Owens Family Killed In Crash Saturday

All five members of the Billy Joe Owens family, formerly of Tahoka and Dixie, were among the seven people killed late Saturday afternoon in a fiery collision of a pickup with a butane truck at a dirt road intersection six miles southeast of Hale Center.

Owens was the step-son and son, respectively, of Mr. and Mrs. W. V. Hicks of Dixie, who have farmed the J. L. (Josh) Rumbo place for the past 10 or 11 years.

Funeral rites for the Owens family were conducted Tuesday at 2:00 p. m. in the First Baptist Church of Abernathy, where the family held membership, by Rev. Boyce Evans, pastor and also reared at Tahoka. Burial followed in Tahoka Cemetery.

The Owens family consisted of Mr. Owens, 28, who was driving the pickup, his wife, Shirley, 29, and their three children, Sherrill, 6, Troy, 3, and Delina, 2.

Driver of the butane truck was Milton Boone, 38, and killed with him was his little daughter, Sherry, 5, both of Hale Center. Funeral rites were held for them Monday at 2:30 p. m. in Hale Center Baptist Church.

The deaths brought the total highway fatalities in this area to 24 the first 11 days of August.

Capt. E. L. Posey of the Texas Highway Patrol said the collision occurred at an unobstructed intersection, and that "It's one of those things we can't explain."

Gene McMaster, for whom Owens worked on his farm northeast of Abernathy, was at a ball game in Lubbock when the accident occurred. But, he was at home when Owens left at 4:45 p. m. for Abernathy to have a new tire mounted on a wheel for a farm implement. Mr. McMaster theorized that Owens returned home, picked up his family, and they were en route to another farm 2 1/2 miles north of the wreck site to put the tire and wheel on the farm implement. The butane truck was traveling east, and apparently neither driver saw the other until too late.

Survivors of Mr. Owens are his step-father and mother, Mr. and Mrs. Wm. V. Hicks, route 4, Tahoka; four brothers, Melvin Owens Jr. and Jimmy Joe Owens, both of Lubbock, James Hicks, stationed in Germany and flown home for funeral rites, and Vergel Hicks of Fort Hood; three sisters, Misses Charlie and Mary Ann Owens, both of Lubbock, and Mrs. Fred Brookshire of Slaton.

Mrs. Owens is survived by her father of Minden, La.; her mother, Mrs. Faye Williams of Fort Worth; a brother, Leo Goebel of Denison; and a grandmother, Mrs. Montez Wiggins of Fort Worth.

Plans Complete For Big Rodeo

Merchants and other organizations are invited to enter floats in the Championship Rodeo parade on August 31, first day of the two-day event here. Three trophies are being offered for as many top entries.

The Championship Rodeo on Aug. 31-Sept. 1 will be no ordinary rodeo, states Jerry Church of Wilson, but will feature the top cowboys of the year contesting in H-K shows over four Southwestern states this year.

In addition to top performers, a new clown, Boyce Hart, will be on hand to amuse spectators.

Advance ticket sales are now getting underway by Misses Nancy Inman, 1962 rodeo queen, Arnetta Wood, Betty Kuwaski, and Mary Jane McCord.

All members of Tahoka Rodeo Association are urged to attend a meeting Monday night, 8:00 o'clock, at Lyntegar warehouse to complete plans for the rodeo.

Record Crowd At Lyntegar Meeting

A crowd of 3,971 people, the largest crowd in history, were fed Tuesday night at the 24th annual meeting of the 10-county Lyntegar Electric Cooperative, Inc., in the Tahoka football stadium.

Dale Essary of Texas Co-op Power, Austin, said this was the largest crowd that had ever attended any annual meeting of any of the 77 similar cooperatives in Texas.

Auditor A. B. Segars reported Lyntegar now has a total worth of \$10 million dollars, and net worth of membership equity is nearly \$3.5 million. There are more than 10,000 electrical connections.

H. R. Dabbs, Post, route 1, was elected a new director to succeed L. G. Thuet, director from District 6. Bob Alexander of Sundown was re-elected director from District 1, and Roger Blakney re-elected director from District 7.

Wilson schools will open this year on Monday, August 27, at 8:40 a. m. with a full schedule of classes following a general assembly.

Registration of high school students is already underway, as seniors commenced registration on Thursday of this week. Juniors begin registration today, Friday.

Freshman and sophomore students will be registered during next week, August 20-24. Letters have been sent out to these students requesting that parents accompany them for registration in order to plan these students' high school career and to discuss any problems individual students may have. School authorities hope these meetings will bring the school and the parents into a better understanding.

Any student who is not able to register at the appointed time may register on Friday afternoon, Aug. 24, or on the first day of school, Monday, Aug. 27.

Teachers will commence their year's work Monday afternoon, Aug. 20, at 1:30 o'clock, at a meeting in the school study hall, followed by group meetings. After these, they will spend each afternoon during the week in preparation of courses of study for the various subjects and grades in the school.

School officially opens Monday, Aug. 27, at 8:40 a. m. and a full day of school will be held. A general assembly will be held in the auditorium. Lunches will be served in the lunchroom.

In order to meet state requirements for minimum time in classes, school will start 20 minutes earlier this year than in previous years.

There will be three new teachers in the Wilson system this year, Mrs. Bill Snowden and Clayton Verner in the elementary school, and Mrs. Clayton Verner in junior high.

During the last several years, the Association's gin plants have been steadily improved until they are the best in this area, Thomas says.

Three new directors will be elected in this meeting to see after the Association's business during the next year. Door prizes will be given at the beginning and at intervals throughout the meeting.

Wilson Election This Saturday

Taxpaying City of Wilson citizens will vote Saturday on proposed bond issues for the purpose of installing a sanitary sewer system.

There are two propositions on the ballot. The first proposes the issuance of \$60,000 in revenue bonds to build the system and pledging revenues of the City's combined waterworks and sewer system for the payment thereof.

The second proposition is for issuance of \$25,000 in general obligation bonds and the levy of a tax in payment thereof for a sanitary sewer system.

Mayor Thad Smith says the City of Wilson has 175 water connections, and would hope to start the sewer system with at least 80 connections.

He says the people of the town face a water pollution problem from the current use of cess pools.

Dry, Hot Weather Is Threat To Cotton

Hot, dry August is causing Lynn county dryland crops to deteriorate rapidly. Much dryland cotton is already suffering, and most all cotton and maize will need rain quickly. A return of cool nights will help a lot, farmers say.

New Church At Wilson Completed

Wilson Methodist Church will hold consecration services, open house, and cornerstone laying ceremonies in its newly completed \$31,000 church building this Sunday, August 19.

The new 36 by 68-foot contemporary-modernistic building is located on the paved street just west of the business section of town, and replaces the older building to the south.

Speaker at the consecration service beginning at 10:30 a. m. will be Rev. Lloyd Hamilton, pastor of the First Methodist Church of Borger, who was reared at Wilson the son of Mr. and Mrs. John R. Hamilton.

Open house for inspection of the building will be in the afternoon, from 2:00 until 4:00 o'clock.

At 6:30 in the evening, District Superintendent D. D. Dennison of Brownfield will officiate at cornerstone laying ceremonies, and this will be followed by the First Quarterly Conference of the Wilson church.

Rev. W. O. Rucker, pastor, says all people of the area are invited to the services and to the open house.

The new structure, designed and erected by Killingsworth of Dimmit, is just half the size of the proposed completed building. Plans are to extend the structure as funds become available.

The sanctuary has a capacity of 128 people, plus 50 in the balcony. An adjoining Sunday School room glassed in facing the auditorium will accommodate another 70 people. Also, there is a "cry room" with glass partition between it and the auditorium. There are three Sunday School rooms.

The church auditorium has padded pews and individual hearing aids. A public address system extends throughout all rooms, and there is a refrigerated air cooling system and modern heating system.

Members of the building and finance committee are: C. C. Swope, Elmer Blankenship, John Hamilton, Sam C. Gatzki, Jimmy Coleman, David Peterson, and G. C. Coleman.

Two Pioneers Taken By Death

Ruby C. Wells Dies Of Heart Attack

R. C. (Ruby) Wells, 69, member of one of Tahoka's most prominent pioneer families, passed away Wednesday night at 6:15 o'clock in Tahoka Hospital from a heart ailment. He had entered the hospital nearly three weeks before following a heart attack suffered at his home, and suffered another attack in the hospital Sunday night.

Funeral services will be at 2:00 p. m. Friday in the First Baptist Church with Rev. Aubrey White, pastor of the First Methodist Church, officiating. Burial will follow in Tahoka Cemetery under direction of White Funeral Home.

Ruby Clark Wells was born on June 19, 1893 at Poolville, in Indian Territory, later the state of Oklahoma, where his parents, Mr. and Mrs. J. S. Wells, had moved from Kaufman county.

The Wells family moved here in 1903, just after the county and town had been organized, and bought out the first store from Sweet & King. This store then became Wells & Welcher, the latter being a Wells son-in-law, and later became J. S. Wells & Sons.

Ruby was ten years of age when the family came here, attended the local pioneer school, and later became associated with his father and brothers in the store. The Wells building still stands at the

Insect Damage Threat To Cotton

Weather conditions and bacterial blight have caused heavy shedding of small bolls in many localities according to County Agent Bill Griffin. Bollworms have also contributed to the loss of fruit in areas where these pests have appeared on cotton in damaging infestations.

In areas where bollworms have not as yet posed a problem, it appears that grain sorghums have "absorbed" most of the worm activity. The grain crop often has rather heavy infestations of the worms, either in the buds or heads, depending on the stage of development of the crop.

In order to protect bolls from damage, all cotton should be closely watched for the appearance of damaging infestations. Make insecticide applications as soon as damaging infestations appear.

Boll worms in the county are at about the end of their feeding period. At present Lynn county does not have a young infestation and eggs have not been found in dangerous numbers in any area of the county.

Mrs. Davies Attends Funeral Of Cousin

Mrs. Winston Davies of New Home attended funeral rites for her cousin, Barbara Fancher, and four of the latter's school classmates in Olton Saturday evening. Barbara was one of seven teenagers killed in the car-train collision near Shallowater Thursday of last week.

Just three months previously, Mrs. Davies attended funeral rites for Barbara's grandfather Lige Fancher in Olton, and it was then she got acquainted with Barbara. The girl's father, Cloma Fancher and Mrs. Davies were children together when the Inman and Fancher families lived near Chillicothe.

Mrs. Davies says the funeral was a heart-breaking occasion but an inspiration to see how each of the family's tried so desperately to hide their own grief and help comfort the others.

Barbara's date, Jimmy Lawson, the lone survivor, barely had time to tumble from the car and had tried to pull Barbara with him. He was not injured but was in a state of shock following the accident. He and his parents sat with the Fancher families at the funeral.

Mrs. "Pete" (Madeline) Hegi had her upper left leg broken in three places Sunday afternoon while water skiing at Lake Thomas.

She was carried to Snyder first for emergency treatment, and then taken to a bone specialist in Lubbock and underwent surgery Monday in Methodist Hospital. Plates and pins were put in the leg, and her doctor said the operation was entirely successful and she may be able to come home within two weeks.

Mr. and Mrs. Hegi had accompanied members of the Tahoka High National Honor Society, which she sponsors, to the lake for a week end outing. While the group was loading up to get home in time for an MYF meeting, Mrs. Hegi went water skiing. Her husband says her foot was loose on one of the skis and she hesitated to ask the boy driving the boat to stop and tighten it. As the boat gained speed, her right foot worked loose, causing the spill and broken leg.

Mrs. Hegi is Homemaking teacher in the school. Mr. Hegi is executive vice president and cashier of the First National Bank.

He had been with General Telephone since 1947, and was also well known here in connection with this business. He was born and reared at Greenville.

Jerry Brown Will Coach In Colorado

He says major sports at the school are football, basketball, track, wrestling and rifle shooting, and the school closes one week for the opening of the big game hunting season. The school is Class A, equivalent to AA in Texas.

Mr. and Mrs. Brown state: "We shall ever have a warm place in our hearts for the people of Lynn county. We sincerely appreciate the people of New Home and Tahoka having given us an opportunity to work with their boys and girls in their school systems."

PROCLAMATION

WHEREAS, Texas this year has more Polio cases than any other State in the Union, even though the Salk Vaccine has caused a decrease in such diseases, and

WHEREAS, there is available to the general public an opportunity to stamp this dreaded disease out entirely by a full cooperation in the taking of the Sabin Oral Vaccine, and

WHEREAS, Texans generally have set aside and designated certain days for the taking of the Sabin Oral Vaccine, which Vaccine after many tests has shown no bad side effects from the use thereof, and such Vaccine causes the person so taking the same not only to be immune from contracting such disease, but prevents him from being a carrier also, and

WHEREAS, Sunday, August 26, 1962, from 1 o'clock P. M. to 5 o'clock P. M., has been set aside and designated as the time for Lynn County citizens to participate in such program and take such Vaccine, such places for the taking of such Vaccine in Lynn County having been designated at The Public School Cafeteria in O'Donnell and at the City Legion Hall in Tahoka, and

WHEREAS, it is the desire of the National Foundation for Infantile Paralysis and all other persons, including all Medical Doctors in Lynn County who are interested in combating such disease, that the County cooperate by all of its citizens taking the Vaccine.

NOW, THEREFORE, I, Meldon Leslie, Mayor of the City of Tahoka, Texas, do hereby issue this my proclamation declaring that Sunday, August 26, 1962, beginning at 1 o'clock P. M., shall be and the same is hereby set aside and designated as Sabin Oral Sunday in Tahoka, and every citizen of the City of Tahoka is hereby urged to participate and cooperate in this program during said day, so that the City of Tahoka may join hands with other communities in the National Foundation for Infantile Paralysis in combating the dread disease of Polio.

WITNESS THE HAND of the Mayor of the City of Tahoka, Texas, on this the 11th day of August, 1962.

D. F. Reddell Is Rotary Speaker

D. F. Reddell, senior engineer with Southwestern Bell Telephone System in Dallas, explained the intricacies of Direct Distance Dialing, which will soon be coming to this area, in a talk before the Rotary Club here Thursday noon of last week.

D. F. and family were here on vacation visiting his parents, Mr. and Mrs. W. A. (Bill) Reddell, and sister, Mrs. Joe Bob Bluman. He is a graduate of the Tahoka Schools and of Texas Tech.

He was the engineer in charge of installing the system in Dallas recently, the biggest single installation of DDD yet made. This was the Taylor exchange, largest of 37 exchanges in that city, and involved 35,000 subscribers.

The unit has 41,480 lines coming into it and involves a possible 43,000 telephone numbers, required 175,000 man hours for installation, plus 18,000 man hours of engineering, and cost \$7 million for equipment alone.

He described the great step forward made possible through automatic switches, and computers that operate almost like a human mind.

Direct Distance Dialing permits a resident in an exchange with this equipment to dial any place in the nation having similar equipment without contacting an operator. Each area and exchange has a number. The telephone user merely dials the area code number, followed by the exchange number (998) in the case of Tahoka, and then the local subscriber's number, the last four digits.

He also told something of Telstar, developed by Bell, which will permit telephone conversations and television programs being transmitted across the Atlantic. Telstar was developed by private industry.

D. F. closed his interesting talk with some other observations. He declared that the last few years "profit" has become a nasty word particularly among our politicians. But, he declared, the only way we can go forward is through the profit system. Free enterprise and individual initiative have made America great. Business must give service at a profit, and there is nothing wrong with the profit system.

BEAUTY QUEEN—Tonda Curry of Ropesville was named 1963 Miss Texas Rural Electrification in Corpus Christi last week (August 9-10) during the annual meeting of Texas Electric Cooperatives, Inc. Miss Curry, 16 years old, is the daughter of Mr. and Mrs. Doyle Curry of Route 1, Ropesville. She won the title over two other West Texas beauties, Kay Burleson of Friona and Shirley Stafford of Roaring Springs, who were finalists in the contest. Miss Curry has black hair, dark brown eyes; is 5'6" tall; weighs 120 pounds; and measures 36"-23"-36". Her selection for the state beauty crown is the latest in a long list of local and area titles she's won. She will represent Texas' rural electric systems in the national Miss Rural Electrification contest in Las Vegas, Nevada, in January, 1963.

W. M. Mathis, County Judge of Lynn County announced the appointment of the Lynn County Historical Survey Committee. The new Committee is composed of Mr. Frank P. Hill and Mrs. G. M. Stewart of Tahoka and Mrs. Ben Moore, Sr. of O'Donnell.

Judge Mathis appointed the Committee at the request of the Texas State Historical Survey Committee.

The Texas State Historical Survey Committee is sponsoring a meeting of the Panhandle-South Plains area of County Historical Survey Committees in Amarillo on

August 18. Forty-four counties are included in the region, including Lynn County.

County Historical Survey Committees will report on historical work they have been doing, and the State Historical Survey Committee will inform the counties on the latest work of historical preservation on the State level.

Participating in the program will be Senator Culp Kruger of El Campo, Acting Lieutenant Governor of Texas, Senator Grady Hazelwood of Amarillo, the Honorable Tom Taylor of Austin, Travel and Information Director of the Texas Highway Department, and Dr. Rupert N. Morrow's Move To Ranch In Missouri

Mr. and Mrs. B. A. (Burr) Morrow of New Home have moved to the ranch they recently bought 20 miles northwest of Springfield, Missouri.

Friends say they have a real nice place of about 1,000 acres situated on the Sac River and have a lot of improved pasture.

Mr. and Mrs. Morrow's son and son-in-law, Wendell Morrow and Bill Echert, are farming the New Home farm land.

The new ranch permits such developments as DDD and Telstar.

Something you should think about if you're about to buy a truck:

If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in . . . then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks of quality are the real keys to low cost. Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is damped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them.

Value such as this has induced more people to invest in Chevrolet trucks every year since 1937.

This can be a good time to buy a modern new Chevrolet truck

Late summer traditionally is the season for all-around savings on a new Chevrolet truck . . . selection is still good . . . deliveries are prompt . . . and Chevrolet dealers are doubly anxious to put you into a new vehicle in order to make way for next year's models. Coupled with the efficient performance a new Chevrolet truck will give you, it seems evident that you couldn't buy at a better time. Come in and take full advantage of it!

The "bleeding hearts" in our government, along with the labor bosses, are doing a dis-service to the Latin-American of the Southwest and the Bracero from across the Rio Grande. In fact, we suspect these common laborers stand to lose more than the farmer. Everybody from Senator Yarborough to Secretary Goldberg and President Kennedy has been shedding tears for the poor underpaid farm worker. As a result of the cost-price squeeze on the farmer, he is forced to eliminate labor wherever possible and is turning to machine harvest. According to press reports, the Lower Rio Grande is harvesting 90 percent of this year's crop by machine. Each year, more South

Plains farmers, in the biggest single cotton-producing area in the world, are using fewer hands and more machines. Farming in the near future will boil down to hands hired for machine operation only, and thousands of migrant workers become jobless or become wards of the government.

Mexico, which formerly was none too cooperative in the bracero program, has now reversed itself. Rumbblings are coming even from the Mexican government about the U. S. pinching down of braceros.

By cutting out the "stoop labor" force, our government really is not helping the unemployment

force of our country. The unemployed union man simply is not going to farm harvest work. Even the Latin workers will work 26 weeks and draw Unemployment Compensation the next 26 weeks rather than work. Although farmers don't want to do so in most cases, the farming country is converting to machine harvest and eliminating hundreds of thousands of workers who, to say the least, make a living at this type work. And the Plains farmer can convert to machine harvest better than farmers in most other sections.

Lynn County Library now has a total of 9,944 books, according to Mrs. G. W. Stewart, whose "baby" the library project has been for many years. An average of 90 books a week are taken out by citizens to read, she says.

Lynn county's library has never cost anyone very much money, and it has become an asset to our county. Most all of the current best sellers, as well as the classics of all-time, are on the shelves. Most are free on loan to the reading public. Some of the latest best sellers are for rent at a nominal fee. More people should make use of the library.

ANOTHER DOCTOR

Mrs. Rush Dudgeon reports still another Lynn county product who became a doctor. He is her cousin, Dr. A. A. Redwine, son of the late J. M. (Mike) Redwine, who is practicing at Darrouzett, up on the North Plains. Known locally as "Little Mike", Dr. Redwine was born and reared in Lynn county, and lacked only one credit graduating from Tahoka High School when the family left here.

Mrs. Dudgeon says her daughter, Vesta, is working for Lee's Prescription Shop in San Antonio, operated by Lee Christopher, former O'Donnell druggist, who was reared down at Mesquite, in Borden County.

George Claude Wells, manager of the Jack Frost ranches, says he has heard of gamma grass growing waist high but had never seen such until last week. Down on the Frost Hudspeth county ranch near Sierra Blanca, where they have had about ten inches of rain, he says he saw grass growing in the flats as high as his pick-up door handle.

The ranch foreman told him the grass is the best since 1941. George says he can now believe some of the stories told by pioneer cattlemen about the "sea of grass" waist high. Incidentally, George Claude is in charge of quite an operation for the big Texas cattleman, who has ranches in Nolan county, Kent county, a fourth in South Texas, and where else we don't know.

Mrs. Carl Spears brought us a sack of giant cucumbers, two of which were ten inches long, raised in her garden, which were tender and delicious. The cukes had grown so fast, there weren't even any seeds in them. Harold Smith had applied a commercial soil conditioner to her garden, and she says the results also came from "elbow grease" fighting weeds, sand, hail, rain and dry weather. Previously the tight soil broke up in big clods, and the soil conditioner seemed to remedy this.

Mrs. Clayton "Sis" Beard brought us a giant white dahlia, raised in her beautiful yard, almost as big as a dinner plate. She has many such dahlias in white, pink, and orchid, as well as other flowers.

Sometimes we miss new items right under our nose. The most important news of the week to Linda Renfro, our helper, was the return of her husband, Don, from service with the Army Reserves at Fort Polk, La. — but she was probably so excited she overlooked the news item.

D. F. Reddell says JFK stands for "Just For Kinfolks."

He also tells this one: A group was out in a boat over on the East Coast when a big, fancy yacht came sailing by, too close, and almost swamped the boat of fishermen. The big yacht made a quick turn, and a man fell overboard. The party in the little boat fished him out of the water to find the rescued man was John F. Kennedy of the family of people so famous today for falling in swimming pools. The rescued man proclaimed, "I am the president of the United States, and I'd like to do something for you. Can't I do something?" One young fellow replied, "Yes, I'd like a small business loan. I'm trying to get a start, and I'd like to buy a farm." Then JFK asked a little boy what he'd like to have. "I'd like a burial

On Sitting Up At Funeral Parlors

Two weeks ago, The Printer had a spiel about "wakes" at funeral parlors being unnecessary in this day and time.

Mrs. Martin White of White Funeral Home says we left some wrong impressions, which The News is very glad to correct.

First, may we point out, Mrs. White or no one connected with the funeral business had anything to do with the article. But, we have had a number of people comment on these practices in the past and at least three or four very recently to ask that we say

something about these practices. Mrs. White says the local funeral home, as well as many other similar such institutions in this area, still have people sit up with the body. These include Amherst, Gorman, Littlefield and Post. On request of the family, most Lubbock funeral parlors, Lamesa and Big Spring, permit sitting up with the body. There are probably others.

Actually, she says, the local funeral home tries to do any and everything possible to help the grieving family, to conduct arrangements and services according to the family wishes, and sitting up with the body is welcomed if the family so desires. If the family doesn't want some one to sit up, this wish is carried out.

In fact, Mrs. White says, there is one definite need in many cases for some one to stay up at the funeral parlors. Frequently, members of the staff are up all times of the day and night and must have sleep and rest. If there is some one sitting up at the funeral parlor, there is some one present when some member of the family of the deceased wishes to come in, or when relatives or friends from a distance arrive in the middle of the night, do not know where other members of the family live or are staying, or have no place to stay themselves.

Mrs. White says she hopes their business or practices never get so commercial that they can not adjust arrangements to suit the be- lieved in any reasonable manner.

She says in some places, California for instance, funerals have become so commercial and exclusive, in many cases, that formal invitations are sent to services and even the pallbearers are hired.

The interior of White Funeral Home has recently been remodeled and redecorated. A rest room and dressing room has been provided for visitors and family members.

A coffee room has been installed, which provides a quiet place for those sitting up, a private room for members of the family to confer, or for the singers and ministers to get together before a chapel service.

The local funeral home can provide an adult service for as little as \$150.00 complete. At least 24 adult units are kept on display in the casket room, available at all

times for inspection, and this is more caskets than most casket companies keep on display.

Large Watermelon Furnishes Feast

Wilmer Smith of New Home has raised two of the biggest watermelons imaginable, Joe D. Unfred reports.

Joe D. says he went over Sunday morning to take a picture of a melon weighing 88 pounds that the Smiths were preparing to take to their daughter's family. While there, Wilmer gave them another giant melon which tipped the scales at 71 pounds. Joe D. says he had a special interest in the melons since he sold Wilmer the irrigation sprinkler system with which to produce them.

Sunday night, after close of the Baptist revival, Joe D. and family invited a group of 18 people, including the pastor, Rev. Paul McClung, and family over for a watermelon feast on the one melon. He also invited the Waymon and Aubrey Smiths over just to rub it in a little as to how he could take such a melon from right under their noses from their kinsman.

THAT'S NOT DAD!

How do you want those you love to remember you? As you were... or as you were? You owe it to them to have your portrait taken today.

WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

With the strong obedience to labor in Washington the past few years, there is some wonder as to just when it will be required for the chairman of the Federal Trade Commission to be a member of Equity, which is the actors' union.

Because as is well known, every actor seeks to build headlines for himself, and no greater "hams" have been sprung on the public than by the FTC.

And the present chairman, Paul Dixon, appears to be in every way as ardent a wooer of the headlines as his predecessor. In meantime, FTC fails its main job.

Recently, in a headline making coup, Dixon's boys swept up from grocer's shelves some 5,000 jars of a well known instant coffee. The jars were labeled as "giant economy size." FTC found cost per ounce of product, as priced on the grocery shelves they visited, was more than the per ounce price in regular size containers. Therefore, on the basis that the public was somehow being misled, FTC made big headlines.

It is doubtful that the FTC had the authority to move into this area. However, subsequent court decisions will decide.

But if the courts do decide that FTC is empowered to protect the consumer from misrepresentation, then FTC should be held liable permit-

ting wholesale public defrauding by trading stamps.

Recently, A & P, whose plus 5,000 stores, and plus \$5 billion in sales, double its nearest competitor, places it as the giant of food retailing, was forced into a trading stamp plan after years of resistance.

Thus, when a dominant factor such as A & P is forced into stamps, there is evidence of power behind such plans. Yet the FTC has refused to concern itself with the matter.

Today 11.8% of food stores do 71% of the volume. Practically all of these stores are forced to give stamps even though net profits are only around 1%.

Yet a trading stamp plan costs them 2% of their volume because they must purchase stamps on that ratio whether they give them all out or not.

Thus, the stores have to milk their customers for an additional 2% by raising the prices of their food items an average of 2%. Thus, practically every household in the country is paying an extra 2% out of the family good budget to support the stamp companies.

Thus, if the FTC is to protect the consumer, it seems logical that it would be quite concerned over this 2% padding of the family food bills. On the other hand, profiting hugely by the fact many stamps go unredeemed, and also by the very high mark-up firms make on "gift" merchandise, it is possible that stamp companies are able to use "arguments" that convince bureaucrats that black is really white.

O'Donnell Girl Wins Scholarship

Plainview (Special)—Miss Betty Jean Lang, 1962 graduate of O'Donnell High School, has been awarded a \$300 Highest Ranking Baptist Scholarship to Wayland Baptist College for 1962-63, according to Dean Maurice J. Sharp.

Miss Lang, daughter of Mr. and Mrs. T. W. Lang, Rt. 3, Tahoka, has not chosen a major field, but she tentatively plans to minor in journalism.

In high school she served as secretary of the Student Council

and on the newspaper staff. She was a member of Future Homemakers of America and a library assistant. During her senior year she received the Danforth Foundation Award and was named "all-district" in basketball.

Wayland annually awards to the highest ranking Baptist boy and Baptist girl in each graduating class a \$300 scholarship which is paid at the rate of \$100 a semester for the first three semesters of college work.

Miss Lang will be a member of Wayland's largest freshman class as admissions are running 25 per

cent ahead of this time last year. Additions have been made to the history, English and mathematics faculties to care for the increase. New facilities include the spacious Home Life Building, which opens in September to house the classes in home and family life education and laboratories for foods and clothing, and the \$12,000 electronics language laboratory which went into use with the second summer term.

Buy, build, live in Tahoka. Every day is safety day.
