Boys Enter Stock In District Show

Lynn county boys and girls are expected to enter from 300 to 400 head of livestock in the annual South Plains Junior Livestock Show at the fair grounds in Lubbock this week end.

Deadline for entries to reach the show grounds is 5:00 p. m. this Saturday. The show will run through Wednesday of next week. County Agent Bill Griffin says 4-H Club boys and girls have entered 23 steers, 23 lambs, and 100 head of swine.

Tahoka FFA boys have entered 16 steers and 92 hogs, according to V. P. Carter and Lester Adams, vocational agriculture teachers.

The News has no report on the number of entries from Wilson, New Home, and O'Donnell FFA boys. The vocational agriculture teachers at these schools are: James O. Reed, O'Donnell; Bobby Lee, Wilson; and Leonard Wilson, New Home.

The show this year is being dedicated to W. G. (Bill) Griffin of Tahoka and L. M. Hargrave, Texas Tech agriculture professor, who have been working with the South Plains show many years.

Man Is Killed In Wilson Wreck

A Lubbock man, R. L. (Bob) Newell, 30, was killed late Tuesday on FM-211 west of Wilson when his truck skidded out of control and overturned.

A Highway Patrolman, Henry Hardin of Post, who investigated the accident, said Newell was traveling west at about 5:30 p. m. when his truck apparently ran off the pavement on a curve and in trying to get it back the vehicle started skidding back and forth across the pavement for 200 feet and finally overturned. Newell's body was crushed beneath the truck.

White Funeral Home picked up the body and it was later transferred to a Lubbock funeral home. Newell, who lived at 4821 37th street in Lubbock, was driving a truck for South Plains Neon Signs, owned by his father, Garland H. Newell.

The young man had lived in Lubbock 28 years, was a member of the Westerner football teams from 1950 to 1952.

Survivors include his wife and two young children, his parents and grandparents.

New Home Men File For Trustee

Names of five men have been filed for two places on the school board at New Home. The election will be on Saturday, April 6.

These are Roy Blevins and Edwin Nettles, presently serving on the board, A. C. Fillingim Jr., Dick Turner, and Harold Gene Franklin.

Holdover members are E. M. Rudd, president; Frank Lisemby, vice president; Robbie Gill, secretary; N. B. Hancock and George Sealy.

Lakeview Revival Starting Sunday

A layman-led revival will be held at Lakeview Baptist Church Sunday, March 17, through Sunday, March 24, announces Rev. Phillip Goodrum, pastor.

Men of the church will be speakers at morning services at 10:30 week days, and Evangelist Raymond King will preach at the 7:30 evening services.

Melvin Newman will direct the song services, and Mrs. Betty Timmons will serve as pianist.

NEW ASSISTANT SECRETARY AT TAHOKA CITY HALL

Mrs. James (Freda) Gage has resigned her position, effective today, as assistant to City Secretary J. M. Uzzle.

She will be succeeded by Mrs. Leon (Sharon) Anderson.

OUTSTANDING CONSERVATION FARMER of the year, E. R. Blakney, standing left above, received the award from Mack Mauldin, SCS office manager of Lynn County Soil Conservation District at the recent Farmer-Businessman banquet. Others in picture, sitting, are Don Browning and Dr. John C. Stevens of Abilene Christian College, principal speaker. (See story back page)

ESSAY WINNERS in the Lynn County Soil Conservation District contest are, left to right, David Unfred, son of Mr. and Mrs. Joe D. Unfred of New Home, first; Darwin Dykes, son of Mr. and Mrs. Jimmy Dykes of Tahoka, second; and Jerry Dale Todd, son of Mr. and Mrs. Buster Todd of New Home, third. Thirty-seven entrants from the four county schools wrote on the subject, "Conservation, A Way of Life," and all the papers have been entered in the state contest.

Hal Singleton Is Accident Victim

Hal Singleton Jr., 59, of O'Donnell, member of a pioneer Lynn county family who recently retired from business, died Sunday at 8:40 a. m. in a Lamesa hospital from injuries sustained in an irrigation well accident nearly six hours earlier.

Singleton and his son Hal III were pumping out an irrigation well on one of their farms when his clothing became caught in the power take-off at about 3:00 a. m. He was thrown to the ground and critically injured. The son rushed his father to the Lamesa hospital, where he died.

Funeral services were held at 3:00 p. m. Monday in the O'Donnell Church of Christ with Ode Prescott, minister, officiating, assisted by Arthur Golden, Lamesa minister. Burial followed in O'Donnell Cemetery.

Hal was born in Jefferson on Nov. 2, 1923, and came to the O'Donnell area in 1913 with his parents. He was married at O'Donnell on November 2, 1923 to Miss Lenda Henderson.

His grandfather, Samuel F. Singleton, had established the Singleton Ranch in the Newmoore vicinity of southwestern Lynn county in 1892. Hal Singleton Sr. brought his family out in 1913 and opened a store in the new town of O'Donnell a few years later.

Just this last January Hal closed out the business after it had been in operation 45 years, and he intended to look after his farming interests and enjoy a little leisure time. He was a member of the Rotary Club, and a loyal booster of all O'Donnell Eagle teams.

Survivors include his wife; one daughter, Mrs. C. R. Burleson, O'Donnell; one son, Hal Singleton III, O'Donnell; two sisters, Mrs. Glen Lee of Marlow, Okla., and Mrs. Charles N. Hoffman of O'Donnell; two brothers, Sam of Lamesa and Ed of Big Spring; and five grandchildren.

New Home Sells Schools Bonds

New Home School Board sold \$250,000 bonds of the authorized issue of \$275,000 Monday night to Underwood & Neuhaus of Houston, bond brokers, who bid 3.58415 percent interest rate. The bonds are scheduled to be retired in 25 years, according to Mrs. Betty Unfred, school district tax collector.

Plans for the new high school building are being drawn by DeWitt & Spencer, Lubbock architect.

The new building will occupy the old Baptist Church site, adjacent to the present schools, and will contain five standard classrooms, a language laboratory, science laboratory, typing room, library, teachers' lounge, rest rooms, storage rooms, offices for the superintendent, principal, and tax collector, and a gymnasium.

The present high school building will be converted into a junior high building, with upper two elementary grades moved to this building to provide needed room for lower grades.

New Home school is experiencing a large growth. When the present high school was erected, followed by the new elementary building and homemaking cottage, trustees thought they had provided enough room for a long time to come. But attendance has grown until the old building, erected in about 1924, has even become too crowded to meet standards.

School Principals, Coaches Elected

At Tuesday night's board meeting, school principals and coaches were re-elected. The principals are Clifton Gardner, high school; L. F. (Jake) Jacobs, North Elementary; and J. B. Howell, South Elementary.

Jacobs, who is also athletic director, presented the objectives and program of this department, and asked to be relieved from coaching boys' basketball.

Gilbert Hough was re-elected head football coach; Dave Easterday, assistant; Milt Fitts, head boys' basketball coach; and Miss Marsha Scoggin, girls' basketball coach.

All coaches in Tahoka schools also carry classroom teaching duties.

Japanese Reporter Will Write Story On T-Bar Ranch

Nesi Koma, newspaper correspondent from Tokyo, Japan, stationed in Washington, D. C., was a visitor in Tahoka Tuesday working on a story about South Plains agriculture for a string of Japanese newspapers with total circulation of 50 million subscribers.

County Agent Bill Griffin took the reporter on a quick tour of T-Bar Ranch, in company with "Sonny" Guinn, and he expects to give the ranch some space in his story, he told Griffin.

REV. CARLOS GRUBER

Baptists Continue Revival Services

A special feature in the revival meeting now in progress at the First Baptist Church will be music provided by musician-evangelist Carlos Gruber on Monday, Tuesday, and Wednesday.

Rev. Gruber was born in Riga, Latvia, and graduated from college in Sao Paulo, Brazil. He was active in jungle missions there, and was choir director and music leader in Brazilian Baptist Churches. He came to the United States in 1937, graduated from Southwestern Seminary in 1940, and was ordained to the ministry that same year. For six years he was pastor of the Latvian Baptist Church in New York City. While in New York City, Rev. Gruber was editor and publisher of a Latvian monthly.

Since 1945, he has been averaging 30 revivals a year as a musician-evangelist. He became a citizen of the US in 1948, and married Vivian Doris Mercer, who is presently head of the modern Language Department at Wayland Baptist College in Plainview.

In the local services, Rev. Gruber will provide 15 minutes of pre-service violin music, direct the singing, and lead a storytime for boys and girls.

On Friday he will leave for Japan where he will spend two months participating in the Japan Baptist New Life Movement.

Message for the Revival are being brought by the pastor, T. James Efrid, on the theme, "Bible Answers To Man's Questions."

Draw Man's Brother Drowns At Carthage

Skinner Bailey, 55, brother of J. C. Bailey Sr. of Draw and uncle of Mrs. Noel Caswell, was drowned Tuesday in the Sabine River near Carthage while he and another brother were there fishing.

Mr. and Mrs. Bailey left Thursday for Carthage.

Mrs. Caswell says her two uncles, Skinner and "Mutt," Bailey, were camped at the river. Skinner had been out fishing in a boat and when he failed to return, "Mutt" found his boat floating upside-down in the river. The river was on a rise from recent rains and it is presumed the boat overturned in swift water.

Dragging of the stream Tuesday and Wednesday failed to locate the body, and Civil Defense skindivers were scheduled to start hunting this Thursday morning.

Mr. Bailey, a bachelor, had visited here several times.

IMPROVING HOME

John G. Price is building a garage addition and remodeling his brick home on Avenue L.

Mike Warren, seven year old son of Mr. and Mrs. O. H. Warren, underwent major surgery in West Texas Hospital Thursday morning. No report on his condition had been received on Thursday afternoon.

School Bond Bid Opening Is Today

Bids from bonding firms on the \$350,000 Tahoka school building program will be opened today, Friday noon, at City Hall. Competitive bids are being made to handle the bonds. The public is invited to be present, states Clint Walker, board president.

Student Council Officers Named

Louella Tomlinson, daughter of Mr. and Mrs. G. B. Tomlinson, has been elected to serve as president of the Student Council by the student body of Tahoka High School for the school term 1963-64.

Election of officers was held Monday, March 4.

Allen Cox, president this year, was named vice president. He is the son of Mrs. Lennie Cox.

Other officers include Andra Carroll, secretary; Macky Joe McWhirter, reporter; Elwanda Tekell, treasurer; and Johnny Long, parliamentarian.

The new president has served this year as president of her Junior Class, reporter of the Student Council, a co-captain of the girls basketball team, was chosen as the girl with the best personality and was named to Who's Who.

Cox is a member of the basketball team, was named to Who's Who and was elected as the most dependable boy in the school.

The new president, vice president, reporter and secretary will attend the annual Student Council State Convention at Abilene March 21, 22, 23. They will be accompanied by Principal Clifton Gardner.

John W. Russell Rites Wednesday

John W. Russell, 79, former Lynn county resident, died Monday afternoon following a heart attack he suffered while painting at his home in Kerrville. He was dead on arrival at a Kerrville hospital.

Born Jan. 17, 1884 at San Saba, Mr. Russell was married to Miss Ettie White Dec. 13, 1905 at Mercury. They came to Tahoka in 1920 and he farmed in this vicinity until moving away in 1934. They had lived at Kerrville since 1959. He was a member of the Assembly of God Church.

Two daughters preceded him in death, Miss Mamie Ruth Russell in 1928 and Mrs. Estha Lee Pennington in 1950.

Funeral services were conducted in Kerrville on Tuesday and at White Funeral Home Chapel at 2:30 p. m. Wednesday with Rev. Way, pastor of the Tahoka Assembly of God Church, officiating. Burial was in Tahoka Cemetery.

Survivors include his wife; one daughter, Mrs. J. M. Johnson of Lubbock; one son, Sherman of Kerrville; one sister, Mrs. Ruth Bryant of Corpus Christi; one brother, Sherman of San Saba; 10 grandchildren and 12 great grandchildren.

New Ford Dealer Plans Open House

Wayne Waters, new Ford dealer here, is planning a big open house event on Saturday of next week, March 23.

Waters recently bought the business from Fred Shipley, owner of the dealership for the past several years.

Plans for the open house include some special entertainment features which will be announced in The News next week.

Lynn county farmers will receive a welcomed 9,322-acre "bonus" in cotton acreage for 1963 under the acreage release reapportionment program, according to figures of the state Agricultural Stabilization and Conservation office in College Station.

Lynn County ASCS committee-men will meet today to try to arrive at some fair method of apportioning the extra acreage for 1963, Donald Saverance, office manager, told The News.

Base cotton acreage for Lynn county for this year is 184,663, the lowest in history of the government control program, a cut of approximately 10.4 percent from 1962 acreage of 198,078.

The 9,322 increase will give this county a total of 193,985 acres of cotton.

Lynn received the largest acreage increase on the Plains, except for Gaines county's increase of 9,888 acres. Garza county received extra allotment bonus of 810 acres to add to its present 39,017 for this year.

The Plains area received a total 91,684 "bonus" acres and brings the area's allowable to 2,202,553 acres, still 194,293 shy of last year's allotment, according to the Lubbock Avalanche-Journal.

Reason the "bonus" is possible is the 1960 law which permits farmers to release cotton acreage they do not wish to plant and still retain their cotton "history" for possible planting next year.

Each year, many farmers "down state" do not wish to plant their allotted cotton acreage, and this is the reason the surplus acreage allotted to Texas can be transferred to the Plains, where farmers are desperately crying for more acreage.

Most county farmers earlier this year made application to the local ASCS office for such possible extra acreage. Farmers in some counties in this area failed to apply for this extra acreage; and for this reason, and for other reasons, certain counties did not receive so large a percentage of the released acres.

These other reasons include "new land", low allotments in some counties. The counties with high allotments, little new land, and few applications fare the worst in the distribution of released acres.

Division of Texas into two districts this last year instead of the previous five districts caused more cotton to be allotted to the Plains this year than last.

Farmers who made application for additional acres will receive notices soon from the local ASCS office as to their proportionate share.

Renfro Brothers Father Is Buried

W. N. Renfro, 83, of Malakoff, father of three Tahoka men, died Monday at 7:10 p. m. in a Terrell hospital. A retired farmer and stockman, he had lived in Henderson county 25 years.

He was the father of Herman and Olen Renfro of Tahoka and David Renfro of Brownfield, who with their families attended funeral services in the First Baptist Church of Malakoff Wednesday at 2:00 p. m. Burial was in Payne Springs Cemetery.

Mr. Renfro is survived by his wife, the three sons mentioned above, one other son, Vernon of Garland; two daughters, Mrs. Martha Easterly of Terrell and Mrs. Mamie Hansard of Malakoff; one sister, 15 grandchildren and 15 great grandchildren.

W. A. Reddell was released last Saturday from Tahoka Hospital, where he was a medical patient.

Albert Curry was an overnight medical patient in Tahoka Hospital Friday.

S. S. Class Making Cancer Dressings

The Bessie Brashear Sunday School Class of the First Methodist Church which meets socially every first Tuesday has made and delivered 200 cancer dressings and pads to the Cancer Society in Lubbock.

Anyone needing such dressings or pads may get them with their doctor's permission.

Mrs. Annie Evans is teacher of the class and Mrs. Kate Poer is president.

Mrs. Bess Reid has been in Fort Worth for about two weeks after being called there by the illness of her grand daughter.

Father-Daughter Banquet Is Held By New Home Girls

Approximately 155 girls and their fathers attended the annual Girl Scout Neighborhood Father Daughter banquet at New Home on Friday night, March 1, in the school cafeteria. The meal was served by mothers of the girls.

Theme of the banquet was "Mexico," because of the preparation Troop 43 of New Home is making for the trip to the Girl Scout Cabana in Cuernavaca, Mexico, in 1964.

Special guests at the banquet included Mrs. Irene Beck, executive director of Caprock Girl Scout Council, and Mrs. Mattie Flowers, district advisor of District 9, both of Lubbock.

Mrs. Clifton Clem, president of the sponsoring agent, the Parent Teachers Association, was mistress of ceremonies.

Troop leaders presented badges to the girls, following which each troop provided entertainment.

The Curved Bar, highest award a girl may receive prior to entering Senior Scouting, was presented to Yvonne Nettles, Sidney Sealy, Yvonna Moore, Nancy Unfred, and Rhonda Gill.

New Home Baptist Banquet Is Held

New Home Baptist Brotherhood held its annual banquet Monday night in New Home Baptist Church, attended by 28 people.

Dr. Henry Eason, professor of speech and dramatics at Wayland College, Plover, presented a very interesting talk on his trip through Europe, illustrated by color slides.

Girl Scout News

A fly-up ceremony was held for Brownie Troop No. 399 last week in Fellowship Hall of the First Methodist Church, and the troop will now be known as Girl Scout Troop 399. Mrs. Mary Roe is leader.

A flag ceremony was held as well as a candle lighting service. Refreshments were served to parents and friends attending.

On Tuesday the troop hiked to a pasture northeast of town, where they held a picnic lunch. The troop is composed of fourth grade girls.

Tahoka, O'Donnell Methodists In Joint Meeting Sunday

Members of the O'Donnell Methodist Church were guests of the Tahoka Methodist Church here Sunday night when about 245 persons attended the services.

The O'Donnell Church was recently host to the Tahokans for a dinner there.

Rev. Aubrey White, pastor, delivered the message and a program of children's songs presented as well as a duet by Mrs. E. W. Patterson and John Wells. Maria Bray served as pianist and Sharon Patterson as organist. The young people of O'Donnell and Tahoka filled the choir.

An offering taken at the service was divided evenly between the two churches to be used for special missions. The Tahoka church will use its portion toward a Latin American minister scholarship.

Following the service the W.E.C.S. served refreshments in Fellowship Hall.

TOMLINSON VISITORS

Mr. and Mrs. Grover Tomlinson had all of their children home on Sunday. They are Mr. and Mrs. A. J. Jester and family of Floydada, Mr. and Mrs. Billy Tomlinson and children from Beville, Mr. and Mrs. Jimmy Bragg and family and Mr. and Mrs. Gaylon Tekell and baby of Tahoka.

Farm Facts

Pesticides are tested many times before use.

In all, there are some 30 separate steps in research to bring a pesticide chemical to market. As many as 8,000 compounds may be screened before a single promising one is found.
 Up to six years and 100,000 man-hours of research and testing may go into making sure everything possible is known about the chemical.
 The chemical is tested in the greenhouse, in the laboratory, and in test fields. Small quantities then are sent to field stations. Once through these tests, the material will be taken to state agricultural stations and the U. S. Department of Agriculture for extensive testing under field conditions.
 All the while it is being tested for possible hazards. Laboratory animals are used to find out effects, if any, when the material is swallowed, if it touches the skin, or if it is inhaled.
 Before the pesticide may be offered for sale it must be submitted to USDA scientists for review. If it is to be used on food crops, and there is any evidence it will leave any residue, it must be reviewed by the Food and Drug Administration.

Old-Fashioned Box Supper Will Be Held At Legion Meeting

An old fashioned box supper is being planned for Monday night, March 25, for the Marion G. Bradley American Legion Post's annual ladies' night at the City-Legion building.
 A Legion member writes: "The Mueller and Linda, where they spent the day and had lunch. Mrs. Hoover and daughter, Nina Bell Chapman, visited Mrs. W. M. Davis Sunday morning. Mrs. Davis is not doing too well."
 Ladies will prepare a decorated lunch box containing a surprise feast such as left-overs the husband wouldn't eat, a cold piece of fried chicken, or if they care to, go in for real class with a good sandwich. These boxes will be decorated, all in fun, or rather corny. Each will be sold at auction, buyer not knowing whose wife's cooking he will be eating until it's too late—or, is this worded wrong?"
 Leonard Crawford is the Post commander, Jess Gurley is chairman in charge of the event, and auctioneers will be "Red" Brown and "Slick" Clem.

Tahoka AAUW met Monday, March 4, in New Home Elementary School with Mrs. M. L. Green, president, in charge and eight members present.

Membership chairman, Mrs. Margaret Renfro, reported two new members making a total of 17 members.

Officers were elected for the coming year including Mrs. Green, president; Mrs. Geraldine Nichols, vice president; Mrs. Joe Lewis, secretary; Mrs. Dock Dewbre, treasurer. Committee chairmen appointed were Mrs. Margaret Renfro, membership; Mrs. Nichols, program; Mrs. Loyd McCormick Jr., arts; Mrs. C. H. Nelson, elementary and secondary education; Mrs. Jimmie Nelson, higher education; Paula Morgan, international relations; Mrs. E. L. Blankenship, mass media; Mrs. W. M. Mathis, social and economic issues; Mrs. Otis Spears, status of women; Mrs. Dewbre, fellowship; Mrs. Granvel Ayer, legislative; and Mrs. Warren Smith, publicity.

The program was presented by the members. Mrs. Blankenship gave the history of the organization on the standards in the branch, state and association levels. Paula Morgan presented pointers concerning the principles and values of participation in the AAUW. Mrs. Green gave information concerning the branch members and the purposes of the AAUW.

The next meeting will be held April 1 at 8:00 p. m. in the South Elementary School in Tahoka with Mrs. Charles Verner as the speaker.

An additional hazard exists with station wagons or carry-alls when the rear window or door must be kept open when carrying long objects. In situations of this kind, the fumes are drawn in from the tail pipe when the vehicle is standing. To combat this, a front window or a vent should be opened.

TEXAS FUTURE FARMER PROJECTS BIG BUSINESS

Future Farmers of Texas make a big business out of their laboratory experiences in vocational agriculture. Last year 38,000 FFA members in Texas cleared over four million dollars from 102,000 head of livestock, 51,000 acres of crops, and nearly a million head of poultry.

In the classrooms of over 900 high schools in Texas, students study scientific agricultural practices as a part of their regular high school curriculum. When the school year is over, all is not finished for the vocational agriculture student, because he is responsible for his supervised farming program which is supervised by his vocational agriculture teacher. With money he earns from his project, using improved practices he has studied in class, the student launches into the very competitive field of agricultural production where he must use every managerial skill at his command to show a profit.

English Students Planning Exhibit

The public is invited to see an English literature projects exhibit Friday and Saturday at the display room of Southwestern Public Service Company, according to High School Principal Clifton Gardner.

The projects on display will be those concerning literature classes and provided by students in the local high school. The exhibit opened Thursday and will continue through the week end.

Cub Scouts Selling Tickets For Circus

Cub Scout Pack 782 will participate in the 1963 Circus, "The Magic World of Scouting," to be held March 29-30 in the Lubbock Municipal Coliseum at 7:30 p. m.

A prologue, followed by fast moving acts make up the show. Massed in a great show of strength, thousands of Cub Scouts, Boy Scouts and Explorers will portray Scouting in action.

The Cub Scouts are selling tickets at 50 cents each, of which the Pack will receive a commission. Also the Cub Scouts receive a patch for their uniforms or other prizes for selling tickets. Those who have bought tickets may call a Cub Scout.

This arrogant disregard for the public safety and convenience must be eliminated, and will be. It were better if done by the labor unions themselves."

ART EXHIBIT WILL BE HELD IN LUBBOCK

The Southwest Lubbock Rotary Club announced today that they are sponsoring the fifth annual Art Exhibit and Sale in cooperation with Dr. Carlton Palmer of Atlanta, Ga.

Dr. Palmer is bringing more than 100 fine original oil paintings for this show, including approximately 20 by Robert Wood, outstanding painter of Western landscapes. Many other well known Artists will be represented. The exhibit will be held from March 17 through March 31, open daily from 10:00 a. m. until 10:00 p. m., 2:00 p. m. until 6:00 p. m. Sundays at 3207-34th street in Lubbock.

Through previous exhibits the Rotary Club has acquired 12 fine paintings that are made available to schools and libraries for exhibit. This is the only Rotary Club known to have an art collection. The collection will be shown at a Rotary District conference in Shamrock, Texas the first week in April.

The general public and particularly Artists and Art students are invited to see this display of fine paintings. There is no admission charge.

Darwin Dykes, Tahoka Student, Has Second Place Essay on Conservation

Darwin Dykes, student in Tahoka High School and son of Mr. and Mrs. Jimmy Dykes, wrote the second place essay in the county-wide contest on "Conservation, A Way of Life," sponsored by Lynn County Soil Conservation District.

Following is his essay:

"In the Beginning God created the Heavens and the earth. And God said, Let the earth put forth vegetation, plants yielding seed, fruit trees bearing fruit in which is their seed, each according to its kind, upon the earth. And it was so. So God created man, in the image of God created He him; male and female created He them. God blessed them, and God said to them, Be fruitful and multiply, and replenish the earth, and subdue it." Genesis 1, 11, 27, 28.

The meaning is clear. God has given us the opportunity, the privilege of using His good earth, and the fruit of the earth to feed and clothe humanity. Man has obeyed the command to be fruit-

ful and multiply, but we also have the command to replenish the earth.

The ever-increasing population and the diminishing resources make necessary for the survival of man to carry out God's command, to replenish the earth. Soil is the basis of farm prosperity, and the real profits of the farmer lie in higher productivity per acre rather than in more land. Only after this production and efficiency are achieved is it time to look for more land. More land poorly farmed means larger losses. Limited acreage farmed well and productively means a better living with less hard work for the farmer.

No nation has ever remained strong after its natural resources has been depleted, particularly its soil.

Let's make conservation our way of life. God has commanded us to replenish the earth! It is absolutely necessary for the survival of man, and for a strong nation! Let's make conservation part of the American way of life and keep America strong!

Local People At State Tournament

A group of Tahoka basketball boys, coaches and fans attended the state basketball tournament held in Austin last week end.

Attending were team members Andy Bray, Craig Leslie, Billy Clinton, Eddie Howard and Larry Price, as well as Coaches Mill Fitts, Dave Easterday, Jake Jacobs and family. They were accompanied by Mr. and Mrs. Meldon Leslie, Mr. and Mrs. Eldon Gattis, Janis and Andra Carroll.

The group said that they were treated royally by B. L. Parker and Ronnie Gurley, both former Tahokans who now live in Austin, who went to considerable time and trouble finding places for the Tahoka people to stay, and in seeing that the Tahoka people enjoyed the week end.

A. L. Shepherd entered Methodist Hospital Tuesday for surgery.

Brownfield Man Rotary Speaker

In spite of the precarious situation in which the United States finds itself today in a troubled world, we still have the greatest land on the face of the globe and must remain alert to keep it this way, was the theme of a talk at Tahoka Rotary Club last Thursday noon by John Hansard of Brownfield, district sales manager for Phillips Petroleum Company.

Using the subject, "An American in America," the speaker presented a sensible summation of the world situation, the questionable trend of our government, and the admonition we should return to the principles set forth by the founding fathers in the Declaration of Independence and other such documents.

He pointed out the fact that we backed the overthrow of a dictator, Batista, in favor of a Communist, Castro; hinted our leaders may have made a trade with Soviet Russia to remove weapons from Turkey to get removal of some weapons from Cuba; how our foreign aid is being used to buy Cadillacs and homes for the rich while the poor still suffer in subjugation; the rise of Communism in all countries in the Western hemisphere to the south of us; how we have policies that have aroused the enmity of most of the rest of the world, including even France and Canada.

He declared the European Common Market is a threat to our standing as a world power, the present members of which, France, Belgium, Netherlands, West Germany, Italy and others, now have free trade as a unit in most areas and combined have more gold reserves than the U. S., more resources, is a threat to our foreign trade and general economy.

However, in the field of education, he quoted figures to show that our educational standards among the masses, contrary to claims, are higher than in these countries. Although the number of students receiving a grade school education in European countries is higher than that of the U. S., 94 percent of the U. S. students get college degrees compared to nine percent in Britain and Sweden and only three percent in Switzerland.

Mr. Hansard said we should take a new look at Lincoln's Gettysburg Address and repeated the speech. He also said we should take a new look at the Declaration of Independence framed principally by Thomas Jefferson and quoted from this document, America became great under these declared principles of government, and we can remain great by adhering to them.

The speaker was introduced by H. B. McCord Jr., in charge of the program.

Vice President Skiles Thomas, who presided, announced new club officers would be announced this week. Wynne Collier, Maurice Bray and Clint Walker were named to a committee to nominate incoming directors.

Outgoing directors are Thomas, E. L. Short, and Dale Thuren. Holdover directors are Don Browning, Alton Cain, and Calloway Huffaker.

Three new club members were officially introduced by Wynne Collier. They are Wayne Waters, Dayton Parker, and Clifton Clark.

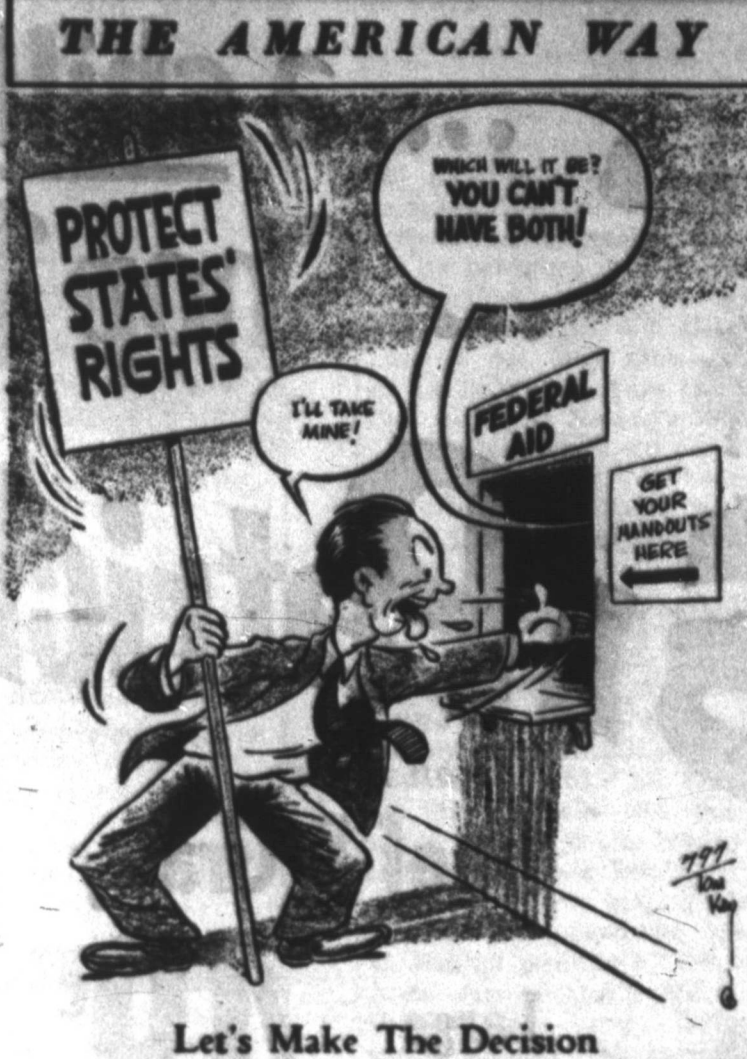

New Cotton Fabric Is Displayed Here By Wilmer Smith

Some of the newest developments in cotton materials were shown The News Wednesday by Wilmer Smith of New Home, developments from the Southern Utilization Research Laboratories of the Department of Agriculture in New Orleans, La.

He had samples of a cotton yarn with 200 percent stretch, a new development in a resin treated back-twist, from which it will become possible to make a fabric with 60 percent stretch, and he had a sample also of such material. Chief advantage of the new cotton development is the goal to develop a warm cotton fabric for winter wear and thereby increase the usage of cotton.

Wilmer also had samples of slack mercerized cotton materials, developed last year, which has five to 10 percent stretch characteristics. This material is an advancement in that men's shirts and ladies dresses can be made with this stretch feature which will be more comfortable and wear longer. The material is also suitable for contour sheets.

Mr. Smith thinks several technical breakthroughs from the research laboratories are going to help in the future in more uses for cotton.

Let's Make The Decision

Local Salesman Will Get Award

Robert L. May of Wayne Waters Ford Sales, Tahoka, will be presented Ford Motor Company's 300-500 Club award at a banquet at the Statler Hilton Hotel in Dallas on March 15 honoring high-ranking Ford dealership car and truck salesmen of 1962 in the Dallas District.

J. W. Mendel, district sales manager, said 300-500 Club membership awards are presented for excellent retail sales performance. The Ford 300-500 Club was founded in 1960 to recognize the performance of outstanding Ford salesmen throughout the country. Mr. Mendel added that the average 300-500 Club member sold nearly \$400,000 worth of automotive merchandise in qualifying for the national honors.

Baylor University Honors John Hegi

John Hegi, son of Mr. and Mrs. Pete Hegi, is among five members of the 1963 senior class of Baylor University nominated for Most Representative senior man.

Others on the list are Ronnie Goodwin, Judd Holt, Jim Leavell and Mark Murdoch. John is a graduate of Tahoka High School, where he lettered in athletics and was a leader in school activities.

Hikers Threat To Highway Traffic

The Highway Patrol investigated three rural accidents in Lynn county during the month of February according to Sergeant A. E. Roberts, Patrol Supervisor of this area.

These wrecks accounted for one person killed, three persons injured and an estimated property damage of \$4,600.00.

The rural traffic accident summary for Lynn county for the two months of 1963 showed a total of eight crashes resulting in two persons killed, six persons injured and an estimated property damage of \$8,445.00.

The Patrol Supervisor reported that a new hazard has been added to the traffic picture. You may not realize it but the current hiking fad has added an element of danger to driving. The Sergeant added that everyone who decides to make one of these fifty-mile hikes, or a twenty-five mile hike should be aware of the traffic dangers that are involved and also that all Texas drivers should be alerted to the fact that these pedestrians may cause a certain amount of danger. Hiking today is a great deal different than it was twenty years ago. With Spring just around the corner more pedestrians will be seen on our streets and highways and it is important that all drivers recognize this hazard and be prepared to take evasive action if necessary.

"Our records reveal that approximately ten percent of all rural fatal motor vehicle accidents involved pedestrians the last few years and this figure was somewhat higher in our cities, which points out the necessity for safe driving," the Sergeant stated.

KILL RATS... use Purina Rat-Kill

Purina Rat-Kill is an entirely different kind of killer for rats and mice. It's a "carry-home" bait. Rats haul it back to the nest... distribute it themselves... feed Rat-Kill to the whole family till they're dead.

Rat-Kill has these extra advantages:

- Highly palatable and bulky
- Kills fast, in 5 to 15 days
- Low priced

Daytona is no "private" test arranged by a manufacturer to favor his car's strong points. It is open competition—anyone can enter—and the one thing that is proved by its searing 300 miles is just exactly how well a car hangs together. At Daytona, Florida, on February 24, five brand-new 1963½ Fords showed the world what durability means by sweeping the first five places. And that has never been equaled in Daytona history!

The box score at the left tells the true story...car endurance that takes brutal punishment and comes back for more. No proving ground can equal this kind of torture. Daytona was a challenge we welcomed, a chance to prove in open competition the essential durability that makes possible the silence, the solid road-grip, the ease of control, the balanced braking...and all the other things that go into Ford's concept of total performance.

These were the same '63½ Super Torque Fords that made styling history at their preview at Monaco, and which were recently announced at your Ford Dealer's. They're yours now; get behind the wheel and find out for yourself what total performance means!

Bray Observes 15th Year In Business At Tahoka

At the same time Lynn County is observing its 80th anniversary, Bray Chevrolet Co. is celebrating its 15th year in Tahoka, having been established March 15, 1948. This is when A. M. Bray came here as the new Chevrolet dealer in Tahoka, and temporarily had headquarters in the building now owned by John Witt Butane. Less than two years later, the firm moved to the present location, which has sufficient space for the firm's operations.

Bray has enjoyed a fine business and built up an organization of employees in which he takes pride. Since coming here, the Brays have been identified with just about every type of civic undertaking, and have found time from their business to promote the interests of the town and county.

Mr. Bray has served as president of the local school board, president of the Rotary Club, director of the Chamber of Commerce, in numerous positions in his church, the First Methodist, Masonic Lodge and Shriners. He has been a leader in Boy Scout work, and is a director of South Plains Area Council. He is chairman of the board of Tahoka Housing Authority, which operates low-rent housing projects.

His wife, LeNey, has also been active in church and civic work, a leader in MYF and other young people's work, a member of the Salvation Army committee, and as a hobby frequently gives book reviews.

Their children, David, Andy, and Maria, are likewise leaders in school and church activities, have high scholarship records, and participate in athletics. The eldest, David, a senior in Southern Methodist University, where he is president of the Student Senate, was recently named one of the coveted Rotary Foundation Fellows for a year of post graduate study in England.

Further Instructions Are Given On Direct Distance Dialing Procedure

(Ed. Note—This is the second article in a three-part series on Direct Distance Dialing.)

When Direct Distance Dialing (DDD) is inaugurated here in April, telephone subscribers will not only be able to dial some million telephones across the nation, they can dial the information operator in many distant cities as well.

So if you wish to call a friend in Washington, D. C., and do not know the number, you may obtain it by dialing a special number, which will connect you with the Washington information operator. (A list of cities where you can dial the information operator will

be included in a special DDD booklet which you will receive prior to April 7.)

According to W. A. King, district manager for General Telephone Company of the Southwest, such a call is made in the same manner as a long distance call, except there are no charges on calls to information operators in distant cities.

It works like this: You want to call the information operator in Washington, D. C.

1. Dial the access code, 112.
2. Dial the area code of the place you are calling, which in this case is 202.
3. Then dial 555-1212, the special information number.

At this point you will hear a "zip-zip" tone, indicating that an operator has come in on the line. After you give her the number from which you are calling, the distant information operator's number will begin ringing within five to ten seconds.

King explained that while a ticket will be made on the call (since there is no way of initially distinguishing whether the call is an information call or a regular call) the telephone subscriber will not be billed for it.

When it is not possible to dial the information operator in a distant city, dial the long distance operator ("O") and ask for information in the place you wish to call. For example "Dallas, Texas, information please."

WASHINGTON AND
"SMALL BUSINESS"
BY C. WILSON HARDER

Despite all the furor emanating officially on the action of France's Charles DeGaulle in keeping England out of the European Common Market, this publicized anger is in no way unanimous.

While it is quite a wry sense, there is a quiet admiration held by many that the French leader only did the inevitable.

His claim that Britain entry in the Common Market would bring the United States into the management of Europe was largely based on the well known fact that for several years it has been U.S. Dept. policy to egg Britain into seeking membership, looking toward the eventual setting up of some supra-national government to be called the North Atlantic Community, or some similar name.

This Gaullist action of DeGaulle's, preceded by his prior treaty with West Germany, was a manifestation, long known to many but largely ignored, that proud nationalism does not want to accept domination by the U. S. State Dept., or anybody else.

It makes little difference that the U.S. taxpayers have been bled of billions of dollars to throw around in France as well as in West Germany.

Now they are on their feet, have a more thriving economy, from the standpoint of expansion, than the American even.

Years ago European political cartoonists often depicted Uncle Sam as a rather tumbling country bumpkin. It appears that in the area of world politics and economics, they had something there.

Naturally, no one likes being out-manuevered. DeGaulle would not win a popularity poll in the United States, but the real deep bitterness is against the self-anointed American Messiahs who laid the groundwork with billions of tax dollars for the American people to be so badly taken.

Years ago European political cartoonists often depicted Uncle Sam as a rather tumbling country bumpkin. It appears that in the area of world politics and economics, they had something there.

Blakney Named For SCS Award

E. R. Blakney, New Home farmer and chairman of the board of supervisors of Lynn County Soil Conservation District, who received the award at the recent Farmer-Businessman banquet at the "conservation farmer of the year," not only promotes conservation but practices it himself.

Mack Mauldin of the Soil Conservation Service says he carries out all conservation practices which are practical on his own land and on land he farms for others.

His program includes construction of leveled border on about 100 acres of land, 60 acres seed to grass and 30 more being planted this year, diversion terraces and waterway to control excess water, standard terraces on all sloping land, a rotation system to assure maintenance of proper soil organic materials, use of cover crops, cotton burrs, and fertilizers.

Blakney last year traveled over two thousand miles at his own expense and on his own time to help promote conservation and to bring back information that could be of use in Lynn county.

Auto Inspection Deadline Nears

Many motorists in Texas are going to be faced with long lines and waiting periods in order to have their cars inspected prior to the April 15 deadline. Only 39 per cent of the 586,270 registered vehicles in Region 5 of the Texas Department of Public Safety have visited safety inspection stations and obtained their 1963 safety inspection sticker, according to Captain Alan Johnson, Motor Vehicle Inspection Service of the DPS.

"All registered vehicles in Texas must be inspected by April 15 and have a 1963 inspection sticker on the windshield," Captain Johnson said. He stated that there would be no extension of the April 15 deadline and advised motorists who have not had their cars inspected to do so now, before the long lines start forming.

"In the past, many people wait until the last few days of the inspection period to have their vehicles inspected and have had to wait for a long period of time at the inspection station," Captain Johnson stated.

According to the records of the Motor Vehicle Inspection Service of the DPS there are 7,678 vehicles registered in Lynn County and only 2,228 or 29 per cent of the vehicles have been inspected to date. Due to this low number the Captain suggested that all motorists check their vehicle and see if they have a current 1963 inspection sticker on the windshield and if not to have their vehicle inspected today in order to avoid the last minute rush.

HARRISON IN HOSPITAL

Homer Harrison, Lubbock policeman and former Tahoka resident, recently underwent throat surgery in M. D. Anderson Hospital in Houston. Although his larynx was removed, he is reported to be recovering nicely and will learn to talk again before returning home.

Mrs. E. B. Mathis, 80, of Grassland is improving in Tahoka Hospital, where she is a medical patient.

Pioneer Teacher In County Dies

The lady credited as being the first Lynn county school teacher, Mrs. Jessie Randal, 88, died in Brownfield Monday.

She came to Lynn county in 1900 or 1901 to the New Lynn area, where a few settlers had moved and wanted a teacher for their children. The only post office in the county at the time was at Lynn, Tahoka not being established until 1903, when the town and county were organized.

She moved to Terry county the next year and has lived there ever since, being one of the first teachers in Terry county, became in 1906 one of the first registered women pharmacists in Texas, later served as county treasurer, and Jessie G. Randal Elementary School in Brownfield is named in her honor.

She is survived by one daughter, Mrs. Percy Spencer, and three other generations of descendants, three grandchildren, two great, and six great-grandchildren.

C. B. Keltner, 88, who has been a medical patient in Tahoka Hospital for over a week, is slowly improving.

Mrs. Mary Stuart was admitted to Tahoka Hospital Wednesday as a medical patient.

Mahon Reports On Work Of Congress

Washington, D. C. — Representative George Mahon reports that there has been little legislative progress in Congress to date. This results from the fact that all major legislation is still under study by appropriate Committees of Congress and will not be voted on for weeks.

Mahon made the following statement to the press in regard to a variety of issues:

"I find little enthusiasm for a tax cut. Most members feel as I do that it is illogical to cut taxes without a marked reduction in spending. As yet there is no guarantee that spending will be sharply cut and the fate of the tax bill will remain unpredictable for some time.

"The House by a resounding vote of 385 to 20 has approved funds for the continuation of the work of the House Committee on Un-American Activities.

"One of the chief subjects of inquiry in Committee hearings is the Cuban situation. I personally have listened to several days of testimony on the subject by such witnesses as Robert McNamara, Secretary of Defense; John McCone, Director of the Central Intelligence Agency; Secretaries of the three services; and members of the Joint Chiefs of Staff, who have appeared before the sub-committee on Defense Appropriations, of which I am Chairman.

"Officials insist that they believe the Soviets have removed all ballistic missiles from Cuba. However, the thing that disturbs me is not so much the number of Soviet personnel and weapons in Cuba as the fact that the communists have a base in our hemisphere and near our shores.

"The President, under our Constitution, is our spokesman in foreign affairs and the Commander-in-Chief of our armed forces. I was present at the White House some time ago when the President made a report on the Cuban situation to 17 members of Congress.

"I have told the President that it was my opinion that the base must be eliminated as soon as reasonably possible. Most Members of Congress feel as I do, that

JUST LIKE OLD MAN RIVER

If you want a truck that does its work without yelling for attention all the time, buy a "new reliable" Chevrolet.

You have to take care of it; it's a machine. But this isn't a full-time activity. The clear idea is that the truck works for you, not vice versa.

The way to build such a truck is to put more quality into it. For example, Chevrolet doesn't build one type of suspension system for all sizes of trucks. Chevrolet designs suspension systems to fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense? Conventional pickups have double-wall construction in cabs, doors, lower side panels. Roofs are insulated. Body floors are select wood, not metal. Tailgate chains are wrapped in rubber. If you'd like to examine or drive a new '63 Chevrolet truck, just call us. We'll be right over.

The Printer. Along with other newsmen of the area, Monday night inspected General Tel's new area plant in Brownfield and received a briefing on DDD (direct distance dialing) and micro-wave—the very latest in telephone communications. We learned Tahoka and Wilson, along with Brownfield, Seagraves, and Denver City will on April 7 be among the first towns in the southwest having this newest service.

We learned Tahoka's automatic unattended plant is the very latest. After April 7, all calls going out of here will be by micro-wave, or through the air similar to radio and television instead of being over wires. For this reason, there should be no over-loaded circuits. The micro-wave tower now under construction here will be approximately 300 feet high. Subscribers in Tahoka and Wilson will be able to place their own station-to-station calls to almost any town in the nation. With use of micro-wave there should be fewer interruptions of service because of water seeping into cable, interference from windstorms, hail, rain, ice, and from shooting lines in two by hunters. The day of automation has reached the telephone business, and complicated equipment is taking the place of the telephone operator.

However, people living on Poka-Lambo lines will not be able to use DDD, although they will receive incoming calls from DDD exchanges.

current candidates for school trustee, but in regard to school matters we have too many people who make mountains out of molehills, who can not see the forest for the trees. We have people who have selfish or petty interests and not the welfare of our schools at heart. Do not forget this, folks: We have 1,200 children to educate; this is the sole objective. Overall, Tahoka has a fine school system, fine teachers, and finances are in good shape. Five good men have offered their services for two places on the school board. All are our friends. We trust and hope each has the best interests of the children and the welfare of the school system as his supreme motive for being a candidate.

J. L. Cox of Lubbock sent us this clipping from some newspaper in regard to "gossip": "If you're not willing to put it down on paper and sign it, don't say it."

The first real sandy of the year New in Sunday. There probably are more to come, but March 10 is a late date.

Mrs. W. A. Yates, 93, is one of The News' most loyal subscribers. She's been reading The News since 1907. Each week she can hardly wait until the old home paper is off the press. She had her son-in-law, John Pulford, down last Thursday waiting around to get the first paper off the press.

These senior citizen pioneers are a hardy lot. The Grim Reaper has a hard time getting such people as Mrs. E. B. Mathis, 90; C. T. Tankersley, 83; C. B. Keltner, 89; Mr. and Mrs. Dave Davis, 88 and 85; Mr. and Mrs. H. R. Minor, in the 80's, and others among our citizens. We often have marveled at the stamina of such people.

In regard to the drive to take God and the Bible out of our daily lives, The Claude News tells this "sad joke": A teacher stepped into her room and saw a group of boys huddled together on the floor at the back of the room. "What in the world are you guys doing?" the teacher asked. "It's okay, teach," one of the boys answered. "We're just shooting craps." And the relieved teacher remarked, "Oh! you scared the life out of me. For a moment I thought you were praying."

The John Curry who starred on the Seminole Indians' drive to the AAA basketball finals in Austin last week end is the son of John and Rosalie (Thompson) Curry, formerly of Tahoka and nephew of Rogers Curry of The News and Borden Davis' wife, Minnie, and of Mrs. C. W. Roberts. John Sr. is in the insurance business at Seminole and Rosalie has a florist shop there.

So, we're gonna get some more state laws, whether we like it or not. Governor John Connally, when running for office, said he didn't think we'd need any new laws. Now, he wants to increase the budget. Like the boys in Washington, the boys in Austin know just one way to solve problems—more taxes.

Our recent column about race relations was reprinted by the Amarillo Daily News. We've also been sent clippings of quotes from this column from The Industrial News, Canyon News, Lockney News, Pecos Independent, Slaton Beacon, and others.

We missed some good livestock show pictures last week because our old stand-by Photographer C. Edmund Finney, and wife were out in California for a little breaker. But, C. Edmund says they were glad to get "home" before he got run over in the heavy, fast traffic in Los Angeles. Traffic is even heavier than it used to be or C. Edmund had just forgotten how little people out there cared whether they run over you or not.

If you remember the wooden church, the oaken (or cedar) bucket that hung in the well, the walking plow, the coal oil lamp, the wood cook stove, the iron washing pot, and the rub board, smoke house, sulphur and molasses, the phonograph, stove corsets and celluloid collars, the one-room country school, brush arbor meetings, the Blue-Back Speller and McGuffey's readers — brother, you're not as young as you used to be.

The Claude News says: Did you ever hear of the American Creed? Guess not, since we have been living in a "one world atmosphere" the past 20 years, but there is one, and it goes:

"I believe in the United States of America as a government of the people, by the people, for the people, whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

"I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag; and to defend it against all enemies."

Here's another tale we got a kick out of—right here at income tax paying time—sent us by Harold and Kathryn Edwards of Houston:

"Dear Sirs—In reply to your request to send a check, I wish to inform you that the present condition of my bank account makes

it almost impossible. My shattered financial condition is due to federal laws, state laws, county laws, city laws, corporation laws, liquor laws, mother-in-laws, sister-in-laws, brother-in-laws, outlaws, and by-laws . . .

"My business is so governed that it is no easy matter for me to find out who owns it. I am inspected, expected, suspected, rejected, disrespected, dejected, examined, re-examined, informed, misinformed, required, summoned, fined, commanded, corrected, and compelled until I provide an inexhaustible supply of money for every known needs of the human race . . .

"I can tell you honestly that, except for the miracle that happened, I could not enclose this

check. The wolf that comes to so many doors nowadays just had pups in my kitchen. I sold them to a circus, and here is the money."

CARD OF THANKS

We wish to thank our many friends for your visits, flowers and cards while I was confined to the hospital. May God richly bless each and everyone.—Mr. and Mrs. R. R. Luttrell. 119.

Mr. and Mrs. Wright designed their home for just two people since their children are grown and married. The home, about 1000 square feet, is completely electric — has all conveniences. Mr. Wright has been a member of the Wool-wire Stores for over 22 years.

PUBLIC SERVICE COMPANY

YOUR PUBLIC SERVICE MANAGER HAS FULL INFORMATION ABOUT ELECTRIC HEATING

"Warm floors with even temperature all over the house — that's our ELECTRIC HEATING!" say the H. M. Wrights,

110 NORTH OKLAHOMA • GUYMON, OKLAHOMA

The H. M. Wrights noticed immediately how the floors in their electrically-heated home are warm — and how the same, even temperature prevails all over the house. Mr. Wright especially likes this because it lets him get right down to grandson Brooks' level, — right on the floor where babies traditionally like to

play. And, Mr. Wright has the assurance that the warm floor will help baby Brooks stay happy and healthy. You, too, can have the benefit of modern electric heating whether you're planning a new home or remodeling your existing home. There is a type of electric heating that will fit your planning.

The family enjoys looking at Mr. Wright's color slides. Here Mrs. Wright is joined by daughter, Phyllis and her husband, Ralph O'Brien. Mr. Wright has an amazing collection of slides — has received mentions at photo club gatherings.

Hobbies are part of the Wright family's living. Daughter Phyllis displays part of doll collection while Mrs. Wright thinks back to when Phyllis was a teenager.
