Plans Complete For Wilson Election On Sewer Bond **Mass Immunization**

Further plans for the Mass Polio Immunization program on Sunday, August 26, were made at a meeting of 60 workers from over the county in the City-Legion building here Friday night.

The program is being underwritten by the county's physicians, and the Sabin Oral Vaccine, which is taken three drops on a lump of sugar by mouth, will be given 8,000 or 9,000 county citizens, it is hoped. Only cost will be a donation of 25 cents or more to cover expenses, and even then no one will be required to pay.

"This is Lynn county's chance to completely immunize itself from polio," one doctor says. "The past year, Texas has had half the nation's polio cases."

The vaccine is tasteless, odorless, harmless in every way, has proved 100 percent effective both in immunizing the person and eliminating him as a carrier, can be taken by anyone from three months to 110 years of age, and should be taken even if the person has previously had the Salk vac- from abroad, Paul Davie Bartlett,

There will be two propositions on the ballot.

The first would determine if tizens favor issuance of \$60,000 in revenue bonds to build the sewer system and pledging revenues of the City's combined waterworks and sewer system for the payment thereof.

The second proposal is for issuance of \$25,000 in general obligation sanitary sewer system bonds and the levy of a tax in payment thereof.

Mayor Thad Smith says Wilson faces a possible water pollution problem from cess pools, and he thinks a sewer system will have to be installed sooner or later. He says the bond issue would not require a raise in City taxes.

He says Wilson has 175 water connections, and therefore would have 175 potential sewer connections. However, the sewer system would pay out if the City could start off operation of a sewer
