### NO PARALLEL TO SABINE PASS

A state is only as good as are its inhabitants. Considering the status and accomplishments of the state of Texas, this is a compliment to all Texans. Perhaps that's why Texans take such pride in the historical events that have occurred on Texas soil. To quote Jefferson Davis of one such Texas event: "There is no parallel in ancient or modern warfare to the victory of Dowling and his men at Sabine Pass, considering the great odds against which they had to contend." What happened at Sabine Pass? Lt. Richard Dowling and 47 men in the Texas heavy artillery, Confederate States of America, fighting from a mud fort, repulsed an attack of four warships and twelve hundred men of the Federal Army. They not only repulsed them, they captured approximately three hundred and fifty prisoners and two gunboats mounting thirteen guns of the heaviest caliber.

### "PLANNED THAT WAY"

Driving tractors is a "prohibited occupation" for Mexican nationals working on American farms. U. S. Department of Labor has asked for \$247,000 more money to hire 25 inspectors to see that braceros comply with this prohibition. Who will drive the tractors? Well, the Area Redevelopment Administration is spending \$482,056 in the Yazoo Delta in Mississippi to train tractor drivers. Only the naive would wonder why people who know how to drive tractors can't drive them and why taxpayers can't be saved this \$729,056. But, as the late Franklin D. Roosevelt, father of the New Deal and god-father of the New Frontier, once said, "We planned it that way."—Dallas News.

Mrs. Glenn Medlin entered Tahoka Hospital Wednesday as a medical patient.

**QUESTIONS, PLEASE**  
QUESTION: DO MIRACULOUS GIFTS STILL EXIST?  
ANSWER: The gifts mentioned in I Corinthians chapter 12 were all miraculous and have certainly ceased, as there are no men on earth now that can do the miracles those men did. Those gifts endowed men with power to speak with tongues, to interpret tongues, translate languages. They could work miracles, heal the sick, prophesy, discern spirits, and such like. But none can do these things now; nor have there been any that could do these things since the first, or miraculous, age of the church. Before the New Testament was given the teaching had to be done orally; and as the apostles could not be everywhere to teach the churches, these miraculous gifts were to supply the churches with such teaching as they needed till everything should be revealed and put on record. Paul says that when Christ had ascended, "he gave some, apostles; and some, prophets; and some, evangelists; and some, pastors (shepherds) and teachers." (Eph. 4:11). He also tells what these were given for: and these gifts include those mentioned in the above. They were to be "for the perfecting of the saints, for the work of the ministry, for the edifying of the body of Christ." (vs. 12). Next he indicates how long these miraculous gifts were to last—"Till we all come in the unity of the faith, and of the knowledge of the son of God, unto a perfect man, unto the measure of the stature of the fullness of Christ." (vs. 13). So these miraculous gifts continued till the fullness of Christianity, was revealed and written down so as to furnish everything needed for the full development, the edification, of the church. They were then no longer needed. Paul also shows that these miraculous gifts—such as prophecy, speaking with tongues, and such like—were to cease, in the following: "Charity never faileth; but where there be prophecies, they shall fail; where there be tongues, they shall cease; whether there be knowledge, it shall vanish away." I Cor. 13:8 They have ceased. The man, therefore, that claims they have not ceased must prove their continuance by doing the miracles. No man "ipse dixit" alone is any evidence in the case. **MOMENTS WITH GOD**  
CRISIS OF DECISION  
"And the two disciples heard him speak, and they followed Jesus." John 1:37.  
Andrew and John heard John the Baptist make the electrifying announcement: He is here of whom I have been telling you! "Behold the Lamb of God, which taketh away the sin of the world!"  
The presence of Jesus brought Andrew and John to a crossroads of decision. They could go home to Galilee and forget everything. They could remain on with the Baptizer. They could attach themselves to Jesus. The choice had to be made, and it pressed for an answer. Apparently without hesitation the two friends determined to follow Jesus. Their decision was a "leap of faith."  
Jesus' presence in the midst of life always brings us to the crossroads of decision. Shall we put everything else aside to follow where He leads? Only the Spirit of God can convince us that He is worthy to claim our discipleship. He must also give us the courage, daring confidence to risk all for life with Him.  
To refuse the Spirit's call grieves Him. It would be a fearful thing to go down to death and eternity with that on our conscience. All our choices do have eternal consequences. Each choice now bears the infinite significance of being a decision for Christ or against Him. This very moment God's Spirit is speaking to you concerning Jesus: Choose the way to life or death!  
Jesus, lead Thou on; help me to follow in trust. Amen.  
Are you walking with Jesus into eternal life? Or, are you walking alone into eternal death? No one needs to walk alone for Jesus says, "Follow Me!" We invite you to join us each Sunday at 7:00 p. m. at the W.O.W. Hall in Tahoka as we walk with Jesus through the study of His Word. Jesus says to those who believe in Him, "If you continue in My Word, then are ye My disciples indeed; and ye shall know the truth and the truth shall make you free (free from the course of sin). John 8:31,32. Come and bring a friend.

### Farm Facts

Farmers are borrowing more money than ever before. In the face of the trend toward larger farms, credit helps provide the things they need to produce more efficiently.

The farmer's use of credit will continue to mount, notes W. D. Curtis, economist with the Louisiana State Agricultural Service. This will be due to: (1) greater investment per farm; (2) an increase in the use of power, fertilizer, chemicals, better seed, and other production necessities; (3) failure of savings to keep pace with mounting capital needs; and (4) a more businesslike approach to credit—if convinced it will pay them to borrow, they borrow.

From 1953 to 1960, the dollar volume of farm credit system loans increased by nearly 26%. Despite the trend to "commercial" farms, the farm family will remain important because it performs the major share of work on these farms.

Farmers are borrowing more money than ever before.

### Etiquette On Visiting Sick Friends Told

All of us occasionally pay a visit to a sick friend. Next time you have occasion to visit a sick room—either in a home or in the hospital—keep in mind a few simple thoughts that will help to make your visit a welcome one. Today's Health, the magazine of the American Medical Association, offers some pointers on visiting the sick—

- Don't sweep into the sick room like a cyclone. Come in quietly, unobtrusively.
- Don't be gloomy. Try to be cheerful, but don't be silly.
- Don't be morbidly curious. If the patient wants to tell you about his operation, or to show you the stitches, let him offer to do so.
- Don't be overly sympathetic. Real sympathy will show through, and words won't necessarily convey it.
- Don't make the patient dissatisfied with the care he is receiving.

If you disagree, keep it to yourself. You'll help most by making him feel satisfied with his care.

- Don't offer your medical advice or opinion. The chances are your opinion is worth next to nothing. Leave medical advice to your friend's physician.
- Don't make promises you can't keep. If you say you plan another visit, keep your promise.
- Don't lie. Don't tell a sick man he looks marvelous, or that he'll be out in a few days. He knows better. And this doesn't mean you should tell a seriously ill person that he looks half dead. Be honest, but be discreet.
- The best test for proper sick-room conduct is to think back to your own experiences with visitors the last time you were ill. The sick person gets lonesome and visits often are welcome, particularly during the period of convalescence. Visits are welcome, that is, if the visitor exercises a little common sense.
- The truffle is a small black fungus, related to both mushrooms and mildews.

### Everyday Religion

By J. B. Thompson

Dr. J. Chess Lovern recently preached a sermon in First Methodist Church, Lubbock on the theme, "Christ's Answer to Communism." I wish to share, with his permission, the following conclusion of that sermon with the readers of this column:

In an effort to define the matter of Christ's answer to Communism, let me give it to you by analogy as sharply as I can:

"Communism coerces; Christianity persuades—Communism says: 'In the name of the state I take what you have.' Christianity says: 'In the name of God you should share what you have.'"

—Communism tells you: "You have no higher loyalty than the state." Christianity says: "Because you have a higher loyalty, you will be a good citizen." Communism says: "Because you are guilty of sin against the state, you must die." Christianity says: "Because you are guilty of sin against God, you must seek forgiveness." Communism says: "When the goods are all divided, Utopia has come." Christianity says: "A man's life consisteth not in the abundance of things." Communism says to the wealthy: "You are a great source of evil." Christianity says to the wealthy: "You can be a great source of good." Communism says to the poor: "I will give you materials in return for loyalty." Christianity says to the poor: "I will give you opportunity in response to your devotion."

—Communism says to the youth: "Fit into the system." Christianity says to the youth: "Excel and improve the system." Communism says: "Glory to man in the highest, for he is master of things." Christianity says: "Glory to God in the highest for he is the Creator of man." Communism says: "Look at the world, let us get." Christianity says: "Look at the world, let us serve." Communism says: "Look at your distresses, they prove man is evil." Christianity says: "Count your blessings. They prove that God is good." Communism says: "Spy on your brother." Christianity says: "Love your enemy." Communism says: "You are the servants of the state." Christianity says: "Now are ye the sons of God."

—Communism says: "God is nowhere." Christianity says: "God is everywhere." Communism says: "Destroy." Christianity says: "Forgive." Communism says: "Take what you want by force." Christianity says: "Earn what you get through service." Communism says: "Be suspicious of your neighbor." Christianity says: "Understand your neighbor." Communism says: "Acquire skills that you may promote the party." Christianity says: "Seek learning that you may promote freedom."

—Communism says: "Get all you can for tomorrow you die." Christianity says: "Give all you can for tomorrow you live." Communism destroys its enemy in hate—Christianity converts its enemy in love.

—Communism has a dictator—Christianity has a Saviour.

**Judge Griffin Is Visitor Here**

Judge Meade F. Griffin of Place I, Texas Supreme Court, was a Tahoka visitor Friday, and District Judge Truett Smith arranged a coffee meeting for him, attended by a number of local citizens.

Judge Griffin was appointed to his present position by Governor Jester on April 1, 1949, and he has been serving continuously ever since.

A native Texan, Judge Griffin served as county and district judge and practiced law at Plainview for many years, served in the Army during World War I and again in World War II from 1942 to 1946. He has been active in State Bar circles, American Legion, Rotary, and civic work.

**Report Made On Fallout Survey**

Results of the preliminary fallout shelter survey were received this week by County Judge W. M. Mathis from James H. Garner of Austin, state coordinator, Division of Defense and Relief.

The survey in Lynn county was made by Parkhill, Smith & Cooper of Lubbock for the U. S. Army Engineer District, Albuquerque.

Four buildings in Tahoka, one in O'Donnell, and one in Wilson were given approval for an "estimated fallout protection factor of over 20." Further calculations are to be made on which, if any, of these buildings have a protection factor of 100 or better.

The next procedure, Mr. Mathis is informed, is to secure license or privilege forms signed by the owners of these buildings. Only those with a 100-factor rating will be marked and stocked for use in case of nuclear attack.

Buildings given a 20-factor approval are: Lynn County jail, Lynn County Court House, Keltner Hotel, and the Thomas Building, occupied by Rutherford & Co., all in Tahoka; O'Donnell High School building and basement, and Wilson Grammer School building.

### Rites Wednesday For Alfred Oden

Alfred Oden, 61, of near Post, died Monday at 4:30 p. m. at his home after suffering a heart attack. He lived in the Grassland community many years.

Funeral services were held in the First Methodist Church in Post at 2:00 p. m. Wednesday with Rev. Elbert V. Nelson, pastor of the Graham Chapel Methodist Church and Rev. John Syrios of Berger officiating. Burial was in Terrace Cemetery in Post.

Mr. Oden was born in Oklahoma but grew up on a farm three miles east of Grassland. He farmed near Grassland before moving near Post in the early 1930's.

He was married to the former Miss Edna Dalton of Borden county, and had been a member of the Methodist Church since childhood.

Survivors include his wife; four daughters, Mrs. Glenda Stevens, Mrs. Rose Dunn, Mrs. Oleta Hawkins and Miss Debra Lee Oden, all of Post; two sons, W. V. and Alfred Doyle both of Post; one brother, Hershel Oden of Levelling; two sisters, Mrs. Edward Ray of Sudan and Mrs. W. C. W. Morris of Post; and five grandchildren.

### Farm Facts

Richard E. Bell of the U. S. Department of Agriculture's Economic Research Service reminds us the Russians need a farm labor force 6 1/2 times bigger than ours—or about 45% of the available Russian labor—to supply a population only 20% greater than ours.

The American farmer is supplying 182 million of us with nearly all of our food and fiber and there's enough left over to export one-sixth of his cropland output.

The U. S. S. R. had 501 million acres of sown cropland in 1960. The United States had 329 million.

Russia's 53,400 collective farms averaged 6,785 sown acres. Their 6,500 state farms averaged 22,485 sown acres.

The average collective had 386 households, and state farms had an average of 753 workers.

The United States, by contrast, prefers smaller but more efficient farm units. This country had over 3.7

### Play Day Is Set By Lady Golfers

The first play-day this year of the South Plains Ladies Golf Association will be held Wednesday at Meadowbrook in Lubbock and local members must pay their dues before they can play on that day, according to Mrs. Kenneth Turner, president of T-Bar Ladies Golf Association.

In addition, ladies must be members of the local golf association before they can become members of the South Plains organization, so dues to both are forthcoming. These may be paid to Mrs. Charles Bragg, local secretary.

Ladies planning to play at Meadowbrook must contact Mrs. Sam Edwards by Sunday, Mrs. Turner said.

Tahoka's ladies will be hostesses to the three-day tournament to be held here in September, and Mrs. Turner urges all ladies who are members of the Country Club to join the two golf organizations.

## Income Tax Bite On Lynn County Is Estimated In Excess Of \$2 Million

(Special to The News)  
New York, Mar. 26.—Individual income tax payments next month by residents of Lynn County will have to be meaty and numerous if Government forecasts are to work out right.  
Indications are, from an examination of local income figures, that the returns will be even larger than they were last April, when taxpayers in the county turned in approximately \$2,132,000 to cover their 1960 obligations.  
The figures are based on the overall report of the Treasury Department—covering the State of Texas, together with unofficial data on income groupings and average earnings locally.  
They show that personal tax returns from Lynn County amounted to 0.10 percent of the \$2,132,000,000 in such taxes collected throughout Texas as a whole. This includes the amounts deducted from wages, week by week, via withholding.

By April 16, which is the deadline for payment of these taxes, the Government estimates that it will have received, nationally, a total of \$46.1 billion, or \$1.2 billion more than it collected last April.  
For the individual community, the payments will be greater or smaller than before, depending on the change in the number of taxpayers and the change in total earnings in the year.  
On this basis, Lynn County residents are expected to contribute to the Treasury some \$2,141,000, a rise of \$9,000.  
The Administration's new budget, which calls for record-break-

ing spending, rests on the assumption that the next year will be a banner one, for business and for wage earners.

It contemplates a gross national product of \$570 billion, \$50 billion greater than in the past fiscal year. The increase in revenue that it would produce, it reasons, would keep the budget in balance.  
As to personal incomes, they are expected to reach a grand total of \$448 billion, causing personal income taxes to rise from the present \$46.1 billion to \$49.3 billion.

If Lynn County residents are to increase their tax payments next year by a proportionate share of this amount, they will have to earn at least 6.9 percent more, on the average, than they did during 1961.

## Julio Soto, 67, Dies Saturday

Julio M. Soto, 67, a resident of Lynn county for 20 years, died at 2:00 a. m. Saturday at his home on South Third street.

Funeral services were held Monday at 10:00 a. m. at Our Lady of Guadalupe Catholic Church here with Father Hoffman of O'Donnell officiating. Burial followed in Tahoka Cemetery under direction of White Funeral Home.

Soto was born in Mexico on June 19, 1894. He was married to Miss Angelita Chapa on August 21, 1917, at Georgetown. The couple came to Lynn county in 1942 and he worked as a farm hand and later at Tahoka Compress. Mrs. Soto died several years ago.

Seven children survive, including Mrs. Juanita Amador, Mrs. Lydia Manriquez, and Lucio Soto, all of Tahoka.

## For Freedom In Your Future

WASHINGTON, D. C.—Mrs. Lyndon Johnson approves the design for the official poster of the Freedom Bond Drive shown her by Mrs. U. S. Savings Bonds of 1962, Emily Terrall of St. Helens, Oregon. The lettering reads: "Keep Freedom in Your Future With U. S. Savings Bonds. Buy an extra bond today." Mrs. Terrall, as Mrs. Oregon, was chosen from among the 51 state candidates for Mrs. America's crown at Fort Lauderdale, Florida, last November to be the Treasury's volunteer ambassador of good will for the Savings Bonds program. She met with the Vice President's lady and other women leaders to go over plans for women's participation in the nation-wide Freedom Bond Drive this May and June.

### YOUNG WILDLIFE WARNING ISSUED BY GAME OFFICER

A warning against picking up young wildlife has been made by J. B. Phillips, coordinator of law enforcement for the Game and Fish Commission.

This is the time of the year when young of the wild has a tendency at times to stray from the mother, and persons are inclined to want to make pets. This is particularly true of young deer.

Persons who capture and attempt to confine wild animals as pets are subject to arrest for violation. In addition, many of these young animals turn out to be not such good pets, and many times they revert to nature and injure their benefactors.

An additional risk in picking up these youngsters is the rabies threat, which has been spreading, particularly among skunks. Skunks should be avoided for this, among other reasons, and domestic pets should be kept away from them at all times.

He also advised dog owners to keep them in control, so that babes of the wild will not be destroyed by roving dogs.

South Africa's gold and foreign exchange reserves increased by 28.6 percent in the third quarter of 1961.

Insects have no lungs. They breathe through tubes running all through their bodies.

## Former Citizen Dies In San Diego

Mrs. Lorena McGlothlin, 63, of San Diego, Calif. who lived in Lynn county in the early 1920's died Sunday, March 18, in a hospital there of leukemia, which she had for about 18 years.

Lorena Elizabeth Gollehon was born on Feb. 18, 1899 near Carbon, Texas. She came to Lynn county with her parents, Mr. and Mrs. W. B. Gollehon, in 1920. In 1926 she was married to George McGlothlin of Ranger. The couple lived in San Antonio several years until he died in 1938. Mrs. McGlothlin moved to Post where she had for about 18 years.

She was a member of the Baptist Church. Funeral services and burial were held in San Diego on March 21.

Survivors include one son, Dwayne of San Diego; two sisters, Mrs. Frank (Vivian) Bryan of Siloam Springs, Ark. and formerly of Tahoka, and Mrs. Clyde (Renell) Hodges of Gravette, Ark.; her father, Walter B. Gollehon of Gravette, Ark.; two brothers, Milton Gollehon of Bellflower, Calif., and Burrett Gollehon of El Cajon, Calif.

### MR. AND MRS. EUBANK VISIT IN CALIFORNIA

Mr. and Mrs. O. E. Eubank returned Friday from a two weeks visit with her son, Rev. Thomas Dean Nowlin, and family at 1745 Sacramento, Berkeley, Calif.

O. E. says they had a great time but that it rained all the time they were there and that it snowed all the way to Grants, N. M. They rode the Santa Fe Chief to and from California.

Wesley Roberts of Seminole, candidate for State Senator who served three terms as State Representative from this district, was a visitor in Tahoka Monday.

The total operating budget of the nation's nearly 2,000 higher educational institutions currently is estimated at \$6.7 billion annually, of which \$1.3 billion comes from gifts and grants.

## Bond Sales Near Half-Way Mark

Savings Bonds sales in Lynn county totaled \$90,500.00 during the month of February, according to A. C. Verner, chairman of the Lynn County Savings Bonds Committee. "Total sales in the county for the first two months of 1962 were \$108,381, or 43.4 percent of this year's quota of \$250,000."

"In Texas, bond sales were \$13,560,394 in February, and sales for the first two months of the year were \$28,871,026. This figure represents 17.5 percent of the state's sales goal for 1962."

"At a recent meeting in Washington, Secretary of Treasury, Douglas Dillon, pointed out 'Our ability to meet aggression in the world . . . will depend to a large extent upon the power of our economy. Buying bonds is a way in which every American can contribute directly to his nation's economic strength. For those who ask what they can do to help their country, here is a beginning step—an important step . . . The person who buys a bond is both thrifty and patriotic.'"

"These words spoken by the Sec-

retary of Treasury re-emphasize the need for the purchase of Savings Bonds by all Americans," Mr. Verner pointed out.

# Printer's Ink-lings . . .

By F. P. H.

This story is going the rounds: A farmer bought a painting, took it home, and hung it first one way and then another. Each time the effect was confusing. Finally, his wife asked, "What in the world is that supposed to be?" And the farmer replied, "Why, it's a realistic picture of the farm situation. No matter how you look at it, it just doesn't make sense."

FORCE in a supposed republic. We'd like a little choice in running our own business. Didn't our forefathers come over here to get away from FORCE?

President Kennedy won a victory Friday in the House Agriculture Sub-Committee, which voted 85 to 58 to force farmers to accept tough grain production control. Now we are not opposed to some common-sense, workable farm program with controls, but we don't like

There's a SIXTY-NOW organization in support of the Administration's proposed Social Security liberalization program which advocates lowering retirement age to 60, S. S. benefits of \$200 monthly, plus \$100 a month for each dependent. Who's going to pay for it? The government already has most of the money borrowed in the present Social Security fund that we had planned to retire on. Ah, there's no need to worry about that; let our children and grandchildren worry about the problem when they get grown.

Twice last week The Printer was called a radical by as many local New Frontier Democrats. We were not offended—we considered this a compliment! If favoring conservative government as opposed to an ultra liberal government headed toward socialism is radical, then we plead guilty. There must be a lot of radicals in Lynn county, though. On February 16, we began keeping a list of subscribers who would compliment this column on its stand for conservative government. Up to last Saturday, 93 people had voluntarily and without solicitation complimented this column's stand, most of them leading citizens and some of them very close to the two men who have accused us of being radical. A lot of loyal Democrats are afraid of the way things are going in Washington.

And a lot of us much younger are feeling sorry for ourselves!

A Texan arrived in Niagara Falls in the evening and did a lot of bragging before he retired. Next morning they showed him the Falls and said, "You haven't seen anything like that in Texas, have you?" "No," admitted the Texan, "But we've got a plumber in Houston who could stop that leak in ten minutes."

### Letters From News Readers—

(The News welcomes letters from its readers on any current subject, not libelous, of course. All communications must be of reasonable length and must be signed. On request, the signature will not be printed. The Editor.)

A lot of people will remember J. O. Key, formerly of Grassland and now of Bellingham, Wash., a son-in-law of Chas. E. Stewart of Tahoka. Mr. Key once was the star route mail carrier between Big Spring and Lubbock.

Following is a letter he wrote for publication in his Washington home paper, which Mr. Stewart brought The News:

I am a Democrat and have been all my life. I feel we have not had a Democratic or Republican party for many years. I believe that in the last election we were only given a choice of lesser evils. The most wishful thinkers must face the fact that we are headed for an all-powerful socialist dictatorship and we have been rolling steadily in that direction ever since Hoover.

I feel the billions we have given to other corrupt political powers under the guise of trying to buy some friendship have indeed bought us the greatest collection of enemies any nation has ever been able to assemble. Plus taxing us into slavery.

Less than 200 years ago the United States was an underdeveloped nation but it not only did not get any aid from foreign countries, but every major power in the world was either unfriendly or downright belligerent toward it. But it was a strong nation because the people had the courage to reserve for themselves individual liberty. Under this system it became the most prosperous, best educated and healthiest in the world; also the most powerful militarily.

Now the Kennedy-Johnson Administration is asking for more and more power to be vested in the federal government. Unless we do an about-face, we will be under an all-powerful dictatorship before the century comes to a close.

J. O. Key

A backwoods mountaineer one day found a mirror a tourist had lost. "Well, if it ain't my old dad," he sighed as he looked at the reflection. "I never knowed he had his picture took."

He took the picture home and stole up to the attic to hide it, but his actions did not escape his wife. That night, while he slept, she crept up to the attic and found the mirror. "So, that's the old hag he's been chasing!"

### JAIL—FOR FARMERS?

(Industrial News Review)

The federal government can't run the nation's farms, and its ineptitude has been brilliantly demonstrated by the failure of one farm program after another for the past 30 years. The taxpayers now have a \$2.7 billion investment, not counting storage and handling charges, in 1.4 billion bushels of wheat and feed grains—almost a three-year domestic supply.

It has been estimated that the administration's new farm program could cut wheat surpluses 225 million bushels a year. If accepted by Congress and the farmers, the new plan will enforce rigid production controls and marketing quotas on both wheat and feed grains.

The Secretary of Agriculture has said that a provision providing jail sentences for farmers who fail to keep proper records will strengthen the program. This highlights an interesting point about benefits from government that all groups seeking or accepting federal largess should take to heart. Federal control follows federal money. One thing is sure. If you accept political favors, you had better control enough votes to put the fear of the polls into the politicians granting them. Otherwise the road may become rocky, indeed. And now, jail is suggested as an indoctrination method—in the U. S. A.

There can't be free farmers when government controls eliminate the free market system—agriculture will wind up as some form of communal project, under the thumb of a political boss.

### Lamesa Farmer Produces Record Dry Land Crop

Lamesa — Jim Grammer may have set a new dryland production record for this area last year when he harvested 191 bales of cotton from 80 acres of cotton near Sand.

The yield was taken from a farm Grammer rents from C. T. Josh and Pat Beckham and the bales averaged slightly of 500 pounds each. That figured out to be about two and three-eighths bales an acre.

The land was deep broken to 18 inches in the fall of 1960 and was planted skip-row, with two rows in and two out. Only the rows in cotton were counted in computing the yield.

The cotton was a short staple variety.

Grammer said that rains came at opportune times throughout the growing season.

### WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

One of the most damning indictments against Khrushchev's insane preoccupation with nuclear bombs has been that the fallout endangers infants.

Obviously, there is no excuse for the Kremlin actions. But by the same token, neither is there any logical way to excuse the action of Hoffa in the recent teamster's strike in New York in the milk industry when the infants of the nation's largest city were threatened with death by starvation.

And it seems equally as difficult to excuse the pettifoggery of local government.

For nine days the Hoffa forces kept milk from legally entering the city. And the essentiality of milk is such that it involves the matter of life or death, not in a theoretical sense, but in actuality.

There was a trickle of milk coming in, promptly named "bootleg" milk at 90 cents per quart. Obviously, in a situation such as existed, there are "fast buck" boys ready to take advantage. On the other hand, without condoning these prices, it is to be recognized this activity subjected them to danger from a "goon" squad, thus prices reflected a peril bonus.

Obviously, parents did not relish paying 90 cents a quart, but it was preferable to enduring the hunger pangs of starving infants.

But the first act in this direction of the mayor of New York City was to assign 200 detectives to hunt down the milk "bootleggers."

It apparently did not occur to him that his first duty was to see that there was freedom on public streets and highways for milk trucks to move over them.

Eventually, public pressure in New York forced government to take action to partially lift the illegal milk embargo.

This furnishes a sad commentary on present leadership in many areas of government.

And it is also significant that among the office holders who so blatantly forsake their oath in deference to the demands of the bosses of labor monopolies, are those who take the stamp to deny the growth of so called "extremist wings" as Birch society, others.

There is no intent here to take any sides on this question. But it was inevitable these organizations sprung into being.

A revolution does not necessarily have to be communist. The rebellion against tyranny that led to 1776 was headed by such middle class men as Washington, Jefferson, Revere, Dr. Warren, and others. In 1861 the leaders of the north were from the middle class who were strongly opposed to what they considered the tyranny of slave owning. And the southern patriots were middle class men who were opposed to what they felt was the tyranny of the northern industrialists. And it is absurd for politicians to call upon people to observe law and order when these politicians have sold law and order down the river to the Hoffas. The law must protect all without exclusion... even help-less starving infants.

of Health to eliminate those existing privies to prevent health hazards creates an imperative public necessity that the rules requiring ordinances to be read on more than one day be suspended, and the same is hereby suspended, and this ordinance shall take effect ninety (90) days after its passage, approval and publication.

Passed and approved this the 5th day of March, 1962.

APPROVED: **MELDON LESLIE**, Mayor of the City of Tahoka, Texas.

ATTEST: **J. M. UZZLE**, City Secretary.

### Rev. Thompson Rotary Speaker

"Sermons Are Funny — Sometimes" was the subject of a humorous talk by Rev. J. B. Thompson, Methodist pastor, at Tahoka, Rotary Club Thursday noon.

He related a lot of funny stories connected with his ministry and with that of others, about preachers sticking a foot in the mouth, and mixed in a little home-spun philosophy. Seriously, he declared the hardest job a preacher has is preparing his sermons for Sunday — and, then, he is sometimes disappointed when the discourse falls flat.

The program was arranged by H. W. "Cotton" Carter.

Harold Green, chairman of the foreign student visitation program, announced that about 150 students are available to visit the U. S. this year. Members of the club expressed a first choice of a student from Australia, South American second, and Italy third. Previous students have come from France, Switzerland, Austria, Belgium, Sweden, and the Netherlands.

Dr. C. Skiles Thomas, club president, announced several local Rotarians and wives will attend the 573rd District Conference in Odessa this Thursday, Friday and Saturday. Dr. Thomas is on the program at a Friday afternoon session.

Books to assist Boy Scouts on merit badge tests were passed out to several Rotarians.

### REPUBLIC OF TEXAS MONEY IS "BE" FOR BAKER CLUB CREDENTIAL

Facsimile \$5 Republic of Texas banknotes, printed on parchment so crinkly and genuine looking that Sam Houston would have accepted it at face value without a second glance, made their appearance throughout the state this week as part of Senator Robert Baker's race for Lieutenant Governor.

### Baker's race for Lieutenant Governor.

On the reverse side of the banknotes is printed, in appropriate formal language, the bearer's certificate of membership in the "Be for Baker Club," declaring that this is "the currency of good and progressive government in the State of Texas."
