Scott has solved his out- sult large gullies were washed water problem on his farm through the field. A standard terd one mile north and one race system by itself was not west of Wayside. Excess water enough to control the water. With the aid of the Soil Conservation Service technicians, two water ways were designed and constructed at points where the heaviest washing had occurred.

Mr. Scott now plans to establish Midland bermuda in the waterways to stabilize them. Once the bermuda has been established. the excess water will be turned into the waterways by the use of a diversion terrace and the water allowed to drain to a lake at a non-erosive rate.

Mr. Scott applied for a costshare through the Great Plains Conservation Program.

A conservation irrigation system has been installed on J. T. Forbes' farm located 3 miles west and 2 miles north of Draw. Graded furrows, approximately 450 feet in length, have been layed off and about 4,000 feet of underground

pipeline has been installed. Mr. Forbes will apply about 40 gallons of water per minute per furrow until water has reached the far end, then he will cut his application back to about 20 gallons of water per minute per furrow until about four inches of moisture is replaced over the enire length of run.

O'Donnell Lady **Buried Monday**

Mrs. Mary Hollaway, 88, a resident of O'Donnell since 1922, passed away Saturday at about 4:30 p. m.

Funeral services were held at 3:00 p. m. Monday in O'Donnell Church of Christ with the minister, Ode Prescott, officiating. Burial followed in O'Donnell Cemetery.

She is survived by a daughter, Mrs. George Burdette, O'Donnell; two step-daughters, Mrs. N. W. Kinman, Fort Worth, and Mrs. Maggie Fox, Eastland; a stepson, H. S. Hollaway, Cisco; two sisters, Mrs. Lula Rider, Dallas, and Mattie Hill, Plainview; a brother, W. E. Sneed, Clovis, N. M.; six grandchildren, and four great-greatgrandchildren.

Pvt. Ronnie Brown At Fort Chaffee

Pvt. Ronnie M. Brown, grandson of Miss Amy Brown, 1301 North 6th Street, Tahoka, has been assigned to Company I, 398th Regiment, at Fort Chaffee, Ark., where he will receive his basic combat training. During the 8-week course, he will be given instruction in fundamental military subjects such as first aid, dismounted drill, map reading and military tactics. He will qualify with the M-1 Rifle.

After completion of basic training he will receive advanced individual training in one of the (Ed. Note: The following is por- thousands of specialties required tions of an article that appeared in a modern Army.

YOU'VE GOT EVERYTHING GOING FOR YOU!

Here now! This year there's a car that changes your mind about the cost of beauty—and advanced engineering, too. It's the magnificent, masterful Mercury Monterey for This year there's a car that changes your mind about the cost of beauty-and 1962, the only new car that's got everything going for you. It it's beauty that beckons, then take a long, loving look. The Monterey is sheer elegance in steel, a timeless sculpture that turns your garage into an art gallery. If it's advanced engineering that you dote on, peer in and look for yourself: Self-adjusting brakes, 30,000 miles between major lubrications, 6,000 miles between major oil changes. Dozens of industry-leading innovations like that. And, when it comes to investment, that's really where the new Mercury Monterey has everything going for you. It is priced just a whit more than ordinary-looking, ordinary-riding, ordinary-featured cars. This is the year you don't have to compromise between beauty and a bargain, between elegance and economy. Mercury Monterey. The one car that's got everything going for you.
