veil of illusion was held by a crown of seed pearls. In her attire, the bride carried out the old-new tradition. She carried a bridal bouquet of white carnations.

Miss Sandra Gayle Karr, of Spur, cousin of the bride, was maid of honor and bridesmaids were Misses Judy Hoskins of Newmoore and Karen Applegate of Lamesa. Their princess style gowns of white slipper satin were fashioned with white chiffon shirred yokes. Miss Jamie Nell Bridge of Spur was flower girl.

Tom Hoskins of Newmoore served as best man and ushers included John Harold Tyler of Tahoka and Donald Parker.

## Christmas Party At Special School

On Friday, Dec. 22, the Lynn County Special School had one of its most wonderful Christmas trees and parties since its beginning, according to the teacher, Mrs. Margaret Renfro.

Many gifts were sent the students by many of their good friends. The boys and girls had previously tape recorded a number of Christmas carols that were enjoyed by the guests.

E. L. Short and Jack Miller escorted Santa Claus to the school and David Renfro did a wonderful job in helping with the party.

Mrs. Renfro stated, "I guess the most we can say is that we hope the people who helped us received as much pleasure out of it as we did, and thanks a million. Those who have visited this school and

## QUESTIONS, PLEASE

QUESTION: DO THE RIGHT DEEDS DEAD GO IMMEDIATELY TO GOD, OR ARE THEY DETAINED IN SOME "INTERMEDIATE" STATE?

ANSWER: To reach a proper perspective of the Biblical teaching on the subject, we need to consult our Bibles as the sole authority.

The first passage that we must obviously consult in the one found in Luke 16:19-31. Would Jesus incorporate fantasy to emphasize his lesson in a parable, as some say? To make the moral of the story more intensified, would Jesus introduce a lie about this "intermediate" state?

Next we find that Luke 23:43 shows that Christ was with the thief in Paradise while He was dead and His physical body was in the grave. It does not teach that Christ now dwells in paradise but simply to the contrary that Jesus is now in heaven.

II Cor. 5:1-10 implies that the righteous dead must go to an

"intermediate" or disembodied state. If the righteous dead went directly to God in person, then Paul's "anxiety" to not have to go through a disembodied state was vain.

Rev. 20:4-15 implies the necessity of the existence of an "intermediate" state and the righteous dead's ascent to such a place. This reign of the righteous with Christ in this "intermediate" state is not on the earth because there is no mention of the earth in the context.

The conclusion to the question would be that the New Testament teaches that the righteous dead go to an "intermediate" or "disembodied" (II Cor. 5) state, but it also teaches that during this period or in this state, we reign with Christ and thus must have a closer relationship to Christ and God than we had while we were yet in the flesh. But it is most doubtful that Paradise is just Heaven itself because of John 20:17.

You are invited to send your questions to: Don Browning Box 812, Tahoka, Texas. You are also invited to attend the services of the Church of Christ.

Don Browning may be heard Sunday mornings at 11:00 and evenings at 7:00 at 750 on your radio dial.

 Tahoka girls led the Idalou team 21-19 at the end of the half and as the final buzzer sounded, the winners sunk a field goal to tie up the game 40-40. The local team was unable to score in the three-minute overtime and Idalou racked up four points to win the game. Judy Thomas led Tahoka with 25 points.

 Only holiday observed in the second term of school is Easter, which comes late this year, on April 22. Classes will be dismissed on Thursday, April 19, and resume on Tuesday, April 23. However, on March 9, teachers will attend their annual meeting and conferences.  
 Students will be busy the second semester of school with conference basketball games coming up, followed by the track season, class plays, banquets, graduation exercises, etc.  
 This spring school is scheduled to close its doors for the summer vacation on May 18.

**Small Residence Destroyed By Fire**

A grainery being used for housing for a Latin American family and for storage was completely destroyed by fire Wednesday afternoon at about 4:30 p. m. on the Sam Miller farm about a mile north of Tahoka.  
 No one was injured, but the building and everything inside was a total loss.  
 The land has been farmed by Roy Miller and part of the grainery had been used for living quarters for his farm hand, wife and two children. Miller also had cotton seed for planting his next crop, meat, camping supplies and other items stored in the building.  
 Although the floor was concrete and the roof sheet iron, the walls were frame. The fire is believed to have been started by a heater according to Fire Chief Pat Patterson. The fire department was called to the scene, but the fire was so far advanced it was unable to save the building or its contents.

# Percheron, Not Grassland, Was First County Postoffice, Records Show

Several bits of history of early day Lynn county postoffices came to light this week as the result of an inquiry to Mrs. Lou Rusk of Tahoka from Grover Ramsey of Austin, who is writing a history of early American postoffices. Along with information sent by Mr. Ramsey and that furnished by Mrs. Rusk, Happy Smith, and others here are some interesting facts about the early postoffices.

Percheron, established in 1888 and discontinued 1890, was doubtless the first Lynn county postoffice, set up in the home of a rancher, George W. Johnson, south of Tahoka, and northeast of New Lynn and southeast of Wilson. The official U. S. Census of 1890 gave Lynn county only 24 people at that time, and the postoffice served the few scattering ranches.

Percheron was discontinued on May 17, 1890, when the postoffice was combined with Grassland, which had been established in

1878 by Enos L. Seeds. Mr. Seeds had come to the Plains first in 1878 with a party of surveyors to plot the county for the State of Texas and railroads, which were being given every alternate section of land in return for every mile of railroad built in the state. Mr. Seeds opened the store and postoffice at Grassland and discontinued it in 1900 about the time Lynn was established. Seeds later ended up in Philadelphia, became one of the nation's outstanding bridge building contractors, erected one of the great bridges over the Hudson River in New York City. After becoming wealthy, he owned a yacht which he named "Tahoka". On a visit to Tahoka about 25 years ago, he gave The News editor a picture of this yacht.

Lynn was established in a half dugout in 1901, and the records say it was discontinued in 1910. Lynn had five postmasters during its career, Reuben G. Wood, J. E. Ketner, Horace E. Randal, Henderson Cavender, and Mrs. Dora Milliken. The latter was the mother of G. R. (Bud) Milliken.

Tahoka was established in 1903, when the town and county were organized, and postmasters have been Mrs. Fannie (Ed) Henderson, the first, A. B. McCloud, Jack Alley, J. B. Walker, D. A. Parkhurst, H. M. Larkin, Coleman Wells, and W. E. (Happy) Smith has been postmaster since 1936.

Central was established near the south line of the county in 1905, Dee W. Harris was the postmaster, and it was moved to O'Donnell in 1910, when that town was established.

Wilson was also established in 1910, when the railroad came to

## Bill Waldrip Is Going To Japan

Bill Waldrip HM2 with the U. S. Navy in Long Beach, Calif., called his parents, Mr. and Mrs. D. S. Waldrip, on Monday night to inform them his ship, the U. S. S. Delta, will sail for Japan in early February.

The Delta is a medical supply ship and has been in port at Long Beach since December, 1960. Bill has a medical station aboard ship and keeps medical records for the entire fleet. This will be his second trip to Japan since going to Long Beach in 1959.

A career man, Bill will finish his tenth year with the Navy in August of this year. He will re-enlist upon his return from Japan about Aug. 14. His wife, Kathie, will remain in Long Beach until the end of school, where their boys, ages six and eight are attending. They will visit Tahoka and Baltimore, Maryland where her parents reside when school closes.

K. W. Phillips, who has been farming near Midway, has moved to the Ragan place east of O'Donnell.

Wilson, Tahoka, and O'Donnell. "Bud" Milliken thinks a Mrs. Lawson was the first postmaster at Wilson.

Draw had a postoffice from 1906 to 1908, and postmasters were Della Glass and Luella Sanders. EndLynn (or Endalynn) was a postoffice operating for a brief period in 1916, and postmaster was Eillard W. West.

Loulynn was established at West Point in 1925 through efforts of J. M. Noble and others, operated until 1928, and was named for Lou C. Jennings who married Bob Rusk. Mrs. Rusk recalls that she lived in the store building at the time and Dorothy Carmack boarded with her and taught the school there.

New Home had a postoffice for a number of years, but The News has no record of the time it was established or the date of its discontinuance, probably in the late 1920's. Among the postmasters were Fred Thomas and Mrs. Jim Izard.

Before the railroad came, mail was brought to Lynn county postoffices and also to Lubbock from Gail, the mail coming there from Colorado City and later from Big Spring. Mail hacks, a buckboard pulled by tough, speedy little Spanish mules, ran the routes in record time, with team changes being made at designated points.

Some of the drivers of these mail lines included the late R. B. (Bob) Rusk, Horace and Henry Hale, Jim Weatherford, and other pioneers of this area.

Further information on these postoffices from oldtimers of the county would be appreciated and would help preserve the history of this county.

## New Members Speak At Rotary

Five new members presented classification talks at the regular meeting of the Rotary Club Thursday noon of last week, each also telling interesting facts about their early life.

Phil Pearce, local band director, was born and reared in Oklahoma, where his father was with an oil company and his mother a school teacher, but he graduated from high school at Crane. He is also a Texas Tech graduate, and worked two summers in the Forest Service in Idaho. He is married and has three children. This is his second year in Tahoka, and says he enjoys his work and living among the people here.

Charles Brock, owner of White Auto Store, was born in Hill county, moved to the Plains in 1913, drove a horse and buggy nine miles to attend Crosbyton schools, and had one year in Texas Tech. Death of his father left him the head of the family at the age of 17, and he had to drop out of school. He worked for Texas Utilities, now Southwestern Public Service Co., 14 years, was city manager for Falls for three years, and spent time in the Army Air Force. Following the war, he declared he was "a wheat farmer at Spearman about three years and a wheat planter about six years."

When the wheat seed didn't come up, he had to retire as a farmer and bought the business here. Married in 1934, Brock and wife have two sons. He is also highly pleased with life in Lynn county.

Horace Rogers, manager of Piggy Wiggy, was born on the farm in Jack county, moved to Lynn county with his parents in 1929, failed to finish high school, but went to work in cafes in Tahoka and worked for the Bovells in the bakery several years. He joined the Air Force in 1942, saw a lot of the country, and when he was discharged in 1945 he decided there was no better place to live than Tahoka. He went to work for W. T. Kidwell in 1952, and this June will have been with him ten years. He married in 1934, and his wife Jewel have one son, Johnny.

Lynn Seales, service man for General Telephone and a newcomer here, said he was born in Hall county, lived in just about every town in this area, joined the telephone company in 1953, married in 1956, and he and wife have two children. He says Tahoka is one of the friendliest towns in which he has lived.

H. B. McCord Sr. is a charter member of the Rotary Club who has come back into the club after several years absence to allow his son membership. Incidentally, he and H. B. Jr. are not only partners in business but the only father-son team holding membership in the Rotary Club. H. B. Sr. told of coming to Grassland in 1916, and as a result of the 1917-1918 drouth went to Virginia to work in the shipyards. He had registered for service on becoming 18 years of age, and while at the ship yards received his call to service for Nov. 16, but the war ended on Nov. 11 and he wasn't inducted. A few years later he became Phillips dealer in Tahoka, and has been here ever since, and has served in many positions of civic responsibility.

Dale Thuren, in charge of the program, and Dr. Emil Prohl presented the new members their pins and several pieces of Rotary literature including the Four-Way Test, Object of Rotary, Ten Marks

## Will Rogers On 'The Home Paper'

This is what the beloved Will Rogers thought of the weekly newspaper:

"Take away my ham, take away my eggs, even my chili, but leave me my newspaper.  
"Even if it has such purely local news as 'Jim Jones came home last night unexpectedly and bloodshed ensued', or 'Jes Bushyhead, our local M. D., is having one of the best years in his career, practically speaking—but they just won't pay him when they get well', and 'election ain't far off, and everybody is up for office that can sign an application blank.'"

"Now all that don't seem much news to you. But it is news, especially when you know the people and they are your own folks. So, no matter how punk you think your local newspaper is, let them take it away from you for a while and see how you feel. The old newspaper, I think is about our biggest blessing.

"So let's read and be merry, for tomorrow the paper may not have enough ads to come out."

## POLKS HAVE REUNION

J. D. Polk had all his children, most of the "in-laws" and grandchildren, a total of about fifty people, home for Christmas, and he says they had a great time visiting, singing, and eating.

His nine children are: Mrs. Grady Dykes of Belton, Bill Polk of Stanton, Dennie Polk of Tahoka, T. C. Polk of Post, Dave Polk of Tahoka, D. L. Polk of Tahoka, Mason Polk of Levelland, Mrs. B. O. Trammell of Lubbock, and Jack Polk of Austin.

## Income Taxes Draw Attention

All citizens or residents of the United States, including minor children, who had gross incomes of \$600 or more in 1961, must file a federal income tax return, John J. Sloan, Administrative Officer, Internal Revenue Service, Lubbock, announced today.

If the taxpayer is 65 or over as of December 31, 1961, he or she is not required to file unless his or her gross income for 1961 was at least \$1,200.

The IRS representative added that even though a taxpayer is not required to file under these rules, he or she must file to obtain a refund, if any income tax was withheld from his or her pay.

He said there is no exception to the general rule. Self-employed persons such as sole proprietors, partners, and independent contractors, must file an income tax return and pay a self-employment

tax, if net earnings from self-employment were \$400 or more. Many questions about federal income tax returns can be answered by telephoning the IRS office.

Oh, yes, the filing deadline this year is Monday, April 16!

# Printer's Ink-lings . . .

By F. P. H.

Pay your poll taxes! If you don't you'll probably regret not doing so later on in the year. There will be some county, district and state officers to elect, city officials, school trustees, and no telling what else.

We open the year 1962 with a mixed up feeling of sadness and happiness. This is the time of year when so many of our old subscribers and friends of many, many years come in to renew—and it makes up happy to visit with them, a bit sad to note that the old-timers are slipping away grad-

ually and our list of subscribers begins to include many of the second, third, and even fourth generation of readers.

Our office is a bit lonesome this week, for Mrs. Gaylon (Sue Tomlinson) Tekell has left us to devote her full time as a housewife while her husband farms out at Dixie. Sue joined us April 1, 1956, while a senior in high school, and has been a loyal and faithful worker with us ever since. She's a swell girl, Gaylon is a lucky young man, and The News is absolutely lost without her. Our daughter, Pat Jacobs, will give what time she can to filling Sue's shoes, at least for the time-being. But, every member of the family and the entire office force will miss Sue. And, speaking of pioneers, Sue is of the fourth generation of the J. S. Wells family, who settled in Tahoka in 1903.

For twenty years or more we have been receiving most unusual Christmas cards from a most unusual friend. This Christmas, we failed to receive one of those looked-for cards. Then, on Saturday Boyce House was found dead of an apparent heart attack in his hotel room down at Fort Worth. We've known old Boyce a long time. Although born in Arkansas, he was a true Texan and with his many writings and good humor has done much to promote Texas around the world. Our brother E. I. Jr. has known Boyce a lot longer than we have, for he worked with Boyce on the Ranger Times before the former went to the

Government Printing Office in Washington and about the time Boyce was making famous "Old Rip", the horned frog he claimed was found alive in the Eastland County courthouse cornerstone after being sealed therein for 30 years.

Miss Emily Waller was in on her annual visit to pay her subscription to The News, and we were reminded that our list of old-time readers is dwindling to the second, third and fourth generation of pioneer families. Miss Waller's parents, the late W. A. Wallers, started taking The News before 1906, even before they came to the county. The Wallers were farming down at Goree, Knox county. Mr. Waller wrote to Austin to find out if Lynn county was settling up, traded a place in Wise county for the Draw farm, subscribed to The News to find out the happenings out here, and in the fall of 1906 moved on out to Draw.

Then, along came Mrs. Jewel Connolly, another second generation pioneer, who learned to read The News while a child. Her parents, the late F. M. Sherrods, came here in 1903 when Jewel was only two years old. She says she looks forward to each issue.

Next, we open a letter from Mrs. Dr. E. E. (Pearl) Callaway of Abilene, who still calls this home but can't live here on account of her asthma, a swell lady in our book. She wishes all her friends prosperity, health and happiness during the new year, declares "I look forward to it (The News) every week as a mother would look for a letter from her child," and passes on some other flattering phrases which we wish we deserved.

The Lit Moores, also long-time readers of The News, had a great surprise Christmas when their son, Jay W., flew in from remote Western Canada unannounced and Kay and wife came down from Durango, Colo.

A few years ago The Printer had an interesting experience (to us, anyway) at Durango. The Printer attended the Durango Rotary Club to make up his attendance. At the time, a movie company was shooting the picture "The Denver & Rio Grande" up Las Animas canyon, and several of the movie people, including Sterling Hayden, we believe, were at the club meeting. We got to talking to a distinguished elderly gentleman seated next to us who told us he was from Hollywood and asked where we were from. When we told him Tahoka, he replied, "Yes, I know Tahoka. I've visited there several times." Naturally, we wanted to know how come.

The movie executive said that about 20 years previously he was coming across West Texas when he broke an axle on his car just west of Tahoka. His machine was hauled in to a Tahoka garage, and he spent a night at the Keltner Hotel. "You know," he said "That man Keltner is a rugged individualist, I liked him very much and enjoyed talking with him. Since then, every time I am going across Texas I go by and spend a night at the Keltner Hotel just to get to visit with Mr. Keltner."

Further conversation revealed the fact that this man—we've lost his name—did the color photography on "Gone With The Wind" and a number of other famed pictures, that he was the first man to take a picture with color film he made himself back in 1910, and it was 15 years before he could get Eastman and the movie companies interested in developing color movies. He promised to come to see us if he ever came to Tahoka again, but evidently he has not been here again.

The more power we allow the Federal government to take over, the fewer rights we have. Take the case of Slaton. Recently, a Labor Department official ruled that 31 farmers in that area could not use Mexican National labor unless a Slaton swimming pool was integrated within 30 days. Now, these farmers don't even live in Slaton. The City of Slaton owns the pool, but doesn't even operate it. The pool is leased out. How fantastic can we get? Government by bureau directives! It's getting to where about all we need for a Congress is for the body to meet, make appropriations for more money than the government has, add a few new taxes, belch, and go home.

Big Labor is in control. The use of braceros is just about past-

## Farm Facts

On the average, at least 50 different food items are used in family meals in a week. This is reported by Janet Murray and Ennis Blake in the Yearbook for Agriculture, 1958.

The U. S. Department of Agriculture researchers based their facts on information obtained from more than 6,000 householders.

Meals of the average family for a week included about 10 pounds of vegetables and fruit, 4.5 quarts of milk or corresponding amounts of cheese and ice cream, 4 pounds of meat, 7 eggs, 1 pound of fat, 1.5 pounds of sugar, and 3 pounds of cereal products for each person.

In 1955, according to the survey, meat, poultry, fish, or eggs took 25 cents of the food dollar — about 24 cents for beef, pork, veal and lamb; 5 cents for poultry; 4 cents for eggs; and 2 cents for fish.

Vegetables and fruit accounted for 18 cents; milk and milk products, 14 cents; flour, cereals, and baked goods, 11 cents; and beverages, 10 cents.

We consume at least 50 different foods in a week.

The remaining 12 cents were divided fairly evenly among fats and oils, sugars and sweets, and a group of such miscellaneous items as soups, nuts, catsup, pickles and olives, fillings, mixtures, and seasonings.

### C. Sterling Sells Brownfield News

Curtis Sterling and associates have sold The Brownfield News to Southwestern Dailies of Brownwood, owned principally by C. C. Woodson and two sons, who own eight papers including the Lamesa and Seminole newspapers.

The new owners announce they

are retaining Don Bynum, editor; Dennis Fairbairn, mechanical superintendent; and Joe Boatright, advertising manager; but Sterling has completely severed his relations with the paper and will devote his time to some other line of business in Brownfield.

Sterling, reared in Snyder, is a brother of Tommy Sterling of West Point, and has made an outstanding record with the business.

The Brownfield News lineage can be traced back to the old Terry County Voice, established at Gomez, now just a country store, back in December, 1903, just two months after The Lynn County News had been established.

On the organization of Brownfield, the paper was moved to the new town, and A. J. (Jack) Stricklin became the paper's owner, now known as the Terry County Herald, in 1909. The News was established as a competing paper in 1937, was later acquired by Mike Barrett, and was sold by Barrett to Sterling, a young man just recently graduated from Texas Tech in 1950. Four years later, 1954, Jack Stricklin sold The Herald to Sterling, and the two papers were combined as a semi-weekly.

Nowadays some folks have to take pills to sleep. Back in granddad's time work was the answer. —Moody Courier.
